**Letter from SJW CEO to Mayor of San Jose, dated May 31, 2018**

Dear Mayor Liccardo,

For more than 152 years, San Jose Water has served the people of San Jose and surrounding communities with safe, reliable, healthy, and affordable, high quality drinking water. Our company has grown with the region and, more importantly, our employees are proud to live, work, and serve in this community. I am deeply honored to join with them and want to assure you that we will build upon that legacy. You have our commitment to continually seek ways to improve our services and contribution to the valley communities we serve and our customers.

That is why we recently announced a plan to merge with Connecticut Water Service Inc, under our parent company – SJW Group. This parent company merger will provide significant benefits for our customers and their communities. Combined, the new company will have greater scale while maintaining its locally focused mission – delivering high quality drinking water service to families and communities. Scale is very important for water utilities, providing for improved purchasing power, better access to capital, and elimination of duplicative costs. These improvements and savings will directly benefit our customers and their communities.

While scale is critical, we also understand that water service is inherently local. While we get bigger, we remain locally focused. Same company, same employees, with the parent organization located right here in the City of San Jose. National scale with a strong local focus.

In the interim, I want to express that we do appreciate your questions. I am eager to meet with you to address them personally and transparently. I stand ready to meet when your schedule permits. We are confident that we can address the issues you raised and work to alleviate your concerns.

Additionally, while the California Public Utilities Commission's approval is not required for this transaction, we are responding to their requests for information about it. We are confident that this information will confirm that the planned merger will cause no harm to the public interest or to the interests of our customers, including the City of San Jose and all the municipalities we serve. The challenges we face together have never been greater. To name just a few:

- The impacts of climate change on weather patterns and the likelihood of greater and more severe droughts in the future.
- The need for Strategic investments in new infrastructure to meet the growing demands that population growth of the Valley places on our system.

- 
- Ensuring proper maintenance and investment needed to improve reliability and quality of our 152-year-old system.
  - The deployment of new technology to ensure the highest water quality and to protect the public health. We look forward to working collaboratively with you, staff, and other stakeholders to address them.

We understand that we need to do all of the above while also balancing our water rates and impact on our customers. This challenge is not unique to San Jose Water and the recent drought impacts have only exacerbated this situation for us and our peers in the water utility industry. Yet, San Jose Water has balanced these competing forces well in the past. The typical customer pays between \$90 – 100 per month for water. Those residents who qualify for the WRAP (Water Rate Assistance Program) pay about 20% less.

I want to close by sharing that the merger being undertaken will provide us greater efficiency and a stronger financial position to make necessary investments in the future of our water system. This means better service to our customers, and ultimately a more reliable, modern water system. Our intent with our merger is to keep San Jose Water strong. The control of the company will remain in San Jose and with San Jose Water. It will preserve jobs, build on our history and grow our company. Through our merger, we will be better positioned to provide service to our customers. We hope you can find time to discuss this with us in the very near term.

Sincerely,

Eric W. Thornburg
