Important Additional Information Regarding the Transaction Will Be Filed with the SEC

In connection with the proposed transaction, Ensco and Rowan will file a definitive joint proxy statement on Schedule 14A with the SEC. Ensco and Rowan intend that the proposed transaction will be implemented by means of a court-sanctioned scheme of arrangement between Rowan and Rowan's shareholders under the UK Companies Act 2006, as amended, in which case the issuance of Ensco's ordinary shares in the proposed transaction would not be expected to require registration under the Securities Act, pursuant to an exemption provided by Section 3(a)(10) under the Securities Act. In the event that Ensco determines to conduct an acquisition of Rowan pursuant to an offer or otherwise in a manner that is not exempt from the registration requirements of the Securities Act, it will file a registration statement with the SEC containing a prospectus with respect to Ensco's ordinary shares that would be issued in the proposed transaction. INVESTORS AND SECURITY HOLDERS OF ENSCO AND ROWAN ARE ADVISED TO CAREFULLY READ THE JOINT PROXY STATEMENT (WHICH WILL INCLUDE AN EXPLANATORY STATEMENT IN RESPECT OF ANY SCHEME OF ARRANGEMENT OF ROWAN, IN ACCORDANCE WITH THE REQUIREMENTS OF THE UK COMPANIES ACT 2006) AND ANY REGISTRATION STATEMENT/PROSPECTUS (INCLUDING ALL AMENDMENTS AND SUPPLEMENTS THERETO) WHEN THEY BECOME AVAILABLE BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION ABOUT THE TRANSACTION, THE PARTIES TO THE TRANSACTION AND THE RISKS ASSOCIATED WITH THE TRANSACTION. A definitive joint proxy statement and any registration statement/prospectus, as applicable, will be sent to security holders of Ensco and Rowan in connection with the Ensco and Rowan shareholder meetings. Investors and security holders may obtain a free copy of the joint proxy statement (when available), any registration statement/prospectus, and other relevant documents filed by Ensco and Rowan with the SEC from the SEC's website at www.sec.gov. EnSCO plc Reports Third Quarter 2018 Results

Rowan Merger Announced
Highest-Specification Drillships ENSCO DS-9 and ENSCO DS-12 Awarded New Contracts
New Contracts Secured for ENSCO 8503, ENSCO 8504 and ENSCO 8505
High-Specification, Harsh Environment Jackups ENSCO 121 and ENSCO 122 Win Additional Work

London, England, 30 October 2018 ... EnSCO plc (NYSE: ESV) today reported a loss of \$0.33 per share for third quarter 2018 compared to a loss of \$0.08 per share a year ago.

Several items influenced these comparisons:

- \$7 million or \$0.01 per share loss from a bargain purchase gain adjustment related to the Atwood acquisition included in third quarter 2018 other expense
- \$3 million or \$0.01 per share of transaction costs related to the Atwood acquisition and planned merger with Rowan, of which \$2 million is included in contract drilling expense and \$1 million in general and administrative expense, compared to \$6 million or \$0.02 per share of transaction costs related to the Atwood acquisition included in third quarter 2017 general and administrative expense
- \$8 million or \$0.02 per share of discrete tax benefit in third quarter 2018 tax provision compared to \$3 million or \$0.01 per share of discrete tax expense in third quarter 2017 tax provision

Adjusted for the items noted above, the loss was \$0.33 per share in third quarter 2018 compared to a loss of \$0.05 per share a year ago.

Chief Executive Officer and President Carl Trowell said, "Earlier this month, we announced a planned merger with Rowan, which will create an industry leader in offshore drilling across all water depths that will be well-positioned to better serve customers and capitalize on future growth opportunities. Our combined rig fleet will contain many of the industry's highest-specification assets and, coupled with meaningful synergies, provide our shareholders with even greater upside to improving market conditions as the industry recovery continues gaining momentum."

Mr. Trowell added, "Higher levels of customer demand have led to new contracts and extensions for several rigs in our fleet across a range of water depths and geographies. ENSCO DS-9 and ENSCO DS-12, two of our highest-specification drillships, were awarded contracts in South America and West Africa respectively. We also won new contracts for versatile semisubmersibles ENSCO 8503 and ENSCO 8505 in the Gulf of Mexico along with sister rig ENSCO 8504 offshore Japan. Further, contract awards for high-specification, harsh environment jackups ENSCO 121 and ENSCO 122 in the North Sea demonstrate a clear customer preference for high-quality rigs that can deliver the greatest efficiencies for their offshore well programs."

Third Quarter Results

Revenues decreased to \$431 million in third quarter 2018 from \$460 million a year ago primarily due to the sale of three rigs that operated in the year-ago period and a decline in the average day rate to \$129,000 from \$166,000 in third quarter 2017. This was partly offset by the addition of legacy Atwood rigs and newbuilds ENSCO DS-10, ENSCO 140 and ENSCO 141 to the active fleet. Reported utilization increased to 58% from 55% in third quarter 2017.

Contract drilling expense increased to \$327 million in third quarter 2018 from \$286 million a year ago primarily due to the addition of 11 legacy Atwood rigs and three newbuild rigs, partly offset by the sale of three rigs that operated in third quarter 2017.

Depreciation expense increased to \$121 million in third quarter 2018 from \$108 million a year ago due to the addition of the Atwood rigs and three newbuilds to the active fleet, partly offset by lower depreciation expense for assets that incurred impairment charges in fourth quarter 2017. General and administrative expense declined to \$25 million from \$30 million a year ago mostly due to transaction costs related to the Atwood acquisition in the year-ago period.

Other expense increased to \$78 million in third quarter 2018 from \$40 million a year ago mostly due to higher interest expense and an adjustment to the bargain purchase gain from the Atwood acquisition. Interest expense in third quarter 2018 was \$72 million, net of \$15 million of interest that was capitalized, compared to interest expense of \$48 million in third quarter 2017, net of \$25 million of interest that was capitalized. The increase in interest expense was due to the issuance of new senior notes during first quarter 2018 and higher revolving credit facility commitment fees, partly offset by interest savings from debt repurchases. The year-to-year comparison was also influenced by a \$7 million loss arising from a bargain purchase gain adjustment during third quarter 2018 as noted above.

Tax expense was \$23 million in third quarter 2018, consistent with the year-ago period. Excluding discrete tax items, tax expense increased by \$11 million as compared to the prior-year period primarily due to U.S. tax reform and an increase in the relative components of our earnings generated in higher tax rate jurisdictions, partly offset by lower income levels.

Segment Highlights

Floaters

Floater revenues decreased to \$242 million in third quarter 2018 from \$292 million a year ago primarily due to a decline in average day rates to \$239,000 from \$334,000 in third quarter 2017 and the sale of ENSCO 6001, which operated in the prior-year period. Third quarter 2018 revenues included \$30 million from acquired Atwood rigs and a full quarter of operations for ENSCO DS-10 following the commencement of its maiden contract earlier this year. Reported utilization of 46% was consistent with the year-ago period. Adjusted for uncontracted rigs and planned downtime, operational utilization was 97% compared with 99% a year ago.

Contract drilling expense increased to \$176 million in third quarter 2018 from \$139 million a year ago. The year-on-year increase was due to the addition of \$37 million of costs from six legacy Atwood floaters and ENSCO DS-10 joining the active fleet, partly offset by the sale of ENSCO 6001.

Jackups

Jackup revenues increased to \$173 million in third quarter 2018 from \$153 million a year ago primarily due to a six percentage point increase in reported utilization to 66%. The addition of newbuilds ENSCO 140 and ENSCO 141 to the active fleet also contributed to higher year-on-year revenues. These items were partly offset by the sale of two rigs that operated in the prior-year period and a decline in average day rates to \$80,000 from \$88,000 a year ago. Adjusted for uncontracted rigs and planned downtime, operational utilization was 98% compared with 99% a year ago.

Contract drilling expense increased to \$136 million in third quarter 2018 from \$133 million a year ago. The addition of two newbuild rigs and five legacy Atwood jackups to the active fleet was largely offset by lower costs following the sale of two jackup rigs.

Other

Other is composed of managed drilling rigs. Revenues increased to \$16 million from \$15 million in third quarter 2017, while contract drilling expense increased to \$15 million from \$14 million a year ago.

⁽¹⁾ Rig utilization is derived by dividing the number of days under contract by the number of days in the period. Days under contract equals the total number of days that rigs have earned and recognized day rate revenue, including days associated with early contract terminations, compensated downtime and mobilizations. When revenue is earned but is deferred and amortized over a future period, for example when a rig earns revenue while mobilizing to commence a new contract or while being upgraded in a shipyard, the related days are excluded from days under contract.

For newly-constructed or acquired rigs, the number of days in the period begins upon commencement of drilling operations for rigs with a contract or when the rig becomes available for drilling operations for rigs without a contract.

⁽²⁾ Average day rates are derived by dividing contract drilling revenues, adjusted to exclude certain types of non-recurring reimbursable revenues, lump-sum revenues and revenues attributable to amortization of drilling contract intangibles, by the aggregate number of contract days, adjusted to exclude contract days associated with certain mobilizations, demobilizations, shipyard contracts and standby contracts.

Non-GAAP Financial Measures (Unaudited)

To supplement Ensco's condensed consolidated financial statements presented on a GAAP basis, this press release provides investors with adjusted loss per share from continuing operations, adjusted EBITDA and net debt, which are non-GAAP measures.

We believe that adjusted loss per share from continuing operations provides meaningful supplemental information regarding the company's performance by excluding certain charges that may not be indicative of Ensco's ongoing operating results. This allows investors and others to better compare financial results across accounting periods and to those of peer companies, and to better understand the long-term performance of our business.

Ensco defines "Adjusted EBITDA" as net income (loss) before income (loss) from discontinued operations, other income (expense), income tax expense (benefit), interest expense, depreciation, amortization, loss on impairment, (gain) loss on asset disposals, transaction costs and significant non-recurring items. Adjusted EBITDA is a non-GAAP measure that our management uses to facilitate period-to-period comparisons of our core operating performance and to evaluate our long-term financial performance against that of our peers. We believe that this measure is useful to investors and analysts in allowing for greater transparency of our core operating performance and makes it easier to compare our results with those of other companies within our industry. Adjusted EBITDA should not be considered (a) in isolation of, or as a substitute for, net income (loss), (b) as an indication of cash flows from operating activities or (c) as a measure of liquidity. Adjusted EBITDA may not be comparable to other similarly titled measures reported by other companies.

Net debt is defined as long-term debt less cash and short-term investments. We review net debt as part of our overall liquidity, financial flexibility, capital structure and leverage, and believe that this measure is useful to investors as part of their assessment of our business.

Non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, financial measures prepared in accordance with GAAP.
