VIAD CORP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Basis of Preparation and Principles of Consolidation

The accompanying unaudited, condensed consolidated financial statements of Viad Corp (“Viad” or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012.

For further information, refer to the consolidated financial statements and related footnotes for the year ended December 31, 2011, included in the Company’s Form 10-K (File No. 001-11015), filed with the Securities and Exchange Commission on March 9, 2012.

The condensed consolidated financial statements include the accounts of Viad and all of its subsidiaries. All significant intercompany account balances and transactions between Viad and its subsidiaries have been eliminated in consolidation. Viad’s reporting segments consist of Marketing & Events U.S., Marketing & Events International and the Travel & Recreation Group.

The Marketing & Events Group, comprised of Global Experience Specialists, Inc. and affiliates (“GES”), specializes in all aspects of the design, planning and production of face-to-face events, immersive environments and brand-based experiences for clients, including show organizers, corporate brand marketers and retail shopping centers. In addition, the Marketing & Events Group provides a variety of immersive, entertaining attractions and brand-based experiences, sponsored events, mobile marketing and other branded entertainment and face-to-face marketing solutions for clients and venues, including shopping malls, movie studios, museums, leading consumer brands and casinos.

The Travel & Recreation Group segment consists of Brewster Inc. (“Brewster”), Glacier Park, Inc. (“Glacier Park”) and Alaskan Park Properties, Inc. (“Alaskan Park Properties”).

Brewster provides tourism services in the Canadian Rockies in Alberta and in other parts of Western Canada. Brewster’s operations include the Banff Gondola, Columbia Icefield Glacier Adventure, motorcoach services, charter and sightseeing services, tour boat operations, inbound package tour operations and hotel operations.

Glacier Park operates five lodges, three motor inns and one four-season resort hotel and provides food and beverage operations, retail operations and tour and transportation services in and around Glacier National Park in Montana and Waterton Lakes National Park in Alberta, Canada. Glacier Park is an 80 percent owned subsidiary of Viad.

In September 2011, Alaskan Park Properties, Viad’s wholly-owned subsidiary, acquired Denali Backcountry Lodge and Denali Cabins. Denali Backcountry Lodge is a 42-guest room lodge located within Denali National Park and Preserve in Alaska and Denali Cabins are 46 guest cabins located near the entrance to Denali National Park and Preserve. In addition to lodging, Alaskan Park Properties also provides food and beverage operations and package tour and transportation services in and around Denali National Park and Preserve.

Note 2. Share-Based Compensation

The following table summarizes share-based compensation expense for the three months ended March 31:

	<u>2012</u>	<u>2011</u>
	<u>(in thousands)</u>	
Restricted stock/performance-based restricted stock (“PBRs”)	\$ 747	\$ 678
Performance unit incentive plan (“PUP”)	238	65
Stock options	145	147
Restricted stock units/PBRs units	<u>87</u>	<u>43</u>
Total share-based compensation before income tax benefit	1,217	933
Income tax benefit	(436)	(331)
Total share-based compensation, net of income tax benefit	<u>\$ 781</u>	<u>\$ 602</u>

In addition, \$108,000 of costs associated with share-based compensation were included in restructuring charges during the three months ended March 31, 2011.

Restricted Stock and PBRs. The following table summarizes restricted stock and PBRs activity:

	Restricted Stock		PBRs	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Balance at January 1, 2012	572,022	\$ 20.36	416	\$ 15.36
Granted	158,250	20.58	—	—
Vested	(189,071)	17.99	(416)	15.36
Forfeited	(3,450)	25.23	—	—
Balance at March 31, 2012	<u>537,751</u>	<u>21.22</u>	<u>—</u>	<u>—</u>

The unamortized cost of all outstanding restricted stock awards as of March 31, 2012 was \$6.5 million, which Viad expects to recognize in the consolidated financial statements over a weighted-average period of approximately 2.4 years. During the three months ended March 31, 2012 and 2011, the Company repurchased 50,894 shares for \$1.0 million and 28,152 shares for \$668,000, respectively, related to tax withholding requirements on vested share-based awards. As of March 31, 2012, there were 1,063,907 total shares available for future grant.

Liability-Based Awards. The following table summarizes the liability-based award activity:

	Restricted Stock Units		PBRs Units		PUP Awards	
	Units	Weighted-Average Grant Date Fair Value	Units	Weighted-Average Grant Date Fair Value	Units	Weighted-Average Grant Date Fair Value
Balance at January 1, 2012	38,600	\$ 19.07	1,956	\$ 15.36	95,500	\$ 23.02
Granted	15,350	20.60	—	—	115,100	20.60
Vested	(13,100)	15.36	(1,956)	15.36	—	—
Balance at March 31, 2012	<u>40,850</u>	<u>20.84</u>	<u>—</u>	<u>—</u>	<u>210,600</u>	<u>21.70</u>

As of March 31, 2012 and December 31, 2011, Viad had liabilities of \$270,000 and \$475,000, respectively, related to restricted stock unit and PBRs unit liability awards. A portion of the 2009 PBRs unit awards vested effective December 31, 2009 and cash payouts of \$35,000 and \$52,000 were distributed in January 2012 and January 2011, respectively. Similarly, a portion of the 2009 restricted unit awards vested in February 2012 and cash payouts of \$257,000 were distributed in February 2012.

As of March 31, 2012 and December 31, 2011, Viad had liabilities of \$952,000 and \$714,000, respectively, related to PUP awards. There were no PUP awards which vested during the three months ended March 31, 2012 or 2011. Furthermore, there were no cash settlements of PUP awards during the three months ended March 31, 2012 or 2011.

Stock Options. The following table summarizes stock option activity:

	Shares	Weighted-Average Exercise Price	Options Exercisable
Options outstanding at January 1, 2012	584,201	\$ 23.32	396,688
Exercised	(4,562)	19.57	—
Forfeited or expired	(191,381)	26.18	—
Options outstanding at March 31, 2012	<u>388,258</u>	<u>21.96</u>	<u>294,405</u>

The total unrecognized cost related to non-vested stock option awards was \$523,000 as of March 31, 2012, which Viad expects to recognize in the consolidated financial statements over a weighted-average period of approximately one year. No stock options were granted during the three months ended March 31, 2012.

In addition to the above, Viad had stock options outstanding which were granted to employees of MoneyGram International, Inc. (“MoneyGram”) prior to the spin-off of that company in 2004. As of March 31, 2012, there were 2,402 of such options both outstanding and exercisable at an exercise price of \$19.57. The weighted-average remaining contractual life of these options was less than one year. No options were exercised by MoneyGram participants during the three months ended March 31, 2012.

Note 3. Acquisition of Businesses

On March 7, 2012, Viad acquired the Banff International Hotel and related assets for \$23.6 million in cash. The Banff International Hotel is a 162-guest room hotel located in downtown Banff, Alberta, Canada and is operated by Brewster within the Travel & Recreation Group. The following information represents the preliminary amounts assigned to the assets and liabilities of the Banff International Hotel as of the date of acquisition:

	(in thousands)
Cash and cash equivalents	\$ 10
Accounts receivable	23
Other current assets	33
Property and equipment	20,287
Goodwill	2,011
Other intangible assets	1,323
Total assets acquired	<u>23,687</u>
Customer deposits	(64)
Other current liabilities	(67)
Total liabilities acquired	<u>(131)</u>
Purchase price	<u>\$ 23,556</u>

The Company recorded \$2.0 million of goodwill in connection with the transaction, which is included in the Travel & Recreation Group. The primary factor that contributed to a purchase price resulting in the recognition of goodwill relates to future growth opportunities. The goodwill is deductible for tax purposes pursuant to regulations in Canada. The amount assigned to other intangible assets of \$1.3 million relates to an operating contract and customer relationships. The weighted-average amortization period related to the other intangible assets was 7.7 years. The transaction costs related to the acquisition were insignificant. The results of operations of the Banff International Hotel have been included in Viad’s consolidated financial statements from the date of acquisition.

On September 16, 2011, Viad acquired the Denali Backcountry Lodge and Denali Cabins for \$15.3 million in cash. Denali Backcountry Lodge is a 42-guest room lodge located within Denali National Park and Preserve in Alaska and Denali Cabins consist of 46 guest cabins near the entrance to Denali National Park and Preserve. These properties are operated by Viad’s wholly-owned subsidiary, Alaskan Park Properties, within the Travel & Recreation Group. The amounts assigned to the assets and liabilities of Denali Backcountry Lodge and Denali Cabins as of the date of acquisition include: \$11.6 million of property and equipment, \$3.2 million of goodwill, \$626,000 of customer relationship intangible assets and net other liabilities of \$135,000. The primary factor that contributed to a purchase price resulting in the recognition of goodwill relates to future growth opportunities. The acquired goodwill is included in the Travel & Recreation Group and is deductible for tax purposes over a period of 15 years. The weighted average amortization period related to the customer relationship intangible assets was 5.0 years. The transaction costs related to the acquisition were insignificant. The results of operations of Denali Backcountry Lodge and Denali Cabins have been included in Viad’s consolidated financial statements from the date of acquisition.

On June 29, 2011, Viad acquired St. Mary Lodge & Resort (“St. Mary”) for \$15.3 million in cash. St. Mary is a 115-guest room hotel located outside of Glacier National Park’s east entrance and is operated by Glacier Park within the Travel & Recreation Group. The amounts assigned to the assets and liabilities of St. Mary as of the date of acquisition include: \$12.5 million of property and equipment, \$3.1 million of goodwill, \$60,000 related to a non-amortized business license and net other liabilities of \$390,000. The primary factor that contributed to a purchase price resulting in the recognition of goodwill relates to future growth opportunities. The acquired goodwill is included in the Travel & Recreation Group and is deductible for tax purposes over a period of 15 years. The transaction costs related to the acquisition were insignificant. The results of operations of St. Mary have been included in Viad’s consolidated financial statements from the date of acquisition.

On January 5, 2011, Viad acquired Grouse Mountain Lodge for \$10.5 million in cash. Grouse Mountain Lodge is a 145-guest room hotel located in Whitefish, Montana and is operated by Glacier Park within the Travel & Recreation Group. The amounts assigned to the assets and liabilities of Grouse Mountain Lodge as of the date of acquisition include: \$8.8 million of property and equipment, \$1.3 million of goodwill, \$400,000 related to a non-amortized business license and net other assets of \$24,000. The primary factor that contributed to a purchase price resulting in the recognition of goodwill relates to future growth opportunities. The acquired goodwill is included in the Travel & Recreation Group and is deductible for tax purposes over a period of 15 years. The transaction costs related to the acquisition were insignificant. The results of operations of Grouse Mountain Lodge have been included in Viad's consolidated financial statements from the date of acquisition.

The following table summarizes the unaudited pro forma results of operations attributable to Viad for the three months ended March 31, assuming that all of the acquisitions above had each been completed at the beginning of each period:

	<u>2012</u>	<u>2011</u>

Note 9. Debt

On May 18, 2011, Viad entered into an amended and restated revolving credit agreement (the "Credit Facility"). The Credit Facility provides for a \$130 million revolving line of credit, which may be increased up to an additional \$50 million under certain circumstances. The term of the Credit Facility is five years (expiring on May 18, 2016) and borrowings are to be used for general corporate purposes (including permitted acquisitions) and to support up to \$50 million of letters of credit. The lenders have a first perfected security interest in all of the personal property of Viad and GES, including 65 percent of the capital stock of top-tier foreign subsidiaries. In April 2011, Viad paid off its outstanding borrowing under the previous credit facility of \$4.2 million and as of March 31, 2012, Viad's total debt of \$2.9 million consisted entirely of capital lease obligations. As of March 31, 2012, Viad had \$125.4 million of capacity remaining under the Credit Facility reflecting outstanding letters of credit of \$4.6 million.

Borrowings under the Credit Facility (of which GES is a guarantor) are indexed to the prime rate or the London Interbank Offered Rate, plus appropriate spreads tied to Viad's leverage ratio. Commitment fees and letters of credit fees are also tied to Viad's leverage ratio. The fees on the unused portion of the Credit Facility are currently 0.35 percent annually.

Financial covenants include a fixed-charge coverage ratio of not less than 2.25 to 1 (2.50 to 1 after the fiscal quarter ending September 30, 2012) and a leverage ratio of not greater than 2.50 to 1. Additionally, Viad must maintain a consolidated minimum cash and cash equivalents balance of \$50 million. As of March 31, 2012, the fixed-charge coverage and leverage ratios were 2.44 to 1 and 0.39 to 1, respectively. The terms of the Credit Facility allow Viad to pay up to \$10 million in dividends in the aggregate in any calendar year and also allow the Company to purchase up to \$10 million in any calendar year of the Company's common stock. Significant other covenants include limitations on: investments, additional indebtedness, sales/leases of assets, acquisitions, consolidations or mergers and liens on property. As of March 31, 2012, Viad was in compliance with all covenants.

The estimated fair value of total debt was \$2.8 million and \$3.0 million as of March 31, 2012 and December 31, 2011, respectively. The fair value of debt was estimated by discounting the future cash flows using rates currently available for debt of similar terms and maturity.

Viad has announced its intent to repurchase shares of the Company's common stock from time to time at prevailing market prices. No shares were repurchased during the three months ended March 31, 2012 or 2011. As of March 31, 2012, 53,621 shares remain available for repurchase under the announced authorization. Additionally, during the three months ended March 31, 2012 and 2011, the Company repurchased 50,894 shares for \$1.0 million and 28,152 shares for \$668,000, respectively, related to tax withholding requirements on share-based awards.

Note 11. Fair Value Measurements

The fair value of an asset or liability is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value guidance requires an entity to maximize the use of quoted prices and other observable inputs and minimize the use of unobservable inputs when measuring fair value, and also establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – Unobservable inputs to the valuation methodology that are significant to the measurement of fair value.

Viad measures its money market mutual funds and certain other mutual fund investments at fair value on a recurring basis using Level 1 inputs. The fair value information related to these assets is summarized in the following table:

<u>Description</u>	March 31, 2012	<u>Fair Value Measurements at March 31, 2012 Using</u>		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobserved Inputs (Level 3)
		(in thousands)		
Money market funds	\$ 6,668	\$ 6,668	\$ —	\$ —
Other mutual funds	1,445	1,445	—	—
Total	<u>\$ 8,113</u>	<u>\$ 8,113</u>	<u>\$ —</u>	<u>\$ —</u>

As of March 31, 2012 and December 31, 2011, Viad had investments in money market mutual funds of \$6.7 million and \$20.9 million, respectively, which are included in the consolidated balance sheets under the caption "Cash and cash equivalents." These investments were classified as available-for-sale and were recorded at fair value. There have been no realized or unrealized gains or losses related to these investments and the Company has not experienced any redemption restrictions with respect to any of the money market mutual funds.

As of both March 31, 2012 and December 31, 2011, Viad had investments in other mutual funds of \$1.4 million, which are classified in the consolidated balance sheets under the caption "Other investments and assets." These investments were classified as available-for-sale and were recorded at fair value. As of March 31, 2012 and December 31, 2011, there were unrealized gains on the investments of \$515,000 (\$315,000 after-tax) and \$366,000 (\$222,000 after-tax), respectively, which were included in the consolidated balance sheets under the caption "Accumulated other comprehensive income (loss)."

The carrying values of cash and cash equivalents, receivables and accounts payable approximate fair value due to the short-term maturities of these instruments. The estimated fair value of debt obligations is disclosed in Note 9.

Note 12. Income Per Share

The following is a reconciliation of the numerators and denominators of basic and diluted per share computations for net income attributable to Viad for the three months ended March 31:

Net income attributable to Viad common stockholders ⁽¹⁾	<u>\$ 0.05</u>	<u>\$ 0.48</u>

⁽¹⁾ Diluted income per share cannot exceed basic income per share.

Options to purchase 267,000 and 369,000 shares of common stock were outstanding during the three months ended March 31, 2012 and 2011, respectively, but were not included in the computation of dilutive shares outstanding because the effect would be anti-dilutive. Additionally, 272,000 and 302,000 share-based compensation awards were considered dilutive and included in the computation of diluted income per share during the three months ended March 31, 2012 and 2011, respectively.

Note 13. Income Taxes

The following represents a reconciliation of income tax expense and the amount that would be computed using the statutory federal income tax rates for the three months ended March 31:

	2012		2011	
	(in thousands)			
Computed income tax expense at statutory federal income tax rate of 35%	\$470	35.0%	\$5,432	35.0%
State income taxes, net of federal provision	94	7.0%	640	4.1%
Change in valuation allowance	55	4.2%	—	0.0%
Other, net	(92)	(6.9%)	(172)	(1.1%)
Income tax expense	<u>\$527</u>	<u>39.3%</u>	<u>\$5,900</u>	<u>38.0%</u>

Viad is required to estimate and record provisions for income taxes in each of the jurisdictions in which the Company operates. Accordingly, the Company must estimate its actual current income tax liability and assess temporary differences arising from the treatment of items for tax purposes as compared to the treatment for accounting purposes. These differences result in deferred tax assets and liabilities which are included in Viad's consolidated balance sheets. The Company must assess the likelihood that deferred tax assets will be recovered from future taxable income and to the extent that recovery is not likely, a valuation allowance must be established. The Company uses significant judgment in forming a conclusion regarding the recoverability of its deferred tax assets and evaluates the available positive and negative evidence to determine whether it is more-likely-than-not that its deferred tax assets will be realized in the future. As of March 31, 2012 and December 31, 2011, Viad had gross deferred tax assets of \$67.6 million and \$70.7 million, respectively. These deferred tax assets reflect the expected future tax benefits to be realized upon reversal of deductible temporary differences and the utilization of net operating loss and tax credit carryforwards.

The Company considered all available positive and negative evidence regarding the future recoverability of its deferred tax assets, including the Company's recent operating history and projected taxable income, taxpaying history and future reversals of deferred tax liabilities. Furthermore, Viad also considered the fact that goodwill impairment losses are not tax deductible and thus did not contribute to tax losses. As of March 31, 2012 and December 31, 2011, Viad had a valuation allowance of \$411,000 and \$356,000, respectively, related to certain state and foreign deferred tax assets. With respect to all other deferred tax assets, management believes that recovery from future taxable income is more-likely-than-not.

As noted above, Viad uses considerable judgment in forming a conclusion regarding the recoverability of its deferred tax assets. As a result, there are inherent uncertainties regarding the ultimate realization of these assets, which is primarily dependent upon Viad's ability to generate sufficient taxable income in future periods. In future periods, it is reasonably possible that the relative weight of positive and negative evidence regarding the recoverability of Viad's deferred tax assets may change, which could result in a material increase in the Company's valuation allowance. If such an increase in the valuation allowance were to occur, it would result in increased income tax expense in the period the assessment was made.

Viad had accrued gross liabilities associated with uncertain tax positions for discontinued operations of \$636,000 as of both March 31, 2012 and December 31, 2011. In addition, as of March 31, 2012 and December 31, 2011, Viad had accrued interest and penalties related to uncertain tax positions for discontinued operations of \$394,000 and \$386,000, respectively. Future tax resolutions or settlements that may occur related to these uncertain tax positions would be recorded through discontinued operations (net of federal tax effects, if applicable). Viad does not expect any of the unrecognized tax benefits to be recognized during the next 12 months. As of both March 31, 2012 and December 31, 2011, liabilities associated with uncertain tax positions (including interest and penalties) of \$1.0 million were classified as non-current liabilities.

Note 14. Pension and Postretirement Benefits

The net periodic benefit cost of Viad's pension and postretirement benefit plans for the three months ended March 31 included the following components:

	Domestic Plans				Foreign	
	Pension Plans		Postretirement Benefit Plans		Pension Plans	
	2012	2011	2012	2011	2012	2011
			(in thousands)

Net periodic benefit cost	<u>\$ 303</u>	<u>\$ 366</u>	<u>\$ 88</u>	<u>\$ 77</u>	<u>\$ 156</u>	<u>\$ 110</u>

Viad expects to contribute \$1.6 million to its funded pension plans, \$956,000 to its unfunded pension plans and \$450,000 to its postretirement benefit plans in 2012. As of March 31, 2012, Viad had contributed \$333,000 to its funded pension plans, \$237,000 to its unfunded pension plans and \$43,000 to its postretirement benefit plans.

Note 15. Restructuring Charges

During the three months ended March 31, 2012, Viad recorded aggregate restructuring charges of \$2.2 million primarily related to facility consolidations and the elimination of certain positions in the Marketing & Events Group. The amounts included in the restructuring liability as of March 31, 2012 related to future lease obligations will be paid over the remaining lease terms, and severance and employee benefits are expected to be paid by the end of 2012. The table below represents a reconciliation of Viad's restructuring liability by major restructuring activity:

	Marketing & Events Group Consolidation		Other Restructurings		Total

Note 16. Litigation, Claims, Contingencies and Other

Viad and certain of its subsidiaries are plaintiffs or defendants to various actions, proceedings and pending claims, some of which involve, or may involve, compensatory, punitive or other damages. Litigation is subject to many uncertainties and it is possible that some of the legal actions, proceedings or claims could be decided against Viad. Although the amount of liability as of March 31, 2012, with respect to certain of these matters is not ascertainable, Viad believes that any resulting liability, after taking into consideration amounts already provided for, including insurance coverage, will not have a material impact on the Company's business, financial position or results of operations.

Viad is subject to various U.S. federal, state and foreign laws and regulations governing the prevention of pollution and the protection of the environment in the jurisdictions in which Viad has or had operations. If the Company has failed to comply with these environmental laws and regulations, civil and criminal penalties could be imposed and Viad could become subject to regulatory enforcement actions in the form of injunctions and cease and desist orders. As is the case with many companies, Viad also faces exposure to actual or potential claims and lawsuits involving environmental matters relating to its past operations. Although it is a party to certain environmental disputes, Viad believes that any resulting liabilities, after taking into consideration amounts already provided for, including insurance coverage, will not have a material effect on the Company's financial position or results of operations. As of March 31, 2012, there was a remaining environmental remediation liability of \$5.6 million related to previously sold operations of which \$583,000 was included in the consolidated balance sheets under the caption "Other current liabilities" and \$5.0 million under the caption "Other deferred items and liabilities."

As of March 31, 2012, Viad had certain obligations under guarantees to third parties on behalf of its subsidiaries. These guarantees are not subject to liability recognition in the consolidated financial statements and relate to leased facilities entered into by Viad's subsidiary operations. The Company would generally be required to make payments to the respective third parties under these guarantees in the event that the related subsidiary could not meet its own payment obligations. The maximum potential amount of future payments that Viad would be required to make under all guarantees existing as of March 31, 2012 would be \$26.8 million. These guarantees relate to leased facilities expiring through October 2017. There are no recourse provisions that would enable Viad to recover from third parties any payments made under the guarantees. Furthermore, there are no collateral or similar arrangements whereby Viad could recover payments.

Viad's businesses contribute to various multi-employer pension plans based on obligations arising under collective bargaining agreements covering its union-represented employees. Based upon the information available to Viad from plan administrators, management believes that several of these multi-employer plans are underfunded. The Pension Protection Act of 2006 requires pension plans underfunded at certain levels to reduce, over defined time periods, the underfunded status. In addition, under current laws, the termination of a plan, or a voluntary withdrawal from a plan by Viad, or a shrinking contribution base to a plan as a result of the insolvency or withdrawal of other contributing employers to such plan, would require Viad to make payments to such plan for its proportionate share of the plan's unfunded vested liabilities. As of March 31, 2012, the amount of additional funding, if any, that Viad would be required to make related to multi-employer pension plans is not ascertainable.

Glacier Park operates the concession portion of its business under a concession contract with the U.S. National Park Service (the "Park Service") for Glacier National Park. Glacier Park's original 25-year concession contract with the Park Service that was to expire on December 31, 2005, has been extended for seven one-year periods and now expires on December 31, 2012. The Park Service, in its sole discretion, may continue extending Glacier Park's concession contract in one-year increments beyond 2012. When this contract ultimately expires, Glacier Park will have the opportunity to bid on a new concession contract. If Glacier Park does secure a new contract, possible terms would be for 10, 15 or 20 years. Glacier Park generated approximately 45 percent of its 2011 revenue through its concession contract for services provided within Glacier National Park. If a new concessionaire is selected by the Park Service, Glacier Park's remaining business would consist of its operations at Waterton Lakes National Park, Alberta, Canada; East Glacier, Montana; Whitefish, Montana and St. Mary, Montana. In such a circumstance, Glacier Park would be entitled to an amount equal to its "possessory interest," which generally means the value of the structures acquired or constructed, fixtures installed and improvements made to the concession property at Glacier National Park during the term of the concession contract. Glacier Park owns Glacier Park Lodge in East Glacier, Montana; Grouse Mountain Lodge in Whitefish, Montana and St. Mary Lodge & Resort in St. Mary, Montana. Glacier Park also owns the Prince of Wales Hotel in Waterton Lakes National Park, which is operated under a 42-year ground lease with the Canadian government running through January 31, 2052. Glacier Park generated 19 percent of Travel & Recreation Group's full year 2011 segment operating income.

Note 17. Segment Information

Viad measures profit and performance of its operations on the basis of segment operating income which excludes restructuring charges and recoveries and impairment losses and recoveries. Intersegment sales are eliminated in consolidation and intersegment transfers are not significant. Corporate activities include expenses not allocated to operations. Depreciation and amortization and share-based compensation expense are the only significant non-cash items for the reportable segments. Disclosures regarding Viad's reportable segments with reconciliations to consolidated totals are as follows:

Note 18. Impact of Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (“FASB”) issued new guidance related to fair value measurement and disclosure requirements, which is codified in Accounting Standards Codification (“ASC”) Topic 820. The new guidance is intended to clarify the application of existing fair value measurement and disclosure requirements and also changes certain principles and disclosures. Viad adopted the new guidance during the first quarter of 2012, which did not have a material impact on the Company’s financial condition or results of operations.

In June 2011, the FASB issued new guidance related to the presentation of comprehensive income, which is codified in ASC Topic 220. The new guidance requires entities to present the total of comprehensive income, the components of net income and the components of other comprehensive income in one of two formats: 1) in a single continuous statement, or 2) in two separate but consecutive statements. The guidance also requires the presentation of reclassification adjustments from other comprehensive income to net income on the face of the financial statements. The guidance is effective for fiscal years and interim periods beginning after December 15, 2011, except for the guidance related to reclassification adjustments, which has been indefinitely deferred. Viad adopted the applicable portions of the guidance during the first quarter of 2012, which did not have an impact on the Company’s financial condition or results of operations.

In September 2011, the FASB issued new guidance related to goodwill impairment testing, which is codified in ASC Topic 350. The new guidance simplifies how entities test goodwill for impairment and permits an entity to first assess qualitative factors to determine whether it is more-likely-than-not that the fair value of a reporting unit is less than its carrying amount. If, after performing the assessment, an entity determines that it is not more-likely-than-not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. The guidance is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The adoption of this new guidance is not expected to have a material impact on Viad’s financial condition or results of operations. The Company performs its annual goodwill impairment test as of October 31 of each year.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with Viad Corp's condensed consolidated financial statements and related notes. This discussion contains forward-looking statements that involve risks and uncertainties. Viad Corp's actual results could differ materially from those anticipated due to various factors discussed under "Forward-Looking Statements" and elsewhere in this quarterly report.

Overview:

Viad Corp ("Viad" or the "Company") operates in three reportable business segments: Marketing & Events U.S., Marketing & Events International and Travel & Recreation Group.

The Marketing & Events Group, comprised of Global Experience Specialists, Inc. and affiliates ("GES"), specializes in all aspects of the design, planning and production of face-to-face events, immersive environments and brand-based experiences for clients, including show organizers, corporate brand marketers and retail shopping centers. In addition, the Marketing & Events Group provides a variety of immersive, entertaining attractions and brand-based experiences, sponsored events, mobile marketing and other branded entertainment and face-to-face marketing solutions for clients and venues, including shopping malls, movie studios, museums, leading consumer brands and casinos.

The Travel & Recreation Group segment consists of Brewster Inc. ("Brewster"), Glacier Park, Inc. ("Glacier Park") and Alaskan Park Properties, Inc. ("Alaskan Park Properties"). Brewster provides tourism services in the Canadian Rockies in Alberta and in other parts of Western Canada. Brewster's operations include the Banff Gondola, Columbia Icefield Glacier Adventure, motorcoach services, charter and sightseeing services, tour boat operations, inbound package tour operations and hotel operations. Glacier Park operates five lodges, three motor inns and one four-season resort hotel and provides food and beverage operations, retail operations and tour and transportation services in and around Glacier National Park in Montana and Waterton Lakes National Park in Alberta, Canada. Glacier Park is an 80 percent owned subsidiary of Viad. Alaskan Park Properties operates Denali Backcountry Lodge and Denali Cabins. Denali Backcountry Lodge is a 42-guest room lodge located within Denali National Park and Preserve in Alaska and Denali Cabins are 46 guest cabins located near the entrance to Denali National Park and Preserve. In addition to lodging, Alaskan Park Properties also provides food and beverage operations and package tour and transportation services in and around Denali National Park and Preserve.

The following are financial highlights of the first quarter of 2012 presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"):

Viad Corp (Consolidated)

- Total revenues of \$268.8 million compared to \$290.1 million in the first quarter of 2011
- Net income attributable to Viad of \$1.0 million compared to \$9.8 million in the first quarter of 2011
- Diluted income per share of \$0.05 compared to \$0.48 in the first quarter of 2011
- Purchase of the Banff International Hotel on March 7, 2012 for \$23.6 million
- Cash and cash equivalents totaled \$71.6 million as of March 31, 2012
- Debt was \$2.9 million as of March 31, 2012

Marketing & Events U.S.

- Revenues of \$206.9 million, a decrease of 10.7 percent from the first quarter of 2011
- Segment operating income of \$7.2 million, as compared to \$17.9 million in the first quarter of 2011

Marketing & Events International

- Revenues of \$57.8 million, an increase of 7.1 percent from the first quarter of 2011
- Segment operating income of \$3.9 million, an increase of 1.9 percent from the first quarter of 2011

Travel & Recreation Group

- Revenues of \$6.7 million, an increase of 16.8 percent from the first quarter of 2011
- Segment operating loss of \$5.6 million, as compared to a loss of \$4.5 million in the first quarter of 2011

Non-GAAP Measure:

The following discussion includes a presentation of Adjusted EBITDA, which is utilized by management to measure the profit and performance of Viad's operations and to facilitate period-to-period comparisons. "Adjusted EBITDA" is defined by Viad as net income attributable to Viad before interest expense, income taxes, depreciation and amortization, impairment losses and recoveries, changes in accounting principles and the effects of discontinued operations. The presentation of Adjusted EBITDA is supplemental to results presented under GAAP and may not be comparable to similarly titled measures used by other companies. Adjusted EBITDA is considered a useful operating metric as potential variations arising from taxes, depreciation, debt service costs, impairment losses and recoveries, changes in accounting principles and the effects of discontinued operations are eliminated, thus resulting in an additional measure considered to be indicative of Viad's ongoing operations. This non-GAAP measure should be considered in addition to, but not as a substitute for, other measures of financial performance reported in accordance with GAAP.

Management believes that the presentation of Adjusted EBITDA provides useful information to investors regarding Viad's results of operations for trending, analyzing and benchmarking the performance and value of Viad's business. Management uses Adjusted EBITDA primarily as a performance measure and believes that the GAAP financial measure most directly comparable to this non-GAAP measure is net income attributable to Viad. Although Adjusted EBITDA is used as a financial measure to assess the performance of the business, the use of Adjusted EBITDA is limited because it does not consider material costs, expenses and other items necessary to operate the business. These items include debt service costs, non-cash depreciation and amortization expense associated with long-lived assets, expenses related to U.S. federal, state, local and foreign income taxes, impairment losses or recoveries and the effects of accounting changes and discontinued operations. Because Adjusted EBITDA does not consider the above items, a user of Viad's financial information should consider net income attributable to Viad as an important measure of financial performance because it provides a more complete measure of the Company's performance.

A reconciliation of Adjusted EBITDA to net income attributable to Viad is as follows:

	<u>Three months ended March 31,</u>	
	<u>2012</u>	<u>2011</u>
	(in thousands)	
Adjusted EBITDA	\$ 8,871	\$ 23,070
Interest expense	(358)	(412)
Income tax expense	(527)	(5,900)
Depreciation and amortization	(6,959)	(6,971)
Net income attributable to Viad	<u>\$ 1,027</u>	<u>\$ 9,787</u>

The decrease in Adjusted EBITDA of \$14.2 million for the first quarter of 2012 compared to the first quarter of 2011 was primarily driven by lower segment operating results at the Marketing & Events U.S. segment, as well as lower segment operating results at the Travel & Recreation Group segment and higher restructuring charges in 2012. See "Results of Operations" below for a discussion of fluctuations.

Results of Operations:

Comparison of First Quarter of 2012 to the First Quarter of 2011

Revenues for the first quarter of 2012 decreased 7.4 percent to \$268.8 million compared to \$290.1 million in the first quarter of 2011. Viad's income before income taxes was \$1.3 million for the first quarter of 2012 compared to \$15.5 million in the first quarter of 2011. Net income attributable to Viad for the first quarter of 2012 was \$1.0 million, or \$0.05 per diluted share, compared to \$9.8 million, or \$0.48 per diluted share, in the first quarter of 2011. The lower results were primarily due to reduced revenues from the Marketing & Events Group resulting from negative show rotation.

During the first quarter of 2012, foreign exchange rate variances resulted in decreases of \$1.1 million in revenues and \$53,000 in segment operating income as compared to the first quarter of 2011. Viad conducts its foreign operations primarily in Canada and the United Kingdom and to a lesser extent in certain other countries. The following table summarizes the effect of foreign exchange rate variances on revenues and segment operating results from Viad's significant international operations for the first quarter:

	<u>Revenues</u>			<u>Segment Operating Results</u>		
	<u>Weighted-Average Exchange Rates</u>		<u>Effect of Rate Variance</u>	<u>Weighted-Average Exchange Rates</u>		<u>Effect of Rate Variance</u>
	<u>2012</u>	<u>2011</u>	<u>(thousands)</u>	<u>2012</u>	<u>2011</u>	<u>(thousands)</u>
Marketing & Events Group:						
Canada	\$ 1.00	\$ 1.02	\$ (369)	\$ 1.01	\$ 1.15	\$ (70)
United Kingdom	\$ 1.59	\$ 1.61	\$ (474)	\$ 1.60	\$ 1.61	\$ (35)
Travel & Recreation Group:						
Canada	\$ 1.00	\$ 1.02	\$ (106)	\$ 1.00	\$ 1.01	\$ 43

Accordingly, Viad's first quarter results were impacted by the strengthening of the U.S. dollar relative to the Canadian dollar and British pound. Future changes in the exchange rates may impact overall expected profitability and historical period-to-period comparisons when operating results are translated into U.S. dollars.

Marketing & Events Group . Revenues for the Marketing & Events U.S. segment were \$206.9 million for the first quarter of 2012, down 10.7 percent compared to \$231.7 million in the first quarter of 2011. The decrease was primarily due to negative show rotation revenue of approximately \$45 million, partially offset by base same-show revenue increases of 9.3 percent and the Company's success capturing additional exhibitor spending. Management defines base same-show revenue as revenue from exhibitions and events that occur in the same quarter and same city every year. Base same-shows represented 60.2 percent of 2012 first quarter Marketing & Events U.S. revenues. Segment operating income was \$7.2 million in the first quarter of 2012, compared to \$17.9 million in the first quarter of 2011. The lower operating results were primarily due to decreases in revenues. Operating results for the quarter also include higher accruals for performance-based incentives as compared to the 2011 first quarter, reflecting management's outlook for higher full year profits, as well as approximately \$775,000 in facility relocation expenses.

Revenues for the Marketing & Events International segment were \$57.8 million for the first quarter of 2012 compared to \$54.0 million in the first quarter of 2011. Segment operating income was \$3.9 million in the first quarter of 2012, compared to \$3.8 million in the first quarter of 2011. As discussed above, period-to-period comparisons for this segment were affected by exchange rate variances, which decreased revenues by \$1.0 million and segment operating income by \$96,000 as compared to the first quarter of 2011. Excluding exchange rate variances, 2012 first quarter revenues increased by \$4.8 million, or 8.9 percent, and segment operating income increased by \$168,000 primarily due to greater demand and new show wins in Canada, partially offset by negative show rotation revenue of approximately \$2 million.

Although the Marketing & Events Group has a diversified revenue base and long-term contracts for future shows, its revenues are affected by general economic and industry-specific conditions. The prospects for individual shows tend to be driven by the success of the industry related to those shows. In general, the exhibition and event industry is experiencing modest improvement. Following quarterly declines from the third quarter of 2008 through the first quarter of 2010, Marketing & Events U.S. base same-show revenues were essentially flat in the 2010 second quarter and have increased in each of the following seven quarters.

For the 2012 full year, management expects U.S. same-show revenues to increase at a mid-single digit rate and that show rotation will not have a meaningful impact on revenues as revenue from non-annual shows during 2012 is expected to be comparable to revenues from non-annual shows that took place during 2011. Additionally, management anticipates that foreign currency exchange rate variances versus 2011 will have an unfavorable impact on the Marketing & Events Group's 2012 full year revenues and segment operating income of approximately \$7 million and \$370,000, respectively. Management remains focused on improving the profitability of the Marketing & Events U.S. segment through continued integration and consolidation of operations to increase capacity utilization and reduce costs. Additional restructuring charges may be incurred as further cost structure improvements are made.

The Marketing & Events Group is subject to multiple collective bargaining agreements that affect labor costs, approximately one-third of which expire each year. Although labor relations between the Company and labor are currently stable, disruptions during future contract negotiations could occur, with the possibility of an adverse impact on the operating results of the Marketing & Events Group.

Travel & Recreation Group . Revenues for the Travel & Recreation Group were \$6.7 million for the first quarter of 2012, up 16.8 percent compared to first quarter 2011 revenues of \$5.8 million. Segment operating loss was \$5.6 million in the first quarter of 2012 compared to a loss of \$4.5 million in the first quarter of 2011. As discussed above, period-to-period comparisons for this segment were affected by exchange rate variances, which decreased revenues by \$106,000 and segment operating loss by \$43,000 as compared to the first quarter of 2011. Excluding exchange rate variances, 2012 first quarter revenues increased by \$1.1 million, or 18.6 percent, and segment operating loss increased by \$1.2 million. The revenue growth was primarily due to organic growth at Brewster and the acquisition of the Banff International Hotel on March 7, 2012. The higher segment operating loss versus 2011 primarily reflects seasonal operating losses at Alaskan Park Properties (acquired on September 16, 2011) and St. Mary Lodge & Resort (acquired on June 29, 2011).

During 2011, approximately 70 percent of revenue and 86 percent of segment operating income generated in the Travel & Recreation Group were derived through its Canadian operations. These operations are largely affected by foreign customer visitation and, accordingly, increases in the value of the Canadian dollar compared to other currencies could adversely affect customer volumes, revenue and segment operating income for the Travel & Recreation Group. Additionally, the Travel & Recreation Group is affected by consumer discretionary spending on tourism activities.

Management anticipates that foreign currency exchange rate variances versus 2011 will have an unfavorable impact on Travel & Recreation Group 2012 full year revenues and segment operating income of approximately \$2 million and \$600,000, respectively. Management also anticipates the four acquisitions completed by Viad since 2011 will generate approximately \$24 million in revenue in 2012 with an average Adjusted EBITDA margin (defined as Adjusted EBITDA divided by revenues) of more than 30 percent. By leveraging economies of scale and scope and repositioning the acquired assets for higher-returns, management expects to grow this revenue base at a high single-digit compound annual growth rate from 2012 to 2015, with expanding Adjusted EBITDA margins over that time period.

Glacier Park operates the concession portion of its business under a concession contract with the U.S. National Park Service (the "Park Service") for Glacier National Park. Glacier Park's original 25-year concession contract with the Park Service that was to expire on December 31, 2005, has been extended for seven one-year periods and now expires on December 31, 2012. The Park Service, in its sole discretion, may continue extending Glacier Park's concession contract in one-year increments beyond 2012. When this contract ultimately expires, Glacier Park will have the opportunity to bid on a new concession contract. If Glacier Park does secure a new contract, possible terms would be for 10, 15 or 20 years. Glacier Park generated approximately 45 percent of its 2011 revenue through its concession contract for services provided within Glacier National Park. If a new concessionaire is selected by the Park Service, Glacier Park's remaining business would consist of its operations at Waterton Lakes National Park, Alberta, Canada; East Glacier, Montana; Whitefish, Montana and St. Mary, Montana. In such a circumstance, Glacier Park would be entitled to an amount equal to its "possessory interest," which generally means the value of the structures acquired or constructed, fixtures installed and improvements made to the concession property at Glacier National Park during the term of the concession contract. Glacier Park owns Glacier Park Lodge in East Glacier, Montana; Grouse Mountain Lodge in Whitefish, Montana and St. Mary Lodge & Resort in St. Mary, Montana. Glacier Park also owns the Prince of Wales Hotel in Waterton Lakes National Park, which is operated under a 42-year ground lease with the Canadian government running through January 31, 2052. Glacier Park generated 19 percent of Travel & Recreation Group's full year 2011 segment operating income.

Corporate Activities. Corporate activities totaled \$1.8 million in the first quarter of 2012, compared to \$1.3 million in the first quarter of 2011. The increase was primarily due to costs related to the amendment and restatement of the Company's shareholder rights plan, as well as higher legal costs related to employee benefits associated with previously divested operations.

Restructuring Charges. Viad recorded restructuring charges of \$2.2 million in the first quarter of 2012 compared to \$456,000 in the first quarter of 2011. The charges primarily related to facility consolidations and the elimination of certain positions in the Marketing & Events Group. Viad also reversed \$187,000 of restructuring reserves in the first quarter of 2011.

Liquidity and Capital Resources:

Cash and cash equivalents were \$71.6 million as of March 31, 2012 as compared to \$100.4 million as of December 31, 2011, with the decrease primarily due to the acquisition of the Banff International Hotel and capital expenditures. During the three months ended March 31, 2012, the Company generated net cash flows from operating activities of \$2.8 million primarily driven by operating results, partially offset by changes in working capital. Management believes that Viad's existing sources of liquidity will be sufficient to fund operations and capital commitments for at least the next 12 months.

As of March 31, 2012, the Company had \$39.2 million of its cash and cash equivalents held outside of the United States. Of the total amount, \$31.8 million was held in Canada, \$5.4 million in the United Kingdom and \$2.0 million in Germany. There were certain historical earnings related to the Company's Canadian operations which, if repatriated to the United States, would result in incremental income tax expense. The incremental tax liability as of March 31, 2012 that would result assuming all foreign cash balances were repatriated to the United States would be approximately \$1.2 million.

Viad's total debt as of March 31, 2012 was \$2.9 million compared to \$3.2 million as of December 31, 2011. The debt-to-capital ratio was 0.007 to 1 as of March 31, 2012 compared to 0.008 to 1 as of December 31, 2011. Capital is defined as total debt and capital lease obligations plus total stockholders' equity.

On May 18, 2011, Viad entered into an amended and restated secured revolving credit agreement (the "Credit Facility"). The Credit Facility provides for a \$130 million revolving line of credit and may be increased up to an additional \$50 million under certain circumstances. The Credit Facility expires on May 18, 2016 and borrowings are to be used for general corporate purposes (including permitted acquisitions) and to support up to \$50 million of letters of credit. The lenders have a first perfected security interest in all of the personal property of Viad and GES, including 65 percent of the capital stock of top-tier foreign subsidiaries. In April 2011, Viad paid off its outstanding borrowing under the previous credit facility of \$4.2 million. As of March 31, 2012, Viad had \$125.4 million of capacity remaining under the Credit Facility reflecting issued letters of credit of \$4.6 million.

Borrowings under the Credit Facility (of which GES is a guarantor) are indexed to the prime rate or the London Interbank Offered Rate, plus appropriate spreads tied to Viad's leverage ratio. Commitment fees and letters of credit fees are also tied to Viad's leverage ratio. The fees on the unused portion of the Credit Facility are currently 0.35 percent annually.

Viad's financial covenants include a fixed-charge coverage ratio of not less than 2.25 to 1 (2.50 to 1 after the fiscal quarter ending September 30, 2012) and a leverage ratio (defined as total debt to Adjusted EBITDA) of not greater than 2.50 to 1. Additionally, Viad must maintain a consolidated minimum cash and cash equivalents balance of \$50 million. As of March 31, 2012, the fixed-charge coverage and leverage ratios were 2.44 to 1 and 0.39 to 1, respectively. The terms of the Credit Facility allow Viad to pay up to \$10 million in dividends in the aggregate in any calendar year and also allow the Company to purchase up to \$10 million in any calendar year of the Company's common stock. Significant other covenants include limitations on: investments, additional indebtedness, sales/leases of assets, acquisitions, consolidations or mergers and liens on property. As of March 31, 2012, Viad was in compliance with all covenants.

As of March 31, 2012, Viad had certain obligations under guarantees to third parties on behalf of its subsidiaries. These guarantees are not subject to liability recognition in the consolidated financial statements and relate to leased facilities entered into by Viad's subsidiary operations. The Company would generally be required to make payments to the respective third parties under these guarantees in the event that the related subsidiary could not meet its own payment obligations. The maximum potential amount of future payments that Viad would be required to make under all guarantees existing as of March 31, 2012 would be \$26.8 million. These guarantees relate to leased facilities expiring through October 2017. There are no recourse provisions that would enable Viad to recover from third parties any payments made under the guarantees. Furthermore, there are no collateral or similar arrangements whereby Viad could recover payments.

Capital expenditures for the first three months of 2012 totaled \$7.5 million and primarily related to leasehold improvements and the purchase of rental inventory at the Marketing & Events U.S. segment as well as building improvements at the Travel & Recreation Group. For the first three months of 2011, capital expenditures totaled \$7.7 million and primarily related to the purchase of rental inventory, equipment and computer hardware primarily at the Marketing & Events U.S. segment.

On March 7, 2012, Viad completed the acquisition of the Banff International Hotel and related assets for \$23.6 million in cash. On January 5, 2011, Viad completed the acquisition of Grouse Mountain Lodge for \$10.5 million in cash. On June 29, 2011, Viad completed the acquisition of St. Mary Lodge & Resort for \$15.3 million in cash. On September 16, 2011, Viad completed the acquisition of Denali Backcountry Lodge and Denali Cabins for \$15.3 million in cash.

In 2012, management anticipates incurring an estimated \$15 million on the development of the Glacier Discovery Walk, a 1,312-foot guided interpretive walkway with a 98-foot glass-floored observation area overlooking the Sunwapta Valley at the Tangle Ridge Viewpoint in Jasper National Park, Alberta, Canada.

Viad has announced its intent to repurchase shares of the Company's common stock from time to time at prevailing market prices. No shares were repurchased during the first quarters of 2012 or 2011. As of March 31, 2012, 53,621 shares remain available for repurchase under the announced authorization. Additionally, during the first quarters of 2012 and 2011, the Company repurchased 50,894 shares for \$1.0 million and 28,152 shares for \$668,000, respectively, related to tax withholding requirements on share-based awards.

Viad and certain of its subsidiaries are plaintiffs or defendants to various actions, proceedings and pending claims, some of which involve, or may involve, compensatory, punitive or other damages. Litigation is subject to many uncertainties and it is possible that some of the legal actions, proceedings or claims could be decided against Viad. Although the amount of liability as of March 31, 2012 with respect to certain of these matters is not ascertainable, Viad believes that any resulting liability, after taking into consideration amounts already provided for, including insurance coverage, will not have a material impact on Viad's business, financial position or results of operations.

Viad is subject to various U.S. federal, state and foreign laws and regulations governing the prevention of pollution and the protection of the environment in the jurisdictions in which Viad has or had operations. If the Company has failed to comply with these environmental laws and regulations, civil and criminal penalties could be imposed and Viad could become subject to regulatory enforcement actions in the form of injunctions and cease and desist orders. As is the case with many companies, Viad also faces exposure to actual or potential claims and lawsuits involving environmental matters relating to its past operations. Although it is a party to certain environmental disputes, Viad believes that any resulting liabilities, after taking into consideration amounts already provided for, including insurance coverage, will not have a material effect on the Company's financial position, results of operations or liquidity. As of March 31, 2012, there was a remaining environmental remediation liability of \$5.6 million related to previously sold operations of which \$583,000 was included in the consolidated balance sheets under the caption "Other current liabilities" and \$5.0 million under the caption "Other deferred items and liabilities."

Viad's businesses contribute to various multi-employer pension plans based on obligations arising under collective bargaining agreements covering its union-represented employees. Based upon the information available to Viad from plan administrators, management believes that several of these multi-employer plans are underfunded. The Pension Protection Act of 2006 requires pension plans underfunded at certain levels to reduce, over defined time periods, the underfunded status. In addition, under current laws, the termination of a plan, or a voluntary withdrawal from a plan by Viad, or a shrinking contribution base to a plan as a result of the insolvency or withdrawal of other contributing employers to such plan, would require Viad to make payments to such plan for its proportionate share of the plan's unfunded vested liabilities. As of March 31, 2012, the amount of additional funding, if any, that Viad would be required to make related to multi-employer pension plans is not ascertainable.

Off-Balance Sheet Arrangements:

Viad does not have any "off-balance sheet" arrangements with unconsolidated special-purpose or other entities that would materially affect the Company's financial position, results of operations, liquidity or capital resources. Furthermore, Viad does not have any relationships with special-purpose or other entities that provide off-balance sheet financing; liquidity, market risk or credit risk support; or engage in leasing or other services that expose the Company to liability or risks of loss that are not reflected in Viad's consolidated financial statements.

Critical Accounting Policies and Estimates:

The preparation of financial statements in conformity with GAAP requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities in the consolidated financial statements. The SEC has defined a company's most critical accounting policies as those that are most important to the portrayal of a company's financial position and results of operations, and that require a company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on these criteria, Viad has identified and discussed with its audit committee the following critical accounting policies and estimates pertaining to Viad, and the methodology and disclosures related to those estimates:

Goodwill — Goodwill is not amortized, but tested for impairment at the reporting unit level on an annual basis on October 31 of each year. Goodwill is also tested for impairment between annual tests if an event occurs or circumstances change that would more-likely-than-not reduce the fair value of a reporting unit below its carrying amount. Viad's reporting units are defined, and goodwill is tested, at either an operating segment level, or at the component level of an operating segment, depending on various factors including the internal reporting structure of the operating segment, the level of integration among components, the sharing of assets among components, and the benefits and likely recoverability of goodwill by the component's operations.

As of March 31, 2012, Viad had total goodwill of \$137.4 million consisting of \$85.5 million related to the Marketing & Events Group and \$51.9 million related to the Travel & Recreation Group. Within the Marketing & Events Group, goodwill of \$62.7 million relates to the Marketing & Events U.S. segment and \$22.8 million relates to the Marketing & Events International segment. For impairment testing purposes, the goodwill related to the Marketing & Events U.S. segment is assigned to and tested at the operating segment level, which represents all domestic operations of GES. Furthermore, the goodwill related to the Marketing & Events International segment is assigned to and tested at the component level within the segment's geographical operations. As of March 31, 2012, the amount of goodwill assigned to the reporting units in the United Kingdom and Canada was \$13.7 million and \$9.1 million, respectively. Also, as of March 31, 2012, the Brewster, Glacier Park and Alaskan Park Properties operating segments (within the Travel & Recreation Group) had goodwill of \$44.2 million, \$4.5 million and \$3.2 million, respectively. Brewster, Glacier Park and Alaskan Park Properties are considered reporting units for goodwill impairment testing purposes.

Viad uses a discounted expected future cash flow methodology (income approach) in order to estimate the fair value of its reporting units for purposes of goodwill impairment testing. The estimates and assumptions regarding expected future cash flows, discount rates and terminal values require considerable judgment and are based on market conditions, financial forecasts, industry trends and historical experience.

The most critical assumptions and estimates in determining the estimated fair value of its reporting units relate to the amounts and timing of expected future cash flows for each reporting unit and the reporting unit cost of capital (discount rate) applied to those cash flows. Furthermore, the assumed reporting unit cost of capital rates (discount rates) are estimated using a build-up method based on the perceived risk associated with the cash flows pertaining to the specific reporting unit. In order to assess the reasonableness of its fair value estimates, the Company performs a reconciliation of the aggregate fair values of its reporting units to Viad's market capitalization.

As noted above, the estimates and assumptions regarding expected future cash flows, discount rates and terminal values require considerable judgment and are based on market conditions, financial forecasts, industry trends and historical experience. These estimates, however, have inherent uncertainties and different assumptions could lead to materially different results. As of March 31, 2012, Viad had aggregate goodwill of \$137.4 million recorded in the consolidated balance sheets. Furthermore, as a result of the Company's most recent impairment analysis performed in the fourth quarter of 2011, the excess of the estimated fair values over the carrying values (expressed as a percentage of the carrying amounts) under step one of the impairment test were 89 percent, 43 percent and 30 percent for each of the Marketing & Events Group reporting units in the United States, the United Kingdom and Canada, respectively. For the Brewster and Glacier Park reporting units, the excess of the estimated fair value over the carrying value was 44 percent and 48 percent, respectively, as of the most recent impairment test. Significant reductions in the Company's expected future revenue, operating income or cash flow forecasts and projections, or an increase in reporting unit cost of capital, could trigger additional goodwill impairment testing, which may result in impairment losses. Furthermore, management continues to monitor the market capitalization of the Company as ongoing declines in market capitalization could be indicative of possible goodwill impairment.

Income taxes — Viad is required to estimate and record provisions for income taxes in each of the jurisdictions in which the Company operates. Accordingly, the Company must estimate its actual current income tax liability, and assess temporary differences arising from the treatment of items for tax purposes as compared to the treatment for accounting purposes. These differences result in deferred tax assets and liabilities which are included in Viad's consolidated balance sheets. The Company must assess the likelihood that deferred tax assets will be recovered from future taxable income and to the extent that recovery is not likely, a valuation allowance must be established. The Company uses significant judgment in forming a conclusion regarding the recoverability of its deferred tax assets and evaluates the available positive and negative evidence to determine whether it is more-likely-than-not that its deferred tax assets will be realized in the future. As of March 31, 2012 and December 31, 2011, Viad had gross deferred tax assets of \$67.6 million and \$70.7 million, respectively. These deferred tax assets reflect the expected future tax benefits to be realized upon reversal of deductible temporary differences, and the utilization of net operating loss and tax credit carryforwards.

The Company considered all available positive and negative evidence regarding the future recoverability of its deferred tax assets, including the Company's recent operating history and projected taxable income, taxpaying history and future reversals of deferred tax liabilities. Furthermore, Viad also considered the fact that goodwill impairment losses are not tax deductible and thus did not contribute to tax losses. As of March 31, 2012 and December 31, 2011, Viad had a valuation allowance of \$411,000 and \$356,000, respectively, related to certain state and foreign deferred tax assets. With respect to all other deferred tax assets, management believes that recovery from future taxable income is more-likely-than-not.

As noted above, Viad uses considerable judgment in forming a conclusion regarding the recoverability of its deferred tax assets. As a result, there are inherent uncertainties regarding the ultimate realization of these assets, which is primarily dependent upon Viad's ability to generate sufficient taxable income in future periods. In future periods, it is reasonably possible that the relative weight of positive and negative evidence regarding the recoverability of Viad's deferred tax assets may change, which could result in a material increase in the Company's valuation allowance. If such an increase in the valuation allowance were to occur, it would result in increased income tax expense in the period the assessment was made.

Insurance liabilities — Viad is self-insured up to certain limits for workers' compensation, automobile, product and general liability and property loss claims. The aggregate amount of insurance liabilities related to Viad's continuing operations was \$21.3 million as of March 31, 2012. Of this total, \$14.3 million related to workers' compensation liabilities and the remaining \$7.0 million related to general/auto liability claims. Viad has also retained and provided for certain insurance liabilities in conjunction with previously sold businesses totaling \$6.0 million as of March 31, 2012, primarily related to workers' compensation liabilities. Provisions for losses for claims incurred, including estimated claims incurred but not yet reported, are made based on Viad's historical experience, claims frequency and other factors. A change in the assumptions used could result in an adjustment to recorded liabilities. Viad has purchased insurance for amounts in excess of the self-insured levels, which generally range from \$200,000 to \$500,000 on a per claim basis. Viad does not maintain a self-insured retention pool fund as claims are paid from current cash resources at the time of settlement. Viad's net cash payments in connection with these insurance liabilities were \$1.5 million and \$1.7 million for the first three months of 2012 and 2011, respectively.

Pension and postretirement benefits — Viad's pension plans use traditional defined benefit formulas based on years of service and final average compensation. Funding policies provide that payments to defined benefit pension trusts shall be at least equal to the minimum funding required by applicable regulations. The Company presently anticipates contributing \$1.6 million to its funded pension plans and \$956,000 to its unfunded pension plans in 2012, of which the Company has contributed \$333,000 and \$237,000 as of March 31, 2012, respectively.

Viad and certain of its subsidiaries have defined benefit postretirement plans that provide medical and life insurance for certain eligible employees, retirees and dependents. The related postretirement benefit liabilities are recognized over the period that services are provided by employees. In addition, Viad retained the obligations for these benefits for retirees of certain sold businesses. While the plans have no funding requirements, Viad expects to contribute \$450,000 to the plans in 2012, of which \$43,000 has been contributed as of March 31, 2012. The assumed health care cost trend rate used in measuring the December 31, 2011 accumulated postretirement benefit obligation was nine percent, declining one-half percent each year to the ultimate rate of five percent by the year 2019 and remaining at that level thereafter.

A one-percentage-point increase in the assumed health care cost trend rate for each year would increase the accumulated postretirement benefit obligation as of December 31, 2011 by approximately \$1.7 million and the total of service and interest cost components by approximately \$112,000. A one-percentage-point decrease in the assumed health care cost trend rate for each year would decrease the accumulated postretirement benefit obligation as of December 31, 2011 by approximately \$1.5 million and the total of service and interest cost components by approximately \$93,000.

The weighted-average assumptions used to determine the pension and postretirement benefit obligations as of December 31, 2011 were as follows:

	<u>Domestic Plans</u>			
	<u>Postretirement</u>			
	<u>Funded Plans</u>	<u>Unfunded Plans</u>	<u>Benefit Plans</u>	<u>Foreign Plans</u>
Discount rate	4.92%	4.75%	4.70%	4.60%

The weighted-average assumptions used to determine the 2011 net periodic benefit cost were as follows:

	<u>Domestic Plans</u>			
	<u>Postretirement</u>			
	<u>Funded Plans</u>	<u>Unfunded Plans</u>	<u>Benefit Plans</u>	<u>Foreign Plans</u>
Discount rate	5.45%	5.10%	5.10%	5.10%
Expected return on plan assets	6.35%	N/A	6.10%	5.50%

The discount rates used in determining future pension and postretirement benefit obligations are based on rates determined by actuarial analysis and management review, and reflect the estimated rates of return on a high-quality, hypothetical bond portfolio whose cash flows match the timing and amounts of expected benefit payments.

Share-based compensation — The fair values of restricted stock and performance-based restricted stock awards are based on Viad's stock price on the date of grant. Liability-based awards are recorded at estimated fair value, based on the number of units expected to vest and the level of achievement of predefined performance goals (where applicable) and are remeasured on each balance sheet date based on Viad's stock price until the time of settlement. Viad uses the Black-Scholes option pricing model for purposes of determining the fair value of each stock option grant for which key assumptions are necessary. These assumptions include Viad's expected stock price volatility; the expected period of time the stock option will remain outstanding; the expected dividend yield on Viad common stock, and the risk-free interest rate. Changes in the assumptions could result in different estimates of the fair value of stock option grants, and consequently impact Viad's results of operations.

Impact of Recent Accounting Pronouncements:

For a description of recently issued accounting pronouncements, including the expected dates of adoption and estimated effects, if any, on Viad's consolidated financial statements, see Note 18 of notes to consolidated financial statements.

Forward-Looking Statements:

As provided by the safe harbor provision under the Private Securities Litigation Reform Act of 1995, Viad cautions readers that, in addition to historical information contained herein, this quarterly report includes certain information, assumptions and discussions that may constitute forward-looking statements. These forward-looking statements are not historical facts, but reflect current estimates, projections, expectations, or trends concerning future growth, operating cash flows, availability of short-term borrowings, consumer demand, new business, investment policies, productivity improvements, ongoing cost reduction efforts, efficiency, competitiveness, legal expenses, tax rates and other tax matters, foreign exchange rates and the realization of restructuring cost savings. Actual results could differ materially from those discussed in the forward-looking statements. Viad's businesses can be affected by a host of risks and uncertainties. Among other things, natural disasters, gains and losses of customers, consumer demand patterns, labor relations, purchasing decisions related to customer demand for exhibition and event services, existing and new competition, industry alliances, consolidation and growth patterns within the industries in which Viad competes, acquisitions, adverse developments in liabilities associated with discontinued operations and any deterioration in the economy may individually or in combination impact future results. In addition to factors mentioned elsewhere, economic, competitive, governmental, technological, capital marketplace and other factors, including terrorist activities or war, a pandemic or other health crisis and international conditions, could affect the forward-looking statements in this quarterly report. Additional information concerning business and other risk factors that could cause actual results to materially differ from those in the forward looking statements are discussed in "Risk Factors" in the risk factors sections included in Viad's 2011 Annual Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Viad's market risk exposures relate to fluctuations in foreign exchange rates, interest rates and certain commodity prices. Foreign exchange risk is the risk that fluctuating exchange rates will adversely affect Viad's financial condition or results of operations. Interest rate risk is the risk that changing interest rates will adversely affect the earnings of Viad. Commodity risk is the risk that changing prices will adversely affect results of operations.

Viad conducts its foreign operations primarily in Canada and the United Kingdom and to a lesser extent in certain other countries. The functional currency of Viad's foreign subsidiaries is their local currency. Accordingly, for purposes of consolidation, Viad translates the assets and liabilities of its foreign subsidiaries into U.S. dollars at the foreign exchange rates in effect at the balance sheet date. The unrealized gains or losses resulting from the translation of these foreign denominated assets and liabilities are included as a component of accumulated other comprehensive income in Viad's consolidated balance sheets. As a result, significant fluctuations in foreign exchange rates relative to the U.S. dollar may result in material changes to Viad's net equity position reported in its consolidated balance sheets. Viad does not currently hedge its equity risk arising from the translation of foreign denominated assets and liabilities. Viad had cumulative unrealized foreign currency translation gains recorded in stockholders' equity of \$39.0 million and \$34.6 million as of March 31, 2012 and December 31, 2011, respectively. During the first quarters of 2012 and 2011, unrealized foreign currency translation losses of \$4.4 million and \$3.6 million, respectively, were recorded in other comprehensive income.

In addition, for purposes of consolidation, the revenues, expenses, gains and losses related to Viad's foreign operations are translated into U.S. dollars at the average foreign exchange rates for the period. As a result, Viad's consolidated results of operations are exposed to fluctuations in foreign exchange rates as the operating results of its foreign operations, when translated, may vary from period to period, even when the functional currency amounts have not changed. Such fluctuations may adversely impact overall expected profitability and historical period-to-period comparisons. Viad does not currently hedge its net earnings exposure arising from the translation of its foreign operating results. As noted above, Viad primarily conducts its foreign operations in Canada and the United Kingdom. The following table summarizes the effect of foreign exchange rate variances on segment operating results from Viad's Canadian and United Kingdom operations for the three months ended March 31:

	Weighted-Average Exchange Rates		Effect of Rate Variance (thousands)
	2012	2011	
Canadian Operations:			
Marketing & Events Group	\$ 1.01	\$ 1.15	\$ (70)
Travel & Recreation Group	\$ 1.00	\$ 1.01	\$ 43
United Kingdom Operations:			
Marketing & Events Group	\$ 1.60	\$ 1.61	\$ (35)

As the Canadian operations generated aggregate operating losses for the first quarter of 2012, Viad's segment operating results have been unfavorably impacted by \$27,000 from the weakening of the Canadian dollar relative to the U.S. dollar. As the United Kingdom operations generated an aggregate operating income in the first quarter of 2012, Viad's segment operating income has been unfavorably impacted by \$35,000 from the weakening of the British pound relative to the U.S. dollar.

Viad is exposed to short-term interest rate risk on certain of its debt obligations. Viad currently does not use derivative financial instruments to hedge cash flows for such obligations. In April 2011, Viad paid off its outstanding borrowing under the previous credit facility of \$4.2 million. As of March 31, 2012, Viad did not have any variable rate debt outstanding.

Item 4. Controls and Procedures.

Under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer of Viad, the effectiveness of the design and operation of disclosure controls and procedures has been evaluated as of March 31, 2012, and, based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective as of March 31, 2012. Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in such reports is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure.

There were no changes in the Company's internal control over financial reporting during the first quarter of 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1A. Risk Factors.

In addition to the risk factor set forth below and other information in this report, careful consideration should be given to the factors discussed in "Item 1A. Risk Factors" of Part 1 and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II of Viad's Annual Report on Form 10-K for the year ended December 31, 2011, which could materially affect the Company's business, financial condition and/or future results.

New capital projects may not be commercially successful.

From time to time, in an effort to seize opportunities that complement, enhance and expand its businesses, Viad pursues new capital projects. Capital projects are subject to a number of risks, including unanticipated delays and cost overruns, failure to achieve established financial and strategic goals and the inability to successfully integrate into Viad's ongoing businesses, as well as additional risks specific to a project. The occurrence of any of the events described above could prevent a new capital project from performing in accordance with Viad's commercial expectations and could have a material adverse effect on its businesses and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Set forth below is a table showing the total number of shares of Viad common stock repurchased during the first quarter of 2012 by Viad from employees and former employees surrendering previously owned Viad common stock (outstanding shares) to pay the taxes in connection with the vesting of share-based awards. The table also reflects that no shares of Viad common stock were repurchased by Viad on the open market as part of a repurchase program.

February 2012	50,745	19.65	—	53,621
Total	50,894	19.65	—	53,621

- (1) Viad has announced its intent to repurchase shares of the Company's common stock from time to time at prevailing market prices. No shares were repurchased during the first quarter of 2012. As of March 31, 2012, 53,621 shares remain available for repurchase under the announced authorization. The authorization of the Board of Directors does not have an expiration date.
