**CURRENT REPORT**

**PURSUANT TO SECTION 13 OR 15(d) OF THE  
SECURITIES EXCHANGE ACT OF 1934**

**DATE OF REPORT (Date of earliest event reported): July 20, 2017**

**Enscopl**

**(Exact name of registrant as specified in its charter)**

**England and Wales  
(State or other jurisdiction of incorporation)**

**1-8097  
(Commission File Number)**

**98-0635229  
(I.R.S. Employer Identification No.)**

**6 Chesterfield Gardens  
London, England W1J 5BQ  
(Address of Principal Executive Offices and Zip Code)**

**Registrant's telephone number, including area code: 44 (0) 20 7659 4660**

**Not Applicable  
(Former name or former address, if changed since last report)**

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (17 CFR §230.405) or Rule 12b-2 of the Securities Exchange Act of 1934 (17 CFR §240.12b-2).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

# Fleet Status Report

20 July 2017

## Drillship Contracts Awarded Offshore West Africa

ENSCO DS-4 and ENSCO DS-10 were recently awarded contracts offshore Nigeria, representing an aggregate three years of contracted term and six additional years of options. ENSCO DS-7 was also contracted and will return to work offshore Ivory Coast.

ENSCO DS-4

ENSCO DS-10

**Ensc o plc**  
**Fleet Status Report**  
**20 July 2017**

**New Contracts and Extensions**

**Floaters**

- ENSCO DS-4 awarded a two-year contract with Chevron offshore Nigeria that is expected to commence in August 2017
- ENSCO DS-10 awarded a one-year contract with Shell offshore Nigeria that is expected to commence in first quarter 2018
- ENSCO DS-7 will return to work with Total offshore Ivory Coast for a one-well contract that is expected to commence in August 2017
- ENSCO 8503 awarded a one-well contract with Talos in the U.S. Gulf of Mexico following completion of its current operations in Mexico
- ENSCO 8505 awarded a one-well contract with Apache in the U.S. Gulf of Mexico that commenced in July 2017

**Jackups**

- ENSCO 120 awarded a three-year contract with ConocoPhillips in the North Sea that commenced in July 2017
- ENSCO 110 awarded a three-year contract with North Oil Company offshore Qatar that is expected to commence in August 2017
- ENSCO 102 awarded a 400-day contract with Arena in the U.S. Gulf of Mexico that is expected to commence in November 2017
- ENSCO 122 awarded a two-well contract with NAM in the North Sea that is expected to commence in September 2017
- ENSCO 87 awarded a one-well contract with Renaissance in the U.S. Gulf of Mexico that commenced in July 2017
- ENSCO 72 contract with ENGIE in the North Sea extended by one well to October 2017
- ENSCO 107 contract with Chevron offshore Australia extended by one month to August 2017

**Other**

- Received notice of early termination for convenience from customer for ENSCO 71 with estimated effective date in late August 2017
- Sold ENSCO 86, ENSCO 90 and ENSCO 99
- Classified ENSCO 52 as held-for-sale

<sup>(1)</sup> For rigs that may be modified to drill in deeper water depths, both the currently outfitted and maximum upgrade capabilities are shown.

<sup>(2)</sup> Contract duration does not include any unexercised optional extensions. Contract end dates can vary based on how long it takes to complete the wells subject to the contract.

<sup>(3)</sup> Prior to stacking, upfront steps are taken to preserve the rig. This may include a quayside power source to dehumidify key equipment and/or provide electrical current to the hull to prevent corrosion. Also, certain equipment may be removed from the rig for storage in a temperature-controlled environment. While stacked, large equipment that remains on the rig is periodically inspected and maintained by Enco personnel. These steps are designed to reduce the time and lower cost to reactivate the rig when market conditions improve.

**Fleet Status Report**  
**20 July 2017**

**Additional Information Regarding this Fleet Status Report**

**Day Rate and Terms.** The day rates reflected in this Fleet Status Report are stated in U.S. dollars and are the operating day rates charged to customers, which may include estimated contractual adjustments for changes in operating costs and/or reimbursable cost adjustments for ongoing expenses such as crew, catering, insurance and taxes. The day rates, however, do not include certain types of non-recurring revenues such as lump sum mobilization payments, revenues earned during mobilizations, revenues associated with contract preparation and other non-recurring reimbursable items such as mobilizations and capital enhancements, and the impact of the fair market value adjustments to previously acquired drilling contracts. Routine and non-routine downtime may reduce the actual revenues recognized during the contract term. Additionally, we sometimes negotiate special rates and/or day rate adjustments with customers that may reduce revenues recognized. EnSCO announced in its Fleet Status Report dated 22 February 2017 that going forward it does not expect to release day rates for new contracts in its Fleet Status Reports. Significant zero rate estimates are reflected in the comments section for 2017.

**Forward Looking Statement.** Statements contained in this Fleet Status Report that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements include words or phrases such as “anticipate,” “believe,” “estimate,” “expect,” “intend,” “plan,” “project,” “could,” “may,” “might,” “should,” “will” and similar words and specifically include statements involving future rig day rates including adjustments with the customer; discussions with the customer; backlog; cost adjustments; utilization; estimated rig availability; expected work commitments and contracts; contract duration, status, terms and other contract commitments; letters of intent or letters of award; rig enhancement projects; new rig commitments; the expected period of time and number of rigs that will be in a shipyard for repairs, maintenance, enhancement or construction; sale leaseback transactions; scheduled delivery dates for new rigs; and the timing of delivery, mobilization, contract commencement, relocation or other movement of rigs. Such statements are subject to numerous risks, uncertainties and assumptions that may cause actual results to vary materially from those indicated, including commodity price fluctuations, customer demand, new rig supply, downtime and other risks associated with offshore rig operations, relocations, severe weather or hurricanes; changes in worldwide rig supply and demand, competition and technology; future levels of offshore drilling activity; governmental action, civil unrest and political and economic uncertainties; terrorism, piracy and military action; risks inherent to shipyard rig construction, repair, maintenance or enhancement; possible cancellation, suspension; repudiation; or termination of drilling contracts, including termination for convenience (without cause), as a result of mechanical difficulties, performance, customer liquidity and finances, the decline or the perceived risk of a further decline in oil and/or natural gas prices, or other reasons; the cancellation of letters of intent or any failure to execute definitive contracts following announcements of letters of intent or letters of award or other expected work commitments; the outcome of litigation, legal proceedings, investigations or other claims or contract disputes; governmental regulatory, legislative and permitting requirements affecting drilling operations; our ability to attract and retain skilled personnel on commercially reasonable terms; environmental or other liabilities, risks or losses; debt restrictions that may limit our liquidity and flexibility; and cybersecurity risks and threats. In addition to the numerous factors described above, you should also carefully read and consider “Item 1A. Risk Factors” in Part I and “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Part II of our most recent annual report on Form 10-K, as updated in our subsequent quarterly reports on Form 10-Q, which are available on the SEC’s website at [www.sec.gov](http://www.sec.gov) or on the Investor Relations section of our website at [www.enscople.com](http://www.enscople.com). Each forward-looking statement contained herein speaks only as of the date of this Fleet Status Report, and we undertake no obligation to publicly update or revise any forward looking statements, except as required by law.
