## OnDeck Reports First Quarter 2017 Financial Results

### Executes Strategic Priorities to Improve Credit Performance and Reduce Cost Structure

### Announces Additional \$25 Million of Planned Operating Expense Run Rate Savings

### Targets GAAP Profitability in the Second Half of 2017

NEW YORK, May 8, 2017 -- OnDeck® (NYSE:ONDK), the leader in online lending for small business, today announced first quarter 2017 financial results, additional planned cost savings, and a target to achieve GAAP profitability in the second half of 2017.

“Our first quarter 2017 results and our continuing initiatives to reduce costs demonstrate the progress we are making toward achieving our financial performance objectives,” said Noah Breslow, OnDeck’s chief executive officer. “During the quarter, we continued to focus on tightening our credit management and improving the operating leverage inherent in our technology-enabled model. Our credit policy adjustments have begun to yield benefits, as demonstrated by the sequential improvement in our Provision Rate and our improving outlook for this metric for the remaining three quarters of 2017. Additionally, we are encouraged that roll rates for 2016 loans stabilized during the quarter, and that performance of loans with maturities of 15 months or longer is in line with the recalibrated expectations we set last quarter.”

“In the first quarter of 2017, we began the process to realign our cost structure with the announcement of a \$20 million cost rationalization plan. These actions drove meaningful efficiencies in our operating expense base in the first quarter, resulting in our GAAP operating expense margin declining to 50% from 71% in the prior year period and a 330 basis point reduction in our Adjusted Expense Ratio\* year-over-year. As part of our continued commitment to drive efficiencies and reduce OnDeck’s operating expenses, we are implementing an additional \$25 million of annual run rate operating expense savings relative to our year-end 2016 exit run rate. We will continue to prioritize improving credit performance and reducing costs, which will decrease originations and portfolio growth in the short term. As a result of our strategic actions, we are targeting the achievement of GAAP profitability in the second half of 2017, which will provide a strong foundation for profitable growth in 2018.”

### Review of Financial Results for the First Quarter of 2017

Loans Under Management increased to \$1.2 billion, up 25% from the comparable prior year period, driven primarily by the growth of originations over the period. In the first quarter of 2017, originations were \$573 million, up 1% from the prior year period, primarily reflecting the impact of credit tightening implemented during the quarter.

Gross revenue increased to \$92.9 million during the first quarter of 2017, up 48% from the comparable prior year period. The increase in gross revenue was primarily driven by higher interest income, partially offset by lower gain on sale revenue. Interest income increased to \$87.1 million during the quarter, up 63% from the comparable prior year period, and primarily reflected the growth of average loans, which increased 66% versus the comparable prior year period. The Effective Interest Yield for the first quarter of 2017 was 33.9%, down from 34.5% in the comparable prior year period, primarily reflecting changes in portfolio mix over the period, partially offset by recent price increases.

Gain on sale was \$1.5 million during the first quarter of 2017, down 79% from the comparable prior year period. The decline primarily reflected a lower Gain on Sale Rate during the quarter and the decision to reduce the amount of loans sold through OnDeck *Marketplace*. OnDeck sold \$42.0 million<sup>1</sup> of loans through OnDeck *Marketplace* at a 3.5% Gain on Sale Rate during the first quarter of 2017, compared to \$123.7 million<sup>1</sup> of loans at a 5.7% Gain on Sale Rate in the first quarter of 2016. Loans sold or designated as held for sale through OnDeck *Marketplace* represented 9.0% of term loan originations in the first quarter of 2017 compared to 25.9% of term loan originations in the comparable prior year period. To optimize long-term financial performance, OnDeck plans to reduce the percentage of term loan originations sold through OnDeck *Marketplace* to less than 5% for the remainder of 2017.

Net revenue was \$35.4 million during the first quarter of 2017, down 13% versus the comparable prior year period. The decline in net revenue reflected the reduction of OnDeck *Marketplace* sales, which led to lower gain on sale revenue, and higher provision expense in the first quarter of 2017 versus the prior year period.

Provision for loan losses during the first quarter of 2017 increased to \$46.2 million, up from \$25.4 million in the comparable prior year period. The increase in provision expense primarily reflected a 20% increase in originations of loans designated as held for investment in the period and the comparatively lower original loss estimate for loans originated in the prior year period. The Provision Rate in the first quarter of 2017 was 8.7% compared to 5.8% in the prior year period, reflecting that the credit tightening in the first quarter of 2017 was not in effect for the full quarter and the previously mentioned lower loss estimates in

the prior year period. The Provision Rate decreased sequentially from 10.2% in the fourth quarter of 2016. OnDeck expects the Provision Rate for the remainder of 2017, taken as a whole, to be approximately 7%.

The 15+ Day Delinquency Ratio increased to 7.8% in the first quarter of 2017 from 5.7% in the prior year period and from 6.6% in the fourth quarter of 2016 due primarily to the continued seasoning of the portfolio. At the end of the first quarter of 2017, the average term loan age in OnDeck's portfolio was 4.5 months, up from 3.3 months in the prior year period and 3.9 months in the fourth quarter of 2016. The Net Charge-off rate increased to 14.9% in the first quarter of 2017 from 11.2% in the prior year period and increased sequentially from 14.2% .

The Cost of Funds Rate during the first quarter of 2017 increased to 5.9% from 5.5% in the prior year period primarily due to the increase in short-term rates.

Operating expense was \$46.7 million during the first quarter of 2017, up 5% over the comparable prior year period. Operating expense in the first quarter of 2017 was favorably impacted by the company's previously announced cost rationalization plan which is expected to produce approximately \$20 million of annual savings relative to its 2016 exit operating expense run rate. Additionally, operating expense in the first quarter of 2016 benefited from a \$1 million release in the reserve for unfunded loan commitments and a \$1 million gain related to changes in foreign currency values. Without these benefits, operating expense between the two periods would have been relatively flat. Without these benefits, operating expense between the two periods would have been relatively flat. The company is implementing an additional \$25 million of operating expense run rate savings compared to OnDeck's 2016 exit run rate, the majority of which will be implemented over the remainder of 2017. The savings are focused on the company's U.S. lending operations and will be achieved primarily through a workforce reduction to be implemented in the second quarter of 2017. Combined with the company's prior workforce reduction, total headcount at the end of the second quarter of 2017 is expected to be approximately 27% lower than December 31, 2016 levels, due to both involuntary terminations and actual and scheduled attrition.

GAAP net loss attributable to On Deck Capital, Inc. common stockholders was \$11.1 million , or \$0.15 per basic and diluted share, for the quarter, which compares to GAAP net loss attributable to On Deck Capital, Inc. common stockholders of \$12.6 million , or \$0.18 per basic and diluted share, in the comparable prior year period.

Adjusted EBITDA\* was negative \$5.2 million for the quarter, versus negative \$7.3 million in the comparable prior year period. Adjusted Net Loss\* was \$7.6 million , or \$0.11 per basic and per diluted share for the quarter versus Adjusted Net Loss of \$8.8 million , or \$0.13 per basic and per diluted share, in the comparable prior year period.

Unpaid Principal Balance was \$1.03 billion at the end of the first quarter, up 57% over the prior year period. The increase primarily reflected originations growth over the year and OnDeck's decision to retain more loans on its balance sheet in connection with reducing OnDeck *Marketplace* loan sales.

Total Funding Debt at the end of the first quarter of 2017 was \$788 million , up 69% over the prior year period, which primarily reflected the growth of Unpaid Principal Balance as well as the increased utilization of debt facilities during the period. OnDeck continued to expand its funding capacity in 2017. During the first quarter of 2017, OnDeck extended the maturity date of its asset-backed revolving debt facility with Deutsche Bank to March 2019 and increased the facility's borrowing capacity to approximately \$214 million. During the first week of May 2017, OnDeck extended the maturity date of its asset-backed debt facility that finances OnDeck's line of credit offering to May 2019, increased the facility's borrowing capacity to \$100 million, and decreased the funding costs by 200 basis points.

At the end of the first quarter of 2017, cash and cash equivalents were \$73 million , as compared to \$80 million at December 31, 2016.

#### **Guidance for Second Quarter and Full Year 2017**

OnDeck provided the following guidance for the three months ending June 30, 2017, the full year ending December 31, 2017, and the additional 2017 guidance noted below:

##### **Second Quarter 2017**

- Gross revenue between \$85 million and \$89 million.
- Adjusted EBITDA between negative \$3 million and positive \$1 million.

##### **Full Year 2017**

- Gross revenue between \$342 million and \$352 million.
  - Adjusted EBITDA between positive \$5 million and \$15 million.
-

## Additional 2017 Guidance

- GAAP profitability to be achieved in the second half of 2017.

The Company noted that its updated gross revenue guidance reflects the impact of recent credit tightening and the additional operating expense reductions announced today to improve loan returns, increase capital efficiency, and accelerate its timeframe to profitability. Adjusted EBITDA guidance for the second quarter and full year 2017 includes an approximately \$3.5 million charge to be recognized in the second quarter of 2017 associated with the planned workforce reduction.

## Conference Call

OnDeck will host a conference call to discuss first quarter 2017 financial results on May 8, 2017 at 8:00 AM ET. Hosting the call will be Noah Breslow, Chief Executive Officer, and Howard Katzenberg, Chief Financial Officer. The conference call can be accessed toll free by dialing (877) 201-0168 for calls within the U.S., or by dialing (647) 788-4901 for international calls. The conference ID is 10769600 . A live webcast of the call will also be available at <https://investors.ondeck.com> under the Press & Events menu.

## About OnDeck

OnDeck (NYSE: ONDK) is the leader in online small business lending. Since 2007, the company has powered Main Street's growth through advanced lending technology and a constant dedication to customer service. OnDeck's proprietary credit scoring system - the *OnDeck Score*® - leverages advanced analytics, enabling OnDeck to make real-time lending decisions and deliver capital to small businesses in as little as 24 hours. OnDeck offers business owners a complete financing solution, including the online lending industry's widest range of term loans and lines of credit. To date, the company has deployed over \$6 billion to more than 70,000 customers in 700 different industries across the United States, Canada and Australia. OnDeck has an A+ rating with the Better Business Bureau and operates the educational small business financing website BusinessLoans.com. For more information, please visit [www.ondeck.com](http://www.ondeck.com) .

## \*About Non-GAAP Financial Measures

This press release and its attachments include Adjusted EBITDA, Adjusted Net Income (Loss), Adjusted Expense Ratio and Adjusted Operating Yield all of which exclude stock-based compensation, as well as Net Interest Margin and Net Interest Margin After Credit Losses, all of which are financial measures not calculated or presented in accordance with United States generally accepted accounting principles, or GAAP. We believe these non-GAAP measures provide useful supplemental information for period-to-period comparisons of our business and can assist investors and others in understanding and evaluating our operating results. However, these non-GAAP measures should not be considered in isolation or as an alternative to any measures of financial performance calculated and presented in accordance with GAAP. Other companies may calculate these or similarly titled non-GAAP measures differently than we do. See "Non-GAAP Reconciliation" later in this press release for a description of these non-GAAP measures and a reconciliation to the most directly comparable financial measures prepared in accordance with GAAP.

## Safe Harbor Statement

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and other legal authority. Forward-looking statements can be identified by words such as "will," "enables," "expects," "intends," "may," "allows," "continues," "believes," "anticipates," "estimates" or similar expressions. These include statements regarding guidance on gross revenue and Adjusted EBITDA for the second quarter and full year 2017, timing and anticipated savings from our cost rationalization plan and our plan and the timing for achieving positive Adjusted EBITDA and GAAP profitability. Forward-looking statements are neither historical facts nor assurances of future performance. They are based only on our current beliefs, expectations and assumptions regarding the future of our business, anticipated events and trends, the economy and other future conditions. As such, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and in many cases outside our control. Therefore, you should not rely on any of these forward-looking statements. Our expected results may not be achieved, and actual results may differ materially from our expectations. Factors that could cause or contribute to actual results to differing from our forward-looking statements include risks relating to: our ability to attract potential customers to our platform; the degree to which potential customers apply for, are approved for and actually borrow from us; our future financial performance, including our expectations regarding our revenue, cost of revenue, expectations of future losses, net profit or net margin, operating expenses, ability to generate cash flow, and ability to achieve, and maintain, future GAAP profitability; our liquidity and working capital requirements, including the availability and pricing of debt facilities, securitizations and OnDeck *Marketplace* sales to fund our existing operations and planned growth, and the consequences of mismatches in the timing or amounts of resources available to fund additional loans or draws on lines of credit; the effect on our business of originating loans without third-party funding sources; the impact of increased utilization of cash to fund originations; the effect on our business of utilizing cash for voluntary loan purchases from third parties; anticipated trends, growth rates and challenges in our business and in the markets in which we operate; the ability of our customers to repay loans; changes in product distribution channel mix; our ability to anticipate market needs and develop new and enhanced products and services to meet those needs; interest rates and origination fees on loans; maintaining and expanding our customer base; the impact of increased competition in our industry and innovation by our competitors; our anticipated growth and growth strategies, including through the possible introduction of new products and the possible expansion in existing or new international markets, and our ability to effectively manage that growth and our expenses; our ability to sell our products and expand; our reputation and possible adverse publicity about us or our industry; the availability and cost of our funding, including the availability and pricing of possible warehouse financing and securitization and OnDeck *Marketplace* transactions; our failure to anticipate or adapt to future changes in our industry; our ability to hire and retain necessary qualified employees to expand our operations; the impact of any failure of our solutions; our reliance on our third-party service providers; the evolution of technology affecting our products, services and markets; our compliance with applicable local, state and federal laws, rules and regulations and their application and interpretation, whether existing, modified or new; our ability to adequately protect our intellectual property; the effect of litigation or other disputes to which we are or may be a party; the increased expenses and administrative workload associated with being a public company; failure to maintain an effective system of internal controls necessary to accurately report our financial results and prevent fraud; the estimates and estimate methodologies used in preparing our consolidated financial statements; the future trading prices of our common stock, the impact of securities analysts' reports

---

and shares eligible for future sale on these prices; and our ability to prevent or discover security breaks, disruption in service and comparable events that could compromise the personal and confidential information held in our data systems, reduce the attractiveness of the platform or adversely impact our ability to service the loans; and other risks, including those described in our Annual Report on Form 10-K for the year ended December 31, 2016, and in other documents that we file with the Securities and Exchange Commission from time to time which are or will be available on the Commission's website at [www.sec.gov](http://www.sec.gov). Except as required by law, we undertake no duty to update the information in this press release.

Other changes in fair value <sup>(b)</sup>	(701)	(1,775)
Fair value at the end of period	\$ 860	\$ 2,647

<sup>(b)</sup> Represents changes due to collection of expected cash flows through March 31, 2017 and 2016.

	Three Months Ended March 31,	
	2017	2016
<b>Marketplace Originations as Percent of Term Loan Originations</b>		
<i>Marketplace</i> originations	\$ 42,246	\$ 128,242
Origination of term loans	\$ 469,924	\$ 495,956
<i>Marketplace</i> originations as percent of term loan originations	9.0%	25.9%

<b>Activity in Loan Held for Investment Balances</b>	<b>Three Months Ended March 31,</b>	
	<b>2017</b>	<b>2016</b>
Unpaid Principal Balance beginning of period	\$ 980,451	\$ 543,790
+ Total originations <sup>(c)</sup>	573,015	569,663
+ Loans transferred from loans held for sale to loans held for investment and loan purchases	—	201
- <i>Marketplace</i> originations	(42,246)	(128,242)
- Sales of other loans <sup>(d)</sup>	(500)	—
+ Purchase of Loans	13,518	—
- Net charge-offs	(38,267)	(17,041)
- Principal paid down <sup>(c)(e)</sup>	(459,813)	(316,401)
Unpaid Principal Balance end of period	1,026,158	651,970
+ Net deferred origination costs	20,426	11,419
Loans held for investment	1,046,584	663,389
- Allowance for loan losses	(118,075)	(61,707)
Loans held for investment, net	\$ 928,509	\$ 601,682

<sup>(c)</sup> Includes Unpaid Principal Balance of term loans rolled into new originations of \$70.1 million and \$67.6 million in the three months ended March 31, 2017 and 2016, respectively.

<sup>(d)</sup> Includes loans sold that were previously designated as held for investment in at least one fiscal quarter prior to the quarter in which they were sold.

<sup>(e)</sup> Excludes principal that was paid down related to renewed loans sold in the period which were designated as held for investment in the amount of \$0.2 million and \$0.5 million, in the three months ended March 31, 2017 and 2016, respectively.

<b>Activity in the Allowance for Loan Losses</b>	<b>Three Months Ended March 31,</b>	
	<b>2017</b>	<b>2016</b>
Allowance for loan losses beginning of period	\$ 110,162	\$ 53,311
+ Provision for loan losses <sup>(f)</sup>	46,180	25,437
- Net charge-offs	(38,267)	(17,041)
Allowance for loan losses end of period	\$ 118,075	\$ 61,707

<sup>(f)</sup> Excludes provision expense for unfunded loan commitments of \$0.1 million and provision release of \$1.1 million for the three months ended March 31, 2017 and 2016, respectively. The provision for unfunded loan commitments is included in general and administrative expense.

Notes:

- <sup>(1)</sup> Amounts represent carrying value of loans sold, which includes both unpaid principal balance sold and the remaining carrying value of the net deferred origination costs.
- <sup>(2)</sup> Unpaid Principal Balance represents the total amount of principal outstanding of term loans held for investment, amounts outstanding under lines of credit and the amortized cost of loans purchased from other than issuing bank partners at the end of the period. It excludes net deferred origination costs, allowance for loan losses and any loans sold or held for sale at the end of the period.
- <sup>(3)</sup> Interest Earning Assets represents the sum of Unpaid Principal Balance plus the amount of principal outstanding of loans held for sale in the period. It excludes net deferred origination costs, allowance for loan losses and any loans sold or held for sale at the end of the period.
- <sup>(4)</sup> Loans represents the sum of loans held for investment and loans held for sale during the period.
- <sup>(5)</sup> Loans Under Management represents the Unpaid Principal Balance plus the unpaid principal balance of loans held for sale, excluding net deferred origination costs, plus the amount of principal outstanding of term loans we serviced for others at the end of the period.
- <sup>(6)</sup> Average Balance Sheet Items for the period represent the average as of the beginning of the month in the period and as of the end of each month in the period.
- <sup>(7)</sup> Originations represent the total principal amount of the term loans we made during the period, plus the total amount drawn on lines of credit during the period. Many of our repeat term loan customers renew their term loans before their existing term loan is fully repaid. In accordance with industry practice, originations of such repeat term loans are presented as the full renewal loan principal, rather than the net funded amount, which would be the renewal term loan's principal net of the unpaid principal balance on the existing term loan. Loans referred to, and funded by, our issuing bank partners and later purchased by us are included as part of our originations.
- <sup>(8)</sup> Effective Interest Yield is the rate of return we achieve on loans outstanding during a period. It is calculated as our business day adjusted annualized interest income divided by average Loans. Annualization is based on 252 business days per year, which is typical weekdays per year less U.S. Federal Reserve Bank holidays. Net deferred origination costs in loans held for investment and loans held for sale consist of deferred origination fees and costs. Deferred origination fees include fees paid up front to us by customers when loans are funded and decrease the carrying value of loans, thereby increasing the Effective Interest Yield earned. Deferred origination costs are limited to costs directly attributable to originating loans such as commissions, vendor costs and personnel costs directly related to the time spent by the personnel performing activities related to loan origination and increase the carrying value of loans, thereby decreasing the Effective Interest Yield earned.
- <sup>(9)</sup> Net Interest Margin, is calculated as business day adjusted annualized Net Interest Income divided by average Interest Earning Assets. Net Interest Income represents interest income less funding cost during the period. Interest income is net of fees on loans held for investment and held for sale. Net deferred origination costs in loans held for investment and loans held for sale consist of deferred origination costs as offset by corresponding deferred origination fees. Deferred origination fees include fees paid up front to us by customers when loans are funded. Deferred origination costs are limited to costs directly attributable to originating loans such as commissions, vendor costs and personnel costs directly related to the time spent by the personnel performing activities related to loan origination. Funding cost is the interest expense, fees, and amortization of deferred debt issuance costs we incur in connection with our lending activities across all of our debt facilities. Annualization is based on 252 business days per year, which is typical weekdays per year less U.S. Federal Reserve Bank holidays.
- <sup>(10)</sup> Marketplace Gain on Sale Rate equals our gain on sale revenue from loans sold through OnDeck Marketplace divided by the carrying value of loans sold, which includes both unpaid principal balance sold and the remaining carrying value of the net deferred origination costs. A portion of loans regularly sold through OnDeck *Marketplace* are or may be loans which were initially designated as held for investment upon origination. The portion of such loans sold in a given period may vary materially depending upon market conditions and other circumstances.
- <sup>(11)</sup> Cost of Funds Rate is our funding cost, which is the interest expense, fees and amortization of deferred debt issuance costs we incur in connection with our lending activities across all of our debt facilities. For full years, it is calculated as our funding cost divided by average funding debt outstanding and for interim periods it is calculated as our annualized funding cost for the period divided by average funding debt outstanding.
- <sup>(12)</sup> Provision Rate equals the provision for loan losses divided by the new originations volume of loans held for investment, net of originations of sales of such loans within the period. Because we reserve for probable credit losses inherent in the portfolio upon origination, this rate is significantly impacted by the expectation of credit losses for the period's originations volume. This rate may also be impacted by changes in loss expectations for loans originated prior to the commencement of the period. The denominator of the Provision Rate formula includes the full amount of originations in a period. A portion of loans regularly sold through OnDeck *Marketplace* are or may be loans which were initially designated as held for investment upon origination. The portion of such loans sold in a given period may vary materially depending upon market conditions and other circumstances.
- <sup>(13)</sup> Reserve Ratio is our allowance for loan losses as of the end of the period divided by the Unpaid Principal Balance as of the end of the period.
- <sup>(14)</sup> 15+ Day Delinquency Ratio equals the aggregate Unpaid Principal Balance for our loans that are 15 or more calendar days past due as of the end of the period as a percentage of the Unpaid Principal Balance for such period. The Unpaid Principal Balance for our loans that are 15 or more calendar days past due includes loans that are paying and non-paying. Because our loans require daily and weekly repayments, excluding weekends and holidays, they may be deemed delinquent more quickly than loans from traditional lenders that require only monthly payments. 15+ Day Delinquency Ratio is not annualized, but reflects balances as of the end of the period.
- <sup>(15)</sup> Net Charge-off Rate is calculated as our annualized net charge-offs for the period divided by the average Unpaid Principal Balance outstanding. Annualization is based on 4 quarters per year and is not business day adjusted. Net charge-offs are charged-off loans in the period, net of recoveries.
- <sup>(16)</sup> Net Interest Margin After Credit Losses (NIMAL), is calculated as our business day adjusted annualized Net Interest Income After Credit Losses divided by average Interest Earning Assets. Net Interest Income After Credit Losses represents interest income less funding cost and net charge-offs during the period. Interest income is net of deferred costs and fees on loans held for investment and held for sale. Net deferred origination costs in loans held for investment and loans held for sale consist of deferred origination costs as offset by corresponding deferred origination fees. Deferred origination fees include fees paid up front to us by customers when loans are funded. Deferred origination costs are limited to costs directly attributable to originating loans such as commissions, vendor costs and personnel costs directly related to the time spent by the personnel performing activities related to loan origination. Funding cost is the interest expense, fees, and amortization of deferred debt issuance costs we incur in connection with our lending activities across all of our debt facilities. Net charge-offs are charged-off loans in the period, net of recoveries. Annualization is based on 252 business days per year, which is typical weekdays per year less U.S. Federal Reserve Bank holidays.
-

<sup>(17)</sup> Adjusted Expense Ratio (AER) represents our annualized operating expense, adjusted to exclude the impact of stock-based compensation, divided by average Loans Under Management. Annualization is based on 252 business days per year, which is typical weekdays per year less U.S. Federal Reserve Bank holidays.

<sup>(18)</sup> Adjusted Operating Yield (AOY) represents our Net Interest Margin After Credit Losses (NIMAL) less the Adjusted Expense Ratio (AER).

<sup>(19)</sup> Due to the uncertainty regarding and variability of certain items that will affect our expected U.S. GAAP net income (loss) for the second quarter of 2017 and full year 2017, such as stock-based compensation and other items, we are currently unable to provide a reasonable estimate of our U.S. GAAP net income (loss) for these future periods or a corresponding reconciliation to U.S. GAAP net income (loss). Our U.S. GAAP net income (loss) for these future periods will be less favorable than our Adjusted EBITDA for these periods.

<sup>(20)</sup> Adjusted EBITDA represents our net income (loss), adjusted to exclude interest expense associated with debt used for corporate purposes (rather than funding costs associated with lending activities), income tax expense, depreciation and amortization and stock-based compensation expense. Our use of Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are: Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements; Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs; Adjusted EBITDA does not reflect the potentially dilutive impact of stock-based compensation; Adjusted EBITDA does not reflect interest associated with debt used for corporate purposes or tax payments that may represent a reduction in cash available to us.

<sup>(21)</sup> Adjusted Net Income (Loss) represents our net loss adjusted to exclude net loss attributable to non-controlling interest and stock-based compensation expense, each on the same basis and with the same limitations as described above for Adjusted EBITDA.

<sup>(22)</sup> Adjusted Net Income (Loss) per share represents our net loss adjusted to exclude net loss attributable to non-controlling interest and stock-based compensation expense, each on the same basis and with the same limitations as described above for Adjusted EBITDA, divided by the weighted average common shares outstanding during the period.

<sup>(23)</sup> Number of loans, or units, equals the total number of term loans funded, plus the total number of lines of credit drawn on for the first time during the period.
