Marketing & Events Group

For the second quarter of 2014, the Marketing & Events Group posted revenue of \$226.6 million and operating income of \$9.0 million. Group operating income was in line with the Company's prior guidance and up \$831,000 as compared to the 2013 second quarter on a revenue increase of \$6.8 million.

U.S. segment second quarter revenue increased \$13.3 million, or 8.6 percent, to \$168.8 million as compared to \$155.5 million in the 2013 second quarter and segment operating income increased \$2.5 million to \$5.1 million. The growth versus the prior year was primarily driven by a 4.9 percent increase in base same-show revenue, new show wins and positive show rotation of approximately \$1 million in revenue. Base same-show revenue is defined as revenue from shows that are produced out of the same city during the same quarter each year.

International segment second quarter revenue was \$63.4 million and segment operating income was \$3.9 million for the 2014 second quarter. Foreign exchange rate variances had a favorable impact on revenue and operating income of approximately \$3.0 million and \$103,000, respectively, as compared to the 2013 second quarter. Excluding foreign exchange rate variances, revenue and operating income decreased by approximately \$8.2 million and \$1.8 million, respectively, primarily driven by negative show rotation revenue of approximately \$13 million, partially offset by new business wins.

Dykstra said, "Second quarter results for the Marketing & Events Group were solid, with same-show growth and new business wins more than offsetting the impact of negative show rotation from the biennial Paris Airshow. Overall Group revenue grew by 3.1 percent and operating income increased by 10.1 percent, with a 30 basis point improvement in operating margin. We continue to focus on margin improvement and business development in order to deliver on our financial commitments for 2014 and beyond."

Travel & Recreation Group

Travel & Recreation Group revenue for the second quarter was \$29.8 million with operating income of \$5.1 million. Group operating income was better than the Company's prior guidance and up 56.6 percent as compared to the 2013 second quarter on a revenue increase of 13.0 percent. Foreign exchange rate variances versus 2013 had an unfavorable impact on revenue and operating income of \$1.2 million and \$220,000, respectively. Excluding foreign exchange rate variances, revenue increased by \$4.7 million, or 17.7 percent, and operating income increased by approximately \$2.1 million, or 63.4 percent.

Dykstra said, "Our Travel & Recreation Group realized significant year-on-year growth driven primarily by strong passenger volumes at Brewster's attractions. Passenger counts were up more than 20 percent at the Banff Gondola, the Columbia Icefield Glacier Adventure and the Banff Lake Cruise. Our new Glacier Skywalk attraction, which opened on May 1, also surpassed expectations with a total guest count of over 80,000 during its first two months of operation."

2014 Outlook

Guidance provided by Viad is subject to change as a variety of factors can affect actual results. Those factors are identified in the safe harbor language at the end of this press release.

Dykstra said, "With two solid quarters under our belts, 2014 is indeed shaping up to be a year of significant growth for us. In addition to organic growth, we will also benefit from the July 1 acquisition of the West Glacier Motel & Cabins, the Apgar Village Lodge and related amenities in the Glacier National Park market. We remain sharply focused on driving revenue growth and operational excellence in our existing business, as well as pursuing acquisitions that enhance shareholder value."

2014 Full Year Guidance

Marketing & Events Group

- **Revenue** is expected to increase at a high single to low double-digit rate from \$844.9 million in 2013.
 - **Base same-show revenue** is expected to increase at a low to mid single-digit rate in the U.S. Base same shows are defined as shows that take place in the same city during the same quarter each year.
 - **Show rotation** is expected to have a net positive impact on full year revenue of approximately \$60 million. Show rotation refers to shows that occur less frequently than annually, as well as annual shows that shift quarters from one year to the next.

First quarter show rotation had a positive impact on revenue of approximately \$35 million.

Second quarter show rotation had a negative impact on revenue of approximately \$12 million.

Third quarter show rotation is expected to positively impact revenue by approximately \$45 million.

Fourth quarter show rotation is expected to negatively impact revenue by approximately \$10 million.

- **Exchange rate variances** are not expected to have a meaningful impact on results versus 2013.
- **Operating margins** are expected to reach approximately 4 percent, compared to 2.4 percent in 2013, driven primarily by continued improvements in U.S. segment profitability.

Travel & Recreation Group

- **Revenue** is expected to increase at a mid to high single-digit rate from \$108.4 million in 2013. Exchange rate variances are expected to negatively impact revenue by approximately \$5 million versus 2013.

- **The effective tax rate** on income before other items is assumed to approximate 28 percent to 30 percent, as compared to 32 percent in 2013.

VIAD CORP AND SUBSIDIARIES
TABLE ONE - NOTES TO QUARTERLY RESULTS
(UNAUDITED)

- (A) Corporate Activities — The increase in corporate activities expense for the six months ended June 30, 2014 was primarily related to higher 401(k) employer matching contributions expense due to the depletion of the Company's common stock held in the Employee Stock Ownership Plan feature of the Company's 401(k). Matching contributions are now funded from shares of Viad common stock held in treasury which have a higher cost to the Company. The increase was also related to certain legal, corporate development, consulting and other expenses.
- The increase in corporate activities expense for the three months ended June 30, 2014 was primarily related to higher 401(k) expense mentioned above and an increase in performance based compensation expense.
- (B) Restructuring Charges — During the three months ended June 30, 2014 and 2013, Viad recorded net restructuring charges of \$1,365,000 (\$879,000 after-tax) and \$773,000 (\$525,000 after-tax), respectively, related to the elimination of certain positions in the Marketing & Events Group.
- (C) Impairment Charges — During the three months ended June 30, 2014, Viad recorded impairment charges of \$884,000 (\$549,000 after-tax) related to the write-off of certain assets in the Marketing & Events International segment.
- (D) Income Taxes — The decrease in the effective tax rates for the three and six months ended June 30, 2014 is primarily due to the projected release of a portion of the valuation allowance related to foreign tax credit and state NOL carryforwards and certain adjustments related to deferred taxes.
- (E) Income (Loss) from Discontinued Operations — On December 31, 2013, Glacier Park's concession contract with the Park Service to operate lodging, tour and transportation and other hospitality services for Glacier National Park expired. Upon completion of the contract term, Viad received cash payments in January 2014 totaling \$25.0 million for the Company's possessory interest. This resulted in a pre-tax gain of \$21.5 million and an after-tax gain of \$14.3 million which was recorded as income from discontinued operations. In addition, 2013 results related to the operations of Glacier Park's concession contract business have been reclassified as discontinued operations. The loss from discontinued operations for the three months ended June 30, 2014 related to the allocation of taxes to the possessory interest gain and additional reserves related to certain liabilities associated with previously sold operations.
- (F) Income per Common Share — Following is a reconciliation of net income attributable to Viad to net income allocated to Viad common shareholders:
