### Connecticut Water Service Inc. Reports Second Quarter 2018 Results

- *Total Revenues Increase 8.2 Percent*
- *PURA and MPUC Regulatory Applications Filed for Merger with SJW Group*
- *Dividend Payment Increased for 49<sup>th</sup> Consecutive Year*

**CLINTON, Conn. — August 9, 2018** — Connecticut Water Service, Inc. (Nasdaq: CTWS; the Company or CTWS) announced net income of \$4.7 million, or earnings per basic common share (EPS) of \$0.39, for the second quarter of 2018 on total revenues of \$31.5 million. Total revenues include revenues generated by the Company's three business segments: Water Operations, Service and Rentals, and Real Estate. In the second quarter of 2017, the Company had net income of \$8.4 million or \$0.75 per basic common share, on total revenues of \$29.5 million.

The \$3.7 million decrease in net income relative to 2017 was driven primarily by costs related to the merger with SJW Group in 2018 and a tax benefit in the second quarter of 2017 that was related to the release of previously reserved tax liabilities for the Connecticut Water Company (Connecticut Water).

Operating revenues increased \$2.0 million from the same quarter of the previous year, driven primarily by the 2017 acquisition of Avon Water Company in Connecticut, increased Water Infrastructure and Conservation Adjustment (WICA) and Water Infrastructure Charge (WISC) surcharges, and a general rate increase in Maine Water's Biddeford-Saco Division that became effective in December 2017.

"Our second quarter results reflect our continued focus on operational excellence as a pure-play water company and our employees' record of superior customer service," stated David C. Benoit, president and CEO of CTWS. Mr. Benoit added "We are pleased that our recently announced amended agreement with SJW Group enables us to join another leading water company who shares our commitment to a strong, local team of employees and world-class service to customers and communities, while also providing CTWS shareholders with significant, certain premium value for their shares."

## **Year-to-Date Results**

The Company reported net income of \$3.5 million, or EPS of \$0.29, on total revenues of \$58.0 million in the first six months of 2018. In the same period of 2017, the Company had net income of \$12.5 million, or \$1.11 EPS, on total revenues of \$53.7 million.

The \$9.0 million decrease in net income was driven primarily by costs in 2018 related to the merger with SJW Group as well as tax benefits in the first and second quarters of 2017 that were related to the release of previously reserved tax liabilities for the Maine Water Company (Maine Water) and Connecticut Water.

## **Combination with SJW Group**

As previously announced on August 6, CTWS and SJW Group have amended their merger agreement from a stock-for-stock transaction to an all-cash acquisition of all outstanding shares of CTWS common stock by SJW Group for \$70 per share. The \$70-per-share cash consideration represents a 33 percent premium to the Company's unaffected closing share price of \$52.57 on March 14, 2018. In addition to delivering substantial cash value to CTWS shareholders, the agreement continues to provide significant and comprehensive benefits for Connecticut Water customers, employees and communities.

As further detailed in the August 6 release, there will be no change in customer rates as a result of the transaction; the companies' current record of superior service and reliability is expected to be further enhanced by capitalizing on technology and sharing best practices, operational expertise and more extensive resources; there will be no transaction-related layoffs or significant changes in employee compensation or benefits planned; the companies are committed to ongoing community support and involvement; and a dedicated, experienced team of locally-based employees and leadership will be retained at the operating utilities with the New England headquarters remaining in Clinton, Connecticut.

The application for the approval of CTWS combining with SJW Group was filed with Connecticut Public Utilities Regulatory Authority (PURA) on July 18, 2018. An application was filed by Maine Water with Maine Public Utilities Regulatory Commission (MPUC) on May 4, 2018. The amended merger agreement was provided to both PURA and the MPUC earlier this week.

**Settlement Agreement**

On February 7, 2018, Connecticut Water filed a motion with PURA to reopen its last rate decision for the purpose of considering a settlement agreement negotiated with the Office of Consumer Counsel (OCC). On July 6, 2018, PURA issued a draft decision that rejected the settlement agreement, due to the proposed treatment of income tax expense resulting from the Tax Cuts and Jobs Act.

Connecticut Water and the OCC each filed written exceptions to the draft decision and submitted a revised Settlement Agreement from both parties that would include an adjustment to reflect the impacts of the Tax Cuts and Jobs Act, but at a lower dollar amount than recommended in the PURA draft decision.

A final decision is expected to be issued by PURA in August with implementation of new rates to immediately follow.

Under the terms of the revised settlement agreement:

- Connecticut Water would begin to recover through increased rates, retroactive to April 1, 2018, the \$36.3 million of plant in service with Connecticut Water's generational investment in clean drinking water at the newly upgraded Rockville Drinking Water Treatment Facility.
- The current WICA surcharges on customers' bills would be rolled into base rates and the surcharge would be reset to zero.
- Connecticut Water would not increase its base rates until January 2020 at the earliest, with an exception for extraordinary circumstances.

**Dividend Increase**

On May 10, 2018, the Connecticut Water Service board of directors approved an increase of 5 percent to the Company's annualized cash dividend, raising the quarterly amount to \$0.3125 per share on the Company's common stock for an annualized dividend of \$1.25. Connecticut Water's dividend has increased by more than 25 percent since 2013, and the May action marks the 49th consecutive year of increasing dividend payments. Connecticut Water is included in the NASDAQ Dividend Achievers Select Index, which requires a minimum of 10 consecutive years of dividend increases.

---

The dividend increase on common shares became effective with the quarterly cash dividend payment of \$0.3125 per common share that was paid on June 15, 2018.

### **Infrastructure Replacement**

Maine Water files for WISC increases with the MPUC on a system-by-system basis. Six WISC applications filed since the fourth quarter of 2017 have been approved to date in 2018, and the WISC surcharge in the Biddeford Saco division was reset to zero with the approval of the general rate case in December 2017. The current overall approved cumulative WISC surcharge for all divisions of Maine Water is 6.8 percent. The maximum WISC surcharge allowed in Maine ranges from 10 to 20 percent, depending on the size of the water system.

The current WICA charge is 9.98 percent for Connecticut Water and 7.51 percent for Avon Water. Heritage Village Water has not filed for a WICA surcharge.

WICA and WISC allow for recovery of eligible infrastructure replacements on a semiannual basis.

### **About CTWS**

CTWS is one of the 10 largest U.S.-based publicly traded water utilities, and is listed on the Nasdaq Global Select Market under the ticker symbol CTWS. Through its regulated utility subsidiaries, CTWS serves more than 135,000 water customers, or more than 425,000 people in 80 communities across Connecticut and Maine, and more than 3,000 wastewater customers in Southbury, Connecticut.

Additional information regarding results, performance or achievements noted in this news release is available in the CTWS Form 10-Q that was filed with the U.S. Securities and Exchange Commission earlier today. A link to the Form 10-Q filing can be found at <http://ir.ctwater.com>.
