

**Testimony delivered at a public meeting of the San Jose City Council
by Jayme Ackemann, Director of Corporate Communications**

On behalf of San Jose Water Company I am here today to provide you some information regarding our merger and why we believe it is not only the best course to improve and strengthen our 152 year-old-company, but also why it is best for our customers, including the City of San Jose.

After our merger, San Jose Water will be better capitalized and more able to meet the growing needs of our customers. Our buying power for goods and services will be stronger and our training programs will be more efficient. This scale can deliver real value for our customers, employees, communities, and the environment.

In addition to the aforementioned benefits, there is no change to San Jose Water and our commitment to delivering safe, high quality, and reliable water service to the greater San Jose metropolitan area. The newly merged company will be led by our parent company, SJW Group and our corporate headquarter will remain in San Jose, with the same staff from the top down. Most importantly the company will remain San Jose Water, just as it has for our 152 years.

Like us, you want the best for our community. We will be submitting information to the California Public Utilities Commission (CPUC). However, because our merger is at the parent company level and because it will not result in another entity assuming control of SJW, we aren't required to seek CPUC review of our merger. Cal Water knows this well as there was no formal CPUC review of their last three acquisitions of out-of-state companies. So it seems disingenuous that they are now asking you to suggest the CPUC review this action but did not seek similar review of their own.

We are disappointed that our efforts to improve and strengthen our company have resulted in Cal Water's hostile attempt to purchase our company. Our Board has determined that their offer is not superior to the Connecticut Water merger and it is not likely to lead to a superior offer. In addition, we believe that the offer is too reliant on debt, which would impact Cal Water's future investment capability.

We are more than disappointed that Cal Water has chosen to seek your help in creating obstacles to our merger by having their lobbyists seek this action today and similar actions from elected officials across the region. They are attempting to leverage the public council process to aid their effort at a hostile takeover of a private company.

We want you to understand that we appreciate the concerns you have brought forward. There is no doubt that the drought has brought great challenges and put pressure on water rates across the state. We are not immune from that. In fact it is one of the reasons we have chosen to embark on the merger.

As to the overbilling issues that have been raised by some council members: When this was brought to our attention we reviewed it and took immediate corrective action. We have made a good faith offer to the CPUC to refund \$1.8 million to customers. This is currently under review with the CPUC in the current rate case and we have set aside the funds to address this as soon as we receive final determination from the CPUC.

While we acknowledge the challenges and mistake, we are laser focused on the efforts to address and correct them and hope that our 152 year history of service and dedication to our community would earn us the chance to restore your trust.

We look forward to continuing to build on our 152-year relationship with the City of San Jose and we want to address all concerns raised by our merger, whether through coordination with the CPUC or engaging with the council directly as the process unfolds.
