REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Participants and Plan Administrator of
Libbey Inc. Retirement Savings Plan
Toledo, OH

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the Libbey Inc. Retirement Savings Plan (the "Plan") as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Report on Supplemental Schedules

The supplemental schedules of delinquent participant contributions and assets (held at end of year) as of December 31, 2017 have been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedules are the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedules reconcile to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, such schedules are fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Deloitte & Touche LLP

Detroit, MI
June 15, 2018

We have served as the auditor of the Plan since 2016.

Libbey Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2017

1. Description of Plan

General

The Libbey Inc. Retirement Savings Plan (the Plan) was adopted by Libbey Inc. (the Company) for the benefit of eligible salary and non-union hourly employees. The Plan was amended and restated on January 28, 2013 which was effective as of January 1, 2013.

The Plan is a defined contribution plan that provides eligible employees the opportunity to make pretax and/or after-tax contributions, in specific percentages, within guidelines established by the Libbey Inc. Employee Benefits Committee (the Committee). The Plan is administered by the Committee, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participant contributions are limited to 50% of their eligible wages and are immediately 100% vested. Contributions are allocated at the participant’s discretion among the various investment options from 1% to 100%, with no limit on the number of options selected. A participant may elect to change the percentage of eligible compensation to be contributed, and any such changes shall be effective as soon as administratively feasible.

The Company contributes to the Plan on behalf of each participant an amount equal to 100% of the participant’s first 6% of pretax contributions not to exceed 6% of the participant’s eligible compensation. Company matching contributions are allocated to investments based on the participant’s deferral elections. Company matching contributions are immediately 100% vested. The Plan automatically enrolls newly eligible participants; however, participants can elect to opt out of automatic enrollment.

Within certain limitations of the Internal Revenue Code (IRC), a participant may also transfer into the Plan by making a rollover contribution from another qualified plan.

Participants may transfer their existing fund balances among the various investment funds daily, with some limitations.

The above information is intended as a general description of the Plan’s operating guidelines. Reference should be made to the plan document for more specific provisions, including benefit payments.

Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, the entire interest of each participant’s account is distributed to the participants.

Assets in Trust

At December 31, 2017 and 2016, Great-West Trust Company, LLC was the Plan's Trustee, and the Bank of New York Mellon was the sub-custodian of the Libbey stock fund. The Plan utilizes record keeping services from Great-West Financial Retirement Plan Services which is branded as Empower Retirement.

Investments

Participants may direct the investment of their contribution, the Company's matching contribution and their account balances into various investment options offered by the Plan and may change investments and transfer amounts between funds daily, within certain limitations. The Plan offers over 25 different mutual funds across several asset categories including US and International equities and fixed income funds, through nine registered investment companies, and Libbey Inc. common stock.

Distributions of Benefits

Distribution of vested benefits may be made upon the occurrence of any one of the following:

- In-service withdrawal on or after attainment of age 59-1/2;
- Total and permanent disability, as defined in the Plan, of the participant;
- Death of the participant;
- Termination of employment; or
- Financial hardship that complies with IRS regulations.

Benefits due upon death are generally paid in a lump sum or installments. Death benefits are based on amounts in the participants' accounts. Benefits due upon termination, withdrawal, or disability are paid in a lump sum or installments, as applicable, and are based on vested amounts in the participants' accounts.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions and their respective share of investment fund earnings (losses) and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the value of the participant's account.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Payment of Benefits

Benefit payments to participants are recorded when paid. There were no participants, who elected to withdraw from the Plan, but had not yet been paid at December 31, 2017.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion on fair value measurements.

The Plan holds indirect investments in fully benefit-responsive investment contracts through the JP Morgan Stable Asset Income Fund. A plan participant's partial or full withdrawal or transfer of their investment in the JP Morgan Stable Asset Income Fund is valued at an amount which represents contributions made, plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Company Stock

At December 31, 2017 and 2016 , the Plan held $3,536,722 and $8,275,782, respectively, of Libbey Inc. common stock which represented approximately 3% and 8%, respectively, of net assets available for benefits. Dividends paid or deemed paid constitute applicable dividends per the IRC. During the year ended December 31, 2017 , the Plan received dividend income of $207,319 from Libbey Inc.

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Company prior to the time that such rights may be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The Trustee votes any unallocated shares per provisions of the Plan. Participants have the same voting rights in the event of a tender or exchange offer.

Per provisions of a 2015 Plan amendment, the Company implemented a 20% limit on investments in Libbey Inc. common stock on July 1, 2016, to ensure portfolio diversity. Any contribution amount over 20% is redirected to the Plan's default fund, the JP Morgan SmartRetirement target date funds, based on the participant's age. A maximum of 20% of each participant's account balance can be invested in Libbey Inc. common stock. The participant is unable to transfer additional investments into the stock fund if Libbey Inc. common stock is more than 20% of the participant's account balance, or would be more than 20% as a result of the transfer. In addition, there is a 20% cap on future contributions to purchase Libbey Inc. common stock. At implementation on July 1, 2016, participants were not required to sell any shares of Libbey Inc. common stock greater than 20% of their account balance.

Plan Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping, consulting and trustee fees. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016 . If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Transfers

Along with the Plan, the Company sponsors a defined contribution plan for union hourly employees. If employees change their status during the year, their account balances are transferred into or from the Libbey Inc. Supplemental Retirement Plan.

Excess Contributions Payable

The Plan is required to re-characterize or return contributions received during the Plan year in excess of the IRC limits.

Libbey Inc. Retirement Savings Plan

Notes to Financial Statements (continued)

3. Fair Value Measurements

In accordance with ASC 820, *Fair Value Measurement,* assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

- Level 1 — Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.
- Level 2 — Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 — Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan:

- *Registered investment companies:* Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.
- *Common stock:* Valued at the closing price reported in the active market in which the individual securities are traded.
- *Common collective trusts:* Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, divided by the number of units outstanding.

There have been no changes in the methodologies used at December 31, 2017 and 2016. For the year ended December 31, 2017, there were no transfers between levels.

Investments Measured at Fair Value on a Recurring Basis

Investments measured at fair value on a recurring basis as of December 31, 2017 and 2016 (Level 1, 2, and 3 inputs are defined above) are as follows:

	Fair Value Measurements Using Input Type December 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment companies	$ 100,462,998	$ —	$ —	$ 100,462,998
Libbey Inc. common stock	3,536,722	—	—	3,536,722
Total investments in the fair value hierarchy	$ 103,999,720	$ —	$ —	103,999,720
Common collective trust measured at NAV [(a)]				6,946,865
Total investments				$ 110,946,585

	Fair Value Measurements Using Input Type December 31, 2016			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 86,320,615	$ —	$ —	$ 86,320,615
Libbey Inc. common stock	8,275,782	—	—	8,275,782
Total investments in the fair value hierarchy	$ 94,596,397	$ —	$ —	94,596,397
Common collective trust measured at NAV [(a)]				7,307,520
Total investments				$ 101,903,917

(a) Represents investments in a common collective trust. The JP Morgan Stable Asset Income Fund invests in high quality fixed income portfolios combined with investment contracts called "benefit responsive wraps" issued by other insurance companies. There are no unfunded commitments at December 31, 2017. The Plan may terminate its interest in the JP Morgan Stable Asset Income Fund at any time as long as the funds will not be invested in an investment option determined by JPMorgan Chase Bank, N.A. to be a competing fund. Complete or partial withdrawals must be given in writing not less than 30 days prior to the valuation date, upon which the withdrawal is to be effected, as determined by the fund (see Note 2). As previously discussed in Note 2 , the JP Morgan Stable Asset Income Fund is presented at fair value which is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan.

4. Notes Receivable from Participants

The Plan permits participants to borrow up to a maximum of $50,000, or 50%, of their investment balance once their investment balance reaches $1,000. Loans are made subject to certain conditions and limitations specified in the plan document and are repaid in semi-monthly or weekly installments, including interest, over periods of between one to five years or up to 10 years for the purchase of a primary residence. A participant is entitled to a maximum of two loans; however, the loans must be initiated 12 months apart. Participant loans are collateralized by their account balances. The rate at which loans bear interest is established at the inception of the borrowing, based on the prime rate then being charged by the Trustee plus 1%. Repayments of loans, including the interest portion thereof, are reinvested on the participants' behalf in accordance with their current choice of investment options. If a participant terminates employment from the Company, the participant must make arrangements with the record keeper to pay off the loan, otherwise it will be treated as a distribution to the participant after 90 days.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 1, 2014, stating that the Plan is qualified under Section 401(a) of the IRC and therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

6. Related-Party Transactions

As described in Note 2 , the Plan invests in Libbey Inc. common stock. In addition, certain plan investments are shares of mutual funds managed by Harbor Capital Advisors, the investment advisors of various defined benefit pension plans of the Company. The investments in Libbey Inc. common stock and mutual funds managed by Harbor Capital Advisors qualify as party-in-interest transactions. There have been no known prohibited transactions with a party-in-interest.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Nonexempt Party-In-Interest Transactions

The Company remitted the December 8, 2017 participant contributions for three employees totaling $72 to the Trustee on March 21, 2018, which was later than required by Department of Labor (DOL) Regulation 2510.3-102. In addition, participant accounts were credited with the amount of investment income that would have been earned had the participant contributions been remitted on a timely basis.

9. Voluntary Compliance Resolution Program

During 2017, the Company failed to remit certain employee deferrals to the Plan aggregating to $72. These deferrals are included in the Plan's employer receivable at December 31, 2017. The late deposit and associated lost earnings were subsequently remitted to the Plan. The plan administrator is in process of filing an application for a compliance statement from the DOL under the voluntary compliance resolution program.
