Volaris Reports April 2019 Traffic Results: 25% Passenger Growth

Mexico City, Mexico. May 6, 2019 – Volaris* (NYSE: **VLRS** and BMV: **VOLAR**), the ultra-low-cost airline serving Mexico, the United States and Central America, reported **April 2019** and preliminary **year to date** traffic results.

In April 2019, **capacity** measured by ASMs (Available Seat Miles) increased by 23.1% vs last year, with **demand** measured by RPMs (Revenue Passenger Miles) showing a strong increase of 23.2%. Volaris carried 1.9 M **passengers** in total (24.8% increase vs last year), with load factor increasing 0.1 pp to 84.6%.

Volaris' President and Chief Executive Officer, Enrique Beltranena, commenting on the results and guideline of the second quarter, said: "The capacity high growth for April and the expected for the second quarter 2019 is attributed to the high season during April (Holy/Easter Weeks), the launch of 17 new routes and a relatively low base in the second quarter of last year. Unit Revenues will continue its solid path, while we plan to achieve healthy capacity increases through higher utilization of installed capacity. Only one aircraft will be added to the fleet this quarter".

The following table summarizes Volaris traffic results for the month and year to date .
