(Zip Code)

(781) 638-9050

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class
Common Stock, \$.01 par value

Name of Exchange on Which Registered
NASDAQ Global Select Market

Securities registered pursuant to Section 12(g) of the Act:

None.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold on the NASDAQ Global Select Market on June 30, 2017 was \$4,854,813,766.

As of February 15, 2018, the registrant had 52,431,012 shares of Common Stock, \$0.01 par value per share, outstanding.

Portions of the registrant's definitive proxy statement to be filed with the Securities and Exchange Commission for the 2017 annual stockholders' meeting are incorporated by reference into Items 10, 11, 12, 13 and 14 of Part III of this Annual Report on Form 10-K.

Forward-Looking Statements

Matters discussed in this Annual Report on Form 10-K relating to future events or our future performance, including any discussion, express or implied, of our anticipated growth, operating results, future earnings per share, market opportunity, plans and objectives, are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements are often identified by the words “may,” “will,” “expect,” “believe,” “anticipate,” “intend,” “could,” “estimate,” or “continue,” and similar expressions or variations. Such forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results and the timing of certain events to differ materially from future results expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in the section titled “Risk Factors,” set forth in Item 1A of this Annual Report on Form 10-K and elsewhere in this Report. The forward-looking statements in this Annual Report on Form 10-K represent our views as of the date of this Annual Report on Form 10-K. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this Annual Report on Form 10-K.

PART I

ITEM 1. BUSINESS

Overview

LogMeIn simplifies how people connect with each other and the world around them to drive meaningful interactions, deepen relationships, and create better outcomes for individuals and businesses. A market leader in communication and collaboration, identity and access, and customer engagement and support solutions, LogMeIn has millions of customers spanning virtually every country across the globe. LogMeIn is headquartered in Boston, Massachusetts with wholly-owned subsidiaries in North America, South America, Europe, Asia and Australia.

We incorporated under the laws of Bermuda as 3am Labs Ltd in February 2003. In August 2004, we completed a domestication in the State of Delaware under the name 3am Labs, Inc. We changed our name to LogMeIn, Inc. in March 2006. On January 31, 2017, we completed our acquisition of the GoTo family of service offerings, or the GoTo Business, from a wholly-owned subsidiary of Citrix Systems, Inc., or Citrix, via a Reverse Morris Trust transaction, which we refer to herein as the Merger. For additional information regarding the Merger, see Note 4 of our Notes to Consolidated Financial Statements. Our principal executive offices are located at 320 Summer Street, Boston, Massachusetts 02210. Our website address is www.LogMeIn.com. We have included our website address in this report solely as an inactive textual reference.

We introduced our first cloud-based connectivity offering in 2004, which allowed users to securely connect to remote computer resources, including files, applications and the remote device itself. Used primarily by mobile professionals to work remotely and by IT service providers to remotely manage computers and servers, this remote access solution was designed to give users the flexibility to work and interact with their computer resources from any other Internet-connected computer. We have since used this scalable technical platform to expand the types of devices and data that can be accessed remotely, while introducing a variety of cloud-based offerings or applications built on this platform designed to address the needs of today’s collaboration, identity and access management, customer service, IT management and connected product markets.

We offer both free and fee-based, or premium, subscription software services. Sales of our premium services are generated through online search, word-of-mouth referrals, web-based advertising, off-line advertising, broadcast advertising, public relations, the conversion of free users and expiring free trials to paid subscriptions and direct marketing to new and existing customers.

[Table of Contents](#)

We derive our revenue principally from subscription fees from our customers, who range from multinational enterprises to small and medium businesses, or SMBs, and individual consumers, and, to a lesser extent, from the delivery of professional services primarily related to our customer engagement and support businesses. Our revenue is driven primarily by the number and type of our premium services for which our paying customers subscribe. During the fiscal years ended December 31, 2015, 2016 and 2017, we generated revenues of \$271.6 million, \$336.1 million and \$989.8 million, respectively.

Our Market Opportunity

Our cloud-based connectivity services allow our users to work remotely, secure online or cloud-based services, support and manage remote computers and other Internet-enabled devices and collaborate with other users. We believe our services benefit users in the following ways:

- *Increased productivity both in and outside of traditional office environments.* Our collaboration, identity and access management and remote access services allow users to simply host and/or attend web-based meetings, access and control remote computers, access and secure cloud or online applications and websites and run applications across different platforms and devices, thereby increasing our users' mobility, bolstering their security and allowing them to remain productive from virtually anywhere on virtually any Internet-enabled device.
- *Reduced set-up, support and management costs.* Our services enable IT staff to administer, monitor and support workers, their applications, their data and their Internet-enabled devices from a remote location. Businesses can easily set-up our cloud-based services with little or no modification to the remote location's network or security systems and without the need for upfront technology or software investment. Additionally, our customers are often able to lower their support and management costs by performing their management-related tasks remotely, thereby reducing or eliminating the costs of on-site support and management.
- *Improved security and better adoption of password best practices.* Enterprise and business versions of our identity and access management services provide IT staff, line-of-business managers and small business owners with the ability to better protect themselves against the most common online security threats. Our web and desktop password management services can be provisioned for all employees, providing both a productivity benefit to employees who manage numerous passwords for the web and cloud applications needed to do their jobs, while also ensuring that passwords used for these services are securely stored, appropriately complex, unique to each application and changed automatically at regular intervals. Users of our identity and access management services can also further augment these password best practices by enforcing secondary authentication requirements, such as two-factor authentication, which requires authorization from both a desktop web browser and a mobile application before accessing sensitive applications and data.
- *Increased end-user and customer satisfaction.* Our customers rely on our services to improve the efficiency and effectiveness of end-user support and customer service. Satisfaction with support and other customer engagement services is primarily measured by customer satisfaction, sales conversions, call-handling times and whether or not an issue is resolved on the first call. Our services enable helpdesk technicians and customer service staff to quickly and easily engage with users, gain access to and take control over a remote user's Internet-enabled device and, once connected, diagnose and resolve problems while interacting with and possibly training the end user. Technicians can also answer questions and resolve common dilemmas via web chat, email, SMS and popular social channels, such as Twitter.
- *Higher quality leads, related sales pipeline and conversion rates.* Our communications and collaboration offerings, as well as other select service cloud offerings are used by inside sales teams, customer service teams and digital marketing teams to generate sales leads, remotely engage prospective buyers, and visually demonstrate products and services in an effort to create sales opportunities, advance sales cycles and boost overall online visit to purchase conversion rates.

Our Business Strengths

We believe that the following strengths differentiate us from our competitors and are key to our success:

- *Large established user community.* We have more than two million customers and millions of free users worldwide, with products used in virtually every country around the globe. These users drive awareness of our services through personal recommendations, blogs, social media and other online communication methods and provide us with a significant audience to which we can market and sell premium services.
- *Efficient customer acquisition model.* We believe our free products and our large installed user base help to generate word-of-mouth referrals, which in turn increases the efficiency of our paid marketing activities. Sales of our premium services are generated through word-of-mouth referrals, web-based advertising, online search, off-line advertising, broadcast advertising, the conversion of free users and expiring free trials to paid subscriptions and by marketing to our existing customer and user base. We believe this direct approach to acquiring new customers generates an attractive and predictable return on our sales and marketing expenditures.
- *Online, cloud-based delivery.* Delivering our services online via the cloud allows us to scale and serve additional customers with little incremental expense and to deploy new applications and upgrades quickly and efficiently to our existing customers.
- *High recurring revenue and high transaction volumes.* We sell our premium services on a subscription basis, which provides greater levels of recurring revenues and predictability compared to traditional perpetual license-based business models. We believe that our high volume of new and renewed subscriptions at low transaction prices increases the predictability of our revenues compared to perpetual licensed-based software businesses.

Growth Strategy

Our objective is to extend our position as a leading provider of essential cloud-based services for all Internet connected devices. To accomplish this, we intend to:

- *Acquire new customers.* We acquire new customers through word-of-mouth referrals from our existing user community and from paid, online advertising designed to attract visitors to our website. We also encourage our website visitors to try our free services or register for free trials of our premium services. We supplement our online efforts with email and other traditional marketing campaigns and by participating in trade events and web-based seminars. To increase our sales, we plan to continue to aggressively market our solutions and encourage trials of our services while continuing to scale our sales force.
- *Increase sales to existing customers.* We upsell and cross-sell our broad portfolio of services to our existing premium subscriber customer base. To further penetrate this base, we plan to continue to actively market our portfolio of services through e-commerce and traditional sales.
- *Continue to expand our service portfolio.* We intend to continue to invest in the development of new cloud-based connectivity services for businesses, IT service providers, consumers and mobile professionals.
- *Pursue strategic acquisitions.* Strategic acquisitions remain a key growth strategy for our business and we believe we have the scale needed to further expand the range of acquisition opportunities we are able to pursue. We plan to continue to pursue acquisitions that complement our existing business, represent a strong strategic fit and are consistent with our overall growth strategy. We also plan to target future acquisitions to expand or add functionality and capabilities to our existing portfolio of services, as well as add new services to our portfolio.
- *Expand internationally.* We have more than two million customers and millions of free users worldwide, with products used in virtually every country around the globe. We continue to believe there is a significant opportunity to increase our sales internationally. We intend to continue to invest in and expand our international sales and marketing activities to take advantage of this opportunity.

- *Continue to build our user community.* We grow our community of users by offering popular free services and through paid advertising that targets prospective customers who are seeking cloud connectivity services. This strategy improves the effectiveness of our online advertising by increasing our response rates when people seeking remote access, collaboration, customer engagement and identity and access management conduct online searches. In addition, our large and growing community of users drives awareness of our services and increases referrals of potential customers and users.

Our Services

Our core cloud-based services can generally be categorized into three business lines based on customer needs and respective use cases:

Communications and Collaboration. Our communication and collaboration services are designed to deliver simpler, more intelligent ways for people to meet, market and train, that deepen relationships and enable users to achieve amazing outcomes. These individual services are as follows:

GoToMeeting

GoToMeeting is our secure and cost-effective product for online meetings, sales demonstrations and collaborative gatherings. Largely targeted at small and medium enterprises, *GoToMeeting* gives users the ability to easily host or participate in online meetings from the *GoToMeeting* web site, mobile apps or executable customer software. *GoToMeeting* comes equipped with integrated conference dial-in numbers, Voice over Internet Protocol, or VoIP, and HDFaces high-definition video conferencing. It features an advanced, secure communication architecture that uses industry-standard Transport Layer Security, or TLS, encryption.

GoToTraining

GoToTraining is an easy-to-use, secure online training product that enables individuals and enterprises to provide interactive training sessions to customers and employees in any location. *GoToTraining* users can easily create curriculums for their students from a Mac, PC or mobile device without significant training or IT support; attendees can join from a Mac, PC, iOS or Android device. *GoToTraining* includes features such as full-service registration with real-time reports, materials, automated email templates, polling and survey capabilities as well as testing and high-definition webcam sharing for up to six participants and VoIP and toll-based phone options.

GoToConference

GoToConference allows users to configure a video and audio conferencing solution in their physical conference or huddle rooms. *GoToConference* provides our customers with an onboarding kit including all the necessary hardware and software, a license to the service which allows for “meet now” functionality or the ability to attend or start a *GoToMeeting* session or share local content and obtain technical support.

GoToWebinar

GoToWebinar is an easy-to-use, do-it-yourself webinar product, allowing organizations to increase market reach and effectively present online to geographically dispersed audiences. *GoToWebinar* users can easily host, attend or participate in a webinar session from a Mac, PC or mobile device without significant training or IT support; attendees can join from a Mac, PC, iOS or Android device. *GoToWebinar* includes features such as full-service registration with real-time reports, customized branding, automated email templates, polling and survey capabilities, a webinar dashboard for monitoring attendance and participation, easy presenter controls for changing presenters and high-definition webcam sharing for up to six organizers and panelists and VoIP and toll-based phone options.

join.me, *join.me pro* and *join.me business* are our lightweight free and premium online meeting and screen sharing services. Each of the *join.me* offerings give users the ability to quickly host ad hoc and scheduled online meetings with other people. These services can be initiated through a visit to the <https://join.me> website, through a small downloadable desktop application or through mobile applications. The free version of *join.me* provides users with access to basic online meeting and collaboration tools such as file sharing, use of a dedicated VoIP conference line, video conferencing, mobile whiteboards, remote control and in-meeting chat. Users who upgrade to *join.me pro* receive access to additional key features such as presenter swap, a scheduling tool, Google Calendar and Microsoft Outlook plugins, the ability to record and recap meetings, on-screen annotation tools and detailed session reporting. Users and businesses who upgrade to *join.me business* receive additional account management, policy control and provisioning capabilities, as well as Salesforce.com integration.

OpenVoice is a reservation-less audio conferencing service, providing robust account tools that allows user provisioning and audio meeting controls for users to manage small and large audio conferences without operator assistance. *OpenVoice* integrates seamlessly with *join.me*, *GoToMeeting*, *GoToTraining* and *GoToWebinar*, adding a toll-free number to online sessions.

Grasshopper is a provider of telephony solutions for small businesses designed to allow organizations to establish professional voice presence (e.g., Interactive Voice Response, or IVR, routing, voicemail, etc.) without costly hardware investments. *Grasshopper* provides users with toll free or local numbers and enables employees to use their personal devices to make and receive calls from their business line via a mobile app.

Customer Engagement and Support. Our customer engagement and support services empower external customer service and support organizations, online retail and web-based businesses, as well as IT outsourcers and internal IT departments to provide more human and intelligent ways to deliver customer engagement and support that leads to improved satisfaction, engagement and productivity:

Bold360 and *BoldChat* are our live chat and omni-channel engagement services that help customer service staff, ranging from sales to pre-and-post sales support, to directly engage and provide assistance to visitors of their organization's website. Key features include real-time visitor monitoring, co-browsing, detailed reporting on chat activity and its overall effectiveness, the ability to define rules that automatically trigger the initiation of a chat window, the ability to route and distribute chats to improve efficiency and the ability to monitor and manage customer conversations on Twitter, email and via SMS messages. Our *BoldChat* service offerings range from a basic free offering to a fully-featured enterprise offering, with multiple pricing tiers based on the number of users and desired features. Our *Bold360* offering provides users with valuable built-in integrations and open APIs to allow our customers to streamline operations with all of their systems working together.

Bold360 ai is an automated customer service, help-desk and CRM platform that uses automation, bots, machine learning and user interface to build and maintain a knowledge base, or KB, and make it available to support agents, employees and end-users across multiple platforms. *Bold360 ai* consists of the following capabilities and functionality: (i) an intelligent virtual customer service solution that captures a company's knowledge in the form of replies to contextual or personalized inquiries, decision trees, and KB articles, and maintains the content; (ii) a

customer or employee engagement tool that captures inquiries and matches them with KB answers; (iii) an intelligent KB that collects inquiries and learns answers, which are then contributed back to the KB; (iv) a publishing tool that monitors answers to incoming tickets and publishes them to the KB so the information is available broadly to authorized agents – such content can be viewed, approved, added, edited or deleted manually; (v) a customer service queue management tool that utilizes a learning algorithm, intents repository, and structured rule settings; and (vi) analytics that provide insight and optimization opportunities.

GoToAssist, *GoToAssist Corporate* and *GoToAssist Seeit* provide easy-to-use cloud-based remote support solutions designed to help IT professionals and IT helpdesks remotely troubleshoot and fix computers, mobile devices and apps. *GoToAssist's* integrated toolset is built specifically for IT managers, consultants and managed service providers. *GoToAssist Corporate* extends these capabilities to address professional IT helpdesks and customer support organizations to instantly and securely connect to customers and provide live remote assistance using two-way screen-sharing, integrated chat and mouse and keyboard control to resolve technical issues. *GoToAssist Seeit* enables individuals and support organizations to instantly and securely connect to a live stream of an individual's mobile device camera allowing the individual to physically show the technician any support issue that requires resolution.

LogMeIn Rescue is our professional grade remote support and customer care service, which is used by helpdesk professionals and large customer care organizations to provide remote support via the Internet, without the need of pre-installed software. Using *LogMeIn Rescue*, support and customer service professionals can communicate with end users through an Internet chat window while diagnosing and repairing PC, server, mobile device and kiosk problems. If given permission by the user, the support professional can access, view or even take control of the end user's device to take necessary support actions and to train the end user on the use of software and operating system applications. *LogMeIn Rescue + Mobile* is an add-on of *LogMeIn Rescue's* web-based remote support service that allows customer care technicians and IT professionals to remotely access and support iOS, Android and Blackberry smartphones and tablets. A complementary and optional offering with any *LogMeIn Rescue* license, *Rescue Lens* extends this remote support paradigm to virtually any product — not just computers and smartphones — by enabling end users to utilize the cameras on their personal smartphone or tablet to stream live video back to support professionals.

Identity and Access. Our identity and access management services provide individuals, line-of-business teams, security professionals, as well as internal and external IT professionals with simple and secure remote access tools needed to manage and secure passwords, remote computers and other Internet-enabled devices and internet applications, as well as to automate common IT tasks.

LogMeIn Central is a web-based management console that helps IT professionals access, manage and monitor remote computers, deploy software updates and patches, automate IT tasks and run hundreds of versions of antivirus software. *LogMeIn Central* is offered as a premium service with multiple pricing tiers based on the number of computers supported and desired features.

GoToMyPC enables mobile workstyles by providing secure, remote access to a PC or Mac from virtually any Internet-connected computer, as well as from supported iOS or Android mobile devices, such as an iPad, iPhone, Kindle Fire and Samsung Galaxy. *GoToMyPC* sets up easily with a secure encrypted connection and enables individuals to remotely use any resources hosted on their desktop just as though they were sitting in front of it.

LogMeIn Pro is our premium remote access service that provides secure access to a remote computer's cloud and/or locally stored files or other Internet-connected devices such as point-of-sale systems or kiosks, from any other Internet-connected computer or iOS or Android-based smartphones or tablets. Once a *LogMeIn Pro* host is installed on a device, a user can quickly and easily access that device's desktop, files, applications and network resources remotely from their other Internet-enabled devices. *LogMeIn Pro* can be rapidly deployed and installed without the need for IT expertise. Users typically engage in a free trial prior to purchase.

LastPass is a market leading password management and single sign on, or SSO, solution that gives individuals, business teams and enterprises the ability to securely store, create and access the user identity and login credentials for thousands of online applications and websites. Available online, in a desktop app and via iOS and Android mobile apps, *LastPass* is offered in free, premium and enterprise versions and runs on today's most popular browsers, devices and operating systems.

Sales and Marketing

Our sales and marketing efforts are designed to attract prospective customers to our website, drive use of our free services or enroll them in free trials of our services and convert them to, and retain them as, paying customers. We expend sales and marketing resources through a combination of paid and unpaid sources. We also invest in public relations to broaden the general awareness of our services and to highlight the quality and reliability of our services for specific audiences. We are constantly seeking and employing new methods to reach more users and to convert them to paid subscribers. For the years ended December 31, 2015, 2016 and 2017, we spent \$138.9 million, \$162.8 million and \$347.0 million, respectively, on sales and marketing.

New Account Sales. Our sales are typically preceded by a trial of one of our services and 98% of our sales transactions are settled via credit card. Our sales operations team manages the processes, systems and procedures that determine whether or not a trial should be managed by a telephone-based sales representative or handled via our e-commerce sales process. In addition, a small sales and business development team concentrates on sales to larger organizations and the formulation of strategic technology partnerships that are intended to generate additional sales.

International Sales. We currently have sales teams located in Ireland, the United Kingdom, Germany, India and Australia focusing on international sales. In the years ended December 31, 2015, 2016 and 2017, we generated approximately 30%, 29% and 24%, respectively, of our revenue from customers outside of the United States. As of December 31, 2015, 2016 and 2017, approximately 25%, 29% and 15% of our long-lived assets were located outside of the United States.

Online Advertising. We advertise online through pay-per-click spending with search engines, banner advertising with online advertising networks and other websites and email newsletters likely to be frequented by our target consumers, SMBs and IT professionals.

Tradeshows and Events. We showcase our services at technology and industry-specific tradeshows and events. Our participation in these shows ranges from elaborate presentations in front of large groups to one-on-one discussions and demonstrations at manned booths.

[Table of Contents](#)

Offline Advertising. Our offline print advertising is comprised of publications targeted at IT professionals and consumers. We also sponsor advertorials in regional newspapers, which target IT consumers. Additionally, from time-to-time we have advertised using more traditional methods, such as outdoor advertising, in regional markets.

Radio Advertising. Our radio advertising includes 30-second “spots” as well as radio program sponsorships, and is primarily conducted on satellite and Internet radio networks, with some select advertising on traditional FM and AM radio stations. Show, channel and program selection is based on our key target audiences, most notably IT professionals and knowledge workers.

Word-of-Mouth Referrals. We believe that we have developed a loyal customer and user base, and new customers frequently claim to have heard about us from a current LogMeIn user. Many of our users arrive at our website via word-of-mouth referrals from existing users of our services.

Direct Advertising Into Our User Community. We have a large existing user community comprised of both free users and paying customers. Users of most of our services come to our website each time they log in to their account and we use this opportunity to promote additional premium services to them.

Social Media Marketing. We participate in online communities such as Twitter, Facebook, LinkedIn and YouTube for the purpose of marketing, public relations and customer service. Through these online collaboration sites, we actively engage our users, learn about their needs, and foster word-of-mouth by creating and responding to content about LogMeIn events, promotions, product news and user questions.

Web-Based Seminars. We offer free online seminars to current and prospective customers designed to educate them about the benefits of online collaboration, remote access, support and administration, particularly with LogMeIn, and guide them in the use of our services. We often highlight customer success stories and focus the seminar on common business problems and key market and IT trends.

Public Relations. We engage in targeted public relations programs, including issuing press releases announcing important company events and product releases, participating in interviews with reporters and analysts, both general and industry specific, and by attending panel and group discussions and speeches at industry events. We also register our services in awards competitions and encourage bloggers to comment on our products.

Our Infrastructure, Technology and Developments

LogMeIn Gravity Service Delivery Platform. Many of our services are delivered via a common proprietary cloud connectivity and data platform called “Gravity,” which consists of software applications, customized databases and web servers. Gravity establishes secure connections over the Internet between remote computers and other Internet-enabled devices and manages the direct transmission of data between remotely connected devices. Gravity is designed to be scalable and serve our large user community at low costs by reducing our bandwidth and other infrastructure requirements, which we believe makes our services faster and less expensive to deliver than other competing services.

Gravity is physically hosted in geographically diverse third-party co-location facilities located in the United States, United Kingdom, Germany, India and Australia. Our goal is to maintain sufficient excess capacity such that any one of the data centers could fail and the remaining data centers could handle the service load without extensive disruption to our services. During the twelve months ended December 31, 2017, our Gravity service was available 99.98% of the time.

Research and Development. We have made and intend to continue making significant investments in research and development in order to continue to improve the efficiency of our service delivery platform, improve our existing services and bring new services to market. Our primary engineering organizations are in Hungary, Germany, India, and the United States. As of December 31, 2017, approximately 37% of our employees worked in research and development. Research and development expenses totaled \$42.6 million, \$57.2 million and \$156.7 million in the years ended December 31, 2015, 2016 and 2017, respectively.

Intellectual Property. We rely on a combination of copyright, trade secret, trademark, patent and other rights in the United States and other jurisdictions, as well as confidentiality procedures and contractual provisions to

[Table of Contents](#)

protect our proprietary technology, processes and other intellectual property. As of December 31, 2017, our patent portfolio consists of 173 issued patents with an additional 107 patent applications pending.

We enter into confidentiality and other written agreements with our employees, customers, consultants and partners, and through these and other written agreements, we attempt to control access to and distribution of our software, documentation and other proprietary technology and other information. Despite our efforts to protect our proprietary rights, third parties may, in an unauthorized manner, attempt to use, copy or otherwise obtain and market or distribute our intellectual property rights or technology or otherwise develop products or services with the same functionality as our services. In addition, U.S. patent filings are intended to provide the holder with a right to exclude others from making, using, selling or importing in the United States the inventions covered by the claims of granted patents. If granted, our patents may be contested, circumvented or invalidated. Moreover, the rights that may be granted in those pending patents may not provide us with proprietary protection or competitive advantages, and we may not be able to prevent third parties from infringing these patents. Therefore, the exact effect of our pending patents, if issued, and the other steps we have taken to protect our intellectual property cannot be predicted with certainty.

Although the protection afforded by copyright, trade secret and trademark law, written agreements and common law may provide some advantages, we believe that the following factors help us maintain a competitive advantage:

- our large user and customer base;
- the technological skills of our research and development personnel;
- frequent enhancements to our services; and
- continued expansion of our proprietary technology.

“LogMeIn” is a registered trademark in the United States, Canada, Australia and the European Union. We also hold a number of other trademarks and service marks identifying certain of our services and features of our services. We also have a number of trademark applications pending.

Competition

The markets in which we compete are constantly evolving and we expect to face additional competition in the future. We believe that the key competitive factors in these markets include:

- service reliability and security;
- ease of initial setup and use;
- fitness for use and the design of features that best meet the needs of the target customer;
- the ability to support multiple device types and operating systems;
- cost of customer acquisition;
- product and brand awareness;
- the ability to reach large fragmented groups of users;
- cost of service delivery; and
- pricing flexibility.

We believe that our large user base, efficient customer acquisition model and low service delivery costs enable us to compete effectively against services offered by some of our largest competitors, which include Adobe Connect, Amazon, Cisco Systems’ WebEx division, Google and Microsoft Skype. Our audio services also compete with solutions from AT&T, BT, Intercall, PGI, RingCentral, Verizon and Vonage. Certain of our services also compete with current or potential services offered by companies like AgileBits, Apple, BlueJeans Networks, Box, Dashlane, Dropbox, GFI, IBM, KeePass, LivePerson, OKTA, Oracle, Splashtop, TeamViewer and Zoom Video Communications.

[Table of Contents](#)

Many of our actual and potential competitors enjoy greater name recognition, longer operating histories, more varied products and services and larger marketing budgets, as well as substantially greater financial, technical and other resources, than we do. In addition, we may also face future competition from new market entrants. However, we believe that our large user base, efficient customer acquisition model and relatively low costs of service delivery position us well to compete effectively now and in the future.

Available Information

Copies of the periodic reports that we file with the Securities and Exchange Commission, or SEC, such as our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and any other filings may be obtained by the public, free of charge, by visiting the Investors section of our website at <https://investor.logmeininc.com/sec.cfm>, as soon as reasonably practicable after they have been filed with the SEC, or by contacting our Investor Relations department at our office address listed above. Additionally, the SEC maintains copies of any materials that we may file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Room 1580, Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains periodic reports, proxy and information statements and other information regarding issuers that file electronically with the SEC at www.sec.gov. The contents of these websites are not incorporated into this filing. Further, our references to the URLs for these websites are intended to be inactive textual references only.

Employees

As of December 31, 2017, we had 2,760 full-time employees. None of our employees are represented by labor unions or covered by collective bargaining agreements. We consider our relationship with our employees to be good.

Segments

We have determined that we have one operating segment. For more information about our segments, see Note 2 to our Consolidated Financial Statements .

ITEM 1A. RISK FACTORS

Our business is subject to numerous risks. We caution you that the following important factors, among others, could cause our actual results to differ materially from those expressed in forward-looking statements made by us or on our behalf in filings with the SEC, press releases, communications with investors and oral statements. Any or all of our forward-looking statements in this Annual Report on Form 10-K and in any other public statements we make may turn out to be wrong. They can be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties. Many factors mentioned in the discussion below will be important in determining future results. Consequently, no forward-looking statement can be guaranteed. Actual future results may differ materially from those anticipated in forward looking statements. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosure we make in our reports filed with the SEC.

RISKS RELATED TO OUR BUSINESS

Our operating results may fluctuate in the future. As a result, we may fail to meet or exceed the expectations of research analysts or investors, which could cause our stock price to decline.

Our operating results may fluctuate as a result of a variety of factors, many of which are outside of our control. If our operating results or guidance fall below the expectations of research analysts or investors, the price of our common stock could decline substantially. Fluctuations in our operating results or guidance may be due to a number of factors, including, but not limited to, those listed below:

- our ability to renew existing customers, increase sales to existing customers and attract new customers;
- the amount and timing of operating costs and capital expenditures related to the operation, maintenance and expansion of our business;
- service outages or security breaches;
- changes in our pricing policies or those of our competitors;
- our ability to successfully implement strategic business model changes;
- the timing and success of new services, features and upgrades by us or our competitors;
- changes in sales compensation plans or organizational structure;
- the timing of costs related to the development or acquisition of technologies, services or businesses;
- seasonal variations or other cyclicalities in the demand for our services;
- general economic, industry and market conditions and those conditions specific to Internet usage and online businesses;
- litigation, including class action litigation, involving us and our services or the industry in which we operate, in general;
- the purchasing and budgeting cycles of our customers;
- the financial condition of our customers; and
- geopolitical events such as war, threat of war or terrorist acts.

We believe that our revenue and operating results may continue to vary in the future and that period-to-period comparisons of our operating results may not be meaningful.

If our services or computer systems are breached, our customers may be harmed, our reputation may be damaged and we may be exposed to significant liabilities.

Our services and computer systems store and transmit confidential data of our customers and their customers, which may include credit card information, account and device information, passwords and other critical data.

[Table of Contents](#)

Any breach of the cybersecurity measures we have taken to safeguard this information may subject us to fines and penalties, time consuming and expensive litigation, trigger indemnification obligations and other contractual liabilities, damage our reputation and harm our customers and our business.

Cyber-attacks from computer hackers and cyber criminals and other malicious Internet-based activity continue to increase generally, and our services and systems, including the systems of our outsourced service providers, have been and may in the future continue to be the target of various forms of cyber-attacks such as DNS attacks, wireless network attacks, viruses and worms, malicious software, application centric attacks, peer-to-peer attacks, phishing attempts, backdoor trojans and distributed denial of service attacks. The techniques used by computer hackers and cyber criminals to obtain unauthorized access to data or to sabotage computer systems change frequently and generally are not detected until after an incident has occurred. While we make significant efforts to maintain the security and integrity of our services and computer systems, our cybersecurity measures and the cybersecurity measures taken by our third-party data center facilities may be unable to anticipate, detect or prevent all attempts to compromise our systems. If our cybersecurity measures are compromised as a result of third-party action, employee or customer error, malfeasance, stolen or fraudulently obtained log-in credentials or otherwise, our reputation could be damaged, our business may be harmed and we could incur significant liabilities.

Many states have enacted laws requiring companies to notify individuals of security breaches involving their personal data. These mandatory disclosures regarding a security breach may be costly to comply with and may lead to widespread negative publicity, which may cause our customers to lose confidence in the effectiveness of our cybersecurity measures. Additionally, some of our customer contracts require us to notify customers in the event of a security breach and/or indemnify customers from damages they may incur as a result of a breach of our services and computer systems. There can be no assurance that the limitations of liability provisions in our contracts for a security breach would be enforceable or would otherwise protect us from any such liabilities or damages with respect to any particular claim. We also cannot be sure that our existing insurance coverage will continue to be available on acceptable terms or will be available in sufficient amounts to cover one or more large claims related to a breach of our services or computer systems. The successful assertion of one or more large claims against us that exceed our available insurance coverage could have a material adverse effect on our business, financial condition and operating results.

Our business strategy includes acquiring or investing in other companies, which may ultimately fail to meet our expectations, divert our management's attention, result in additional dilution to our stockholders and disrupt our business and operating results.

Our business strategy continues to contemplate us making strategic acquisitions of, or strategic investments in, complementary businesses, services, technologies and intellectual property rights. Acquisitions of high-technology companies are inherently risky, and negotiating these transactions can be time-consuming, difficult and expensive and our ability to close these transactions may often be subject to conditions or approvals that are beyond our control. Consequently, these transactions, even if undertaken and announced, may not close. In connection with an acquisition, investment or strategic transaction we may do one or more of the following, which may harm our business and adversely affect our operating results:

- issue additional equity securities that would dilute our stockholders and decrease our earnings per share;
- use cash and other resources that we may need in the future to operate our business;
- incur debt on unfavorable terms or that we are unable to repay;
- incur large charges or substantial liabilities; and
- become subject to adverse tax consequences, substantial depreciation or deferred compensation charges.

Following an acquisition, the integration of an acquired company may cost more than we anticipate, and we may be subject to unforeseen liabilities arising from an acquired company's past or present operations. These liabilities may be greater than the warranty and indemnity limitations we negotiate. Any unforeseen liability that

is greater than these warranty and indemnity limitations could have a negative impact on our financial condition. Some of the additional risks associated with integrating acquired companies may include, but are not limited to:

- difficulties and delays integrating the employees, culture, technologies, products and systems of the acquired companies;
- an uncertain revenue and earnings stream from the acquired company, which could dilute our earnings;
- being subject to unfavorable revenue recognition or other accounting treatment as a result of an acquired company's practices;
- difficulties retaining the customers of any acquired business due to changes in management or otherwise;
- our ongoing business may be disrupted and our management's attention may be diverted by acquisition, transition or integration activities;
- the potential loss of key employees of the acquired company;
- undetected errors or unauthorized use of a third-party's code in products of the acquired companies;
- unforeseen or unanticipated legal liabilities which are not discovered by due diligence during the acquisition process, including stockholder litigation related to the acquisition, third party intellectual property claims or claims for potential violations of applicable law, rules and regulations, arising from prior or ongoing acts or omissions by the acquired businesses;
- entry into markets in which we have no or limited direct prior experience and where competitors have stronger market positions and which are highly competitive; and
- assuming pre-existing contractual relationships of an acquired company that we would not have otherwise entered into, the termination or modification of which may be costly or disruptive to our business.

If we fail to successfully integrate and manage the companies and technologies we acquire, or if an acquisition does not further our business strategy as expected, our operating results will be adversely affected. Even if successfully integrated, there can be no assurance that any of our acquisitions or future acquisitions will be successful in helping us achieve our financial and strategic goals.

The integration of the GoTo Business presents significant challenges.

On January 31, 2017, we completed our acquisition of the GoTo family of service offerings, or the GoTo Business, from a wholly-owned subsidiary of Citrix Systems, Inc., or Citrix, via a Reverse Morris Trust transaction, which we refer to herein as the Merger.

In connection with the Merger, there is a significant degree of difficulty inherent in the process of integrating the GoTo Business with our company. These difficulties include:

- the integration of the GoTo Business with our current businesses while carrying on the ongoing operations of all businesses;
- managing a significantly larger company than before the consummation of the Merger;
- coordinating geographically separate organizations;
- integrating the business cultures of both companies, which may prove to be incompatible;
- creating uniform standards, controls, procedures, policies and information systems and controlling the costs associated with such matters;
- integrating certain information technology, purchasing, accounting, finance, sales, billing, human resources, payroll and regulatory compliance systems; and
- the potential difficulty in retaining key officers and personnel.

The process of integrating operations could cause an interruption of, or loss of momentum in, the activities in one or more of our businesses. Members of our senior management may be required to devote considerable amounts

[Table of Contents](#)

of time to this integration process, which will decrease the time they will have to manage the business of our company, serve the existing businesses, or develop new products or strategies. If our senior management is not able to effectively manage the integration process, or if any significant business activities are interrupted as a result of the integration process, our business could suffer.

Our successful or cost-effective integration of the GoTo Business cannot be assured. The failure to do so could have a material adverse effect on our business, financial condition or results of operations after the Merger.

Depending upon the facts and circumstances, we may be obligated to indemnify Citrix for certain taxes and certain tax-related losses.

In connection with the Merger, Citrix distributed shares of its GoTo subsidiary to Citrix stockholders on a pro rata basis, which we refer to as the Distribution. The U.S. federal income tax consequences of the Distribution and Merger to Citrix and Citrix stockholders depend upon whether the contribution of specified assets and liabilities of the GoTo Business, which we refer to herein as the Contribution and the Distribution, taken together, qualify as a reorganization under Sections 368(a) and 355 of the Internal Revenue Code of 1986, as amended, or the Code, and the Merger qualifies as a reorganization under Section 368(a) of the Code, in each case based on the applicable facts and circumstances that existed on the date of the Distribution and the Merger. If each of the Distribution and Merger so qualify, then (i) Citrix stockholders will generally not recognize any gain or loss for U.S. federal income tax purposes as a result of the Distribution or the Merger, except for any gain or loss attributable to the receipt of cash in lieu of fractional shares of our common stock, and (ii) except for taxable income or gain possibly arising as a result of certain internal reorganization transactions undertaken prior to or in anticipation of the Distribution, Citrix will not recognize any gain or loss. Citrix received a tax opinion in connection with the Contribution and Distribution, which we refer to as the Distribution Tax Opinion, that provides in part that the Contribution and Distribution, taken together, qualify as a reorganization under Sections 368(a)(1)(D) and 355 of the Code. LogMeIn and Citrix have received opinions from our respective outside legal counsel that provide in part that the Merger qualifies as a reorganization under Section 368(a) of the Code. These opinions are not binding on the Internal Revenue Service, or the IRS, or the courts, and the IRS or the courts may not agree with the conclusions reached in these opinions. There can be no assurance that the IRS will not successfully assert that either or both of the Distribution and the Merger are taxable transactions, and that a court will not sustain such assertion, which could result in tax being incurred by Citrix stockholders and Citrix.

Even if the Contribution and Distribution, taken together, otherwise qualify as a reorganization under Sections 368(a) and 355 of the Code, the Distribution will nonetheless be taxable to Citrix (but not to Citrix stockholders) pursuant to Section 355(e) of the Code if 50% or more of the stock of either Citrix or LogMeIn is acquired, directly or indirectly (taking into account our stock acquired by Citrix stockholders in the Merger), as part of a plan or series of related transactions that includes the Distribution. In that regard, because Citrix stockholders owned more than 50% of our stock immediately following the Merger, the Merger standing alone will not cause the Distribution to be taxable under Section 355(e) of the Code, and the Distribution Tax Opinion so provided. However, if the IRS were to determine that other acquisitions of Citrix stock or our stock are part of a plan or series of related transactions that includes the Distribution, such determination could result in the recognition of gain by Citrix (but not by Citrix stockholders) for U.S. federal income tax purposes, and the amount of taxes on such gain would likely be substantial.

Under the Amended and Restated Tax Matters Agreement that we entered into with Citrix in connection with the Merger, which we refer to as the Tax Matters Agreement, which provides for, among other things, the allocation between Citrix, on the one hand, and LogMeIn, on the other hand, of certain tax assets and liabilities, LogMeIn may be obligated, in certain cases, to indemnify Citrix against taxes and certain tax-related losses on the Distribution that arise as a result of LogMeIn's actions, or failure to act. Any such indemnification obligation would be substantial and would likely have a material adverse effect on us. In addition, even if we are not responsible for tax liabilities of Citrix under the Tax Matters Agreement, LogMeIn nonetheless could be liable under applicable law for such liabilities if Citrix were to pay such taxes.

Under the Tax Matters Agreement, we are restricted from taking certain actions that may adversely affect the intended U.S. federal income tax treatment of the Contribution, the Distribution, the Merger and certain

related transactions consummated in connection with Citrix's internal reorganization, and such restrictions may significantly impair our ability to implement strategic initiatives that otherwise would be beneficial.

The Tax Matters Agreement generally restricts us from taking certain actions after the Merger that may adversely affect the intended U.S. federal income tax treatment of the Merger and certain related transactions consummated in connection with Citrix's internal reorganization. Failure to adhere to these restrictions, including in certain circumstances that may be outside of our control, could result in tax being imposed on Citrix for which we could bear responsibility and for which we could be obligated to indemnify Citrix. In addition, even if we are not responsible for tax liabilities of Citrix under the Tax Matters Agreement, we nonetheless could be liable under applicable tax law for such liabilities if Citrix were to fail to pay such taxes. Because of these provisions in the Tax Matters Agreement, we are restricted from taking certain actions, particularly for the two years following the Merger, including (among other things) the ability to freely issue stock, to make acquisitions and to raise additional equity capital. These restrictions could have a material adverse effect on our liquidity and financial condition, and otherwise could impair our ability to implement strategic initiatives. Also, our indemnity obligation to Citrix might discourage, delay or prevent a change of control that our stockholders may consider favorable.

A significant portion of our historical revenues have come from the sale of remote access and support products and a decline in sales for these products could adversely affect our results of operations and financial condition.

A significant portion of our annual revenues have historically come from the sale of remote access and remote support services and we continue to anticipate that sales of our remote access and remote support products will constitute a majority of our revenue for the foreseeable future. Any decline or variability in sales of our remote access and remote support products could adversely affect our results of operations and financial condition. Declines and variability in sales of these products could potentially occur as a result of:

- the growing use of mobile devices such as smartphones and tablet computers to perform functions that have been traditionally performed on desktops and laptops, resulting in less demand for these types of remote access products;
- the introduction of new or alternative technologies, products or service offerings by competitors;
- our failure to innovate or introduce new product offerings, features and enhancements;
- potential market saturation or our inability to enter into new markets;
- increased price and product competition;
- dissatisfied customers; or
- general weak economic, industry or market conditions.

If sales of our remote access and remote support products decline as a result of these or other factors, our revenue would decrease and our results of operations and financial condition would be adversely affected.

Assertions by a third party that our services and solutions infringe its intellectual property, whether or not correct, could subject us to costly and time-consuming litigation or expensive licenses.

There is frequent litigation in the software and technology industries based on allegations of infringement or other violations of intellectual property rights. We have been, and may in the future be, subject to third party patent infringement or other intellectual property-related lawsuits as we face increasing competition and become increasingly visible. Regardless of the merit of these claims, they can be time-consuming, result in costly litigation and diversion of technical and management personnel or require us to develop a non-infringing technology or enter into license agreements. There can be no assurance that such licenses will be available on acceptable terms and conditions, if at all, and although we have previously licensed proprietary technology, we cannot be certain that the owners' rights in such technology will not be challenged, invalidated or circumvented. For these reasons and because of the potential for court awards that are difficult to predict, it is not unusual to find even arguably unmeritorious claims settled for significant amounts. In addition, many of our service agreements

require us to indemnify our customers from certain third-party intellectual property infringement claims, which could increase our costs as a result of defending such claims and may require that we pay damages if there were an adverse ruling related to any such claims. These types of claims could harm our relationship with our customers, deter future customers from subscribing to our services or expose us to further litigation. These costs, monetary or otherwise, associated with defending against third party allegations of infringement could have negative effects on our business, financial condition and operating results.

If our services are used to commit fraud or other similar intentional or illegal acts, we may incur significant liabilities, our services may be perceived as not secure, and customers may curtail or stop using our services.

Certain services offered by us enable users to remotely access third-party computer systems. We do not control the use or content of information accessed by our customers through our services. If our services are used to commit fraud or other bad or illegal acts, including, but not limited to, posting, distributing or transmitting any computer files that contain a virus or other harmful component, interfering or disrupting third-party networks, infringing any third party's copyright, patent, trademark, trade secret or other proprietary rights or rights of publicity or privacy, transmitting any unlawful, harassing, libelous, abusive, threatening, vulgar or otherwise objectionable material, or accessing unauthorized third-party data, we may become subject to claims for defamation, negligence or intellectual property infringement and subject to other potential liabilities. As a result, defending such claims could be expensive and time-consuming, and we could incur significant liability to our customers and to individuals or businesses who were the targets of such acts. As a result, our business may suffer and our reputation may be damaged.

If we are unable to attract new customers to our services on a cost-effective basis, our revenue and results of operations will be adversely affected.

We must continue to attract a large number of customers on a cost-effective basis. We rely on a variety of marketing methods to attract new customers to our services, such as paying providers of online services and search engines for advertising space and priority placement of our website in response to Internet searches. Our ability to attract new customers also depends on the competitiveness of the pricing of our services. If our current marketing initiatives are not successful or become unavailable, if the cost of such initiatives were to significantly increase, or if our competitors offer similar services at lower prices, we may not be able to attract new customers on a cost-effective basis and, as a result, our revenue and results of operations would be adversely affected.

If we are unable to retain our existing customers, our revenue and results of operations would be adversely affected.

The services offered by us are generally sold pursuant to agreements that are one year in duration. Customers have no obligation to renew their subscriptions after their subscription period expires, and these subscriptions may not be renewed on the same or on more profitable terms. As a result, our ability to grow depends in part on subscription renewals. We may not be able to accurately predict future trends in customer renewals, and our customers' renewal rates may decline or fluctuate because of several factors, including their satisfaction or dissatisfaction with our services, the prices of our services, the prices of services offered by our competitors or reductions in our customers' spending levels. If our customers do not renew their subscriptions for our services, renew on less favorable terms, or do not purchase additional functionality or subscriptions, our revenue may grow more slowly than expected or decline, and our profitability and gross margins may be harmed.

If we fail to convert free users to paying customers, our revenue and financial results will be harmed.

A significant portion of our user base utilizes our services free of charge through our free services or free trials of our premium services. We seek to convert these free and trial users to paying customers of our premium services. If our rate of conversion suffers for any reason, our revenue may decline and our business may suffer.

If our efforts to build a strong brand identity are not successful, we may not be able to attract or retain subscribers and our operating results may be adversely affected.

We believe that building and maintaining a strong brand identity plays an important role in attracting and retaining subscribers to our services, who may have other options from which to obtain their remote connectivity serv-

ices. In order to build a strong brand, we believe that we must continue to offer innovative remote connectivity services that our subscribers value and enjoy using, and also market and promote those services through effective marketing campaigns, promotions and communications with our user base. From time to time, subscribers may express dissatisfaction with our services or react negatively to our strategic business decisions, such as changes that we make in pricing, features or service offerings, including the discontinuance of our free services. To the extent that user dissatisfaction with our services or strategic business decisions is widespread or not adequately addressed, our overall brand identity may suffer and, as a result, our ability to attract and retain subscribers may be adversely affected, which could adversely affect our operating results.

The markets in which we participate are competitive, with low barriers to entry, and if we do not compete effectively, our operating results may be harmed.

The markets for remote-connectivity solutions are competitive and rapidly changing, with relatively low barriers to entry. With the introduction of new technologies and market entrants, we expect competition to intensify in the future. In addition, pricing pressures and increased competition generally could result in reduced sales, reduced margins or the failure of our services to achieve or maintain widespread market acceptance. Often, we compete against existing services that our potential customers have already made significant expenditures to acquire and implement.

Certain of our competitors offer, or may in the future offer, lower priced, or free, products or services that compete with our services. This competition may result in reduced prices and a substantial loss of customers for our services or a reduction in our revenue.

Many of our services directly compete with large, established competitors such as WebEx (a division of Cisco Systems), and certain of our services also compete with current or potential services offered by companies like Adobe, AgileBits, Amazon, Apple, BlueJeans Networks, Box, Dashlane, Dropbox, GFI, Google, IBM, KeePass, LivePerson, Microsoft, OKTA, Oracle, PTC, Splashtop, TeamViewer and Zoom Video Communications. Our audio services also compete with solutions from AT&T, BT, InterCall, PGI, RingCentral, Verizon and Vonage. Many of our actual and potential competitors enjoy competitive advantages over us, such as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as substantially greater financial, technical and other resources. In addition, many of our competitors have established marketing relationships, access to larger customer bases and have major distribution agreements with consultants, system integrators and resellers.

If we are unable to compete effectively for any of these reasons, our operating results will be harmed.

We may not be able to capitalize on potential emerging market opportunities and new services that we introduce may not generate the revenue and earnings we anticipated, which may adversely affect our business.

Our business strategy involves identifying emerging market opportunities which we can capitalize on by successfully developing and introducing new services designed to address those market opportunities. We have made and expect to continue to make significant investments in research and development in an effort to capitalize on potential emerging market opportunities that we have identified. Emerging markets and opportunities often take time to fully develop, and they attract a significant number of competitors. If the emerging markets we have targeted ultimately fail to materialize as we or others have anticipated or if potential customers choose to adopt solutions offered by our competitors rather than our own solutions, we may not be able to generate the revenue and earnings we anticipated, and our business and results of operations would be adversely affected.

Industry consolidation may result in increased competition.

Some of our competitors have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer a more comprehensive service than they individually had offered. In addition, new entrants not currently considered to be competitors may enter the market through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to strengthen or maintain their market positions. Many of the companies driving this trend have significantly greater financial, technical and other resources than we do and may be better positioned to acquire and offer complementary services and technologies.

[Table of Contents](#)

The companies resulting from such combinations may create more compelling service offerings and may offer greater pricing flexibility than we can or may engage in business practices that make it more difficult for us to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of customers or a reduction in our revenues.

We may not be able to respond to rapid technological changes in time to address the needs of our customers, which could have a material adverse effect on our sales and profitability.

The cloud-based remote-connectivity services market is characterized by rapid technological change, the frequent introduction of new services and evolving industry standards. Our ability to remain competitive will depend in large part on our ability to continue to enhance our existing services and develop new service offerings that keep pace with the market's rapid technological developments. Additionally, to achieve market acceptance for our services, we must effectively anticipate and offer services that meet changing customer demands in a timely manner.

Customers may require features and capabilities that our current services do not have. If we fail to develop services that satisfy customer requirements in a timely and cost-effective manner, our ability to renew services with existing customers and our ability to create or increase demand for our services will be harmed, and our revenue and results of operations would be adversely affected.

We use a limited number of data centers to deliver our services. Any disruption of service at these facilities could harm our business.

The majority of our services are hosted from third-party data center facilities located throughout the world. We do not control the operation of these facilities. The owners of our data center facilities have no obligation to renew their agreements with us on commercially reasonable terms, or at all. If we are unable to renew these agreements on commercially reasonable terms, we may be required to transfer to new data center facilities, and we may incur significant costs and possible service interruption in connection with doing so.

Any changes in third-party service levels at our data centers or any errors, defects, disruptions or other performance problems with our services could harm our reputation and may damage our customers' businesses. Interruptions in our services might reduce our revenue, cause us to issue credits to customers, subject us to potential liability, cause customers to terminate their subscriptions or harm our renewal rates.

Our data centers are vulnerable to damage or interruption from human error, intentional bad acts, pandemics, earthquakes, hurricanes, floods, fires, war, terrorist attacks, power losses, hardware failures, systems failures, telecommunications failures and similar events. At least one of our data facilities is located in an area known for seismic activity, increasing our susceptibility to the risk that an earthquake could significantly harm the operations of these facilities. The occurrence of a natural disaster, an act of terrorism, vandalism or other misconduct, a decision to close the facilities without adequate notice or other unanticipated problems could result in lengthy interruptions in our services.

Failure to comply with credit card processing standards may cause us to lose the ability to offer our customers a credit card payment option, which would increase our costs of processing customer orders and make our services less attractive to customers, the majority of which purchase our services with a credit card.

Major credit card issuers have adopted credit card processing standards and have incorporated these standards into their contracts with us. If we fail to maintain compliance with applicable credit card processing and documentation standards adopted by the major credit card issuers, these issuers could terminate their agreements with us, and we could lose our ability to offer our customers a credit card payment option. Most of our individual and small and medium-sized business, or SMB, customers purchase our services online with a credit card, and our business depends substantially upon the ability to offer the credit card payment option. Any loss of our ability to offer our customers a credit card payment option would make our services less attractive and hurt our business. Our administrative costs related to customer payment processing would also increase significantly if we were not able to accept credit card payments for our services.

Evolving regulations and legal obligations related to data privacy, data protection and information security and our actual or perceived failure to comply with such obligations, could have an adverse effect on our business.

Our handling of the data we collect from our customers, as further described in our privacy policy, and our processing of personally identifiable information and data of our customers' customers through the services we provide, is subject to a variety of laws and regulations, which have been adopted by various federal, state and foreign governments to regulate the collection, distribution, use and storage of personal information of individuals. Several foreign countries in which we conduct business, including the European Economic Area, or EEA, and Canada, currently have in place, or have recently proposed, laws or regulations concerning privacy, data protection and information security, which are more restrictive than those imposed in the United States. Some of these laws are in their early stages and we cannot yet determine the impact these revised laws and regulations, if implemented, may have on our business. However, any failure or perceived failure by us to comply with these privacy laws, regulations, policies or obligations or any security incident that results in the unauthorized release or transfer of personally identifiable information or other customer data in our possession, could result in government enforcement actions, litigation, fines and penalties and/or adverse publicity, all of which could have an adverse effect on our reputation and business.

For example, the new EEA-wide General Data Protection Regulation, or GDPR, entered into force in May 2016 and will become applicable on May 25, 2018, replacing the data protection laws of each EEA member state. The GDPR will implement more stringent operational requirements for processors and controllers of personal data, including, for example, expanded disclosures about how personal information is to be used, limitations on retention of information, increased requirements to erase an individual's information upon request, mandatory data breach notification requirements and higher standards for data controllers to demonstrate that they have obtained valid consent for certain data processing activities. It also significantly increases penalties for non-compliance, including where we act as a service provider (e.g. data processor). If our privacy or data security measures fail to comply with applicable current or future laws and regulations, we may be subject to litigation, regulatory investigations, enforcement notices requiring us to change the way we use personal data or our marketing practices, fines, for example, of up to 20 million Euros or up to 4% of the total worldwide annual turnover of the preceding financial year (whichever is higher) under the GDPR, or other liabilities, as well as negative publicity and a potential loss of business.

We are also subject to evolving EEA laws on data export, as we may transfer personal data from the EEA to other jurisdictions. We currently rely upon the EU-U.S. Privacy Shield Framework and Swiss Privacy Shield as a means for legitimizing the transfer of personally identifiable information from the EEA to the United States. However, there is currently litigation against this framework as well as litigation challenging other EU mechanisms for adequate data transfers (e.g. the standard contractual clauses), and it is uncertain whether the Privacy Shield framework and/or the standard contractual clauses will be similarly invalidated by the European courts. We rely on a mixture of mechanisms to transfer data to from the EEA to the U.S., and could be impacted by changes in law as a result of the current challenges to these mechanisms in the European courts which may lead to governmental enforcement actions, litigation, fines and penalties or adverse publicity which could have an adverse effect on our reputation and business.

Data protection regulation remains an area of increased focus in all jurisdictions and data protection regulations continue to evolve. There is no assurance that we will be able to meet new requirements that may be imposed on the transfer of personally identifiable information from the EU to the United States without incurring substantial expense or at all. European and/or multi-national customers may be reluctant to purchase or continue to use our services due to concerns regarding their data protection obligations. In addition, we may be subject to claims, legal proceedings or other actions by individuals or governmental authorities if they have reason to believe that our data privacy or security measures fail to comply with current or future laws and regulations.

[Table of Contents](#)

We are required to comply with certain financial and operating covenants under our credit facility; any failure to comply with those covenants could cause amounts borrowed to become immediately due and payable or prevent us from borrowing under the facility.

We have a credit agreement with a syndicate of banks pursuant to which we have a \$400 million secured revolving credit facility which is available to us through February 1, 2022, at which time any amounts outstanding will be due and payable in full. At December 31, 2017, we did not have any outstanding borrowings under the credit facility. We may wish to borrow amounts under the facility in the future for general corporate purposes, including, but not limited to, the potential acquisition of complementary products or businesses, and share repurchases, as well as for working capital.

Under our credit agreement, we are, or will be, required to comply with certain financial and operating covenants which will limit our ability to operate our business as we otherwise might operate it. Our failure to comply with any of these covenants or to meet any payment obligations under the credit facility could result in an event of default which, if not cured or waived, would result in any amounts outstanding, including any accrued interest and unpaid fees, becoming immediately due and payable. We might not have sufficient working capital or liquidity to satisfy any repayment obligations in the event of an acceleration of those obligations. In addition, if we are not in compliance with the financial and operating covenants at the time we wish to borrow additional funds, we will be unable to borrow such funds.

The loss of key employees or an inability to attract and retain additional personnel may impair our ability to grow our business.

We are highly dependent upon the continued service and performance of our executive management team as well as other key technical and sales employees. These key employees are not party to an employment agreement with us, and they may terminate their employment at any time with no advance notice. The replacement of these key employees likely would involve significant time and costs, and the loss of these key employees may significantly delay or prevent the achievement of our business objectives.

We face intense competition for qualified individuals from numerous technology, software and manufacturing companies. For example, our competitors may be able to attract and retain a more qualified engineering team by offering more competitive compensation packages. If we are unable to attract new engineers and retain our current engineers, we may not be able to develop and maintain our services at the same levels as our competitors and we may, therefore, lose potential customers and sales penetration in certain markets. Our failure to attract and retain suitably qualified individuals could have an adverse effect on our ability to implement our business plan and, as a result, our ability to compete would decrease, our operating results would suffer and our revenues would decrease.

Our long-term success depends, in part, on our ability to expand the sales of our services to customers located outside of the United States, and thus our business is susceptible to risks associated with international sales and operations.

We currently maintain offices and have sales personnel outside of the United States and are expanding our international operations. Our international expansion efforts may not be successful. In addition, conducting international operations subjects us to new risks than we have generally faced in the United States. These risks include:

- localization of our services, including translation into foreign languages and adaptation for local practices and regulatory requirements;
- lack of familiarity with and unexpected changes in foreign regulatory requirements;
- longer accounts receivable payment cycles and difficulties in collecting accounts receivable;
- difficulties in managing and staffing international operations;
- fluctuations in currency exchange rates;
- potentially adverse tax consequences, including the complexities of foreign value-added or other tax systems;

[Table of Contents](#)

- dependence on certain third parties, including channel partners with whom we do not have extensive experience;
- the burdens of complying with a wide variety of foreign laws and legal standards;
- increased financial accounting and reporting burdens and complexities;
- political, social and economic instability abroad, terrorist attacks and security concerns in general; and
- reduced or varied protection for intellectual property rights in some countries.

Operating in international markets also requires significant management attention and financial resources. The investment and additional resources required to establish operations and manage growth in other countries may not produce desired levels of revenue or profitability.

Failure to effectively and efficiently service SMBs would adversely affect our ability to increase our revenue.

We market and sell a significant amount of our services to SMBs. SMBs are challenging to reach, acquire and retain in a cost-effective manner. To grow our revenue quickly, we must add new customers, sell additional services to existing customers and encourage existing customers to renew their subscriptions. Selling to and retaining SMBs is more difficult than selling to and retaining large enterprise customers because SMB customers generally:

- have high failure rates;
- are price sensitive;
- are difficult to reach with targeted sales campaigns;
- have high churn rates in part because of the scale of their businesses and the ease of switching services; and
- generate less revenue per customer and per transaction.

In addition, SMBs frequently have limited budgets and may choose to spend funds on items other than our services. Moreover, SMBs are more likely to be significantly affected by economic downturns than larger, more established companies, and if these organizations experience economic hardship, they may be unwilling or unable to expend resources on IT.

If we are unable to market and sell our services to SMBs with competitive pricing and in a cost-effective manner, our ability to grow our revenue and maintain profitability will be harmed.

If we fail to meet the minimum service level commitments offered to some of our customers, we could be obligated to issue credits for future services or pay penalties to customers, which could significantly harm our revenue.

Some of our current customer agreements provide minimum service level commitments addressing uptime, functionality or performance. If we are unable to meet the stated service level commitments for these customers or our services suffer extended periods of unavailability, we are or may be contractually obligated to provide these customers with credits for future services or pay other penalties. Our revenue could be significantly impacted if we are unable to meet our service level commitments and are required to provide a significant amount of our services at no cost or pay other penalties. We do not currently have any reserves on our balance sheet for these commitments.

Our sales cycles for enterprise customers can be long, unpredictable and require considerable time and expense, which may cause our operating results to fluctuate.

The timing of our revenue from sales to enterprise customers is difficult to predict. These efforts require us to educate our customers about the use and benefit of our services, including the technical capabilities and potential cost savings to an organization. Enterprise customers typically undertake a significant evaluation process that has

in the past resulted in a lengthy sales cycle, typically several months. We spend substantial time, effort and money on our enterprise sales efforts without any assurance that these efforts will produce any sales. In addition, service subscriptions are frequently subject to budget constraints and unplanned administrative, processing and other delays. If sales expected from a specific customer for a particular quarter are not realized in that quarter or at all, our results could fall short of public expectations and our business, operating results and financial condition could be adversely affected.

Adverse economic conditions or reduced IT spending may adversely impact our revenues and profitability.

Our business depends on the overall demand for IT and on the economic health of our current and prospective customers. The use of our service is often discretionary and may involve a commitment of capital and other resources. Weak economic conditions in the United States, European Union and other key international economies may affect the rate of IT spending and could adversely impact our customers' ability or willingness to purchase our services, delay prospective customers' purchasing decisions, reduce the value or duration of their subscription contracts, or affect renewal rates, all of which could have an adverse effect on our business, operating results and financial condition.

Our success depends in large part on our ability to protect and enforce our intellectual property rights.

We rely on a combination of patent, copyright, service mark, trademark and trade secret laws, as well as confidentiality procedures and contractual restrictions, to establish and protect our intellectual property rights, all of which provide only limited protection. In addition, we have patented certain technologies used to provide our services and have additional patents pending. We cannot assure you that any patents will issue from our currently pending patent applications in a manner that gives us the protection sought, if at all, or that any future patents issued will not be challenged, invalidated or circumvented. Any patents that may issue in the future from pending or future patent applications may not provide sufficiently broad protection or they may not prove to be enforceable in actions against alleged infringers. Also, we cannot assure you that any future service mark or trademark registrations will be issued for pending or future applications or that any registered service marks or trademarks will be enforceable or provide adequate protection of our proprietary rights.

We endeavor to enter into agreements with our employees and contractors and agreements with parties with whom we do business to limit access to and disclosure of our proprietary information. The steps we have taken, however, may not prevent unauthorized use or the reverse engineering of our technology. Moreover, others may independently develop technologies that are competitive to ours or infringe our intellectual property. Enforcement of our intellectual property rights also depends on our successful legal actions against these infringers, but these actions may not be successful, even when our rights have been infringed.

Furthermore, effective patent, trademark, service mark, copyright and trade secret protection may not be available in every country in which our services are available. In addition, the legal standards relating to the validity, enforceability and scope of protection of intellectual property rights in Internet-related industries are uncertain and still evolving.

Our use of "open source" software could negatively affect our ability to sell our services and subject us to possible litigation.

A portion of the technologies we license incorporate so-called "open source" software, and we may incorporate additional open source software in the future. Open source software is generally licensed by its authors or other third parties under open source licenses. If we fail to comply with these licenses, we may be subject to certain conditions, including requirements that we offer our services that incorporate the open source software for no cost, that we make available source code for modifications or derivative works we create based upon, incorporating or using the open source software and/or that we license such modifications or derivative works under the terms of the particular open source license. If an author or other third party that distributes such open source software were to allege that we had not complied with the conditions of one or more of these licenses, we could be required to incur significant legal expenses defending against such allegations and could be subject to significant damages, enjoined from the sale of our services that contained the open source software and required to comply with the foregoing conditions, which could disrupt the distribution and sale of some of our services.

[Table of Contents](#)

We rely on third-party software, including server software and licenses from third parties to use patented intellectual property that is required for the development of our services, which may be difficult to obtain or which could cause errors or failures of our services.

We rely on software licensed from third parties to offer our services, including server software from Microsoft and patented third-party technology. In addition, we may need to obtain future licenses from third parties to use intellectual property associated with the development of our services, which might not be available to us on acceptable terms, or at all. Any loss of the right to use any software required for the development and maintenance of our services could result in delays in the provision of our services until equivalent technology is either developed by us, or, if available, is identified, obtained and integrated, which could harm our business. Any errors or defects in third-party software could result in errors or a failure of our services which could harm our business.

Material defects or errors in the software that we use to deliver our services could harm our reputation, result in significant costs to us and impair our ability to sell our services.

The software applications underlying our services are inherently complex and may contain material defects or errors, particularly when first introduced or when new versions or enhancements are released. We have from time to time found defects in our services, and new errors in our existing services may be detected in the future. Any defects that cause interruptions to the availability of our services could result in:

- a reduction in sales or delay in market acceptance of our services;
- sales credits or refunds to customers;
- loss of existing customers and difficulty in attracting new customers;
- diversion of development resources;
- reputational harm; and
- increased insurance costs.

After the release of our services, defects or errors may also be identified from time to time by our internal team and by our customers. The costs incurred in correcting any material defects or errors in our services may be substantial and could harm our operating results.

Government regulation of the Internet, telecommunications and other communications technologies could harm our business and operating results.

As Internet commerce and telecommunications continue to evolve, increasing regulation by federal, state or foreign governments and agencies becomes more likely. For example, we believe increased regulation is likely in the area of data privacy, and laws and regulations applying to the solicitation, collection, processing or use of personal or consumer information could affect our customers' ability to use and share data, potentially reducing demand for our products and services. In addition, taxation of products and services provided over the Internet or other charges imposed by government agencies or by private organizations for accessing the Internet or utilizing telecommunications services may also be imposed. Any regulation imposing greater fees for Internet use or restricting the exchange of information over the Internet could diminish the viability of our services, which could harm our business and operating results.

Our software products contain encryption technologies, certain types of which are subject to U.S. and foreign export control regulations and, in some foreign countries, restrictions on importation and/or use. We have submitted encryption products for technical review under U.S. export regulations and have received the necessary approvals. Any failure on our part to comply with encryption or other applicable export control requirements could result in financial penalties or other sanctions under the U.S. export regulations, which could harm our business and operating results. Foreign regulatory restrictions could impair our access to technologies that we seek for improving our products and services and may also limit or reduce the demand for our products and services outside of the United States.

Given our levels of share-based compensation, our effective tax rate may vary significantly depending on our stock price.

The tax effects of the accounting for share-based awards may significantly impact our effective tax rate from period to period. In periods in which our stock price is higher than the grant price of the share-based awards vested or expired in that period, we will recognize excess tax benefits that will decrease our effective tax rate. For example, in 2017, excess tax benefits recognized from share-based awards resulted in a benefit from income taxes of \$16.0 million. In future periods in which our stock price is lower than the grant price of the share-based awards vested or expired in that period, our effective tax rate may increase. The amount and value of share-based awards vested or expired relative to our earnings in a period will also affect the magnitude of the impact of share-based awards on our effective tax rate. These tax effects are dependent on our stock price, which we do not control, and a decline in our stock price could significantly increase our effective tax rate and adversely affect our financial results.

Uncertainties in the interpretation and application of the Tax Cuts and Jobs Act of 2017 could materially affect our tax obligations and effective tax rate.

The Tax Cuts and Jobs Act of 2017 was enacted on December 22, 2017 and has affected U.S. tax law by changing U.S. federal income taxation of U.S. corporations, including by reducing the U.S. corporate income tax rate, limiting interest deductions, permitting immediate expensing of certain capital expenditures, adopting elements of a territorial tax system, imposing a one-time transition tax, or repatriation tax, on all undistributed earnings and profits of certain U.S.-owned foreign corporations, revising the rules governing net operating losses and the rules governing foreign tax credits, and introducing new anti-base erosion provisions. The U.S. Department of Treasury has broad authority to issue regulations and interpretative guidance that may significantly impact how we will apply the law and impact our results of operations in the period issued.

The results of the United Kingdom's referendum on withdrawal from the European Union may have a negative effect on global economic conditions, financial markets and our business.

In June 2016, a majority of voters in the United Kingdom elected to withdraw from the European Union in a national referendum. The referendum was advisory, and the terms of any withdrawal are subject to a negotiation period that could last at least two years after the government of the United Kingdom formally initiates a withdrawal process. Nevertheless, the referendum has created significant uncertainty about the future relationship between the United Kingdom and the European Union, including with respect to the laws and regulations that will apply as the United Kingdom determines which European Union laws to replace or replicate in the event of a withdrawal. The referendum may also give rise to calls for the governments of other European Union member states to consider withdrawal. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could have a material adverse effect on our business, financial condition and results of operations and reduce the price of our common stock.

Our operating results may be harmed if we are required to collect sales or other related taxes for our subscription services or pay regulatory fees in jurisdictions where we have not historically done so.

Primarily due to the nature of our services in certain states and countries, we do not believe we are required to collect sales or other related taxes from our customers in certain states or countries. However, one or more other states or countries may seek to impose sales, regulatory fees or other tax collection obligations on us, including for past sales by us or our resellers and other partners. A successful assertion that we should be collecting sales or other related taxes on our services or paying regulatory fees could result in substantial tax liabilities for past sales, discourage customers from purchasing our services or otherwise harm our business and operating results.

Our reported financial results may be adversely affected by changes in accounting principles generally accepted in the United States.

Generally accepted accounting principles in the United States, or GAAP, are subject to interpretation by the Financial Accounting Standards Board, or FASB, the SEC and various bodies formed to promulgate and interpret appropriate accounting principles. A change in accounting principles or interpretations could have a significant effect on our reported financial results for subsequent periods and prior periods, if retrospectively adopted. Additionally, the adoption of new standards may potentially require enhancements or changes in our systems and may require significant time and cost on behalf of our financial management. The prescribed periods of adoption of new standards and other pending changes in accounting principles generally accepted in the United States, are further discussed in “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Recent Accounting Pronouncements.”

Risks Related to Ownership of Our Common Stock

Our failure to raise additional capital or generate the cash flows necessary to expand our operations and invest in our services could reduce our ability to compete successfully.

We may need to raise additional funds, and we may not be able to obtain additional debt or equity financing on favorable terms, if at all. If we raise additional equity financing, our stockholders may experience significant dilution of their ownership interests, and the per share value of our common stock could decline. If we engage in debt financing, we may be required to accept terms that restrict our ability to pay dividends or make distributions, incur additional indebtedness and force us to maintain specified liquidity or other ratios. If we need additional capital and cannot raise it on acceptable terms, we may not be able to, among other things:

- develop or enhance services;
- continue to expand our development, sales and marketing organizations;
- acquire complementary technologies, products or businesses;
- expand our operations, in the United States or internationally;
- hire, train and retain employees; or
- respond to competitive pressures or unanticipated working capital requirements.

Our stock price may be volatile, and the market price of our common stock may drop in the future.

During the period from our initial public offering in July 2009 through February 15, 2018, our common stock has traded as high as \$134.80 and as low as \$15.15. An active, liquid and orderly market for our common stock may not be sustained, which could depress the trading price of our common stock. Some of the factors that may cause the market price of our common stock to fluctuate include:

- the success or failure of the Merger as well as our ability to realize the anticipated growth opportunities and other financial and operating benefits as a result of the Merger;
- fluctuations in our quarterly financial results or the quarterly financial results of companies perceived to be similar to us;
- fluctuations in our recorded revenue, even during periods of significant sales order activity;
- changes in estimates of our financial results or recommendations by securities analysts;
- failure of any of our services to achieve or maintain market acceptance;
- changes in market valuations of companies perceived to be similar to us;
- announcements regarding changes to our current or planned products or services;
- success of competitive companies, products or services;
- changes in our capital structure, such as future issuances of securities or the incurrence of debt;

[Table of Contents](#)

- announcements by us or our competitors of significant new services, contracts, acquisitions or strategic alliances;
- regulatory developments in the United States, foreign countries or both;
- litigation, including stockholder litigation and/or class action litigation, involving our company, our services or our general industry, as well as announcements regarding developments in on-going litigation matters;
- additions or departures of key personnel;
- general perception of the future of the remote-connectivity market or our services;
- investors' general perception of us; and
- changes in general economic, industry and market conditions.

In addition, if the market for technology stocks or the stock market in general experiences a loss of investor confidence, the trading price of our common stock could decline for reasons unrelated to our business, financial condition or results of operations. If any of the foregoing occurs, it could cause our stock price to fall and may expose us to class action lawsuits that, even if unsuccessful, could be costly to defend and a distraction to management.

There can be no assurance that we will continue to pay dividends or repurchase stock.

On February 23, 2017, our Board of Directors approved a three-year capital return plan. Pursuant to this plan, we intend to return up to \$700 million to our stockholders through a combination of share repurchases and dividends. As part of this capital return plan, we intend to pay a quarterly cash dividend, subject to quarterly declarations by our Board of Directors. Any future declarations, amount and timing of any dividends and/or the amount and timing of any stock repurchases are subject to capital availability and determinations by our Board of Directors that cash dividends and/or stock repurchases are in the best interest of our stockholders. Our ability to repurchase our shares and/or pay dividends to our stockholders is also subject to our maintaining compliance with our credit facility covenants as well as any potential tax restrictions which may be imposed on us related to the Merger. Our ability to pay dividends and/or repurchase stock will depend upon, among other factors, our cash balances and potential future capital requirements for strategic transactions, including acquisitions, debt service requirements, results of operations, financial condition and other factors beyond our control that our Board of Directors may deem relevant. A reduction in or elimination of our dividend payments, our dividend program and/or stock repurchases could have a negative effect on our stock price.

If securities or industry analysts who cover us, our business or our market publish a negative report or change their recommendations regarding our stock adversely, our stock price and trading volume could decline.

The trading market for our common stock is influenced by the research and reports that industry or securities analysts publish about us, our business, our market or our competitors. If any of the analysts who cover us or may cover us in the future publish a negative report or change their recommendation regarding our stock adversely, or provide more favorable relative recommendations about our competitors, our stock price would likely decline.

Certain stockholders could attempt to influence changes within the Company which could adversely affect our operations, financial condition and the value of our common stock.

Our stockholders may from time-to-time seek to acquire a controlling stake in our company, engage in proxy solicitations, advance stockholder proposals or otherwise attempt to effect changes. Campaigns by stockholders to effect changes at publicly-traded companies are sometimes led by investors seeking to increase short-term stockholder value through actions such as financial restructuring, increased debt, special dividends, stock repurchases or sales of assets or the entire company. Responding to proxy contests and other actions by activist stockholders can be costly and time-consuming, and could disrupt our operations and divert the attention of our Board of Directors and senior management from the pursuit of our business strategies. These actions could adversely affect our operations, financial condition and the value of our common stock.

Anti-takeover provisions contained in our certificate of incorporation and bylaws, as well as provisions of Delaware law, could impair a takeover attempt.

Our certificate of incorporation, bylaws and Delaware law contain provisions that could have the effect of rendering more difficult or discouraging an acquisition deemed undesirable by our Board of Directors. Our corporate governance documents include provisions:

- establishing that our Board of Directors is divided into three classes, with each class serving three-year staggered terms;
- authorizing blank check preferred stock, which could be issued with voting, liquidation, dividend and other rights superior to our common stock;
- limiting the liability of, and providing indemnification to, our directors and officers;
- limiting the ability of our stockholders to call and bring business before special meetings and to take action by written consent in lieu of a meeting;
- requiring advance notice of stockholder proposals for business to be conducted at meetings of our stockholders and for nominations of candidates for election to our Board of Directors;
- controlling the procedures for the conduct and scheduling of our Board of Directors and stockholder meetings;
- providing our Board of Directors with the express power to postpone previously scheduled annual meetings and to cancel previously scheduled special meetings;
- restricting the forum for certain litigation brought against us to Delaware;
- providing our Board of Directors with the exclusive right to determine the number of directors on our Board of Directors and the filling of any vacancies or newly created seats on our Board of Directors; and
- providing that directors may be removed by stockholders only for cause.

These provisions, alone or together, could delay hostile takeovers and changes in control of our company or changes in our management.

As a Delaware corporation, we are also subject to provisions of Delaware law, including Section 203 of the Delaware General Corporation Law, which generally prevents certain interested stockholders, including a person who beneficially owns 15% or more of our outstanding common stock, from engaging in certain business combinations with us within three years after the person becomes an interested stockholder unless certain approvals are obtained. Any provision of our certificate of incorporation or bylaws or Delaware law that has the effect of delaying or deterring a change in control could limit the opportunity for our stockholders to receive a premium for their shares of our common stock, and could also affect the price that some investors are willing to pay for our common stock.

ITEM 1B. *UNRESOLVED STAFF COMMENTS*

None.

ITEM 2. PROPERTIES

As of December 31, 2017, our principal facilities consist of owned and leased office space to house our development, sales and marketing, customer support, and administrative personnel. Our principal facilities include our corporate headquarters, which consists of 220,000 square feet of leased office space located in Boston, Massachusetts, as well as additional office space in Goleta, California which consists of 160,000 square feet of owned space and 76,000 square feet of leased space. We also lease space in third-party facilities from which we operate our data centers, which are located in the United States, the United Kingdom, Germany, the Netherlands, India and Australia.

	Approximate Square Footage	
	Owned	Leased
	(In thousands)	
North America	160	407
EMEA (Europe, Middle East)	—	164
Asia-Pacific	—	58
	160	629

We believe our facilities are sufficient to support our needs and that additional space will be available in the future on commercially reasonable terms as needed.

ITEM 3. LEGAL PROCEEDINGS

On September 2, 2016, Meetrix IP, LLC, or Meetrix, filed a complaint against us in the U.S. District Court for the Western District of Texas (Case No. 1:16-cv-1034). The complaint, which was served upon us on September 22, 2016, alleged that our join.me service infringed upon U.S. Patent Nos. 9,253,332, 9,094,525 and 8,339,997, each of which are allegedly owned by Meetrix and which Meetrix asserts relate to audio-video conferencing collaboration. On the same date, Meetrix also filed a complaint against Citrix in the same jurisdiction (Case No. 1:16-cv-1033-LY) alleging that the GoToMeeting service, which has since been acquired by us as part of the Merger, also infringes upon U.S. Patent Nos. 9,253,332, 9,094,525 and 8,339,997. On April 17, 2017, Meetrix also alleged that the GoToTraining and GoToWebinar services, which also have been acquired by us, infringe upon the three patents. Both complaints sought monetary damages in an unspecified amount, attorneys' fees and costs, and additional relief as is deemed appropriate by the court. On February 5, 2018, we entered into a Settlement and License Agreement with Meetrix which granted us a fully paid license covering the patents at issue. In connection with the Settlement and License Agreement, we agreed to pay Meetrix a one-time licensing fee. The parties moved to dismiss the case on February 8, 2018 and the case was dismissed by the court on February 12, 2018.

In February 2006, '01 Communiqué, or '01, filed a patent infringement lawsuit against Citrix and Citrix Online, LLC in the United States District Court for the Northern District of Ohio (Case No. 1:06-cv-253), claiming that certain GoTo remote access service offerings, which have since been acquired by us as part of the Merger, infringed U.S. Patent No. 6,928,479, or the '479 Patent, which is allegedly owned by '01. In January 2016, an Ohio jury rendered a verdict that the GoTo services had not infringed the '479 Patent. The District Court affirmed the jury's findings and denied '01's request for a new trial. In March 2017, '01 initiated an appeal of this ruling and a hearing was held on February 8, 2018 at the United States Court of Appeals for the Federal Circuit. We are awaiting a judgment from the Federal Circuit.

We are from time-to-time subject to various other legal proceedings and claims, either asserted or unasserted, which arise in the ordinary course of business. While the outcome of these other claims cannot be predicted with certainty, management does not believe that the outcome of any of these other legal matters will have a material adverse effect on our consolidated financial statements.

ITEM 4. MINE SAFETY DISCLOSURES

None.

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES****Certain Information Regarding the Trading of Our Common Stock**

Our common stock began trading under the symbol "LOGM" on the NASDAQ Global Select Market on July 1, 2009. Prior to that date, there was no established public trading market for our common stock. The following table sets forth, for the periods indicated, the high and low sale price per share of our common stock on the NASDAQ Global Select Market:

	High	Low
2016		
First Quarter	\$ 65.94	\$ 35.00
Second Quarter	\$ 65.90	\$ 47.36
Third Quarter	\$ 94.42	\$ 59.06
Fourth Quarter	\$ 110.10	\$ 86.22
2017		
First Quarter	\$ 110.00	\$ 90.35
Second Quarter	\$ 123.95	\$ 95.60
Third Quarter	\$ 121.25	\$ 103.00
Fourth Quarter	\$ 129.51	\$ 109.05

Holders of Our Common Stock

As of February 15, 2018, there were 460 holders of record of shares of our common stock. This number does not include stockholders for whom shares are held in "nominee" or "street" name. While we are unable to estimate the actual number of beneficial holders of our common stock, we believe the number of beneficial holders is substantially higher than the number of holders of record of shares of our common stock.

Dividends

Prior to July 26, 2016, we had never declared or paid dividends on our common stock. In connection with the Merger, we declared and paid three special cash dividends of \$0.50 per share of the Company's common stock. The first and second cash dividends were declared by our Board of Directors and paid to our stockholders in 2016. The third cash dividend was declared by our Board of Directors and paid to our stockholders in January 2017.

On February 23, 2017, our Board of Directors approved a three-year capital return plan. Pursuant to this plan, we intend to return up to \$700 million to stockholders through a combination of share repurchases and quarterly cash dividends. During the year ended December 31, 2017, we paid three cash dividends of \$0.25 per share in the second, third and fourth quarters. On February 1, 2018, our Board of Directors declared a \$0.30 per share cash dividend to be paid on February 28, 2018 to stockholders of record as of February 12, 2018. Our Board of Directors will continue to review this capital return plan for potential modifications based on our financial performance, business outlook and other considerations. Additionally, our credit facility contains certain financial and operating covenants that may restrict our ability to pay dividends in the future.

- (1) On February 23, 2017, our Board of Directors approved a three-year capital return plan, pursuant to which we intend to return up to \$700 million to stockholders through a combination of share repurchases and dividends. Share repurchases under this plan are made from time-to-time in the open market, in privately negotiated transactions or otherwise, in accordance with applicable securities laws and regulations. During the year ended December 31, 2017, we repurchased 626,154 shares of our common stock. The capital return plan terminated and replaced the \$75 million share repurchase program previously approved by our Board of Directors on October 20, 2014.
- (2) This amount has been reduced by an additional \$13.2 million which was used to pay a cash dividend of \$0.25 per share on November 24, 2017 to stockholders of record as of November 8, 2017.

Stock Performance Graph

The following graph compares the cumulative total return to stockholders on our common stock for the period from December 31, 2012 through December 31, 2017 against the cumulative total return of the NASDAQ Composite Index and the NASDAQ Computer and Data Processing Index. The comparison assumes \$100.00 was invested in our common stock, the NASDAQ Composite Index and the NASDAQ Computer and Data Processing Index and assumes reinvestment of dividends, if any. The stock performance on the graph below is not necessarily indicative of future price performance.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Among LogMeIn, Inc., the NASDAQ Composite Index and the NASDAQ Computer & Data Processing Index

*\$100 invested on 12/31/12 in stock or index, including reinvestment of dividends.
Fiscal year ending December 31.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations together with our consolidated financial statements and the related notes and other financial information included elsewhere in this Annual Report on Form 10-K. Some of the information contained in this discussion and analysis or set forth elsewhere in this Annual Report on Form 10-K, including information with respect to our plans and strategy for our business and related financing, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section of this Annual Report on Form 10-K for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

LogMeIn simplifies how people connect with each other and the world around them to drive meaningful interactions, deepen relationships, and create better outcomes for individuals and businesses. A market leader in communication and collaboration, identity and access, and customer engagement and support solutions, LogMeIn has millions of customers spanning virtually every country across the globe. LogMeIn is headquartered in Boston, Massachusetts with additional locations around the world.

We offer both free and fee-based, or premium, subscription software services. Sales of our premium subscription software services are generated through word-of-mouth referrals, web-based advertising, online search, off-line advertising, broadcast advertising, the conversion of free users and expiring free trials to paid subscriptions and direct marketing to new and existing customers. We derive our revenue principally from subscription fees from customers, who range from multi-national enterprises to small and medium businesses, or SMBs, and individual consumers and, to a lesser extent, from the delivery of professional services primarily related to our customer engagement and support business. Our customers typically subscribe to our services on a monthly or annual basis. Our revenue is driven primarily by the number and type of our premium subscription software services to which our paying customers subscribe.

On January 31, 2017, we completed our Merger with a wholly-owned subsidiary of Citrix, pursuant to which we combined with Citrix's GoTo family of service offerings known as the GoTo Business. Following the completion of the Merger, LogMeIn's revenue has grown from \$336.1 million in fiscal 2016 to over \$1 billion on an annualized basis in fiscal 2017 and we added over 1,600 employees (2,760 as of December 31, 2017, compared to 1,124 as of December 31, 2016). In 2017, our focus has primarily been on integrating the GoTo Business in order to meet our longer-term financial goals.

Operating Results

For the year ended December 31, 2017, we generated revenues of \$989.8 million and cash flows from operating activities of \$316.2 million, and we ended the year with \$252.4 million of cash and cash equivalents. During the year ended December 31, 2017, we repaid the remaining \$30.0 million of borrowings outstanding under our credit facility, repurchased \$69.2 million of our common stock pursuant to our share repurchase program, and paid cash dividends of \$52.3 million to our stockholders. We recorded net income of \$99.5 million in the year ended December 31, 2017, including amortization of acquired intangible assets of \$183.0 million; acquisition-related transaction, transition and integration-related fees and expenses of \$59.8 million, primarily related to the Merger; and a tax benefit of \$111.5 million primarily related to the enactment of the Tax Cuts and Jobs Act of 2017 (the "U.S. Tax Act"). The tax benefit of \$111.5 million includes \$85.6 million related to the U.S. Tax Act, which is primarily comprised of a tax benefit of \$105.1 million due to deferred tax asset and liability remeasurement partially offset by a one-time mandatory transition tax of \$14.8 million on cumulative foreign subsidiary earnings. The tax benefit also includes \$16.0 million of discrete tax benefits related to excess tax deductions on stock compensation now recorded as a tax benefit due to our adoption in 2017 of ASU 2016-09, *Compensation—Stock Compensation (Topic 718): Improvement to Employee Share-Based Payment Accounting*, issued by the Financial Accounting Standards Board, or FASB, on March 30, 2016.

Capital Returns

In connection with the Merger, our Board of Directors declared and paid \$12.8 million in January 2017 for the last of three special cash dividends of \$0.50 per share of our common stock. The first two special cash dividends of \$0.50 per share were paid in 2016.

On February 23, 2017, our Board of Directors approved a three-year capital return plan to return up to \$700 million to stockholders through a combination of share repurchases and dividends. Pursuant to this plan, during 2017, we repurchased shares and paid cash dividends totaling \$108.7 million as follows:

- Repurchased 626,154 shares of our common stock at an average price of \$110.56 per share for a total cost of \$69.2 million.
- Paid three cash dividends of \$0.25 per share of our common stock in the second, third and fourth quarters of 2017 totaling \$39.5 million.

While we currently intend to pay quarterly cash dividends during the remainder of 2018, our Board of Directors declare our dividends on a quarterly basis based upon our financial performance, business outlook and other considerations. On February 1, 2018, our Board of Directors declared a \$0.30 per share cash dividend to be paid on February 28, 2018 to stockholders of record as of February 12, 2018.

We repurchase our shares from time-to-time in the open market, which may include the use of 10b5-1 trading plans, or in privately negotiated transactions, in accordance with applicable securities and stock exchange rules. The timing and number of shares to be repurchased pursuant to this capital return plan will depend upon prevailing market conditions and other factors. Additionally, our credit facility contains certain financial and operating covenants that may restrict our ability to pay dividends in the future.

Credit Facility

On February 1, 2017, we entered into an Amended and Restated Credit Agreement, or Amended Credit Agreement, to increase our secured revolving credit facility from \$150 million to \$400 million and extend the maturity date to February 1, 2022. As of December 31, 2017, there were no outstanding borrowings under the Amended Credit Agreement.

Agreement to Acquire Jive Communications, Inc.

On February 7, 2018, we entered into a definitive Agreement and Plan of Merger (the “Jive Merger Agreement”) to acquire all of the outstanding equity of Jive Communications, Inc. (“Jive”), a provider of cloud-based phone systems and Unified Communications services. The transaction is expected to close during the second quarter of 2018, subject to certain regulatory approvals and customary closing conditions, including expiration of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and consent of the Federal Communications Commission. We expect to pay \$342 million in cash upon close for all outstanding equity interests in Jive, subject to potential working capital and other adjustments as further described in the Jive Merger Agreement. An additional \$15 million in cash is payable in contingent payments which are expected to be paid to certain employees of Jive upon their achievement of specified retention milestones over the two-year period following the closing of the transaction. We expect to fund the acquisition through a combination of cash and debt. At the time of signing the Jive Merger Agreement, Jive had approximately 600 employees and fiscal year 2017 revenue of approximately \$80 million.

Divestiture of Xively

On February 9, 2018, we entered into an agreement to sell our Xively business for approximately \$50 million. This transaction is expected to close in the first quarter of 2018, subject to certain customary closing conditions, and is expected to result in a pre-tax gain of approximately \$34 million. The net assets being sold are primarily comprised of \$14 million of goodwill allocated to the Xively business. In fiscal year 2017, we recorded \$3 million of revenue and \$13 million of GAAP expense directly related to our Xively business. The sale of the Xively business does not constitute a significant strategic shift that will have a material impact on our ongoing operations and financial results.

Certain Trends and Uncertainties

The following represents a summary of certain trends and uncertainties, which could have a significant impact on our financial condition and results of operations. This summary is not intended to be a complete list of potential trends and uncertainties that could impact our business in the long or short term. The summary, however, should be considered along with the factors identified in the section titled “Risk Factors” of this Annual Report on Form 10-K and elsewhere in this report.

- There is frequent litigation in the software and technology industries based on allegations of infringement or other violations of intellectual property rights. We have been, and may in the future be, subject to third party patent infringement or other intellectual property-related lawsuits as we face increasing competition and become increasingly visible. Any adverse determination related to intellectual property claims or litigation could adversely affect our business, financial condition and operating results.
- The risk of a data security breach or service disruption caused by computer hackers and cyber criminals has increased as the frequency, intensity and sophistication of attempted attacks and intrusions from around the world have increased. Our services and systems have been, and may in the future be, the target of various forms of cyber-attacks. While we make significant efforts to maintain the security and integrity of our services and computer systems, our cybersecurity measures and the cybersecurity measures taken by our third-party data center facilities may be unable to anticipate, detect or prevent all attempts to compromise our systems. Any security breach, whether successful or not, could harm our reputation, subject us to lawsuits and other potential liabilities and ultimately could result in the loss of customers.
- Failure to successfully integrate the GoTo Business could adversely impact the market price of our common stock as well as our business and operating results.
- We believe that competition will continue to increase. Increased competition could result from existing competitors or new competitors that enter the market because of the potential opportunity. We will continue to closely monitor competitive activity and respond accordingly. Increased competition could have an adverse effect on our financial condition and results of operations.
- We believe that as we continue to grow revenue at expected rates, our cost of revenue and operating expenses, including sales and marketing, research and development and general and administrative expenses will increase in absolute dollar amounts. For a description of the general trends we anticipate in various expense categories, see “Cost of Revenue and Operating Expenses” below.

Sources of Revenue

We derive our revenue primarily from subscription fees for our premium services from enterprise customers, SMBs, IT service providers, mobile carriers, customer service centers, OEMs and consumers and to a lesser extent, from usage fees from our audio services and the delivery of professional services primarily related to our customer engagement and support business. Our customers, who subscribe to our services, generally pay in advance and typically pay with a credit card, for their subscription. We initially record a subscription fee as deferred revenue and then recognize it ratably, on a daily basis, over the life of the subscription period. Typically, a subscription automatically renews at the end of a subscription period unless the customer specifically terminates it prior to the end of the period. For the year ended December 31, 2017, our gross annualized renewal rate was approximately 75%. Historically, we have calculated our gross renewal rate on an annualized dollar basis across all product lines as of the end of each period. As we continue to integrate the GoTo Business, we will monitor and assess our renewal rate calculation and methodology to ensure that it is appropriate for the combined company.

[Table of Contents](#)

Amounts for the years ended December 31, 2015 and 2016 presented in our revenue by product grouping table below include reclassifications between product groups to conform to the current year classification of our products (in thousands):

	Years Ended December 31,		
	2015	2016	2017
Revenues:			
Communications and collaboration	\$ 28,751	\$ 40,616	\$ 527,412
Identity and access	152,194	196,952	289,181
Customer engagement and support	90,655	98,500	173,193
Total revenue	<u>\$ 271,600</u>	<u>\$ 336,068</u>	<u>\$ 989,786</u>

Employees

We have increased our number of full-time employees to 2,760 as of December 31, 2017 compared to 1,124 as of December 31, 2016.

Cost of Revenue and Operating Expenses

We allocate certain overhead expenses, such as rent and utilities, to expense categories based on the headcount in or office space occupied by personnel in that expense category as a percentage of our total headcount or office space. As a result, an overhead allocation associated with these costs is reflected in the cost of revenue and each operating expense category.

Cost of Revenue. Cost of revenue consists primarily of costs associated with our data center operations and customer support centers. Included in these costs are wages and benefits for personnel, telecommunications, hosting fees, hardware and software maintenance costs, consulting fees associated with outsourced customer support staffing and professional services team projects, depreciation associated with our data centers and retention-based bonus expense related to our acquisitions (see Note 4 to the Consolidated Financial Statements). Additionally, amortization expense associated with the acquired software, technology and documented know-how, as well as internally developed software is included in cost of revenue. The expenses related to hosting our services and supporting our free and premium customers are dependent on the number of customers who subscribe to our services and the complexity and redundancy of our services and hosting infrastructure.

Research and Development. Research and development expenses consist primarily of wages and benefits for development personnel, retention-based bonus expense related to our acquisitions, facility expense, consulting fees associated with outsourced development projects, travel-related costs for development personnel and depreciation of assets used in development. Our research and development efforts are focused on both improving ease of use and functionality of our existing services, as well as developing new offerings. More than half of our research and development employees are located internationally in our development centers in Hungary, Germany and India. Therefore, a large portion of research and development expense is subject to fluctuations in foreign exchange rates. We capitalized costs of \$2.2 million, \$1.6 million, and \$29.8 million for the years ended December 31, 2015, 2016 and 2017, respectively, related to internally developed software to be sold as a service, which were incurred during the application development stage. The majority of research and development costs have been expensed as incurred. We expect that research and development expenses will remain relatively constant as a percentage of revenue.

Sales and Marketing. Sales and marketing expenses consist primarily of online search and advertising costs, wages, commissions and benefits for sales and marketing personnel, offline marketing costs such as media advertising and trade shows, consulting fees, credit card processing fees, rent expense and hardware and software maintenance costs. Online search and advertising costs consist primarily of pay-per-click payments to search engines and other online advertising media such as banner ads. Offline marketing costs include radio and print advertisements, as well as the costs to create and produce these advertisements, and tradeshows, including the costs of space at tradeshows and costs to design and construct tradeshow booths. Advertising costs are expensed

[Table of Contents](#)

as incurred. In order to continue to grow our business and awareness of our services, we expect that we will continue to invest in our sales and marketing efforts. We expect that sales and marketing expenses will remain relatively constant as a percentage of revenue.

General and Administrative. General and administrative expenses consist primarily of wages and benefits for management, human resources, internal IT support, legal, finance and accounting personnel, professional fees, insurance and other corporate expenses, including acquisition-related expenses. We expect that general and administrative expenses related to personnel, recruiting, internal information systems, audit, accounting and insurance costs will remain relatively constant as a percentage of revenue as we continue to support the growth of our business. Further, we expect to continue to incur acquisition-related costs, and general and administrative expenses could increase if we incur litigation-related expenses associated with our defense against legal claims.

Critical Accounting Policies

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP. The preparation of our financial statements and related disclosures requires us to make estimates, assumptions and judgments that affect the reported amount of assets, liabilities, revenue, costs and expenses, and related disclosures. We base our estimates and assumptions on historical experience and other factors that we believe to be reasonable under the circumstances. We evaluate our estimates and assumptions on an ongoing basis. Our actual results may differ from these estimates under different assumptions and conditions. Our most critical accounting policies are summarized below. See Note 2 to the Consolidated Financial Statements included elsewhere in this Annual Report on Form 10-K for additional information about these critical accounting policies, as well as a description of our other significant accounting policies.

Revenue Recognition — The following discussion of our revenue recognition critical accounting policies is based on the accounting principles that were used to prepare the 2017 consolidated financial statements included in this Annual Report on Form 10-K. On January 1, 2018, we adopted Accounting Standard Update 2014-09, *Revenue from Contracts with Customers*, as amended (“ASC 606”). ASC 606 replaces existing revenue recognition rules with a comprehensive revenue measurement and recognition standard and expanded disclosure requirements. See Note 2 of our Consolidated Financial Statements for additional information regarding our recently issued accounting pronouncements.

We derive our revenue primarily from subscription fees for our premium services from enterprise customers, SMBs, IT service providers, mobile carriers, customer service centers, OEMs and consumers and to a lesser extent, from usage fees from our audio services and the delivery of professional services primarily related to our customer engagement and support business. Revenues are reported net of applicable sales and use tax, value-added tax and other transaction taxes imposed on the related transaction.

Revenue from our premium services is recognized on a daily basis over the subscription term as the services are delivered, provided that there is persuasive evidence of an arrangement, the fee is fixed or determinable and collectability is deemed reasonably assured. Subscription periods range from monthly to ten years. Our software cannot be run on another entity’s hardware and customers do not have the right to take possession of the software and use it on their own or another entity’s hardware.

Our multi-element arrangements typically include subscription and professional services, which may include development services. We evaluate each element within the arrangement to determine if they can be accounted for as separate units of accounting. If the delivered item or items have value to the customer on a standalone basis, either because they are sold separately by any vendor or the customer could resell the delivered item or items on a standalone basis, we have determined that the deliverables within these arrangements qualify for treatment as separate units of accounting. Accordingly, we recognize revenue for each delivered item or items as a separate earnings process commencing when all of the significant performance obligations have been performed and when all the revenue recognition criteria have been met. Professional services revenue recognized as a separate earnings process under multi-element arrangements has been immaterial to date.

Income Taxes — We are subject to federal, state, and foreign income taxes for jurisdictions in which we operate, and we use estimates in determining our provision for these income taxes and deferred tax assets. Deferred tax assets, related valuation allowances, current tax liabilities and deferred tax liabilities are determined separately by

tax jurisdiction. In making these determinations, we estimate deferred tax assets, current tax liabilities and deferred tax liabilities, and we assess temporary differences resulting from differing treatment of items for tax and accounting purposes. As of December 31, 2016, and 2017, our deferred tax assets consisted primarily of net operating losses and stock-based compensation expense. We assess the likelihood that deferred tax assets will be realized, and we recognize a valuation allowance if it is more likely than not that some portion of the deferred tax assets will not be recognized. This assessment requires judgment as to the likelihood and amounts of future taxable income by tax jurisdiction. As of December 31, 2016, and 2017, we maintained a full valuation allowance against the deferred tax assets of our Hungarian subsidiary. This entity has historical tax losses and we concluded it was not more likely than not that these deferred tax assets are realizable. As of December 31, 2017, we have maintained a partial valuation allowance against the Massachusetts and California net operating loss carryforwards as we concluded that those losses would not be utilized prior to expiration.

We evaluate our uncertain tax positions based on a determination of whether and how much of a tax benefit we have taken in our tax filings is more likely than not to be realized. Potential interest and penalties associated with any uncertain tax positions are recorded as a component of income tax expense. As of December 31, 2016, and 2017, other long-term liabilities on the consolidated balance sheets included \$1.5 million and \$5.1 million, respectively, for uncertain tax positions. Although we believe that our tax estimates are reasonable, the ultimate tax determination involves significant judgment that is subject to audit by tax authorities in the ordinary course of business.

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the “U.S. Tax Act”) was signed into law, making significant changes to the Internal Revenue Code. Changes include, but are not limited to, a U.S. federal corporate tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, the transition of U.S. international taxation from a worldwide tax system to a territorial system, and a one-time transition tax on the mandatory deemed repatriation of cumulative foreign earnings as of December 31, 2017. We have calculated our best estimate of the impact of the U.S. Tax Act in our year end income tax provision in accordance with guidance available as of the date of this filing. The provisional amount related to the one-time transition tax on the mandatory deemed repatriation of foreign earnings was \$14.8 million based on cumulative foreign earnings of \$56.6 million.

On December 22, 2017, Staff Accounting Bulletin No. 118 (“SAB 118”) was issued to address the application of generally accepted accounting principles in the United States, or GAAP, in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the U.S. Tax Act. The ultimate impact of the U.S. Tax Act may differ from this estimate, possibly materially, due to changes in interpretations and assumptions, and guidance that may be issued and actions we may take in response to the U.S. Tax Act. The U.S. Tax Act is highly complex and we will continue to assess the impact that various provisions will have on our business. Any subsequent adjustment to these amounts will be recorded to current tax expense in the quarter of 2018 when the analysis is complete.

Goodwill and Acquired Intangible Assets — We record goodwill as the excess of the acquisition price over the fair value of the tangible and identifiable intangible net assets acquired. We do not amortize goodwill, but instead perform an impairment test of goodwill annually or whenever events and circumstances indicate that the carrying amount of goodwill may exceed its fair value. We operate as a single operating segment with one reporting unit and consequently evaluate goodwill for impairment based on an evaluation of the fair value of the company as a whole. As of November 30, 2017, our measurement date, the fair value of the company as a whole was substantially in excess of its carrying value. We routinely monitor our intangible assets for indicators of impairment. If an indicator exists, we compare the undiscounted expected future cash flows from the intangible asset to its carrying value. If the carrying value exceeds the undiscounted expected cash flows, we record an impairment based on the difference between the carrying value and determined fair value. Projected future cash flows are an estimate made by management which, based on their nature, include risks and uncertainties primarily related to acceptance of products in the marketplace. To the extent that estimates of cash flows do not come to fruition, future impairments of intangible assets may be required. No material impairments have been recorded through December 31, 2017.

[Table of Contents](#)

We record intangible assets at their respective estimated fair values at the date of acquisition. Intangible assets are amortized based upon the pattern in which their economic benefit will be realized, or if this pattern cannot be reliably determined, using the straight-line method over their estimated useful lives, which range up to eleven years.

Stock-Based Compensation — We value all stock-based compensation, including grants of stock options and restricted stock units, at fair value on the date of grant and recognize the expense over the requisite service period, which is generally the vesting period of the award, for those awards expected to vest, on a straight-line basis.

The assumptions used in determining the fair value of stock-based awards represent management's best estimates, but these estimates involve inherent uncertainties and the application of management's judgment. As a result, if factors change and we use different assumptions, our stock-based compensation could be materially different in the future. Restricted stock units with time-based and performance-based vesting conditions are valued on the grant date using the grant date closing price of our common stock. Restricted stock units with market-based vesting conditions are valued using a Monte Carlo simulation model. The number of shares expected to be earned, based on market conditions, is factored into the grant date Monte Carlo valuation for the awards. The grant date fair value is not subsequently adjusted regardless of the eventual number of shares that are earned based on the market condition.

On January 1, 2017, we adopted ASU 2016-09, *Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* (“ASU 2016-09”) and elected to account for forfeitures in compensation cost when they occur.

Loss Contingencies — We have been involved in various legal claims and legal proceedings and may be subject to additional legal claims and proceedings in the future that arise in the ordinary course of business. We consider the likelihood of a loss or the incurrence of a liability, as well as our ability to reasonably estimate the amount of loss, in determining loss contingencies. An estimated loss contingency is accrued when we believe that it is both probable that a liability has been incurred and the amount of loss can be reasonably estimated. Significant judgment is required to determine both probability and the estimated amount. We regularly evaluate current information available and reflect the impact of negotiations, settlements, rulings, advice of legal counsel and updated information to determine whether such accruals should be adjusted and whether new accruals are required and update our disclosures accordingly. Litigation is inherently unpredictable and is subject to significant uncertainties, some of which are beyond our control. Should any of these estimates and assumptions change or prove to have been incorrect, it could have a material adverse effect on our results of operations, financial position and cash flows. See Note 11 to the Consolidated Financial Statements for a further discussion of litigation and contingencies as well as “Legal Proceedings” in Part I, Item 3.

Total headcount at end of period	1,006	1,124	12%	2,760	146%

Years Ended December 31, 2016 and 2017

On January 31, 2017, our Merger with the GoTo Business added over 1,600 employees as of that date and revenue has increased to over \$1 billion on an annualized basis. Accordingly, the revenue and cost comparisons have all increased in 2017 compared to 2016.

Revenue. Revenue increased \$653.7 million, or 195%, from \$336.1 million for the year ended December 31, 2016 to \$989.8 million for the year ended December 31, 2017. This increase was primarily attributable to \$617.3 million of revenue from the GoTo Business since the Merger closed on January 31, 2017.

[Table of Contents](#)

Cost of Revenue. Cost of revenue increased \$157.7 million, or 347%, from \$45.5 million for the year ended December 31, 2016 to \$203.2 million for the year ended December 31, 2017. As a percentage of revenue, cost of revenue was 14% and 21% for the years ended December 31, 2016 and 2017, respectively. Cost of revenue for the years ended December 31, 2016 and 2017, includes personnel-related costs, including salary, bonus, recruiting, relocation, travel, training, benefits and taxes of \$14.9 million and \$52.3 million, respectively; facility-related costs of \$2.2 million and \$6.7 million, respectively; depreciation, maintenance, and amortization of internally developed software expense of \$11.1 million and \$34.8 million, respectively; costs from outside service providers of \$1.9 million and \$12.8 million, respectively; data center and telecommunications costs of \$10.3 million and \$45.2 million, respectively; and amortization of acquired intangible assets of \$4.6 million and \$48.7 million, respectively. Cost of revenue for the year ended December 31, 2017 also includes royalty expense of \$1.8 million. As of the Merger date, cost of revenue expense included an additional 326 employees. The increase in cost of revenue as a percentage of revenue is primarily attributable to the increase in amortization of intangible assets. Included in personnel-related costs in the years ended December 31, 2016 and 2017, is \$2.3 million and \$5.2 million, respectively, of stock-based compensation expense and \$0.7 million and \$1.3 million, respectively, of acquisition-related retention-based bonuses.

Research and Development Expenses. Research and development expenses increased \$99.5 million, or 174%, from \$57.2 million for the year ended December 31, 2016 to \$156.7 million for the year ended December 31, 2017. As a percentage of revenue, research and development expenses were 17% and 16% for the years ended December 31, 2016 and 2017, respectively. Research and development expenses for the years ended December 31, 2016 and 2017, includes personnel-related costs, including salary, bonus, recruiting, relocation, travel, training, benefits and taxes, of \$46.1 million and \$118.5 million, respectively; facility-related costs of \$4.8 million and \$17.7 million, respectively; depreciation and maintenance expense of \$3.6 million and \$14.3 million, respectively; and professional services expense of \$2.2 million and \$4.9 million, respectively. We capitalized \$1.6 million and \$29.8 million during the years ended December 31, 2016 and 2017, respectively, of costs related to internally developed software to be sold as a service incurred during the application development stage. As of the Merger date, research and development expense included an additional 647 employees. Included in personnel-related costs for the years ended December 31, 2016 and 2017 is \$6.2 million and \$22.1 million, respectively, of stock-based compensation expense and \$5.9 million and \$7.3 million, respectively, of acquisition-related retention-based bonuses.

Sales and Marketing Expenses. Sales and marketing expenses increased \$184.2 million, or 113%, from \$162.8 million for the year ended December 31, 2016 to \$347.0 million for the year ended December 31, 2017. As a percentage of revenue, sales and marketing expenses were 48% and 35% for the years ended December 31, 2016 and 2017, respectively. Sales and marketing expenses for the years ended December 31, 2016 and 2017, includes personnel-related costs, including salary, bonus, recruiting, relocation, travel, training, benefits and taxes, of \$85.6 million and \$170.6 million, respectively; marketing costs of \$48.2 million and \$119.5 million, respectively; credit card transaction fees of \$8.8 million and \$20.8 million, respectively; facility-related costs of \$8.8 million and \$15.5 million, respectively; depreciation and maintenance expense of \$8.1 million and \$14.4 million, respectively; and professional services expense of \$2.9 million and \$3.1 million, respectively. As of the Merger date, sales and marketing expense included an additional 621 employees resulting from the Merger. Included in personnel-related costs in the years ended December 31, 2016 and 2017 is \$16.2 million in both years of stock-based compensation expense and \$1.5 million and \$3.1 million, respectively, of acquisition-related retention-based bonuses.

General and Administrative Expenses. General and administrative expenses increased \$99.7 million, or 164%, from \$60.7 million for the year ended December 31, 2016 to \$160.4 million for the year ended December 31, 2017. As a percentage of revenue, general and administrative expenses were 18% and 16% for the years ended December 31, 2016 and 2017, respectively. For the year ended December 31, 2017, general and administrative expenses included acquisition-related costs of \$48.2 million primarily related to the Merger, consisting of \$29.4 million in transaction, transition and integration-related costs, \$12.8 million in integration-related severance costs and \$5.0 million of retention-based bonuses. For the year ended December 31, 2016, general and administrative expenses included acquisition related costs of \$25.1 million primarily related to the Merger, as well as \$8.2 million in retention-based bonuses related to our 2014 and 2015 acquisitions. General and admin-

[Table of Contents](#)

istrative expenses for the years ended December 31, 2016 and 2017, included personnel-related costs, including salary, bonus, recruiting, relocation, travel, training, benefits and taxes, of \$31.4 million and \$73.4 million, respectively; professional services of \$7.1 million and \$20.9 million, respectively; facility-related costs of \$2.1 million and \$7.6 million, respectively; and depreciation and maintenance expense of \$2.0 million and \$6.5 million, respectively. As of the Merger date, general and administrative expense included an additional 138 employees. Included in personnel-related costs in the years ended December 31, 2016 and 2017 is \$13.7 million and \$23.8 million, respectively, of stock-based compensation expense.

Amortization of Acquired Intangibles. Amortization of acquired intangibles was \$5.5 million and \$134.3 million for the years ended December 31, 2016 and 2017, respectively. The increase was primarily related to the intangible assets acquired as a result of the Merger on January 31, 2017.

Interest Income. Interest income was \$0.7 million and \$1.4 million for the years ended December 31, 2016 and 2017, respectively, and was primarily attributable to interest income earned on marketable securities and money market funds.

Interest Expense. Interest expense was \$1.4 million for both the years ended December 31, 2016 and 2017, and was primarily associated with interest expense attributable to our credit facility and the amortization of financing fees.

Other Income (Expense), Net. Other income (expense), net was expense of \$0.5 million and \$0.1 million for the years ended December 31, 2016 and 2017, respectively, comprised primarily of realized and unrealized foreign currency gains and losses resulting from multi-currency settlements and re-measurements occurring during the period.

Income Taxes. We recorded a provision for federal, state and foreign income taxes of \$0.6 million on profit before income taxes of \$3.2 million and a benefit of \$111.5 million on a loss before income taxes of \$12.0 million for the years ended December 31, 2016 and 2017, respectively. Our effective tax rate is different than the U.S. federal statutory rate of 35% primarily due to the impact of the enactment of the U.S. Tax Act and the recording of excess tax benefits related to stock-based awards in 2017 and due to profits earned in certain foreign jurisdictions, primarily our Irish subsidiaries, which are subject to significantly lower tax rates than the U.S. federal statutory rate in both 2016 and 2017. As a result of the U.S. Tax Act, we recognized a one-time mandatory transition tax of \$14.8 million on cumulative foreign subsidiary earnings, remeasured our U.S. deferred tax assets and liabilities, which resulted in a benefit from income taxes of \$105.1 million, and reassessed the net realizability of our deferred tax assets and liabilities, which resulted in a tax provision of \$4.7 million. Further, on January 1, 2017, we adopted ASU 2016-09, *Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* (“ASU 2016-09”). Previously, excess tax benefits were recognized in additional paid-in capital on the consolidated balance sheet to the extent they reduced income taxes payable. Beginning in 2017, any excess tax benefits or shortfalls were recorded in the income tax provision upon vest or exercise. In 2017, we recorded a net benefit of \$16.0 million related to excess tax benefits.

Net Income. We recognized net income of \$2.6 million and \$99.5 million for the years ended December 31, 2016 and 2017, respectively.

Years Ended December 31, 2015 and 2016

Revenue. Revenue increased \$64.5 million, or 24%, from \$271.6 million for the year ended December 31, 2015 to \$336.1 million for the year ended December 31, 2016. This increase was primarily attributable to customers who purchased new, add-on and renewal subscriptions of join.me and existing customers who renewed and received our improved LogMeIn Pro and LogMeIn Central offerings at higher price points. Included in the increase is \$16.1 million of revenue related to Marvasol, Inc. d/b/a “LastPass,” or LastPass, which was acquired in October 2015.

Cost of Revenue. Cost of revenue increased \$10.0 million, or 28%, from \$35.5 million for the year ended December 31, 2015 to \$45.5 million for the year ended December 31, 2016. As a percentage of revenue, cost of revenue was 13% and 14% for the years ended December 31, 2015 and 2016, respectively. The increase in absolute dollars was primarily due to a \$5.6 million increase in hosting costs associated with managing our data centers and hosting our services due to an increase in both the number of customers using our services and the total number of devices that connected to our services. The increase was also due to a \$2.2 million increase in personnel-related costs, including salary, wages, bonus, recruiting and relocation expense, and benefits and taxes

[Table of Contents](#)

as we increased the number of customer support employees to support our overall growth, and a \$2.2 million increase in amortization expense associated with acquired intangibles and internally developed software. Included in the increase in personnel-related costs is a \$0.7 million increase in stock-based compensation expense.

Research and Development Expenses. Research and development expenses increased \$14.6 million, or 34%, from \$42.6 million for the year ended December 31, 2015 to \$57.2 million for the year ended December 31, 2016. As a percentage of revenue, research and development expenses were 16% and 17% for the years ended December 31, 2015 and 2016, respectively. The increase in absolute dollars was primarily due to a \$5.3 million increase in personnel-related costs including salary, wages, bonus, recruiting and relocation costs, and benefits and taxes as we increased the number of research and development employees to support our overall growth. The total increase was also due to a \$3.2 million increase in contingent retention-based bonus expense primarily related to the acquisition of LastPass, a \$2.2 million increase in travel-related and department meeting costs, a \$2.2 million increase in rent and telecommunications expense, a \$0.8 million increase in depreciation expense and a \$0.8 million increase in hardware and software maintenance costs. Included in the increase in personnel-related costs is a \$1.0 million increase in stock-based compensation expense.

Sales and Marketing Expenses. Sales and marketing expenses increased \$23.9 million, or 17%, from \$138.9 million for the year ended December 31, 2015 to \$162.8 million for the year ended December 31, 2016. As a percentage of revenue, sales and marketing expenses were 51% and 48% for the years ended December 31, 2015 and 2016, respectively. The increase in absolute dollars was primarily due to a \$15.1 million increase in personnel-related costs including salary, wages, bonus, recruiting and relocation costs, and benefits and taxes from the hiring of additional employees to support our growth in sales and to expand our marketing efforts. The total increase was also due to a \$2.6 million increase in rent and telecommunications expense, a \$1.4 million increase in hardware and software maintenance costs, a \$1.0 million increase in credit card transaction fees related to an increase in e-commerce sales, and a \$0.8 million increase in depreciation expense. Included in the increase in personnel-related costs is a \$5.1 million increase in stock-based compensation expense.

General and Administrative Expenses. General and administrative expenses increased \$27.6 million, or 84%, from \$33.1 million for the year ended December 31, 2015 to \$60.7 million for the year ended December 31, 2016. As a percentage of revenue, general and administrative expenses were 12% and 18% for the years ended December 31, 2015 and 2016, respectively. The increase in absolute dollars was primarily due to a \$15.5 million increase in acquisition-related professional fees, including transaction, transition and integration-related fees and expenses incurred in connection with the Merger. The total increase in general and administrative expense was also due to a \$8.8 million increase in personnel-related costs including salary, wages, bonus, recruiting and relocation costs, and benefits and taxes as we increased the number of general and administrative employees to support our overall growth, a \$1.3 million increase in consulting costs and a \$0.4 million increase in audit and accounting costs. Included in the increase in personnel-related costs is a \$5.0 million increase in stock-based compensation expense.

Legal Settlement Expenses. Legal settlement expenses were \$3.6 million for the year ended December 31, 2015 and were associated with a trademark dispute.

Amortization of Acquired Intangibles. Amortization of acquired intangibles increased \$3.5 million from \$1.9 million for the year ended December 31, 2015 to \$5.5 million for the year ended December 31, 2016, primarily related to the intangible assets acquired in the LastPass acquisition in October 2015.

Interest Income. Interest income was \$0.7 million for the years ended December 31, 2015 and 2016, respectively, and was attributable to interest income on marketable securities.

Interest Expense. Interest expense was \$0.6 million and \$1.4 million for the years ended December 31, 2015 and 2016, respectively, and includes amortization of financing fees and interest expense attributable to our credit facility, including borrowings outstanding to partially fund our acquisition of LastPass.

Other Income (Expense), Net. Other income (expense), net was income of \$1.4 million and expense of \$0.5 million for the years ended December 31, 2015 and 2016, respectively, both primarily comprised of realized

[Table of Contents](#)

and unrealized foreign currency gains and losses resulting from multi-currency settlements occurring during the period.

Income Taxes . We recorded a provision for federal, state and foreign income taxes of \$3.0 million on profit before income taxes of \$17.5 million and \$0.6 million on profit before taxes of \$3.2 million for the years ended December 31, 2015 and 2016, respectively, resulting in an effective tax rate of 17% and 18%, respectively. Our effective tax rate is lower than the U.S. federal statutory rate of 35% primarily due to profits earned in certain foreign jurisdictions, primarily our Irish subsidiaries, which are subject to significantly lower tax rates than the U.S. federal statutory rate.

Net Income . We recognized net income of \$14.6 million and \$2.6 million for the years ended December 31, 2015 and 2016, respectively.

Liquidity and Capital Resources

The following table sets forth the major sources and uses of cash for each of the periods set forth below:

	Years Ended December 31,		
	2015	2016	2017
		(In thousands)	
Net cash provided by operations	\$ 85,770	\$ 92,315	\$ 316,197
Net cash provided by (used in) investing activities	(107,974)	7,460	(31,138)
Net cash provided by (used in) financing activities	49,592	(79,448)	(181,493)
Effect of exchange rate changes	(5,205)	(2,714)	8,080
Net increase in cash	<u>\$ 22,183</u>	<u>\$ 17,613</u>	<u>\$ 111,646</u>

At December 31, 2017, our principal source of liquidity was cash and cash equivalents totaling \$252.4 million, of which \$135.1 million was in the United States and \$117.3 million was held by our international subsidiaries.

Cash Flows From Operating Activities

Net cash provided by operating activities was \$85.8 million, \$92.3 million and \$316.2 million for the years ended December 31, 2015, 2016 and 2017, respectively.

Net cash inflows from operating activities during the year ended December 31, 2015 were mainly attributable to a \$28.9 million increase in deferred revenue associated with upfront payments received from our customers, net income of \$14.6 million, a \$2.7 million increase in other long-term liabilities, a \$2.3 million increase in accrued liabilities, a \$2.2 million decrease in accounts receivable and a \$1.4 million increase in accounts payable. These cash inflows are partially offset by a \$2.8 million increase in prepaid expenses and other current assets. Additionally, included in net cash inflows from operating activities are add-backs of non-cash charges, including \$26.5 million for stock-based compensation expense and \$13.7 million for depreciation and amortization. The increase related to other long-term liabilities includes the impact of contingent retention-based bonuses associated with our acquisitions (see Note 4 to the Consolidated Financial Statements).

Net cash inflows from operating activities during the year ended December 31, 2016 were mainly attributable to a \$27.0 million increase in deferred revenue associated with upfront payments received from our customers, a \$6.1 million increase in accounts payable, an \$8.4 million increase in accrued expenses, and a \$6.0 million decrease in prepaid expenses and other current assets, primarily due to \$5.7 million in tax refunds received in the fourth quarter of 2016. These cash inflows were partially offset by a \$10.2 million increase in accounts receivable. Accrued expenses and accounts payable included \$6.2 million in acquisition-related professional fees, including transaction, transition, and integration-related fees and expenses. Additionally, included in net cash inflows from operating activities were add-backs of non-cash charges, including \$38.4 million for stock-based compensation expense, \$21.5 million for depreciation and amortization and \$0.5 million for the change in fair value of the contingent consideration liability related to the LastPass acquisition, partially offset by \$6.5 million related to excess tax benefits realized from stock-based awards and a \$3.3 million benefit from deferred income taxes resulting from differing treatment of items for tax and accounting purposes.

[Table of Contents](#)

Net cash inflows from operating activities during the year ended December 31, 2017 were mainly attributable to a \$93.0 million increase in deferred revenue associated with upfront payments received from our customers, a \$17.1 million increase in other long-term liabilities, and a \$15.4 million increase in accrued liabilities. The increase in other long-term liabilities relates to income tax provisions for the U.S. Tax Act of \$12.5 million and uncertain tax positions of \$3.6 million. These cash inflows were partially offset by a \$22.8 million increase in prepaid expenses and other current assets, a \$16.6 million increase in accounts receivable, and a \$5.0 million decrease in accounts payable. The increase in prepaid expenses and other current assets is primarily due to an increase in prepaid taxes, partially offset by amortization of prepaid expenses. Accrued liabilities and accounts payable included \$6.8 million in acquisition-related professional fees related to the Merger, including transaction, transition, and integration-related fees and expenses, and \$1.8 million in retention-based bonus accruals related to our acquisitions of AuthAir, Inc., or AuthAir, and Nanorep Technologies Ltd., or Nanorep. Additionally, included in net cash inflows from operating activities were add-backs of non-cash charges, including \$221.3 million for depreciation and amortization, \$67.3 million for stock-based compensation expense and \$156.8 million benefit from deferred income taxes primarily attributable to the remeasurement of deferred tax assets and liabilities related to the U.S. Tax Act enacted in December 2017 and the amortization of intangible assets which cannot be deducted for tax purposes.

Cash Flows From Investing Activities

Net cash used in investing activities was \$108.0 million and \$31.1 million for the years ended December 31, 2015 and 2017, respectively, and net cash provided by investing activities was \$7.5 million for the year ended December 31, 2016.

Net cash used in investing activities for the year ended December 31, 2015 was primarily related to the acquisition of LastPass in October 2015 for \$107.6 million, net of cash acquired. Net cash used in investing activities was also related to the purchase of \$14.2 million in property and equipment in connection with the expansion and upgrade of our data center capacity, the expansion and upgrade of our internal IT infrastructure and our offices, and \$2.4 million in intangible asset additions, primarily related to capitalized costs related to internally developed software to be sold as a service which were incurred during the application development stage. Net cash used in investing activities was partially offset by \$14.7 million in net proceeds from the sale and maturities of marketable securities and a \$1.5 million decrease in restricted cash due to a planned decrease in the security deposit obligation under our Boston, Massachusetts office lease.

Net cash provided by investing activities ended December 31, 2016 was primarily attributable to \$29.1 million in net proceeds from maturities of marketable securities. These cash inflows were partially offset by purchases of \$14.0 million in property and equipment related to the expansion and upgrade of our data center capacity, our internal IT infrastructure and our offices, \$6.0 million for an acquisition, and \$1.6 million in intangible asset additions for capitalized costs related to internally developed software to be sold as a service which were incurred during the application development stage.

Net cash used in investing activities for the year ended December 31, 2017 was primarily attributable to purchases of \$36.6 million in property and equipment related to our internal IT infrastructure, data centers and our offices, \$29.7 million in intangible asset additions for capitalized costs related to internally developed software to be sold as a service which were incurred during the application development stage, and \$22.3 million of net cash paid for acquisitions, including \$43.2 million related to the Nanorep acquisition and \$3.3 million related to the Merger with the GoTo Business, partially offset by \$24.2 million of cash acquired from the Merger. These cash outflows were partially offset by \$55.6 million in net proceeds from maturities and sales of marketable securities and \$2.0 million for a decrease in restricted cash.

Cash Flows From Financing Activities

Net cash provided by financing activities was \$49.6 million for the year ended December 31, 2015. Net cash used in financing activities was \$79.4 million and \$181.5 million for the years ended December 31, 2016 and 2017, respectively.

Net cash provided by financing activities for the year ended December 31, 2015 was primarily related to \$60.0 million in borrowings under our credit facility which was drawn in October 2015 in order to partially fund

[Table of Contents](#)

our acquisition of LastPass. Net cash provided by financing activities also includes \$17.8 million in proceeds received from the issuance of common stock upon exercise of stock options and a \$2.7 million income tax benefit realized from stock-based awards. Net cash provided by financing activities was offset by \$18.1 million for the purchase of treasury stock pursuant to our share repurchase program, the payment of \$11.6 million for payroll withholding taxes related to vesting of restricted stock units, and the payment of \$1.0 million in deferred financing costs associated with the credit facility.

Net cash used in financing activities for the year ended December 31, 2016 related to the purchase of \$25.4 million of treasury stock pursuant to our share repurchase program, the repayment of \$30.0 million related to our credit facility, the payment of \$14.4 million for payroll withholding taxes related to vesting of restricted stock units and cash dividend payments to our stockholders of \$25.5 million. These payments were partially offset by \$11.8 million in proceeds received from the issuance of common stock upon exercise of stock options.

Net cash used in financing activities for the year ended December 31, 2017 related to purchases of \$69.2 million of treasury stock pursuant to our share repurchase program, dividend payments to our stockholders of \$52.3 million including a special cash dividend of \$12.8 million related to the Merger with the GoTo Business, the payment of \$34.5 million for payroll withholding taxes related to vesting of restricted stock units, the repayment of \$30.0 million of borrowings under our credit facility and the payment of \$2.0 million in deferred financing costs associated with the credit facility. These payments were partially offset by \$6.5 million in proceeds received from the issuance of common stock upon exercise of stock options.

We have available a multi-currency credit facility with a syndicate of banks, financial institutions and other lending entities that provides for a secured revolving line of credit of up to \$400 million, which may be increased by an additional \$200 million subject to further commitment from the lenders. The credit facility matures on February 1, 2022 and includes certain financial covenants with which we must comply. We expect to use the credit facility for general corporate purposes, including the potential acquisition of complementary products or businesses, share repurchases, as well as for working capital (see Note 14 to the Consolidated Financial Statements for additional details). As of December 31, 2017, we had no outstanding borrowings under the credit facility. On February 8, 2017, we announced our plan to acquire all of the outstanding equity of Jive Communications, Inc., or Jive, for approximately \$342.0 million, which we expect to fund through a combination of cash and debt (see Note 15 to the Consolidated Financial Statements for more details).

Future Expectations

We believe that our current cash and cash equivalents, together with cash generated from operations and our credit facility, will be sufficient to meet our ongoing operations working capital and capital expenditure requirements, as well as our acquisition-related fees and expenses.

We have been purchasing treasury stock since 2013 pursuant to share repurchase programs approved by our Board of Directors. As of December 31, 2017, we had \$591.3 million remaining under the current \$700 million capital return program, under which \$69.2 million have been share repurchases and \$39.5 million have been cash dividend payments to our shareholders. We have continued to repurchase shares in 2018 and on February 1, 2018, our Board of Directors declared a \$0.30 per share cash dividend to be paid on February 28, 2018 to stockholders of record as of February 12, 2018, totaling approximately \$16 million. Our Board of Directors will continue to review this capital return plan for potential modifications based on our financial performance, business outlook and other considerations. Our ability to repurchase our shares and/or pay cash dividends to our stockholders is subject to our having sufficient cash available and our maintaining compliance with our credit facility covenants as well as any potential tax restrictions which may be imposed on us related to the Merger.

We may elect to raise additional capital through the sale of additional equity or debt securities or expand our credit facility to develop or enhance our services, to fund expansion, to respond to competitive pressures or to acquire complementary products, businesses or technologies. If we elect to do so, additional financing may not be available in amounts or on terms that are favorable to us, if at all.

During the last three years, inflation and changing prices have not had a material effect on our business and we do not expect that inflation or changing prices will materially affect our business in the foreseeable future.

Non-GAAP Financial Measures

Regulation S-K Item 10(e), “Use of Non-GAAP Financial Measures in Commission Filings,” defines and prescribes the condition for use of non-GAAP financial information. We have presented the following non-GAAP measures in accordance with this standard. We believe that these non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to our financial condition and results of operations. Management uses these non-GAAP measures to compare our performance to that of prior periods and uses these measures in financial reports prepared for management and our Board of Directors. We believe that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing our financial measures with other software-as-a-service companies, many of which present similar non-GAAP financial measures to investors.

In addition to our consolidated financial statements prepared in accordance with GAAP, to date, we have considered the following non-GAAP financial measures to be key indicators of our financial performance:

- “Non-GAAP revenue,” which we define as GAAP revenue adding back the impact of the fair value acquisition accounting adjustment on acquired deferred revenue;
- “Non-GAAP operating income,” which we define as GAAP net income (loss) from operations adding back the impact of the fair value acquisition accounting adjustment on acquired deferred revenue, acquisition-related costs and amortization, litigation-related expense and stock-based compensation expense, as well as including amortization expense for acquired company internally capitalized software development costs adjusted in acquisition accounting;
- “EBITDA,” which we define as GAAP net income (loss) excluding interest and other expense, net, income taxes and depreciation and amortization expenses;
- “Adjusted EBITDA,” which we define as GAAP net income (loss) excluding interest and other expense, net, income taxes, depreciation and amortization expenses, and adding back the impact of the fair value acquisition accounting adjustment on acquired deferred revenue, acquisition-related costs, litigation-related expense and stock-based compensation expense;
- “Non-GAAP provision for (benefit from) income taxes,” which we define as GAAP provision for (benefit from) income taxes excluding the tax impact from the fair value adjustment on acquired deferred revenue, acquisition-related costs and amortization, litigation-related expense, stock-based compensation expense, the tax impact related to the enactment of the U.S. Tax Cut and Jobs Act of 2017, and discrete integration-related tax items, and including the tax impact of amortization expense for acquired company internally capitalized software development costs adjusted in acquisition accounting;
- “Non-GAAP net income,” which we define as GAAP net income (loss) excluding the adjustments noted in non-GAAP operating income and non-GAAP provision for incomes taxes above; and
- “Non-GAAP net income per diluted share,” which we define as non-GAAP net income divided by fully-diluted weighted average shares outstanding.

The revenue and expense items described below have been excluded from our GAAP results to arrive at our non-GAAP measures, as outlined above:

- *Fair value adjustment on acquired deferred revenue* is an acquisition accounting adjustment recorded to reduce acquired deferred revenue to the fair value of the remaining obligation.
- *Acquisition-related costs* relate to costs associated with the acquisitions of intellectual property and businesses and include transaction, transition and integration-related fees and expenses (including legal, accounting and other professional fees, severance, retention bonuses) and subsequent adjustments to our initial estimated amount of contingent consideration associated with acquisitions.
- *Amortization of acquired intangibles* relates to the amortization of acquired intangible assets.
- *Stock-based compensation expense* relates to stock-based compensation awards granted to our executive officers, employees and outside directors.
- *Litigation-related expense* relates to costs associated with the defense and settlement of claims brought against us including intellectual property infringement claims and other material litigation.

Table of Contents

- *Acquisition accounting on internally capitalized software development* relates to the amortization of acquired company internally developed capitalized software development costs that were adjusted in acquisition accounting with the recording of a completed technology intangible asset.
- *Depreciation and amortization expense* relates to costs associated with the depreciation and amortization of fixed and intangible assets.
- *Interest and other income (expense), net* relates to the interest earned (incurred) on outstanding cash balances and marketable securities, interest expense primarily related to our credit facility, as well as realized and unrealized foreign currency gains and losses resulting from multi-currency settlements occurring during the period and period end translation adjustments.
- *Income tax provision (benefit)* relates to GAAP income tax provision (benefit) during the period.

We consider our non-GAAP financial measures and these certain financial and operating metrics important to understanding our historical results, improving our business, benchmarking our performance against peer companies, and identifying current and future trends impacting our business.

The exclusion of certain expenses in the calculation of non-GAAP financial measures should not be construed as an inference that these costs are unusual or infrequent. We anticipate excluding these expenses in future presentations of our non-GAAP financial measures.

We do not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant elements that are required to be recorded in our financial statements pursuant to GAAP. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management in determining these non-GAAP financial measures. In order to compensate for these limitations, management presents our non-GAAP financial measures in connection with our GAAP results. We urge investors to review the reconciliation of our non-GAAP financial measures to the comparable GAAP financial measures, which we have included in this Form 10-K and in our press releases announcing our quarterly financial results, and not to rely on any single financial measure to evaluate our business.

Reconciliation tables of the most comparable GAAP financial measures to the non-GAAP measures are presented as follows (in thousands, except per share data):

	Years Ended December 31,

(1) The non-GAAP provision for income taxes and income tax effect of non-GAAP items excludes a net tax benefit of \$85.6 million recorded in the fourth quarter of 2017 related to the U.S. Tax Act.

Off-Balance Sheet Arrangements

We do not engage in any off-balance sheet financing activities, nor do we have any interest in entities referred to as variable interest entities.

Contractual Obligations

The following table summarizes our contractual obligations at December 31, 2017 and the effect such obligations are expected to have on our liquidity and cash flow in future periods.

	Payments Due by Period (in thousands) ⁽¹⁾				
	Total	Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Operating lease obligations	\$ 122,266	\$ 19,842	\$ 56,522	\$ 24,969	\$ 20,933
Contractual commitments, including hosting service agreements	45,980	30,539	15,441	—	—
Total	<u>\$ 168,246</u>	<u>\$ 50,381</u>	<u>\$ 71,963</u>	<u>\$ 24,969</u>	<u>\$ 20,933</u>

(1) Excluded from the table above is \$5.1 million related to uncertain tax positions as we are uncertain as to when a cash settlement for these liabilities will occur.

The commitments under our operating leases shown above consist primarily of lease payments for our corporate headquarters located in Boston, Massachusetts, our other United States locations, our international locations in Hungary, Germany, India, Australia, the United Kingdom, Ireland and Israel, as well as our contractual obligations related to our data centers (see Note 11 to the Consolidated Financial Statements).

Our purchase orders represent authorizations to purchase rather than binding agreements and therefore are not included in the table above. The contractual commitment amounts in the table above are associated with agreements that are enforceable and legally binding. Obligations under contracts that we can cancel without significant penalty are not included in the table above.

As of December 31, 2017, we had letters of credit and bank guarantees of \$8.9 million (of which \$1.8 million is collateralized and is classified as restricted cash), primarily related to our corporate headquarters in Boston, Massachusetts.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK.

Foreign Currency Exchange Risk. Our results of operations and cash flows are subject to fluctuations due to changes in foreign currency exchange rates as our non-U.S. sales are recorded by our subsidiaries located in Ireland, the United Kingdom, Australia and Brazil and as we incur significant operating expenses in our foreign

[Table of Contents](#)

subsidiaries including our Hungary, Germany and India research and development facilities and our sales and marketing operations in Ireland, Germany, the United Kingdom, Australia and India. For the years ended December 31, 2015, 2016 and 2017, approximately 30%, 29% and 24%, respectively, of our revenues were generated by customers outside of the United States and approximately 23%, 20% and 21%, respectively, of our operating expenses occurred in our international operations.

Currently, our largest exposure to foreign currency exchange rate risk relates to the Euro, British Pound, Hungarian Forint and the Israeli Shekel. To date, changes in foreign currency exchange rates have not had a material impact on our operations, and we estimate that a change of 10% or less in foreign currency exchange rates would not materially affect our operations.

As of December 31, 2017, we had outstanding forward contracts with notional amounts equivalent to the following (in thousands):

<u>Currency Hedged</u>	<u>December 31,</u> <u>2017</u>
Euro / Canadian Dollar	\$ 556
Euro / U.S. Dollar	4,208
Euro / British Pound	5,926
Israeli Shekel / Hungarian Forint	8,008
Total	<u>\$ 18,698</u>

We had net foreign currency gains of \$1.4 million for the year ended December 31, 2015 and net foreign currency losses of \$0.5 million and \$0.1 million for the years ended December 31, 2016 and 2017, respectively, included in other expense in the consolidated statements of operations.

At December 31, 2017, cash and cash equivalents totaled \$252.4 million, of which \$135.1 million was held in the United States and \$117.3 million was held by our international subsidiaries. Our invested cash is subject to interest rate fluctuations and, for non-U.S. operations, foreign currency risk. Our consolidated cash balances were impacted unfavorably by \$5.2 million and \$2.7 million in 2015 and 2016, respectively, and favorably by \$8.1 million in 2017 due to changes in foreign currencies relative to the U.S. dollar, particularly the Euro.

Interest Rate Sensitivity. Interest income is sensitive to changes in the general level of U.S. interest rates. However, based on the nature and current level of our cash and cash equivalents, which primarily consist of cash, money market instruments and corporate debt securities with maturities of three months or less, we believe there is no material risk of exposure to changes in the fair value of our cash and cash equivalents and marketable securities as a result of changes in interest rates.

Interest expense on borrowings under our credit facility is sensitive to changes in interest rates. Loans under the credit facility bear interest at variable rates which reset every 30 to 180 days depending on the rate and period selected. As of December 31, 2017, we did not have any borrowings outstanding under our variable-rate credit facility.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors of
LogMeIn, Inc.
Boston, Massachusetts

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of LogMeIn, Inc. and subsidiaries (the “Company”) as of December 31, 2016 and 2017, and the related consolidated statements of operations, comprehensive income, equity, and cash flows for each of the three years in the period ended December 31, 2017, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2016, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2017, in conformity with generally accepted accounting principles in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2017, based on the criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 20, 2018 expressed an unqualified opinion on the Company’s internal control over financial reporting.

Adoption of ASU No. 2016-09

As discussed in Note 8 to the consolidated financial statements, the Company has changed its method of accounting for the excess tax benefit from stock based awards prospectively beginning January 1, 2017 in accordance with the adoption of Accounting Standards Update 2016-09, *Compensation — Stock Compensation: Improvements to Employee Share-Based Payment Accounting*.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Deloitte & Touche LLP

Boston, Massachusetts
February 20, 2018

We have served as the Company’s auditor since 2004.

LogMeIn, Inc.
Notes to Consolidated Financial Statements

1. Nature of the Business

LogMeIn, Inc., which we refer to herein as LogMeIn or the Company, provides a portfolio of cloud-based communication and collaboration, identity and access, and customer engagement and support solutions designed to simplify how people connect with each other and the world around them to drive meaningful interactions, deepen relationships, and create better outcomes for individuals and businesses. The Company is headquartered in Boston, Massachusetts with wholly-owned subsidiaries in North America, South America, Europe, Asia and Australia.

On January 31, 2017, the Company completed a merger with a wholly-owned subsidiary of Citrix Systems, Inc., or Citrix, pursuant to which the Company combined with Citrix's GoTo family of service offerings known as the "GoTo Business" in a Reverse Morris Trust transaction which we refer to herein as the "Merger." For additional information regarding the Merger, see Note 4 below.

2. Summary of Significant Accounting Policies

Principles of Consolidation — The accompanying consolidated financial statements include the results of operations of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company has prepared the accompanying consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates — The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. By their nature, estimates are subject to an inherent degree of uncertainty. Actual results could differ from those estimates.

Cash Equivalents — Cash equivalents consist of highly liquid investments with an original or remaining maturity of less than three months at the date of purchase. Cash equivalents consist of investments in money market funds which primarily invest in U.S. Treasury obligations. Cash equivalents are stated at cost, which approximates fair value.

Marketable Securities — The Company's marketable securities are classified as available-for-sale and are carried at fair value with the unrealized gains and losses, net of tax, reported as a component of accumulated other comprehensive loss in equity. Realized gains and losses and declines in value judged to be other than temporary are included as a component of earnings based on the specific identification method. Fair value is determined based on quoted market prices. At December 31, 2016, marketable securities consisted of U.S. government agency securities and corporate bonds with remaining maturities within two years and had an aggregate amortized cost of \$55.7 million. The securities had an aggregate fair value of \$55.7 million, including \$17,000 of unrealized gains and \$43,000 of unrealized losses, at December 31, 2016. The Company did not have any marketable securities as of December 31, 2017.

Restricted Cash — In April 2012, the Company entered into a lease for its corporate headquarters located in Boston, Massachusetts. The lease required a security deposit of \$3.3 million in the form of an irrevocable standby letter of credit which was collateralized by a bank deposit in the amount of \$3.5 million or 105 percent of the security deposit in accordance with the lease, which was classified as restricted cash. In 2015 and 2017, \$1.5 million and \$2.0 million, respectively, of the security deposit was returned to the Company due to a planned decrease in the security deposit obligation. In addition, the Company has made security deposits for various other leased facilities, which are also classified as restricted cash. As of December 31, 2016 and 2017, restricted cash totaled \$2.5 million and \$1.8 million, respectively.

Accounts Receivable — The Company reviews accounts receivable on a periodic basis to determine if any receivables will potentially be uncollectible. Estimates are used to determine the amount of the allowance for

[Table of Contents](#)

doubtful accounts necessary to reduce accounts receivable to its estimated net realizable value. The estimates are based on an analysis of past due receivables, historical bad debt trends, current economic conditions, and customer specific information. After the Company has exhausted all collection efforts, the outstanding receivable balance relating to services provided is written off against the allowance and the balance related to services not yet delivered is charged as an offset to deferred revenue. Additions to the provision for bad debt are charged to expense.

Activity in the provision for bad debt accounts was as follows for the years ended December 31, 2015, 2016 and 2017, respectively (in thousands):

	December 31,		
	2015	2016	2017
Balance beginning of period	\$ 301	\$ 274	\$ 245
Provision for bad debt	61	37	614
Uncollectible accounts written off	(88)	(66)	(228)
Balance end of period	<u>\$ 274</u>	<u>\$ 245</u>	<u>\$ 631</u>

As of December 31, 2017, the Company also had a \$1.4 million sales returns allowance. Additions to the provision for sales returns are charged against revenues. For the year ended December 31, 2017, the provision for sales returns was \$4.1 million and write-offs were \$2.7 million.

Property and Equipment — Property and equipment are recorded at cost and depreciated using the straight-line method over the estimated useful lives of the related assets. Upon retirement or sale, the cost of the assets disposed of and the related accumulated depreciation are eliminated from the accounts, and any resulting gain or loss is reflected in the consolidated statements of operations. Expenditures for maintenance and repairs are charged to expense as incurred.

Estimated useful lives of assets are as follows:

Buildings	30 years
Site and building improvements	5 — 10 years
Computer equipment	2 years
Software	2 — 5 years
Office equipment	3 years
Furniture and fixtures	5 years
Leasehold improvements	Shorter of lease term or estimated useful life

Goodwill — Goodwill is the excess of the acquisition price over the fair value of the tangible and identifiable intangible net assets acquired. The Company does not amortize goodwill, but performs an impairment test of goodwill annually or whenever events and circumstances indicate that the carrying amount of goodwill may exceed its fair value. The Company operates as a single operating segment with one reporting unit and consequently evaluates goodwill for impairment based on an evaluation of the fair value of the Company as a whole. As of November 30, 2017, our measurement date, the fair value of the Company as a whole exceeded the carrying amount of the Company. Through December 31, 2017, no impairments have occurred.

Long-Lived Assets and Intangible Assets — The Company records intangible assets at their respective estimated fair values at the date of acquisition. Intangible assets are being amortized based upon the pattern in which their economic benefit will be realized, or if this pattern cannot be reliably determined, using the straight-line method over their estimated useful lives, which range up to eleven years.

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets, including intangible assets, may not be recoverable. When such events occur, the Company compares the carrying amounts of the assets to their undiscounted expected future cash

[Table of Contents](#)

flows. If this comparison indicates that there is impairment, the amount of the impairment is calculated as the difference between the carrying value and fair value. Through December 31, 2017, the Company recorded no material impairments.

Revenue Recognition — The following revenue recognition accounting policy is based on the accounting principles that were used to prepare these 2017 consolidated financial statements. On January 1, 2018, the Company adopted Accounting Standard Update 2014-09, *Revenue from Contracts with Customers*, as amended (“ASC 606”). ASC 606 replaces existing revenue recognition rules with a comprehensive revenue measurement and recognition standard and expanded disclosure requirements. See *Recently Issued Accounting Pronouncements* below for additional information.

The Company derives revenue primarily from subscription fees related to its premium subscription software services, usage fees from its audio services and to a lesser extent, the delivery of professional services, primarily related to its customer engagement and support business. Revenues are reported net of applicable sales and use tax, value-added tax and other transaction taxes imposed on the related transaction.

Revenue from the Company’s premium services is recognized on a daily basis over the subscription term as the services are delivered, provided that there is persuasive evidence of an arrangement, the fee is fixed or determinable and collectability is deemed reasonably assured. Subscription periods range from monthly to ten years. The Company’s software cannot be run on another entity’s hardware and customers do not have the right to take possession of the software and use it on their own or another entity’s hardware. Revenue from the Company’s audio services is recognized upon actual usage of audio minutes or the expiration of audio minutes purchased in prepaid plans. Any unbilled audio revenue is accrued for in the period the usage occurs.

The Company’s multi-element arrangements typically include subscription and professional services, which may include development services. The Company evaluates each element within the arrangement to determine if they can be accounted for as separate units of accounting. If the delivered item or items have value to the customer on a standalone basis, either because they are sold separately by any vendor or the customer could resell the delivered item or items on a standalone basis, the Company has determined that the deliverables within these arrangements qualify for treatment as separate units of accounting. Accordingly, the Company recognizes revenue for each delivered item or items as a separate earnings process commencing when all of the significant performance obligations have been performed and when all of the revenue recognition criteria have been met. Professional services revenue recognized as a separate earnings process under multi-element arrangements has been immaterial to date.

Deferred Revenue — Deferred revenue primarily consists of billings and payments received in advance of revenue recognition. The Company primarily bills and collects payments from customers for its services in advance on a monthly and annual basis. Deferred revenue to be recognized in the next twelve months is included in current deferred revenue, and the remaining amounts are included in long-term deferred revenue in the consolidated balance sheets.

Concentrations of Credit Risk and Significant Customers — The Company’s principal credit risk relates to its cash, cash equivalents, marketable securities, restricted cash and accounts receivable. Cash, cash equivalents and restricted cash are deposited primarily with financial institutions that management believes to be of high-credit quality and custody of its marketable securities is with an accredited financial institution. To manage accounts receivable credit risk, the Company regularly evaluates the creditworthiness of its customers and maintains allowances for potential credit losses. To date, losses resulting from uncollected receivables have not exceeded management’s expectations.

As of December 31, 2016 and 2017, no customers accounted for more than 10% of accounts receivable and there were no customers that represented 10% or more of revenue for the years ended December 31, 2015, 2016 or 2017.

Legal Costs — Legal expenditures are expensed as incurred. The Company had legal settlement expense of \$3.6 million for the year ended December 31, 2015 related to a trademark dispute.

Research and Development — Research and development expenditures are expensed as incurred.

[Table of Contents](#)

Software Development Costs — The Company capitalizes certain direct costs to develop functionality as well as certain upgrades and enhancements of its on-demand products that are probable to result in additional functionality. The costs incurred in the preliminary stages of development are expensed as incurred. Once an application has reached the development stage, internal and external costs, if direct and incremental, are capitalized as part of intangible assets until the software is substantially complete and ready for its intended use. Internally developed software costs that are capitalized are classified as intangible assets and amortized over a period of two to three years.

Foreign Currency Translation — The functional currency of operations outside the United States of America is deemed to be the currency of the local country, unless otherwise determined that the United States dollar would serve as a more appropriate functional currency given the economic operations of the entity. Accordingly, the assets and liabilities of the Company's foreign subsidiaries are translated into United States dollars using the period-end exchange rate, and income and expense items are translated using the average exchange rate during the period. Cumulative translation adjustments are reflected as a separate component of equity. Foreign currency transaction gains and losses are charged to operations.

Derivative Financial Instruments — The Company's earnings and cash flows are subject to fluctuations due to changes in foreign currency exchange rates. The Company uses foreign currency forward contracts to manage exposure to fluctuations in foreign exchange rates that arise from receivables and payables denominated in foreign currencies. The Company does not designate foreign currency forward contracts as hedges for accounting purposes, and changes in the fair value of these instruments are recognized immediately in earnings. Because the Company enters into forward contracts only as an economic hedge, any gain or loss on the underlying foreign-denominated balance would be offset by the loss or gain on the forward contract. Gains and losses on forward contracts and foreign denominated receivables and payables are included in foreign currency net gains and losses.

As of December 31, 2017, the Company had outstanding forward contracts with notional amounts equivalent to the following (in thousands):

<u>Currency Hedged</u>	<u>December 31, 2017</u>
Euro / Canadian Dollar	\$ 556
Euro / U.S. Dollar	4,208
Euro / British Pound	5,926
Israeli Shekel / Hungarian Forint	8,008
Total	<u>\$ 18,698</u>

The Company had a net foreign currency gain of \$1.4 million for the year ended December 31, 2015 and net foreign currency losses of \$0.5 million and \$0.1 million for the years ended December 31, 2016 and 2017, respectively, included in other expense in the consolidated statements of operations.

Stock-Based Compensation — The Company values all stock-based compensation, including grants of stock options and restricted stock units, at fair value on the date of grant and recognizes the expense over the requisite service period, which is generally the vesting period of the award, for those awards expected to vest, on a straight-line basis.

Income Taxes — Deferred income taxes are provided for the tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes and operating loss carry-forwards and credits using enacted tax rates expected to be in effect in the years in which the differences are expected to reverse. At each balance sheet date, the Company assesses the likelihood that deferred tax assets will be realized and recognizes a valuation allowance if it is more likely than not that some portion of the deferred tax assets will not be realized. This assessment requires judgment as to the likelihood and amounts of future taxable income by tax jurisdiction.

[Table of Contents](#)

The Company evaluates its uncertain tax positions based on a determination of whether and how much of a tax benefit taken by the Company in its tax filings is more likely than not to be realized. Potential interest and penalties associated with any uncertain tax positions are recorded as a component of income tax expense.

Advertising Costs — The Company expenses advertising costs as incurred. Advertising expense for the years ended December 31, 2015, 2016 and 2017 was approximately \$35.8 million, \$29.2 million and \$100.2 million, respectively, which consisted primarily of online paid searches, banner advertising and other online marketing and is included in sales and marketing expense in the accompanying consolidated statements of operations.

Segment Data — Operating segments are identified as components of an enterprise for which separate discrete financial information is available for evaluation by the chief operating decision-maker or decision making group when making decisions regarding resource allocation and assessing performance. The Company's chief operating decision maker is its Chief Executive Officer. The Company, whose management uses consolidated financial information in determining how to allocate resources and assess performance, has determined that it operates in one segment.

The Company's revenue by geography (based on customer address) is as follows (in thousands):

	Years Ended December 31,		
	2015	2016	2017
Revenues:			
United States	\$ 191,300	\$ 240,469	\$ 755,220
United Kingdom	21,662	25,738	51,328
International — all other	58,638	69,861	183,238
Total revenue	<u>\$ 271,600</u>	<u>\$ 336,068</u>	<u>\$ 989,786</u>

Amounts for the years ended December 31, 2015 and 2016 presented in the Company's revenue by product grouping table below include reclassifications between product groups to conform to the current year classification of the Company's products (in thousands):

	Years Ended December 31,		
	2015	2016	2017
Revenues:			
Communications and Collaboration	\$ 28,751	\$ 40,616	\$ 527,412
Identity and access	152,194	196,952	289,181
Customer engagement and support	90,655	98,500	173,193
Total revenue	<u>\$ 271,600</u>	<u>\$ 336,068</u>	<u>\$ 989,786</u>

The Company's long-lived assets by geography are as follows (in thousands):

	Years Ended December 31,	
	2016	2017
Long-lived assets:		
United States	\$ 16,872	\$ 78,342
Hungary	3,015	3,484
International — all other	3,980	10,328
Total long-lived assets	<u>\$ 23,867</u>	<u>\$ 92,154</u>

Net Income Per Share — Basic net income per share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted net income per share is computed by dividing

[Table of Contents](#)

net income by the sum of the weighted average number of common shares outstanding during the period and, if dilutive, the weighted average number of potential common shares outstanding from the assumed exercise of stock options and the vesting of restricted stock units.

The Company excluded the following options to purchase common shares and restricted stock units from the computation of diluted net income per share because they had an anti-dilutive impact (in thousands):

	Years Ended December 31,		
	2015	2016	2017
Options to purchase common shares	—	—	—
Restricted stock units	204	114	65
Total options and restricted stock units	204	114	65

Basic and diluted net income per share was calculated as follows (in thousands, except per share data):

	Years Ended December 31,		
	2015	2016	2017
Basic:			
Net income	\$14,558	\$ 2,638	\$99,523
Weighted average common shares outstanding, basic	24,826	25,305	50,433
Net income per share, basic	\$ 0.59	\$ 0.10	\$ 1.97
Diluted:			
Net income	\$14,558	\$ 2,638	\$99,523
Weighted average common shares outstanding	24,826	25,305	50,433
Add: Common stock equivalents	954	859	1,030
Weighted average common shares outstanding, diluted	25,780	26,164	51,463
Net income per share, diluted	\$ 0.56	\$ 0.10	\$ 1.93

Guarantees and Indemnification Obligations — As permitted under Delaware law, the Company has agreements whereby the Company indemnifies certain of its officers and directors for certain events or occurrences while the officer or director is, or was, serving at the Company's request in such capacity. The term of the indemnification period is for the officer's or director's lifetime. As permitted under Delaware law, the Company also has similar indemnification obligations under its certificate of incorporation and by-laws. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has director's and officer's insurance coverage that the Company believes limits its exposure and enables it to recover a portion of any future amounts paid.

In the ordinary course of business, the Company enters into agreements with certain customers that contractually obligate the Company to provide indemnifications of varying scope and terms with respect to certain matters including, but not limited to, losses arising out of the breach of such agreements, from the services provided by the Company or claims alleging that the Company's products infringe third-party patents, copyrights, or trademarks. The term of these indemnification obligations is generally perpetual. The maximum potential amount of future payments the Company could be required to make under these indemnification obligations is, in many cases, unlimited. Through December 31, 2017, the Company has not experienced any losses related to these indemnification obligations.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU 2014-09, *Revenue from Contracts with Customers*, and has since issued several additional amendments thereto (collectively referred to herein

[Table of Contents](#)

as “ASC 606”) which will become effective for the Company on January 1, 2018. ASC 606 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The new standards require entities to apportion consideration from contracts to performance obligations on a relative standalone selling price basis, based on a five-step model. Under ASC 606, revenue is recognized when a customer obtains control of a promised good or service and is recognized in an amount that reflects the consideration that the entity expects to receive in exchange for the good or service. In addition, ASC 606 provides guidance on accounting for certain revenue related costs including costs associated with obtaining and fulfilling a contract.

The Company will adopt ASC 606 using the modified retrospective transition method which will result in an adjustment to retained earnings for the cumulative effect of applying the standard to all contracts not completed as of the adoption date. As this adoption method does not result in a recast of the prior year financial statements, ASC 606 requires the Company to provide additional disclosures during the year of adoption of the amount by which each financial statement line item is affected by adoption of the new standard and explanation of the reasons for significant changes.

The Company is currently evaluating the impact of the adoption of ASC 606 to its consolidated financial statements, accounting policies, IT systems and processes. The Company has allocated internal and external resources to assist in its implementation and evaluation of the impact of ASC 606 and has made enhancements to its financial information systems to assist in financial reporting under ASC 606. The Company expects the revenue recognition of its primary revenue streams to remain substantially unchanged and therefore, does not expect a material impact on its revenues upon adoption of ASC 606. The adoption of ASC 606 will have an impact on the Company’s consolidated financial statements with respect to its accounting for sales commissions related to customer arrangements. In making this determination the Company has also considered the impact of the guidance in ASC 340-40, *Other Assets and Deferred Costs; Contracts with Customers*, under ASU 2014-09 (“ASC 340-40”). Under the Company’s current accounting policy, it recognizes the expense of incremental costs of obtaining a contract, such as sales commission costs, when they are incurred rather than capitalizing the costs. Under ASC 340-40, the Company is required to capitalize and amortize incremental costs of obtaining a contract and certain sales commissions may require amortization over a period longer than the term of the associated customer contract. The Company estimates that the impact to the consolidated balance sheet upon adoption will be approximately \$25 million to \$30 million and that these capitalized costs will be amortized over a period of three to four years. The Company is continuing to evaluate the impact of the adoption of ASC 606 on these consolidated financial statements, including the tax effects related to the commission adjustments discussed above and the increased disclosure requirements. The Company’s preliminary assessments are subject to change.

On February 25, 2016, the FASB issued ASU 2016-02, *Leases* (“ASU 2016-02”), which will require lessees to recognize most leases on their balance sheet as a right-of-use asset and a lease liability. Leases will be classified as either operating or finance, and classification will be based on criteria similar to current lease accounting, but without explicit bright lines. The guidance is effective for annual reporting periods beginning after December 15, 2018 and interim periods within those fiscal years, and early adoption is permitted. Although the Company is currently assessing the impact of adoption of ASU 2016-02 on its consolidated financial statements, the Company currently believes the most significant changes will be related to the recognition of new right-of-use assets and lease liabilities on the Company’s balance sheet for operating leases. For additional information regarding the Company’s lease obligations, see Note 11 to Consolidated Financial Statements.

On January 26, 2017, the FASB issued ASU 2017-04, *Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* (“ASU 2017-04”), which simplifies the accounting for goodwill impairments by eliminating step two from the goodwill impairment test. Instead, if the carrying amount of a reporting unit exceeds its fair value, an impairment loss shall be recognized in an amount equal to that excess, limited to the total amount of goodwill allocated to that reporting unit. ASU 2017-04 also clarifies the requirements for excluding and allocating foreign currency translation adjustments to reporting units related to an entity’s testing of reporting units for goodwill impairment, clarifies that an entity should consider income tax effects from any tax deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment loss, if applicable. The guidance is effective for annual reporting periods beginning after January 1, 2020 and interim

[Table of Contents](#)

periods within those fiscal years. The Company is currently assessing the potential impact of the adoption of ASU 2017-04 on its consolidated financial statements. On November 17, 2016, the FASB issued ASU No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB's EITF)* ("ASU 2016-18"). ASU 2016-18 requires that the statement of cash flows explain the change during the period in the total of cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. Entities will also be required to reconcile such total to amounts on the balance sheet and disclose the nature of the restrictions. The guidance is effective for annual reporting periods beginning after December 15, 2017 and interim periods within those fiscal years. The Company will implement the ASU 2016-18 statement of cash flows presentation and disclosure requirements in the first quarter of 2018.

3. Fair Value of Financial Instruments

The carrying value of the Company's financial instruments, including cash equivalents, restricted cash, accounts receivable and accounts payable, approximate their fair values due to their short maturities. The Company's financial assets and liabilities are measured using inputs from the three levels of the fair value hierarchy. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The three levels are as follows:

- Level 1: Unadjusted quoted prices for identical assets or liabilities in active markets accessible by the Company at the measurement date.
- Level 2: Inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table summarizes the basis used to measure certain of the Company's financial assets and liabilities that are carried at fair value (in thousands):

	Fair Value Measurements at December 31, 2016			
	Level 1	Level 2	Level 3	Total
Cash equivalents — money market funds	\$ 11,599	\$ —	\$ —	\$ 11,599
Short-term marketable securities:				
U.S. government agency securities	34,961	8,001	—	42,962
Corporate bond securities	—	12,748	—	12,748
	Fair Value Measurements at December 31, 2017			
	Level 1	Level 2	Level 3	Total
Cash equivalents — money market funds	\$ 148,120	\$ 10,000	\$ —	\$ 158,120
Forward contracts	—	18,669	—	18,669

Bank deposits, corporate bonds, certain U.S. government agency securities and forward contracts are classified within the second level of the fair value hierarchy as the fair value of those assets are determined based upon quoted prices for similar assets.

4. Acquisitions

In 2017, the Company completed its Merger with Citrix Systems, Inc.'s wholly-owned subsidiary on January 31, 2017 and the acquisition of Nanorep Technologies Ltd, or Nanorep, on July 31, 2017; in 2016, the Company completed the acquisition of AuthAir, Inc., or AuthAir, on October 31, 2016; and in 2015, the Company com-

[Table of Contents](#)

pleted the acquisition of Marvasol, Inc., d/b/a “LastPass,” or LastPass, on October 15, 2015. The results of operations of these acquired businesses have been included in the Company’s consolidated financial statements beginning on their respective acquisition dates.

These acquisitions have been accounted for as business combinations. Assets acquired and liabilities assumed have been recorded at their estimated fair values as of the respective acquisition date. The fair values of intangible assets were based on valuations using an income approach, with estimates and assumptions provided by management of the acquired companies and the Company. The excess of the purchase price over the tangible assets, identifiable intangible assets and assumed liabilities was recorded as goodwill.

In the years ended December 31, 2015, 2016 and 2017, acquisition-related costs were \$6.4 million, \$25.1 million and \$59.8 million, respectively, including \$5.6 million, \$8.2 million and \$16.6 million, respectively, of contingent retention-based bonus expense related to the Company’s acquisitions, which are typically earned over the first two years following the acquisition. Included in the years ended December 31, 2016 and 2017 is \$16.2 million and \$46.0 million, respectively, of acquisition-related costs associated with the Merger.

2017 Acquisitions

Nanorep Technologies Ltd.

On July 31, 2017, the Company, through its wholly-owned Hungarian subsidiary, acquired all of the outstanding equity interests in Nanorep, an Israeli provider of artificial intelligence, chatbot and virtual assistant services, for \$43.2 million, net of cash acquired. Additionally, the Company expects to pay up to \$5 million in cash in the future to certain employees of Nanorep contingent upon their continued service over the two-year period following the closing of the acquisition and, in some cases, the achievement of specified performance conditions. At the time of the acquisition, Nanorep had approximately 55 employees and annualized revenue of approximately \$5 million. The operating results of Nanorep, which have been included in the Company’s results since the date of the acquisition are not material. Accordingly, pro forma financial information for the business combination has not been presented.

The acquisition is being accounted for under the acquisition method of accounting. The acquisition method of accounting requires, among other things, that assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. The determination of the fair value of assets acquired and liabilities assumed has been recognized based on management’s estimates and assumptions using the information about facts and circumstances that existed at the acquisition date. The Company finalized the allocation of purchase price in the fourth quarter of 2017 and recorded a \$0.1 million purchase price adjustment received in the fourth quarter of 2017 for the final agreed net working capital adjustment.

[Table of Contents](#)

The following table summarizes the Company's purchase price allocation (in thousands):

Cash	\$ 923
Accounts receivable	1,108
Property and equipment	78
Restricted cash	129
Prepaid expenses and other current assets	334
Intangible assets:	
Completed technology	9,200
Customer relationships	10,500
Trade name	500
Deferred revenue	(854)
Accounts payable and accrued liabilities	(2,704)
Deferred tax liabilities, net	(1,977)
Goodwill	26,933
Total purchase consideration	44,170
Less: cash acquired	923
Total purchase consideration, net of cash acquired	<u>\$43,247</u>

The useful lives of the identifiable intangible assets acquired range from 8 to 10 years with a weighted average useful life of 9.1 years. The goodwill recorded in connection with this transaction is primarily related to the expected synergies to be achieved as a result of the Company's ability to leverage its customer base, sales force and business plan with Nanorep's product, technical expertise and customer base. All goodwill and intangible assets acquired are not deductible for income tax purposes.

The Company recorded a long-term deferred tax asset of \$2.9 million primarily related to net operating losses that were acquired as a part of the acquisition and a long-term deferred tax liability of \$4.8 million primarily related to the amortization of intangible assets which cannot be deducted for tax purposes, resulting in a net long-term deferred tax liability of \$2.0 million.

GoTo Business

On January 31, 2017, the Company completed its Merger with a wholly-owned subsidiary of Citrix, pursuant to which the Company acquired Citrix's GoTo Business. In connection with the Merger, the Company issued 26.9 million shares of its common stock to Citrix stockholders and an additional 0.4 million of the Company's restricted stock units in substitution for certain outstanding Citrix restricted stock units held by the GoTo Business employees. Based on the Company's closing stock price of \$108.10 on January 31, 2017 as reported by the NASDAQ Global Select Market, the total value of the shares of LogMeIn common stock issued to Citrix stockholders in connection with the Merger was \$2.9 billion. In October 2017, pursuant to the terms of the merger agreement, the Company paid \$3.3 million of additional purchase price for final adjustments related to defined targets for cash and cash equivalents and non-cash working capital.

The Merger is being accounted for under the acquisition method of accounting with the operations of the GoTo Business included in the Company's operating results since the date of acquisition. During the year ended December 31, 2017, the Company recorded revenue of \$617.3 million, amortization of acquired intangibles of \$172.6 million and acquisition-related transaction, transition and integration costs of \$46.0 million directly attributable to the Merger within its consolidated financial statements. Since the Merger, the operating costs of the GoTo Business have been integrated with the operating costs of the Company and therefore, the Company has not provided operating income for the GoTo Business.

While the Company uses its best estimates and assumptions as part of the purchase price allocation process to value the assets acquired and liabilities assumed on the acquisition date, its estimates and assumptions are subject

[Table of Contents](#)

to refinement. Fair value estimates are based on a complex series of judgments about future events and uncertainties and rely heavily on estimates and assumptions. The judgments used to determine the estimated fair value assigned to each class of assets acquired and liabilities assumed, as well as asset lives, can materially impact the Company's results of operations. As a result, during the measurement period, which may be up to one year from the acquisition date, the Company recorded adjustments to the assets acquired and liabilities assumed with a corresponding offset to goodwill to reflect additional information received about facts and circumstances that existed at the date of acquisition. The Company recorded these adjustments to the assets acquired and liabilities assumed subsequent to the purchase price allocation period in the Company's operating results in the period in which the adjustments were determined. The size and breadth of the Merger, as well as the fact that the GoTo Business represented a carve out from Citrix into primarily newly formed legal entities in 2016, necessitated the use of this measurement period to adequately analyze and assess a number of the factors used in establishing the fair value of certain tangible and intangible assets acquired and liabilities assumed as of the acquisition date and the related tax impacts of any changes made. The purchase accounting assessment, which was finalized in the fourth quarter of 2017, resulted in a change in the valuation of assets acquired and liabilities assumed and a corresponding decrease in goodwill of \$43.2 million (2% of total goodwill initially recorded).

In the fourth quarter of 2017, the 2016 tax return filings for the GoTo Business were finalized by Citrix and the Company obtained access to the tax returns and supporting documentation. These tax returns and the supporting documentation allowed the Company to review tax elections made and to identify acquisition-date deferred income tax attributes. In most instances, these were the first tax returns prepared and filed for the respective GoTo Business entities. As a result, the Company decreased deferred tax liabilities, net, by \$46.2 million due primarily to the GoTo Business' pre-Merger acquisitions with tax attributes that are deductible for tax purposes post-Merger.

The following table summarizes the fair value (in thousands) of the assets acquired and liabilities assumed at the date of acquisition:

Purchase consideration:	
Company common shares issued	\$2,904,487 ⁽¹⁾
Restricted stock units issued	16,692 ⁽²⁾
Cash consideration paid	3,317 ⁽³⁾
Total purchase consideration	\$2,924,496
Estimated fair value of assets acquired and liabilities assumed:	
Cash	24,215
Accounts receivable	48,957 ⁽⁴⁾
Property and equipment	59,715
Prepaid expense and other current assets	21,824 ⁽⁴⁾
Other assets	4,448
Intangible assets (weighted average useful life): (5)	
Completed technology (9 years)	385,600 ⁽⁴⁾
Customer relationships (8 years)	756,700 ⁽⁴⁾
Tradenames and trademark (9 years)	65,100
Accounts payable	(11,030)
Accrued liabilities	(26,886)
Deferred revenue, current and noncurrent	(82,643)
Other long-term liabilities	(996)
Deferred tax liability, net	(379,871)
Goodwill	<u>\$2,059,363</u>

- (1) Represents the fair value of the 26.9 million new shares of the Company's common stock (plus cash in lieu of fractional shares) issued to Citrix stockholders, based on the fair value per share of the Company's

[Table of Contents](#)

common stock of \$108.10 per share, which was the closing price of the Company's common stock on the NASDAQ Global Select Market on January 31, 2017.

- (2) Represents the fair value of the 0.4 million restricted stock units issued by the Company in substitution for certain outstanding Citrix restricted stock units held by the GoTo Business employees, pursuant to the terms of the Merger. These Company restricted stock units were issued on the same terms and conditions as were applicable to the outstanding Citrix restricted stock units held by the GoTo Business employees immediately prior to the Merger date (including the same vesting and forfeiture provisions). The aggregate fair value of those awards (\$48.2 million) is based on the fair value per share of the Company's common stock of \$108.10 per share, which was the closing price of the Company's common stock on the NASDAQ Global Select Market on January 31, 2017. Of that amount, \$18.0 million was related to pre-combination employee services and, after adjusting for known and estimated forfeitures, \$16.7 million was allocated to purchase consideration and \$30.2 million was allocated to future employee services and will be expensed as stock-based compensation on a straight-line basis over the remaining service periods of those awards.
- (3) Represents \$3.3 million of additional purchase price paid by the Company to Citrix, pursuant to the terms of the merger agreement, for final adjustments related to defined targets for cash and cash equivalents and non-cash working capital, resulting in an increase of \$3.3 million to goodwill.
- (4) During the year ended December 31, 2017, the Company identified measurement period adjustments that impacted the estimated fair value of the assets and liabilities assumed as of the date of the acquisition. The table above, which summarizes the allocation of the purchase price for the entities acquired, has been updated to reflect these measurement period adjustments. The total measurement period adjustments resulted in a decrease in accounts receivable of \$1.1 million, an increase in prepaid expense and other current assets of \$0.1 million, an increase in intangible assets of \$1.3 million, a decrease in deferred tax liabilities of \$46.2 million and a decrease in goodwill of \$43.2 million.
- (5) The weighted average useful life of identifiable intangible assets acquired in the Merger is 8.4 years.

The completion of the Merger and the acquisition of the GoTo Business has resulted in a combined company with the scale, employees, products and customer base needed to lead large markets, support a more global customer base and compete against a variety of different solution providers of all sizes. Goodwill of \$2.1 billion was recognized for the excess purchase consideration over the estimated fair value of the assets acquired. Goodwill and intangible assets recorded as part of the acquisition are not deductible for tax purposes.

The Company recorded a deferred tax liability, net of deferred tax assets, of \$379.9 million, which was primarily related to the amortization of intangible assets which cannot be deducted for tax purposes and which was partially offset by deferred tax assets primarily related to the pre-combination services of the Company's restricted stock units issued in substitution for the outstanding Citrix restricted stock units pursuant to the Merger agreement.

The Company and Citrix entered into a transition services agreement, pursuant to which each party will provide to the other party certain services on a transitional basis following the completion of the Merger to facilitate the transition of the GoTo Business to the Company. Among other services, the transition services generally relate to information technology and security operations, facilities, human resources support and accounting and finance support. As of December 31, 2017, the Company has incurred \$5.2 million of costs related to the transition services agreement and the transition services are substantially complete.

The unaudited financial information in the table below summarizes the combined results of operations for the Company and the GoTo Business, on a pro forma basis, as though the Merger had been consummated as of the beginning of 2016, including amortization charges from acquired intangible assets, the effect of acquisition accounting on the fair value of acquired deferred revenue, the inclusion of expense related to retention-based bonuses assuming full achievement of the retention requirements, the reclassification of all acquisition-related costs incurred by the Company and the GoTo Business as of the beginning of 2016 through the first quarter of 2017 (the quarter the Merger was completed), and the related tax effects. The second, third and fourth quarters of 2017 reported results of the Company have not been adjusted. The pro forma financial information is presented for comparative purposes only and is not necessarily indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of 2016.

Unaudited Pro Forma Financial Information

(In millions, except per share data)	Years Ended December 31, (unaudited)	
	2016	2017
Pro forma revenue	\$983.6	\$1,060.7
Pro forma net income (loss)	\$ (95.4)	\$ 129.3
Pro forma income (loss) per share:		
Basic	\$ (1.83)	\$ 2.46
Diluted	\$ (1.83)	\$ 2.41
Pro forma weighted average shares outstanding		
Basic	52.2	52.7
Diluted	52.2	53.7

*2016 Acquisition**AuthAir, Inc.*

On October 31, 2016, the Company acquired all of the outstanding equity interests in AuthAir, a Woodbridge, Connecticut-based provider of proximity-based security and wireless authentication solutions, for \$6.0 million plus contingent retention-based bonuses totaling up to \$0.5 million to be paid to former AuthAir employees over a two-year period following the date of the acquisition. The results of operations of AuthAir have been included in the Company's consolidated financial results since the acquisition date and have not been material.

*2015 Acquisition**Marvasol, Inc., d/b/a "LastPass"*

On October 15, 2015, the Company acquired all of the outstanding equity interests in LastPass, a Fairfax, Virginia-based provider of an identity and password management service, for \$107.6 million, net of cash acquired, plus contingent payments totaling \$15.0 million which were paid over a two-year period following the date of acquisition. The stock purchase agreement also included non-retention based payments of \$2.5 million to LastPass stockholders which were contingent on the achievement of certain bookings goals, which the Company concluded was contingent consideration and was accounted for as part of the purchase price. This contingent consideration liability was recorded at its fair value of \$2.0 million at the acquisition date. The Company assessed the probability of the bookings goals being met and at what level each reporting period. The contingent consideration liability of \$2.5 million was paid in October 2016.

5. Goodwill and Intangible Assets

The changes in the carrying amounts of goodwill for the years ended December 31, 2016 and 2017 are due to the addition of goodwill resulting from the acquisition of AuthAir in 2016 and the Merger with the GoTo Business and the acquisition of Nanorep in 2017 (See Note 4 to the Consolidated Financial Statements).

Changes in goodwill for the years ended December 31, 2016 and 2017 are as follows (in thousands):

Balance, January 1, 2016	\$ 117,545
Goodwill related to the acquisition of AuthAir	4,215
Balance, December 31, 2016	121,760
Goodwill related to the Merger	2,059,363
Goodwill related to the acquisition of Nanorep	26,933
Foreign currency translation adjustments	669
Balance, December 31, 2017	<u>\$ 2,208,725</u>

[Table of Contents](#)

Intangible assets consist of the following (in thousands):

	December 31, 2016			December 31, 2017			Weighted Average Life Remaining (in years)
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	
Identifiable intangible assets:							
Trade names and trademarks	\$ 3,806	\$ 955	\$ 2,851	\$ 70,630	\$ 10,073	\$ 60,557	8.1
Customer relationships	29,249	9,315	19,934	810,779	135,715	675,064	7.1
Domain names	913	796	117	918	894	24	1.0
Technology	51,179	14,942	36,237	453,372	64,021	389,351	7.9
Other	442	359	83	442	429	13	0.3
Internally developed software	8,313	5,025	3,288	38,153	13,565	24,588	1.6
	<u>\$93,902</u>	<u>\$ 31,392</u>	<u>\$62,510</u>	<u>\$1,374,294</u>	<u>\$ 224,697</u>	<u>\$1,149,597</u>	

On January 31, 2017, the Company capitalized \$65.1 million for trade names and trademarks, \$756.7 million for customer relationships and \$385.6 million for technology as intangible assets in connection with the Merger. On July 31, 2017, the Company capitalized \$0.5 million for a trade name, \$10.5 million for customer relationships, and \$9.2 million for technology as intangible assets in connection with the acquisition of Nanorep. The carrying amount of intangible assets also changed due to foreign currency translation adjustments, as applicable. The Company also capitalized \$1.6 million and \$29.8 million during the years ended December 31, 2016 and 2017, respectively, of costs related to internally developed software to be sold as a service incurred during the application development stage and is amortizing these costs over the expected lives of the related services.

The Company is amortizing its intangible assets based upon the pattern in which their economic benefit will be realized, or if this pattern cannot be reliably determined, using the straight-line method over their estimated useful lives. Amortization relating to technology, documented know-how (other) and internally developed software is recorded within cost of revenues and the amortization of trade name and trademark, customer relationships, domain names and non-compete agreements (other) is recorded within operating expenses. Amortization expense for intangible assets consisted of the following (in thousands):

	Years Ended December 31,		
	2015	2016	2017
Cost of revenue:			
Amortization of internally developed software	\$1,196	\$ 1,778	\$ 8,540
Amortization of acquired intangibles ⁽¹⁾	2,955	4,604	48,676
Sub-Total amortization of intangibles in cost of revenue	4,151	6,382	57,216
Amortization of acquired intangibles ⁽¹⁾	1,916	5,457	134,342
Total amortization of intangibles	<u>\$6,067</u>	<u>\$11,839</u>	<u>\$191,558</u>

- (1) Total amortization of acquired intangibles was \$4.9 million, \$10.1 million and \$183.0 million for the years ended December 31, 2015, 2016, and 2017, respectively.

[Table of Contents](#)

Future estimated amortization expense for intangible assets at December 31, 2017 is as follows (in thousands):

<u>Amortization Expense (Years Ending December 31)</u>	<u>Amount</u>
2018	\$ 251,683
2019	232,515
2020	196,330
2021	160,884
2022	125,434
Thereafter	182,751
Total	\$ 1,149,597

6. Property and Equipment

Property and equipment consisted of the following (in thousands):

	<u>December 31,</u>	
	<u>2016</u>	<u>2017</u>
Land, buildings and site improvements	\$ —	\$ 34,050
Computer equipment and software	35,432	62,478
Office equipment	6,315	9,491
Furniture & fixtures	8,947	17,965
Construction in progress	1,443	34
Leasehold improvements	9,979	26,499
Total property and equipment	62,116	150,517
Less accumulated depreciation	(38,249)	(58,363)
Property and equipment, net	\$ 23,867	\$ 92,154

Depreciation expense for property and equipment was \$7.6 million, \$9.7 million and \$29.8 million for the years ended December 31, 2015, 2016 and 2017, respectively.

7. Accrued Liabilities

Accrued liabilities consisted of the following (in thousands):

	<u>December 31,</u>	
	<u>2016</u>	<u>2017</u>
Marketing programs	\$ 4,274	\$ 6,883
Payroll and payroll-related	11,886	30,204
Professional fees	1,429	5,353
Acquisition-related ⁽¹⁾	9,539	6,783
Other accrued liabilities	8,125	33,203
Total accrued liabilities	\$35,253	\$82,426

(1) Acquisition-related costs include transaction, transition and integration-related fees and expenses and contingent retention-based bonus costs.

8. Income Taxes

The domestic and foreign components of income (loss) before provision for (benefit from) income taxes are as follows (in thousands):

	Years Ended December 31,		
	2015	2016	2017
Domestic	\$ 1,059	\$(15,748)	\$(25,027)
Foreign	16,459	18,956	13,050
Total income (loss) before provision for (benefit from) income taxes	<u>\$17,518</u>	<u>\$ 3,208</u>	<u>\$(11,977)</u>

The provision for (benefit from) income taxes is as follows (in thousands):

	Years Ended December 31,		
	2015	2016	2017
Current:			
Federal	\$ 2,521	\$ 1,264	\$ 33,474
State	274	647	3,701

Total	<u>(1,062)</u>	<u>(3,304)</u>	<u>(155,243)</u>
Total provision for (benefit from) income taxes	<u>\$ 2,960</u>	<u>\$ 570</u>	<u>\$(111,500)</u>

A reconciliation of the Company's effective tax rate to the statutory federal income tax rate is as follows:

	Years Ended December 31,		
	2015	2016	2017
Statutory tax rate	35.0%	35.0%	(35.0)%
Change in valuation allowance	—	—	8.0
Impact of permanent differences	1.1	27.1	27.4
Non-deductible stock-based compensation	8.4	27.4	9.2
Non-deductible transaction related costs	—	82.1	19.5
Foreign tax rate differential	(26.7)	(165.3)	(71.3)
Research and development credits	(1.3)	(10.6)	(36.4)
State taxes, net of federal benefit	2.4	0.4	(21.1)
Impact of uncertain tax positions	1.4	18.6	29.3
Effect of U.S. Tax Act	—	—	(714.9)
Section 199 deduction	—	(0.1)	(20.0)
Excess benefit on stock compensation	—	—	(133.6)
Other	<u>(3.4)</u>	<u>3.2</u>	<u>7.9</u>
Effective tax rate	<u>16.9%</u>	<u>17.8%</u>	<u>(931.0)%</u>

The Company recorded a tax provision for income taxes of \$3.0 million, \$0.6 million and a benefit from income taxes of \$111.5 million on profit before income taxes of \$17.5 million, \$3.2 million and a loss before income

[Table of Contents](#)

taxes of \$12.0 million for the years ended December 31, 2015, 2016 and 2017, respectively. The Company's effective tax rates for the years ended December 31, 2015 and December 31, 2016 were lower than the U.S. federal statutory rate of 35% due to profits earned in certain foreign jurisdictions, primarily by the Company's Irish subsidiaries, which are subject to significantly lower tax rates than the U.S. federal statutory rate. The tax rate for 2017 was significantly higher than the U.S. federal statutory rate of 35% due to the impact of the Tax Cut and Jobs Act of 2017 (the "U.S. Tax Act") on the Company's net deferred tax liability position, recognition of stock-based awards' excess tax benefits, and partially offset by the U.S. Tax Act's one-time mandatory transition tax on accumulated foreign earnings and due to profits earned in certain foreign jurisdictions, primarily by our Irish subsidiaries, which are subject to significantly lower tax rates than the U.S. federal statutory rate.

As a result of the U.S. Tax Act, the Company calculated its best estimation of the impact of the U.S. Tax Act and recognized a one-time mandatory transition tax of \$14.8 million on cumulative foreign subsidiary earnings, remeasured the Company's U.S. deferred tax assets and liabilities, which resulted in a benefit from income taxes of \$105.1 million, and reassessed the net realizability of the Company's deferred tax assets and liabilities, which resulted in a tax provision of \$4.7 million. Further, on January 1, 2017, the Company adopted ASU 2016-09, *Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* ("ASU 2016-09"). Previously, excess tax benefits were recognized in additional paid-in capital on the consolidated balance sheet to the extent they reduced income taxes payable. Beginning in 2017, any excess tax benefits or shortfalls were recorded in the income tax provision upon vest or exercise. In 2017, the Company recorded a net benefit of \$16.0 million related to excess tax benefits.

Our effective tax rate in the future will depend upon the proportion of our income before provision for income taxes earned in the United States and in jurisdictions with a tax rate lower than the U.S. statutory rate, as well as several other factors, including excess tax benefits from share-based compensation, changes to the Company's provisional accounting for the effects of the U.S. Tax Act during the measurement period, and the impact of new legislation. On December 22, 2017, Staff Accounting Bulletin No. 118 ("SAB 118") was issued to address the application of generally accepted accounting principles in the United States, or GAAP, in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the U.S. Tax Act. The ultimate impact of the U.S. Tax Act may differ from this estimate, possibly materially, due to changes in interpretations and assumptions, and guidance that may be issued and actions the Company may take in response to the U.S. Tax Act. The U.S. Tax Act is highly complex and the Company will continue to assess the impact that various provisions will have on its business. Any subsequent adjustment to these amounts will be recorded to current tax expense in the quarter of 2018 when the analysis is complete.

[Table of Contents](#)

The Company has deferred tax assets related to temporary differences and operating loss carryforwards as follows (in thousands):

	<u>December 31,</u>	
	<u>2016</u>	<u>2017</u>
Deferred tax assets:		
Net operating loss carryforwards	\$ 3,190	\$ 8,117
Deferred revenue	1,161	709
Amortization	756	3,808
Stock-based compensation	10,903	9,165
Accrued bonus	4,409	717
Other	1,989	11,611
Total deferred tax assets	22,408	34,127
Deferred tax asset valuation allowance	(1,708)	(3,112)
Net deferred tax assets	20,700	31,015
Deferred tax liabilities:		
Depreciation	(1,314)	(3,247)
Goodwill amortization	(1,542)	(2,838)
Intangible assets not deductible	(19,814)	(241,517)
Other	(59)	(4,290)
Total deferred tax liabilities	(22,729)	(251,892)
Total	<u>\$ (2,029)</u>	<u>\$ (220,877)</u>

As a result of the U.S. Tax Act, the U.S. statutory tax rate was lowered from 35% to 21%, effective January 1, 2018. The Company is required to remeasure its U.S. deferred tax assets and liabilities to the new tax rate. The Company recorded \$105.1 million of income tax benefit for the remeasurement of the U.S. net deferred tax liabilities primarily associated with indefinite-lived intangible assets that will reverse at the new 21% rate.

Deferred tax assets, related valuation allowances, current tax liabilities, and deferred tax liabilities are determined separately by tax jurisdiction. In making these determinations, the Company estimates deferred tax assets, current tax liabilities, and deferred tax liabilities, and the Company assesses temporary differences resulting from differing treatment of items for tax and accounting purposes. As of December 31, 2017, the Company maintained a full valuation allowance against the deferred tax assets of its Hungarian subsidiary. This entity has historical tax losses and the Company concluded it was not more likely than not that these deferred tax assets are realizable. During the years ended December 31, 2015 and 2016, the valuation allowance decreased by \$0.4 million and \$0.2 million, respectively, as a result of a tax return provision adjustment, which decreased the Hungarian subsidiary's net operating loss carryforwards. During 2017, as a result of the Merger, the valuation allowance increased by \$1.4 million primarily due to the recording of a valuation allowance for California and Massachusetts state net operating losses.

For U.S. tax return purposes, net operating losses and tax credits are normally available to be carried forward to future years, subject to limitations as discussed below. As of December 31, 2017, the Company had federal and state net operating loss carryforwards of \$5.7 million and \$20.0 million, respectively, which expire on various dates from 2033 through 2036.

The Company has performed an analysis of its ownership changes as defined by Section 382 of the Internal Revenue Code and has determined that the net operating loss carryforwards acquired from its 2014 and 2015 acquisitions are subject to limitation. The Company also analyzed the historical LogMeIn net operating loss carryforwards due to the Merger. As of December 31, 2017, all net operating loss carryforwards (except for Massachusetts and California) generated by the Company, including those subject to limitation, are available for

[Table of Contents](#)

utilization. Subsequent ownership changes as defined by Section 382 could potentially limit the amount of net operating loss carryforwards that can be utilized annually to offset future taxable income.

As of December 31, 2017, the Company had foreign net operating loss carryforwards of \$35.9 million, of which \$18.7 million is related to the Company's Hungarian subsidiary, which are not subject to expiration, and the Company has recognized a full valuation allowance against these carryforwards. The remaining \$17.2 million of foreign net operating loss carryforwards are related to the Company's Israel subsidiary. The Company expects to fully realize these net operating loss carryforwards prior to expiration.

As of December 31, 2017, it is management's assertion that the earnings and profits of foreign entities may not be reinvested in the overseas businesses indefinitely however, the outside basis differences in the international subsidiaries will be permanently reinvested. As a result of the U.S. Tax Act, the Company recognized a one-time mandatory transition tax of \$14.8 million on cumulative foreign subsidiary earnings of \$56.6 million.

The Company files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, the Company and its subsidiaries are examined by various tax authorities, including the Internal Revenue Service in the United States. As of December 31, 2017, the Company remained subject to examination in the following major tax jurisdictions for the years indicated:

<u>Major Tax Jurisdictions</u>	<u>Open Tax Years</u>
United States (Federal)	2014-2017
United States (State)	2013-2017
Hungary	2011-2017
Ireland	2012-2017

The Company incurred expenses related to stock-based compensation for the years ended December 31, 2015, 2016 and 2017 of \$26.5 million, \$38.4 million and \$67.3 million, respectively. Accounting for the tax effects of stock-based awards requires the recording of a deferred tax asset as the compensation is recognized for financial reporting prior to recognizing the tax deductions. Upon the settlement of the stock-based awards (i.e., exercise, vesting, forfeiture or cancellation), the actual tax deduction is compared with the cumulative financial reporting compensation cost, and any excess tax deduction is considered an excess tax benefit. In 2015 and 2016, the excess tax benefit was tracked in a "windfall tax benefit pool" to offset any future tax deduction shortfalls and were recorded as increases to additional paid-in capital in the period when the tax deduction reduced income taxes payable. Historically, the Company has followed the with-and-without approach for the direct effects or excess tax deductions to determine the timing of the recognition of benefits for excess tax deductions. In 2015 and 2016, the Company recorded excess tax benefits to additional paid-in capital of \$6.9 million and \$2.3 million, respectively.

On January 1, 2017, the Company adopted ASU 2016-09, *Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* ("ASU 2016-09") and recorded, using the modified retrospective approach, a cumulative-effect adjustment to accumulated deficit of a credit of \$4.9 million to record \$6.8 million of previously unrecognized windfall tax benefits, partially offset by \$1.9 million for the accounting policy election to account for forfeitures in compensation cost when they occurred. The Company recorded \$2.7 million to additional paid-in capital for the differential between the amount of compensation cost previously recorded and the amount that would have been recorded without assuming forfeitures, partially offset by its tax effect of \$0.8 million recorded to deferred tax assets. Upon the adoption of ASU 2016-09, the Company, on a prospective basis, records the recognition of excess tax benefits and deficits in its provision from income taxes in the consolidated income statement and treats those amounts as discrete items in the period in which they occur. For the year ended December 31, 2017, the Company recorded a net tax benefit of \$16.0 million related to excess tax benefits.

[Table of Contents](#)

The Company has provided liabilities for uncertain tax positions in other long-term liabilities on the consolidated balance sheets as follows (in thousands):

	Years Ended December 31,		
	2015	2016	2017
Balance beginning of period	\$ 652	\$ 884	\$ 1,480
Tax positions related to prior periods:			
Increases	2	34	68
Decreases	(3)	—	(42)
Tax positions related to current period:			
Increases	428	588	3,661
Settlements	(195)	(26)	(78)
Statute expiration	—	—	(30)
Balance end of period	<u>\$ 884</u>	<u>\$ 1,480</u>	<u>\$ 5,059</u>

These uncertain tax positions would impact the Company's effective tax rate if recognized. The Company's policy is to record estimated interest and penalties related to the underpayment of income taxes or unrecognized tax benefits as a component of its income tax provision. The Company recognized \$3,000, \$42,000 and \$50,000 of interest expense during the years ended December 31, 2015, 2016 and 2017, respectively.

9. Common Stock and Equity

Authorized Shares — Pursuant to the Company's restated certificate of incorporation, the Company is authorized to issue 150 million shares of common stock and 5 million shares of undesignated preferred stock, each \$0.01 par value per share.

Common Stock Reserved — As of December 31, 2016 and 2017, the Company has reserved shares of common stock for the exercise of stock options and restricted stock units of 5.3 million and 8.8 million, respectively.

On February 23, 2017, the Company's Board of Directors approved a three-year capital return plan through a combination of repurchases and dividends. During the year ended December 31, 2017, the Company paid three cash dividends of \$0.25 per share in the second, third and fourth quarters. These cash dividends paid in 2017 under the capital return plan totaled \$39.5 million. The Company's Board of Directors will continue to review this capital return plan for potential modifications based on the Company's financial performance, business outlook and other considerations. The timing and number of shares to be repurchased pursuant to the capital return plan will depend upon prevailing market conditions and other factors. Additionally, the Company's credit facility contains certain financial and operating covenants that may restrict its ability to pay dividends in the future.

During the years ended December 31, 2015, 2016 and 2017, the Company repurchased 297,461, 443,159 and 626,154 shares of its common stock at an average price of \$60.81, \$57.27 and \$110.56 per share, respectively, for a total cost of \$18.1 million, \$25.4 million and \$69.2 million, respectively.

In connection with the Merger, the Company declared and paid three special cash dividends of \$0.50 per share of common stock. The first cash dividend was declared by the Company's Board of Directors on July 26, 2016 and paid on August 26, 2016 to stockholders of record as of August 8, 2016, and totaled \$12.7 million. The second cash dividend was declared by the Company's Board of Directors on October 27, 2016 and paid on November 22, 2016 to stockholders of record as of November 7, 2016, and totaled \$12.8 million. The third cash dividend was declared by the Company's Board of Directors on January 6, 2017 and paid on January 31, 2017 to stockholders of record as of January 16, 2017, and totaled \$12.8 million.

10. Stock Incentive Plan

The Company's 2009 Stock Incentive Plan ("2009 Plan") is administered by the Board of Directors and Compensation Committee, which have the authority to designate participants and determine the number and type of

[Table of Contents](#)

awards to be granted and any other terms or conditions of the awards. The Company awards restricted stock units as the principal equity incentive award. Restricted stock units with time-based vesting conditions generally vest over a three-year period while restricted stock units with market-based vesting conditions generally vest over two or three-year periods. Until 2012, the Company generally granted stock options as the principal equity incentive award. Options generally vest over a four-year period and expire ten years from the date of grant. Certain stock-based awards provide for accelerated vesting if the Company experiences a change in control.

Effective on January 31, 2017, the Company's stockholders approved an amendment and restatement of the Company's 2009 Stock Incentive Plan, which increased the number of shares of the Company's common stock that may be issued under the plan by an additional 4.5 million shares and extended the term of the plan to December 5, 2026. As of December 31, 2017, 7.2 million shares remained available for grant under the 2009 Plan.

The Company generally issues previously unissued shares of common stock for the exercise of stock options and restricted stock units. The Company received \$17.8 million, \$11.8 million and \$6.5 million in cash from stock option exercises during the years ended December 31, 2015, 2016 and 2017, respectively.

The following table summarizes stock option activity (shares and intrinsic value in thousands):

	<u>Number of Options</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contractual Term (Years)</u>	<u>Aggregate Intrinsic Value</u>
Outstanding, January 1, 2017	355	\$ 33.15	5.0	\$ 22,529
Granted	—	—		
Exercised	(181)	35.89		\$ 12,040
Forfeited	(2)	26.57		
Outstanding, December 31, 2017	<u>172</u>	<u>\$ 30.33</u>	<u>3.7</u>	<u>\$ 14,520</u>

The aggregate intrinsic value was calculated based on the positive differences between the fair value of the Company's common stock of \$67.10, \$96.55 and \$114.50 per share on December 31, 2015, 2016 and 2017, respectively, or at time of exercise, and the exercise price of the options.

During the year ended December 31, 2017, the Company granted the following restricted stock unit awards (in thousands):

<u>Type of Award</u>	<u>Number of shares Underlying Awards</u>
Time-based ⁽¹⁾	766
Performance-based ⁽²⁾	82
TSR-based ⁽³⁾	36
Total awards granted during the year ending December 31, 2017	<u>884</u>

(1) Time-based restricted stock units generally vest one-third every year for three years and are valued on the grant date using the grant date closing price of the underlying shares.

(2) Performance-based restricted stock units vest two years from the grant date based on the Company's attainment of a specified financial target for 2017 and 2018.

(3) TSR-based restricted stock units vest equally upon the achievement of a total shareholder return, or TSR, target as measured over the two to three year performance period versus the TSR realized for that same period by a specified stock index. The amount earned can range from 0% to 200% of the target shares awarded depending on the Company's level of achievement.

In the first quarter of 2017, the Company also issued 0.4 million restricted stock units in substitution for certain outstanding Citrix restricted stock units held by GoTo Business employees pursuant to the terms of the Merger.

[Table of Contents](#)

The Company recognizes stock compensation expense on a straight-line basis over the requisite service period of the restricted stock unit, which is generally three years. Compensation cost for TSR-based restricted stock units is recognized on a straight-line basis over the requisite service period and is recognized regardless of the actual number of awards that are earned based on the market condition.

The fair value of the TSR-based restricted stock units granted in 2016 and 2017 was determined using a Monte Carlo simulation model including assumptions used (but not limited to) a risk-free interest rate, an expected volatility and an expected dividend yield as follows:

	February 2016 Grant	May 2016 Grant	June 2017 Grant
Risk-free interest rate	0.89%	1.02%	1.43%
Volatility	40%	37%	36%
Dividend yield	—	—	0.88%

The following table summarizes restricted stock unit activity, including performance-based and market-based units (shares in thousands):

	Number of shares Underlying Restricted Stock Units	Weighted Average Grant Date Fair Value
Unvested as of January 1, 2017	1,445	\$ 62.23
Restricted stock units granted	884	108.71
Restricted stock units issued for Merger	446	108.10
Restricted stock units earned ⁽¹⁾	66	
Restricted stock units vested	(917)	72.23
Restricted stock units forfeited	(235)	82.84
Unvested as of December 31, 2017	1,689	\$ 90.91

- (1) In May 2017, a total of 65,500 target TSR-based restricted stock units, which were awarded in 2014 and 2015, vested at 200% of the target TSR-based restricted stock units granted (an additional 65,500 were earned and vested). These TSR-based restricted stock units were measured against the Russell 2000 Index for that same period.

The Company recognized stock-based compensation expense within the accompanying consolidated statements of operations as summarized in the following table (in thousands):

	Years Ended December 31,		
	2015	2016	2017
Cost of revenue	\$ 1,560	\$ 2,289	\$ 5,222
Research and development	5,188	6,201	22,103
Sales and marketing	11,090	16,181	16,155
General and administrative	8,661	13,679	23,812
Total stock-based compensation expense	<u>\$26,499</u>	<u>\$38,350</u>	<u>\$67,292</u>

As of December 31, 2017, there was approximately \$103.4 million of total unrecognized stock-based compensation cost related to unvested stock awards which are expected to be recognized over a weighted average period of 1.9 years.

11. Commitments and Contingencies

Operating Leases — The Company has operating lease agreements for offices in the United States, Hungary, Germany, Australia, the United Kingdom, Ireland, Israel and India that expire at various dates through 2028.

[Table of Contents](#)

Rent expense under all leases was \$8.2 million, \$11.8 million and \$21.5 million for the years ended December 31, 2015, 2016 and 2017, respectively. The Company records rent expense on a straight-line basis for leases with scheduled escalation clauses or free rent periods.

The Company also enters into hosting services agreements with third-party data centers and internet service providers. Hosting fees incurred under these arrangements aggregated \$6.9 million, \$10.0 million and \$34.4 million for the years ended December 31, 2015, 2016 and 2017, respectively.

Future minimum lease payments under non-cancelable operating leases including commitments associated with the Company's hosting services arrangements are approximately as follows at December 31, 2017 (in thousands):

<u>Years Ending December 31</u>	
2018	\$ 50,381
2019	29,104
2020	23,303
2021	19,556
2022	15,593
Thereafter	30,309
Total minimum committed payments	<u>\$ 168,246</u>

Litigation — The Company routinely assesses its current litigation and/or threatened litigation as to the probability of ultimately incurring a liability, and records its best estimate of the ultimate loss in situations where the Company assesses the likelihood of loss as probable.

In February 2006, '01 Communiqué, or '01, filed a patent infringement lawsuit against Citrix and Citrix Online, LLC in the United States District Court for the Northern District of Ohio (Case No. 1:06-cv-253), claiming that certain GoTo remote access service offerings, which have since been acquired by the Company as part of the Merger, infringed U.S. Patent No. 6,928,479, or the '479 Patent, which is allegedly owned by '01. In January 2016, an Ohio jury rendered a verdict that the GoTo services had not infringed the '479 Patent. The District Court affirmed the jury's findings and denied '01's request for a new trial. On March 30, 2017, '01 initiated an appeal of this ruling and a hearing was held on February 8, 2018 at the United State Court of Appeals for the Federal Circuit. The Company is awaiting a judgment from the Federal Circuit. The Company believes it has meritorious defenses to this claim and intends to defend it vigorously. Given the inherent unpredictability of litigation, the Company is unable to predict the outcome of this litigation or reasonably estimate a possible loss or range of loss associated with this litigation at this time.

The Company is from time to time subject to various other legal proceedings and claims, either asserted or unasserted, which arise in the ordinary course of business. While the outcome of these other claims cannot be predicted with certainty, management does not believe that the outcome of any of these other legal matters will have a material adverse effect on the Company's consolidated financial statements.

12. 401(k) Plan

On January 1, 2007, the Company established a defined contribution savings plan under Section 401(k) of the Internal Revenue Code. The plan is available to all employees upon employment and allows participants to defer a portion of their annual compensation on a pre-tax basis. On July 1, 2016, the Company implemented a 401k Employer Match program in which all employees who are making eligible 401k contributions will receive an employer match in which the Company contributes 50% of the amount contributed by the employee, up to a maximum of 6% of the employee's earnings. The match vests over 3 years beginning from an employee's hire date anniversary at 33.3% per year. Employees who joined the Company on or before July 1, 2013 were immediately 100% vested in their match as of the program launch date. The Company made matching contributions of \$0.8 million and \$4.7 million for the years ended December 31, 2016 and 2017, respectively.

13. Accumulated Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) consists of foreign currency translation adjustments and changes in unrealized losses and gains (net of tax) on marketable securities. The Company continues to maintain that for all foreign subsidiaries, except for 100% of the current and prior year earnings and foreign currency translation adjustments related to those earnings, it is indefinitely reinvested outside the United States for any additional outside basis differences inherent in these entities. Accumulated other comprehensive income (loss) is reported as a component of stockholders' equity and, as of December 31, 2016 and 2017, was comprised of cumulative translation adjustment losses of \$6.6 million and cumulative translation adjustment gains of \$15.6 million, respectively, and unrealized losses (net of tax) on marketable securities of \$16,000 and \$0, respectively. There were no material reclassifications to earnings in the years ended December 31, 2016 or 2017.

14. Credit Facility

On February 18, 2015, the Company entered into a multi-currency credit agreement with a syndicate of banks, financial institutions and other lending entities (the "Credit Agreement"), pursuant to which a secured revolving credit facility of up to \$100 million in the aggregate was made available to the Company. On January 22, 2016, the Company entered into the First Amendment to the Credit Agreement, pursuant to which the Company exercised its option to increase the credit facility to up to \$150 million in the aggregate with the existing lenders and an additional lender.

On February 1, 2017, the Company entered into an Amended and Restated Credit Agreement (the "Amended Credit Agreement"), which increased the Company's secured revolving credit facility from \$150 million to \$400 million in the aggregate, and permits the Company to increase the revolving credit facility and/or enter into one or more tranches of term loans up to an additional \$200 million. The Amended Credit Agreement also extended the maturity date of the revolving credit facility to February 1, 2022. The Company may prepay the loans or terminate or reduce the commitments in whole or in part at any time, without premium or penalty. The Company and its subsidiaries expect to use the credit facility for general corporate purposes, including, but not limited to, the potential acquisition of complementary products or businesses, share repurchases, as well as for working capital. In October 2015, the Company borrowed \$60.0 million under the credit facility to partially fund the acquisition of LastPass. The Company repaid \$30.0 million in 2016 and \$30.0 million in 2017. There were no outstanding borrowings as of December 31, 2017.

Loans under the Amended Credit Agreement bear interest at variable rates which reset every 30 to 180 days depending on the rate and period selected by the Company as described below. The average interest rate on borrowings outstanding during December 31, 2016 and 2017 was 2.013% and 2.188%, respectively. The quarterly commitment fee on the undrawn portion of the credit facility ranges from 0.15% to 0.30% per annum, based upon the Company's total leverage ratio.

The Amended Credit Agreement contains customary affirmative and negative covenants, including covenants that limit or restrict the Company and its subsidiaries' ability to, among other things, incur indebtedness, grant liens, merge or consolidate, dispose of assets, change the nature of its business, make investments and acquisitions, pay dividends or make distributions, or enter into certain transactions with affiliates, in each case subject to customary and other exceptions for a credit facility of this size and type, each as further described in the Amended Credit Agreement. As of December 31, 2017, the Amended Credit Agreement also required the Company to maintain a maximum total leverage ratio (not greater than 4.00:1.00), a minimum interest coverage ratio (not less than 3.00:1.00), and a maximum senior secured leverage ratio (not greater than 3.00:1.00), each as further defined in the Amended Credit Agreement. As of December 31, 2017, the Company was in compliance with all financial and operating covenants of the Amended Credit Agreement.

Any failure to comply with the financial or operating covenants of the Amended Credit Agreement would prevent the Company from being able to borrow additional funds, and would constitute a default, permitting the lenders to, among other things, accelerate the amounts outstanding, including all accrued interest and unpaid fees, under the credit facility and to terminate the credit facility.

As of December 31, 2017, the Company had \$2.3 million of origination costs recorded in other assets. The Company incurred approximately \$2.0 million of origination costs in connection with the Amended Credit

[Table of Contents](#)

Agreement executed in February 2017. As permitted by FASB issued ASU 2015-15, the Company presents debt issuance costs as an asset and subsequently amortizes the deferred debt issuance costs ratably over the term of the credit facility.

15. Subsequent Events

Cash Dividend

On February 1, 2018, the Company announced that its Board of Directors declared a cash dividend of \$0.30 per share of common stock. The dividend is payable on February 28, 2018 to stockholders of record as of February 12, 2018.

Agreement to Acquire Jive Communications, Inc.

On February 7, 2018, the Company entered into a definitive Agreement and Plan of Merger (the “Jive Merger Agreement”) to acquire all of the outstanding equity of Jive Communications, Inc. (“Jive”), a provider of cloud-based phone systems and Unified Communications services. The transaction is expected to close during the second quarter of 2018, subject to certain regulatory approvals and customary closing conditions, including expiration of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and consent of the Federal Communications Commission. The Company expects to pay \$342 million in cash upon close for all outstanding equity interests in Jive, subject to potential working capital and other adjustments as further described in the Jive Merger Agreement. An additional \$15 million in cash is payable in contingent payments which are expected to be paid to certain employees of Jive upon their achievement of specified retention milestones over the two-year period following the closing of the transaction. The Company expects to fund the acquisition through a combination of cash and debt. At the time of signing the Jive Merger Agreement, Jive had approximately 600 employees and fiscal year 2017 revenue of approximately \$80 million.

Divestiture of Xively

On February 9, 2018, the Company and certain of its subsidiaries entered into an agreement to sell its Xively business for approximately \$50 million. This transaction is expected to close in the first quarter of 2018, subject to certain customary closing conditions, and is expected to result in a pre-tax gain of approximately \$34 million. The net assets being sold are primarily comprised of \$14 million of goodwill allocated to the Xively business. In fiscal year 2017, the Company recorded \$3 million of revenue and \$13 million of GAAP expense directly related to its Xively business. The sale of the Xively business does not constitute a significant strategic shift that will have a material impact on the Company’s ongoing operations and financial results.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2017. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act of 1934, as amended, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of December 31, 2017, our chief executive officer and chief financial officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Management’s Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act as a process designed by, or under the supervision of, our principal executive and principal financial officer and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of management, including our principal executive and financial officers, we assessed our internal control over financial reporting as of December 31, 2017, based on criteria for effective internal control over financial reporting established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Based on this assessment, our management concluded that we maintained effective internal control over financial reporting as of December 31, 2017 based on the specified criteria.

[Table of Contents](#)

The Company's Independent Registered Public Accounting Firm has issued an attestation report on the Company's internal control over financial reporting as of December 31, 2017.

Changes in Internal Control Over Financial Reporting

No change in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-(f) under the Exchange Act) occurred during the quarter ended December 31, 2017 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors of
LogMeIn, Inc.
Boston, Massachusetts

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of LogMeIn, Inc. and subsidiaries (the “Company”) as of December 31, 2017, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2017, based on criteria established in the *Internal Control—Integrated Framework (2013)* issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 31, 2017, of the Company and our report dated February 20, 2018, expressed an unqualified opinion on those financial statements and included an emphasis of a matter paragraph related to the adoption of a new accounting standard.

Basis for Opinion

The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit. We are a public accounting firm registered with PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO
SECURITIES EXCHANGE ACT RULES 13a-14(a) AND 15d-14(a), AS ADOPTED
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, William R. Wagner, certify that:

1. I have reviewed this Annual Report on Form 10-K of LogMeIn, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Edward K. Herdiech certify that:

1. I have reviewed this Annual Report on Form 10-K of LogMeIn, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: February 20, 2018
