I am delighted to welcome Andrew and Graham to our Board and I am confident that their combined operational, corporate and financial experience in the mining industry will be beneficial as we focus on delivering the next phase of Golden Star's growth across Africa."*

## **Details of La Mancha's strategic investment**

La Mancha has invested approximately \$125.7 million in cash into Golden Star through a private placement. Golden Star received the funds from La Mancha yesterday and, in exchange, La Mancha has been issued 163,210,500 Golden Star common shares. This represents approximately 30% of the outstanding share capital (on a non-diluted basis) after giving effect to La Mancha's investment. La Mancha is now Golden Star's largest shareholder.

The long term nature of the strategic relationship is demonstrated by La Mancha's agreement to a two year equity lock-up on the Golden Star shares, as well as to certain customary standstill provisions. La Mancha also has anti-dilution rights, which provide the ability for La Mancha to maintain its approximate 30% equity stake in Golden Star, and customary registration rights.

Golden Star's shareholders approved the private placement by La Mancha at a special meeting held on September 17, 2018, with 98.95% of votes cast in favour of the transaction.

## **Appointment of two directors to Golden Star's Board**

La Mancha has the right to nominate up to three representatives to Golden Star's Board of Directors and two nominees have joined the Board with immediate effect. La Mancha expects to nominate a third Director at the next Annual General Meeting or earlier in the event of a vacancy. La Mancha's two nominees are Andrew Wray, Chief Executive Officer of La Mancha, and Graham Crew.

### *Andrew Wray*

Andrew joined La Mancha as Chief Executive Officer in early 2018. He was most recently Chief Financial Officer of Acacia Mining and has nearly ten years of direct mining experience. Prior to that, Andrew worked with the Corporate Finance team at JP Morgan Cazenove. He has over 15 years of experience in advising companies in capital-raising activities and other strategic objectives. Prior to joining JP Morgan, Andrew worked for the Kuwait Investment Office in London, having dealt with its portfolio of investments in Spain. Andrew holds an Honours Degree from University College London.

### *Graham Crew*

Graham has over 25 years of operational, technical and corporate experience in the mining industry. A mining engineer by background, he is General Manager Mining for Barmenco Limited, a global underground mining services provider, and he previously held the position of General Manager of the Bulyanhulu mine for Acacia Mining. Prior to that, he was the Operations Manager for La Mancha's Australian operations for five years and he has held a number of other technical positions for mining companies in various geographies. He has a strong track record of transforming operations through development of vision and strategy and disciplined implementation and he has experience of construction projects, due diligence, project evaluation and project financing.

## **Share Consolidation**

Golden Star intends to consolidate its issued and outstanding common shares on a 5:1 ratio

("the Consolidation"). The Consolidation was also approved by the Company's shareholders at the special meeting on September 17, 2018, with 96.62% of votes cast in favour.

Prior to the La Mancha transaction, there were 380,824,555 Golden Star common shares issued and outstanding. Now that the La Mancha transaction is complete, there are 544,035,055 shares issued and outstanding, and once the Consolidation is implemented by the Company, this number will become approximately 109 million shares. Golden Star expects to implement the Consolidation during the fourth quarter of 2018.

*All monetary amounts refer to United States dollars unless otherwise indicated.*
