Report of Independent Registered Public Accounting Firm

Plan Administrator and Plan Participants
Devon Energy Corporation Incentive Savings Plan

Opinion on the financial statements

We have audited the accompanying statements of net assets available for benefits of Devon Energy Corporation Incentive Savings Plan (the “Plan”) as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

Basis for opinion

These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on the Plan’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental information

The supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2017 has been subjected to audit procedures performed in conjunction with the audit of the Plan’s financial statements. The supplemental information is presented for purposes of additional analysis and is not a required part of the basic financial statements but include supplemental information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan’s management. Our audit procedures included determining whether the supplemental information reconciles to the basic financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information referred to above is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

/s/ GRANT THORNTON LLP

We have served as the Plan’s auditor since 2006.

Oklahoma City, Oklahoma

**DEVON ENERGY CORPORATION INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

1. Description of Plan

The following description of the Devon Energy Corporation Incentive Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the plan agreement and respective amendments for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering substantially all United States employees of Devon Energy Corporation (“Devon”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Employees are eligible to participate in the Plan as soon as administratively possible following the completion of one hour of service. There is no minimum age requirement for employees to be eligible.

The plan administrator is a committee of Devon employees who are appointed by and serve at the direction of Devon (the “Benefits Committee”). The Benefits Committee is responsible for administration of the Plan, except for the duties related to selecting and monitoring the Plan’s investment options. The selection and monitoring of investment options, and related functions, is the responsibility of a separate committee of Devon employees who are appointed by and serve at the direction of Devon (the “Investments Committee”).

Devon’s Board of Directors, or a committee thereof, has the sole responsibility for appointing and removing the Plan’s trustee, which is currently Fidelity Management Trust Company (the “Trustee”). Under the terms of an agreement between the Trustee and the Plan, the Trustee administers the Plan’s trust in accordance with instructions provided by the Benefits Committee.

Contributions

As defined in the Plan, participants may elect to contribute from 1% to 50% of their compensation to the Plan on a pre-tax basis or on an after-tax, designated Roth basis. The combined pre-tax and designated Roth contributions are subject to limitations under the Internal Revenue Code (the “Code”). Participants who have attained age 50 before the end of the Plan year are eligible to make pre-tax or designated Roth catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (“Rollover Contributions”). Participant Rollover Contributions were approximately \$924,000 during 2017.

New employees who do not take action to either enroll or decline to enroll in the Plan are automatically enrolled in the Plan with a pre-tax deferral contribution rate equal to 3%.

Participants may receive an employer match on their contribution to the Plan in an amount determined annually by Devon. The amount of the matching contribution will vary according to the participant’s years of service and whether the participant is eligible for enhanced contributions. Participants employed subsequent to October 1, 2007 and participants who opted out of a separate defined benefit plan sponsored by Devon are eligible for enhanced contributions. During 2017, for all participants with at least five years of service, Devon contributed amounts equal to 100% of each participant’s contributions to the Plan, with the matching contribution being limited to the lesser of 6% of the participant’s compensation or \$16,200. For participants with less than five years of service, Devon’s matching contributions in 2017 were limited to the lesser of 3% of the participant’s compensation or \$8,100.

Participants eligible for enhanced contributions also receive additional, nondiscretionary contributions by Devon calculated as a percentage of their compensation, as defined in the Plan. In 2017, the enhanced contribution percentage ranged from 8% to 16%, depending upon a participant’s years of service.

Participant Accounts

Each participant’s account is credited with the participant’s contribution, Devon’s contribution and allocations of earnings or losses on the investments selected by the participant and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

**DEVON ENERGY CORPORATION INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED**

Investments

Participants direct their account balances to be invested in a number of investment options. Participants may change their investment options on a daily basis. Investment options of the Plan as of December 31, 2017 consist of mutual funds, equity securities, Devon common stock, collective trust funds, stable value fund and Brokerage Link. Brokerage Link is a self-directed brokerage account that allows participants to invest in a wide variety of funds.

Vesting and Forfeitures

Participants are vested immediately in their contributions, plus the associated investment income or losses. For each year of service up to four years, a participant becomes 25% vested in employer contributions to their account and the associated investment income or losses. Participants will become vested upon a change of control of Devon, as defined in the Plan or if the participant dies, becomes totally disabled or reaches age 65 while employed by Devon.

Upon a termination of service that results in nonvested amounts in a participant's account, the nonvested portion is forfeited and used to reduce Devon's future contributions or pay Plan expenses. Employer contributions were reduced by approximately \$1,205,000 in 2017 due to forfeitures. In 2017, Plan expenses of approximately \$205,000 were paid by forfeitures. As of December 31, 2017 and 2016, there were approximately \$293,000 and \$420,000, respectively, of forfeitures available to reduce future employer contributions or pay expenses.

Notes Receivable from Participants

Participants may borrow from their fund accounts and may have up to two loans outstanding at any time. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participants' accounts. The loans bear interest at a fixed rate, which approximates the rate generally charged for consumer loans secured by certificates of deposit or marketable securities. The interest rates ranged from 4.25% to 9.50% at December 31, 2017. The terms of the loans may not exceed five years, except for loans used to purchase a primary residence, in which case the loan term generally will not exceed 15 years. Maturity dates ranged from January 2018 to March 2033 at December 31, 2017. Principal and interest is repaid through biweekly payroll deductions from the participants' wages.

Payment of Benefits

While still employed, a participant who is age 59½ or older may withdraw all or part of the vested interest in their account at any time. Participants who are still employed also may withdraw their Rollover Contributions regardless of age. In addition, participants who are still employed and who have taken all other withdrawals and loans available under the Plan may also request a withdrawal in an amount necessary to satisfy an immediate and heavy financial need.

On termination of service due to death, disability or upon retirement, participants (or a beneficiary in the case of death) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account or equal installments (monthly, quarterly, semi-annually or annually) for any period less than the life expectancy of the participant and their beneficiary. For termination of service for other reasons, participants may receive the value of the vested interest in their account as a lump-sum distribution. Depending on the value of the participant's vested interest in their account at the time of their termination of service, the value of the participant's vested interest may be automatically paid in a lump-sum distribution, paid in a direct rollover or automatically rolled over to an individual retirement account or annuity established in the participant's or beneficiary's name.

**DEVON ENERGY CORPORATION INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED**

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan in preparing the accompanying financial statements.

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell the investment in an orderly transaction between market participants. This price is commonly referred to as the "exit price." Fair value measurements are classified according to a hierarchy that prioritizes the inputs underlying the valuation techniques. This hierarchy consists of three broad levels:

- Level 1 – Inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. When available, Level 1 inputs are used to measure fair value because they generally provide the most reliable evidence of fair value.
- Level 2 – Inputs consist of quoted prices that are generally observable for the asset. Common examples of Level 2 inputs include quoted prices for similar assets in active markets or quoted prices for identical assets in markets not considered to be active.
- Level 3 – Inputs are not observable from objective sources and have the lowest priority. The most common Level 3 fair value measurement is an internally developed cash flow model.

Realized gains or losses are calculated based on proceeds from the sale of investments and the fair value of the investments at the beginning of the plan year or at time of purchase if acquired during the current plan year. Unrealized appreciation or depreciation of the investments is calculated based on the fair value of the investments at the end of the plan year and the fair value of the investments at the beginning of the plan year or at time of purchase if acquired during the current plan year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

**DEVON ENERGY CORPORATION INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED**

Administrative Expenses

Trustee, audit and certain other administrative fees are paid by Devon on behalf of the Plan and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment management fees related to the equity securities and collective trusts are included in administrative expenses. All other investment-related expenses are included in net appreciation of fair value of investments.

3. Fair Value Measurements

The following tables provide the Plan's investments at fair value according to the fair value hierarchy. The Plan had no Level 2 or Level 3 investments as of December 31, 2017 and 2016. There have been no changes in the methodologies used at December 31, 2017 and 2016.

	<u>As of December 31, 2017</u>	
	<u>Total</u>	<u>Level 1 Inputs</u>
Mutual funds	\$ 244,897,426	\$ 244,897,426
Self-directed brokerage account	37,017,592	37,017,592
Common stock	230,170,187	230,170,187
Total assets in the fair value hierarchy	<u>\$ 512,085,205</u>	<u>\$ 512,085,205</u>
Investments measured at net asset value	256,696,296	
Investments at fair value	<u>\$ 768,781,501</u>	

	<u>As of December 31, 2016</u>	
	<u>Total</u>	<u>Level 1 Inputs</u>
Mutual funds	\$ 205,891,804	\$ 205,891,804
Self-directed brokerage account	32,305,893	32,305,893
Common stock	225,588,412	225,588,412
Total assets in the fair value hierarchy	<u>\$ 463,786,109</u>	<u>\$ 463,786,109</u>
Investments measured at net asset value	219,247,608	
Investments at fair value	<u>\$ 683,033,717</u>	

DEVON ENERGY CORPORATION INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016, respectively.

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Commingled funds:				
US Equity	\$ 104,968,336	None	Daily	None
International Equity	86,136,854	None	Daily	None
World Equity	24,601,478	None	Daily	None
Real Estate	1,539,780	None	Daily	None
Total commingled funds	217,246,448			
Stable value collective:				
Trust fund	39,449,848	None	Daily	12 months
Investments measured at net asset value	<u>\$ 256,696,296</u>			
December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Commingled funds:				
US Equity	\$ 96,402,679	None	Daily	None
International Equity	64,197,186	None	Daily	None
World Equity	11,263,590	None	Daily	None
Real Estate	5,667,593	None	Daily	None
Total commingled funds	177,531,048			
Stable value collective:				
Trust fund	41,716,560	None	Daily	12 months
Investments measured at net asset value	<u>\$ 219,247,608</u>			

The following methods and assumptions were used to estimate the fair values in the tables above.

Mutual funds. Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts. Accounts primarily consist of mutual funds that are valued on the basis of readily determinable market prices.

Common stocks. Valued at the closing price reported on the active market on which the individual securities are traded.

Commingled funds. Valued based on the net asset value of the commingled funds’ underlying investments using information reported by the investment advisor. The net asset value is used as a practical expedient to estimate fair value.

Stable value collective trust fund. Valued at the net asset value of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months’ notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although these valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to

**DEVON ENERGY CORPORATION INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED**

determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

4. Plan Termination

Although Devon has not expressed any intent to terminate the Plan, it may do so at any time. Benefits owed to participants are not actuarially determined and the aggregate vested benefits are limited to the Plan's net assets available for plan benefits. In the event of the Plan's termination, participants would become 100% vested in their accounts.

5. Related Party and Parties in Interest Transactions

The Trustee and Devon are parties in interest as defined by ERISA. Certain plan investments are shares of mutual funds managed by Fidelity Management & Research Company, which is an affiliate of the Trustee. The Trustee also invests certain Plan assets in the Devon Stock Fund. Such transactions qualify as party-in-interest transactions permitted by the Department of Labor regulations.

6. Tax Status

The Internal Revenue Service has determined and informed Devon by a letter dated July 10, 2017 that the Plan and related trusts are designed in accordance with applicable sections of the Code. Prior to July 10, 2017 the Plan operated under a determination letter dated November 3, 2015. Although the Plan has been amended since receiving the determination letter, the Benefits Committee believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Benefits Committee has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements as of December 31, 2017 and 2016.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risk and Uncertainties

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Because of the risks associated with investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
