# Golden Star Hosts an Analyst and Investor Site Visit

TORONTO, Nov. 8, 2018 /CNW/ - Golden Star Resources (NYSE American: GSS; TSX: GSC; GSE: GSR) ("Golden Star" or the "Company") is hosting an analyst and investor visit to its two mines in Ghana on November 8 and 9, 2018.

During these two days, the investor and analyst group will visit the Company's two high grade underground mines (Wassa Underground and Prestea Underground) and they will be given a series of technical presentations, which will cover certain aspects of the Company's operations including elements of its exploration program.

At Wassa, the visit will focus on Golden Star's plans to expand Wassa Underground's production rate to 4,000 tonnes per day by mid-2020 and on its exploration program, which has the objective of gaining a more thorough understanding of the potential of Wassa South and the Father Brown satellite deposit.

At Prestea, the visit will focus on the Prestea Improvement Plan, which has the objective of reducing the Prestea Complex's annual operating costs and increasing Prestea Underground's production rate, in addition to Prestea Underground's exploration potential.

The technical presentations are available on the Company's website at: <http://www.gsr.com/investors/events-and-presentations/default.aspx>
