Securities registered pursuant to Section 12(g) of the Act:

**None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicated by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by checkmark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Accelerated filer ☒

Non-accelerated filer ☐

Smaller reporting company ☐

Indicate by check mark whether registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

The aggregate market value of the registrant's voting common equity held by non-affiliates of the registrant on the last business day of the registrant's most recently completed second fiscal quarter, computed by reference to the last sale price of such stock of \$7.52 per share as of June 30, 2011 on the New York Stock Exchange, was approximately \$ 222.3 million. The registrant has no non-voting common equity issued and outstanding. The determination of affiliate status for purposes of this paragraph is not necessarily a conclusive determination for any other purpose.

The number of shares outstanding of the registrant's common stock as of February 22, 2012 was 36,307,598 shares.

## DOCUMENTS INCORPORATED BY REFERENCE

Portions of our Proxy Statement for the 2012 Annual Meeting of Stockholders, to be filed with the Securities and Exchange Commission not later than 120 days after December 31, 2011, are incorporated by reference in Part III herein.

## PART I

### ITEM 1. BUSINESS

#### OVERVIEW

We are a New York City-based company, incorporated in the Marshall Islands in 2004. We transport iron ore, coal, grain, steel products and other drybulk cargoes along worldwide shipping routes through the ownership and operation of drybulk carrier vessels. Excluding vessels of Baltic Trading Limited (“Baltic Trading”), our fleet currently consists of 53 drybulk carriers, including nine Capesize, eight Panamax, 17 Supramax, six Handymax and 13 Handysize drybulk carriers, with an aggregate carrying capacity of approximately 3,810,000 dwt. The average age of our current fleet is approximately 6.8 years, as compared to the average age for the world fleet of approximately 12 years for the drybulk shipping segments in which we compete. All of the vessels in our fleet were built in shipyards with reputations for constructing high-quality vessels. The majority of the vessels in our fleet are currently on time charter contracts or spot market-related time charters. Five of our vessels currently operate in the Lauritzen Pool. Under a pool arrangement, the vessels operate under a time charter agreement whereby the cost of bunkers and port expenses are borne by the pool and operating costs including crews, maintenance and insurance are typically paid by the owner of the vessel. Since the members of the pool share in the revenue generated by the entire group of vessels in the pool, and the pool operates in the spot market, the revenue earned by these five vessels are subject to the fluctuations of the spot market. Most of our vessels are chartered to well-known charterers, including Lauritzen Bulkcarriers A/S or LB/IVS Pool, in which Lauritzen Bulkcarriers A/S acts as the pool manager (collectively, “Lauritzen Bulkcarriers”), Cargill International S.A. (“Cargill”), Pacific Basin Chartering Ltd. (“Pacbasin”), Trafigura Beheer B.V. (“Trafigura”), Klaveness Chartering (“Klaveness”) and Swissmarine Services S.A. (“Swissmarine”).

In addition, Baltic Trading’s fleet currently consists of two Capesize, four Supramax and three Handysize drybulk carriers with an aggregate carrying capacity of approximately 672,000 dwt.

Depending on market conditions, we intend to acquire additional modern, high-quality drybulk carriers through timely and selective acquisitions of vessels in a manner that is accretive to our cash flow. In connection with the acquisitions made during 2007 through 2011 and our growth strategy, we negotiated the 2007 Credit Facility, \$100 Million Term Loan Facility, \$253 Million Term Loan Facility and the 2010 Baltic Trading Credit Facility (each as defined herein) that we have used to acquire vessels. We expect to fund acquisitions of additional vessels using cash reserves set aside for this purpose or additional borrowings and may consider additional debt or equity financing alternatives from time to time.

On June 3, 2010, we entered into an agreement to purchase a total of eight Handysize drybulk vessels, including five newbuildings, from companies within the Metrostar Management Corporation group of companies (“Metrostar”) for an aggregate purchase price of \$266.0 million. Five of these vessels are owned by us and three are owned by Baltic Trading. Additionally, on June 24, 2010, we entered into a Master Agreement with Bourbon SA (“Bourbon”) to purchase 16 drybulk vessels, including two newbuildings, for an aggregate purchase price of \$545.0 million. We retained 13 of the 16 vessels, including one newbuilding, and the remaining three vessels were immediately resold to Maritime Equity Partners LLC (“MEP”), a company managed by a Company owned by our Chairman, Peter C. Georgiopoulos. All eight vessels have been delivered from Metrostar and all 16 vessels have been delivered from Bourbon, three of which were sold to MEP.

In order to fund the acquisition of these vessels, we entered into two senior secured term loan facilities. On August 12, 2010, we entered into a \$100 million senior secured term loan facility (the “\$100 Million Term Loan Facility”) to be utilized to fund or refund to us a portion of the purchase price of the acquisition of five vessels from Metrostar. On August 20, 2010, we entered into a \$253 million senior secured term loan facility (the “\$253 Million Term Loan Facility”) to fund a portion of the purchase price of the acquisition of 13 vessels from Bourbon. The Baltic Trading vessels have been funded utilizing its \$150 million senior secured revolving credit facility (the “2010 Baltic Trading Credit Facility”).

Our management team and our other employees are responsible for the commercial and strategic management of our fleet. Commercial management includes the negotiation of charters for vessels, managing the mix of various types of charters, such as time charters, voyage charters and spot market-related time charters, and monitoring the performance of our vessels under their charters. Strategic management includes locating, purchasing, financing and selling vessels. We currently contract with three independent technical managers to provide technical management of our fleet at a lower cost than we believe would be possible in-house. Technical management involves the day-to-day management of vessels, including performing routine maintenance, attending to vessel operations and arranging for crews and supplies. Members of our New York City-based management team oversee the activities of our independent technical managers.

From time to time in the current global economic environment, our charterers with long-term time charters may request to renegotiate the terms of our charters with them. As a general matter, we do not agree to make changes to the terms of our charters in response to such requests. The failure of any charterer to meet its obligations under our long-term time charters could have an adverse effect on our results of operations.

We hold an investment in the capital stock of Jinhui Shipping and Transportation Limited (“Jinhui”). Jinhui is a drybulk shipping owner and operator focused on the Supramax segment of drybulk shipping.

Baltic Trading, formerly our wholly-owned subsidiary, completed its initial public offering, or IPO, on March 15, 2010. As of December 31, 2011, our wholly-owned subsidiary Genco Investments LLC owned 5,699,088 shares of Baltic Trading’s Class B Stock, which represents a 25.11% ownership interest in Baltic Trading at December 31, 2011 and 83.41% of the aggregate voting power of Baltic Trading’s outstanding shares of voting stock. Baltic Trading is consolidated as we control a majority of the voting interest in Baltic Trading. Management’s discussion and analysis of our results of operations and financial condition includes the results of Baltic Trading.

We entered into a long-term management agreement (the “Management Agreement”) with Baltic Trading pursuant to which we apply our expertise and experience in the drybulk industry to provide Baltic Trading with commercial, technical, administrative and strategic services. The Management Agreement is for an initial term of approximately 15 years and will automatically renew for additional five-year periods unless terminated in accordance with its terms. Baltic Trading will pay us for the services we provide it as well as reimburse us for our costs and expenses incurred in providing certain of these services. Management fee income we earn from the Management Agreement net of any allocated shared expenses, such as salary, office expenses and other general and administrative fees, will be taxable to us. Upon consolidation with Baltic Trading, any management fee income earned will be eliminated for financial reporting purposes.

We provide technical services for drybulk vessels purchased by MEP under an agency agreement between us and MEP. These services include oversight of crew management, insurance, drydocking, ship operations and financial statement preparation, but do not include chartering services. The services are provided for a fee of \$750 per ship per day plus reimbursement of out-of-pocket costs and will be provided for an initial term of one year. MEP will have the right to cancel provision of services on 60 days’ notice with payment of a one-year termination fee or without a fee upon a change of our control. We may terminate provision of the services at any time on 60 days notice. Mr. Georgiopoulos is a minority investor in MEP, and affiliates of Oaktree Capital Management, L.P., of which Stephen A. Kaplan, one of our directors, is a principal, are majority investors in MEP. This arrangement was approved by an independent committee of our Board of Directors.

## **AVAILABLE INFORMATION**

We file annual, quarterly and current reports, proxy statements, and other documents with the SEC, under the Securities Exchange Act of 1934, or the Exchange Act. The public may read and copy any materials that we file with the SEC at the SEC’s Public Reference Room at 100 F Street, NE, Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Also, the SEC maintains an Internet website that contains reports, proxy and information statements, and other information regarding issuers, including us, that file electronically with the SEC. The public can obtain any documents that we file with the SEC at [www.sec.gov](http://www.sec.gov).

In addition, our company website can be found on the Internet at [www.gencoshipping.com](http://www.gencoshipping.com). The website contains information about us and our operations. Copies of each of our filings with the SEC on Form 10-K, Form 10-Q and Form 8-K, and all amendments to those reports, can be viewed and downloaded free of charge after the reports and amendments are electronically filed with or furnished to the SEC. To view the reports, access [www.gencoshipping.com](http://www.gencoshipping.com), click on Investor, then SEC Filings. No information on our company website is incorporated by reference into this annual report on Form 10-K.

Any of the above documents can also be obtained in print by any shareholder upon request to our Investor Relations Department at the following address:

Corporate Investor Relations  
Genco Shipping & Trading Limited  
299 Park Avenue, 12<sup>th</sup> Floor  
New York, NY 10171

## BUSINESS STRATEGY

Our strategy is to manage and expand our fleet in a manner that maximizes our cash flows from operations. To accomplish this objective, we intend to:

- *Strategically expand the size of our fleet* — Depending on market conditions, we intend to acquire additional modern, high-quality drybulk carriers through timely and selective acquisitions of vessels in a manner that is accretive to our cash flows. We expect to fund acquisitions of additional vessels using cash reserves set aside for this purpose, debt and utilizing equity financing alternatives.
- *Continue to operate a high-quality fleet* - We intend to maintain a modern, high-quality fleet that meets or exceeds stringent industry standards and complies with charterer requirements through our technical managers' rigorous and comprehensive maintenance program. In addition, our technical managers maintain the quality of our vessels by carrying out regular inspections, both while in port and at sea.
- *Pursue an appropriate balance of time and spot charters* - All of our 53 vessels, excluding those of Baltic Trading, are under time charters, spot market-related time charters or pool agreements. Charters under fixed rate contracts provide us with relatively stable revenues, and charterers under spot market-related time charters provide us with market revenues, both of which provide us with a high fleet utilization. We may in the future pursue other market opportunities for our vessels to capitalize on market conditions, including arranging longer or shorter charter periods and entering into short-term time charters, voyage charters and use of vessel pools. Our charter strategy through the current unfavorable market condition has been focused on signing short-term or spot market-related contracts with multinational charterers in order to preserve our ability to capitalize on possible future rate increases.
- *Maintain low-cost, highly efficient operations* — During the year ended December 31, 2011, we outsourced technical management of our fleet, to Wallem Shipmanagement Limited ("Wallem"), Anglo-Eastern Group ("Anglo"), and V.Ships Limited ("V.Ships"), third-party independent technical managers, at a cost we believe is lower than what we could achieve by performing the function in-house. Our management team actively monitors and controls vessel operating expenses incurred by the independent technical managers by overseeing their activities. Finally, we seek to maintain low-cost, highly efficient operations by capitalizing on the cost savings and economies of scale that result from operating sister ships.
- *Capitalize on our management team's reputation* - We will continue to capitalize on our management team's reputation for high standards of performance, reliability and safety, and maintain strong relationships with major international charterers, many of whom consider the reputation of a vessel owner and operator when entering into time charters. We believe that our management team's track record improves our relationships with high quality shipyards and financial institutions, many of which consider reputation to be an indicator of creditworthiness.

## OUR FLEET

The table below summarizes the characteristics of our vessels, including those of Baltic Trading:

### Genco Shipping & Trading Limited:

Vessel	Class	Dwt	Year Built
Genco Augustus	Capesize	180,151	2007
Genco Claudius	Capesize	169,025	2010
Genco Constantine	Capesize	180,183	2008

Baltic Cove	Handysize	34,403	2010
Baltic Wind	Handysize	34,409	2009

## FLEET MANAGEMENT

Our management team and other employees are responsible for the commercial and strategic management of our fleet. Commercial management involves negotiating charters for vessels, managing the mix of various types of charters, such as time charters, voyage charters and spot market-related time charters, and monitoring the performance of our vessels under their charters. Strategic management involves locating, purchasing, financing and selling vessels.

We utilize the services of reputable independent technical managers for the technical management of our fleet. We currently contract with Wallem, Anglo and V.Ships, independent technical managers, for our technical management. Technical management involves the day-to-day management of vessels, including performing routine maintenance, attending to vessel operations and arranging for crews and supplies. Members of our New York City-based management team oversee the activities of our independent technical managers. The head of our technical management team has over 30 years of experience in the shipping industry.

Wallem, founded in 1971, Anglo, founded in 1974 and V.Ships, founded in 1984, are among the largest ship management companies in the world. These technical managers are known worldwide for their agency networks, covering all major ports in China, Hong Kong, Japan, Vietnam, Taiwan, Thailand, Malaysia, Indonesia, the Philippines and Singapore. These technical managers provide services to over 1,000 vessels of all types, including Capesize, Panamax, Supramax, Handymax and Handysize drybulk carriers that meet strict quality standards.

Under our technical management agreements, our technical manager is obligated to:

- provide personnel to supervise the maintenance and general efficiency of our vessels;
- arrange and supervise the maintenance of our vessels to our standards to assure that our vessels comply with applicable national and international regulations and the requirements of our vessels' classification societies;
- select and train the crews for our vessels, including assuring that the crews have the correct certificates for the types of vessels on which they serve;
- check the compliance of the crews' licenses with the regulations of the vessels' flag states and the International Maritime Organization, or IMO;
- arrange the supply of spares and stores for our vessels; and
- report expense transactions to us, and make its procurement and accounting systems available to us.

## OUR CHARTERS

As of February 21, 2012, excluding Baltic Trading, we employed 15 of our 53 drybulk carriers under time charters. A time charter involves the hiring of a vessel from its owner for a period of time pursuant to a contract under which the vessel owner places its ship (including its crew and equipment) at the disposal of the charterer. Under a time charter, the charterer periodically pays a fixed daily charterhire rate to the owner of the vessel and bears all voyage expenses, including the cost of bunkers ("fuel"), port expenses, agents' fees and canal dues. Two of our vessels on time charters, the Genco Constantine and Genco Hadrian, are chartered under time charters which include a profit-sharing element. Under these charter agreements, we receive a fixed rate of \$52,750 and \$65,000 per day, respectively, and an additional profit-sharing payment. The profit-sharing between us and the respective charterer for each 15-day period is calculated by taking the average over that period of the published Baltic Cape Index of the four time charter routes as reflected in daily reports. If such average is more than the base rate payable under the charter, the excess amount is allocable 50% to us and 50% to the charterer. The profit sharing amount due to us is net of a 3.75% commission. Additionally, as of February 21, 2012, we employed 33 of our 53 drybulk carriers under spot market-related time charters which are time charters with rates based on published Baltic Indices. These types of charters are similar to time charters with the exception of having a fixed rate over the term of the time charter agreement. As such, the revenue earned by these 33 vessels is subject to the fluctuations of the spot market. Four of these vessels have spot market-related time charters which are linked with a floor of \$8,500 and a ceiling of \$13,500 daily with a 50% profit sharing arrangement to apply to any amount above the ceiling. The rate is based on 115% of the average of the daily rates of the Baltic Handysize index as reflected in daily reports.

The remaining five of our drybulk carriers are currently in a vessel pool. The Genco Explorer, Genco Pioneer, Genco Progress, Genco Reliance and Genco Sugar are in the Lauritzen Pool. We believe that vessel pools provide cost-effective commercial

management activities for a group of similar class vessels. The pool arrangement provides the benefits of a large-scale operation and chartering efficiencies that might not be available to smaller fleets. Under the pool arrangement, the vessels operate under a time charter agreement whereby the cost of bunkers and port expenses are borne by the charterer and operating costs including crews, maintenance and insurance are typically paid by the owner of the vessel. Since the members of the pool share in the revenue generated by the entire group of vessels in the pool, and the pool operates in the spot market, the revenue earned by these five vessels is subject to the fluctuations of the spot market.

Subject to any restrictions in the contract, the charterer determines the type and quantity of cargo to be carried and the ports of loading and discharging. Our vessels operate worldwide within the trading limits imposed by our insurance terms. The technical operation and navigation of the vessel at all times remains the responsibility of the vessel owner, which is generally responsible for the vessel's operating expenses, including the cost of crewing, insuring, repairing and maintaining the vessel, costs of spares and consumable stores, tonnage taxes and other miscellaneous expenses.

Each of our current time charters, spot market-related time charters and vessel pool agreements expire within a range of dates (for example, a minimum of 11 and maximum of 13 months following delivery), with the exact end of the time charter left unspecified to account for the uncertainty of when a vessel will complete its final voyage under the time charter. The charterer may extend the charter period by any time that the vessel is off-hire. If a vessel remains off-hire for more than 30 consecutive days, the time charter may be cancelled at the charterer's option.

In connection with the charter of each of our vessels, we incur commissions generally ranging from 1.25% to 6.25% of the total daily charterhire rate of each charter to third parties, depending on the number of brokers involved with arranging the relevant charter.

We monitor developments in the drybulk shipping industry on a regular basis and strategically adjust the charterhire periods for our vessels according to market conditions as they become available for charter.

During the beginning of 2009, the Genco Cavalier, a 2007-built Supramax vessel, was on charter to Samsun Logix Corporation ("Samsun"), when Samsun filed for the equivalent of bankruptcy protection in South Korea, otherwise referred to as a rehabilitation application. On February 5, 2010, the rehabilitation plan submitted by Samsun was approved by the South Korean courts. As part of the rehabilitation process, our claim of approximately \$17.2 million will be settled in the following manner: 34%, or approximately \$5.9 million, will be paid in cash in annual installments on December 30<sup>th</sup> of each year from 2010 through 2019 ranging in percentages from eight to 17; the remaining 66%, or approximately \$11.3 million, converted to Samsun shares at a specified value per share. During the year ended December 31, 2011, we have recorded \$0.5 million as other operating income which represents the portion (9%) of the cash settlement that was due on December 30, 2011. During the year ended December 31, 2010, we have recorded \$0.6 million as other operating income which represents the portion (10%) of the cash settlement which was due on December 30, 2010.

During January 2011, the Genco Success, a 1997-built Handymax vessel, was on charter to Korea Line Corporation ("KLC") when KLC filed for a rehabilitation application. At December 31, 2011 and 2010, we have limited exposure as a result of the bankruptcy protection filing by KLC. The vessel was redelivered to us by KLC on January 29, 2011. We estimate that we have a claim of approximately \$0.9 million against KLC related primarily to unpaid revenue earned prior to re-delivery of the vessel. If a rehabilitation plan is approved by the South Korean courts and it is determined that we will receive a cash settlement for our outstanding claim, any amounts due from KLC will be recorded once the collectibility of the receivable has been assessed and the amount has been deemed collectible.

The following table sets forth information about the current employment of the vessels currently in our fleet as of February 21, 2012:

Genco Shipping & Trading Limited

Vessel	Year Built	Charterer	Charter Expiration (1)	Cash Daily Rate (2)
<b><i>Capesize Vessels</i></b>				
Genco Augustus	2007	Cargill International S.A.	October 2012	100% of BCI(3)

(1) The charter expiration dates presented represent the earliest dates that our charters may be terminated in the ordinary course. Except for the Genco Constantine and the Genco Hadrian, under the terms of each contract, the charterer is entitled to extend the time charters from two to four months in order to complete the vessel's final voyage plus any time the vessel has been off-hire. The charterer of the Genco Hadrian has the option to extend the charter for a period of one year. The charterer of the Genco Constantine has the option to extend the charter for a period of eight months.

(2) Time charter rates presented are the gross daily charterhire rates before third-party commissions generally ranging from 1.25% to 6.25%. In a time charter, the charterer is responsible for voyage expenses such as bunkers, port expenses, agents' fees and canal dues.

(3) We have agreed to an extension with Cargill International S.A. on a spot market-related time charter for 10.5 to 14.5 months based on 100% of the average of the daily rates of the Baltic Capesize Index (BCI) published by the Baltic Exchange, as reflected in daily reports. Hire is paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Capesize forward freight agreement (FFA) values at 100%. The extension began on December 14, 2011.

(4) These charters include a 50% index-based profit sharing component above the respective base rates listed in the table. The profit sharing between the charterer and us for each 15-day period is calculated by taking the average over that period of the published BCI of the four time charter routes, as reflected in daily reports. If such average is more than the base rate payable under the charter, the excess amount is allocable 50% to each of the charterer and us. A third-party brokerage commission of 3.75% based on the profit sharing amount due to us is payable out of our share.

(5) We have agreed to an extension with Swissmarine Services SA on a spot market-related time charter for 11 to 13.5 month based on 98.5% of the average of the daily rates of the BCI, as reflected in daily reports. Hire is paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Capesize FFA values at 98.5%. The extension began on February 12, 2012.

(6) We have agreed to an extension with Swissmarine Services S.A. on a spot market-related time charter for 11 to 13.5 months based on 98.5% of the average of the daily rates of the BCI, as reflected in daily reports. Hire is paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Capesize FFA values at 98.5%. The extension began on January 5, 2012.

(7) We have agreed to an extension with J. Aron & Company on a spot market-related time charter for 11 to 13.5 months based on 100% of the average of the daily rates of the Baltic Panamax Index (BPI) published by the Baltic Exchange, as reflected in daily reports. Hire is paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Panamax FFA values at 100%. The extension began on December 28, 2011.

(8) We have reached an agreement with Global Maritime Investments Ltd. on a spot market-related time charter based on 97% of the average of the daily rates of the BPI, as reflected in daily reports, except for the initial 50 days in which hire will be based on 97% of the rate for the Baltic Panamax P3A route. The spot market-related time charter is for a minimum of 11 months with hire paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Panamax FFA values at 97%. The vessel redelivered to us on January 27, 2012 and then went to drydock for scheduled repairs. The vessel delivered to charterers on February 15, 2012 after the drydock concluded.

(9) We have reached an agreement with Global Maritime Investments Ltd. on a spot market-related time charter based on 97% of the average of the daily rates of the BPI, as reflected in daily reports, except for the initial 50 days in which hire will be based on 97% of the rate for the Baltic Panamax P3A route. The spot market-related time charter is for a minimum of 11 months with hire paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Panamax FFA values at

97%. The vessel delivered to charterers on January 21, 2012 after the scheduled drydocking completed. The vessel was previously fixed with Morgan Stanley Capital Group Inc. on a time charter for one trip from Indonesia to China at a rate of \$10,750 per day less a 5.00% brokerage commission which ended on January 8, 2012.

(10) We have agreed to an extension with Global Maritime Investments Ltd. on a spot market-related time charter based on 97% of the average of the daily rates of the BPI, as reflected in daily reports. The minimum and maximum expiration of the extension is July 1, 2012 and September 15, 2012, respectively, as the vessel is to go into drydock for scheduled repairs after the spot market-related time charter concludes. Hire is paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Panamax FFA values at 97% until June 1, 2012. The extension began on December 1, 2011.

(11) We have agreed to an extension with Swissmarine Services S.A. on a spot market-related time charter based on 97% of the average of the daily rates of the BPI, as reflected in daily reports, except for the initial 45 days in which hire is based on 97% of the rate for the Baltic Panamax P3A route. The minimum and maximum expiration of the extension is June 1, 2012 and August 1, 2012, respectively as the vessel is to go into drydock for scheduled repairs after the spot market-related time charter concludes. Hire is paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Panamax FFA values at 97%. The extension began on December 23, 2011.

(12) We have reached an agreement with Trafigura Beheer B.V. on a spot market-related time charter for 10.5 to 13.5 months based on 102% of the average of the daily rates of the Baltic Supramax Index (BSI) published by the Baltic Exchange, as reflected in daily reports, except for the initial 35 days in which hire is based on 102% of the rate for the Baltic Supramax S7 route. Hire is paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Supramax FFA values at 102%. The vessel delivered to charterers on December 6, 2011.

(13) We have reached an agreement with Louis Dreyfus Commodities Suisse S.A. on a time charter for approximately 20 days at a rate of \$7,000 per day less a 5.00% third party brokerage commission. Hire is paid every 15 days in advance. The vessel was previously fixed with Bulk Marine on a time charter from January 18, 2012 to February 11, 2012 at a rate of \$8,000 per day less a 5.00% third party brokerage commission.

(14) We have reached an agreement with Louis Dreyfus Commodities Suisse S.A. on a time charter for approximately 20 days at a rate of \$5,750 per day less a 5.00% third party brokerage commission. Hire is paid every 15 days in advance. The vessel's previous time charter ended on January 27, 2012, and the vessel was delivered to its new charterer on February 8, 2012 after repositioning. A ballast bonus was awarded after the repositioning period.

(15) We have reached an agreement with Western Bulk Carriers A/S on a time charter for 11 to 13.5 months at a rate of \$12,250 per day less a 5.00% third party brokerage commission. Hire payments are made every 15 days in advance. The vessels previous time charter ended on December 9, 2011, and the vessel was delivered to its new charterer on December 22, 2011 after repositioning. A ballast bonus was awarded after the repositioning period.

(16) We have reached an agreement with Wan Bong Chartering Co. Ltd. on a time charter for two laden legs at a rate of \$9,000 with the first leg via China to West Africa. Hire payments are made every 15 days in advance less a 5.00% third party brokerage commission. The vessel delivered to charters on January 7, 2012.

(17) We have reached an agreement with Pacific Basin Chartering Ltd. on a time charter at a rate of \$10,000 per day less a 5.00% third party brokerage commission for four to six months. Hire payment is made every 15 days in advance. The vessel delivered to charterers on January 16, 2012.

(18) We have reached an agreement with Jaldhi Overseas PTE Ltd. on a time charter at a rate of \$5,025 per day less a 5.00% third party brokerage commission for approximately 25 days. Hire payment is made every 15 days in advance. The vessel delivered to charterers on February 3, 2012. From January 14, 2012 to January 31, 2012, the vessel was on a time charter with Oldendorff GMBH and Co. at a rate of \$9,000 per day less a 5.00% third party brokerage commission.

(19) We have agreed to an extension with Trafigura Beheer B.V. on a spot market-related time charter for 10.5 to 13.5 months based on 98% of the average of the daily rates of the BSI, as reflected in daily reports, except for the initial 35 days in which hire is based on 98% of the rate for the Baltic Supramax S2 route. Hire is paid every 15 days in arrears less a 5.00% third party brokerage commission. Genco maintains the option to convert to a fixed rate based on Supramax FFA values at 98%. The extension began on January 31, 2012.

(20) We have reached an agreement with Hamburg Bulk Carriers on a time charter at a rate of \$12,000 per day less a 5.00% third party brokerage commission for 11 to 13.5 months. Hire payment is made every 15 days in advance. The vessel's previous time charter ended on December 31, 2011, and the vessel was then repositioned before delivering to Hamburg Bulk Carriers on January 16, 2012.

(21) We have agreed to an extension with Setaf-Saget SAS on a time charter for 4 to 6.5 months at a rate of \$12,250 per day less a 3.75% third party brokerage commission. Hire is paid every 15 days in advance. The vessel began on its new rate on December 20, 2011.

(22) We have reached an agreement with STX Pan Ocean Co. Ltd. on a time charter for 2.5 to 5.5 months at a rate of \$7,000 per day less a 5.00% third party brokerage commission. Hire payment is made every 15 days in advance. The vessel delivered to charterers on February 8, 2012.

(23) We have reached an agreement to enter these vessels into the LB/IVS Pool whereby Lauritzen Bulkcarriers A/S acts as the pool manager. We can withdraw up to two vessels with three months' notice and the remaining three vessels with 12 months' notice.

(24) We have agreed to extensions with AMN Bulkcarrier Inc. for the Genco Charger and Genco Challenger on spot market-related time charters at a rate based on 100% of the average of the daily rates of the Baltic Handysize Index (BHSI) published by the Baltic Exchange, as reflected in daily reports except for the initial 25 days in which hire will be based on 100% of the rate for the Baltic Handysize HS5 route. Hire is paid every 15 days in arrears net of a 5.00% third party brokerage commission. Genco maintains the option to convert the balance period to a fixed rate based on Handysize FFA values at 100%. The duration of the extension for the Genco Charger is 9.5 to 12 months which began on January 1, 2012 while the extension for the Genco Challenger began on February 1, 2012 for 9.5 to 11.5 months.

(25) The rate for the spot market-related time charter will be linked with a floor of \$8,500 and a ceiling of \$13,500 daily with a 50% profit sharing arrangement to apply to any amount above the ceiling. The rate will be based on 115% of the average of the daily rates of the BHSI, as reflected in daily reports. Hire will be paid every 15 days in advance net of a 5.00% third party brokerage commission. These vessels were acquired with existing time charters with below-market rates. For these below-market time charters, Genco allocates the purchase price between the respective vessels and an intangible liability for the value assigned to the below-market charter-hire. This intangible liability will be amortized as an increase to voyage revenues over the minimum remaining terms of the applicable charters, at which point the respective liabilities will be amortized to zero and the vessels will begin earning the "Cash Daily Rate." For cash flow purposes, Genco will continue to receive the rate presented in the "Cash Daily Rate" column until the charter expires. Specifically, for the Genco Spirit, Genco Avra, Genco Ocean and Genco Bay, the daily amount of amortization associated with the below-market rates will be approximately \$200, \$350, \$700 and \$750 per day over the actual cash rate earned, respectively.

#### Baltic Trading Limited

(1) The charter expiration dates presented represent the earliest dates that our charters may be terminated in the ordinary course. Under the terms of each contract, the charterer is entitled to extend the time charters from two to four months in order to complete the vessel's final voyage plus any time the vessel has been off-hire.

(2) We have agreed to terms on a spot market-related time charter with Swissmarine Services S.A. at a rate based on 101.5% of the Baltic Capesize Index (BCI). Hire is paid in arrears net of a 6.25% brokerage commission which includes the 1.25% commission payable to us. The duration is 10.5 to 13.5 months.

- (3) We have agreed to an extension with Cargill International S.A., on a spot market-related time charter based on 100% of the BCI, as reflected in daily reports. Hire is paid every 15 days in arrears net of a 5.00% brokerage commission, which includes the 1.25% commission payable to us. The duration of the spot market-related time charter is 11 to 13.5 months.
- (4) We have reached an agreement with Resource Marine PTE Ltd. on two spot market-related time charters for 11 to 13.5 months based on 97% of the average of the daily rates of the Baltic Supramax Index (BSI), as reflected in daily reports. Hire is paid every 15 days in arrears net of a 6.25% brokerage commission, which includes the 1.25% commission payable to us.
- (5) We have reached an agreement with Klaveness Chartering on a spot market-related time charter based on 95% of the average of the daily rates of the BSI, as reflected in daily reports. The duration is 22.5 to 25.5 months with hire paid every 15 days in arrears net of a 6.25% brokerage commission, which includes the 1.25% commission payable to us.
- (6) We have agreed to an extension with AMN Bulkcarriers Inc., on a spot market-related time charter based on 96% of the average of the daily rates of the BSI, as reflected in daily reports. Hire is paid every 15 days in arrears net of a 5.00% brokerage commission, which includes the 1.25% commission payable to us. The duration of the spot market-related time charter is 11 to 13.5 months.
- (7) The rate for each of the spot market-related time charters is based on 115% of the average of the daily rates of the Baltic Handysize Index (BHSI), as reflected in daily reports. Hire is paid every 15 days in advance net of a 6.25% brokerage commission, which includes the 1.25% commission payable to us.

## **CLASSIFICATION AND INSPECTION**

All of our vessels have been certified as being “in class” by the American Bureau of Shipping (“ABS”), Det Norske Veritas (“DNV”), Lloyd’s Register of Shipping (“Lloyd’s”) or Bureau Veritas (“BV”). Each of these classification societies is a member of the International Association of Classification Societies. Every commercial vessel’s hull and machinery is evaluated by a classification society authorized by its country of registry. The classification society certifies that the vessel has been built and maintained in accordance with the rules of the classification society and complies with applicable rules and regulations of the vessel’s country of registry and the international conventions of which that country is a member. Each vessel is inspected by a surveyor of the classification society in three surveys of varying frequency and thoroughness: every year for the annual survey, every two to three years for the intermediate survey and every four to five years for special surveys. Special surveys always require drydocking. Vessels that are 15 years old or older are required, as part of the intermediate survey process, to be drydocked every 24 to 30 months for inspection of the underwater portions of the vessel and for necessary repairs stemming from the inspection.

In addition to the classification inspections, many of our customers regularly inspect our vessels as a precondition to chartering them for voyages. We believe that our well-maintained, high-quality vessels provide us with a competitive advantage in the current environment of increasing regulation and customer emphasis on quality.

We have implemented the International Safety Management Code, which was promulgated by the International Maritime Organization, or IMO (the United Nations agency for maritime safety and the prevention of marine pollution by ships), to establish pollution prevention requirements applicable to vessels. We obtained documents of compliance for our offices and safety management certificates for all of our vessels, which are required by the IMO.

## **CREWING AND EMPLOYEES**

Each of our vessels is crewed with 21 to 24 officers and seamen. Our technical managers are responsible for locating and retaining qualified officers for our vessels. The crewing agencies handle each seaman’s training, travel and payroll, and ensure that all the seamen on our vessels have the qualifications and licenses required to comply with international regulations and shipping conventions. We typically man our vessels with more crew members than are required by the country of the vessel’s flag in order to allow for the performance of routine maintenance duties.

As of February 22, 2012, we employed 34 shore-based personnel and approximately 1,400 seagoing personnel on our vessels, including Baltic Trading.

## **CUSTOMERS**

Our assessment of a charterer’s financial condition and reliability is an important factor in negotiating employment for our vessels. We generally charter our vessels to major trading houses (including commodities traders), major producers and government-owned entities rather than to more speculative or undercapitalized entities. Our customers include national, regional and international companies, such as Lauritzen Bulk, Cargill, Pacbasin, Trafigra, Klaveness and Swissmarine. For the year ended December 31, 2011, two of our charterers, Swissmarine and Cargill, each accounted for more than 10% of our voyage revenue, or 42.2% in the aggregate.

## COMPETITION

Our business fluctuates in line with the main patterns of trade of the major drybulk cargoes and varies according to changes in the supply and demand for these items. We operate in markets that are highly competitive and based primarily on supply and demand. We compete for charters on the basis of price, vessel location and size, age and condition of the vessel, as well as on our reputation as an owner and operator. We compete with other owners of drybulk carriers in the Capesize, Panamax, Supramax, Handymax and Handysize class sectors, some of whom may also charter our vessels as customers. Ownership of drybulk carriers is highly fragmented and is divided among approximately 1,650 independent drybulk carrier owners.

## PERMITS AND AUTHORIZATIONS

We are required by various governmental and quasi-governmental agencies to obtain certain permits, licenses, certificates and other authorizations with respect to our vessels. The kinds of permits, licenses, certificates and other authorizations required for each vessel depend upon several factors, including the commodity transported, the waters in which the vessel operates, the nationality of the vessel's crew and the age of the vessel. We believe that we have all material permits, licenses, certificates and other authorizations necessary for the conduct of our operations. However, additional laws and regulations, environmental or otherwise, may be adopted which could limit our ability to do business or increase the cost of our doing business.

## INSURANCE

### *General*

The operation of any drybulk vessel includes risks such as mechanical failure, collision, property loss, cargo loss or damage and business interruption due to political circumstances in foreign countries, piracy, hostilities and labor strikes. In addition, there is always an inherent possibility of marine disaster, including oil spills and other environmental mishaps, and the liabilities arising from owning and operating vessels in international trade. The U.S. Oil Pollution Act of 1990, or OPA, which imposes virtually unlimited liability upon owners, operators and demise charterers of vessels trading in the U.S.-exclusive economic zone for certain oil pollution accidents in the United States, has made liability insurance more expensive for ship owners and operators trading in the U.S. market.

While we maintain hull and machinery insurance, war risks insurance, protection and indemnity cover, and freight, demurrage and defense cover and loss of hire insurance for our fleet in amounts that we believe to be prudent to cover normal risks in our operations, we may not be able to achieve or maintain this level of coverage throughout a vessel's useful life. Furthermore, while we believe that our present insurance coverage is adequate, not all risks can be insured, and there can be no guarantee that any specific claim will be paid, or that we will always be able to obtain adequate insurance coverage at reasonable rates.

### *Hull and Machinery, War Risks, Kidnap and Ransom Insurance*

We maintain marine hull and machinery, war risks and kidnap and ransom insurance which cover the risk of actual or constructive total loss, for all of our vessels. Our vessels are each covered up to at least fair market value with deductibles, which depend primarily on the class of the insured vessel and are subject to change. We are covered, subject to limitations in our policy, to have the crew released in the case of kidnapping due to piracy in the Gulf of Aden / Somalia.

### *Protection and Indemnity Insurance*

Protection and indemnity insurance is provided by mutual protection and indemnity associations, or P&I Associations, which insure our third-party liabilities in connection with our shipping activities. This includes third-party liability and other related expenses resulting from the injury or death of crew, passengers and other third parties, the loss or damage to cargo, claims arising from collisions with other vessels, damage to other third-party property, pollution arising from oil or other substances and salvage, towing and other related costs, including wreck removal. Protection and indemnity insurance is a form of mutual indemnity insurance, extended by protection and indemnity mutual associations, or "clubs." Subject to the "capping" discussed below, our coverage, except for pollution, is unlimited.

We maintain protection and indemnity insurance coverage for pollution of \$1 billion per vessel per incident. The 13 P&I Associations that comprise the International Group insure approximately 90% of the world's commercial tonnage and have entered into a pooling agreement to reinsure each association's liabilities. We are a member of a P&I Association, which is a member of the International Group. As a result, we are subject to calls payable to the associations based on the group's claim records as well as the claim records of all other members of the individual associations and members of the pool of P&I Associations comprising the International Group.

## *Loss of Hire Insurance*

We maintain loss of hire insurance, which covers business interruptions and related losses that result from the loss of use of a vessel. Our loss of hire insurance has a 14-day deductible and provides claim coverage for up to 90 days. Loss of hire insurance for piracy in the Gulf of Aden / Somalia has a 20-day deductible and provides claim coverage for up to 50 days.

## **ENVIRONMENTAL AND OTHER REGULATION**

Government regulation significantly affects the ownership and operation of our vessels. We are subject to international conventions and treaties, national, state and local laws and regulations in force in the countries in which our vessels may operate or are registered relating to safety and health and environmental protection including the storage, handling, emission, transportation and discharge of hazardous and non-hazardous materials, and the remediation of contamination and liability for damage to natural resources. Compliance with such laws, regulations and other requirements entails significant expense, including vessel modifications and implementation of certain operating procedures.

A variety of governmental and private entities subject our vessels to both scheduled and unscheduled inspections. These entities include the local port authorities, (applicable national authorities such as the U.S. Coast Guard and harbor masters), classification societies, flag state administrations (countries of registry) and charterers. Some of these entities require us to obtain permits, licenses, certificates and other authorizations for the operation of our vessels. Our failure to maintain necessary permits, licenses, certificates or authorizations could require us to incur substantial costs or temporarily suspend the operation of one or more of our vessels.

In recent periods, heightened levels of environmental and operational safety concerns among insurance underwriters, regulators and charterers have led to greater inspection and safety requirements on all vessels and may accelerate the scrapping of older vessels throughout the drybulk shipping industry. Increasing environmental concerns have created a demand for vessels that conform to the stricter environmental standards. We believe that the operation of our vessels is in substantial compliance with applicable environmental laws and regulations and that our vessels have all material permits, licenses, certificates or other authorizations necessary for the conduct of our operations. However, because such laws and regulations are frequently changed and may impose increasingly stricter requirements, we cannot predict the ultimate cost of complying with these requirements, or the impact of these requirements on the resale value or useful lives of our vessels. In addition, a future serious marine incident, such as one comparable to the 2010 *Deepwater Horizon* oil spill, that results in significant oil pollution or otherwise causes significant adverse environmental impact could result in additional legislation or regulation that could negatively affect our profitability.

### *International Maritime Organization (IMO)*

The United Nations International Maritime Organization (the “IMO”) has adopted the International Convention for the Prevention of Marine Pollution from Ships, 1973, as modified by the Protocol of 1978 relating thereto (collectively referred to as MARPOL 73/78 and herein as “MARPOL”). MARPOL entered into force on October 2, 1983. It has been adopted by over 150 nations, including many of the jurisdictions in which our vessels operate. MARPOL is broken into six Annexes, each of which regulates a different source of pollution. Annex I relates to oil leakage or spilling; Annexes II and III relate to harmful substances carried, in bulk, in liquid or packaged form, respectively; Annexes IV and V relate to sewage and garbage management, respectively; and Annex VI, lastly, relates to air emissions. Annex VI was separately adopted by the IMO in September of 1997.

### *Air Emissions*

In September of 1997, the IMO adopted Annex VI to MARPOL to address air pollution. Effective May 2005, Annex VI sets limits on nitrogen oxide emissions from ships whose diesel engines were constructed (or underwent major conversions) on or after January 1, 2000. It also prohibits “deliberate emissions” of “ozone depleting substances,” defined to include certain halons and chlorofluorocarbons. “Deliberate emissions” are not limited to times when the ship is at sea; they can for example include discharges occurring in the course of the ships repair and maintenance. Emissions of “volatile organic compounds” from certain tankers, and the shipboard incineration (from incinerators installed after January 1, 2000) of certain substances (such as polychlorinated biphenyls (PCBs)) are also prohibited. Annex VI also includes a global cap on the sulfur content of fuel oil (see below).

The IMO’s Maritime Environment Protection Committee, or MEPC, adopted amendments to Annex VI on October 10, 2008, which amendments were entered into force on July 1, 2010. The amended Annex VI seeks to further reduce air pollution by, among other things, implementing a progressive reduction of the amount of sulphur contained in any fuel oil used on board ships. By January 1, 2012, the amended Annex VI requires that fuel oil contain no more than 3.50% sulfur (from the current cap of 4.50%). By January 1, 2020, sulfur content must not exceed 0.50%, subject to a feasibility review to be completed no later than 2018.

Sulfur content standards are even stricter within certain “Emission Control Areas” (“ECAs”). By July 1, 2010, ships operating within an ECA may not use fuel with sulfur content in excess of 1.0% (from 1.50%), which is further reduced to 0.10% on January 1, 2015. Amended Annex VI establishes procedures for designating new ECAs. Currently, the Baltic Sea and the North Sea have been so designated. Effective August 1, 2012, certain coastal areas of North America will also be designated ECAs, as will (effective January 1, 2014), the United States Caribbean Sea. If other ECAs are approved by the IMO or other new or more stringent requirements relating to emissions from marine diesel engines or port operations by vessels are adopted by the EPA or the states where we operate, compliance with these regulations could entail significant capital expenditures or otherwise increase the costs of our operations.

Amended Annex VI also establishes new tiers of stringent nitrogen oxide emissions standards for new marine engines, depending on their date of installation. The U.S. Environmental Protection Agency promulgated equivalent (and in some senses stricter) emissions standards in late 2009.

#### *Safety Management System Requirements*

The IMO also adopted the International Convention for the Safety of Life at Sea, or SOLAS and the International Convention on Load Lines, or the LL Convention, which impose a variety of standards that regulate the design and operational features of ships. The IMO periodically revises the SOLAS Convention and LL Convention standards.

Under Chapter IX of SOLAS, the International Safety Management Code for the Safe Operation of Ships and for Pollution Prevention, or ISM Code, our operations are also subject to environmental standards and requirements. The ISM Code requires the owner of a vessel, or any person who has taken responsibility for operation of a vessel, to develop an extensive safety management system that includes, among other things, the adoption of a safety and environmental protection policy setting forth instructions and procedures for operating its vessels safely and describing procedures for responding to emergencies. We rely upon the safety management system that we and our technical manager have developed for compliance with the ISM Code. The failure of a ship owner or bareboat charterer to comply with the ISM Code may subject such party to increased liability, may decrease available insurance coverage for the affected vessels and may result in a denial of access to, or detention in, certain ports.

The ISM Code requires that vessel operators also obtain a safety management certificate for each vessel they operate. This certificate evidences compliance by a vessel’s management with code requirements for a safety management system. No vessel can obtain a certificate unless its manager has been awarded a document of compliance, issued by each flag state, under the ISM Code. We believe that we have all material requisite documents of compliance for our offices and safety management certificates for all of our vessels for which such certificates are required by the IMO. We renew these documents of compliance and safety management certificates as required.

#### *Pollution Control and Liability Requirements*

The IMO has negotiated international conventions that impose liability for pollution in international waters and the territorial waters of the nations signatory to such conventions. For example, IMO adopted an International Convention for the Control and Management of Ships’ Ballast Water and Sediments, or the BWM Convention, in February 2004. The BWM Convention’s implementing regulations call for a phased introduction of mandatory ballast water exchange requirements, to be replaced in time with mandatory concentration limits. The BWM Convention will not become effective until 12 months after it has been adopted by 30 states, the combined merchant fleets of which represent not less than 35% of the gross tonnage of the world’s merchant shipping. To date, there has not been sufficient adoption of this standard for it to take force. However, Panama may adopt this standard in the relatively near future, which would be sufficient for it to take force. Upon entry into force of the BWM Convention, mid-ocean ballast exchange would be mandatory for our vessels, and our vessels would be required to be equipped with ballast water treatment systems that meet mandatory concentration limits, in each case not later than the first intermediate or renewal survey, whichever occurs first, after the anniversary date of delivery of the vessel in 2016. If mid-ocean ballast exchange is made mandatory, or if ballast water treatment requirements or options are instituted, the cost of compliance could increase for ocean carriers, and the costs of ballast water treatment may be material.

The IMO adopted the International Convention on Civil Liability for Bunker Oil Pollution Damage, or the Bunker Convention, to impose strict liability on ship owners for pollution damage in jurisdictional waters of ratifying states caused by discharges of bunker fuel. The Bunker Convention requires registered owners of ships over 1,000 gross tons to maintain insurance for pollution damage in an amount equal to the limits of liability under the applicable national or international limitation regime (but not exceeding the amount calculated in accordance with the Convention on Limitation of Liability for Maritime Claims of 1976, as amended). With respect to non-ratifying states, liability for spills or releases of oil carried as fuel in ship’s bunkers typically is determined by the national or other domestic laws in the jurisdiction where the events or damages occur.

Noncompliance with the ISM Code or other IMO regulations may subject the vessel owner or bareboat charterer to increased liability, lead to decreases in available insurance coverage for affected vessels or result in the denial of access to, or detention in, some ports. The U.S. Coast Guard and European Union authorities have indicated that vessels not in compliance with the ISM Code by the applicable deadlines will be prohibited from trading in U.S. and European Union ports, respectively. As of the date of this report, each of our vessels is ISM Code certified. However, there can be no assurance that such certificates will be maintained in the future.

#### *Anti-Fouling Requirements*

In 2001, the IMO adopted the International Convention on the Control of Harmful Anti-fouling Systems on Ships, or the Anti-fouling Convention. The Anti-fouling Convention prohibits the use of organotin compound coatings to prevent the attachment of mollusks and other sea life to the hulls of vessels after September 1, 2003. The exteriors of vessels constructed prior to January 1, 2003 that have not been in drydock must, as of September 17, 2008, either not contain the prohibited compounds or have coatings applied to the vessel exterior that act as a barrier to the leaching of the prohibited compounds. Vessels of over 400 gross tons engaged in international voyages must obtain an International Anti-fouling System Certificate and undergo a survey before the vessel is put into service or when the anti-fouling systems are altered or replaced. We have obtained Anti-fouling System Certificates for all of our vessels that are subject to the Anti-fouling Convention.

The IMO continues to review and introduce new regulations. It is impossible to predict what additional regulations, if any, may be passed by the IMO and what effect, if any, such regulations might have on our operations.

## *The U.S. Oil Pollution Act of 1990 and Comprehensive Environmental Response, Compensation and Liability Act*

The U.S. Oil Pollution Act of 1990, or OPA, established an extensive regulatory and liability regime for the protection and cleanup of the environment from oil spills. OPA affects all “owners and operators” whose vessels trade in the United States, its territories and possessions or whose vessels operate in U.S. waters, which includes the U.S. territorial sea and its 200 nautical mile exclusive economic zone. The United States has also enacted the Comprehensive Environmental Response, Compensation and Liability Act, or CERCLA, which applies to the discharge of hazardous substances other than oil, whether on land or at sea. OPA and CERCLA both define “owner and operator” in the case of a vessel as any person owning, operating or chartering by demise, the vessel. Accordingly, both OPA and CERCLA impact our operations.

Under OPA, vessel owners and operators are “responsible parties” and are jointly, severally and strictly liable (unless the spill results solely from the act or omission of a third party, an act of God or an act of war) for all containment and clean-up costs and other damages arising from discharges or threatened discharges of oil from their vessels. OPA defines these other damages broadly to include:

- injury to, destruction or loss of, or loss of use of, natural resources and related assessment costs;
- injury to, or economic losses resulting from, the destruction of real and personal property;
- net loss of taxes, royalties, rents, fees or net profit revenues resulting from injury, destruction or loss of real or personal property, or natural resources;
- loss of subsistence use of natural resources that are injured, destroyed or lost;
- lost profits or impairment of earning capacity due to injury, destruction or loss of real or personal property or natural resources; and
- net cost of increased or additional public services necessitated by removal activities following a discharge of oil, such as protection from fire, safety or health hazards, and loss of subsistence use of natural resources.

OPA contains statutory caps on liability and damages; such caps do not apply to direct cleanup costs. Effective July 31, 2009, the U.S. Coast Guard adjusted the limits of OPA liability for non-tank vessels to the greater of \$1,000 per gross ton or \$854,400 (subject to periodic adjustment for inflation). These limits of liability do not apply if an incident was proximately caused by the violation of an applicable U.S. federal safety, construction or operating regulation by a responsible party (or its agent, employee or a person acting pursuant to a contractual relationship), or a responsible party’s gross negligence or willful misconduct. The limitation on liability similarly does not apply if the responsible party fails or refuses to (i) report the incident where the responsibility party knows or has reason to know of the incident; (ii) reasonably cooperate and assist as requested in connection with oil removal activities; or (iii) without sufficient cause, comply with an order issued under the Federal Water Pollution Act (Section 311 (c), (e)) or the Intervention on the High Seas Act.

CERCLA contains a similar liability regime whereby owners and operators of vessels are liable for cleanup, removal and remedial costs, as well as damage for injury to, or destruction or loss of, natural resources, including the reasonable costs associated with assessing same, and health assessments or health effects studies. There is no liability if the discharge of a hazardous substance results solely from the act or omission of a third party, an act of God or an act of war. Liability under CERCLA is limited to the greater of \$300 per gross ton or \$5 million for vessels carrying a hazardous substance as cargo and the greater of \$300 per gross ton or \$500,000 for any other vessel. These limits do not apply (rendering the responsible person liable for the total cost of response and damages) if the release or threat of release of a hazardous substance resulted from willful misconduct or negligence, or the primary cause of the release was a violation of applicable safety, construction or operating standards or regulations. The limitation on liability also does not apply if the responsible person fails or refused to provide all reasonable cooperation and assistance as requested in connection with response activities where the vessel is subject to OPA.

OPA and CERCLA both require owners and operators of vessels to establish and maintain with the U.S. Coast Guard evidence of financial responsibility sufficient to meet the maximum amount of liability to which the particular responsible person may be subject. Vessel owners and operators may satisfy their financial responsibility obligations by providing a proof of insurance, a surety bond, qualification as a self-insurer or a guarantee. We plan to comply with the U.S. Coast Guard’s financial responsibility regulations by providing a certificate of responsibility evidencing sufficient self-insurance. The 2010 *Deepwater Horizon* oil spill in the Gulf of Mexico may also result in additional regulatory initiatives or statutes, including the raising of liability caps under OPA. Compliance with any new requirements of OPA may substantially impact our cost of operations or require us to incur additional expenses to comply with any new regulatory initiatives or statutes. Additional legislation or regulations applicable to the operation of our vessels that may be implemented in the future could adversely affect our business.

While we do not carry oil as cargo, we do carry bunkers in our drybulk carriers. We currently maintain pollution liability coverage insurance in the amount of \$1 billion per incident for each of our vessels. If the damages from a catastrophic spill were to exceed our insurance coverage, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

### *Other United States Environmental Regulations*

The U.S. Clean Water Act, or CWA, prohibits the discharge of oil or hazardous substances in U.S. navigable waters unless authorized by a duly-issued permit or exemption, and imposes strict liability in the form of penalties for any unauthorized discharges. The CWA also imposes substantial liability for the costs of removal, remediation and damages and complements the remedies available under OPA and CERCLA.

The EPA regulates the discharge of ballast water and other substances in U.S. waters under the CWA. EPA regulations require vessels 79 feet in length or longer (other than commercial fishing and recreational vessels) to comply with a Vessel General Permit authorizing ballast water discharges and other discharges incidental to the operation of vessels. The Vessel General Permit imposes technology and water-quality based effluent limits for certain types of discharges and establishes specific inspection, monitoring, recordkeeping and reporting requirements to ensure the effluent limits are met. The EPA has proposed a draft 2013 Vessel General Permit to replace the current Vessel General Permit upon its expiration on December 19, 2013, authorizing discharges incidental to operations of commercial vessels. The draft permit also contains numeric ballast water discharge limits for most vessels to reduce the risk of invasive species in US waters, more stringent requirements for exhaust gas scrubbers and the use of environmentally acceptable lubricants. U.S. Coast Guard regulations adopted under the U.S. National Invasive Species Act, or NISA, also impose mandatory ballast water management practices for all vessels equipped with ballast water tanks entering or operating in U.S. waters. In 2009 the Coast Guard proposed new ballast water management standards and practices, including limits regarding ballast water releases. As of November 2011, the Office of Management and Budget continues to review this proposed rule. Compliance with the EPA and the U.S. Coast Guard regulations could require the installation of equipment on our vessels to treat ballast water before it is discharged or the implementation of other port facility disposal arrangements or procedures at potentially substantial cost, and/or otherwise restrict our vessels from entering U.S. waters.

#### *European Union Regulations*

In October 2009, the European Union amended a directive to impose criminal sanctions for illicit ship-source discharges of polluting substances, including minor discharges, if committed with intent, recklessly or with serious negligence and the discharges individually or in the aggregate result in deterioration of the quality of water. Aiding and abetting the discharge of a polluting substance may also lead to criminal penalties. Member States were required to enact laws or regulations to comply with the directive by the end of 2010. Criminal liability for pollution may result in substantial penalties or fines and increased civil liability claims. The directive applies to all types of vessels, irrespective of their flag, but certain exceptions apply to warships or where human safety or that of the ship is in danger.

#### *Greenhouse Gas Regulation*

Currently, the emissions of greenhouse gases from international shipping are not subject to the Kyoto Protocol to the United Nations Framework Convention on Climate Change, which entered into force in 2005 and pursuant to which adopting countries have been required to implement national programs to reduce greenhouse gas emissions. However, in July 2011 the MEPC adopted two new sets of mandatory requirements to address greenhouse gas emissions from ships that will enter into force in January 2013. Currently operating ships will be required to develop Ship Energy Efficiency Management Plans, and minimum energy efficiency levels per capacity mile will apply to new ships. These requirements could cause us to incur additional compliance costs. The IMO is also considering the development of market-based mechanisms to reduce greenhouse gas emissions from ships. The European Union has indicated that it intends to propose an expansion of the existing European Union emissions trading scheme to include emissions of greenhouse gases from marine vessels, and in January 2012 the European Commission launched a public consultation on possible measures to reduce greenhouse gas emissions from ships. In the United States, the EPA has issued a finding that greenhouse gases endanger the public health and safety and has adopted regulations to limit greenhouse gas emissions from certain mobile sources and large stationary sources. Although the mobile source emissions regulations do not apply to greenhouse gas emissions from vessels, such regulation of vessels is foreseeable, and the EPA has in recent years received petitions from the California Attorney General and various environmental groups seeking such regulation. Any passage of climate control legislation or other regulatory initiatives by the IMO, European Union, the U.S. or other countries where we operate, or any treaty adopted at the international level to succeed the Kyoto Protocol, that restrict emissions of greenhouse gases could require us to make significant financial expenditures which we cannot predict with certainty at this time.

#### *International Labour Organization*

The International Labour Organization (ILO) is a specialized agency of the UN with headquarters in Geneva, Switzerland. The ILO has adopted the Maritime Labor Convention 2006 (MLC 2006). A Maritime Labor Certificate and a Declaration of Maritime Labor Compliance will be required to ensure compliance with the MLC 2006 for all ships above 500 gross tons in international trade. The MLC 2006 will enter into force one year after 30 countries with a minimum of 33% of the world's tonnage have ratified it. The MLC 2006 has not yet been ratified, but its ratification would require us to develop new procedures to ensure full compliance with its requirements.

#### *Vessel Security Regulations*

Since the terrorist attacks of September 11, 2001, there have been a variety of initiatives intended to enhance vessel security. On November 25, 2002, the U.S. Maritime Transportation Security Act of 2002, or the MTSA, came into effect. To implement certain portions of the MTSA, in July 2003, the U.S. Coast Guard issued regulations requiring the implementation of certain security requirements aboard vessels operating in waters subject to the jurisdiction of the United States. The regulations also impose requirements on certain ports and facilities, some of which are regulated by the U.S. Environmental Protection Agency (EPA).

Similarly, in December 2002, amendments to SOLAS created a new chapter of the convention dealing specifically with maritime security. The new Chapter V became effective in July 2004 and imposes various detailed security obligations on vessels and port authorities, and mandates compliance with the International Ship and Port Facilities Security Code, or the ISPS Code. The ISPS Code is designed to enhance the security of ports and ships against terrorism. To trade internationally, a vessel must attain an International Ship Security Certificate, or ISSC, from a recognized security organization approved by the vessel's flag state. Among the various requirements are:

- on-board installation of automatic identification systems to provide a means for the automatic transmission of safety-related information from among similarly equipped ships and shore stations, including information on a ship's identity, position, course, speed and navigational status;
- on-board installation of ship security alert systems, which do not sound on the vessel but only alert the authorities on shore;

- the development of vessel security plans;
- ship identification number to be permanently marked on a vessel's hull;

- a continuous synopsis record kept onboard showing a vessel's history including the name of the ship, the state whose flag the ship is entitled to fly, the date on which the ship was registered with that state, the ship's identification number, the port at which the ship is registered and the name of the registered owner(s) and their registered address; and
- compliance with flag state security certification requirements.

A ship operating without a valid certificate may be detained at port until it obtains an ISSC, or may be expelled from port or refused entry at port.

The U.S. Coast Guard regulations, intended to align with international maritime security standards, exempt from MTSA vessel security measures non-U.S. vessels that have on board, as of July 1, 2004, a valid ISSC attesting to the vessel's compliance with SOLAS security requirements and the ISPS Code. We have implemented the various security measures addressed by the MTSA, SOLAS and the ISPS Code.

### *Inspection by Classification Societies*

Every oceangoing vessel must be "classed" by a classification society. The classification society certifies that the vessel is "in class," signifying that the vessel has been built and maintained in accordance with the rules of the classification society and complies with applicable rules and regulations of the vessel's country of registry and the international conventions of which that country is a member. In addition, where surveys are required by international conventions and corresponding laws and ordinances of a flag state, the classification society will undertake them on application or by official order, acting on behalf of the authorities concerned.

The classification society also undertakes on request other surveys and checks that are required by regulations and requirements of the flag state. These surveys are subject to agreements made in each individual case and/or to the regulations of the country concerned.

For maintenance of the class certification, regular and extraordinary surveys of hull, machinery, including the electrical plant, and any special equipment classes are required to be performed as follows:

- *Annual Surveys* : For seagoing ships, annual surveys are conducted for the hull and the machinery, including the electrical plant, and where applicable for special equipment classed, within three months before or after each anniversary date of the date of commencement of the class period indicated in the certificate.
- *Intermediate Surveys* : Extended annual surveys are referred to as intermediate surveys and typically are conducted two and one-half years after commissioning and each class renewal. Intermediate surveys are to be carried out at or between the occasion of the second or third annual survey.
- *Class Renewal Surveys* : Class renewal surveys, also known as special surveys, are carried out for the ship's hull, machinery, including the electrical plant, and for any special equipment classed, at the intervals indicated by the character of classification for the hull. At the special survey, the vessel is thoroughly examined, including audio-gauging to determine the thickness of the steel structures. Should the thickness be found to be less than class requirements, the classification society would prescribe steel renewals. The classification society may grant a one-year grace period for completion of the special survey. Substantial amounts of money may have to be spent for steel renewals to pass a special survey if the vessel experiences excessive wear and tear. In lieu of the special survey every four or five years, depending on whether a grace period was granted, a vessel owner has the option of arranging with the classification society for the vessel's hull or

machinery to be on a continuous survey cycle, in which every part of the vessel would be surveyed within a five-year cycle. Upon a vessel owner's request, the surveys required for class renewal may be split according to an agreed schedule to extend over the entire period of class. This process is referred to as continuous class renewal.

All areas subject to survey as defined by the classification society are required to be surveyed at least once per class period, unless shorter intervals between surveys are prescribed elsewhere. The period between two subsequent surveys of each area must not exceed five years.

Most vessels are also drydocked every 30 to 36 months for inspection of the underwater parts and for repairs related to inspections. If any defects are found, the classification surveyor will issue a "recommendation" which must be rectified by the vessel owner within prescribed time limits.

Most insurance underwriters make it a condition for insurance coverage that a vessel be certified as "in class" by a classification society which is a member of the International Association of Classification Societies. All of our vessels have been certified as being "in class" by ABS, BV, DNV or Lloyd's. All new and secondhand vessels that we purchase must be certified prior to their delivery under our standard agreements.

## **SEASONALITY**

We operate our vessels in markets that have historically exhibited seasonal variations in demand and, as a result, charter rates. We seek to mitigate the risk of these seasonal variations by entering into long-term time charters for our vessels, where possible. However, this seasonality may result in quarter-to-quarter volatility in our operating results, depending on when we enter into our time charters or if our vessels trade on the spot market. The drybulk sector is typically stronger in the fall and winter months in anticipation of increased consumption of coal and raw materials in the northern hemisphere during the winter months. As a result, our revenues could be weaker during the fiscal quarters ended June 30 and September 30, and conversely, our revenues could be stronger during the quarters ended December 31 and March 31.

## **ITEM 1A. RISK FACTORS**

### **ADDITIONAL FACTORS THAT MAY AFFECT FUTURE RESULTS**

This annual report on Form 10-K contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements use words such as "anticipate," "budget," "estimate," "expect," "project," "intend," "plan," "believe," and other words and terms of similar meaning in connection with a discussion of potential future events, circumstances or future operating or financial performance. These forward-looking statements are based on our management's current expectations and observations. Included among the factors that, in our view, could cause actual results to differ materially from the forward looking statements contained in this annual report on Form 10-K are the following: (i) declines in demand or rates in the drybulk shipping industry; (ii) prolonged weakness in drybulk shipping rates; (iii) changes in the supply of or demand for drybulk products, generally or in particular regions; (iv) changes in the supply of drybulk carriers including newbuilding of vessels or lower than anticipated scrapping of older vessels; (v) changes in rules and regulations applicable to the cargo industry, including, without limitation, legislation adopted by international organizations or by individual countries and actions taken by regulatory authorities; (vi) increases in costs and expenses including but not limited to: crew wages, insurance, provisions, lube oil, bunkers, repairs, maintenance and general, administrative and management fee expenses; (vii) whether our insurance arrangements are adequate; (viii) changes in general domestic and international political conditions; (ix) acts of war, terrorism, or piracy; (x) changes in the condition of our vessels or applicable maintenance or regulatory standards (which may affect, among other things, our anticipated drydocking or maintenance and repair costs) and unanticipated drydock expenditures; (xi) our acquisition or disposition of vessels (xii) the number of off-hire days needed to complete repairs on vessels and the timing and amount of any reimbursement by our insurance carriers for insurance claims including off-hire days; (xiii) the completion of definitive documentation with respect to time charters; (xiv) charterers' compliance with the terms of their charters in the current market environment; (xv) those other risks and uncertainties discussed below under the heading "RISK FACTORS RELATED TO OUR BUSINESS & OPERATIONS", and (xvi) other factors listed from time to time in our filings with the Securities and Exchange Commission (the "SEC").

The following risk factors and other information included in this report should be carefully considered. If any of the following risks actually occur, our business, financial condition, operating results or cash flows could be materially and adversely affected and the trading price of our common stock could decline.

## RISK FACTORS RELATED TO OUR BUSINESS AND OPERATIONS

### Industry Specific Risk Factors

*The current global economic downturn may continue to negatively impact our business.*

In the current global economy, operating businesses have been facing tight credit, weak demand for goods and services, deteriorating international liquidity conditions, and depressed markets. Lower demand for drybulk cargoes as well as diminished trade credit available for the delivery of such cargoes have led to decreased demand for drybulk vessels, creating downward pressure on charter rates. General market volatility has endured as a result of uncertainty about sovereign debt and fears of countries such as Greece, Portugal and Spain defaulting on their governments' financial obligations and speculation about the growth rate of the Chinese economy. If the current global economic environment persists or worsens, we may be negatively affected in the following ways:

- We may not be able to employ our vessels at charter rates as favorable to us as historical rates or operate our vessels profitably.
- Our earnings could decline, which may cause us to breach one or more of the covenants in our credit facilities, thereby potentially accelerating the repayment of outstanding facility borrowings and our outstanding convertible notes.
- The market values of our vessels have decreased, which may cause us to recognize losses if any of our vessels are sold or if their values are impaired. A further decline in the market value of our vessels could prevent us from borrowing under our credit facilities or trigger defaults under their covenants. In particular, all of our credit facilities contain collateral maintenance covenants, although we obtained a waiver of this covenant in our 2007 Credit Facility in 2009. Please refer to "The market values of our vessels may decrease, which could adversely affect our operating results, cause us to breach one or more of the covenants in our credit facilities or limit the total amount that we may borrow under our revolving credit facilities" below for further details.
- Our charterers with long-term time charters may request to renegotiate the terms of our charters with them. As a general matter, we do not agree to make changes to the terms of our charters in response to such requests. As a result, our charterers may fail to meet their obligations under our long-term time charters.
- The value of our investment in Jinhui could further decline in future years, and we may recognize additional impairment losses if we were to sell our shares or if the value of our investment is impaired.

The occurrence of any of the foregoing could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*Charterhire rates for drybulk carriers are volatile and are currently at historically low levels and may further decrease in the future, which may adversely affect our earnings .*

The prolonged downturn in the drybulk charter market, from which we derive the large majority of our revenues, has severely affected the drybulk shipping industry. The Baltic Dry Index ("BDI"), an index published by The Baltic Exchange of shipping rates for 26 key drybulk routes, showed continued volatility in 2011 and recorded an average level of 1,525, compared to a ten-year average level of 3,523. The BDI decreased to a historic low in February 2012. While the BDI has since increased, there can be no assurance that the drybulk charter market will increase further, and the market could decline.

Seasonal factors have been contributing to the most recent downturn in rates including order timing issues for iron ore cargoes related to the celebration of the Chinese New Year; increased deliveries of newbuilding vessels for the month of January as compared to the previous three months; and short-term weather-related issues in Brazil, temporarily reducing iron ore output by an estimated two million tons. In addition to these factors, the ongoing economic dislocation worldwide and associated disruption of the credit markets, have had a number of adverse consequences for drybulk shipping, including, among other things:

- a significant reduction in available financing for vessels;
- a less active second-hand market for the sale of vessels;
- extremely low charter rates, particularly for vessels employed in the spot market;

- widespread loan covenant defaults in the drybulk shipping industry; and
- declaration of bankruptcy by some operators and shipowners as well as charterers.

Because we charter some of our vessels pursuant to time charters, we are exposed to changes in spot market rates for drybulk carriers at the time of entering into charterhire contracts and such changes may affect our earnings and the value of our drybulk carriers at any given time. In addition, 38 of our 53 vessels currently trade at spot market rates through spot market-related time charters or a vessel pool. We cannot assure you that we will be able to successfully charter our vessels in the future or renew existing charters at rates sufficient to allow us to meet our obligations or to pay dividends to our shareholders. The supply of and demand for shipping capacity strongly influences freight rates. Because the factors affecting the supply and demand for vessels are outside of our control and are unpredictable, the nature, timing, direction and degree of changes in industry conditions are also unpredictable.

Factors that influence demand for vessel capacity include:

- demand for and production of drybulk products;
- global and regional economic and political conditions, including developments in international trade, fluctuations in industrial and agricultural production and armed conflicts;
- the distance drybulk cargo is to be moved by sea;
- environmental and other regulatory developments; and
- changes in seaborne and other transportation patterns.

The factors that influence the supply of vessel capacity include:

- the number of newbuilding deliveries;
- port and canal congestion;
- the scrapping rate of older vessels;
- vessel casualties; and
- the number of vessels that are out of service, i.e., laid-up, drydocked, awaiting repairs or otherwise not available for hire.

In addition to the prevailing and anticipated freight rates, factors that affect the rate of newbuilding, scrapping and laying-up include newbuilding prices, secondhand vessel values in relation to scrap prices, costs of bunkers and other operating costs, costs associated with classification society surveys, normal maintenance and insurance coverage, the efficiency and age profile of the existing fleet in the market and government and industry regulation of maritime transportation practices, particularly environmental protection laws and regulations. These factors influencing the supply of and demand for shipping capacity are outside of our control, and we may not be able to correctly assess the nature, timing and degree of changes in industry conditions.

We anticipate that the future demand for our drybulk carriers will be dependent upon economic growth in the world's economies, including China and India, seasonal and regional changes in demand, changes in the capacity of the global drybulk carrier fleet and the sources and supply of drybulk cargo to be transported by sea. Adverse economic, political, social or other developments, including a change in worldwide fleet capacity, could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*An oversupply of drybulk carrier capacity may lead to reductions in charterhire rates and profitability.*

The market supply of drybulk carriers has been increasing as a result of the delivery of numerous newbuilding orders over the last few years. Currently, we believe there is an oversupply of vessels, as evidenced by some carriers letting their ships sit idle rather than operate them at current rates.

Newbuildings have been delivered in significant numbers since the beginning of 2006. The oversupply of drybulk carrier capacity has resulted in a reduction of charterhire rates, as evidenced by the low rates we are experiencing in early 2012. Currently, some of our spot market-related time charterers are at times unprofitable due to the volatility associated with dry cargo freight rates. If market conditions persist, upon the expiration or termination of our vessels' current non-spot charters, we may only be able to re-charter our vessels at reduced or unprofitable rates, or we may not be able to charter these vessels at all. The occurrence of these events could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*The market values of our vessels may decrease, which could adversely affect our operating results, cause us to breach one or more of the covenants in our credit facilities or limit the total amount that we may borrow under our revolving credit facilities.*

If the book value of one of our vessels is impaired due to unfavorable market conditions or a vessel is sold at a price below its book value, we would incur a loss that could adversely affect our financial results. Also, if the market value of our fleet declines, we may not be in compliance with certain provisions of our credit facilities, and we may not be able to refinance our debt or obtain additional financing under our credit facilities or otherwise. In January 2009, we obtained a waiver of the collateral maintenance requirement under our 2007 Credit Facility, subject to certain conditions as mentioned above. This requirement was waived pursuant to an amendment entered into on January 26, 2009 (the "2009 Amendment") effective for the year ended December 31, 2008 and until we can represent that we are in compliance with all of our financial covenants and are otherwise able to pay a dividend and purchase or redeem shares of common stock under the terms of the 2007 Credit Facility in effect before the 2009 Amendment. With the exception of the collateral maintenance financial covenant and the net debt to EBITDA covenant, compliance with which was waived by the lenders through March 31, 2013 under the December 2011 Agreements (defined below), we believe that we are in compliance with our covenants under the 2007 Credit Facility. Without a waiver of the kind provided in the 2009 Amendment, a decrease in the fair market value of our vessels may cause us to breach one or more of the covenants in our 2007 Credit Facility, which could accelerate the repayment of outstanding borrowings under the facility, or may limit the total amount that we may borrow under the facility. We are also subject to collateral maintenance covenants in the \$100 Million Term Loan Facility, \$253 Million Term Loan Facility, and the 2010 Baltic Trading Credit Facility. A decrease in the fair market value of our vessels may cause us to breach one or more of the covenants in the \$100 Million Term Loan Facility, the \$253 Million Term Loan Facility, or the 2010 Baltic Trading Credit Facility, which could accelerate the repayment of outstanding borrowings under our facilities, or may limit the total amount that can be borrowed under the 2010 Baltic Trading Credit Facility. We cannot assure you that we will satisfy all our debt covenants in the future or that our lenders will waive any future failure to satisfy these covenants. The occurrence of these events could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*Prolonged declines in charter rates and other market deterioration could cause us to incur impairment charges.*

We evaluate the carrying amounts of our vessels to determine if events have occurred that would require us to evaluate our vessels for an impairment of their carrying amounts. The recoverable amount of vessels is reviewed based on events and changes in circumstances that would indicate that the carrying amount of the assets might not be recovered. The review for potential impairment indicators and projection of future cash flows related to the vessels is complex and requires us to make various estimates including future freight rates and earnings from the vessels. All of these items have been historically volatile.

We evaluate the recoverable amount as the higher of fair value and value in use on an undiscounted cash basis. If the recoverable amount is less than the carrying amount of the vessel, the vessel is deemed impaired and such vessel would be written down to its fair value. The carrying values of our vessels may not represent their fair market value in the future because the new market prices of second-hand vessels tend to fluctuate with changes in charter rates and the cost of newbuildings. Any impairment charges incurred as a result of declines in charter rates could have a material adverse effect on our business, results of operations, cash flows and financial condition.

*A further economic slowdown or changes in the economic and political environment in the Asia Pacific region could have a material adverse effect on our business, financial position and results of operations.*

A significant number of the port calls made by our vessels involve the loading or discharging of raw materials and semi-finished products in ports in the Asia Pacific region. As a result, a negative change in economic conditions in any Asia Pacific country, and particularly in China or Japan, could have an adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends. In particular, in recent years, China has been one of the world's fastest growing economies in terms of gross domestic product. China's gross domestic product grew by 9.2% in 2011 as compared to a 10.3% growth rate in 2010. We cannot assure you that the Chinese economy will not experience a significant contraction in the future. Although state-owned enterprises still account for a substantial portion of the Chinese industrial output, in general, the Chinese government is reducing the level of direct control that it exercises over the economy through state plans and other measures. There is an increasing level of freedom and autonomy in areas such as allocation of resources, production, pricing and management and a gradual shift in emphasis to a "market economy" and enterprise reform. Limited price reforms were undertaken with the result that prices for certain commodities

are principally determined by market forces. Many of the reforms are unprecedented or experimental and may be subject to revision, change or abolition based upon the outcome of such experiments. If the Chinese government does not continue to pursue a policy of economic reform, the level of imports to and exports from China could be adversely affected by changes to these economic reforms by the Chinese government, as well as by changes in political, economic and social conditions or other relevant policies of the Chinese government, such as changes in laws, regulations or export and import restrictions. Notwithstanding economic reform, the Chinese government may adopt policies that favor domestic drybulk shipping companies and may hinder our ability to compete with them effectively. Moreover, a significant or protracted slowdown in the economies of the United States, the European Union or various Asian countries may adversely affect economic growth in China and elsewhere. Our business, results of operations, cash flows, financial condition and ability to pay dividends will likely be materially and adversely affected by an economic downturn in any of these countries.

*We are subject to regulation and liability under environmental and operational safety laws that could require significant expenditures and affect our cash flows and net income and could subject us to increased liability under applicable law or regulation .*

Our business and the operation of our vessels are materially affected by government regulation in the form of international conventions and national, state and local laws and regulations in force in the jurisdictions in which the vessels operate, as well as in the countries of their registration. Because such conventions, laws, and regulations are often revised, we cannot predict the ultimate cost of complying with them or their impact on the resale prices or useful lives of our vessels. Additional conventions, laws and regulations may be adopted that could limit our ability to do business or increase the cost of our doing business and that may materially adversely affect our business, results of operations, cash flows, financial condition and ability to pay dividends. See “Overview — Environmental and Other Regulation” in Item 1, “Business” of this report for a discussion of such conventions, laws, and regulations. We are required by various governmental and quasi-governmental agencies to obtain certain permits, licenses, certificates and financial assurances with respect to our operations.

The operation of our vessels is affected by the requirements set forth in the United Nations’ International Maritime Organization’s International Management Code for the Safe Operation of Ships and Pollution Prevention, or ISM Code. The ISM Code requires shipowners, ship managers and bareboat charterers to develop and maintain an extensive “Safety Management System” that includes the adoption of a safety and environmental protection policy setting forth instructions and procedures for safe operation and describing procedures for dealing with emergencies. The failure of a shipowner or bareboat charterer to comply with the ISM Code may subject it to increased liability, may invalidate existing insurance or decrease available insurance coverage for the affected vessels and may result in a denial of access to, or detention in, certain ports.

The IMO adopted the International Convention on Civil Liability for Bunker Oil Pollution Damage, or the Bunker Convention, to impose strict liability on ship owners for pollution damage in jurisdictional waters of ratifying states caused by discharges of bunker fuel. The Bunker Convention, which became effective on November 21, 2008, requires registered owners of ships over 1,000 gross tons to maintain insurance or other financial security for pollution damage in an amount equal to the limits of liability under the applicable national or international limitation regime (but not exceeding the amount calculated in accordance with the Convention on Limitation of Liability for Maritime Claims of 1976, as amended). With respect to non-ratifying states, liability for spills or releases of oil carried as fuel in ship’s bunkers typically is determined by the national or other domestic laws in the jurisdiction where the events or damages occur.

The United States Oil Pollution Act of 1990, or OPA, established an extensive regulatory and liability regime for the protection and cleanup of the environment from oil spills. OPA affects all owners and operators whose vessels trade in the United States, its territories and possessions or whose vessels operate in U.S. waters. OPA allows for liability without regard to fault of vessel owners, operators and demise charterers for all containment and clean-up costs and other damages arising from discharges or threatened discharges of oil from their vessels, including bunkers, in U.S. waters. Such liability is potentially unlimited in cases of willful misconduct or gross negligence. OPA also expressly permits individual states to impose their own liability regimes with regard to hazardous materials and oil pollution materials occurring within their boundaries, provided they accept, at a minimum, the levels of liability established under OPA.

The 2010 *Deepwater Horizon* oil spill in the Gulf of Mexico may also result in additional regulatory initiatives or statutes, including the raising of liability caps under OPA. Compliance with any new requirements of OPA may substantially impact our cost of operations or require us to incur additional expenses to comply with any new regulatory initiatives or statutes. Additional legislation or regulations applicable to the operation of our vessels that may be implemented in the future could adversely affect our business.

While we do not carry oil as cargo, we do carry bunkers in our drybulk carriers. We currently maintain, for each of our vessels, pollution liability coverage insurance of \$1 billion per incident. Damages from a catastrophic spill exceeding our insurance coverage could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*Increased inspection procedures and tighter import and export controls could increase costs and disrupt our business.*

International shipping is subject to various security and customs inspection and related procedures in countries of origin and destination. Inspection procedures can result in the seizure of the contents of our vessels, delays in the loading, offloading or delivery and the levying of customs duties, fines or other penalties against us.

It is possible that changes to inspection procedures could impose additional financial and legal obligations on us. Furthermore, changes to inspection procedures could also impose additional costs and obligations on our customers and may, in certain cases, render the shipment of certain types of cargo uneconomical or impractical. Any such changes or developments may have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*We operate our vessels worldwide and as a result, our vessels are exposed to international risks which could reduce revenue or increase expenses.*

The international shipping industry is an inherently risky business involving global operations. Our vessels will be at risk of damage or loss because of events such as mechanical failure, collision, human error, war, terrorism, piracy, cargo loss and bad weather. All these hazards can result in death or injury to persons, increased costs, loss of revenues, loss or damage to property (including cargo), environmental damage, higher insurance rates, damage to our customer relationships, harm to our reputation as a safe and reliable operator and delay or rerouting. In addition, changing economic, regulatory and political conditions in some countries, including political and military conflicts, have from time to time resulted in attacks on vessels, mining of waterways, piracy, terrorism, labor strikes and boycotts. These sorts of events could interfere with shipping routes and result in market disruptions which could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*Our vessels may suffer damage, and we may face unexpected dry docking costs, which could adversely affect our cash flow and financial condition.*

If our vessels suffer damage, they may need to be repaired at a drydocking facility. The costs of drydock repairs are unpredictable and can be substantial. We may have to pay drydocking costs that our insurance does not cover in full. In addition, space at drydocking facilities is sometimes limited and not all drydocking facilities are conveniently located. We may be unable to find space at a suitable drydocking facility or we may be forced to travel to a drydocking facility that is distant from the relevant vessel's position. The loss of earnings while our vessels are being repaired and repositioned or from being forced to wait for space or to travel to more distant drydocking facilities, as well as the actual cost of repairs, could negatively impact our business, results of operations, cash flows, financial condition and ability to pay dividends.

*The operation of drybulk carriers has certain unique operational risks which could affect our earnings and cash flow .*

The operation of certain ship types, such as drybulk carriers, has certain unique risks. With a drybulk carrier, the cargo itself and its interaction with the vessel can be an operational risk. By their nature, drybulk cargoes are often heavy, dense, easily shifted, and react badly to water exposure. In addition, drybulk carriers are often subjected to battering treatment during unloading operations with grabs, jackhammers (to pry encrusted cargoes out of the hold) and small bulldozers. This treatment may cause damage to the vessel. Vessels damaged due to treatment during unloading procedures may be more susceptible to breach to the sea. Hull breaches in drybulk carriers may lead to the flooding of the vessels' holds. If a drybulk carrier suffers flooding in its forward holds, the bulk cargo may become so dense and waterlogged that its pressure may buckle the vessel's bulkheads, leading to the loss of a vessel. If we are unable to adequately maintain our vessels, we may be unable to prevent these events. Any of these circumstances or events may have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends. In addition, the loss of any of our vessels could harm our reputation as a safe and reliable vessel owner and operator.

*Acts of piracy on ocean-going vessels have continued and could adversely affect our business.*

Acts of piracy have historically affected ocean-going vessels trading in regions of the world such as the South China Sea, the Indian Ocean and in the Gulf of Aden off the coast of Somalia. Since 2008, the frequency of piracy incidents increased significantly, particularly in the Gulf of Aden off the coast of Somalia. If these piracy attacks result in regions in which our vessels are deployed being characterized by insurers as "war risk" zones, or Joint War Committee (JWC) "war and strikes" listed areas, premiums payable for such coverage could increase significantly and such insurance coverage may be more difficult to obtain. In addition, crew costs, including costs which may be incurred to the extent we employ onboard security guards, could increase in such circumstances. We may not be adequately insured to cover losses from these incidents, which could have a material adverse effect on us. In addition, detention hijacking as a result of an act of piracy against our vessels, or an increase in cost, or unavailability of insurance for our vessels, could have a material adverse impact on our business, results of operations, cash flows, financial condition and ability to pay dividends.

In response to piracy incidents, particularly in the Gulf of Aden off the coast of Somalia, following consultation with regulatory authorities, we may station guards on some of our vessels in some instances. While our use of guards is intended to deter and prevent the hijacking of our vessels, it may also increase our risk of liability for death or injury to persons or damage to personal property. If we do not have adequate insurance in place to cover such liability, it could adversely impact our business, results of operations, cash flows, and financial condition.

*Terrorist attacks, such as the attacks on the United States on September 11, 2001, and other acts of violence or war may affect the financial markets, our vessels, our operations, or our customers and may therefore have an adverse effect on our business, results of operations and financial condition.*

Terrorist attacks such as the attacks in the United States on September 11, 2001 and the United States' continuing response to these attacks, the attacks in London on July 7, 2005, as well as the threat of future terrorist attacks, continue to cause uncertainty in the world financial markets, including the energy markets. The continuing conflict in Iraq may lead to additional acts of terrorism, armed conflict and civil disturbance around the world, which may contribute to further instability including in the drybulk shipping markets. Terrorist attacks, such as the attack on the M.T. Limburg in Yemen in October 2002, may also negatively affect our trade patterns or other operations and directly impact our vessels or our customers. Future terrorist attacks could result in increased volatility of the financial markets in the United States and globally and could result in an economic recession in the United States or the world. Any of these occurrences, or the perception that drybulk carriers are potential terrorist targets, could have a material adverse impact on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*Compliance with safety and other vessel requirements imposed by classification societies may be costly and could reduce our net cash flows and net income.*

The hull and machinery of every commercial vessel must be certified as being "in class" by a classification society authorized by its country of registry. The classification society certifies that a vessel is safe and seaworthy in accordance with the applicable rules and regulations of the country of registry of the vessel and the Safety of Life at Sea Convention. Our vessels are currently enrolled with the ABS, BV, DNV, or Lloyd's, each of which is a member of the International Association of Classification Societies. Further, to trade internationally, a vessel must attain an International Ship Security Certificate, or ISSC, from a recognized security organization.

A vessel must undergo annual surveys, intermediate surveys and special surveys. In lieu of a special survey, a vessel's machinery may be placed on a continuous survey cycle, under which the machinery would be surveyed periodically over a five-year period. Our vessels are on special survey cycles for hull inspection and continuous survey cycles for machinery inspection. Every vessel is also required to be drydocked every two to three years for inspection of its underwater parts.

If any vessel does not maintain its class or fails any annual, intermediate or special survey, the vessel will be unable to trade between ports and will be unemployable and we could be in violation of certain covenants in our credit facilities, which could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*We could be adversely affected by violations of the U.S. Foreign Corrupt Practices Act, UK Bribery Act, and other applicable worldwide anti-corruption laws.*

The U.S. Foreign Corrupt Practices Act ("FCPA") and other applicable worldwide anti-corruption laws generally prohibit companies and their intermediaries from making improper payments to government officials for the purpose of obtaining or retaining business. These laws include the recently enacted U.K. Bribery Act, which became effective on July 1, 2011 and which is broader in scope than the FCPA, as it contains no facilitating payments exception. We charter our vessels into some jurisdictions that international corruption monitoring groups have identified as having high levels of corruption. Our activities create the risk of unauthorized payments or offers of payments by one of our employees or agents that could be in violation of the FCPA or other applicable anti-corruption laws. Our policies mandate compliance with applicable anti-corruption laws. Although we have policies, procedures and internal controls in place to monitor internal and external compliance, we cannot assure that our policies and procedures will protect us from governmental investigations or inquiries surrounding actions of our employees or agents. If we are found to be liable for violations of the FCPA or other applicable anti-corruption laws (either due to our own acts or our inadvertence, or due to the acts or inadvertence of others), we could suffer from civil and criminal penalties or other sanctions.

*We may be unable to attract and retain qualified, skilled employees or crew necessary to operate our business.*

Our success depends in large part on our ability to attract and retain highly skilled and qualified personnel. In crewing our vessels, we require technically skilled employees with specialized training who can perform physically demanding work. Competition to attract and retain qualified crew members is intense. If we are not able to increase our rates to compensate for any crew cost increases, it could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends. Any inability we experience in the future to hire, train and retain a sufficient number of qualified employees could impair our ability to manage, maintain and grow our business, which could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*Labor interruptions could disrupt our business.*

Our vessels are manned by masters, officers and crews that are employed by third parties. If not resolved in a timely and cost-effective manner, industrial action or other labor unrest could prevent or hinder our operations from being carried out normally and could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*The smuggling of drugs or other contraband onto our vessels may lead to governmental claims against us.*

We expect that our vessels will call in ports in South America and other areas where smugglers attempt to hide drugs and other contraband on vessels, with or without the knowledge of crew members. To the extent our vessels are found with contraband, whether inside or

attached to the hull of our vessel and whether with or without the knowledge of any of our crew, we may face governmental or other regulatory claims which could have an adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*Arrests of our vessels by maritime claimants could cause a significant loss of earnings for the related off-hire period.*

Crew members, suppliers of goods and services to a vessel, shippers of cargo and other parties may be entitled to a maritime lien against a vessel for unsatisfied debts, claims or damages. In many jurisdictions, a maritime lienholder may enforce its lien by “arresting” or “attaching” a vessel through foreclosure proceedings. The arrest or attachment of one or more of our vessels could result in a significant loss of earnings for the related off-hire period. In addition, in jurisdictions where the “sister ship” theory of liability applies, a claimant may arrest the vessel which is subject to the claimant’s maritime lien and any “associated” vessel, which is any vessel owned or controlled by the same owner. In countries with “sister ship” liability laws, claims might be asserted against us or any of our vessels for liabilities of other vessels that we own.

*Governments could requisition our vessels during a period of war or emergency, resulting in loss of earnings.*

A government of a vessel’s registry could requisition for title or seize our vessels. Requisition for title occurs when a government takes control of a vessel and becomes the owner. A government could also requisition our vessels for hire. Requisition for hire occurs when a government takes control of a vessel and effectively becomes the charterer at dictated charter rates. Generally, requisitions occur during a period of war or emergency. Government requisition of one or more of our vessels could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*Increases in fuel prices could adversely affect our profits.*

From time to time, we may operate our vessels on spot charters either directly or by placing them in pools with similar vessels. Spot charter arrangements generally provide that the vessel owner or pool operator bear the cost of fuel in the form of bunkers, which is a significant vessel operating expense. We currently have five vessels operating in vessel pools, and we may arrange for more vessels to do so, depending on market conditions. Also, the cost of fuel may also be a factor in negotiating charter rates in the future. As a result, an increase in the price of fuel beyond our expectations may adversely affect our profitability, cash flows and ability to pay dividends. The price and supply of fuel is unpredictable and fluctuates as a result of events outside our control, including geo-political developments, supply and demand for oil and gas, actions by members of the Organization of the Petroleum Exporting Countries and other oil and gas producers, war and unrest in oil producing countries and regions, regional production patterns and environmental concerns and regulations.

*Our results of operations are subject to seasonal fluctuations, which may adversely affect our financial condition.*

We operate our vessels in markets that have historically exhibited seasonal variations in demand and, as a result, charter rates. This seasonality may result in quarter-to-quarter volatility in our operating results, depending on when we enter into our time charters or if our vessels trade on the spot market. The drybulk sector is typically stronger in the fall and winter months in anticipation of increased consumption of coal and raw materials in the northern hemisphere during the winter months. As a result, our revenues could be weaker during the fiscal quarters ended June 30 and September 30, and conversely, our revenue could be stronger during the quarters ended December 31 and March 31. This seasonality could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

## **Company Specific Risk Factors**

*Our earnings will be adversely affected if we do not successfully employ our vessels.*

As of February 21, 2012, most of our vessels were in arrangements in which they were trading at spot market rates. 33 of our vessels, excluding Baltic Trading’s vessels, were engaged under spot market-related time charter contracts that expire (assuming the option periods in the time charters are not exercised) between February 2012 and May 2015, and five of our vessels were trading in the spot charter market through participation in pool arrangements. The remaining 15 of the vessels in our fleet were engaged under time charters at fixed rates. Although time charters provide relatively steady streams of revenues, our vessels committed to time charters may not be available for spot voyages during periods of increasing charterhire rates, when spot voyages might be more profitable. The drybulk market is volatile, and in the past charterhire rates for drybulk carriers have sometimes declined below operating costs of vessels. If our vessels become available for employment in the spot market or under new time charters during periods when market prices have fallen, we may have to employ our vessels at depressed market prices, which would lead to reduced or volatile earnings. To the extent our vessels trade in the spot charter market, we may experience fluctuations in revenue, cash flow and net income. The spot charter market is highly competitive, and spot market voyage charter rates may fluctuate dramatically based primarily on the worldwide supply of drybulk vessels available in the market and the worldwide demand for the transportation of drybulk cargoes. We can provide no assurance that future charterhire rates will enable us to operate our vessels profitably. In addition, our standard time charter contracts with our customers specify certain performance parameters, which if not met can result in

customer claims. Such claims may have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*If we cannot find profitable employment for additional vessels that we acquire, our earnings will be adversely affected.*

We generally acquire vessels free of charter, although we have and may again acquire some vessels with continuing time charters. In addition, where a vessel has been under a voyage charter, it is rare in the shipping industry for the last charterer of the vessel in the seller's hands to continue as the first charterer of the vessel in the buyer's hands. To the extent we operate our vessels in vessel pools, the profitable employment of our vessels depends to some degree on the ability of the pool operators. We provide no assurance that we will be able to arrange immediate or profitable employment for vessels that we acquire. If we cannot do so, it could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*We depend upon a small number of charterers for a large part of our revenues. The loss of one or more of these charterers could adversely affect our financial performance.*

We have derived a significant part of our revenues from a small number of charterers. For the year ended December 31, 2011, 100% of our revenues were derived from 32 charterers, including charterers of Baltic Trading's vessels. Additionally, approximately 42.2% of our revenues were derived from two charterers, Swissmarine and Cargill. If we were to lose any of these charterers, or if any of these charterers significantly reduced its use of our services or was unable to make charter payments to us, it could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*The aging of our fleet and our practice of purchasing and operating previously owned vessels may result in increased operating costs and vessels off-hire, which could adversely affect our earnings.*

The majority of our drybulk carriers were previously owned by third parties. Our current business strategy includes additional growth through the acquisition of previously owned vessels. While we typically inspect previously owned vessels before purchase, this does not provide us with the same knowledge about their condition that we would have had if these vessels had been built for and operated exclusively by us. Accordingly, we may not discover defects or other problems with such vessels before purchase. Any such hidden defects or problems, when detected, may be expensive to repair, and if not detected, may result in accidents or other incidents for which we may become liable to third parties. Also, when purchasing previously owned vessels, we do not receive the benefit of any builder warranties if the vessels we buy are older than one year.

In general, the costs to maintain a vessel in good operating condition increase with the age of the vessel. The average age of the vessels in our current fleet, excluding Baltic Trading vessels, is approximately 6.8 years. Older vessels are typically less fuel-efficient than more recently constructed vessels due to improvements in engine technology and cargo insurance rates increase with the age of a vessel, making older vessels less desirable to charterers.

Governmental regulations, safety and other equipment standards related to the age of vessels may require expenditures for alterations or the addition of new equipment to some of our vessels and may restrict the type of activities in which these vessels may engage. We cannot assure you that, as our vessels age, market conditions will justify those expenditures or enable us to operate our vessels profitably during the remainder of their useful lives. As a result, regulations and standards could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*An increase in operating costs could adversely affect our cash flow and financial condition.*

Our vessel operating expenses include the costs of crew, provisions, deck and engine stores, lube oil, bunkers, insurance and maintenance and repairs, which depend on a variety of factors, many of which are beyond our control. Some of these costs, primarily relating to insurance and enhanced security measures implemented after September 11, 2001, and as a result of the increase in the frequency of acts of piracy, have been increasing. We expect that the costs of crewing, lubes, and repairs may increase in 2012 compared to 2011. In addition, to the extent we enter the spot charter market, we need to include the cost of bunkers as part of our voyage expenses. The price of bunker fuel may increase in the future. If our vessels suffer damage, they may need to be repaired at a drydocking facility. The costs of drydock repairs are unpredictable and can be substantial. Increases in any of these costs could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*We depend to a significant degree upon third-party managers to provide the technical management of our fleet. Any failure of these technical managers to perform their obligations to us could adversely affect our business.*

We have contracted the technical management of our fleet, including crewing, maintenance and repair services, to third-party technical management companies. The failure of these technical managers to perform their obligations could materially and adversely affect our business, results of operations, cash flows, financial condition and ability to pay dividends.

*In the highly competitive international drybulk shipping industry, we may not be able to compete for charters with new entrants or established companies with greater resources.*

We employ our vessels in a highly competitive market that is capital intensive and highly fragmented. Competition arises primarily from other vessel owners, some of whom have substantially greater resources than we do. Competition for the transportation of drybulk cargoes can be intense and depends on price, location, size, age, condition and the acceptability of the vessel and its managers to the charterers. Due in part to the highly fragmented market, competitors with greater resources could enter and operate larger fleets through consolidations or acquisitions that may be able to offer better prices and fleets than we are able to offer.

*We are currently prohibited from paying dividends or repurchasing our stock, and it is unlikely this prohibition will be lifted until market conditions improve.*

We agreed to the 2009 Amendment to our 2007 Credit Facility that contained a waiver of the collateral maintenance requirement. As a condition of this waiver, among other things, we agreed to suspend our cash dividends and share repurchases until such time as we can satisfy the collateral maintenance requirement. Until market conditions which have resulted in a decline in the value of drybulk vessels improve, it is unlikely that we will be able to meet that condition to reinstate our cash dividends and share repurchases.

In addition, on December 21, 2011, we entered into agreements (the “December 2011 Agreements”) to amend or waive portions of our 2007 Credit Facility, our \$100 Million Term Loan Facility, and our \$253 Million Term Facility. Among other things, these agreements effected a waiver of our existing maximum leverage ratio covenant and our minimum permitted consolidated interest ratio covenant for a period ending on (and including) March 31, 2013, or the waiver period. The agreements pertaining to our \$100 Million Term Loan Facility and our \$253 Million Term Facility prohibit us from paying dividends during the waiver period.

Even if we were able to reinstate the payment of cash dividends under our credit facilities, we would make dividend payments to our shareholders only if our Board of Directors, acting in its sole discretion, determines that such payments would be in our best interest and in compliance with relevant legal and contractual requirements. The principal business factors that our Board of Directors would consider when determining the timing and amount of dividend payments would be our earnings, financial condition and cash requirements at the time. Marshall Islands law generally prohibits the declaration and payment of dividends other than from surplus. Marshall Islands law also prohibits the declaration and payment of dividends while a company is insolvent or would be rendered insolvent by the payment of such a dividend.

We may incur other expenses or liabilities that would reduce or eliminate the cash available for distribution as dividends. We may also enter into new agreements or the Marshall Islands or another jurisdiction may adopt laws or regulations that place additional restrictions on our ability to pay dividends. If we do not pay dividends, the return on your investment would be limited to the price at which you could sell your shares.

*We may not be able to grow or effectively manage our growth, which could cause us to incur additional indebtedness and other liabilities and adversely affect our business.*

A principal focus of our business strategy is to grow by expanding our business. Our future growth will depend on a number of factors, some of which we can control and some of which we cannot. These factors include our ability to:

- identify vessels for acquisition;
- consummate acquisitions or establish joint ventures;
- integrate acquired vessels successfully with our existing operations;
- expand our customer base; and
- obtain required financing for our existing and new operations.

Growing any business by acquisition presents numerous risks, including undisclosed liabilities and obligations, difficulty obtaining additional qualified personnel, managing relationships with customers and suppliers and integrating newly acquired

operations into existing infrastructures. Future acquisitions could result in the incurrence of additional indebtedness and liabilities that could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends. In addition, competition from other buyers for vessels could reduce our acquisition opportunities or cause us to pay a higher price than we might otherwise pay. We cannot assure you that we will be successful in executing our growth plans or that we will not incur significant expenses and losses in connection with these plans.

*Restrictive covenants in our 2007 Credit Facility, \$253 Million Term Loan Facility, \$100 Million Term Loan Facility and the 2010 Baltic Trading Credit Facility may impose financial and other restrictions on us which could negatively impact our growth and adversely affect our operations.*

Our ability to borrow amounts under our 2007 Credit Facility is subject to the satisfaction of certain customary conditions precedent and compliance with terms and conditions included in the related credit documents. It is a condition precedent to each drawdown under the facility that the aggregate fair market value of the mortgaged vessels must at all times be at least 130% of the aggregate outstanding principal amount under the credit facility plus all letters of credit outstanding (determined on a pro forma basis giving effect to the amount proposed to be drawn down), although this condition is currently subject to a waiver, as noted above. To the extent that we are not able to satisfy these requirements, we may not be able to draw down the full amount under our 2007 Credit Facility without obtaining a further waiver or consent from the lenders. In addition, the covenants in our 2007 Credit Facility include the following requirements :

- The leverage covenant requires the maximum average net debt to EBITDA ratio to be no greater than 5.5:1.0, although our compliance with this covenant has been waived for a period ending on (and including) March 31, 2013, or the waiver period;
- cash and cash equivalents must not be less than \$0.5 million per mortgaged vessel;
- the ratio of EBITDA to interest expense, on a rolling last four-quarter basis, must be no less than 2.0:1.0, although our compliance with this covenant has been waived for the waiver period;
- during the waiver period, the ratio of our interest-bearing indebtedness to the sum of our interest-bearing indebtedness and our consolidated net worth in accordance with GAAP is limited to 62.5% on the last day of any fiscal quarter; and
- after July 20, 2007, consolidated net worth must be no less than \$263.3 million plus 80% of the value of any of our new equity issuances from June 30, 2007. Based on the equity offerings completed in October 2007, May 2008 and July 2010, consolidated net worth must be no less than \$634.7 million.

We cannot assure you that we will be able to comply with these covenants in the future. If we do not comply with the covenants in our credit facilities (absent effective waivers) and we fail to cure our non-compliance following notice and expiration of applicable cure periods, we may be in default of one or more of our credit facilities and the indenture for our 2010 Notes. As a result, some or all of our indebtedness could be declared immediately due and payable, and we may not be able to borrow further under our credit facilities. As a result, we may experience a material adverse effect on our business, financial condition, results of operations and cash flows. In addition, notwithstanding the waiver of certain covenants as described above, for purposes of our financial statements in each future fiscal quarter, we must test our compliance with the original covenants at all quarterly measurement dates within a year before June 30, 2013 in accordance with GAAP. Under our credit facilities, June 30, 2013 is the first date following expiration of our waivers on which our compliance with the original covenants will be measured. If we would not have been in compliance with the original covenants absent the waivers received and it is probable we would not be in compliance at measurement dates within such year, our indebtedness under this facility would be required to be reclassified as a current liability in such quarter. Any such reclassification would not affect our existing waivers, although there can be no assurance that we could obtain further waivers upon their expiration. As our \$253 Million Term Loan Facility and our \$100 Million Term Loan Facility contain corresponding covenants to which waivers apply as described below, our indebtedness under these facilities likewise would be reclassified as current liabilities.

Our 2007 Credit Facility imposes operating and financial restrictions on us. These restrictions may limit our ability to:

- incur additional indebtedness on satisfactory terms or at all;
- incur liens on our assets;
- sell our vessels or the capital stock of our subsidiaries;
- make investments;
- engage in mergers or acquisitions;
- pay dividends (following an event of default or our breach of a covenant) in the event we are able to resume dividend payments under the waiver of our collateral maintenance covenant which is currently in effect);
- make capital expenditures;
- compete effectively to the extent our competitors are subject to less onerous financial restrictions; and

- change the management of our vessels or terminate or materially amend the management agreement relating to any of our vessels.

Additionally, the \$253 Million Term Loan Facility requires us to comply with a number of covenants, including financial covenants related to leverage, consolidated net worth, liquidity and interest coverage, dividends, collateral maintenance requirements, and other covenants, most of which are in principle and calculation similar to the covenants described above under the 2007 Credit Facility, except for the minimum cash requirement, which is \$0.75 million per mortgaged vessel under this facility. The waivers described above for our 2007 Credit Facility of our leverage ratio and our ratio of EBITDA to interest expense also apply to this facility for the waiver period. In addition, we are prohibited from paying dividends during the waiver period.

Similarly, the \$100 Million Term Loan Facility requires us to comply with a number of covenants, including financial covenants related to leverage, consolidated net worth, interest coverage and dividends, minimum working capital requirements, collateral maintenance requirements and other covenants, most of which are in principle and calculation similar to the covenants described above under the 2007 Credit Facility, except for the minimum cash requirement, which is \$0.75 million per mortgaged vessel under this facility. The waivers described above for our 2007 Credit Facility of our leverage ratio and our ratio of EBITDA to interest expense also apply to this facility for the waiver period. In addition, we are prohibited from paying dividends during the waiver period. The \$100 Million Term Loan Facility includes usual and customary events of default and remedies for facilities of this nature. Availability of each tranche of the \$100 Million Term Loan Facility is subject to our acquisition of each of the five vessels from Metrostar and other conditions and documentation relating to the collateral securing the \$100 Million Term Loan Facility.

The 2010 Baltic Trading Credit Facility requires Baltic Trading to comply with a number of covenants, including financial covenants related to liquidity, consolidated net worth, and collateral maintenance, restrictions on changes in the Manager of Baltic Trading's initial vessels (or acceptable replacement vessels), limitations on changes to the Management Agreement between Baltic Trading and us, limitations on liens, limitations on additional indebtedness, restrictions on paying dividends, restrictions on transactions with affiliates and other customary covenants.

Therefore, we may need to seek permission from our lenders in order to engage in some corporate actions. Our lenders' interests may be different from ours, and we cannot guarantee that we will be able to obtain our lenders' permission when needed. This may prevent us from taking actions that are in our best interest and from executing our business strategy of growth through acquisitions and may restrict or limit our ability to pay dividends and finance our future operations.

*The issuance of our outstanding convertible notes could affect our business in the future.*

The issuance of our 5.00% Convertible Senior Notes due August 15, 2015 (the "2010 Notes") could affect us and our business in the following ways:

- The indebtedness associated with the 2010 Notes, together with indebtedness incurred under our 2007 Credit Facility, \$253 Million Term Loan Facility, \$100 Million Term Loan Facility and the 2010 Baltic Trading Credit Facility, is substantial. Our ability to obtain additional financing or pursue new business opportunities may be negatively impacted.
- We may need to refinance the 2010 Notes and our other debt on terms that may be unfavorable to us (if refinancing is available at all) if our cash flow is insufficient to service the 2010 Notes and such other debt.
- We may make cash payments to satisfy our conversion obligations under the 2010 Notes, which could materially adversely affect our liquidity, cash flows, and results of operations.
- In the event of certain mergers or acquisitions of us, the indenture for the 2010 Notes may require us to repurchase the 2010 Notes or the surviving entity to assume our obligations under the 2010 Notes. These requirements may deter or prevent a business combination that may be favorable to our securityholders.

*We currently maintain all of our cash and cash equivalents with five financial institutions, which subjects us to credit risk.*

We currently maintain all of our cash and cash equivalents with five financial institutions. None of our balances are covered by insurance in the event of default by the financial institutions. The occurrence of such a default of any of these institutions could therefore have a material adverse effect on our business, financial condition, results of operations and cash flows.

*If we are unable to fund our capital expenditures, we may not be able to continue to operate some of our vessels, which would have a material adverse effect on our business and our ability to pay dividends.*

In order to fund our capital expenditures, we may be required to incur borrowings or raise capital through the sale of debt or equity securities. Our ability to borrow money and access the capital markets through future offerings may be limited by our financial condition at the time of any such offering as well as by adverse market conditions resulting from, among other things, general economic conditions and contingencies and uncertainties that are beyond our control. Our failure to obtain the funds for necessary future capital expenditures would limit our ability to continue to operate some of our vessels or impair the value of our vessels and could have a material adverse effect on our business, results of operations, financial condition, cash flows and ability to pay dividends. Even if we are successful in obtaining such funds through financings, the terms of such financings could further limit our ability to pay dividends.

*We are a holding company, and we depend on the ability of our subsidiaries to distribute funds to us in order to satisfy our financial obligations or to make dividend payments.*

We are a holding company, and our subsidiaries, which are all wholly owned by us, either directly or indirectly, conduct all of our operations and own all of our operating assets. We have no significant assets other than the equity interests in our wholly owned subsidiaries. As a result, our ability to satisfy our financial obligations and to pay dividends to our shareholders depends on the ability of our subsidiaries to distribute funds to us. In turn, the ability of our subsidiaries to make dividend payments to us will be dependent on them having profits available for distribution and, to the extent that we are unable to obtain dividends from our subsidiaries, this will limit the discretion of our Board of Directors to pay or recommend the payment of dividends.

*Our ability to obtain additional debt financing may depend on the performance of our then existing charters and the creditworthiness of our charterers, and market conditions.*

The actual or perceived credit quality of our charterers, and any defaults by them, or market conditions affecting the time charter market and the credit markets, may materially affect our ability to obtain the additional capital resources that may be required to purchase additional vessels or may significantly increase our costs of obtaining such capital. Our inability to obtain additional financing at all or at a higher than anticipated cost may have a material adverse affect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*If management is unable to continue to provide reports as to the effectiveness of our internal control over financial reporting or our independent registered public accounting firm is unable to continue to provide us with unqualified attestation reports as to the effectiveness of our internal control over financial reporting, investors could lose confidence in the reliability of our financial statements, which could result in a decrease in the value of our common stock.*

Under Section 404 of the Sarbanes-Oxley Act of 2002, we are required to include in this and each of our future annual reports on Form 10-K a report containing our management's assessment of the effectiveness of our internal control over financial reporting and a related attestation of our independent registered public accounting firm. If, in such future annual reports on Form 10-K, our management cannot provide a report as to the effectiveness of our internal control over financial reporting or our independent registered public accounting firm is unable to provide us with an unqualified attestation report as to the effectiveness of our internal control over financial reporting as required by Section 404, investors could lose confidence in the reliability of our consolidated financial statements, which could result in a decrease in the value of our common stock.

*If we are unable to operate our financial and operations systems effectively or to recruit suitable employees as we expand our fleet, our performance may be adversely affected.*

Our current financial and operating systems may not be adequate as we implement our plan to expand the size of our fleet, and our attempts to improve those systems may be ineffective. In addition, as we expand our fleet, we will have to rely on our outside technical managers to recruit suitable additional seafarers and shore-based administrative and management personnel. We cannot assure you that our outside technical managers will be able to continue to hire suitable employees as we expand our fleet.

*We may be unable to attract and retain key management personnel and other employees in the shipping industry, which may negatively affect the effectiveness of our management and our results of operations.*

Our success depends to a significant extent upon the abilities and efforts of our management team and our ability to hire and retain key members of our management team. The loss of any of these individuals could adversely affect our business prospects and financial condition. Difficulty in hiring and retaining personnel could have a material adverse effect our business, results of operations, cash flows, financial condition and ability to pay dividends. We do not intend to maintain "key man" life insurance on any of our officers.

*Arrangements relating to our Baltic Trading subsidiary and MEP could require significant time and attention from our personnel and may result in conflicts of interest.*

Our subsidiary, Baltic Trading, conducts a shipping business focused on the drybulk industry spot market. Some of our personnel provide services to Baltic Trading, including our Chief Financial Officer. This requires substantial time and attention from these individuals and reduces their availability to serve us. Our Chairman and two of our directors serve on the Baltic Trading board of directors. Our officers and directors who also serve Baltic Trading may encounter situations in which their fiduciary obligations to us and to Baltic Trading are in conflict. The Omnibus Agreement entered into between us and Baltic Trading is intended to reduce these conflicts by granting a right of first refusal to Baltic Trading for certain spot chartering opportunities and to us for other business opportunities. However, these arrangements and/or the resolutions of these conflicts may not always be in our best interest or that of our shareholders and could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

We provide technical services for drybulk vessels purchased by MEP under an agency agreement between us and MEP. These services include oversight of crew management, insurance, drydocking, ship operations and financial statement preparation, but do not include chartering services. This requires substantial time and attention from these individuals and reduces their availability to serve us. Our Chairman is a minority investor in MEP, and affiliates of Oaktree Capital Management, L.P., of which Stephen A. Kaplan, one of our directors, is a principal, are majority investors in MEP. This arrangement was approved by an independent committee of our Board of Directors. Although we do not provide MEP with chartering services or assistance with the purchase and sale of vessels, the arrangement under the agency agreement may not always be in our best interest or that of our shareholders and could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*Our Chairman may pursue business opportunities in our industry that may conflict with our interests.*

Our Chairman, Peter C. Georgiopoulos, is not an employee of our company and is not contractually committed to remain as a director of our company or to refrain from other activities in our industry. Mr. Georgiopoulos actively reviews potential investment opportunities in the shipping industry, including the drybulk sector, from time to time. Mr. Georgiopoulos has informed us that so long as he is a director of our company, prior to making an investment in an entity owning or operating drybulk vessels, he intends to make a disclosure to our board and our independent directors and allow us to pursue the opportunity to the extent we choose to do so and are able. However, in the event we choose not to pursue any such opportunity or are not able to obtain such an opportunity, Mr. Georgiopoulos may proceed, either alone or with others, with such investments. In keeping with these principles, Mr. Georgiopoulos has become a minority investor in MEP, a company he controls which owns 12 drybulk vessels. As a result of such investments, Mr. Georgiopoulos may have independent interests in the ownership and operation of drybulk vessels that may conflict with our interests.

*We may not have adequate insurance to compensate us if we lose our vessels or to compensate third parties.*

There are a number of risks associated with the operation of ocean-going vessels, including mechanical failure, collision, human error, war, terrorism, piracy, property loss, cargo loss or damage and business interruption due to political circumstances in foreign countries, hostilities and labor strikes. Any of these events may result in loss of revenues, increased costs and decreased cash flows. In addition, the operation of any vessel is subject to the inherent possibility of marine disaster, including oil spills and other environmental mishaps, and the liabilities arising from owning and operating vessels in international trade.

We are insured against tort claims and some contractual claims (including claims related to environmental damage and pollution) through memberships in protection and indemnity associations or clubs, or P&I Associations. As a result of such membership, the P&I Associations provide us coverage for such tort and contractual claims. We also carry hull and machinery insurance and war risk insurance for our fleet. We insure our vessels for third-party liability claims subject to and in accordance with the rules of the P&I Associations in which the vessels are entered. We currently maintain insurance against loss of hire, which covers business interruptions that result in the loss of use of a vessel. We can give no assurance that we will be adequately insured against all risks. We may not be able to obtain adequate insurance coverage for our fleet in the future. The insurers may not pay particular claims. Our insurance policies contain deductibles for which we will be responsible and limitations and exclusions which may increase our costs or lower our revenue.

We cannot assure you that we will be able to renew our insurance policies on the same or commercially reasonable terms, or at all, in the future. For example, more stringent environmental regulations have led in the past to increased costs for, and in the future may result in the lack of availability of, protection and indemnity insurance against risks of environmental damage or pollution. Any uninsured or underinsured loss could harm our business, results of operations, cash flows, financial condition and ability to pay dividends. In addition, our insurance may be voidable by the insurers as a result of certain of our actions, such as our ships failing to maintain certification with applicable maritime self-regulatory organizations. Further, we cannot assure you that our insurance

policies will cover all losses that we incur, or that disputes over insurance claims will not arise with our insurance carriers. Any claims covered by insurance would be subject to deductibles, and since it is possible that a large number of claims may be brought, the aggregate amount of these deductibles could be material. In addition, our insurance policies are subject to limitations and exclusions, which may increase our costs or lower our revenues, thereby possibly having a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

*We are subject to funding calls by our protection and indemnity associations, and our associations may not have enough resources to cover claims made against them .*

We are indemnified for legal liabilities incurred while operating our vessels through membership in P&I Associations. P&I Associations are mutual insurance associations whose members must contribute to cover losses sustained by other association members. The objective of a P&I Association is to provide mutual insurance based on the aggregate tonnage of a member's vessels entered into the association. Claims are paid through the aggregate premiums of all members of the association, although members remain subject to calls for additional funds if the aggregate premiums are insufficient to cover claims submitted to the association. Claims submitted to the association may include those incurred by members of the association, as well as claims submitted to the association from other P&I Associations with which our P&I Association has entered into interassociation agreements. We cannot assure you that the P&I Associations to which we belong will remain viable or that we will not become subject to additional funding calls which could adversely affect us.

*We may have to pay U.S. tax on U.S. source income, which would reduce our net income and cash flows.*

If we do not qualify for an exemption pursuant to Section 883 of the U.S. Internal Revenue Code of 1986, as amended, or the Code, which we refer to as Section 883, then we will be subject to U.S. federal income tax on our shipping income that is derived from U.S. sources. If we are subject to such tax, our net income and cash flows would be reduced by the amount of such tax.

We will qualify for exemption under Section 883 if, among other things, our stock is treated as primarily and regularly traded on an established securities market in the United States. Under applicable Treasury regulations, we may not satisfy this publicly traded requirement in any taxable year in which 50% or more of our stock is owned for more than half the days in such year by persons who actually or constructively own 5% or more of our stock, which we sometimes refer to as 5% shareholders.

Based on the ownership of our stock, we believe that we satisfied the publicly traded requirement for an exemption from U.S. federal income tax on our shipping income pursuant to Section 883 of the U.S. Internal Revenue Code of 1986, as amended, for 2010 and 2011. However, if 5% shareholders were to own 50% or more of our stock for more than half the days of any taxable year, we may not be eligible to claim exemption from tax under Section 883 for such taxable year. As of December 31, 2011, based on the holdings of our Chairman, Peter C. Georgiopoulos and the holdings of other investors reported on Schedule 13G, our 5% shareholders owned approximately 35.62% of our common stock. We can provide no assurance that changes and shifts in the ownership of our stock by 5% shareholders will not preclude us from qualifying for exemption from tax under Section 883 in future years.

If we do not qualify for the Section 883 exemption, our shipping income derived from U.S. sources, or 50% of our gross shipping income attributable to transportation beginning or ending in the United States, would be subject to a 4% tax without allowance for deductions.

Baltic Trading is also incorporated in the Marshall Islands. However, Baltic Trading did not qualify for an exemption under Section 883 upon consummation of its IPO because it did not satisfy the publicly traded requirement as described above. Since Baltic Trading's IPO was completed on March 15, 2010, we have indirectly owned shares of Baltic Trading's Class B Stock which has provided us with over 50% of the combined voting power of all classes of Baltic Trading's voting stock. As such, Baltic Trading is subject to income tax on its United States source income. During the years ended December 31, 2011 and 2010, Baltic Trading had United States operations which resulted in United States source income of approximately \$3.1 million and \$2.5 million, respectively.

In addition, our revenues derived from our technical and commercial management provided to Baltic Trading and MEP resulted in U.S. source income for which we are subject to U.S. income tax on a net basis. These revenues totaled approximately \$6.3 million and \$6.7 million during the years ended December 31, 2011 and 2010, respectively.

*U.S. tax authorities could treat us as a "passive foreign investment company," which could have adverse U.S. federal income tax consequences to U.S. shareholders.*

A foreign corporation generally will be treated as a “passive foreign investment company,” which we sometimes refer to as a PFIC, for U.S. federal income tax purposes if either (1) at least 75% of its gross income for any taxable year consists of “passive income” or (2) at least 50% of its assets (averaged over the year and generally determined based upon value) produce or are held for the production of “passive income.” U.S. shareholders of a PFIC are subject to a disadvantageous U.S. federal income tax regime with respect to distributions they receive from the PFIC and gain, if any, they derive from the sale or other disposition of their stock in the PFIC.

For purposes of these tests, “passive income” generally includes dividends, interest, gains from the sale or exchange of investment property and rents and royalties other than rents and royalties which are received from unrelated parties in connection with the active conduct of a trade or business, as defined in applicable Treasury regulations. For purposes of these tests, income derived from the performance of services does not constitute “passive income.” By contrast, rental income would generally constitute passive income unless we were treated under specific rules as deriving our rental income in the active conduct of a trade or business. We do not believe that our existing operations would cause us to be deemed a PFIC with respect to any taxable year. In this regard, we treat the gross income we derive or are deemed to derive from our time and spot chartering activities as services income, rather than rental income. Accordingly, we believe that (1) our income from our time and spot chartering activities does not constitute passive income and (2) the assets that we own and operate in connection with the production of that income do not constitute passive assets.

While there is no direct legal authority under the PFIC rules addressing our method of operation, there is legal authority supporting this position consisting of case law and pronouncements by the United States Internal Revenue Service, which we sometimes refer to as the IRS, concerning the characterization of income derived from time charters and voyage charters as services income for other tax purposes. However, it should be noted that there is also authority which characterizes time charter income as rental income rather than services income for other tax purposes. Accordingly, no assurance can be given that the IRS or a court of law will accept our position, and there is a risk that the IRS or a court of law could determine that we are a PFIC. Moreover, because there are uncertainties in the application of the PFIC rules, because the PFIC test is an annual test, and because, although we intend to manage our business so as to avoid PFIC status to the extent consistent with our other business goals, there could be changes in the nature and extent of our operations in future years, there can be no assurance that we will not become a PFIC in any taxable year.

If we were to be treated as a PFIC for any taxable year (and regardless of whether we remain a PFIC for subsequent taxable years), our U.S. shareholders would face adverse U.S. tax consequences. Under the PFIC rules, unless a shareholder makes certain elections available under the Code (which elections could themselves have adverse consequences for such shareholder), such shareholder would be liable to pay U.S. federal income tax at the highest applicable income tax rates on ordinary income upon the receipt of excess distributions and upon any gain from the disposition of our common stock, plus interest on such amounts, as if such excess distribution or gain had been recognized ratably over the shareholder’s holding period of our common stock.

*Because we generate all of our revenues in U.S. dollars but incur a portion of our expenses in other currencies, exchange rate fluctuations could hurt our results of operations.*

We generate all of our revenues in U.S. dollars, but we may incur drydocking costs, special survey fees and other expenses in other currencies. If our expenditures on such costs and fees were significant, and the U.S. dollar were weak against such currencies, our business, results of operations, cash flows, financial condition and ability to pay dividends could be adversely affected.

*Legislative action relating to taxation could materially and adversely affect us.*

Our tax position could be adversely impacted by changes in tax laws, tax treaties or tax regulations or the interpretation or enforcement thereof by any tax authority. For example, legislative proposals have been introduced in the U.S. Congress which, if enacted, could change the circumstances under which we would be treated as a U.S. person for U.S. federal income tax purposes, which could materially and adversely affect our effective tax rate and cash tax position and require us to take action, at potentially significant expense, to seek to preserve our effective tax rate and cash tax position. We cannot predict the outcome of any specific legislative proposals.

## **RISK FACTORS RELATED TO OUR COMMON STOCK**

*Certain shareholders own large portions of our outstanding common stock, which may limit your ability to influence our actions .*

As of December 31, 2011, Peter C. Georgiopoulos, our Chairman, owned approximately 12.66% of our common stock directly or through Fleet Acquisition LLC. Also as of December 31, 2011, Nevada Capital Corporation Limited, a company unaffiliated with Mr. Georgiopoulos, owned approximately 16.53% of our common stock. As a result of this share ownership and for so long as either such shareholder owns a significant percentage of our outstanding common stock, either such shareholder will be able to influence the outcome of any shareholder vote, including the election of directors, the adoption or amendment of provisions in

our articles of incorporation or by-laws and possible mergers, corporate control contests and other significant corporate transactions. This concentration of ownership may have the effect of delaying, deferring or preventing a change in control, merger, consolidation, takeover or other business combination involving us. This concentration of ownership could also discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us, which could in turn have an adverse effect on the market price of our common stock.

*Because we are a foreign corporation, you may not have the same rights or protections that a shareholder in a United States corporation may have.*

We are incorporated in the Republic of the Marshall Islands, which does not have a well-developed body of corporate law and may make it more difficult for our shareholders to protect their interests. Our corporate affairs are governed by our amended and restated articles of incorporation and bylaws and the Marshall Islands Business Corporations Act, or BCA. The provisions of the BCA resemble provisions of the corporation laws of a number of states in the United States. The rights and fiduciary responsibilities of directors under the law of the Marshall Islands are not as clearly established as the rights and fiduciary responsibilities of directors under statutes or judicial precedent in existence in certain U.S. jurisdictions and there have been few judicial cases in the Marshall Islands interpreting the BCA. Shareholder rights may differ as well. While the BCA does specifically incorporate the non-statutory law, or judicial case law, of the State of Delaware and other states with substantially similar legislative provisions, our public shareholders may have more difficulty in protecting their interests in the face of actions by the management, directors or controlling shareholders than would shareholders of a corporation incorporated in a U.S. jurisdiction. Therefore, you may have more difficulty in protecting your interests as a shareholder in the face of actions by the management, directors or controlling shareholders than would shareholders of a corporation incorporated in a United States jurisdiction.

*Future sales of our common stock could cause the market price of our common stock to decline.*

The market price of our common stock could decline due to sales of a large number of shares in the market, including sales of shares by our large shareholders, or the perception that these sales could occur. These sales could also make it more difficult or impossible for us to sell equity securities in the future at a time and price that we deem appropriate to raise funds through future offerings of common stock. We have entered into a registration rights agreement with Fleet Acquisition LLC that entitles it to have all the shares of our common stock that it owns registered for sale in the public market under the Securities Act of 1933, as amended (the “Securities Act”) and, pursuant to the registration rights agreement, registered Fleet Acquisition LLC’s shares on a registration statement on Form S-3 in February 2007. We also registered on Form S-8 for an aggregate of 2,000,000 shares issued or issuable under our equity compensation plan.

*We may need to raise additional capital in the future, which may not be available on favorable terms or at all or which may dilute our common stock or adversely affect its market price.*

We may require additional capital to expand our business and increase revenues, add liquidity in response to negative economic conditions, meet unexpected liquidity needs caused by industry volatility or uncertainty and reduce our outstanding indebtedness under our existing facilities. To the extent that our existing capital and borrowing capabilities are insufficient to meet these requirements and cover any losses, we will need to raise additional funds through debt or equity financings, including offerings of our common stock, securities convertible into our common stock, or rights to acquire our common stock or curtail our growth and reduce our assets or restructure arrangements with existing security holders. Any equity or debt financing, or additional borrowings, if available at all, may be on terms that are not favorable to us. Equity financings could result in dilution to our stockholders, as described further below, and the securities issued in future financings may have rights, preferences and privileges that are senior to those of our common stock. If our need for capital arises because of significant losses, the occurrence of these losses may make it more difficult for us to raise the necessary capital. If we cannot raise funds on acceptable terms if and when needed, we may not be able to take advantage of future opportunities, grow our business or respond to competitive pressures or unanticipated requirements.

*Conversion of the 2010 Notes may dilute the ownership interest of existing stockholders.*

The conversion of some or all of the 2010 Notes may dilute the ownership interests of existing stockholders. Any sales in the public market of any of our common stock issuable upon such conversion could adversely affect prevailing market prices of our common stock. In addition, the anticipated conversion of the 2010 Notes into shares of our common stock or a combination of cash and shares of our common stock could depress the price of our common stock.

*Future issuances of our common stock could dilute our shareholders’ interests in our company.*

We may, from time to time, issue additional shares of common stock to support our growth strategy, reduce debt or provide us with capital for other purposes that our Board of Directors believes to be in our best interest. To the extent that an existing shareholder does not purchase additional shares that we may issue, that shareholder’s interest in our company will be diluted, which means that its percentage of ownership in our company will be reduced. Following such a reduction, that shareholder’s common stock

would represent a smaller percentage of the vote in our Board of Directors' elections and other shareholder decisions.

*Volatility in the market price and trading volume of our common stock could adversely impact the trading price of our common stock.*

The stock market in recent years has experienced significant price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies like us. These broad market factors may materially reduce the market price of our common stock, regardless of our operating performance. The market price of our common stock, which has experienced significant price and volume fluctuations in recent months, could continue to fluctuate significantly for many reasons, including in response to the risks described herein or for reasons unrelated to our operations, such as reports by industry analysts, investor perceptions or negative announcements by our competitors or suppliers regarding their own performance, as well as industry conditions and general financial, economic and political instability. A decrease in the market price of our common stock would adversely impact the value of your shares of common stock.

*Provisions of our amended and restated articles of incorporation and by-laws may have anti-takeover effects which could adversely affect the market price of our common stock.*

Several provisions of our amended and restated articles of incorporation and by-laws, which are summarized below, may have anti-takeover effects. These provisions are intended to avoid costly takeover battles, lessen our vulnerability to a hostile change of control and enhance the ability of our Board of Directors to maximize shareholder value in connection with any unsolicited offer to acquire our company. However, these anti-takeover provisions could also discourage, delay or prevent (1) the merger or acquisition of our company by means of a tender offer, a proxy contest or otherwise that a shareholder may consider in its best interest and (2) the removal of incumbent officers and directors.

#### *Blank Check Preferred Stock.*

Under the terms of our amended and restated articles of incorporation, our Board of Directors has the authority, without any further vote or action by our shareholders, to authorize our issuance of up to 25,000,000 shares of blank check preferred stock. Our Board of Directors may issue shares of preferred stock on terms calculated to discourage, delay or prevent a change of control of our company or the removal of our management.

#### *Classified Board of Directors.*

Our amended and restated articles of incorporation provide for the division of our Board of Directors into three classes of directors, with each class as nearly equal in number as possible, serving staggered, three-year terms beginning upon the expiration of the initial term for each class. Approximately one-third of our Board of Directors is elected each year. This classified board provision could discourage a third party from making a tender offer for our shares or attempting to obtain control of us. It could also delay shareholders who do not agree with the policies of our Board of Directors from removing a majority of our Board of Directors for up to two years.

#### *Election and Removal of Directors.*

Our amended and restated articles of incorporation prohibit cumulative voting in the election of directors. Our by-laws require parties other than the board of directors to give advance written notice of nominations for the election of directors. Our articles of incorporation also provide that our directors may be removed only for cause and only upon the affirmative vote of  $66\frac{2}{3}\%$  of the outstanding shares of our capital stock entitled to vote for those directors or by a majority of the members of the board of directors then in office. These provisions may discourage, delay or prevent the removal of incumbent officers and directors.

#### *Limited Actions by Shareholders.*

Our amended and restated articles of incorporation and our by-laws provide that any action required or permitted to be taken by our shareholders must be effected at an annual or special meeting of shareholders or by the unanimous written consent of our shareholders. Our amended and restated articles of incorporation and our by-laws provide that, subject to certain exceptions, our Chairman, President, or Secretary at the direction of the Board of Directors may call special meetings of our shareholders and the business transacted at the special meeting is limited to the purposes stated in the notice.

#### *Advance Notice Requirements for Shareholder Proposals and Director Nominations.*

Our by-laws provide that shareholders seeking to nominate candidates for election as directors or to bring business before an annual meeting of shareholders must provide timely notice of their proposal in writing to the corporate secretary. Generally, to be timely, a shareholder's notice must be received at our principal executive offices not less than 150 days nor more than 180 days before

the date on which we first mailed our proxy materials for the preceding year's annual meeting. Our by-laws also specify requirements as to the form and content of a shareholder's notice. These provisions may impede a shareholder's ability to bring matters before an annual meeting of shareholders or make nominations for directors at an annual meeting of shareholders.

*It may not be possible for our investors to enforce U.S. judgments against us.*

We are incorporated in the Republic of the Marshall Islands and most of our subsidiaries are also organized in the Marshall Islands. Substantially all of our assets and those of our subsidiaries are located outside the United States. As a result, it may be difficult or impossible for United States shareholders to serve process within the United States upon us or to enforce judgment upon us for civil liabilities in United States courts. In addition, you should not assume that courts in the countries in which we are incorporated or where our assets are located (1) would enforce judgments of United States courts obtained in actions against us based upon the civil liability provisions of applicable United States federal and state securities laws or (2) would enforce, in original actions, liabilities against us based upon these laws.

#### **ITEM 1B. UNRESOLVED STAFF COMMENTS**

Not applicable.

#### **ITEM 2. PROPERTIES**

We do not own any real property. In September 2005, we entered into a 15-year lease for office space in New York, New York. The monthly rental is as follows: Free rent from September 1, 2005 to July 31, 2006, \$40,000 per month from August 1, 2006 to August 31, 2010, \$43,000 per month from September 1, 2010 to August 31, 2015, and \$46,000 per month from September 1, 2015 to August 31, 2020. The monthly straight-line rental expense from September 1, 2005 to August 31, 2020 is \$39,000. We have the option to extend the lease for a period of five years from September 1, 2020 to August 31, 2025. The rent for the renewal period will be based on the prevailing market rate for the six months prior to the commencement date of the extension term.

Future minimum rental payments on the above lease for the next five years and thereafter are as follows: \$0.5 million for 2012 through 2015, \$0.6 million for 2016 and a total of \$2.0 million for the remaining term of the lease.

Effective April 4, 2011, we entered into a seven-year sub-sublease agreement for additional office space in New York, New York. The term of the sub-sublease commenced June 1, 2011, with a free base rental period until October 31, 2011. Following the expiration of the free base rental period, the monthly base rental payments are \$82,000 per month until May 31, 2015 and thereafter will be \$90,000 per month until the end of the seven-year term. We have also entered into a direct lease with the over-landlord of such office space that commences immediately upon the expiration of such sub-sublease agreements, for a term covering the period from May 1, 2018 to September 30, 2025; the direct lease provides for a free base rental period from May 1, 2018 to September 30, 2018. Following the expirations of the free base rental period, the monthly base rental payments will be \$186,000 per month from October 1, 2018 to April 30, 2023 and \$204,000 per month from May 1, 2023 to September 30, 2025. For accounting purposes, the sub-sublease agreement and direct lease agreement with the landlord constitute one lease agreement. As a result of the straight-line rent calculation generated by the free rent period and the tenant work credit, the monthly straight-line rental expense for the term of the entire lease from June 1, 2011 to September 30, 2025 is \$130,000.

Future minimum rental payments on the above lease for the next five years and thereafter are as follows: \$1.0 million for 2012 through 2015, \$1.1 million for 2016 and a total of \$17.6 million for the remaining term of the lease.

For a description of our vessels, see "Our Fleet" in Item 1, "Business" in this report.

We consider each of our significant properties to be suitable for its intended use.

#### **ITEM 3. LEGAL PROCEEDINGS**

We have not been involved in any legal proceedings which we believe are likely to have, or have had a significant effect on our business, financial position, results of operations or cash flows, nor are we aware of any proceedings that are pending or threatened which we believe are likely to have a significant effect on our business, financial position, results of operations or liquidity. From time to time, we may be subject to legal proceedings and claims in the ordinary course of business, principally personal injury and property casualty claims. We expect that these claims would be covered by insurance, subject to customary deductibles. Those claims, even if lacking merit, could result in the expenditure of significant financial and managerial resources.

#### ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

#### PART II

#### ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND PURCHASES OF EQUITY SECURITIES

##### MARKET INFORMATION, HOLDERS AND DIVIDENDS

Our common stock is traded on the New York Stock Exchange ("NYSE") under the symbol "GNK." The following table sets forth for the periods indicated the high and low prices for the common stock as reported by the NYSE:

<b>FISCAL YEAR ENDED DECEMBER 31, 2011</b>	<b>HIGH</b>	<b>LOW</b>
1st Quarter	\$ 15.47	\$ 10.69
2nd Quarter	\$ 10.91	\$ 6.28
3rd Quarter	\$ 9.75	\$ 4.15
4th Quarter	\$ 10.14	\$ 5.78

  

<b>FISCAL YEAR ENDED DECEMBER 31, 2010</b>	<b>HIGH</b>	<b>LOW</b>
1st Quarter	\$ 26.49	\$ 18.07
2nd Quarter	\$ 24.52	\$ 14.90
3rd Quarter	\$ 17.80	\$ 14.20
4th Quarter	\$ 18.08	\$ 13.88

As of February 22, 2012, there were approximately 96 holders of record of our common stock.

Until January 26, 2009, our dividend policy was to declare quarterly distributions to shareholders, which commenced in November 2005, by each February, May, August and November substantially equal to our available cash from operations during the previous quarter, less cash expenses for that quarter (principally vessel operating expenses and debt service) and any reserves our Board of Directors determined we should maintain. These reserves covered, among other things, drydocking, repairs, claims, liabilities and other obligations, interest expense and debt amortization, acquisitions of additional assets and working capital. Under the terms of the 2009 Amendment to our 2007 Credit Facility (discussed in the "Liquidity and Capital Resources" section of "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this report and in Note 9 — Long-Term Debt of our consolidated financial statements), we have suspended payment of cash dividends indefinitely beginning the quarter ended December 31, 2008. To reinstate our cash dividends under the 2007 Credit Facility, we must be able to represent to the lenders that we are in a position to again satisfy the collateral maintenance covenant under this facility. In addition, under the terms of the December 2011 Agreements, we are prohibited from paying dividends through March 31, 2013. There were no dividends declared during the years ended December 31, 2011, 2010 and 2009.

##### EQUITY COMPENSATION PLAN INFORMATION

The following table provides information as of December 31, 2011 regarding the number of shares of our common stock that may be issued under the 2005 Equity Incentive Plan, which is our sole equity compensation plan :

<b>Plan category</b>	<b>Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)</b>	<b>Weighted-average exercise price of outstanding options, warrants and rights (b)</b>	<b>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)</b>
Equity compensation plans approved by security holders	—	\$ —	325,600
Equity compensation plans not approved by security holders	—	—	—
Total	—	\$ —	325,600

## SHARE REPURCHASE PROGRAM

Refer to the “Share Repurchase Program” section of Item 7 for a summary of cumulative share repurchases made pursuant to the Share Repurchase Program.

Net cash (used in) provided by financing activities	(67,725)	690,160	149,792	300,332	861,430
EBITDA (1)	\$ 249,080	\$ 330,711	\$ 298,330	\$ 208,807	\$ 164,183

---

- (1) EBITDA represents net income attributable to Genco Shipping & Trading Limited plus net interest expense, taxes and depreciation and amortization. EBITDA is included because it is used by management and certain investors as a measure of operating performance. EBITDA is used by analysts in the shipping industry as a common performance measure to compare results across peers. Our management uses EBITDA as a performance measure in our consolidated internal financial statements, and it is presented for review at our board meetings. We believe that EBITDA is useful to investors as the shipping industry is capital intensive which often results in significant depreciation and cost of financing. EBITDA presents investors with a measure in addition to net income to evaluate our performance prior to these costs. EBITDA is not an item recognized by U.S. GAAP and should not be considered as an alternative to net income, operating income or any other indicator of a company's operating performance required by U.S. GAAP. EBITDA is not a measure of liquidity or cash flows as shown in our consolidated statements of cash flows. The definition of EBITDA used here may not be comparable to that used by other companies. The foregoing definition of EBITDA differs from the definition of Consolidated EBITDA used in the financial covenants of our 2007 Credit Facility, our \$253 Million Term Loan Credit Facility, and our \$100 Million Term Loan Credit Facility. Specifically, Consolidated EBITDA substitutes gross interest expense (which includes amortization of deferred financing costs) for net interest expense used in our definition of EBITDA, includes adjustments for restricted stock amortization and non-cash charges for deferred financing costs related to the refinancing of other credit facilities or any non-cash losses from our investment in Jinhui, and excludes extraordinary gains or losses and gains or losses from derivative instruments used for hedging purposes or sales of assets other than inventory sold in the ordinary course of business. The following table demonstrates our calculation of EBITDA and provides a reconciliation of EBITDA to net income attributable to Genco Shipping & Trading Limited for each of the periods presented above:

	For the years ended December 31,				
	2011	2010	2009	2008	2007
Net income attributable to Genco Shipping & Trading Limited	\$ 25,386	\$ 141,243	\$ 148,624	\$ 86,580	\$ 106,809
Net interest expense	86,106	71,965	61,556	50,832	22,996
Income tax expense	1,385	1,840	—	—	—
Depreciation and amortization	136,203	115,663	88,150	71,395	34,378
EBITDA (1)	<u>\$ 249,080</u>	<u>\$ 330,711</u>	<u>\$ 298,330</u>	<u>\$ 208,807</u>	<u>\$ 164,183</u>

## ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### General

We are a Marshall Islands company that transports iron ore, coal, grain, steel products and other drybulk cargoes along worldwide shipping routes through the ownership and operation of drybulk carrier vessels. Excluding Baltic Trading, our fleet currently consists of nine Capesize, eight Panamax, 17 Supramax, six Handymax and 13 Handysize drybulk carriers, with an aggregate carrying capacity of approximately 3,810,000 dwt, and the average age of our fleet is currently 6.8 years, as compared to the average age for the world fleet of approximately 12 years for the drybulk shipping segments in which we compete. Most of the vessels in our fleet are on time charters to well-known charterers, including Lauritzen Bulk,ers, Cargill, Pacbasin, Trafigura, Klaveness and Swissmarine. As of February 21, 2012, 48 of the 53 vessels in our fleet, excluding Baltic Trading, are presently engaged under time charter and spot market-related time charter contracts that expire (assuming the option periods in the time charters are not exercised) between February 2012 and May 2015, and five of our vessels are currently operating in vessel pools. See pages 4-5 for a table indicating the built dates of all vessels currently in our fleet.

In addition, Baltic Trading's fleet currently consists of two Capesize, four Supramax and three Handysize drybulk carriers with an aggregate carrying capacity of approximately 672,000 dwt.

Depending on market conditions, we intend to acquire additional modern, high-quality drybulk carriers through timely and selective acquisitions of vessels in a manner that is accretive to our cash flow. In connection with the acquisitions made during 2007 through 2011 and our growth strategy, we negotiated the 2007 Credit Facility, \$100 Million Term Loan Facility, \$253 Million Term Loan Facility and the 2010 Baltic Trading Credit Facility (each as defined herein) that we have used to acquire vessels. We expect to fund acquisitions of additional vessels using cash reserves set aside for this purpose, additional borrowings and may consider additional debt and equity financing alternatives from time to time.

On June 3, 2010, we entered into an agreement to purchase a total of eight Handysize drybulk vessels, including five newbuildings, from companies within the Metrostar Management Corporation group of companies (“Metrostar”) for an aggregate purchase price of \$266.0 million. Five of these vessels are owned by us and three are owned by Baltic Trading. Additionally, on June 24, 2010, we entered into a Master Agreement with Bourbon SA (“Bourbon”) to purchase 16 drybulk vessels, including two newbuildings, for an aggregate purchase price of \$545.0 million. We retained 13 of the 16 vessels, including one newbuilding, and the remaining three vessels were immediately resold to Maritime Equity Partners LLC (“MEP”), a company managed by a Company owned by our Chairman, Peter C. Georgiopoulos. All eight vessels have been delivered from Metrostar and all 16 vessels have been delivered from Bourbon, three of which were sold to MEP.

In order to fund the acquisition of these vessels, we entered into two senior secured term loan facilities. On August 12, 2010, we entered into a \$100 million senior secured term loan facility (the “\$100 Million Term Loan Facility”) to be utilized to fund or refund to us a portion of the purchase price of the acquisition of five vessels from Metrostar. On August 20, 2010, we entered into a \$253 million senior secured term loan facility (the “\$253 Million Term Loan Facility”) to fund a portion of the purchase price of the acquisition of 13 vessels from Bourbon. The Baltic Trading vessels have been funded utilizing its \$150 million senior secured revolving credit facility (the “2010 Baltic Trading Credit Facility”) for bridge financing.

Our management team and our other employees are responsible for the commercial and strategic management of our fleet. Commercial management includes the negotiation of charters for vessels, managing the mix of various types of charters, such as time charters, voyage charters and spot market-related time charters, and monitoring the performance of our vessels under their charters. Strategic management includes locating, purchasing, financing and selling vessels. We currently contract with three independent technical managers to provide technical management of our fleet at a lower cost than we believe would be possible in-house. Technical management involves the day-to-day management of vessels, including performing routine maintenance, attending to vessel operations and arranging for crews and supplies. Members of our New York City-based management team oversee the activities of our independent technical managers.

From time to time in the current global economic environment, our charterers with long-term time charters may request to renegotiate the terms of our charters with them. As a general matter, we do not agree to make changes to the terms of our charters in response to such requests. The failure of any charterer to meet its obligations under our long-term time charters could have an adverse effect on our results of operations.

We hold an investment in the capital stock of Jinhui Shipping and Transportation Limited (“Jinhui”). Jinhui is a drybulk shipping owner and operator focused on the Supramax segment of drybulk shipping.

Baltic Trading, formerly our wholly-owned subsidiary, completed its initial public offering, or IPO, on March 15, 2010. As of December 31, 2011, our wholly-owned subsidiary Genco Investments LLC owned 5,699,088 shares of Baltic Trading’s Class B Stock, which represents a 25.11% ownership interest in Baltic Trading at December 31, 2011 and 83.41% of the aggregate voting power of Baltic Trading’s outstanding shares of voting stock. Baltic Trading is consolidated as we control a majority of the voting interest in Baltic Trading. Management’s discussion and analysis of our results of operations and financial condition in this section includes the results of Baltic Trading.

We entered into a long-term management agreement (the “Management Agreement”) with Baltic Trading pursuant to which we apply our expertise and experience in the drybulk industry to provide Baltic Trading with commercial, technical, administrative and strategic services. The Management Agreement is for an initial term of approximately 15 years and will automatically renew for additional five-year periods unless terminated in accordance with its terms. Baltic Trading will pay us for the services we provide it as well as reimburse us for our costs and expenses incurred in providing certain of these services. Management fee income we earn from the Management Agreement net of any allocated shared expenses, such as salary, office expenses and other general and administrative fees, will be taxable to us. Upon consolidation with Baltic Trading, any management fee income earned will be eliminated for financial reporting purposes.

We provide technical services for drybulk vessels purchased by MEP under an agency agreement between us and MEP. These services include oversight of crew management, insurance, drydocking, ship operations and financial statement preparation, but do not include chartering services. The services are provided for a fee of \$750 per ship per day plus reimbursement of out-of-pocket costs and will be provided for an initial term of one year. MEP will have the right to cancel provision of services on 60 days’ notice with payment of a one-year termination fee or without a fee upon a change of our control. We may terminate provision of the services at any time on 60 days’ notice. Mr. Georgiopoulos is a minority investor in MEP, and affiliates of Oaktree Capital Management, L.P., of which Stephen A. Kaplan, one of our directors, is a principal, are majority investors in MEP. This arrangement was approved by an independent committee of our Board of Directors.

During the beginning of 2009, the Genco Cavalier, a 2007-built Supramax vessel, was on charter to Samsun Logix Corporation (“Samsun”), when Samsun filed for the equivalent of bankruptcy protection in South Korea, otherwise referred to as a rehabilitation application. On February 5, 2010, the rehabilitation plan submitted by Samsun was approved by the South Korean courts. As part of the rehabilitation process, our claim of approximately \$17.2 million will be settled in the following manner: 34%, or approximately \$5.9 million, will be paid in cash in annual installments on December 30<sup>th</sup> of each year from 2010 through 2019 ranging in percentages from eight to 17; the remaining 66%, or approximately \$11.3 million, converted to Samsun shares at a specified value per share. During the year ended December 31, 2011, we have recorded \$0.5 million as other operating income which represents the portion (9%) of the cash settlement that was due on December 30, 2011. During the year ended December 31, 2010, we have recorded \$0.6 million as other operating income which represents the portion (10%) of the cash settlement which was due on December 30, 2010.

During January 2011, the Genco Success, a 1997-built Handymax vessel, was on charter to Korea Line Corporation (“KLC”) when KLC filed for a rehabilitation application. At December 31, 2011 and 2010, we have limited exposure as a result of the bankruptcy protection filing by KLC. The vessel was redelivered to us by KLC on January 29, 2011. We estimate that we have a claim of approximately \$0.9 million against KLC related primarily to unpaid revenue earned prior to re-delivery of the vessel. If a rehabilitation plan is approved by the South Korean courts and it is determined that we will receive a cash settlement for our outstanding claim, any amounts due from KLC will be recorded once the collectibility of the receivable has been assessed and the amount has been deemed collectible.

## Year ended December 31, 2011 compared to the year ended December 31, 2010

### Factors Affecting Our Results of Operations

We believe that the following table reflects important measures for analyzing trends in our results of operations. The table reflects our ownership days, available days, operating days, fleet utilization, TCE rates and daily vessel operating expenses for the years ended December 31, 2011 and 2010 on a consolidated basis, which includes the operations of Baltic Trading.

	For the years ended December 31,		Increase (Decrease)	% Change
	2011	2010		
<b>Fleet Data:</b>				
<i>Ownership days (1)</i>

Fleet average	4,819	4,852	(33)	(0.7)%

(1) We define ownership days as the aggregate number of days in a period during which each vessel in our fleet has been owned by us. Ownership days are an indicator of the size of our fleet over a period and affect both the amount of revenues and the amount of expenses that we record during a period.

(2) We define available days as the number of our ownership days less the aggregate number of days that our vessels are off-hire due to scheduled repairs or repairs under guarantee, vessel upgrades or special surveys and the aggregate amount of time that we spend positioning our vessels. Companies in the shipping industry generally use available days to measure the number of days in a period during which vessels should be capable of generating revenues.

(3) We define operating days as the number of our available days in a period less the aggregate number of days that our vessels are off-hire due to unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a period during which vessels actually generate revenues.

(4) We calculate fleet utilization by dividing the number of our operating days during a period by the number of our available days during the period. The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels and minimizing the number of days that its vessels are off-hire for reasons other than scheduled repairs or repairs under guarantee, vessel upgrades, special surveys or vessel positioning.

(5) We define TCE rates as net voyage revenue (voyage revenues less voyage expenses) divided by the number of our available days during the period, which is consistent with industry standards. TCE rate is a common shipping industry performance measure used primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charterhire rates for vessels on voyage charters are generally not expressed in per-day amounts while charterhire rates for vessels on time charters generally are expressed in such amounts.

	For the years ended December 31,	
	2011	2010
Voyage revenues (in thousands)	\$ 388,929	\$ 447,438
Voyage expenses (in thousands)	4,457	4,467
	384,472	442,971
Total available days	21,791.0	16,155.2
Total TCE rate	\$ 17,644	\$ 27,419

(6) We define daily vessel operating expenses to include crew wages and related costs, the cost of insurance, expenses relating to repairs and maintenance (excluding drydocking), the costs of spares and consumable stores, tonnage taxes and other miscellaneous expenses. Daily vessel operating expenses are calculated by dividing vessel operating expenses by ownership days for the relevant period.

## Operating Data

The following compares the components of our operating income and net income for the years ended December 31, 2011 and 2010 and certain balance sheet data as of December 31, 2011 and 2010.

	For the years ended December 31,		Increase (Decrease)	% Change
	2011	2010		
<b>Income Statement Data:</b>				
(U.S. dollars in thousands except for per share amounts)				
<i>Revenues:</i>

Total shareholders' equity	1,361,618	1,348,153	13,465	1.0%
<b>Other Data:</b>				
(U.S. dollars in thousands)				
Net cash provided by operating activities	\$ 158,183	\$ 262,680	\$ (104,497)	(39.8)%
Net cash used in investing activities	(133,367)	(870,230)	736,863	(84.7)%
Net cash (used in) provided by financing activities	(67,725)	690,160	(757,885)	(109.8)%
EBITDA (1)	\$ 249,080	\$ 330,711	\$ (81,631)	(24.7)%

- 
- (1) EBITDA represents net income attributable to Genco Shipping & Trading plus net interest expense, taxes and depreciation and amortization. Refer to page 40 included in Item 6 where the use of EBITDA is discussed and for a table demonstrating our calculation of EBITDA that provides a reconciliation of EBITDA to net income attributable to Genco Shipping & Trading for each of the periods presented above.

## Results of Operations

### VOYAGE REVENUES-

Our revenues are driven primarily by the number of vessels in our fleet, the number of days during which our vessels operate and the amount of daily charterhire that our vessels earn, that, in turn, are affected by a number of factors, including:

- the duration of our charters;
- our decisions relating to vessel acquisitions and disposals;
- the amount of time that we spend positioning our vessels;
- the amount of time that our vessels spend in drydock undergoing repairs;
- maintenance and upgrade work;
- the age, condition and specifications of our vessels;
- levels of supply and demand in the drybulk shipping industry; and
- other factors affecting spot market charter rates for drybulk carriers.

During 2011, voyage revenues decreased by \$58.5 million, or 13.1%, as compared to 2010. The decrease in revenue was primarily a result of lower charter rates achieved by the majority of our vessels partially offset by the increase in the size of our fleet and an increase in revenues earned by Baltic Trading's vessels of \$10.9 million.

The average TCE rate of our fleet decreased 35.7% to \$17,644 a day during 2011 from \$27,419 during 2010. The decrease in TCE rates resulted from lower charter rates achieved during 2011 versus 2010 for the majority of the vessels in our fleet.

During 2011, the Baltic Dry Index, or BDI (a drybulk index) went from a low of 1,043 on February 4, 2011 to a high of 2,173 on October 14, 2011. At December 31, 2010, the index was 1,773. In 2012, the index started off at 1,624 on January 3, 2012 and decreased to a low of 660 as of February 7, 2012.

The BDI displayed considerable weakness in the beginning of 2011 due to reduced iron ore cargoes recorded through the celebration of the Chinese New Year, as well as a record level of newbuilding vessel deliveries for January, while continuous pressure was evident through August 2011, primarily due to severe weather in Brazil and Australia affecting cargo availability. A significant rebound was experienced in the remainder of the year with the BDI doubling in value during October 2011. 2012 has started much the same way as 2011, with seasonal factors contributing to the most recent downturn in rates, including: order timing issues for iron ore cargoes related to the celebration of the Chinese New Year; increased deliveries of newbuilding vessels for the month of January as compared to the previous three months; and short-term weather-related issues in Brazil, temporarily reducing iron ore output. Given the fact that a majority of our vessels are chartered at spot market-related rates, we expect that the recent downturn in rates will adversely impact our first quarter 2012 revenues and results of operation. These adverse effects, taken together with potential similar impacts on our swap agreements, our investment in Jinhui and other factors, may reduce our net current assets and equity in the first quarter of 2012.

For 2011 and 2010, we had ownership days of 21,897.5 days and 16,277.6 days, respectively. The increase in ownership days is a result of the delivery of 14 vessels during the third quarter of 2010 and four vessels during the year ended December 31, 2011, as well as a full year of ownership for Baltic Trading's fleet of nine vessels, which were acquired during 2010. Our fleet utilization remained consistent during both periods at 99.2% during 2011 as compared to 99.1% during 2010.

Please see pages 7-12 for table that sets forth information about the current employment of the vessels currently in our fleet as of February 21, 2012.

#### SERVICE REVENUES-

Service revenues consist of revenues earned from providing technical services to MEP pursuant to the agency agreement between us and MEP. These services include oversight of crew management, insurance, drydocking, ship operations and financial statement preparation, but do not include chartering services. The services are provided for a fee of \$750 per ship per day. During the years ended December 31, 2011 and 2010, total service revenue was \$3.3 million and \$1.2 million, respectively. The increase is due to a full year of operation of MEP's fleet during the year ended December 31, 2011.

#### VOYAGE EXPENSES-

In time charters, spot market-related time charters and pool agreements, operating costs including crews, maintenance and insurance are typically paid by the owner of the vessel and specified voyage costs such as fuel and port charges are paid by the charterer. There are certain other non-specified voyage expenses such as commissions which are typically borne by us. Voyage expenses include port and canal charges, fuel (bunker) expenses and brokerage commissions payable to unaffiliated third parties. Port and canal charges and bunker expenses primarily increase in periods during which vessels are employed on voyage charters because these expenses are for the account of the vessel owner. At the inception of a time charter, we record the difference between the cost of bunker fuel delivered by the terminating charterer and the bunker fuel sold to the new charterer as a gain or loss within voyage expenses.

For 2011 and 2010, voyage expenses remained relatively stable at \$4.5 million during both periods and consisted primarily of brokerage commissions paid to third parties.

#### VESSEL OPERATING EXPENSES-

Vessel operating expenses increased by \$26.5 million from \$79.0 million to \$105.5 million primarily due to the operation of a larger fleet. This was primarily a result of the full year of operation of the 14 vessels which were delivered during the third quarter of 2010 as well as the operation of four vessels delivered during the year ended December 31, 2011. Additionally, the increase was due to a full year of operation of Baltic Trading's fleet of 9 vessels that were acquired during 2010, which accounted for \$7.8 million of additional vessel operating expenses during 2011 as compared to the prior year. The increase was also related to higher crew expenses, partially offset by lower insurance and lube expenses during 2011 as compared to 2010.

Average daily vessel operating expenses for our fleet decreased by \$33 per day from \$4,852 during 2010 as compared to \$4,819 in 2011. The decrease in daily vessel operating expenses was due to a decrease in lube and insurance related expenses. We believe daily vessel operating expenses are best measured for comparative purposes over a 12-month period in order to take into account all of the expenses that each vessel in our fleet will incur over a full year of operation.

Our vessel operating expenses, which generally represent fixed costs, will increase as a result of the expansion of our fleet. Other factors beyond our control, some of which may affect the shipping industry in general, including, for instance, developments relating to market prices for crewing, lubes, and insurance, may also cause these expenses to increase.

Based on our management's estimates and budgets provided by our technical manager, we expect our vessels, excluding Baltic Trading vessels, to have average daily vessel operating expenses during 2012 of:

<b>Vessel Type</b>	<b>Average Daily Budgeted Amount</b>
Capesize	\$ 5,900
Panamax	5,300
Supramax	5,200
Handymax	5,000
Handysize	4,800

Based on these average daily budgeted amounts by vessel type, we expect our fleet, excluding Baltic Trading vessels, to have average daily vessel operating expenses of \$5,200 during 2012.

Based on our management's estimates and budgets provided by our technical manager, we expect Baltic Trading's vessels to have average daily vessel operating expenses during 2012 of:

<b>Vessel Type</b>	<b>Average Daily Budgeted Amount</b>
Capesize	\$ 5,900
Supramax	5,400
Handysize	4,800

Based on these average daily budgeted amounts by vessel type, we expect Baltic Trading vessels to have average daily vessel operating expenses of \$5,300 during 2012.

#### GENERAL, ADMINISTRATIVE AND MANAGEMENT FEES-

We incur general and administrative expenses, which relate to our onshore non-vessel-related activities. Our general and administrative expenses include our payroll expenses, including those relating to our executive officers, rent, legal, auditing and other professional expenses. Additionally, we incur management fees to third-party technical management companies for the day-to-day management of our vessels, including performing routine maintenance, attending to vessel operations and arranging for crews and supplies.

General, administrative and management fees increased by \$4.8 million during 2011 as compared to 2010. The increase in general and administrative fees was primarily due to rent expense associated with the lease for the new office space which began effective June 1, 2011 as well as an increase in employee stock based compensation. This increase was also due to the increase in expenses associated with the operation of Baltic Trading, which resulted in \$0.5 million of additional expenses. Refer to Note 19 — Commitments and Contingencies in our consolidated financial statements for further information regarding this lease agreement. Additionally, management fees increased \$2.0 million during 2011 as compared to 2010 due to the operation of a larger fleet. During 2012, the management fees per vessel are expected to be the same as during 2011, or approximately \$0.13 million per vessel.

#### DEPRECIATION AND AMORTIZATION-

We depreciate the cost of our vessels on a straight-line basis over the expected useful life of each vessel. Depreciation is based on the cost of the vessel less its estimated residual value. We estimate the useful life of our vessels to be 25 years. Furthermore, we estimate the residual values of our vessels to be based upon the estimated scrap value of the vessels. Effective January 1, 2011, we increased the estimated scrap value of the vessels from \$175/lwt to \$245/lwt prospectively based on the 15-year average scrap value of steel.

Depreciation and amortization charges increased by \$20.5 million during 2011 as compared to 2010 due to the operation of a larger fleet, including the 14 vessels delivered during the third quarter of 2010 and four vessels delivered during 2011 as well as the nine Baltic Trading vessels delivered during the year ended December 31, 2010, which accounted for \$7.3 million of the increase. Depreciation and amortization charges in 2011 reflected a decrease in depreciation expense of \$2.5 million due to the change in estimated salvage value from \$175 per lightweight ton to \$245 per lightweight ton. Refer to Note 2 — Summary of Significant Accounting Policies in our consolidated financial statements for further information regarding this change.

#### OTHER OPERATING INCOME-

For the years ended December 31, 2011 and 2010, other operating income was \$0.5 million and \$0.8 million, respectively. The decrease is due to \$0.2 million of other operating income recorded during 2010 which represents the payment received from the seller of the Baltic Cougar as a result of the late delivery of the vessel to Baltic Trading. There was no similar other operating income received during 2011.

#### NET INTEREST EXPENSE-

Net interest expense increased by \$14.1 million during 2011 as compared with 2010. Net interest expense during the years ended December 31, 2011 and 2010 consisted of interest expense under our 2007 Credit Facility, \$100 Million Term Loan Facility, \$253 Million Term Loan Facility and Baltic Trading's \$150 million senior secured revolving credit facility as well as interest expense related to the 2010 Notes. Additionally, interest income, unused commitment fees associated with the aforementioned credit facilities as well as the amortization of deferred financing costs related to the aforementioned credit facilities are included in net interest expense during 2011 and 2010. The increase in net interest expense for the year ended December 31, 2011 versus the year ended December 31, 2010 was primarily a result of interest expense incurred on increased borrowings.

## INCOME TAX EXPENSE-

For the year ended December 31, 2011, income tax expense was \$1.4 million as compared to \$1.8 million during the year ended December 31, 2010. This income tax expense consists primarily of federal, state and local income taxes on net income earned by Genco Management (USA) Limited (“Genco (USA)”), one of our wholly-owned subsidiaries. Pursuant to certain agreements, we technically and commercially manage vessels for Baltic Trading, as well as provide technical management of vessels for MEP in exchange for specified fees for these services provided. These services are provided by Genco (USA), which has elected to be taxed as a corporation for United States federal income tax purposes. As such, Genco (USA) is subject to United States federal income tax on its worldwide net income, including the net income derived from providing these services. Refer to the “Income taxes” section of Note 2 — Summary of Significant Accounting Policies included in our consolidated financial statements for further information. The decrease in income tax expense during 2011 as compared to 2010 is a result of additional income earned by Genco (USA) during 2010. This was due to the 1% purchase fee due to Genco (USA) from Baltic Trading pursuant to the Management Agreement related to the delivery of nine vessels during the year ended December 31, 2010. There were no similar transactions during the year ended December 31, 2011. Income tax expense reflected an increase in service revenue earned during 2011 as compared to 2010 due to a full year of technical management fees earned for MEP and Baltic Trading vessels during 2011.

## NET (LOSS) INCOME ATTRIBUTABLE TO NONCONTROLLING INTEREST-

For the years ended December 31, 2011 and 2010, net (loss) income attributable to noncontrolling interest was (\$0.3) million and \$6.2 million, respectively. These amounts represent the net (loss) income attributable to the noncontrolling interest of Baltic Trading, which completed its IPO on March 15, 2010.

## Year ended December 31, 2010 compared to the year ended December 31, 2009

### Factors Affecting Our Results of Operations

We believe that the following table reflects important measures for analyzing trends in our results of operations. The table reflects our ownership days, available days, operating days, fleet utilization, TCE rates and daily vessel operating expenses for the years ended December 31, 2010 and 2009 on a consolidated basis, which includes the operations of Baltic Trading.

	For the years ended December 31,		Increase (Decrease)	% Change

Supramax	20,609	25,845	(5,236)	(20.3)%
Handymax	27,618	27,922	(304)	(1.1)%
Handysize	17,727	18,776	(1,049)	(5.6)%
Fleet average	27,419	31,656	(4,237)	(13.4)%
Daily vessel operating expenses (6)				
Capesize	\$ 5,516	\$ 5,359	157	2.9%
Panamax	5,067	5,126	(59)	(1.2)%
Supramax	4,513	4,876	(363)	(7.4)%
Handymax	4,997	4,569	428	9.4%
Handysize	4,297	4,123	174	4.2%
Fleet average	4,852	4,796	56	1.2%

(1) We define ownership days as the aggregate number of days in a period during which each vessel in our fleet has been owned by us. Ownership days are an indicator of the size of our fleet over a period and affect both the amount of revenues and the amount of expenses that we record during a period.

(2) We define available days as the number of our ownership days less the aggregate number of days that our vessels are off-hire due to scheduled repairs or repairs under guarantee, vessel upgrades or special surveys and the aggregate amount of time that we spend positioning our vessels. Companies in the shipping industry generally use available days to measure the number of days in a period during which vessels should be capable of generating revenues.

(3) We define operating days as the number of our available days in a period less the aggregate number of days that our vessels are off-hire due to unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a period during which vessels actually generate revenues.

(4) We calculate fleet utilization by dividing the number of our operating days during a period by the number of our available days during the period. The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels and minimizing the number of days that its vessels are off-hire for reasons other than scheduled repairs or repairs under guarantee, vessel upgrades, special surveys or vessel positioning.

(5) We define TCE rates as net voyage revenue (voyage revenues less voyage expenses) divided by the number of our available days during the period, which is consistent with industry standards. TCE rate is a common shipping industry performance measure used primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charterhire rates for vessels on voyage charters are generally not expressed in per-day amounts while charterhire rates for vessels on time charters generally are expressed in such amounts.

	For the years ended December 31,	
	2010	2009
Voyage revenues (in thousands)	\$ 447,438	\$ 379,531
Voyage expenses (in thousands)	4,467	5,024
	442,971	374,507
Total available days	16,155.2	11,830.6
Total TCE rate	\$ 27,419	\$ 31,656

(6) We define daily vessel operating expenses to include crew wages and related costs, the cost of insurance, expenses relating to repairs and maintenance (excluding drydocking), the costs of spares and consumable stores, tonnage taxes and other miscellaneous expenses. Daily vessel operating expenses are calculated by dividing vessel operating expenses by ownership days for the relevant period.

## Operating Data

The following compares the components of our operating income and net income for the years ended December 31, 2010 and 2009 and certain balance sheet data as of December 31, 2010 and 2009.

	For the years ended December 31,		Increase	
	2010	2009	(Decrease)	% Change
<b>Income Statement Data:</b>				
(U.S. dollars in thousands except for per share amounts)				
<i>Revenues:</i>				
Voyage revenue	\$ 447,438	\$ 379,531	\$ 67,907	17.9%
Service revenue	1,249	—	1,249	100.0%

<b>Balance Sheet Data:</b>				
(U.S. dollars in thousands, at end of period)				
Cash and cash equivalents	\$ 270,877	\$ 188,267	82,610	43.9%
Total assets	3,182,708	2,336,802	845,906	36.2%
Total debt (current and long-term, including notes payable)	1,746,248	1,327,000	419,248	31.6%
Total shareholders' equity	1,348,153	928,925	419,228	45.1%
<b>Other Data:</b>				
(U.S. dollars in thousands)				
Net cash provided by operating activities	\$ 262,680	\$ 219,729	\$ 42,951	19.5%
Net cash used in investing activities	(870,230)	(306,210)	(564,020)	184.2%
Net cash provided by financing activities	690,160	149,792	540,368	360.7%
EBITDA (1)	\$ 330,711	\$ 298,330	\$ 32,381	10.9%

- 
- (1) EBITDA represents net income attributable to Genco Shipping & Trading plus net interest expense, taxes and depreciation and amortization. Refer to page 40 included in Item 6 where the use of EBITDA is discussed and for a table demonstrating our calculation of EBITDA that provides a reconciliation of EBITDA to net income attributable to Genco Shipping & Trading for each of the periods presented above.

## **Results of Operations**

### **VOYAGE REVENUES-**

For 2010, voyage revenues increased \$67.9 million, or 17.9%, as compared to 2009. The increase in revenues was primarily a result of the increase in the size of our fleet and revenues earned by Baltic Trading's vessels of \$32.6 million offset by lower charter rates achieved for some of our vessels.

The average TCE rate of our fleet decreased \$4,237 a day, or 13.4%, during 2010 as compared to 2009. The decrease in TCE rates was primarily due to lower rates achieved in 2010 versus the prior year as well as the operation of 21 smaller class vessels that we acquired throughout 2010, including vessels acquired by Baltic Trading.

During 2010, the Baltic Dry Index (a drybulk index) went from a high on May 26, 2010 of 4,209 and fell to a low of 1,700 on July 15, 2010. At December 31, 2010, the index was 1,773. The index subsequently decreased to a low of 1,043 on February 4, 2011 and as of March 8, 2011 was trading at 1,424. Seasonal factors contributing to the most recent downturn in rates include severe floods and other weather related issues in Australia, making it hard for coal and iron ore miners to export cargo to Asia; order timing issues for iron ore cargoes related to the celebration of the Chinese New Year; and increased deliveries of newbuilding Capesize vessels during a time of seasonally reduced demand.

For 2010 and 2009, we had ownership days of 16,277.6 days and 11,948.9 days, respectively. The increase in ownership days is a result of the delivery of 15 vessels during the year ended December 31, 2010 as well as the ownership days for Baltic Trading's fleet of nine vessels. Our fleet utilization remained consistent during both periods at 99.1% during 2010 as compared to 99.0% during 2009.

### **SERVICE REVENUES-**

Service revenues consist of revenues earned from providing technical services to MEP pursuant to the agency agreement between us and MEP. These services include oversight of crew management, insurance, drydocking, ship operations and financial statement preparation, but do not include chartering services. The services are provided for a fee of \$750 per ship per day. During the years ended December 31, 2010 and 2009, total service revenue was \$1,249 and \$0, respectively.

### **VOYAGE EXPENSES-**

For the years ended 2010 and 2009, we did not incur port and canal charges or any significant expenses related to the consumption of bunkers as part of our vessels' overall expenses, because all of our vessels were employed under time charters or pool arrangements that required the charterer to bear all of those expenses.

For 2010 and 2009, voyage expenses were \$4.5 million and \$5.0 million, respectively, and consisted primarily of brokerage commissions paid to third parties.

### **VESSEL OPERATING EXPENSES-**

Vessel operating expenses increased by \$21.7 million, primarily due to the operation of a larger fleet. This was primarily a result of the operation of 15 vessels which were delivered during 2010. Additionally, the increase was due to the operation of nine Baltic Trading vessels which were delivered during 2010 which accounted for \$8.2 million of vessel operating expenses during 2010. Additionally, the increase was related to higher crew expenses as well as higher repair costs.

Average daily vessel operating expenses for our fleet increased by \$56 per day during 2010 as compared to 2009. The increase in 2010 was due to slightly higher crew costs on certain of our vessels. We believe daily vessel operating expenses are best measured for comparative purposes over a 12-month period in order to take into account all of the expenses that each vessel in our fleet will incur over a full year of operation.

#### GENERAL, ADMINISTRATIVE AND MANAGEMENT FEES-

General, administrative and management fees increased by \$10.5 million, or 56.7%, during 2010 as compared to 2009. This increase was primarily a result of the operation of Baltic Trading, which resulted in \$5.0 million of additional expenses, as well as the addition of personnel as the fleet expanded. Additionally, management fees increased overall due to a combination of an overall larger fleet as well as an increase in management fees on a per vessel basis.

#### DEPRECIATION AND AMORTIZATION-

Depreciation and amortization charges increased by \$27.5 million during 2010 as compared to 2009 due to the operation of a larger fleet, including the 15 vessels delivered during the year ended December 31, 2010 as well as the nine Baltic Trading vessels delivered during the year ended December 31, 2010, which accounted for \$7.3 million of the increase.

#### OTHER OPERATING INCOME-

For the years ended December 31, 2010 and 2009, other operating income was \$0.8 million and \$0, respectively. The \$0.8 million of other operating income consists primarily of \$0.6 million of income related to the 10% cash settlement due on December 30, 2010 from Samsun pursuant to the rehabilitation process agreed to by the South Korean courts. Refer above to page 46 for further information regarding these bankruptcy proceedings. Additionally, other operating income consists of \$0.2 million which represents the payment received from the seller of the Baltic Cougar as a result of the late delivery of the vessel to Baltic Trading.

#### OTHER (EXPENSE) INCOME-

##### NET INTEREST EXPENSE-

Net interest expense increased by \$10.4 million during 2010 as compared with 2009. Net interest expense during the year ended December 31, 2010 consisted of interest expense under our 2007 Credit Facility, \$100 Million Term Loan Facility, \$253 Million Term Loan Facility and the 2010 Baltic Trading Credit Facility as well as interest expense related to the 2010 Notes. Additionally, interest income, unused commitment fees associated with the credit facilities noted above as well as the amortization of deferred financing costs related to the credit facilities noted above are included in net interest expense during 2010. The increase in net interest expense for the year ended December 31, 2010 versus the year ended December 31, 2009 was primarily a result of borrowing under the additional credit facilities that we entered into during 2010 due to the acquisition of additional vessels during 2010, as well as net interest expense incurred by Baltic Trading, which amounted to \$1.9 million during 2010. Net interest expense during the year ended December 31, 2009 consisted primarily of interest expense under our 2007 Credit Facility as well as unused commitment fees and deferred financing costs related to the 2007 Credit Facility.

#### INCOME TAX EXPENSE-

For the year ended December 31, 2010, income tax expense was \$1.8 million as compared to \$0 during the year ended December 31, 2009. This income tax expense primarily includes federal, state and local income taxes on net income earned by Genco (USA). Pursuant to certain agreements, we technically and commercially manage vessels for Baltic Trading as well as provide technical management of vessels for MEP in exchange for specified fees for these services provided. These services are provided by Genco (USA), which has elected to be taxed as a corporation for United States federal income tax purposes. As such, Genco (USA) is subject to United States federal income tax on its worldwide net income, including the net income derived from providing these services. Refer to the "Income taxes" section of Note 2 — Summary of Significant Accounting Policies included in our consolidated financial statements for further information.

#### NET INCOME ATTRIBUTABLE TO NONCONTROLLING INTEREST-

For the year ended December 31, 2010, net income attributable to noncontrolling interest was \$6.2 million as compared to \$0 during the year ended December 31, 2009. This amount represents the net income attributable to the noncontrolling interest of Baltic Trading, which completed its IPO on March 15, 2010.

## LIQUIDITY AND CAPITAL RESOURCES

To date, we have financed our capital requirements with cash flow from operations, equity offerings, convertible notes and bank debt. We have used our funds primarily to fund vessel acquisitions, regulatory compliance expenditures, the repayment of bank debt and the associated interest expense and the payment of dividends. We will require capital to fund ongoing operations, acquisitions and debt service. Please refer to the discussion under the subheading “Dividend Policy” below for additional information regarding dividends. We also may consider debt and additional equity financing alternatives from time to time. However, if market conditions become negative, we may be unable to raise additional equity capital or debt financing on acceptable terms or at all.

Currently, our wholly-owned subsidiary Genco Investments LLC owns 5,699,088 shares of Baltic Trading’s Class B Stock, which represents a 25.11% ownership interest in Baltic Trading and 83.41% of the aggregate voting power of Baltic Trading’s outstanding shares of voting stock. On April 16, 2010, Baltic Trading entered into a \$100 million senior secured revolving credit facility with Nordea Bank Finland plc, acting through its New York branch (the “2010 Baltic Trading Credit Facility”). The 2010 Baltic Trading Credit Facility was subsequently amended effective November 30, 2010 which increased the borrowing capacity from \$100 million to \$150 million. The amended 2010 Baltic Trading Credit Facility matures on November 30, 2016. Refer to Note 9 — Long-Term Debt of our consolidated financial statements for a description of this facility as well as a description of the amendment entered into effective November 30, 2010. To remain in compliance with a net worth covenant in the 2010 Baltic Trading Credit Facility, Baltic Trading would need to maintain a net worth of \$232.8 million after the payment of any dividends. We do not believe these restrictions have a significant impact on our liquidity.

We entered into two secured term loan facilities during August 2010 in order to fund future vessel acquisitions. On August 12, 2010, we entered into a \$100 million secured term loan facility to fund or refund to us a portion of the purchase price of the acquisition of five vessels from companies within the Metrostar group of companies. Additionally, on August 20, 2010, we entered into a \$253 million senior secured term loan facility to fund a portion of the purchase price of the acquisition of 13 vessels from Bourbon. Refer to Note 9 — Long-Term Debt in our consolidated financial statements for further information regarding these loan facilities.

On July 21, 2010, in two concurrent public offerings, we sold \$125 million aggregate principal amount of the 2010 Notes and 3,593,750 shares of common stock at a purchase price of \$15.28 per share, which reflected a price to the public of \$16.00 per share less underwriting discounts and commissions of \$0.72 per share. Such amounts reflected the exercise in full of the underwriters’ overallotment options. Refer to Note 10 — Convertible Senior Notes of our consolidated financial statements for a summary of the convertible notes payable.

The 2007 Credit Facility, the \$253 Million Term Loan Facility, and the \$100 Million Term Loan Facility each include a maximum leverage ratio covenant limiting the ratio of our net debt to EBITDA to a maximum of 5.5 to 1. We calculate the leverage ratio under our 2007 Credit Facility, \$253 Million Term Loan Facility, and \$100 Million Term Loan Facility by dividing our Average Consolidated Net Indebtedness by our Consolidated EBITDA as defined under these facilities. There is no leverage ratio covenant under the Baltic Trading 2010 Credit Facility. Average Consolidated Net Indebtedness is the monthly average of our indebtedness as defined under the facilities, which at December 31, 2011 consisted of long-term debt, the 2010 Notes, cash and cash equivalents (excluding restricted cash) and the letter of credit issued related to leases. On December 21, 2011, we entered agreements which waived the existing maximum leverage ratio covenant, as well as the consolidated interest ratio, for the three aforementioned credit facilities for a period beginning on October 1, 2011 and ending on (and including) March 31, 2013.

Pursuant to the current terms of the 2007 Credit Facility, the existing collateral maintenance financial covenant is waived, which required us to maintain pledged vessels with a value equal to at least 130% of our current borrowings, and accelerated the reductions of the total facility which began on March 31, 2009. Please read the description of the 2007 Credit Facility in Note 9 Long-Term Debt of our consolidated financial statements for further details. The collateral maintenance covenant is waived until we can represent that we are in compliance with all of our financial covenants. Under the collateral maintenance covenants of our \$253 Million Term Loan Facility, our \$100 Million Term Loan Facility, and the 2010 Baltic Trading Credit Facility, the aggregate valuations of our vessels pledged under each facility must at least be a certain percentage of loans outstanding (or, in the case of the Baltic Trading Credit Facility, the total amount we may borrow), which percentages are 135%, 130%, and 140%, respectively. Under our \$253 Million Term Loan Facility, the amount payable upon early termination of any interest rate swaps under the facility is added to outstanding loans for purposes of this covenant. If our valuations fall below the applicable percentage, we must provide additional acceptable collateral, repay a portion of our borrowings, or (in the case of the 2010 Baltic Trading Credit Facility) permanently reduce the amount we may borrow under the facility to the extent required to restore our compliance with the applicable covenant.

## **Dividend Policy**

Historically, our dividend policy, which commenced in November 2005, has been to declare quarterly distributions to shareholders by each February, May, August and November, substantially equal to our available cash from operations during the previous quarter, less cash expenses for that quarter (principally vessel operating expenses and debt service) and any reserves our Board of Directors determines we should maintain. These reserves covered, among other things, drydocking, repairs, claims, liabilities and other obligations, interest expense and debt amortization, acquisitions of additional assets and working capital. In the future, we may incur other expenses or liabilities that would reduce or eliminate the cash available for distribution as dividends. Under the current terms of the 2007 Credit Facility, we are required to suspend the payment of cash dividends until we can represent that we are in a position to satisfy the collateral maintenance covenant. Refer to Note 9 — Long-Term Debt in our consolidated financial statements for further information regarding the 2009 Amendment. As such, a dividend has not been declared during 2009, 2010 and 2011.

As a result of the 2009 Amendment to the 2007 Credit Facility, we have suspended the payment of cash dividends effective for the fourth quarter of 2008, and payment of cash dividends will remain suspended until we can meet the collateral maintenance covenant contained in the 2007 Credit Facility. In addition, under the terms of the December 2011 Agreements, we are prohibited from paying dividends through March 31, 2013.

The declaration and payment of any dividend is subject to the discretion of our Board of Directors and our compliance with the collateral maintenance covenant, which is currently waived. The timing and amount of dividend payments will depend on our earnings, financial condition, cash requirements and availability, fleet renewal and expansion, restrictions in our loan agreements, the provisions of Marshall Islands law affecting the payment of distributions to shareholders and other factors. Our Board of Directors may review and amend our dividend policy from time to time in light of our plans for future growth and other factors.

We believe that, under current law, our dividend payments from earnings and profits will constitute “qualified dividend income” and, as such, will generally be subject to a 15% U.S. federal income tax rate with respect to non-corporate U.S. shareholders that meet certain holding period and other requirements (through 2012). Distributions in excess of our earnings and profits will be treated first as a non-taxable return of capital to the extent of a U.S. shareholder’s tax basis in its common stock on a dollar-for-dollar basis and, thereafter, as capital gain.

## **Share Repurchase Program**

On February 13, 2008, our Board of Directors approved our share repurchase program for up to a total of \$50.0 million of our common stock. Share repurchases will be made from time to time for cash in open market transactions at prevailing market prices or in privately negotiated transactions. The timing and amount of purchases under the program were determined by management based upon market conditions and other factors. Purchases may be made pursuant to a program adopted under Rule 10b5-1 under the Securities Exchange Act. The program does not require us to purchase any specific number or amount of shares and may be suspended or reinstated at any time in our discretion and without notice. Repurchases under the program are subject to restrictions under the 2007 Credit Facility. The 2007 Credit Facility was amended as of February 13, 2008 to permit the share repurchase program and provide that the dollar amount of shares repurchased is counted toward the maximum dollar amount of dividends that may be paid in any fiscal quarter. Subsequently, on January 26, 2009, we entered into the 2009 Amendment, which amended the 2007 Credit Facility to require us to suspend all share repurchases until we can represent that we are in a position to again satisfy the collateral maintenance covenant. Refer to Note 9 — Long-Term Debt in our consolidated financial statements for further information regarding the 2009 Amendment. Pursuant to the 2009 Amendment, there were no share repurchases made during the twelve months ended December 31, 2011 and 2010. In addition, under the terms of the December 2011 Agreements, we are prohibited from making share repurchases through March 31, 2013.

Since the inception of the share repurchase program through December 31, 2011, we have repurchased and retired 278,300 shares of our common stock for \$11.5 million (average per share purchase price of \$41.32) using funding from cash generated from operations pursuant to its share repurchase program. An additional 3,130 shares of common stock were repurchased from employees for \$0.04 million during 2008 pursuant to our Equity Incentive Plan rather than the share repurchase program. No share repurchases were made during the years ended December 31, 2011 and 2010, and the maximum dollar amount that may yet be purchased under our share repurchase program is \$38,499,962.

## **Cash Flow**

Net cash provided by operating activities for the years ended December 31, 2011 and 2010 was \$158.2 million and \$262.7 million, respectively. The decrease in cash provided by operating activities was primarily due to lower net income for the twelve months of 2011, which resulted primarily from lower charter rates achieved in 2011 versus the prior year for the majority of the

vessels in our fleet. For the year ended December 31, 2011 as compared to the year ended December 31, 2010, the cash flow impact of the lower net income was partially offset by higher depreciation and amortization due to the operation of a larger fleet.

Net cash used in investing activities for the years ended December 31, 2011 and 2010 was \$133.4 million and \$870.2 million, respectively. The decrease was primarily due to fewer funds used for deposits and purchases of vessels during 2011 compared to 2010. For the year ended December 31, 2011, cash used in investing activities primarily related to the purchase of vessels in the amount of \$130.3 million. For the year ended December 31, 2010, cash used in investing activities primarily related to purchases of vessels in the amount of \$971.2 million and deposits on vessels in the amount of \$13.7 million. This was partially offset by proceeds of \$106.6 million related to the back to back sale of three vessels to Maritime Equity Partners LLC.

Net cash used in financing activities was \$67.7 million during the year ended December 31, 2011 as compared to \$690.2 million in net cash provided by financing activities during the year ended December 31, 2010. Cash used in financing activities in 2011 mainly consisted of the following: \$102.5 million repayment of debt under the 2007 Credit Facility, \$26.9 million repayment of debt under the \$253 Million Term Loan Facility, \$8.0 million repayment of debt under the \$100 Million Term Loan Facility, \$4.1 million for payments of deferred financing costs and the \$7.6 million dividend payments of our subsidiary, Baltic Trading Limited, to its outside shareholders. Those uses were partially offset by \$21.5 million of proceeds from the \$253 Million Term Loan Facility related to the Bourbon Vessels acquired and \$60.0 million of proceeds from the \$100 Million Term Loan Facility. For the year ended December 31, 2010, cash provided by financing activities consisted of \$231.5 million of proceeds from the \$253 Million Term Loan Facility, \$40.0 million of proceeds from the \$100 Million Term Loan Facility, \$214.5 million of proceeds from the initial public offering of Baltic Trading Limited, \$125.0 million of proceeds from the issuance of convertible senior notes, \$55.2 million of proceeds from the issuance of common stock and \$101.3 million of proceeds from the 2010 Baltic Trading Credit Facility, partially offset by repayments on the 2007 Credit Facility of \$50.0 million, \$4.7 million repayment of debt under the \$253 Million Term Loan Facility, \$1.1 million repayment of debt under the \$100 Million Term Loan Facility, \$3.7 million for payments of common stock issuance costs, \$11.2 million for payments of deferred financing costs and the \$5.4 million dividend payment of our subsidiary, Baltic Trading Limited, to its outside shareholders.

### **Credit Facilities**

Refer to Note 9 — Long-Term Debt of our consolidated financial statements for a summary of our outstanding credit facilities and a description of the underlying financial and non-financial covenants.

As of December 31, 2011, we believe we are in compliance with all of the financial covenants under our 2007 Credit Facility, as amended; \$100 Million Term Loan Facility, as amended; \$253 Million Term Loan Facility, as amended and the 2010 Baltic Trading Credit Facility.

### **Convertible Notes Payable**

Refer to Note 10 — Convertible Senior Notes of our consolidated financial statements for a summary of the convertible notes payable.

### **Interest Rate Swap Agreements, Forward Freight Agreements and Currency Swap Agreements**

At December 31, 2011, we have eight interest rate swap agreements with DnB NOR Bank to manage interest costs and the risk associated with changing interest rates. The total notional principal amount of the swaps is \$606.2 million and the swaps have specified rates and durations.

Refer to the table in Note 9 — Long-Term Debt of our consolidated financial statements, which summarizes the interest rate swaps in place as of December 31, 2011 and 2010.

We have considered the creditworthiness of both ourselves and the counterparty in determining the fair value of the interest rate derivatives, and such consideration resulted in an immaterial adjustment to the fair value of derivatives on the balance sheet. Valuations prior to any adjustments for credit risk are validated by comparison with counterparty valuations. Amounts are not and should not be identical due to the different modeling assumptions. Any material differences are investigated.

As part of our business strategy, we may enter into arrangements commonly known as forward freight agreements, or FFAs, to hedge and manage market risks relating to the deployment of our existing fleet of vessels. These arrangements may include future contracts, or commitments to perform in the future a shipping service between ship owners, charters and traders. Generally, these arrangements would bind us and each counterparty in the arrangement to buy or sell a specified tonnage freighting commitment “forward” at an agreed time and price and for a particular route. Although FFAs can be entered into for a variety of purposes,

including for hedging, as an option, for trading or for arbitrage, if we decided to enter into FFAs, our objective would be to hedge and manage market risks as part of our commercial management. It is not currently our intention to enter into FFAs to generate a stream of income independent of the revenues we derive from the operation of our fleet of vessels. If we determine to enter into FFAs, we may reduce our exposure to any declines in our results from operations due to weak market conditions or downturns, but may also limit our ability to benefit economically during periods of strong demand in the market. We have not entered into any FFAs as of December 31, 2011 and 2010.

## Interest Rates

The effective interest rate associated with the interest expense for our various debt facilities (2007 Credit Facility, \$100 Million Term Loan Facility, \$253 Million Term Loan Facility and the 2010 Baltic Trading Credit Facility), including the rate differential between the pay fixed receive variable rate on the interest rate swap agreements that were in effect, combined, and the cost associated with unused commitment fees was 4.42% and 4.64% during 2011 and 2010, respectively. The interest rate on the debt, excluding impact of swaps and the unused commitment fees, ranged from 2.19% to 3.52% and from 2.25% to 3.60% for 2011 and 2010, respectively. The effective interest rate associated with the liability component of the 2010 Notes was 9.9% during both 2011 and 2010.

## Contractual Obligations

The following table sets forth our contractual obligations and their maturity dates as of December 31, 2011. The table incorporates the employment agreement entered into in September 2007 with our Chief Financial Officer, John Wobensmith. The interest and borrowing fees reflect the 2007 Credit Facility, the 2010 Baltic Trading Credit Facility, as amended, the \$100 Million Term Loan Facility, the \$253 Million Term Loan Facility and the 2010 Notes utilizing the coupon rate of 5% which were issued on July 27, 2010 and the interest rate swap agreements as discussed above under “Interest Rate Swap Agreements, Forward Freight Agreements and Currency Swap Agreements.” The following table also incorporates the future lease payments associated with the current lease agreement as well as the new lease agreement entered into effective April 4, 2011. Refer to Note 19 — Commitments and Contingencies in our consolidated financial statements for further information regarding the terms of the current and new lease agreements.

	Total	Less Than One Year	One to Three Years	Three to Five Years	More than Five Years
			(U.S. dollars in thousands)		
Credit Agreements	\$ 1,588,012	\$ 185,077	\$ 441,545	\$ 662,688	\$ 298,702
2010 Notes	125,000	—	—	125,000	—
Interest and borrowing fees	277,418	87,550	126,059	57,531	6,278
Executive employment agreement	338	338	—	—	—
Office leases	27,291	1,500	2,999	3,192	19,600
Totals	\$ 2,018,059	\$ 274,465	\$ 570,603	\$ 848,411	\$ 324,580

Interest expense has been estimated using the fixed hedge rate for the effective period and notional amount of the debt which is effectively hedged and 0.3125% for the portion of the debt that has no designated swap against it, plus the applicable bank margin of 2.00% for the 2007 Credit Facility and 3.00% for the \$100 Million Term Loan Facility, \$253 Million Term Loan Facility and the amended 2010 Baltic Trading Credit Facility. Interest expense in the table above reflects repayment of \$12.5 million on the Company’s 2007 Credit Facility on January 3, 2012. We are obligated to pay certain commitment fees in connection with all of our credit facilities, which have been reflected within interest and borrowing fees. These commitment fees include the facility fee for the 2007 Credit Facility which represents 2.0% per annum on the average daily outstanding principal amount of the outstanding loans under the facility. These fees were included in the amendment to the 2007 Credit Facility entered into effective December 21, 2011. Refer to Note 9 — Long-Term Debt in our consolidated financial statements for further information regarding this amendment.

## Capital Expenditures

We make capital expenditures from time to time in connection with our vessel acquisitions. Excluding Baltic Trading’s vessels, our fleet currently consists of nine Capesize drybulk carriers, eight Panamax drybulk carriers, 17 Supramax drybulk carriers, six Handymax drybulk carriers and 13 Handysize drybulk carriers. Baltic Trading’s fleet currently consists of two Capesize drybulk carriers, four Supramax drybulk carriers and three Handysize drybulk carriers.

In addition to acquisitions that we may undertake in future periods, we will incur additional capital expenditures due to special surveys and drydockings. We estimate our drydocking costs and scheduled off-hire days for our fleet through 2013 to be:

Year	Estimated Drydocking Cost (U.S. dollars in millions)	Estimated Off-hire Days
2012	\$ 10.7	340
2013	\$ 4.3	120

The costs reflected are estimates based on drydocking our vessels in China. We estimate that each drydock will result in 20 days of off-hire. Actual costs will vary based on various factors, including where the drydockings are actually performed. We expect to fund these costs with cash from operations.

During 2011, we incurred a total of \$4.0 million of drydocking costs.

During 2010, we incurred a total of \$3.7 million of drydocking costs.

We estimate that 17 of our vessels will be drydocked during 2012 and an additional 6 vessels in 2013.

### Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

### Inflation

Inflation has only a moderate effect on our expenses given current economic conditions. In the event that significant global inflationary pressures appear, these pressures would increase our operating, voyage, general and administrative, and financing costs.

### CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of those financial statements requires us to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions and conditions.

Critical accounting policies are those that reflect significant judgments of uncertainties and potentially result in materially different results under different assumptions and conditions. We have described below what we believe are our most critical accounting policies, because they generally involve a comparatively higher degree of judgment in their application. For a n additional description of our significant accounting policies, see Note 2 to our consolidated financial statements included in this 10-K.

#### Time Charters Acquired

When a vessel is acquired with an existing time charter, we allocate the purchase price of the vessel and the time charter based on, among other things, vessel market valuations and the present value (using an interest rate which reflects the risks associated with the acquired charters) of the difference between (i) the contractual amounts to be paid pursuant to the charter terms and (ii) management's estimate of the fair market charter rate, measured over a period equal to the remaining term of the charter. The capitalized above-market (assets) and below-market (liabilities) charters are amortized as a reduction or increase, respectively, to voyage revenues over the remaining term of the charter.

During the year ended December 31, 2011, we acquired two Handysize vessels from Metrostar that had existing below market time charters at the time that we agreed to acquire these vessels. We recorded a liability for time charters acquired related to these two vessels in the amount of \$0.6 million based on the present value of the difference between the contractual amounts to be paid and our estimated of the fair market charter rate. In order to calculate the present value, we utilized a discount rate of 12%. If we utilized a discount rate of 9% as compared to 12%, it would result in an increase in the liability balance of approximately nine thousand dollars. If we utilized a discount rate of 15% as compared to 12%, it would result in a decrease in the liability balance of approximately nine thousand dollars.

During the year ended December 31, 2010, we acquired two Supramax vessels from Bourbon and two Handysize vessels from Metrostar that had existing below market time charters at the time that we agreed to acquire these vessels. We recorded a liability for time charters acquired related to these five vessels in the amount of \$2.1 million based on the present value of the difference between the contractual amounts to be paid and our estimate of the fair market charter rate. In order to calculate the present

value, we utilized a discount rate of 12%. If we utilized a discount rate of 9% as compared to 12%, it would result in an increase in the liability balance of approximately thirty-five thousand dollars. If we utilized a discount rate of 15% as compared to 12%, it would result in a decrease in the liability balance of approximately thirty-three thousand dollars.

#### Performance Claims

Revenue is based on contracted charterparties, including spot-market related time charters which rates fluctuate based on changes in the spot market. However, there is always the possibility of dispute over terms and payment of hires and freights. In particular, disagreements may arise as to the responsibility of lost time and revenue due to us as a result. Additionally, there are certain performance parameters included in contracted charterparties which if not met, can result in customer claims. Accordingly, we periodically assess the recoverability of amounts outstanding and estimate a provision if there is a possibility of non-recoverability. At each balance sheet date, we provide a provision based on a review of all outstanding charter receivables and we also will accrue for any estimated customer claims primarily a result of time charter performance issues that have not yet been deducted by the charterer. We provide for reserves which offset the due from charterers balance if a disputed amount or performance claim has been deducted by the charterer. If a disputed amount or potential performance claim has not been deducted by the charterer, we record the estimated customer claims as deferred revenue. Providing for these reserves will be offset by a decrease in revenue. Although we believe its provisions to be reasonable at the time they are made, it is possible that an amount under dispute is not ultimately recovered and the estimated provision for doubtful accounts is inadequate.

#### Vessels and Depreciation

We record the value of our vessels at their cost (which includes acquisition costs directly attributable to the vessel and expenditures made to prepare the vessel for its initial voyage) less accumulated depreciation. We depreciate our drybulk vessels on a straight-line basis over their estimated useful lives, estimated to be 25 years from the date of initial delivery from the shipyard. Depreciation is based on cost less the estimated residual scrap value. Effective January 1, 2011, we increased the estimated scrap value of the vessels from \$175/lwt to \$245/lwt prospectively based on the 15-year average scrap value of steel. This increase in the residual value of the vessels will decrease the annual depreciation charge over the remaining useful life of the vessel. During the year ended December 31, 2011, the increase in the estimated scrap value resulted in a decrease in depreciation expense of approximately \$2.5 million. Similarly, an increase in the useful life of a drybulk vessel would also decrease the annual depreciation charge. Comparatively, a decrease in the useful life of a drybulk vessel or in its residual value would have the effect of increasing the annual depreciation charge. However, when regulations place limitations over the ability of a vessel to trade on a worldwide basis, we will adjust the vessel's useful life to end at the date such regulations preclude such vessel's further commercial use.

The carrying value each of our vessels does not represent the fair market value of such vessel or the amount we could obtain if we were to sell any of our vessels, which could be more or less. Under U.S. GAAP, we would not record a loss if the fair market value of a vessel (excluding its charter) is below our carrying value unless and until we determine to sell that vessel or the vessel is impaired as discussed below under "Impairment of long-lived assets." Excluding the three Bourbon vessels we resold immediately upon delivery to MEP at our cost, we have sold three of our vessels since our inception and realized a profit in each instance. However, we did determine to cancel an acquisition of six drybulk newbuildings in November 2008, incurring a \$53.8 million loss from the forfeiture of our deposit and related interest.

Pursuant to our bank credit facilities, we regularly submit to the lenders valuations of our vessels on an individual charter free basis in order to evidence our compliance with the collateral maintenance covenants under our bank credit facilities. Such a valuation is not necessarily the same as the amount any vessel may bring upon sale, which may be more or less, and should not be relied upon as such. We were in compliance with the collateral maintenance covenants under our \$100 Million Term Loan Facility and our \$253 Million Term Loan Facility, as well as the 2010 Baltic Trading Credit Facility, at December 31, 2011, and the collateral maintenance covenant under our 2007 Credit Facility was waived at December 31, 2011, as discussed above. In the chart below, we list each of our vessels, the year it was built, the year we acquired it, and its carrying value at December 31, 2011. At December 31, 2011, the vessel valuations of all of our vessels for covenant compliance purposes under our bank credit facilities as of the most recent compliance testing date were lower than their carrying values at December 31, 2011. For the Genco Ocean, Genco Bay, Genco Avra and Genco Spirit, the last compliance testing date prior to December 31, 2011 was August 17, 2011, in accordance with the terms of the \$100 Million Term Loan Facility; for all other vessels, the compliance testing date was December 31, 2011, in accordance with the terms of the applicable credit facility.

The amount by which the carrying value at December 31, 2011 of all of the vessels in our fleet exceeded the valuation of such vessels for covenant compliance purposes ranged, on an individual vessel basis, from \$2.2 million to \$73.8 million per vessel. The average amount by which the carrying value of these vessels exceeded the valuation of such vessels for covenant compliance purposes was \$19.6 million. However, neither such valuation nor the carrying value in the table below reflects the value of long-term time charters related to some of our vessels, which can be significant.

Vessels	Year Built	Year Acquired	Carrying Value (U.S. Dollars in thousands)

#### Deferred drydocking costs

Our vessels are required to be drydocked approximately every 30 to 60 months for major repairs and maintenance that cannot be performed while the vessels are operating. We capitalize the costs associated with drydockings as they occur and amortize these costs on a straight-line basis over the period between drydockings. Deferred drydocking costs include actual costs incurred at the drydock yard; cost of travel, lodging and subsistence of our personnel sent to the drydocking site to supervise; and the cost of hiring a third party to oversee the drydocking. We believe that these criteria are consistent with U.S. GAAP guidelines and industry practice and that our policy of capitalization reflects the economics and market values of the vessels. Costs that are not related to drydocking are expensed as incurred. If the vessel is drydocked earlier than originally anticipated, any remaining deferred drydock costs that have not been amortized are expensed at the beginning of the next drydock.

#### Impairment of long-lived assets

We follow the Accounting Standards Codification (“ASC”) subtopic 360-10, Property, Plant and Equipment (“ASC 360-10”) which requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than their carrying amounts. If indicators of impairment are present, we perform an analysis of the anticipated undiscounted future net cash flows to be derived from the related long-lived assets.

The current economic and market conditions, including the significant disruptions in the global credit markets, are having broad effects on participants in a wide variety of industries. Since mid-August 2008, the charter rates in the dry bulk charter market have declined significantly, and drybulk vessel values have also declined both as a result of a slowdown in the availability of global credit and the significant deterioration in charter rates.

When indicators of impairment are present and our estimate of undiscounted future cash flows for any vessel is lower than the vessel’s carrying value, the carrying value is written down, by recording a charge to operations, to the vessel’s fair market value if the fair market value is lower than the vessel’s carrying value. We noted that TCE revenues across its fleet were lower on average in 2011 compared with 2010. Our management views the lower TCE rates in 2011 as part of a longer term economic cycle.

We concluded at December 31, 2011 that the future income streams expected to be earned by such vessels over their remaining operating lives on an undiscounted basis would be sufficient to recover their carrying values and that, accordingly, our vessels were not impaired under U.S. GAAP. Our estimated future undiscounted cash flows exceeded each of our vessels’ carrying values by a considerable margin (28% - 325% of carrying value). Our vessels remain fully utilized and have a relatively long average remaining useful life of approximately 6.7 years in which to recover sufficient cash flows on an undiscounted basis to recover their

carrying values as of December 31, 2011. Management will continue to monitor developments in charter rates in the markets in which it participates with respect to the expectation of future rates over an extended period of time that are utilized in the analyses.

In developing estimates of future undiscounted cash flows, we make assumptions and estimates about the vessels' future performance, with the significant assumptions being related to charter rates, fleet utilization, vessels' operating expenses, vessels' capital expenditures and drydocking requirements, vessels' residual value and the estimated remaining useful life of each vessel. The assumptions used to develop estimates of future undiscounted cash flows are based on historical trends. Specifically, we utilize the rates currently in effect for the duration of their current time charters, without assuming additional profit sharing. For periods of time where our vessels are not fixed on time charters, we utilize an estimated daily time charter equivalent for our vessels' unfixed days based on the most recent ten year historical one year time charter average. Actual equivalent drybulk shipping rates are currently lower than the estimated rate. We believe current rates have been driven by short term disruptions or seasonal issues as discussed under "Management's Discussion and Analysis —Results of Operations—Voyage Revenues."

The projected net operating cash flows are determined by considering the future charter revenues from existing time charters for the fixed fleet days and an estimated daily time charter equivalent for the unfixed days over the estimated remaining life of the vessel, assumed to be 25 years from the delivery of the vessel from the shipyard, reduced by brokerage commissions, expected outflows for vessels' maintenance and vessel operating expenses (including planned drydocking and special survey expenditures) and capital expenditures adjusted annually for inflation, assuming fleet utilization of 98%. The salvage value used in the impairment test is estimated to be \$245 per light weight ton, consistent with our vessels' depreciation policy discussed above.

Although we believe that the assumptions used to evaluate potential impairment are reasonable and appropriate, such assumptions are highly subjective. There can be no assurance as to how long charter rates and vessel values will remain at their currently low levels or whether they will improve by any significant degree. Charter rates may remain at depressed levels for some time, which could adversely affect our revenue and profitability, and future assessments of vessel impairment.

### Investments

We hold an investment in the capital stock of Jinhui Shipping and Transportation Limited ("Jinhui"). Jinhui is a drybulk shipping owner and operator focused on the Supramax segment of drybulk shipping. This investment is designated as available-for-sale and is reported at fair value, with unrealized gains and losses recorded in shareholders' equity as a component of AOCI. We classify the investment as a current or noncurrent asset based on our intent to hold the investment at each reporting date.

Investments are reviewed quarterly to identify possible other-than-temporary impairment in accordance ASC Subtopic 320-10, "Investments — Debt and Equity Securities" ("ASC 320-10"). When evaluating the investments, we review factors such as the length of time and extent to which fair value has been below the cost basis, the financial condition of the issuer, the underlying net asset value of the issuer's assets and liabilities, and our ability and intent to hold the investment for a period of time which may be sufficient for anticipated recovery in market value. Should the decline in the value of any investment be deemed to be other-than-temporary, the investment basis would be written down to fair market value, and the write-down would be recorded to earnings as a loss. Investments that are not expected to be sold within the next year are classified as noncurrent.

During the fourth quarter of 2008, our investment in Jinhui was deemed to be other-than-temporarily impaired due to the severity of the decline in its market value versus our cost basis. We recorded a \$103.9 million impairment loss during 2008 which was reclassified from the statement of equity and recorded as a loss in the income statement. We will continue to evaluate the investment on a quarterly basis to determine the likelihood of any further significant adverse effects on the fair value and amount of any additional impairment. In the event we determine that the Jinhui investment is subject to any additional other-than-temporary impairment, the amount of the impairment would be reclassified from the statement of equity and recorded as a loss in the income statement for the amount of the impairment.

### Fair value of financial instruments

The estimated fair values of our financial instruments such as amounts due to / due from charterers, accounts payable and long-term debt approximate their individual carrying amounts as of December 31, 2011 and December 31, 2010 due to their short-term maturity or the variable-rate nature of the respective borrowings under the credit facilities.

The fair value of the interest rate swaps is the estimated amount we would receive to terminate these agreements at the reporting date, taking into account current interest rates and the creditworthiness of the counterparty for assets and creditworthiness of us for liabilities. See Note 13 - Fair Value of Financial Instruments in our consolidated financial statements for additional disclosure on the fair values of long term debt, derivative instruments, 2010 Notes and available-for-sale securities.

For the interest rate swaps that are not designated as an effective hedge, the change in the value and the rate differential to be paid or received is recognized as other expense and is listed as a component of other (expense) income.

## **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

### **Interest rate risk**

We are exposed to the impact of interest rate changes. Our objective is to manage the impact of interest rate changes on our earnings and cash flow in relation to our borrowings. We held eight and ten interest rate swap agreements with DnB NOR Bank at December 31, 2011 and 2010, respectively, to manage future interest costs and the risk associated with changing interest rates. The total notional principal amount of the swaps is \$606.2 million and \$756.2 million, respectively, and the swaps have specified rates and durations. Refer to the table in Note 11 — Interest Rate Swap Agreements of our consolidated financial statements which summarizes the interest rate swaps in place as of December 31, 2011 and 2010.

The swap agreements, with effective dates prior to December 31, 2011 synthetically convert variable rate debt to fixed rate debt at the fixed interest rate of swap plus the Applicable Margin as discussed in the “2007 Credit Facility” section of Note 9 — Long-Term Debt of our consolidated financial statements.

The total liability associated with the swaps at December 31, 2011 is \$25.3 million and \$43.3 million at December 31, 2010, and are presented as the fair value of derivatives on the balance sheet. As of December 31, 2011 and 2010, we have accumulated other comprehensive deficit of (\$25.2) million and (\$43.2) million, respectively, related to the effectively hedged portion of the swaps. Hedge ineffectiveness associated with the interest rate swaps resulted in other income (expense) of \$0.1 million and during 2011 and 2010. At December 31, 2011, (\$12.3) million of AOCI is expected to be reclassified into income over the next 12 months associated with interest rate derivatives.

We are subject to market risks relating to changes in LIBOR rates because we have significant amounts of floating rate debt outstanding. For the year ended December 31, 2011, we paid LIBOR plus 2.00% on the 2007 Credit Facility for the debt in excess of any designated swap’s notional amount for such swap’s effective period. Effective December 21, 2011, we are also subject to a facility fee of 2.00% per annum on the average daily outstanding principal amount of the outstanding loan under the 2007 Credit Facility pursuant to the amendment entered into with our lenders under this facility which will be reduced to 1.0% if we consummate an equity offering resulting in an aggregate amount \$50.0 million of gross proceeds. We also paid LIBOR plus 3.00% on the outstanding debt under the \$100 Million Term Loan Facility, \$253 Million Term Loan Facility and the 2010 Baltic Trading Credit Facility. A 1% increase in LIBOR would result in an increase of \$9.5 million in interest expense for the year ended December 31, 2011, considering the increase would be only on the unhedged portion of the debt.

### **Derivative financial instruments**

As of December 31, 2011, we held eight interest rate swap agreements that we entered into with DnB NOR Bank to manage interest costs and the risk associated with changing interest rates. The total notional principal amount of the swaps is \$606.2 million, and the swaps have specified rates and durations. Refer to the table in Note 9 — Long-Term Debt of our consolidated financial statements which summarized the interest rate swaps in place as of December 31, 2011 and December 31, 2010.

The differential to be paid or received for these swap agreements is recognized as an adjustment to interest expense as incurred. The interest rate differential pertaining to the interest rate swaps for the years ended December 31, 2011 and 2010 was \$28.9 million and \$30.2 million, respectively. We are currently utilizing cash flow hedge accounting for the swaps whereby the effective portion of the change in value of the swaps is reflected as a component of AOCI. The ineffective portion is recognized as other (expense) income, which is a component of other (expense) income. If for any period of time we did not designate the swaps for hedge accounting, the change in the value of the swap agreements prior to designation would be recognized as other (expense) income.

Amounts receivable or payable arising at the settlement of hedged interest rate swaps are deferred and amortized as an adjustment to interest expense over the period of interest rate exposure provided the designated liability continues to exist. Amounts receivable or payable arising at the settlement of unhedged interest rate swaps are reflected as other (expense) income and are listed as a component of other (expense) income.

Refer to the “Interest rate risk” section above for further information regarding the interest rate swap agreements.

## Currency and exchange rate risk

The international shipping industry's functional currency is the U.S. Dollar. Virtually all of our revenues and most of our operating costs are in U.S. Dollars. We incur certain operating expenses in currencies other than the U.S. Dollar, and the foreign exchange risk associated with these operating expenses is immaterial.

As part of our business strategy, in the future, we may enter into short-term forward currency contracts to protect ourselves from the risk arising from the fluctuation in the exchange rate associated with the cost basis of Jinhui shares.

## Investments

We hold investments in Jinhui of \$24.5 million which are classified as available for sale ("AFS") under Accounting Standards Codification 320-10, "Investments — Debt and Equity Securities" ("ASC 320-10"). The investment is classified as a current or noncurrent asset based on our intent to hold the investment at each reporting date. The investments that are classified as AFS are subject to risk of changes in market value, which if determined to be impaired (other than temporarily impaired), could result in realized impairment losses. We review the carrying value of such investments on a quarterly basis to determine if any valuation adjustments are appropriate under ASC 320-10. During 2008, we reviewed the investment in Jinhui for indicators of other-than-temporary impairment. This determination required significant judgment. In making this judgment, we evaluated, among other factors, the duration and extent to which the fair value of the investment is less than its cost; the general market conditions, including factors such as industry and sector performance, and our intent and ability to hold the investment. Our investment in Jinhui was deemed to be other-than-temporarily impaired at December 31, 2008 due to the severity of the decline in its market value versus our cost basis. We will continue to evaluate the investment on a quarterly basis to determine the likelihood of any further significant adverse effects on the fair value and amount of any additional impairment. For the years ended December 31, 2011 and 2010, we have not deemed our investment to be impaired. In the event we determine that the Jinhui investment is subject to any additional impairment, the amount of the impairment would be reclassified from AOCI and recorded as a loss in the Consolidated Statement of Operations for the amount of the impairment.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of  
Genco Shipping & Trading Limited  
New York, New York

We have audited the accompanying consolidated balance sheets of Genco Shipping & Trading Limited and subsidiaries (the “Company”) as of December 31, 2011 and 2010, and the related consolidated statements of operations, equity, comprehensive income and cash flows for each of the three years in the period ended December 31, 2011. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Genco Shipping & Trading Limited and subsidiaries at December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 22, 2012 expressed an unqualified opinion on the Company’s internal control over financial reporting.

Notes to Consolidated Financial Statements for the Years Ended December 31, 2011, 2010 and 2009

**1 - GENERAL INFORMATION**

The accompanying consolidated financial statements include the accounts of Genco Shipping & Trading Limited (“GS&T”), its wholly owned subsidiaries, and its subsidiary, Baltic Trading Limited (collectively, the “Company”). The Company is engaged in the ocean transportation of drybulk cargoes worldwide through the ownership and operation of drybulk carrier vessels. GS&T is incorporated under the laws of the Marshall Islands and as of December 31, 2011 is the sole owner of all of the outstanding shares of the following subsidiaries: Genco Ship Management LLC; Genco Investments LLC; Genco Management (USA) Limited; and the ship-owning subsidiaries as set forth below.

At December 31, 2011, 2010 and 2009, GS&T’s fleet consisted of 53, 49 and 35 vessels, respectively.

Below is the list of GS&T’s wholly owned ship-owning subsidiaries as of December 31, 2011:

During October 2009, Baltic Trading Limited (“Baltic Trading”) filed a registration statement on Form S-1 with the U.S. Securities and Exchange Commission (“SEC”). Baltic Trading was incorporated in October 2009 in the Marshall Islands for the purpose of conducting a shipping business focused on the drybulk industry spot market. Baltic Trading was a wholly-owned indirect subsidiary of GS&T until Baltic Trading completed its initial public offering, or IPO, on March 15, 2010. As of December 31, 2011, Genco Investments LLC owned 5,699,088 shares of Baltic Trading’s Class B Stock, which represented a 25.11% ownership interest in Baltic Trading and 83.41%. As of December 31, 2010, GS&T’s wholly-owned subsidiary Genco Investments LLC owned 5,699,088 shares of Baltic Trading’s Class B Stock, which represented a 25.24% ownership interest in Baltic Trading and 83.51% of the aggregate voting power of Baltic Trading’s outstanding shares of voting stock. Additionally, pursuant to the subscription agreement between Genco Investments LLC and Baltic Trading, for so long as GS&T directly or indirectly holds at least 10% of the aggregate number of outstanding shares of Baltic Trading’s common stock and Class B stock, Genco Investments LLC will be entitled to receive an additional number of shares of Baltic Trading’s Class B stock equal to 2% of the number of common shares issued in the future, other than shares issued under Baltic Trading’s 2010 Equity Incentive Plan.

Below is the list of Baltic Trading’s wholly owned ship-owning subsidiaries as of December 31, 2011:

<b>Baltic Trading’s Wholly Owned Subsidiaries</b>	<b>Vessel</b>	<b>Dwt</b>	<b>Delivery Date</b>	<b>Year Built</b>
Baltic Leopard Limited	Baltic Leopard	53,447	4/8/10	2009
Baltic Panther Limited	Baltic Panther	53,351	4/29/10	2009
Baltic Cougar Limited	Baltic Cougar	53,432	5/28/10	2009

Baltic Wind Limited	Baltic Wind	34,409	8/4/10	2009
Baltic Cove Limited	Baltic Cove	34,403	8/23/10	2010
Baltic Breeze Limited	Baltic Breeze	34,386	10/12/10	2010

The Company provides technical services for drybulk vessels purchased by Maritime Equity Partners (“MEP”), which is managed by a company owned by Peter C. Georgiopoulos, Chairman of the Board of Directors of GS&T. These services include oversight of crew management, insurance, drydocking, ship operations and financial statement preparation, but do not include chartering services. The services are provided for a fee of \$750 per ship per day plus reimbursement of out-of-pocket costs and will be provided for an initial term of one year. MEP has the right to cancel provision of services on 60 days’ notice with payment of a one-year termination fee upon a change in control of the Company. The Company may terminate provision of the services at any time on 60 days’ notice. Peter C. Georgiopoulos, the Company’s Chairman of the Board, is a minority investor in MEP, and affiliates of Oaktree Capital Management, L.P., of which Stephen A. Kaplan, a director of the Company, is a principal, are majority investors in MEP.

On July 27, 2010, the Company closed on an equity offering of 3,593,750 shares of common stock (with the exercise of the underwriters’ over-allotment option) at an offering price of \$16.00 per share. The Company received net proceeds of \$54,882 after deducting underwriters’ fees and expenses. This offering was done concurrently with the issuance of \$125,000 aggregate principal

amount (with the exercise of the underwriters' over-allotment option) of the 5.00% Convertible Senior Notes due August 15, 2015. Refer to Note 10 — Convertible Senior Notes for further information.

Mr. Georgiopoulos is the sole member of the Management Committee of Fleet Acquisition LLC, which currently retains 443,606 shares of the Company's common stock of which Mr. Georgiopoulos may be deemed to be the beneficial owner. As a result of the foregoing transaction in addition to grants of nonvested shares made to Mr. Georgiopoulos, Mr. Georgiopoulos may be deemed to beneficially own 12.66% of the Company's common stock (including shares held through Fleet Acquisition LLC) at December 31, 2011.

## 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Principles of consolidation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which include the accounts of GS&T, its wholly owned subsidiaries and Baltic Trading, a subsidiary in which the Company owns a majority of the voting interests and exercises control. All intercompany accounts and transactions have been eliminated in consolidation.

### Business geographics

The Company's vessels regularly move between countries in international waters, over hundreds of trade routes and, as a result, the disclosure of geographic information is impracticable.

### Vessel acquisitions

When the Company enters into an acquisition transaction, it determines whether the acquisition transaction was the purchase of an asset or a business based on the facts and circumstances of the transaction. As is customary in the shipping industry, the purchase of a vessel is normally treated as a purchase of an asset as the historical operating data for the vessel is not reviewed nor is material to the Company's decision to make such acquisition.

When a vessel is acquired with an existing time charter, the Company allocates the purchase price to the vessel and the time charter based on, among other things, vessel market valuations and the present value (using an interest rate which reflects the risks associated with the acquired charters) of the difference between (i) the contractual amounts to be paid pursuant to the charter terms and (ii) management's estimate of the fair market charter rate, measured over a period equal to the remaining term of the charter. The capitalized above-market (assets) and below-market (liabilities) charters are amortized as a reduction or increase, respectively, to revenues over the remaining term of the charter.

### Segment reporting

The Company has two operating segments, GS&T and Baltic Trading, which are both engaged in the ocean transportation of drybulk cargoes worldwide through the ownership and operation of drybulk carrier vessels. Refer to Note 3 — Segment Information for further information.

### Revenue and voyage expense recognition

Since the Company's inception, revenues have been generated from time charter agreements, pool agreements and spot market-related time charters. A time charter involves placing a vessel at the charterer's disposal for a set period of time during which the charterer may use the vessel in return for the payment by the charterer of a specified daily hire rate, including any ballast bonus payments received pursuant to the time charter agreement. Spot market-related time charters are the same as other time charter agreements, except the time charter rates are variable and are based on a percentage of the average daily rates as published by the Baltic Dry Index. In time charters, spot market-related time charters and pool agreements, operating costs including crews, maintenance and insurance are typically paid by the owner of the vessel and specified voyage costs such as fuel and port charges are paid by the charterer. There are certain other non-specified voyage expenses such as commissions which are typically borne by the Company. At the inception of a time charter, the Company records the difference between the cost of bunker fuel delivered by the terminating charterer and the bunker fuel sold to the new charterer as a gain or loss within voyage expenses. These differences in bunkers resulted in net gains of \$2,653, \$1,743 and \$283 during the years ended December 31, 2011, 2010 and 2009, respectively.

The Company records time charter revenues over the term of the charter as service is provided. Revenues are recognized on a straight-line basis as the average revenue over the term of the respective time charter agreement. The Company recognizes voyage expenses when incurred.

Two of the Company's vessels, the Genco Constantine and Genco Hadrian, are chartered under time charters which include a profit-sharing element. Under these charter agreements, the Company receives a fixed rate of \$53 and \$65 per day, respectively, and an additional profit-sharing payment. The profit-sharing between the Company and the respective charterer for each 15-day period is calculated by taking the average over that period of the published Baltic Cape Index of the four time charter routes as reflected in daily reports. If such average is more than the base rate payable under the charter, the excess amount is allocable 50% to the Company and 50% to the charterer. The profit sharing amount due to the Company is net of a 3.75% commission. Profit sharing revenue is recorded when the average of the published Baltic Cape Index for the four time charter routes is available for the entire 15-day period, which is when the profit sharing revenue is fixed and determinable.

Four of the Company's vessels, the Genco Ocean, Genco Bay, Genco Avra and Genco Spirit, are chartered under spot market-related time charters which include a profit-sharing element. Under these charter agreements, the rate for the spot market-related time charter is linked with a floor of \$9 and a ceiling of \$14 daily with a 50% profit sharing arrangement to apply to any amount above the ceiling. The rate is based on 115% of the average of the daily rates reflected in the daily reports of the Baltic Handysize Index.

At December 31, 2011, five of the Company's vessels are in vessel pools. The Genco Explorer, Genco Pioneer, Genco Progress, Genco Reliance and Genco Sugar entered the Lauritzen Pool during August 2009. Vessel pools, such as the Lauritzen Pool, provide cost-effective commercial management activities for a group of similar class vessels. The pool arrangement provides the benefits of a large-scale operation, and chartering efficiencies that might not be available to smaller fleets. Under the pool arrangement, the vessels operate under a time charter agreement whereby the cost of bunkers and port expenses are borne by the pool and operating costs including crews, maintenance and insurance are typically paid by the owner of the vessel. Since the members of the pool share in the revenue less voyage expenses generated by the entire group of vessels in the pool, and the pool operates in the spot market, the revenue earned by these vessels is subject to the fluctuations of the spot market. The Company recognizes revenue from these pool arrangements based on its portion of the net distributions reported by the relevant pool, which represents the net voyage revenue of the pool after voyage expenses and pool manager fees.

#### Other operating income

During the years ended December 31, 2011, 2010 and 2009, the Company recorded other operating income of \$527, \$791 and \$0 respectively. Other operating income recorded during the years ended December 31, 2011 and 2010 consists of \$527 and \$585, respectively, related to the first two installments due on December 30, 2011 and 2010, respectively, from Samsun Logix Corporation ("Samsun") pursuant to the rehabilitation plan which was approved by the South Korean courts. Refer to Note 19 — Commitments and Contingencies for further information regarding the bankruptcy settlement with Samsun. Additionally, other operating income during the year ended December 31, 2010 consists of \$206 related to a payment received from the seller of the Baltic Cougar as a result of the late delivery of the vessel to Baltic Trading.

#### Due from charterers, net

Due from charterers, net includes accounts receivable from charters, net of the provision for doubtful accounts. At each balance sheet date, the Company provides for the provision based on a review of all outstanding charter receivables. Included in the standard time charter contracts with the Company's customers are certain performance parameters which if not met, can result in customer claims. As of December 31, 2011 and 2010, the Company had a reserve of \$906 and \$592, respectively, against due from charterers balance and an additional accrual of \$762 and \$689, respectively, in deferred revenue, each of which is primarily associated with estimated customer claims against the Company including vessel performance issues under time charter agreements.

Revenue is based on contracted charterparties. However, there is always the possibility of dispute over terms and payment of hires and freights. In particular, disagreements may arise concerning the responsibility of lost time and revenue. Accordingly, the Company periodically assesses the recoverability of amounts outstanding and estimates a provision if there is a possibility of non-recoverability. The Company believes its provisions to be reasonable based on information available.

#### Vessel operating expenses

Vessel operating expenses include crew wages and related costs, the cost of insurance, expenses relating to repairs and maintenance, the cost of spares and consumable stores, and other miscellaneous expenses. Vessel operating expenses are recognized when incurred.

### Vessels, net

Vessels, net is stated at cost less accumulated depreciation. Included in vessel costs are acquisition costs directly attributable to the acquisition of a vessel and expenditures made to prepare the vessel for its initial voyage. The Company also capitalizes interest costs for a vessel under construction as a cost which is directly attributable to the acquisition of a vessel. Vessels are depreciated on a straight-line basis over their estimated useful lives, determined to be 25 years from the date of initial delivery from the shipyard. Depreciation expense for vessels for the years ended December 31, 2011, 2010 and 2009 was \$130,080, \$109,839, and \$84,326, respectively.

Depreciation expense is calculated based on cost less the estimated residual scrap value. The costs of significant replacements, renewals and betterments are capitalized and depreciated over the shorter of the vessel's remaining estimated useful life or the estimated life of the renewal or betterment. Undepreciated cost of any asset component being replaced that was acquired after the initial vessel purchase is written off as a component of vessel operating expense. Expenditures for routine maintenance and repairs are expensed as incurred. Scrap value is estimated by the Company by taking the cost of steel times the weight of the ship noted in lightweight tons (lwt). Effective January 1, 2011, the Company increased the estimated scrap value of the vessels from \$175/lwt to \$245/lwt prospectively based on the 15-year average scrap value of steel. The change in the estimated scrap value will result in a decrease in depreciation expense over the remaining life of the vessel assets. During the year ended December 31, 2011, the increase in the estimated scrap value resulted in a decrease in depreciation expense of \$2,479. The decrease in depreciation expense resulted in a \$0.07 increase of basic and diluted earnings per share during the year ended December 31, 2011.

### Fixed assets, net

Fixed assets, net are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are based on a straight line basis over the estimated useful life of the specific asset placed in service. The following table is used in determining the typical estimated useful lives:

Description	Useful lives
Leasehold improvements	Lesser of the estimated useful life of the asset or life of the lease
Furniture, fixtures & other equipment	5 years
Vessel equipment	2-15 years
Computer equipment	3 years

Depreciation and amortization expense for fixed assets for the years ended December 31, 2011, 2010 and 2009 was \$507, \$501 and \$414, respectively.

### Deferred drydocking costs

The Company's vessels are required to be drydocked approximately every 30 to 60 months for major repairs and maintenance that cannot be performed while the vessels are operating. The Company defers the costs associated with the drydockings as they occur and amortizes these costs on a straight-line basis over the period between drydockings. Costs deferred as part of a vessel's drydocking include actual costs incurred at the drydocking yard; cost of travel, lodging and subsistence of personnel sent to the drydocking site to supervise; and the cost of hiring a third party to oversee the drydocking. If the vessel is drydocked earlier than originally anticipated, any remaining deferred drydock costs that have not been amortized are expensed at the beginning of the next drydock. Amortization expense for drydocking for the years ended December 31, 2011, 2010 and 2009 was \$5,617, \$5,324, and \$3,410, respectively. All other costs incurred during drydocking are expensed as incurred.

### Impairment of long-lived assets

The Company follows Accounting Standards Codification ("ASC") Subtopic 360-10, "Property, Plant and Equipment" ("ASC 360-10"), which requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than their carrying amounts. If indicators of impairment are present, the Company performs an analysis of the anticipated undiscounted future net cash flows of the related long-lived assets. If the carrying value of the related asset exceeds the undiscounted cash flows, the carrying value is reduced to its fair value. Various factors including anticipated future charter rates, estimated scrap values, future drydocking costs and estimated vessel operating costs are included in this analysis.

For the years ended December 31, 2011, 2010 and 2009, no impairment charges were recorded on the Company's long-lived assets.

#### Deferred financing costs

Deferred financing costs, included in other assets, consist of fees, commissions and legal expenses associated with obtaining loan facilities and amending existing loan facilities. These costs are amortized over the life of the related debt and are included in interest expense.

#### Cash and cash equivalents

The Company considers highly liquid investments such as money market funds and certificates of deposit with an original maturity of three months or less to be cash equivalents.

#### Investments

The Company holds an investment in the capital stock of Jinhui Shipping and Transportation Limited ("Jinhui"). Jinhui is a drybulk shipping owner and operator focused on the Supramax segment of drybulk shipping. This investment is designated as Available For Sale ("AFS") and is reported at fair value, with unrealized gains and losses recorded in shareholders' equity as a component of accumulated other comprehensive income ("AOCI"). The Company classifies the investment as a current or noncurrent asset based on the Company's intent to hold the investment at each reporting date.

Investments are reviewed quarterly to identify possible other-than-temporary impairment in accordance with ASC Subtopic 320-10, "Investments — Debt and Equity Securities" ("ASC 320-10"). When evaluating its investments, the Company reviews factors such as the length of time and extent to which fair value has been below the cost basis, the financial condition of the issuer, the underlying net asset value of the issuers assets and liabilities, and the Company's ability and intent to hold the investment for a period of time which may be sufficient for anticipated recovery in market value. Should the decline in the value of any investment be deemed to be other-than-temporary, the investment basis would be written down to fair market value, and the write-down would be recorded to earnings as a loss. Refer to Note 6 — Investments.

#### Income taxes

Pursuant to Section 883 of the U.S. Internal Revenue Code of 1986 as amended (the "Code"), qualified income derived from the international operations of ships is excluded from gross income and exempt from U.S. federal income tax if a company engaged in the international operation of ships meets certain requirements. Among other things, in order to qualify, the Company must be incorporated in a country which grants an equivalent exemption to U.S. corporations and must satisfy certain qualified ownership requirements.

GS&T is incorporated in the Marshall Islands. Pursuant to the income tax laws of the Marshall Islands, GS&T is not subject to Marshall Islands income tax. The Marshall Islands has been officially recognized by the Internal Revenue Service as a qualified foreign country that currently grants the requisite equivalent exemption from tax. GS&T is not taxable in any other jurisdiction, with the exception of Genco Management (USA) Limited as noted below.

Based on the publicly traded requirement of the Section 883 regulations, GS&T believes that it qualified for exemption from income tax on income derived from the international operations of ships for 2011, 2010 and 2009. In order to meet the publicly traded requirement, GS&T's stock must be treated as being primarily and regularly traded for more than half the days of any such year. Under the Section 883 regulations, GS&T's qualification for the publicly traded requirement may be jeopardized if shareholders of the Company's common stock that own five percent or more of the Company's stock ("5% shareholders") own, in the aggregate, 50% or more of the Company's common stock for more than half the days of the year. Management believes that during 2011, 2010 and 2009, the combined ownership of its 5% shareholders did not equal 50% or more of its common stock for more than half the days of 2011, 2010 and 2009, as applicable.

If GS&T does not qualify for the exemption from tax under Section 883, it would be subject to a 4% tax on the gross "shipping income" (without the allowance for any deductions) that is treated as derived from sources within the United States or "United States source shipping income." For these purposes, "shipping income" means any income that is derived from the use of vessels, from the hiring or leasing of vessels for use, or from the performance of services directly related to those uses; and "United States source shipping income" includes 50% of shipping income that is attributable to transportation that begins or ends, but that does not both begin and end, in the United States.

Baltic Trading is also incorporated in the Marshall Islands. However, Baltic Trading did not qualify for an exemption under Section 883 upon consummation of its IPO because it did not satisfy the publicly traded requirement as described above. Since Baltic Trading's IPO was completed on March 15, 2010, the Company has indirectly owned shares of Baltic Trading's Class B Stock which has provided the Company with over 50% of the combined voting power of all classes of Baltic Trading's voting stock during 2010 and 2011. As such, Baltic Trading is subject to income tax on its United States source income. During the years ended December 31, 2011 and 2010, Baltic Trading had United States operations which resulted in United States source income of \$3,062 and \$2,541. Baltic Trading's United States income tax expense for the years ended December 31, 2011 and 2010 was \$34 and \$78, respectively, of which \$0 and \$38, respectively, was outstanding at December 31, 2011 and 2010 and has been reflected in accounts payable and accrued expenses.

Pursuant to certain agreements, the Company technically and commercially manages vessels for Baltic Trading, as well as provides technical management of vessels for MEP in exchange for specified fees for these services provided. These services are performed by Genco Management (USA) Limited ("Genco (USA)"), which has elected to be taxed as a corporation for United States federal income tax purposes. As such, Genco (USA) is subject to United States federal income tax on its worldwide net income, including the net income derived from providing these services. Genco (USA) has entered into a cost-sharing agreement with the Company and Genco Ship Management LLC, collectively Manco, pursuant to which Genco (USA) agrees to reimburse Manco for the costs incurred by Genco (USA) for the use of Manco's personnel and services in connection with the provision of the services for both Baltic Trading and MEP's vessels.

Total revenue earned for these services during the years ended December 31, 2011 and 2010 was \$6,309 and \$6,739, respectively, of which \$3,024 and \$5,490, respectively, eliminated upon consolidation. After allocation of certain expenses, there was taxable income of \$2,787 associated with these activities for the year ended December 31, 2011. This resulted in estimated tax expense of \$1,351 for the year ended December 31, 2011. After allocation of certain expenses, there was taxable income of \$3,913 associated with these activities for the year ended December 31, 2010. This resulted in estimated tax expense of \$1,762 for the year ended December 31, 2010.

#### Deferred revenue

Deferred revenue primarily relates to cash received from charterers prior to it being earned. These amounts are recognized as income when earned. Additionally, deferred revenue includes estimated customer claims mainly due to time charter performance issues. Refer to "Revenue and voyage expenses" above for description of the Company's revenue recognition policy.

#### Comprehensive income

The Company follows ASC Subtopic 220-10, "Comprehensive Income" ("ASC 220-10"), which establishes standards for reporting and displaying comprehensive income and its components in financial statements. Comprehensive income is comprised of net income and amounts related to the Company's interest rate swaps accounted for as hedges, as well as unrealized gains or losses associated with the Company's investments.

#### Nonvested stock awards

The Company follows ASC Subtopic 718-10, "Compensation — Stock Compensation" ("ASC 718-10") for nonvested stock issued under its equity incentive plan. Stock-based compensation costs from nonvested stock have been classified as a component of additional paid-in capital.

#### Accounting estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include vessel valuations, the valuation of amounts due from charterers, performance claims, residual value of vessels, useful life of vessels and the fair value of derivative instruments. Actual results could differ from those estimates.

### Concentration of credit risk

Financial instruments that potentially subject the Company to concentrations of credit risk are amounts due from charterers, cash and cash equivalents, deposits on vessels and interest rate swap agreements. With respect to amounts due from charterers, the Company attempts to limit its credit risk by performing ongoing credit evaluations and, when deemed necessary, requires letters of credit, guarantees or collateral. The Company earned 100% of revenues from 32 customers in 2011, 33 customers in 2010 and 23 customers in 2009. Management does not believe significant risk exists in connection with the Company's concentrations of credit at December 31, 2011 and 2010.

For the year ended December 31, 2011 there were two customers that individually accounted for more than 10% of voyage revenues, Cargill International S.A. and Swissmarine Services S.A., which represented 30.00% and 12.23% of voyage revenues, respectively. For the year ended December 31, 2010 there were two customers that individually accounted for more than 10% of voyage revenues, Cargill International S.A. and Pacific Basin Chartering Ltd., which represented 29.26% and 11.43% of voyage revenues, respectively. For the year ended December 31, 2009, there were two customers that individually accounted for more than 10% of voyage revenues, Cargill International S.A. and Pacific Basin Chartering Ltd., which represented 30.77% and 13.61% of voyage revenues, respectively.

At December 31, 2011 and 2010, the Company maintains all of its cash and cash equivalents with five and four financial institutions, respectively. None of the Company's cash and cash equivalent balances is covered by insurance in the event of default by these financial institutions.

Deposits on vessels outstanding at December 31, 2010 are held in escrow accounts maintained by DnB NOR Bank ASA. None of the deposits on vessel balances are covered by insurance in the event of default by this financial institution.

At December 31, 2011 and 2010, the Company has eight and ten interest rate swap agreements, respectively, with DnB NOR Bank ASA to manage interest costs and the risk associated with changing interest rates related to the 2007 Credit Facility. None of the interest rate swap agreements are covered by insurance in the event of default by this financial institution.

### Fair value of financial instruments

The estimated fair values of the Company's financial instruments such as amounts due to / due from charterers, accounts payable and long-term debt approximate their individual carrying amounts as of December 31, 2011 and 2010 due to their short-term maturity or the variable-rate nature of the respective borrowings under the credit facilities.

The fair value of the interest rate swaps is the estimated amount the Company would receive or have to pay in order to terminate these agreements at the reporting date, taking into account current interest rates and the creditworthiness of the counterparty for assets and creditworthiness of the Company for liabilities. See Note 13 - Fair Value of Financial Instruments for additional disclosure on the fair values of long term debt, convertible senior notes, derivative instruments, and AFS securities.

### Derivative financial instruments

#### Interest rate risk management

The Company is exposed to the impact of interest rate changes. The Company's objective is to manage the impact of interest rate changes on its earnings and cash flow in relation to borrowings primarily for the purpose of acquiring drybulk vessels. These borrowings are subject to a variable borrowing rate. The Company uses pay-fixed receive-variable interest rate swaps to manage future interest costs and the risk associated with changing interest rate obligations. These swaps are designated as cash flow hedges of future variable rate interest payments and are tested for effectiveness on a quarterly basis. Refer to Note 11 — Interest Rate Swap Agreements for further information regarding the interest rate swaps held by the Company.

The differential to be paid or received for the effectively hedged portion of any swap agreement is recognized as an adjustment to interest expense as incurred. Additionally, the changes in value for the portion of the swaps that are effectively hedging future interest payments are reflected as a component of AOCI.

For the interest rate swaps that are not designated as an effective hedge, the change in the value and the rate differential to be paid or received is recognized as other expense and is listed as a component of other (expense) income in the Consolidated Statements of Operations.

### 3 - SEGMENT INFORMATION

The Company determines its operating segments based on the information utilized by the chief operating decision maker to assess performance. Based on this information, the Company has two operating segments, GS&T and Baltic Trading. Both GS&T and Baltic Trading are engaged in the ocean transportation of drybulk cargoes worldwide through the ownership and operation of drybulk carrier vessels. GS&T seeks to deploy its vessels on time charters, spot market-related time charters or in vessel pools trading in the spot market and Baltic Trading seeks to deploy its vessel charters in the spot market, which represents immediate chartering of a vessel, usually for single voyages, or employing vessels on spot market-related time charters. Segment results are evaluated based on net income. The accounting policies applied to the reportable segments are the same as those used in the preparation of the Company's consolidated financial statements. Information about the Company's reportable segments for the years ended December 31, 2011, 2010 and 2009 are as follows:

The following table presents a reconciliation of total voyage revenue from external (third party) customers for the Company's two operating segments to total consolidated voyage revenue from external customers for the Company for the years ended December 31, 2011, 2010 and 2009.

	For the years ended December 31,		
	2011	2010	2009
<b>Voyage Revenue from External Customers</b>			
GS&T	\$ 345,437	\$ 414,879	\$ 379,531
Baltic Trading	43,492	32,559	—
Total operating segments	388,929	447,438	379,531
Eliminating revenue	—	—	—
Total consolidated voyage revenue from external customers	\$ 388,929	\$ 447,438	\$ 379,531

The following table presents a reconciliation of total intersegment revenue, which eliminates upon consolidation, for the Company's two operating segments for the years ended December 31, 2011, 2010 and 2009. The intersegment revenue noted in the following table represents revenue earned by GS&T pursuant to the management agreement entered into with Baltic Trading, which includes commercial service fees, technical service fees and sale and purchase fees, if any.

	For the years ended December 31,		
	2011	2010	2009
<b>Intersegment revenue</b>			
GS&T	\$ 3,024	\$ 5,490	\$ —
Baltic Trading	—	—	—
Total operating segments	3,024	5,490	—
Eliminating revenue	(3,024)	(5,490)	—
Total consolidated intersegment revenue	\$ —	\$ —	\$ —

The following table presents a reconciliation of total depreciation and amortization expense for the Company's two operating segments to total consolidated depreciation and amortization expense for the years ended December 31, 2011, 2010 and 2009. The eliminating depreciation and amortization expense noted in the following table consists of the elimination of intercompany transactions resulting from the depreciation expense associated with the 1% purchase fee due to GS&T from Baltic Trading pursuant to the Management Agreement. The 1% purchase fee is capitalized as part of vessel assets by Baltic Trading and is depreciated over the remaining life of the vessel and therefore, the associated depreciation expense is eliminated upon consolidation.

	For the years ended December 31,		
	2011	2010	2009
<b>Depreciation and amortization</b>			
GS&T	\$ 121,590	\$ 108,381	\$ 88,150
Baltic Trading	14,769	7,359	—
Total operating segments	136,359	115,740	88,150
Eliminating depreciation and amortization	(156)	(77)	—
Total consolidated depreciation and amortization	\$ 136,203	\$ 115,663	\$ 88,150

The following table presents a reconciliation of total interest expense for the Company's two operating segments to total consolidated interest expense for the years ended December 31, 2011, 2010 and 2009. There is no eliminating interest expense as the interest incurred by each operating segment is related to each operating segment's own debt facilities.

	For the years ended December 31,		
	2011	2010	2009
<b>Interest expense</b>			
GS&T	\$ 82,300	\$ 70,495	\$ 61,796
Baltic Trading	4,422	2,155	—
Total operating segments	86,722	72,650	61,796
Eliminating interest expense	—	—	—
Total consolidated interest expense	\$ 86,722	\$ 72,650	\$ 61,796

The following table presents a reconciliation of total net income for the Company's two operating segments to total consolidated net income for the years ended December 31, 2011, 2010 and 2009. The eliminating net income noted in the following table consists of the elimination of intercompany transactions between GS&T and Baltic Trading as well as dividends received by GS&T from Baltic Trading for its Class B shares of Baltic Trading.

	For the years ended December 31,		
	2011	2010	2009
<b>Net income (loss)</b>			
GS&T	\$ 27,908	\$ 144,679	\$ 148,624
Baltic Trading	(431)	8,322	—
Total operating segments	27,477	153,001	148,624
Eliminating net income	(2,409)	(5,592)	—
Total consolidated net income	\$ 25,068	\$ 147,409	\$ 148,624

The following table presents a reconciliation of total assets for the Company's two operating segments to total consolidated net assets as of December 31, 2011 and December 31, 2010. The eliminating assets noted in the following table consist of the elimination of intercompany transactions resulting from the capitalization of fees paid to GS&T by Baltic Trading as vessel assets, including related accumulated depreciation, as well as the outstanding receivable balance due to GS&T from Baltic Trading as of December 31, 2011 and 2010.

	December 31, 2011	December 31, 2010
<b>Total assets</b>		
GS&T	\$ 2,737,988	\$ 2,792,056
Baltic Trading	384,955	396,154
Total operating segments	3,122,943	3,188,210
Eliminating assets	(3,666)	(5,502)
Total consolidated assets	\$ 3,119,277	\$ 3,182,708

The following table presents a reconciliation of total expenditures for vessel purchases, including vessel deposits, for the Company's two operating segments to total consolidated expenditures for vessel purchases, including vessel deposits, for the years ended December 31, 2011, 2010 and 2009. The eliminating expenditures for vessels noted in the following table consists primarily of the elimination of the 1% purchase fees due to GS&T from Baltic Trading pursuant to the Management Agreement which were paid by Baltic Trading to GS&T during the years ended December 31, 2011 and 2010.

	For the years ended December 31,		
	2011	2010	2009
<b>Expenditures for vessels</b>			
GS&T	\$ 128,836	\$ 597,908	\$ 287,637

Eliminating expenditures for vessels	(1,078)	(2,761)	—
Total consolidated expenditures for vessels	\$ 130,328	\$ 984,905	\$ 287,637

#### 4 - CASH FLOW INFORMATION

As of December 31, 2011 and 2010, the Company had eight and ten interest rate swaps, respectively, which are described and discussed in Note 11 — Interest Rate Swap Agreements. The fair value of the eight swaps at December 31, 2011 is in a liability position of \$25,340, \$1,686 of which is a current liability. The fair value of the ten swaps at December 31, 2010 is in a liability position of \$43,297, \$4,417 of which is a current liability.

For the year ended December 31, 2011, the Company had non-cash investing activities not included in the Consolidated Statement of Cash Flows for items included in accounts payable and accrued expenses consisting of \$501 for the purchase of vessels and \$1,559 for the purchase of other fixed assets. Additionally, for the year ended December 31, 2011, the Company had non-cash financing activities not included in the Consolidated Statement of Cash Flows for items included in accounts payable and accrued expenses consisting of \$105 associated with deferred financing fees.

For the year ended December 31, 2010, the Company had non-cash investing activities not included in the Consolidated Statement of Cash Flows for items included in accounts payable and accrued expenses consisting of \$3,979 for the purchase of vessels, \$38 associated with deposits on vessels and \$60 for the purchase of other fixed assets. Additionally, for the year ended December 31, 2010, the Company had non-cash financing activities not included in the Consolidated Statement of Cash Flows for items included in accounts payable and accrued expenses consisting of \$204 associated with deferred financing fees, \$51 associated with issuance costs related to the concurrent stock offering and issuance of Convertible Senior Notes completed on July 27, 2010 and \$1 associated with dividend payments due to Peter Georgiopoulos, Chairman of the Board of Directors. Also, for the year ended December 31, 2010, the Company had non-cash investing activities not included in the Consolidated Statement of Cash Flows for items included in prepaid expenses and other current assets as of December 31, 2010 consisting of \$22 of interest receivable associated with deposits on vessels.

For the year ended December 31, 2009, the Company had non-cash investing activities not included in the Consolidated Statement of Cash Flows for items included in accounts payable and accrued expenses consisting of \$630 for the purchase of vessels and \$87 for the purchase of other fixed assets. Additionally, for the year ended December 31, 2009, the Company had non-cash financing activities not included in the Consolidated Statement of Cash Flows for items included in accounts payable and accrued expenses consisting of \$483 associated with deferred registration costs for Baltic Trading.

For the year ended December 31, 2011, the Company made a reclassification of \$13,718 from deposits on vessels to vessels, net of accumulated depreciation, due to the completion of the purchase of the Genco Rhone, Genco Avra, Genco Mare and Genco Spirit. For the year ended December 31, 2009, the Company made a reclassification of \$90,555 from deposits on vessels to vessels, net of accumulated depreciation, due to the completion of the purchases of the Genco Commodus, Genco Maximus and Genco Claudius. No such reclassifications were made during the year ended December 31, 2010.

During the years ended December 31, 2011, 2010 and 2009, cash paid for interest, net of amounts capitalized and including bond coupon interest paid, was \$81,256, \$64,281 and \$58,188 respectively.

During the years ended December 31, 2011, 2010 and 2009, cash paid for estimated income taxes was \$1,120, \$1,995 and \$0 respectively.

On May 12, 2011, the Company made grants of nonvested common stock under the Genco Shipping & Trading Limited 2005 Equity Incentive Plan in the amount of 15,000 shares in the aggregate to directors of the Company. The grant date fair value of such nonvested stock was \$120. On December 28, 2011, the Board of Directors approved a grant of 100,000 shares of nonvested common stock to Peter Georgiopoulos, Chairman of the Board, which had a grant date fair value of \$639. Lastly, on December 28, 2011, the Company granted 242,500 shares of nonvested stock to certain employees. The grant date fair value of such nonvested stock was \$1,550.

On March 5, 2010 and December 21, 2010, the Board of Directors approved grants of 75,000 and 200,000 shares, respectively, of nonvested common stock to Peter Georgiopoulos. The fair value of such nonvested stock was \$1,718 and \$2,930, respectively. Additionally, on May 13, 2010, the Company made grants of nonvested common stock under the Genco Shipping & Trading Limited 2005 Equity Incentive Plan in the amount of 15,000 shares to directors of the Company. The grant date fair value of such nonvested stock was \$331. Lastly, on December 21, 2010, the Company granted 224,650 shares of nonvested stock to certain employees. The grant date fair value of such nonvested stock was \$3,291.

On July 24, 2009, the Company made grants of nonvested common stock under the Genco Shipping and Trading Limited 2005 Equity Incentive Plan in the amount of 15,000 shares to directors of the Company. The grant date fair value of such nonvested stock was \$374. On December 27, 2009, the Company granted 118,250 shares of nonvested stock to certain employees. The grant date fair value of such nonvested stock was \$2,648.

On May 12, 2011, Baltic Trading made grants of nonvested common stock in the amount of 12,500 shares to directors of Baltic Trading. The grant date fair value of such nonvested stock was \$87. Additionally, on December 21, 2011, 80,000 and 25,000 shares of Baltic Trading's nonvested common stock were granted to Peter Georgiopoulos, Chairman of the Board, and John Wobensmith, Baltic Trading's President and Chief Financial Officer, respectively. The grant date fair value of such nonvested stock was \$515.

On March 10, 2010, 358,000 and 108,000 shares of Baltic Trading's nonvested common stock were granted to Peter Georgiopoulos, Chairman of the Board, and John Wobensmith, Baltic Trading's President and Chief Financial Officer, respectively, which were approved by the Board of Directors on such date. The grant date fair value of such nonvested stock was \$6,524 based on the IPO price of \$14.00 per share. Both of these grants of nonvested common stock will vest ratably in four annual installments commencing on the first anniversary of the closing of the Company's IPO, March 15, 2010. Additionally, on March 15, 2010, the Company made grants of nonvested common stock in the amount of 12,500 shares to directors of the Company. The grant date fair value of such nonvested stock was \$175 based on the IPO price of \$14.00 per share. These grants vested on March 15, 2011. Lastly, on December 24, 2010, 80,000 and 25,000 shares of nonvested common stock were granted to Peter Georgiopoulos and John Wobensmith, respectively, which were approved by the Board of Directors on such date. The grant date fair value of such nonvested stock was \$1,118. Both of these grants of nonvested common stock vest ratably on each of the four anniversaries of November 15, 2011. All of the aforementioned grants of nonvested common stock were made under the Baltic Trading Limited 2010 Equity Incentive Plan.

## 5 - VESSEL ACQUISITIONS AND DISPOSITIONS

On June 24, 2010, GS&T executed a Master Agreement with Bourbon SA ("Bourbon") under which GS&T purchased 16 drybulk vessels, including two newbuildings, for an aggregate price of \$545,000. Total vessel deposits of \$54,500 were made during the second quarter of 2010. Additionally, upon the delivery of each vessel, GS&T recorded a commission due to its financial advisor equivalent to 1% of the purchase price of the vessel and which is included as a component of the vessel asset. GS&T retained 13 of the 16 vessels, 12 of which were delivered to GS&T in the third quarter of 2010 and one of which was delivered in the first quarter of 2011. GS&T elected not to retain three of the 16 vessels, including one newbuilding. Therefore, upon delivery of these vessels during the year ended December 31, 2010, GS&T immediately resold them upon delivery based on GS&T's aggregate purchase price of approximately \$106,555 to MEP, a related party, including the 1% commission fee noted above. GS&T entered into definitive agreements with MEP for this purpose. One of the vessels was sold to MEP during the third quarter of 2010 for \$36,562 and two of the vessels were sold to MEP during the fourth quarter of 2010 for a total of \$69,993, each of which included the 1% commission fee noted above. GS&T has financed the acquisition of these vessels, excluding the MEP vessels, using bank debt for approximately 60% of the purchase price, cash on hand, and proceeds from its concurrent offerings of common stock and 5.00% Convertible Senior Notes due August 15, 2015, which were completed on July 27, 2010. Refer to Note 10 — Convertible Senior Notes for further details.

On June 3, 2010, GS&T entered into an agreement to purchase five Handysize drybulk vessels, including four newbuildings, from companies within the Metrostar Management Corporation group of companies ("Metrostar") for an aggregate purchase price of \$166,250. Total vessel deposits of \$16,625 were made during the second quarter of 2010. Two of the vessels were delivered during the third quarter of 2010 and three of the vessels were delivered during 2011. Four of the five vessels are secured on long term time charters, each of which includes a minimum and maximum base rate as well as profit-sharing components, with Cargill International S.A. The remaining vessel is secured on a spot market-related time charter with Cargill International S.A. at a rate based on 115% of the average of the daily rates of the Baltic Handysize Index ("BHSI"), an index published by The Baltic Dry Index. GS&T financed the acquisition of the remaining vessels using operating cash as well as the \$100,000 secured term loan facility which was entered into on August 12, 2010 and proceeds from its recent concurrent offerings of common stock and convertible notes. Refer to Note 10 — Convertible Senior Notes.

On June 3, 2010, Baltic Trading entered into an agreement to purchase three Handysize drybulk vessels, including one newbuilding, from Metrostar for an aggregate purchase price of \$99,750. Total vessel deposits of \$9,975 were made during the second quarter of 2010. Two of the vessels were delivered during August 2010 and the remaining vessel was delivered during October 2010. All three vessels are secured on spot market-related time charters with Cargill International S.A. at a rate based on 115% of the average of the daily rates of the BHSI.

On February 19, 2010, Baltic Trading entered into agreements with subsidiaries of an unaffiliated third-party seller to purchase four 2009 built Supramax drybulk vessels for an aggregate price of \$140,000. Total vessel deposits of \$14,000 were made during the first quarter of 2010 and the remaining payment of \$126,000 was made upon delivery of the vessels during the second quarter of 2010. These four vessels, the Baltic Leopard, Baltic Panther, Baltic Cougar, and Baltic Jaguar, were delivered during the second quarter of 2010.

On February 22, 2010, Baltic Trading also entered into agreements with subsidiaries of another unaffiliated third-party seller to purchase two Capesize drybulk vessels for an aggregate price of \$144,200. The Baltic Wolf was delivered on October 14, 2010 and the Baltic Bear was delivered on May 14, 2010. Total vessel deposits of \$21,540 were made during the first quarter of 2010 and the remaining payment for the Baltic Bear of \$65,700 and the Baltic Wolf of \$56,960 were made upon delivery of the vessels during the second quarter and fourth quarter of 2010, respectively.

During 2009, the Company completed the acquisition of the Genco Commodus, Genco Maximus and Genco Claudius, respectively. In July 2007, the Company entered into an agreement to acquire nine Capesize vessels from Metrostar for a net purchase price of \$1,111,000, consisting of the value of the vessels and the liability for the below market time charter contracts acquired. The Company completed the acquisition of these vessels during 2009.

Refer to Note 1 — General Information for a listing of the vessel delivery dates for the vessel acquisitions discussed herein.

Two of the Handysize vessels acquired from Metrostar during the year ended December 31, 2011 by GS&T had existing below market time charters at the time of the acquisitions. Two of the Supramax vessels acquired from Bourbon and two of the Handysize vessels acquired from Metrostar during the year ended December 31, 2010 by GS&T had existing below market time charters at the time of the acquisitions. During the years ended December 31, 2011 and 2010, GS&T recorded a liability for time charters acquired of \$578 and \$2,146, respectively, which are being amortized as an increase to voyage revenues during the remaining term of each respective time charter. There were no vessels acquired during the year ended December 31, 2009 that had existing time charters. Below market time charters, including those acquired during previous years, were amortized as an increase in revenue in the amount of \$1,611, \$4,560 and \$18,975 for the years ended December 31, 2011, 2010 and 2009, respectively. The remaining unamortized fair market value of time charter acquired at December 31, 2011 and December 31, 2010 is \$1,164 and \$2,197, respectively. This balance will be amortized into revenue over a weighted-average period of 1.77 years and will be amortized as follows: \$746 for 2012, \$334 for 2013 and \$84 for 2014.

Capitalized interest expense associated with newbuilding contracts for the years ended December 31, 2011, 2010 and 2009 was \$179, \$446 and \$1,473, respectively.

## 6 — INVESTMENTS

The Company holds an investment in the capital stock of Jinhui. Jinhui is a drybulk shipping owner and operator focused on the Supramax segment of drybulk shipping. This investment is designated as AFS and is reported at fair value, with unrealized gains and losses recorded in shareholders' equity as a component of AOCI. At December 31, 2011 and December 31, 2010, the Company held 16,335,100 shares of Jinhui capital stock which is recorded at its fair value of \$24,468 and \$54,714, respectively, based on the closing price on December 30, 2011 and December 30, 2010.

During the fourth quarter of 2008, the Company reviewed the investment in Jinhui for indicators of other-than-temporary impairment in accordance with ASC 320-10. Based on this review, the Company deemed the investment in Jinhui to be other-than-temporarily impaired as of December 31, 2008 due to the severity of the decline in its market value versus its cost basis. As a result of the other-than-temporary impairment, the new cost basis of this investment is approximately \$1.03 per share, the value of the investment at December 31, 2008. The Company reviews the investment in Jinhui for impairment on a quarterly basis. There were no impairment charges recognized during the years ended December 31, 2011, 2010 and 2009.

The unrealized gain for the Jinhui capital stock since the impairment remains a component of AOCI since this investment is designated as an AFS security.

Refer to Note 12 — Accumulated Other Comprehensive Loss for a breakdown of the components of AOCI.

## 7 - EARNINGS PER SHARE

The computation of basic earnings per share is based on the weighted average number of common shares outstanding during the year. The computation of diluted earnings per share assumes the vesting of nonvested stock awards (refer to Note 21 — Nonvested Stock Awards), for which the assumed proceeds upon vesting are deemed to be the amount of compensation cost attributable to future services and are not yet recognized using the treasury stock method, to the extent dilutive. Of the 936,787 nonvested shares outstanding at December 31, 2011 (refer to Note 21 — Nonvested Stock Awards), 440,000 shares are anti-dilutive. The Company's diluted earnings per share will also reflect the assumed conversion under the Company's convertible debt if the impact is dilutive under the "if converted" method. The impact of the shares convertible under the Company's convertible notes is excluded from the computation of diluted earnings per share when interest expense per common share obtainable upon conversion is greater than basic earnings per share.

The components of the denominator for the calculation of basic earnings per share and diluted earnings per share are as follows:

	Years Ended December 31,		
	2011	2010	2009
<b>Common shares outstanding, basic:</b>			
Weighted average common shares outstanding, basic	35,179,244	32,987,449	31,295,212
<b>Common shares outstanding, diluted:</b>			
Weighted average common shares outstanding, basic	35,179,244	32,987,449	31,295,212
Dilutive effect of convertible notes	—	2,760,693	—
Dilutive effect of restricted stock awards	78,961	143,231	149,851
Weighted average common shares outstanding, diluted	35,258,205	35,891,373	31,445,063

The following table sets forth a reconciliation of the net income attributable to GS&T and the net income attributable to GS&T for diluted earnings per share under the “if-converted” method:

	Years Ended December 31,		
	2011	2010	2009
Net income attributable to GS&T	\$ 25,386	\$ 141,243	\$ 148,624
Interest expense related to convertible notes, if dilutive	—	4,657	—
Net income attributable to GS&T for the computation of diluted earnings per share	\$ 25,386	\$ 145,900	\$ 148,624

## 8 - RELATED PARTY TRANSACTIONS

The following represent related party transactions reflected in these consolidated financial statements:

The Company makes available employees performing internal audit services to General Maritime Corporation (“GMC”), where the Company’s Chairman, Peter C. Georgiopoulos, also serves as Chairman of the Board. For the years ended December 31, 2011, 2010 and 2009, the Company invoiced \$241, \$200 and \$162, respectively, to GMC which includes time associated with such internal audit services. During 2009, the amount invoiced of \$162 included \$4 of office expenses. Additionally, during the years ended December 31, 2011, 2010 and 2009, the Company incurred travel and other related expenditures totaling \$179, \$336 and \$139, respectively, reimbursable to GMC or its service provider. At December 31, 2011, the amount due to the Company from GMC was \$114, of which \$90 was reserved for pursuant to GMC’s bankruptcy proceedings. At December 31, 2010, the amount due to GMC from the Company was \$74.

During the years ended December 31, 2011, 2010 and 2009, the Company incurred legal services (primarily in connection with vessel acquisitions) aggregating \$54, \$390, and \$80, respectively, from Constantine Georgiopoulos, the father of Peter C. Georgiopoulos, Chairman of the Board. At December 31, 2011 and 2010, \$29 and \$234, respectively, was outstanding to Constantine Georgiopoulos.

During the years ended December 31, 2011 and 2010, the Company utilized the services of North Star Maritime, Inc. (“NSM”) which is owned and operated by one of GS&T’s directors, Rear Admiral Robert C. North, USCG (ret.). NSM, a marine industry consulting firm, specializes in international and domestic maritime safety, security and environmental protection issues. NSM billed \$2 and \$12 for services rendered during the years ended December 31, 2011 and 2010, respectively. There were no services rendered from NSM during 2009. There are no amounts due to NSM at December 31, 2011 and 2010.

During 2009 and 2010, GS&T and Baltic Trading, respectively, entered into agreements with Aegean Marine Petroleum Network, Inc. (“Aegean”) to purchase lubricating oils for certain vessels in the their fleets. Peter C. Georgiopoulos, Chairman of the Board of the Company, is Chairman of the Board of Aegean. During the years ended December 31, 2011, 2010 and 2009, Aegean supplied lubricating oils to the Company’s vessels aggregating \$1,908, \$1,457 and \$230, respectively. At December 31, 2011 and 2010, \$408 and \$302 remained outstanding, respectively.

During the years ended December 31, 2011 and 2010, the Company invoiced MEP for technical services provided and expenses paid on MEP’s behalf aggregating \$3,364 and \$108,982, respectively. The billings incurred during the year ended

December 31, 2010 also included the purchase of three Bourbon vessels on MEP's behalf (Refer to Note 5 — Vessel Acquisitions and Dispositions). MEP is managed by a company owned by Peter C. Georgiopoulos, Chairman of the Board. At December 31, 2011 and 2010, \$7 and \$57, respectively, was due to the Company from MEP. Total service revenue earned by the Company for technical services provided to MEP for the years ended December 31, 2011 and 2010 was \$3,285 and \$1,249, respectively.

## 9 - LONG-TERM DEBT

Long-term debt consists of the following:

	<u>December 31, 2011</u>	<u>December 31, 2010</u>
2007 Credit Facility	\$ 1,174,500	\$ 1,277,000
\$100 Million Term Loan Facility	90,869	38,880
\$253 Million Term Loan Facility	221,393	226,809
2010 Baltic Trading Credit Facility	101,250	101,250
Less: Current portion	<u>(185,077)</u>	<u>(71,841)</u>
Long-term debt	<u>\$ 1,402,935</u>	<u>\$ 1,572,098</u>

### December 2011 Credit Facility Agreements

On December 21, 2011, the Company entered into agreements (the "December 2011 Agreements") to amend or waive provisions of the 2007 Credit Facility, the \$100 Million Term Loan Facility and the \$253 Million Term Loan Facility. The aforementioned credit facilities are explained in further detail below. The agreements implement, among other things, the following:

- The Company's compliance with its existing maximum leverage ratio covenant is waived for a period starting on October 1, 2011 and ending on (and including) March 31, 2013, or the waiver period. This covenant governs the ratio of the Company's net debt to EBITDA (as such term is defined in the credit agreements).
- The Company's compliance with its existing minimum permitted consolidated interest ratio covenant is also waived for the waiver period. This covenant governs the ratio of the Company's EBITDA to consolidated interest expense.
- A new gross interest-bearing debt to total capital covenant applies to the Company for the duration of the waiver period. This covenant limits the ratio of the Company's interest-bearing indebtedness to the sum of its interest-bearing indebtedness and its consolidated net worth in accordance with GAAP to 62.5% on the last day of any fiscal quarter during the waiver period.
- Consenting lenders under the facilities received an upfront fee of 0.25% of the amount of outstanding loans.

As contemplated under these agreements, the Company prepaid \$52,500 under its 2007 Credit Facility, \$7,000 under its \$253 Million Term Loan Facility, and \$3,000 under its \$100 Million Term Loan Facility. All such prepayments were applied in inverse order of maturity under each credit facility. In addition, the 2007 Credit Facility is subject to a facility fee of 2.0% per annum on the average daily outstanding principal amount of the loans thereunder, payable quarterly in arrears, which will be reduced to 1.0% if the Company consummates an equity offering resulting in an aggregate amount of \$50,000 of gross proceeds. The other two credit facilities are not subject to a new facility fee.

### 2007 Credit Facility

On July 20, 2007, the Company entered into the 2007 Credit Facility with DnB Nor Bank ASA for the purpose of acquiring nine Capesize vessels and refinancing the Company's existing 2005 Credit Facility and Short-Term Line. DnB Nor Bank ASA is also Mandated Lead Arranger, Bookrunner, and Administrative Agent. The Company has used borrowings under the 2007 Credit Facility to repay amounts outstanding under the 2005 Credit Facility and the Short-Term Line, and these two facilities have accordingly been terminated. During the years ended December 31, 2011 and 2010, total repayments of \$102,500 and \$50,000 were made, respectively. The \$102,500 of repayments made during 2011 includes the \$52,500 prepayment of debt made during 2011 pursuant to the December 2011 Agreements, as noted in the "December 2011 Credit Facility Amendments" section hereof. As of December 31, 2011 and 2010, \$1,174,500 and \$1,277,000 was outstanding under the 2007 Credit Facility. The maximum amount that may be borrowed under the 2007 Credit Facility at December 31, 2011 is \$1,174,500. As of December 31, 2011, the Company has utilized its maximum borrowing capacity under the 2007 Credit Facility.

On January 26, 2009, the Company entered into an amendment to the 2007 Credit Facility (the “2009 Amendment”) which implemented the following modifications to the terms of the 2007 Credit Facility:

- Compliance with the existing collateral maintenance financial covenant was waived effective for the year ended December 31, 2008 and until the Company can represent that it is in compliance with all of its financial covenants and is otherwise able to pay a dividend and purchase or redeem shares of common stock under the terms of the Credit Facility in effect before the 2009 Amendment. The Company’s cash dividends and share repurchases were suspended until the Company can represent that it is in a position to again satisfy the collateral maintenance covenant.
- The total amount of the 2007 Credit Facility is subject to quarterly reductions of \$12,500 beginning March 31, 2009 through March 31, 2012 and quarterly reductions of \$48,195 beginning June 30, 2012 and thereafter until the maturity date. After the prepayment of \$52,500 made during December 2011 pursuant to the December 2011 Agreements, a final payment of \$149,905 will be due on the maturity date.
- The Applicable Margin to be added to the London Interbank Offered Rate to calculate the rate at which the Company’s borrowings bear interest is 2.00% per annum (the “Applicable Margin”).
- The commitment commission paid to each lender is 0.70% per annum of the daily average unutilized commitment of such lender.

Amounts borrowed and repaid under the 2007 Credit Facility, except for the \$52,500 repayment under the December 2011 Agreements as discussed above, may be reborrowed if available under the 2007 Credit Facility. The 2007 Credit Facility has a maturity date of July 20, 2017.

Loans made under the 2007 Credit Facility may be and have been used for the following:

- up to 100% of the en bloc purchase price of \$1,111,000 for nine modern drybulk Capesize vessels, which the Company has agreed to purchase from Metrostar;
- repayment of amounts previously outstanding under the Company’s 2005 Credit Facility, or \$206,233;
- the repayment of amounts previously outstanding under the Company’s Short-Term Line, or \$77,000;
- possible acquisitions of additional drybulk carriers between 25,000 and 180,000 dwt that are up to ten years of age at the time of delivery and not more than 18 years of age at the time of maturity of the credit facility;
- up to \$50,000 of working capital, if available; and
- the issuance of up to \$50,000 of standby letters of credit. At December 31, 2011 and 2010, there were no letters of credit issued under the 2007 Credit Facility.

All amounts owing under the 2007 Credit Facility are secured by the following:

- cross-collateralized first priority mortgages on 35 of the Company’s existing vessels and any new vessels financed with the 2007 Credit Facility;
- an assignment of any and all earnings of the mortgaged vessels;
- an assignment of all insurances on the mortgaged vessels;
- a first priority perfected security interest in all of the shares of Jinhui owned by the Company;
- an assignment of the shipbuilding contracts and an assignment of the shipbuilder’s refund guarantees meeting the Administrative Agent’s criteria for any additional newbuildings financed under the 2007 Credit Facility; and
- a first priority pledge of the Company’s ownership interests in each subsidiary guarantor.

The Company has completed a pledge of its ownership interests in the subsidiary guarantors that own the nine Capesize vessels acquired. The other collateral described above was pledged, as required, within 30 days of the effective date of the 2007 Credit Facility.

The Company's borrowings under the 2007 Credit Facility bear interest at the London Interbank Offered Rate ("LIBOR") for an interest period elected by the Company of one, three, or six months, or longer if available, plus the Applicable Margin which was 0.85% per annum. Effective January 26, 2009, due to the 2009 Amendment, the Applicable Margin increased to 2.00%. In addition to other fees payable by the Company in connection with the 2007 Credit Facility, the Company paid a commitment fee at a rate of 0.20% per annum of the daily average unutilized commitment of each lender under the facility until September 30, 2007, and 0.25% thereafter. Effective January 26, 2009, due to the 2009 Amendment, the rate increased to 0.70% per annum of the daily average unutilized commitment of such lender. Refer to "December 2011 Credit Facility Amendments" above for the facility fee that the Company is subject to pursuant to the December 2011 Agreements.

The 2007 Credit Facility includes the following financial covenants which apply to the Company and its subsidiaries on a consolidated basis and are measured at the end of each fiscal quarter beginning with June 30, 2007:

- The leverage covenant requires the maximum average net debt to EBITDA ratio to be no greater than 5.5:1.0. As per the December 2011 Agreements, this covenant has been waived for a period beginning on October 1, 2011 and ending on (and including) March 31, 2013.
- Cash and cash equivalents must not be less than \$500 per mortgaged vessel.
- The ratio of EBITDA to interest expense, on a rolling last four-quarter basis, must be no less than 2.0:1.0. As per the December 2011 Agreements, this covenant has been waived for a period beginning on October 1, 2011 and ending on (and including) March 31, 2013.
- After July 20, 2007, consolidated net worth, as defined in the 2007 Credit Facility, must be no less than \$263,300 plus 80% of the value of the any new equity issuances of the Company from June 30, 2007. Based on the equity offerings completed in October 2007, May 2008 and July 2010, consolidated net worth must be no less than \$634,656.
- The aggregate fair market value of the mortgaged vessels must at all times be at least 130% of the aggregate outstanding principal amount under the credit facility plus all letters of credit outstanding; the Company has a 30 day remedy period to post additional collateral or reduce the amount of the revolving loans and/or letters of credit outstanding. This covenant was waived effective for the year ended December 31, 2008 and indefinitely until the Company can represent that it is in compliance with all of its financial covenants as per the 2009 Amendment as described above.

As of December 31, 2011, the Company believes it is in compliance with all of the financial covenants under its 2007 Credit Facility, as amended.

On June 18, 2008, the Company entered into an amendment to the 2007 Credit Facility allowing the Company to prepay vessel deposits to give the Company flexibility in refinancing potential vessel acquisitions.

Due to refinancing of the 2007 Credit Facility as a result of entering into the 2009 Amendment, the Company incurred a non-cash write-off of unamortized deferred financing costs in the amount of \$1,921 associated with capitalized costs related to prior amendments and this charge was reflected in interest expense in the fourth quarter of 2008.

The following table sets forth the repayment of the outstanding debt of \$1,174,500 at December 31, 2011 under the 2007 Credit Facility, as amended:

<u>Year Ending December 31,</u>	<u>Total</u>
2012	\$ 157,085
2013	192,780
2014	192,780
2015	192,780
2016	192,780
Thereafter	246,295
Total debt	<u>\$ 1,174,500</u>

### \$100 Million Term Loan Facility

On August 12, 2010, the Company entered into the \$100 Million Term Loan Facility with Crédit Agricole Corporate and Investment Bank, which is also acting as Agent and Security Trustee; and Crédit Industriel et Commercial; and Skandinaviska Enskilda Banken AB (publ) are the lenders under the facility. The Company has used the \$100 Million Term Loan Facility to fund or refund to the Company a portion of the purchase price of the acquisition of five vessels from Metrostar (Refer to Note 5 — Vessel Acquisitions and Dispositions). Under the terms of the facility, the \$100 Million Term Loan Facility was drawn down in five equal tranches of \$20,000 each, with one tranche per vessel. The \$100 Million Term Loan Facility has a final maturity date of seven years from the date of the first drawdown, or August 17, 2017, and borrowings under the facility bear interest at LIBOR for an interest period of one, three or six months (as elected by the Company), plus 3.00% per annum. A commitment fee of 1.35% is payable on the undrawn committed amount of the \$100 Million Term Loan Facility, which began accruing on August 12, 2010. Borrowings are to be repaid quarterly, with the outstanding principal amortized on a 13-year profile, with any outstanding amount under the \$100 Million Term Loan Facility to be paid in full on the final maturity date. Repaid amounts are no longer available and cannot be reborrowed. Borrowings under the \$100 Million Term Loan Facility are secured by liens on the five Metrostar vessels purchased by GS&T and other related assets. Certain of the Company's wholly-owned ship-owning subsidiaries, each of which own one of the five Metrostar vessels, will act as guarantors under the \$100 Million Term Loan Facility.

During the year ended December 31, 2011, three drawdowns of \$20,000 each were made by the Company for the deliveries of the Genco Avra, Genco Mare and Genco Spirit. During the year ended December 31, 2010, two drawdowns of \$20,000 were made by the Company for the deliveries of the Genco Ocean and Genco Bay. During the years ended December 31, 2011 and 2010, total repayments of \$8,011 and \$1,120 were made, respectively. The \$8,011 of repayments made during 2011 includes the \$3,000 p repayment of debt made during 2011 pursuant to the December 2011 Agreements, as noted in the "December 2011 Credit Facility Agreements" section herein. As of December 31, 2011, the Company has utilized its maximum borrowing capacity under the \$100 Million Term Loan Facility.

The \$100 Million Term Loan Facility requires the Company to comply with a number of covenants, including financial covenants related to leverage, consolidated net worth, interest coverage and dividends; minimum working capital requirements; collateral maintenance requirements; and other covenants, most of which are in principle and calculation similar to the Company's covenants under the existing 2007 Credit Facility, except for the minimum cash requirement, which is \$750 per mortgaged vessel under this facility. The \$100 Million Term Loan Facility includes usual and customary events of default and remedies for facilities of this nature. Refer to the "December 2011 Credit Facility Amendments" section herein for waivers obtained for specific covenants under this credit facility.

As of December 31, 2011, the Company believes it is in compliance with all of the financial covenants under the \$100 Million Term Loan Facility, as amended.

The following table sets forth the repayment of the outstanding debt of \$90,869 at December 31, 2011 under the \$100 Million Term Loan Facility:

<u>Year Ending December 31,</u>	<u>Total</u>
2012	\$ 7,692
2013	7,692
2014	7,692
2015	7,692
2016	7,692
Thereafter	52,409
Total debt	<u>\$ 90,869</u>

### \$253 Million Term Loan Facility

On August 20, 2010, the Company entered into the \$253 Million Term Loan Facility. BNP Paribas; Crédit Agricole Corporate and Investment Bank; DVB Bank SE; Deutsche Bank AG Filiale Deutschlandgeschäft, which is also acting as Security Agent and Bookrunner; and Skandinaviska Enskilda Banken AB (publ) are Lenders and Mandated Lead Arrangers under the facility. Deutsche Bank Luxembourg S.A. is acting as Agent under the facility, and Deutsche Bank AG and all of the Lenders other than Deutsche Bank AG Filiale Deutschlandgeschäft are acting as Swap Providers under the facility. The Company has used the \$253 Million Term Loan Facility to fund a portion of the purchase price of the acquisition of 13 vessels from affiliates of Bourbon. Under the terms of the facility, the \$253 Million Term Loan Facility was drawn down in 13 tranches in amounts based on the particular

vessel being acquired, with one tranche per vessel. The \$253 Million Term Loan Facility has a maturity date of August 14, 2015 and borrowings under the \$253 Million Term Loan Facility bear interest, as elected by the Company, at LIBOR for an interest period of three or six months, plus 3.00% per annum. A commitment fee of 1.25% is payable on the undrawn committed amount of the \$253 Million Term Loan Facility, which began accruing on August 20, 2010. Borrowings are to be repaid quarterly with outstanding principal amortized on a per vessel basis and any outstanding amount under the \$253 Million Term Loan Facility to be paid in full on the maturity date. Repaid amounts are no longer available and cannot be reborrowed. Borrowings under the \$253 Million Term Loan Facility are secured by liens on the Bourbon vessels and other related assets. Certain of the Company's wholly-owned ship-owning subsidiaries, each of which owns one of the Bourbon vessels, will act as guarantors under the credit facility.

As of December 31, 2011, total drawdowns of \$253,000 have been made under the \$253 Million Term Loan Facility to fund or refund to the Company a portion of the purchase price of the 12 Bourbon vessels delivered during the third quarter of 2010 and the Bourbon vessel delivered during the first quarter of 2011. Refer to Note 5 — Vessel Acquisitions and Dispositions for a listing of the vessels delivered. Total required debt repayments of \$26,916 and \$4,691 were made during the years ended December 31, 2011 and 2010. The \$26,916 of repayments made during 2011 includes the \$7,000 p repayment of debt made during 2011 pursuant to the December 2011 Agreements, as noted in the "December 2011 Credit Facility Agreements" section herein. As of December 31, 2011, the Company has utilized its maximum borrowing capacity under the \$253 Million Term Loan Facility.

The \$253 Million Term Loan Facility requires the Company to comply with a number of covenants, including financial covenants related to leverage, consolidated net worth, liquidity and interest coverage; dividends; collateral maintenance requirements; and other covenants, most of which are in principle and calculation similar to our covenants under the existing 2007 Credit Facility, except for the minimum cash requirement, which is \$750 per mortgaged vessel under this facility. As of December 31, 2011 and 2010, the Company had deposited \$9,750 and \$9,000, respectively, that has been reflected as restricted cash. Restricted cash will be released only if the underlying collateral is sold or disposed of. The \$253 Million Term Loan Facility includes usual and customary events of default and remedies for facilities of this nature. Refer to the "December 2011 Credit Facility Amendments" section herein for waivers obtained for specific covenants under this credit facility.

As of December 31, 2011, the Company believes it is in compliance with all of the financial covenants under the \$253 Million Term Loan Facility, as amended.

The following table sets forth the repayment of the outstanding debt of \$221,393 at December 31, 2011 under the \$253 Million Term Loan Facility:

<u>Year Ending December 31,</u>	<u>Total</u>
2012	\$ 20,300
2013	20,300
2014	20,300
2015	160,493
Total debt	<u>\$ 221,393</u>

#### 2010 Baltic Trading Credit Facility

On April 16, 2010, Baltic Trading entered into a \$100,000 senior secured revolving credit facility with Nordea Bank Finland plc, acting through its New York branch (the "2010 Baltic Trading Credit Facility"). An amendment to the 2010 Baltic Trading Credit Facility was entered into by Baltic Trading effective November 30, 2010. This amendment increased the commitment amount of the 2010 Baltic Trading Credit Facility from \$100,000 to \$150,000 and amounts borrowed will bear interest at LIBOR plus a margin of 3.00% as compared to 3.25% under the original facility. The term of the 2010 Baltic Trading Credit Facility was extended to six years from the previous 3.5 years and will now mature on November 30, 2016 as compared to April 16, 2014 previously. A commitment fee of 1.25% per annum is payable on the unused daily portion of the 2010 Baltic Trading Credit Facility, which began accruing on March 18, 2010 under the terms of the commitment letter entered into on February 25, 2010. In connection with the commitment letter entered on February 25, 2010, Baltic Trading paid an upfront fee of \$313. Additionally, upon executing the original 2010 Baltic Trading Credit Facility, Baltic Trading paid the remaining upfront fee of \$938, for total fees of \$1,250. In connection with the amendment to the 2010 Credit Facility effective November 30, 2010, Baltic Trading paid an upfront fee of \$1,350. Of the total facility amount of \$150,000, \$25,000 is available for working capital purposes. As of December 31, 2011, total available working capital borrowings were \$23,500 as \$1,500 was drawn down during the year ended December 31, 2010 for working capital purposes. As of December 31, 2011, \$38,750 remained available under the 2010 Credit Facility as total drawdowns of \$101,250 were made to fund the purchase of the Baltic Wind, Baltic Cove and Baltic Breeze and the total commitment was reduced to \$140,000 on November 30, 2011. Refer to Note 5 — Vessel Acquisitions and Dispositions for further information regarding these vessel deposits and acquisitions.

Baltic Trading intends to use the 2010 Baltic Trading Credit Facility primarily for bridge financing for future vessel acquisitions. Pursuant to the amended 2010 Baltic Trading Credit Facility, the total commitment of \$150,000 will be reduced in 11 consecutive semi-annual reductions of \$5,000 which commenced on the six month anniversary of the effective date, or May 31, 2011. On the maturity date, November 30, 2016, the total commitment will reduce to zero and all borrowing must be repaid in full by Baltic Trading.

Borrowings under the 2010 Baltic Trading Credit Facility are secured by liens on Baltic Trading's initial vessels and other related assets. Borrowings under the facility are subject to the delivery of security documents with respect to Baltic Trading's initial vessels. Baltic Trading's subsidiaries owning the initial vessels act as guarantors under the 2010 Baltic Trading Credit Facility.

All amounts owing under the 2010 Baltic Trading Credit Facility are also secured by the following:

- cross-collateralized first priority mortgages of each of Baltic Trading's initial vessels;
- an assignment of any and all earnings of Baltic Trading's initial vessels; and
- an assignment of all insurance on the mortgaged vessels.

The 2010 Baltic Trading Credit Facility requires Baltic Trading to comply with a number of covenants, including financial covenants related to liquidity, consolidated net worth, and collateral maintenance; delivery of quarterly and annual financial statements and annual projections; maintaining adequate insurances; compliance with laws (including environmental); compliance with ERISA; maintenance of flag and class of Baltic Trading's initial vessels; restrictions on consolidations, mergers or sales of assets; restrictions on changes in the Manager of Baltic Trading's initial vessels (or acceptable replacement vessels); limitations on changes to the Management Agreement between Baltic Trading and GS&T; limitations on liens; limitations on additional indebtedness; restrictions on paying dividends; restrictions on transactions with affiliates; and other customary covenants.

The amended 2010 Baltic Trading Credit Facility includes the following financial covenants which apply to Baltic Trading and its subsidiaries on a consolidated basis and are measured at the end of each fiscal quarter:

- Cash and cash equivalents plus the undrawn amount available for working capital under the facility must not be less than \$5,000 during the first year following the amendment, or until November 30, 2011. Beginning December 1, 2010, cash and cash equivalents plus the undrawn amount available for working capital under the facility must not be less than \$750 per vessel for all vessels in Baltic Trading's fleet.
- Consolidated net worth must not be less than (i) \$232,796 plus (ii) 50% of the value of any subsequent primary equity offerings of Baltic Trading.
- The aggregate fair market value of the mortgaged vessels must at all times be at least 140% of the aggregate outstanding principal amount under the 2010 Baltic Trading Credit Facility.

Under the 2010 Baltic Trading Credit Facility, Baltic Trading is not permitted to make loans to GS&T or Genco Investments LLC if an event of default existed at the time of the loan or could be reasonably expected to result there from. In addition, Baltic Trading would not be permitted under the facility to declare or pay dividends to its shareholders (including Genco Investments LLC) if an event of default existed at the time of payment or would be caused thereby. As of December 31, 2011, to remain in compliance with a net worth covenant in the facility, Baltic Trading needs to maintain a net worth of \$232,796 after the payment of any dividends.

The Company believes it is in compliance with all of the financial covenants under the 2010 Baltic Trading Credit Facility as of December 31, 2011.

The following table sets forth the repayment of the outstanding debt of \$101,250 at December 31, 2011 under the 2010 Baltic Trading Credit Facility:

<u>Year Ending December 31,</u>	<u>Total</u>
2012	\$ —
2013	—
2014	—
2015	1,250
2016	100,000
Total debt	<u>\$ 101,250</u>

## Interest rates

The following table sets forth the effective interest rate associated with the interest expense for the Company's debt facilities noted above, including the rate differential between the pay fixed receive variable rate on the interest rate swap agreements that were in effect (refer to Note 11 — Interest Rate Swap Agreements), combined, and the cost associated with unused commitment fees. Additionally, it includes the range of interest rates on the debt, excluding the impact of swaps and unused commitment fees:

	Year ended December 31,		
	2011	2010	2009
Effective Interest rate	4.42%	4.64%	5.12%
Range of Interest Rates (excluding impact of swaps and unused commitment fees)	2.19% to 3.52%	2.25% to 3.60%	1.23% to 5.56%

## Letter of credit

In conjunction with the Company entering into a long-term office space lease (See Note 19 - Commitments and Contingencies), the Company was required to provide a letter of credit to the landlord in lieu of a security deposit. As of September 21, 2005, the Company obtained an annually renewable unsecured letter of credit with DnB NOR Bank. The letter of credit outstanding was \$300 as of December 31, 2011 and 2010 at a fee of 1% per annum. The letter of credit is cancelable on each renewal date provided the landlord is given 150 days minimum notice.

## 10 — CONVERTIBLE SENIOR NOTES

The Company issued \$125,000 of 5.0% Convertible Senior Notes on July 27, 2010 (the "2010 Notes"). The 2010 Notes mature on August 15, 2015 and are convertible into shares of the Company's common stock at a conversion rate of approximately 51.0204 shares of common stock per (in whole dollars) \$1,000 principal amount of the 2010 Notes (equivalent to an initial conversion price of \$19.60 per share, representing a 22.5% conversion premium over the concurrent offering price of \$16.00 per share of the Company's common stock on July 21, 2010), subject to adjustment, based on the occurrence of certain events, including, but not limited to, (i) the issuance of certain dividends on our common stock, (ii) the issuance of certain rights, options or warrants, (iii) the effectuation of share splits or combinations, (iv) certain distributions of property and (v) certain issuer tender or exchange offers as described in the Indenture, with the amount due on conversion payable in shares, cash, or a combination thereof at the Company's discretion. The total underlying shares of the 2010 Notes are 6,377,551 shares of common stock. Since the Company can settle a conversion of the 2010 Notes with shares, cash, or a combination thereof at its discretion, the Company allocated the convertible debt proceeds between the liability component and the embedded conversion option (i.e., the equity component). The liability component of the debt instrument is being accreted to par value using the effective interest method over the remaining life of the debt. This accretion is reported as a component of interest expense. The equity component is not subsequently revalued as long as it continues to qualify for equity treatment.

Upon issuance, the Company estimated the fair value of the liability component of the 2010 Notes, assuming a 10% non-convertible borrowing rate, to be \$100,625 and the fair value of the conversion option to be \$24,375. This amount was recorded as a debt discount and as an increase to additional paid-in capital as of the issuance date and the Company proportionately allocated approximately \$918 of issuance costs against this equity component. The issuance costs allocated to the liability component of \$3,637 along with the debt discount is being amortized to interest expense over the approximate 5-year period to the maturity of the 2010 Notes on August 15, 2015 resulting in additional interest expense in future periods. The issuance cost allocated to the liability component has been recorded as deferred financing costs; refer to Note 15 — Other Assets, net.

The 2010 Notes were issued pursuant to an indenture, dated as of July 27, 2010 (the "Base Indenture"), by and between the Company and The Bank of New York Mellon, as trustee (the "Trustee"), supplemented by the First Supplemental Indenture dated as of June 27, 2010, by and between the Company and the Trustee (the "Supplemental Indenture," and together with the Base Indenture, the "Indenture"). The 2010 Notes are represented by a global security, executed by the Company, in the form attached to the Supplemental Indenture.

Interest is payable semi-annually in arrears on February 15 and August 15 of each year, which began on February 15, 2011. The 2010 Notes will mature on August 15, 2015, subject to earlier repurchase or conversion upon the occurrence of certain events. Holders may convert their 2010 Notes before February 15, 2015, only in certain circumstances determined by (i) the market price of the Company's common stock, (ii) the trading price of the 2010 Notes, or (iii) the occurrence of specified corporate events. The 2010 Notes are subject to repurchase by the Company at the option of the holders following a fundamental change, as defined in the Indenture, including, but not limited to, (i) certain ownership changes, (ii) certain recapitalizations, mergers and dispositions,

(iii) approval of any plan or proposal for the liquidation, or dissolution of the Company, and (iv) the Company's common stock ceasing to be listed on any of the New York Stock Exchange or the Nasdaq Global Select Market, any of their respective successors or any other U.S. national securities exchange, at a price equal to 100% of the principal amount of the 2010 Notes plus accrued and unpaid interest up to the fundamental change repurchase date. After February 15, 2015, holders may convert their 2010 Notes at any time thereafter until the second scheduled trading day preceding maturity.

The Indenture includes customary agreements and covenants by the Company, including with respect to events of default.

The following tables provide additional information about the Company's 2010 Notes.

	December 31, 2011	December 31, 2010
Carrying amount of the equity component (additional paid-in capital)	\$ 24,375	\$ 24,375
Principal amount of the 2010 Notes	125,000	125,000
Unamortized discount of the liability component	18,619	22,691
Net carrying amount of the liability component	106,381	102,309
	December 31, 2011	December 31, 2010
Effective interest rate on liability component	9.9%	9.9%
Cash interest expense recognized	\$ 6,231	\$ 2,662
Non-cash interest expense recognized	4,072	1,684
Deferred financing cost amortization recognized as interest expense	720	311

The remaining period over which the unamortized discount will be recognized is 3.6 years. As of December 31, 2011, the if-converted value of the 2010 Notes does not exceed their principal amount.

Due to the 2015 maturity of the 2010 Notes and the Company's intent, the 2010 Notes have been classified as a noncurrent liability on the consolidated balance sheet as of December 31, 2011 and 2010.

#### 11 - INTEREST RATE SWAP AGREEMENTS

The Company has eight and ten interest rate swap agreements with DnB NOR Bank ASA to manage interest costs and the risk associated with changing interest rates related to the Company's 2007 Credit Facility, which were outstanding at December 31, 2011 and 2010, respectively. The total notional principal amount of the swaps at December 31, 2011 and 2010 is \$606,233 and \$756,233, respectively, and the swaps have specified rates and durations.

The following table summarizes the interest rate swaps designated as cash flow hedges that are in place as of December 31, 2011 and 2010:

Interest Rate Swap Detail				December 31, 2011	December 31, 2010
Trade Date	Fixed Rate	Start Date of Swap	End date of Swap	Notional Amount Outstanding	Notional Amount Outstanding
9/6/05	4.485%	9/14/05	7/29/15	\$ 106,233	\$ 106,233
3/29/06	5.25%	1/2/07	1/1/14	50,000	50,000
3/24/06	5.075%	1/2/08	1/2/13	50,000	50,000
7/31/07	5.115%	11/30/07	11/30/11	—	100,000
8/9/07	5.07%	1/2/08	1/3/12	100,000	100,000
8/16/07	4.985%	3/31/08	3/31/12	50,000	50,000
8/16/07	5.04%	3/31/08	3/31/12	100,000	100,000
1/22/08	2.89%	2/1/08	2/1/11	—	50,000
1/9/09	2.05%	1/22/09	1/22/14	100,000	100,000
2/11/09	2.45%	2/23/09	2/23/14	50,000	50,000
				<u>\$ 606,233</u>	<u>\$ 756,233</u>

The differentials to be paid or received for these swap agreements are recognized as an adjustment to interest expense as incurred. The Company is currently utilizing cash flow hedge accounting for these swaps whereby the effective portion of the change

in value of the swaps is reflected as a component of AOCI. The ineffective portion is recognized as other expense, which is a component of other (expense) income.

The interest expense pertaining to the interest rate swaps for the years ended December 31, 2011, 2010 and 2009 was \$28,854, \$30,204 and \$28,585, respectively.

The swap agreements, with effective dates prior to December 31, 2011, synthetically convert variable rate debt to fixed rate debt at the fixed interest rate of the swap plus the Applicable Margin, as defined in the “2007 Credit Facility” section above in Note 9 — Long-Term Debt.

The following table summarizes the derivative asset and liability balances at December 31, 2011 and 2010:

	Asset Derivatives				Liability Derivatives					
	Balance Sheet Location	Fair Value		Balance Sheet Location	Fair Value					
		December 31, 2011	December 31, 2010		December 31, 2011	December 31, 2010				
Derivatives designated as hedging instruments										
Interest rate contracts	Fair value of derivative instruments (Current Assets)	\$	—	\$	—	Fair value of derivative instruments (Current Liabilities)	\$	1,686	\$	4,417
Interest rate contracts	Fair value of derivative instruments (Noncurrent Assets)		—		—	Fair value of derivative instruments (Noncurrent Liabilities)		23,654		38,880
Total derivatives designated as hedging instruments		\$	—	\$	—		\$	25,340	\$	43,297
Total Derivatives		\$	—	\$	—		\$	25,340	\$	43,297

The following tables present the impact of derivative instruments and their location within the Consolidated Statement of Operations:

**The Effect of Derivative Instruments on the Consolidated Statement of Operations  
For the Year Ended December 31, 2011**

Derivatives in Cash Flow Hedging Relationships	Amount of Gain (Loss) Recognized in AOCI on Derivative (Effective Portion) 2011	Location of Gain (Loss) Reclassified from AOCI into income (Effective Portion)	Amount of Gain (Loss) Reclassified from AOCI into income (Effective Portion) 2011	Location of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion)	Amount of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion) 2011
		Interest		Other Income	
Interest rate contracts	\$ (10,947)	Expense	\$ (28,854)	(Expense)	\$ 51

**The Effect of Derivative Instruments on the Consolidated Statement of Operations  
For the Year Ended December 31, 2010**

Derivatives in Cash Flow Hedging Relationships	Amount of Gain (Loss) Recognized in AOCI on Derivative (Effective Portion) 2010	Location of Gain (Loss) Reclassified from AOCI into income (Effective Portion)	Amount of Gain (Loss) Reclassified from AOCI into income (Effective Portion) 2010	Location of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion)	Amount of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion) 2010
		Interest		Other Income	
Interest rate contracts	\$ (31,536)	Expense	\$ (30,204)	(Expense)	\$ 66

**The Effect of Derivative Instruments on the Consolidated Statement of Operations  
For the Year Ended December 31, 2009**

Derivatives in Cash Flow Hedging Relationships	Amount of Gain (Loss) Recognized in AOCI on Derivative (Effective Portion) 2009	Location of Gain (Loss) Reclassified from AOCI into income (Effective Portion)	Amount of Gain (Loss) Reclassified from AOCI into income (Effective Portion) 2009	Location of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion)	Amount of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion) 2009
Interest rate contracts	\$ (4,390)	Interest Expense	\$ (28,585)	Other Income (Expense)	\$ (288)

At December 31, 2011, (\$12,279) of AOCI is expected to be reclassified into interest expense over the next 12 months associated with interest rate swaps.

The Company is required to provide collateral in the form of vessel assets to support the interest rate swap agreements, excluding vessel assets of Baltic Trading. At December 31, 2011, the Company's 35 vessels mortgaged under the 2007 Credit Facility served as collateral in the aggregate amount of \$100,000.

**12 — ACCUMULATED OTHER COMPREHENSIVE LOSS**

The components of AOCI included in the accompanying consolidated balance sheets consist of net unrealized gain (loss) on cash flow hedges, and net unrealized gain (loss) from investments in Jinhui stock as of December 31, 2011, 2010 and 2009.

	Net Unrealized Gain (loss) on Cash Flow Hedges	Unrealized Gain (Loss) on Investments	AOCI
AOCI — January 1, 2009	\$ (66,014)	\$ —	\$ (66,014)
Change in unrealized gain on investments		55,408	55,408
Unrealized gain on cash flow hedges	24,195		24,195
AOCI — December 31, 2009	(41,819)	55,408	13,589
Change in unrealized gain on investments		(17,466)	(17,466)
Unrealized loss on cash flow hedges	(1,333)		(1,333)
AOCI — December 31, 2010	(43,152)	37,942	(5,210)
Change in unrealized gain on investments		(30,246)	(30,246)
Unrealized gain on cash flow hedges	17,907		17,907
AOCI — December 31, 2011	<u>\$ (25,245)</u>	<u>\$ 7,696</u>	<u>\$ (17,549)</u>

**13 - FAIR VALUE OF FINANCIAL INSTRUMENTS**

The fair values of the Company's financial instruments at December 31, 2011 and 2010 are noted below. All carrying values either equal or approximate the instrument's fair values with the exception of the 2010 Notes.

	December 31, 2011	December 31, 2010
Cash and cash equivalents	\$ 227,968	\$ 270,877
Restricted cash	9,750	9,000
Investments	24,468	54,714
Floating rate debt	1,588,012	1,643,939
2010 Notes	80,000	129,531
Derivative instruments — liability position	25,340	43,297

The fair value of the investments is based on quoted market rates. The fair value of the floating rate debt under the 2007 Credit Facility, \$100 Million Term Loan Facility, \$253 Million Term Loan Facility and the 2010 Baltic Trading Credit Facility are estimated based on current rates offered to the Company for similar debt of the same remaining maturities. Additionally, the Company considers its creditworthiness in determining the fair value of the floating rate debt under the credit facilities. The carrying value

approximates the fair market value for these floating rate loans. The fair value of the convertible senior notes payable represents the market value based on recent transactions of the 2010 Notes at December 31, 2011 and 2010 without bifurcating the value of the conversion option. The fair value of the interest rate swaps is the estimated amount the Company would receive to terminate the swap agreements at the reporting date, taking into account current interest rates and the creditworthiness of both the swap counterparty and the Company. The carrying amounts of the Company's other financial instruments at December 31, 2011 and 2010 (principally Due from charterers and Accounts payable and accrued expenses), approximate fair values because of the relatively short maturities of these instruments.

The Accounting Standards Codification subtopic 820-10, "Fair Value Measurements & Disclosures" ("ASC 820-10"), applies to all assets and liabilities that are being measured and reported on a fair value basis. This guidance enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The guidance requires that assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The following table summarizes the valuation of the Company's investments and financial instruments by the above pricing levels as of the valuation dates listed:

December 31, 2011			
		Quoted market prices in active markets (Level 1)	Significant Other Observable Inputs (Level 2)
	Total		
Investments	\$ 24,468	\$ 24,468	\$ —
Derivative instruments — liability position	25,340	—	25,340
December 31, 2010			
		Quoted market prices in active markets (Level 1)	Significant Other Observable Inputs (Level 2)
	Total		
Investments	\$ 54,714	\$ 54,714	\$ —
Derivative instruments — liability position	43,297	—	43,297

The Company holds an investment in the capital stock of Jinhui, which is classified as a long-term investment. The stock of Jinhui is publicly traded on the Oslo Stock Exchange and is considered a Level 1 item. The Company's interest rate derivative instruments are pay-fixed, receive-variable interest rate swaps based on LIBOR. The Company has elected to use the income approach to value the derivatives, using observable Level 2 market expectations at measurement date and standard valuation techniques to convert future amounts to a single present amount assuming that participants are motivated, but not compelled to transact. Level 2 inputs for the valuations are limited to quoted prices for similar assets or liabilities in active markets (specifically futures contracts on LIBOR for the first four years) and inputs other than quoted prices that are observable for the asset or liability (specifically LIBOR cash and swap rates and credit risk at commonly quoted intervals). Mid-market pricing is used as a practical expedient for fair value measurements. Refer to Note 11 — Interest Rate Swap Agreements for further information regarding the Company's interest rate swap agreements. ASC 820-10 states that the fair value measurement of an asset or liability must reflect the nonperformance risk of the entity and the counterparty. Therefore, the impact of the counterparty's creditworthiness when in an asset position and the Company's creditworthiness when in a liability position have also been factored into the fair value measurement of the derivative instruments in an asset or liability position and did not have a material impact on the fair value of these derivative instruments. As of December 31, 2011, both the counterparty and the Company are expected to continue to perform under the contractual terms of the instruments.

#### 14 - PREPAID EXPENSES AND OTHER CURRENT AND NONCURRENT ASSETS

Prepaid expenses and other current assets consist of the following:

	December 31, 2011	December 31, 2010
Lubricant inventory, fuel oil and diesel oil inventory and other stores	\$ 10,376	\$ 7,445
Prepaid items	5,514	4,693
Insurance receivable	1,025	1,257
Other	794	615
Total prepaid expenses and other current assets	<u>\$ 17,709</u>	<u>\$ 14,010</u>

Other noncurrent assets in the amount of \$514 at December 31, 2011 represents the security deposit related to the operating lease entered into effective April 4, 2011. Refer to Note 19 — Commitments and Contingencies for further information related to the lease agreement.

#### 15 — OTHER ASSETS, NET

Other assets consist of deferred financing costs, which include fees, commissions and legal expenses associated with securing loan facilities and other debt offerings and amending existing loan facilities. These costs are amortized over the life of the related debt and are included in interest expense. As of December 31, 2011 and 2010, the Company has deferred financing fees associated with the 2007 Credit Facility, the \$100 Million Term Loan Facility, the \$253 Million Term Loan Facility, the debt portion of the 2010 Notes and the 2010 Baltic Trading Credit Facility. (Refer to Note 9 — Long-Term Debt and Note 10 — Convertible Senior Notes)

Total net deferred financing costs consist of the following as of December 31, 2011 and 2010:

	December 31, 2011	December 31, 2010
2007 Credit Facility	\$ 13,189	\$ 10,074
\$100 Million Term Loan Facility	1,578	1,318
\$253 Million Term Loan Facility	4,113	3,529
2010 Notes	3,637	3,637
2010 Baltic Trading Credit Facility	<u>3,027</u>	<u>2,940</u>
Total deferred financing costs	25,544	21,498
Less: accumulated amortization	<u>7,749</u>	<u>4,561</u>
Total	<u>\$ 17,795</u>	<u>\$ 16,937</u>

#### 16 - FIXED ASSETS

Fixed assets consist of the following:

	December 31, 2011	December 31, 2010
Fixed assets, at cost:		
Vessel equipment	\$ 2,720	\$ 2,386
Leasehold improvements	3,664	1,146
Furniture and fixtures	997	347
Computer equipment	<u>632</u>	<u>472</u>
Total cost	8,013	4,351
Less: accumulated depreciation and amortization	<u>2,422</u>	<u>2,041</u>
Total	<u>\$ 5,591</u>	<u>\$ 2,310</u>

#### 17 — ACCOUNTS PAYABLE AND ACCRUED EXPENSES

Accounts payable and accrued expenses consist of the following :

	December 31, 2011	December 31, 2010
Accounts payable	\$ 5,047	\$ 6,454
Accrued general and administrative expenses	14,275	14,166
Accrued vessel operating expenses	<u>11,390</u>	<u>11,170</u>
Total	<u>\$ 30,712</u>	<u>\$ 31,790</u>

## 18 - REVENUE FROM TIME CHARTERS

Total voyage revenue earned on time charters, including revenue earned in vessel pools and spot market-related time charters, for the years ended December 31, 2011, 2010 and 2009 was \$388,929, \$447,438 and \$379,531 respectively. Included in revenue for the year ended December 31, 2009 is \$442 received from loss of hire insurance associated with unscheduled off-hire associated with the Genco Hunter. Additionally, included in revenues for the years ended December 31, 2011, 2010 and 2009 was \$122, \$574 and \$2,600 of profit sharing revenue. At December 31, 2011, future minimum time charter revenue, based on vessels committed to noncancelable time charter contracts as of February 8, 2012 is expected to be \$69,934 during 2012, \$7,847 during 2013 and \$3,020 during 2014, assuming off-hire due to any scheduled drydocking and that no additional off-hire time is incurred. For most drydockings, the Company assumes 20 days of offhire. Future minimum revenue excludes revenue earned for the five vessels currently in pool arrangements, vessels that are currently on or will be on spot market-related time charters as spot rates cannot be estimated as well as profit sharing revenue.

## 19 - COMMITMENTS AND CONTINGENCIES

In September 2005, the Company entered into a 15-year lease for office space in New York, New York. The monthly rental is as follows: Free rent from September 1, 2005 to July 31, 2006, \$40 per month from August 1, 2006 to August 31, 2010, \$43 per month from September 1, 2010 to August 31, 2015, and \$46 per month from September 1, 2015 to August 31, 2020. The monthly straight-line rental expense from September 1, 2005 to August 31, 2020 is \$39. As a result of the straight-line rent calculation generated by the free rent period and the tenant work credit, the Company has a deferred rent credit at December 31, 2011 and 2010 of \$606 and \$657, respectively. The Company has the option to extend the lease for a period of five years from September 1, 2020 to August 31, 2025. The rent for the renewal period will be based on the prevailing market rate for the six months prior to the commencement date of the extension term. Rent expense was \$467 for each of the years ended December 31, 2011, 2010 and 2009.

Future minimum rental payments on the above lease for the next five years and thereafter are as follows: \$518 for 2012 through 2014, \$529 for 2015, \$550 for 2016 and a total of \$2,018 for the remaining term of the lease.

Effective April 4, 2011, the Company entered into a seven-year sub-sublease agreement for additional office space in New York, New York. The term of the sub-sublease commenced June 1, 2011, with a free base rental period until October 31, 2011. Following the expiration of the free base rental period, the monthly base rental payments are \$82 per month until May 31, 2015 and thereafter will be \$90 per month until the end of the seven-year term. Pursuant to the sub-sublease agreement, the sublessor was obligated to contribute \$472 toward the cost of the Company's alterations to the sub-subleased office space. The Company has also entered into a direct lease with the over-landlord of such office space that commences immediately upon the expiration of such sub-sublease agreements, for a term covering the period from May 1, 2018 to September 30, 2025; the direct lease provides for a free base rental period from May 1, 2018 to September 30, 2018. Following the expirations of the free base rental period, the monthly base rental payments will be \$186 per month from October 1, 2018 to April 30, 2023 and \$204 per month from May 1, 2023 to September 30, 2025. For accounting purposes, the sub-sublease agreement and direct lease agreement with the landlord constitute one lease agreement. As a result of the straight-line rent calculation generated by the free rent period and the tenant work credit, the monthly straight-line rental expense for the term of the entire lease from June 1, 2011 to September 30, 2025 will be \$130. The Company had a deferred rent credit at December 31, 2011 of \$1,217. Rent expense pertaining to this new lease for the year ended December 31, 2011 was \$909.

Future minimum rental payments on the above lease for the next five years and thereafter are as follows: \$982 for 2012 through 2014, \$1,037 for 2015, \$1,076 for 2016 and a total of \$17,582 for the remaining term of the lease.

During the beginning of 2009, the Genco Cavalier, a 2007-built Supramax vessel, was on charter to Samsun when Samsun filed for the equivalent of bankruptcy protection in South Korea, otherwise referred to as a rehabilitation application. On February 5, 2010, the rehabilitation plan submitted by Samsun was approved by the South Korean courts. As part of the rehabilitation process, the Company's claim of \$17,212 will be settled in the following manner; 34%, or \$5,852, will be paid in cash in annual installments on December 30<sup>th</sup> of each year from 2010 through 2019 ranging in percentages from eight to 17; the remaining 66%, or \$11,360, was converted to Samsun shares at a specified value per share. On December 30, 2011, a total payment was due from Samsun in the amount of \$527 which represents ten percent of the total \$5,852 approved cash settlement. On December 30, 2010, a total payment was due from Samsun in the amount of \$585 which represents ten percent of the total \$5,852 approved cash settlement. These amounts have been recorded as other operating income during the years ended December 31, 2011 and 2010, respectively.

## 20 - SAVINGS PLAN

In August 2005, the Company established a 401(k) plan which is available to full-time employees who meet the plan's eligibility requirements. This 401(k) plan is a defined contribution plan, which permits employees to make contributions up to

maximum percentage and dollar limits allowable by IRS Code Sections 401(k), 402(g), 404 and 415 with the Company matching up to the first six percent of each employee's salary on a dollar-for-dollar basis. The matching contribution vests immediately. For the years ended December 31, 2011, 2010 and 2009, the Company's matching contributions to this plan were \$289, \$242 and \$177, respectively.

## 21- NONVESTED STOCK AWARDS

On July 12, 2005, the Company's Board of Directors approved the Genco Shipping and Trading Limited 2005 Equity Incentive Plan (the "GS&T Plan"). Under this plan, the Company's Board of Directors, the compensation committee, or another designated committee of the Board of Directors may grant a variety of stock-based incentive awards to employees, directors and consultants who the compensation committee (or other committee or the Board of Directors) believes are key to the Company's success. Awards may consist of incentive stock options, nonqualified stock options, stock appreciation rights, dividend equivalent rights, nonvested stock, unrestricted stock and performance shares. The aggregate number of shares of common stock available for award under the GS&T Plan is 2,000,000 shares.

Grants of nonvested common stock to executives and employees vest ratably on each of the four anniversaries of the determined vesting date. Grants of nonvested common stock to directors vest the earlier of the first anniversary of the grant date or the date of the next annual shareholders' meeting, which are typically held during May. Grants of nonvested common stock to the Company's Chairman, Peter C. Georgiopoulos, that are not granted as part of grants made to all directors, excluding the grant made on December 21, 2010 and December 28, 2011, vest ratably on each of the ten anniversaries of the vesting date.

The table below summarizes the Company's nonvested stock awards for the three years ended December 31, 2011 under the GS&T Plan:

	Year Ended December 31,					
	2011		2010		2009	
	Number of Shares	Weighted Average Grant Date Price	Number of Shares	Weighted Average Grant Date Price	Number of Shares	Weighted Average Grant Date Price
Outstanding at January 1	809,087	\$ 19.40	437,000	\$ 25.86	449,066	\$ 27.96
Granted	357,500	6.46	514,650	16.07	133,250	22.68
Vested	(228,700)	21.08	(142,563)	27.16	(145,316)	29.42
Forfeited	(1,100)	14.65	—	—	—	—
Outstanding at December 31	936,787	\$ 14.06	809,087	\$ 19.40	437,000	\$ 25.86

The total fair value of shares that vested under the GS&T Plan during the years ended December 31, 2011, 2010 and 2009 was \$2,105, \$2,414 and \$3,467, respectively. The total fair value is calculated as the number of shares vested during the period multiplied by the fair value on the vesting date.

For the years ended December 31, 2011, 2010 and 2009, the Company recognized nonvested stock amortization expense for the GS&T Plan, which is included in general, administrative and management fees, as follows:

	Year Ended December 31,		
	2011	2010	2009
General, administrative and management fees	\$ 5,574	\$ 4,327	\$ 4,220

The fair value of nonvested stock at the grant date is equal to the closing stock price on that date. The Company is amortizing these grants over the applicable vesting periods, net of anticipated forfeitures. As of December 31, 2011, unrecognized compensation cost of \$7,971 related to nonvested stock will be recognized over a weighted average period of 3.67 years.

On March 3, 2010, Baltic Trading's Board of Directors approved the Baltic Trading Limited 2010 Equity Incentive Plan (the "Baltic Trading Plan"). Under the Baltic Trading Plan, Baltic Trading's Board of Directors, the compensation committee, or another designated committee of the Board of Directors may grant a variety of stock-based incentive awards to officers, directors, and executive, managerial, administrative and professional employees of and consultants to Baltic Trading or the Company whom the compensation committee (or other committee of the Board of Directors) believes are key to Baltic Trading's success. Awards may consist of restricted stock, restricted stock units, stock options, stock appreciation rights and other stock or cash-based awards. The aggregate number of shares of common stock available for award under the Baltic Trading Plan is 2,000,000 common shares.

Grants of restricted stock to Peter Georgiopoulos, Chairman of the Board of Baltic Trading, and John Wobensmith, President and Chief Financial Officer of Baltic Trading, made in connection with Baltic Trading's IPO vest ratably on each of the first four anniversaries of March 15, 2010. Grants of restricted common stock to Baltic Trading's directors made following Baltic Trading's IPO (which exclude the foregoing grant to Mr. Georgiopoulos) vest the earlier of the first anniversary of the grant date or the date of Baltic Trading's next annual shareholders' meeting, which is expected to be held in May 2012. Grants of restricted stock made to executives and the Chairman of the Board not in connection with the Company's IPO vest ratably on each of the first four anniversaries of the determined vesting date.

The following table presents a summary of Baltic Trading's nonvested stock awards for the two years ended December 31, 2011 under the Baltic Trading Plan:

	Year Ended December 31,			
	2011		2010	
	Number of Baltic Trading Common Shares	Weighted Average Grant Date Price	Number of Baltic Trading Common Shares	Weighted Average Grant Date Price
Outstanding at January 1	583,500	\$ 13.40	—	\$ —
Granted	117,500	5.11	583,500	13.40
Vested	(155,250)	13.43	—	—
Forfeited	—	—	—	—
Outstanding at December 31	545,750	\$ 11.60	583,500	\$ 13.40

The total fair value of shares that vested under the Baltic Trading Plan during the year ended December 31, 2011 was \$1,275. The total fair value is calculated as the number of shares vested during the period multiplied by the fair value on the vesting date. No shares under the Baltic Trading Plan vested during the year ended December 31, 2010.

For the years ended December 31, 2011 and 2010, the Company recognized nonvested stock amortization expense for the Baltic Trading Plan, which is included in general, administrative and management fees, as follows:

	Year Ended December 31,	
	2011	2010
General, administrative and management fees	\$ 2,764	\$ 2,892

The Company is amortizing Baltic Trading's grants over the applicable vesting periods, net of anticipated forfeitures. As of December 31, 2011, unrecognized compensation cost of \$2,762 related to nonvested stock will be recognized over a weighted average period of 2.58 years.

## 22 — SHARE REPURCHASE PROGRAM

On February 13, 2008, the Company's Board of Directors approved a share repurchase program for up to a total of \$50,000 of the Company's common stock. Share repurchases will be made from time to time for cash in open market transactions at prevailing market prices or in privately negotiated transactions. The timing and amount of purchases under the program will be determined by management based upon market conditions and other factors. Purchases may be made pursuant to a program adopted under Rule 10b5-1 under the Securities Exchange Act. The program does not require the Company to purchase any specific number or amount of shares and may be suspended or reinstated at any time in the Company's discretion and without notice. Repurchases will be subject to restrictions under the 2007 Credit Facility. The 2007 Credit Facility was amended as of February 13, 2008 to permit the share repurchase program and provide that the dollar amount of shares repurchased is counted toward the maximum dollar amount of dividends that may be paid in any fiscal quarter. Subsequently, on January 26, 2009, the Company entered into the 2009 Amendment which amended the 2007 Credit Facility to require the Company to suspend all share repurchases until the Company can represent that it is in a position to again satisfy the collateral maintenance covenant. Refer to Note 9 — Long-Term Debt.

Since the inception of the share repurchase program through December 31, 2011, the Company repurchased and retired 278,300 shares of its common stock for \$11,500. An additional 3,130 shares of common stock were repurchased from employees for

\$41 during 2008 pursuant to the Company's Equity Incentive Plan rather than the share repurchase program. No share repurchases were made during the years ended December 31, 2011 and 2010.

## 23 - LEGAL PROCEEDINGS

From time to time the Company may be subject to legal proceedings and claims in the ordinary course of its business, principally personal injury and property casualty claims. Such claims, even if lacking merit, could result in the expenditure of significant financial and managerial resources. The Company is not aware of any legal proceedings or claims that it believes will have, individually or in the aggregate, a material effect on the Company, its financial condition, results of operations or cash flows.

## 24 — UNAUDITED QUARTERLY RESULTS OF OPERATIONS

In the opinion of the Company's management, all adjustments, consisting of normal recurring accruals considered necessary for a fair presentation have been included on a quarterly basis.

	2011 Quarter Ended				2010 Quarter Ended			
	Mar 31	Jun 30	Sept 30	Dec. 31	Mar 31	Jun 30	Sept 30	Dec. 31

(1) Does not include cash dividends paid by Baltic Trading.

## 25 - SUBSEQUENT EVENTS

On February 2, 2012, the Company received a \$546 insurance settlement from its insurance underwriters primarily related to the recovery of loss of hire income for the Genco Cavalier. This insurance settlement was not recognized until 2012 upon the approval of the underwriters.

On February 21, 2012, Baltic Trading declared a dividend of \$0.13 per share to be paid on or about March 9, 2012 to shareholders of record as of March 2, 2012. The aggregate amount of the dividend is expected to be approximately \$3.0 million, of which approximately \$2.2 million will be paid to minority shareholders, which Baltic Trading anticipates will be funded from cash on hand at the time payment is to be made.

## **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

No changes were made to, nor was there any disagreement with the Company's independent registered public accounting firm regarding, the Company's accounting or financial disclosure.

### **ITEM 9A. CONTROLS AND PROCEDURES**

#### **EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES**

Under the supervision and with the participation of our management, including our President and our Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934 as of the end of the period covered by this Report. Based upon that evaluation, our President and our Chief Financial Officer have concluded that our disclosure controls and procedures are effective.

#### **INTERNAL CONTROL OVER FINANCIAL REPORTING**

##### **MANAGEMENT REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Our management is responsible for establishing and maintaining effective internal control over financial reporting. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Our internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become ineffective because of changes in conditions, or that the degree or compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2011. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework. Based on our assessment and those criteria, our management believes that we maintained effective internal control over financial reporting as of December 31, 2011.

Our independent registered public accounting firm, Deloitte & Touche LLP, has issued an attestation report on the Company's internal control over financial reporting. The attestation report is included on page 65 of this report.

#### **CHANGES IN INTERNAL CONTROLS**

There have been no changes in our internal controls or over financial reporting that occurred during our most recent fiscal quarter (the fourth fiscal quarter of 2011) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of  
Genco Shipping & Trading Limited  
New York, New York

We have audited the internal control over financial reporting of Genco Shipping & Trading Limited and subsidiaries (the “Company”) as of December 31, 2011, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2011 of the Company and our report dated February 22, 2012 expressed an unqualified opinion on those financial statements.

/s/ DELOITTE & TOUCHE LLP

New York, New York

**Genco Shipping & Trading Limited  
Restricted Stock Grant Agreement**

THIS AGREEMENT, made as of December 28, 2011, between GENCO SHIPPING & TRADING LIMITED (the “Company”) and **Peter C. Georgiopoulos** (the “Participant”).

WHEREAS, the Company has adopted and maintains the Genco Shipping & Trading Limited 2005 Equity Incentive Plan (as amended and restated effective December 21, 2005) (the “Plan”) to provide certain key persons, on whose initiative and efforts the successful conduct of the business of the Company depends, with incentives to: (a) enter into and remain in the service of the Company, (b) acquire a proprietary interest in the success of the Company, (c) maximize their performance and (d) enhance the long-term performance of the Company;

WHEREAS, the Plan provides that the Board of Directors of the Company (the “Board of Directors”) shall administer the Plan and determine the key persons to whom awards shall be granted and the amount and type of such awards; and

WHEREAS, the Board of Directors has determined that the purposes of the Plan would be furthered by granting the Participant an award under the Plan as set forth in this Agreement;

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter set forth, the parties hereto hereby agree as follows:

1. Grant of Restricted Stock. Pursuant to, and subject to, the terms and conditions set forth herein (including without limitation Section 17 hereof) and in the Plan, the Board of Directors hereby grants to the Participant **one hundred thousand (100,000)** restricted shares (the “Restricted Stock”) of common stock of the Company, par value \$0.01 per share (“Common Stock”).

2. Grant Date. The Grant Date of the Restricted Stock is December 28, 2011.

3. Incorporation of Plan. All terms, conditions and restrictions of the Plan are incorporated herein and made part hereof as if stated herein. If there is any conflict between the terms and conditions of the Plan and this Agreement, the terms and conditions of the Plan, as interpreted by the Board of Directors, shall govern. Except as otherwise provided herein, all capitalized terms used herein shall have the meaning given to such terms in the Plan.

4. Vesting.

(a) Subject to Section 4(b) hereof and the further provisions of this Agreement, a number of whole shares of Restricted Stock as close as possible to 25% of the total number of shares granted hereunder shall vest on each of November 15, 2012, 2013, 2014 and 2015 (each such date, a “Vesting Date”).

---

(b) In the event of the occurrence of a Change in Control, as defined in Section 3.8(a) of the Plan, as in effect on the date of such occurrence, the Restricted Stock shall become vested in full on the date of such Change in Control.

5. Restrictions on Transferability . Until a share of Restricted Stock vests, the Participant shall not transfer the Participant's rights to such share of Restricted Stock or to any rights related thereto. Any attempt to transfer unvested shares of Restricted Stock or any rights related thereto, whether by transfer, pledge, hypothecation or otherwise and whether voluntary or involuntary, by operation of law or otherwise, shall not vest the transferee with any interest or right in or with respect to such shares of Restricted Stock or such related rights.

6. Termination of Service .

(a) In the event that the Participant's Service with the Company terminates before all the shares of Restricted Stock are vested for any reason (including without limitation the Participant's death or disability as defined in the Plan) other than (i) removal as a Director for cause (as defined in Article III, Section 4 of the Amended and Restated By-Laws of the Company) or (ii) due to the Participant's voluntary termination of his Service, all shares of Restricted Stock shall become vested immediately prior to such termination of Service. For purposes hereof, "Service" means a continuous time period during which the Participant is at least one of the following: an employee or a director of, or a consultant to, the Company.

(b) In the event that the Participant's Service with the Company terminates before all the shares of Restricted Stock are vested (i) due to removal as a Director for cause (as defined in Article III, Section 4 of the Amended and Restated By-laws of the Company) or (ii) due to the Participant's voluntary termination of his Service, all unvested shares of Restricted Stock, together with any property received in respect of such shares, subject to and as set forth in Section 9 hereof, shall be forfeited as of the date such Service terminates, and the Participant promptly shall return to the Company any certificates evidencing such shares, together with any cash dividends or other property received in respect of such shares .

7. Issuance of Shares .

(a) Reasonably promptly after the Grant Date, the Company shall issue and deliver to the Participant stock certificates, registered in the name of the Participant, evidencing the shares of Restricted Stock or shall instruct its transfer agent to issue shares of Restricted Stock which shall be maintained in book entry form on the books of the transfer agent. The Restricted Stock, if certificated, shall bear the following legend:

"THE SALE, TRANSFER, ASSIGNMENT, PLEDGE, HYPOTHECATION ENCUMBRANCE OR OTHER DISPOSAL OF THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO THE TERMS OF THE GENCO SHIPPING & TRADING LIMITED 2005 EQUITY INCENTIVE PLAN AND A RESTRICTED STOCK GRANT AGREEMENT BETWEEN GENCO SHIPPING & TRADING LIMITED AND THE HOLDER OF RECORD OF THE SECURITIES REPRESENTED BY THIS CERTIFICATE. NO TRANSFER OF THE SECURITIES

REPRESENTED BY THIS CERTIFICATE IN CONTRAVENTION OF SUCH PLAN AND RESTRICTED STOCK GRANT AGREEMENT SHALL BE VALID OR EFFECTIVE. COPIES OF SUCH AGREEMENT MAY BE OBTAINED BY WRITTEN REQUEST MADE BY THE HOLDER OF RECORD OF THE CERTIFICATE TO THE SECRETARY OF GENCO SHIPPING & TRADING LIMITED.”

If the Restricted Stock is in book entry form, it shall be subject to electronic coding or stop order indicating that such shares of Restricted Stock are restricted by the terms of this Agreement and the Plan. Such legend, electronic coding or stop order shall not be removed until such shares of Restricted Stock vest.

(b) Reasonably promptly after any such shares of Restricted Stock vest pursuant to Section 4 hereof, (i) in the case of certificated shares, in exchange for the surrender to the Company of the certificates evidencing the Restricted Stock, delivered to the Participant under Section 7(a) hereof, and the certificates evidencing any other securities received in respect of such shares, if any, the Company shall issue and deliver to the Participant (or the Participant’s legal representative, beneficiary or heir) certificates evidencing such shares of Restricted Stock and such other securities, free of the legend provided in Section 7(a) hereof and (ii) in the case of book entry shares, the Company shall cause to be lifted and removed any electronic coding or stop order established pursuant to Section 7(a) hereof.

(c) The Company may require as a condition of the delivery of stock certificates or the removal of any electronic coding or stop order, pursuant to Section 7(b) hereof, that the Participant remit to the Company an amount sufficient in the opinion of the Company to satisfy any federal, state and other governmental tax withholding requirements related to the vesting of the applicable shares. The Board of Directors, in its sole discretion, may permit the Participant to satisfy such obligation by delivering shares of Common Stock or by directing the Company to withhold from delivery shares of Common Stock, in either case valued at their Fair Market Value on the Vesting Date with fractional shares being settled in cash.

(d) The Participant shall not be deemed for any purpose to be, or have rights as, a shareholder of the Company by virtue of the grant of Restricted Stock, except to the extent a stock certificate is issued therefor or an appropriate book entry is made on the books of the transfer agent reflecting the issuance thereof pursuant to Section 7(a) hereof, and then only from the date such certificate is issued or such book entry is made. Upon the issuance of a stock certificate or the making of an appropriate book entry on the books of the transfer agent, the Participant shall have the rights of a shareholder with respect to the Restricted Stock, including the right to vote the shares, subject to the restrictions on transferability and the forfeiture provisions, as set forth in this Agreement.

8. Securities Matters. The Company shall be under no obligation to effect the registration pursuant to the Securities Act of 1933, as amended (the “1933 Act”) of any interests in the Plan or any shares of Common Stock to be issued thereunder or to effect similar compliance under any state laws. The Company shall not be obligated to cause to be issued any shares, whether by means of stock certificates or appropriate book entries, unless and until the Company is advised by its counsel that the issuance of such shares is in compliance with all

applicable laws, regulations of governmental authority and the requirements of any securities exchange on which shares of Common Stock are traded. The Board of Directors may require, as a condition of the issuance of shares of Common Stock pursuant to the terms hereof, that the recipient of such shares make such covenants, agreements and representations, and that any certificates bear such legends and any book entries be subject to such electronic coding, as the Board of Directors, in its sole discretion, deems necessary or desirable. The Participant specifically understands and agrees that the shares of Common Stock, if and when issued, may be "restricted securities," as that term is defined in Rule 144 under the 1933 Act and, accordingly, the Participant may be required to hold the shares indefinitely unless they are registered under such Act or an exemption from such registration is available.

9. Dividends, etc. Any cash dividends or other property (but not including securities) received by a Participant with respect to a share of Restricted Stock shall be returned to the Company in the event such share of Restricted Stock is forfeited, subject to Section 2.7(e) of the Plan. Any securities received by a Participant with respect to a share of Restricted Stock as a result of any dividend, recapitalization, merger, consolidation, combination, exchange of shares or otherwise will not vest until such share of Restricted Stock vests and shall be forfeited if such share of Restricted Stock is forfeited, subject to Section 2.7(e) of the Plan. Unless the Board of Directors otherwise determines, such securities shall bear the legend or be subject to the electronic coding or stop order set forth in Section 7(a) hereof.

10. Delays or Omissions. No delay or omission to exercise any right, power or remedy accruing to any party hereto upon any breach or default of any party under this Agreement, shall impair any such right, power or remedy of such party, nor shall it be construed to be a waiver of any such breach or default, or an acquiescence therein, or of or in any similar breach or default thereafter occurring, nor shall any waiver of any single breach or default be deemed a waiver of any other breach or default theretofore or thereafter occurring. Any waiver, permit, consent or approval of any kind or character on the part of any party of any breach or default under this Agreement, or any waiver on the part of any party or any provisions or conditions of this Agreement, must be in a writing signed by such party and shall be effective only to the extent specifically set forth in such writing.

11. Right of Discharge Preserved. Nothing in this Agreement shall confer upon the Participant the right to continue in the employ or other service of the Company, or affect any right which the Company may have to terminate such employment or service.

12. Integration. This Agreement contains the entire understanding of the parties with respect to its subject matter. There are no restrictions, agreements, promises, representations, warranties, covenants or undertakings with respect to the subject matter hereof other than those expressly set forth herein. This Agreement, including, without limitation, the Plan, supersedes all prior agreements and understandings between the parties with respect to its subject matter.

13. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument.

14. Governing Law. This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of New York, without regard to the provisions governing conflict of laws.

15. Obligation to Notify. If the Participant makes the election permitted under Section 83(b) of the Internal Revenue Code of 1986, as amended (that is, an election to include in gross income in the year of transfer the amounts specified in Section 83(b)), the Participant shall notify the Company of such election within 10 days of filing notice of the election with the Internal Revenue Service and shall within the same 10-day period remit to the Company an amount sufficient in the opinion of the Company to satisfy any federal, state and other governmental tax withholding requirements related to such inclusion in Participant's income. The Participant should consult with his or her tax advisor to determine the tax consequences of acquiring the Restricted Stock and the advantages and disadvantages of filing the Section 83(b) election. The Participant acknowledges that it is his sole responsibility, and not the Company's, to file a timely election under Section 83(b), even if the Participant requests the Company or its representatives to make this filing on his behalf.

16. Reimbursement for Excise Tax. In the event that the Participant incurs any Excise Tax (as defined in the Participant's Restricted Stock Grant Agreement with the Company dated as of March 5, 2010 (the "Prior Agreement")) on any payments or benefits under this Agreement, the Company shall gross-up the Participant the amount of such Excise Tax incurred in accordance with the provisions of Section 16 of the Prior Agreement (such provisions to apply irrespective of whether the Prior Agreement continues in effect at the time of such Excise Tax) and such Section 16 of the Prior Agreement relating to the Gross-Up Payment (as defined in the Prior Agreement) shall be incorporated with full effect into this Agreement, provided that any reference to "this Agreement" in such Section 16 shall be deemed to refer to this Restricted Stock Grant Agreement.

17. Participant Acknowledgment. The Participant hereby acknowledges receipt of a copy of the Plan. The Participant hereby acknowledges that all decisions, determinations and interpretations of the Board of Directors in respect of the Plan, this Agreement and the Restricted Stock shall be final and conclusive.

**[Signature page follows.]**

IN WITNESS WHEREOF, the Company has caused this Agreement to be duly executed by its duly authorized officer, and the Participant has hereunto signed this Agreement on his own behalf, thereby representing that he has carefully read and understands this Agreement and the Plan as of the day and year first written above.

**Genco Shipping & Trading Limited**  
**Executive Officer Restricted Stock Grant Agreement**

THIS AGREEMENT, made as of December 28, 2011, between GENCO SHIPPING & TRADING LIMITED (the "Company") and **Robert Gerald Buchanan** (the "Participant").

WHEREAS, the Company has adopted and maintains the Genco Shipping & Trading Limited 2005 Equity Incentive Plan (as amended and restated effective December 21, 2005) (the "Plan") to provide certain key persons, on whose initiative and efforts the successful conduct of the business of the Company depends, with incentives to: (a) enter into and remain in the service of the Company, (b) acquire a proprietary interest in the success of the Company, (c) maximize their performance and (d) enhance the long-term performance of the Company;

WHEREAS, the Plan provides that the Board of Directors of the Company (the "Board of Directors") shall administer the Plan and determine the key persons to whom awards shall be granted and the amount and type of such awards; and

WHEREAS, the Board of Directors has determined that the purposes of the Plan would be furthered by granting the Participant an award under the Plan as set forth in this Agreement;

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter set forth, the parties hereto hereby agree as follows:

1. Grant of Restricted Stock. Pursuant to, and subject to, the terms and conditions set forth herein and in the Plan, the Board of Directors hereby grants to the Participant **twenty-five thousand (25,000)** restricted shares (the "Restricted Stock") of common stock of the Company, par value \$0.01 per share ("Common Stock").

2. Grant Date. The Grant Date of the Restricted Stock is December 28, 2011.

3. Incorporation of Plan. All terms, conditions and restrictions of the Plan are incorporated herein and made part hereof as if stated herein. If there is any conflict between the terms and conditions of the Plan and this Agreement, the terms and conditions of the Plan, as interpreted by the Board of Directors, shall govern. Except as otherwise provided herein, all capitalized terms used herein shall have the meaning given to such terms in the Plan.

4. Vesting.

(a) Subject to Section 4(b) hereof and the further provisions of this Agreement, a number of whole shares of Restricted Stock as close as possible to 25% of the total number of shares granted hereunder shall vest on each of November 15, 2012, 2013, 2014 and 2015 (each such date, a "Vesting Date").

---

(b) In the event of the occurrence of a Change in Control, as defined in Section 3.8(a) of the Plan, as in effect on the date of such occurrence, the Restricted Stock shall become vested in full on the date of such Change in Control.

5. Restrictions on Transferability . Until a share of Restricted Stock vests, the Participant shall not transfer the Participant's rights to such share of Restricted Stock or to any rights related thereto. Any attempt to transfer unvested shares of Restricted Stock or any rights related thereto, whether by transfer, pledge, hypothecation or otherwise and whether voluntary or involuntary, by operation of law or otherwise, shall not vest the transferee with any interest or right in or with respect to such shares of Restricted Stock or such related rights.

6. Termination of Service .

(a) In the event that the Participant's Service with the Company terminates before all the shares of Restricted Stock are vested for any reason other than a termination by the Company without cause (as defined in the Plan) or the Participant's death or disability (as defined in the Plan), all unvested shares of Restricted Stock, together with any property received in respect of such shares, subject to and as set forth in Section 9 hereof, shall be forfeited as of the date such Service terminates, and the Participant promptly shall return to the Company any certificates evidencing such shares, together with any cash dividends or other property received in respect of such shares. For purposes hereof, "Service" means a continuous time period during which the Participant is at least one of the following: an employee or a director of, or a consultant to, the Company.

(b) In the event that the Participant's Service with the Company is terminated before all the shares of Restricted Stock are vested by the Company without cause (as defined in the Plan) or for reason of the Participant's death or disability (as defined in the Plan), a portion of the shares of Restricted Stock shall become vested immediately prior to the date such Service terminates, and all other shares of Restricted Stock which are not and have not become vested, together with any property received in respect of such shares, as set forth in Section 9 hereof, shall be forfeited as of the date such Service terminates, and the Participant promptly shall return to the Company any certificates evidencing such shares, together with any cash dividends or other property received in respect of such shares. The number of shares to become vested immediately prior to the date such Service terminates shall be as follows:

(i) If the termination occurs prior to November 15, 2012, 25% of the number of shares set forth in Section 1 hereof multiplied by a fraction, the denominator of which is 11 and the numerator of which is the number of completed months between the date hereof and the date such Service terminates. For the purposes of this paragraph, a month shall be deemed completed on the 15th of such month.

(ii) If the termination occurs on or after November 15, 2012, 25% of the number of shares set forth in Section 1 hereof multiplied by a fraction, the denominator of which is 12 and the numerator of which is the number of completed months between the immediately preceding November 15 and the date such Service terminates. For the purposes of this paragraph, a month shall be deemed completed on the 15th of such month.

7. Issuance of Shares.

(a) Reasonably promptly after the Grant Date, the Company shall issue and deliver to the Participant stock certificates, registered in the name of the Participant, evidencing the shares of Restricted Stock or shall instruct its transfer agent to issue shares of Restricted Stock which shall be maintained in book entry form on the books of the transfer agent. The Restricted Stock, if certificated, shall bear the following legend:

“THE SALE, TRANSFER, ASSIGNMENT, PLEDGE, HYPOTHECATION ENCUMBRANCE OR OTHER DISPOSAL OF THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO THE TERMS OF THE GENCO SHIPPING & TRADING LIMITED 2005 EQUITY INCENTIVE PLAN AND A RESTRICTED STOCK GRANT AGREEMENT BETWEEN GENCO SHIPPING & TRADING LIMITED AND THE HOLDER OF RECORD OF THE SECURITIES REPRESENTED BY THIS CERTIFICATE. NO TRANSFER OF THE SECURITIES REPRESENTED BY THIS CERTIFICATE IN CONTRAVENTION OF SUCH PLAN AND RESTRICTED STOCK GRANT AGREEMENT SHALL BE VALID OR EFFECTIVE. COPIES OF SUCH AGREEMENT MAY BE OBTAINED BY WRITTEN REQUEST MADE BY THE HOLDER OF RECORD OF THE CERTIFICATE TO THE SECRETARY OF GENCO SHIPPING & TRADING LIMITED.”

If the Restricted Stock is in book entry form, it shall be subject to electronic coding or stop order indicating that such shares of Restricted Stock are restricted by the terms of this Agreement and the Plan. Such legend, electronic coding or stop order shall not be removed until such shares of Restricted Stock vest.

(b) Reasonably promptly after any such shares of Restricted Stock vest pursuant to Section 4 hereof, (i) in the case of certificated shares, in exchange for the surrender to the Company of the certificates evidencing the Restricted Stock, delivered to the Participant under Section 7(a) hereof, and the certificates evidencing any other securities received in respect of such shares, if any, the Company shall issue and deliver to the Participant (or the Participant’s legal representative, beneficiary or heir) certificates evidencing such shares of Restricted Stock and such other securities, free of the legend provided in Section 7(a) hereof and (ii) in the case of book entry shares, the Company shall cause to be lifted and removed any electronic coding or stop order established pursuant to Section 7(a) hereof.

(c) The Company may require as a condition of the delivery of stock certificates or the removal of any electronic coding or stop order, pursuant to Section 7(b) hereof, that the Participant remit to the Company an amount sufficient in the opinion of the Company to satisfy any federal, state and other governmental tax withholding requirements related to the vesting of the applicable shares. The Board of Directors, in its sole discretion, may permit the Participant to satisfy such obligation by delivering shares of Common Stock or by directing the Company to withhold from delivery shares of Common Stock, in either case valued at their Fair Market Value on the Vesting Date with fractional shares being settled in cash.

(d) The Participant shall not be deemed for any purpose to be, or have rights as, a shareholder of the Company by virtue of the grant of Restricted Stock, except to the extent a stock certificate is issued therefor or an appropriate book entry is made on the books of the transfer agent reflecting the issuance thereof pursuant to Section 7(a) hereof, and then only from the date such certificate is issued or such book entry is made. Upon the issuance of a stock certificate or the making of an appropriate book entry on the books of the transfer agent, the Participant shall have the rights of a shareholder with respect to the Restricted Stock, including the right to vote the shares, subject to the restrictions on transferability and the forfeiture provisions, as set forth in this Agreement.

8. Securities Matters. The Company shall be under no obligation to effect the registration pursuant to the Securities Act of 1933, as amended (the "1933 Act") of any interests in the Plan or any shares of Common Stock to be issued thereunder or to effect similar compliance under any state laws. The Company shall not be obligated to cause to be issued any shares, whether by means of stock certificates or appropriate book entries, unless and until the Company is advised by its counsel that the issuance of such shares is in compliance with all applicable laws, regulations of governmental authority and the requirements of any securities exchange on which shares of Common Stock are traded. The Board of Directors may require, as a condition of the issuance of shares of Common Stock pursuant to the terms hereof, that the recipient of such shares make such covenants, agreements and representations, and that any certificates bear such legends and any book entries be subject to such electronic coding, as the Board of Directors, in its sole discretion, deems necessary or desirable. The Participant specifically understands and agrees that the shares of Common Stock, if and when issued, may be "restricted securities," as that term is defined in Rule 144 under the 1933 Act and, accordingly, the Participant may be required to hold the shares indefinitely unless they are registered under such Act or an exemption from such registration is available.

9. Dividends, etc. Any cash dividends or other property (but not including securities) received by a Participant with respect to a share of Restricted Stock shall be returned to the Company in the event such share of Restricted Stock is forfeited, subject to Section 2.7(e) of the Plan. Any securities received by a Participant with respect to a share of Restricted Stock as a result of any dividend, recapitalization, merger, consolidation, combination, exchange of shares or otherwise will not vest until such share of Restricted Stock vests and shall be forfeited if such share of Restricted Stock is forfeited, subject to Section 2.7(e) of the Plan. Unless the Board of Directors otherwise determines, such securities shall bear the legend or be subject to the electronic coding or stop order set forth in Section 7(a) hereof.

10. Delays or Omissions. No delay or omission to exercise any right, power or remedy accruing to any party hereto upon any breach or default of any party under this Agreement, shall impair any such right, power or remedy of such party, nor shall it be construed to be a waiver of any such breach or default, or an acquiescence therein, or of or in any similar breach or default thereafter occurring, nor shall any waiver of any single breach or default be deemed a waiver of any other breach or default theretofore or thereafter occurring. Any waiver, permit, consent or approval of any kind or character on the part of any party of any breach or default under this Agreement, or any waiver on the part of any party or any provisions or conditions of this Agreement, must be in a writing signed by such party and shall be effective only to the extent specifically set forth in such writing.

11. Right of Discharge Preserved. Nothing in this Agreement shall confer upon the Participant the right to continue in the employ or other service of the Company, or affect any right which the Company may have to terminate such employment or service.

12. Integration. This Agreement contains the entire understanding of the parties with respect to its subject matter. There are no restrictions, agreements, promises, representations, warranties, covenants or undertakings with respect to the subject matter hereof other than those expressly set forth herein. This Agreement, including, without limitation, the Plan, supersedes all prior agreements and understandings between the parties with respect to its subject matter.

13. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument.

14. Governing Law. This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of New York, without regard to the provisions governing conflict of laws.

15. Obligation to Notify. If the Participant makes the election permitted under Section 83(b) of the Internal Revenue Code of 1986, as amended (that is, an election to include in gross income in the year of transfer the amounts specified in Section 83(b)), the Participant shall notify the Company of such election within 10 days of filing notice of the election with the Internal Revenue Service and shall within the same 10-day period remit to the Company an amount sufficient in the opinion of the Company to satisfy any federal, state and other governmental tax withholding requirements related to such inclusion in Participant's income. The Participant should consult with his or her tax advisor to determine the tax consequences of acquiring the Restricted Stock and the advantages and disadvantages of filing the Section 83 (b) election. The Participant acknowledges that it is his or her sole responsibility, and not the Company's, to file a timely election under Section 83(b), even if the Participant requests the Company or its representatives to make this filing on his or her behalf.

16. Reduction in Benefits. Unless the Participant and the Company agree otherwise in writing, in the event that the Participant would incur an Excise Tax on any payments or benefits under this Agreement as a result of a Change of Control (or any other change described in Section 280G(b)(2) of the Code), the Company shall reduce the payments or benefits to be paid to or granted to Participant hereunder to the greater of (i) the maximum amount payable to the Participant without the imposition of any Excise Tax with respect to the Restricted Stock and (ii) the amount that yields the Participant the greatest after-tax amount of benefits under this Agreement after taking into account any Excise Tax imposed on Participant, whether due to payments and benefits under this Agreement or otherwise. "Excise Tax" means the tax imposed by Section 4999 of the Code and any successor tax. The determination of whether the Participants payments and benefits should be reduced and the amount of any such reduction shall be made by independent counsel selected by the Participant and reasonably acceptable to the Company ("Independent Counsel"). For purposes of such determination, (x) the total amount of payments and benefits received by the Participant as a result of such Change in Control (or such other change) shall be treated as "parachute payments" within the meaning of

Section 280G(b)(2) of the Code, and all “excess parachute payments” within the meaning of Section 280G(b)(1) of the Code shall be treated as subject to the Excise Tax, except to the extent that, in the opinion of Independent Counsel, a payment or benefit hereunder (in whole or in part) does not constitute a “parachute payment” within the meaning of Section 280G(b)(2) of the Code and the Treasury Regulations under Section 280G of the Code (the “Regulations”), or such “excess parachute payments” (in whole or in part) are not subject to the Excise Tax; (y) the amount of the payments and benefits hereunder that shall be treated as subject to the Excise Tax shall be equal to the lesser of (A) the total amount of such payments and benefits or (B) the amount of “excess parachute payments” within the meaning of Section 280G(b)(1) of the Code (after applying clause (x) hereof); and (z) the value of any noncash benefits or any deferred payment or benefit shall be determined by Independent Counsel in accordance with the principles of Sections 280G(d)(3) and (4) of the Code. All fees and expenses of Independent Counsel shall be borne by the Company.

17. Participant Acknowledgment. The Participant hereby acknowledges receipt of a copy of the Plan. The Participant hereby acknowledges that all decisions, determinations and interpretations of the Board of Directors in respect of the Plan, this Agreement and the Restricted Stock shall be final and conclusive.

IN WITNESS WHEREOF, the Company has caused this Agreement to be duly executed by its duly authorized officer, and the Participant has hereunto signed this Agreement on his own behalf, thereby representing that he has carefully read and understands this Agreement and the Plan as of the day and year first written above.

GENCO SHIPPING & TRADING LIMITED

By: /s/ John C. Wobensmith  
Name: John C. Wobensmith

ROBERT GERALD BUCHANAN

**Genco Shipping & Trading Limited**  
**Executive Officer Restricted Stock Grant Agreement**

THIS AGREEMENT, made as of December 28, 2011, between GENCO SHIPPING & TRADING LIMITED (the "Company") and **John C. Wobensmith** (the "Participant").

WHEREAS, the Company has adopted and maintains the Genco Shipping & Trading Limited 2005 Equity Incentive Plan (as amended and restated effective December 21, 2005) (the "Plan") to provide certain key persons, on whose initiative and efforts the successful conduct of the business of the Company depends, with incentives to: (a) enter into and remain in the service of the Company, (b) acquire a proprietary interest in the success of the Company, (c) maximize their performance and (d) enhance the long-term performance of the Company;

WHEREAS, the Plan provides that the Board of Directors of the Company (the "Board of Directors") shall administer the Plan and determine the key persons to whom awards shall be granted and the amount and type of such awards; and

WHEREAS, the Board of Directors has determined that the purposes of the Plan would be furthered by granting the Participant an award under the Plan as set forth in this Agreement;

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter set forth, the parties hereto hereby agree as follows:

1. Grant of Restricted Stock. Pursuant to, and subject to, the terms and conditions set forth herein and in the Plan, the Board of Directors hereby grants to the Participant **seventy-five thousand (75,000)** restricted shares (the "Restricted Stock") of common stock of the Company, par value \$0.01 per share ("Common Stock").

2. Grant Date. The Grant Date of the Restricted Stock is December 28, 2011.

3. Incorporation of Plan. All terms, conditions and restrictions of the Plan are incorporated herein and made part hereof as if stated herein. If there is any conflict between the terms and conditions of the Plan and this Agreement, the terms and conditions of the Plan, as interpreted by the Board of Directors, shall govern. Except as otherwise provided herein, all capitalized terms used herein shall have the meaning given to such terms in the Plan.

4. Vesting.

(a) Subject to Section 4(b) hereof and the further provisions of this Agreement, a number of whole shares of Restricted Stock as close as possible to 25% of the total number of shares granted hereunder shall vest on each of November 15, 2012, 2013, 2014 and 2015 (each such date, a "Vesting Date").

---

(b) In the event of the occurrence of a Change in Control, as defined in Section 3.8(a) of the Plan, as in effect on the date of such occurrence, the Restricted Stock shall become vested in full on the date of such Change in Control.

5. Restrictions on Transferability . Until a share of Restricted Stock vests, the Participant shall not transfer the Participant's rights to such share of Restricted Stock or to any rights related thereto. Any attempt to transfer unvested shares of Restricted Stock or any rights related thereto, whether by transfer, pledge, hypothecation or otherwise and whether voluntary or involuntary, by operation of law or otherwise, shall not vest the transferee with any interest or right in or with respect to such shares of Restricted Stock or such related rights.

6. Termination of Service .

(a) In the event that the Participant's Service with the Company terminates before all the shares of Restricted Stock are vested for any reason other than a termination by the Company without cause (as defined in the Plan) or the Participant's death or disability (as defined in the Plan), all unvested shares of Restricted Stock, together with any property received in respect of such shares, subject to and as set forth in Section 9 hereof, shall be forfeited as of the date such Service terminates, and the Participant promptly shall return to the Company any certificates evidencing such shares, together with any cash dividends or other property received in respect of such shares. For purposes hereof, "Service" means a continuous time period during which the Participant is at least one of the following: an employee or a director of, or a consultant to, the Company.

(b) In the event that the Participant's Service with the Company is terminated before all the shares of Restricted Stock are vested by the Company without cause (as defined in the Plan) or for reason of the Participant's death or disability (as defined in the Plan), a portion of the shares of Restricted Stock shall become vested immediately prior to the date such Service terminates, and all other shares of Restricted Stock which are not and have not become vested, together with any property received in respect of such shares, as set forth in Section 9 hereof, shall be forfeited as of the date such Service terminates, and the Participant promptly shall return to the Company any certificates evidencing such shares, together with any cash dividends or other property received in respect of such shares. The number of shares to become vested immediately prior to the date such Service terminates shall be as follows:

(i) If the termination occurs prior to November 15, 2012, 25% of the number of shares set forth in Section 1 hereof multiplied by a fraction, the denominator of which is 11 and the numerator of which is the number of completed months between the date hereof and the date such Service terminates. For the purposes of this paragraph, a month shall be deemed completed on the 15th of such month.

(ii) If the termination occurs on or after November 15, 2012, 25% of the number of shares set forth in Section 1 hereof multiplied by a fraction, the denominator of which is 12 and the numerator of which is the number of completed months between the immediately preceding November 15 and the date such Service terminates. For the purposes of this paragraph, a month shall be deemed completed on the 15th of such month.

7. Issuance of Shares.

(a) Reasonably promptly after the Grant Date, the Company shall issue and deliver to the Participant stock certificates, registered in the name of the Participant, evidencing the shares of Restricted Stock or shall instruct its transfer agent to issue shares of Restricted Stock which shall be maintained in book entry form on the books of the transfer agent. The Restricted Stock, if certificated, shall bear the following legend:

“THE SALE, TRANSFER, ASSIGNMENT, PLEDGE, HYPOTHECATION ENCUMBRANCE OR OTHER DISPOSAL OF THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO THE TERMS OF THE GENCO SHIPPING & TRADING LIMITED 2005 EQUITY INCENTIVE PLAN AND A RESTRICTED STOCK GRANT AGREEMENT BETWEEN GENCO SHIPPING & TRADING LIMITED AND THE HOLDER OF RECORD OF THE SECURITIES REPRESENTED BY THIS CERTIFICATE. NO TRANSFER OF THE SECURITIES REPRESENTED BY THIS CERTIFICATE IN CONTRAVENTION OF SUCH PLAN AND RESTRICTED STOCK GRANT AGREEMENT SHALL BE VALID OR EFFECTIVE. COPIES OF SUCH AGREEMENT MAY BE OBTAINED BY WRITTEN REQUEST MADE BY THE HOLDER OF RECORD OF THE CERTIFICATE TO THE SECRETARY OF GENCO SHIPPING & TRADING LIMITED.”

If the Restricted Stock is in book entry form, it shall be subject to electronic coding or stop order indicating that such shares of Restricted Stock are restricted by the terms of this Agreement and the Plan. Such legend, electronic coding or stop order shall not be removed until such shares of Restricted Stock vest.

(b) Reasonably promptly after any such shares of Restricted Stock vest pursuant to Section 4 hereof, (i) in the case of certificated shares, in exchange for the surrender to the Company of the certificates evidencing the Restricted Stock, delivered to the Participant under Section 7(a) hereof, and the certificates evidencing any other securities received in respect of such shares, if any, the Company shall issue and deliver to the Participant (or the Participant’s legal representative, beneficiary or heir) certificates evidencing such shares of Restricted Stock and such other securities, free of the legend provided in Section 7(a) hereof and (ii) in the case of book entry shares, the Company shall cause to be lifted and removed any electronic coding or stop order established pursuant to Section 7(a) hereof.

(c) The Company may require as a condition of the delivery of stock certificates or the removal of any electronic coding or stop order, pursuant to Section 7(b) hereof, that the Participant remit to the Company an amount sufficient in the opinion of the Company to satisfy any federal, state and other governmental tax withholding requirements related to the vesting of the applicable shares. The Board of Directors, in its sole discretion, may permit the Participant to satisfy such obligation by delivering shares of Common Stock or by directing the Company to withhold from delivery shares of Common Stock, in either case valued at their Fair Market Value on the Vesting Date with fractional shares being settled in cash.

(d) The Participant shall not be deemed for any purpose to be, or have rights as, a shareholder of the Company by virtue of the grant of Restricted Stock, except to the extent a stock certificate is issued therefor or an appropriate book entry is made on the books of the transfer agent reflecting the issuance thereof pursuant to Section 7(a) hereof, and then only from the date such certificate is issued or such book entry is made. Upon the issuance of a stock certificate or the making of an appropriate book entry on the books of the transfer agent, the Participant shall have the rights of a shareholder with respect to the Restricted Stock, including the right to vote the shares, subject to the restrictions on transferability and the forfeiture provisions, as set forth in this Agreement.

8. Securities Matters. The Company shall be under no obligation to effect the registration pursuant to the Securities Act of 1933, as amended (the "1933 Act") of any interests in the Plan or any shares of Common Stock to be issued thereunder or to effect similar compliance under any state laws. The Company shall not be obligated to cause to be issued any shares, whether by means of stock certificates or appropriate book entries, unless and until the Company is advised by its counsel that the issuance of such shares is in compliance with all applicable laws, regulations of governmental authority and the requirements of any securities exchange on which shares of Common Stock are traded. The Board of Directors may require, as a condition of the issuance of shares of Common Stock pursuant to the terms hereof, that the recipient of such shares make such covenants, agreements and representations, and that any certificates bear such legends and any book entries be subject to such electronic coding, as the Board of Directors, in its sole discretion, deems necessary or desirable. The Participant specifically understands and agrees that the shares of Common Stock, if and when issued, may be "restricted securities," as that term is defined in Rule 144 under the 1933 Act and, accordingly, the Participant may be required to hold the shares indefinitely unless they are registered under such Act or an exemption from such registration is available.

9. Dividends, etc. Any cash dividends or other property (but not including securities) received by a Participant with respect to a share of Restricted Stock shall be returned to the Company in the event such share of Restricted Stock is forfeited, subject to Section 2.7(e) of the Plan. Any securities received by a Participant with respect to a share of Restricted Stock as a result of any dividend, recapitalization, merger, consolidation, combination, exchange of shares or otherwise will not vest until such share of Restricted Stock vests and shall be forfeited if such share of Restricted Stock is forfeited, subject to Section 2.7(e) of the Plan. Unless the Board of Directors otherwise determines, such securities shall bear the legend or be subject to the electronic coding or stop order set forth in Section 7(a) hereof.

10. Delays or Omissions. No delay or omission to exercise any right, power or remedy accruing to any party hereto upon any breach or default of any party under this Agreement, shall impair any such right, power or remedy of such party, nor shall it be construed to be a waiver of any such breach or default, or an acquiescence therein, or of or in any similar breach or default thereafter occurring, nor shall any waiver of any single breach or default be deemed a waiver of any other breach or default theretofore or thereafter occurring. Any waiver, permit, consent or approval of any kind or character on the part of any party of any breach or default under this Agreement, or any waiver on the part of any party or any provisions or conditions of this Agreement, must be in a writing signed by such party and shall be effective only to the extent specifically set forth in such writing.

11. Right of Discharge Preserved. Nothing in this Agreement shall confer upon the Participant the right to continue in the employ or other service of the Company, or affect any right which the Company may have to terminate such employment or service.

12. Integration. This Agreement contains the entire understanding of the parties with respect to its subject matter. There are no restrictions, agreements, promises, representations, warranties, covenants or undertakings with respect to the subject matter hereof other than those expressly set forth herein. This Agreement, including, without limitation, the Plan, supersedes all prior agreements and understandings between the parties with respect to its subject matter.

13. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument.

14. Governing Law. This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of New York, without regard to the provisions governing conflict of laws.

15. Obligation to Notify. If the Participant makes the election permitted under Section 83(b) of the Internal Revenue Code of 1986, as amended (that is, an election to include in gross income in the year of transfer the amounts specified in Section 83(b)), the Participant shall notify the Company of such election within 10 days of filing notice of the election with the Internal Revenue Service and shall within the same 10-day period remit to the Company an amount sufficient in the opinion of the Company to satisfy any federal, state and other governmental tax withholding requirements related to such inclusion in Participant's income. The Participant should consult with his or her tax advisor to determine the tax consequences of acquiring the Restricted Stock and the advantages and disadvantages of filing the Section 83(b) election. The Participant acknowledges that it is his or her sole responsibility, and not the Company's, to file a timely election under Section 83(b), even if the Participant requests the Company or its representatives to make this filing on his or her behalf.

16. Reimbursement for Excise Tax. In the event that the Participant incurs any Excise Tax (as defined in the Participant's Employment Agreement with the Company dated as of September 21, 2007 (the "Employment Agreement")) on any payments or benefits under this Agreement, the Company shall gross-up the Participant the amount of such Excise Tax incurred in accordance with the provisions of Section 7(b) of the Employment Agreement (such provisions to apply irrespective of whether the Employment Agreement or its Term continues in effect at the time of such Excise Tax) and such Section 7(b) of the Employment Agreement relating to the Gross-Up Payment (as defined in the Employment Agreement) shall be incorporated with full effect into this Agreement, provided that any reference to "you" and to "this Agreement" in such Section 7(b) shall be deemed to refer to the "Participant" and this Restricted Stock Grant Agreement, respectively.

17. Participant Acknowledgment. The Participant hereby acknowledges receipt of a copy of the Plan. The Participant hereby acknowledges that all decisions,

determinations and interpretations of the Board of Directors in respect of the Plan, this Agreement and the Restricted Stock shall be final and conclusive.

IN WITNESS WHEREOF, the Company has caused this Agreement to be duly executed by its duly authorized officer, and the Participant has hereunto signed this Agreement on his own behalf, thereby representing that he has carefully read and understands this Agreement and the Plan as of the day and year first written above.

CERTIFICATION

I, Robert Gerald Buchanan, certify that:

1. I have reviewed this Annual Report on Form 10-K for the fiscal year ended December 31, 2011 of Genco Shipping & Trading Limited;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
