

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended June 30, 2019

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

Commission file number: 001-13425

Ritchie Bros. Auctioneers Inc orporated

(Exact Name of Registrant as Specified in its Charter)

Canada

(State or other jurisdiction of incorporation or organization)

98-0626225

(I.R.S. Employer Identification No.)

9500 Glenlyon Parkway

Burnaby , British Columbia , Canada

(Address of Principal Executive Offices)

V5J 0C6

(Zip Code)

(778) 331-5500

(Registrant's Telephone Number, including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common shares	RBA	New York Stock Exchange

Indicate by checkmark whether the registrant (1) filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer
Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act):
Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practical date: 107,853,398 common shares, without par value, outstanding as of August 7, 2019.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

1. Summary of significant accounting policies

Ritchie Bros. Auctioneers Incorporated and its subsidiaries (collectively referred to as the “Company”) provide global asset management and disposition services, offering customers end-to-end solutions for buying and selling used industrial equipment and other durable assets through its unreserved live on site auctions, online marketplaces, listing services, and private brokerage services. Ritchie Bros. Auctioneers Incorporated is a company incorporated in Canada under the Canada Business Corporations Act, whose shares are publicly traded on the Toronto Stock Exchange (“TSX”) and the New York Stock Exchange (“NYSE”).

(a) Basis of preparation

These unaudited condensed consolidated interim financial statements have been prepared in accordance with United States generally accepted accounting principles (“US GAAP”). They include the accounts of Ritchie Bros. Auctioneers Incorporated and its subsidiaries from their respective dates of formation or acquisition. All significant intercompany balances and transactions have been eliminated.

Certain information and footnote disclosure required by US GAAP for complete annual financial statements have been omitted and, therefore, these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company’s audited consolidated financial statements for the year ended December 31, 2018, included in the Company’s Annual Report on Form 10-K, filed with the Securities and Exchange Commission (“SEC”). In the opinion of management, these unaudited condensed consolidated interim financial statements reflect all adjustments, consisting of normal recurring adjustments, which are necessary to present fairly, in all material respects, the Company’s consolidated financial position, results of operations, cash flows and changes in equity for the interim periods presented. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(b) Revenue recognition

Revenues are comprised of:

- Service revenue, including the following:
 - i. Revenue from auction and marketplace (“A&M”) activities, including commissions earned at our live auctions, online marketplaces, and private brokerage services where we act as an agent for consignors of equipment and other assets, and various auction-related fees, including listing and buyer transaction fees; and
 - ii. Other services revenue, including revenue from listing services, refurbishment, logistical services, financing, appraisal fees and other ancillary service fees; and
- Inventory sales revenue as part of A&M activities

The Company recognizes revenue when control of the promised goods or services is transferred to our customers, or upon completion of the performance obligation, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer. A contract’s transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. For live event-based auctions or online auctions, revenue is recognized when the auction sale is complete and the Company has determined that the sale proceeds are collectible. Revenue is measured at the fair value of the consideration received or receivable and is shown net of value-added tax and duties.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

1. Summary of significant accounting policies (continued)

(b) Revenue recognition (continued)

Service revenue

Commissions from sales at the Company's auctions represent the percentage earned by the Company on the gross proceeds from equipment and other assets sold at auction. The majority of the Company's commissions are earned as a pre-negotiated fixed rate of the gross selling price. Other commissions from sales at the Company's auctions are earned from underwritten commission contracts, when the Company guarantees a certain level of proceeds to a consignor.

The Company accepts equipment and other assets on consignment stimulating buyer interest through professional marketing techniques, and matches sellers (also known as consignors) to buyers through the auction or private sale process. Prior to offering an item for sale on its online marketplaces, the Company also performs inspections.

Following the sale of the item, the Company invoices the buyer for the purchase price of the asset, taxes, and, if applicable, the buyer transaction fee, collects payment from the buyer, and remits the proceeds to the seller, net of the seller commissions, applicable taxes, and applicable fees. Commissions are calculated as a percentage of the hammer price of the property sold at auction. Fees are also charged to sellers for listing and inspecting equipment. Other revenue earned in the process of conducting the Company's auctions include administrative, documentation, and advertising fees.

On the fall of the auctioneer's hammer, the highest bidder becomes legally obligated to pay the full purchase price, which is the hammer price of the property purchased and the seller is legally obligated to relinquish the property in exchange for the hammer price less any seller's commissions. Commission and fee revenue are recognized on the date of the auction sale upon the fall of the auctioneer's hammer.

Under the standard terms and conditions of its auction sales, the Company is not obligated to pay a consignor for property that has not been paid for by the buyer, provided the property has not been released to the buyer. If the buyer defaults on its payment obligation, also referred to as a collapsed sale, the sale is cancelled in the period in which the determination is made, and the property is returned to the consignor or placed in a later event-based or online auction. Historically cancelled sales have not been material.

Online marketplace commission revenue is reduced by a provision for disputes, which is an estimate of disputed items that are expected to be settled at a cost to the Company, related to settlements of discrepancies under the Company's equipment condition certification program. The equipment condition certification refers to a written inspection report provided to potential buyers that reflects the condition of a specific piece of equipment offered for sale, and includes ratings, comments, and photographs of the equipment following inspection by one of the Company's equipment inspectors.

The equipment condition certification provides that a buyer may file a written dispute claim during an eligible dispute period for consideration and resolution at the sole determination of the Company if the purchased equipment is not substantially in the condition represented in the inspection report. Typically disputes under the equipment condition certification program are settled with minor repairs or additional services, such as washing or detailing the item; the estimated costs of such items or services are included in the provision for disputes.

Commission revenue are recorded net of commissions owed to third parties, which are principally the result of situations when the commission is shared with a consignor in an auction guarantee risk and reward sharing arrangement.

Notes to the Condensed Consolidated Financial Statements

1. Summary of significant accounting policies (continued)

(b) Revenue recognition (continued)

Service revenue (continued)

Underwritten commission contracts can take the form of guarantee contracts. Guarantee contracts typically include a pre-negotiated percentage of the guaranteed gross proceeds plus a percentage of proceeds in excess of the guaranteed amount. If actual auction proceeds are less than the guaranteed amount, commission is reduced; if proceeds are sufficiently lower, the Company can incur a loss on the sale. Losses, if any, resulting from guarantee contracts are recorded in the period in which the relevant auction is completed. If a loss relating to a guarantee contract held at the period end to be sold after the period end is known or is probable and estimable at the financial statement reporting date, the loss is accrued in the financial statements for that period. The Company's exposure from these guarantee contracts fluctuates over time.

Other services revenue also includes fees for refurbishment, logistical services, financing, appraisal fees and other ancillary service fees. Fees are recognized in the period in which the service is provided to the customer.

Inventory sales revenue

Underwritten commission contracts can take the form of inventory contracts. Revenue related to inventory contracts is recognized in the period in which the sale is completed, title to the property passes to the purchaser and the Company has fulfilled any other obligations that may be relevant to the transaction. In its role as auctioneer, the Company auctions its inventory to equipment buyers through the auction process. Following the sale of the item, the Company invoices the buyer for the purchase price of the asset, taxes, and, if applicable, the buyer transaction fee, and collects payment from the buyer.

On the fall of the auctioneer's hammer, the highest bidder becomes legally obligated to pay the full purchase price, which is the hammer price of the property purchased. Title to the property is transferred in exchange for the hammer price, and if applicable, the buyer transaction fee plus applicable taxes.

(c) Costs of services

Costs of services are comprised of expenses incurred in direct relation to conducting auctions ("direct expenses"), earning online marketplace revenue, and earning other fee revenue. Direct expenses include direct labour, buildings and facilities charges, travel, advertising and promotion costs and fees paid to unrelated third parties who introduce the Company to equipment sellers who sell property at the Company's auctions and marketplaces.

Costs of services incurred to earn online marketplace revenue in addition to the costs listed above also include inspection costs. Inspections are generally performed at the seller's physical location. The cost of inspections includes payroll costs and related benefits for the Company's employees that perform and manage field inspection services, the related inspection report preparation and quality assurance costs, fees paid to contractors who perform field inspections, related travel and incidental costs for the Company's inspection service organization, and office and occupancy costs for its inspection services personnel. Costs of earning online marketplace revenue also include costs for the Company's customer support, online marketplace operations, logistics, title and lien investigation functions.

Costs of services incurred in earning other fee revenue include ancillary and logistical service expenses, direct labour (including commissions on sales), software maintenance fees, and materials. Costs of services exclude depreciation and amortization expenses.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

1. Summary of significant accounting policies (continued)

(d) Cost of inventory sold

Cost of inventory sold includes the purchase price of assets sold for the Company's own account and is determined using a specific identification basis.

(e) Share-based payments

The Company classifies a share-based payment award as an equity or liability payment based on the substantive terms of the award and any related arrangement.

Equity-classified share-based payments

Share unit plans

The Company has a senior executive performance share unit ("PSU") plan and an employee PSU plan that provides for the award of PSUs to certain senior executives and employees, respectively, of the Company. The Company has the option to settle certain share unit awards in cash or shares and expects to settle them in shares. The cost of PSUs granted is measured at the fair value of the underlying PSUs at the grant date. PSUs vest based on the passage of time and achievement of performance criteria.

The Company also has a senior executive restricted share unit ("RSU") plan and an employee RSU plan that provides for the award of RSUs to certain senior executives and employees, respectively, of the Company. The Company has the option to settle certain share unit awards in cash or shares and expects to settle all grants on and after 2017 in shares. The cost of RSUs granted is measured at the fair value based on the fair value of the Company's common shares at the grant date. RSUs vest based on the passage of time and include restrictions related to employment.

This fair value of awards expected to vest under these plans is expensed over the respective remaining service period of the individual awards, on an accelerated recognition basis, with the corresponding increase to APIC recorded in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognized in earnings, such that the consolidated expense reflects the revised estimate, with a corresponding adjustment to equity. Dividend equivalents on the equity-classified PSUs and RSUs are recognized as a reduction to retained earnings over the service period.

Stock option plans

The Company has three stock option compensation plans that provide for the award of stock options to selected employees, directors and officers of the Company. The cost of options granted is measured at the fair value of the underlying option at the grant date using the Black-Scholes option pricing model. The fair value of options expected to vest under these plans is expensed over the respective remaining service period of the individual awards, on an accelerated recognition basis, with the corresponding increase to APIC recorded in equity. Upon exercise, any consideration paid on exercise of the stock options and amounts fully amortized in APIC are credited to the common shares.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

1. Summary of significant accounting policies (continued)

(e) Share-based payments (continued)

Liability-classified share-based payments

The Company maintains other share unit compensation plans that vest over a period of up to three years after grant. Under those plans, the Company is either required or expects to settle vested awards on a cash basis or by providing cash to acquire shares on the open market on the employee's behalf, where the settlement amount is determined based on the average price of the Company's common shares prior to the vesting date or, in the case of deferred share unit ("DSU") recipients, following cessation of service on the Board of Directors.

These awards are classified as liability awards, measured at fair value at the date of grant and re-measured at fair value at each reporting date up to and including the settlement date. The determination of the fair value of the share units under these plans is described in note 16. The fair value of the awards is expensed over the respective vesting period of the individual awards with recognition of a corresponding liability. Changes in fair value after vesting are recognized through compensation expense. Compensation expense reflects estimates of the number of instruments expected to vest.

The impact of forfeitures and fair value revisions, if any, are recognized in earnings such that the cumulative expense reflects the revisions, with a corresponding adjustment to the settlement liability. Liability-classified share unit liabilities due within 12 months of the reporting date are presented in trade and other payables while settlements due beyond 12 months of the reporting date are presented in other non-current liabilities.

(f) Leases

The Company determines if an arrangement is a lease at inception. The Company may have lease agreements with lease and non-lease components, which are generally accounted for separately. Additionally, for certain vehicle and equipment leases, management applies a portfolio approach to account for the right-of-use ("ROU") assets and liabilities for assets leased with similar lease terms.

Operating leases

Operating leases are included in other non-current assets, trade and other payables, and other non-current liabilities in our consolidated balance sheets if the initial lease term is greater than 12 months. For leases with an initial term of 12 months or less the Company recognizes those lease payments on a straight-line basis over the lease term.

ROU assets represent the right to use an underlying asset for the lease term and lease liabilities represent the obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of the Company's leases do not provide an implicit rate, management uses the incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. Management uses the implicit rate when readily determinable. The Company includes lease payments for renewal or termination options in its determination of lease term, ROU asset, and lease liability when it is reasonably certain that the Company will exercise these options. Lease expense for lease payments is recognized on a straight-line basis over the lease term and are included in Costs of services or Selling, general, and administrative ("SG&A") expenses.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

1. Summary of significant accounting policies (continued)

(f) Leases (continued)

Finance leases

Finance lease ROU assets are included in property, plant and equipment, trade and other payables, and other non-current liabilities in our consolidated balance sheets.

Finance lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of the Company's leases do not provide an implicit rate, management uses the incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. Management uses the implicit rate when readily determinable. The Company includes lease payments for renewal, purchase options, or termination options in its determination of lease term, ROU asset, and lease liability when it is reasonably certain that the Company will exercise these options. Finance lease ROU assets are generally amortized over the lease term and are included in depreciation expense. The interest on the finance lease liabilities is included in interest expense.

(g) Inventories

Inventory consists of equipment and other assets purchased for resale in an upcoming live on site auction or online marketplace event. The Company typically purchases inventory for resale through a competitive process where the consignor or vendor has determined this to be the preferred method of disposition through the auction process. In addition, certain jurisdictions require auctioneers to hold title to assets and facilitate title transfer on sale. Inventory is valued at the lower of cost and net realizable value where net realizable value represents the expected sale price upon disposition less make-ready costs and the costs of disposal and transportation. As part of its government business, the Company purchases inventory for resale as part of its commitment to purchase certain surplus government property (note 18). The significant elements of cost include the acquisition price of the inventory and make-ready costs to prepare the inventory for sale that are not selling expenses and in-bound transportation costs. Write-downs to the carrying value of inventory are recorded in cost of inventory sold on the consolidated income statement.

(h) Impairment of long-lived and indefinite-lived assets

Long-lived assets, comprised of property, plant and equipment and intangible assets subject to amortization, are assessed for impairment whenever events or circumstances indicate that their carrying value may not be recoverable. For the purpose of impairment testing, long-lived assets are grouped and tested for recoverability at the lowest level that generates independent cash flows. An impairment loss is recognized when the carrying value of the assets or asset groups is greater than the future projected undiscounted cash flows. The impairment loss is calculated as the excess of the carrying value over the fair value of the asset or asset group. Fair value is based on valuation techniques or third party appraisals. Significant estimates and judgments are applied in determining these cash flows and fair values.

Indefinite-lived intangible assets are tested annually for impairment as of December 31, and between annual tests if indicators of potential impairment exist. The Company has the option of performing a qualitative assessment to first determine whether the quantitative impairment test is necessary. This involves an assessment of qualitative factors to determine the existence of events or circumstances that would indicate whether it is more likely than not that the carrying amount of the indefinite-lived intangible asset is less than its fair value. If the qualitative assessment indicates it is not more likely than not that the carrying amount is less than its fair value, a quantitative impairment test is not required. Where a quantitative impairment test is required, the procedure is to compare the indefinite-lived intangible asset's fair value with its carrying amount. An impairment loss is recognized as the difference between the indefinite-lived intangible asset's carrying amount and its fair value.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

1. Summary of significant accounting policies (continued)

(i) Goodwill

Goodwill represents the excess of the purchase price of an acquired enterprise over the fair value assigned to the assets acquired and liabilities assumed in a business combination.

Goodwill is not amortized, but it is tested annually for impairment at the reporting unit level as of December 31, and between annual tests if indicators of potential impairment exist. The Company has the option of performing a qualitative assessment of a reporting unit to first determine whether the quantitative impairment test is necessary. This involves an assessment of qualitative factors to determine the existence of events or circumstances that would indicate whether it is more likely than not that the carrying amount of the reporting unit to which goodwill belongs is less than its fair value. If the qualitative assessment indicates it is not more likely than not that the reporting unit's carrying amount is less than its fair value, a quantitative impairment test is not required.

If a quantitative impairment test is required, the procedure is to identify potential impairment by comparing the reporting unit's fair value with its carrying amount, including goodwill. The reporting unit's fair value is determined using various valuation approaches and techniques that involve assumptions based on what the Company believes a hypothetical marketplace participant would use in estimating fair value on the measurement date. An impairment loss is recognized as the difference between the reporting unit's carrying amount and its fair value. If the difference between the reporting unit's carrying amount and fair value is greater than the amount of goodwill allocated to the reporting unit, the impairment loss is restricted by the amount of the goodwill allocated to the reporting unit.

(j) New and amended accounting standards

Effective January 1, 2019, the Company adopted ASU 2016-02, *Leases (Topic 842)*. The Company adopted the new standard utilizing the "optional transition method", which permits the Company to apply the new lease standard at the adoption date. As the optional transition method is being utilized, the Company's reporting for the comparative periods presented in the financial statements in which it adopts Topic 842 will continue to be reported pursuant to Topic 840.

On adoption, the Company elected to utilize the package of practical expedients permitted within the new standard, which among other things, allows the Company to carryforward the historical lease classification. In addition, the Company elected to utilize the hindsight practical expedient to determine the reasonably certain lease term for existing leases. While lease classification will remain unchanged, hindsight will result in generally longer accounting lease terms where the Company has determined that it is reasonably certain to exercise certain renewal options and thereby increasing the useful lives of the corresponding leasehold improvements. The Company also elected not to recognize the lease assets and liabilities for leases with an initial term of 12 months or less and will recognize those lease payments on a straight-line basis over the lease term.

On adoption of the new standard the Company recognized ROU assets of \$103,897,000 with a corresponding increase in operating lease liability. Offsetting the increase in ROU assets recognized was the reclassification of prepaid rent and deferred rent liabilities to ROU assets of \$5,752,000. There was no impact on retained earnings or cash flows.

The adoption of the standard had no impact on our debt-covenant compliance under our current agreements.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

1. Summary of significant accounting policies (continued)

(k) Recent accounting standards not yet adopted

- (i) In June 2016, the FASB issued ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326), Measurement of Credit Losses on Financial Instruments*, which replaces the “incurred loss methodology” credit impairment model with a new forward-looking “methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates.” ASU 2016-13 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is only permitted for fiscal years beginning after December 15, 2018, including interim periods within those years. The Company is evaluating the new guidance to determine the impact it will have on its consolidated financial statements.
- (ii) In April 2019, the FASB issued ASU 2019-04, *Codification Improvement to Topic 326, Financial Instruments – Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments*. The amendments to Topic 326 in this update clarify or address stakeholders’ specific issues about certain aspects of the amendments in update 2016-13. The Company is evaluating this new guidance to determine the impact that it will have on its consolidated financial statements.

2. Significant judgments, estimates and assumptions

The preparation of financial statements in conformity with US GAAP requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

Future differences arising between actual results and the judgments, estimates and assumptions made by the Company at the reporting date, or future changes to estimates and assumptions, could necessitate adjustments to the underlying reported amounts of assets, liabilities, revenues and expenses in future reporting periods.

Judgments, estimates and underlying assumptions are evaluated on an ongoing basis by management, and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances and such changes are reflected in the assumptions when they occur. Significant items subject to estimates include purchase price allocations, the carrying amounts of goodwill, the useful lives of long-lived assets, share based compensation, the determination of lease term and lease liabilities, deferred income taxes, reserves for tax uncertainties, and other contingencies.

3. Seasonality

The Company’s operations are both seasonal and event driven. Revenues tend to be the highest during the second and fourth calendar quarters. The Company generally conducts more live, on site auctions during these quarters than during the first and third calendar quarters. Late December through mid-February and mid-July through August are traditionally less active periods. Online volumes are similarly affected as supply of used equipment is lower in the third quarter as it is actively being used and not available for sale.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

4. Segmented information

The Company's principal business activity is the management and disposition of used industrial equipment and other durable assets. The Company's operations are comprised of one reportable segment and other business activities that are not reportable as follows:

- Auctions and Marketplaces – This is the Company's only reportable segment, which consists of the Company's live on site auctions, its online auctions and marketplaces, and its brokerage service;
- Other includes the results of Ritchie Bros. Financial Services ("RBFS"), Mascus online services, and the results from various value-added services and make-ready activities, including the Company's equipment refurbishment services, asset appraisal services, and Ritchie Bros. Logistical Services.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

7. Income taxes

At the end of each interim period, the Company estimates the effective tax rate expected to be applicable for the full fiscal year. The estimate reflects, among other items, management's best estimate of operating results. It does not include the estimated impact of foreign exchange rates or unusual and/or infrequent items, which may cause significant variations in the customary relationship between income tax expense and income before income taxes.

For the three months ended June 30, 2019, income tax expense was \$15,401,000, compared to an income tax expense of \$9,031,000 for the same period in 2018. The effective tax rate was 22% in the second quarter of 2019, compared to 16% in the second quarter of 2018. The effective tax rate increased in the second quarter of 2019 compared to the second quarter of 2018 primarily due to impacts of the U.S. tax reform and a greater proportion of annual income subject to tax in jurisdictions with higher tax rates.

For the six months ended June 30, 2019, income tax expense was \$22,040,000, compared to an income tax expense of \$14,300,000 for the same period in 2018. The effective tax rate was 23% for the six months ended June 30, 2019, compared to 19% for the six months ended June 30, 2018. The effective tax rate increased in the six months ended June 30, 2019 compared to the six months ended June 30, 2018 primarily due to impacts of the U.S. tax reform and a greater proportion of annual income subject to tax in jurisdictions with higher tax rates.

The Tax Cuts and Jobs Act, or TCJA, was enacted on December 22, 2017. It is possible that additional legislation, regulations and/or guidance may be issued, and possibly with retroactive effect, in the future that may result in additional adjustments to the tax expense recorded related to the TCJA.

8. Earnings per share attributable to stockholders

Basic earnings per share ("EPS") attributable to stockholders was calculated by dividing the net income attributable to stockholders by the weighted average ("WA") number of common shares outstanding during the period. Diluted EPS attributable to stockholders was calculated by dividing the net income attributable to stockholders by the WA number of shares of common stock outstanding if the potentially dilutive securities had been issued. Potentially dilutive securities include unvested PSUs, RSUs, and outstanding stock options. The dilutive effect of potentially dilutive securities is reflected in diluted EPS by application of the treasury stock method. Under the treasury stock method, an increase in the fair market value of the Company's common stock can result in a greater dilutive effect from potentially dilutive securities.

(Unaudited)

10. Fair value measurement

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement or disclosure:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at measurement date;
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: Unobservable inputs for the asset or liability.

	Category	June 30, 2019		December 31, 2018	
		Carrying amount	Fair value	Carrying amount	Fair value
<i>Fair values disclosed:</i>					
Cash and cash equivalents	Level 1	\$ 210,429	\$ 210,429	\$ 237,744	\$ 237,744
Restricted cash	Level 1	128,565	128,565	67,823	67,823
Short-term debt	Level 2	8,010	8,010	19,896	19,896
Long-term debt					
Senior unsecured notes	Level 1	490,027	516,888	489,136	487,813
Term loans	Level 2	214,902	216,802	222,162	224,582

The carrying value of the Company's cash and cash equivalents, restricted cash, trade and other receivables, advances against auction contracts, auction proceeds payable, trade and other payables, and short term debt approximate their fair values due to their short terms to maturity. The carrying value of the term loans, before deduction of deferred debt issue costs, approximates their fair value as the interest rates on the loans were short-term in nature. The fair value of the senior unsecured notes is determined by reference to a quoted market price.

11. Other current assets

	June 30, 2019	December 31, 2018
Advances against auction contracts	\$ 15,364	\$ 15,558
Assets held for sale	30,983	15,051
Prepaid expenses and deposits	17,802	18,446
	<u>\$ 64,149</u>	<u>\$ 49,055</u>

Assets held for sale

Balance, December 31, 2018	\$ 15,051
Reclassified from (to) property, plant and equipment	15,932
Balance, June 30, 2019	<u>\$ 30,983</u>

As at June 30, 2019, the Company's assets held for sale consisted of four excess properties located in the United States. Management made the strategic decision to sell these properties to maximize the Company's return on invested capital. The estimated sales proceeds are expected to be in excess of the current book value. The properties have been actively marketed for sale, and management expects the sales to be completed within 12 months of June 30, 2019. These properties belong to the A&M reportable segment.

Non-current portion	686,694	698,172
Total long-term debt	<u>\$ 704,929</u>	<u>\$ 711,298</u>

During the three and six months ended June 30, 2019, the Company made voluntary prepayments totalling \$nil and \$10,000,000, respectively (2018 - \$25,000,000 and \$50,000,000, respectively) on the term loan denominated in United States dollars. Prepayments are applied against future scheduled mandatory payments. The amount available pursuant to the term loan facility was only available to finance the acquisition of IronPlanet and will not be available for other corporate purposes upon repayment of amounts borrowed under that facility.

Short-term debt is comprised of drawings in different currencies on the Company's committed revolving credit facilities, and for the three months ended June 30, 2019, have a weighted average interest rate of 2.1% (December 31, 2018: 2.3%).

As at June 30, 2019, the Company had unused committed revolving credit facilities aggregating \$485,960,000 of which \$481,251,000 is available until October 27, 2021.

15. Equity and dividends**Share capital*****Preferred stock***

Unlimited number of senior preferred shares, without par value, issuable in series.

Unlimited number of junior preferred shares, without par value, issuable in series.

All issued shares are fully paid. No preferred shares have been issued.

Share repurchase

There were 1,223,674 common shares repurchased for \$42,012,000 during the three months ended June 30, 2019 (June 30, 2018: no repurchased common shares).

Dividends***Declared and paid***

The Company declared and paid the following dividends during the six months ended June 30, 2019 and 2018:

	Declaration date	Dividend per share	Record date	Total dividends	Payment date
Six months ended June 30, 2019:	January 25, 2019	\$ 0.1800	February 15, 2019	\$ 19,568	March 8, 2019
	May 8, 2019	0.1800	May 29, 2019	19,592	June 19, 2019
Six months ended June 30, 2018:	January 26, 2018	\$ 0.1700	February 16, 2018	\$ 18,246	March 9, 2018
	May 9, 2018	0.1700	May 30, 2018	18,342	June 20, 2018

Declared and undistributed

Subsequent to June 30, 2019, the Company's Board of Directors declared a quarterly dividend of \$0.20 cents per common share, payable on September 18, 2019 to stockholders of record on August 28, 2019. This dividend payable has not been recognized as a liability in the financial statements. The payment of this dividend will not have any tax consequences for the Company.

Foreign currency translation reserve

Foreign currency translation adjustments include intra-entity foreign currency transactions that are of a long-term investment nature, which generated net gains of \$2,508,000 and \$1,653,000 for the three and six months ended June 30, 2019 (2018: net losses of \$7,321,000 and \$5,184,000).

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

16. Share-based payments

Share-based payments consist of the following compensation costs:

	Three months ended June 30,		Six months ended June 30,	
	2019	2018	2019	2018
Stock option compensation expense:				
SG&A expenses	\$ 1,660	\$ 2,140	\$ 3,199	\$ 4,288
Acquisition-related costs	—	—	—	195
Share unit expense:				
Equity-classified share units	3,535	3,226	5,903	6,261
Liability-classified share units	90	346	240	1,945
Employee share purchase plan - employer contributions	572	554	1,125	1,091
	<u>\$ 5,857</u>	<u>\$ 6,266</u>	<u>\$ 10,467</u>	<u>\$ 13,780</u>

Share unit expense and employer contributions to the employee share purchase plan are recognized in SG&A expenses.

Stock option plans

Stock option activity for the six months ended June 30, 2019 is presented below:

	Common shares under option	WA exercise price	WA remaining contractual life (in years)	Aggregate intrinsic value
Outstanding, December 31, 2018	4,013,863	\$ 26.41	7.2	\$ 25,374
Granted	864,842	33.79		
Exercised	(181,359)	22.73		2,277
Forfeited	(44,730)	24.61		
Outstanding, June 30, 2019	<u>4,652,616</u>	<u>27.94</u>	<u>7.3</u>	<u>25,077</u>
Exercisable, June 30, 2019	<u>2,762,380</u>	<u>\$ 25.46</u>	<u>6.3</u>	<u>\$ 21,443</u>

The significant assumptions used to estimate the fair value of stock options granted during the six months ended June 30, 2019 and 2018 are presented in the following table on a weighted average basis:

Six months ended June 30,	2019	2018
Risk free interest rate	2.5 %	2.7 %
Expected dividend yield	2.06 %	2.11 %
Expected lives of the stock options	5 years	5 years
Expected volatility	<u>26.8 %</u>	<u>28.1 %</u>

As at June 30, 2019, the unrecognized stock-based compensation cost related to the non-vested stock options was \$7,684,000, which is expected to be recognized over a weighted average period of 2.4 years.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

16. Share-based payments (continued)**Share unit plans**

Share unit activity for the six months ended June 30, 2019 is presented below:

	Equity-classified awards				Liability-classified awards	
	PSUs		RSUs		DSUs	
	Number	WA grant date fair value	Number	WA grant date fair value	Number	WA grant date fair value
Outstanding, December 31, 2018	670,288	\$ 31.46	207,986	\$ 28.99	113,435	\$ 28.16
Granted	158,815	36.39	28,371	36.22	13,601	35.23
Vested and settled	(231,873)	30.41	(260)	31.98	—	—
Forfeited	(7,167)	31.67	(3,226)	34.84	—	—
Outstanding, June 30, 2019	590,063	\$ 33.20	232,871	\$ 29.79	127,036	\$ 28.92

Senior executive and employee PSU plans

The Company grants PSUs under a senior executive PSU plan and an employee PSU plan (the “PSU Plans”). Under the PSU Plans, the number of PSUs that vest is conditional upon specified market, service, or performance vesting conditions being met. The PSU Plans allow the Company to choose whether to settle the awards in cash or in shares. The Company intends to settle in shares. With respect to settling in shares, the Company has the option to either (i) arrange for the purchase shares on the open market on the employee’s behalf based on the cash value that otherwise would be delivered, or (ii) to issue a number of shares equal to the number of units that vest.

The fair value of the equity-classified PSUs awarded in 2018 is estimated on modification date and on the date of grant using a Monte-Carlo simulation model as these awards are subject to market vesting conditions. The significant assumptions used to estimate the fair value of the equity-classified PSUs awarded during the six months ended June 30, 2018 are presented in the following table on a weighted average basis:

Six months ended June 30,	2018
Risk free interest rate	1.9 %
Expected dividend yield	2.09 %
Expected lives of the PSUs	3 years
Expected volatility	31.1 %
Average expected volatility of comparable companies	34.1 %

The fair value of the equity-classified PSUs awarded in 2019 is estimated based on the Company’s common share price at grant date, as these awards are not subject to market vesting conditions.

As at June 30, 2019, the unrecognized share unit expense related to equity-classified PSUs was \$10,544,000, which is expected to be recognized over a weighted average period of 2.0 years.

RSUs

The Company has RSU plans that are equity-settled and not subject to market vesting conditions.

As at June 30, 2019, the unrecognized share unit expense related to equity-classified RSUs was \$3,760,000, which is expected to be recognized over a weighted average period of 1.6 years.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

16. Share-based payments (continued)

Share unit plans (continued)

DSUs

The Company has DSU plans that are cash-settled and not subject to market vesting conditions.

Fair values of DSUs are estimated on grant date and at each reporting date. DSUs are granted under the DSU plan to members of the Board of Directors. There is no unrecognized share unit expense related to liability-classified DSUs as they vest immediately and are expensed upon grant.

As at June 30, 2019, the Company had a total share unit liability of \$4,376,000 (December 31, 2018: \$3,714,000) in respect of share units under the DSU plans.

Employee share purchase plan

The Company has an employee share purchase plan that allows all employees that have completed two months of service to contribute funds to purchase common shares at the current market value at the time of share purchase. Employees may contribute up to 4% of their salary. The Company will match between 50% and 100% of the employee's contributions, depending on the employee's length of service with the Company.

17. Leases

The Company's breakdown of lease expense for the three and six months ended June 30, 2019 is as follows:

	Three months ended	Six months ended
Operating lease cost	\$ 4,071	\$ 9,283
Finance lease cost		
Amortization of leased assets	1,692	3,452
Interest on lease liabilities	199	354
Short-term lease cost	2,510	5,075
Sublease income	(143)	(297)
	<u>\$ 8,329</u>	<u>\$ 17,867</u>

Operating leases

The Company has entered into commercial leases for various auction sites and offices located in North America, Europe, the Middle East and Asia. The majority of these leases are non-cancellable. The Company also has further operating leases for computer equipment, certain motor vehicles and small office equipment where it is not in the best interest of the Company to purchase these assets.

The majority of the Company's operating leases have a fixed term with a remaining life between one month and 20 years, with renewal options included in the contracts. The leases have varying contract terms, escalation clauses and renewal options. Generally there are no restrictions placed upon the lessee by entering into these leases, other than restrictions on use of property, sub-letting and alterations. At the inception of a lease, the Company determines whether it is reasonably certain to exercise a renewal option and includes the options in the determination of the lease term and the lease liability where it is reasonably certain to exercise the option. If the Company's intention is to exercise an option subsequent to the commencement of the lease, the Company will re-assess the lease term. The Company has included certain renewal options in its operating lease liabilities for key property leases for locations that have strategic importance to the Company such as its Corporate Head Office. The Company has not included any purchase options available within its operating lease portfolio in its determination of its operating lease liability.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

17. Leases (continued)**Operating leases (continued)**

The future aggregate minimum lease payments under non-cancellable operating leases are as follows:

Remainder of 2019	\$	7,734
2020		15,449
2021		12,522
2022		11,089
2023		9,327
Thereafter		109,628
Total future minimum lease payments	\$	165,749
less: imputed interest		(46,596)
Total operating lease liability	\$	119,153
less: operating lease liability - current		(10,139)
Total operating lease liability - non current	\$	109,014

During the three months ended June 30, 2019 the Company recognized ROU assets in the amount of \$19,200,000 primarily relating to the extension of a lease for an existing auction site. At June 30, 2019 the Company has ROU assets relating to operating leases in the amount of \$114,243,000.

At June 30, 2019 the weighted average remaining lease term for operating leases is 15.9 years and the weighted average discount rate is 4.3%.

Finance leases

The Company has entered into finance lease arrangements for certain vehicles, computer and yard equipment and office furniture. The majority of the leases have a fixed term with a remaining life of one month to six years with renewal options included in the contracts. In certain of these leases, the Company has the option to purchase the leased asset at fair market value or a stated residual value at the end of the lease term. For certain leases such as vehicle leases the Company has included renewal options in the determination of its lease liabilities. The Company has not included any purchase options available within its finance lease portfolio in its determination of the finance lease liability.

As at June 30, 2019, the net carrying amount of computer and yard equipment and other assets under capital leases is \$19,799,000 (December 31, 2018: \$14,976,000), and is included in the total property, plant and equipment as disclosed on the consolidated balance sheets.

As at June 30, 2019	Cost	Accumulated depreciation	Net book value
Computer equipment	\$ 13,816	\$ (5,811)	\$ 8,005
Yard and others	15,558	(3,764)	11,794
	<u>\$ 29,374</u>	<u>\$ (9,575)</u>	<u>\$ 19,799</u>

As at December 31, 2018	Cost	Accumulated depreciation	Net book value
Computer equipment	\$ 9,428	\$ (3,992)	\$ 5,436
Yard and auto equipment	12,125	(2,585)	9,540
	<u>\$ 21,553</u>	<u>\$ (6,577)</u>	<u>\$ 14,976</u>

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts expressed in thousands of United States dollars, except where noted)

(Unaudited)

17. Leases (continued)**Finance leases (continued)**

The future aggregate minimum lease payments under non-cancellable finance leases are as follows:

Remainder of 2019	\$	3,799
2020		6,715
2021		5,372
2022		3,632
2023		2,148
Thereafter		658
Total future minimum lease payments	\$	22,324
less: imputed interest		(1,426)
Total finance lease liability	\$	20,898
less: finance lease liability - current		(6,188)
Total finance lease liability - non current	\$	14,710

At June 30, 2019 the weighted average remaining lease term for finance leases is 3.6 years and the weighted average discount rate is 3.9%.

Subleases

As at June 30, 2019, the total future minimum sublease payments expected to be received under non-cancellable subleases is \$872,000.

18. Commitments**Commitment for inventory purchase**

The Company entered into a two-year non-rolling stock surplus contract with the U.S. Government Defense Logistics Agency (the "DLA") in December 2017 with the option to extend for up to four-years. Pursuant to the contract the performance period commenced in April 2018 and concludes in March 2020.

The Company has committed to purchase between 150,000 and 245,900 units of property with an expected minimum value of \$11,104,000 and up to \$51,028,000 annually to the extent that goods are available from the DLA over each 12 month period relating to the purchase of inventory. At June 30, 2019, the Company has purchased \$10,965,000 pursuant to the 12 month period of this contract which commenced in April 2019.

19. Contingencies**Legal and other claims**

The Company is subject to legal and other claims that arise in the ordinary course of its business. Management does not believe that the results of these claims will have a material effect on the Company's consolidated balance sheet or consolidated income statement.

Guarantee contracts

In the normal course of business, the Company will in certain situations guarantee to a consignor a minimum level of proceeds in connection with the sale at auction of that consignor's equipment.

At June 30, 2019, there were \$70,848,000 of assets guaranteed under contract, of which 60% is expected to be sold prior to September 30, 2019 with the remainder to be sold by March 31, 2020 (December 31, 2018: \$41,461,000 of which 51% is expected to be sold prior to the end of March 31, 2019 with the remainder to be sold by March 31, 2020).

The outstanding guarantee amounts are undiscounted and before estimated proceeds from sale at auction.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Note Regarding Forward-Looking Statements

Forward-looking statements may appear throughout this report, including the following section "Management's Discussion and Analysis of Financial Condition and Results of Operations". Forward-looking statements are typically identified by such words as "aim", "anticipate", "believe", "could", "continue", "estimate", "expect", "intend", "may", "ongoing", "plan", "potential", "predict", "will", "should", "would", "could", "likely", "generally", "future", "long-term", or the negative of these terms, and similar expressions intended to identify forward-looking statements. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties that may cause actual results to differ materially.

While we have not described all potential risks related to our business and owning our common shares, the important factors discussed in "Part II, Item 1A: Risk Factors" of this Quarterly Report on Form 10-Q and in "Part I, Item 1A: Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2018, which is available on our website at www.rbauction.com, on EDGAR at www.sec.gov, or on SEDAR at www.sedar.com, are among those that we consider may affect our performance materially or could cause our actual financial and operational results to differ significantly from our expectations. Except as required by applicable securities law and regulations of relevant securities exchanges, we do not intend to update publicly any forward-looking statements, even if our expectations have been affected by new information, future events or other developments.

We prepare our consolidated financial statements in accordance with United States generally accepted accounting principles ("US GAAP"). Except for Gross Transaction Value ("GTV")¹, which is a measure of operational performance and not a measure of financial performance, liquidity, or revenue, the amounts discussed below are based on our consolidated financial statements. Unless indicated otherwise, all tabular dollar amounts, including related footnotes, presented below are expressed in thousands of United States ("U.S.") dollars.

In the accompanying analysis of financial information, we sometimes use information derived from consolidated financial data but not presented in our financial statements prepared in accordance with US GAAP. Certain of these data are considered "non-GAAP financial measures" under the SEC rules. The definitions and reasons we use these non-GAAP financial measures and the reconciliations to their most directly comparable US GAAP financial measures are included either with the first use thereof or in the Non-GAAP Measures section within the MD&A. Non-GAAP financial measures referred to in this report are labeled as "non-GAAP measure" or designated as such with an asterisk (*). Please see pages 41-45 for explanations of why we use these non-GAAP measures and the reconciliation to the most comparable GAAP financial measures.

Beginning in the first quarter of 2019, we are no longer disclosing agency proceeds*. Please refer to our Annual Report on Form 10-K for the year ended December 31, 2018 for more information.

Overview

Ritchie Bros. Auctioneers Incorporated ("Ritchie Bros.", the "Company", "we", or "us") (NYSE & TSX: RBA) was founded in 1958 in Kelowna, British Columbia, Canada and is a world leader in asset management and disposition of used industrial equipment and other durable assets, selling \$4.96 billion of used equipment and other assets during 2018. Our expertise, unprecedented global reach, market insight, and trusted portfolio of brands provide us with a unique position in the used equipment market. We sell used equipment for our customers through live, unreserved auctions at 40 auction sites worldwide, which are also simulcast online to reach a global bidding audience and through our online marketplaces.

Through our unreserved auctions, online marketplaces, and private brokerage services, we sell a broad range of used and unused equipment, including earthmoving equipment, truck trailers, government surplus, oil and gas equipment and other industrial assets. Construction and heavy machinery comprise the majority of the equipment sold. Customers selling equipment through our sales channels include end users (such as construction companies), equipment dealers, original equipment manufacturers ("OEMs") and other equipment owners (such as rental companies). Our customers participate in a variety of sectors, including heavy construction, transportation, agriculture, energy, and mining.

We operate globally with locations in more than 13 countries, including the U.S., Canada, Australia, the United Arab Emirates, and the Netherlands, and employ more than 2,300 full time employees worldwide.

¹ GTV represents total proceeds from all items sold at our live on site auctions and online marketplaces. GTV is not a measure of financial performance, liquidity, or revenue, and is not presented in our consolidated financial statements.

Service Offerings

As part of our Auction and Marketplace (“A&M”) solutions, we offer our equipment seller and buyer customers multiple distinct, complementary, multi-channel brand solutions that address the range of their needs. Our global customer base has a variety of transaction options, breadth of services, and the widest selection of used equipment available to them. For a complete listing of channels and brand solutions available under our A&M segment, as well as our Other Services segment, please refer to our Annual Report on Form 10-K for the year ended December 31, 2018, which is available on our website at www.rbauction.com, on EDGAR at www.sec.gov, or on SEDAR at www.sedar.com.

Contract options

As part of our A&M business, we offer sellers several contract options to meet their individual needs and sale objectives, including:

- Straight commission contracts, where the consignor receives the gross proceeds from the sale less a pre-negotiated commission rate;
- Guarantee contracts, where the consignor receives a guaranteed minimum amount plus an additional amount if proceeds exceed a specified level; and
- Inventory contracts, where we purchase, take custody, and hold used equipment and other assets before they are resold in the ordinary course of business.

We refer to guarantee and inventory contracts as underwritten contracts.

We also provide a wide array of value-added services to make the process of selling and buying equipment convenient for our customers, including repair and refurbishment services, financial services through Ritchie Bros. Financial Services (“RBFS”), logistical services, and appraisals.

Seasonality

Our operations are both seasonal and event-driven. Total revenue and GTV tend to be the highest during the second and fourth calendar quarters. We generally conduct more live on site auctions during these quarters than during the first and third calendar quarters. Late December through mid-February and mid-July through August are traditionally less active periods. Online volumes are similarly affected as supply of used equipment is lower in the third quarter as it is actively being used and not available for sale.

Revenue Mix Fluctuations

Our revenue is comprised of service revenue and inventory sales revenue. Service revenue from A&M segment activities include commissions earned at our live auctions, online marketplaces, and private brokerage services, and various auction-related fees, including listing and buyer transaction fees. We also recognize revenues from our Other Services activities as service revenue. Inventory sales revenue is recognized as part of our A&M activities, and relates to revenues earned through our inventory contracts.

Inventory sales revenue can fluctuate significantly, as it changes based on whether our customers sell using a straight commission contract, guarantee contract, or an inventory contract at time of selling. Straight commission contracts and guarantee contracts will result in the commission being recognized as service revenue, while inventory contracts will result in the GTV of the equipment sold being recorded as inventory sales revenue with the related cost recognized in cost of inventory sold. As a result, a change in the revenue mix between service revenue and inventory sales revenue can have a significant impact on revenue growth percentages.

Performance Overview

Net income attributable to stockholders for Q2 2019 increased 18% to \$54.0 million, and diluted earnings per share (“EPS”) attributable to stockholders increased 17% to \$0.49 per share, compared to the same period in 2018.

Consolidated results:

- Total revenue in Q2 2019 increased 27% to \$393.2 million as compared to Q2 2018
 - o Service revenue in Q2 2019 increased 9% to \$234.6 million as compared to Q2 2018
 - o Inventory sales revenue in Q2 2019 increased 68% to \$158.6 million as compared to Q2 2018
- Total selling, general and administrative expenses (“SG&A”) in Q2 2019 decreased 4% to \$97.7 million as compared to Q2 2018
- Operating income in Q2 2019 increased 20% to \$78.0 million as compared to Q2 2018
- Cash provided by operating activities was up 49% to \$160.4 million for the first half of 2019

Auctions & Marketplaces segment results:

- GTV in Q2 2019 increased 5% to \$1.5 billion and increased 7% when excluding the impact of foreign exchange as compared to Q2 2018
- A&M total revenue in Q2 2019 increased 31% to \$359.7 million as compared to Q2 2018
 - o Service revenue in Q2 2019 increased 12% to \$201.1 million as compared to Q2 2018
 - o Inventory sales revenue in Q2 2019 increased 68% to \$158.6 million as compared to Q2 2018

Other Services segment results:

- Other Services total revenue in Q2 2019 decreased 2% to \$33.6 million as compared to Q2 2018
- RBFS revenue in Q2 2019 increased 19% to \$8.1 million as compared to Q2 2018

Other Company developments:

- On June 24, 2019, Ravi Saligram, Chief Executive Officer and Board member, announced that he will step down from his positions effective October 1, 2019
- In Q2 2019, our Board of Directors authorized a share repurchase program for the repurchase of up to \$100 million of our common shares over the next 12 months, which was approved by the Toronto Stock Exchange “TSX”. During Q2 2019, we repurchased \$42.0 million of common shares.
- Increased quarterly cash dividend by 11% to \$0.20 per share

Results of Operations

Total revenue

Total revenue increased 27% to \$393.2 million in Q2 2019 and increased 22% to \$696.7 million for the first half of 2019. During the quarter, there was a large dispersal of pipeline equipment as part of the \$94 million Columbus, Ohio auction held in June 2019.

In Q2 2019, total service revenue increased 9% with commissions revenue increasing 8% and fee revenue increasing 12%. The increase in commissions revenue was primarily due to the Columbus auction in the U.S. where we saw higher guarantee commission rate performance and improved straight commission rate in the International region. The increase in fee revenue was driven primarily by full implementation of our buyer fees harmonization in June 2019, higher proportion of low value lots, and fees earned from RBFS.

For the first half of 2019, total service revenue increased 4%, driven by a slight increase in commissions revenue and a 10% increase in fee revenue. The slight increase in commissions revenue reflects our Q2 2019 performance which was partially offset by Q1 2019 lower price realization on guarantee contracts, as well as a decrease in volume of straight commission contracts. The 10% increase in fee revenue was primarily driven by the same reasons noted above.

Inventory sales revenue as a percent of total GTV increased to 10.6% from 6.6% in Q2 2019 and to 10.8% from 6.9% in the first half of 2019.

In Q2 2019, Inventory sales revenue increased 68% led by the large dispersal of pipeline equipment as part of the \$94 million Columbus, Ohio auction, GovPlanet revenue growth from the non-rolling stock ("NRS") program, and higher volume of inventory sales contracts in the International region.

For the first half of 2019, inventory sales revenue increased 62% primarily due to the same reasons discussed above for Q2 partially offset by a non-repeating dispersal of large oil and gas equipment in Canada in Q1 2018.

Income tax expense and effective tax rate

At the end of each interim period, we estimate the effective tax rate expected to be applicable for the full fiscal year. The estimate reflects, among other items, management's best estimate of operating results. It does not include the estimated impact of foreign exchange rates or unusual and/or infrequent items, which may cause significant variations in the customary relationship between income tax expense and income before income taxes.

For Q2 2019, income tax expense increased 71% to \$15.4 million and our effective tax rate increased 560 bps to 22.1% as compared to Q2 2018. For the first half of 2019, income tax expense increased 54% to \$22.0 million and our effective tax rate increased 490 bps to 23.4% as compared to the first half of 2018. Increases in the effective tax rates for Q2 2019, and for the first half of 2019 were primarily due to impacts of the U.S. tax reform and a greater proportion of annual income subject to tax in jurisdictions with higher tax rates.

Accounting for the Tax Cuts and Jobs Act ("TCJA") incorporates assumptions made based on our current enacted interpretations of the TCJA. The accounting may change as we receive additional clarification and implementation guidance of these regulations. In addition, changes in interpretations, assumptions, and guidance regarding the new tax legislation, as well as the potential for technical corrections to the TCJA, could have an impact to our effective tax rate in future periods. We intend to monitor and assess the impact of any future changes in legislative interpretations or standards and adjust its tax provision in the quarter of enactment as new information becomes available.

Net income

Net income attributable to stockholders increased 18% to \$54.0 million in Q2 2019 and increased 15% to \$72.2 million for the first half of 2019. These increases were primarily due to higher operating income coupled with lower net interest expenses, partially offset by higher taxes due to an increase in the effective tax rate.

Diluted EPS

Diluted EPS attributable to stockholders increased 17% to \$0.49 per share in Q2 2019 and increased 14% to \$0.66 per share for the first half of 2019.

U.S. dollar exchange rate comparison

We conduct global operations in many different currencies, with our presentation currency being the U.S. dollar. The following table presents the variance in select foreign exchange rates over the comparative reporting periods:

Value of one local currency to U.S. dollar	2019	2018	<u>% Change</u> <u>2019 over 2018</u>
Period-end exchange rate			
Canadian dollar	0.7638	0.7612	— %
Euro	1.1371	1.1682	(3) %
Australian dollar	0.7020	0.7408	(5) %
Average exchange rate - Three months ended June 30,			
Canadian dollar	0.7477	0.7745	(3) %
Euro	1.1239	1.1917	(6) %
Australian dollar	0.7000	0.7565	(7) %
Average exchange rate - Six months ended June 30,			
Canadian dollar	0.7500	0.7827	(4) %
Euro	1.1297	1.2107	(7) %
Australian dollar	0.7061	0.7714	(8) %

For Q2 2019 and the first half of 2019, foreign exchange had an unfavourable impact on total revenue and a favourable impact on expenses. These impacts were primarily due to the fluctuations in the Euro and Canadian exchange rates relative to the U.S. dollar.

Non-GAAP Measures

As part of management's non-GAAP measures, we may eliminate the financial impact of adjusting items which are after-tax effects of significant non-recurring items that we do not consider to be part of our normal operating results, such as acquisition-related costs, management reorganization costs, severance, retention, gains/losses on sale of an equity accounted for investment, plant and equipment, impairment losses, and certain other items, which we refer to as 'adjusting items'. There were no adjusting items in Q2 2019, in the first half of 2019, or the comparative prior year periods.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") (non-GAAP measure) increased 18%, to \$95.7 million in Q2 2019 and increased 13% to \$147.6 million for the first half of 2019.

Debt at the end of Q2 2019 represented 5.4 times net income as at and for the 12 months ended June 30, 2019. This compares to debt at Q2 2018, which represented 6.9 times net income as at and for the 12 months ended June 30, 2018. The decrease in this debt/net income multiplier was primarily due to lower debt balances at June 30, 2019 compared to June 30, 2018, as a result of our voluntary and involuntary debt repayments. The adjusted net debt/adjusted EBITDA (non-GAAP measure) was 1.8 times as at and for the 12 months ended June 30, 2019 compared to 2.5 times as at and for the 12 months ended June 30, 2018.

Gross Transaction Value

We believe it is meaningful to consider revenue in relation to GTV. GTV by channel and by revenue type are presented below for the comparative reporting periods.

GTV by Channel

(in U.S \$000's)	Three months ended June 30,			Six months ended June 30,		
	2019	2018	% Change 2019 over 2018	2019	2018	% Change 2019 over 2018
Live on site auctions	\$ 1,261,194	\$ 1,201,472	5 %	\$ 2,232,793	\$ 2,175,498	3 %
Percentage of total	84.2 %	84.2 %		83.5 %	84.1 %	
Online marketplaces including featured ⁽¹⁾ and other ⁽²⁾	236,563	224,940	5 %	439,645	411,626	7 %
Percentage of total	15.8 %	15.8 %		16.5 %	15.9 %	
GTV	\$ 1,497,757	\$ 1,426,412	5 %	\$ 2,672,438	\$ 2,587,124	3 %

(1) This represents GTV from IronPlanet's Weekly Featured Auction, which operates under an unreserved auction model.

(2) This includes GTV from Marketplace-E and, before that, EquipmentOne.

Overall, GTV in Q2 2019 increased 5%, and for the first half of 2019 increased 3%. Excluding the impact of foreign exchange, GTV in Q2 2019 increased 7% and for the first half of 2019 increased 5%.

For Q2 2019, GTV from live on site auctions increased 5% primarily due to our \$94 million auction in Columbus, Ohio. GTV from our online marketplaces increased 5% primarily due to the growth of Marketplace-E and the GovPlanet NRS program.

For the first half of 2019, GTV from live on site auctions increased 3% primarily due to Columbus, Ohio auction, offset by a non-repeat of a large oil and gas equipment dispersal from our Q1 2018 Grande Prairie auction. GTV from online marketplaces increased 7% primarily due to the growth of the GovPlanet NRS program.

GTV by Revenue Type

(in U.S \$000's)	Three months ended June 30,			Six months ended June 30,		
	2019	2018	% Change 2019 over 2018	2019	2018	% Change 2019 over 2018
Service GTV	\$ 1,339,141	\$ 1,332,228	1 %	\$ 2,382,765	\$ 2,408,778	(1) %
Percentage of total	89.4 %	93.4 %		89.2 %	93.1 %	
Inventory GTV	158,616	94,184	68 %	289,673	178,346	62 %
Percentage of total	10.6 %	6.6 %		10.8 %	6.9 %	
GTV	\$ 1,497,757	\$ 1,426,412	5 %	\$ 2,672,438	\$ 2,587,124	3 %

In Q2 2019, Service GTV increased 1%, while Inventory GTV increased 68%. The increase in Inventory GTV during Q2 2019 was primarily due to a dispersal of large pipeline equipment at our Columbus auction, and revenue growth from our GovPlanet NRS program.

For the first half of 2019, Service GTV declined 1% with Inventory GTV increasing 62%. The growth in Inventory GTV was driven by the Columbus auction, GovPlanet NRS, the large volume of inventory contracts at our Q1 Orlando auction, and growth in international contracts resulting from macroeconomic conditions in parts of Europe and Asia.

We offer our customers the opportunity to use underwritten commission contracts to serve their disposition strategy needs, entering into such contracts where the risk and reward profile of the terms are agreeable. Our underwritten contracts, which includes inventory and guarantee contracts, increased to 24.0% in Q2 2019 compared to 18.7% in Q2 2018, primarily due to the increased number of inventory contracts. For the first half of 2019, our underwritten contracts increased to 20.7% compared to 16.1% in the prior period.

Online bidding

Across all channels, 63% of total GTV was purchased by online buyers in Q2 2019 compared to 57% in Q2 2018. For the first half of 2019, GTV from online buyer was 62% compared to 57% in the comparable prior year period. These increases in internet bidders and online buyers demonstrate the continued growth in adoption of multi-channel participation at our auctions.

Total industrial live on site auction metrics

	Three months ended June 30,			Six months ended June 30,		
	2019	2018	% Change 2019 over 2018	2019	2018	% Change 2019 over 2018
Number of auctions	59	50	18 %	94	85	11 %
Bidder registrations	200,250	141,500	42 %	343,250	260,500	32 %
Consignors	17,450	14,700	19 %	29,000	25,450	14 %
Buyers	43,500	36,350	20 %	74,250	65,350	14 %
Lots	120,500	103,500	16 %	206,750	184,500	12 %

We held nine additional industrial auctions during Q2 2019 which partially contributed to the 5% growth in our GTV. The nine industrial auctions added were each of a smaller scale compared to our average auctions. The nine additional industrial auctions also contributed to the 3% growth in our GTV during the first half of 2019.

In Q2 2019, the total number of industrial lots increased 16% to 120,500 and the total number of lots including agricultural lots increased 14% to 138,500 lots. For the first half of 2019, total number of industrial lots increased 12% to 206,750 and the total number of lots including agricultural lots increased 11% to 226,500 lots. These increases were partially due to an increase in proportion of small value lots sold in Canada.

GTV on a per lot basis generated at our industrial live on site auctions decreased 10% to \$9,400 in Q2 2019 compared to \$10,500 in Q2 2018, partially due to a higher number of small value lots sold in Canada. For the first half of 2019, the GTV on a per lot basis generated at our industrial live on site auctions decreased 9% to \$10,000 compared to \$11,000 in the prior year.

12 months average industrial live on site auction metrics

(in U.S \$000's)	12 months ended June 30,		
	2019	2018	% Change 2019 over 2018
GTV	\$ 20.5 million	\$ 17.3 million	18 %
Bidder registrations	3,322	2,491	33 %
Consignors	300	242	24 %
Lots	2,081	1,674	24 %

For the 12 months ended June 30, 2019, we saw an increase in average GTV per industrial auction compared to the prior year periods driven by our focus on holding larger auctions.

Productivity

The majority of our business continues to be generated by our A&M segment operations. Sales Force Productivity within this segment is an operational statistic that we believe provides a gauge of the effectiveness of our Revenue Producers in increasing GTV. Revenue Producers is a term used to describe our revenue-producing sales personnel. This definition is comprised of Regional Sales Managers and Territory Managers.

Our Sales Force Productivity for the trailing 12-month period ended June 30, 2019 was \$11.7 million per Revenue Producer compared to \$11.1 million per Revenue Producer for the trailing 12-month period ended June 30, 2018.

Sales Force Productivity for the 12-month period ended June 30, 2018 was calculated as the sum of the following two amounts:

- GTV for the 11 months, prior to our acquisition of IronPlanet (the "Acquisition"), ended May 31, 2017, divided by the average number of Revenue Producers over the same 11-month period; and
- GTV for the month following the Acquisition divided by the average number of Revenue Producers over that month.

A&M revenue

Total A&M revenue increased 31% to \$359.7 million in Q2 2019 and increased 25% to \$634.2 million for the first half of 2019.

A&M revenue by geographical region are presented below:

(in U.S \$000's)	Three months ended June 30, 2019			Six months ended June 30,		
	2019	2018	% Change 2019 over 2018	2019	2018	% Change 2019 over 2018

A&M total revenue	<u>359,666</u>	<u>274,251</u>	<u>31 %</u>	<u>634,160</u>	<u>506,818</u>	<u>25 %</u>

United States

In Q2 2019, there was a large dispersal of pipeline equipment as part of the \$94 million Columbus, Ohio auction held in June 2019. This gave rise to an increase in both service and inventory revenues in the U.S. Service revenue was also up with fees on higher total GTV and due to our full harmonization of buyer fees effective June 1, 2019. Inventory sales revenue also increased due to GovPlanet revenue growth.

For the first half of 2019, service revenue increased 6% with fees on higher total GTV, and also due to our full harmonization of buyer fees. Inventory sales revenue increased 202% primarily due to the reasons noted above and a large volume of inventory contracts transacted at our Orlando, Florida auction.

Canada

In Q2 2019, service revenue increased 8% primarily with fees on higher GTV, which was a result of additional auctions held from auction calendar shifts. Service revenue was also up due to higher fees earned from increased proportion of small value lots, and our full harmonization of buyer fees. Inventory sales revenue increased 20% primarily due to a large equipment dispersal in Q2 2019.

For the first half of 2019, service revenue increased 3% primarily due to an increase in fee revenue for reasons noted above. Inventory sales revenue decreased 64% primarily due to the non-repeat of a large oil and gas equipment dispersal from our Q1 2018 Grande Prairie auction of \$37 million.

International

In Q2 2019, service revenue increased 18% primarily due to higher performance of straight commission rates and our full harmonization of buyer fees. Inventory sales revenue increased 13% primarily due to a rise in inventory contracts in Australia.

For the first half of 2019, service revenue increased 2% due to the same reasons discussed above for the second quarter. The 49% increase in Inventory sales revenue was driven by a higher number of inventory contracts resulting from macroeconomic conditions in parts of Europe and Asia creating a more favourable supply environment.

Costs of services

A&M costs of services increased 52% to \$32.6 million in Q2 2019 and increased 25% to \$53.4 million for the first half of 2019. For both reporting periods, these increases were primarily driven by a one-time fee paid to an unrelated third party in connection with a dispersal of the pipeline equipment at our Columbus, Ohio auction, on-going costs to support the growth of our GovPlanet operations and overall cost growth in-line with the service revenue growth.

Cost of inventory sold

A&M cost of inventory sold increased 83% to \$149.8 million in Q2 2019. The increase was partially due to the overall increase in inventory sales volume as well as the trailing effect of selling through some lower performing inventory packages acquired in the previous quarter within our International region.

For the first half of 2019, A&M cost of inventory sold increased 72% to \$270.3 million due to the reasons noted above and also, a result of discrete lower price performance on certain equipment categories which were in greater supply at our Orlando auction in Q1 2019.

SG&A expenses

In Q2 2019, A&M segment SG&A expenses decreased 5% to \$91.5 million, primarily due to foreign exchange fluctuations, lower compensation expense in the US and a decrease in professional fees, partially offset by on-going incremental costs related to the GovPlanet NRS program.

For the first half of 2019, A&M segment SG&A expenses decreased 4% to \$180.6 million due to the reasons noted above, as well as, higher share unit expenses in Q1 2018 related to mark-to-market costs driven by growth in the share price and incremental compensation cost resulting from the modification of certain performance factors.

Other Services Segment

(in U.S \$000's)	Three months ended June 30,			Six months ended June 30,		
	2019	2018	% Change 2019 over 2018	2019	2018	% Change 2019 over 2018
Service revenue	\$ 33,556	\$ 34,279	(2) %	\$ 62,491	\$ 61,890	1 %
Ancillary and logistical service expenses	16,472	19,980	(18) %	30,231	34,560	(13) %
Other costs of services	1,245	1,672	(26) %	2,738	2,301	19 %
SG&A expenses	6,248	5,300	18 %	12,250	9,768	25 %
Other Services profit	\$ 9,591	\$ 7,327	31 %	\$ 17,272	\$ 15,261	13 %

In Q2 2019, Other Services revenue decreased 2% to \$33.6 million primarily due to lower revenue from RB Logistics of \$1.2 million and ancillary service revenue of \$0.6 million, partially offset by the growth of RBFS revenue of \$1.3 million. In the first half of 2019, Other Services revenue increased 1% to \$62.5 million primarily due to growth of RBFS revenue of \$2.9 million, offset by lower ancillary service revenue of \$2.3 million.

RBFS revenue increased 19% in Q2 2019 and 25% in the first half of 2019 driven by the growth in funded volume. Funded volume, which represents the amount of lending brokered by RBFS, increased 12% to \$145.7 million in Q2 2019 and increased 18% to \$265.0 million in the first half of 2019.

Other Services SG&A expenses increased \$0.9 million, or 18% in Q2 2019 and \$2.5 million, or 25%, for the first half of 2019. These increases were primarily due to expenses incurred to support the growth of RBFS.

In Q2 2019, despite a 2% decrease in Other Services revenue, profit increased by 31% to \$9.6 million. The increase in profit was driven by our Ancillary and Mascus operations, while RB Logistics profit changed nominally as the cost of services decreased in line with the related revenue. For the first half of 2019, Other services profit increased 13% to \$17.3 million due to increased profit from our Ancillary and RBFS operations.

Liquidity and Capital Resources

We assess our liquidity based on our ability to generate cash to fund operating, investing and financing activities. Our liquidity is primarily affected by fluctuations in cash provided by operating activities, payment of dividends, voluntary repayments of term debt, share repurchases, our net capital spending and significant acquisitions of businesses.

Operating activities continue to be the primary source of our cash, as well as borrowings from our revolving credit facilities to fund significant acquisitions and various business activities. Cash provided by operating activities can fluctuate significantly from period to period due to factors such as differences in the timing, size and number of auctions during the period, the volume of our inventory contracts, the timing of the receipt of auction proceeds from buyers and of the payment of net amounts due to consignors, as well as the location of the auction with respect to restrictions on the use of cash generated therein.

Cash flows

(in U.S \$000's)	Six months ended June 30,		
	2019	2018	% Change 2019 over 2018
Cash provided by (used in):			
Operating activities	\$ 160,355	\$ 107,858	49 %
Investing activities	(17,210)	(21,116)	(18) %
Financing activities	(111,520)	(84,465)	32 %
Effect of changes in foreign currency rates	1,802	(4,113)	144 %
Net increase in cash, cash equivalents, and restricted cash	\$ 33,427	\$ (1,836)	1,921 %

Cash provided by operating activities increased \$52.5 million in the first half of 2019. This increase was primarily due to a net positive impact in our operating assets and liabilities that was driven by our reduction in inventory in Europe and the increase in our net income over the comparative period.

Net cash used in investing activities decreased \$3.9 million in the first half of 2019. This decrease was primarily due to our \$4.7 million acquisition of the Leake Auction Company during the first half of 2018.

Net cash used in financing activities increased \$27.1 million in the first half of 2019. This increase was driven primarily by our \$42.0 million share repurchase, a \$13.9 million reduction in cash from the issuance of share capital, and \$2.6 million increase in dividend payments over the comparative period. The increase was partially offset by \$40.0 million lower net voluntary term debt repayments and a \$9.0 million increase in net proceeds from short-term debt over the comparative period.

Dividend information

We declared and paid a regular cash dividend of \$0.18 per common share for the quarter ended June 30, 2018, September 30, 2018, December 31, 2018, and March 31, 2019. We have declared, but not yet paid, a dividend of \$0.20 per common share for the quarter ended June 30, 2019. All dividends that we pay are “eligible dividends” for Canadian income tax purposes unless indicated otherwise.

Our dividend payout ratio, which we calculate as dividends paid to stockholders divided by net income attributable to stockholders, decreased to 59.9% for the 12 months ended June 30, 2019 from 66.4% for the 12 months ended June 30, 2018. This decrease is primarily due to the increase in net income attributable to stockholders over the comparative period. Our adjusted dividend payout ratio (non-GAAP measure) decreased to 61.7% for the 12 months ended June 30, 2019 from 72.0% for the 12 months ended June 30, 2018.

Return on average invested capital

Our return on average invested capital is calculated as net income attributable to stockholders divided by our average invested capital. We calculate average invested capital over a trailing 12-month period by adding the average long-term debt over that period to the average stockholders' equity over that period.

Return on average invested capital increased 130 bps to 8.5% for the 12-month period ending June 30, 2019 from 7.2% for the 12-month period ending June 30, 2018. This increase is primarily due to an increase in net income attributable to stockholders over the comparative period. Return on invested capital (“ROIC”) (non-GAAP measure) increased 170 bps to 8.3% during the 12 months ended June 30, 2019 compared to 6.6% for the 12 months period ending June 30, 2018. This increase was due to higher adjusted net income attributable to stockholders over the comparative period.

Debt covenants

We were in compliance with all financial and other covenants applicable to our credit facilities at June 30, 2019.

Share repurchase program

On May 9, 2019, we announced a share repurchase program for the repurchase of up to \$100 million worth of our common shares, approved by the Toronto Stock Exchange (“TSX”), over a total period of 12 months, ending May 8, 2020.

In Q2 2019, we executed the following share repurchases at a total cost of \$42.0 million.

	Issuer purchases of equity securities			
	(a) Total number of shares purchased	(b) Average price paid per share	(c) Total number of shares purchased as part of publicly announced program	(d) Maximum approximate dollar value of shares that may yet be purchased under the program
May 23-31, 2019	387,480	\$ 33.49	387,480	\$ 87.0 million
June 1-21, 2019	836,194	34.71	836,194	58.0 million
	<u>1,223,674</u>	<u>\$ 34.32</u>	<u>1,223,674</u>	<u>\$ 58.0 million</u>

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, financial performance, liquidity, capital expenditures or capital resources.

Critical Accounting Policies, Judgments, Estimates and Assumptions

Aside from the adoption of ASU 2016-02, *Leases (Topic 842)*, noted below, there were no material changes in our critical accounting policies, judgments, estimates and assumptions from those disclosed in the following our Annual Report on Form 10-K for the year ended December 31, 2018, or in the notes to our consolidated financial statements included in “Part I, Item 1: Consolidated Financial Statements” in this Quarterly Report on Form 10-Q.

Effective January 1, 2019, we adopted Topic 842, which requires lessees to recognize almost all leases, including operating leases, on the balance sheet through a right-of-use asset and a corresponding lease liability. We utilized the optional transition approach, which permits us to apply the new lease standards at the adoption date.

On adoption of the new standard, we recognized a right-of-use asset relating to operating leases of \$103,897,000 with a corresponding increase in operating lease liability. Offsetting the increase in the ROU asset recognized was the reclassification of a deferred rent liability from other non-current liability to ROU asset of \$5,752,000. There was no impact on retained earnings or cash flows.

The adoption of the standard had no impact on our debt-covenant compliance under our current agreements.

Non-GAAP Measures

We reference various non-GAAP measures throughout this Quarterly Report on Form 10-Q. These measures do not have a standardized meaning and are, therefore, unlikely to be comparable to similar measures presented by other companies. The presentation of this financial information, which is not prepared under any comprehensive set of accounting rules or principles, is not intended to be considered in isolation of, or as a substitute for, the financial information prepared and presented in accordance with generally accepted accounting principles. Non-GAAP financial measures referred to in this report are labeled as “non-GAAP measure” or designated as such with an asterisk (*).

Adjusted Operating Income* Reconciliation

Adjusting operating income* eliminates the financial impact of adjusting items which are significant non-recurring items that we do not consider to be part of our normal operating results, such as acquisition-related costs, management reorganization costs, and certain other items, which we refer to as ‘adjusting items’.

The following table reconciles adjusted operating income to operating income, which is the most directly comparable GAAP measure in our consolidated income statements.

There were no adjusting items in Q2 2019, and in the first half of 2019, or in the comparative prior year periods.

(in U.S. \$000's)	Three months ended June 30,			Six months ended June 30,		
	2019	2018	% Change 2019 over 2018	2019	2018	% Change 2019 over 2018
Operating income	\$ 77,970	\$ 64,795	20 %	\$ 111,558	\$ 97,668	14 %
Adjusted operating income*	\$ 77,970	\$ 64,795	20 %	\$ 111,558	\$ 97,668	14 %

(1) Adjusted operating income* represents operating income excluding the effects of adjusting items.

Adjusted Net Income Attributable to Stockholders* and Diluted Adjusted EPS Attributable to Stockholders* Reconciliation

We believe that adjusted net income attributable to stockholders* provides useful information about the growth or decline of our net income attributable to stockholders for the relevant financial period and eliminates the financial impact of adjusting items we do not consider to be part of our normal operating results. Diluted Adjusted EPS attributable to stockholders* eliminates the financial impact of adjusting items which are after-tax effects of significant non-recurring items that we do not consider to be part of our normal operating results, such as acquisition-related costs, management reorganization costs, and certain other items, which we refer to as ‘adjusting items’.

The following table reconciles adjusted net income attributable to stockholders* and diluted adjusted EPS attributable to stockholders* to net income attributable to stockholders and diluted EPS attributable to stockholders, which are the most directly comparable GAAP measures in our consolidated income statements.

There were no adjusting items in Q2 2019, and in the first half of 2019, or in the comparative prior year periods.

(in U.S. \$000's, except share and per share data)	Three months ended June 30,			Six months ended June 30,		
	2019	2018	% Change 2019 over 2018	2019	2018	% Change 2019 over 2018
Net income attributable to stockholders	\$ 54,036	\$ 45,717	18 %	\$ 72,200	\$ 62,855	15 %
Adjusted net income attributable to stockholders*	\$ 54,036	\$ 45,717	18 %	\$ 72,200	\$ 62,855	15 %
Weighted average number of dilutive shares outstanding	109,942,768	109,019,708	1 %	109,982,763	108,832,776	1 %
Diluted earnings per share attributable to stockholders	\$ 0.49	\$ 0.42	17 %	\$ 0.66	\$ 0.58	14 %
Diluted adjusted EPS attributable to stockholders*	\$ 0.49	\$ 0.42	17 %	\$ 0.66	\$ 0.58	14 %

- (1) Adjusted net income attributable to stockholders* represents net income attributable to stockholders excluding the effects of adjusting items.
- (2) Diluted adjusted EPS attributable to stockholders* is calculated by dividing adjusted net income attributable to stockholders*, net of the effect of dilutive securities, by the weighted average number of dilutive shares outstanding.

Adjusted EBITDA*

We believe adjusted EBITDA* provides useful information about the growth or decline of our net income when compared between different financial periods.

The following table reconciles adjusted EBITDA* to net income, which is the most directly comparable GAAP measures in, or calculated from, our consolidated income statements:

(in U.S. \$000's)	Three months ended June 30,			Six months ended June 30,		
	2019	2018	% Change 2019 over 2018	2019	2018	% Change 2019 over 2018
Net income	\$ 54,131	\$ 45,727	18 %	\$ 72,303	\$ 62,934	15 %
Add: depreciation and amortization expenses	17,112	16,537	3 %	34,227	32,728	5 %
Add: interest expense	10,117	10,937	(7)%	20,933	22,247	(6)%
Less: interest income	(1,063)	(837)	27 %	(1,918)	(1,229)	56 %
Add: income tax expense	15,401	9,031	71 %	22,040	14,300	54 %
Adjusted EBITDA*	<u>\$ 95,698</u>	<u>\$ 81,395</u>	<u>18 %</u>	<u>\$ 147,585</u>	<u>\$ 130,980</u>	<u>13 %</u>

(1) Adjusted EBITDA* is calculated by adding back depreciation and amortization expenses, interest expense, and income tax expense, and subtracting interest income from net income excluding the pre-tax effects of adjusting items.

Adjusted EBITDA* and Adjusted Net Debt/Adjusted EBITDA* Reconciliation

We believe that comparing adjusted net debt/adjusted EBITDA* on a trailing 12-month basis for different financial periods provides useful information about the performance of our operations as an indicator of the amount of time it would take us to settle both our short and long-term debt. We do not consider this to be a measure of our liquidity, which is our ability to settle only short-term obligations, but rather a measure of how well we fund liquidity. Measures of liquidity are noted under "Liquidity and Capital Resources".

The following table reconciles adjusted EBITDA* and adjusted net debt*/adjusted EBITDA* to debt, cash and cash equivalents, net income, and debt as a multiple of net income, which are the most directly comparable GAAP measures in, or calculated from, our consolidated financial statements.

(in U.S. \$millions)	As at and for the 12 months ended June 30,		
	2019	2018	% Change 2019 over 2018
Short-term debt	\$ 8.0	\$ 4.1	95 %
Long-term debt	704.9	750.4	(6)%
Debt	712.9	754.5	(6)%
Less: cash and cash equivalents	(210.4)	(210.6)	— %
Adjusted net debt*	<u>502.5</u>	<u>543.9</u>	<u>(8)%</u>
Net income	\$ 130.9	\$ 110.1	19 %
Add: depreciation and amortization expenses	68.1	63.3	8 %
Add: interest expense	43.2	43.8	(1)%
Less: interest income	(3.6)	(2.5)	43 %
Add: income tax expense	38.7	5.0	674 %
Pre-tax adjusting items:			
Severance and retention	1.5	2.2	(32)%
Gain on sale of equity accounted for investment	(4.9)	—	— %
Adjusted EBITDA*	<u>\$ 273.9</u>	<u>\$ 221.9</u>	<u>23 %</u>
Debt/net income	5.4x	6.9x	(22) %

Adjusted net debt*/adjusted EBITDA*

1.8x

2.5x

(28)

%

-
- (1) Please refer to page 45 for a summary of adjusting items during the trailing 12-months ended June 30, 2019 and June 30, 2018.
 - (2) Adjusted EBITDA* is calculated by adding back depreciation and amortization expenses, interest expense, and income tax expense, and subtracting interest income from net income excluding the pre-tax effects of adjusting items.
 - (3) Adjusted net debt* is calculated by subtracting cash and cash equivalents from short and long-term debt.
 - (4) Adjusted net debt*/adjusted EBITDA* is calculated by dividing adjusted net debt* by adjusted EBITDA*.

Operating Free Cash Flow* (“OFCF”) Reconciliation

We believe OFCF*, when compared on a trailing 12-month basis to different financial periods provides an effective measure of the cash generated by our business and provides useful information regarding cash flows remaining for discretionary return to stockholders, mergers and acquisitions, or debt reduction. Our balance sheet scorecard includes OFCF* as a performance metric. OFCF* is also an element of the performance criteria for certain annual short-term and long-term incentive awards.

The following table reconciles OFCF* to cash provided by operating activities and net capital spending, which are the most directly comparable GAAP measures in, or calculated from, our consolidated statements of cash flows:

(in U.S. \$millions)	12 months ended June 30,		
	2019	2018	% Change 2019 over 2018
Cash provided by operating activities	\$ 196.8	\$ 139.4	41 %
Property, plant and equipment additions	15.7	12.3	28 %
Intangible asset additions	26.1	30.7	(15)%
Proceeds on disposition of property plant and equipment	(9.5)	(4.2)	126 %
Net capital spending	\$ 32.3	\$ 38.8	(17)%
OFCF*	\$ 164.5	\$ 100.6	64 %

(1) OFCF* is calculated by subtracting net capital spending from cash provided by operating activities.

Adjusted Net Income Attributable to Stockholders* and Adjusted Dividend Payout Ratio* Reconciliation

We believe that adjusted net income attributable to stockholders* provides useful information about the growth or decline of our net income attributable to stockholders for the relevant financial period and eliminates the financial impact of adjusting items we do not consider to be part of our normal operating results. We believe that disclosing our adjusted dividend payout ratio* for different financial periods provides useful information about how well our net income supports our dividend payments.

The following table reconciles adjusted net income attributable to stockholders* and adjusted dividend payout ratio* to net income attributable to stockholders, and dividend payout ratio, which are the most directly comparable GAAP measures in, or calculated from, our consolidated financial statements:

(in U.S. \$millions)	12 months ended June 30,		
	2019	2018	% Change 2019 over 2018
Dividends paid to stockholders	78.3	\$ 73.0	7 %
Net income attributable to stockholders	\$ 130.8	\$ 109.9	19 %
Pre-tax adjusting items:			
Severance and retention	1.5	2.2	(32)%
Gain on sale of equity accounted for investment	(4.9)	—	— %
Current income tax effect of adjusting items:			
Severance and retention	(0.4)	(0.2)	100 %
Deferred income tax effect of adjusting items:			
Severance and retention	—	(0.4)	100 %
Deferred tax adjusting item:			
Remeasurement of deferred taxes	—	(10.1)	100 %
Adjusted net income attributable to stockholders*	\$ 127.0	\$ 101.4	25 %
Dividend payout ratio	59.9 %	66.4 %	(650)bps
Adjusted dividend payout ratio*	61.7 %	72.0 %	(1030)bps

- (1) Please refer to page 45 for a summary of adjusting items during the trailing 12-months ended June 30, 2019 and June 30, 2018.
- (2) Adjusted net income attributable to stockholders* represents net income attributable to stockholders excluding the effects of adjusting items.
- (3) Adjusted dividend payout ratio* is calculated by dividing dividends paid to stockholders by adjusted net income attributable to stockholders*.

Adjusted Net Income Attributable to Stockholders* and ROIC* Reconciliation

We believe that comparing ROIC on a trailing 12-month basis for different financial periods, provides useful information about the after-tax return generated by our investments.

The following table reconciles adjusted net income attributable to stockholders* and ROIC* to net income attributable to stockholders, long-term debt, stockholders' equity, return on average invested capital which are the most directly comparable GAAP measures in, or calculated from, our consolidated financial statements:

(in U.S. \$millions)	As at and for the 12 months ended June 30,		
	2019	2018	% Change 2019 over 2018
Net income attributable to stockholders	\$ 130.8	\$ 109.9	19 %
Pre-tax adjusting items:			
Severance and retention	1.5	2.2	(32)%
Gain on sale of equity accounted for investment	(4.9)	—	— %
Current income tax effect of adjusting items:			
Severance and retention	(0.4)	(0.2)	100 %
Deferred income tax effect of adjusting items:			
Severance and retention	—	(0.4)	100 %
Deferred tax adjusting item:			
Remeasurement of deferred taxes	—	(10.1)	100 %
Adjusted net income attributable to stockholders*	\$ 127.0	\$ 101.4	25 %
Opening long-term debt	\$ 750.4	\$ 814.3	(8)%
Ending long-term debt	704.9	750.4	(6)%
Average long-term debt	727.7	782.4	(7)%
Opening stockholders' equity	\$ 786.4	\$ 711.6	11 %
Ending stockholders' equity	830.7	786.4	6 %
Average stockholders' equity	808.6	749.0	8 %
Average invested capital	\$ 1,536.3	\$ 1,531.4	— %
Return on average invested capital	8.5 %	7.2 %	130 bps
ROIC*	8.3 %	6.6 %	170 bps

(1) Please refer to page 45 for a summary of adjusting items during the trailing 12-months ended June 30, 2019 and June 30, 2018.

(2) Return on average invested capital is calculated as net income attributable to stockholders divided by average invested capital. We calculate average invested capital as the average long-term debt and average stockholders' equity over a trailing 12-month period.

(3) ROIC* is calculated as adjusted net income attributable to stockholders* divided by average invested capital.

(4) The adoption of Leases (Topic 842) requires lessees to recognize almost all leases, including operating leases, on the balance sheet through a right-of-use asset and a corresponding lease liability. The lease liability is not included in the calculation of debt.

Adjusting items during the trailing 12-months ended June 30, 2019 were:

Recognized in the second quarter of 2019

- There were no adjustment items recognized in the second quarter of 2019.

Recognized in the first quarter of 2019

- There were no adjustment items recognized in the first quarter of 2019.

Recognized in the fourth quarter of 2018

- There were no adjustment items recognized in the fourth quarter of 2018.

Recognized in the third quarter of 2018

- \$1.5 million (\$1.1 million after tax, or \$0.01 per diluted share) of severance and retention costs in a corporate reorganization that followed the Acquisition;
- \$4.9 million (\$4.9 million after tax, or \$0.04 per diluted share) due to gain on sale of an equity accounted for investment.

Adjusting items during the trailing 12-months ended June 30, 2018 were:

Recognized in the second quarter of 2018

- There were no adjustment items recognized in the second quarter of 2018.

Recognized in the first quarter of 2018

- There were no adjustment items recognized in the first quarter of 2018.

Recognized in the fourth quarter of 2017

- \$2.2 million (\$1.6 million after tax, or \$0.02 per diluted share) of severance and retention costs in a corporate reorganization that followed the Acquisition;
- \$10.1 million (or \$0.10 per diluted share) benefit on remeasurement of deferred taxes due to the Tax Cuts and Jobs Act.

Recognized in the third quarter of 2017

- There were no adjustment items recognized in the third quarter of 2017.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to our market risk during the six months ended June 30, 2019 from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2018, which is available on our website at www.rbauction.com, on EDGAR at www.sec.gov, or on SEDAR at www.sedar.com.

ITEM 4: CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Management of the Company, including the Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), have evaluated the effectiveness of our disclosure controls and procedures as at June 30, 2019. The term “disclosure controls and procedures” means controls and other procedures we have established that are designed to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Based upon their evaluation of our disclosure controls and procedures, the CEO and the CFO concluded that, as at June 30, 2019, the disclosure controls are effective to provide reasonable assurance that information we are required to disclose in the reports that we file or submit under the Exchange Act is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms.

We, including our CEO and CFO, do not expect that our internal controls and procedures will prevent or detect all error and all fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Changes in Internal Control over Financial Reporting

Management, with the participation of the CEO and CFO, concluded that there were no changes in our internal control over financial reporting during the quarter ended June 30, 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

We have no material legal proceedings pending, other than ordinary routine litigation incidental to the business, and we do not know of any material proceedings contemplated by governmental authorities.

ITEM 1A: RISK FACTORS

Our business is subject to a number of risks and uncertainties and our past performance is no guarantee of our performance in future periods. In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the risks and uncertainties discussed in “Part I, Item 1A: Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2018, which is available on our website at www.rbauction.com, on EDGAR at www.sec.gov, or on SEDAR at www.sedar.com, before purchasing our common shares. Our business could also be affected by additional risks not currently known to us or that we currently deem to be immaterial. If any of the risks actually occur, our business, financial condition and results of operations could materially suffer. As a result, the trading price of our common shares could decline and you may lose all or part of your investment.

Except as set forth below, there were no material changes in risk factors during the three months or six months ended June 30, 2019.

We are currently undergoing a Chief Executive Officer transition, which could be disruptive to, or cause uncertainty in, our business.

On June 24, 2019, the Company announced that Ravi Saligram, Chief Executive Officer, will resign effective October 1, 2019. The Board is currently in the process of searching for Mr. Saligram’s successor. Failure to appoint a CEO successor with the desired level of experience and expertise in a timely manner could have a material adverse effect on our results of operations, financial condition and the market price of our common stock.

ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

Share repurchase program

For information regarding our purchases of common shares during the three months ended June 30, 2019 pursuant to our normal course issuer bid, refer to “Part I, Item 2: Management’s Discussion and Analysis of Financial Conditions and Results of Operations—Liquidity and Capital Resources—Share Repurchase Program” of this Form 10-Q which is incorporated into this Item by reference.

ITEM 3: DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4: MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5: OTHER INFORMATION

None.

ITEM 6: EXHIBITS

Exhibits

The exhibits listed in below are filed as part of this Quarterly Report on Form 10-Q and incorporated herein by reference.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULE 13a-14(a) OF THE
SECURITIES EXCHANGE ACT OF 1934**

I, Ravichandra K. Saligram, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Ritchie Bros. Auctioneers Incorporated;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
