(1) Calculated in accordance with Rule 457(r) of the Securities Act of 1933.

(2) This “Calculation of Registration Fee” table shall be deemed to update the “Calculation of Registration Fee” table in the Company’s Registration Statement on Form S-3 (File No. 333-202769) in accordance with Rules 456(b) and 457(r) under the Securities Act of 1933.
Vulcan Materials Company

$250,000,000 Floating Rate Notes due 2020
$50,000,000 3.90% Notes due 2027
$700,000,000 4.50% Notes due 2047

We are offering $250,000,000 of our Floating Rate Notes due 2020 (the “Floating Rate notes”), $50,000,000 of our 3.90% Notes due 2027 (the “2027 notes”) and $700,000,000 of our 4.50% Notes due 2047 (the “2047 notes”) and, together with the Floating Rate notes and the 2027 notes, the “notes”). The 2027 notes will be a further issuance of, and will form a single series with, the $350,000,000 aggregate principal amount of 3.90% notes due 2027 issued on March 14, 2017 (the “existing 2027 notes”). Upon completion of this offering, we will have $400,000,000 aggregate principal amount of outstanding 3.90% notes due 2027. The 2027 notes offered hereby will have the same terms (other than issue date and price to public) and will vote together as a single class, with the sameCUSIP number as, and be fungible with, the existing 2027 notes. We will pay interest on the Floating Rate notes quarterly on March 15, June 15, September 15 and December 15 of each year commencing September 15, 2017, on the 2027 notes semi-annually on April 1 and October 1 of each year commencing October 1, 2017, and on the 2047 notes semi-annually on June 15 and December 15 of each year commencing December 15, 2017. The Floating Rate notes will mature on June 15, 2020, the 2027 notes will mature on April 1, 2027 and the 2047 notes will mature on June 15, 2047. The notes will be issued only in minimum denominations of $2,000 and $1,000 multiples above that amount.

On May 24, 2017, our subsidiary, Vulcan Construction Materials, LLC (“VCM”), entered into a Membership Interest Purchase Agreement with Aggregates USA Holdings Sub, LLC (“Holdings Sub”), Aggregates USA, LLC (“Aggregates USA”), and SPO Partners II, L.P., as may be amended or modified by the parties thereto (the “Purchase Agreement”), pursuant to which, subject to the satisfaction or waiver of certain conditions, VCM will purchase from Holdings Sub all of the issued and outstanding equity interests of Aggregates USA (the “Acquisition”). The offering contemplated hereby is not conditioned upon the completion of the Acquisition, which, if completed, will occur subsequent to the closing of the offering. Upon the first to occur of either (i) February 24, 2018 (or such later date to which the Extended Outside Date (as defined in the Purchase Agreement) is extended by agreement of the parties to the Purchase Agreement) (the “Redemption Trigger Date”), if the Acquisition is not consummated on or prior to such date; or (ii) the date on which the Purchase Agreement is terminated (the “Special Mandatory Redemption Trigger”), we will be required to redeem the Floating Rate notes in whole, at a redemption price equal to 101% of the aggregate principal amount of the Floating Rate notes being redeemed, plus accrued and unpaid interest on the aggregate principal amount of the Floating Rate notes being redeemed to, but excluding, the date of the special mandatory redemption (the “Special Mandatory Redemption”). There is no escrow account for, or security interest in, the proceeds from the sales of the Floating Rate notes for the benefit of holders of the Floating Rate notes. See “Risk Factors” and “Description of the Notes—Special Mandatory Redemption.” The Floating Rate notes may also be redeemed at our option, in whole, at any time before the Redemption Trigger Date, at a redemption price equal to 101% of the aggregate principal amount of the Floating Rate notes being redeemed, plus accrued and unpaid interest on the aggregate principal amount of the Floating Rate notes being redeemed to, but excluding, the date of such redemption, if we determine, in our judgment, the Acquisition will not be consummated on or before the Redemption Trigger Date (the “Special Optional Redemption”). See “Description of the Notes—Special Optional Redemption.”

We have the option to redeem all or a portion of the 2027 notes and the 2047 notes at any time at the applicable redemption price described under “Description of the Notes—Optional Redemption” in this prospectus supplement. We will not have the option to redeem the Floating Rate notes, in whole or in part, prior to the maturity date, other than through a Special Optional Redemption. In addition, if a change of control repurchase event has occurred, unless we have exercised our right to redeem the notes (or, in the case of the Floating Rate notes, have been required to redeem the Floating Rate notes) or have defeased the notes, we will be required to offer to purchase the notes from holders on the terms described under “Description of the Notes—Change of Control Repurchase Event” in this prospectus supplement. There is no sinking fund for the notes.

The notes will be our general unsecured obligations and will rank equally in right of payment with all of our other current and future unsecured and unsubordinated debt. The notes will be effectively subordinated to all of our secured debt (to the extent of the value of the collateral pledged to secure that debt) and to all indebtedness and other liabilities of our subsidiaries, which will not guarantee the notes.

The Floating Rate notes and 2047 notes offered by this prospectus supplement are each a new issue of securities with no established trading market. We do not intend to apply to list the notes on any securities exchange.

See “Risk Factors” beginning on page S-11 of this prospectus supplement to read about important factors you should consider before buying the notes.

(1) In the case of the Floating Rate notes and the 2047 notes, the initial public offering price set forth above does not include accrued interest, if any. In the case of the 2027 notes, the initial public offering price set forth above includes interest accrued from March 14, 2017. Interest on the Floating Rate notes and 2047 notes offered by this prospectus supplement will accrue from June 15, 2017. Interest on the 2027 notes offered by this prospectus supplement will accrue from March 14, 2017.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

The underwriters expect to deliver the notes through the facilities of The Depository Trust Company and its participants, including Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme, against payment in New York, New York on or about June 15, 2017.

S-i
ABOUT THIS PROSPECTUS SUPPLEMENT

This document consists of two parts. The first part is the prospectus supplement, which describes the specific terms of this offering. The second part is the prospectus, which contains more general information, some of which may not apply to this offering. You should read both this prospectus supplement and the accompanying prospectus, together with the documents identified under the heading “Where You Can Find More Information and Incorporation by Reference of Certain Documents” in this prospectus supplement. If the information set forth in this prospectus supplement differs in any way from the information set forth in the accompanying prospectus, you should rely on the information set forth in this prospectus supplement.

You should rely only on the information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. This prospectus supplement and the accompanying prospectus may be used only for the purpose for which they have been prepared.

We are not, and the underwriters are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in this prospectus supplement, the accompanying prospectus or any document incorporated by reference is accurate as of any date other than the date of the applicable document. Our business, financial condition, results of operations and prospects may have changed since that date. Neither this prospectus supplement nor the accompanying prospectus constitutes an offer, or an invitation on our behalf or on behalf of the underwriters, to subscribe for and purchase any of the securities covered by this prospectus supplement and may not be used for or in connection with an offer or solicitation by anyone, in any jurisdiction in which such an offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation.

FORWARD-LOOKING STATEMENTS

This prospectus supplement, including the documents we incorporate by reference, contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Generally, these statements relate to future financial performance, results of operations, business plans or strategies, projected or anticipated revenues, expenses, earnings, or levels of capital expenditures. These statements reflect our intent, belief or current expectation. Statements to the effect that we or our management “anticipate,” “believe,” “estimate,” “expect,” “plan,” “predict,” “intend,” or “project” a particular result or course of events or “target,” “objective,” or “goal,” or that a result or event “should” occur, and other similar expressions, identify these forward-looking statements. These statements are subject to numerous risks, uncertainties, and assumptions, including but not limited to general business conditions, competitive factors, pricing, energy costs, and other risks and uncertainties discussed in the reports we periodically file with the SEC. These risks, uncertainties, and assumptions may cause our actual results or performance to be materially different from those expressed or implied by the forward-looking statements. We caution prospective investors that forward-looking statements are not guarantees of future performance and that actual results, developments, and business decisions may vary significantly from those expressed in or implied by the forward-looking statements. We undertake no obligation to update publicly or revise any forward-looking statement for any reason, whether as a result of new information, future events or otherwise.

In addition to the risk factors identified in this prospectus supplement, the following risks related to our business, among others, could cause actual results to differ materially from those described in the forward-looking statements:

- general economic and business conditions;
- the timing and amount of federal, state and local funding for infrastructure;
- changes in our effective tax rate;
the increasing reliance on information technology infrastructure for our ticketing, procurement, financial statements and other processes could adversely affect operations in the event that the infrastructure does not work as intended or experiences technical difficulties or is subjected to cyber attacks;

the impact of the state of the global economy on our business and financial condition and access to capital markets;

changes in the level of spending for private residential and private nonresidential construction;

the highly competitive nature of the construction materials industry;

the impact of future regulatory or legislative actions, including those relating to climate change, greenhouse gas emissions, the definition of minerals or international trade;

the outcome of pending legal proceedings;

pricing of our products;

weather and other natural phenomena;

energy costs;

costs of hydrocarbon-based raw materials;

healthcare costs;

the amount of long-term debt and interest expense we incur;

changes in interest rates;

volatility in pension plan asset values and liabilities, which may require cash contributions to our pension plans;

the impact of environmental clean-up costs and other liabilities relating to existing and/or divested businesses;

our ability to secure and permit aggregates reserves in strategically located areas;

our ability to manage and successfully integrate acquisitions;

the potential of goodwill or long-lived asset impairment;

modification to the terms of the Acquisition may be required in order to satisfy approvals or conditions;

business disruption during the pendency of or following the Acquisition, including diversion of management time;

the risks set forth in “Risk Factors” beginning on page S-11 of this prospectus supplement and Item 3 “Legal Proceedings,” Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and Note 12 “Commitments and Contingencies” to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2016, and Note 8 “Commitments and Contingencies” to the consolidated financial statements in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, respectively, each incorporated by reference herein; and

other assumptions, risks and uncertainties detailed from time to time in our filings made with the Securities and Exchange Commission (the “SEC”).
### SUMMARY

Unless otherwise stated or the context otherwise requires, references in this prospectus supplement to “Vulcan,” the “company,” “we,” “our,” or “us” refer to Vulcan Materials Company and its consolidated subsidiaries. When we use these terms in “Description of the Notes” and “—The Offering” in this prospectus supplement and “Description of Debt Securities” in the accompanying prospectus, we mean Vulcan Materials Company only, unless otherwise stated or the context otherwise requires. The following summary highlights selected information contained elsewhere in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus supplement and may not contain all the information you will need in making your investment decision. You should carefully read this entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus. You should pay special attention to the “Risk Factors” section of this prospectus supplement.

#### Our Company

We are the nation’s largest supplier of construction aggregates (primarily crushed stone, sand and gravel), with coast-to-coast aggregates operations, and are a major producer of asphalt mix and ready-mixed concrete. We operated 337 aggregates facilities and had an estimated 15.5 billion tons of permitted and proven or probable aggregates reserves as of December 31, 2016. The bulk of these reserves are located in areas where we expect greater than average rates of growth in population, households and employment, which require new infrastructure, housing, offices, schools and other development. We believe our large, geographically diverse and strategically located footprint represents an unmatched and distinctive set of assets that support the growth of the U.S. economy. This positioning is supported by our control of the largest proven and probable reserve base in the U.S. These factors allow us to provide attractive unit profitability through our strong operating expertise and price discipline. For the three month period ended March 31, 2017, we generated total revenues and Adjusted EBITDA of approximately $787.3 million and $149.3 million, respectively.

Our primary focus is serving states and metropolitan markets in the U.S. that are expected to experience the most significant growth in population, households and employment. These three demographic factors are significant drivers of demand for construction activity and, as a result, demand for aggregates. Vulcan-served states are estimated to experience 79% of U.S. population growth, 71% of U.S. household formation growth and 63% of new job growth between 2015 and 2025. The location of our permitted reserves is critical to our long-term success because of barriers to entry in some markets created by zoning and permitting regulations and high transportation costs. Zoning and permitting restrictions could curtail expansion of the number of quarries in certain areas, particularly in certain closer-to-market urban and suburban areas, but could also increase the value of our reserves at existing locations. High transportation costs can serve as a barrier to entry given the high weight-to-value ratio of aggregates. Therefore, in most cases, aggregates must be produced near where they are used; if not, transportation can cost more than the materials themselves. The majority of our reserves are located close to our local markets, with approximately 96% of our total aggregates volumes shipped by truck.

The primary end uses of our products include public construction, such as highways, bridges, airports, schools and prisons, as well as private nonresidential (e.g., manufacturing, retail, offices, industrial and institutional) and private residential construction (e.g., single family houses, duplexes, apartment buildings and condominiums). Publicly-funded construction accounted for 47% of our total aggregates shipments during the year ended December 31, 2016. We experience relatively stable demand from the public sector as publicly funded projects tend to receive more consistent levels of funding throughout economic cycles. Customers for our products include heavy construction and paving contractors; commercial building contractors; concrete products manufacturers; residential building contractors; state, county and municipal governments; railroads and electric utilities. We maintain a very broad and diverse customer base, with no significant customer concentration: our
top five customers in the year ended December 31, 2016 accounted for only 8.1% of our total revenues and no single customer accounted for more than 3.0% of our total revenues.

Recent Developments

On May 24, 2017, our subsidiary, VCM, entered into the Purchase Agreement with Holdings Sub, Aggregates USA, and SPO Partners II, L.P., pursuant to which, subject to the satisfaction or waiver of certain conditions, VCM will purchase from Holdings Sub all of the issued and outstanding equity interests of Aggregates USA. The purchase price for the Acquisition is $900 million in cash, adjusted to reflect cash, indebtedness, working capital and Acquisition expenses of Aggregates USA as of the closing date. The completion of the Acquisition is subject to customary closing conditions, including the absence of a material adverse effect on Aggregates USA, the absence of any injunction or other legal prohibition, accuracy of the parties’ representations, compliance by the parties with covenants, and the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended. We intend to use a portion of the net proceeds from this offering to fund the Acquisition.

***

Our common stock is traded on the New York Stock Exchange under the symbol “VMC.” Additional information about Vulcan Materials Company and its subsidiaries can be found in our documents filed with the SEC, which are incorporated herein by reference. See “Where You Can Find More Information and Incorporation by Reference of Certain Documents” in this prospectus supplement.

Our principal executive office is located at 1200 Urban Center Drive, Birmingham, Alabama 35242 and our telephone number is (205) 298-3000.

Our website is located at http://www.vulcanmaterials.com. We do not incorporate the information on our website into this prospectus supplement or the accompanying prospectus and you should not consider it part of this prospectus supplement.

</tr>
<tr>
<td>Interest Rate and Payment Dates (2027 notes and 2047 notes)</td>
<td>The 2027 notes will bear interest at 3.90% per annum. We will pay interest on the 2027 notes semi-annually on April 1 and October 1, of each year commencing October 1, 2017. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.</td>
</tr>
<tr>
<td></td>
<td>The 2047 notes will bear interest at 4.50% per annum. We will pay interest on the 2047 notes semi-annually on June 15 and December 15 of each year commencing December 15, 2017. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.</td>
</tr>
<tr>
<td>Ranking</td>
<td>The notes will be our general unsecured obligations and will rank equally in right of payment with all of our other current and future unsecured and unsubordinated debt (including the existing 2027 notes) and senior in right of payment to all of our future subordinated</td>
</tr>
</tbody>
</table>
debt. The notes are not guaranteed by any of our subsidiaries. The notes will be effectively
subordinated to all of our secured debt (to the extent of the value of the collateral pledged to
secure that debt) and to all indebtedness and other liabilities of our subsidiaries. As of March 31,
2017, we and our subsidiaries had unsecured debt with a total face value of approximately
$2,354.1 million, approximately $235.0 million of which was outstanding on our bank line of
credit, and approximately $0.4 million of which was debt of our subsidiaries. The Indenture (as
defined under “Description of the Notes”) under which the notes will be issued does not restrict
the amount of secured or unsecured debt that we or our subsidiaries may incur. See “Risk Factors
—Risks Related to an Investment in the Notes.”

Optional Redemption

At any time prior to the date that is three months prior to the maturity date for the 2027 notes or
six months prior to the maturity date for the 2047 notes, we may redeem such notes in whole or in
part from time to time at the applicable make-whole premium redemption price described under
“Description of the Notes—Optional Redemption.” In addition, at any time on or after the date
that is three months prior to the maturity date for the 2027 notes or six months prior to the
maturity date for the 2047 notes, we may redeem such notes in whole or in part, at our option,
from time to time at a redemption price equal to 100% of the aggregate principal amount of such
notes being redeemed, plus any accrued and unpaid interest on such notes being redeemed to, but
not including, the redemption date. See “Description of the Notes—Optional Redemption.”

We will not have the option to redeem the Floating Rate notes, in whole or in part, prior to the
maturity date thereof, other than through a Special Optional Redemption.

Special Mandatory Redemption

Upon the occurrence of a Special Mandatory Redemption Trigger, we will be required to redeem
the Floating Rate notes, in whole, at a redemption price equal to 101% of the aggregate principal
amount of the Floating Rate notes being redeemed, plus accrued and unpaid interest on the
aggregate principal amount of the Floating Rate notes being redeemed to, but excluding, the date
of such redemption. See “Description of the Notes—Special Mandatory Redemption.”

Special Optional Redemption

We will have the right to redeem the Floating Rate notes at any time, in whole, before the
Redemption Trigger Date, at a redemption price equal to 101% of the aggregate principal amount
of the Floating Rate notes being redeemed, plus accrued and unpaid interest on the aggregate
principal amount of the Floating Rate notes being redeemed to, but excluding, the date of such
redemption, if we determine, in our judgment, the Acquisition will not be consummated on or
before the Redemption Trigger Date. See “Description of the Notes—Special Optional
Redemption.”

SUMMARY CONSOLIDATED FINANCIAL DATA AND OTHER FINANCIAL DATA

The following tables summarize the consolidated financial data for our business as of and for each of the periods presented. We derived the summary consolidated operations statement, segment data and balance sheet data for each of the three years in the period ended December 31, 2016 from our audited consolidated financial statements. We derived the summary consolidated operations statement, segment data and balance sheet data for the quarters ended March 31, 2017 and March 31, 2016 from our unaudited consolidated financial statements which include, in the opinion of our management, all adjustments, consisting or normal recurring adjustments, necessary to present fairly our results of operations and financial position for the periods and dates presented.

The following summary historical consolidated financial data should be read in conjunction with, and such data is qualified in its entirety by reference to, our audited and unaudited consolidated financial statements, the related notes and other financial information contained in our Annual Report on Form 10-K for the year ended December 31, 2016 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, respectively, each of which are incorporated by reference herein. Our historical results are not necessarily indicative of future operating results.

(1) Aggregates freight-adjusted revenues are Aggregates segment sales excluding freight, delivery and transportation revenues, and other revenues related to services, such as landfill tipping fees that are derived from our aggregates business.

(2) Aggregates freight-adjusted average sales price per ton is calculated as freight-adjusted revenues divided by aggregates unit shipments.

(3) Includes product sales, as well as freight, delivery and transportation revenues, and other revenues related to services.

(4) On March 7, 2014, we sold our concrete business in the Florida area.

(5) Includes cement and calcium products. On March 7, 2014, we sold our cement business.

(1) “Earnings Before Interest, Taxes, Depreciation and Amortization” (EBITDA) is a “non-GAAP financial measure” as defined under the rules of the SEC, and it should not be considered as an alternative to earnings measures defined by GAAP. We present this metric for the convenience of investment professionals who use such metrics in their analyses and for shareholders who need to understand the metrics we use to assess performance. We use this metric to assess the operating performance of our business and for a basis of strategic planning and forecasting as we believe that it closely correlates to long-term shareholder value. We do not use this metric as a measure to allocate resources. We adjust EBITDA for certain items to provide a more consistent comparison of earnings performance from period to period.
RISK FACTORS

Any investment in the notes involves risks. You should carefully consider the following risks, together with the information included in or incorporated by reference in this prospectus supplement and the accompanying prospectus before deciding whether an investment in the notes is suitable for you. If any of these risks actually occurs, our business, results of operations or financial condition could be materially and adversely affected. In such an event, the trading prices of the notes could decline, and you might lose all or part of your investment.

Risks Related to an Investment in the Notes

The Indenture does not limit the amount of indebtedness that we may incur.

The Indenture under which each series of the notes will be issued does not limit the amount of indebtedness that we may incur. Other than as described under “Description of the Notes—Change of Control Repurchase Event” in this prospectus supplement, the Indenture does not contain any financial covenants or other provisions that would afford the holders of the notes any substantial protection in the event we participate in a highly leveraged transaction.

The definition of a change of control requiring us to repurchase any series of the notes is limited, so that the market price of such notes may decline if we enter into a transaction that is not a change of control under the Indenture governing the notes.

The term “change of control” (as used in each series of the notes and the supplemental indenture governing such notes) is limited in terms of its scope and does not include every event that might cause the market price of the notes to decline. In particular, we could effect a transaction on a highly leveraged basis that would not be considered a change of control under the terms of a given series of the notes. Furthermore, we are required to repurchase notes upon a change of control only if, as a result of that change of control, the applicable series of the notes are downgraded to a rating that is below “investment grade.” As a result, our obligation to repurchase the notes upon the occurrence of a change of control is limited and may not preserve the value of the notes in the event of a highly leveraged transaction, reorganization, merger or similar transaction.

The notes are obligations exclusively of Vulcan Materials Company and not of our subsidiaries and payment to holders of the notes will be structurally subordinated to the claims of our subsidiaries’ creditors.

The notes will be our general unsecured obligations and will rank equally in right of payment with all of our other current and future unsecured and unsubordinated debt and senior in right of payment to all of our future subordinated debt. The notes are not guaranteed by any of our subsidiaries. The notes will be effectively subordinated to all indebtedness and other liabilities of our subsidiaries. As of March 31, 2017, we and our subsidiaries had unsecured debt with a total face value of approximately $2,354.1 million, approximately $235.0 million of which was outstanding on our bank line of credit, and approximately $0.4 million of which was debt of our subsidiaries.

The notes will be effectively junior to secured indebtedness that we may issue in the future and there is no limit on the amount of secured debt we may issue.

The notes are unsecured. As of March 31, 2017, we had no secured debt, but we may issue secured debt in the future in an unlimited amount. The Indenture contains a covenant limiting our ability to issue debt secured by any shares of stock or debt of any “restricted subsidiary” or by any “principal property,” as defined in the Indenture, without ratably securing the notes. As of March 31, 2017, we had two such principal properties, which represented approximately 10.0% of our consolidated net tangible assets. We could secure any amount of indebtedness with liens on any of our other assets without equally and ratably securing the notes. Holders of our
secured debt that we may issue in the future may foreclose on the assets securing that debt, reducing the cash flow from the foreclosed property available for payment of unsecured debt, including the notes. Holders of our secured debt also would have priority over unsecured creditors in the event of our bankruptcy, liquidation or similar proceeding.

A downgrade or other changes in our credit ratings could occur or other events could affect our financial results and reduce the market value of the notes.

Our outstanding debt securities have been, and we expect each series of the notes will be, rated by each of Fitch, Moody’s and S&P. A rating is not a recommendation to purchase, hold or sell our debt securities, since a rating does not predict the market price of a particular security or its suitability for a particular investor. Any of these rating organizations may lower our rating or decide not to rate our securities in its sole discretion. The rating of our debt securities is based primarily on the rating organization’s assessment of the likelihood of timely payment of interest when due on our debt securities and the ultimate payment of principal of our debt securities on the final maturity date. Any ratings downgrade could increase our cost of borrowing or affect our ability to access financing. The reduction, suspension or withdrawal of the ratings of our debt securities will not, in and of itself, constitute an event of default under the Indenture.

There is no public market for the Floating Rate notes or the 2047 notes, which could limit their market price or your ability to sell them. If active trading markets do not develop or continue for the notes, you may be unable to sell your notes or to sell your notes at prices that you deem sufficient.

The Floating Rate notes and the 2047 notes are each a new issue of securities for which there currently is no established trading market. We do not intend to list the notes on any securities exchange or to have the notes quoted on any automated quotation system. While the underwriters of the notes have advised us that they intend to make a market in the notes, the underwriters will not be obligated to do so and may stop their market-making at any time. As a result, no assurance can be given:

• that a market for the notes will develop or continue;
• as to the liquidity of any market that does develop; or
• as to your ability to sell any notes you may own or the price at which you may be able to sell your notes.

Accordingly, you may be required to bear the financial risk of an investment in the notes for an indefinite period of time. If any of the notes are traded after their initial issuance, they may trade at a discount from their initial offering price. Future trading prices of the notes will depend on many factors, including prevailing interest rates, the market for similar securities, general economic conditions and our financial condition, performance and prospects.

We may choose to redeem the 2027 notes (together with the existing 2027 notes) or the 2047 notes prior to maturity.

We may redeem the 2027 notes (together with the existing 2027 notes) or the 2047 notes at any time in whole, or from time to time in part, at the applicable redemption price specified in this prospectus supplement under “Description of the Notes—Optional Redemption.” If prevailing interest rates are lower at the time of redemption, holders of such notes may not be able to reinvest the redemption proceeds in a comparable security at an interest rate as high as the interest rate on the notes being redeemed. Our redemption right may also adversely affect holders’ ability to sell their notes.
Upon the occurrence of a Special Mandatory Redemption Trigger, we will be required to redeem the Floating Rate notes. In addition, the Floating Rate notes may also be redeemed at our option, if, in our judgment, the Acquisition will not be consummated on or before the Redemption Trigger Date. If we redeem the Floating Rate notes, holders may not obtain their expected return on the Floating Rate notes.

The closing of the offering contemplated hereby is not conditioned on, and is expected to be consummated before, the closing of the Acquisition. We may not be able to consummate the Acquisition within the timeframe specified under “Description of the Notes—Special Mandatory Redemption” or at all.

Upon the occurrence of a Special Mandatory Redemption Trigger, we will be required to redeem the Floating Rate notes, in whole, at a redemption price equal to 101% of the aggregate principal amount of the Floating Rate notes being redeemed, plus accrued and unpaid interest on the aggregate principal amount of the Floating Rate notes being redeemed to, but excluding, the date of such redemption. The Floating Rate notes may also be redeemed at our option, in whole, at any time before the Redemption Trigger Date, at a redemption price equal to 101% of the aggregate principal amount of the Floating Rate notes being redeemed, plus accrued and unpaid interest on the aggregate principal amount of the Floating Rate notes being redeemed to, but excluding, the date of such redemption, if, in our judgment, the Acquisition will not be consummated on or before the Redemption Trigger Date. Holders of the Floating Rate notes will have no rights under the Special Mandatory Redemption provision if the Acquisition closes, nor will holders of the Floating Rate notes have any right to require us to repurchase the Floating Rate notes if, between the closing of the offering contemplated hereby and the completion of the Acquisition, we experience any changes (including any material adverse changes) in our business or financial condition, or if the terms of the Purchase Agreement change, including in any material respect.

If the Floating Rate notes are redeemed, holders may not obtain their expected return on the Floating Rate notes and may not be able to reinvest the proceeds from redemption in an investment that results in a comparable return. In addition, as a result of such redemption provisions of the Floating Rate notes, the trading prices of the Floating Rate notes may not reflect the financial results of our business or macroeconomic factors.

We are not obligated to place the net proceeds from the sales of the Floating Rate notes in escrow prior to the closing of the Acquisition and, as a result, we may not be able to repurchase the Floating Rate notes upon a Special Mandatory Redemption Trigger.

We are not obligated to place the net proceeds from the sales of the Floating Rate notes in escrow prior to the closing of the Acquisition or to provide a security interest in those proceeds, and the Indenture imposes no restrictions on our use of these proceeds during that time. Accordingly, the source of funds for any redemption of Floating Rate notes upon a Special Mandatory Redemption Trigger would be the proceeds that we have voluntarily retained or other sources of liquidity, including available cash, borrowings, sales of assets or sales of equity securities. We may not be able to satisfy our obligation to redeem the Floating Rate notes following a Special Mandatory Redemption Trigger because we may not have sufficient financial resources to pay the aggregate redemption price on the Floating Rate notes. As a result, the net proceeds from the sales of the Floating Rate notes may be subject to a greater risk of loss than if they were deposited into escrow, which may jeopardize our ability to fund the Acquisition or, upon the occurrence of a Special Mandatory Redemption Trigger, the Special Mandatory Redemption. Our failure to redeem or repurchase the Floating Rate notes as required under the Indenture would result in a default under the Indenture, which could result in defaults under certain of our other debt agreements and have material adverse consequences for us and the holders of the Floating Rate notes.

The amount of interest payable on the Floating Rate notes is set only once per period based on the three-month LIBOR rate on the interest determination date, which rate may fluctuate substantially.

In the past, the level of the three-month LIBOR rate has experienced significant fluctuations. You should note that historical levels, fluctuations and trends of the three-month LIBOR rate are not necessarily
indicative of future levels. Any historical upward or downward trend in the three-month LIBOR rate is not an indication that the three-month LIBOR rate is more or less likely to increase or decrease at any time during a floating rate interest period (as described in “Description of the Notes”), and you should not take the historical levels of the three-month LIBOR rate as an indication of its future performance. In addition, although the actual three-month LIBOR rate on an interest payment date or at other times during an interest period may be higher than the three-month LIBOR rate on the applicable interest determination date (as defined in “Description of the Notes”), the only relevant date for purposes of determining the interest payable on the Floating Rate notes is the three-month LIBOR rate as of the respective interest determination date. Changes in the three-month LIBOR rates between interest determination dates will not affect the interest payable on the Floating Rate notes. As a result, changes in the three-month LIBOR rate may not result in a comparable change in the market value of the Floating Rate notes.

Uncertainty relating to the LIBOR calculation process may adversely affect the value of your Floating Rate notes.

Regulators and law enforcement agencies in the United Kingdom and elsewhere are conducting civil and criminal investigations into whether the banks that contribute to the British Bankers’ Association (the “BBA”), in connection with the calculation of daily LIBOR, may have been under-reporting or otherwise manipulating or attempting to manipulate LIBOR. A number of BBA member banks have entered into settlements with their regulators and law enforcement agencies with respect to alleged manipulation of LIBOR.

Actions by the BBA, regulators or law enforcement agencies may result in changes to the manner in which LIBOR is determined. At this time, it is not possible to predict the effect of any such changes or any other reforms to LIBOR that may be enacted in the United Kingdom or elsewhere. Uncertainty as to the nature of such potential changes may adversely affect the trading market for LIBOR-based securities, including the Floating Rate notes.

Economic/Political Risks

Changes in legal requirements and governmental policies concerning zoning, land use, environmental, international trade and other areas of the law may result in additional liabilities, a reduction in operating hours and additional capital expenditures.

Our operations are affected by numerous federal, state and local laws and regulations related to zoning, land use, environmental, and international trade matters. Despite our compliance efforts, we have an inherent risk of liability in the operation of our business. These potential liabilities could have an adverse impact on our operations and profitability. In addition, our operations are subject to environmental, zoning and land use requirements and require numerous governmental approvals and permits, which often require us to make significant capital and operating expenditures to comply with the applicable requirements. Stricter laws and regulations, or more stringent interpretations of existing laws or regulations, may impose new liabilities, taxes or tariffs on us, reduce operating hours, require additional investment by us in pollution control equipment, or impede our opening new or expanding existing plants or facilities.

Our business is dependent on the timing and amount of federal, state and local funding for infrastructure.

Our products are used in a variety of public infrastructure projects that are funded and financed by federal, state and local governments. In 2015, Congress passed and President Obama signed a five-year, fully-funded bill into law to invest in roads, bridges and public transportation. In 2016, three state legislatures in Vulcan-served areas passed one-time revenue increases for transportation and ballot measures were also passed to increase investment transportation infrastructure in several Vulcan-served areas including northern and southern California, Georgia, North Carolina and South Carolina, and in 2017, state legislatures in South Carolina, Tennessee and California passed measures to increase infrastructure investment statewide. However,
given varying state and local budgetary situations and the associated pressure on infrastructure spending, we cannot be entirely assured of the existence, amount and timing of appropriations for future public infrastructure projects.

**Climate change and climate change legislation or regulations may adversely impact our business.**

A number of governmental bodies have introduced or are contemplating legislative and regulatory change in response to the potential impacts of climate change. Such legislation or regulation, if enacted, potentially could include provisions for a “cap and trade” system of allowances and credits or a carbon tax, among other provisions.

Other potential impacts of climate change include physical impacts, such as disruption in production and product distribution due to impacts from major storm events, shifts in regional weather patterns and intensities, and potential impacts from sea level changes. There is also a potential for climate change legislation and regulation to adversely impact the cost of purchased energy and electricity.

The impacts of climate change on our operations and the company overall are highly uncertain and difficult to estimate. However, climate change legislation and regulation concerning greenhouse gases could have a material adverse effect on our future financial position, results of operations or cash flows.

**We are subject to various risks arising from our international business operations and relationships, which could adversely affect our business.**

We have international operations and are subject to both the risks of conducting international business and the requirements of the Foreign Corrupt Practices Act of 1977 (the FCPA). We face political and other risks associated with our international operations, including our largest production facility located in Playa del Carmen, Mexico. These risks may include restrictive trade policies, imposition of duties, taxes or government royalties or overt acts by foreign governments. In addition, failure to comply with the FCPA may result in legal claims against us.

**Growth and Competitive Risks**

**Within our local markets, we operate in a highly competitive industry which may negatively impact prices, volumes and costs.**

The construction aggregates industry is highly fragmented with a large number of independent local producers in a number of our markets. Additionally, in most markets, we also compete against large private and public companies, some of which are significantly vertically integrated. Therefore, there is intense competition in a number of markets in which we operate. This significant competition could lead to lower prices and lower sales volumes in some markets, negatively affecting our earnings and cash flows.

**The expanded use of aggregates substitutes could have a material adverse effect on our business, financial condition and results of operations.**

Recycled concrete and asphalt mix are increasingly being used in a number of our markets, particularly urban markets, as a substitute for aggregates. The expanded use of recycled concrete and asphalt mix could cause a significant reduction in the demand for aggregates.

**Our long-term success depends upon securing and permitting aggregates reserves in strategically located areas. If we are unable to secure and permit such reserves it could negatively affect our future earnings.**

Construction aggregates are bulky and heavy and, therefore, difficult to transport efficiently. Because of the nature of the products, the freight costs can quickly surpass the production costs. Therefore, except for
geographic regions that do not possess commercially viable deposits of aggregates and are served by rail, barge or ship, the markets for our products tend to be localized around our quarry sites and are served by truck. New quarry sites often take years to develop; therefore, our strategic planning and new site development must stay ahead of actual growth. Additionally, in a number of urban and suburban areas in which we operate, it is increasingly difficult to permit new sites or expand existing sites due to community resistance. Therefore, our future success is dependent, in part, on our ability to accurately forecast future areas of high growth in order to locate optimal facility sites and on our ability to secure operating and environmental permits to operate at those sites.

Our future growth depends in part on acquiring other businesses in our industry and successfully integrating them with our existing operations. If we are unable to integrate acquisitions successfully, it could lead to higher costs and could negatively affect our earnings.

The expansion of our business is dependent in part on the acquisition of existing businesses that own or control aggregates reserves. Disruptions in the availability of financing could make it more difficult to capitalize on potential acquisitions. Additionally, with regard to the acquisitions we are able to complete, our future results will depend in part on our ability to successfully integrate these businesses with our existing operations.

We cannot assure you that the proposed Acquisition will be completed.

There are a number of risks and uncertainties relating to the Acquisition. For example, the Acquisition may not be completed, or may not be completed in the timeframe, on the terms or in the manner currently anticipated, as a result of a number of factors, including, among other things, the failure of one or more of the conditions to closing. There can be no assurance that the conditions to closing of the Acquisition will be satisfied or waived or that other events will not intervene to delay or result in the failure to close the Acquisition.

In addition, to complete the Acquisition, we need to obtain approvals or consents from, and make filings with, certain applicable governmental authorities. There can be no assurance as to the receipt or timing of receipt of these approvals. The Purchase Agreement provides VCM, Holdings Sub and Aggregates USA with certain termination rights, including if the closing has not occurred on or prior to the date that is six months from the date of the Purchase Agreement, except that this date may be extended by VCM, Holdings Sub or Aggregates USA for up to an additional three months in circumstances where competition and other regulatory approvals have not yet been obtained. Any delay in closing or a failure to close could have a negative impact on our business and the trading price of our securities, including the notes. Failure to complete the Acquisition under certain circumstances could also result in VCM paying a reverse termination fee to Holdings Sub. While the Floating Rate notes are subject to the provisions described under “Description of the Notes—Special Mandatory Redemption Trigger,” the 2027 notes and the 2047 notes are not subject to such provisions and will remain outstanding whether or not the Acquisition closes.

We may fail to realize all of the anticipated benefits of the Acquisition or those benefits may take longer to realize than expected.

The full benefits of the Acquisition may not be realized as expected or may not be achieved within the anticipated time frame, or at all. Failure to achieve the anticipated benefits of the Acquisition could adversely affect our results of operations or cash flows, decrease or delay the expected accretive effect of the transactions, and negatively impact the price of our common stock. In addition, we will be required to devote significant attention and resources prior to closing to prepare for the post-closing operation of the combined company, and we will be required to devote significant attention and resources post-closing to successfully align our business practices and operations with those of Aggregates USA. This process may disrupt the businesses and, if ineffective, would limit the anticipated benefits of the Acquisition.

S-16
We may experience or be exposed to unknown or unanticipated issues, expenses, and liabilities as a result of the Acquisition.

As a result of the Acquisition, we may be exposed to unknown or unanticipated costs or liabilities, such as undisclosed liabilities of Aggregates USA, including those relating to environmental matters, for which we, as successor owner upon completion of the Acquisition, may be responsible. Such unknown or unanticipated issues, expenses, and liabilities could have an adverse effect on our business, financial results and cash flows.

Financial/Accounting Risks

Our industry is capital intensive, resulting in significant fixed and semi-fixed costs. Therefore, our earnings are highly sensitive to changes in volume.

Due to the high levels of fixed capital required for extracting and producing construction aggregates, our profits are negatively affected by significant decreases in shipments.

Significant downturn in the construction industry may result in an impairment of our goodwill.

We test goodwill for impairment on an annual basis or more frequently if events or circumstances change in a manner that would more likely than not reduce the fair value of a reporting unit below its carrying value. While we have not identified any events or changes in circumstances since our annual impairment test on November 1, 2016 that indicate the fair value of any of our reporting units is below its carrying value, a significant downturn in the construction industry may have a material effect on the fair value of our reporting units. A significant decrease in the estimated fair value of one or more of our reporting units could result in the recognition of a material, noncash write-down of goodwill.

A deterioration in our credit ratings and/or the state of the capital markets could negatively impact our business.

We currently have $2.3 billion of debt with maturities between 2018 and 2037. Given our current credit metrics and ratings, together with other factors, we expect to refinance our nearer term debt maturities rather than repay them when due. Furthermore, we expect to finance acquisitions with a combination of cash flows from existing operations, additional debt and/or additional equity. The mix of financing sources for acquisitions will be situationally dependent.

A deterioration in our credit ratings, regardless of the cause, could limit our debt financing options and increase the cost of such debt financing (whether for refinancing existing debt or financing acquisitions). While we do not anticipate a credit ratings downgrade, and plan to manage the capital structure consistent with investment-grade credit metrics, we cannot assure our current credit ratings.

A deterioration in the state of the capital markets, regardless of our credit rating, could impact our access to, and cost of, new debt or equity capital.

We use estimates in accounting for a number of significant items. Changes in our estimates could adversely affect our future financial results.

As discussed more fully in “Critical Accounting Policies” under Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2016, incorporated by reference herein, we use significant judgment in accounting for:

- goodwill impairment;
Personnel Risks

*Our future success greatly depends upon attracting and retaining qualified personnel, particularly in sales and operations.*

A significant factor in our future profitability is our ability to attract, develop and retain qualified personnel. Our success in attracting qualified personnel, particularly in the areas of sales and operations, is affected by changing demographics of the available pool of workers with the training and skills necessary to fill the available positions, the impact on the labor supply due to general economic conditions, and our ability to offer competitive compensation and benefit packages.

Other Risks

*We are dependent on information technology and our systems and infrastructure face certain risks, including cyber security risks and data leakage risks.*

Any significant breakdown, invasion, destruction or interruption of our systems by employees, others with authorized access to our systems or unauthorized persons could negatively impact operations. There is also a risk that we could experience a business interruption, theft of information, or reputational damage as a result of a cyber-attack, such as an infiltration of a data center, or data leakage of confidential information either internally or at our third-party providers. While we have invested in the protection of our data and informational technology to reduce these risks and periodically test the security of our information systems network, there can be no assurance that our efforts will prevent breakdowns or breaches in our systems that could adversely affect our business. Management is not aware of a cybersecurity incident that has had a material impact on our operations.

*Weather can materially affect our operating results.*

Almost all of our products are consumed outdoors in the public or private construction industry, and our production and distribution facilities are located outdoors. Inclement weather affects both our ability to produce and distribute our products and affects our customers’ short-term demand because their work also can be hampered by weather. Therefore, our financial results can be negatively affected by inclement weather.

*Our products are transported by truck, rail, barge or ship, often by third-party providers. Significant delays or increased costs affecting these transportation methods could materially affect our operations and earnings.*

Our products are distributed either by truck to local markets or by rail, barge or oceangoing vessel to remote markets. The costs of transporting our products could be negatively affected by factors outside of our control, including rail service interruptions or rate increases, tariffs, rising fuel costs and capacity constraints.
Additionally, inclement weather, including hurricanes, tornadoes and other weather events, can negatively impact our distribution network.

*We use large amounts of electricity, diesel fuel, liquid asphalt and other petroleum-based resources that are subject to potential supply constraints and significant price fluctuation, which could affect our operating results and profitability.*

In our production and distribution processes, we consume significant amounts of electricity, diesel fuel, liquid asphalt and other petroleum-based resources. The availability and pricing of these resources are subject to market forces that are beyond our control. Our suppliers contract separately for the purchase of such resources and our sources of supply could be interrupted should our suppliers not be able to obtain these materials due to higher demand or other factors that interrupt their availability. Variability in the supply and prices of these resources could materially affect our operating results from period to period and rising costs could erode our profitability.

*We are involved in a number of legal proceedings. We cannot predict the outcome of litigation and other contingencies with certainty.*

We are involved in several complex litigation proceedings, some arising from our previous ownership and operation of our Chemicals business. Although we divested our Chemicals business in June 2005, we retained certain liabilities related to the business. As required by generally accepted accounting principles, we establish reserves when a loss is determined to be probable and the amount can be reasonably estimated. Our assessment of probability and loss estimates are based on the facts and circumstances known to us at a particular point in time. Subsequent developments in legal proceedings may affect our assessment and estimates of a loss contingency, and could result in an adverse effect on our financial position, results of operations or cash flows. For a description of our current significant legal proceedings see Note 12 “Commitments and Contingencies” in Item 8 “Financial Statements and Supplementary Data” in our Annual Report on Form 10-K for the year ended December 31, 2016, and Note 8 “Commitments and Contingencies” in Item 1 “Financial Statements” in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, respectively, each incorporated by reference herein.

*We are involved in certain environmental matters. We cannot predict the outcome of these contingencies with certainty.*

We are involved in environmental investigations and cleanups at sites where we operate or have operated in the past or sent materials for recycling or disposal. As required by GAAP, we establish reserves when a loss is determined to be probable and the amount can be reasonably estimated. Our assessment of probability and loss estimates are based on the facts and circumstances known to us at a particular point in time. Subsequent developments related to these matters may affect our assessment and estimates of loss contingency, and could result in an adverse effect on our financial position, results of operations or cash flows. For a description of our current significant environmental matters see Note 12 “Commitments and Contingencies” in Item 8 “Financial Statements and Supplementary Data” in our Annual Report on Form 10-K for the year ended December 31, 2016, and Note 8 “Commitments and Contingencies” in Item 1 “Financial Statements” in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, respectively, each incorporated by reference herein.
RATIO OF EARNINGS TO FIXED CHARGES

The ratio of earnings to fixed charges for Vulcan for the periods indicated is the sum of earnings from continuing operations before income taxes, minority interest in earnings of a consolidated subsidiary, amortization of capitalized interest and fixed charges net of interest capitalization credits, divided by fixed charges. Fixed charges are the sum of interest expense before capitalization credits, amortization of financing costs and one-third of rental expense.

(1) Earnings were insufficient to cover fixed charges by approximately $119.7 million for the year ended December 31, 2012 and $1.4 million for the year ended December 31, 2013.

S-20
USE OF PROCEEDS

We expect to receive net proceeds, after deducting underwriting discounts but before deducting other offering expenses, of approximately $991.7 million from this offering. We intend to use the net proceeds from this offering, bank borrowings and cash on hand to fund (1) the Acquisition, (2) the planned redemption of the 7.00% Notes due 2018, and (3) the planned redemption of the 10.375% Notes due 2018.

Certain of the underwriters or their affiliates may be holders of the 7.00% Notes due 2018 and the 10.375% Notes due 2018 and therefore would receive a portion of the proceeds from this offering in connection with the redemptions.

As of the date of this prospectus supplement, approximately $273 million aggregate principal amount of the 7.00% Notes due 2018, and approximately $250 million aggregate principal amount of the 10.375% Notes due 2018 were outstanding. The 7.00% Notes due 2018 bear interest at a rate of 7.00% per annum and mature on June 15, 2018. The 10.375% Notes due 2018 bear interest at a rate of 10.375% per annum and mature on December 15, 2018.
The following table sets forth our cash and cash equivalents and capitalization, on a consolidated basis, as of March 31, 2017:

- on an actual basis; and
- as adjusted to give effect to the sale of the notes in this offering.

The unaudited information set forth below should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2016, and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, respectively, each incorporated by reference herein.

(1) Borrowings on the bank line of credit are classified as short-term debt if we intend to repay within twelve months and as long-term debt otherwise.

(2) Non-publicly traded debt.

(3) Represents the principal amount of the notes.
SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA

The following table shows our selected historical consolidated financial data as of and for the periods indicated. The data as of and for the years ended December 31 have been derived from our audited consolidated financial statements for each of the five years in the period ended December 31, 2016. The data as of and for the three months ended March 31, 2017 and March 31, 2016 have been derived from our unaudited financial statements. The selected historical financial data should be read in conjunction with Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our consolidated financial statements and related notes in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 and Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our unaudited consolidated financial statements and related notes in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, respectively, each incorporated by reference herein. Our historical results are not necessarily indicative of future operating results.

(1) “Earnings Before Interest, Taxes, Depreciation and Amortization” (EBITDA) is a “non-GAAP financial measure” as defined under the rules of the SEC, and it should not be considered as an alternative to earnings measures defined by GAAP. We present this metric for the convenience of investment professionals who use such metrics in their analyses and for shareholders who need to understand the metrics we use to assess performance. We use this metric to assess the operating performance of our business and for a basis of strategic planning and forecasting as we believe that it closely correlates to long-term shareholder value. We do not use this metric as a measure to allocate resources. We adjust EBITDA for certain items to provide a more consistent comparison of earnings performance from period to period.

S-24
DESCRIPTION OF THE NOTES

The following description of the particular terms of the notes offered in this prospectus supplement supplements the description of the general terms and provisions of the debt securities set forth under “Description of Debt Securities” in the accompanying prospectus. We refer you to the accompanying prospectus for that description. If this description differs in any way from the general description of the debt securities in the accompanying prospectus, you should rely on this description. In this summary, “Vulcan,” the “Company,” “we,” “our,” or “us” means Vulcan Materials Company only, unless we indicate otherwise or the context requires otherwise.

General

We will issue each series of the notes under the Senior Debt Indenture, dated as of December 11, 2007, as supplemented by the Seventh Supplemental Indenture, to be dated as of June 15, 2017 (together, the “Indenture”), between us and Regions Bank, as Trustee (the “Trustee”). The summaries of certain provisions of the Indenture described below are not complete and are qualified in their entirety by reference to all the provisions of the Indenture. If we refer to particular sections or capitalized defined terms of the Indenture, those sections or defined terms are incorporated by reference into the accompanying prospectus or this prospectus supplement. The Senior Debt Indenture was filed as Exhibit 4.1 to our Current Report on Form 8-K filed on December 11, 2007. We will file the Seventh Supplemental Indenture by means of a Current Report on Form 8-K.

We are a holding company that conducts our operations through our operating subsidiaries. Accordingly, our cash flow and consequent ability to pay principal and interest on the notes depends, in part, on our ability to obtain dividends or loans from our operating subsidiaries, which may be subject to contractual restrictions, as well as applicable law.

The notes will be our general unsecured obligations and will rank equally with all of our other current and future unsecured and unsubordinated debt and senior in right of payment to all of our future subordinated debt. The notes are not guaranteed by any of our subsidiaries. The notes will be effectively subordinated to all of our secured debt (as to the collateral pledged to secure that debt) and to all indebtedness and other liabilities of our subsidiaries. As of March 31, 2017, we and our subsidiaries had unsecured debt with a total face value of approximately $2,354.1 million, approximately $235.0 million of which was outstanding on our bank line of credit, and approximately $0.4 million of which was debt of our subsidiaries.

The covenants in the Indenture will not necessarily afford the holders of the notes protection in the event of a decline in our credit quality resulting from highly leveraged or other transactions involving us.

We may issue separate series of debt securities under the Indenture from time to time without limitation on the aggregate principal amount. Under Section 301 of the Indenture, we may specify a maximum aggregate principal amount for the debt securities of any series.

We do not intend to apply to list any series of the notes on any securities exchange or to have any series of the notes quoted on any automated quotation system.

Each series of the notes is a separate series of debt securities under the Indenture.

We previously issued, on March 14, 2017, $350,000,000 aggregate principal amount of the existing 2027 notes, all of which will remain outstanding following this offering. The 2027 notes offered hereby will form a part of the series and will have the same terms (other than issue date and price to public) and will vote together as a single class, with the same CUSIP number as, and be fungible with, the existing 2027 notes. Upon completion of this offering, we will have $400,000,000 aggregate principal amount of outstanding 3.90% Notes.
due 2027. Unless the context requires otherwise, for all purposes of the Indenture and this “Description of the Notes,” references to the 2027 notes include the 2027 notes offered hereby and the existing 2027 notes.

Each series of the notes will be issued only in minimum denominations of $2,000 and $1,000 multiples above that amount.

We may, without the consent of the holders of the applicable series of the notes, issue additional notes in the same series and thereby increase the principal amount of such series of the notes in the future, on the same terms and conditions (except for any differences in the issue price, issue date and interest accrued prior to the issue date of such additional notes) and with the same CUSIP number as the applicable series of the notes offered in this prospectus supplement.

From time to time, in our sole discretion, depending upon market, pricing and other conditions, as well as on our cash balances and liquidity, we or our affiliates may seek to repurchase a portion of any series of the notes. Any such future purchases may be made in the open market, privately negotiated transactions, tender offers or otherwise, in each case in our sole discretion.

**Interest**

**Fixed Rate Notes**

The 2027 notes will be issued in an aggregate principal amount of $50,000,000 and will bear interest at 3.90% per annum from March 14, 2017 or from the most recent interest payment date to which interest has been paid or provided for, payable semi-annually on each April 1 and October 1, commencing on October 1, 2017 to the registered holders of the 2027 notes on the close of business on the immediately preceding March 15 and September 15, respectively, whether or not such date is a business day. The 2027 notes will mature on April 1, 2027.

The 2047 notes will be issued in an aggregate principal amount of $700,000,000 and will bear interest at 4.50% per annum from June 15, 2017, or from the most recent interest payment date to which interest has been paid or provided for, payable semi-annually on each June 15 and December 15, commencing on December 15, 2017 to the registered holders of the 2047 notes on the close of business on the immediately preceding June 1 and December 1, respectively, whether or not such date is a business day. The 2047 notes will mature on June 15, 2047.

Interest on the fixed rate notes will be computed on the basis of a 360-day year of twelve 30-day months. If an interest payment date for a series of the fixed rate notes falls on a date that is not a business day, the interest payment shall be postponed to the next succeeding business day, and no interest on such payment shall accrue for the period from and after such interest payment date.

**Floating Rate Notes**

The Floating Rate notes will be issued in an aggregate principal amount of $250,000,000 and will bear a floating interest rate equal to three-month LIBOR as determined on the applicable interest determination date plus 0.60%. The calculation agent will be Regions Bank until such time as we appoint a successor calculation agent. The interest determination date for an interest period will be the second London business day preceding the first day of such interest period.

Interest on the Floating Rate notes will be payable on March 15, June 15, September 15 and December 15 of each year and on the maturity date, beginning on September 15, 2017. We will make each interest payment to the holders of record on the immediately preceding March 1, June 1, September 1 or December 1, respectively.
The initial interest period for the Floating Rate notes will be the period from and including the original issue date to but excluding the initial interest payment date. Each subsequent interest period shall be the period beginning on, and including, an interest payment date and ending on, but not including, the following interest payment date. Promptly upon determination, the calculation agent will inform the trustee and us of the interest rate for the next interest period. Absent manifest error, the determination of the interest rates for the Floating Rate notes by the calculation agent shall be binding and conclusive on the holders of such Floating Rate notes, the trustee and us. A London business day is a day on which dealings in deposits in U.S. dollars are transacted in the London interbank market.

On any interest determination date, LIBOR will be equal to the offered rate for deposits in U.S. dollars having an index maturity of three months, in amounts of at least $1,000,000, as such rate appears on “Reuters Page LIBOR01” at approximately 11:00 a.m., London time, on such interest determination date. If on an interest determination date, such rate does not appear on the “Reuters Page LIBOR01” as of 11:00 a.m., London time, or if the “Reuters Page LIBOR01” is not available on such date, the calculation agent will obtain such rate from Bloomberg L.P.’s page “BBAM.”

If no offered rate appears on “Reuters Page LIBOR01” or Bloomberg L.P.’s page “BBAM” on an interest determination date at approximately 11:00 a.m., London time, then we will select four major banks in the London interbank market and shall request each of their principal London offices to provide a quotation of the rate at which three-month deposits in U.S. dollars in amounts of at least $1,000,000 are offered by it to prime banks in the London interbank market, on that date and at that time, that is representative of single transactions at that time. If at least two quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, we will select three major banks in New York City and shall request each of them to provide a quotation of the rate offered by them at approximately 11:00 a.m., New York City time, on the interest determination date for loans in U.S. dollars to leading European banks having an index maturity of three months for the applicable interest period in an amount of at least $1,000,000 that is representative of single transactions at that time. If three quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, the rate of LIBOR for the next interest period will be set equal to the rate of LIBOR for the then current interest period.

All percentages resulting from any calculation of any interest rate for a series of Floating Rate notes will be rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with five one-millionths of a percentage point rounded upward (e.g., 3.876545% (or .03876545) would be rounded to 3.87655% (or .0387655)), and all dollar amounts will be rounded to the nearest cent, with one-half cent being rounded upward.

The interest rate on the Floating Rate notes will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States law of general application.

Upon request from any holder of a series of the Floating Rate notes, the calculation agent will provide the interest rate in effect on such Floating Rate notes, for the current interest period and, if it has been determined, the interest rate to be in effect for the next interest period.

Interest on the Floating Rate notes will accrue from and including the most recent interest payment date to which interest has been paid or, if no interest has been paid, from and including the date of issuance of the notes.

Interest on the Floating Rate notes will be paid to but excluding the relevant interest payment date. Interest on the Floating Rate notes will be computed on the basis of the actual number of days in an interest period and a 360-day year.

If an interest payment date for the Floating Rate notes falls on a day that is not a business day, the interest payment date will be made on the next succeeding business day unless such next succeeding business day would be in the following month, in which case, the interest payment date shall be the immediately preceding business day.
The Floating Rate notes will mature on June 15, 2020.

No Sinking Fund

The notes will not be entitled to the benefit of a sinking fund.

Optional Redemption

At any time prior to the date that is three months prior to the maturity date for the 2027 notes or six months prior to the maturity for the 2047 notes (each a “par call date”), the applicable series of notes will be redeemable as a whole or in part, at our option at a redemption price equal to the greater of (1) 100% of the principal amount of such notes and (2) the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed that would be due if such notes matured on the applicable par call date (exclusive of interest accrued on the notes to be redeemed to the date of redemption) discounted to the redemption date semiannually (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below), plus 25 basis points, in the case of the 2027 notes, or 25 basis points, in the case of the 2047 notes, and in each case, plus any accrued and unpaid interest on the notes being redeemed to, but not including, the date of redemption but interest installments whose stated maturity is on or prior to the date of redemption will be payable to the holders of such notes of record at the close of business on the relevant record dates for the notes. The Independent Investment Banker (as defined below) will calculate the redemption price. In addition, at any time on or after the applicable par call date, we may redeem the 2027 notes or the 2047 notes in whole or in part, at our option, from time to time at a redemption price equal to 100% of the aggregate principal amount of the notes being redeemed, plus any accrued and unpaid interest on the notes being redeemed to, but not including, the date of redemption but interest installments whose stated maturity is on or prior to the date of redemption will be payable to the holders of such notes of record at the close of business on the relevant record dates for the notes.

We will not have the option to redeem the Floating Rate notes, in whole or in part, prior to the maturity date, other than through a Special Optional Redemption.

“Comparable Treasury Issue” means the United States Treasury security selected by the Independent Investment Banker as having a maturity comparable to the remaining term of the notes to be redeemed (assuming, for this purpose, that the notes matured on the applicable par call date) that would be used, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity with the remaining term of those notes (assuming, for this purpose, that the notes matured on the applicable par call date).

“Comparable Treasury Price” means, with respect to any series of the notes on any redemption date, (1) the average of four Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest Reference Treasury Dealer Quotations, or (2) if the Independent Investment Banker obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

“Independent Investment Banker” means one of the Reference Treasury Dealers appointed by the Trustee as directed by us.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any series of the notes on any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue for such notes (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker by such Reference Treasury Dealer at 5:00 p.m. on the third business day preceding such redemption date.
“Reference Treasury Dealer” means (a) with respect to the 2027 notes each of (i) a Primary Treasury Dealer (as defined below) selected by U.S. Bancorp Investments, Inc., (ii) Wells Fargo Securities, LLC and their respective successors and (iii) two Primary Treasury Dealers (as defined below) selected by the Company; provided, however, that if any of the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a “Primary Treasury Dealer”), we shall replace that former dealer with another Primary Treasury Dealer and (b) with respect to the 2047 notes, each of (i) Merrill Lynch, Pierce, Fenner & Smith Incorporated and its successors, (ii) Goldman Sachs & Co. LLC and its successors, and (iii) two Primary Treasury Dealers selected by the Company; provided, however, that if any of the foregoing shall cease to be a Primary Treasury Dealer, we shall replace that former dealer with another Primary Treasury Dealer.

“Treasury Rate” means, with respect to any redemption date, (1) the average of the yields in each statistical release for the immediately preceding week designated “H.15” or any successor publication which is published by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under “U.S. government securities—Treasury constant maturities—nominal,” for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the remaining term of the notes to be redeemed, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue will be determined and the Treasury Rate will be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month) or (2) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per year equal to the semi-annual equivalent yield-to-maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date. The Treasury Rate will be calculated on the third business day preceding the applicable redemption date.

We will mail notice of any redemption between 30 days and 60 days before the applicable redemption date to each holder of the applicable series of the notes to be redeemed. In connection with any redemption of any series of the notes, any such redemption may, at our discretion, be subject to one or more conditions precedent. If such redemption is subject to satisfaction of one or more conditions precedent, the notice of such redemption shall state that, in our discretion, the applicable redemption date may be delayed until such time as any or all such conditions shall be satisfied, or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the redemption date, or by the applicable redemption date so delayed.

Unless we default in payment of the redemption price and accrued interest, if any, on and after any redemption date, interest will cease to accrue on the series of the notes or portions of the series of the notes called for redemption.

In the case of a partial redemption, selection of the notes of the applicable series for redemption will be made pro rata, by lot or by such other method as the Trustee in its sole discretion deems fair and appropriate. No notes of a principal amount of $2,000 or less will be redeemed in part. If any note is to be redeemed in part only, the notice of redemption that relates to the note will state the portion of the principal amount of the note to be redeemed. A new note in a principal amount equal to the unredeemed portion of the note will be issued in the name of the holder of the note upon surrender for cancellation of the original note.

**Special Mandatory Redemption**

Upon the occurrence of a Special Mandatory Redemption Trigger, we will be required to redeem the Floating Rate notes, in whole, at a redemption price equal to 101% of the aggregate principal amount of the Floating Rate notes being redeemed, plus accrued and unpaid interest on the aggregate principal amount of the Floating Rate notes being redeemed to, but excluding, the date of such redemption.
Within five business days after the occurrence of the Special Mandatory Redemption Trigger, we will give notice of the Special Mandatory Redemption to each holder of the Floating Rate notes and to the Trustee, stating, among other matters prescribed in the Indenture, that a Special Mandatory Redemption Trigger has occurred and that all of the Floating Rate notes being redeemed will be redeemed on the redemption date set forth in such notice (which will be no earlier than three business days and no later than 30 days from the date such notice is given).

The aggregate net proceeds from the sale of the Floating Rate notes will not be held in escrow, and holders of the Floating Rate notes will not have any special access or rights to or a security interest or encumbrance of any kind on the net proceeds from the offering of the Floating Rate notes.

Upon the occurrence of the closing of the Acquisition, the foregoing provisions regarding the Special Mandatory Redemption will cease to apply.

Special Optional Redemption

We will have the right to redeem the Floating Rate notes, in whole, at any time before the Redemption Trigger Date, at a redemption price equal to 101% of the aggregate principal amount of the Floating Rate notes being redeemed, plus accrued and unpaid interest on the aggregate principal amount of the Floating Rate notes being redeemed to, but excluding, the date of such redemption, if we determine, in our judgment, the Acquisition will not be consummated on or before the Redemption Trigger Date. If we exercise the Special Optional Redemption right, we will provide notice to each holder of the Floating Rate notes to be redeemed and to the trustee, stating, among other matters prescribed in the Indenture, the exercise of the Special Optional Redemption right and that all of the Floating Rate notes being redeemed will be redeemed on the redemption date set forth in such notice (which will be no earlier than three business days and no later than 30 days from the date such notice is given). Upon the occurrence of the closing of the Acquisition, the foregoing provisions regarding the Special Optional Redemption will cease to apply.

Change of Control Repurchase Event

If a change of control repurchase event (as defined below) occurs with respect to a series of the notes, unless we have exercised our right to redeem the notes as described under “—Optional Redemption” above or have defeased the notes as described below or, with respect to the Floating Rate notes, have been required to redeem the Floating Rate notes as described under “—Special Mandatory Redemption” above or have exercised our right to redeem the Floating Rate notes as described under “—Special Optional Redemption” above, we will be required to make an irrevocable offer to each holder of the applicable series of the notes to repurchase all or any part (equal to or in excess of $2,000 and in integral multiples of $1,000) of that holder’s notes at a repurchase price in cash equal to 101% of the aggregate principal amount of the notes repurchased plus accrued and unpaid interest, if any, on the notes repurchased to, but not including, the date of repurchase. Within 30 days following a change of control repurchase event or, at our option, prior to a change of control (as defined below), but in either case, after the public announcement of the change of control, we will mail, or shall cause to be mailed, a notice to each holder, with a copy to the Trustee, describing the transaction or transactions that constitute or may constitute the change of control repurchase event, offering to repurchase the applicable notes on the payment date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed, disclosing that any note not tendered for repurchase will continue to accrue interest, and specifying the procedures for tendering notes. The notice shall, if mailed prior to the date of consummation of the change of control, state that the offer to purchase is conditioned on a change of control repurchase event occurring on or prior to the payment date specified in the notice. We will comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the applicable notes as a result of a change of control repurchase event. To the extent that the provisions of any securities laws or regulations conflict with the change of control repurchase event provisions of the applicable notes, we will comply with the applicable

S-30
On the repurchase date following a change of control repurchase event, we will, to the extent lawful:

(i) accept for payment all applicable notes or portions of notes properly tendered pursuant to our offer;

(ii) deposit with the paying agent an amount equal to the aggregate purchase price in respect of all applicable notes or portions of notes properly tendered; and

(iii) deliver or cause to be delivered to the Trustee the applicable notes properly accepted, together with an Officers’ Certificate stating the aggregate principal amount of notes being purchased by us.

The paying agent will promptly distribute to each holder of applicable notes properly tendered the purchase price for such notes deposited with them by us, we will execute, and the authenticating agent will promptly authenticate and deliver (or cause to be transferred by book-entry) to each holder a new note equal in principal amount to any unpurchased portion of any applicable notes surrendered provided that each new note will be in a principal amount of an integral multiple of $1,000.

We will not be required to make an offer to repurchase any series of the notes upon a change of control repurchase event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and such third party purchases all applicable notes properly tendered and not withdrawn under its offer. In addition, we will not repurchase any notes if there has occurred and is continuing on the change of control payment date (as defined in the Indenture) an event of default under the Indenture, other than a default in the payment of the purchase price upon a change of control repurchase event.

The definition of change of control (as well as the covenant regarding our ability to enter into consolidations, mergers and sales of assets) includes the direct or indirect sale, transfer, conveyance or other disposition of “all or substantially all” of our properties or assets (in the case of such definition of change of control, taken as a whole with our subsidiaries). Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase the notes as a result of a sale, transfer, conveyance or other disposition of less than all of the properties or assets of us and our subsidiaries taken as a whole to another person or group may be uncertain.

For purposes of the foregoing discussion of a repurchase at the option of the applicable holders, the following definitions are applicable:

“below investment grade ratings event” means that on any day commencing 60 days prior to the first public announcement by us of any change of control (or pending change of control) and ending 60 days following consummation of such change of control (which period will be extended following consummation of a change of control for up to an additional 60 days for so long as either of the rating agencies has publicly announced that it is considering a possible ratings change), the applicable series of the notes are downgraded to a rating that is below investment grade (as defined below) by each of the rating agencies (regardless of whether the rating prior to such downgrade was investment grade or below investment grade).

“change of control” means the occurrence of any of the following: (1) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any “person” (as that term is used in Section 13(d)(3) of the Exchange Act) (other than us or one of our subsidiaries) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of our voting stock (as defined below) or other voting stock into which our voting stock is
reclassified, consolidated, exchanged or changed, measured by voting power rather than number of shares; (2) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or more series of related transactions, of all or substantially all of our assets and the assets of our subsidiaries, taken as a whole, to one or more “persons” (as defined in the Indenture) (other than us or one of our subsidiaries); or (3) the first day on which a majority of the members of our Board of Directors is composed of members who are not continuing directors. Notwithstanding the foregoing, a transaction will not be deemed to involve a change of control if (1) we become a direct or indirect wholly-owned subsidiary of a holding company and (2)(A) the direct or indirect holders of the voting stock of such holding company immediately following that transaction are substantially the same as the holders of our voting stock immediately prior to that transaction or (B) immediately following that transaction no person (other than a holding company satisfying the requirements of this sentence) is the beneficial owner, directly or indirectly, of more than 50% of the voting stock of such holding company.

“change of control repurchase event” means, with respect to a particular series of notes, the occurrence of both a change of control and a below investment grade ratings event.

“continuing directors” means, as of any date of determination, any member of our Board of Directors who (1) was a member of such Board of Directors on the date the applicable series of notes were initially issued or (2) was nominated for election, elected or appointed to such Board of Directors with the approval of a majority of the continuing directors who were members of such Board of Directors at the time of such nomination, election or appointment (either by a specific vote or by approval of our proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

“investment grade” means a rating of Baa3 or better by Moody’s (or its equivalent under any successor rating categories of Moody’s); a rating of BBB- or better by S&P (or its equivalent under any successor rating categories of S&P); and the equivalent investment grade credit rating from any additional rating agency or rating agencies selected by us.

“Moody’s” means Moody’s Investors Service, Inc.

“rating agency” means (1) each of Moody’s and S&P; and (2) if either of Moody’s or S&P ceases to rate the applicable series of notes or fails to make a rating of the applicable series of the notes publicly available for reasons outside of our control, a “nationally recognized statistical rating organization” within the meaning of Section 3(a)(62) under the Exchange Act, selected by us (and certified by a resolution of our Board of Directors) as a replacement agency for the agency that ceased such rating or failed to make it publicly available.

“S&P” means Standard & Poor’s Ratings Services, a division of The McGraw-Hill Companies, Inc.

“voting stock” of any specified “person” (as that term is used in Section 13(d)(3) of the Exchange Act) as of any date means the capital stock of such person that is at the time entitled to vote generally in the election of the board of directors of such person.

The change of control repurchase event feature of the notes may in certain circumstances make more difficult or discourage a sale or takeover of us and, thus, the removal of incumbent management. We could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a change of control repurchase event under the notes, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings on the notes.

We may not have sufficient funds to repurchase all the applicable series of the notes upon a change of control repurchase event.
Securities Filings

Notwithstanding that we are subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or are otherwise required to report on an annual and quarterly basis on forms provided for in those annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, so long as the notes are outstanding (unless defeased in a legal defeasance), the Company will (a) file with the SEC (unless the SEC will not accept such filing), and (b) make available to the Trustee and, upon written request, the registered holders of the notes, without cost to any holder, from the date that the notes are issued:

(1) within the time periods specified by the Exchange Act (including all applicable extension periods), an annual report on Form 10-K (or any successor or comparable form) containing the information required to be contained therein (or required in such successor or comparable form); and

(2) within the time periods specified by the Exchange Act (including all applicable extension periods), a quarterly report on Form 10-Q (or any successor or comparable form).

In the event that we are not permitted to file those reports with the SEC pursuant to the Exchange Act, we will nevertheless make available such Exchange Act reports to the Trustee and the holders of the notes as if we were subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act within the time periods specified by the Exchange Act (including all applicable extension periods), which requirement may be satisfied by posting those reports on our website within the time periods specified above.

Notwithstanding the foregoing, the availability of the reports referred to in paragraphs (1) and (2) above on the SEC’s Electronic Data Gathering, Analysis and Retrieval system (or any successor system, including the SEC’s Interactive Data Electronic Application system) and our website within the time periods specified above will be deemed to satisfy the above delivery obligation.

Covenants

The notes are subject to the restrictive covenants described under the section entitled “Description of Debt Securities—Covenants” in the accompanying prospectus.

Consolidation, Merger and Sale of Assets

The notes are subject to some limitations on our ability to enter into some consolidations, mergers or transfers of substantially all of our assets as described under the section entitled “Description of Debt Securities—Consolidation, Merger and Sale of Assets” in the accompanying prospectus.

Events of Default

The notes are subject to the events of default described under the section entitled “Description of Debt Securities—Events of Default” in the accompanying prospectus.

Modification and Waiver

The notes are subject to provisions allowing, under some conditions, the modification or amendment of the Indenture or waiving our compliance with some provisions of the Indenture, as described under the section entitled “Description of Debt Securities—Modification and Waiver” in the accompanying prospectus.

S-33
Defeasance and Discharge Provisions

The notes are subject to defeasance and discharge of debt or to defeasance of some restrictive and other covenants as described under the section entitled “Description of Debt Securities—Defeasance” in the accompanying prospectus. We may also defease our obligation to repurchase all of the notes upon a change of control repurchase event under the circumstances described under the section “Description of Debt Securities—Defeasance” in the accompanying prospectus.

Book-Entry System

One or more global securities deposited with, or on behalf of, The Depository Trust Company, New York, New York (“DTC”), will represent each series of the notes. The global securities representing each series of the notes will be registered in the name of a nominee of DTC. Except under the circumstances described in the accompanying prospectus under “Description of Debt Securities—Global Securities,” we will not issue any series of the notes in definitive form.

You can find a more detailed description of DTC’s procedures for the global securities in the accompanying prospectus under “Description of Debt Securities—Global Securities.” DTC has confirmed to us and the underwriters and the Trustee that it intends to follow these procedures for debt securities.

Holders may elect to hold interests in the notes in global form through either DTC in the United States or Clearstream Banking, société anonyme (“Clearstream, Luxembourg”) or Euroclear Bank S.A./N.V., as operator of the Euroclear System (the “Euroclear System”), in Europe if they are participants in those systems, or indirectly through organizations which are participants in those systems. Clearstream, Luxembourg and the Euroclear System will hold interests on behalf of their participants through customers’ securities accounts in Clearstream, Luxembourg’s and the Euroclear System’s names on the books of their respective depositaries, which in turn will hold such interests in customers’ securities accounts in the depositaries’ names on the books of DTC. Citibank, N.A. will act as depository for Clearstream, Luxembourg and for the Euroclear System (in such capacities, the “U.S. Depositories”).

Clearstream, Luxembourg advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream, Luxembourg holds securities for its participating organizations (“Clearstream Participants”) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg interfaces with domestic markets in several countries. As a professional depository, Clearstream, Luxembourg is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant, either directly or indirectly.

Distributions with respect to interests in the notes held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures, to the extent received by the U.S. Depository for Clearstream, Luxembourg.

The Euroclear System advises that it was created in 1968 to hold securities for participants of the Euroclear System (“Euroclear Participants”) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical
movement of certificates and any risk from lack of simultaneous transfers of securities and cash. The Euroclear System includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. The Euroclear System is operated by Euroclear Bank S.A./N.V. (the “Euroclear Operator”). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear System cash accounts are accounts with the Euroclear Operator. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to the Euroclear System is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the “Terms and Conditions”). The Terms and Conditions govern transfers of securities and cash within the Euroclear System, withdrawals of securities and cash from the Euroclear System, and receipts of payments with respect to securities in the Euroclear System. All securities in the Euroclear System are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no records of or relationship with persons holding through Euroclear Participants.

Distributions with respect to the notes held beneficially through the Euroclear System will be credited to the cash accounts of Euroclear Participants in accordance with the Terms and Conditions, to the extent received by the U.S. Depository for the Euroclear System.

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the global security certificates among participants, DTC is under no obligation to perform or continue to perform these procedures, and these procedures may be discontinued at any time. We will not have any responsibility for the performance by DTC or its direct participants or indirect participants under the rules and procedures governing DTC. The information in this section concerning DTC, its book-entry system, Clearstream, Luxembourg and the Euroclear System has been obtained from sources that we believe to be reliable, but we have not attempted to verify the accuracy of this information.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between DTC Participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds using DTC’s Same-Day Funds Settlement System. Secondary market trading between Clearstream participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream, Luxembourg and the Euroclear System, as applicable.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand and directly or indirectly through Clearstream Participants or Euroclear Participants, on the other, will be effected through DTC in accordance with DTC rules on behalf of the relevant European international clearing system by its U.S. Depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. Depository to take action to effect final settlement on its behalf by delivering or receiving securities in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC.

Clearstream Participants and Euroclear Participants may not deliver instructions directly to their respective U.S. Depositories.
Because of the time zone differences, credits of notes received in Clearstream, Luxembourg or the Euroclear System as a result of a transaction with a DTC Participant will be made during the subsequent securities settlement processing and dated the business day following the DTC settlement date. The credits or any transactions in the notes settled during the processing will be reported to the relevant Euroclear Participant or Clearstream Participant on that business day. Cash received in Clearstream, Luxembourg or the Euroclear System as a result of sale of the notes by or through a Clearstream Participant or a Euroclear Participant to a DTC Participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream, Luxembourg or the Euroclear System cash account only as of the business day following the settlement in DTC.

Although DTC, Clearstream, Luxembourg and the Euroclear System have agreed to the foregoing procedures in order to facilitate transfers of notes among participants of DTC, Clearstream, Luxembourg and the Euroclear System, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued or changed at any time.
CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following discussion summarizes certain U.S. federal income tax consequences of the purchase, beneficial ownership and disposition of the notes by U.S. and Non-U.S. Holders (each as defined below).

This summary is based on the Internal Revenue Code of 1986, as amended (the “Code”), regulations issued under the Code, judicial authority and administrative rulings and practice (all as in effect as of the date hereof), all of which are subject to change and differing interpretations. Any such change or differing interpretation may be applied retroactively and may adversely affect the U.S. federal income tax consequences described in this prospectus supplement. This summary only addresses investors that purchase the notes pursuant to this prospectus supplement at the price set forth on the cover page and will hold their notes as capital assets within the meaning of Section 1221 of the Code. This summary does not discuss all of the U.S. federal income tax consequences that may be relevant to particular investors or to investors subject to special treatment under the U.S. federal income tax laws (such as insurance companies, banks and other financial institutions, tax-exempt entities, partnerships or other pass-through entities (and persons holding the notes through a partnership or other pass-through entity), retirement plans, regulated investment companies, securities dealers, traders in securities who elect to apply a mark-to-market method of accounting, persons holding the notes as part of a “straddle,” “constructive sale,” or a “conversion transaction” for U.S. federal income tax purposes, or as part of some other integrated investment, U.S. expatriates, “controlled foreign corporations,” “passive foreign investment companies,” persons subject to the alternative minimum tax, U.S. Holders (as defined below) who hold notes through non-U.S. brokers or other non-U.S. intermediaries, or U.S. Holders whose functional currency for tax purposes is not the U.S. dollar).

This summary also does not discuss any tax consequences arising under the laws of any state, local or foreign tax jurisdiction or any tax consequences arising under U.S. federal tax laws other than U.S. federal income tax laws.

We do not intend to seek a ruling from the Internal Revenue Service (the “IRS”) with respect to any matters discussed in this section, and we cannot assure you that the IRS will not challenge one or more of the tax consequences described below. The term “holder” as used in this section refers to a beneficial holder of the notes and not the record holder.

Persons considering the purchase of the notes, including any persons who would be Non-U.S. Holders, should consult their own tax advisors concerning the application of U.S. federal income tax laws to their particular situations as well as any consequences of the purchase, beneficial ownership and disposition of the notes arising under any other U.S. federal tax laws or the laws of any state, local or foreign taxing jurisdiction.

For purposes of this discussion, a U.S. Holder means a holder of notes that, for U.S. federal income tax purposes, is:

• an individual who is a citizen or resident of the United States;
• a corporation created or organized under the laws of the United States, any state thereof or the District of Columbia;
• an estate whose income is subject to U.S. federal income taxation regardless of its source; or
• a trust if a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust, or certain electing trusts that were in existence on August 20, 1996 and were treated as domestic trusts before that date.
Table of Contents

For purposes of this discussion, the term Non-U.S. Holder means a holder of a note that is, for U.S. federal income tax purposes, an individual, corporation, estate or trust that is not a U.S. Holder.

If an entity treated as a partnership for U.S. federal income tax purposes holds notes, the tax treatment of a partner will generally depend on the status of the partner and upon the activities of the partnership. Persons who are partners in a partnership considering investing in notes should consult their own tax advisors.

Effect of Certain Contingencies

In certain circumstances, we may be obligated to pay amounts in excess of the stated interest and principal on the notes (e.g., as described under “Description of the Notes—Special Mandatory Redemption” and “Description of the Notes—Change of Control Repurchase Event”). These potential payments may implicate the provisions of U.S. Treasury regulations relating to “contingent payment debt instruments.” According to the applicable U.S. Treasury regulations, certain contingencies will not cause a debt instrument to be treated as a contingent payment debt instrument if, based on all the facts and circumstances as of the date of issuance, there is only a remote likelihood that any of such contingencies will occur, or if such contingencies, in the aggregate, are considered incidental. Although the matter is not free from doubt, we intend to take the position that the foregoing contingencies are, in the aggregate, remote and/or incidental, and we do not intend to treat the notes as contingent payment debt instruments. Our position that such contingencies are remote and/or incidental is binding on a holder subject to U.S. federal income taxation unless such holder discloses its contrary position in the manner required by applicable U.S. Treasury regulations. Our position is not, however, binding on the IRS and if the IRS were to successfully challenge this position, a holder subject to U.S. federal income taxation might be required to accrue ordinary interest income on the notes in an amount greater than, and with timing different from the timing described herein with respect to, the stated interest on the notes and to treat as ordinary interest income (rather than capital gain) any gain recognized on the taxable disposition of a note. The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments. Holders should consult their own tax advisors regarding the tax considerations relating to contingent payment debt instruments.

U.S. Federal Income Tax Consequences to U.S. Holders

Pre-Issuance Accrued Interest

A portion of the offering price of the 2027 notes will be attributable to the amount of unpaid interest on the 2027 notes that has accrued since March 14, 2017 (the “pre-issuance accrued interest”). Pursuant to Treasury regulations, we intend to treat the 2027 notes as having been purchased for a price that does not include any pre-issuance accrued interest. Accordingly, a portion of the first payment of interest on the 2027 notes will be treated as a tax-free return of any pre-issuance accrued interest, rather than as a taxable interest payment on the 2027 notes. You should consult your own tax advisor concerning the tax treatment of any pre-issuance accrued interest on the 2027 notes.

Taxation of Interest

Interest on the notes (other than any pre-issuance accrued interest on the 2027 notes) will be taxable to a U.S. Holder as ordinary interest income. A U.S. Holder must report this income either when it accrues or is received, depending on the holder’s regular method of accounting for U.S. federal income tax purposes.

Amortizable Bond Premium

If your purchase price for a 2027 note (excluding any amounts attributable to pre-issuance accrued interest) exceeds the stated principal amount of such 2027 note, you will be considered to have amortizable bond premium equal to such excess. Subject to the limitation described below, you generally may elect to amortize any amortizable bond premium over the remaining term of such 2027 note on a constant yield method (based on the
note’s yield to maturity) as an offset to interest when includible in income under your regular method of tax accounting. However, because the 2027 notes may be redeemed by us prior to maturity at a premium, special rules apply that may reduce, eliminate or defer the amount of premium that you may amortize with respect to the 2027 notes. If you make the election to amortize bond premium, you will be required to reduce your adjusted tax basis in such 2027 note by the amount of the premium amortized in any year. An election to amortize bond premium on a constant yield method will also apply to all other taxable debt instruments held or subsequently acquired by you on or after the first day of the first taxable year for which the election is made. Such an election may not be revoked without the consent of the IRS. You should consult your own tax advisors about this election.

Treatment of Dispositions of Notes

Upon the sale, exchange, retirement, redemption or other taxable disposition of a note, a U.S. Holder generally will recognize gain or loss equal to the difference, if any, between the amount received on such disposition (other than (i) amounts received in respect of accrued and unpaid interest, which will be taxable as interest income to the extent not previously included in income and (ii) amounts received in respect of pre-issuance accrued interest on the 2027 notes, which will be treated as described above) and the U.S. Holder’s adjusted tax basis in the note. A U.S. Holder’s adjusted tax basis in a note generally will be the cost of the note to the U.S. Holder (which, for this purpose, should exclude any amounts attributable to pre-issuance accrued interest on the 2027 notes), reduced by the amount of any bond premium previously amortized by you with respect to the note. Any gain or loss recognized on the sale, exchange, retirement, redemption or other taxable disposition of a note generally will be capital gain or loss, and will be long-term capital gain or loss if, at the time of such sale, exchange, retirement, redemption or other taxable disposition, the U.S. Holder has held the note for more than one year. The ability to deduct capital losses is subject to limitation under U.S. federal income tax laws. Long-term capital gain recognized by a non-corporate U.S. Holder is generally taxed at preferential rates.

Medicare Tax

A U.S. Holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% tax on the lesser of (1) the U.S. holder’s “net investment income” (or undistributed net investment income in the case of an estate or trust) for the relevant taxable year and (2) the excess of the U.S. holder’s modified adjusted gross income (or adjusted gross income in the case of an estate or trust) for the taxable year over a certain threshold (which in the case of individuals will be between $125,000 and $250,000, depending on the individual’s circumstances). A holder’s net investment income will generally include its interest income and its net gains from the disposition of notes, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are an individual, estate or trust, you are urged to consult your own tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the notes.

U.S. Federal Income Tax Consequences to Non-U.S. Holders

The following is a general discussion of U.S. federal income tax consequences of the purchase, beneficial ownership and disposition of the notes by a holder that is a “Non-U.S. Holder.”

Taxation of Interest

A Non-U.S. Holder will not be subject to U.S. federal income tax or withholding tax in respect of interest income on the notes if each of the following requirements is satisfied:

• The interest is not effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States.
The Non-U.S. Holder provides the applicable withholding agent with an appropriately completed IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable form) together with all appropriate attachments, identifying the Non-U.S. Holder and stating, among other things, that the Non-U.S. Holder is not a U.S. person. If a note is held through a securities clearing organization, bank or another financial institution that holds customers’ securities in the ordinary course of its trade or business, this requirement is generally satisfied if (i) the Non-U.S. Holder provides such a form to the organization or institution, and (ii) the organization or institution certifies to us that it has received such a form from the Non-U.S. Holder or another intermediary and furnishes the applicable withholding agent with a copy. In addition, Non-U.S. Holders that are entities rather than individuals must satisfy certain special certification requirements.

The Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock that are entitled to vote within the meaning of Section 871(h)(3) of the Code and the Treasury Regulations thereunder.

The Non-U.S. Holder is not a “controlled foreign corporation” that is actually or constructively related to us through sufficient stock ownership (as provided in the Code), nor a bank (within the meaning of the Code) receiving interest on a loan entered into in the ordinary course of its business.

If these conditions are not met, a 30% withholding tax will apply to interest income on the notes, unless (i) an applicable income tax treaty reduces or eliminates such tax and a Non-U.S. Holder claiming the benefit of that treaty provides the applicable withholding agent with a properly executed IRS Form W-8BEN or IRS Form W-8 BEN-E (or other applicable form) or (ii) the interest is effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States and the Non-U.S. Holder provides the applicable withholding agent with an appropriate statement to that effect on an IRS Form W-8ECI (or other applicable form). In the case of the second exception, such Non-U.S. Holder generally will be subject to U.S. federal income tax with respect to its effectively connected income on a net income basis in the same manner as U.S. Holders, as described above, unless an applicable tax treaty provides otherwise. Additionally, in such event, Non-U.S. Holders that are corporations could be subject to a “branch profits” tax on their effectively connected earnings and profits (subject to adjustments) at a 30% rate (or lower applicable treaty rate). Non-U.S. Holders should consult their own tax advisors regarding the application of U.S. federal income tax laws to their particular situations.

Treatment of Dispositions of Notes

Generally, a Non-U.S. Holder will not be subject to U.S. federal income tax or withholding tax on any gain recognized upon the sale, exchange, retirement, redemption or other taxable disposition of a note unless:

- such holder is an individual present in the United States for 183 days or more in the taxable year of the sale, exchange, retirement, redemption or other taxable disposition and certain other conditions are met, in which case such gain (net of certain U.S. source capital losses) would be subject to a 30% tax unless an applicable tax treaty provides for a lower tax rate, or

- the gain is effectively connected with the conduct by the Non-U.S. Holder of a trade or business in the United States, in which case the Non-U.S. Holder will generally be subject to U.S. federal income tax on such gain on a net income basis in the same manner as U.S. Holders, as described above, unless an applicable tax treaty provides otherwise. Additionally, Non-U.S. Holders that are corporations could be subject to a “branch profits” tax on their effectively connected earnings and profits (subject to adjustments) at a 30% rate (or lower applicable treaty rate).
Under the provisions of the Code referred to as FATCA, additional U.S. federal withholding tax may apply to certain types of payments made to “foreign financial institutions,” as specially defined under such rules, and certain other non-U.S. entities (including in circumstances where the foreign financial institution or other non-U.S. entity is acting as an intermediary). The legislation imposes a 30% withholding tax on interest on, or, after December 31, 2018, gross proceeds from the sale or other disposition (including a retirement or redemption) of, notes paid to a foreign financial institution unless the foreign financial institution enters into an agreement with the U.S. Treasury to provide certain information regarding such institution’s account holders and owners of its equity or debt or, in the case of a foreign financial institution in a jurisdiction that has entered into an intergovernmental agreement with the United States, complies with the requirements of such agreement. In addition, the legislation imposes a 30% withholding tax on the same types of payments to a non-financial foreign entity unless the entity certifies that it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner. The legislation applies to payments of interest on the notes and, after December 31, 2018, to gross proceeds from the sale or other disposition of notes. Prospective investors should consult their own tax advisors regarding this legislation.

U.S. Information Reporting Requirements and Backup Withholding Tax Applicable to U.S. Holders and Non-U.S. Holders

Information reporting requirements generally will apply to payments to a U.S. Holder of interest on, and proceeds received from the sale, exchange, retirement, redemption or other taxable disposition of, a note, unless the holder is an exempt recipient, such as a corporation. In addition, backup withholding at the rate of 28% may apply to such payments or proceeds if a U.S. Holder that is not an exempt recipient fails to furnish the applicable withholding agent with a correct taxpayer identification number or other required certification, has been notified by the IRS that it is subject to backup withholding for previously failing to report interest or dividends required to be shown on the holder’s federal income tax returns, or otherwise fails to comply with applicable requirements of the backup withholding rules. A U.S. Holder that fails to provide its correct taxpayer identification number may also be subject to penalties imposed by the IRS.

In general, a Non-U.S. Holder will not be subject to backup withholding with respect to interest payments on the notes if such holder certifies that it is not a U.S. person. However, information reporting may still apply with respect to such payments.

A Non-U.S. Holder may be subject to backup withholding and related information reporting with respect to the proceeds of a sale, exchange, retirement, redemption or other taxable disposition of a note made within the United States or conducted through certain United States financial intermediaries unless such holder certifies that it is not a U.S. person or such holder otherwise establishes an exemption. Non-U.S. Holders should consult their own tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of exemptions and the procedure for obtaining such exemptions, if available.

Backup withholding is not an additional tax and any amounts withheld under the backup withholding rules may be refunded or credited against the holder’s U.S. federal income tax liability, if any, provided that certain required information is timely furnished to the IRS. The information reporting requirements may apply regardless of whether backup withholding is required.
UNDERWRITING

Merrill Lynch, Pierce, Fenner & Smith Incorporated, Goldman Sachs & Co. LLC and SunTrust Robinson Humphrey, Inc. are acting as the representatives (the “representatives”) of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the principal amount of notes set forth opposite its name below.

</table>

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the notes sold under the underwriting agreement if any of these notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer’s certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer each series of the notes to the public at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers at such price less a concession not in excess of 0.875% of the principal amount of each series of the notes. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The expenses of the offering, not including the underwriting discount, are estimated at $2.4 million and are payable by us.
New Issue of Notes

The Floating Rate notes and the 2047 notes are each a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any securities exchange or for inclusion of the notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the notes or that an active public market for such notes will develop or continue. If an active public trading market for such notes does not develop, the market price and liquidity of such notes may be adversely affected. If any series of the notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

Settlement

We expect that delivery of the notes will be made to investors on or about June 15, 2017, which will be the third business day following the date of this prospectus supplement (such settlement being referred to as “T+3”).

Short Positions

In connection with the offering, the underwriters may purchase and sell the notes in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of notes than they are required to purchase in the offering. The underwriters must close out any short position by purchasing notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of a series of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, the underwriters’ purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result, the price of a series of the notes may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor any of the underwriters make any representation that the representatives or any other underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their
customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect future trading prices of the notes offered hereby. The underwriters or their affiliates are agents and/or lenders under our revolving credit facility and an affiliate of Regions Securities LLC is the trustee, authenticating agent, paying agent, registrar and transfer agent under the Indenture. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

A member of the Vulcan board of directors is Chairman, President and Chief Executive Officer of Regions Financial Corporation, the parent company of Regions Securities LLC. In addition, two other members of the Vulcan board of directors serve on the board of directors of Regions Financial Corporation.

Notice to Prospective Investors in the European Economic Area

I. relation to each Member State of the European Economic Area (each, a “Relevant Member State”), no offer of notes may be made to the public in that Relevant Member State other than:

A. to any legal entity which is a qualified investor as defined in the Prospectus Directive;

B. to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives; or

C. in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of notes shall require the company or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

This prospectus has been prepared on the basis that any offer of notes in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of notes. Accordingly any person making or intending to make an offer in that Relevant Member State of notes which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for the company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the company nor the underwriters have authorized, nor do they authorize, the making of any offer of notes in circumstances in which an obligation arises for the company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression “an offer to the public” in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe the notes, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU) and includes any relevant implementing measure in the Relevant Member State.
Notice to Prospective Investors in the United Kingdom

In addition, in the United Kingdom, this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are “qualified investors” (as defined in the Prospectus Directive) (i) who have professional experience in matters relating to investments falling within Article 19 (5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Order”) and/or (ii) who are high net worth companies (or persons to whom it may otherwise be lawfully communicated) falling within Article 49(2) (a) to (d) of the Order (all such persons together being referred to as “relevant persons”). This document must not be acted on or relied on in the United Kingdom by persons who are not relevant persons. In the United Kingdom, any investment or investment activity to which this document relates is only available to, and will be engaged in with, relevant persons.

Notice to Prospective Investors in Switzerland

This prospectus supplement does not constitute an issue prospectus pursuant to Article 652a or Article 1156 of the Swiss Code of Obligations and the notes will not be listed on the SIX Swiss Exchange. Therefore, this prospectus supplement may not comply with the disclosure standards of the listing rules (including any additional listing rules or prospectus schemes) of the SIX Swiss Exchange. Accordingly, the notes may not be offered to the public in or from Switzerland, but only to a selected and limited circle of investors who do not subscribe to the notes with a view to distribution. Any such investors will be individually approached by the underwriters from time to time.

Notice to Prospective Investors in the Dubai International Financial Centre

This prospectus supplement relates to an Exempt Offer in accordance with the Offered Securities Rules of the Dubai Financial Services Authority (“DFSA”). This prospectus supplement is intended for distribution only to persons of a type specified in the Offered Securities Rules of the DFSA. It must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved this prospectus supplement nor taken steps to verify the information set forth herein and has no responsibility for the prospectus supplement. The notes to which this prospectus supplement relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the notes offered should conduct their own due diligence on the notes. If you do not understand the contents of this prospectus supplement you should consult an authorized financial advisor.

Notice to Prospective Investors in Hong Kong

The notes may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), or (ii) to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap.571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), and no advertisement, invitation or document relating to the notes may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

Notice to Prospective Investors in Japan

The notes have not been and will not be registered under the Securities and Exchange Law of Japan (the “Securities and Exchange Law”) and each underwriter has agreed that it will not offer or sell any notes, directly
or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

**Notice to Prospective Investors in Singapore**

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the notes may not be circulated or distributed, nor may the notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the notes are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries’ rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the notes under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

**Notice to Prospective Investors in Canada**

The notes may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this offering memorandum (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

S-46
WHERE YOU CAN FIND MORE INFORMATION AND INCORPORATION BY REFERENCE OF CERTAIN DOCUMENTS

Vulcan files annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document we file with the SEC at the SEC’s public reference room at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. You may obtain information on the operation of the SEC’s public reference facilities by calling the SEC at 1-800-SEC-0330. Our SEC filings are also accessible through the Internet at the SEC’s web site at http://www.sec.gov and through the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

The SEC permits us to “incorporate by reference” into this prospectus supplement the information in documents we file with it, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus supplement, and later information that we file with the SEC will update and supersede any information contained in this prospectus supplement or incorporated by reference in this prospectus supplement. We incorporate by reference the documents listed below and any future filings made with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act until the offering of the securities by means of this prospectus supplement is terminated.

These documents contain important business and financial information about us that is not included in or delivered with this prospectus supplement or the accompanying prospectus.

EXPERTS

The consolidated financial statements incorporated in this prospectus supplement by reference to Vulcan’s Annual Report on Form 10-K for the year ended December 31, 2016, and the effectiveness of Vulcan’s internal control over financial reporting have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, which are incorporated herein by reference. Such consolidated financial statements have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

S-47
VALIDITY OF SECURITIES

The validity of the notes will be passed upon for us by Womble Carlyle Sandridge & Rice, LLP, Winston-Salem, North Carolina, and for the underwriters by Cahill Gordon & Reindel LLP, New York, New York, each of which will rely with respect to matters of New Jersey law on Lowenstein Sandler LLP.

Stock Purchase Units

Vulcan Materials Company may, from time to time, in one or more offerings, offer and sell debt securities, common stock, preference stock, depositary shares, warrants, stock purchase contracts and stock purchase units to the public. We will provide specific terms of any offering and the offered securities in supplements to this prospectus. You should read this prospectus and each applicable prospectus supplement, together with the documents incorporated by reference herein and therein, carefully before you invest.

This prospectus may not be used to sell our securities unless it is accompanied by a prospectus supplement.

You should carefully read and evaluate the risk factors included in the documents we incorporate by reference in this prospectus, the risk factors described under the caption “Risk Factors” in any applicable prospectus supplement and in our periodic reports as well as the other information that we file with the Securities and Exchange Commission (the “SEC”). See “Risk Factors” on page 2.

We may offer these securities from time to time in amounts, at prices and on other terms to be determined at the time of the offering. We may offer and sell these securities to or through agents, underwriters, dealers or directly to purchasers. The names of any underwriters and the terms of the arrangements with such entities will be stated in an accompanying prospectus supplement.

NEITHER THE SEC NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

Our common stock is listed on the New York Stock Exchange under the symbol “VMC.” Each prospectus supplement will indicate if the securities offered thereby will be listed on any securities exchange.

The date of this prospectus is March 16, 2015.

ABOUT THIS PROSPECTUS

This document is called a prospectus and is part of a registration statement that we filed with the SEC using a “shelf” registration or continuous offering process. Under this shelf process, we may from time to time offer and/or sell any combination of the securities described in this prospectus in one or more offerings.

This prospectus provides you with a general description of the debt securities, common stock, preference stock, depository shares, warrants, stock purchase contracts and stock purchase units we may offer. Each time we sell any such securities, we will provide a prospectus supplement containing specific information about the terms of the securities being offered. That prospectus supplement may include a discussion of any risk factors or other special considerations applicable to those securities. The prospectus supplement may also add, update or change information in this prospectus. If there is any inconsistency between the information in this prospectus and any prospectus supplement, you should rely on the information in that prospectus supplement. You should read both this prospectus and the applicable prospectus supplement and the exhibits filed with our registration statement together with the additional information described under the heading “Where You Can Find More Information and Incorporation by Reference of Certain Documents.”

We have not authorized anyone to provide any information or to make any representations other than those contained in this prospectus or in any free writing prospectuses we have prepared. We take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. We are not making an offer to sell or soliciting an offer to purchase of these securities in any jurisdiction in which the offer or solicitation is not authorized or in which the person making the offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make the offer or solicitation. You should not assume that the information included or incorporated by reference in this prospectus or any prospectus supplement is accurate as of any date other than as of its date. Our business, financial condition, results of operations and prospects may have changed since that date.

Unless we have indicated otherwise, references in this prospectus to “Vulcan,” “we,” “us” and “our” or similar terms are to Vulcan Materials Company and its consolidated subsidiaries.

THE COMPANY

Vulcan Materials Company, a New Jersey corporation, is the nation’s largest producer of construction aggregates (primarily crushed stone, sand, and gravel) and a major producer of asphalt mix and ready-mixed concrete. We operated 335 aggregates facilities during the year ended December 31, 2014.

Our common stock is listed on the New York Stock Exchange under the symbol “VMC.” Additional information about Vulcan Materials Company and its subsidiaries can be found in our documents filed with the SEC, which are incorporated herein by reference. See “Where You Can Find More Information and Incorporation by Reference of Certain Documents” in this prospectus.

Our principal executive office is located at 1200 Urban Center Drive, Birmingham, Alabama 35242 and our telephone number is (205) 298-3000.
RISK FACTORS

Investing in our securities involves risks. Before purchasing any securities we offer, you should carefully consider the risk factors that are incorporated by reference herein from the section captioned “Risk Factors” in Vulcan’s most recent Annual Report on Form 10-K, as the same may be updated from time to time, together with all of the other information included in this prospectus and any prospectus supplement and any other information that we have incorporated by reference herein or therein, including filings made with the SEC subsequent to the date hereof. Any of these risks, as well as other risks and uncertainties, could harm our financial condition, results of operations or cash flows. Please also refer to the section below entitled “Information Regarding Forward-Looking Statements.”

WHERE YOU CAN FIND MORE INFORMATION AND INCORPORATION BY REFERENCE OF CERTAIN DOCUMENTS

Vulcan files annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document we file with the SEC at the SEC’s public reference room at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. You may obtain information on the operation of the SEC’s public reference facilities by calling the SEC at 1-800-SEC-0330. Our SEC filings are also accessible through the Internet at the SEC’s web site at http://www.sec.gov and through the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

The SEC permits us to “incorporate by reference” into this prospectus the information in documents we file with it, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus, and later information that we file with the SEC will update and supersede any information contained in this prospectus or incorporated by reference in this prospectus. We incorporate by reference the documents listed below and any future filings made with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) until the offering of the securities by means of this prospectus is terminated.

These documents contain important business and financial information about us that is not included in or delivered with this prospectus.

To the extent that any information contained in any Current Report on Form 8-K, or any exhibit thereto, was or is furnished, rather than filed with, the SEC, such information or exhibit is specifically not incorporated by reference into this document. We do not incorporate by reference any information furnished pursuant to Items 2.02 or 7.01 of Form 8-K in any past or future filings, unless specifically stated otherwise.

If you request a copy of any or all of the documents incorporated by reference, we will send to you the copies you requested at no charge. However, we will not send exhibits to such documents, unless such exhibits are specifically incorporated by reference in such documents. You should direct requests for such copies to Vulcan Materials Company, 1200 Urban Center Drive, Birmingham, Alabama 35242, Attention: Jerry F. Perkins, Jr., Secretary, Telephone: (205) 298-3000.

If you find inconsistencies between the documents, or between the documents and this prospectus or the applicable prospectus supplement, you should rely on the most recent document or prospectus supplement.
INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, including the documents we incorporate by reference, contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Exchange Act. Generally, these statements relate to future financial performance, results of operations, business plans or strategies, projected or anticipated revenues, expenses, earnings, or levels of capital expenditures. These statements reflect our intent, belief or current expectations. Statements to the effect that we or our management “anticipate,” “believe,” “estimate,” “expect,” “plan,” “predict,” “intend,” or “project” a particular result or course of events or “target” “objective,” or “goal,” or that a result or event “should” occur, and other similar expressions, identify these forward-looking statements. These statements are subject to numerous risks, uncertainties, and assumptions, including but not limited to general business conditions, competitive factors, pricing, energy costs, and other risks and uncertainties discussed in the reports we periodically file with the SEC. These risks, uncertainties, and assumptions may cause our actual results or performance to be materially different from those expressed or implied by the forward-looking statements. We caution prospective investors that forward-looking statements are not guarantees of future performance and that actual results, developments, and business decisions may vary significantly from those expressed in or implied by the forward-looking statements. We undertake no obligation to update publicly or revise any forward-looking statement for any reason, whether as a result of new information, future events or otherwise.

In addition to the risk factors identified in our Annual Report on Form 10-K for the year ended December 31, 2014, incorporated by reference herein, the following risks related to our business, among others, could cause actual results to differ materially from those described in the forward-looking statements:

- general economic and business conditions;
- the timing and amount of federal, state and local funding for infrastructure;
- changes in our effective tax rate that can adversely impact results;
- the increasing reliance on information technology infrastructure for our ticketing, procurement, financial statements and other processes can adversely affect operations in the event that the infrastructure does not work as intended, experiences technical difficulties or is subjected to cyber attacks;
- the impact of the state of the global economy on our business and financial condition and access to capital markets;
- changes in the level of spending for residential and private nonresidential construction;
- the highly competitive nature of the construction materials industry;
- the impact of future regulatory or legislative actions;
- the outcome of pending legal proceedings;
- pricing of our products;
- weather and other natural phenomena;
- energy costs;
- costs of hydrocarbon-based raw materials;
- healthcare costs;
- the amount of long-term debt and interest expense we incur;
- changes in interest rates;
- the impact of our below investment grade debt rating on our cost of capital;
volatility in pension plan asset values and liabilities which may require cash contributions to our pension plans;
the impact of environmental clean-up costs and other liabilities relating to previously divested businesses;
our ability to secure and permit aggregates reserves in strategically located areas;
our ability to successfully implement our new divisional structure and changes in our management team;
our ability to manage and successfully integrate acquisitions;
the potential of goodwill or long-lived asset impairment;
the potential impact of future legislation or regulations relating to climate change, greenhouse gas emissions or the definition of minerals;
the risks set forth in “Risk Factors” beginning on page 2 of this prospectus and Item 3 “Legal Proceedings,” Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and Note 12 “Commitments and Contingencies” to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2014, incorporated by reference herein; and
assumptions, risks and uncertainties detailed from time to time in our filings made with the SEC.
RATIO OF EARNINGS TO FIXED CHARGES

Our ratio of earnings to fixed charges is set forth below for the periods indicated. For purposes of computing the ratio of earnings to fixed charges, earnings were calculated by adding (1) earnings from continuing operations before income taxes; (2) fixed charges; (3) capitalized interest credits; (4) amortization of capitalized interest; and (5) distributed income of equity investees. Fixed charges consist of: (1) interest expense before capitalization credits; (2) amortization of financing costs; and (3) one-third of rental expense.

(1) Earnings were insufficient to cover fixed charges by approximately $192.4 million for the year ended December 31, 2010, $153.0 million for the year ended December 31, 2011, $119.7 million for the year ended December 31, 2012, and $1,384,000 for the year ended December 31, 2013.
USE OF PROCEEDS

Unless otherwise specified in a prospectus supplement accompanying this prospectus, we will add the net proceeds from the sale of the securities to which this prospectus and the prospectus supplement relate to our general funds, which we will use for repaying outstanding borrowings under our revolving credit agreement, financing any increase in working capital, acquisitions, general corporate purposes and any other purpose specified in a prospectus supplement. We may conduct concurrent or additional financings at any time.
DESCRIPTION OF DEBT SECURITIES

The following is a general description of the debt securities which may be issued from time to time by us under this prospectus. The particular terms relating to each debt security will be set forth in a prospectus supplement. References in this “Description of Debt Securities” to “Vulcan,” “we,” “us” and “our” or similar terms refer solely to Vulcan Materials Company and not to any of our subsidiaries.

General

We may issue from time to time one or more series of debt securities under an indenture (the “Indenture”) between us and Regions Bank, an Alabama banking corporation (as successor to Wilmington Trust Company), as trustee (the “Trustee”). The Indenture will not limit the amount of debt securities that we may issue. The Trustee will act as authenticating agent, paying agent, registrar and transfer agent for the debt securities.

The debt securities will be our direct, unsecured obligations. The debt securities will either rank as senior debt or subordinated debt, and may be issued either separately or together with, or upon the conversion of, or in exchange for, other securities. We currently conduct substantially all of our operations through subsidiaries, and the holders of our debt securities (whether senior or subordinated) will be effectively subordinated to the creditors of our subsidiaries. This means that creditors of our subsidiaries will have a claim to the assets of our subsidiaries that is superior to the claim of our creditors, including holders of our debt securities.

The following description is only a summary of the material provisions of the Indenture for the debt securities and is qualified by reference to the Indenture, which is filed as an exhibit to the registration statement of which this prospectus is a part. The terms of any indenture that we may enter into may differ from the terms we describe below. We urge you to read the Indenture because it, and not this description, defines your rights as a holder of the debt securities. The summary below of the general terms of the debt securities will be supplemented by the more specific terms in the prospectus supplement for a particular series of debt securities. In some instances, certain of the precise terms of the debt securities you are offered may be described in a further prospectus supplement, known as a pricing supplement.

Terms Applicable to Debt Securities

The prospectus supplement, including any separate pricing supplement, for a particular series of debt securities will specify the following terms of that series of debt securities:

• the designation, the aggregate principal amount and the authorized denominations, if other than $1,000 and integral multiples of $1,000;
• the percentage of the principal amount at which the debt securities will be issued;
• the date or dates on which the debt securities will mature;
• the currency, currencies or currency units in which payments on the debt securities will be payable;
• the rate or rates at which the debt securities will bear interest, if any, or the method of determination of such rate or rates;
• the date or dates from which the interest, if any, shall accrue, the dates on which the interest, if any, will be payable and the method of determining holders to whom any of the interest shall be payable;
• the prices, if any, at which, and the dates at or after which, we may or must repay, repurchase or redeem the debt securities;
• any sinking fund obligation with respect to the debt securities;
• any terms pursuant to which the debt securities may be convertible or exchangeable into equity or other securities;
whether such debt securities will be senior debt securities or subordinated debt securities and, if subordinated debt securities, the subordination provisions and the applicable definition of “senior indebtedness”;

• any special United States federal income tax consequences;

• any addition to or change in the events of default described in this prospectus or the Indenture;

• any addition to or change in the covenants described in this prospectus or the Indenture;

• whether the debt securities will be issued in the form of one or more permanent global debt securities;

• the exchanges, if any, on which the debt securities may be listed; and

• any other material terms of the debt securities consistent with the provisions of the Indenture.

Unless otherwise specified in the prospectus supplement, we will compute interest payments on the basis of a 360-day year consisting of twelve 30-day months.

Original Issue Discount Securities

Some of the debt securities may be issued as “original issue discount securities” to be sold at a discount below their stated principal amount in excess of a certain de minimus amount. Original issue discount securities may include “zero coupon” securities that do not pay any cash interest for the entire term of the securities. In the event of an acceleration of the maturity of any original issue discount security, the amount payable to the holder thereof upon such acceleration will be determined in the manner described in the applicable prospectus supplement. Conditions pursuant to which payment of the principal of the debt securities may be accelerated will be set forth in the prospectus supplement relating to those debt securities. The prospectus supplement relating to a particular series of discounted debt securities will describe any material U.S. federal income tax consequences and other special consequences applicable to those discounted debt securities.

Reopening of Issue

We may, from time to time, reopen an issue of debt securities and issue additional debt securities with the same terms (including issue date, maturity and interest rate) as the debt securities of that series issued on an earlier date. (Section 303) After such additional debt securities are issued, they will be fungible with the debt securities of that series issued on the earlier date.

Ranking

The senior debt securities will be unsecured and will rank equal in right of payment with all of our existing and future unsecured and unsubordinated indebtedness. Any subordinated debt securities will be obligations of ours and will be subordinated in right of payment to both our existing and any future senior indebtedness. The prospectus supplement relating to those debt securities will describe the subordination provisions and set forth the definition of “senior indebtedness” applicable to those subordinated debt securities and the approximate amount of senior indebtedness outstanding as of a then recent date.

Redemption and Repurchase

Debt securities of any series may be redeemable at our option, may be subject to mandatory redemption pursuant to a sinking fund or otherwise, or may be subject to repurchase by us at the option of the holders, in each case upon the terms, at the times and at the prices set forth in the applicable prospectus supplement.

Conversion and Exchange

The terms, if any, on which debt securities of any series are convertible into or exchangeable for common stock, preference stock, or other debt securities will be set forth in the applicable prospectus supplement. Such terms of conversion or exchange may be either mandatory, at the option of the holders, or at our option.
Covenants

Unless the applicable prospectus supplement specifies otherwise, the debt securities will be subject to certain restrictive covenants described below. Any additional restrictive covenants applicable to a particular series of debt securities that we offer will be described in the applicable prospectus supplement.

Restrictions on Secured Debt

In the Indenture, we covenant that we will not, and each of our restricted subsidiaries (as defined below) will not, incur, issue, assume or guarantee any debt (as defined in the Indenture) secured by a pledge, mortgage or other lien (1) on a principal property (as defined below) owned or leased by us or any restricted subsidiary or (2) on any shares of stock or debt of any restricted subsidiary, unless we secure the debt securities equally and ratably with or prior to the debt secured by the lien. If we secure the debt securities in this manner, we have the option of securing any of our other debt or obligations, or those of any subsidiary, equally and ratably with the debt securities, as long as the other debt or obligations are not subordinate to the debt securities. This covenant has significant exceptions; it does not apply to the following liens:

- liens on the property, shares of stock or debt of any person (as defined in the Indenture) existing at the time the person becomes our restricted subsidiary or, with respect to a particular series of debt securities, liens existing as of the time such debt securities are first issued;
- liens in favor of us or any of our restricted subsidiaries;
- liens in favor of U.S. governmental bodies to secure progress, advance or other payments required under any contract or provision of any statute or regulation;
- liens on property, shares of stock or debt, either:
  - existing at the time we acquire the property, stock or debt, including acquisition through merger or consolidation;
  - securing all or part of the cost of acquiring the property, stock or debt or construction on or improvement of the property; or
  - securing debt to finance the purchase price of the property, stock or debt or the cost of acquiring, constructing on or improving of the property that were incurred prior to or at the time of or within one year after the acquisition of the property, stock or debt or complete construction on or improvement of the property and commence full operation thereof;
- liens securing all of the debt securities; and
- any extension, renewal or replacement of the liens described above if the extension, renewal or replacement is limited to the same property, shares or debt that secured the lien that was extended, renewed or replaced (plus improvements on such property), except that if the debt secured by a lien is increased as a result of such extension, renewal or replacement, we will be required to include the increase when we compute the amount of debt that is subject to this covenant. (Section 1006)

In addition, this covenant restricting secured debt does not apply to any debt that either we or any of our restricted subsidiaries issue, assume or guarantee if the total principal amount of the debt, when added to (1) all of the other outstanding debt that this covenant would otherwise restrict, and (2) the total amount of remaining rent, discounted by 11% per year, that we or any restricted subsidiary owes under any lease arising out of a sale and leaseback transaction, is less than or equal to 15% of our consolidated net tangible assets. (Section 1006) When we talk about consolidated net tangible assets, we mean, in general, the aggregate amount of the assets of us and our consolidated subsidiaries after deducting (a) all current liabilities (excluding any thereof constituting funded debt, as defined in the Indenture, by reason of being renewable or extendible) and (b) all goodwill, trade names, trademarks, patents, unamortized debt discount and expense, and similar intangible assets, all as set forth in our most recent consolidated balance sheet. (Section 101)
When we talk about a restricted subsidiary, we mean, in general, a corporation (as defined in the Indenture) more than 50% of the outstanding voting stock of which is owned, directly or indirectly, by us or by one or more of our other subsidiaries, or us and one or more of our other subsidiaries, and has substantially all its assets located in, or carries on substantially all of its business in, the United States of America; provided, however, that the term shall not include any entity which is principally engaged in leasing or in financing receivables, or which is principally engaged in financing our operations outside the United States of America. (Section 101)

When we talk about a principal property, we mean, in general, any building, structure or other facility that we or any restricted subsidiary leases or owns, together with the land on which the facility is built and fixtures comprising a part thereof, which is located in the United States, used primarily for manufacturing or processing and which has a gross book value in excess of 3% of our consolidated net tangible assets, other than property financed pursuant to certain exempt facility sections of the Internal Revenue Code or which in the opinion of our board of directors, is not of material importance to the total business. (Section 101)

Limitation on Sale and Leasebacks

We have agreed that neither we nor any of our restricted subsidiaries will enter into a sale and leaseback transaction (as defined in the Indenture) related to a principal property which would take effect more than one year after the acquisition, construction, improvement and commencement of full operation of the property, except for temporary leases for a term of not more than three years (or which we or such restricted subsidiary may terminate within three years) and except for leases between us and a restricted subsidiary or between our restricted subsidiaries, unless one of the following applies:

• we or our restricted subsidiary could have incurred debt secured by a lien on the principal property to be leased back in an amount equal to the remaining rent, discounted by 11% per year, for that sale and leaseback transaction, without being required to equally and ratably secure the debt securities as required by the “Restrictions on Secured Debt” covenant described above, or
• within one year after the sale or transfer, we or a restricted subsidiary apply to (1) the purchase, construction or improvement of other property used or useful in the business of, or other capital expenditure by, us or any of our restricted subsidiaries or (2) the retirement of long-term debt, which is debt with a maturity of a year or more, or the prepayment of any capital lease obligation of the Company or any restricted subsidiary an amount of cash at least equal to (a) the net proceeds of the sale of the principal property sold and leased back under the sale and leaseback arrangement, or (b) the fair market value of the principal property sold and leased back under the arrangement, whichever is greater, provided that the amount to be applied or prepaid shall be reduced by (x) the principal amount of any debt securities delivered within one year after such sale to the Trustee for retirement and cancellation, and (y) the principal amount of our long-term debt (as defined in the Indenture), other than debt securities, voluntarily retired by us or any restricted subsidiary within one year after such sale, or
• as to any particular series of debt securities, sale and leaseback transactions existing on the date the debt securities of that particular series are first issued. (Section 1007)

Consolidation, Merger and Sale of Assets

We may not consolidate with or merge into any corporation (as defined in the Indenture), or convey, transfer or lease our properties and assets substantially as an entirety to any corporation, and may not permit any corporation to consolidate or merge into us or convey, transfer or lease its properties and assets substantially as an entirety to us, unless:

(i) the remaining or acquiring entity is a corporation organized and validly existing under the laws of the United States of America, any state thereof or the District of Columbia and expressly assumes our obligations on the debt securities and under the Indenture;
(ii) immediately after giving effect to the transaction, no event of default (as defined in the Indenture), and no event which, after notice or lapse of time or both, would become an event of default, would occur and continue;

(iii) if, as a result of any such consolidation or merger or such conveyance, transfer or lease, our properties or assets would become subject to a mortgage, pledge, lien security interest or other encumbrance which would not be permitted by the Indenture, we or the successor corporation shall take such steps as shall be necessary effectively to secure the debt securities equally and ratably with (or prior to) all indebtedness secured thereby; and

(iv) we have delivered to the Trustee an officers’ certificate and an opinion of counsel, each stating that such consolidation, merger, conveyance, transfer or lease and, if a supplemental indenture is required in connection with such transaction, such supplemental indenture comply with Article Eight of the Indenture and that all conditions precedent provided therein relating to such transaction have been complied with. (Section 801)

This covenant shall not apply to sale, assignment, transfer, conveyance or other disposition of assets between or among us and any restricted subsidiary.

SEC Reports

We shall file with the Trustee and the SEC and transmit to holders such information, documents and other reports and such summaries thereof as may be required pursuant to the Trust Indenture Act of 1939 as provided pursuant to such act, provided that any such information, documents or reports required to be filed with the SEC pursuant to Section 13 or 15(d) of the Exchange Act shall be filed with the Trustee within 15 days after the same is actually filed with the SEC. (Section 704)

Events of Default

Each of the following will constitute an event of default under the Indenture with respect to debt securities of any series:

(i) failure to pay any interest on any debt securities of that series when due and payable, continued for 30 days;

(ii) failure to pay principal of or any premium on any debt security of that series when due;

(iii) failure to deposit any sinking fund payment, when due, in respect of any debt security of that series;

(iv) failure to perform, or breach of, any other covenant or warranty of ours in the Indenture with respect to debt securities of that series (other than a covenant or warranty included in the Indenture solely for the benefit of a particular series other than that series), continued for 90 days after written notice has been given to us by the Trustee or the holders of at least 25% in principal amount of the outstanding debt securities of that series, as provided in the Indenture;

(v) certain events involving bankruptcy, insolvency or reorganization; and

(vi) any other event of default in respect of the debt securities of that series. (Section 501)

If an event of default with respect to the debt securities of any series at the time outstanding occurs and continues, either the Trustee or the holders of at least 25% of the aggregate principal amount of the outstanding debt securities of that series may declare the principal amount of the debt securities of that series to be due and payable immediately by giving notice as provided in the Indenture. After the acceleration of a series, but before a judgment or decree based on acceleration is rendered, the holders of a majority of the aggregate principal amount of the outstanding debt securities of that series may, under certain circumstances, rescind and annul the acceleration if all events of default, other than the non-payment of accelerated principal, have been cured or waived as provided in the Indenture. (Section 502)
If an event of default occurs and is continuing, generally the Trustee will be under no obligation to exercise any of its rights under the Indenture at the request of any of the holders, unless those holders offer to the Trustee indemnity satisfactory to it. (Section 603) If the Trustee is offered indemnity satisfactory to it under the Indenture, the holders of a majority of the aggregate principal amount of the outstanding debt securities of any series will have the right to direct (provided such direction shall not conflict with any rule of law or the Indenture) the time, method and place of:

- conducting any proceeding for any remedy available to the Trustee; or
- exercising any trust or power conferred on the Trustee with respect to the debt securities of that series. (Section 512)

No holder of a debt security of any series will have any right to institute any proceeding with respect to the Indenture, or for the appointment of a receiver or a trustee or for any other remedy under the Indenture, unless:

- the holder has previously given to the Trustee written notice of a continuing event of default with respect to the debt securities of that series;
- the holders of at least 25% of the aggregate principal amount of the outstanding debt securities of the relevant series have made written request, and the holder or holders have offered reasonable indemnity, to the Trustee to institute the proceeding; and
- the Trustee has failed to institute a proceeding, and has not received from the holders of a majority of the aggregate principal amount of the outstanding debt securities of the relevant series a direction inconsistent with the request, within 60 days after the notice, request and offer. (Section 507)

However, the limitations do not apply to a suit instituted by a holder of a debt security for the enforcement of payment of the principal of or any premium or interest on any debt security on or after the applicable due date specified in the debt security. (Section 508)

We will furnish annually a statement to the Trustee by certain of its officers as to whether or not we, to the best of their knowledge, are in default in the performance or observance of any of the terms, provisions, conditions or covenants of the Indenture and, if so, specifying all known defaults and the nature and status of such defaults. (Section 1004)

If a default of which a responsible officer of the Trustee has actual knowledge occurs with respect to the debt securities, the Trustee shall give the holders of the debt securities notice of such default in accordance with the requirements of the Trust Indenture Act. However, in the case of certain events of default, the Indenture provides that no such notice shall be given to holders of the debt securities until at least 30 days after the occurrence of such events of default. (Section 602)

Modification and Waiver

Modifications and amendments of the Indenture may be made by us and the Trustee with the consent of the holders of a majority of aggregate principal amount of the outstanding debt securities of each series affected by the modification or amendment. No modification or amendment may, without the consent of the holder of each affected outstanding debt security:

(i) change the stated maturity of the principal of, or any installment of principal of or interest on, any debt security;
(ii) reduce the principal amount of, or any premium or interest on, any debt security;
(iii) reduce the amount of principal of an original issue discount security payable upon acceleration of maturity;
(iv) change the place or currency of payment of principal of, or any premium or interest on, any debt security;
(v) impair the right to institute suit for the enforcement of any payment on or with respect to any debt security;
(vi) reduce the percentage of the principal amount of outstanding debt securities of any series that is required to consent to the modification or amendment of the Indenture;
(vii) reduce the percentage of the principal amount of outstanding debt securities of any series necessary for waiver of compliance with certain provisions of the Indenture or for waiver of certain defaults; or
(viii) make certain modifications to the provisions of the Indenture with respect to modification and waiver. (Section 902)

The holders of a majority of the aggregate principal amount of the outstanding debt securities of any series may waive any past default or compliance with certain restrictive provisions under the Indenture, except a default in the payment of principal, premium or interest and certain covenants and provisions of the Indenture which cannot be amended without the consent of the holder of each outstanding debt security of the affected series. (Sections 513 and 1008)

In determining whether the holders of the requisite principal amount of the outstanding debt securities have given or taken any direction, notice, consent, waiver or other action under the Indenture as of any date, the principal amount of an original issue discount security that will be deemed to be outstanding will be the amount of its principal that would be due and payable at that time if the debt security were accelerated to that date.

Certain debt securities, including those owned by us or any of our affiliates or for which payment or redemption money has been deposited or set aside in trust for the holders, will not be deemed to be outstanding. (Section 101)

We will generally be entitled to set any day as a record date for the purpose of determining the holders of outstanding debt securities of any series entitled to give or take any direction, notice, consent, waiver or other action under the Indenture, in the manner and subject to the limitations provided in the Indenture. In certain limited circumstances, the Trustee will be entitled to set a record date for action by holders, and to be effective, that action must be taken by holders of the requisite principal amount of the debt securities within 90 days following the record date. If a record date is set for any action to be taken by holders of a particular series, the action may be taken only by persons who are holders of outstanding debt securities of that series on the record date. (Sections 104, 502, 512 and 513)

Defeasance

The provisions of Section 1302, relating to defeasance and discharge of indebtedness, or Section 1303, relating to defeasance of certain restrictive covenants in the Indenture, may apply to the debt securities of any series or to any specified part of a series. (Section 1301)

Defeasance and Discharge. Section 1302 of the Indenture provides that we may be discharged from all of our obligations with respect to the debt securities (except for the rights of holders to receive payments of principal and any premium or interest solely from funds deposited in trust, and certain obligations to exchange or register the transfer of debt securities, to replace stolen, lost or mutilated debt securities, to maintain paying agencies, to hold moneys for payment in trust and to defease and discharge debt securities under Article Thirteen of the Indenture). To be discharged from those obligations, we must deposit in trust for the benefit of the holders of the debt securities money or government obligations, or both, which, through the payment of principal of and interest on the deposited money or government obligations, will provide enough money to pay the principal of...
and any premium and interest on the debt securities on the stated maturities and any sinking fund payments in accordance with the terms of the Indenture and the
debt securities. We may only do this if, among other things, we have delivered to the Trustee an opinion of counsel to the effect that we have received from, or
there has been published by, the United States Internal Revenue Service a ruling, or there has been a change in tax law, in either case to the effect that holders of
the debt securities will not recognize income, gain or loss for federal income tax purposes as a result of the defeasance and discharge and will be subject to federal
income tax on the same amount, in the same manner and at the same times as would have been the case if the defeasance and discharge were not to occur. (Sections
1302 and 1304)

**Defeasance of Certain Covenants**. Section 1303 of the Indenture provides that:

• in certain circumstances, we may omit to comply with certain restrictive covenants, including those described under “Covenants — Restrictions on
  Secured Debt,” “Covenants — Limitation on Sale and Leasebacks,” “SEC Reports,” “Consolidation, Merger and Sale of Assets” and other covenants
  identified in any supplemental indenture; and

• in those circumstances, the occurrence of certain events of default, which are described above in clause (iv) (with respect to the restrictive covenants)
  under “Events of Default,” will be deemed not to be or result in an event of default with respect to the debt securities.

We, to exercise this option, will be required to deposit, in trust for the benefit of the holders of the debt securities, money or government obligations, or both,
which, through the payment of principal of and interest on the deposited money or government obligations, will provide enough money to pay the principal of and
any premium and interest on the debt securities on the stated maturities in accordance with the terms of the Indenture and the debt securities. We will also be
required, among other things, to deliver to the Trustee an opinion of counsel to the effect that holders of the debt securities will not recognize income, gain or loss
for federal income tax purposes as a result of the deposit and defeasance and will be subject to federal income tax on the same amount, in the same manner and at
the same times as would have been the case if the deposit and defeasance were not to occur. If we exercise this option with respect to any debt securities and those
debt securities are accelerated because of the occurrence of any event of default, the amount of money and U.S. government obligations deposited in trust will be
sufficient to pay amounts due on those debt securities at the time of their stated maturities but might not be sufficient to pay amounts due on those debt securities
upon that acceleration. In that case, we will remain liable for the payments. (Sections 1303 and 1304)

**Notices**

Notices to holders of debt securities will be given by mail to the addresses of the holders as they appear in the security register. (Section 106)

**Title**

We, the Trustee, the paying agent and any of their agents may treat the registered holder of a debt security as the absolute owner of the debt security for the
purpose of making payment and for all other purposes. (Section 308)

**Payment of Securities**

We will duly and punctually pay the principal of and any premium or interest on the debt securities in accordance with the terms of the debt securities and
the Indenture. (Section 1001)

**Maintenance of Office or Agency**

We will maintain an office or agency where the debt securities may be paid and notices and demands to or upon us in respect of the debt securities and the
Indenture may be served and an office or agency where debt
securities may be surrendered for registration of transfer or exchange. We will give prompt written notice to the trustee of the location, and any change in the location, of any such office or agency. If at any time we shall fail to maintain any required office or agency or shall fail to furnish the Trustee with the address of any required office or agency, all presentations, surrenders, notices and demands may be served at the office of the Trustee. (Section 1002)

Form, Exchange and Transfer

We will issue the debt securities of each series only in fully registered form, without coupons, and, unless otherwise specified in the applicable prospectus supplement, only in denominations of $1,000 and integral multiples thereof. (Section 302)

Holders may, at their option, but subject to the terms of the Indenture and the limitations that apply to global securities, exchange their debt securities for other debt securities of the same series of any authorized denomination and of a like tenor and aggregate principal amount. (Section 305)

Subject to the terms of the Indenture and the limitations that apply to global securities, holders may exchange debt securities as provided above or present for registration of transfer at the office of the security registrar or at the office of any transfer agent designated by us. No service charge applies for any registration of transfer or exchange of debt securities, but the holder may have to pay any tax or other governmental charge associated with registration of transfer or exchange. The transfer or exchange will be made after the security registrar or the transfer agent is satisfied with the documents of title and the identity of the person making the request. We have appointed Regions Bank as security registrar and transfer agent. Any security registrar or transfer agent subsequently designated by us for any debt securities will be named in a prospectus supplement. We may at any time designate additional transfer agents or cancel the designation of any transfer agent or approve a change in the office through which any transfer agent acts. However, we will be required to maintain a transfer agent in each place of payment for the debt securities of each series. (Section 1002)

If the debt securities are to be partially redeemed, we will not be required to:

- issue or register the transfer of or exchange any debt security during a period beginning 15 days before the day of mailing of a notice of redemption and ending on the day of the mailing; or
- register the transfer of or exchange any debt security selected for redemption, in whole or in part, except the unredeemed portion of any debt security being redeemed in part. (Section 305)

Authentication and Delivery

The debt securities shall be executed on behalf of Vulcan by our Chairman of the Board, Vice Chairman of the Board, President, or any Vice President and attested by our Secretary or any Assistant Secretary. The signatures of any of these officers on the debt securities may be manual or by facsimile. We may deliver the debt securities so executed by our proper officers to the Trustee for authentication, together with a company order for authentication and delivery of such debt securities, and the Trustee in accordance with such company order shall authenticate and deliver the debt securities, subject to certain exceptions stated in the Indenture. (Section 303)

Payment and Paying Agents

We will pay interest on a debt security on any interest payment date to the registered holder of the debt security as of the close of business on the regular record date for payment of interest. (Section 307)

We will pay the principal of and any premium and interest on the debt securities at the office of the paying agent or paying agents that we designate. Principal and interest payments on global securities registered in the name of DTC’s nominee (including the global securities representing the notes) will be made in immediately available funds to DTC’s nominee as the registered owner of the global securities.
We have appointed Regions Bank as paying agent. We may at any time designate additional paying agents, rescind the designation of any paying agent or approve a change in the office through which any paying agent acts. Any paying agent subsequently designated by us for any debt securities will be named in a prospectus supplement. We must maintain a paying agent in each place of payment for the debt securities of a particular series. (Sections 1002 and 1003)

**Concerning the Trustee and Agent**

Regions Bank will initially act as trustee, authenticating agent, paying agent, registrar and transfer agent for the debt securities issued pursuant to this prospectus.

The trustee may resign or be removed at any time with respect to the debt securities of any series by any act of holders of a majority in principal amount of the outstanding securities of such series, and we may appoint a successor trustee to act for such series. (Section 610)

We will describe in the applicable prospectus supplement any other material business and other relationships (including additional trusteeships), other than the trusteeship under the Indenture and the agency under the paying agency agreement, between us and any of our affiliates, on the one hand, and each trustee and agent under the Indenture and the paying agency agreement, on the other hand.

**Governing Law**

The laws of the State of New York will govern the Indenture and each series of debt securities. (Section 112)

**Global Securities**

The debt securities of a series may be issued in whole or in part in the form of one or more global securities that will be deposited with the depository identified in the applicable prospectus supplement. Unless it is exchanged in whole or in part for debt securities in definitive form, a global security may not be transferred. However, transfers of the whole security between the depository for that global security and its nominees or their respective successors are permitted.

Unless otherwise provided in the applicable prospectus supplement, The Depository Trust Company, New York, New York, which we refer to in this prospectus as “DTC,” will act as depository for each series of global securities. Beneficial interests in global securities will be shown on, and transfers of global securities will be effected only through, records maintained by DTC and its participants.

DTC has provided the following information to us. DTC is a:

- limited-purpose trust company organized under the New York Banking Law;
- banking organization within the meaning of the New York Banking Law;
- member of the U.S. Federal Reserve System;
- clearing corporation within the meaning of the New York Uniform Commercial Code; and
- clearing agency registered under the provisions of Section 17A of the Exchange Act.

DTC holds securities that its direct participants deposit with DTC. DTC also facilitates the settlement among direct participants of securities transactions, in deposited securities through electronic computerized book-entry changes in the direct participant’s accounts. This eliminates the need for physical movement of securities certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing
corporations and certain other organizations. DTC is owned by a number of its direct participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the Financial Industry Regulatory Authority. Access to DTC’s book-entry system is also available to indirect participants such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant. The rules applicable to DTC and its direct and indirect participants are on file with the SEC.

Principal and interest payments on global securities registered in the name of DTC’s nominee will be made in immediately available funds to DTC’s nominee as the registered owner of the global securities. We and the trustee will treat DTC’s nominee as the owner of the global securities for all other purposes as well. Accordingly, we, the trustee and any paying agent will have no direct responsibility or liability to pay amounts due on the global securities to owners of beneficial interests in the global securities. It is DTC’s current practice, upon receipt of any payment of principal or interest, to credit direct participants’ accounts on the payment date according to their respective holdings of beneficial interests in the global securities. These payments will be the responsibility of the direct and indirect participants and not of DTC, the trustee, the paying agent or us.

Debt securities represented by a global security will be exchangeable for debt securities in definitive form of like amount and terms in authorized denominations only if:

• DTC notifies us that it is unwilling or unable to continue as depository or DTC ceases to be a registered clearing agency and, in either case, a successor depository is not appointed by us within 90 days;

• we determine not to require all of the debt securities of a series to be represented by a global security and notify the applicable trustee of our decision;

• an event of default is continuing.
DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of 480,000,000 shares of common stock, $1.00 par value, and 5,000,000 shares of preference stock, without par value. The following summary is qualified in its entirety by the provisions of our certificate of incorporation and by-laws, which are incorporated by reference as an exhibit to the registration statement of which this prospectus constitutes a part.

Common Stock

This section describes the general terms of our common stock. For more detailed information, you should refer to our certificate of incorporation and bylaws, copies of which have been filed with the SEC. These documents are also incorporated by reference into this prospectus.

The holders of common stock are entitled to one vote per share on all matters to be voted upon by the shareholders. Subject to preferences that may be applicable to any outstanding preference stock, the holders of common stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by our board of directors out of funds legally available. In the event of our liquidation, dissolution or winding up, the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to prior liquidation rights of preference stock, if any, then outstanding. The common stock has no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of common stock to be outstanding upon the completion of any common stock offering will be fully paid and non-assessable.

Our common stock is traded on the New York Stock Exchange under the trading symbol “VMC.” The transfer agent for the common stock is Computershare Shareowner Services, LLC.

Preference Stock

This section describes the general terms and provisions of our preference stock. The prospectus supplement for a series of preference stock will describe the specific terms of the shares of preference stock offered through that prospectus supplement, as well as any general terms described in this section that will not apply to those shares of preference stock. We will file a copy of the amendment to our certificate of incorporation that contains the terms of each new series of preference stock with the SEC each time we issue a new series of preference stock. Each such amendment to our certificate of incorporation will establish the number of shares included in a designated series and fix the designation, powers, privileges, preferences and rights of the shares of each series as well as any applicable qualifications, limitations or restrictions. You should refer to the applicable amendment to our certificate of incorporation before deciding to buy shares of our preference stock as described in the applicable prospectus supplement.

Our board of directors has been authorized to provide for the issuance of shares of our preference stock in multiple series without the approval of stockholders. With respect to each series of our preference stock, our board of directors has the authority to fix the following terms:

- the designation of the series;
- the number of shares within the series;
- whether dividends are cumulative and, if cumulative, the dates from which dividends are cumulative;
- the rate of any dividends, any conditions upon which dividends are payable, and the dates of payment of dividends;
- whether the shares are redeemable, the redemption price and the terms of redemption;
- the establishment of a sinking fund, if any, for the purchase or redemption of shares;
Your rights with respect to your shares of preference stock will be subordinate to the rights of our general creditors. Shares of our preference stock that we issue will be fully paid and nonassessable, and will not be entitled to preemptive rights unless specified in the applicable prospectus supplement.

Our ability to issue preference stock, or rights to purchase such shares, could discourage an unsolicited acquisition proposal. In addition, we could impede a business combination transaction by issuing a series of preference stock containing class voting rights that would enable the holders of such preference stock to block a business combination transaction. Alternatively, we could facilitate a business combination transaction by issuing a series of preference stock having sufficient voting rights to provide a required percentage vote of the stockholders. Additionally, under certain circumstances, our issuance of preference stock could adversely affect the voting power of the holders of our common stock. Although our board of directors is required to make any determination to issue any preference stock based on its judgment as to the best interests of our stockholders, our board of directors could act in a manner that would discourage an acquisition attempt or other transaction that some, or a majority, of our stockholders might believe to be in their best interests or in which stockholders might receive a premium for their stock over prevailing market prices of such stock. Our board of directors does not at present intend to seek stockholder approval prior to any issuance of currently authorized stock, unless otherwise required by law or applicable New York Stock Exchange requirements.

Special Charter Provision

Our certificate of incorporation contains a “fair price” provision that applies to certain business combination transactions involving any person that beneficially owns at least 10% of the aggregate voting power of our outstanding capital stock (“Voting Stock”) or that is an affiliate of Vulcan that has been the beneficial owner of at least 10% of our Voting Stock at any time in the past two years, or any assignee of Voting Stock from such a person, each of these an “Interested Shareholder.” The “fair price” provision requires the affirmative vote of the holders of at least 80% of our Voting Stock to approve any such transaction.

This voting requirement will not apply to certain transactions, including:

• any transaction in which the consideration to be received by the holders of each class of capital stock is equal to the highest of (1) the highest price per share paid by the Interested Shareholder on the date the person first became an Interested Shareholder; (2) the highest price per share the Interested Shareholder paid for a share of such class, which purchase was consummated in the past two years; (3) the fair market value per share of the same class on the day such transaction was announced; and (4) the fair market value per share of the same class on the day the person became an Interested Shareholder; or

• any transaction that is approved by our continuing directors (as defined in our certificate of incorporation).
This provision could have the effect of delaying or preventing change in control in a transaction or series of transactions that did not satisfy the “fair price” criteria.

The provisions of our certificate of incorporation relating to the “fair price” provision may be amended only by the affirmative vote of the holders of at least 80% of the aggregate voting power of our outstanding capital stock.

New Jersey Anti-Takeover Statute

New Jersey has adopted a type of anti-takeover statute known as a “business combination” statute. Subject to numerous qualifications and exceptions, the statute prohibits an interested stockholder of a corporation from effecting a business combination with the corporation for a period of five years unless (i) the corporation’s board approved the combination prior to the shareholder becoming an interested stockholder or (ii) the corporation’s board approved the transaction or series of transactions which caused the person to become an interested stockholder prior to becoming an interested stockholder and any subsequent business combination with that interested stockholder is approved by independent members of the board and the holders of a majority of the voting stock not beneficially owned by the interested stockholder. In addition, but not in limitation of the five-year restriction, if applicable, corporations such as Vulcan covered by the New Jersey statute may not engage at any time in a business combination with any interested stockholder of that corporation unless the combination is approved by the board prior to the interested stockholder’s stock acquisition date, the combination receives the approval of two-thirds of the Voting Stock of the corporation not beneficially owned by the interested stockholder, or the combination meets minimum financial terms specified by the statute. An “interested stockholder” for this purpose is defined to include any beneficial owner of 10% or more of the voting power of the outstanding Voting Stock or an affiliate or associate of the company who within the prior five-year period has at any time owned 10% or more of the voting power. The term “business combination” is defined broadly to include, among other things:

- the merger or consolidation of the corporation with the interested stockholder or any corporation that after the merger or consolidation would be an affiliate or associate of the interested stockholder,
- the sale, lease, exchange, mortgage, pledge, transfer or other disposition to an interested stockholder or any affiliate or associate of the interested stockholder of 10% or more of the corporation’s assets or
- the issuance or transfer to an interested stockholder or any affiliate or associate of the interested stockholder of 5% or more of the aggregate market value of the stock of the corporation.
DESCRIPTION OF DEPOSITORY SHARES

We may offer preference stock represented by depository shares and issue depository receipts evidencing the depository shares. Each depository share will represent a fraction of a share of preference stock. Shares of preference stock of each series represented by depository shares will be deposited under a separate deposit agreement among us, a bank or trust company acting as the “depository” and the holders of the depository receipts of that series. Subject to the terms of the applicable deposit agreement, each owner of a depository receipt will be entitled, in proportion to the fraction of a share of preference stock represented by the depository shares evidenced by the depository receipt, to all the rights and preferences of the preference stock represented by such depository shares. Those rights include any dividend, voting, conversion, redemption and liquidation rights. Immediately following the issuance of the preference stock to the depository, we will cause the depository to issue depository receipts for the applicable series on our behalf.

If depository shares of a series are offered, the prospectus supplement for such depository shares will describe the terms of such depository shares, the applicable deposit agreement and any related depository receipts, including the following, where applicable:

- the payment of dividends or other cash distributions to the holders of depository receipts when such dividends or other cash distributions are made with respect to the preference stock;
- the voting by a holder of depository shares of the preference stock underlying such depository shares at any meeting called for such purpose;
- if applicable, the redemption of depository shares upon our redemption of shares of preference stock held by the depository;
- if applicable, the exchange of depository shares upon an exchange by us of shares of preference stock held by the depository for debt securities or common stock;
- if applicable, the conversion of the shares of preference stock underlying the depository shares into shares of our common stock, other shares of our preference stock or our debt securities;
- the terms upon which the deposit agreement may be amended and terminated;
- a summary of the fees to be paid by us to the depository;
- the terms upon which a depository may resign or be removed by us; and
- any other terms of the depository shares, the deposit agreement and the depository receipts.

If a holder of depository receipts surrenders the depository receipts at the corporate trust office of the depository, unless the related depository shares have previously been called for redemption, converted or exchanged into other securities of Vulcan Materials Company, the holder will be entitled to receive at the corporate trust office the number of shares of preference stock and any money or other property represented by such depository shares. Holders of depository receipts will be entitled to receive whole and, to the extent provided by the applicable prospectus supplement, fractional shares of the preference stock on the basis of the proportion of preference stock represented by each depository share as specified in the applicable prospectus supplement. Holders of shares of preference stock received in exchange for depository shares will no longer be entitled to receive depository shares in exchange for shares of preference stock. If the holder delivers depository receipts evidencing a number of depository shares that is more than the number of depository shares representing the number of shares of preference stock to be withdrawn, the depository will issue the holder a new depository receipt evidencing such excess number of depository shares at the same time.

The description of depository shares in a prospectus supplement will not necessarily be complete, and reference will be made to the applicable deposit agreement, which will be filed with the SEC each time we issue depository shares.
DESCRIPTION OF WARRANTS

We may issue warrants for the purchase of debt securities, preference stock, depository shares, common stock or other securities. Warrants may be issued independently or together with debt securities, preference stock, depository shares or common stock offered by any prospectus supplement and may be attached to or separate from any such offered securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between our company and a bank or trust company, as warrant agent, all as set forth in the applicable prospectus supplement relating to the particular issue of warrants. The warrant agent will act solely as an agent of our company in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders of warrants or beneficial owners of warrants.

If warrants of a series are offered, the applicable prospectus supplement will describe the terms of such warrants and the applicable warrant agreement, including the following, where applicable:

- the designation, aggregate principal amount, currencies, denominations and terms of the series of debt securities purchasable upon exercise of warrants to purchase debt securities and the price at which such debt securities may be purchased upon such exercise;
- the number of shares of common stock purchasable upon the exercise of warrants to purchase common stock and the price at which such number of shares of common stock may be purchased upon such exercise;
- the number of shares and series of preference stock or depository shares purchasable upon the exercise of warrants to purchase preference stock or depository shares and the price at which such number of shares of such series of preference stock or depository shares may be purchased upon such exercise;
- the designation and number of units of other securities purchasable upon the exercise of warrants to purchase other securities and the price at which such number of units of such other securities may be purchased upon such exercise;
- the date on which the right to exercise such warrants shall commence and the date on which such right shall expire;
- United States federal income tax consequences applicable to such warrants;
- the amount of warrants outstanding as of the most recent practicable date; and
- any other terms of such warrants.

Warrants will be issued in registered form only. The exercise price for warrants will be subject to adjustment in accordance with the applicable prospectus supplement.

Each warrant will entitle the holder thereof to purchase such principal amount of debt securities or such number of shares of common stock, preference stock, depository shares, or other securities at such exercise price as shall in each case be set forth in, or calculable from, the prospectus supplement relating to the warrants, which exercise price may be subject to adjustment upon the occurrence of certain events as set forth in such prospectus supplement. After the close of business on the expiration date, or such later date to which we extend the expiration date, unexercised warrants will become void. The place or places where, and the manner in which, warrants may be exercised shall be specified in the applicable prospectus supplement.

Prior to the exercise of any warrants to purchase debt securities, preference stock, depository shares, common stock or other securities, holders of such warrants will not have any of the rights of holders of debt securities, preference stock, depository shares, common stock or other securities, as the case may be, purchasable upon exercise, including the right to receive payments of principal, premium, if any, or interest, if any, on the debt securities purchasable upon such exercise or to enforce covenants in the applicable indenture, or to receive payments of dividends, if any, on the common stock, preference stock or depository shares purchasable upon such exercise, or to exercise any applicable right to vote associated with such common stock, preference stock or depository shares.
DESCRIPTION OF STOCK PURCHASE CONTRACTS AND STOCK PURCHASE UNITS

We may issue stock purchase contracts, including contracts obligating holders to purchase from us, and obligating us to sell to the holders, a specified number of shares of common stock or other securities at a future date or dates, which we refer to in this prospectus as “stock purchase contracts.” The price per share of the securities and the number of shares of the securities may be fixed at the time the stock purchase contracts are issued or may be determined by reference to a specific formula set forth in the stock purchase contracts. Stock purchase contracts may be issued separately or as part of units consisting of a stock purchase contract and debt securities, preference securities, warrants or debt obligations of third parties, including U.S. treasury securities, securing the holders’ obligations to purchase the securities under the stock purchase contracts, which we refer to herein as “stock purchase units.” The stock purchase contracts may require holders to secure their obligations under the stock purchase contracts in a specified manner. The stock purchase contracts also may require us to make periodic payments to the holders of the stock purchase units or vice versa, and those payments may be unsecured or refunded on some basis.

The applicable prospectus supplement will describe the terms of the stock purchase contracts or stock purchase units. The description in the prospectus supplement will not necessarily be complete, and reference will be made to the stock purchase contracts, and, if applicable, collateral or depository arrangements, relating to the stock purchase contracts or stock purchase units, which will be filed with the SEC each time we issue stock purchase contracts or stock purchase units. Material U.S. federal income tax considerations applicable to the stock purchase units and the stock purchase contracts will also be discussed in the applicable prospectus supplement.

TAXATION

Any material U.S. federal income tax consequences relating to the purchase, ownership and disposition of any of the securities offered by this prospectus will be set forth in the prospectus supplement offering those securities.

PLAN OF DISTRIBUTION

We may sell the securities in and outside the United States through agents, underwriters, dealers or directly to purchasers (which may include our affiliates and shareholders), in a rights offering, or through a combination of these methods. The prospectus supplement for particular securities will include the terms of the offering and the purchase price or initial public offering price of the securities.

- Unless we indicate otherwise in the applicable prospectus supplement, our agents will act on a best efforts basis for the period of their appointment.
- Our agents may be deemed to be underwriters under the Securities Act of any of our securities that they offer or sell.

We may use an underwriter or underwriters in the offer or sale of our securities.

- If we use an underwriter or underwriters, we will execute an underwriting agreement with the underwriter or underwriters at the time that we reach an agreement for the sale of our securities. The underwriters will acquire the securities for their own account.
• We will include the names of the specific managing underwriter or underwriters, as well as any other underwriters, and the terms of the transactions, including the compensation the underwriters and dealers will receive, the proceeds to be received from the sale of the securities and any exchanges on which the securities may be listed, in the applicable prospectus supplement.

• Underwriters will be allowed to offer securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. The underwriters will use this prospectus in conjunction with the applicable prospectus supplement to sell our securities.

• Unless otherwise stated in the applicable prospectus supplement, the underwriters’ obligation to purchase the securities will be subject to certain conditions, and the underwriters will be obligated to purchase all the offered securities if they purchase any of them.

• The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or paid to dealers.

• The underwriters will be able to resell the securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale.

• During and after an offering through underwriters, the underwriters will be allowed to purchase and sell the securities in the open market. These transactions may include overallotment and stabilizing transactions and purchases to cover syndicate short positions created in connection with the offering.

• The underwriters may also impose a penalty bid, which means that selling concessions allowed to syndicate members or other broker-dealers for the offered securities sold for their account may be reclaimed by the syndicate if the offered securities are repurchased by the syndicate in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the offered securities, which may be higher than the price that might otherwise prevail in the open market. If commenced, the underwriters may discontinue these activities at any time.

We may use a dealer to sell our securities.

• If we use a dealer, we, as principal, will sell our securities to the dealer.

• The dealer will then sell our securities to the public at varying prices that the dealer will determine at the time it sells our securities.

• We will include the name of the dealer and the terms of our transactions with the dealer in the applicable prospectus supplement.

We may solicit directly offers to purchase our securities, and we may directly sell our securities to institutional or other investors. We will describe the terms of our direct sales in the applicable prospectus supplement.

We may sell our securities in accordance with a redemption or repayment pursuant to their terms by one or more remarketing firms, acting as principals for their own accounts or as agents by us. We will identify any remarketing firm, the terms of its agreements, if any, with us, and its compensation in the applicable prospectus supplement.

We may authorize our agents and underwriters to solicit offers by certain institutions to purchase our securities at the public offering price under delayed delivery contracts.

• If we use delayed delivery contracts, we will disclose that we are using them in our applicable prospectus supplement and will tell you when we will demand payment and delivery of the securities under the delayed delivery contracts.
These delayed delivery contracts will be subject only to the conditions that we set forth in the applicable prospectus supplement. We will indicate in the applicable prospectus supplement the commission that underwriters and agents soliciting purchases of our securities under delayed contracts will be entitled to receive.

We may indemnify agents, underwriters, dealers and remarketing firms, against certain liabilities, including liabilities under the Securities Act. Our agents, underwriters, dealers and remarketing firms, or their affiliates, may be customers of, engage in transactions with or perform services for us, in the ordinary course of business.

In compliance with the guidelines of the Financial Industry Regulatory Authority (“FINRA”), the aggregate maximum discount, commission, fees or other items constituting underwriting compensation to be received by any FINRA member or independent broker-dealer will not exceed 8% of the gross proceeds of any offering pursuant to this prospectus and any applicable prospectus supplement.

If at the time of any offering made under this prospectus a member of FINRA participating in the offering has a “conflict of interest” as defined in FINRA Rule 5121 (“Rule 5121”), that offering will be conducted in accordance with the relevant provisions of Rule 5121.

Some or all of the securities that we offer through this prospectus may be new issues of securities with no established trading market. Any underwriters to whom we sell our securities for public offering and sale may make a market in those securities, but they will not be obligated to do so and they may discontinue any market making at any time without notice. Accordingly, we cannot assure you of the liquidity of, or continued trading markets for, any securities that we offer.
LEGAL MATTERS

Unless otherwise indicated in the applicable prospectus supplement, as to matters governed by New Jersey law, Lowenstein Sandler LLP, and as to matters governed by New York law, Womble Carlyle Sandridge & Rice, LLP will issue an opinion for us on the validity of the securities offered hereby. If legal matters in connection with offerings made by this prospectus are passed on by counsel for the underwriters, dealers or agents, if any, that counsel will be named in the applicable prospectus supplement.

EXPERTS

The consolidated financial statements incorporated in this prospectus by reference from Vulcan’s Annual Report on Form 10-K for the year ended December 31, 2014, and the effectiveness of Vulcan’s internal control over financial reporting have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, which are incorporated herein by reference. Such consolidated financial statements have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.
