PROSPECTUS

DEBT SECURITIES

This prospectus of Wal-Mart Stores, Inc. relates to our offer and sale of our debt securities of one or more different series from time to time. The debt securities of each series we may offer pursuant to this prospectus will have terms and conditions distinct from the terms and conditions of each other series of our debt securities. We will determine the terms and conditions of each series of debt securities when we first offer debt securities of that series.

We describe in this prospectus certain terms and conditions of the debt securities we may offer. For each offering of debt securities, we will provide a prospectus supplement describing the specific terms and conditions of the debt securities of each series being offered thereby to the extent those terms and conditions are not described, or differ from the terms and conditions described, in this prospectus. The applicable prospectus supplement will describe, as to the debt securities of each series being offered thereby, among other things:

- the principal amount of those debt securities (which may be subject to increase in the event of further issuances);
- the price or prices at which those debt securities are being offered to the public;
- the currency in which those debt securities are denominated;
- the maturity date of those debt securities;
- the interest rate or rates for those debt securities, which may be fixed or variable;
- the dates on which we will pay the principal of and premium, if any, and interest on those debt securities;
- any redemption rights applicable to those debt securities; and
- whether we will list those debt securities for trading on a securities exchange.

The applicable prospectus supplement may also contain other important information concerning our company, the debt securities being offered and the offering, including tax consequences of an investment in those debt securities other than those described in this prospectus. Information in the applicable prospectus supplement or incorporated by reference into this prospectus subsequent to the date of this prospectus will supplement, and may, in certain instances, update, modify or replace other information contained or incorporated by reference in this prospectus.

Effective February 1, 2018, our corporate name will be “Walmart Inc.” See “About This Prospectus” for more information about our name change.

We discuss risk factors relating to our company in filings we make with the Securities and Exchange Commission, including under the heading “Risk Factors” in our most recently filed Annual Report on Form 10-K. We may update the risk factors discussed in our most recently filed Annual Report on Form 10-K in our subsequently filed Quarterly Reports on Form 10-Q or Current Reports on Form 8-K. The prospectus supplement relating to a particular offering of debt securities may discuss certain risks of investing in those debt securities. You should carefully consider these risk factors and risks before deciding to purchase any debt securities offered pursuant to this prospectus and the applicable prospectus supplement.

Neither the Securities and Exchange Commission nor any state securities commission or other regulatory body has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is December 7, 2017.

ABOUT THIS PROSPECTUS

This prospectus forms part of a registration statement on Form S-3 that we filed with the Securities and Exchange Commission (the “SEC”) under the Securities Act of 1933, as amended (the “Securities Act”). Under that registration statement, we may offer and sell, from time to time in one or more offerings, debt securities as described in this prospectus and in an applicable prospectus supplement. There is no limit on the aggregate principal amount of the debt securities that we may sell pursuant to the registration statement.

We urge you to read carefully both this prospectus and the applicable prospectus supplement, together with the information incorporated herein by reference as described under the heading “Incorporation of Information By Reference,” before deciding if you will invest in any debt securities that we may offer pursuant to this prospectus. For further information about our company, our business, our financial performance and the debt securities, you should refer to the registration statement, the information incorporated by reference therein and the exhibits thereto. Some of those exhibits, including the indenture under which any debt securities offered by this prospectus will be issued, the supplemental indentures relating thereto and other important documents, are incorporated in that registration statement by reference to other filings we have made with the SEC. Copies of such documents can be obtained as noted below in “Where You Can Find More Information.”

As you read this prospectus, please remember that the specific terms and conditions of the debt securities described in the applicable prospectus supplement will supplement and may, in certain instances, update, modify or replace one or more of the general terms and conditions of the debt securities described in this prospectus. You should read carefully the particular terms of the debt securities described in the applicable prospectus supplement. If differences exist between the information relating to those debt securities contained in the applicable prospectus supplement and similar information contained in this prospectus, the information in such prospectus supplement will control. Consequently, certain of the statements made in this prospectus regarding the terms and conditions of the debt securities may not apply to the debt securities of a particular series.

We are not offering debt securities in any jurisdiction where the offer is not permitted.

On December 5, 2017, we filed an amendment to our restated certificate of incorporation to change our corporate name from “Wal-Mart Stores, Inc.” to “Walmart Inc.,” which name change will be effective on February 1, 2018. On and after that date, the references to “Wal-Mart Stores, Inc.” appearing in this prospectus and in any documents incorporated by reference or deemed to be incorporated by reference in this prospectus and each applicable prospectus supplement will, and should be read to, refer to our company under the name “Walmart Inc.” In this prospectus and each applicable prospectus supplement, unless otherwise specified, the terms “we,” “us,” “our,” “our company,” “the company” and “Walmart” will refer to the Delaware corporation named “Wal-Mart Stores, Inc.” prior to February 1, 2018 and named “Walmart Inc.” on and after February 1, 2018 and that corporation’s consolidated subsidiaries. If we use this prospectus to make any offering of our debt securities on or after February 1, 2018, to the extent consistent with the SEC’s rules, we will substitute the name “Walmart Inc.” for the name “Wal-Mart Stores, Inc.” throughout this prospectus as used to make such offering.

We have not authorized anyone to provide any information concerning any debt securities we offer hereby or the offering of such debt securities other than the information contained in this prospectus, the applicable prospectus supplement and any applicable free writing prospectus prepared by or on behalf of us or to which we have referred or may refer you or the information incorporated by reference into this prospectus. We take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. You should rely only on the information contained or incorporated by reference in this prospectus, the applicable prospectus supplement and any such free writing prospectus in deciding whether or not to invest in the debt securities we offer hereby. You should not assume that the information set forth in, or incorporated by reference into, this prospectus is accurate as of any date other than the date of this prospectus and the date of the document in which the particular information incorporated by reference into this prospectus is contained.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratio of our earnings to fixed charges, for the periods indicated:

| Nine Months Ended October 31, | | Year Ended January 31, | | | | |
|----------------------------------|------|------------------------|------|------|------|------|
| 2017 | 2016 | 2017 | 2016 | 2015 | 2014 | 2013 |
| 5.7x | 6.9x | 7.1x | 7.2x | 8.0x | 8.1x | 8.8x |

For the purpose of computing our ratios of earnings to fixed charges, we define “earnings” to mean our income from continuing operations before income taxes plus our fixed charges, net of capitalized interest and consolidated net income attributable to noncontrolling interest. The term “fixed charges” means:

- the interest on debt and capital leases that we expense and that we capitalize; plus
- amortized premiums, discounts and capitalized expenses related to our indebtedness; plus
- an estimate of interest within our rental expense.

The foregoing information will be updated by the information relating to our ratio of earnings to fixed charges contained in our periodic reports filed with the SEC, which will be incorporated by reference in this prospectus at the time they are filed with the SEC, and may be updated by information incorporated by reference in this prospectus or contained in or incorporated by reference in an applicable prospectus supplement. See “Where You Can Find More Information” regarding how you may obtain access to or copies of our filings with the SEC.

USE OF PROCEEDS

Except as otherwise specifically described in the prospectus supplement relating to a particular offering of debt securities, we may use the net proceeds from the sale of the debt securities:

- to repay short-term borrowings incurred for general corporate purposes, including to finance capital expenditures, such as investments in eCommerce and technology, the purchase of land and construction of stores and other facilities and the acquisition of other companies or assets, and to finance the acquisition of inventory;
- to repay or refinance long-term debt prior to or at maturity or to refinance debt of one or more of our subsidiaries;
- to finance repurchases of our outstanding securities we make in the open market or pursuant to one or more tender offers;
- to repay borrowings that we have incurred to acquire, or assumed in connection with the acquisition of, other companies and assets;
- to finance one or more acquisitions we make;
- to finance particular capital expenditures we make;
- to meet our working capital requirements; and
- for other general corporate purposes.

Before we apply the net proceeds of any sale of our debt securities to one or more of these uses, we may invest those net proceeds in short-term marketable securities.

DESCRIPTION OF THE DEBT SECURITIES

We summarize below certain general terms and conditions that will apply to each series of debt securities that we may offer pursuant to this prospectus unless otherwise stated in the applicable prospectus supplement. The applicable prospectus supplement will describe the certain specific terms and conditions of the debt securities of each series being offered pursuant to this prospectus and that prospectus supplement, including any differences between those specific terms and conditions and the general terms and conditions we summarize below. We may, but need not, describe any additional or different terms and conditions of such debt securities in a report we file with the SEC, the information in which would be incorporated by reference in this prospectus. We urge you to review all of our filings with the SEC that are incorporated by reference in this prospectus. See “Where You Can Find More Information” above regarding how you may obtain access to or copies of those filings.

We will issue the debt securities in one or more series under an indenture, dated as of July 19, 2005, between us and The Bank of New York Mellon Trust Company, N.A. (formerly known as “The Bank of New York Trust Company, N.A.”), as trustee, as such indenture has been amended and supplemented by the First Supplemental Indenture, dated as of December 1, 2006, between us and the trustee, and the Second Supplemental Indenture, dated as of December 19, 2014, between us and the trustee (which indenture, as amended and supplemented, we refer to below as the “indenture”). The terms and conditions of the debt securities of each series will be set forth in those debt securities and in the indenture. For a complete description of a particular series of debt securities, you should read both this prospectus and the prospectus supplement relating to the offering of debt securities of that series.

A form of the debt securities of a series, reflecting the particular terms and provisions of a series of offered debt securities, has been or will be filed with the SEC in connection with the offering and is or will be incorporated by reference in the registration statement of which this prospectus forms a part. You may obtain a copy of the indenture, each supplemental indenture thereto and the form of any debt security that has been filed in the manner described under “Where You Can Find More Information” or by contacting the trustee.

In this section of this prospectus, the terms “we,” “us,” “our,” and “our company” refer to Wal-Mart Stores, Inc. only and not to Wal-Mart Stores, Inc. and its consolidated subsidiaries.

General Terms

The debt securities of each series offered pursuant to this prospectus will constitute our senior unsecured debt obligations and will rank equally among themselves and with all of our other existing and future unsecured and unsubordinated debt obligations. Consequently, the holders of the debt securities of such series will have a right to payment of the principal of and premium, if any, and interest on such debt securities equal to that of our other unsecured, unsubordinated creditors with respect to the payment of the amounts owing to them. None of our subsidiaries will have any obligation as to any of the debt securities or will guarantee the payment of amounts owing with respect to any of the debt securities.

The debt securities of each series will be issued in fully registered form without interest coupons. We currently anticipate that the debt securities of each series offered and sold pursuant to this prospectus will trade in book-entry form only and will be issued in certificated (i.e., physical) form only as global debt securities to a depository as described under “Book-Entry Issuance and Settlement.” Unless otherwise specified in the applicable prospectus supplement, debt securities denominated in U.S. dollars will be issued in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. If the debt securities of a series are denominated in a foreign or composite currency, the applicable prospectus supplement will specify the denomination or denominations in which those debt securities will be issued.

Unless previously redeemed or purchased and cancelled, we will repay the debt securities of each series at 100% of their principal amount together with accrued and unpaid interest thereon at maturity. Unless specified

otherwise in the applicable prospectus supplement, if the maturity date of the debt securities of a series (or a tax, optional or other redemption date, if earlier than the stated maturity date for those debt securities) falls on a day which is not a business day, then we will make the required payment of principal, premium, if any, and interest on the next succeeding business day, as if it were made on the date the payment was due. Interest will not accrue on, from or after the stated maturity date (or any tax, optional or other redemption date) as a result of this delayed payment.

We may, without the consent of the holders of the debt securities of a series, issue additional debt securities ranking equally with and otherwise similar in all respects to the debt securities of that series (except for the public offering price, initial interest accrual date, initial interest payment date, and the issue date) so that those additional debt securities will be consolidated, and form a single series, with the debt securities of that series previously offered and sold; provided that any additional debt securities of a series that are not fungible with the outstanding debt securities of that series for U.S. federal income tax purposes will be issued under a separate CUSIP number and, if applicable, a separate ISIN number. The terms of the series of debt securities we create typically do not limit the maximum aggregate amount of the debt securities of a particular series that we can issue, although they may do so. No additional debt securities of any series may be issued under the indenture if an event of default under the indenture has occurred and is continuing.

Except as may be otherwise specified in the applicable prospectus supplement, the debt securities will not be convertible or exchangeable at our option or at the option of holders of the debt securities and will not be subject to a sinking fund. Except as may be otherwise specified in the applicable prospectus supplement, we will not have the right to redeem the debt securities of any series offered pursuant to this prospectus. Except as may be otherwise specified in the applicable prospectus supplement, holders will not have the right to require us to repurchase prior to maturity any of the debt securities of any series offered pursuant to this prospectus.

The debt securities will be subject to defeasance as described under “—Provisions of the Indenture—Legal Defeasance and Covenant Defeasance.”

Notices to registered holders of the debt securities of a series will be mailed to such holders. Any notice will be deemed to have been given on the date of mailing and publication or, if published more than once, on the date of first publication.

Debt securities of a series that we may offer pursuant to this prospectus will not be listed for trading on any securities exchange unless the applicable prospectus supplement states that those debt securities have been listed or admitted for trading, or that we have applied, or will apply, for the listing of and admission of those debt securities for trading on a particular securities exchange.

The laws of the State of New York govern the indenture, govern the outstanding debt securities of each series issued under the indenture and will govern any debt securities of a series to be issued under the indenture in the future.

Interest and Interest Rates

General

In the applicable prospectus supplement, we will designate the debt securities of a series as either bearing interest at a fixed rate of interest or bearing interest at a floating rate of interest. Each debt security will begin to accrue interest from the date it is originally issued unless otherwise specified in the applicable prospectus supplement. Interest on each such debt security will be payable in arrears on the interest payment dates set forth in the applicable prospectus supplement and as otherwise described below and at maturity or, if earlier, a tax, optional or other redemption date as described below if applicable to the debt securities. Interest will be payable to the holder of record of the debt securities at the close of business on the record date for each interest payment

date, which record dates will be specified in such prospectus supplement. As used in the indenture, the term “business day” generally means any day, other than a Saturday or Sunday, on which banking institutions in The City of New York and any Place of Payment (as defined in the Indenture) of our debt securities of a series are open for business. However, the term “business day” may be defined differently for the debt securities of a specific series, in which event, the different definition will be described in the applicable prospectus supplement.

Fixed Rate Debt Securities

If a series of debt securities being offered pursuant to this prospectus will bear interest at a fixed rate of interest, the debt securities of that series will bear interest at the annual interest rate for debt securities of that series specified in the title of that series appearing on the cover page of the applicable prospectus supplement. Interest on those debt securities will be payable semi-annually in arrears on the interest payment dates for those debt securities unless otherwise specified in the applicable prospectus supplement. If the maturity date, any tax, optional or other redemption date or an interest payment date is not a business day, we will pay any principal, premium, if any, interest or redemption price otherwise payable on such day on the next business day, and no interest will accrue on, from and after the maturity date, the redemption date or that interest payment date. Interest on the fixed rate debt securities will be computed on the basis of a 360-day year of twelve 30-day months unless otherwise specified in the applicable prospectus supplement.

Floating Rate Debt Securities

If a series of debt securities being offered will bear interest at a floating rate of interest, the debt securities of that series will bear interest during each relevant interest period at the rate determined as set forth in the applicable prospectus supplement and as otherwise set forth below. Each floating rate debt security will have an interest rate basis or formula. Unless otherwise specified in the applicable prospectus supplement, we will base that formula on the London Interbank Offered Rate, or “LIBOR,” for the LIBOR currency. The term “LIBOR currency” means the currency specified in the applicable prospectus supplement as to which LIBOR will be calculated or, if no such currency is specified in the applicable prospectus supplement, U.S. dollars. In the applicable prospectus supplement, we will indicate any spread or spread multiplier to be applied in the interest rate formula to determine the interest rate applicable in any interest period. A spread or spread multiplier may cause the interest rate applicable to a particular series of floating rate debt securities to be higher or lower than the applicable LIBOR for a particular interest period. Interest will be computed on the basis of the actual number of days during the relevant interest period and a 360-day year.

The floating rate debt securities may have a maximum or minimum rate limitation. In no event, however, will the rate of interest on the notes be higher than the maximum rate of interest permitted by the laws of the State of New York.

If any interest payment date for the debt securities of a series bearing interest at a floating rate based on LIBOR (other than the maturity date or a tax, optional or other redemption date) would otherwise be a day that is not a business day, then the interest payment date will be postponed to the next succeeding business day, unless that business day falls in the next succeeding calendar month, in which case the interest payment date will be the immediately preceding business day. If the maturity date of such debt securities (or a tax, optional or other redemption date, if earlier than the stated maturity date for those debt securities) falls on a day which is not a business day, then we will make the required payment of principal, premium, if any, and interest or redemption price on the next succeeding business day, as if it were made on the date the payment was due. Interest will not accrue on, from or after the stated maturity date (or any tax, optional or other redemption date) as a result of this delayed payment.

Unless otherwise specified in the applicable prospectus supplement, the calculation agent will reset the rate of interest on the debt securities of a series bearing interest at a floating rate based on LIBOR on each interest payment date. If any of the interest reset dates for the debt securities is not a business day, that interest reset date

will be postponed to the next succeeding business day, unless that day is in the next succeeding calendar month, in which case the interest reset date will be the immediately preceding business day. The interest rate set for the debt securities on a particular interest reset date will remain in effect during the interest period commencing on that interest reset date. Each interest period will be the period from and including the interest reset date to but excluding the next interest reset date or until the maturity date of the debt securities, as the case may be.

Unless otherwise specified in the applicable prospectus supplement, the calculation agent will determine the interest rate applicable to the debt securities bearing interest at a floating rate based on LIBOR on the interest determination date, which will be the second London business day immediately preceding the interest reset date. The interest rate determined on an interest determination date will become effective on and as of the next interest reset date. "London business day" means any day on which dealings in deposits in the LIBOR currency are transacted in the London interbank market.

If the debt securities described in the applicable prospectus supplement will bear interest at a floating rate based on LIBOR, the calculation agent will determine LIBOR according to the following provisions:

- LIBOR for a particular interest period will be the rate for deposits in the LIBOR currency having the index maturity described in the applicable prospectus supplement commencing on the second London business day immediately following the particular interest determination date that appears on "Reuters Page LIBOR01" (which displays the London interbank offered rates of major banks) as of 11:00 A.M., London time, on that interest determination date for the LIBOR currency. The "index maturity" is the period to maturity of the debt securities with respect to which the related interest rate basis or formula will be calculated. For example, the index maturity could be one month, three months, six months or one year. If, on a particular interest determination date, LIBOR for the applicable index maturity does not appear on "Reuters Page LIBOR01" at approximately 11:00 A.M., London time, or if "Reuters Page LIBOR01" is not available on such date, LIBOR for the particular interest period will be the rate for deposits in the LIBOR currency for the applicable index maturity commencing on the second London business day immediately following the particular interest determination date that appears on Bloomberg, L.P.'s page "BBAM" at such time on such interest determination date.
- If the applicable LIBOR rate cannot be determined by reference to "Reuters Page LIBOR01" or Bloomberg, L.P.'s page "BBAM" on an interest determination date as described above, then the calculation agent will determine LIBOR as follows:
 - The calculation agent will select the principal London offices of four major banks in the London interbank market and request each bank to provide its offered quotation for deposits in the LIBOR currency having the applicable index maturity commencing on the second London business day immediately following the interest determination date, to prime banks in the London interbank market at approximately 11:00 A.M., London time, on the interest determination date. Those quotes will be for deposits in a principal amount that is representative of a single transaction in the LIBOR currency in the market at that time, but which principal amount shall be no less than \$1 million or its then equivalent in the LIBOR currency if the LIBOR currency is other than U.S. dollars. If at least two of those banks provide a quotation, the calculation agent will compute LIBOR as the arithmetic mean of the quotations provided.
 - If fewer than two of those banks provide a quotation, the calculation agent will request from three major banks in New York, New York at approximately 11:00 A.M., New York City time, on the interest determination date, quotations for loans having a term equal to the index maturity in the LIBOR currency to leading European banks, commencing on the second London business day immediately following the interest determination date. These quotes will be for loans in a principal amount that is representative of a single transaction in the market at that time, but which principal amount shall be no less than \$1 million or its then equivalent in the LIBOR currency if the LIBOR currency is other than U.S. dollars. The calculation agent will compute LIBOR as the arithmetic mean of the quotations provided.

[Table of Contents](#)

- If none of the banks in New York, New York chosen by the calculation agent provides a quotation as discussed above, the rate of interest will be the interest rate in effect for the debt securities for the then current interest period

All percentages resulting from any calculation will be rounded to the nearest one hundred-thousandth of a percentage point, with five one-millionths of a percentage point rounded upward. Dollar amounts used in any calculation will be rounded to the nearest cent (with one-half cent being rounded upward).

The term “Reuters Page LIBOR01” refers to the display appearing on Thomson Reuters EIKON (or any successor service) designated as page “LIBOR01” (or any replacement page on that service or equivalent page on any successor service) and the term “BBAM” refers to the display appearing on Bloomberg L.P. (or any successor service) designated as page “BBAM” (or any replacement page on that service or equivalent page on any successor service), in each case for the purpose of displaying London interbank offered rates administered by ICE Benchmark Administration Limited (or any other person assuming the responsibility for the administration of those rates).

The calculation agent will promptly notify the trustee of each determination of the interest rate, as well as of the interest period, the amount of interest expected to accrue for that interest period and the interest payment date related to the interest period beginning with each interest reset date, as soon as such information becomes available. The trustee will make such information available to the holders of the relevant debt securities upon request. The calculation agent’s determination of any interest rate and its calculation of the amount of interest for any interest period will be final and binding in the absence of manifest error.

So long as floating rate debt securities of a series are outstanding, we will at all times maintain a calculation agent as to the debt securities of that series. We expect that The Bank of New York Mellon Trust Company, N.A. will act as such calculation agent unless we appoint another bank, trust company, investment banking firm or other financial institution to act in that capacity. We will appoint a bank, trust company, investment banking firm or other financial institution to act as the successor calculation agent to the initial calculation agent for any series of floating rate debt securities (or any of its successors) in the event that:

- the incumbent calculation agent becomes unable or is unwilling to act;
- the incumbent calculation agent fails duly to establish the floating interest rate for a series of floating rate debt securities; or
- we propose to remove the currently acting calculation agent.

Payment and Paying and Transfer Agent

We will make all payments of principal of and premium, if any, and interest on or redemption price of the debt securities of each series offered pursuant to this prospectus to the depository for the debt securities of that series, which may be The Depository Trust Company, or “DTC,” or the common depository for Clearstream Banking S.A., or “Clearstream,” and Euroclear Bank SA/NV, or “Euroclear Bank,” as the operator of the Euroclear System, or “Euroclear,” for so long as those debt securities remain in book-entry form. If certificated securities are issued as to the debt securities of any series, we will pay the principal of, the premium, if any, on, interest on and redemption price, if any, for those debt securities by wire transfer in accordance with the instructions given to us by the holders of those debt securities. Except as otherwise noted below, all other payments with respect to certificated debt securities will be made at the office or agency of the paying agent within New York, New York unless we elect to make interest payments by check mailed to the holders at their address set forth in the register of holders.

Payments of amounts (including principal, premium, if any, interest and redemption price, if any) in respect of the debt securities which are initially delivered by us through the facilities of Clearstream or Euroclear will be

made by us to a paying agent. While such debt securities are held by Clearstream or Euroclear, the paying agent will, in turn, make payments on such debt securities to the common depository for Clearstream and Euroclear, which will distribute such payments to participants in Clearstream and Euroclear in accordance with their respective procedures.

Under the terms of the indenture, we and the trustee will treat the registered holder of such debt securities (i.e., DTC, Clearstream or Euroclear (or their respective nominees)) as the owner thereof for all purposes, including the right to receive payments and for all other purposes. Consequently, neither we nor the trustee or any of our respective agents has or will have any responsibility or liability for:

- any aspects of the records of DTC, Clearstream, Euroclear or any direct or indirect participant therein relating to or payments made on account of any such debt securities, any such payments made by DTC, Clearstream, Euroclear or any direct or indirect participant therein, or maintaining, supervising or reviewing the records of DTC, Clearstream, Euroclear or any direct or indirect participant therein relating to or payments made on account of any such debt securities; or
- DTC, Clearstream, Euroclear or any direct or indirect participant therein. Payments by such participants to the beneficial owners of our debt securities held through any such participant are the responsibility of such participant, as is now the case with securities held for the accounts of customers registered in “street name.”

We will maintain an office or agency in the Borough of Manhattan, The City of New York, where debt securities of each series may be presented for registration of transfer or for exchange and an office or agency where such debt securities may be presented and surrendered for payment unless otherwise specified in the applicable prospectus supplement. The Bank of New York Mellon Trust Company, N.A., the trustee under the indenture, will also be the registrar and paying agent for the debt securities of each series unless it resigns from such position, it is otherwise replaced in such capacities as provided in the indenture or a different paying agent is named in the applicable prospectus supplement. Holders will not have to pay any service charge for any registration of transfer or exchange of debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with such registration of transfer.

Same-Day Settlement

The debt securities will trade in the same-day funds settlement system in the United States until maturity. Purchases of debt securities in secondary market trading must be settled in immediately available funds. Secondary market trading in the debt securities between participants in Clearstream or Euroclear will occur in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to eurobonds in immediately available funds. See “Book-Entry Issuance and Settlement.”

Payment of Additional Amounts

Solely for debt securities of a series as to which we have specified in the applicable prospectus supplement that the terms of the debt securities of that series include the right to the payment of additional amounts and provided that alternative provisions for the payment of additional amounts are not specified in the applicable prospectus supplement, we will pay to each beneficial owner of such debt securities who is a Non-U.S. Person (as defined below) additional amounts as may be necessary so that every net payment of the principal of, and interest on such beneficial owner’s debt securities, after deduction or withholding for or on account of any present or future tax, assessment or other governmental charge imposed upon that beneficial owner by the United States or any political subdivision or taxing authority thereof or therein (including any tax, assessment or other governmental charge imposed on the additional amounts so paid), will not be less than the amount provided in

such beneficial owner's debt securities to be then due and payable. Unless otherwise specified in the applicable prospectus supplement, we will not be required to make any payment of additional amounts for or on account of:

- (a) any tax, assessment or other governmental charge that is imposed or withheld solely by reason of the existence of any present or former connection (other than a connection arising solely from the ownership of those debt securities or the receipt of payments or enforcement of rights in respect of those debt securities) between that beneficial owner, or between a fiduciary, settlor, beneficiary, member or shareholder of, or possessor of a power over, that beneficial owner, if that beneficial owner is an estate, trust, partnership or corporation, and the United States, including that beneficial owner, or that fiduciary, settlor, beneficiary, member, shareholder or possessor, (1) being or having been a citizen or resident or treated as a resident of the United States, (2) being or having been present in, or engaged in a trade or business in, the United States, (3) being treated as having been present in, or engaged in a trade or business in, the United States, or (4) having or having had a permanent establishment in the United States;
- (b) any estate, inheritance, gift, sales, transfer, excise, personal property or similar tax, assessment or other governmental charge;
- (c) any tax, assessment or other governmental charge imposed by reason of that beneficial owner's past or present status as a personal holding company, a controlled foreign corporation, a passive foreign investment company or a foreign private foundation or other foreign tax-exempt organization with respect to the United States or as a corporation that accumulates earnings to avoid U.S. federal income tax;
- (d) any tax, assessment or other governmental charge which is payable otherwise than by withholding from payment of principal of, premium, if any, on, interest on or the redemption price for such beneficial owner's debt securities;
- (e) any tax, assessment or other governmental charge required to be withheld by any paying agent from any payment of principal of, premium, if any, on, interest on or the redemption price for any debt securities if that payment can be made without withholding by any other paying agent;
- (f) any tax, assessment or other governmental charge that would not have been imposed but for the failure of a beneficial owner or any holder of debt securities to comply (to the extent that it is legally able to do so) with a request to satisfy any applicable certification, information, documentation or other reporting requirements concerning the nationality, residence, identity or connections with the United States of the beneficial owner or any holder of the debt securities, if such compliance is required by statute or by regulation of the U.S. Treasury Department as a precondition to relief or exemption from such tax, assessment or other governmental charge;
- (g) any withholding required pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), or any agreement (including any intergovernmental agreement) entered into in connection therewith;
- (h) any tax, assessment or other governmental charge that is imposed or withheld by reason of a change in law, regulation, or administrative or judicial interpretation that becomes effective more than 15 days after the payment becomes due or is duly provided for, whichever occurs later;
- (i) any tax, assessment or other governmental charge imposed on interest received by (1) a 10% shareholder (as defined in Section 871(h)(3)(B) of the Code and the regulations that may be promulgated thereunder) of our company or (2) a controlled foreign corporation that is related to us within the meaning of Section 864(d)(4) of the Code; or
- (j) any combination of items (a), (b), (c), (d), (e), (f), (g), (h), and (i) above.

In addition, unless otherwise specified in the applicable prospectus supplement, to the extent described below, we will not pay additional amounts to a beneficial owner of a debt security that is a fiduciary, partnership,

limited liability company or other fiscally transparent entity. This exception will apply to a beneficial owner of a debt security that is a fiduciary, partnership, limited liability company or other fiscally transparent entity only to the extent a beneficiary or settlor with respect to the fiduciary, or a beneficial owner or member of the partnership, limited liability company or other fiscally transparent entity, would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner or member received directly its beneficial or distributive share of the payment subject to the tax, assessment or other governmental charge as to which withholding or another deduction occurs.

As used in this discussion of the payment of additional amounts, the term “beneficial owner” includes any person holding a debt security on behalf of or for the account of a beneficial owner and the term “Non-U.S. Person” means a person that is not a United States person. The term “United States person” means an individual citizen or resident of the United States, a corporation or partnership created or organized in or under the laws of the United States or any political subdivision thereof, an estate the income of which is subject to United States federal income taxation regardless of its source, a trust subject to the primary supervision of a court within the United States and the control of one or more United States persons as described in Section 7701(a)(30) of the Code, or a trust that existed on August 20, 1996, and elected to continue its treatment as a domestic trust.

Redemption upon Tax Event

If, as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated under the laws) of the United States (or any political subdivision or taxing authority of or in the United States), or any change in, or amendment to, an official position regarding the application or interpretation of such laws, regulations or rulings, which change or amendment is announced or becomes effective on or after the date of the applicable prospectus supplement for a series of debt securities, we become, or based upon a written opinion of independent counsel selected by us, will become obligated to pay additional amounts as described above under the heading “—Payment of Additional Amounts” with respect to the debt securities of that series, then we may at our option redeem, in whole, but not in part, the debt securities of that series on not less than 30 nor more than 60 days’ prior notice given at any time after such an occurrence, at a redemption price equal to 100% of their principal amount, together with interest accrued but unpaid on those debt securities to, but excluding, the date fixed for redemption. Unless we default in payment of the redemption price upon the surrender of the debt securities for redemption, on and after the date fixed for redemption, interest will cease to accrue on the debt securities or portions thereof called for redemption.

Redemption at Our Option

If specified in the applicable prospectus supplement, we will have the option to redeem all or part of the outstanding debt securities of that series from time to time before the maturity date of the debt securities of that series. If we exercise that redemption option, we will notify the trustee and the registrar of the redemption date and of the principal amount of debt securities of the series to be redeemed or, if the redemption price will be determined subsequently based on a formula, the formula for determining the redemption price. If less than all the debt securities of the series are to be redeemed, the particular debt securities of the series to be redeemed will be selected by the trustee by such method as the trustee deems fair and appropriate and that is in accordance with the rules of the applicable depository. The price at which any debt securities are to be redeemed will be as specified in or determined in accordance with the terms of those debt securities.

Notice of redemption will be given to each holder of the debt securities to be redeemed not less than 30 nor more than 60 days prior to the date set for such redemption. The notice will set forth: the redemption date; the price at which the debt securities will be redeemed or, if the redemption price will be determined subsequently based on a formula, the formula for determining the redemption price; if less than all of the outstanding debt securities of such series are to be redeemed, the identification (and, in the case of partial redemption, the respective principal amounts) of the particular debt securities to be redeemed; the place or places where such debt securities maturing after the redemption date are to be surrendered for payment of the price at which such

debt securities will be redeemed; and the CUSIP number, ISIN number or Common Code applicable to the debt securities to be redeemed.

At or prior to the opening of business on the redemption date, we will deposit or cause to be deposited with the trustee or with a paying agent (or, if we are acting as our own paying agent with respect to the debt securities being redeemed, we will segregate and hold in trust as provided in the indenture) an amount of money sufficient to pay the aggregate redemption price of all of the debt securities or the part thereof to be redeemed on that date and any accrued and unpaid interest payable. On the redemption date, the price at which the debt securities will be redeemed will become due and payable upon all of the debt securities to be redeemed, and interest, if any, on the debt securities to be redeemed will cease to accrue on and after that date; provided that, if the redemption price and any other amount owing with respect to any debt security called for redemption is not paid upon surrender of such debt security for redemption, the principal of such debt security will, until paid, bear interest from the redemption date at the rate borne by such debt security or as otherwise provided in such debt security. Upon surrender of any such debt securities for redemption, we will pay those debt securities surrendered at the price set for such redemption.

Any of the debt securities to be redeemed only in part must be surrendered at the office or agency established by us for such purpose, and we will execute, and the trustee will authenticate and deliver to you without service charge, new debt securities of the same series, containing identical terms and conditions, of any authorized denominations as requested by you, in an aggregate principal amount equal to and in exchange for the unredeemed portion of the debt securities you surrender.

Repurchase at the Holder's Option

If specified in the applicable prospectus supplement, the holders of the debt securities of a series will have the option to elect repurchase of those debt securities by us prior to the stated maturity of the debt securities of that series at the time or times and subject to the conditions specified in that prospectus supplement. If the holders of the debt securities of a series have that option, the applicable prospectus supplement will specify the optional repurchase date or dates and the optional repurchase price, or the method by which such price will be determined. The optional repurchase price will be the price at which, together with accrued interest to the optional repurchase date, the debt security may be repaid at the holder's option on each such optional repurchase date.

Any tender of a debt security by the holder for repurchase will be irrevocable. Unless specified otherwise in the applicable prospectus supplement, any repurchase option of a holder may be exercised by the holder of debt securities for less than the entire principal amount of the debt security, provided that the principal amount of the debt security remaining outstanding after repurchase will be an authorized denomination. Upon such partial repurchase, the debt securities will be canceled and new debt securities for the remaining principal amount will be issued in the name of the holder of the debt securities as to which the partial repurchase occurs.

If debt securities are represented by a global note as described under "Book-Entry Issuance and Settlement," the securities depository for the global note or its nominee will be the holder of the debt security and, therefore, will be the only entity that can exercise a right to repurchase of the debt security. In order to ensure that the depository or its nominee will timely exercise a right to repurchase relating to a particular debt security, the beneficial owner of the debt security must instruct the broker or other direct or indirect participant in the depository through which it holds an interest in the debt security to notify the depository of its desire to exercise a repurchase option by the appropriate cut-off time for notifying the participant. Different firms have different cut-off times for accepting instructions from their customers. Accordingly, each beneficial owner of those debt securities should consult the broker or other direct or indirect participant through which it holds an interest in a debt security in order to ascertain the cut-off time by which such an instruction must be given for timely notice to be delivered to the appropriate depository.

Provisions of the Indenture

The indenture, which is a contract between us and the trustee, sets forth certain terms and conditions that may apply to, and be part of, the terms and conditions of the debt securities of a particular series, but that may not be expressly set forth in the debt securities of such series. The following discussion summarizes certain provisions of the indenture. The summary may not contain all of the information regarding the indenture's terms you may want to have, and we urge you to read the full text of the indenture, including each supplement thereto. Those documents are exhibits to the registration statement of which this prospectus is a part or will be incorporated by reference into such registration statement. We are incorporating by reference the provisions of the indenture summarized below by means of the section numbers of those provisions referred to below. The following summary is qualified in its entirety by those provisions of the indenture.

General

The indenture does not limit the amount of debt securities that may be issued under it and provides that debt securities may be issued under it from time to time in one or more series. This prospectus and the applicable prospectus supplement by which we offer the debt securities of one or more series will describe the following terms of the debt securities of each series being so offered:

- the title of the series;
- the maximum aggregate principal amount, if any, established for debt securities of the series;
- the maximum aggregate initial public offering price, if any, established for the debt securities of the series;
- any priority of payment applicable to debt securities of the series;
- the date or dates on which the principal and premium, if any, will be paid;
- the method or methods by which payments of principal of, or premium, if any, or any interest on, debt securities of the series shall be determined if the amount of such payments may be determined with reference to an index, a formula or another method;
- the annual rate or rates, if any, which may be fixed or variable, at which the debt securities of the series shall bear interest, or the method or methods by which the rate or rates, if any, at which the debt securities of the series shall bear interest may be determined;
- the date or dates from which interest, if any, will accrue;
- the dates on which any accrued interest will be payable and the record dates for the interest payment dates;
- the basis upon which interest will be calculated if other than that of a 360-day year consisting of twelve 30-day months;
- the percentage of the principal amount at which the debt securities of the series will be issued and if less than face amount, the portion of the principal amount that will be payable upon acceleration of the maturity of those debt securities or at the time of any prepayment of those debt securities or the method for determining that amount;
- if we may prepay the debt securities of the series in whole or in part, the terms of our prepayment right, the time or times at which any such prepayment may be made, whether the prepayment may be made in whole or may be made in part from time to time and the terms and conditions on which such prepayment may be made, including the obligation to pay any premium or any other make-whole amount in connection with any prepayment;
- the extent, if any, to which the debt securities of the series may be issued in temporary or permanent global form, the terms and conditions on which the debt securities issued in global form may be exchanged for definitive securities and the manner for payment of interest on debt securities represented by global securities;

- the offices or agencies where the debt securities of the series may be presented for registration of transfer or exchange;
- the place or places where the principal of and premium, if any, and interest, if any, on debt securities of the series will be paid;
- if we will have the right to redeem or repurchase the debt securities of the series, in whole or in part, at our option, the terms of our redemption or repurchase right, when those redemptions or repurchases may be made, the redemption or repurchase price or the method or methods for determining the redemption or repurchase price, and any other terms and conditions upon which any such redemption or repurchase made at our option will occur;
- if we will be obligated to redeem or repurchase the debt securities of the series in whole or in part at any time pursuant to any sinking fund or analogous provisions or without the benefit of any sinking fund or analogous provisions, the terms of our redemption or repurchase obligation, including when and at whose option we will be obligated to redeem or repurchase the debt securities of the series, and the redemption or repurchase price or the method for determining the redemption or repurchase price and any other terms and conditions on which such redemption or repurchase must occur;
- if any debt securities of the series will be convertible into any other securities of our company or exchangeable for other securities of our company or any other person, the terms on which any debt securities of the series will be convertible into any other securities of our company or exchangeable for other securities of our company or any other person, the conversion or exchange price or prices or conversion or exchange ratio or ratios, when such conversion or exchange may occur, or the method or methods of determining that price or prices or that ratio or ratios and the other terms and conditions, including anti-dilution terms, upon which any conversion or exchange may occur;
- the denominations in which we will issue debt securities of the series if other than \$2,000 and integral multiples of \$1,000 in excess thereof;
- the currency in which we will pay principal, premium, if any, interest and other amounts owing with respect to the debt securities of the series, which may be U.S. dollars, a foreign currency, a common currency or a composite currency;

- whether the debt securities of the series will be issued in certificated or book-entry form;
- any addition to or change in the events of default with respect to, or covenants relating to, the debt securities of the series;
- whether the debt securities of the series will be subject to defeasance as provided in the indenture; and
- any other specific terms and conditions of the series of debt securities. (Section 3.01)

If we sell debt securities of any series that are denominated in or whose purchase price is payable in one or more foreign currencies, currency units or composite currencies, we will disclose any material applicable restrictions, elections, tax consequences, specific terms and other information with respect to that series of debt securities and the relevant foreign currencies, currency units or composite currencies in each prospectus supplement relating to that series.

We may offer and sell series of the debt securities as original issue discount securities, as securities bearing no interest or as securities bearing interest at a rate that at the time of issuance is below market rates. We may also sell debt securities of a series at a substantial discount below their stated principal amount. We will describe

the material U.S. federal income tax consequences and other special considerations applicable to the debt securities of a series or sales thereof in each prospectus supplement relating to an offering of debt securities of that series if and to the extent such consequences and considerations are not described in this prospectus.

Events of Default and Waiver

An event of default with respect to the debt securities of a series issued will occur if:

- we fail to pay interest on any outstanding debt securities of that series when that interest is due and payable and that failure continues for 30 days;
- we fail to pay principal of or premium, if any, on any outstanding debt securities of that series when that principal or premium, if any, is due and payable;
- we fail to perform or we breach any covenant or warranty in the indenture with respect to any outstanding debt securities of that series and that failure continues for 90 days after we receive written notice of that default from the trustee or the holders at least 25% of the outstanding debt securities of that series;
- certain events of bankruptcy, insolvency or reorganization occur with respect to us; or
- any other event occurs that is designated as an event of default with respect to a particular series of debt securities when that series of debt securities is established. (Section 7.01)

An event of default with respect to a particular series of debt securities issued under the indenture does not necessarily constitute an event of default with respect to any other series of debt securities issued under the indenture.

If an event of default with respect to any series of outstanding debt securities occurs and is continuing (other than an event of default relating to certain events of bankruptcy, insolvency or reorganization with respect to us), the trustee or the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount of the outstanding debt securities of that series to be immediately due and payable. If an event of default relating to certain events of bankruptcy, insolvency or reorganization with respect to us occurs and is continuing, the principal of and accrued and unpaid interest on the then outstanding debt securities of all series issued under the indenture will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holders of the debt securities. (Section 7.02)

The holders of a majority in aggregate principal amount of the outstanding debt securities of a series may waive an event of default resulting in acceleration of the debt securities of that series and rescind and annul that acceleration, but only if all other events of default with respect to the debt securities of that series have been remedied or waived and all payments due with respect to the debt securities of that series, other than those becoming due as a result of acceleration, have been made. (Section 7.02) If an event of default occurs and is continuing with respect to the debt securities of a series, the trustee may, in its discretion, and will, at the written request of holders of not less than a majority in aggregate principal amount of the outstanding debt securities of that series and upon reasonable indemnity against the costs, expenses and liabilities to be incurred by the trustee in compliance with such request and subject to certain other conditions set forth in the indenture, proceed to protect the rights of the holders of the debt securities of that series. (Sections 7.03 and 7.12) The holders of a majority in aggregate principal amount of the debt securities of that series may waive any past default under the indenture and its consequences except an uncured default in the payment of principal of and premium, if any, or interest on those debt securities or with respect to any covenant or provision of the indenture that the indenture or the debt securities specifically provide cannot be waived without the consent of each holder of debt securities of that series. Upon such a waiver, the default and any event of default arising out of the default will be deemed cured for all purposes of the debt securities of that series. (Section 7.13)

The indenture provides that upon the occurrence of an event of default arising out of our failure to pay interest when due on the debt securities of a series or our failure to pay the principal of or premium, if any, on the

[Table of Contents](#)

debt securities of a series at their maturity, we will, upon the trustee's demand, pay to the trustee for the benefit of the holders of the outstanding debt securities of that series, the whole amount then due and payable on the debt securities of that series for principal, premium, if any, and interest. The indenture also provides that if we fail to pay such amount forthwith upon such demand, the trustee may, among other things, institute a judicial proceeding for the collection of those amounts. (Section 7.03)

The indenture also provides that, notwithstanding any other provision of the indenture, the holder of any debt securities of a series will have the right to institute suit for the enforcement of any payment of principal of and premium, if any, and interest on the debt securities of that series or any redemption price or repurchase price when due and that such right will not be impaired without the consent of that holder. (Section 7.08)

The trustee is required, within 90 days after the occurrence of a default (as defined below) with respect to the debt securities of a series, to give to the holders of the debt securities of that series notice of all uncured defaults with respect to the debt securities of that series known to the trustee. However, except in the case of default in the payment of principal of or premium, if any, or interest on any of the debt securities of that series, the trustee will be protected in withholding that notice if the trustee in good faith determines that the withholding of that notice is in the interest of the holders of the debt securities of that series. The term "default," for the purpose of this provision only, means the occurrence of any event that is or would become, after notice or the passage of time or both, an event of default with respect to the debt securities of that series. (Section 8.02)

We are required to file annually with the trustee a written statement as to the existence or non-existence of defaults under the indenture or any series of debt securities. (Section 5.05)

Legal Defeasance and Covenant Defeasance

We may, at our option and at any time, elect to have all of the obligations discharged with respect to the outstanding debt securities or as to any series thereof, except for:

- the rights of holders of debt securities to receive payments of principal, premium, if any, interest and additional amounts, if any, from the trust referred to below when those payments are due;
- our obligations respecting the debt securities concerning issuing temporary debt securities, registration of transfers of debt securities, mutilated, destroyed, lost or stolen debt securities, the maintenance of an office or agency for payment and money for payments with respect to the debt securities being held in trust;
- the rights, powers, trusts, duties and immunities of the trustee and our obligations in connection therewith; and
- the provisions of the indenture relating to such a discharge of obligations.

We refer to a discharge of this type as "legal defeasance." (Section 11.02)

In addition, other than our covenant to pay the amounts due and owing with respect to a series of debt securities, we may elect to have our obligations as the issuer of a series of debt securities released with respect to covenants relating to that series of debt securities. Thereafter, any failure to comply with those obligations will not constitute a default or event of default with respect to the debt securities of that series. If such a release of our covenants occurs, our failure to perform or our breach of the covenants or warranties defeased will no longer constitute an event of default with respect to those debt securities. We refer to a discharge of this type as "covenant defeasance." (Section 11.03)

To exercise either of the defeasance rights described above as to the outstanding debt securities of a series, certain conditions must be satisfied, including, among others:

- we must irrevocably deposit, or cause to be deposited, with the trustee, in trust for the benefit of the holders of the outstanding debt securities of the series, moneys in the currency in which the debt

securities are denominated, securities issued by a government, governmental agency or central bank of the country in whose currency the debt securities are denominated or a combination of cash and such securities, in amounts sufficient to pay the principal of and premium, if any, and interest on all of the then outstanding debt securities to be affected by the defeasance at their stated maturity;

- no default or event of default under the indenture then exists on the date of such deposit, subject to certain exceptions;
- the trustee must receive an opinion of counsel confirming that the holders of the outstanding debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of that legal defeasance or covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if that defeasance had not occurred, which opinion, only in the case of the legal defeasance of the debt securities of a series, will be based on a ruling of the Internal Revenue Service or a change in U.S. federal income tax law to that effect occurring after the date of the indenture; and
- the trustee must receive an opinion of counsel to the effect that, after the ninety-first day following the deposit, the trust funds will not be part of any “estate” formed by the bankruptcy of our company or subject to the “automatic stay” under the United States Bankruptcy Code or, in the case of covenant defeasance, will be subject to a first priority lien in favor of the trustee for the benefit of the holders of the outstanding debt securities of the series. (Section 11.04)

Satisfaction and Discharge

If we so request, the indenture will cease to be of further effect, other than as to certain rights of registration of transfer or exchange of the debt securities, as provided for in the indenture, and the trustee, at our expense, will execute proper instruments acknowledging satisfaction and discharge of the indenture and the debt securities when:

- all the debt securities previously authenticated and delivered under the indenture, other than destroyed, lost or stolen debt securities that have been replaced or paid and debt securities that have been subject to defeasance, have been delivered to the trustee for cancellation; or
- all of the debt securities issued under the indenture not previously delivered to the trustee for cancellation (i) have become due and payable, (ii) will become due and payable at their stated maturity within 60 days or (iii) will become due and payable at redemption within 60 days under arrangements satisfactory to the trustee for the giving of notice of redemption by the trustee in our name and expense, and we have irrevocably deposited or caused to be deposited with the trustee in trust for the purpose, an amount sufficient to pay and discharge the entire indebtedness arising under the debt securities issued pursuant to the indenture not previously delivered to the trustee for cancellation, for principal of, premium, if any, on and interest on those debt securities to the date of such deposit (in the case of debt securities that have become due and payable) or to the stated maturity of these securities or redemption date, as the case may be; and
- in either of the foregoing cases:
 - we have paid or caused to be paid all sums payable under the indenture by us; and
 - no default or event of default under the indenture then exists; and
 - we have delivered to the trustee an officers’ certificate and an opinion of counsel, each stating that all conditions precedent provided in the indenture relating to the satisfaction and discharge of the indenture have been complied with. (Section 11.08)

Modification of the Indenture

We and the trustee may execute a supplemental indenture to add provisions to or to eliminate or change provisions of the indenture or to modify otherwise the rights of the holders of debt securities of one or more

[Table of Contents](#)

series if we have the consent of the holders of not less than a majority in aggregate principal amount of the outstanding debt securities of all series affected by that supplemental indenture. However, we and the trustee may not execute a supplemental indenture without the consent of each holder of debt securities of the series affected by that supplemental indenture if that supplemental indenture would, among other things:

- change the maturity of, the principal of, or the stated maturity of any installment of interest or premium, if any, on, any such debt security, reduce the principal amount of or the premium, if any, or rate of interest on any such debt security, change any method for determining the rate of interest on any such debt security, change the obligation to pay any additional amounts with respect to any such debt security, reduce the amount due and payable on any such debt security upon the acceleration of its maturity or upon its repurchase or redemption if the amount payable upon acceleration, repurchase or redemption is otherwise less than the stated principal amount of that debt security, change the method of calculating interest on any such debt security of the affected series, change the currency in which the principal of or the premium, if any, or interest on any such debt security is payable, reduce the minimum rate of interest on any such debt security or impair the right to institute suit for the enforcement of any such payment on or with respect to any such holder's debt securities;
- reduce the percentage in principal amount of outstanding debt securities of any series described above as being required to consent to entry into a particular supplemental indenture or for the waiver of certain defaults under the indenture and their consequences; or
- modify the provisions of the indenture relating to modification of the indenture, except in certain specified respects. (Section 9.02)

We and the trustee, without the consent of the holders of the debt securities, may execute a supplemental indenture to, among other things:

- evidence the succession of another corporation to us and the successor's assumption to our covenants with respect to the debt securities and the indenture;
- add to our covenants further restrictions or conditions for the benefit of holders of all or any series of the debt securities;
- cure ambiguities or correct or supplement any provision contained in the indenture or any supplemental indenture that may be inconsistent with another provision;
- add additional events of default with respect to all or any series of the debt securities;
- add to, change or eliminate any provision of the indenture, provided that the addition, change or elimination will not affect any outstanding debt securities;
- establish new series of debt securities and the form or terms of such series of debt securities and to provide for the issuance of securities of any series so established;
- evidence and provide for the acceptance of appointment of a successor trustee with respect to one or more series of debt securities and to add or change any provision to or of the indenture as necessary to have more than one trustee under the indenture; and
- comply with the requirements of the SEC in order to maintain the qualification of the indenture under the Trust Indenture Act of 1939, as amended, or the "Trust Indenture Act." (Section 9.01)

Amalgamation, Consolidation, Merger or Sale of Assets

The indenture provides that we may, without the consent of the holders of any of the outstanding debt securities of any series, amalgamate, consolidate with, merge into or transfer our properties and assets substantially as an entirety to any person or enter into any reorganization or arrangement, provided that:

- any successor to us assumes our obligations on our outstanding debt securities issued under this indenture;

[Table of Contents](#)

- any successor to us must be an entity organized under the laws of a state of the United States;
- after giving effect to such transaction, no event of default, as defined in the indenture, and no event that after notice or lapse of time, or both, would become an event of default shall have happened and be continuing; and
- certain other conditions under the indenture are satisfied.

Any such amalgamation, consolidation, merger or transfer of assets substantially as an entirety, or reorganization or arrangement, that satisfies the conditions described above would not constitute a default or event of default that would entitle holders of the debt securities or the trustee, on their behalf, to take any of the actions described above under “—Events of Default and Waiver.” (Sections 10.01 and 10.02)

No Limitations on Additional Debt and Liens

The indenture does not contain any covenants or other provisions that would limit our right to incur additional indebtedness, enter into any sale and leaseback transaction or grant liens on our assets. We may also incur from time to time additional debt other than through the issuance of debt securities under this prospectus. If we incur such additional debt by issuing other debt securities, we may, but need not, issue those debt securities pursuant to the indenture.

Indenture Trustee

The Bank of New York Mellon Trust Company, N.A., is the trustee under the indenture and will also be the registrar and paying agent for each series of debt securities offered and sold pursuant to this prospectus unless otherwise specified in the applicable prospectus supplement. The trustee is a national banking association with its principal offices in Los Angeles, California. The trustee administers debt securities that we have previously issued under the indenture through its Chicago, Illinois office, and we anticipate that the trustee will also administer the debt securities of each series issued pursuant to this prospectus through its Chicago, Illinois office.

The trustee has two main roles under the indenture. First, the trustee can enforce your rights against us if an event of default, as described above under “—Events of Default and Waiver,” occurs. Second, the trustee performs certain administrative duties related to the debt securities of each series for us. The trustee is entitled, subject to its duty when an event of default has occurred and is continuing to act with the required standard of care, to be indemnified by the holders of the debt securities before proceeding to exercise any right or power under the indenture at the request of those holders. The indenture provides that the holders of a majority in principal amount of the debt securities of a series may direct, with regard to that series, the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities, although the trustee may decline to act if that direction is contrary to law or if the trustee determines in good faith that the proceeding so directed would be illegal or would result in personal liability to it.

We have previously issued under the indenture, and there were outstanding at the date of this prospectus, senior unsecured debt securities of a number of series. The Bank of New York Mellon Trust Company, N.A. also serves as trustee under other indentures under which we have issued other debt securities that were outstanding at the date of this prospectus.

We and our subsidiaries have had in the past, and may maintain in the future, ordinary banking and trust relationships with The Bank of New York Mellon Trust Company, N.A. and certain of its affiliates. One of those affiliates has been an underwriter of debt securities we have previously sold and issued pursuant to the indenture.

The Trust Indenture Act provides that, upon the occurrence of a default under the indenture, if the trustee has a conflicting interest (as defined in the Trust Indenture Act), the trustee must, within 90 days after it

[Table of Contents](#)

ascertains that it has that conflicting interest, either eliminate that conflicting interest or resign as trustee unless the default has been cured, waived or otherwise eliminated before the end of the 90-day period. If the trustee fails to resign in those circumstances, it is required to provide, within ten days after the 90-day period expires, notice of the conflicting interest to the holders of the debt securities outstanding under the indenture. Any security holder that has been a bona fide holder of debt securities issued for at least six months may petition a court of competent jurisdiction to remove the trustee and to appoint a successor trustee under the indenture if the trustee does not eliminate its conflicting interest or resign as indenture trustee upon the written request of such holder during the 90-day period described above. A security holder filing such a petition may be required by the court to undertake to pay the costs of such court action. In accordance with the Trust Indenture Act, as a result of the trustee being the indenture trustee as to other series of our debt securities issued under the indenture and as to other securities issued pursuant to at least one other indenture, the trustee would not be deemed to have a conflicting interest upon the default as to the debt securities of a particular series.

BOOK-ENTRY ISSUANCE AND SETTLEMENT

Form of the Debt Securities, Title and Transfers

The debt securities of each series will initially be issued in book-entry form only and will be represented by one or more global notes that will be fully registered in the name of a depository or a nominee of a depository. Unless the prospectus supplement relating to the offering of debt securities of a particular series specifies otherwise, the global notes representing the debt securities of a series denominated in U.S. dollars will be deposited with, or on behalf of, DTC, as the depository, and registered in the name of Cede & Co., as DTC's nominee, and the global notes representing the debt securities of a series denominated in a currency other than U.S. dollars will be deposited with a common depository on behalf of Clearstream and Euroclear and registered in the name of that common depository or a nominee of that common depository. An affiliate of the trustee may act as the common depository for Clearstream and Euroclear for the global notes representing debt securities of a series denominated in a currency other than U.S. dollars and, in such a case, such global notes may be registered in the name of such common depository or a nominee of such common depository. Unless and until a global note is exchanged in whole for securities in definitive registered form, such global note may not be transferred except as a whole by and among the depository for the global security, the nominees of the depository or any successors of the depository or those nominees. No person who acquires an interest in any global note will be entitled to receive a certificate or other instrument representing the person's interest in the global notes except as described below or in the applicable prospectus supplement.

Although DTC, Clearstream and Euroclear have agreed to the procedures described below in order to facilitate transfers of global securities among participants in DTC, Clearstream and Euroclear, none of them are under any obligation to perform or continue to perform their respective procedures, and the procedures of any of DTC, Clearstream and Euroclear may be modified or discontinued at any time. None of our company, the trustee, any paying agent, any registrar and any transfer agent with respect to our debt securities of any series offered by means of this prospectus and the applicable prospectus supplement will have any responsibility for the performance by DTC, Euroclear, Clearstream or any of their respective direct or indirect participants of their respective obligations under the rules and procedures governing the operations of DTC, Clearstream or Euroclear.

Debt securities of a particular series represented by one or more global notes will be exchangeable for certificated debt securities of that series with the same terms and in authorized denominations only if:

- DTC, Clearstream or Euroclear, as the case may be, is unwilling or unable to continue as depository of debt securities of that series or ceases to be a clearing agency registered under applicable law, and we do not appoint a successor depository within 90 days;
- we decide to discontinue the book-entry system as to our debt securities of such series or of all series of our debt securities; or
- an event of default has occurred and is continuing with respect to the debt securities of such series.

If a global note is exchanged for certificated debt securities, the trustee will keep the registration books for such debt securities at its corporate office and follow customary practices and procedures regarding those certificated debt securities.

Actions and Notices

Unless and until certificated debt securities are issued and those particular debt securities are no longer held in the form of one or more global notes, all references in this prospectus or any prospectus supplement to this prospectus to actions by holders of any debt securities refer to actions taken or to be taken by DTC, Clearstream or Euroclear, as the case may be, upon instructions from its participants, and all references herein to payments

and notices to the holders of debt securities refer to payments and notices to be made or given to DTC, its nominee, Clearstream, Euroclear, the common depository for Clearstream and Euroclear or the nominee of such common depository, as the case may be, as the registered holder of the offered debt securities.

The Clearing Systems and Settlement

Although the following information in this prospectus concerning DTC, Clearstream and Euroclear and their respective book-entry systems has been obtained from sources we believe to be reliable, we take no responsibility for the accuracy of that information. Furthermore, none of DTC, Clearstream and Euroclear have any obligation to perform or continue to perform their respective procedures described below, and any of them may discontinue or change those procedures at any time.

DTC

DTC has advised as follows: DTC is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that DTC’s participating organizations, referred to as “direct DTC participants,” deposit with DTC. DTC also facilitates the clearance and post-trade settlement among direct DTC participants of sales and other securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in direct DTC participants’ accounts at DTC, thereby eliminating the need for physical movement of securities certificates. Direct DTC participants include both U.S. and non-U.S. securities brokers and dealers (including underwriters of our debt securities), banks, trust companies, clearing corporations and certain other organizations, some of which, and/or their representatives, indirectly own DTC. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation, or “DTTC,” which is the holding company for the National Securities Clearing Corporation, the Fixed Income Clearing Corporation, and the Emerging Markets Clearing Corporation, each of which is a registered clearing organization. The users of DTTC’s regulated subsidiaries’ services own DTTC. Indirect access to the DTC system is also available to others, referred to as “indirect DTC participants” and together with direct DTC participants, referred to as “DTC participants,” such as U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations, that clear through or maintain a custodial relationship with a direct DTC participant, either directly or indirectly. The rules applicable to DTC and the DTC participants are on file with the SEC. According to DTC, the foregoing information with respect to DTC has been provided to the financial community for informational purposes only and is not intended to serve as a representation, warranty or contract modification of any kind.

Beneficial interests in a global note representing our outstanding debt securities and registered in the name of DTC or the nominee of DTC will be shown on, and transfers of beneficial interests in the global note will be made only through, records maintained by DTC and DTC participants. When you purchase such debt securities, the purchases must be effected by or through a direct DTC participant, which will receive credit for the debt securities in its account on DTC’s records. Upon that purchase, you will become the beneficial owner of the purchased debt securities. If you purchase through a direct DTC participant, your interest will be recorded on the records of the direct DTC participant. If you purchase through an indirect DTC participant, your interest will be recorded on the records of the indirect DTC participant, while the direct DTC participant through which the purchase is effected will reflect ownership of those debt securities in the account it maintains for the indirect DTC participant. Neither DTC nor we will have any knowledge of your individual ownership of the debt securities. When you purchase debt securities through the DTC system, you will not receive a written confirmation of your purchase or sale or any periodic account statement directly from DTC. You should instead receive these confirmations and account statements from the DTC participant through which you purchase the debt securities. The DTC participants are responsible for keeping accurate account of the holdings of their customers, including, if you are a customer of such DTC participant, any beneficial interests you may hold in our debt securities.

We and the trustee will treat the person in whose name a global note representing our debt securities is registered, whether DTC or its nominee, as the owner of such global note for all purposes. Accordingly, the trustee will pay all amounts payable with respect to such debt securities to the registered holder of such global note. It is DTC's current practice, upon receipt of any payment of distributions or liquidation amounts due on a global note, to proportionately credit direct DTC participants' accounts on the payment date based on their holdings of the relevant securities. Payments to you with respect to your beneficial interest in any of our debt securities in turn will be the responsibility of the DTC participants based on their respective customary practices, and the trustee, any paying agent and we will have no direct responsibility or liability to pay amounts due on a global note to you or any other beneficial owners in that global note. We or, at our request, the trustee will send any redemption notices regarding debt securities of which you are the beneficial owner directly to DTC. In accordance with current practice, DTC will, in turn, inform the DTC participants, which will then contact you as a beneficial holder of the debt securities that are the subject of the redemption notice. DTC's current practice is to pass through any consent or voting rights to the direct DTC participants by using an omnibus proxy. Those direct DTC participants should, in turn, solicit votes and consents from you, as the ultimate owner of debt securities, either directly or through the indirect DTC participant through which you hold the debt securities, or provide you with a proxy based on their respective customary practices. As a general proposition, we understand that under existing industry practices, if we request the holders of our debt securities to take, or if a beneficial owner of our debt securities wants to take, any action that a holder of such debt securities is entitled to take under the indenture, DTC would authorize the direct DTC participants holding the relevant beneficial interests in such debt securities to take that action. The DTC participants would authorize beneficial owners owning through them to take that action or would otherwise act upon the instructions of beneficial owners holding our debt securities through such DTC participants.

Under applicable rules, regulations and procedures, DTC must make book-entry transfers of our debt securities represented by global notes registered in the name of DTC or its nominee between direct DTC participants and receive and transmit distributions of principal of, premium, if any, on, interest on and the redemption price for such debt securities to the direct DTC participants whose accounts are credited with such debt securities as their interests appear. Those DTC participants with which investors have accounts to which such debt securities are credited must make similar book-entry transfers and receive and transmit payments on behalf of their respective customers.

Because DTC can only act on behalf of direct DTC participants, who in turn act on behalf of indirect DTC participants and certain banks, the ability of a person having a beneficial interest in a security held in DTC to transfer or pledge that interest to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of that interest, may be affected by the lack of a physical certificate representing that interest. The laws of some states of the United States require that certain persons take physical delivery of securities in certificated form in order to transfer or perfect a security interest in those securities. Consequently, the ability to transfer beneficial interests in a security held in DTC to those persons or to perfect such a security interest may be limited.

DTC has advised that it will take any action permitted to be taken by a holder of debt securities under the terms and conditions of the debt securities (including, without limitation, the presentation of debt securities for exchange) only at the direction of one or more of the direct DTC participants to whose accounts with DTC interests in the relevant debt securities are credited, and only in respect of the portion of the aggregate principal amount of the debt securities as to which that direct DTC participant has or those direct DTC participants have given the direction.

Clearstream

Clearstream has advised as follows: Clearstream was incorporated as a professional depository under Luxembourg law and is owned by Deutsche Börse AG, the shareholders of which are primarily banks, securities dealers and financial institutions. Clearstream holds securities for its customers and facilitates the clearance and settlement of securities transactions between Clearstream customers through electronic book-entry changes in the

accounts of Clearstream customers, thereby eliminating the need for physical movement of certificates. Clearstream provides to its customers, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. Clearstream has established an electronic bridge with the Euroclear to facilitate settlement of trades between Clearstream and Euroclear. As a registered bank in Luxembourg, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector and supervision by the Luxembourg Central Bank. Clearstream customers are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. In the United States, Clearstream participants are limited to securities brokers and dealers and banks, and may include the underwriters of the debt securities offered by means of this prospectus or one or more of their affiliates. Indirect access to Clearstream is also available to other institutions, such as banks, brokers, dealers and trust companies, that clear through or maintain a custodial relationship with a Clearstream participant, either directly or indirectly. Clearstream is an indirect DTC participant.

Distributions with respect to the debt securities held beneficially through Clearstream will be credited to cash accounts of Clearstream participants in accordance with its rules and procedures, to the extent received by the U.S. depository of Clearstream.

Euroclear

Euroclear has advised as follows: Euroclear was created in 1968 to hold securities for participants of Euroclear and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Transactions may now be settled through Euroclear in many currencies, including United States dollars, euros, Japanese yen and United Kingdom pounds sterling. Euroclear provides various other services, including securities lending and borrowing, and interfaces with domestic markets in several countries. Euroclear Bank conducts all operations for cross-border transactions, and all Euroclear securities clearance accounts and Euroclear cash accounts relating to international bonds, equities, derivatives and investment funds are accounts with Euroclear Bank. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters of the debt securities offered by this prospectus or one or more of their affiliates. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly. Euroclear Bank is an indirect DTC participant. The Euroclear Operator is a Belgian bank that is regulated by the Belgian Financial Services and Market Authority and the National Bank of Belgium.

The Terms and Conditions Governing Use of Euroclear, the related Operating Procedures of the Euroclear system and applicable Belgian law, or the “Euroclear Terms and Conditions,” govern transfers of securities and cash within Euroclear, withdrawal of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Euroclear Terms and Conditions only on behalf of Euroclear participants and has no record of or relationship with persons holding securities through Euroclear participants.

Distributions with respect to debt securities held beneficially through Euroclear will be credited to the cash accounts of Euroclear participants in accordance with the Euroclear Terms and Conditions, to the extent received by the common depository for Clearstream and Euroclear from the trustee or our paying agent, if any, with respect to those debt securities.

Investors that acquire, hold and transfer interests in the debt securities by book-entry through accounts with the Euroclear Operator or any other securities intermediary are subject to the laws and contractual provisions governing their relationship with their intermediary, as well as the laws and contractual provisions governing the

relationship between such an intermediary and each other intermediary, if any, standing between themselves and the global securities.

Clearstream and Euroclear Procedures

Each of Clearstream and Euroclear will record the ownership interests of its participants in our debt securities, record transfers of those securities and handle payments made and notices received with respect to such debt securities in much the same way as does DTC. If DTC is the depository for the debt securities of a series, it will record the total ownership of any of the debt securities of the U.S. agent of Clearstream or Euroclear as a participant in DTC. When debt securities are to be transferred from the account of a direct DTC participant to the account of a Clearstream or Euroclear participant, the purchaser must send instructions to Clearstream or Euroclear, as the case may be, through a Clearstream or Euroclear participant, as appropriate, at least one day prior to settlement. Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive debt securities against payment. After settlement, Clearstream or Euroclear, as the case may be, will credit its participant's account with the interest in the debt securities purchased. Credit for the debt securities will appear on the next day (European time).

In instances in which the debt securities of a series are held by DTC or its nominee, settlement will take place during New York business hours. Direct DTC participants will be able to employ their usual procedures for sending debt securities to the relevant U.S. agent acting for the benefit of Clearstream or Euroclear participants. The sale proceeds will be available to the DTC seller on the settlement date. As a result, to the direct DTC participant, a cross-market transaction will settle no differently than a trade between two direct DTC participants.

When a Clearstream or Euroclear participant wishes to transfer debt securities to a direct DTC participant, the seller will be required to send instructions to Clearstream or Euroclear, as the case may be, through a Clearstream or Euroclear participant, as appropriate, at least one business day prior to settlement. In these cases, Clearstream or Euroclear, as the case may be will instruct its U.S. agent to transfer these debt securities against payment for them. The payment will then be reflected in the account of the Clearstream or Euroclear participant the following day, with the proceeds back-valued to the value date, which would be the preceding day, when settlement occurs in New York. If settlement is not completed on the intended value date, that is, the trade fails, proceeds credited to the Clearstream or Euroclear participant's account will instead be valued as of the actual settlement date.

You should be aware that you will only be able to make and receive deliveries, payments and other communications involving the debt securities through Clearstream or Euroclear on the days when its system is open for business. Clearstream or Euroclear may not be open for business on days when banks, brokers and other institutions are open for business in the United States. In addition, because of time zone differences, problems may occur when completing transactions involving Clearstream or Euroclear on the same business day as in the United States.

Cross-Market Transfers

Where appropriate with respect to the debt securities of a series being offered and sold by means of this prospectus, electronic securities and payment transfer, processing, depository and custodial links will be established among DTC, Clearstream and Euroclear to facilitate the initial issuance of any of those debt securities sold outside of the United States and cross-market transfers of those debt securities associated with secondary market trading. DTC, Clearstream and Euroclear have no obligation to perform or continue to perform the procedures described above, and any of them may discontinue or change those procedures at any time. Neither we nor the trustee, any registrar, any paying agent or any transfer agent with respect to our debt securities of any series offered by means of this prospectus will have any responsibility for the performance by DTC, Clearstream, Euroclear or any of their respective direct or indirect participants of their respective obligations under the rules and procedures governing the operations of DTC, Clearstream or Euroclear.

U.S. FEDERAL INCOME TAX CONSIDERATIONS

Unless otherwise disclosed in the prospectus supplement relating to the debt securities of a particular series, the following is a discussion of the material U.S. federal income and, in the case of “non-United States holders” (as defined below), estate tax consequences of the ownership of debt securities of each series offered by means of this prospectus for beneficial owners of debt securities. Except where noted, this discussion deals only with debt securities held as capital assets and does not deal with special situations. For example, this discussion does not address:

- tax consequences to beneficial owners of debt securities who may be subject to special tax treatment, such as dealers in securities or currencies, financial institutions, real estate investment trusts, regulated investment companies, tax-exempt entities, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, corporations that accumulate earnings to avoid U.S. federal income tax, insurance companies or, in some cases, an expatriate of the United States or a nonresident alien individual who has made a valid election to be treated as a United States resident;
- tax consequences to persons holding debt securities as part of a hedging, integrated, constructive sale or conversion transaction or a straddle;
- tax consequences to “United States holders” (as defined below) whose “functional currency” is not the U.S. dollar;
- tax consequences to beneficial owners of debt securities that are “controlled foreign corporations” or “passive foreign investment companies”;
- tax consequences to beneficial owners of debt securities that are “contingent payment debt instruments”;
- alternative minimum tax consequences, if any; or
- any state, local or foreign tax consequences.

If a partnership or an entity treated as a partnership for U.S. federal income tax purposes owns any of the debt securities, the tax treatment of a partner or an equity interest owner of such other entity will generally depend upon the status of the person and the activities of the partnership or other entity treated as a partnership. If you are a partner of a partnership or an equity interest owner of another entity treated as a partnership holding any of the debt securities, you should consult your tax advisors.

The discussion below is based upon the provisions of the Code and regulations, rulings and judicial decisions as of the date of this prospectus. Those authorities may be changed, perhaps retroactively, so as to result in U.S. federal income and estate tax consequences different than those discussed below. The discussion set forth below also assumes that all debt securities issued under this prospectus constitute debt for U.S. federal income tax purposes. If any debt securities do not constitute debt for U.S. federal income tax purposes, the tax consequences of ownership of such debt securities could differ materially from the tax consequences described below. We will summarize any special U.S. federal tax considerations relevant to a particular issue of the debt securities in the applicable prospectus supplement or supplements.

We urge you to consult your own tax advisors concerning the particular U.S. federal tax consequences to you and any consequences arising under the laws of any other taxing jurisdiction.

Consequences to United States Holders

The following is a discussion of the material U.S. federal income tax consequences that will apply to you if you are a United States holder of debt securities. Certain consequences to “non-United States holders” of debt securities are described under “—Consequences to Non-United States Holders” below.

“United States holder” means a beneficial owner of debt securities that is:

- a citizen or individual resident of the United States;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or any state of the United States or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust that (1) is subject to the primary supervision of a court within the United States and the control of one or more U.S. persons or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

Payments of Interest

Except as described below under “—Original Issue Discount,” interest on debt securities that you beneficially own will generally be taxable to you as ordinary income at the time it is paid or accrued in accordance with your method of accounting for U.S. federal income tax purposes.

Original Issue Discount

If you own debt securities issued with original issue discount (“OID”), you will be subject to special tax accounting rules, as described in greater detail below. In that case, you should be aware that you generally must include OID in gross income (as ordinary income) in advance of the receipt of cash attributable to that income. However, you generally will not be required to include separately in income cash payments received on the debt securities, even if denominated as interest, to the extent those payments do not constitute “qualified stated interest,” as defined below. If we determine that a particular debt security will be issued with OID (an “OID debt security”), we will disclose that determination in the applicable prospectus supplement or supplements relating to those debt securities. Special rules described below apply to debt securities with a maturity of one year or less and debt securities that are denominated in a currency other than U.S. dollars (“foreign currency debt securities”).

A debt security with an “issue price” that is less than the “stated redemption price at maturity” (the sum of all payments to be made on the debt security other than “qualified stated interest”) generally will be issued with OID in an amount equal to that difference if that difference is at least 0.25% of the stated redemption price at maturity multiplied by the number of complete years to maturity. The “issue price” of each debt security in a particular offering will be the first price at which a substantial amount of that particular offering is sold to the public. The term “qualified stated interest” means stated interest that is unconditionally payable in cash or in property, other than debt instruments of the issuer, and the interest to be paid meets all of the following conditions:

- it is payable at least once per year;
- it is payable over the entire term of the debt security; and
- it is payable at a single fixed rate or, subject to certain conditions, based on one or more interest indices.

If we determine that particular debt securities of a series will bear interest that is not qualified stated interest, we will disclose that determination in the applicable prospectus supplement or supplements relating to those debt securities.

If you own a debt security issued with “*de minimis*” OID, which is discount that is not OID because it is less than 0.25% of the stated redemption price at maturity multiplied by the number of complete years to maturity,

[Table of Contents](#)

you generally must include the *de minimis* OID in income at the time principal payments on the debt securities are made in proportion to the amount paid. Any amount of *de minimis* OID that you have included in income will be treated as capital gain.

Certain of the debt securities may contain provisions permitting them to be redeemed prior to their stated maturity at our option and/or at your option. In addition, if so specified in the applicable prospectus supplement, we may have the option to extend the stated maturity of the debt securities of a series for an extension period. OID debt securities containing those features may be subject to rules that differ from the general rules discussed herein. If you are considering the purchase of OID debt securities with those features, you should carefully examine the applicable prospectus supplement or supplements and should consult your own tax advisors with respect to those features since the tax consequences to you with respect to OID will depend, in part, on the particular terms and features of the debt securities.

If you own OID debt securities with a maturity upon issuance of more than one year you generally must include OID in income in advance of the receipt of some or all of the related cash payments using the “constant yield method” described in the following paragraphs. This method takes into account the compounding of interest.

The amount of OID that you must include in income if you are the initial United States holder of an OID debt security is the sum of the “daily portions” of OID with respect to the debt security for each day during the taxable year or portion of the taxable year in which you held that debt security (“accrued OID”). The daily portion is determined by allocating to each day in any “accrual period” a pro rata portion of the OID allocable to that accrual period. The “accrual period” for an OID debt security may be of any length and may vary in length over the term of the debt security, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs on the first day or the final day of an accrual period. The amount of OID allocable to any accrual period other than the final accrual period is an amount equal to the excess, if any, of:

- the debt security’s “adjusted issue price” at the beginning of the accrual period multiplied by its yield to maturity, determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period, over
- the aggregate of all qualified stated interest allocable to the accrual period.

OID allocable to a final accrual period is the difference between the amount payable at maturity, other than a payment of qualified stated interest, and the adjusted issue price at the beginning of the final accrual period. Special rules will apply for calculating OID for an initial short accrual period. The “adjusted issue price” of a debt security at the beginning of any accrual period is equal to its issue price increased by the accrued OID for each prior accrual period, determined without regard to the amortization of any acquisition or bond premium, as described below, and reduced by any payments previously made on the debt security other than a payment of qualified stated interest. Under these rules, you will generally have to include in income increasingly greater amounts of OID in successive accrual periods. We are required to provide information returns stating the amount of OID accrued on debt securities held by persons of record other than corporations and other exempt holders.

Floating rate debt securities are subject to special OID rules. In the case of an OID debt security that is a floating rate debt security, both the “yield to maturity” and “qualified stated interest” will be determined solely for purposes of calculating the accrual of OID as though the debt security will bear interest in all periods at a fixed rate generally equal to the rate that would be applicable to interest payments on the debt security on its date of issue or, in the case of certain floating rate debt securities, the rate that reflects the yield to maturity that is reasonably expected for the debt security. Additional rules may apply if either:

- the interest on a floating rate debt security is based on more than one interest index; or
- the principal amount of the debt security is indexed in any manner.

This discussion does not address the tax rules applicable to debt securities with an indexed principal amount or other contingent payments, or debt securities that may be convertible into or exchangeable for other securities. If you are considering the purchase of floating rate OID debt securities, debt securities with indexed principal amounts or other contingent payments, or debt securities that may be convertible into or exchangeable for other securities, you should carefully examine the applicable prospectus supplement or supplements relating to those debt securities, and should consult your own tax advisors regarding the U.S. federal income tax consequences to you of holding and disposing of those debt securities.

You may elect to treat all interest on any debt securities as OID and calculate the amount includible in gross income under the constant yield method described above. For purposes of this election, interest includes stated interest, acquisition discount, OID, *de minimis* OID, market discount, *de minimis* market discount and unstated interest, as adjusted by any amortizable bond premium or acquisition premium. You must make this election for the taxable year in which you acquired the debt security, and you may not revoke the election without the consent of the Internal Revenue Service (the "IRS"). If this election were to be made with respect to a debt security with market discount, you would be deemed to have made an election to currently include in income market discount with respect to all other debt instruments having market discount that you acquire during the year of the election or thereafter, as described below in "—Market Discount." Similarly, if you make this election for a debt security that is acquired at a premium you will be deemed to have made an election to amortize bond premium with respect to all debt instruments having amortizable bond premium that you own or acquire during the year of the election or thereafter, as described below in "—Acquisition Premium and Amortizable Bond Premium." You should consult with your own tax advisors about this election.

Short-Term Debt Securities

In the case of debt securities with a maturity upon issuance of one year or less ("short-term debt securities"), all payments, including all stated interest, will be included in the stated redemption price at maturity and will not be qualified stated interest. As a result, you will generally be taxed on the discount instead of stated interest. The discount will be equal to the excess of the stated redemption price at maturity over the issue price of a short-term debt security, unless you elect to compute this discount using tax basis instead of issue price. In general, individuals and certain other cash method United States holders of short-term debt securities are not required to include accrued discount in their income currently unless they elect to do so, but may be required to include stated interest in income as the income is received. United States holders that report income for U.S. federal income tax purposes on the accrual method and certain other United States holders are required to accrue discount on short-term debt securities (as ordinary income) on a straight-line basis, unless an election is made to accrue the discount according to a constant yield method based on daily compounding. If you are not required, and do not elect, to include discount in income currently, any gain you realize on the sale, exchange or retirement of a short-term debt security will generally be ordinary income to you to the extent of the discount accrued by you through the date of the sale, exchange or retirement. In addition, if you are not required, and do not elect, to include discount in income currently, you may be required to defer deductions for a portion of your interest expense with respect to any indebtedness attributable to the short-term debt securities.

Market Discount

If you purchase debt securities, other than OID debt securities, for an amount that is less than their stated redemption price at maturity or, in the case of OID debt securities, their adjusted issue price, the amount of the difference will be treated as "market discount" for U.S. federal income tax purposes, unless that difference is less than a specified *de minimis* amount. Under the market discount rules, you will be required to treat any principal payment on, or any gain on the sale, exchange, retirement or other disposition of, the debt securities as ordinary income to the extent of the market discount that you have not previously included in income and are treated as having accrued on the debt securities at the time of the payment or disposition. In addition, you may be required to defer, until the maturity of the debt securities or their earlier disposition in a taxable transaction, the deduction of all or a portion of the interest expense on any indebtedness attributable to the debt securities. You may elect,

on a debt security-by-debt security basis, to deduct the deferred interest expense in a tax year prior to the year of disposition. You should consult your own tax advisors before making this election.

Any market discount will be considered to accrue ratably during the period from the date of acquisition to the maturity date of the debt securities, unless you elect to accrue on a constant interest method. You may elect to include market discount in income currently as it accrues, on either a ratable or constant interest method, in which case the rule described above regarding deferral of interest deductions will not apply. Your election to include market discount in income currently, once made, applies to all market discount obligations acquired by you on or after the first taxable year to which your election applies and may not be revoked without the consent of the IRS. You should consult your own tax advisor before making this election.

Acquisition Premium and Amortizable Bond Premium

If you purchase OID debt securities for an amount that is greater than their adjusted issue price but equal to or less than the sum of all amounts payable on the debt securities after the purchase date other than payments of qualified stated interest, you will be considered to have purchased those debt securities at an “acquisition premium.” Under the acquisition premium rules, the amount of OID that you must include in gross income with respect to those debt securities for any taxable year will be reduced by the portion of the acquisition premium properly allocable to that year.

If you purchase debt securities (including OID debt securities) for an amount in excess of the sum of all amounts payable on those debt securities after the purchase date other than qualified stated interest, you will be considered to have purchased those debt securities at a “premium” and, if they are OID debt securities, you will not be required to include any OID in income. You generally may elect to amortize the premium over the remaining term of those debt securities on a constant yield method as an offset to interest when includible in income under your regular accounting method. In the case of debt securities that provide for alternative payment schedules, bond premium is calculated by assuming that (a) you will exercise or not exercise options in a manner that maximizes your yield, and (b) we will exercise or not exercise options in a manner that minimizes your yield (except that we will be assumed to exercise call options in a manner that maximizes your yield). If you do not elect to amortize bond premium, that premium will decrease the gain or increase the loss you would otherwise recognize on disposition of the debt security. Your election to amortize premium on a constant yield method will also apply to all taxable debt obligations held or subsequently acquired by you on or after the first day of the first taxable year to which the election applies. You may not revoke the election without the consent of the IRS. You should consult your own tax advisor before making this election.

Sale, Exchange or Retirement of Debt Securities

Your tax basis in the debt securities that you beneficially own will, in general, be your cost for those debt securities increased by OID, market discount or any discount with respect to short-term debt securities that you previously included in income, and reduced by any amortized premium and any cash payments received with respect to those debt securities other than payments of qualified stated interest.

Upon your sale, exchange, retirement or other taxable disposition of the debt securities, you will recognize gain or loss equal to the difference between the amount you realize upon the sale, exchange, retirement or other disposition (less an amount equal to any accrued and unpaid qualified stated interest, which will be taxable as interest for U.S. federal income tax purposes if not previously taken into income) and your adjusted tax basis in the debt securities. Except as described above with respect to short-term debt securities or market discount, and with respect to gain or loss attributable to changes in exchange rates as described below with respect to foreign currency debt securities, that gain or loss will be capital gain or loss and will be long-term capital gain or loss if at the time of the sale, exchange, retirement or other disposition, the debt securities have been held for more than one year. Long-term capital gains of non-corporate taxpayers are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

Reset Debt Securities; Extension of Maturity

If so specified in the applicable prospectus supplement, we or you may have the option to reset the interest rate, the spread or the spread multiplier of the debt securities of a series. In addition, if so specified in the applicable prospectus supplement, we may have the option to extend the stated maturity of the debt securities of a series for an extension period.

The U.S. federal income tax treatment of a debt security with respect to which such an option has been exercised is unclear and will depend, in part, on the terms established for such debt securities by us pursuant to the exercise of the option. You may be treated for U.S. federal income tax purposes as having exchanged your debt securities for new debt securities with revised terms. If this is the case, you would realize gain or loss equal to the difference between the issue price of the new debt securities and your tax basis in the old debt securities (although, in certain circumstances, such a deemed exchange may qualify as a tax-free recapitalization). If the exercise of the option is not treated as an exchange of old debt securities for new debt securities, you will not recognize gain or loss as a result of such exercise.

You should carefully examine the applicable prospectus supplement and should consult your own tax advisor regarding the U.S. federal income tax consequences of the holding and disposition of such debt securities.

Foreign Currency Debt Securities

Payments of Interest. Except as described above under “—Original Issue Discount, ” if you receive interest payments made in a foreign currency and you use the cash basis method of accounting, you will be required to include in income the U.S. dollar value of the amount received, determined by translating the foreign currency received at the spot rate for such foreign currency on the date such payment is received regardless of whether the payment is in fact converted into U.S. dollars. You will not recognize exchange gain or loss with respect to the receipt of such payment.

If you use the accrual method of accounting, you may determine the amount of income recognized with respect to such interest in accordance with either of two methods. Under the first method, you will be required to include in income for each taxable year the U.S. dollar value of the interest that has accrued during such year, determined by translating such interest at the average rate of exchange for the period or periods during which such interest accrued. Under the second method, you may elect to translate interest income at the spot rate on:

- the last day of the accrual period;
- the last day of the taxable year if the accrual period straddles your taxable year; or
- on the date the interest payment is received if such date is within five business days of the end of the accrual period.

Upon receipt of an interest payment of such debt securities (including, upon the sale of such debt securities, the receipt of proceeds which include amounts attributable to accrued interest previously included in income), you will recognize exchange gain or loss in an amount equal to the difference between the U.S. dollar value of such payment (determined by translating the foreign currency received at the spot rate for such foreign currency on the date such payment is received) and the U.S. dollar value of the interest income you previously included in income with respect to such payment. Exchange gain or loss will be treated as ordinary income or loss and generally will be U.S. source gain or loss.

Original Issue Discount. OID on debt securities that are also foreign currency debt securities will be determined for any accrual period in the applicable foreign currency and then translated into U.S. dollars, in the same manner as interest income accrued by a holder on the accrual basis as described above. You will recognize exchange gain or loss when OID is paid (including, upon the sale of such debt security, the receipt of proceeds

which include amounts attributable to OID previously included in income) to the extent of the difference between the U.S. dollar value of the accrued OID (determined in the same manner as for accrued interest) and the U.S. dollar value of such payment (determined by translating the foreign currency received at the spot rate for such foreign currency on the date such payment is received). For these purposes, all receipts on a debt security will be viewed:

- first, as the receipt of any stated interest payments called for under the terms of the debt security;
- second, as receipts of previously accrued OID (to the extent thereof), with payments considered made for the earliest accrual periods first; and
- third, as the receipt of principal.

Market Discount and Bond Premium. The amount of market discount on foreign currency debt securities includible in income will generally be determined by translating the market discount determined in the foreign currency into U.S. dollars at the spot rate on the date the foreign currency debt securities are retired or otherwise disposed of. If you have elected to accrue market discount currently, then the amount which accrues is determined in the foreign currency and then translated into U.S. dollars on the basis of the average exchange rate in effect during such accrual period. You will recognize exchange gain or loss with respect to market discount which is accrued currently using the approach applicable to the accrual of interest income as described above.

Bond premium on foreign currency debt securities will be computed in the applicable foreign currency. If you have elected to amortize the premium, the amortizable bond premium will reduce interest income in the applicable foreign currency. At the time bond premium is amortized, exchange gain or loss will be realized based on the difference between spot rates at such time and the time of acquisition of the foreign currency debt securities.

If you elect not to amortize bond premium, you must translate the bond premium computed in the foreign currency into U.S. dollars at the spot rate on the maturity date and such bond premium will constitute a capital loss which may be offset or eliminated by exchange gain.

Sale, Exchange or Retirement. Upon the sale, exchange, retirement or other taxable disposition of foreign currency debt securities, you will recognize gain or loss equal to the difference between the amount realized upon the sale, exchange, retirement or other disposition (less an amount equal to any accrued and unpaid qualified stated interest, which will be taxable as interest for U.S. federal income tax purposes if not previously taken into income) and your adjusted tax basis in the foreign currency debt securities. Your initial tax basis in foreign currency debt securities generally will be your U.S. dollar cost of those foreign currency debt securities. If you purchased foreign currency debt securities with foreign currency, your cost generally will be the U.S. dollar value of the foreign currency amount paid for such foreign currency debt securities determined at the time of such purchase. If your foreign currency debt securities are sold, exchanged or retired for an amount denominated in foreign currency, then your amount realized generally will be based on the spot rate of the foreign currency on the date of sale, exchange or retirement. If you are a cash method taxpayer and the foreign currency debt securities are traded on an established securities market, foreign currency paid or received is translated into U.S. dollars at the spot rate on the settlement date of the purchase or sale. An accrual method taxpayer may elect the same treatment with respect to the purchase and sale of foreign currency debt securities traded on an established securities market, provided that the election is applied consistently.

Subject to the foreign currency rules discussed below and application of the rules with respect to short-term debt securities or market discount, such gain or loss will be capital gain or loss and will be long-term capital gain or loss if at the time of sale, exchange, retirement or other disposition, the foreign currency debt securities have been held for more than one year. Long-term capital gains of non-corporate taxpayers are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations. Gain or loss realized by you on the sale, exchange or retirement of foreign currency debt securities will generally be treated as U.S. source gain or loss.

A portion of your gain or loss with respect to the principal amount of foreign currency debt securities may be treated as exchange gain or loss. Exchange gain or loss will be treated as ordinary income or loss and generally will be U.S. source gain or loss. For these purposes, the principal amount of the foreign currency debt securities is your purchase price for the foreign currency debt securities calculated in the foreign currency on the date of purchase, and the amount of exchange gain or loss recognized is equal to the difference between (i) the U.S. dollar value of the principal amount determined on the date of the sale, exchange, retirement or other disposition of the foreign currency debt securities and (ii) the U.S. dollar value of the principal amount determined on the date you purchased the foreign currency debt securities. The amount of exchange gain or loss (with respect to both principal and accrued interest) will be limited to the amount of overall gain or loss realized on the disposition of the foreign currency debt securities.

Exchange Gain or Loss with Respect to Foreign Currency. Your tax basis in the foreign currency received as interest on foreign currency debt securities or on the sale, exchange or retirement of foreign currency debt securities will be equal to the U.S. dollar value of the foreign currency determined on the date the foreign currency is received. Any gain or loss recognized by you on a sale, exchange or other disposition of the foreign currency will be ordinary income or loss and generally will be U.S. source gain or loss.

Reportable Transactions. Treasury regulations issued under the Code meant to require the reporting of certain tax shelter transactions could be interpreted to cover transactions generally not regarded as tax shelters, including certain foreign currency transactions. Under the Treasury regulations, certain transactions are required to be reported to the IRS, including, in certain circumstances, a sale, exchange, retirement or other taxable disposition of foreign currency debt securities to the extent that such sale, exchange, retirement or other taxable disposition results in a tax loss in excess of a threshold amount. If you are considering the purchase of foreign currency debt securities, you should consult with your own tax advisors to determine the tax return obligations, if any, with respect to an investment in those debt securities, including any requirement to file IRS Form 8886 (Reportable Transaction Disclosure Statement).

Information Reporting and Backup Withholding

In general, information reporting requirements will apply to certain payments of principal, premium, if any, redemption price, if any, OID, if any, interest and other amounts paid to you on the debt securities and to the proceeds of sales of the debt securities made to you unless you are an exempt recipient (such as a C-corporation). A backup withholding tax may apply to such payments if you fail to provide a correct taxpayer identification number or certification of exempt status or fail to report in full dividend and interest income.

Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against your U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Net Investment Income of Certain Persons

A 3.8% tax is imposed on the “net investment income” of certain individuals and on the undistributed “net investment income” of certain estates and trusts. Among other items, net investment income generally includes gross income from interest, dividends and net gains from certain property sales, less certain deductions. We urge you to consult with your tax advisor regarding the possible implications of this tax in your particular circumstances.

Consequences to Non-United States Holders

The following is a discussion of the material U.S. federal income and estate tax consequences that generally will apply to you if you are a non-United States holder of debt securities. A non-United States holder is a beneficial owner of debt securities who is not a United States holder (as defined above) and is not a partnership (or other entity treated as a partnership for U.S. federal income tax purposes).

U.S. Federal Withholding Tax

Subject to the discussion of backup withholding and “FATCA” below, under the “portfolio interest” rule, U.S. federal withholding tax will not apply to any payment of interest, including OID, on the debt securities, provided that:

- interest paid on the debt securities is not effectively connected with your conduct of a trade or business in the United States;
- you do not actually or constructively own 10% or more of the total combined voting power of all classes of our voting stock within the meaning of Section 871(h)(3) of the Code and related U.S. Treasury regulations;
- you are not a controlled foreign corporation that is related to us through stock ownership;
- you are not a bank whose receipt of interest on the debt securities is described in Section 881(c)(3)(A) of the Code;
- the interest is not considered contingent interest under Section 871(h)(4)(A) of the Code and the related U.S. Treasury regulations; and
- (1) you provide your name and address on an applicable IRS Form W-8 (or successor form) and certify, under penalty of perjury, that you are not a U.S. person or (2) you hold your debt securities through certain foreign intermediaries and you satisfy the certification requirements of applicable U.S. Treasury regulations.

If you cannot satisfy the requirements described above, payments of interest, including OID, made to you will be subject to a 30% U.S. federal withholding tax, unless you provide the applicable withholding agent with a properly executed:

- IRS Form W-8BEN or W-8BEN-E (or successor form) claiming an exemption from or reduction in the rate of withholding under the benefit of an applicable tax treaty; or
- IRS Form W-8ECI (or successor form) stating that interest paid on the debt securities is not subject to withholding tax because it is effectively connected with your conduct of a trade or business in the United States as discussed below.

Special certification rules apply to certain non-United States holders that are pass-through entities rather than corporations or individuals. The 30% U.S. federal withholding tax generally will not apply to any payment of principal or gain that you realize on the sale, exchange, retirement or other taxable disposition of any of the debt securities.

U.S. Federal Income Tax

If you are engaged in a trade or business in the United States and interest, including OID, on the debt securities is effectively connected with the conduct of that trade or business, you will be subject to U.S. federal income tax on that interest, including OID, on a net income basis (although you will be exempt from the 30% withholding tax, provided the certification requirements discussed above are satisfied) in the same manner as if you were a United States person as defined under the Code. In addition, if you are a foreign corporation, you may be subject to a branch profits tax equal to 30% (or lower applicable treaty rate) of your earnings and profits for the taxable year, subject to adjustments, that are effectively connected with the conduct by you of a trade or business in the United States. For this purpose, interest, including OID, on debt securities will be included in your earnings and profits.

Subject to the discussion of backup withholding and “FATCA” below, any gain realized on the disposition of debt securities generally will not be subject to U.S. federal income tax unless:

- that gain is effectively connected with your conduct of a trade or business in the United States and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment; or

- you are an individual who is present in the United States for 183 days or more in the taxable year of that disposition and certain other conditions are met.

If your gain is described in the first bullet point above, such gain generally will be subject to U.S. federal income tax (and possibly branch profits tax) in the same manner as described above with respect to effectively connected interest income. If you are an individual described in the second bullet point above, you will be subject to a flat 30% (or lower applicable treaty rate) U.S. federal income tax on the gain derived from the disposition, which gain may be offset by certain U.S. source capital losses.

U.S. Federal Estate Tax

Your estate will not be subject to U.S. federal estate tax on the debt securities beneficially owned by you at the time of your death, provided that any payment of interest to you on the debt securities, including OID, would be eligible for exemption from the 30% U.S. federal withholding tax under the “portfolio interest” rule described above under “—U.S. Federal Withholding Tax,” without regard to the certification requirement described in the sixth bullet point of that section.

Information Reporting and Backup Withholding

Generally, payors must report to the IRS and to you the amount of interest, including OID, on the debt securities paid to you and the amount of tax, if any, withheld with respect to such payments. Copies of the information returns reporting such interest payments and any withholding may also be made available to the tax authorities in the country in which you reside under the provisions of an applicable income tax treaty.

In general, backup withholding will not apply to payments that we make or any of our paying agents (in its capacity as such) makes to you if you have provided the required certification that you are a non-United States holder as described above and provided that the applicable withholding agent does not have actual knowledge or reason to know that you are a United States person as defined under the Code.

In addition, you will not be subject to backup withholding and information reporting with respect to the proceeds of the sale of debt securities within the United States or conducted through certain U.S.-related financial intermediaries, if the payor receives the certification described above and does not have actual knowledge or reason to know that you are a United States person as defined under the Code, or you otherwise establish an exemption.

Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against your U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Additional U.S. federal income tax withholding rules required by the Foreign Account Tax Compliance Act provisions of the Hiring Incentives to Restore Employment Act and the U.S. Treasury regulations promulgated thereunder, commonly referred to as “FATCA,” apply to certain payments made to foreign financial institutions and certain other non-U.S. entities. A withholding tax of 30% applies to the following payments to certain foreign entities unless various information reporting requirements are satisfied: (i) interest payments paid on the debt securities; and (ii) the gross proceeds of a disposition of any debt securities occurring after December 31, 2018. For these purposes, a foreign financial institution generally is defined as any non-U.S. entity that (i) accepts deposits in the ordinary course of a banking or similar business, (ii) as a substantial portion of its business, holds financial assets for the account of others, or (iii) is engaged or holds itself out as being engaged primarily in the business of investing, reinvesting, or trading in securities, partnership interests, commodities, or any interest in such assets. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. We urge you to consult your tax advisors regarding the implications of these rules with respect to your investment in the debt securities.

The foregoing discussion is not intended to constitute a complete analysis of all tax consequences relating to the acquisition, ownership or disposition of the debt securities. Prospective purchasers of the debt securities should consult their own tax advisers concerning the tax consequences of their particular situations.

PLAN OF DISTRIBUTION

We may sell the debt securities being offered hereby:

- to or through underwriters;
- directly to investors, including to a single investor or a limited number of investors;
- to or through dealers or agents; or
- through a combination of any of those methods of sale.

We may effect the distribution of the debt securities from time to time in one or more transactions at:

- a fixed public offering price to the public or at prices to the public that may vary or may be changed;
- market prices prevailing at the time of sale;
- prices related to the prevailing market prices for such debt securities, if any; or
- negotiated prices.

We will bear all costs, fees and expenses incurred in connection with the registration of the offering of debt securities under this prospectus.

The prospectus supplement relating to the offering of particular debt securities will set forth the manner and terms of the offering of those debt securities, including, as applicable:

- whether such offering is being made directly or through underwriters, dealers or agents;
- the names of any underwriters, dealers or agents and the amounts of debt securities being underwritten or purchased by each of them;
- the rules and procedures for any bidding, auction or other process used in the offer and sale of such debt securities;
- the price to the public of the debt securities;
- the net proceeds we expect from the sale of the debt securities;
- any initial public offering price;
- any delayed delivery arrangements;
- the underwriting discounts, commissions and other items constituting underwriters' compensation being paid in connection with any underwritten offering;
- any discounts, commissions or concessions allowed or reallocated or paid to dealers;
- any commissions paid to agents; and
- any listing of the debt securities for trading on a securities exchange.

Underwritten Offerings

We may offer debt securities to the public through underwriting syndicates represented by managing underwriters or through one or more underwriters without an underwriting syndicate. Each underwriter of any offering of debt securities will be identified in the prospectus supplement used by the underwriters in conjunction with this prospectus to resell such debt securities. If underwriters are used for a sale of debt securities, the debt securities will be acquired by the underwriters for their own account. The underwriters may then resell the debt securities in one or more transactions, including in negotiated transactions at a fixed public offering price, at

varying prices determined at the time of sale or at negotiated prices. Unless otherwise indicated in the applicable prospectus supplement, the obligations of the underwriters to purchase the debt securities will be subject to customary conditions precedent and the underwriters will be obligated to purchase all the debt securities offered if any of the debt securities are purchased.

If we use an underwriter or underwriters in the sale of particular debt securities, we will execute an underwriting agreement and, in many instances, a related pricing agreement, with those underwriters at the time of sale of those debt securities, which agreement or agreements will establish the underwriting discount and other compensation of the underwriters. Underwriters may sell the debt securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent. Any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

Any underwriter of debt securities will be an “underwriter” within the meaning of the Securities Act in connection with the debt securities offered through or by such underwriter. Any discounts or commissions the underwriters receive and any profit they realize on their resale of the debt securities they acquire in any underwritten offering will be deemed to be underwriting discounts or commissions under the Securities Act.

Underwriters of our debt securities and one or more of their respective affiliates may have engaged in, and in the future may engage in, investment banking and other commercial dealings in the ordinary course of business with us or one or more of our subsidiaries and affiliates. They may have received, or may in the future receive, fees and commissions for these transactions that will be customary in the circumstances unless noted otherwise in the applicable prospectus supplement.

In the ordinary course of the business activities of the underwriters of our debt securities and their respective affiliates, such persons may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Moreover, certain of the underwriters of our debt securities or their affiliates that have a lending relationship with us may hedge their credit exposure to us. Such underwriters and their affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the debt securities offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the debt securities offered by this prospectus and the applicable prospectus supplement. Underwriters of our debt securities and one or more of their affiliates may also make investment recommendations and/or publish or express independent research views in respect of the securities or other financial instruments of ours and our affiliates and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and other financial instruments.

Direct Sales and Sales Using Dealers, Agents and Remarketing Firms

We may solicit offers to purchase debt securities of one or more series directly from one or more institutional investors. Offers to purchase debt securities of one or more series may also be solicited by agents designated by us from time to time. Sales of debt securities in such instances may be at a fixed price or prices, which may be changed, at varying prices determined at the time of sale or at negotiated prices. Any agents involved in the offer or sale of debt securities will be named, and any commissions payable by us to those agents will be set forth, in the applicable prospectus supplement.

If dealers are utilized in a sale of our debt securities offered by means of this prospectus and the applicable prospectus supplement, we will sell those debt securities to those dealers as principals. The dealers may then resell those debt securities to the public at varying prices to be determined by that dealer at the time of resale. Dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters

[Table of Contents](#)

and/or commissions from purchasers for whom they may act as agents. The applicable prospectus supplement relating to the debt securities sold by such dealers will include any required information about the compensation received by such dealers in connection with any such offer and sale of our debt securities, including any discounts, commissions or concessions underwriters allow to participating dealers in connection with an underwritten offering of our debt securities.

One or more dealers, referred to as “remarketing firms,” may also offer or sell the debt securities offered by means of this prospectus, if the applicable prospectus supplement relating to such offering so indicates. Such offers and sales will be made pursuant to a remarketing arrangement contemplated by the terms of the debt securities. Remarketing firms will act as principals for their own accounts or as agents in any such remarketing of debt securities. If there is a remarketing arrangement with respect to the particular debt securities described in an applicable prospectus supplement, that prospectus supplement will identify any such remarketing firm and the terms of its agreement, if any, with us respecting such remarketing arrangement and describe the remarketing firm’s compensation.

Any dealers, agents and remarketing firms named in an applicable prospectus supplement relating to the offer and sale or remarketing of our debt securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with the debt securities offered thereby. Any discounts, commissions, concessions or other compensation they receive from us or other sources in connection with any such transaction in our debt securities and any profit they realize on their resale of the debt securities may be deemed to be underwriting discounts and commissions under the Securities Act.

Dealers, agents and remarketing firms through whom any of the debt securities are offered or remarketed or one or more of their respective affiliates may engage in transactions with, or perform services for, us or any of our subsidiaries in the ordinary course of business.

Indemnification

We may agree to indemnify the underwriters, dealers, agents and remarketing firms under underwriting or other agreements entered into in connection with the offer and sale of debt securities against certain civil liabilities, including liabilities under the Securities Act, or, in the event such indemnification is determined to be prohibited as a matter of law, to contribute to payments that those underwriters, dealers, agents and remarketing firms are required to make relating to those liabilities.

Stabilization and Other Matters

In order to facilitate the offering of the debt securities, an underwriter of the debt securities may engage in transactions that stabilize, maintain or otherwise affect the price of the debt securities or any other of our debt securities the prices of which may be used to determine payments on the debt securities. Specifically, an underwriter may over-allot debt securities, that is, sell more debt securities than it is obligated to purchase, in connection with an offering of our debt securities, thereby creating a short position in those debt securities for its own account. In addition, to cover over-allotments or to stabilize, maintain or otherwise affect the market price of the debt securities or of any other debt securities at levels above those that might otherwise prevail, an underwriter may bid for, and purchase, the debt securities or any other debt securities in the open market, including by entering stabilization bids, effecting syndicate covering transactions or imposing penalty bids. In any offering of the debt securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the debt securities in the offering, if the syndicate repurchases previously distributed debt securities in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the debt securities above independent market levels or retard a decline in the market price of the debt securities. These transactions may be effected on a securities exchange on which the debt securities are listed or admitted for trading, in the over-the-counter market or otherwise. The underwriters are not required to engage in any of these activities, and may end any of these activities at any time.

Market for Debt Securities

Unless stated otherwise in an applicable prospectus supplement, each series of debt securities will be a new issue of the debt securities and will have no established trading market. Any underwriters to whom any of the debt securities are sold for public offering and sale may make a market in such offered debt securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. The debt securities offered in any particular offering may or may not be listed on a securities exchange. We cannot assure you that there will be a market for any of the debt securities offered and sold under this prospectus.

Restrictions on Resale

The applicable prospectus supplement may set forth restrictions or limitations, or refer to applicable laws or regulations, relating to offers or sales of the debt securities or the distribution of this prospectus and the applicable prospectus supplement in specified jurisdictions outside the United States.

Electronic Distribution

This prospectus and an applicable prospectus supplement may be made available in electronic format on the Internet sites of, or through online services maintained by, any of the underwriters, dealers, agents and selling group members participating in connection with any offering of debt securities or by one or more of their respective affiliates. In those cases, prospective investors may view offering terms online and, depending upon the particular underwriter, dealer, agent, selling group member or affiliate thereof, prospective investors may be allowed to place orders for the purchase of debt securities online. Any such allocation for online distributions will be made by the underwriter, dealer or agent on the same basis as other allocations.

Other than this prospectus and an applicable prospectus supplement in electronic format and any electronic road show containing any presentation by a member of our management, the information on the underwriter's, dealer's, agent's or any selling group member's web site and any information contained in any other web site maintained by the underwriter, dealer, agent or any selling group member is not part of this prospectus, the prospectus supplement or supplements or the registration statement of which this prospectus forms a part, has not been approved and/or endorsed by us or any of the underwriters, dealers, agents or selling group members in its capacity as underwriter, dealer, agent or selling group member and should not be relied upon by investors.

Trading Prior to Settlement

In an underwritten offering of debt securities, the underwriters will expect to deliver the notes against payment therefor on or about a date that will be specified on the cover page of the applicable prospectus supplement. That date may be between the second and tenth business day following the date of that prospectus supplement. For all but two of the underwritten offerings of debt securities we have made in the past several years, that date has been the fifth business day following the date of the prospectus supplement relating to that offering of debt securities. Under Rule 15c6-1 of the SEC under the Exchange Act, trades in the secondary market generally are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, if the settlement date is later than the second business day following the date of that prospectus supplement, any purchaser who wishes to trade the debt securities on the date of the applicable prospectus supplement or on the subsequent days prior to the settlement date, will be required, by virtue of the fact that the sale of the debt securities initially will settle on such later business day, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement.

LEGAL MATTERS

Unless otherwise specified in the applicable prospectus supplement, Andrews Kurth Kenyon LLP, Dallas, Texas, will act as our counsel and pass on the validity of the debt securities, and Simpson Thacher & Bartlett LLP, New York, New York, will act as counsel to the underwriters in any underwritten offer of the debt securities and will pass on the validity of the debt securities for the underwriters.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

The Amended and Restated Bylaws of the Registrant provide that the Registrant shall indemnify any person made or threatened to be made a party to any threatened, pending or completed action, lawsuit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that such person is or was a director or officer of the Registrant (or is or was serving at the request of the Registrant as a director or officer for another entity) to the full extent it has the power to do so under the Delaware General Corporation Law and other applicable law, except that the Registrant need not indemnify any such person in connection with a proceeding initiated against the Registrant by that person unless the proceeding was authorized by the Registrant's board of directors. The Amended and Restated Bylaws further provide that the Registrant may indemnify, to the full extent it has the power to do so under the Delaware General Corporation Law and other applicable law, any person made or threatened to be made a party to any proceeding by reason of the fact that such person is or was an associate or agent of the Registrant (or is or was serving at the request of the Registrant as an employee or agent of another entity).

Pursuant to Section 145 of the Delaware General Corporation Law, among other things, the Registrant has the power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Registrant) by reason of the fact that the person is or was a director, officer, employee or agent of the Registrant, or is or was serving at the request of the Registrant as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against

[Table of Contents](#)

expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding. This power to indemnify applies only if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the Registrant, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

This power to indemnify applies to actions or suits brought by or in the right of the Registrant to procure a judgment in its favor as well, but only to the extent of expenses (including attorneys' fees but excluding amounts paid in settlement) actually and reasonably incurred by the person in connection with the defense or settlement of the action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the Registrant, and, with the further limitation that in such actions or suits no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Registrant, unless and only to the extent that the Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

To the extent that a present or former director or officer of the Registrant is successful on the merits or otherwise in defense of any action, suit or proceeding, or in defense of any claim, issue or matter of the type described in the two preceding paragraphs, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

The Restated Certificate of Incorporation of the Registrant, as amended to date, provides that, to the fullest extent permitted by the Delaware General Corporation Law as the same exists or may hereafter be amended, a director of the Registrant shall not be liable to the Registrant or its stockholders for monetary damages for breach of fiduciary duty as a director. The Delaware General Corporation Law permits Delaware corporations to include in their certificates of incorporation a provision eliminating or limiting director liability for monetary damages arising from breaches of their fiduciary duty. The only limitations imposed under the statute are that the provision may not eliminate or limit a director's liability (i) for breaches of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or involving intentional misconduct or known violations of law, (iii) for the payment of unlawful dividends or unlawful stock purchases or redemptions or (iv) for transactions in which the director received an improper personal benefit.

The Registrant is insured against liabilities that it may incur by reason of its indemnification of officers and directors in accordance with its Amended and Restated Bylaws. In addition, the directors and officers of the Registrant are insured, at the expense of the Registrant, against certain liabilities that might arise out of their employment and are not subject to indemnification under its Amended and Restated Bylaws.

The foregoing summaries are necessarily subject to the complete texts of Section 145 of the Delaware General Corporation Law, the Restated Certificate of Incorporation, as amended, of the Registrant and the Amended and Restated Bylaws of the Registrant referred to above and are qualified in their entirety by reference thereto.

ITEM 17. UNDERTAKINGS.

(a) The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually

or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of a prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the “Calculation of Registration Fee” table in the effective Registration Statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (i), (ii) and (iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the Registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) Each prospectus filed by the Registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which the prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof; *provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) That, for the purpose of determining liability of the Registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the Registrant undertakes that in a primary offering of securities of the undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold

to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the Registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned Registrant or used or referred to by the Registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about an undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant; and
- (iv) Any other communication that is an offer in the offering made by the Registrant to the purchaser.

(b) The Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the Registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel in the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(d) The undersigned registrant hereby undertakes to file an application for the purpose of determining the eligibility of the trustee to act under subsection (a) of Section 310 of the Trust Indenture Act in accordance with the rules and regulations prescribed by the Commission under Section 305(b)(2) of the Trust Indenture Act.

Wal-Mart Stores, Inc.
Standard Provisions of
Underwriting Agreements for Debt Securities

Explanatory Note: From time to time, Wal-Mart Stores, Inc., a Delaware corporation (the “Company”), may enter into an underwriting agreement (referred to in the following standard provisions as this “Agreement”) that provides for the sale of certain of its debt securities of one or more series (referred to in the following standard provisions as the “Securities”) to the several underwriters that are named in such underwriting agreement (referred to in the following standard provisions as the “Underwriters”). The underwriting agreement to be entered into by the Company and the underwriters in connection with any particular underwritten offering of debt securities by the Company that will be made in reliance on the Registration Statement on Form S-3 to which this Exhibit 1.1 is an exhibit (the “Registration Statement”) will include terms and conditions substantially in the form of the standard provisions set forth below, subject to such changes in such standard provisions that the Company and the representatives of the underwriters entering into that underwriting agreement agree to make. Such underwriting agreement will be incorporated by reference into a pricing agreement to be entered into by the Company and the several underwriters (referred to in the following standard provisions as the “Pricing Agreement”) with respect to the purchase by the underwriters of the debt securities of the Company specified in such pricing agreement (referred to in the following standard provisions as the “Designated Securities”). Each such pricing agreement will generally be in the form set forth as Annex I to the standard provisions set forth below, subject to such changes from such form that the Company and the representatives of the underwriters entering into that pricing agreement agree to make. The Company anticipates that, in connection with each offering of its debt securities made in reliance on the Registration Statement, the Company will file the underwriting agreement and the pricing agreement that it enters into with underwriters in connection with such underwritten offering with the Securities and Exchange Commission by means of a Current Report on Form 8-K.

The Standard Provisions

1. **Introduction.** Particular sales of Designated Securities may be made from time to time to the Underwriters of such Designated Securities, for whom the firms designated as representatives of the Underwriters of such Designated Securities in the Pricing Agreement will act as representatives (the “Representatives”). The term “Representatives” also refers to a single firm acting as sole representative of the Underwriters and to Underwriters who act without any firm being designated as their representative. This Underwriting Agreement shall not be construed as an obligation of the Company to sell any of the Securities or as an obligation of any Underwriter to purchase any of the Securities. The obligation of the Company to issue and sell any of the Securities shall be evidenced by the Pricing Agreement with respect to the Designated Securities specified therein. The Pricing Agreement shall specify, with respect to the purchase and sale of the Designated Securities pursuant thereto, (a) in Schedule I thereto (i) the names of the Underwriters of the Designated Securities and (ii) the principal amount of Designated Securities to be purchased by each Underwriter at the Time of Delivery (as defined in Section 4 hereof) and (b) in Schedule II thereto (i) the title or titles of the Designated Securities, (ii) the aggregate principal amount or amounts of the Designated Securities, (iii) the price or prices of the Designated Securities to the public, (iv) the purchase price or prices of the Designated Securities to the Underwriters, and, to the extent applicable, any selling concession or concessions and reallowance concession or concessions applicable to the Underwriters and dealers, as the case may be, (v) specified funds, if not immediately available funds, for payment of the purchase price for the Designated Securities, (vi) the title of the Indenture under which the Designated Securities are being issued, (vii) the maturity or maturities of the Designated Securities, (viii) the interest rate or rates of the Designated Securities or the manner in which the interest rate or rates are to be determined, (ix) the interest payment dates of the Designated Securities, (x) the record dates for the payment of interest on the Designated Securities, (xi) the redemption provisions, if any, of the Designated Securities, (xii) the sinking fund provisions, if any, of the Designated Securities, (xiii) the Time of Delivery, (xiv) the closing location with respect to the closing of the sale of the Designated Securities pursuant to this Agreement and the Pricing Agreement, (xv) the name or names and address or addresses of the Representatives of the Underwriters, (xvi) such other terms, conditions and other provisions of the Designated Securities as are established in accordance with the Indenture and (xvii) such other terms, conditions and other provisions that supplement, amend or modify this Agreement with respect to the Designated Securities or the Indenture. The Pricing Agreement shall be in the form of an executed writing (which may be in counterparts), and may be evidenced by an exchange of telegraphic communications or any other rapid transmission device designed to produce a written record of communications transmitted. The obligations of the Underwriters under this Agreement and the Pricing Agreement shall be several and not joint.

2. Representations, Warranties and Agreements of the Company. The Company represents and warrants to, and agrees with, each of the Underwriters that:

(a) An “automatic shelf registration statement” (as defined in Rule 405 under the Securities Act of 1933, as amended (the “Securities Act”)) in respect of the Securities (File No. 333-XXXXXX) has been filed on Form S-3 with the Securities and Exchange Commission (the “Commission”); such registration statement and any post-effective amendment thereto, each in the form heretofore delivered or to be delivered to the Representatives and, excluding exhibits to such registration statement but including all documents incorporated by reference in each prospectus contained therein, delivered to the Representatives for each of the other Underwriters, became effective under the Securities Act upon filing with the Commission; no other document with respect to such registration statement or any such document incorporated by reference therein has heretofore been filed or transmitted for filing with the Commission except for (i) any prospectuses, preliminary prospectus supplements, prospectus supplements, documents incorporated by reference therein and final term sheets constituting issuer free writing prospectuses for purposes of Rule 433 under the Securities Act previously filed in connection with the offer and sale of Securities (other than the Designated Securities) pursuant to such registration statement, (ii) any prospectus and preliminary prospectus supplement relating to the Designated Securities and (iii) any other documents identified in the Pricing Agreement with respect to the Designated Securities; no stop order suspending the effectiveness of such registration statement or any post-effective amendment thereto has been issued, no proceeding for that purpose has been initiated or threatened by the Commission, and no notice of objection of the Commission to the use of such registration statement or any post-effective amendment thereto for the registration of the offer and sale of the Securities by the Company pursuant to Rule 401(g)(2) under the Securities Act has been received by the Company (the base prospectus filed as part of such registration statement, in the form in which it has most recently been filed with the Commission prior to or on the date of the Pricing Agreement relating to the Designated Securities, being hereinafter called the “Base Prospectus”; any preliminary prospectus (including any preliminary prospectus supplement) relating to the Designated Securities filed with the Commission pursuant to Rule 424(b) under the Securities Act, being hereinafter called a “Preliminary Prospectus”; the various parts of such registration statement, including all exhibits thereto (other than the Form T-1 of The Bank of New York Mellon Trust Company, N.A.) and any prospectus supplement relating to the Designated Securities that is filed with the Commission and deemed by Rule 430B under the Securities Act to be part of such registration statement, each at the time such part of such registration statement became effective, being hereinafter called the “Registration Statement”; the Base Prospectus, as amended or as supplemented with respect to Designated Securities immediately prior to the Applicable Time (as defined in Section 2(d) hereof), including, without limitation, any Preliminary Prospectus, being hereinafter called the “Pricing Prospectus”; the form of the final prospectus (including the final prospectus supplement) relating to the Designated Securities filed with the Commission pursuant to Rule 424(b) under the Securities Act in accordance with Section 5(a) hereof being hereinafter called the “Prospectus”; any reference herein to the Base Prospectus, any Preliminary Prospectus, the Pricing Prospectus or the Prospectus shall be deemed to refer to and include the documents incorporated by reference therein pursuant to Item 12 of Form S-3 under the Securities Act, as of the date of such prospectus; any reference to any amendment or supplement to the Base Prospectus, any Preliminary Prospectus, the Pricing Prospectus or the Prospectus shall be deemed to refer to and include any documents filed after the date of such prospectus under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and incorporated by reference in such prospectus; any reference to any amendment to the Registration Statement shall be deemed to refer to and include any annual report on Form 10-K of the Company filed pursuant to Section 13(a) or 15(d) of the Exchange Act after the applicable effective date of the Registration Statement and that is incorporated by reference in the Registration Statement; and any “issuer free writing prospectus” (as defined in Rule 433(h) under the Securities Act) relating to the Designated Securities being hereinafter referred to as an “Issuer Free Writing Prospectus”);

(b) The documents incorporated by reference in the Pricing Prospectus and the Prospectus or any amendment or supplement thereto, when they became effective or were filed with the Commission, as the case may be, conformed in all material respects to the requirements of the Securities Act or the Exchange Act, as applicable, and the rules and regulations of the Commission thereunder, and none of such documents contained an untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary to make the statements therein not misleading; and any further documents so filed and incorporated by reference in the Prospectus or any further amendment or supplement thereto, when such documents become effective or are filed with the Commission, as the case may be, will conform in all material respects to the requirements of the Securities Act or the Exchange Act, as applicable, and the rules and regulations of the Commission thereunder and will not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading; *provided, however*, that this representation and warranty shall not apply to any statements or omissions made in reliance upon and in conformity with information furnished in writing to the Company by an Underwriter of Designated Securities through the Representatives expressly for use therein;

(c) The Registration Statement and the Pricing Prospectus conform, and the Prospectus and any further post-effective amendments to the Registration Statement and the Prospectus will conform, as of the date on which they become effective or are filed with the Commission, as the case may be, in all material respects to the requirements of the Securities Act and the Trust Indenture Act of 1939, as amended (the “Trust

Indenture Act”), and the rules and regulations of the Commission thereunder, and do not and will not, as of the applicable effective dates as to the Registration Statement and any post-effective amendments thereto, as of the applicable filing date as to the Pricing Prospectus and as of the applicable filing date and the Time of Delivery as to the Prospectus and any amendment or supplement thereto, contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading; *provided, however*, that this representation and warranty shall not apply to any statements or omissions made in reliance upon and in conformity with information furnished in writing to the Company by an Underwriter of Designated Securities through the Representatives expressly for use therein;

(d) The Pricing Prospectus, together with the pricing terms for the offering of the Designated Securities and the terms and conditions of the Designated Securities specified in the Final Term Sheet (as defined in Section 5(a) hereof) prepared and filed pursuant to Section 5(a) hereof, did not, as of the time and date designated in the Pricing Agreement as the “Applicable Time” (which the Company and the Representatives have agreed is, as to the issue and sale of the Designated Securities, immediately prior to the time when sales of the Designated Securities to the public are to be first confirmed orally or in writing), contain an untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; *provided, however*, that this representation and warranty shall not apply to any statements or omissions made in reliance upon and in conformity with information furnished in writing to the Company by an Underwriter of Designated Securities through the Representatives expressly for use therein;

(e) The Company has been, since the initial filing of the Registration Statement, and continues to be a “well-known seasoned issuer” and has not been, since such filing of the Registration Statement, and continues not to be an “ineligible issuer” (as such terms are defined in Rule 405 under the Securities Act); and the Company is not the subject of a pending proceeding under Section 8A of the Securities Act;

(f) The Company has not made (other than, if applicable, as listed on Schedule II to the Pricing Agreement), and will not make (other than the Final Term Sheet prepared and filed pursuant to Section 5(a) hereof with respect to the Designated Securities), any offer relating to the Designated Securities that would constitute a “free writing prospectus” (as defined in Rule 405 under the Securities Act), without the prior consent of the Representatives; the Company will comply with the requirements of Rule 433 under the Securities Act with respect to any such free writing prospectus; any such free writing prospectus will not, as of its issue date and through the Time of Delivery for such Designated Securities, include any information that conflicts with the information contained in the Registration Statement, the Pricing Prospectus or the Prospectus; and any such free writing prospectus, when taken together with the information contained in the Registration Statement, the Pricing Prospectus or the Prospectus, did not, when issued or filed pursuant to Rule 433 under the Securities Act, and does not contain an untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(g) Neither the Company nor any of the corporations, companies or other entities of which the Company owns, directly or indirectly, a majority of the outstanding equity interests or which the Company otherwise controls (collectively, the “Subsidiaries”) has sustained, since the date of the latest audited financial statements included or incorporated by reference in the Pricing Prospectus and the Prospectus, any loss or interference with its business from fire, explosion, flood or other calamity, whether or not covered by insurance, or from any labor dispute or court or governmental action, order or decree that was or is material to the general affairs, management, financial position, shareholders’ equity, results of operations or internal control over financial reporting of the Company and its Subsidiaries considered as one enterprise, otherwise than as set forth in the Pricing Prospectus; and, since the respective dates as of which information is given in the Pricing Prospectus and the Prospectus, there has not been any material change in the capital stock or long term debt of the Company and its Subsidiaries or any material adverse change, or any development involving a prospective material adverse change, in or affecting the general affairs, management, financial position, shareholders’ equity, results of operations or internal control over financial reporting of the Company and its Subsidiaries considered as one enterprise, otherwise than as set forth in the Pricing Prospectus and the Prospectus;

(h) The Company and its Subsidiaries have all ownership rights in all of the real property and all of the personal property owned by them, in each case free and clear of all liens, encumbrances and defects in title except such as are described in the Pricing Prospectus and the Prospectus or such as do not, individually or in the aggregate, materially and adversely affect the general affairs, management, financial position, shareholders’ equity, results of operations or internal control over financial reporting of the Company and its Subsidiaries considered as one enterprise and do not interfere with the use made and proposed to be made of such property by the Company and its Subsidiaries; and any real property and buildings held under lease or equivalent agreement by the Company and its Subsidiaries are held by them under valid, subsisting and enforceable leases or equivalent agreements with such exceptions as do not, individually or in the aggregate, materially and adversely affect the general affairs, management, financial position, shareholders’ equity, results of operations or internal control over financial reporting of the Company and its Subsidiaries considered as one enterprise;

(i) The Company and its Subsidiaries own or possess, or can acquire on reasonable terms, adequate trademarks, service marks and trade names necessary to conduct the business now operated by them, and neither the Company nor any of its Subsidiaries has received any notice of infringement of or conflict with asserted rights of others with respect to any trademarks, service marks or trade names that, individually or in the aggregate, if the subject of an unfavorable decision, ruling or finding, would materially and adversely affect the general affairs, management, financial position, shareholders' equity, results of operations or internal control over financial reporting of the Company and its Subsidiaries considered as one enterprise;

For purposes of this Section 2 as well as for Section 8 hereof, references to “the Pricing Prospectus and the Prospectus” are to each of such prospectuses as a separate or stand-alone document (and not the two such prospectuses taken together), so that representations, warranties, agreements, conditions and legal opinions will be made, given or measured independently in respect of each of the Pricing Prospectus and the Prospectus.

3. Offer and Sale of Designated Securities. Upon the execution of the Pricing Agreement applicable to the Designated Securities and authorization by the Representatives of the release of such Designated Securities, the several Underwriters propose to offer such Designated Securities for sale upon the terms and conditions set forth in the Prospectus.

4. Payment and Settlement for Designated Securities. (d) To make generally available to its security holders as soon as practicable, but in any event not later than eighteen months after the effective date of the Registration Statement (as defined in Rule 158(c) under the Securities Act), an earnings statement of the Company and its Subsidiaries (which need not be audited) complying with Section 11(a) of the Securities Act and the rules and regulations of the Commission thereunder (including, at the option of the Company, Rule 158 under the Securities Act);

(e) During the period beginning from the date of the Pricing Agreement and continuing to and including the Time of Delivery for the Designated Securities, not to offer, sell, contract to sell or otherwise dispose of any debt securities of the Company that mature more than one year after such Time of Delivery and that are substantially similar to such Designated Securities, without the prior written consent of the Representatives;

(f) To furnish to the holders of the Designated Securities, upon such holders' request, as soon as practicable after the end of each fiscal year, an annual report (including a balance sheet and statements of income, shareholders' equity and cash flows of the Company and its consolidated Subsidiaries certified by an independent registered public accounting firm) and, as soon as practicable after the end of each of the first three quarters of each fiscal year (beginning with the fiscal quarter ending after the effective date of the Registration Statement), consolidated summary financial information of the Company and its Subsidiaries for such quarter in reasonable detail;

(j) To use the net proceeds received by it from the sale of the Designated Securities pursuant to this Agreement and the Pricing Agreement in the manner specified in the Prospectus, including in any supplement thereto, relating to the offer and sale of such Designated Securities.

(a) Such Underwriter has not made, and will not make (other than as permitted by Section 6(b) hereof), any offer relating to the Designated Securities that would constitute a "free writing prospectus" (as defined in Rule 405 under the Securities Act), without the prior consent of the Company and the Representatives;

(b) Such Underwriter has not used, and will not use, any free writing prospectus that contains the final terms of the Designated Securities unless such terms have previously been included in a free writing prospectus filed with the Commission in accordance with Rule 433 under the Securities Act, without the prior consent of the Company and the Representatives; *provided, however*, that each of the Underwriters may use a term sheet relating to the Designated Securities containing customary information not inconsistent with the Final Term Sheet prepared and filed pursuant to Section 5(a) hereof without the prior consent of the Company or the Representatives; and

(h) The Company shall have furnished or caused to be furnished to the Representatives at the Time of Delivery for the Designated Securities a certificate or certificates of officers of the Company satisfactory to the Representatives as to the accuracy of the representations and warranties of the Company herein at and as of such Time of Delivery, as to the performance by the Company of all of its obligations hereunder to be performed at, or prior to, such Time of Delivery, as to the matters set forth in Sections 8(a) and 8(e) and as to such other matters as the Representatives may reasonably request.

9. Indemnification and Contribution. (a) The Company will indemnify and hold harmless each Underwriter against any losses, claims, damages or liabilities, joint or several, to which such Underwriter may become subject, under the Securities Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon an untrue statement or alleged untrue statement, of a material fact contained in the Registration Statement, the Base Prospectus, any Preliminary Prospectus, the Pricing Prospectus or the Prospectus, any amendment or supplement to any thereof, or any Issuer Free Writing Prospectus, any “issuer information” filed or required to be filed pursuant to Rule 433(d) under the Securities Act, or any “road show” (as defined in Rule 433 under the Securities Act) that does not otherwise constitute an Issuer Free Writing Prospectus, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, and will reimburse each Underwriter for any legal or other expenses reasonably incurred by such Underwriter in connection with investigating or defending any such action or claim as such expenses are incurred; *provided, however*, that the Company shall not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission made in the Registration Statement, the Base Prospectus, any Preliminary Prospectus, the Pricing Prospectus or the Prospectus, any amendment or supplement to any thereof, or any Issuer Free Writing Prospectus, in reliance upon and in conformity with information furnished in writing to the Company by an Underwriter of any Designated Securities through the Representatives expressly for use in any thereof.

(b) Each Underwriter will, severally and not jointly, indemnify and hold harmless the Company against any losses, claims, damages or liabilities to which the Company may become subject, under the Securities Act or otherwise insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon an untrue statement or alleged untrue statement of a material fact contained in the Registration Statement, the Base Prospectus, any Preliminary Prospectus, the Pricing Prospectus or the Prospectus, any amendment or supplement to any thereof, or any Issuer Free Writing Prospectus, arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, in each case to the extent, but only to the extent, that such untrue statement or alleged untrue statement or omission or alleged omission was made in the Registration Statement, the Base Prospectus, any Preliminary Prospectus, the Pricing Prospectus or the Prospectus, any amendment or supplement to any thereof, or any Issuer Free Writing Prospectus, in reliance upon and in conformity with information furnished in writing to the Company by such Underwriter of Designated Securities through the Representatives expressly for use therein, and will reimburse the Company for any legal or other expenses reasonably incurred by the Company in connection with investigating or defending any such action or claim as such expenses are incurred.

(c) Promptly after receipt by an indemnified party under Section 9(a) or Section 9(b) of notice of the commencement of any action, such indemnified party shall, if a claim in respect thereof is to be made against the indemnifying party under such Section 9(a) or 9(b), notify the indemnifying party in writing of the commencement thereof; but the omission so to notify the indemnifying party shall not relieve it from any liability that it may have to any indemnified party otherwise than under such Section 9(a) or 9(b). In case any such action shall be brought against any indemnified party and it shall notify the indemnifying party of the commencement thereof, the indemnifying party shall be entitled to participate therein and, to the extent that it shall wish, jointly with any other indemnifying party similarly notified, to assume the defense thereof, with counsel satisfactory to such indemnified party (who shall not, except with the consent of the indemnified party, be counsel to the indemnifying party), and, after notice from the indemnifying party to such indemnified party of its election so to assume the defense thereof, the indemnifying party shall not be liable to such indemnified party under Section 9(a) or 9(b), as the case may be, for any legal expenses of other counsel or any other expenses, in each case subsequently incurred by such indemnified party, in connection with the defense thereof other than reasonable costs of investigation.

(d) If the indemnification provided for in this Section 9 is unavailable to or insufficient to hold harmless an indemnified party under Section 9(a) or Section 9(b) in respect of any losses, claims, damages or liabilities (or actions in respect thereof) referred to therein, then each indemnifying party shall contribute to the amount paid or payable by such indemnified party as a result of such losses, claims, damages or liabilities (or actions in respect thereof) in such proportion as is appropriate to reflect the relative benefits received by the Company on the one hand and the Underwriters of the Designated Securities on the other from the offering of the Designated Securities to which such loss, claim, damage or liability (or action in respect thereof) relates. If, however, the allocation provided by the immediately preceding sentence is not permitted by applicable law or if the indemnified party failed to give the notice required under Section 9(c), then each indemnifying party shall contribute to such amount paid or payable by such indemnified party in such proportion as is appropriate to reflect not only such relative benefits but also the relative fault of the Company on the one hand and the Underwriters of the Designated Securities on the other in connection with the statement or omissions that resulted in such losses, claims, damages or liabilities (or actions in respect thereof), as well as any other relevant equitable considerations. The relative benefits received by the Company on the one hand and such Underwriters on the other shall be deemed to be in the same proportion as the total net proceeds from the offering of the Designated Securities (before deducting expenses) received by the Company bear to the total underwriting discounts and commissions received by such Underwriters. The relative fault shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by the Company on the one hand or such Underwriters on the other and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. The Company and the Underwriters agree that it would not be just and equitable if contribution pursuant to this Section 9(d) were determined by pro rata allocation (even if the Underwriters were treated as one entity for such purpose) or by any other method of allocation that does not take account of the equitable considerations referred to above in this Section 9(d). The amount paid or payable by an indemnified party as a result of the losses, claims, damages or liabilities (or actions in respect thereof) referred to above in this Section 9(d) shall be deemed to include any legal or other expenses reasonably incurred by such indemnified party in connection with investigating or defending any such action or claim. Notwithstanding the provisions of this Section 9(d), no Underwriter shall be required to contribute any amount in excess of the amount by which the total price at which the applicable Designated Securities underwritten by it and distributed to the public were offered to the public exceeds the amount of any damages that such Underwriter has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation. The obligations of the Underwriters of Designated Securities in this Section 9(d) to contribute are several in proportion to their respective underwriting obligations with respect to such Designated Securities and are not joint.

(e) The obligations of the Company under this Section 9 shall be in addition to any liability that the Company may otherwise have and shall extend, upon the same terms and conditions, to each person, if any, who controls any Underwriter within the meaning of the Securities Act; and the obligations of the Underwriters under this Section 9 shall be in addition to any liability that the respective Underwriters may otherwise have and shall extend, upon the same terms and conditions, to each director and officer of the Company and to each person, if any, who controls the Company within the meaning of the Securities Act.

10. Defaulting Underwriters. (a) If any Underwriter shall default in its obligation to purchase the Designated Securities that it has agreed to purchase under the Pricing Agreement, the Representatives may in their discretion arrange for themselves or another party or other parties to purchase such Designated Securities on the terms contained herein and therein. In the event that, within thirty six hours after such default by any Underwriter, the Representatives do not arrange for the purchase of such Designated Securities, then the Company shall be entitled to a further period of thirty six hours within which to procure another party or other parties satisfactory to the Representatives to purchase such Designated Securities on such terms. In the event that, within the respective prescribed period, the Representatives notify the Company that they have so arranged for the purchase of such Designated Securities, or the Company notifies the Representatives that it has so arranged for the purchase of such Designated Securities, the Representatives or the Company shall have the right to postpone the Time of Delivery for such Designated Securities for a period of not more than seven days, in order to effect whatever changes may thereby be made necessary in the Registration Statement or the Prospectus as amended or supplemented, or in any other documents or arrangements, and the Company agrees to file promptly any amendments or supplements to the Registration Statement or the Prospectus that in the opinion of the Representatives may thereby be made necessary. The term "Underwriter" as used in this Agreement shall include any person substituted under this Section 10 with like effect as if such person had originally been a party to the Pricing Agreement.

(b) If, after giving effect to any arrangements for the purchase of the Designated Securities of a defaulting Underwriter or Underwriters by the Representatives and the Company as provided in Section 10(a), the aggregate principal amount of such Designated Securities that remains unpurchased does not exceed one eleventh of the aggregate principal amount of the Designated Securities, then the Company shall have the right to require each non defaulting Underwriter to purchase the principal amount of Designated Securities that such Underwriter agreed to purchase under the Pricing Agreement and, in addition, to require each non defaulting Underwriter to purchase its pro rata share (based on the principal amount of Designated Securities that such Underwriter agreed to purchase under the Pricing Agreement) of the Designated Securities of such defaulting Underwriter or Underwriters for which such arrangements have not been made; but nothing herein shall relieve a defaulting Underwriter from liability for its default.

(c) If, after giving effect to any arrangements for the purchase of the Designated Securities of a defaulting Underwriter or Underwriters by the Representatives and the Company as provided in Section 10(a), the aggregate principal amount of Designated Securities that remains unpurchased exceeds one eleventh of the aggregate principal amount of the Designated Securities, as referred to in Section 10(b), or if the Company shall not exercise the right described in Section 10(b) to require non defaulting Underwriters to purchase Designated Securities of a defaulting Underwriter or Underwriters, then the Pricing Agreement shall thereupon terminate, without liability on the part of any non defaulting Underwriter or the Company, except for the expenses to be borne by the Company and the Underwriters as provided in Section 6 hereof and the indemnity and contribution agreements in Section 9 hereof; but nothing herein shall relieve a defaulting Underwriter from liability for its default.

11. Survival. The respective indemnities, agreements, representations, warranties and other statements of the Company and the several Underwriters, as set forth in this Agreement or made by or on behalf of them pursuant to this Agreement, shall remain in full force and effect, regardless of any investigation (or any statement as to the results thereof) made by or on behalf of any Underwriter or any controlling person of any Underwriter, or the Company or any director or officer or controlling person of the Company, and shall survive delivery of and payment for the Designated Securities with respect to which such indemnities, agreements, representations, warranties and other statements are made or given.

12. Termination. If the Pricing Agreement shall be terminated pursuant to Section 10 hereof, the Company shall not then be under any liability to any Underwriter with respect to the Designated Securities covered by the Pricing Agreement except as provided in Section 7 and Section 9 hereof; but, if for any other reason the Designated Securities are not delivered by or on behalf of the Company as *provided herein*, the Company will reimburse the Underwriters through the Representatives for all out of pocket expenses approved in writing by the Representatives, including fees and disbursements of counsel, reasonably incurred by the Underwriters in making preparations for the purchase, sale and delivery of such Designated Securities, but the Company shall then be under no further liability to any Underwriter with respect to such Designated Securities except as provided in Section 7 and Section 9 hereof.

13. Authority of Representatives. In all dealings hereunder, the Representatives of the Underwriters of the Designated Securities shall act on behalf of each of such Underwriters, and the parties hereto shall be entitled to act and rely upon any statement, request, notice or agreement on behalf of any Underwriter made or given by such Representatives jointly or by such of the Representatives, if any, as may be designated for such purpose in the Pricing Agreement.

14. Nature of Underwriters' Obligations. The Company acknowledges and agrees that (i) the purchase and sale of the Designated Securities pursuant to this Agreement and the Pricing Agreement is an arm's-length commercial transaction between the Company, on the one hand, and the several Underwriters, on the other, (ii) in connection therewith and with the process leading to such transaction each Underwriter is acting solely as a principal and not the agent or fiduciary of the Company, (iii) no Underwriter has assumed an advisory or fiduciary responsibility in favor of the Company with respect to the offering contemplated hereby or the process leading thereto (irrespective of whether such Underwriter has advised or is currently advising the Company on other matters) or any other obligation to the Company except the obligations expressly set forth in this Agreement and the Pricing Agreement and (iv) the Company has consulted its own legal and financial advisors to the extent it has deemed appropriate. The Company agrees that it shall not claim that the Underwriters, or any of them, have rendered advisory services of any nature or respect, or owes a fiduciary or similar duty to the Company, in connection with the offering of the Designated Securities contemplated hereby or the process leading thereto.

15. Notices. All statements, requests, notices and agreements hereunder shall be in writing, and if to the Company, shall be delivered or sent by mail, air courier or facsimile transmission (which shall be effective upon confirmation by telephone) to the address of the Company set forth in the Registration Statement, Attention: Chief Executive Officer, with a copy to the General Counsel of the Company; and, if to the Underwriters, shall be delivered or sent by mail, air courier or facsimile transmission (which shall be effective upon confirmation by telephone) to the address or addresses of the Representative or Representatives, as the case may be, as set forth in the Pricing Agreement; *provided, however*, that any notice to an Underwriter pursuant to Section 9(c) hereof shall be delivered or sent by mail, air courier, telex or facsimile transmission (which shall be effective upon confirmation by telephone) to such Underwriter at its address which, if not set forth in the Pricing Agreement, will be supplied to the Company by the Representatives upon request. Any such statements, requests, notices or agreements shall take effect upon the addressee's receipt thereof.

16. Persons Entitled to the Benefit of Agreement. This Agreement and the Pricing Agreement shall be binding upon, and inure solely to the benefit of, the Underwriters, the Company and, to the extent provided in Section 9 and Section 11 hereof, the directors and officers of the Company and each person who controls the Company or any Underwriter, and their respective successors and assigns (including, in the case of natural persons, their respective heirs, executors and administrators), and no other person shall acquire or have any right under or by virtue of this Agreement or the Pricing Agreement. No purchaser of any of the Securities from any Underwriter shall be deemed a successor or assign by reason merely of such purchase.

17. Time of Essence. Time shall be of the essence of the Pricing Agreement. As used herein, "business day" shall mean any day when the Commission's office in Washington, D.C. is open for business.

18. Definitive Agreement. This Agreement and the Pricing Agreement supersede all prior agreements and understandings (whether written or oral) between the Company and the Underwriters, or any of them, with respect to the subject matter hereof and thereof.

19. GOVERNING LAW. THIS AGREEMENT AND THE PRICING AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK.

20. WAIVER OF JURY TRIAL. THE COMPANY AND EACH OF THE UNDERWRITERS HEREBY IRREVOCABLY WAIVE, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY AND ALL RIGHT TO TRIAL BY JURY IN ANY LEGAL PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT OR THE PRICING AGREEMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY OR THEREBY.

21. Counterparts. This Agreement and the Pricing Agreement may be executed by any one or more of the parties hereto and thereto in any number of counterparts, each of which shall be deemed to be an original, but all such respective counterparts shall together constitute one and the same instrument.

Re: Registration Statement on Form S-3 of Wal-Mart Stores, Inc.

Ladies and Gentlemen:

We have acted as special counsel to Wal-Mart Stores, Inc., a Delaware corporation (the “Company”), in connection with the preparation of the Registration Statement on Form S-3 (the “Registration Statement”) to be filed with the Securities and Exchange Commission (the “Commission”) on the date hereof relating to the offer and sale from time to time, pursuant to Rule 415 of the General Rules and Regulations of the Commission promulgated under the Securities Act of 1933, as amended (the “Securities Act”), by the Company of an indeterminate amount of the Company’s debt securities (the “Debt Securities”). Offerings of the Debt Securities will be made from time to time as set forth in the prospectus contained in the Registration Statement (the “Prospectus”), as supplemented from time to time by one or more prospectus supplements. We are rendering this opinion at your request in connection with the Registration Statement.

The Debt Securities will be issued pursuant to and governed by an indenture, dated as of July 19, 2005, between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee (the “Trustee”), as supplemented by the First Supplemental Indenture, dated as of December 1, 2006, between the Company and the Trustee and the Second Supplemental Indenture, dated as of December 19, 2014, between the Company and the Trustee (together, the “Indenture”). The Company may establish one or more series of the Debt Securities (each, a “Series”) in accordance with the terms of the Indenture from time to time.

In rendering this opinion, we have examined and relied upon, without investigation or independent verification, executed originals, counterparts or copies of the Restated Certificate of Incorporation and the Amended and Restated Bylaws of the Company, each as amended and restated to date (collectively, the “Organizational Documents”), the Registration Statement, the Indenture, resolutions of the Board of Directors of the Company (the “Resolutions”) and such other documents, records and certificates as we considered necessary or appropriate to enable us to express the opinions set forth herein. In all such examinations, we have assumed the authenticity and completeness of all documents submitted to us as originals and the conformity to authentic and complete originals of all documents submitted to us as photostatic, electronic, conformed, notarized or certified copies. As to facts material to our opinion, we have relied, to the extent that we deem such reliance proper and without investigation or independent verification, upon certificates of public officials and certificates of officers or other representatives of the Company.

In rendering this opinion, we have assumed that: (i) all information contained in all documents reviewed by us is true and complete; (ii) each natural person signing any document reviewed by us had the legal capacity to do so; (iii) each person signing in a representative capacity (other than on behalf of the Company) any document reviewed by us had the authority to sign that document in such capacity; and (iv) no amendment, supplement, modification, rescission or termination of the Organizational Documents, the Indenture or the Resolutions will become effective after the date hereof.

Based on the foregoing and subject to the qualifications set forth below, we are of the opinion that, with respect to Debt Securities of a Series offered and sold in reliance upon the Registration Statement (the “Offered Debt Securities”), if, at the time of issuance of the Offered Debt Securities: (i) the Company is a validly existing Delaware corporation; (ii) the Indenture continues to be a valid and binding obligation of the Company and the Trustee and duly qualified under the Trust Indenture Act of 1939, as amended; (iii) the Registration Statement and any amendments thereto have become and remain effective and are not subject to any stop order; (iv) the Offered Debt Securities and the terms and conditions thereof comply and are

consistent with, and the Offered Debt Securities have been and will be offered, issued and sold in compliance with, all applicable laws; (v) the Company has taken all necessary corporate and other action (a) to approve, authorize and establish the Series of which the Offered Debt Securities are a part, to determine and set the terms and conditions of the Debt Securities of the Series of which the Offered Debt Securities are a part, and to determine and set the substance and form of the promissory notes or global notes to represent the Offered Debt Securities and (b) to approve and authorize the offer, sale and issuance of the Offered Debt Securities, the terms of the offer and sale thereof, the execution, authentication and delivery of the promissory notes or global notes to represent the Offered Debt Securities and all related actions of the Company; (vi) all certificates and other documents required by the Indenture to be delivered in connection with the establishment of the Series of which the Offered Debt Securities are a part and the determination and setting of the terms and conditions of the Debt Securities of the Series of which the Offered Debt Securities are a part and required by the Indenture to be delivered in connection with the issuance of the Offered Debt Securities and the issuance, execution and delivery by the Company and authentication by the Trustee of each promissory note or global note to represent Offered Debt Securities, have been properly prepared, executed and delivered with respect to the Series of which Offered Debt Securities are a part, the Offered Debt Securities and each promissory note or global note to represent Offered Debt Securities, all in accordance with the Indenture; (vii) no “Event of Default” (as that term is defined in the Indenture) and no event of the types described in the definition of “Event of Default” in the Indenture, which with the giving of notice, the passage of time or both, would result in the occurrence of an Event of Default, shall have occurred and be continuing, the terms and conditions of the Offered Debt Securities and of their issuance and sale do not result in a default under or a breach or violation of any agreement, document or instrument then binding on the Company and Section 5-501.6.b of the New York General Obligations Law applies in the case of the Offered Debt Securities; (viii) the promissory notes or global notes representing the Offered Debt Securities have been executed, authenticated, issued and delivered in accordance with the Indenture, any Supplemental Indenture executed regarding the Series of which the Offered Debt Securities are a part, any Board Resolution and any Series Terms Certificate (as such terms are defined in the Indenture) executed relating to the Series of which the Offered Debt Securities are a part; and (ix) the Company is not subject to any order or decree of any court or other governmental authority with jurisdiction over the Company purporting to prohibit the issuance and sale by the Company of Debt Securities generally or the Offered Debt Securities specifically, then, upon payment in full of the consideration therefor as provided for in any purchase, underwriting or similar agreement or other contract of sale binding on the Company and governing the sale and purchase of the Offered Debt Securities, the Offered Debt Securities will constitute binding obligations of the Company.

The foregoing opinion is qualified to the extent that the enforceability of the obligations of the Company with respect to any Offered Debt Security and the Indenture may be limited by or subject to: (i) the effects of bankruptcy, insolvency, moratorium, reorganization, liquidation, rearrangement, probate, conservatorship, fraudulent conveyance, fraudulent transfer or other similar laws (including court decisions) now or hereafter in effect relating to or affecting creditors’ rights and remedies generally or providing for the relief of debtors, general principles of equity (regardless of whether equitable remedies are sought in a proceeding in equity or at law and subject to the refusal of any court to grant any equitable remedy sought) or public policy; and (ii) with respect to any Debt Securities denominated in a currency other than United States dollars, the requirement that a claim (or a foreign currency judgment in respect of such a claim) with respect to such Debt Securities be converted into United States dollars at a rate of exchange prevailing on a date determined pursuant to applicable law or governmental authority.

We express no opinion concerning: (i) the validity or enforceability of (a) severability clauses or (b) any provisions contained in the Indenture that purport to waive or not give effect to rights to notice, defenses, subrogation or other rights or benefits that cannot be effectively waived under applicable law; or (ii) the enforceability of any obligation of the Company under any indemnification provisions to the extent such provisions purport to relate to liabilities resulting from or based on negligence willful misfeasance, fraud or any violation of any federal or state securities laws.

We note that the enforceability of the obligations of the Company under specific provisions of the Indenture and the Debt Securities may be subject to: (i) standards of reasonableness and “good faith” limitations and obligations such as those provided in the New York Uniform Commercial Code and similar applicable principles of common law and judicial decisions; and (ii) the course of dealings between the parties, the usage of trade and similar provisions of common law and judicial decision.

We express no opinion with respect to: (i) the parenthetical clause of Section 8.07(i) of the Indenture relating to the limitations on the compensation of trustees; or (ii) Section 12.01 of the Indenture or any part thereof to the extent that such provision or any part thereof purports to waive liability for violation of securities laws.

The foregoing opinion is limited in all respects to matters under and governed by the federal laws of the United States, the laws of the State of New York and the General Corporation Law of the State of Delaware, as each is in force and effect as of the date of this opinion. We do not express any opinion as to the laws of any other jurisdiction.

We consent to the use and filing of this opinion letter as Exhibit 5.1 to the Registration Statement. We also consent to the reference to our firm as having passed on the validity of the Debt Securities under the caption “Legal Matters” in the Prospectus. In giving this consent, we do not imply or admit that we are included in the category of persons whose consent is required under Section 7 or Section 11 of the Securities Act or the rules and regulations of the Commission promulgated thereunder.

Very truly yours,

/s/ Andrews Kurth Kenyon LLP
