Note 1. Overview and Basis of Presentation

Business — Sykes Enterprises, Incorporated and consolidated subsidiaries (“SYKES” or the “Company”) is a global business processing outsourcing leader in providing comprehensive inbound customer engagement solutions and services to Global 2000 companies, primarily in the communications, financial services, healthcare, technology, transportation and leisure, retail and other industries. SYKES’ differentiated end-to-end solutions and service platform effectively engages consumers at every touch point in their customer lifecycle, starting from digital marketing and acquisition to customer support, up-sell/cross-sell and retention. The Company serves its clients through two geographic operating regions: the Americas (United States, Canada, Latin America, Australia and the Asia Pacific Rim) and EMEA (Europe, the Middle East and Africa). Our Americas and EMEA regions primarily provide customer engagement services (with an emphasis on inbound technical support, digital marketing and demand generation, and customer service), which includes customer assistance, healthcare and roadside assistance, technical support, and product and service sales to its clients’ customers. These services are delivered through multiple communication channels including phone, e-mail, social media, text messaging, chat and digital self-service. The Company also provides various enterprise support services in the United States that include services for its clients’ internal support operations, from technical staffing services to outsourced corporate help desk services. In Europe, SYKES also provides fulfillment services, which includes order processing, payment processing, inventory control, product delivery and product returns handling. SYKES has developed an extensive global reach with customer engagement centers across six continents, including North America, South America, Europe, Asia, Australia and Africa. The Company delivers cost-effective solutions that enhance the customer service experience, promote stronger brand loyalty, and bring out high levels of performance and profitability.

Acquisitions

On May 31, 2017, the Company completed the acquisition of certain assets of a Global 2000 telecommunications services provider, pursuant to a definitive Asset Purchase Agreement (the “Purchase Agreement”) entered into on April 24, 2017 (the “Telecommunications Asset acquisition”). The Company has reflected the Telecommunications Asset acquisition’s results in the Condensed Consolidated Financial Statements since May 31, 2017. See Note 2, Acquisitions, for additional information on the acquisition.

On April 1, 2016, the Company completed the acquisition of Clear Link Holdings LLC (“Clearlink”), pursuant to a definitive Agreement and Plan of Merger (the “Merger Agreement”), dated March 6, 2016. The Company has reflected Clearlink’s results in the Condensed Consolidated Financial Statements since April 1, 2016. See Note 2, Acquisitions, for additional information on the acquisition.

Basis of Presentation — The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“generally accepted accounting principles” or “U.S. GAAP”) for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for any future quarters or the year ending December 31, 2017. For further information, refer to the consolidated financial statements and notes thereto, included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the Securities and Exchange Commission (“SEC”) on March 1, 2017.

Principles of Consolidation — The condensed consolidated financial statements include the accounts of SYKES and its wholly-owned subsidiaries and controlled majority-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates — The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

[Table of Contents](#)

Subsequent Events — Subsequent events or transactions have been evaluated through the date and time of issuance of the condensed consolidated financial statements. There were no material subsequent events that required recognition or disclosure in the accompanying condensed consolidated financial statements.

Customer-Acquisition Advertising Costs — The Company utilizes direct-response advertising the primary purpose of which is to elicit purchases from its clients' customers. These costs are capitalized when they are expected to result in probable future benefits and are amortized over the period during which future benefits are expected to be received, which is generally less than one month. All other advertising costs are expensed as incurred. As of June 30, 2017 and December 31, 2016, the Company had less than \$0.1 million of capitalized direct-response advertising costs included in "Prepaid expenses" in the accompanying Condensed Consolidated Balance Sheets. Total advertising costs included in "Direct salaries and related costs" in the accompanying Condensed Consolidated Income Statements for the three months ended June 30, 2017 and 2016 were \$8.6 million and \$8.0 million, respectively, and \$18.4 million and \$8.0 million for the six months ended June 30, 2017 and 2016, respectively.

Reclassifications — Certain balances in the prior period have been reclassified to conform to current period presentation.

New Accounting Standards Not Yet Adopted

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers (Topic 606)* ("ASU 2014-09"). The amendments in ASU 2014-09 outline a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and indicate that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this, an entity should identify the contract(s) with a customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when (or as) the entity satisfies a performance obligation. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606) Deferral of the Effective Date* ("ASU 2015-14"). The amendments in ASU 2015-14 defer the effective date of ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that period. An entity should apply the amendments using either the full retrospective approach or retrospectively with a cumulative effect of initially applying the amendments recognized at the date of initial application. In 2016, the FASB issued additional ASUs that are part of the overall new revenue guidance including: ASU 2016-08, *Revenue from Contracts with Customers (Topic 606) – Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, ASU 2016-10, *Revenue from Contracts with Customers (Topic 606) – Identifying Performance Obligations and Licensing*, ASU 2016-11, *Revenue Recognition and Derivatives and Hedging: Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 Emerging Issues Task Force Meeting ("EITF")* and ASU 2016-12, *Revenue from Contracts with Customers (Topic 606) – Narrow-Scope Improvements and Practical Expedients*.

The Company is continuing to evaluate the impact of ASU 2014-09 and the related ASUs on its financial condition, results of operations and cash flows. The Company anticipates that it will apply the modified retrospective adoption alternative for these amendments, which will result in a cumulative effect adjustment to retained earnings as of January 1, 2018. The adoption of these amendments will require expanded qualitative and quantitative disclosures about the Company's contracts with its customers. The Company has established an implementation team tasked with evaluating provisions within its contracts as well as reviewing accounting policies and internal controls. Based on the preliminary results of its evaluation, the Company does not expect the adoption of these ASUs on January 1, 2018 to have a material impact on the timing of recognition of revenue; however, the Company is still assessing the requirement to estimate variable consideration, such as performance-related bonus and penalty provisions. The Company expects to complete its assessment by the end of the third quarter of 2017.

[Table of Contents](#)

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments - Overall (Subtopic 825-10) Recognition and Measurement of Financial Assets and Financial Liabilities* (“ASU 2016-01”). These amendments modify how entities measure equity investments and present changes in the fair value of financial liabilities. Under the new guidance, entities will have to measure equity investments that do not result in consolidation and are not accounted for under the equity method at fair value and recognize any changes in fair value in net income unless the investments qualify for the new practicality exception. A practicality exception will apply to those equity investments that do not have a readily determinable fair value and do not qualify for the practical expedient to estimate fair value under Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements*, and as such, these investments may be measured at cost. These amendments are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company does not expect the adoption of ASU 2016-01 to materially impact its financial condition, results of operations and cash flows.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)* (“ASU 2016-02”). These amendments require the recognition of lease assets and lease liabilities on the balance sheet by lessees for those leases currently classified as operating leases under ASC 840, *Leases*. These amendments also require qualitative disclosures along with specific quantitative disclosures. These amendments are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted. Entities are required to apply the amendments at the beginning of the earliest period presented using a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements, and there are certain optional practical expedients that an entity may elect to apply. The Company expects the adoption of ASU 2016-02 to result in a material increase in the assets and liabilities on the consolidated balance sheets due to the amount of the Company’s lease commitments. However, the amendments will likely have an insignificant impact on our consolidated statements of income. The Company is continuing to evaluate the magnitude of the impact and related disclosures, as well as the timing and method of adoption, with respect to the optional practical expedients.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326) – Measurement of Credit Losses on Financial Instruments* (“ASU 2016-13”). These amendments require measurement and recognition of expected versus incurred credit losses for financial assets held. These amendments are effective for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the impact the guidance will have on its financial condition, results of operations and cash flows.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230) – Classification of Certain Cash Receipts and Cash Payments* (“ASU 2016-15”). These amendments clarify the presentation of cash receipts and payments in eight specific situations. These amendments are effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. These amendments will be applied using a retrospective transition method to each period presented. Early adoption is permitted, including adoption in an interim period. The Company does not expect the adoption of ASU 2016-15 to materially impact its financial condition, results of operations and cash flows.

In October 2016, the FASB issued ASU 2016-16, *Income Taxes (Topic 740) – Intra-Entity Transfers of Assets Other than Inventory* (“ASU 2016-16”). These amendments require recognition of the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. These amendments are effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within those annual reporting periods. These amendments will be applied using a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. Early adoption is permitted as of the beginning of an annual reporting period for which financial statements (interim or annual) have not been issued. The Company does not expect the adoption of ASU 2016-16 to materially impact its financial condition, results of operations and cash flows.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230) – Restricted Cash (A Consensus of the FASB Emerging Issues Task Force)* (“ASU 2016-18”). These amendments clarify how entities should present restricted cash and restricted cash equivalents in the statement of cash flows, requiring entities to show the changes in the total of cash, cash equivalents, restricted cash and restricted cash equivalents. These amendments are effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. These amendments will be applied using a retrospective transition method to each period presented. Early adoption is permitted, including adoption in an interim period. The Company does not expect the adoption of ASU 2016-18 to materially impact its financial condition, results of operations and cash flows.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805) – Clarifying the Definition of a Business* (“ASU 2017-01”). These amendments clarify the definition of a business to help companies evaluate whether transactions should be accounted for as acquisitions or disposals of assets or businesses. These amendments are effective for annual periods beginning after December 15, 2017, including interim periods within those periods. These amendments will be applied prospectively. Early adoption is permitted in certain circumstances. The Company does not expect the adoption of ASU 2017-01 to materially impact its financial condition, results of operations and cash flows.

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 350) – Simplifying the Test for Goodwill Impairment* (“ASU 2017-04”). These amendments simplify the test for goodwill impairment by eliminating Step 2 from the impairment test, which required the entity to perform procedures to determine the fair value at the impairment testing date of its assets and liabilities following the procedure that would be required in determining fair value of assets acquired and liabilities assumed in a business combination. A goodwill impairment will now be the amount by which a reporting unit’s carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. These amendments are effective for annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019. These amendments will be applied on a prospective basis, with early adoption permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company does not expect the adoption of ASU 2017-04 to materially impact its financial condition, results of operations and cash flows.

In March 2017, the FASB issued ASU 2017-07, *Compensation – Retirement Benefits (Topic 715) – Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost* (“ASU 2017-07”). These amendments require that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net periodic benefit cost are required to be presented in the income statement separately from the service cost component outside of a subtotal of income from operations. If a separate line item is not used, the line items used in the income statement to present other components of net benefit cost must be disclosed. These amendments are effective for annual periods beginning after December 15, 2017, including interim periods within those annual periods. Early adoption is permitted as of the beginning of an annual period for which financial statements, interim or annual, have not been issued or made available for issuance. These amendments will be applied retrospectively for the presentation of the service cost component and the other components of net periodic pension cost and net periodic postretirement benefit cost in the income statement and prospectively, on and after the effective date, for the capitalization of the service cost component of net periodic pension cost and net periodic postretirement benefit in assets. The amendments allow a practical expedient that permits an employer to use the amounts disclosed in its pension and other postretirement benefit plan note for the prior comparative periods as the estimation basis for applying the retrospective presentation requirements. The Company does not expect the adoption of ASU 2017-07 to materially impact its financial condition, results of operations and cash flows.

New Accounting Standards Recently Adopted

In May 2017, the FASB issued ASU 2017-09, *Compensation – Stock Compensation (Topic 718) – Scope of Modification Accounting* (“ASU 2017-09”). These amendments provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. These amendments should be applied prospectively to changes in terms and conditions of awards occurring on or after the adoption date. The amendments are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. Early adoption is permitted, including in any interim period, for public business entities for reporting periods for which financial statements have not yet been issued. The early adoption of ASU 2017-09 on June 30, 2017 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

In March 2016, the FASB issued ASU 2016-05, *Derivatives and Hedging (Topic 815) – Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships* (“ASU 2016-05”). These amendments clarify that a change in the counterparty to a derivative instrument that has been designated as the hedging instrument under Topic 815 does not, in and of itself, require dedesignation of that hedging relationship provided that all other hedge accounting criteria continue to be met. These amendments are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The adoption of ASU 2016-05 on January 1, 2017 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

[Table of Contents](#)

In March 2016, the FASB issued ASU 2016-09, *Compensation – Stock Compensation (Topic 718) – Improvements to Employee Share-Based Payment Accounting* (“ASU 2016-09”). These amendments are intended to simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. These amendments are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. The adoption of ASU 2016-09 on January 1, 2017 resulted in stock-based compensation excess tax benefits or deficiencies reflected in the consolidated statements of operations on a prospective basis as a component of the provision for income taxes. Prior to the adoption, these benefits or deficiencies were recognized in equity. Additionally, the Company’s consolidated statements of cash flows now include excess tax benefits as an operating activity, with prior periods adjusted accordingly. The presentation requirements for cash flows related to employee taxes paid for withheld shares had no impact to any of the periods presented on the Company’s consolidated cash flows statements since such cash flows have historically been presented as a financing activity. Finally, the Company has elected to account for forfeitures as they occur, rather than estimating expected forfeitures.

As a result of the adoption of ASU 2016-09, the Condensed Consolidated Statement of Cash Flows for the six months ended June 30, 2016 was adjusted as follows: a \$2.1 million increase to net cash provided by operating activities and a \$2.1 million decrease to net cash provided by financing activities. Additionally, the Condensed Consolidated Statement of Changes in Shareholders’ Equity for the six months ended June 30, 2017 reflects a cumulative effect of accounting change of \$0.2 million to “Additional paid-in capital” and \$(0.2) million to “Retained earnings” related to the change in accounting for forfeitures.

Note 2. Acquisitions

Telecommunications Asset Acquisition

On April 24, 2017, the Company entered into a Purchase Agreement to acquire certain assets from a Global 2000 telecommunications services provider. The aggregate purchase price of \$7.5 million was paid on May 31, 2017, using cash on hand, resulting in \$6.0 million of property and equipment and \$1.5 million of customer relationship intangibles. The Purchase Agreement contains customary representations and warranties, indemnification obligations and covenants. The Telecommunications Asset acquisition was completed to strengthen and create new partnerships for the Company and expand its geographic footprint in North America. The results of the Telecommunications Assets’ operations have been included in the Company’s consolidated financial statements since its acquisition on May 31, 2017.

The Company accounted for the Telecommunications Asset acquisition in accordance with ASC 805, *Business Combinations*, whereby the fair value of the purchase price was allocated to the tangible and identifiable intangible assets acquired based on their estimated fair values as of the closing date. The Company completed its analysis of the purchase price allocation during the second quarter of 2017.

Clearlink

On April 1, 2016, the Company acquired 100% of the outstanding membership units of Clearlink through a merger of Clearlink with and into a subsidiary of the Company (the “Merger”). Clearlink, with its operations located in the United States, is an inbound demand generation and sales conversion platform serving numerous Fortune 500 business-to-consumer and business-to-business clients across various industries and subsectors, including telecommunications, satellite television, home security and insurance. The results of Clearlink’s operations have been included in the Company’s consolidated financial statements since April 1, 2016 (the “Clearlink acquisition date”). The strategic acquisition of Clearlink expands the Company’s suite of service offerings while creating differentiation in the marketplace, broadening its addressable market opportunity and extending executive level reach within the Company’s existing clients’ organization. This resulted in the Company paying a substantial premium for Clearlink resulting in the recognition of goodwill. Pursuant to Federal income tax laws, intangible assets and goodwill from the Clearlink acquisition are deductible over a 15-year amortization period.

[Table of Contents](#)

The Clearlink purchase price totaled \$207.9 million, consisting of the following (in thousands):

	Total
Cash (1)	\$ 209,186
Working capital adjustment	(1,278)
	<u>\$ 207,908</u>

(1) Funded through borrowings under the Company's credit agreement. See Note 10, Borrowings, for more information.

Approximately \$2.6 million of the purchase price was placed in an escrow account as security for the indemnification obligations of Clearlink's members under the merger agreement. The escrow was released pursuant to the terms of the escrow agreement, but the Company has subsequently asserted a claim of approximately \$0.4 million against the Clearlink members, which claim remains under negotiation between the parties.

The following table summarizes the final purchase price allocation of the fair values of the assets acquired and liabilities assumed, all included in the Americas segment (in thousands):

	Amount
Cash and cash equivalents	\$ 2,584
Receivables (1)	16,801
Prepaid expenses	<u>1,553</u>
Total current assets	20,938
Property and equipment	12,869
Goodwill	70,563
Intangibles	121,400
Deferred charges and other assets	229
Accounts payable	(3,564)
Accrued employee compensation and benefits	(1,610)
Income taxes payable	(340)
Deferred revenue	(4,620)
Other accrued expenses and current liabilities	<u>(6,324)</u>
Total current liabilities	(16,458)
Other long-term liabilities	<u>(1,633)</u>
	<u>\$ 207,908</u>

(1) The fair value equals the gross contractual value of the receivables.

The Company accounted for the Clearlink acquisition in accordance with ASC 805, *Business Combinations* ("ASC 805"), whereby the purchase price paid was allocated to the tangible and identifiable intangibles acquired and liabilities assumed from Clearlink based on their estimated fair values as of the closing date. The Company completed its analysis of the purchase price allocation during the fourth quarter of 2016 and the resulting adjustments were recorded in accordance with ASU 2015-16, *Business Combinations (Topic 805) Simplifying the Accounting for Measurement-Period Adjustments*.

Fair values are based on management's estimates and assumptions including variations of the income approach, the cost approach and the market approach.

The following table presents the Company's purchased intangibles assets as of April 1, 2016, the Clearlink acquisition date (in thousands):

	Amount Assigned	Weighted Average Amortization Period (years)
Customer relationships	\$ 63,800	13
Trade name	2,400	7
Non-compete agreements	1,800	3

Indefinite-lived domain names	52,700	N/A
	<u>\$ 121,400</u>	7

The amount of Clearlink's revenues and net income since the April 1, 2016 acquisition date, included in the Company's Condensed Consolidated Statements of Operations for both the three and six months ended June 30, 2016, were as follows (in thousands):

	From April 1, 2016 Through June 30, 2016
Revenues	\$ 36,362
Net income	\$ 791

The following table presents the unaudited pro forma combined revenues and net earnings as if Clearlink had been included in the consolidated results of the Company for the entire three and six month periods ended June 30, 2016. The pro forma financial information is not indicative of the results of operations that would have been achieved if the acquisition and related borrowings had taken place on January 1, 2016 (in thousands):

	Three Months Ended June 30, 2016	Six Months Ended June 30, 2016
Revenues	\$ 364,403	\$ 718,977
Net income	\$ 10,975	\$ 25,895
Net income per common share:		
Basic	\$ 0.26	\$ 0.62
Diluted	\$ 0.26	\$ 0.62

These amounts were calculated to reflect the additional depreciation, amortization, interest expense and rent expense that would have been incurred assuming the fair value adjustments and borrowings occurred on January 1, 2016, together with the consequential tax effects. In addition, these amounts exclude costs incurred which were directly attributable to the acquisition, and which did not have a continuing impact on the combined companies' operating results. Included in these costs are advisory and legal costs, net of the tax effects.

Merger and integration costs associated with Clearlink included in "General and administrative" costs in the accompanying Condensed Consolidated Statement of Operations were as follows (none in 2017) (in thousands):

	Three Months Ended June 30, 2016	Six Months Ended June 30, 2016
Americas	\$ 29	\$ 29
Other	2,934	4,376
	<u>\$ 2,963</u>	<u>\$ 4,405</u>

Note 3. Costs Associated with Exit or Disposal Activities

During 2011 and 2010, the Company announced several initiatives to streamline excess capacity through targeted seat reductions (the “Exit Plans”) in an on-going effort to manage and optimize capacity utilization. These Exit Plans included, but were not limited to, closing customer engagement centers in the Philippines, the United Kingdom, Ireland and South Africa and consolidating leased space in various locations in the U.S. and the Netherlands. These Exit Plans impacted approximately 800 employees.

The Company paid \$16.2 million in cash through December 31, 2016 under these Exit Plans for lease obligations and facility exit costs, severance and related costs and legal-related costs. As of December 31, 2016, there were no remaining outstanding liabilities related to the Exit Plans.

The following table summarizes the accrued liability associated with the Exit Plans’ exit or disposal activities and related charges for the three and six months ended June 30, 2016 (none in 2017) (in thousands):

	Three Months Ended June 30, 2016	Six Months Ended June 30, 2016
Beginning accrual	\$ 527	\$ 733
Cash payments (1)	(208)	(414)
Ending accrual	<u>\$ 319</u>	<u>\$ 319</u>

Note 4. Fair Value

ASC 820 *Fair Value Measurements and Disclosures* (“ASC 820”) requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of observable or unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company’s market assumptions. This hierarchy requires the use of observable market data when available. These two types of inputs have created the following fair value hierarchy:

- Level 1 — Quoted prices for identical instruments in active markets.
- Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 — Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable .

Fair Value of Financial Instruments — The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

- Cash, short-term and other investments, investments held in rabbi trust and accounts payable — The carrying values for cash, short-term and other investments, investments held in rabbi trust and accounts payable approximate their fair values.
- Foreign currency forward contracts and options — Foreign currency forward contracts and options, including premiums paid on options, are recognized at fair value based on quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk.
- Embedded derivatives — Embedded derivatives within certain hybrid lease agreements are bifurcated from the host contract and recognized at fair value based on pricing models or formulas using significant unobservable inputs, including adjustments for credit risk.
- Long-term debt — The carrying value of long-term debt approximates its estimated fair value as it re-prices at varying interest rates.
- Contingent consideration — The contingent consideration is recognized at fair value based on the discounted cash flow method.

[Table of Contents](#)

Fair Value Measurements — ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. ASC 820-10-20 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

ASC 825 *Financial Instruments* (“ASC 825”) permits an entity to measure certain financial assets and financial liabilities at fair value with changes in fair value recognized in earnings each period. The Company has not elected to use the fair value option permitted under ASC 825 for any of its financial assets and financial liabilities that are not already recorded at fair value.

Determination of Fair Value — The Company generally uses quoted market prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access to determine fair value, and classifies such items in Level 1. Fair values determined by Level 2 inputs utilize inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, and inputs other than quoted market prices that are observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

If quoted market prices are not available, fair value is based upon internally developed valuation techniques that use, where possible, current market-based or independently sourced market parameters, such as interest rates, currency exchange rates, etc. Assets or liabilities valued using such internally generated valuation techniques are classified according to the lowest level input or value driver that is significant to the valuation. Thus, an item may be classified in Level 3 even though there may be some significant inputs that are readily observable.

The following section describes the valuation methodologies used by the Company to measure assets and liabilities at fair value on a recurring basis, including an indication of the level in the fair value hierarchy in which each asset or liability is generally classified.

Foreign Currency Forward Contracts and Options — The Company enters into foreign currency forward contracts and options over the counter and values such contracts using quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk. The key inputs include forward or option foreign currency exchange rates and interest rates. These items are classified in Level 2 of the fair value hierarchy.

Embedded Derivatives — The Company uses significant unobservable inputs to determine the fair value of embedded derivatives, which are classified in Level 3 of the fair value hierarchy. These unobservable inputs include expected cash flows associated with the lease, currency exchange rates on the day of commencement, as well as forward currency exchange rates, the results of which are adjusted for credit risk. These items are classified in Level 3 of the fair value hierarchy. See Note 6, Financial Derivatives, for further information.

Investments Held in Rabbi Trust — The investment assets of the rabbi trust are valued using quoted market prices in active markets, which are classified in Level 1 of the fair value hierarchy. For additional information about the deferred compensation plan, refer to Note 7, Investments Held in Rabbi Trust, and Note 16, Stock-Based Compensation.

Contingent Consideration — The Company uses significant unobservable inputs to determine the fair value of contingent consideration, which is classified in Level 3 of the fair value hierarchy. The contingent consideration recorded related to the acquisition of Qelp B.V. and its subsidiary (together, known as “Qelp”) on July 2, 2015 and liabilities assumed as part of the Clearlink acquisition was recognized at fair value using a discounted cash flow methodology and a discount rate of approximately 14.0% and 10.0%, respectively. The discount rates vary dependent on the specific risks of each acquisition including the country of operation, the nature of services and complexity of the acquired business, and other similar factors, all of which are significant inputs not observable in the market. Significant increases or decreases in any of the inputs in isolation would result in a significantly higher or lower fair value measurement.

(1) Liability acquired as part of the Clearlink acquisition on April 1, 2016. See Note 2, Acquisitions, for further information.

The Company recorded a fair value gain of \$2.6 million to the Qelp contingent consideration in "General and administrative" during the year ended December 31, 2016 due to the execution of an addendum to the Qelp purchase agreement, subject to which the Company agreed to pay the sellers EUR 4.0 million by June 30, 2017. The Company paid \$4.4 million in May 2017 to settle the outstanding contingent consideration obligation.

The Company recorded a fair value gain of \$0.3 million in "General and administrative" during the three and six months ended June 30, 2017 to the Clearlink contingent consideration due to changes in the probability of achievement of certain revenue targets. The Company recorded a fair value gain of \$0.4 million in "General and administrative" during the six months ended June 30, 2017 to the Clearlink contingent consideration upon settlement of one of the contingent consideration liabilities for \$0.1 million. The Company recorded a fair value loss of \$0.3 million in "General and administrative" during the year ended December 31, 2016 to the Clearlink contingent consideration due to changes in the probability of achievement of certain revenue targets.

[Table of Contents](#)

The Company accretes interest expense each period using the effective interest method until the contingent consideration reaches the estimated remaining future value of \$1.1 million. Interest expense related to the contingent consideration is included in “Interest (expense)” in the accompanying Condensed Consolidated Statements of Operations.

Non-Recurring Fair Value

Certain assets, under certain conditions, are measured at fair value on a nonrecurring basis utilizing Level 3 inputs, like those associated with acquired businesses, including goodwill, other intangible assets and other long-lived assets. For these assets, measurement at fair value in periods subsequent to their initial recognition would be applicable if these assets were determined to be impaired. The adjusted carrying values for assets measured at fair value on a nonrecurring basis (no liabilities) subject to the requirements of ASC 820 were not material at June 30, 2017 and December 31, 2016.

The following table summarizes the total impairment losses related to nonrecurring fair value measurements of certain assets (no liabilities) subject to the requirements of ASC 820 (in thousands) (none in 2016):

	Total Impairment (Loss)	
	Three Months Ended June 30, 2017	Six Months Ended June 30, 2017
Americas:		
Property and equipment, net	\$ (4,189)	\$ (4,391)

In connection with the closure of an under-utilized customer contact management center in the U.S., the Company recorded an impairment charge of \$4.2 million during the three and six months ended June 30, 2017 related to leasehold improvements which were not recoverable and equipment, furniture and fixtures that could not be redeployed to other locations.

During the six months ended June 30, 2017, the Company recorded an impairment charge of \$0.2 million related to the write-down of a vacant and unused parcel of land in the U.S. to its estimated fair value.

The Company performs its annual goodwill impairment test during the third quarter, or more frequently if indicators of impairment exist.

For the annual goodwill impairment test, the Company elected to forgo the option to first assess qualitative factors and performed its annual two-step goodwill impairment test as of July 31, 2016. Under ASC 350, the carrying value of assets is calculated at the reporting unit level. The quantitative assessment of goodwill includes comparing a reporting unit's calculated fair value to its carrying value. The calculation of fair value requires significant

[Table of Contents](#)

judgments including estimation of future cash flows, which is dependent on internal forecasts, estimation of the long-term rate of growth, the useful life over which cash flows will occur and determination of the Company's weighted average cost of capital. Changes in these estimates and assumptions could materially affect the determination of fair value and/or conclusions on goodwill impairment for each reporting unit. If the fair value of the reporting unit is less than its carrying value, goodwill is considered impaired and an impairment loss is recorded to the extent that the fair value of the goodwill within the reporting unit is less than its carrying value.

The process of evaluating the fair value of the reporting units is highly subjective and requires significant judgment and estimates as the reporting units operate in a number of markets and geographical regions. The Company used an average of the income and market approaches to determine its best estimates of fair value which incorporated the following significant assumptions:

- Revenue projections, including revenue growth during the forecast periods;
- EBITDA margin projections over the forecast periods;
- Estimated income tax rates;
- Estimated capital expenditures; and
- Discount rates based on various inputs, including the risks associated with the specific reporting units as well as their revenue growth and EBITDA margin assumptions.

As of July 31, 2016, the Company concluded that goodwill was not impaired for all six of its reporting units with goodwill, based on generally accepted valuation techniques and the significant assumptions outlined above. While the fair values of four of the six reporting units were substantially in excess of their carrying value, the Qelp reporting unit's fair value exceeded its carrying value (although not substantially) and the newly acquired Clearlink reporting unit's fair value approximated its carrying value due to the proximity to the acquisition date of April 1, 2016.

The Qelp and Clearlink reporting units are at risk of future impairment if projected operating results are not met or other inputs into the fair value measurement change. However, as of June 30, 2017, there were no indicators of impairment related to Qelp's \$10.3 million of goodwill or Clearlink's \$70.6 million of goodwill.

Note 6. Financial Derivatives

Cash Flow Hedges – The Company has derivative assets and liabilities relating to outstanding forward contracts and options, designated as cash flow hedges, as defined under ASC 815 *Derivatives and Hedging* (“ASC 815”), consisting of Philippine Peso, Costa Rican Colon, Hungarian Forint and Romanian Leu contracts. These contracts are entered into to protect against the risk that the eventual cash flows resulting from such transactions will be adversely affected by changes in exchange rates.

The deferred gains (losses) and related taxes on the Company's cash flow hedges recorded in “Accumulated other comprehensive income (loss)” (“AOCI”) in the accompanying Condensed Consolidated Balance Sheets are as follows (in thousands):

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Deferred gains (losses) in AOCI	\$ (2,126)	\$ (2,295)
Tax on deferred gains (losses) in AOCI	37	69
Deferred gains (losses) in AOCI, net of taxes	<u>\$ (2,089)</u>	<u>\$ (2,226)</u>
Deferred gains (losses) expected to be reclassified to “Revenues” from AOCI during the next twelve months	<u>\$ (2,126)</u>	

Deferred gains (losses) and other future reclassifications from AOCI will fluctuate with movements in the underlying market price of the forward contracts and options.

Net Investment Hedge – The Company enters into foreign exchange forward contracts to hedge its net investment in certain foreign operations, as defined under ASC 815. The purpose of these derivative instruments is to protect the Company's interests against the risk that the net assets of certain foreign subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to the Company's foreign currency-based investments in these subsidiaries.

Non-Designated Hedges

Foreign Currency Forward Contracts – The Company also periodically enters into foreign currency hedge contracts that are not designated as hedges as defined under ASC 815. The purpose of these derivative instruments is to protect the Company’s interests against adverse foreign currency moves relating primarily to intercompany receivables and payables, and other assets and liabilities that are denominated in currencies other than the Company’s subsidiaries’ functional currencies. These contracts generally do not exceed 180 days in duration.

Embedded Derivatives – The Company enters into certain lease agreements which require payments not denominated in the functional currency of any substantial party to the agreements. The foreign currency component of these contracts meets the criteria under ASC 815 as embedded derivatives. The Company has determined that the embedded derivatives are not clearly and closely related to the economic characteristics and risks of the host contracts (lease agreements), and separate, stand-alone instruments with the same terms as the embedded derivative instruments would otherwise qualify as derivative instruments, thereby requiring separation from the lease agreements and recognition at fair value. Such instruments do not qualify for hedge accounting under ASC 815.

The Company had the following outstanding foreign currency forward contracts and options, and embedded derivatives (in thousands):

Master netting agreements exist with each respective counterparty to reduce credit risk by permitting net settlement of derivative positions. In the event of default by the Company or one of its counterparties, these agreements include a set-off clause that provides the non-defaulting party the right to net settle all derivative transactions, regardless of the currency and settlement date. The maximum amount of loss due to credit risk that, based on gross fair value, the Company would incur if parties to the derivative transactions that make up the concentration failed to perform according to the terms of the contracts was \$0.4 million and \$3.9 million as of June 30, 2017 and December 31, 2016, respectively. After consideration of these netting arrangements and offsetting positions by counterparty, the total net settlement amount as it relates to these positions are asset positions of \$3.6 million as of December 31, 2016 (none at June 30, 2017) and liability positions of \$4.1 million and \$1.6 million as of June 30, 2017 and December 31, 2016, respectively.

Although legally enforceable master netting arrangements exist between the Company and each counterparty, the Company has elected to present the derivative assets and derivative liabilities on a gross basis in the accompanying Condensed Consolidated Balance Sheets. Additionally, the Company is not required to pledge, nor is it entitled to receive, cash collateral related to these derivative transactions.

Note 10. Borrowings

On May 12, 2015, the Company entered into a \$440 million revolving credit facility (the "2015 Credit Agreement") with a group of lenders and KeyBank National Association, as Lead Arranger, Sole Book Runner, Administrative Agent, Swing Line Lender and Issuing Lender ("KeyBank"). The 2015 Credit Agreement is subject to certain borrowing limitations and includes certain customary financial and restrictive covenants.

The 2015 Credit Agreement includes a \$200 million alternate-currency sub-facility, a \$10 million swingline sub-facility and a \$35 million letter of credit sub-facility, and may be used for general corporate purposes including acquisitions, share repurchases, working capital support and letters of credit, subject to certain limitations. The Company is not currently aware of any inability of its lenders to provide access to the full commitment of funds that exist under the revolving credit facility, if necessary. However, there can be no assurance that such facility will be available to the Company, even though it is a binding commitment of the financial institutions.

Less: Current portion	-	-
Total long-term debt	<u>\$ 267,000</u>	<u>\$ 267,000</u>

On April 1, 2016, the Company borrowed \$216.0 million under its 2015 Credit Agreement in connection with the acquisition of Clearlink.

The 2015 Credit Agreement matures on May 12, 2020, and has no varying installments due.

Borrowings under the 2015 Credit Agreement bear interest at the rates set forth in the 2015 Credit Agreement. In addition, the Company is required to pay certain customary fees, including a commitment fee determined quarterly based on the Company's leverage ratio and due quarterly in arrears as calculated on the average unused amount of the 2015 Credit Agreement.

The 2015 Credit Agreement is guaranteed by all of the Company's existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all the direct foreign subsidiaries of the Company and those of the guarantors.

In May 2015, the Company paid an underwriting fee of \$0.9 million for the 2015 Credit Agreement, which is deferred and amortized over the term of the loan, along with the deferred loan fees of \$0.4 million related to the previous credit agreement.

The following table presents information related to our credit agreements (dollars in thousands):

Note 11. Accumulated Other Comprehensive Income (Loss)

The Company presents data in the Condensed Consolidated Statements of Changes in Shareholders' Equity in accordance with ASC 220, *Comprehensive Income* ("ASC 220"). ASC 220 establishes rules for the reporting of comprehensive income (loss) and its components. The components of accumulated other comprehensive income (loss) consist of the following (in thousands):

As discussed in Note 12, Income Taxes, earnings associated with the Company's investments in its foreign subsidiaries are considered to be indefinitely reinvested and no provision for income taxes on those earnings or translation adjustments have been provided.

Note 12. Income Taxes

The Company's effective tax rate was 15.0% and 29.9% for the three months ended June 30, 2017 and 2016, respectively. The decrease in the effective tax rates is primarily due to the recognition of a \$1.2 million previously unrecognized tax benefit arising from the effective settlement of the Canadian Revenue Agency audit. The decrease in the effective tax rate was also affected by several additional factors, including shifts in earnings among the various jurisdictions in which the Company operates, none of which are individually material. The difference between the Company's effective tax rate as compared to the U.S. statutory federal income tax rate of 35.0% was primarily due to the aforementioned factors as well as the recognition of tax benefits resulting from foreign tax rate differentials, income earned in certain tax holiday jurisdictions, changes in unrecognized tax benefits, adjustments of valuation allowances and tax credits, partially offset by the tax impact of permanent differences and foreign withholding taxes.

The Company's effective tax rate was 22.9% and 30.4% for the six months ended June 30, 2017 and 2016, respectively. The decrease in the effective tax rates is primarily due to the recognition of a \$1.2 million previously unrecognized tax benefit arising from the effective settlement of the Canadian Revenue Agency audit and the recognition of a \$0.9 million tax benefit resulting from the adoption of ASU 2016-09 on January 1, 2017. The decrease in the effective tax rate was also affected by several additional factors, including shifts in earnings among the various jurisdictions in which the Company operates, none of which are individually material. The difference between the Company's effective tax rate as compared to the U.S. statutory federal income tax rate of 35.0% was primarily due to the aforementioned factors as well as the recognition of tax benefits resulting from foreign tax rate differentials, income earned in certain tax holiday jurisdictions, changes in unrecognized tax benefits, adjustments of valuation allowances and tax credits, partially offset by the tax impact of permanent differences and foreign withholding taxes.

Earnings associated with the investments in the Company's foreign subsidiaries are considered to be indefinitely reinvested outside of the U.S. Therefore, a U.S. provision for income taxes on those earnings or translation adjustments has not been recorded, as permitted by criterion outlined in ASC 740, *Income Taxes* ("ASC 740"). Determination of any unrecognized deferred tax liability related to investments in foreign subsidiaries is not practicable due to the inherent complexity of the multi-national tax environment in which the Company operates.

The Company received assessments for the Canadian 2003-2009 audit. Requests for Competent Authority Assistance were filed with both the Canadian Revenue Agency and the U.S. Internal Revenue Service and the Company paid mandatory security deposits to Canada as part of this process. The total amount of deposits, net of the effects of foreign exchange rate adjustments, was \$13.8 million as of December 31, 2016 (none at June 30, 2017) and was included in "Deferred charges and other assets" in the accompanying Condensed Consolidated Balance Sheet. As of June 30, 2017, the Company determined that all material aspects of the Canadian audit were effectively settled pursuant to ASC 740. As a result, the Company recognized a net income tax benefit of \$1.2 million and the deposits were applied against the anticipated liability.

With the effective settlement of the Canadian audit, the Company has no significant tax jurisdictions under audit; however, the Company is currently under audit in several tax jurisdictions. The Company believes it is adequately reserved for the remaining audits and their resolution is not expected to have a material impact on its financial condition and results of operations.

Note 13. Earnings Per Share

Basic earnings per share are based on the weighted average number of common shares outstanding during the periods. Diluted earnings per share includes the weighted average number of common shares outstanding during the respective periods and the further dilutive effect, if any, from stock appreciation rights, restricted stock, restricted stock units and shares held in rabbi trust using the treasury stock method.

The numbers of shares used in the earnings per share computation are as follows (in thousands):

	<u>Three Months Ended June 30,</u>		<u>Six Months Ended June 30,</u>	
	<u>2017</u>	<u>2016</u>	<u>2017</u>	<u>2016</u>

On August 18, 2011, the Company's Board of Directors (the "Board") authorized the Company to purchase up to 5.0 million shares of its outstanding common stock (the "2011 Share Repurchase Program"). On March 16, 2016, the Board authorized an increase of 5.0 million shares to the 2011 Share Repurchase Program for a total of 10.0 million shares. A total of 5.3 million shares have been repurchased under the 2011 Share Repurchase Program since inception. The shares are purchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price, management discretion and general market conditions. The 2011 Share Repurchase Program has no expiration date.

There were no shares repurchased under the Company's share repurchase programs during the three and six months ended June 30, 2017 and 2016.

During the six months ended June 30, 2017, the Company entered into agreements with third-party vendors in the ordinary course of business whereby the Company committed to purchase goods and services used in its normal operations. These agreements generally are not cancelable, range from one to five year periods and may contain fixed or minimum annual commitments. Certain of these agreements allow for renegotiation of the minimum annual commitments. The following is a schedule of the future minimum purchases remaining under the agreements as of June 30, 2017 (in thousands):

The July 2015 Qelp acquisition included contingent consideration of \$6.0 million, based on achieving targets tied to revenues and EBITDA for the years ended December 31, 2016, 2017 and 2018. On September 26, 2016, the Company entered into an addendum to the Qelp purchase agreement with the sellers to settle the outstanding contingent consideration for EUR 4.0 million to be paid by June 30, 2017. The Company paid \$4.4 million in May 2017 to settle the outstanding contingent consideration obligation.

As part of the April 2016 Clearlink acquisition, the Company assumed contingent consideration liabilities related to four separate acquisitions made by Clearlink in 2015 and 2016, prior to the Merger. The fair value of the contingent consideration related to these previous acquisitions was \$2.8 million as of April 1, 2016 and was based on achieving targets primarily tied to revenues for varying periods of time during 2016 and 2017. As of June 30, 2017, the fair value of the remaining contingent consideration was \$1.1 million. The estimated future value of the contingent consideration is \$1.1 million and is expected to be paid on varying dates through October 2017.

Loss Contingency

The Company, from time to time, is involved in legal actions arising in the ordinary course of business. With respect to these matters, management believes that the Company has adequate legal defenses and/or when possible and appropriate, provided adequate accruals related to those matters such that the ultimate outcome will not have a material adverse effect on the Company's financial position or results of operations.

Split-Dollar Life Insurance Arrangement

In 1996, the Company entered into a split-dollar life insurance arrangement to benefit the former Chairman and Chief Executive Officer of the Company. Under the terms of the arrangement, the Company retained a collateral interest in the policy to the extent of the premiums paid by the Company. The postretirement benefit obligation included in "Other long-term liabilities" and the unrealized gains (losses) included in "Accumulated other comprehensive income" in the accompanying Condensed Consolidated Balance Sheets were as follows (in thousands):

	June 30, 2017	December 31, 2016
Postretirement benefit obligation	\$ 21	\$ 27
Unrealized gains (losses) in AOCI (1)	\$ 175	\$ 200

(1) Unrealized gains (losses) are impacted by changes in discount rates related to the postretirement obligation.

Note 16. Stock-Based Compensation

The Company's stock-based compensation plans include the 2011 Equity Incentive Plan, the Non-Employee Director Fee Plan and the Deferred Compensation Plan. The following table summarizes the stock-based compensation expense (primarily in the Americas), income tax benefits related to the stock-based compensation and excess tax benefits (deficiencies) (in thousands):

(1) Included in "General and administrative" costs in the accompanying Condensed Consolidated Statements of Operations.

(2) Included in "Income taxes" in the accompanying Condensed Consolidated Statements of Operations.

(3) Included in "Additional paid-in capital" in the accompanying Condensed Consolidated Statement of Changes in Shareholders' Equity.

There were no capitalized stock-based compensation costs as of June 30, 2017 and December 31, 2016.

Beginning January 1, 2017, as a result of the adoption of ASU 2016-09, the Company began accounting for forfeitures as they occur, rather than estimating expected forfeitures. The net cumulative effect of this change was recognized as a \$0.2 million reduction to retained earnings as of January 1, 2017. Additionally, excess tax benefits (deficiencies) from stock compensation are included in "Income taxes" in the accompanying Condensed Consolidated Statements of Income subsequent to the adoption of ASU 2016-09.

2011 Equity Incentive Plan — The Company's Board of Directors (the "Board") adopted the Sykes Enterprises, Incorporated 2011 Equity Incentive Plan (the "2011 Plan") on March 23, 2011, as amended on May 11, 2011 to reduce the number of shares of common stock available to 4.0 million shares. The 2011 Plan was approved by the shareholders at the May 2011 annual shareholders' meeting. The 2011 Plan replaced and superseded the Company's 2001 Equity Incentive Plan (the "2001 Plan"), which expired on March 14, 2011. The outstanding awards granted under the 2001 Plan will remain in effect until their exercise, expiration or termination. The 2011 Plan permits the grant of restricted stock, stock appreciation rights, stock options and other stock-based awards to certain employees of the Company, members of the Company's Board and certain non-employees who provide services to the Company in order to encourage them to remain in the employment of, or to faithfully provide services to, the Company and to increase their interest in the Company's success.

[Table of Contents](#)

Stock Appreciation Rights— The Board, at the recommendation of the Compensation and Human Resources Development Committee (the “Compensation Committee”), has approved in the past, and may approve in the future, awards of stock-settled stock appreciation rights (“SARs”) for eligible participants. SARs represent the right to receive, without payment to the Company, a certain number of shares of common stock, as determined by the Compensation Committee, equal to the amount by which the fair market value of a share of common stock at the time of exercise exceeds the grant price. The SARs are granted at the fair market value of the Company’s common stock on the date of the grant and vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date. The SARs have a term of 10 years from the date of grant. The fair value of each SAR is estimated on the date of grant using the Black-Scholes valuation model that uses various assumptions.

The following table summarizes the assumptions used to estimate the fair value of SARS granted:

	Six Months Ended June 30,	
	2017	2016
Expected volatility	19.3%	25.3%
Weighted-average volatility	19.3%	25.3%
Expected dividend rate	0.0%	0.0%
Expected term (in years)	5.0	5.0
Risk-free rate	1.9%	1.5%

The following table summarizes SARs activity as of June 30, 2017 and for the six months then ended:

Stock Appreciation Rights	Shares (000s)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (000s)

Vested	(241)	\$ 7.69
Forfeited or expired	-	\$ -
Nonvested at June 30, 2017	670	\$ 6.88

As of June 30, 2017, there was \$4.0 million of total unrecognized compensation cost, net of actual forfeitures, related to nonvested SARs granted under the 2011 Plan. This cost is expected to be recognized over a weighted average period of 1.5 years.

Restricted Shares – The Board, at the recommendation of the Compensation Committee, has approved in the past, and may approve in the future, awards of performance and employment-based restricted shares (“restricted shares”) for eligible participants. In some instances, where the issuance of restricted shares has adverse tax consequences to the recipient, the Board may instead issue restricted stock units (“RSUs”). The restricted shares are shares of the Company’s common stock (or in the case of RSUs, represent an equivalent number of shares of the Company’s common stock) which are issued to the participant subject to (a) restrictions on transfer for a period of time and (b) forfeiture under certain conditions. The performance goals, including revenue growth and income from operations targets, provide a range of vesting possibilities from 0% to 100% and will be measured at the end of the performance period. If the performance conditions are met for the performance period, the shares will vest and all restrictions on the transfer of the restricted shares will lapse (or in the case of RSUs, an equivalent number of shares of the Company’s common stock will be issued to the recipient). The Company recognizes compensation cost, net of actual forfeitures, based on the fair value (which approximates the current market price) of the restricted shares (and RSUs) on the date of grant ratably over the requisite service period based on the probability of achieving the performance goals.

Changes in the probability of achieving the performance goals from period to period will result in corresponding changes in compensation expense. The employment-based restricted shares currently outstanding vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date.

The following table summarizes nonvested restricted shares/RSUs activity as of June 30, 2017 and for the six months then ended:

Nonvested Restricted Shares and RSUs	Shares (000s)	Weighted Average Grant- Date Fair Value
Nonvested at January 1, 2017	1,136	\$ 25.47

As of June 30, 2017, there was \$27.0 million of total unrecognized compensation cost, net of actual forfeitures, related to nonvested restricted shares/RsUs granted under the 2011 Plan. This cost is expected to be recognized over a weighted average period of 2.0 years.

Non-Employee Director Fee Plan — The Company’s 2004 Non-Employee Director Fee Plan (the “2004 Fee Plan”), as amended on May 17, 2012, provided that all new non-employee directors joining the Board would receive an initial grant of shares of common stock on the date the new director is elected or appointed, the number of which will be determined by dividing \$60,000 by the closing price of the Company’s common stock on the trading day immediately preceding the date a new director is elected or appointed, rounded to the nearest whole number of shares. The initial grant of shares vested in twelve equal quarterly installments, one-twelfth on the date of grant and an additional one-twelfth on each successive third monthly anniversary of the date of grant. The award lapses with respect to all unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares are forfeited.

The 2004 Fee Plan also provided that each non-employee director would receive, on the day after the annual shareholders’ meeting, an annual retainer for service as a non-employee director (the “Annual Retainer”). Prior to May 17, 2012, the Annual Retainer was \$95,000, of which \$50,000 was payable in cash, and the remainder was paid in stock. The annual grant of cash vested in four equal quarterly installments, one-fourth on the day following the annual meeting of shareholders, and an additional one-fourth on each successive third monthly anniversary of the date of grant. The annual grant of shares paid to non-employee directors prior to May 17, 2012 vests in eight equal quarterly installments, one-eighth on the day following the annual meeting of shareholders, and an additional one-eighth on each successive third monthly anniversary of the date of grant. On May 17, 2012, upon the recommendation of the Compensation Committee, the Board adopted the Fifth Amended and Restated Non-Employee Director Fee Plan (the “Amendment”), which increased the common stock component of the Annual Retainer by \$30,000, resulting in a total Annual Retainer of \$125,000, of which \$50,000 was payable in cash and the remainder paid in stock. In addition, the Amendment also changed the vesting period for the annual equity award, from a two-year vesting period, to a one-year vesting period (consisting of four equal quarterly installments, one-fourth on the date of grant and an additional one-fourth on each successive third monthly anniversary of the date of grant). The award lapses with respect to all unpaid cash and unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares and unpaid cash are forfeited.

In addition to the Annual Retainer award, the 2004 Fee Plan also provided for any non-employee Chairman of the Board to receive an additional annual cash award of \$100,000, and each non-employee director serving on a committee of the Board to receive an additional annual cash award. The additional annual cash award for the Chairperson of the Audit Committee is \$20,000 and Audit Committee members’ are entitled to an annual cash award of \$10,000. The annual cash awards for the Chairpersons of the Compensation Committee, Finance Committee and Nominating and Corporate Governance Committee are \$15,000, \$12,500 and \$12,500, respectively, and all other members of such committees are entitled to an annual cash award of \$7,500.

The 2004 Fee Plan expired in May 2014, prior to the 2014 annual shareholders’ meeting. In March 2014, upon the recommendation of the Compensation Committee, the Board determined that, following the expiration of the 2004 Fee Plan, the compensation of non-employee Directors should continue on the same terms as provided in the Fifth Amended and Restated Non-Employee Director Fee Plan, except the amounts of cash and equity grants shall be determined annually by the Board, and that the stock portion of such compensation would be issued under the 2011 Plan.

At the Board’s regularly scheduled meeting on December 10, 2014, upon the recommendation of the Compensation Committee, the Board determined that the amount of the cash and equity compensation payable to non-employee directors beginning on the date of the 2015 annual shareholders’ meeting would be increased as follows: cash compensation would be increased by \$5,000 per year to a total of \$55,000 and equity compensation would be increased by \$25,000 per year to a total of \$100,000. No change would be made in the additional amounts payable to the Chairman of the Board or the Chairs or members of the various Board committees for their service on such committees, and no changes would be made in the payment terms described above for such cash and equity compensation.

At the Board’s regularly scheduled meeting on December 6, 2016, upon the recommendation of the Compensation Committee, the Board determined that the amount of the cash compensation payable to non-employee directors beginning on the date of the 2017 annual shareholders’ meeting would be increased by \$15,000 per year to a total of \$70,000.

[Table of Contents](#)

The Board may pay additional cash compensation to any non-employee director for services on behalf of the Board over and above those typically expected of directors, including but not limited to service on a special committee of the Board. Directors who are executive officers of the Company receive no compensation for service as members of either the Board of Directors or any committees of the Board.

The following table summarizes nonvested common stock share award activity as of June 30, 2017 and for the six months then ended:

Nonvested Common Stock Share Awards	Shares (000s)	Weighted Average Grant- Date Fair Value

As of June 30, 2017, there was \$0.6 million of total unrecognized compensation cost, net of actual forfeitures, related to nonvested common stock share awards granted under the Fee Plan. This cost is expected to be recognized over a weighted average period of less than one year.

Deferred Compensation Plan — The Company’s non-qualified Deferred Compensation Plan (the “Deferred Compensation Plan”), which is not shareholder-approved, was adopted by the Board effective December 17, 1998. It was last amended and restated on December 9, 2015, effective as of January 1, 2016, and was subsequently amended on May 18, 2016, effective as of June 30, 2016, August 17, 2016, effective as of January 1, 2017 and May 25, 2017, effective as of July 1, 2017. Eligibility is limited to a select group of key management and employees who are expected to receive an annualized base salary (which will not take into account bonuses or commissions) that exceeds the amount taken into account for purposes of determining highly compensated employees under Section 414(q) of the Internal Revenue Code of 1986 based on the current year’s base salary and applicable dollar amounts. The Deferred Compensation Plan provides participants with the ability to defer between 1% and 80% of their compensation (between 1% and 100% prior to June 30, 2016, the effective date of the first amendment) until the participant’s retirement, termination, disability or death, or a change in control of the Company. Using the Company’s common stock, the Company matches 50% of the amounts deferred by participants on a quarterly basis up to a total of \$12,000 per year for the president, chief executive officer and executive vice presidents, \$7,500 per year for senior vice presidents, global vice presidents and vice presidents, and, effective January 1, 2017, \$5,000 per year for all other participants (there was no match for other participants prior to January 1, 2017, the effective date of the second amendment). Matching contributions and the associated earnings vest over a seven-year service period. Vesting will be accelerated in the event of the participant’s death or disability, a change in control or retirement (defined as separate from service after age 65). In the event of a distribution of benefits as a result of a change in control of the Company, the Company will increase the benefit by an amount sufficient to offset the income tax obligations created by the distribution of benefits. Deferred compensation amounts used to pay benefits, which are held in a rabbi trust, include investments in various mutual funds and shares of the Company’s common stock (see Note 7, Investments Held in Rabbi Trust). As of June 30, 2017 and December 31, 2016, liabilities of \$10.8 million and \$9.4 million, respectively, of the Deferred Compensation Plan were recorded in “Accrued employee compensation and benefits” in the accompanying Condensed Consolidated Balance Sheets.

[Table of Contents](#)

Additionally, the Company's common stock match associated with the Deferred Compensation Plan, with a carrying value of approximately \$2.1 million and \$1.8 million as of June 30, 2017 and December 31, 2016, respectively, is included in "Treasury stock" in the accompanying Condensed Consolidated Balance Sheets.

The following table summarizes nonvested common stock activity as of June 30, 2017 and for the six months then ended:

As of June 30, 2017, there was \$0.1 million of total unrecognized compensation cost, net of actual forfeitures, related to nonvested common stock granted under the Deferred Compensation Plan. This cost is expected to be recognized over a weighted average period of 3.7 years.

Note 17. Segments and Geographic Information

The Company operates within two regions, the Americas and EMEA. Each region represents a reportable segment comprised of aggregated regional operating segments, which portray similar economic characteristics. The Company aligns its business into two segments to effectively manage the business and support the customer care needs of every client and to respond to the demands of the Company's global customers.

The reportable segments consist of (1) the Americas, which includes the United States, Canada, Latin America, Australia and the Asia Pacific Rim, and provides outsourced customer engagement solutions (with an emphasis on inbound technical support, digital support and demand generation, and customer service) and technical staffing and (2) EMEA, which includes Europe, the Middle East and Africa, and provides outsourced customer engagement solutions (with an emphasis on technical support and customer service) and fulfillment services. The sites within Latin America, Australia and the Asia Pacific Rim are included in the Americas segment given the nature of the business and client profile, which is primarily made up of U.S.-based companies that are using the Company's services in these locations to support their customer engagement needs.

The Company's reportable segments are evaluated regularly by its chief operating decision maker to decide how to allocate resources and assess performance. The chief operating decision maker evaluates performance based upon stand-alone segment revenue and income (loss) from operations. Because assets by segment are not reported to or used by the Company's chief operating decision maker to allocate resources, or to assess performance, total assets by segment are not disclosed.

Note 19. Related Party Transactions

In January 2008, the Company entered into a lease for a customer engagement center located in Kingstree, South Carolina. The landlord, Kingstree Office One, LLC, is an entity controlled by John H. Sykes, the founder, former Chairman and Chief Executive Officer of the Company and the father of Charles Sykes, President and Chief Executive Officer of the Company. The lease payments on the 20-year lease were negotiated at or below market rates, and the lease is cancellable at the option of the Company. There are penalties for early cancellation which decrease over time. The Company paid \$0.1 million to the landlord during both the three months ended June 30, 2017 and 2016, and \$0.2 million during both the six months ended June 30, 2017 and 2016 under the terms of the lease.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Sykes Enterprises, Incorporated
400 North Ashley Drive
Tampa, Florida

We have reviewed the accompanying condensed consolidated balance sheet of Sykes Enterprises, Incorporated and subsidiaries (the “Company”) as of June 30, 2017, and the related condensed consolidated statements of operations and comprehensive income (loss) for the three-month and six-month periods ended June 30, 2017 and 2016, of changes in shareholders’ equity for the six-month period ended June 30, 2017, and of cash flows for the six-month periods ended June 30, 2017 and 2016. These interim financial statements are the responsibility of the Company’s management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Sykes Enterprises, Incorporated and subsidiaries as of December 31, 2016, and the related consolidated statements of operations, comprehensive income (loss), changes in shareholders’ equity, and cash flows for the year then ended (not presented herein); and in our report dated March 1, 2017, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2016 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with the condensed consolidated financial statements and notes included elsewhere in this report and the consolidated financial statements and notes in the Sykes Enterprises, Incorporated ("SYKES," "our," "we" or "us") Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the Securities and Exchange Commission ("SEC").

Our discussion and analysis may contain forward-looking statements (within the meaning of the Private Securities Litigation Reform Act of 1995) that are based on current expectations, estimates, forecasts, and projections about SYKES, our beliefs, and assumptions made by us. In addition, we may make other written or oral statements, which constitute forward-looking statements, from time to time. Words such as "believe," "estimate," "project," "expect," "intend," "may," "anticipate," "plan," "seek," variations of such words, and similar expressions are intended to identify such forward-looking statements. Similarly, statements that describe our future plans, objectives, or goals also are forward-looking statements. These statements are not guarantees of future performance and are subject to a number of risks and uncertainties, including those discussed below and elsewhere in this report. Our actual results may differ materially from what is expressed or forecasted in such forward-looking statements, and undue reliance should not be placed on such statements. All forward-looking statements are made as of the date hereof, and we undertake no obligation to update any such forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause actual results to differ materially from what is expressed or forecasted in such forward-looking statements include, but are not limited to: (i) the impact of economic recessions in the U.S. and other parts of the world, (ii) fluctuations in global business conditions and the global economy, (iii) currency fluctuations, (iv) the timing of significant orders for our products and services, (v) variations in the terms and the elements of services offered under our standardized contract including those for future bundled service offerings, (vi) changes in applicable accounting principles or interpretations of such principles, (vii) difficulties or delays in implementing our bundled service offerings, (viii) failure to achieve sales, marketing and other objectives, (ix) construction delays of new or expansion of existing customer engagement centers, (x) delays in our ability to develop new products and services and market acceptance of new products and services, (xi) rapid technological change, (xii) loss or addition of significant clients, (xiii) political and country-specific risks inherent in conducting business abroad, (xiv) our ability to attract and retain key management personnel, (xv) our ability to continue the growth of our support service revenues through additional technical and customer engagement centers, (xvi) our ability to further penetrate into vertically integrated markets, (xvii) our ability to expand our global presence through strategic alliances and selective acquisitions, (xviii) our ability to continue to establish a competitive advantage through sophisticated technological capabilities, (xix) the ultimate outcome of any lawsuits, (xx) our ability to recognize deferred revenue through delivery of products or satisfactory performance of services, (xxi) our dependence on trend toward outsourcing, (xxii) risk of interruption of technical and customer engagement center operations due to such factors as fire, earthquakes, inclement weather and other disasters, power failures, telecommunication failures, unauthorized intrusions, computer viruses and other emergencies, (xxiii) the existence of substantial competition, (xxiv) the early termination of contracts by clients, (xxv) the ability to obtain and maintain grants and other incentives (tax or otherwise), (xxvi) the potential of cost savings/synergies associated with acquisitions not being realized, or not being realized within the anticipated time period, (xxvii) risks related to the integration of the acquisitions and the impairment of any related goodwill, and (xxviii) other risk factors which are identified in our most recent Annual Report on Form 10-K, including factors identified under the headings "Business," "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Executive Summary

We provide comprehensive inbound customer engagement solutions and services to Global 2000 companies, primarily in the communications, financial services, healthcare, technology, transportation and leisure, retail and other industries. We serve our clients through two geographic operating regions: the Americas (United States, Canada, Latin America, Australia and the Asia Pacific Rim) and EMEA (Europe, the Middle East and Africa). Our Americas and EMEA regions primarily provide customer engagement services (with an emphasis on inbound technical support, digital marketing and demand generation, and customer service), which includes customer assistance, healthcare and roadside assistance, technical support, and product and service sales to our clients' customers. These services, which represented 99.5% and 99.2% of consolidated revenues during the three months ended June 30, 2017 and 2016, respectively, and 99.4% and 99.1% of consolidated revenues during the six months ended June 30, 2017 and 2016, respectively, are delivered through multiple communication channels including phone, e-mail, social media, text messaging, chat and digital self-service. We also provide various enterprise support services in the

United States (“U.S.”) that include services for our clients’ internal support operations, from technical staffing services to outsourced corporate help desk services. In Europe, we also provide fulfillment services, which includes order processing, payment processing, inventory control, product delivery, and product returns handling. Our complete service offering helps our clients acquire, retain and increase the lifetime value of their customer relationships. We have developed an extensive global reach with customer engagement centers across six continents, including North America, South America, Europe, Asia, Australia and Africa. We deliver cost-effective solutions that enhance the customer service experience, promote stronger brand loyalty, and bring about high levels of performance and profitability.

Acquisition of Telecommunications Assets

On May 31, 2017, we completed the acquisition of certain assets of a Global 2000 telecommunications service provider (the “Telecommunications Asset acquisition”) to strengthen and create new partnerships and expand our geographic footprint in North America.

The total purchase price of \$7.5 million was funded through cash on hand.

The results of operations of the Telecommunications Asset acquisition have been reflected in the accompanying Condensed Consolidated Statements of Operations since May 31, 2017.

Acquisition of Clearlink

In April 2016, we completed the acquisition of Clear Link Holdings LLC (“Clearlink”), to expand our suite of service offerings while creating differentiation in the marketplace, broadening our addressable market opportunity and extending executive level reach within our existing clients’ organization. We refer to such acquisition herein as the “Clearlink acquisition.”

The total purchase price of \$207.9 million was funded by borrowings under our existing credit facility.

The results of operations of Clearlink have been reflected in the accompanying Condensed Consolidated Statements of Operations since April 1, 2016.

Results of Operations

The following table sets forth, for the periods indicated, the amounts presented in the accompanying Condensed Consolidated Statements of Operations as well as the change between the respective periods:

Revenues

(in thousands)	Three Months Ended June 30,				
	2017		2016		\$ Change
	Amount	% of Revenues	Amount	% of Revenues	
Americas	\$ 314,871	83.9%	\$ 305,211	83.8%	\$ 9,660

Consolidated	\$ 375,438	100.0%	\$ 364,402	100.0%	\$ 11,036

Consolidated revenues increased \$11.0 million, or 3.0%, for the three months ended June 30, 2017 from the comparable period in 2016.

The increase in Americas' revenues was due to higher volumes from existing clients of \$11.0 million and new clients of \$10.7 million, partially offset by end-of-life client programs of \$9.2 million and a negative foreign currency impact of \$2.8 million. Revenues from our offshore operations represented 41.2% of Americas' revenues, compared to 40.7% for the comparable period in 2016.

The increase in EMEA's revenues was due to higher volumes from existing clients of \$4.5 million and new clients of \$2.1 million, partially offset by a negative foreign currency impact of \$4.2 million and end-of-life client programs of \$1.0 million.

On a consolidated basis, we had 51,400 brick-and-mortar seats as of June 30, 2017, an increase of 5,700 seats from the comparable period in 2016. Included in this seat count are 2,900 seats associated with the Telecommunications Asset acquisition. This increase in seats, net of the Telecommunications Asset acquisition additions, reflect seat additions to support higher projected demand. The capacity utilization rate on a combined basis was 72% compared to 78% in the comparable period in 2016. This decrease was primarily due to capacity additions related to the Telecommunications Asset acquisition with its seasonally low utilization rate, as well as capacity additions owing to higher projected demand and certain operational inefficiencies.

On a geographic segment basis, 44,400 seats were located in the Americas, an increase of 5,100 seats from the comparable period in 2016, and 7,000 seats were located in EMEA, an increase of 600 seats from the comparable period in 2016. Capacity utilization rates as of June 30, 2017 were 71% for the Americas and 80% for EMEA, compared to 77% and 79%, respectively, in the comparable period in 2016, with the decrease in utilization in the Americas primarily due to the aforementioned factors. As a result of the Telecommunications Asset acquisition, we expect to take further actions in streamlining our capacity footprint in the U.S. We strive to attain a capacity utilization rate of 85% at each of our locations.

Direct Salaries and Related Costs

(in thousands)	Three Months Ended June 30,					
	2017		2016		\$ Change	Change in % of Revenues

Consolidated	\$ 248,643	66.2%	\$ 239,442	65.7%	\$ 9,201	0.5%

The increase of \$9.2 million in direct salaries and related costs included a positive foreign currency impact of \$4.3 million in the Americas and a positive foreign currency impact of \$2.8 million in EMEA.

The increase in Americas' direct salaries and related costs, as a percentage of revenues, was primarily attributable to higher compensation costs of 0.4%, higher customer-acquisition advertising costs of 0.1% and higher other costs of 0.3%, partially offset by lower communications costs of 0.3%.

The increase in EMEA's direct salaries and related costs, as a percentage of revenues, was primarily attributable to higher compensation costs of 1.4% driven by a decrease in agent productivity principally within the communications vertical in the current period, partially offset by lower fulfillment materials costs of 0.9% and lower other costs of 0.1%.

Consolidated	\$ 92,246	24.6%	\$ 94,335	25.9%	\$ (2,089)	-1.3%

The decrease of \$2.1 million in general and administrative expenses included a positive foreign currency impact of \$1.1 million in the Americas and a positive foreign currency impact of \$1.1 million in EMEA.

The decrease in Americas' general and administrative expenses, as a percentage of revenues, was primarily attributable to a reduction in technology costs of 0.2% allocated from corporate, lower equipment maintenance costs of 0.2% and lower other costs of 0.3%, partially offset by higher facility-related costs of 0.3%.

The increase in EMEA's general and administrative expenses, as a percentage of revenues, was primarily attributable to higher compensation costs of 1.0%, partially offset by lower facility-related costs of 0.2%.

The decrease of \$3.5 million in Other general and administrative expenses, which includes corporate and other costs, was primarily attributable to lower merger and integration costs of \$2.5 million, lower compensation costs of \$1.5 million and lower other costs of \$0.2 million, partially offset by a reduction in technology costs of \$0.7 million allocated to the Americas.

The increase in depreciation was primarily due to new depreciable fixed assets placed into service supporting site expansions and infrastructure upgrades, partially offset by certain fully depreciated fixed assets.

The amortization remained consistent with the comparable period.

The decrease in the effective tax rate in 2017 compared to 2016 is primarily due to the recognition of a \$1.2 million previously unrecognized tax benefit arising from the effective settlement of the Canadian Revenue Agency audit. The decrease in the effective tax rate was also affected by several additional factors, including shifts in earnings among the various jurisdictions in which we operate, none of which are individually material.

Consolidated revenues increased \$74.3 million, or 10.8%, for the six months ended June 30, 2017 from the comparable period in 2016.

The increase in Americas' revenues was due to an increase in Clearlink acquisition revenues of \$43.1 million, higher volumes from existing clients of \$32.4 million and new clients of \$14.7 million, partially offset by end-of-life client programs of \$18.6 million and a negative foreign currency impact of \$3.1 million. Revenues from our offshore operations represented 41.0% of Americas' revenues, compared to 42.9% for the comparable period in 2016.

The increase in EMEA's revenues was due to higher volumes from existing clients of \$13.5 million and new clients of \$3.5 million, partially offset by a negative foreign currency impact of \$9.1 million and end-of-life client programs of \$2.1 million.

Total other income (expense), net	<u>\$ 1,683</u>	<u>\$ 1,620</u>	<u>\$ 63</u>

Interest income remained consistent with the comparable period.

The increase in interest (expense) was primarily due to \$216.0 million in borrowings used to acquire Clearlink in April 2016, partially offset by a decrease in the interest accretion on contingent consideration.

The increase in other miscellaneous income (expense) was primarily due to the net investment income (losses) related to the investments held in rabbi trust. See Note 7, Investments Held in Rabbi Trust, of “Notes to Condensed Consolidated Financial Statements” for further information.

Income Taxes

(in thousands)	Six Months Ended June 30,		
	2017	2016	\$ Change
Income before income taxes	\$ 35,722	\$ 33,197	\$ 2,525
Income taxes	\$ 8,165	\$ 10,105	\$ (1,940)
Effective tax rate	22.9%	30.4%	% Change -7.5%

The decrease in the effective tax rate in 2017 compared to 2016 is primarily due to the recognition of a \$1.2 million previously unrecognized tax benefit arising from the effective settlement of the Canadian Revenue Agency audit and the recognition of a \$0.9 million tax benefit resulting from the adoption of ASU 2016-09 on January 1, 2017. The decrease in the effective tax rate was also affected by several additional factors, including shifts in earnings among the various jurisdictions in which we operate, none of which are individually material.

Client Concentration

Our top ten clients accounted for approximately 48.7% and 49.8% of our consolidated revenues in the three months ended June 30, 2017 and 2016, respectively, and 49.1% and 49.1% of our consolidated revenues in the six months ended June 30, 2017 and 2016, respectively.

Total revenues by segment from AT&T Corporation (“AT&T”), a major provider of communication services for which we provide various customer support services over several distinct lines of AT&T businesses, were as follows (in thousands):

	Three Months Ended June 30,				Six Months Ended June 30,

We have multiple distinct contracts with AT&T spread across multiple lines of businesses, which expire at varying dates between 2017 and 2019. We have historically renewed most of these contracts. However, there is no assurance that these contracts will be renewed, or if renewed, will be on terms as favorable as the existing contracts. Each line of business is governed by separate business terms, conditions and metrics. Each line of business also has a separate decision maker such that a loss of one line of business would not necessarily impact our relationship with the client and decision makers on other lines of business. The loss of (or the failure to retain a significant amount of business with) any of our key clients, including AT&T, could have a material adverse effect on our performance. Many of our contracts contain penalty provisions for failure to meet minimum service levels and are cancelable by the client at any time or on short notice. Also, clients may unilaterally reduce their use of our services under our contracts without penalty.

Total revenues by segment from our next largest client, which was in the financial services vertical in each of the periods, were as follows (in thousands):

Business Outlook

For the three months ended September 30, 2017, we anticipate the following financial results:

- Revenues in the range of \$397.0 million to \$402.0 million;
- Effective tax rate of approximately 14%;
- Fully diluted share count of approximately 42.0 million;
- Diluted earnings per share in the range of \$0.33 to \$0.36; and
- Capital expenditures in the range of \$15.0 million to \$18.0 million

For the twelve months ended December 31, 2017, we anticipate the following financial results:

- Revenues in the range of \$1,560.0 million to \$1,570.0 million;
- Effective tax rate of approximately 22%;
- Fully diluted share count of approximately 42.1 million;
- Diluted earnings per share in the range of \$1.35 to \$1.41; and
- Capital expenditures in the range of \$55.0 million to \$65.0 million

We are revising our full-year 2017 revenue and diluted earnings per share outlook downward relative to the business outlook provided in May 2017. Roughly half of the revision in revenues and diluted earnings is demand related, with the remainder being operational inefficiencies, which are attributable to the U.S., which falls under the Americas segment. Although the pipeline of opportunities remains largely healthy across verticals such as financial services, technology and transportation and leisure, we have experienced an unforeseen reduction in demand forecast from a hitherto growing communications client, which is now seeing demand softness and is one of the key factors in the demand-related revision in the business outlook. Meanwhile, we continue to manage the tactical and strategic levers to address the operational inefficiencies around recruitment and retention in order to mitigate the drag on our business outlook. Separately, as a result of the previously mentioned demand softness together with the Telecommunications Asset acquisition, we expect to take further actions in streamlining our capacity footprint in the U.S.

Our revenues and earnings per share assumptions for the third quarter and full-year 2017 are based on foreign exchange rates as of July 2017. Therefore, the continued volatility in foreign exchange rates between the U.S. Dollar and the functional currencies of the markets we serve could have a further impact, positive or negative, on revenues and earnings per share relative to the business outlook for the third quarter and full-year, as discussed above.

We anticipate total other interest income (expense), net of approximately \$(1.7) million for the third quarter and \$(5.0) million for the full-year 2017. These amounts include the accretion on the Clearlink contingent consideration, which is expected to be a total of \$(0.1) million for the year. The amounts, however, exclude the potential impact of any future foreign exchange gains or losses in other income (expense).

We expect a reduction in our full-year 2017 effective tax rate relative to the business outlook provided in May 2017, with the decline due to a shift in the geographic mix of earnings to lower tax rate jurisdictions coupled with a tax benefit arising from the effective settlement of the Canadian Revenue Authority audit.

Not included in this guidance is the impact of any future acquisitions, share repurchase activities or a potential sale of previously exited customer engagement centers.

Liquidity and Capital Resources

Our primary sources of liquidity are generally cash flows generated by operating activities and from available borrowings under our revolving credit facility. We utilize these capital resources to make capital expenditures associated primarily with our customer engagement services, invest in technology applications and tools to further develop our service offerings and for working capital and other general corporate purposes, including repurchase of our common stock in the open market and to fund acquisitions. In future periods, we intend similar uses of these funds.

On August 18, 2011, the Board authorized us to purchase up to 5.0 million shares of our outstanding common stock (the “2011 Share Repurchase Program”). On March 16, 2016, the Board authorized an increase of 5.0 million shares to the 2011 Share Repurchase Program, for a total of 10.0 million. A total of 5.3 million shares have been repurchased under the 2011 Share Repurchase Program since inception. The shares are purchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price, management discretion and general market conditions. The 2011 Share Repurchase Program has no expiration date.

During the six months ended June 30, 2017, cash increased \$71.6 million from operating activities, \$0.1 million of proceeds from grants and \$0.1 million of other, which was partially offset by \$35.9 million used for capital expenditures, \$7.5 million used for the Telecommunications Asset acquisition, a \$4.5 million payment of contingent consideration, \$3.9 million to repurchase common stock for tax withholding on equity awards and a \$0.3 million purchase of intangible assets, resulting in a \$34.8 million increase in available cash (including the favorable effects of foreign currency exchange rates on cash and cash equivalents of \$15.1 million).

Net cash flows provided by operating activities for the six months ended June 30, 2017 were \$71.6 million, compared to \$66.7 million for the comparable period in 2016. The \$4.9 million increase in net cash flows from operating activities was due to a \$4.5 million increase in net income and a \$21.7 million increase in non-cash reconciling items such as depreciation, amortization, unrealized foreign currency transaction (gains) losses and deferred income taxes, partially offset by a net decrease of \$21.3 million in cash flows from assets and liabilities. The \$21.3 million decrease in 2017 from 2016 in cash flows from assets and liabilities was principally a result of a \$20.3 million decrease in other liabilities, a \$14.4 million increase in taxes receivable, net and a \$1.2 million decrease in deferred revenue, partially offset by a \$10.6 million decrease in accounts receivable and a \$4.0 million decrease in other assets. The \$21.3 million decrease in the change in other liabilities was primarily due to \$14.7 million related to the timing of accrued employee compensation and benefits and \$5.9 million related to other accrued expenses and current liabilities principally due to a decrease of \$3.8 million related to the timing of

[Table of Contents](#)

payments associated with site expansions and infrastructure upgrades in the six months ended June 30, 2017 over the comparable period in 2016. The \$14.4 million increase in taxes receivable, net was primarily due to the effective settlement of the Canadian Revenue Agency audit and a reduction in estimated tax liabilities in the six months ended June 30, 2017 over the comparable period in 2016. The \$10.6 million decrease in the change in accounts receivable was primarily due to the timing of billings and collections in the six months ended June 30, 2017 over the comparable period in 2016.

Capital expenditures, which are generally funded by cash generated from operating activities, available cash balances and borrowings available under our credit facilities, were \$35.9 million for the six months ended June 30, 2017, compared to \$34.4 million for the comparable period in 2016, an increase of \$1.5 million. In 2017, we anticipate capital expenditures in the range of \$55.0 million to \$65.0 million, primarily for new seat additions, Enterprise Resource Planning upgrades, facility upgrades, maintenance and systems infrastructure.

On May 12, 2015, we entered into a \$440 million revolving credit facility (the “2015 Credit Agreement”) with a group of lenders and KeyBank National Association, as Lead Arranger, Sole Book Runner and Administrative Agent, Swing Line Lender and Issuing Lender (“KeyBank”). The 2015 Credit Agreement is subject to certain borrowing limitations and includes certain customary financial and restrictive covenants. At June 30, 2017, we were in compliance with all loan requirements of the 2015 Credit Agreement and had \$267.0 million of outstanding borrowings under this facility. On April 1, 2016, we borrowed \$216.0 million under our 2015 Credit Agreement in connection with the acquisition of Clearlink. See Note 2, Acquisitions, of “Notes to Condensed Consolidated Financial Statements” for further information.

Our credit agreement had an average daily utilization of \$267.0 million and \$278.8 million during the three months ended June 30, 2017 and 2016, respectively, and \$267.0 million and \$174.4 million during the six months ended June 30, 2017 and 2016, respectively. During the three months ended June 30, 2017 and 2016, the related interest expense, including the commitment fee and excluding the amortization of deferred loan fees, was \$1.6 million and \$1.1 million, respectively, which represented weighted average interest rates of 2.4% and 1.6%, respectively. During the six months ended June 30, 2017 and 2016, the related interest expense, including the commitment fee and excluding the amortization of deferred loan fees, was \$3.0 million and \$1.5 million, respectively, which represented weighted average interest rates of 2.3% and 1.9%, respectively.

The 2015 Credit Agreement includes a \$200 million alternate-currency sub-facility, a \$10 million swingline sub-facility and a \$35 million letter of credit sub-facility, and may be used for general corporate purposes including acquisitions, share repurchases, working capital support and letters of credit, subject to certain limitations. We are not currently aware of any inability of our lenders to provide access to the full commitment of funds that exist under the 2015 Credit Agreement, if necessary. However, there can be no assurance that such facility will be available to us, even though it is a binding commitment of the financial institutions. The 2015 Credit Agreement will mature on May 12, 2020.

Borrowings under the 2015 Credit Agreement bear interest at the rates set forth in the 2015 Credit Agreement. In addition, we are required to pay certain customary fees, including a commitment fee determined quarterly based on our leverage ratio and due quarterly in arrears as calculated on the average unused amount of the 2015 Credit Agreement.

The 2015 Credit Agreement is guaranteed by all of our existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all of our direct foreign subsidiaries and those of the guarantors.

We received assessments for the Canadian 2003-2009 audit. Requests for Competent Authority Assistance were filed with both the Canadian Revenue Agency and the U.S. Internal Revenue Service and we paid mandatory security deposits to Canada as part of this process. The total amount of deposits, net of the effects of foreign exchange rate adjustments, were \$13.8 million as of December 31, 2016 (none at June 30, 2017) and were included in “Deferred charges and other assets” in the accompanying Condensed Consolidated Balance Sheet. As of June 30, 2017, we determined that all material aspects of the Canadian audit were effectively settled pursuant to ASC 740, *Income Taxes*. As a result, we recognized a net income tax benefit of \$1.2 million and the deposits were netted against the anticipated liability.

[Table of Contents](#)

With the effective settlement of the Canadian audit, we have no significant tax jurisdictions under audit; however, we are currently under audit in several tax jurisdictions. We believe we are adequately reserved for the remaining audits and their resolution is not expected to have a material impact on our financial condition and results of operations.

On April 24, 2017, we entered into a definitive Asset Purchase Agreement to purchase certain assets of a Global 2000 telecommunications services provider. The aggregate purchase price of \$7.5 million was paid on May 31, 2017, using cash on hand.

As part of the April 2016 Clearlink acquisition, we assumed contingent consideration liabilities related to four separate acquisitions made by Clearlink in 2015 and 2016, prior to the Merger. The fair value of the contingent consideration related to these previous acquisitions was \$2.8 million as of April 1, 2016 and was based on achieving targets primarily tied to revenues for varying periods of time during 2016 and 2017. As of June 30, 2017, the fair value of the remaining contingent consideration liability was \$1.1 million. The estimated future value of the contingent consideration is \$1.1 million and is expected to be paid on varying dates through October 2017.

In July 2015, we completed the acquisition of Qelp B.V. and its subsidiary (together, known as “Qelp”) pursuant to the definitive share sale and purchase agreement, dated July 2, 2015. The purchase price of \$15.8 million was funded through cash on hand of \$9.8 million and contingent consideration of \$6.0 million. On September 26, 2016, we entered into an addendum to the Qelp purchase agreement with the sellers to settle the outstanding contingent consideration for EUR 4.0 million to be paid by June 30, 2017. We paid \$4.4 million in May 2017 to settle the outstanding contingent consideration obligation.

As of June 30, 2017, we had \$301.5 million in cash and cash equivalents, of which approximately 91.2%, or \$274.8 million, was held in international operations and is deemed to be indefinitely reinvested offshore. These funds may be subject to additional taxes if repatriated to the United States, including withholding tax applied by the country of origin and an incremental U.S. income tax, net of allowable foreign tax credits. There are circumstances where we may be unable to repatriate some of the cash and cash equivalents held by our international operations due to country restrictions. We do not intend nor currently foresee a need to repatriate these funds. We expect our current domestic cash levels and cash flows from operations to be adequate to meet our domestic anticipated working capital needs, including investment activities such as capital expenditures and debt repayment for the next twelve months and the foreseeable future. However, from time to time, we may borrow funds under our 2015 Credit Agreement as a result of the timing of our working capital needs, including capital expenditures. Additionally, we expect our current foreign cash levels and cash flows from foreign operations to be adequate to meet our foreign anticipated working capital needs, including investment activities such as capital expenditures for the next twelve months and the foreseeable future.

If we should require more cash in the U.S. than is provided by our domestic operations for significant discretionary unforeseen activities such as acquisitions of businesses and share repurchases, we could elect to repatriate future foreign earnings and/or raise capital in the U.S. through additional borrowings or debt/equity issuances. These alternatives could result in higher effective tax rates, interest expense and/or dilution of earnings. We have borrowed funds domestically and continue to have the ability to borrow additional funds domestically at reasonable interest rates.

Our cash resources could also be affected by various risks and uncertainties, including but not limited to, the risks described in our Annual Report on Form 10-K for the year ended December 31, 2016.

Off-Balance Sheet Arrangements and Other

As of June 30, 2017, we did not have any material commercial commitments, including guarantees or standby repurchase obligations, or any relationships with unconsolidated entities or financial partnerships, including entities often referred to as structured finance or special purpose entities or variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

From time to time, during the normal course of business, we may make certain indemnities, commitments and guarantees under which we may be required to make payments in relation to certain transactions. These include, but are not limited to: (i) indemnities to clients, vendors and service providers pertaining to claims based on negligence or willful misconduct and (ii) indemnities involving breach of contract, the accuracy of representations and warranties, or other liabilities assumed by us in certain contracts. In addition, we have agreements whereby we will indemnify certain officers and directors for certain events or occurrences while the officer or director is, or was,

[Table of Contents](#)

servicing at our request in such capacity. The indemnification period covers all pertinent events and occurrences during the officer's or director's lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited; however, we have director and officer insurance coverage that limits our exposure and enables us to recover a portion of any future amounts paid. We believe the applicable insurance coverage is generally adequate to cover any estimated potential liability under these indemnification agreements. The majority of these indemnities, commitments and guarantees do not provide for any limitation of the maximum potential for future payments we could be obligated to make. We have not recorded any liability for these indemnities, commitments and other guarantees in the accompanying Condensed Consolidated Balance Sheets. In addition, we have some client contracts that do not contain contractual provisions for the limitation of liability, and other client contracts that contain agreed upon exceptions to limitation of liability. We have not recorded any liability in the accompanying Condensed Consolidated Balance Sheets with respect to any client contracts under which we have or may have unlimited liability.

Contractual Obligations

The following table summarizes the material changes to our contractual obligations as of June 30, 2017, and the effect these obligations are expected to have on liquidity and cash flow in future periods (in thousands):

	Payments Due By Period					Other
	Total	Less Than 1 Year	1 - 3 Years	3 - 5 Years	After 5 Years	
Operating leases (1)	\$ 57,323	\$ 2,780	\$ 14,094	\$ 15,116	\$ 25,333	\$ -

- (1) Amounts represent the change in expected cash payments under our operating leases, including the amounts that were assumed in conjunction with the Telecommunications Asset acquisition in May 2017. See Note 14, Commitments and Loss Contingency, to the accompanying Condensed Consolidated Financial Statements.
- (2) Amounts represent the change in expected cash payments under our purchase obligations, which include agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. Purchase obligations exclude agreements that are cancelable without penalty. See Note 14, Commitments and Loss Contingency, to the accompanying Condensed Consolidated Financial Statements.

Except for the contractual obligations mentioned above, there have not been any material changes to the outstanding contractual obligations from the disclosure in our Annual Report on Form 10-K as of and for the year ended December 31, 2016.

Critical Accounting Estimates

See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2016 for a discussion of our critical accounting estimates.

There have been no material changes to our critical accounting estimates in 2017.

New Accounting Standards Not Yet Adopted

See Note 1, Overview and Basis of Presentation, of the accompanying "Notes to Condensed Consolidated Financial Statements" for information related to recent accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risk

Our earnings and cash flows are subject to fluctuations due to changes in currency exchange rates. We are exposed to foreign currency exchange rate fluctuations when subsidiaries with functional currencies other than the U.S. Dollar ("USD") are translated into our USD consolidated financial statements. As exchange rates vary, those results, when translated, may vary from expectations and adversely impact profitability. The cumulative translation effects

[Table of Contents](#)

for subsidiaries using functional currencies other than USD are included in “Accumulated other comprehensive income (loss)” in shareholders’ equity. Movements in non-USD currency exchange rates may negatively or positively affect our competitive position, as exchange rate changes may affect business practices and/or pricing strategies of non-U.S. based competitors.

We employ a foreign currency risk management program that periodically utilizes derivative instruments to protect against unanticipated fluctuations in certain earnings and cash flows caused by volatility in foreign currency exchange (“FX”) rates. We also utilize derivative contracts to hedge intercompany receivables and payables that are denominated in a foreign currency and to hedge net investments in foreign operations.

We serve a number of U.S.-based clients using customer engagement center capacity in The Philippines and Costa Rica, which are within our Americas segment. Although the contracts with these clients are priced in USDs, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine Pesos (“PHP”) and Costa Rican Colones (“CRC”), which represent FX exposures. Additionally, our EMEA segment services clients in Hungary and Romania where the contracts are priced in Euros (“EUR”), with a substantial portion of the costs incurred to render services under these contracts denominated in Hungarian Forints (“HUF”) and Romanian Leis (“RON”).

In order to hedge a portion of our anticipated cash flow requirements denominated in PHP, CRC, HUF and RON, we had outstanding forward contracts and options as of June 30, 2017 with counterparties through June 2018 with notional amounts totaling \$99.0 million. As of June 30, 2017, we had net total derivative liabilities associated with these contracts with a fair value of \$1.8 million, which will settle within the next 12 months. If the USD was to weaken against the PHP and CRC and the EUR was to weaken against the HUF and RON by 10% from current period-end levels, we would incur a loss of approximately \$8.6 million on the underlying exposures of the derivative instruments. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We had forward exchange contracts with notional amounts totaling \$76.9 million to hedge net investments in our foreign operations. The purpose of these derivative instruments is to protect against the risk that the net assets of certain foreign subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to our foreign currency-based investments in these subsidiaries. As of June 30, 2017, the fair value of these derivatives was a net liability of \$2.1 million. The potential loss in fair value at June 30, 2017, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$7.9 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We had forward exchange contracts with notional amounts totaling \$38.2 million that are not designated as hedges. The purpose of these derivative instruments is to protect against FX volatility pertaining to intercompany receivables and payables, and other assets and liabilities that are denominated in currencies other than our subsidiaries’ functional currencies. As of June 30, 2017, the fair value of these derivatives was a net liability of \$0.2 million. The potential loss in fair value at June 30, 2017, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$7.1 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We had embedded derivative contracts with notional amounts totaling \$13.8 million that are not designated as hedges. As of June 30, 2017, the fair value of these derivatives was a net liability of \$0.2 million. The potential loss in fair value at June 30, 2017, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$2.3 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We evaluate the credit quality of potential counterparties to derivative transactions and only enter into contracts with those considered to have minimal credit risk. We periodically monitor changes to counterparty credit quality as well as our concentration of credit exposure to individual counterparties.

We do not use derivative financial instruments for speculative trading purposes, nor do we hedge our foreign currency exposure in a manner that entirely offsets the effects of changes in foreign exchange rates.

As a general rule, we do not use financial instruments to hedge local currency denominated operating expenses in countries where a natural hedge exists. For example, in many countries, revenue from the local currency services substantially offsets the local currency denominated operating expenses.

Interest Rate Risk

Our exposure to interest rate risk results from variable debt outstanding under our revolving credit facility. We pay interest on outstanding borrowings at interest rates that fluctuate based upon changes in various base rates. As of June 30, 2017, we had \$267.0 million in borrowings outstanding under the revolving credit facility. Based on our level of variable rate debt outstanding during the three and six months ended June 30, 2017, a 1.0% increase in the weighted average interest rate, which generally equals the LIBOR rate plus an applicable margin, would have had an impact of \$0.7 million and \$1.3 million, respectively, on our results of operations.

We have not historically used derivative instruments to manage exposure to changes in interest rates.

Fluctuations in Quarterly Results

For the year ended December 31, 2016, quarterly revenues as a percentage of total consolidated annual revenues were approximately 22%, 25%, 26% and 27%, respectively, for each of the respective quarters of the year. We have experienced and anticipate that in the future we will experience variations in quarterly revenues. The variations are due to the timing of new contracts and renewal of existing contracts, the timing and frequency of client spending for customer engagement services, non-U.S. currency fluctuations, and the seasonal pattern of customer engagement support and fulfillment services.

Item 4. Controls and Procedures

As of June 30, 2017, under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a – 15(e) under the Securities Exchange Act of 1934, as amended. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time period specified by the SEC’s rules and forms, and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. We concluded that, as of June 30, 2017, our disclosure controls and procedures were effective at the reasonable assurance level.

There were no changes in our internal controls over financial reporting during the quarter ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in legal actions arising in the ordinary course of business. With respect to these matters, we believe that we have adequate legal defenses and/or provided adequate accruals for related costs such that the ultimate outcome will not have a material adverse effect on our future financial position or results of operations.

Item 1A. Risk Factors

For risk factors, see Item 1A, “Risk Factors,” of our Annual Report on Form 10-K for the year ended December 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

**THIRD AMENDMENT
TO THE
AMENDED AND RESTATED
SYKES ENTERPRISES, INCORPORATED
DEFERRED COMPENSATION PLAN**

This Third Amendment to the Amended and Restatement Sykes Enterprises, Incorporated Deferred Compensation Plan is made and entered into by Sykes Enterprises, Incorporated (the "Company") this 17th day of August, 2016, and shall be effective for all purposes as of January 1, 2017, unless a different date is set forth below.

WITNESSETH:

WHEREAS, the Company has previously adopted the Sykes Enterprises, Incorporated Deferred Compensation Plan (the "Plan"); and

WHEREAS, pursuant to the terms of the Plan, the Company is authorized and empowered to amend the Plan; and

WHEREAS, the Company has determined that it is appropriate to amend the Plan to clarify the definition of Bonus.

NOW, THEREFORE, paragraphs 2.02.(a) and 2.02.(b) of Article II of the Plan is hereby amended to read as follows:

- 2.02. (a) For any Fiscal Year, other than the Fiscal Year in which a Participant first becomes entitled to participate in the Plan, a Participant may elect to defer a specific percentage (between 1% and 80%) of his base compensation or commissions and/or bonus earned during such Fiscal Year (regardless of when paid) as provided herein. Such election shall be made by the execution and delivery to the Administrator (or its agent) of a Participation Agreement prior to the first day of such Fiscal Year. Such election shall become effective with respect to base compensation, commissions and/or bonuses earned after such Fiscal Year begins. An election to defer under this Section 2.02(a) shall continue to apply to base compensation or commissions and/or bonuses earned in subsequent Fiscal Years, unless such election is modified by the Participant. Any modification shall be effective for the next Fiscal Year and shall be made through the execution and delivery of a new Participation Agreement. For Plan purposes, "bonus" shall mean those amounts that are paid as a bonus and meet the definition of "Performance Based Compensation" as set forth in Section 409A of the Code and the regulations issued thereunder.

- (b) For the Fiscal Year in which an individual is first designated as eligible to participate in the Plan, pursuant to Section 2.01, the Participant may elect to defer a specific percentage (between 1% and 80%) of his base compensation or commissions and/or bonus to be earned for the remainder of the Fiscal Year, a Participation Agreement must be submitted by the Participant to the Administrator (or its agent) no later than thirty (30) days following the January 1 or July 1, whichever is applicable, on which such individual becomes designated as an eligible Participant. Any such election made in such Participation Agreement shall be effective only with regard to base compensation or commissions and/or bonuses earned after the date the Participation Agreement is submitted to the Administrator. If a newly eligible Participant does not submit a Participation Agreement within such period of time, such Participant will not be eligible to elect to defer compensation except in accordance with Section 2.02(a) above. An election to defer (or not to defer) under this Section 2.02(b) shall continue to apply to base compensation or commissions and/or bonuses earned in subsequent Fiscal Years unless such election is modified by the Participant. Any modification shall be effective for the next Fiscal Year and shall be made through the execution and delivery of a new Participation Agreement. For Plan purposes, "bonus" shall mean those amounts that are paid as a bonus and meet the definition of "Performance Based Compensation" as set forth in Section 409A of the Code and the regulations issued thereunder.

IN WITNESS WHEREOF, this Third Amendment has been executed and is effective as of the date set forth herein.

**FOURTH AMENDMENT
TO THE
AMENDED AND RESTATED
SYKES ENTERPRISES, INCORPORATED
DEFERRED COMPENSATION PLAN**

This Fourth Amendment to the Amended and Restatement Sykes Enterprises, Incorporated Deferred Compensation Plan is made and entered into by Sykes Enterprises, Incorporated (the "Company") this 25th day of May, 2017, and shall be effective for all purposes as of July 1, 2017.

WITNESSETH:

WHEREAS, the Company has previously adopted the Sykes Enterprises, Incorporated Deferred Compensation Plan (the "Plan"); and

WHEREAS, pursuant to the terms of the Plan, the Company is authorized and empowered to amend the Plan; and

WHEREAS, the Company has determined that it is appropriate to amend the Plan.

NOW, THEREFORE, the Plan is hereby amended to read as follows:

I.

Section 1.21 of Article I of the Plan is hereby amended to read as follows:

1.21. "Year of Participation" means each twelve (12) month period in which the Participant is eligible to participate in this Plan. For this purpose, the 12-month period begins running on the entry date the Participant enters (or would be eligible to enter) the Plan. Years of Participation shall include the periods for which the Participant was eligible to participate in the nonqualified deferred compensation plan maintained by ICT Group Inc., as well as the period beginning January 1, 2010 and ending December 31, 2010 during which the Participant was employed; provided that the Participant was employed with ICT Group Inc. on February 2, 2010, the date ICT Group Inc. was acquired by SYKES. Further, effective as of January 1, 2013, Years of Participation shall include a Participant's years of service (each continuous 12-month period of service) that the Participant was employed with Alpine Access, Inc. in a position of Director or above, provided, that such Participant was employed with Alpine Access, Inc. in such position on the date immediately preceding August 20, 2012, the date Alpine Access, Inc. was acquired by SYKES or its Affiliate, and continued in such position or higher position following such date. Effective July 1, 2014 Years of Participation shall include all years of service (each continuous 12-month period of service) that the employee worked outside of the United States in a position that is the equivalent of a Director or above in the United States, as determined by the Administrator.

II.

Section 2.01 of Article II of the Plan is hereby amended by adding the following sentence to the end thereof:

If a Participant is determined for any Plan Year to no longer meet the requirements to be eligible under the terms of the Plan, he or she will no longer be eligible to defer under the Plan, but will continue to be treated as a Participant with respect to any existing balance in any Deferred Compensation Account and Matching Contribution Account.

III.

Sections 2.02(b) and 2.02(c) of Article II of the Plan is hereby amended to read as follows:

- 2.02. (b) For the Fiscal Year in which an individual is first designated as eligible to participate in the Plan, pursuant to Section 2.01, the Participant may elect to defer a specific percentage (between 1% and 80%) of his base compensation or commissions and/or bonus to be earned for the remainder of the Fiscal Year, a Participation Agreement must be submitted by the Participant to the Administrator (or its agent) no later than the January 1 or July 1, whichever is applicable, on which such individual becomes designated as an eligible Participant. Any such election made in such Participation Agreement shall be effective only with regard to base compensation or commissions and/or bonuses earned after the date the Participation Agreement is submitted to the Administrator, provided, however, that any election effective as of July 1 for new Participants will only be permitted with respect to base compensation earned after the date the Participation Agreement is submitted to the Administrator. If a newly eligible Participant does not submit a Participation Agreement within such period of time, such Participant will not be eligible to elect to defer compensation except in accordance with Section 2.02(a) above. An election to defer (or not to defer) under this Section 2.02(b) shall continue to apply to base compensation or commissions and/or bonuses earned in subsequent Fiscal Years unless such election is modified by the Participant. Any modification shall be effective for the next Fiscal Year and shall be made through the execution and delivery of a new Participation Agreement. For Plan purposes, "bonus" shall mean those amounts that are paid as a bonus and meet the definition of "Performance Based Compensation" as set forth in Section 409A of the Code and the regulations issued thereunder.

- 2.02. (c) As part of his deferral election, a Participant may elect to receive all or a portion of the amounts deferred under (a) or (b) above as of January 31st of a specified year (referred to as an “in-service” benefit) provided that the specified year selected is not earlier than the third Fiscal Year following the Fiscal Year for which the in-service benefit is first elected. For example, if deferrals are elected for the 2016 Plan Year, the date of the in-service benefit distribution cannot be before January 15, 2019. Such election shall continue to apply to deferrals made in subsequent years until modified or changed, provided, however, that the election shall lapse with respect to amounts deferred for the year in which the in-service benefit is to be paid. If the in-service benefit election lapses, the Participant will be deemed to have elected to receive such amounts for which the in-service benefit election lapsed in accordance with his original Separation from Service election filed under the provisions of Section 4.01, unless another in-service benefit election is timely made. Any modification or change to the in-service benefit election will be effective for amounts deferred for the next Fiscal Year. Further, if a Participant becomes entitled to a distribution under the Plan prior to the in-service benefit distribution date, he will be paid out in accordance with Section 4.01, provided, that in the event of the Participant’s Separation from Service prior to his in-service distribution date, the Participant will receive his benefit in accordance with his original Separation from Service election that was filed under the provisions of Section 4.01.

IV.

Article III of the Plan is hereby amended by adding the following new section 3.05.

3.05. A Participant’s Deferred Compensation Account may be charged from time to time with the Participant’s share of reasonable fees and expenses related to the administration of the Plan, as determined by the Administrator.

V.

Section 4.01 (c) of Article IV of the Plan is hereby amended to read as follows:

- (c) Any in-service benefit of amounts deferred in accordance with Section 2.02, shall be paid on January 31st (or as soon as administratively possible following that date) of the year selected by the Participant. The year of payment with respect to an in-service benefit is generally irrevocable unless the Participant, while an employee of SYKES or an Affiliate, requests a change and (i) the change does not take effect until at least 12 months after the date on which the election is made,

(ii) the change is made at least 12 months prior to the date the payment is scheduled to commence, and (iii) payment is deferred for a period of not less than 5 years from the date payment would otherwise have been made (unless payment is being made for disability or death), and such request is permitted under Section 409A of the Code. Except as required under Section 409A of the Code, a Participant is not limited as to the number of changes that can be made under the Plan.

VI.

Section 4.01 (g) of Article IV of the Plan is hereby amended to read as follows:

- (g) In the event of death of the Participant while still an employee, the balance (or remaining balance) in the Participant's Deferred Compensation Account and any shares of SYKES common stock in the Matching Contribution Account will be distributed to the Participant's named Beneficiary on the first day of the second month following the Participant's death. If a Participant dies after Separation from Service with the Employer, benefits will be paid (or continue to be paid) to the Participant's Beneficiary in accordance with the Participant's election (or deemed election) as to the timing and form of payment.

VII.

Section 4.01 (h) of Article IV of the Plan is hereby amended to read as follows:

- (h) In the event of the Participant's Disability while still an employee as defined herein, the Participant's Deferred Compensation Account and total distribution of the shares of SYKES common stock held in the Matching Contribution Account will be paid to the Participant on the first day of the second month following the Participant's Disability. In the event of the Participant's Disability after Separation from Service with the Employer, benefits will be paid (or continue to be paid) in accordance with the Participant's election (or deemed election) as to the timing and form of payment.

VIII.

Section 4.02(f) of Article IV of the Plan is hereby amended to read as follows:

- (f) Such election or deemed election as to the form is generally irrevocable unless the Participant, while employed with SYKES or an Affiliate, requests a change and (i) the change does not take effect until at least 12 months after the date on which the election is made, (ii) the change is made at least 12 months prior to the date the payment is scheduled to commence, and

(iii) payment is deferred for a period of not less than 5 years from the date payment would otherwise have been made (unless payment is being made for disability or death) and such request is permitted under Section 409A of the Code. Any election to change the form of payment will be deemed to have been made as of the following January 1. Except as required under Section 409A of the Code, a Participant is not limited as to the number of changes that can be made under this paragraph.

IX.

Section 5.02(b)(1) of Article IV of the Plan is hereby amended to read as follows:

- (b) (1) Notwithstanding the provisions of subsection (a) above, the Administrator may make payments to an alternate payee in accordance with the terms of the domestic relations order (as defined in Code Section 414(p)(1)(B)). Payments to such alternate payee shall be paid in accordance with the terms of the domestic relations order and section 4.01 (i), provided, however, that any payments will be made in the form of a lump sum.

IN WITNESS WHEREOF, this Fourth Amendment has been executed and is effective as of the date set forth herein.
