Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. Forward-looking statements include statements preceded by, followed by or that include the words “may,” “could,” “would,” “should,” “believe,” “expect,” “anticipate,” “plan,” “estimate,” “target,” “project,” “intend” and similar expressions. Such forward-looking statements include, but are not limited to, current views and estimates of our outlook for fiscal 2017, other future economic circumstances, industry conditions in domestic and international markets, our performance and financial results (e.g., debt levels, return on invested capital, value-added product growth, capital expenditures, tax rates, access to foreign markets and dividend policy). These forward-looking statements are subject to a number of factors and uncertainties that could cause our actual results and experiences to differ materially from anticipated results and expectations expressed in such forward-looking statements. We wish to caution readers not to place undue reliance on any forward-looking statements, which speak only as of the date made. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Among the factors that may cause actual results and experiences to differ from anticipated results and expectations expressed in such forward-looking statements are the following: (i) the effect of, or changes in, general economic conditions; (ii) fluctuations in the cost and availability of inputs and raw materials, such as live cattle, live swine, feed grains (including corn and soybean meal) and energy; (iii) market conditions for finished products, including competition from other global and domestic food processors, supply and pricing of competing products and alternative proteins and demand for alternative proteins; (iv) successful rationalization of existing facilities and operating efficiencies of the facilities; (v) risks associated with our commodity purchasing activities; (vi) access to foreign markets together with foreign economic conditions, including currency fluctuations, import/export restrictions and foreign politics; (vii) outbreak of a livestock disease (such as avian influenza (AI) or bovine spongiform encephalopathy (BSE)), which could have an adverse effect on livestock we own, the availability of livestock we purchase, consumer perception of certain protein products or our ability to access certain domestic and foreign markets; (viii) changes in availability and relative costs of labor and contract growers and our ability to maintain good relationships with employees, labor unions, contract growers and independent producers providing us livestock; (ix) issues related to food safety, including costs resulting from product recalls, regulatory compliance and any related claims or litigation; (x) changes in consumer preference and diets and our ability to identify and react to consumer trends; (xi) significant marketing plan changes by large customers or loss of one or more large customers; (xii) adverse results from litigation; (xiii) impacts on our operations caused by factors and forces beyond our control, such as natural disasters, fire, bioterrorism, pandemics or extreme weather; (xiv) risks associated with leverage, including cost increases due to rising interest rates or changes in debt ratings or outlook; (xv) compliance with and changes to regulations and laws (both domestic and foreign), including changes in accounting standards, tax laws, environmental laws, agricultural laws and occupational, health and safety laws; (xvi) our ability to make effective acquisitions or joint ventures and successfully integrate newly acquired businesses into existing operations; (xvii) cyber incidents, security breaches or other disruptions of our information technology systems; (xviii) effectiveness of advertising and marketing programs; and (xix) those factors listed under Item 1A. “Risk Factors” included in our Annual Report filed on Form 10-K for the year ended October 1, 2016 and subsequently filed Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. You should refer to the “Risk Factors” section of this prospectus supplement and the accompanying prospectus and to the Company’s periodic and current reports filed with the SEC for specific risks which would cause actual results to be significantly different from those expressed or implied by these forward-looking statements. It is not possible to identify all of the risks, uncertainties and other factors that may affect future results. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this prospectus may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. Accordingly, readers of this prospectus supplement and the accompanying prospectus are cautioned not to place undue reliance on the forward-looking statements.

SUMMARY

This summary highlights selected information contained elsewhere in or incorporated by reference in this prospectus supplement and the accompanying prospectus. This summary may not contain all the information that you should consider before investing in our notes. You should carefully read the entire prospectus supplement and the accompanying prospectus, including the section entitled “Risk Factors,” the documents incorporated by reference in this prospectus supplement and the accompanying prospectus and our consolidated financial statements and related notes incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision.

OUR COMPANY

We are one of the world’s largest food companies and a recognized leader in protein. Founded in 1935 by John W. Tyson and grown under three generations of family leadership, the Company has a broad portfolio of products and brands like Tyson®, Jimmy Dean®, Hillshire Farm®, Ball Park®, Wright®, Aidells®, ibp® and State Fair®. We innovate continually to make protein more sustainable, tailor food for everywhere it’s available and raise the world’s expectations for how much good food can do. Some of the key factors influencing our business are customer demand for our products; the ability to maintain and grow relationships with customers and introduce new and innovative products to the marketplace; accessibility of international markets; market prices for our products; the cost and availability of live cattle and hogs, raw materials and feed ingredients; and operating efficiencies of our facilities.

We operate in four reportable segments: Beef, Pork, Chicken and Prepared Foods. Other primarily includes our foreign chicken production operations in China and India, third-party merger and integration costs and corporate overhead related to Tyson New Ventures, LLC. On June 7, 2017, we acquired AdvancePierre Foods Holdings, Inc. (“AdvancePierre”), a producer and distributor of value-added, convenient, ready-to-eat sandwiches, sandwich components and other entrées and snacks. AdvancePierre’s results from operations subsequent to the acquisition closing are included in the Prepared Foods and Chicken segments.

We also process live fed cattle and hogs and fabricate dressed beef and pork carcasses into primal and sub primal meat cuts, case ready beef and pork and fully-cooked meats. In addition, we derive value from allied products such as hides and variety meats sold to further processors and others.

We produce a wide range of fresh, value-added, frozen and refrigerated food products. Our products are marketed and sold primarily by our sales staff to grocery retailers, grocery wholesalers, meat distributors, warehouse club stores, military commissaries, industrial food processing companies, chain restaurants or their distributors, live markets, international export companies and domestic distributors who serve restaurants, foodservice operations such as plant and school cafeterias, convenience stores, hospitals and other vendors. Additionally, sales to the military and a portion of sales to international markets are made through independent brokers and trading companies.

RISK FACTORS

Any investment in our notes involves a high degree of risk. You should carefully consider the risks described below and all of the information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus before deciding whether to purchase our notes. In addition, you should carefully consider, among other things, the matters discussed (i) under “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended October 1, 2016 and (ii) in other documents that we subsequently file with the Securities and Exchange Commission, all of which are incorporated by reference into this prospectus supplement. The risks and uncertainties described in such incorporated documents and described below are not the only risks and uncertainties we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of those risks actually occurs, our business, financial condition and results of operations would suffer. In that event, the trading price of our notes could decline, and you may lose all or part of your investment in our notes. The risks discussed below also include forward-looking statements and our actual results may differ substantially from those discussed in these forward-looking statements. See “Special Note on Forward-Looking Statements.”

Risks Related to the Notes

The notes will be effectively subordinated to all of our existing and future secured debt and to the existing and future obligations of our subsidiaries.

The notes will rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the notes; equal in right of payment to our existing and future liabilities that are not so subordinated; junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness incurred by our subsidiaries. In the event of our bankruptcy, liquidation, reorganization or other winding up, our assets that secure debt ranking senior or equal in right of payment to the notes will be available to pay obligations on the notes only after the secured debt has been repaid in full from these assets. There may not be sufficient assets remaining to pay amounts due on any or all of the notes then outstanding. The indenture governing the notes does not prohibit us from incurring additional senior debt or secured debt, nor does it prohibit any of our subsidiaries from incurring additional liabilities.

As of July 1, 2017, after giving effect to this offering, the Company and its consolidated subsidiaries would have had outstanding, on a consolidated basis, \$10,827 million of total debt.

The notes are obligations of Tyson Foods, Inc. only and our operations are conducted through, and substantially all of our consolidated assets are held by, our subsidiaries.

The notes are obligations of Tyson Foods, Inc. and are not guaranteed by any of our subsidiaries. A substantial portion of our consolidated assets is held by our subsidiaries. Accordingly, our ability to service our debt, including the notes, depends on the results of operations of our subsidiaries and upon the ability of such subsidiaries to provide us with cash, whether in the form of dividends, loans or otherwise, to pay amounts due on our obligations, including the notes. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to make payments on the notes or to make any funds available for that purpose. In addition, dividends, loans or other distributions to us from such subsidiaries may be subject to contractual and other restrictions and are subject to other business considerations.

Servicing our debt requires a significant amount of cash, and we may not have sufficient cash flow from our business to pay our substantial debt.

Our ability to make scheduled payments of the principal of, to pay interest on or to refinance our indebtedness, including the notes, depends on our future performance, which is subject to economic, financial,

competitive and other factors beyond our control. Our business may not continue to generate cash flow from operations in the future sufficient to service our debt and make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as selling assets, restructuring debt or obtaining additional equity capital on terms that may be onerous or highly dilutive. Our ability to refinance our indebtedness will depend on the capital markets and our financial condition at such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on our debt obligations.

Despite our current debt levels, we may still incur substantially more debt or take other actions which would intensify the risks discussed above.

Despite our current consolidated debt levels, we and our subsidiaries may be able to incur substantial additional debt in the future, subject to the restrictions contained in our debt instruments, some of which may be secured debt. We will not be restricted under the terms of the indenture governing the notes from incurring additional debt, securing existing or future debt, recapitalizing our debt or taking a number of other actions that are not limited by the terms of the indenture that could have the effect of diminishing our ability to make payments on the notes when due.

You may not be able to sell your notes if active trading markets for the notes do not develop.

The notes constitute new issues of securities, for which there are no existing trading markets. In addition, we do not intend to apply to list the notes on any securities exchange or for quotation on any automated quotation system. We cannot provide you with any assurance regarding whether trading markets for the notes will develop, the ability of holders of the notes to sell their notes or the prices at which holders may be able to sell their notes of each series. The underwriters have advised us that they currently intend to make a market in the notes. The underwriters, however, are not obligated to do so, and any market-making activity with respect to the notes may be discontinued at any time without notice. If no active trading markets develop, you may be unable to resell the notes at any price or at their fair market value or at all.

The prices at which you will be able to sell your notes prior to maturity will depend on a number of factors and may be substantially less than the amount you originally invest.

We believe that the value of the notes in any secondary market will be affected by the supply and demand of the notes, the interest rate and a number of other factors. Some of these factors are interrelated in complex ways. As a result, the effect of any one factor may be offset or magnified by the effect of another factor. The following paragraphs describe what we expect to be the impact on the market value of the notes of a change in a specific factor, assuming all other conditions remain constant.

- ***United States Interest Rates*** . We expect that the market value of the notes will be affected by changes in United States interest rates. In general, if United States interest rates increase, the market value of the notes may decrease. We cannot predict the future level of market interest rates.
- ***Our Credit Rating, Financial Condition and Results of Operations*** . We expect that each series of notes will be rated by one or more nationally recognized statistical rating organizations. Any rating agency that rates the notes may lower our rating or decide not to rate the notes in its sole discretion. Actual or anticipated changes in our credit ratings, financial condition or results of operations may affect the market value of the notes. In general, if our credit rating is downgraded, the market value of the notes may decrease. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating organization. No person is obligated to maintain any rating on the notes, and, accordingly, we cannot assure you that the ratings assigned to the notes will not be lowered or withdrawn by the assigning rating organization at any time thereafter.

We want you to understand that the impact of one of the factors above, such as an increase in United States interest rates, may offset some or all of any change in the market value of the notes attributable to another factor, such as an improvement in our credit rating.

Our credit ratings may not reflect all risks of an investment in the notes.

The credit ratings assigned to the notes may not reflect the potential impact of all risks related to trading markets, if any, for, or trading value of, your notes. In addition, real or anticipated changes in our credit ratings will generally affect any trading markets, if any, for, or trading value of, your notes. Accordingly, you should consult your own financial and legal advisors as to the risks entailed by an investment in the notes and the suitability of investing in the notes in light of your particular circumstances.

There are limited covenants in the indenture.

Neither we nor any of our subsidiaries is restricted from incurring additional debt or other liabilities, including additional senior debt, under the indenture. If we incur additional debt or liabilities, our ability to pay our obligations on the notes could be adversely affected. We expect that we will from time to time incur additional debt and other liabilities. In addition, we are not restricted under the indenture from granting security interests over our assets, except to the extent described under “Description of the Notes—Certain Covenants— Restrictions on Liens” in this prospectus supplement, or from paying dividends, making investments or issuing or repurchasing our securities.

In addition, there are no financial covenants in the indenture. You are not protected under the indenture in the event of a highly leveraged transaction, reorganization, restructuring, merger or similar transaction that may adversely affect you, except to the extent described under “Description of Debt Securities—General” included in the accompanying prospectus.

We may not be able to repurchase the notes upon a change of control, which would result in a default under the notes.

Holders of the notes may require us to repurchase their notes in certain events upon a “change of control” as defined under “Description of the Notes—Change of Control” in this prospectus supplement. We cannot assure you that we will have sufficient financial resources, or will be able to arrange sufficient financing, to pay the purchase price of the notes, particularly if a change of control triggers a similar repurchase requirement for, or results in the acceleration of, our other then existing debt. In addition, our ability to repurchase the notes for cash may be limited by law, or by the terms of other agreements relating to our indebtedness outstanding at that time. Our failure to repurchase the notes as required under the indenture governing the notes would result in a default under the indenture, which could have material adverse consequences for us and for holders of the notes.

Redemption may adversely affect your return on the notes.

We have the right to redeem some or all of the fixed rate notes prior to maturity, as described under “Description of the Notes—Optional Redemption” in this prospectus supplement. We may redeem the fixed rate notes at times when prevailing interest rates may be relatively low. Accordingly, you may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the fixed rate notes.

The amount of interest payable on the floating rate notes is set only once per period based on the three- month LIBOR on the interest determination date, which rate may fluctuate substantially.

In the past, the level of the three-month LIBOR has experienced significant fluctuations. You should note that historical levels, fluctuations and trends of the three-month LIBOR are not necessarily indicative of future

levels. Any historical upward or downward trend in the three-month LIBOR is not an indication that the three-month LIBOR is more or less likely to increase or decrease at any time during a floating rate interest period, and you should not take the historical levels of the three-month LIBOR as an indication of its future performance. You should further note that although the actual three-month LIBOR on an interest payment date or at other times during an interest period may be higher than the three-month LIBOR on the applicable interest determination date, you will not benefit from the three-month LIBOR at any time other than on the interest determination date for such interest period. As a result, changes in the three-month LIBOR may not result in a comparable change in the market value of the floating rate notes.

Uncertainty relating to the LIBOR calculation process may adversely affect the value of the floating rate notes.

Regulators and law enforcement agencies in the United Kingdom and elsewhere are conducting civil and criminal investigations into whether the banks that contribute to the British Bankers' Association (the "**BBA**") in connection with the calculation of daily LIBOR may have been under-reporting or otherwise manipulating or attempting to manipulate LIBOR. A number of BBA member banks have entered into settlements with their regulators and law enforcement agencies with respect to this alleged manipulation of LIBOR. On July 27, 2017, the Financial Conduct Authority ("FCA") announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR rates after 2021.

Actions by the BBA, the FCA, other regulators or law enforcement agencies may result in changes to the manner in which LIBOR is determined. At this time, it is not possible to predict the effect of any such changes and any other reforms to LIBOR that may be enacted in the United Kingdom or elsewhere. Uncertainty as to the nature of such potential changes may adversely affect the trading market for LIBOR-based securities, including the floating rate notes. To the extent the three month USD LIBOR rate is discontinued or is no longer quoted, the applicable base rate used to calculate interest on the floating rate notes will be determined using the alternative methods described in "Description of Notes—Principal, Maturity and Interest—Interest on the Notes."

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after deducting underwriting discounts and commissions and estimated offering expenses, will be approximately \$893.3 million. We intend to use the net proceeds from this offering for repayment of amounts outstanding under our term loan tranche due June 2020 (which bore interest at the rate of 2.38% as of July 1, 2017). We may, however, use a portion of the proceeds to pay down certain other outstanding debt.

Certain of the underwriters and/or their affiliates are lenders under our Term Loan Facility. Please see “Underwriting (Conflicts of Interest)—Conflicts of Interest” for more information.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratio of earnings to fixed charges for the Company for each year in the five year period ended October 1, 2016, and for the nine months ended July 1, 2017. For the purposes of calculating the ratio of earnings to fixed charges, “earnings” consist of income (loss) from continuing operations before income taxes, fixed charges and amortization of capitalized interest, but excludes equity method investment earnings and capitalized interest. “Fixed charges” consist of (i) interest on indebtedness, whether expensed or capitalized, (ii) that portion of rental expense the Company believes to be representative of interest (one-third of rental expense) and (iii) amortization of debt discount and expense.

DESCRIPTION OF THE NOTES

General

The \$400,000,000 aggregate principal amount of Floating Rate Senior Notes due 2020 (the “2020 notes” or the “floating rate notes”) and the \$500,000,000 aggregate principal amount of 2.250% Senior Notes due 2021 (the “2021 notes” or the “fixed rate notes” and, together with the 2020 notes, the “notes”) will each constitute a separate series of debt securities pursuant to a base indenture dated as of June 1, 1995, between the Company and The Bank of New York Mellon Trust Company, N.A. (as successor to JPMorgan Chase Bank, N.A. (formerly The Chase Manhattan Bank)), as Trustee, as supplemented by a supplemental indenture with respect to each series of notes, between the Company and the Trustee. In this section, we refer to the base indenture (the “base indenture”), as supplemented by each supplemental indenture (each, a “supplemental indenture”), collectively as the “Indenture.” The terms of the notes include those expressly set forth in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended.

You can find the definitions of some of the terms used in this description below under the caption “—Certain Definitions.” The defined terms used in this description but not defined below under the caption “—Certain Definitions” have the meanings assigned to them in the Indenture.

The following description is only a summary of the material provisions of the Indenture. We urge you to read the Indenture because it, and not this description, defines your rights as Holders of the Notes. You may request copies of the Indenture at our address set forth under the heading “Where You Can Find More Information”.

As used in this section, the term “Company” means Tyson Foods, Inc. and does not include any subsidiary of Tyson Foods, Inc.

Brief Description of the Notes

The notes:

- are unsecured senior obligations of the Company; and
- are senior in right of payment to all existing and future indebtedness that is expressly subordinated in right of payment to the notes.

Principal, Maturity and Interest

The 2020 notes will be initially issued in an aggregate principal amount of \$400,000,000 and will mature on August 21, 2020, with accrued and unpaid interest to such date. The 2021 notes will be initially issued in an aggregate principal amount of \$500,000,000 and will mature on August 23, 2021, with accrued and unpaid interest to such date.

The Company will issue each series of the notes in minimum denominations of \$2,000 and any greater integral multiple of \$1,000. We are permitted to issue additional notes of any series from time to time without notice to or the consent of the registered holders of such series of the notes. Each series of notes and the related additional notes, if any, will be treated as a single series for all purposes of the Indenture, including waivers, amendments, redemptions and offers to purchase, provided that if such additional notes of a series are not fungible with the original notes of such series for U.S. federal income tax purposes, such additional notes will have a separate CUSIP number. Unless the context otherwise requires, for all purposes of the Indenture and this “Description of the Notes,” references to the notes include any additional notes actually issued.

Interest on the Fixed Rate Notes

The 2021 notes will bear interest at 2.250% per annum, each from the date of issuance or from the most recent interest payment date to which interest has been paid or provided for, each payable semiannually on February 23, and August 23 of each year, beginning February 23, 2018, to the persons in whose names the fixed rate notes are registered at the close of business on the 14th calendar day immediately preceding such interest payment date, whether or not such day is a Business Day. Interest on the fixed rate notes will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Interest on the Floating Rate Notes

The 2020 notes will bear interest for each period at a rate determined by the calculation agent, which will initially be The Bank of New York Mellon Trust Company, N.A. If The Bank of New York Mellon Trust Company, N.A. is unable or unwilling to continue to act as the calculation agent for the notes, or if it fails to calculate properly the interest rate on such series of floating rate notes for any interest period, we will appoint another leading commercial or investment bank engaged in the London interbank market to act as calculation agent in its place for such floating rate notes. The calculation agent may not resign its duties without a successor having been appointed.

The interest rate on the 2020 notes for a particular period will be a per annum rate equal to three-month USD LIBOR, as determined on the relevant interest determination date, plus 0.450%. The interest determination date for an interest period will be the second London Business Day immediately preceding the first day of such interest period. Promptly upon determination, the calculation agent will inform the Trustee and us of the interest rate for the next interest period. Absent manifest error, the determination of the interest rate by the calculation agent shall be binding and conclusive on the holders of the 2020 notes, the Trustee and us. “London Business Day” means any day on which dealings in deposits in U.S. dollars are transacted in the London interbank market.

Interest on the notes will be payable quarterly in arrears on February 21, May 21, August 21 and November 21 of each year, each beginning November 21, 2017, to the person in whose name such floating rate notes are registered at the close of business on the 14th calendar day immediately preceding such interest payment date (whether or not a Business Day). Interest on each of the notes will accrue from and including August 23, 2017, to but excluding the first interest payment date and then from, and including, the immediately preceding interest payment date to which interest has been paid or duly provided for to but excluding the next interest payment date or maturity date, as the case may be. We refer to each of these periods as an “interest period.” The amount of accrued interest that we will pay for any interest period can be calculated by multiplying the face amount of the 2020 notes then outstanding by an accrued interest factor. This accrued interest factor is computed by adding the interest factor calculated for each day from August 23, 2017, or from the last date for which we paid interest to the holders of the 2020 notes to the date for which accrued interest is being calculated. The interest factor for each day is computed by dividing the interest rate applicable to that day by 360. If an interest payment date for the applicable series of floating rate notes falls on a day that is not a Business Day, the interest payment date shall be postponed to the next succeeding Business Day unless such next succeeding Business Day would be in the following month, in which case, the interest payment date shall be the immediately preceding Business Day.

On any interest determination date, LIBOR will be equal to the offered rate for deposits in U.S. dollars having an index maturity of three months, in amounts of at least \$1,000,000, as such rate appears on Bloomberg L.P.’s page “BBAM” at approximately 11:00 a.m., London time, on such interest determination date. If on an interest determination date, such rate does not appear on the Bloomberg L.P. page “BBAM” as of 11:00 a.m., London time, or if the Bloomberg L.P. page “BBAM” is not available on such date, the calculation agent will obtain such rate from the Reuters page “LIBOR01.” If no offered rate appears on the Bloomberg L.P. page “BBAM” or the Reuters page “LIBOR01” on an interest determination date at approximately 11:00 a.m., London time, then we will select four major banks in the London interbank market and shall request each of their principal London offices to provide a quotation of the rate at which three-month deposits in U.S. dollars in

[Table of Contents](#)

amounts of at least \$1,000,000 are offered by it to prime banks in the London interbank market, on that date and at that time, that is representative of single transactions at that time. If at least two quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, we will select three major banks in New York City and shall request each of them to provide a quotation of the rate offered by them at approximately 11:00 a.m., New York City time, on the interest determination date for loans in U.S. dollars to leading European banks having an index maturity of three months for the applicable interest period in an amount of at least \$1,000,000 that is representative of single transactions at that time. If three quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, the rate of LIBOR for the next interest period will be set equal to the rate of LIBOR for the then current interest period.

Upon request from any holder of the floating rate notes, the calculation agent will provide the interest rate in effect for such series of floating rate notes for the current interest period and, if it has been determined, the interest rate to be in effect for the next interest period.

All percentages resulting from any calculation of the interest rate on the floating rate notes will be rounded to the nearest one millionth of a percentage point with five ten millionths of a percentage point rounded upwards (e.g., 9.8765445% (or .098765445) would be rounded to 9.876545% (or .09876545)), and all dollar amounts used in or resulting from such calculation on the floating rate notes will be rounded to the nearest cent (with one-half cent being rounded upwards).

The interest rate on any series of floating rate notes will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States law of general application.

Optional Redemption

We may redeem the fixed rate notes, in whole or in part, at any time prior to the Par Call Date, at a redemption price equal to the greater of:

- 100% of the principal amount of the fixed rate notes being redeemed plus accrued and unpaid interest thereon to the date of redemption; and
- the sum of the remaining scheduled payments of principal of and interest on such fixed rate notes being redeemed (not including any portion of the payments of interest accrued as of the date of redemption), from the redemption date to the Par Call Date, discounted to its present value as of the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the applicable Adjusted Treasury Rate, as determined by the Quotation Agent, plus 15 basis points, plus, in each case, accrued and unpaid interest on the principal amount of such fixed rate notes being redeemed to the date of redemption.

At any time on or after the Par Call Date, we may redeem the fixed rate notes, in whole or in part, at any time at a redemption price equal to 100% of the principal amount, plus accrued and unpaid interest thereon to the date of redemption.

The floating rate notes will not be redeemable at the option of the Company prior to maturity.

“Adjusted Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the applicable Comparable Treasury Issue (expressed as a percentage amount) equal to the applicable Comparable Treasury Price for such redemption date.

“Comparable Treasury Issue” means the United States Treasury security selected by the Quotation Agent as having an actual or interpolated maturity comparable to the remaining term of the fixed rate notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such fixed rate notes (assuming, for this purpose, the fixed rate notes mature on the applicable Par Call Date).

[Table of Contents](#)

“Comparable Treasury Price” means, with respect to any redemption date, (i) the average of the Reference Treasury Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (ii) if the Company obtains fewer than three such Reference Treasury Dealer Quotations, the average of all such Quotations.

“Par Call Date” means July 23, 2021 in the case of the fixed rate notes.

“Quotation Agent” means the Reference Treasury Dealer appointed by us.

“Reference Treasury Dealer” means any of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. LLC and RBC Capital Markets, LLC, their affiliates and their respective successors. However, if any of the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a “Primary Treasury Dealer”), we shall substitute therefor another Primary Treasury Dealer.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by us, of the bid and asked prices for the applicable Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Company by such Reference Treasury Dealer at 3:30 p.m., New York City time, on the third Business Day preceding such redemption date.

Notice of any redemption will be sent at least 30 days but not more than 60 days before the redemption date to each holder of the fixed rate notes to be redeemed. Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the fixed rate notes or portions thereof called for redemption.

Selection and Notice of Redemption

If we are redeeming less than all of the fixed rate notes at any time, the fixed rate notes to be redeemed will be selected in accordance with applicable DTC procedures.

We will redeem fixed rate notes of \$2,000 or less in whole and not in part. We will cause notices of redemption to be delivered at least 30 but not more than 60 days before the redemption date to each Holder of the fixed rate notes to be redeemed at its registered address.

If the fixed rate notes are to be redeemed in part only, the notice of redemption that relates to the fixed rate notes will state the portion of the principal amount thereof to be redeemed. We will issue a new fixed rate note in a principal amount equal to the unredeemed portion of the original fixed rate note in the name of the Holder upon cancellation of the original note. Fixed rate notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on the fixed rate notes or portions of them called for redemption.

Mandatory Redemption; Offers to Purchase; Open Market Purchases

We are not required to make any mandatory redemption or sinking fund payments with respect to the notes. However, under certain circumstances, we may be required to offer to purchase notes as described under the caption “— Change of Control.” We may at any time and from time to time purchase notes in the open market or otherwise.

Ranking

Senior Indebtedness versus Notes

The indebtedness evidenced by the notes is unsecured and will rank pari passu in right of payment with the other senior indebtedness of the Company.

As of July 1, 2017, after to giving effect to this offering, the Company and its consolidated subsidiaries would have had outstanding, on a consolidated basis, \$10,827 million of total debt.

The notes are unsecured obligations of the Company. Secured debt and other secured obligations of the Company are effectively senior to the notes to the extent of the value of the assets securing such debt or other obligations.

Liabilities of Subsidiaries versus Notes

A substantial portion of our operations is conducted through our subsidiaries. None of our subsidiaries are Guaranteeing the notes. In addition, our future subsidiaries may not be required to Guarantee the notes. Claims of creditors of our subsidiaries, including trade creditors and creditors holding indebtedness or Guarantees issued by any of our subsidiaries, and claims of preferred stockholders of our subsidiaries generally will have priority with respect to the assets and earnings of such subsidiaries over the claims of our creditors, including Holders of the notes, even if such claims do not constitute senior indebtedness. Accordingly, the notes are effectively subordinated to creditors (including trade creditors) and preferred stockholders, if any, of such subsidiaries.

Change of Control

Upon the occurrence of a Change of Control Triggering Event with respect to a series of notes, each Holder of notes of such series shall have the right to require that the Company repurchase such Holder's notes at a purchase price in cash equal to 101% of the principal amount thereof on the date of purchase plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Within 30 days following the date upon which any Change of Control Triggering Event with respect to a series of notes shall have occurred, we will send a notice to each Holder of such series with a copy to the Trustee (the "Change of Control Offer") or, at our option, prior to any Change of Control but after the public announcement of the pending Change of Control, stating:

- (1) that a Change of Control has occurred and that such Holder has the right to require us to purchase such Holder's notes at a purchase price in cash equal to 101% of the principal amount thereof on the date of purchase, plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest on the relevant interest payment date);
- (2) the purchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is delivered); and
- (3) the instructions, as determined by us, consistent with the covenant described hereunder, that a Holder must follow in order to have its notes purchased.

We will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by us and purchases all notes validly tendered and not withdrawn under such Change of Control Offer. A Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

We will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes as a result of a Change of Control. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the covenant described hereunder, we will comply with the applicable securities laws and regulations and shall not be deemed to have breached our obligations under the covenant described hereunder by virtue of our compliance with such securities laws or regulations.

The Change of Control purchase feature of the notes may in certain circumstances make more difficult or discourage a sale or takeover of the Company and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Company and the underwriters of the notes. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to Incur additional Indebtedness are contained in the covenants described under “—Certain Covenants—Restrictions on Liens” and “—Certain Covenants—Restrictions on Sale and Lease-Back Transactions.” Such restrictions can only be waived with the consent of the Holders of a majority in principal amount of the notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford Holders of the notes protection in the event of a highly leveraged transaction.

The occurrence of certain change of control events with respect to the Company will constitute a default under the Credit Agreement and will restrict our ability to purchase notes. In the event that a Change of Control occurs at a time when we are prohibited by the Credit Agreement from purchasing notes, we may seek the consent of our lenders under the Credit Agreement to purchase the notes or may attempt to refinance the borrowings under the Credit Agreement. If we cannot obtain the consent of such lenders to purchase the notes or successfully refinance such borrowings, we will remain prohibited from purchasing notes pursuant to a Change of Control Offer, which would constitute a Default under the Indenture, which would, in turn, constitute a default under the Credit Agreement.

Indebtedness that we may Incur may contain prohibitions on the occurrence of certain events that would constitute a Change of Control or require the repurchase of such indebtedness upon a Change of Control. Moreover, the exercise by the Holders of their right to require us to repurchase their notes could cause a default under such indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on us. Finally, our ability to pay cash to the Holders of notes following the occurrence of a Change of Control may be limited by our then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases.

The definition of “Change of Control” includes a disposition of all or substantially all of the assets of the Company to any Person. Although there is a limited body of case law interpreting the phrase “substantially all”, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of “all or substantially all” of the assets of the Company. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder of notes may require the Company to make an offer to repurchase the notes as described above.

The provisions under the Indenture relative to our obligation to make an offer to repurchase a series of notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of such series of notes.

For purposes of the foregoing discussion, the following definitions apply:

“*Change of Control*” means the occurrence of any of the following:

- (1) the Permitted Holders cease to be the “beneficial owner” (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of a majority in the aggregate of the total voting power of the Voting Stock of the Company, whether as a result of issuance of securities of the Company, any merger, consolidation, liquidation or dissolution of the Company, or any direct or indirect transfer of securities of the Company by the Permitted Holders or otherwise (for purposes of this clause (1) and

clause (2) below, the Permitted Holders shall be deemed to beneficially own any Voting Stock of a Person (the “specified person”) held by any other Person (the “parent entity”) so long as the Permitted Holders beneficially own (as so defined), directly or indirectly, in the aggregate a majority of the voting power of the Voting Stock of the parent entity);

- (2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any “person” (as such term is used in Sections 13(d) and 14(d) of the Exchange Act), other than one or more Permitted Holders, becomes the “beneficial owner” (as defined in clause (1) above), directly or indirectly, of more than 50% of the total voting power of the Voting Stock of the Company;
- (3) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the assets of the Company and its Subsidiaries taken as a whole to any Person (including any “person” (as that term is used in Section 13(d)(3) of the Exchange Act)) other than to the Company or one of its subsidiaries;
- (4) the Company consolidates with, or merges with or into, any Person, or any Person consolidates with, or merges with or into, the Company, in any such event pursuant to a transaction in which any of the outstanding Voting Stock of the Company or such other Person is converted into or exchanged for cash, securities or other property; or
- (5) the adoption of a plan relating to the liquidation or dissolution of the Company.

Notwithstanding the foregoing, a transaction will not be considered to be a Change of Control if (i) the survivor or transferee is a Person that is controlled by the Permitted Holders or (ii) a transaction following which (A) in the case of a merger or consolidation transaction, holders of securities that represented 100% of the Voting Stock of the Company immediately prior to such transaction (or other securities into which such securities are converted as part of such merger or consolidation transaction) own directly or indirectly at least a majority of the voting power of the Voting Stock of the surviving Person in such merger or consolidation transaction immediately after such transaction and (B) in the case of a sale of assets transaction, each transferee becomes an obligor in respect of the notes and a Subsidiary of the transferor of such assets.

“*Change of Control Triggering Event*” means the occurrence of both a Change of Control and a Rating Event with respect to a series of notes. Notwithstanding the foregoing, no Change of Control Triggering Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

“*Fitch*” means Fitch Ratings and its successors.

“*Investment Grade*” means a rating of Baa3 or better by Moody’s (or its equivalent under any successor rating categories of Moody’s), a rating of BBB- or better by S&P (or its equivalent under any successor rating categories of S&P) and a rating of BBB- or better by Fitch (or its equivalent under any successor rating categories of Fitch) and the equivalent investment grade credit rating from any replacement rating agency or rating agencies selected by us under the circumstances permitting us to select a replacement rating agency and in the manner for selecting a replacement rating agency, in each case as set forth in the definition of “Rating Agency.”

“*Moody’s*” means Moody’s Investors Service, Inc., a subsidiary of Moody’s Corporation, and its successors.

“*Permitted Holders*” means (1) the Tyson Limited Partnership (or any successor entity), (2) “members of the same family” of Mr. Don Tyson as defined in Section 447(e) of the Code and (3) any entity (including, but not limited to, any partnership, corporation, trust or limited liability company) in which one or more individuals described in clauses (1) and (2) hereof possess over 50% of the voting power or beneficial interests.

[Table of Contents](#)

“*Rating Agencies*” means (i) each of Moody’s, S&P and Fitch; and (ii) if any of Moody’s, S&P or Fitch ceases to rate the notes of a series or fails to make a rating of the notes of a series publicly available for reasons outside of our control, a “nationally recognized statistical rating organization” within the meaning of Section 3(a)(62) of the Exchange Act that is selected by us (as certified by a resolution of the Board of Directors) as a replacement agency for Moody’s, S&P or Fitch, or each of them, as the case may be.

“*Rating Event*” means, with respect to the notes of a series, (i) the rating of the notes of such series is lowered by two of the three Rating Agencies on any day during the period (the “Trigger Period”) commencing on the earlier of (a) the occurrence of a Change of Control and (b) the first public notice of our intention to effect a Change of Control, and ending 60 days following consummation of such Change of Control (which period shall be extended so long as the rating of the notes of such series is under publicly announced consideration for possible downgrade by any of the Rating Agencies), and (ii) the notes of such series are rated below Investment Grade by two of the three Rating Agencies on any day during the Trigger Period; provided that a Rating Event will not be deemed to have occurred in respect of a particular Change of Control (and thus will not be deemed a Rating Event for purposes of the definition of Change of Control Triggering Event) if each Rating Agency making the reduction in rating does not publicly announce or confirm or inform us that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the Change of Control (whether or not the applicable Change of Control has occurred at the time of the Rating Event). If a Rating Agency is not providing a rating for the notes of a series at the commencement of such period, the notes of such series will be deemed to have ceased to be rated as investment grade by such Rating Agency during such period.

“*S&P*” means Standard & Poor’s Ratings Services, a division of S&P Global Inc., and its successors.

Certain Covenants

Restrictions on Liens

Reference is made to the sections “Description of Debt Securities—Certain Covenants—Restrictions on Liens” and “Description of Debt Securities—Certain Covenants—Certain Definitions” in the accompanying prospectus.

Restrictions on Sale and Lease-Back Transactions

Reference is made to the sections “Description of Debt Securities—Certain Covenants—Restrictions on Sale and Lease-Back Transactions” and “Description of Debt Securities—Certain Covenants—Certain Definitions” in the accompanying prospectus.

Restrictions on Consolidations, Mergers and Sales of Assets

The Company will not consolidate with or merge with or into, or convey, transfer or lease, in one transaction or a series of transactions, directly or indirectly, all or substantially all its assets to, any Person, unless:

- (1) the resulting, surviving or transferee Person (the “Successor Company”) shall be a Person organized and existing under the laws of the United States of America, any State thereof or the District of Columbia and the Successor Company (if not the Company) shall expressly assume, by an indenture supplemental thereto, executed and delivered to the Trustee, in form satisfactory to the Trustee, all the obligations of the Company under the notes and the Indenture;
- (2) immediately after giving pro forma effect to such transaction, no Default shall have occurred and be continuing; and

- (3) the Company shall have delivered to the Trustee an Officers' Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the Indenture.

For purposes of this covenant, the sale, lease, conveyance, assignment, transfer or other disposition of all or substantially all of the properties and assets of one or more Subsidiaries of the Company, which properties and assets, if held by the Company instead of such Subsidiaries, would constitute all or substantially all of the properties and assets of the Company on a consolidated basis, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Company.

The Successor Company will be the successor to the Company and shall succeed to, and be substituted for, and may exercise every right and power of, the Company under the Indenture, and the predecessor Company, except in the case of a lease, shall be released from the obligation to pay the principal of and interest on the notes.

SEC Reports

The Company will file with the Trustee, within 15 days after the Company is required to file with the SEC, copies of the annual reports and of the information, documents, and other reports which the Company has so filed with the SEC pursuant to Section 13 or Section 15(d) of the Exchange Act. Filing of any such annual report, information, documents and such other reports on the SEC's EDGAR system (or any successor thereto) or any other publicly available database maintained by the SEC will be deemed to satisfy this requirement.

Delivery of such reports, information and documents to the Trustee is for informational purposes only and the Trustee's receipt of such shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including the Company's compliance with any of its covenants under the Indenture (as to which the Trustee is entitled to rely exclusively on Officers' Certificates).

Defaults

Each of the following is an Event of Default with respect to any series of notes:

- (1) a default in the payment of interest on such series of notes when due, continued for 30 days;
- (2) a default in the payment of principal of any note of such series when due at its Stated Maturity, upon optional redemption, upon required purchase, upon declaration of acceleration or otherwise;
- (3) the failure by the Company to comply with its obligations under "—Certain Covenants—Restrictions on Consolidations, Mergers and Sales of Assets" above;
- (4) the failure by the Company to comply for 30 days after notice with any of its obligations in the covenants described above under "—Change of Control" (other than a failure to purchase notes) or under "—Certain Covenants—Restrictions on Liens", "—Certain Covenants—Restrictions on Sale and Lease-Back Transactions";
- (5) the failure by the Company to comply for 60 days after notice with the covenant described under "—Certain Covenants—SEC Reports" or its other agreements contained in the Indenture; or
- (6) certain events of bankruptcy, insolvency or reorganization of the Company or any Significant Subsidiary (the "bankruptcy provisions").

However, a Default under clause (4) or (5) will not constitute an Event of Default until the Trustee or the Holders of at least 25% in principal amount of the outstanding notes of such series notify the Company of the Default and the Company does not cure such Default within the time specified after receipt of such notice.

If an Event of Default occurs and is continuing (other than an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company), the Trustee or the Holders of at least 25% in principal

amount of the outstanding notes of such series may declare the principal of and accrued but unpaid interest on all the notes of such series to be due and payable. Upon such a declaration, such principal and interest shall be due and payable immediately. If an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company occurs and is continuing, the principal of and interest on all the notes will ipso facto become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder of the notes. Under certain circumstances, the Holders of a majority in principal amount of the outstanding notes of such series may rescind any such acceleration with respect to the notes and its consequences.

Subject to the provisions of the Indenture relating to the duties of the Trustee, in case an Event of Default occurs and is continuing, the Trustee is under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders of the notes of such series unless such Holders have offered to the Trustee reasonable indemnity or security against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder of a note may pursue any remedy with respect to the Indenture or the notes of such series unless:

- (1) such Holder has previously given the Trustee notice that an Event of Default is continuing;
- (2) Holders of at least 25% in principal amount of the outstanding notes of such series have requested the Trustee to pursue the remedy;
- (3) such Holders have offered the Trustee reasonable security or indemnity against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and
- (5) Holders of a majority in principal amount of the outstanding notes of such series have not given the Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the Holders of a majority in principal amount of the outstanding notes of a series are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee in respect of such series of notes. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder of a note of such series or that would involve the Trustee in personal liability.

If a Default with respect to a series of notes occurs and is continuing and if such Default is known to any responsible officer of the Trustee, the Trustee must send to each Holder of the notes of such series notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal of or interest on any note of such series, the Trustee may withhold notice if and so long as a committee of its Trust Officers in good faith determines that withholding notice is not opposed to the interest of the Holders of the notes of such series. In addition, the Company is required to deliver to the Trustee, within 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Company is required to deliver to the Trustee, within 30 days after the occurrence thereof, written notice of any event which would constitute certain Defaults, their status and what action the Company is taking or proposes to take in respect thereof.

Amendments and Waivers

Subject to certain exceptions, the Indenture may be amended with respect to a series of notes with the consent of the Holders of a majority in principal amount of the notes of such series then outstanding (including consents obtained in connection with a tender offer or exchange for the notes of such series) and any past default or compliance with any provisions may also be waived with the consent of the Holders of a majority in principal

amount of the notes of such series then outstanding. However, without the consent of each Holder of an outstanding note affected thereby, an amendment or waiver may not, among other things:

- (1) reduce the amount of notes whose Holders must consent to an amendment, supplement or waiver;
- (2) reduce the rate of or extend the time for payment of interest on any note;
- (3) reduce the principal of or change the Stated Maturity of any note;
- (4) make any note payable in money other than that stated in the note;
- (5) impair the right of any Holder of the notes to receive payment of principal of and interest on such Holder's notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's notes;
- (6) make any change in the amendment provisions which require each Holder's consent or in the waiver provisions;
- (7) change the provisions applicable to the redemption of any fixed rate notes as described under "—Optional Redemption";
- (8) make any change in the ranking or priority of any note that would adversely affect the Holders; or
- (9) make any change in, or release other than in accordance with the Indenture, any Guarantee that would adversely affect the Holders.

Notwithstanding the preceding, without the consent of any Holder of the notes of any series, the Company and the Trustee may amend the Indenture with respect to such series:

- (1) to cure any ambiguity, omission, defect or inconsistency;
- (2) to provide for the assumption of the obligations of the Company under the Indenture by a successor to the Company;
- (3) to add Guarantees with respect to the notes of such series or to secure the notes of such series;
- (4) to add to the covenants of the Company for the benefit of the Holders of the notes of such series or to surrender any right or power conferred upon the Company;
- (5) to make any change that does not adversely affect the rights of any Holder of the notes of such series;
- (6) to comply with any requirement of the SEC in connection with the qualification of the Indenture under the Trust Indenture Act;
- (7) to provide for the issuance of additional notes of such series in accordance with the limitations set forth in the Indenture as of the date thereof;
- (8) to evidence and provide for the acceptance and appointment under the Indenture of a successor Trustee thereunder pursuant to the requirements thereof;
- (9) to conform the text of the Indenture or the notes of such series to any provision of this "Description of the Notes" to the extent that such provision in this "Description of the Notes" was intended to be a verbatim recitation of a provision of the Indenture or the notes of such series; or
- (10) to make any amendment to the provisions of the Indenture relating to the transfer and legending of the notes of such series; provided, however, that (a) compliance with the Indenture as so amended would not result in notes of such series being transferred in violation of the Securities Act or any other applicable securities law and (b) such amendment does not materially and adversely affect the rights of Holders to transfer notes of such series.

The consent of the Holders of the notes of any series is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

After an amendment under the Indenture becomes effective, the Company is required to send to Holders of the notes of the affected series a notice briefly describing such amendment. However, the failure to give such notice to all Holders of the notes of the affected series, or any defect therein, will not impair or affect the validity of the amendment.

Neither the Company nor any Affiliate of the Company may, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any Holder of notes of a series for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the notes of such series unless such consideration is offered to all Holders of notes of such series and is paid to all Holders of notes of such series that so consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement.

Transfer

The notes will be issued in registered form and will be transferable only upon the surrender of the notes being transferred for registration of transfer. We or the Trustee may require payment of a sum sufficient to cover any tax, assessment or other governmental charge payable in connection with certain transfers and exchanges.

Satisfaction and Discharge

When (1) we deliver to the Trustee all outstanding notes of a series for cancellation or (2) all outstanding notes of a series have become due and payable, whether at maturity or on a redemption date as a result of the delivering of notice of redemption, or will become due and payable within one year, and, in the case of clause (2), we irrevocably deposit with the Trustee funds sufficient to pay at maturity or upon redemption all outstanding notes of such series, including interest thereon to maturity, and if, in either case, we pay all other sums payable under the Indenture by us, then the Indenture shall, subject to certain exceptions, cease to be of further effect.

Defeasance

At any time, we may terminate all our obligations under the notes of any series and the Indenture (“*legal defeasance*”) with respect to such series, except for certain obligations, including those owed to the Trustee, those respecting the defeasance trust and obligations to register the transfer or exchange of the notes of such series, to replace mutilated, destroyed, lost or stolen notes of such series and to maintain a registrar and paying agent in respect of the notes of such series.

In addition, at any time we may terminate our obligations under “—Change of Control” and under the covenants described under “—Certain Covenants” (other than the covenant described under “—Restrictions on Consolidations, Mergers and Sales of Assets”) with respect to the notes of any series.

We may exercise our legal defeasance option notwithstanding our prior exercise of our covenant defeasance option. If we exercise our legal defeasance option in respect of a series of notes, payment of the notes of such series may not be accelerated because of an Event of Default with respect thereto. If we exercise our covenant defeasance option in respect of a series of notes, payment of the notes of such series may not be accelerated because of an Event of Default with respect to such series specified in clauses (4) or (5) (solely with respect to SEC reports) under “—Defaults” above.

In order to exercise either of our defeasance options in respect of a series of notes, we must irrevocably deposit in trust (the “defeasance trust”) with the Trustee money or U.S. Government Obligations or a combination thereof sufficient (in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee), without consideration of any reinvestment, for the payment of principal and interest on the notes of such series to redemption or maturity, as the case may

[Table of Contents](#)

be, and must comply with certain other conditions, including delivery to the Trustee of an Opinion of Counsel to the effect that Holders of the notes of such series will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and defeasance and will be subject to federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of legal defeasance only, such Opinion of Counsel must be based on a ruling of the Internal Revenue Service (“IRS”) or other change in applicable federal income tax law).

Concerning the Trustee

The Bank of New York Mellon Trust Company, N.A. is the Trustee under the Indenture. We have appointed the Trustee as Registrar and Paying Agent with regard to the notes.

The Indenture contains certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee is permitted to engage in other transactions; provided, however, that if it acquires any conflicting interest it must either eliminate such conflict within 90 days, apply to the SEC for permission to continue or resign.

The Holders of a majority in principal amount of the outstanding notes of a series will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee or of exercising any trust power conferred on the Trustee in respect of such series, subject to certain exceptions. If an Event of Default occurs (and is not cured), the Trustee is required, in the exercise of its power, to use the degree of care of a prudent man in the conduct of his own affairs. Subject to such provisions, the Trustee is under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder of notes of a series, unless such Holder shall have offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense and then only to the extent required by the terms of the Indenture.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator or stockholder of the Company will have any liability for any obligations of the Company under the notes or the Indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each Holder of the notes of a series by accepting such note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the notes. Such waiver and release may not be effective to waive liabilities under the U.S. Federal securities laws, and it is the view of the SEC that such a waiver is against public policy.

Governing law

The Indenture and the notes are governed by, and construed in accordance with, the laws of the State of New York.

Book-Entry System

Upon issuance, each series of notes will be represented by one or more global securities deposited with, or on behalf of the depositary. The global securities representing the notes will be registered in the name of the depositary or its nominee. Except under the circumstances described in the accompanying prospectus under “Description of Debt Securities—Book-Entry System,” the notes will not be issuable in definitive form. So long as the notes of each series are represented by one or more global securities, the depositary or its nominee will be considered the sole owner or holder of the notes of such series for all purposes under the Indenture, and the beneficial owners of the notes of such series will be entitled only to those rights and benefits afforded to them in accordance with the depositary’s regular operating procedures. See “Description of Debt Securities—Book-Entry System” in the accompanying prospectus.

A further description of the depositary's procedures with respect to global securities is set forth in the accompanying prospectus under "Description of Debt Securities—Book-Entry System." The depositary has confirmed to the Company, the underwriters and the Trustee that it intends to follow such procedures with respect to the notes.

- (2) is convertible or exchangeable at the option of the holder for Indebtedness or Disqualified Stock; or
- (3) is mandatorily redeemable or must be purchased upon the occurrence of certain events or otherwise, in whole or in part;

in each case on or prior to the first anniversary of the Stated Maturity of a series of notes; provided, however, that any Capital Stock that would not constitute Disqualified Stock but for provisions thereof giving holders thereof the right to require such Person to purchase or redeem such Capital Stock upon the occurrence of an “asset sale” or “change of control” occurring prior to the first anniversary of the Stated Maturity of such series of notes shall not constitute Disqualified Stock if:

- (4) the “asset sale” or “change of control” provisions applicable to such Capital Stock are not more favorable to the holders of such Capital Stock than the terms applicable to such series of notes and described under “—Change of Control”; and
- (5) any such requirement only becomes operative after compliance with such terms applicable to such series of notes, including the purchase of any notes of such series tendered pursuant thereto.

DESCRIPTION OF INDEBTEDNESS

For information concerning our existing indebtedness, see our Quarterly Report on Form 10-Q for the quarterly period ended July 1, 2017 under Part I, Item 1, Notes to Consolidated Condensed Financial Statements, Note 6: Debt, and the Current Report on Form 8-K filed with the SEC on August 18, 2017, both of which are incorporated by reference into this prospectus supplement and the accompanying prospectus. You should read this information in conjunction with the other information set forth in this prospectus supplement and the accompanying prospectus, including the documents incorporated by reference into this prospectus supplement and the accompanying prospectus.

MATERIAL U.S. FEDERAL TAX CONSIDERATIONS

The following are the material U.S. federal income tax consequences of owning and disposing of notes purchased in this offering at the “issue price,” which is the first price at which a substantial amount of the notes is sold to the public, and held as capital assets for U.S. federal income tax purposes.

This discussion does not describe all of the tax consequences that may be relevant to you in light of your particular circumstances, as well as differing tax consequences that may apply if you are, for instance:

- a financial institution;
- a regulated investment company;
- a dealer or trader in securities that uses a mark-to-market method of tax accounting;
- holding notes as part of a “straddle” or integrated transaction;
- a U.S. Holder (as defined below) whose functional currency is not the U.S. dollar;
- a tax-exempt entity; or
- a partnership for U.S. federal income tax purposes.

If you are a partnership for U.S. federal income tax purposes, the U.S. federal income tax treatment of your partners will generally depend on the status of the partners and your activities.

This summary is based on the Internal Revenue Code of 1986, as amended, administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein, possibly with retroactive effect. This summary does not address any aspect of state, local or non-U.S. taxation, any alternative minimum tax consequences, the potential application of the Medicare tax on net investment income or any taxes other than income taxes. You should consult your tax adviser with regard to the application of the U.S. federal tax laws to your particular situation, as well as any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

Tax Consequences to U.S. Holders

This section applies to you if you are a U.S. Holder. You are a U.S. Holder if for U.S. federal income tax purposes you are a beneficial owner of a note and are:

- a citizen or individual resident of the United States;
- a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state therein or the District of Columbia; or
- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

Certain Additional Payments

We will be required to make a payment on a note that would increase the yield of the note in the circumstances described under “Description of Notes—Change of Control.” We intend to take the position that the possibility of such a payment does not result in the notes being treated as contingent payment debt instruments under the applicable Treasury Regulations. Our position is not binding on the Internal Revenue Service (the “IRS”). If the IRS takes a contrary position, you may be required to accrue interest income based upon a “comparable yield” (as defined in the Treasury Regulations) determined at the time of issuance of the notes (which is not expected to differ significantly from the actual yield on the notes), with adjustments to such accruals when any contingent payments are made that differ from the payments based on the comparable yield.

In addition, any income on the sale, exchange, retirement or other taxable disposition of the notes would be treated as ordinary interest income rather than as capital gain. You should consult your tax adviser regarding the tax consequences if the notes were treated as contingent payment debt instruments. The remainder of this discussion assumes that the notes are not treated as contingent payment debt instruments.

Payments of Interest

Stated interest on a note will be taxable to you as ordinary interest income at the time it accrues or is received, in accordance with your method of accounting for federal income tax purposes. It is expected, and this discussion assumes, that the notes will be issued without original issue discount for U.S. federal income tax purposes.

Sale or Other Taxable Disposition of the Notes

Upon the sale or other taxable disposition of a note, you will recognize taxable gain or loss equal to the difference between the amount realized on the sale or other taxable disposition and your adjusted tax basis in the note. Your tax basis in a note will generally equal the cost of your note. For these purposes, the amount realized does not include any amount attributable to accrued interest, which is treated as described under “Payments of Interest” above.

Gain or loss realized on the sale or other taxable disposition of a note will generally be capital gain or loss and will be long-term capital gain or loss if at the time of the sale or other taxable disposition the note has been held for more than one year. Long-term capital gains recognized by non-corporate taxpayers are subject to reduced tax rates. The deductibility of capital losses is subject to limitations.

Tax Consequences to Non-U.S. Holders

This section applies to you if you are a Non-U.S. Holder. You are a Non-U.S. Holder if for U.S. federal income tax purposes you are a beneficial owner of a note that is:

- a nonresident alien individual;
- a foreign corporation; or
- a foreign estate or trust.

You are not a Non-U.S. Holder if you are a nonresident alien individual present in the United States for 183 days or more in the taxable year of disposition, or if you are a former citizen or former resident of the United States, in either of which cases you should consult your tax adviser regarding the U.S. federal income tax consequences of owning or disposing of a note.

Payments on the Notes

Subject to the discussions below under “Backup Withholding and Information Reporting” and “FATCA Legislation,” payments of principal and interest on the notes by us or any paying agent to you will not be subject to U.S. federal income or withholding tax, provided that, in the case of interest,

- you do not own, actually or constructively, ten percent or more of the total combined voting power of all classes of our stock entitled to vote;
- you are not a controlled foreign corporation related, directly or indirectly, to us through stock ownership;
- you provide to the applicable withholding agent a properly executed applicable IRS Form W-8 on which you certify, under penalties of perjury, that you are not a United States person; and

- it is not effectively connected with your conduct of a trade or business in the United States as described below.

If you cannot satisfy one of the first three requirements described above and interest on the notes is not effectively connected with your conduct of a trade or business in the United States (and thus exempt from withholding) as described below, payments of interest on the notes will be subject to withholding tax at a rate of 30% unless an income tax treaty applies to reduce or eliminate the withholding tax.

Sale or Other Taxable Disposition of the Notes

Subject to the discussions below under “Backup Withholding and Information Reporting” and “FATCA Legislation,” you generally will not be subject to U.S. federal income or withholding tax on gain realized on a sale or other taxable disposition of notes, unless the gain is effectively connected with your conduct of a trade or business in the United States as described below, although any amounts attributable to accrued interest will be treated as described above under “Payments on the Notes.”

Effectively Connected Income

If interest or gain on a note is effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment or fixed base maintained by you), you will generally be taxed in the same manner as a U.S. Holder (see “Tax Consequences to U.S. Holders” above). In this case, you will be exempt from the withholding tax on interest discussed above, although you will be required to provide a properly executed IRS Form W-8ECI in order to claim an exemption from withholding. You should consult your tax adviser with respect to other U.S. tax consequences of the ownership and disposition of notes, including the possible imposition of branch profits tax at a rate of 30% (or a lower treaty rate) if you are a corporation.

Backup Withholding and Information Reporting

If you are a U.S. Holder, information returns are required to be filed with the IRS in connection with payments on the notes and proceeds received from a sale or other disposition of the notes unless you are an exempt recipient. You may also be subject to backup withholding on these payments in respect of your notes unless you provide your taxpayer identification number and otherwise comply with applicable requirements of the backup withholding rules or you provide proof of an applicable exemption.

If you are a Non-U.S. Holder, information returns are required to be filed with the IRS in connection with payments of interest on the notes. Unless you comply with certification procedures to establish that you are not a United States person, information returns may also be filed with the IRS in connection with the proceeds from a sale or other disposition of a note. You may be subject to backup withholding on payments on the notes or on the proceeds from a sale or other disposition of the notes unless you comply with certification procedures to establish that you are not a United States person or otherwise establish an exemption. Compliance with the certification procedures required to claim the exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid backup withholding as well.

Amounts withheld under the backup withholding rules are not additional taxes and may be refunded or credited against your U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

FATCA Legislation

Provisions commonly referred to as “FATCA” impose withholding of 30% on payments of U.S.-source interest and, after December 31, 2018, on sales or redemption proceeds paid to “foreign financial institutions”

(which is broadly defined for this purpose and in general includes investment vehicles) and certain other non-U.S. entities unless various U.S. information reporting and due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with those entities) have been satisfied, or an exemption applies. An intergovernmental agreement between the United States and the entity's jurisdiction may modify these requirements. If FATCA withholding is imposed, a beneficial owner that is not a foreign financial institution generally will be entitled to a refund of any amounts withheld by filing a U.S. federal income tax return (which may entail significant administrative burden). Prospective investors should consult their tax advisers regarding the effects of FATCA on their investment in the notes.

The underwriters have agreed to purchase all of the notes sold pursuant to the underwriting agreement if any of these notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The underwriters have advised us that they propose initially to offer each series of notes to the public at the applicable public offering price on the cover page of this prospectus supplement, and may offer each series of notes to dealers at that price less a concession not in excess of 0.200% of the principal amount of the 2020 notes and 0.250% of the principal amount of the 2021 notes. The underwriters may allow, and the dealers may realow, a discount not in excess of 0.150% of the principal amount of the 2020 notes and 0.200% of the principal amount

of the 2021 notes to other dealers. After the initial public offering, the public offering price, concession and discount may be changed.

The following table shows the underwriting discount that we will pay to the underwriters in connection with the offering of the notes:

	<u>Paid by us</u>
Per 2020 note	0.350%
Total	\$1,400,000
Per 2021 note	0.450%
Total	\$2,250,000

The expenses of the offering, not including the underwriting discount, are estimated to be \$2.1 million and are payable by us.

New Issue of Notes

Each series of the notes is a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any national securities exchange or for quotation of the notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the notes or that an active public market for the notes will develop. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected.

A prospectus supplement in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. The representatives may agree to allocate a number of units to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make Internet distributions on the same basis as other allocations.

It is expected that delivery of the notes in this offering will be made against payment therefor by purchasers in this offering on or about August 23, 2017, which is the second business day following the date of the pricing of the notes, which we refer to as T+2. Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers will be expected to pay for their notes within two business days of the pricing date.

Price Stabilization and Short Positions

In connection with the offering, the underwriters are permitted to engage in transactions that stabilize the market price of each series of notes. Such transactions consist of bids or purchases to peg, fix or maintain the price of such series of notes. If the underwriters create a short position in the notes of any series in connection with the offering, i.e., if they sell more notes of such series than are on the cover page of this prospectus, the underwriters may reduce that short position by purchasing notes of such series in the open market. Purchases of a security to stabilize the price or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases. Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of any series of notes. In addition, neither we nor any of the underwriters makes any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses. In particular, an affiliate of Morgan Stanley & Co. LLC is the administrative agent, a joint lead arranger and a joint book runner, affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC and Rabo Securities USA, Inc. are joint lead arrangers and joint book runners, affiliates of US Bancorp Investments, Inc. and Wells Fargo Securities, LLC are documentation agents and affiliates of RBC Capital Markets, LLC, Barclays Capital Inc., Goldman Sachs & Co. LLC, Mizuho Securities USA LLC, Credit Agricole Securities (USA) Inc. and MUFG Securities Americas Inc. are lenders under our Term Loan Facility.

In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and instruments. The underwriters and their respective affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or financial instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments. If any of the underwriters or their respective affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby.

Conflicts of Interest

Certain affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. LLC, RBC Capital Markets, J.P. Morgan Securities LLC, Barclays Capital Inc. Goldman Sachs & Co. LLC, Mizuho Securities USA LLC, Rabo Securities USA, Inc., Credit Agricole Securities (USA) Inc., MUFG Securities Americas Inc., U.S. Bancorp Investments, Inc. and Wells Fargo Securities, LLC, each an underwriter in this offering or their affiliates that are lenders under the Term Loan Facility, may receive at least 5% of the net proceeds of this offering in connection with the repayment of the term loan tranche due 2020. See “Use of Proceeds.” Accordingly, this offering is being made in compliance with the requirements of the Financial Industry Regulatory Authority Rule 5121. Because the notes to be offered will be rated investment grade, pursuant to Rule 5121, the appointment of a qualified independent underwriter is not necessary. Underwriters subject to Rule 5121 of the Financial Industry Regulatory Authority will not confirm sales of the notes to any account over which they exercise discretionary authority without the prior written approval of the customer.

Selling Restrictions

Canada

The notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 (or, in the case of securities issued or guaranteed by the government of a non Canadian jurisdiction, section 3A.4) of National Instrument 33-105 *Underwriting Conflicts* (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

European Economic Area

Each underwriter has represented and agreed that, in relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State no offer of notes may be made to the public in that Relevant Member State other than:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant underwriter or underwriters nominated by the Company for any such offer; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of notes shall require the Company or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive or a supplemental prospectus pursuant to Article 16 of the Prospectus Directive.

This prospectus supplement has been prepared on the basis that any offer of notes in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of the offering contemplated in this prospectus supplement may only do so in circumstances in which no obligation arises for the Company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor the underwriters have authorized, nor do they authorize, the making of any offer of notes in circumstances in which an obligation arises for the Company or the underwriters to publish a prospectus for such offer.

For the purposes of this provision, the expression an "offer of notes to the public" in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

United Kingdom

Each underwriter has represented and agreed that, in the United Kingdom, this prospectus supplement and any other material in relation to the notes are being distributed only to, and are directed only at, persons who are "qualified investors" (as defined in the Prospectus Directive) who are (i) persons having professional experience

OUR COMPANY

Founded in 1935, we are one of the world's largest food companies with leading brands such as Tyson®, Jimmy Dean®, Hillshire Farm®, Sara Lee®, Ball Park®, Wright®, Aidells® and State Fair®. We are a recognized market leader in beef, pork and chicken as well as prepared foods, including bacon, breakfast sausage, turkey, lunchmeat, hot dogs, pizza crusts and toppings and tortillas. Our operations are conducted in four reportable segments: Beef, Pork, Chicken and Prepared Foods. Some of the key factors influencing our business are customer demand for our products; the ability to maintain and grow relationships with customers and introduce new and innovative products to the marketplace; accessibility of international markets; market prices for our products; the cost and availability of live cattle and hogs, raw materials, grain and feed ingredients; and operating efficiencies of our facilities.

We process live fed cattle and hogs and fabricate dressed beef and pork carcasses into primal and sub-primal meat cuts, case ready beef and pork and fully-cooked meats. In addition, we derive value from allied products such as hides and variety meats sold to further processors and others.

We also operate a fully vertically integrated chicken production process. Our integrated operations consist of breeding stock, contract growers, feed production, processing, further-processing, marketing and transportation of chicken and related allied products, including animal and pet food ingredients. Through our wholly-owned subsidiary, Cobb-Vantress, Inc., we are one of the leading poultry breeding stock suppliers in the world. Investing in breeding stock research and development allows us to breed into our flocks the characteristics found to be most desirable.

We produce a wide range of fresh, value-added, frozen and refrigerated food products. Our products are marketed and sold primarily by our sales staff to grocery retailers, grocery wholesalers, meat distributors, warehouse club stores, military commissaries, industrial food processing companies, chain restaurants or their distributors, live markets, international export companies and domestic distributors who serve restaurants, foodservice operations such as plant and school cafeterias, convenience stores, hospitals and other vendors. Additionally, sales to the military and a portion of sales to international markets are made through independent brokers and trading companies.

We commenced business in 1935, were incorporated in Arkansas in 1947, and were reincorporated in Delaware in 1986. Our Class A common stock is traded on the New York Stock Exchange under the symbol "TSN."

Our principal executive offices are located at 2200 West Don Tyson Parkway, Springdale, Arkansas 72762-6999, and our telephone number at that address is (479) 290-4000. Our website is located at <http://www.tysonfoods.com>. Information on our website is not part of this prospectus or any accompanying prospectus supplement.

Forward-looking statements include statements preceded by, followed by or that include the words “may,” “could,” “would,” “should,” “believe,” “expect,” “anticipate,” “plan,” “estimate,” “target,” “project,” “intend” and similar expressions. Such forward-looking statements include, but are not limited to, current views and estimates of our outlook for fiscal 2017, other future economic circumstances, industry conditions in domestic and international markets, our performance and financial results (e.g., debt levels, return on invested capital, value-added product growth, capital expenditures, tax rates, access to foreign markets and dividend policy). These forward-looking statements are subject to a number of factors and uncertainties that could cause our actual results and experiences to differ materially from anticipated results and expectations expressed in such forward-looking statements. We wish to caution readers not to place undue reliance on any forward-looking statements, which speak only as of the date made. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

You should refer to the “Risk Factors” section of this prospectus and to the Company’s periodic and current reports filed with the SEC for specific risks which would cause actual results to be significantly different from those expressed or implied by these forward-looking statements. It is not possible to identify all of the risks, uncertainties and other factors that may affect future results. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this prospectus may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. Accordingly, readers of this prospectus are cautioned not to place undue reliance on the forward-looking statements.

RISK FACTORS

An investment in our securities involves significant risks. Before purchasing any securities, you should carefully consider and evaluate all of the information included and incorporated by reference or deemed to be incorporated by reference in this prospectus or the applicable prospectus supplement, including the risk factors incorporated by reference herein from our Annual Report on Form 10-K for the fiscal year ended October 1, 2016, as updated by annual, quarterly and other reports and documents we file with the SEC that are incorporated by reference herein or in the applicable prospectus supplement. Our business, financial position, results of operations or liquidity could be adversely affected by any of these risks.

USE OF PROCEEDS

Unless otherwise specified in a prospectus supplement accompanying this prospectus, the net proceeds from the sale of securities to which this prospectus relates will be used for general corporate purposes. General corporate purposes may include repayment of debt, acquisitions, additions to working capital, capital expenditures and investments in our subsidiaries. Net proceeds may be temporarily invested prior to use.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our consolidated ratio of earnings to fixed charges for the periods indicated:

	Six Months Ended April 1, 2017	Fiscal Years				
		2016	2015	2014	2013	2012
Ratio of earnings to fixed charges(a)	10.61	9.26	6.32	7.38	6.71	4.58

- (a) For the purposes of calculating the ratio of earnings to fixed charges, “earnings” consist of income from continuing operations before income taxes, fixed charges, and amortization of capitalized interest, but excludes equity method investment earnings and capitalized interest. “Fixed charges” consist of (i) interest on indebtedness, whether expensed or capitalized, (ii) that portion of rental expense the Company believes to be representative of interest (one-third of rental expense) and (iii) amortization of debt discount expense.

DESCRIPTION OF CAPITAL STOCK

The following description of our capital stock is based upon our restated certificate of incorporation (“Certificate of Incorporation”), our bylaws (“Bylaws”) and applicable provisions of law. We have summarized certain portions of the Certificate of Incorporation and Bylaws below. The summary is not complete. The Certificate of Incorporation and Bylaws are incorporated by reference into the registration statement for these securities that we have filed with the SEC and have been filed as exhibits to our Annual Report on Form 10-K for the year ended October 1, 2016. You should read the Certificate of Incorporation and Bylaws for the provisions that are important to you. In this “Description of Capital Stock,” unless otherwise indicated, “we,” “us,” “our,” “the Company” and similar words refer to Tyson Foods, Inc. and not any of its subsidiaries.

Capital Stock

We currently have issued and outstanding two classes of capital stock, Class A common stock, par value \$0.10 per share, and Class B common stock, par value \$0.10 per share. Our Certificate of Incorporation authorizes the issuance of up to 900 million shares of each of Class A common stock and Class B common stock. The holders of Class A common stock are entitled to one vote, and the holders of Class B common stock are entitled to ten votes, for each share held of record on all matters submitted to stockholders, including the election of directors and such other matters as may properly come before our annual meeting and any adjournments or postponements thereof. Except as required by law, holders of Class A common stock and Class B common stock vote together as a single class; provided, however, that holders of Class A common stock and Class B common stock vote separately as a class with respect to the issuance of additional shares of Class B common stock (except in connection with stock splits and stock dividends). Holders of Class A common stock and holders of Class B common stock do not have cumulative voting rights. Holders of Class A common stock and Class B common stock are entitled to receive such dividends and other distributions in cash, stock or property of the Company as may be determined by our board of directors out of any funds legally available therefor; provided, however, that no cash dividend may be paid on Class B common stock unless a cash dividend is simultaneously paid on Class A common stock, and the per share amount of the cash dividend paid on Class B common stock cannot exceed 90% of the per share cash dividend simultaneously paid on Class A common stock. In the case of dividends or other distributions payable in common stock, including distributions pursuant to stock splits or divisions of stock of the Company which occur after the initial issuance of shares of Class B Stock by the Company, such distributions or divisions will be in the same proportion with respect to each class of stock, but only shares of Class A common stock will be distributed with respect to Class A common stock and only shares of Class B common stock will be distributed with respect to Class B common stock. In the case of any combination or reclassification of Class A common stock, the shares of Class B common stock will also be combined or reclassified so that the relationship between the number of shares of Class B common stock and Class A common stock outstanding immediately following such combination or reclassification will be the same as the relationship between Class B common stock and Class A common stock immediately prior to such combination or reclassification.

Upon liquidation of the Company, the holders of Class A common stock and Class B common stock share ratably in the assets, if any, remaining after payment of all debts and liabilities of the Company; provided that a merger or consolidation of the Company with or into any other corporation or a sale or conveyance of all or any part of the assets of the Company (which does not in fact result in the liquidation of the Company and the distribution of assets to our stockholders) will not be deemed to be a voluntary or involuntary liquidation, dissolution or winding up of the Company. Such holders do not have preemptive, conversion or redemption rights, except that each holder of Class B common stock may, at such holder’s option, and upon written notice to the Company, convert each share of Class B common stock into one fully paid and nonassessable share of Class A common stock.

The transfer agent and registrar for our Class A common stock is Computershare, Inc.

Our Class A common stock is listed on the NYSE under the symbol “TSN.”

DESCRIPTION OF DEBT SECURITIES

Any debt securities that we may issue will constitute either senior or subordinated debt of the Company. Any debt securities that are sold may be exchangeable for and/or convertible into Class A common stock or any other securities that may be sold under this prospectus. Any debt securities will be issued under an indenture dated as of June 1, 1995, as supplemented (the “Indenture”), between the Company and The Bank of New York Mellon Trust Company, N.A. (as successor to JPMorgan Chase Bank, N.A. (formerly The Chase Manhattan Bank, N.A.)), as Trustee (the “Trustee”), or one or more separate indentures between the Company and a designated trustee. We will include a prospectus supplement on the specific terms of each series of senior or subordinated debt securities being offered, including the terms, if any, on which a series of senior or subordinated debt securities may be convertible into or exchangeable for other securities.

The following is a summary of the Indenture under which senior debt securities may be issued. The following statements are subject to the detailed provisions of the Indenture. We have filed a copy of the Indenture as an exhibit to the registration statement of which this prospectus is a part. The Indenture is also available for inspection at the office of the Trustee. Section references are to the Indenture. The following summarizes the material terms of the Indenture; however, the following summaries of certain provisions of the Indenture are not complete. Wherever particular provisions of the Indenture are referred to, such provisions, including definitions of certain terms, are incorporated by reference as part of such summaries or terms, which are qualified in their entirety by such reference to the provisions of the Indenture. Definitions of certain terms used in this “Description of Debt Securities” may be found below under “—Certain Definitions.” In this “Description of Debt Securities,” unless otherwise indicated, “we,” “us,” “our,” “the Company” and similar words refer to Tyson Foods, Inc. and not any of its subsidiaries.

General

The Indenture does not limit the aggregate principal amount of debt securities which may be issued under the Indenture and provides that the debt securities may be issued from time to time in one or more series, as authorized from time to time by our Board of Directors, any committee of our Board of Directors or any duly authorized officer. The debt securities will be direct, unsecured and unsubordinated obligations of the Company and will rank on a parity with our other unsecured and unsubordinated indebtedness. The debt securities will be effectively subordinated to our senior secured indebtedness to the extent of the value of the collateral securing such indebtedness. Except as described under “Certain Covenants,” the Indenture does not limit other indebtedness or securities which may be incurred or issued by the Company or any of its subsidiaries or contain financial or similar restrictions on the Company or any of its subsidiaries. The Company’s rights and the rights of its creditors, including holders of debt securities, to participate in any distribution of assets of any subsidiary upon the latter’s liquidation or reorganization or otherwise are effectively subordinated to the claims of the subsidiary’s creditors, except to the extent that the Company or any of its creditors may itself be a creditor of that subsidiary.

The particular terms of a series of debt securities will be set forth in an officers’ certificate or supplemental indenture, and described in the applicable prospectus supplement. We urge you to read the Indenture as supplemented by any officers’ certificate or supplemental indenture because the Indenture, as supplemented, and not this section, defines your rights as a holder of the debt securities.

The prospectus supplement which accompanies this prospectus will set forth where applicable the following terms of and information relating to the debt securities in respect of which this prospectus is being delivered (“Offered Securities”):

- the designation of the Offered Securities;
- the aggregate principal amount of the Offered Securities;
- the date or dates on which principal of, and premium, if any, on the Offered Securities is payable;

[Table of Contents](#)

- the rate or rates at which the Offered Securities shall bear interest, if any, or the method by which such rate shall be determined, and the basis on which interest shall be calculated if other than a 360-day year consisting of twelve 30-day months, the date or dates from which such interest will accrue and on which such interest will be payable and the related record dates;
- if other than the offices of the Trustee, the place where the principal of and any premium or interest on the Offered Securities will be payable;
- any redemption, repayment or sinking fund provisions;
- if other than denominations of \$1,000 or multiples of \$1,000, the denominations in which the Offered Securities will be issuable;
- if other than the principal amount of such debt security, the portion of the principal amount due upon acceleration;
- if other than U.S. dollars, the currency or currencies (including composite currencies) in which the Offered Securities are denominated or payable;
- whether the Offered Securities shall be issued in the form of a global security or securities;
- if applicable, a discussion of any material United States federal income tax considerations;
- any other specific terms of the Offered Securities; and
- the identity of any trustees, depositories, authenticating or paying agents, transfer agents or registrars with respect to the Offered Securities. (Section 2.3)

The debt securities will be issued either in certificated, fully registered form, without coupons, or as global securities under a book-entry system, as specified in the accompanying prospectus supplement. See “Form of Securities.”

Unless otherwise specified in the accompanying prospectus supplement, principal and premium, if any, will be payable, and the debt securities will be transferable and exchangeable without any service charge, at the office of the Trustee. However, the Company may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with any such transfer or exchange. (Sections 2.7, 4.1 and 4.2)

Unless otherwise specified in the accompanying prospectus supplement, interest on any series of debt securities will be payable on the interest payment dates set forth in the accompanying prospectus supplement to the persons in whose names the debt securities are registered at the close of business on the related record date and will be paid, at the option of the Company, by wire transfer or by checks mailed to such persons. (Sections 2.7 and 4.1)

If the debt securities are issued as Original Issue Discount Securities (as defined in the Indenture) bearing no interest or interest at a rate which at the time of issuance is below market rates and are to be sold at a substantial discount below their stated principal amount, the other special considerations applicable to such Original Issue Discount Securities will be generally described in the prospectus supplement.

Unless otherwise described in the accompanying prospectus supplement, there are no covenants or provisions contained in the Indenture which afford the holders of the debt securities protection in the event of a highly leveraged transaction involving the Company. Reference is made to the applicable prospectus supplement for information with respect to any additions to, or modifications or deletions of, the events of default or covenants described below.

Certain Covenants

Restrictions on Liens. The Indenture provides that the Company will not, and will not permit any Restricted Subsidiary (as defined below) to, create, incur or suffer to exist any mortgage or pledge, as security for any

indebtedness, on or of any shares of stock, indebtedness or other obligations of a Subsidiary (as defined below) or any Principal Property (as defined below) of the Company or a Restricted Subsidiary, whether such shares of stock, indebtedness or other obligations of a Subsidiary or Principal Property is owned at the date of the Indenture or acquired after the date of the Indenture, unless the Company secures or causes such Restricted Subsidiary to secure the outstanding debt securities equally and ratably with all indebtedness secured by such mortgage or pledge, so long as such indebtedness shall be so secured. This covenant will not apply in the case of:

- (i) the creation of any mortgage, pledge or other lien on any shares of stock, indebtedness or other obligations of a Subsidiary or any Principal Property acquired after the date of the Indenture (including acquisitions by way of merger or consolidation) by the Company or a Restricted Subsidiary contemporaneously with such acquisition, or within 180 days after such acquisition, to secure or provide for the payment or financing of any part of the purchase price of such acquisition, or the assumption of any mortgage, pledge or other lien upon any shares of stock, indebtedness or other obligations of a Subsidiary or any Principal Property acquired after the date of the Indenture existing at the time of such acquisition, or the acquisition of any shares of stock, indebtedness or other obligations of a Subsidiary or any Principal Property subject to any mortgage, pledge or other lien without the assumption of such mortgage, pledge or other liens, provided that every such mortgage, pledge or lien referred to in this clause (i) will attach only to the shares of stock, indebtedness or other obligations of a Subsidiary or any Principal Property so acquired and fixed improvements on such Principal Property;
- (ii) any mortgage, pledge or other lien on any shares of stock, indebtedness or other obligations of a Subsidiary or any Principal Property existing at the date of this Indenture;
- (iii) any mortgage, pledge or other lien on any shares of stock, indebtedness or other obligations of a Subsidiary or any Principal Property in favor of the Company or any Restricted Subsidiary;
- (iv) any mortgage, pledge or other lien on Principal Property being constructed or improved securing loans to finance such construction or improvements;
- (v) any mortgage, pledge or other lien on shares of stock, indebtedness or other obligations of a Subsidiary or any Principal Property incurred in connection with the issuance of tax-exempt governmental obligations; and
- (vi) any renewal of or substitution for any mortgage, pledge or other lien permitted by any of the preceding clauses (i) through (v), provided, in the case of a mortgage, pledge or other lien permitted under clause (i), (ii) or (iv), the indebtedness secured is not increased nor the lien extended to any additional shares of stock, indebtedness or other obligations of a Subsidiary or any additional Principal Property.

Notwithstanding the foregoing, the Company or any Restricted Subsidiary may create or assume liens in addition to those permitted by this paragraph, and renew, extend or replace such liens, provided that at the time of such creation, assumption, renewal, extension or replacement, and after giving effect to such creation, assumption, renewal, extension or replacement, Exempted Debt (as defined below) does not exceed 10% of Consolidated Net Tangible Assets (as defined below). (Section 4.3)

Restrictions on Sale and Lease-Back Transactions. The Indenture provides that the Company will not, and will not permit any Restricted Subsidiary to, sell or transfer, directly or indirectly, except to the Company or a Restricted Subsidiary, any Principal Property as an entirety, or any substantial portion of such property, with the intention of taking back a lease of such property, except a lease for a period of three years or less at the end of which it is intended that the use of such property by the lessee will be discontinued; provided that, notwithstanding the foregoing, the Company or any Restricted Subsidiary may sell any such Principal Property and lease it back for a longer period (i) if the Company or such Restricted Subsidiary would be entitled, pursuant to the provisions described above under “—Restrictions on Liens,” to create a mortgage on the property to be leased securing Funded Debt (as defined below) in an amount equal to the Attributable Debt (as defined below) with respect to such sale and lease-back transaction without equally and ratably securing the outstanding debt securities or (ii) if (A) the Company promptly informs the Trustee of such transaction, (B) the net proceeds of

such transaction are at least equal to the fair value (as determined by board resolution of the Company) of such property and (C) the Company causes an amount equal to the net proceeds of the sale to be applied to the retirement, within 180 days after receipt of such proceeds, of Funded Debt incurred or assumed by the Company or a Restricted Subsidiary (including the debt securities); provided further that, in lieu of applying all of or any part of such net proceeds to such retirement, the Company may, within 75 days after such sale, deliver or cause to be delivered to the applicable trustee for cancellation either debentures or notes evidencing Funded Debt of the Company (which may include the outstanding debt securities) or of a Restricted Subsidiary previously authenticated and delivered by the applicable trustee, and not previously tendered for sinking fund purposes or called for a sinking fund or otherwise applied as a credit against an obligation to redeem or retire such notes or debentures, and an officers' certificate (which will be delivered to the Trustee and each paying agent and which need not contain the statements prescribed by the second paragraph of Section 10.4 of the Indenture) stating that the Company elects to deliver or cause to be delivered such debentures or notes in lieu of retiring Funded Debt as provided in the Indenture. If the Company shall so deliver debentures or notes to the applicable trustee and the Company shall duly deliver such officers' certificate, the amount of cash which the Company will be required to apply to the retirement of Funded Debt under this provision of the Indenture shall be reduced by an amount equal to the aggregate of the then applicable optional redemption prices (not including any optional sinking fund redemption prices) of such debentures or notes or, if there are no such redemption prices, the principal amount of such debentures or notes; provided, that in the case of debentures or notes which provide for an amount less than the principal amount of such debentures or notes to be due and payable upon a declaration of the maturity of such debentures or notes, such amount of cash shall be reduced by the amount of principal of such debentures or notes that would be due and payable as of the date of such application upon a declaration of acceleration of the maturity of such debentures or notes pursuant to the terms of the Indenture pursuant to which such debentures or notes were issued. Notwithstanding the foregoing, the Company or any Restricted Subsidiary may enter into sale and lease-back transactions in addition to those permitted by this paragraph and without any obligation to retire any outstanding debt securities or other Funded Debt, provided that at the time of entering into such sale and lease-back transactions and after giving effect to such transactions, Exempted Debt does not exceed 10% of Consolidated Net Tangible Assets. (Section 4.4)

Certain Definitions

The term "Attributable Debt" as defined in the Indenture means, as to any particular lease under which any Person (as defined in the Indenture) is at the time liable, other than a capital lease, and at any date as of which the amount of such lease is to be determined, the total net amount of rent required to be paid by such Person under such lease during the initial term of such lease as determined in accordance with generally accepted accounting principles, discounted from the last date of such initial term to the date of determination at a rate per annum equal to the discount rate which would be applicable to a capital lease with like term in accordance with generally accepted accounting principles. The net amount of rent required to be paid under any such lease for any such period shall be the aggregate amount of rent payable by the lessee with respect to such period after excluding amounts required to be paid on account of insurance, taxes, assessments, utility, operating and labor costs and similar charges. In the case of any lease which is terminable by the lessee upon the payment of a penalty, such net amount shall also include the amount of such penalty, but no rent shall be considered as required to be paid under such lease subsequent to the first date upon which it may be so terminated. "Attributable Debt" means, as to a capital lease under which any Person is at the time liable and at any date as of which the amount of such lease is to be determined, the capitalized amount of such lease that would appear on the face of a balance sheet of such Person in accordance with generally accepted accounting principles.

The term "Consolidated Net Tangible Assets" as defined in the Indenture means the excess over the current liabilities of the Company of all of its assets as determined by the Company and as would be set forth in a consolidated balance sheet of the Company and its Subsidiaries, on a consolidated basis, in accordance with generally accepted accounting principles as of a date within 90 days of the date of such determination, after deducting goodwill, trademarks, patents, other like intangibles and minority interests of others.

- (ii) Attributable Debt of the Company and its Restricted Subsidiaries in respect of all sale and lease-back transactions with regard to any Principal Property entered into pursuant to the provision described in the last sentence under “—Certain Covenants—Restrictions on Sale and Lease-Back Transactions.”

The term “Funded Debt” as defined in the Indenture means all indebtedness for money borrowed, including purchase money indebtedness, having a maturity of more than one year from the date of its creation or having a maturity of less than one year but by its terms being renewable or extendible, at the option of the obligor in respect of such indebtedness, beyond one year from its creation.

- (ii) certain property referred to in the Indenture; and
- (iii) any asset held by Tyson Holding Company (which was subsequently merged with and into Tyson Foods, Inc.)

The term “Restricted Subsidiary” as defined in the Indenture means any Subsidiary organized and existing under the laws of the United States of America and the principal business of which is carried on within the United States of America which owns or is a lessee pursuant to a capital lease of any Principal Property or owns shares of capital stock or indebtedness of another Restricted Subsidiary other than:

- (ii) each Subsidiary formed or acquired after the date of the Indenture for the purpose of acquiring the business or assets of another person and which does not acquire all or any substantial part of the business or assets of the Company or any Restricted Subsidiary;

provided, however, the Board of Directors of the Company may declare any such Subsidiary to be a Restricted Subsidiary effective as of the date such resolution is adopted.

The term “Subsidiary” as defined in the Indenture means, with respect to any Person, any corporation, association or other business entity of which more than 50% of the outstanding Voting Stock (as defined in the Indenture) is owned, directly or indirectly, by such Person and one or more other Subsidiaries of such Person.

Restrictions on Consolidations, Mergers and Sales of Assets

The Indenture provides that the Company will not consolidate with, merge with or into, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its property and assets (as an entirety or

substantially an entirety in one transaction or a series of related transactions) to, any Person (other than a consolidation with or merger with or into a Subsidiary) or permit any Person to merge with or into the Company unless:

(a) either

(i) the Company will be the continuing Person or

(b) immediately after giving effect to such transaction, no Default (as defined in the Indenture) shall have occurred and be continuing. (Section 5.1)

Events of Default

An “Event of Default,” as defined in the Indenture and applicable to debt securities, will occur with respect to the debt securities of any series if:

(a) the Company defaults in the payment of the principal of any debt security of such series when the same becomes due and payable at maturity, upon acceleration, redemption, mandatory repurchase or otherwise;

(b) the Company defaults in the payment of interest on any debt security of such series when the same becomes due and payable, and such default continues for a period of 30 days;

(c) the Company defaults in the performance of or breaches any other covenant or agreement of the Company in the Indenture with respect to the debt securities of such series and such default or breach continues for a period of 30 consecutive days after written notice to the Company by the Trustee or to the Company and the Trustee by the Holders (as defined in the Indenture) of 25% or more in aggregate principal amount of the debt securities of such series;

(d) an involuntary case or other proceeding shall be commenced against the Company with respect to it or its debts under any bankruptcy, insolvency or other similar law seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property, and such involuntary case or other proceeding shall remain undismissed and unstayed for a period of 60 days; or an order for relief shall be entered against the Company under the federal bankruptcy laws;

(f) any other Events of Default set forth in the applicable prospectus supplement occurs. (Section 6.1)

[Table of Contents](#)

The Indenture provides that if an Event of Default described in clauses (a), (b), (c) or (f) above (if such Event of Default under clause (c) or (f) is with respect to one or more but not all series of debt securities then outstanding) occurs and is continuing, then, and in each and every such case, except for any series of debt securities the principal of which shall have already become due and payable, either the Trustee or the Holders of not less than 25% in aggregate principal amount of the debt securities of each such series then outstanding under the Indenture (each such series voting as a separate class) by notice in writing to the Company (and to the Trustee if given by Holders), may declare the entire principal (or, if the debt securities of any such series are Original Issue Discount Securities, such portion of the principal amount as may be specified in the terms of such series and set forth in the applicable prospectus supplement) of all debt securities of all such series, and the interest accrued on such debt securities, if any, to be due and payable immediately, and upon any such declaration the same shall become immediately due and payable. If an Event of Default described in clause (c) or (f) occurs and is continuing with respect to all series of debt securities then outstanding, then and in each and every such case, unless the principal of all the debt securities shall have already become due and payable, either the Trustee or the Holders of not less than 25% in aggregate principal amount of all the debt securities then outstanding under the Indenture (treated as one class), by notice in writing to the Company (and to the Trustee if given by Holders), may declare the entire principal (or, if any debt securities are Original Issue Discount Securities, such portion of the principal as may be specified in the terms of such Original Issue Discount Securities and set forth in the applicable prospectus supplement) of all the debt securities then outstanding and interest accrued on such debt securities, if any, to be due and payable immediately, and upon any such declaration the same shall become immediately due and payable. If an Event of Default described in clause (d) or (e) occurs and is continuing, then the principal amount (or, if any debt securities are Original Issue Discount Securities, such portion of the principal as may be specified in the terms of such Original Issue Discount Securities and set forth in the applicable prospectus supplement) of all the debt securities then outstanding and interest accrued on such debt securities, if any, shall be and become immediately due and payable, without any notice or other action by any Holder or the Trustee, to the full extent permitted by applicable law.

The provisions described in the paragraph above, however, are subject to the condition that if, at any time after the principal (or, if the debt securities are Original Issue Discount Securities, such portion of the principal as may be specified in the terms of such Original Issue Discount Securities and set forth in the applicable prospectus supplement) of the debt securities of any series (or of all the debt securities, as the case may be) shall have been so declared due and payable, and before any judgment or decree for the payment of the moneys due shall have been obtained or entered as provided in the Indenture, the Company will pay or will deposit with the Trustee a sum sufficient to pay all matured installments of interest upon all the debt securities of each such series (or of all the debt securities, as the case may be) and the principal of any and all debt securities of each such series (or of all the debt securities, as the case may be) which shall have become due otherwise than by acceleration (with interest upon such principal and, to the extent that payment of such interest is enforceable under applicable law, on overdue installments of interest, at the same rate as the rate of interest or yield to maturity (in the case of Original Issue Discount Securities) specified in the debt securities of each such series and set forth in the applicable prospectus supplement to the date of such payment or deposit) and such amount as shall be sufficient to cover all amounts owing to the Trustee and each predecessor Trustee, their respective agents, attorneys and counsel, and all other expenses and liabilities incurred, and all advances made, by the Trustee and each predecessor Trustee except as a result of negligence or bad faith, and if any and all Events of Default under the Indenture, other than the non-payment of the principal of debt securities which shall have become due by acceleration, shall have been cured, waived or otherwise remedied as provided in the Indenture, then and in every such case the Holders of a majority in aggregate principal amount of all the debt securities of each such series, or of all the debt securities, in each case voting as a single class, then outstanding, by written notice to the Company and to the Trustee, may waive all defaults with respect to each such series (or with respect to all the debt securities, as the case may be) and rescind and annul such declaration and its consequences, but no such waiver or rescission and annulment will extend to or shall affect any subsequent default or shall impair any right consequent on such default. For all purposes under the Indenture, if a portion of the principal of any Original Issue Discount Securities shall have been accelerated and declared due and payable pursuant to the provisions described above, then, from and after such declaration, unless such declaration has been rescinded and annulled,

the principal amount of such Original Issue Discount Securities will be deemed, for all purposes under the Indenture, to be such portion of the principal of such Original Issue Discount Securities as shall be due and payable as a result of such acceleration, and payment of such portion of the principal of such Original Issue Discount Securities as shall be due and payable as a result of such acceleration, together with interest, if any, on such Original Issue Discount Securities and all other amounts owing under the Indenture, shall constitute payment in full of such Original Issue Discount Securities. (Section 6.2)

The Indenture contains a provision under which, subject to the duty of the Trustee during a default to act with the standard of care required by law:

(i) the Trustee may rely and will be protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, other evidence of indebtedness or other paper or document believed by it to be genuine and to have been signed or presented by the proper person, and the Trustee need not investigate any fact or matter stated in the document, but the Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit;

(ii) before the Trustee acts or refrains from acting, it may require an officers' certificate or an opinion of counsel, and the Trustee shall not be liable for any action it takes or omits to take in good faith in reliance on such certificate or opinion;

(iii) the Trustee may act through its attorneys and agents and shall not be responsible for the misconduct or negligence of any agent appointed with due care;

(iv) the Trustee shall be under no obligation to exercise any of the rights or powers vested in it by the Indenture at the request or direction of any of the Holders, unless such Holders shall have offered to the Trustee reasonable security or indemnity against the costs, expenses and liabilities that might be incurred by it in compliance with such request or direction;

(v) the Trustee shall not be liable for any action it takes or omits to take in good faith that it believes to be authorized or within its rights or powers or for any action it takes or omits to take in accordance with the direction of the Holders of a majority in principal amount of the outstanding debt securities relating to the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred upon the Trustee, under the Indenture; and

(vi) the Trustee may consult with counsel and the written advice of such counsel or any opinion of counsel shall be full and complete authorization and protection in respect of any action taken, suffered or omitted by it under the Indenture in good faith and in reliance on such advice or opinion. (Section 7.2)

Subject to such provisions in the Indenture for the indemnification of the Trustee and certain other limitations, the Holders of at least a majority in aggregate principal amount of the outstanding debt securities of each series affected (each such series voting as a separate class) may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee; provided, that the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in personal liability, or that the Trustee determines in good faith may be unduly prejudicial to the rights of Holders not joining in the giving of such direction; and provided further, that the Trustee may take any other action it deems proper that is not inconsistent with any directions received from Holders of debt securities pursuant to this paragraph. (Section 6.5)

The Indenture provides that no Holder of any debt security of any series may institute any proceeding, judicial or otherwise, with respect to the Indenture or the debt securities of such series, or for the appointment of a receiver or trustee, or for any other remedy under the Indenture, unless:

(i) such Holder has previously given to the Trustee written notice of a continuing Event of Default with respect to the debt securities of such series;

- (ii) the Holders of at least 25% in aggregate principal amount of outstanding debt securities of such series shall have made written request to the Trustee to institute proceedings in respect of such Event of Default in its own name as Trustee under the Indenture;
- (iii) such Holder or Holders have offered to the Trustee indemnity reasonably satisfactory to the Trustee against any costs, liabilities or expenses to be incurred in compliance with such request;
- (iv) the Trustee for 60 days after its receipt of such notice, request and offer of indemnity has failed to institute any such proceeding; and
- (v) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding debt securities of such series have not given the Trustee a direction that is inconsistent with such written request.

A Holder may not use the Indenture to prejudice the rights of another Holder or to obtain a preference or priority over such other Holder. (Section 6.6)

The Indenture contains a covenant that the Company will file annually, not more than 90 days after the end of its fiscal year, with the Trustee a certification from the principal executive officer, principal financial officer or principal accounting officer that a review has been conducted of the activities of the Company and its Subsidiaries and the Company's and its Subsidiaries' performance under the Indenture and that the Company has complied with all conditions and covenants under the Indenture. (Section 4.6)

Discharge, Defeasance and Covenant Defeasance

The Indenture provides that, except as provided below, the Company may terminate its obligations under the debt securities of any series and the Indenture with respect to debt securities of such series if:

- (i) all debt securities of such series previously authenticated and delivered (other than destroyed, lost or stolen debt securities of such series that have been replaced or debt securities of such series that are fully paid or debt securities of such series for whose payment money or debt securities have previously been held in trust and subsequently repaid to the Company, as provided in the Indenture) have been delivered to the Trustee for cancellation and the Company has paid all sums payable by it under the Indenture; or

- (ii)(A) the debt securities of such series mature within one year or all of them are to be called for redemption within one year under arrangements satisfactory to the Trustee for giving the notice of redemption, (B) the Company irrevocably deposits in trust with the Trustee, as trust funds solely for the benefit of the Holders of such debt securities for that purpose, money or U.S. Government Obligations (as defined in the Indenture) or a combination of money and U.S. Government Obligations sufficient (in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification of such firm delivered to the Trustee), without consideration of any reinvestment, to pay principal of and interest on the debt securities of such series to maturity or redemption, as the case may be, and to pay all other sums payable by it under the Indenture, (C) no default with respect to the debt securities of such series has occurred and is continuing on the date of such deposit, (D) such deposit does not result in a breach or violation of, or constitute a default under, the Indenture or any other agreement or instrument to which the Company is a party or by which it is bound and (E) the Company delivers to the Trustee an officers' certificate and an opinion of counsel, in each case stating that all conditions precedent provided for in the Indenture relating to the satisfaction and discharge of the Indenture have been complied with.

With respect to the foregoing clause (i), only the Company's obligations under Section 7.7 of the Indenture in respect of the debt securities of such series shall survive. With respect to the foregoing clause (ii), only the Company's obligations in Sections 2.2 (Execution and Authorization), 2.3 (Amount Unlimited; Issuable in Series), 2.4 (Denomination and Date of Securities; Payments of Interest), 2.5 (Registrar and Paying Agent; Agents Generally), 2.6 (Paying Agent to Hold Money in Trust), 2.7 (Transfer and Exchange), 2.11 (Cancellation), 4.2 (Maintenance of Office or Agency), 7.7 (Compensation and Indemnity), 7.8 (Replacement of Trustee), 8.5 (Repayment by Company) and 8.6 (Reinstatement) of the Indenture in respect of the debt securities

of such series shall survive until the debt securities of such series are no longer outstanding. Once there are no longer any debt securities of a particular series outstanding, only the Company's obligations in Sections 7.7, 8.5 and 8.6 of the Indenture in respect of the debt securities of such series shall survive. After any such irrevocable deposit, the Trustee upon request shall acknowledge in writing the discharge of the Company's obligations under the debt securities of such series and this Indenture with respect to the debt securities of such series except for those surviving obligations specified above. (Section 8.1)

The Indenture provides that, except as provided below, the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the debt securities of any series after the period specified in clause (iv)(2)(z) below of this paragraph, and the provisions of the Indenture will no longer be in effect with respect to the debt securities of such series, and the Trustee, at the expense of the Company, shall execute proper instruments acknowledging the same; provided, that the following conditions shall have been satisfied:

(i) the Company has irrevocably deposited in trust with the Trustee as trust funds solely for the benefit of the Holders for payment of the principal of and interest on the debt securities of such series, money or U.S. Government Obligations or a combination of money or U.S. Government Obligations sufficient (in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification of such firm delivered to the Trustee) without consideration of any reinvestment and after payment of all federal, state and local taxes or other charges and assessments in respect of such funds payable by the Trustee, to pay and discharge the principal of and accrued interest on the outstanding debt securities of such series to maturity or earlier redemption (irrevocably provided for under arrangements satisfactory to the Trustee), as the case may be;

(ii) such deposit will not result in a breach or violation of, or constitute a default under, the Indenture or any other agreement or instrument to which the Company is a party or by which it is bound;

(iii) no Default (as defined in the Indenture) with respect to the debt securities of such series shall have occurred and be continuing on the date of such deposit or at any time during the period specified in clause (iv)(2)(z) below;

(iv) the Company shall have delivered to the Trustee (1) either (x) a ruling directed to the Trustee received from the Internal Revenue Service to the effect that the Holders of the debt securities of such series will not recognize income, gain or loss for federal income tax purposes as a result of the Company's exercise of its option under this provision of the Indenture and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case if such option had not been exercised or (y) an opinion of counsel to the same effect as the ruling described in clause (x) above and based on a change in law and (2) an opinion of counsel to the effect that (x) the creation of the defeasance trust does not violate the Investment Company Act of 1940, as amended, (y) the Holders of the debt securities of such series have a valid first priority security interest in the trust funds, and (z) after the passage of 123 days following the deposit (except after one year following the deposit, with respect to any trust funds for the account of any Holder of the debt securities of such series who may be deemed to be an "insider" as to an obligor on the debt securities of such series for purposes of the United States Bankruptcy Code), the trust funds will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law in a case commenced by or against the Company under either such statute, and either (I) the trust funds will no longer remain the property of the Company (and therefore will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally) or (II) if a court were to rule under any such law in any case or proceeding that the trust funds remained in the property of the Company, to the extent not paid to such Holders, the Trustee will hold, for the benefit of such Holders, a valid and perfected first priority security interest in such trust funds that is not avoidable in bankruptcy or otherwise (except for the effect of Section 552(b) of the United States Bankruptcy Code on interest on the trust funds accruing after the commencement of a case under such statute) and the Holders of the debt securities of such series will be entitled to receive adequate protection of their interests in such trust funds if such trust funds are used in such case or proceeding;

(v) if the debt securities of such series are then listed on a national securities exchange, the Company shall have delivered to the Trustee an opinion of counsel to the effect that the defeasance contemplated by this provision of the Indenture of the debt securities of such series will not cause the debt securities of such series to be delisted; and

(vi) the Company has delivered to the Trustee an officers, certificate and an opinion of counsel, in each case stating that all conditions precedent provided for in the Indenture relating to the defeasance contemplated by this provision of the Indenture of the debt securities of such series have been complied with. Notwithstanding the foregoing, prior to the end of the 123-day (or one year) period referred to in clause (iv)(2)(z) of this paragraph, none of the Company's obligations under the Indenture with respect to the debt securities of such series shall be discharged. Subsequent to the end of such 123-day (or one year) period, the Company's obligations in Sections 2.2 (Execution and Authorization), 2.3 (Amount Unlimited; Issuable in Series), 2.4 (Denomination and Date of Securities; Payments of Interest), 2.5 (Registrar and Paying Agent; Agents Generally), 2.6 (Paying Agent to Hold Money in Trust), 2.7 (Transfer and Exchange), 2.11 (Cancellation), 4.2 (Maintenance of Office or Agency), 7.7 (Compensation and Indemnity), 7.8 (Replacement of Trustee), 8.5 (Repayment by Company) and 8.6 (Reinstatement) of the Indenture with respect to the debt securities of such series shall survive until such debt securities are no longer outstanding. Once there are no longer any debt securities of a particular series outstanding, only the Company's obligations in Sections 7.7 (Compensation and Indemnity), 8.5 (Repayment by Company) and 8.6 (Reinstatement) of the Indenture with respect to the debt securities of such series shall survive. If and when a ruling from the Internal Revenue Service or an opinion of counsel referred to in clause (iv)(1) of this paragraph is able to be provided specifically without regard to, and not in reliance upon, the continuance of the Company's obligations under Section 4.1 (Payment of Securities) of the Indenture, then the Company's obligations under such Section 4.1 of the Indenture with respect to the debt securities of such series shall cease upon delivery to the Trustee of such ruling or opinion of counsel and compliance with the other conditions precedent provided for in this provision of the Indenture relating to the defeasance contemplated by this provision of the Indenture. (Section 8.2)

The Indenture provides that the Company may omit to comply with any term, provision or condition described under "—Certain Covenants," and such omission shall be deemed not to be an Event of Default, with respect to the outstanding debt securities of any series if:

(i) the Company has irrevocably deposited in trust with the Trustee as trust funds solely for the benefit of the Holders of the debt securities of such series for payment of the principal of and interest, if any, on the debt securities of such series money or U.S. Government Obligations or a combination of money or U.S. Government Obligations in an amount sufficient (in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification of such firm delivered to the Trustee) without consideration of any reinvestment and after payment of all federal, state and local taxes or other charges and assessments in respect of such funds payable by the Trustee, to pay and discharge the principal of and interest on the outstanding debt securities of such series to maturity or earlier redemption (irrevocably provided for under arrangements satisfactory to the Trustee), as the case may be;

(ii) such deposit will not result in a breach or violation of, or constitute a default under, the Indenture or any other agreement or instrument to which the Company is a party or by which it is bound;

(iii) no Default with respect to the debt securities of such series shall have occurred and be continuing on the date of such deposit;

(iv) the Company has delivered to the Trustee an opinion of counsel to the effect that (A) the creation of the defeasance trust does not violate the Investment Company Act of 1940, as amended, (B) the Holders of the debt securities of such series have a valid first-priority security interest in the trust funds, (C) such Holders will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and covenant defeasance and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred and (D) after the passage of 123 days following the deposit (except after one year following the deposit, with respect to any trust

funds for the account of any Holder of the debt securities of such series who may be deemed to be an “insider” as to an obligor on the debt securities of such series for purposes of the United States Bankruptcy Code), the trust funds will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law in a case commenced by or against the Company under either such statute, and either (1) the trust funds will no longer remain the property of the Company (and therefore will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors’ rights generally) or (2) if a court were to rule under any such law in any case or proceeding that the trust funds remained property of the Company, to the extent not paid to such Holders, the Trustee will hold, for the benefit of such Holders, a valid and perfected first priority security interest in such trust funds that is not avoidable in bankruptcy or otherwise (except for the effect of Section 552(b) of the United States Bankruptcy Code on interest on the trust funds accruing after the commencement of a case under such statute), and the Holders of the debt securities of such series will be entitled to receive adequate protection of their interests in such trust funds if such trust funds are used in such case or proceeding;

(v) if the debt securities of such series are then listed on a national securities exchange, the Company shall have delivered to the Trustee an opinion of counsel to the effect that the covenant defeasance contemplated by this provision of the Indenture of the debt securities of such series will not cause the debt securities of such series to be delisted; and

(vi) the Company has delivered to the Trustee an officers’ certificate and an opinion of counsel, in each case stating that all conditions precedent provided for in the Indenture relating to the covenant defeasance contemplated by this provision of the Indenture of the debt securities of such series have been complied with. (Section 8.3)

Modification of the Indenture

The Indenture provides that the Company and the Trustee may amend or supplement the Indenture or the debt securities of any series without notice to or the consent of any Holder:

- (i) to cure any ambiguity, defect or inconsistency in the Indenture; provided, that such amendments or supplements shall not adversely affect the interests of the Holders in any material respect;
- (ii) to comply with Article 5 (Successor Corporation) of the Indenture;
- (iii) to comply with any requirements of the Commission in connection with the qualification of the Indenture under the Trust Indenture Act;
- (iv) to evidence and provide for the acceptance of appointment under the Indenture with respect to the debt securities of any or all series by a successor Trustee;
- (v) to establish the form or forms or terms of debt securities of any series or of the coupons appertaining to such debt securities as permitted by the Indenture;
- (vi) to provide for uncertificated debt securities and to make all appropriate changes for such purpose; or
- (vii) to make any change that does not materially and adversely affect the rights of any Holder. (Section 9.1)

The Indenture also provides that, without prior notice to any Holders, the Company and the Trustee may amend the Indenture and the debt securities of any series outstanding under the Indenture with the written consent of the Holders of a majority in principal amount of the outstanding debt securities of all series affected by such supplemental indenture (all such series voting as one class). The Indenture also provides that the Holders of a majority in principal amount of the outstanding debt securities of all series affected by such supplemental indenture (all such series voting as one class) by written notice to the Trustee may waive future compliance by the Company with any provision of the Indenture or the debt securities of such series. Notwithstanding the foregoing provision, without the consent of each Holder of the debt securities of each series affected by such

supplemental indenture, an amendment or waiver, including a waiver pursuant to Section 6.4 of the Indenture, may not:

- (i) extend the stated maturity of the principal of, or any sinking fund obligation or any installment of interest on, such Holder's debt security;
- (ii) reduce the principal amount of such debt security or the rate of interest on such debt security (including any amount in respect of original issue discount), or any premium payable with respect to such debt security;
- (iii) adversely affect the rights of such Holder under any mandatory repurchase provision or any right of repurchase at the option of such Holder;
- (iv) reduce the amount of the principal of an Original Issue Discount Security that would be due and payable upon an acceleration of the maturity of such debt security pursuant to the Indenture or the amount of such debt security provable in bankruptcy;
- (v) change any place of payment where, or the currency in which, any debt security of such series or any premium or the interest on such debt security is payable;
- (vi) impair the right to institute suit for the enforcement of any such payment on or after the stated maturity of such debt security (or, in the case of redemption, on or after the redemption date or, in the case of mandatory repurchase, the date of such repurchase);
- (vii) reduce the percentage in principal amount of outstanding debt security of such series the consent of whose Holders is required for any such supplemental indenture, for any waiver of compliance with certain provisions of the Indenture or certain Defaults and their consequences provided for in the Indenture;
- (viii) waive a Default in the payment of principal of or interest on, any debt security of such series;
- (ix) cause any debt security of such series to be subordinated in right of payment to any obligation of the Company; or
- (x) modify any of the provisions of this section of the Indenture, except to increase any such percentage or to provide that certain other provisions of the Indenture cannot be modified or waived without the consent of the Holder of each outstanding debt security of any series affected by such supplemental indenture.

A supplemental indenture which changes or eliminates any covenant or other provision of the Indenture which has expressly been included solely for the benefit of one or more particular series of debt securities, or which modifies the rights of Holders of debt securities of such series with respect to such covenant or provision, shall be deemed not to affect the rights under the Indenture of the Holders of debt securities of any other series or of the coupons appertaining to such debt securities. It shall not be necessary for the consent of the Holders under this section of the Indenture to approve the particular form of any proposed amendment, supplement or waiver, but it shall be sufficient if such consent approves the substance of such proposed amendment, supplement or waiver. After an amendment, supplement or waiver under this section of the Indenture becomes effective, the Company shall give to the Holders affected by such amendment, supplement or waiver a notice briefly describing such amendment, supplement or waiver. The Company will mail supplemental indentures to Holders upon request. Any failure of the Company to mail such notice, or any defect in such notice, shall not, however, in any way impair or affect the validity of any such supplemental indenture or waiver. (Section 9.2)

Governing Law

The Indenture and the debt securities will be governed by the laws of the State of New York.

Concerning the Trustee

The Company and its subsidiaries maintain ordinary banking relationships with The Bank of New York Mellon Trust Company N.A. and its affiliates and a number of other banks. The Bank of New York Mellon Trust Company N.A. also serves as trustee with respect to certain other outstanding debt securities of the Company and its subsidiaries.

DESCRIPTION OF WARRANTS

We may issue warrants to purchase our debt or equity securities or securities of third parties or other rights, including rights to receive payment in cash or securities based on the value, rate or price of one or more specified commodities, currencies, securities or indices, or any combination of the foregoing. Warrants may be issued independently or together with any other securities and may be attached to, or separate from, such securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a warrant agent. The terms of any warrants to be issued and a description of the material provisions of the applicable warrant agreement will be set forth in the applicable prospectus supplement.

The applicable prospectus supplement will describe the following terms of any warrants in respect of which this prospectus is being delivered:

- the title of such warrants;
- the aggregate number of such warrants;
- the price or prices at which such warrants will be issued;
- the currency or currencies in which the price of such warrants will be payable;
- the securities or other rights, including rights to receive payment in cash or securities based on the value, rate or price of one or more specified commodities, currencies, securities or indices, or any combination of the foregoing, purchasable upon exercise of such warrants;
- the price at which and the currency or currencies in which the securities or other rights purchasable upon exercise of such warrants may be purchased;
- the date on which the right to exercise such warrants shall commence and the date on which such right shall expire;
- if applicable, the minimum or maximum amount of such warrants which may be exercised at any one time;
- if applicable, the designation and terms of the securities with which such warrants are issued and the number of such warrants issued with each such security;
- if applicable, the date on and after which such warrants and the related securities will be separately transferable;
- information with respect to book-entry procedures, if any;
- if applicable, a discussion of any material United States federal income tax considerations; and
- any other terms of such warrants, including terms, procedures and limitations relating to the exchange and exercise of such warrants.

DESCRIPTION OF PURCHASE CONTRACTS

We may issue purchase contracts for the purchase or sale of:

- debt or equity securities issued by us or securities of third parties, a basket of such securities, an index or indices or such securities or any combination of the above as specified in the applicable prospectus supplement;
- currencies; or
- commodities.

Each purchase contract will entitle or obligate the holder thereof to purchase or sell, and obligate us to sell or purchase, on specified dates, such securities, currencies or commodities at a specified purchase price, which may be based on a formula, all as set forth in the applicable prospectus supplement. We may, however, satisfy our obligations, if any, with respect to any purchase contract by delivering the cash value of such purchase contract or the cash value of the property otherwise deliverable or, in the case of purchase contracts on underlying currencies, by delivering the underlying currencies, as set forth in the applicable prospectus supplement. The applicable prospectus supplement will also specify the methods by which the holders may purchase or sell such securities, currencies or commodities and any acceleration, cancellation or termination provisions or other provisions relating to the settlement of a purchase contract.

The purchase contracts may require us to make periodic payments to the holders thereof or vice versa, which payments may be deferred to the extent set forth in the applicable prospectus supplement, and those payments may be unsecured or prefunded on some basis. The purchase contracts may require the holders thereof to secure their obligations in a specified manner to be described in the applicable prospectus supplement. Alternatively, purchase contracts may require holders to satisfy their obligations thereunder when the purchase contracts are issued. Our obligation to settle such pre-paid purchase contracts on the relevant settlement date may constitute indebtedness. Accordingly, pre-paid purchase contracts will be issued under either the senior indenture or the subordinated indenture.

DESCRIPTION OF UNITS

As specified in the applicable prospectus supplement, we may issue units consisting of one or more purchase contracts, warrants, debt securities, shares of common stock or any combination of such securities. The applicable supplement will describe:

- the terms of the units and of the purchase contracts, warrants, debt securities and common stock comprising the units, including whether and under what circumstances the securities comprising the units may be traded separately;
- if applicable, a discussion of any material United States federal income tax considerations;
- a description of the terms of any unit agreement governing the units; and
- a description of the provisions for the payment, settlement, transfer or exchange of the units.

FORMS OF SECURITIES

Each debt security, warrant and unit will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing the entire issuance of securities. Certificated securities in definitive form and global securities will be issued in registered form. Definitive securities name you or your nominee as the owner of the security, and in order to transfer or exchange these securities or to receive payments other than interest or other interim payments, you or your nominee must physically deliver the securities to the trustee, registrar, paying agent or other agent, as applicable. Global securities name a depositary or its nominee as the owner of the debt securities, warrants or units represented by these global securities. The depositary maintains a computerized system that will reflect each investor's beneficial ownership of the securities through an account maintained by the investor with its broker/dealer, bank, trust company or other representative, as we explain more fully below.

Global Securities

Registered Global Securities. We may issue the registered debt securities, warrants and units in the form of one or more fully registered global securities that will be deposited with a depositary or its nominee identified in

the applicable prospectus supplement and registered in the name of that depository or nominee. In those cases, one or more registered global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal or face amount of the securities to be represented by registered global securities. Unless and until it is exchanged in whole for securities in definitive registered form, a registered global security may not be transferred except as a whole by and among the depository for the registered global security, the nominees of the depository or any successors of the depository or those nominees.

If not described below, any specific terms of the depository arrangement with respect to any securities to be represented by a registered global security will be described in the prospectus supplement relating to those securities. We anticipate that the following provisions will apply to all depository arrangements.

Ownership of beneficial interests in a registered global security will be limited to persons, called participants, that have accounts with the depository or persons that may hold interests through participants. Upon the issuance of a registered global security, the depository will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal or face amounts of the securities beneficially owned by the participants. Any dealers, underwriters or agents participating in the distribution of the securities will designate the accounts to be credited. Ownership of beneficial interests in a registered global security will be shown on, and the transfer of ownership interests will be effected only through, records maintained by the depository, with respect to interests of participants, and on the records of participants, with respect to interests of persons holding through participants. The laws of some states may require that some purchasers of securities take physical delivery of these securities in definitive form. These laws may impair your ability to own, transfer or pledge beneficial interests in registered global securities.

So long as the depository, or its nominee, is the registered owner of a registered global security, that depository or its nominee, as the case may be, will be considered the sole owner or holder of the securities represented by the registered global security for all purposes under the applicable indenture, warrant agreement, guaranteed trust preferred security or unit agreement. Except as described below, owners of beneficial interests in a registered global security will not be entitled to have the securities represented by the registered global security registered in their names, will not receive or be entitled to receive physical delivery of the securities in definitive form and will not be considered the owners or holders of the securities under the applicable indenture, warrant agreement, guaranteed trust preferred security or unit agreement. Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the depository for that registered global security and, if that person is not a participant, on the procedures of the participant through which the person owns its interest, to exercise any rights of a holder under the applicable indenture, warrant agreement, guaranteed trust preferred security or unit agreement. We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global security desires to give or take any action that a holder is entitled to give or take under the applicable indenture, warrant agreement, guaranteed trust preferred security or unit agreement, the depository for the registered global security would authorize the participants holding the relevant beneficial interests to give or take that action, and the participants would authorize beneficial owners owning through them to give or take that action or would otherwise act upon the instructions of beneficial owners holding through them.

Principal, premium, if any, and interest payments on debt securities, and any payments to holders with respect to warrants, guaranteed trust preferred securities or units, represented by a registered global security registered in the name of a depository or its nominee will be made to the depository or its nominee, as the case may be, as the registered owner of the registered global security. None of Tyson, the trustees, the warrant agents, the unit agents or any other agent of Tyson, agent of the trustees or agent of the warrant agents or unit agents will have any responsibility or liability for any aspect of the records relating to payments made on account of beneficial ownership interests in the registered global security or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

We expect that the depository for any of the securities represented by a registered global security, upon receipt of any payment of principal, premium, interest or other distribution of underlying securities or other

property to holders on that registered global security, will immediately credit participants' accounts in amounts proportionate to their respective beneficial interests in that registered global security as shown on the records of the depositary. We also expect that payments by participants to owners of beneficial interests in a registered global security held through participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of those participants.

Beneficial owners of securities generally will not receive certificates representing their ownership interests in the securities. However, if

- the depositary notifies us that it is unwilling or unable to continue as a depositary for any securities or if the depositary ceases to be a clearing agency registered under the Securities Exchange Act of 1934 and a successor depositary is not appointed within 90 days of the notification or of our becoming aware of the depositary's ceasing to be so registered, as the case may be,
- we determine, in our sole discretion, not to have the securities represented by one or more global securities, or
- in the case of debt securities, an event of default under the indenture for such debt securities has occurred and is continuing with respect to such debt securities,

then, in each case, we will prepare and deliver certificates for such securities in exchange for beneficial interests in the global securities. Any securities issued in definitive form in exchange for a registered global security will be registered in the name or names that the depositary gives to the relevant trustee, warrant agent, unit agent or other relevant agent of ours or theirs. It is expected that the depositary's instructions will be based upon directions received by the depositary from participants with respect to ownership of beneficial interests in the registered global security that had been held by the depositary.

PLAN OF DISTRIBUTION

Tyson and/or the selling securityholders, if applicable, may sell the securities in one or more of the following ways (or in any combination) from time to time:

- through underwriters or dealers;
- through agents; or
- directly to purchasers.

The securities may be sold in one or more transactions at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices relating to prevailing market prices or at negotiated prices.

We will describe in a prospectus supplement the particular terms of any offering of the securities, including the following:

- the names of any underwriters or agents;
- the proceeds we will receive from the sale;
- any discounts and other items constituting underwriters' or agents' compensation;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchanges on which the applicable securities may be listed.

If Tyson and/or the selling securityholders, if applicable, use underwriters in the sale, such underwriters will acquire the securities for their own account. The underwriters may resell the securities in one or more transactions, at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices relating to prevailing market prices or at negotiated prices.

The securities may be offered to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. The obligations of the underwriters to purchase the securities will be subject to certain conditions. The underwriters will be obligated to purchase all the securities of the series offered if any of the securities are purchased.

Tyson and/or the selling securityholders, if applicable, may sell securities through agents or dealers designated by them. Any agent or dealer involved in the offer or sale of the securities for which this prospectus is delivered will be named, and any commissions payable by us to that agent or dealer will be set forth, in the prospectus supplement. Unless indicated in the prospectus supplement, the agents will agree to use their reasonable efforts to solicit purchases for the period of their appointment and any dealer will purchase securities from Tyson and/or the selling securityholders, if applicable, as principal and may resell those securities at varying prices to be determined by the dealer.

Tyson and/or the selling securityholders, if applicable, also may sell securities directly. In this case, no underwriters or agents would be involved.

Underwriters, dealers and agents that participate in the distribution of the securities may be underwriters as defined in the Securities Act, and any discounts or commissions received by them from us and any profit on the resale of the securities by them may be treated as underwriting discounts and commissions under the Securities Act.

Tyson and/or the selling securityholders, if applicable, may enter into agreements with the underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act or to contribute with respect to payments which the underwriters, dealers or agents may be required to make, and to reimburse them for certain expenses.

Underwriters, dealers and agents may engage in transactions with, or perform services for, us or our subsidiaries in the ordinary course of their businesses.

In order to facilitate the offering of the securities, any underwriters or agents, as the case may be, involved in the offering of such securities may engage in transactions that stabilize, maintain or otherwise affect the price of such securities or other securities the prices of which may be used to determine payments on the securities. Specifically, the underwriters or agents, as the case may be, may overallocate in connection with the offering, creating a short position in such securities for their own account. In addition, to cover overallocations or to stabilize the price of the securities or of such other securities, the underwriters or agents, as the case may be, may bid for, and purchase, such securities in the open market. Finally, in any offering of such securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allotted to an underwriter or a dealer for distributing such securities in the offering if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The underwriters or agents, as the case may be, are not required to engage in these activities, and may end any of these activities at any time.

Tyson and/or the selling securityholders, if applicable, may solicit offers to purchase securities directly from, and we may sell securities directly to, institutional investors or others. The terms of any of those sales, including the terms of any bidding or auction process, if utilized, will be described in the applicable prospectus supplement.

Some or all of the securities may be new issues of securities with no established trading market. We cannot and will not give any assurances as to the liquidity of the trading market for any of our securities.

VALIDITY OF SECURITIES

The validity of the securities in respect of which this prospectus is being delivered will be passed on for us by Davis Polk & Wardwell LLP or such other counsel as may be specified in the applicable prospectus supplement.
