“The first quarter marked a strong start to the year, as we advanced our clinical and commercial goals with the signing of significant new licensing deals and the completion of the approval process of RIZAPORT® under the European Decentralized Procedure,” said Dr. Horst G. Zerbe, President and CEO of IntelGenx. “Moving forward, we remain committed to delivering on our partnership agreements and bringing their associated products to the market as expeditiously as possible. With the newly granted exclusive license from Eli Lilly, we are also actively pursuing negotiations with potential commercialization partners for our tadalafil film products. We look forward to updating investors as we progress.”

Financial Results:

Total revenues for the three-month period ended March 31, 2017, amounted to approximately \$1.4 million, representing an increase of \$535,000 or 65%, compared to \$818,000 for the three-month period ended March 31, 2016. The increase for the three-month period ended March 31, 2017 compared to the last year’s corresponding period is mainly attributable to the increase in upfront and deferred revenues, which were partially offset by a decrease in royalties.

Operating costs and expenses were \$1.8 million for the first quarter ended March 31, 2017, versus \$1.5 million for the corresponding quarter in 2016. The increase for the three-month period ended March 31, 2017 is mainly attributable to an increase in Research and Development expenses of \$163,000.
