Item 8.01 Other Events

On August 11, 2016, Acorda Therapeutics, Inc. (the “Company”) entered into a settlement agreement with Accord Healthcare, Inc. and Intas Pharmaceuticals Limited (collectively “Accord”) to resolve pending patent litigation brought by the Company against Accord involving Ampyra[®] (dalfampridine) Extended-Release Tablets. The pending patent litigation was filed by the Company in the U.S. District Court for the District of Delaware in response to Accord’s submission of an Abbreviated New Drug Application (“ANDA”) to the U.S. Food and Drug Administration (“FDA”), seeking marketing approval for a generic version of Ampyra. As a result of the settlement agreement, Accord will be permitted to market a generic version of Ampyra in the United States at a specified date in 2027, or potentially earlier under certain circumstances. The parties will request that the Court enter a Consent Order, in which it will dismiss the Company’s litigation against Accord referred to above. Details of the settlement are confidential, and the parties will submit the agreement to the Federal Trade Commission and the Department of Justice, as required by federal law. The settlement with Accord does not resolve pending patent litigation brought by the Company against other parties who have submitted ANDAs to the FDA seeking marketing approval for generic versions of Ampyra. The expiration date for the Company’s latest expiring Ampyra patent listed in the FDA’s Orange Book is May 2027.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
