## Michael Kors Holdings Limited Announces Third Quarter Fiscal 2018 Results Exceeds Third Quarter Guidance; Raises Full Year Outlook

**London — February 7, 2018** — Michael Kors Holdings Limited (NYSE:KORS) (the “Company,” “MKHL”), a global fashion luxury group, today announced its financial results for the fiscal 2018 third quarter ended December 30, 2017. Earnings per diluted share were \$1.42 on a reported basis. On an adjusted basis, earnings per diluted share were \$1.77, an increase of 7.9% compared to the prior year.

### Third Quarter Fiscal 2018 Highlights

- Results exceeded guidance, with better than expected performance from both the Michael Kors and Jimmy Choo brands.
- Successfully completed the integration of Jimmy Choo into Michael Kors Holdings Limited.
- Continued to make progress on Michael Kors Runway 2020 strategic plan.
  - Elevated brand position through innovative fashion luxury offering.
  - Accessories sales were better than expected as new product introductions infused with glamor and unique fashion elements resonated with consumers.
  - Grew women’s footwear and ready-to-wear businesses as consumers embraced feminine and embellished holiday offerings.
  - Comparable store sales exceeded expectations and favorable response to new product innovation combined with reduced promotional activity drove higher average unit retails in North America digital flagships and lifestyle stores.

John D. Idol, the Company’s Chairman and Chief Executive Officer, said, “We are pleased with our third quarter performance, which delivered better than expected results and saw the successful integration of Jimmy Choo into our luxury group. The Michael Kors brand continued to make progress on Runway 2020 initiatives across product innovation, brand engagement and customer experience. Our innovative fashion luxury product offerings for the holiday season created excitement among consumers. At Jimmy Choo, we continued to deliver glamorous luxury product and engaging brand communications, which helped drive revenue during the quarter.”

### Financial Results

The Company’s results are reported in this press release on both a GAAP and an adjusted, non-GAAP basis. A reconciliation of GAAP to non-GAAP financial information is provided at the end of this press release.

## **Use of Non-GAAP Financial Measures**

Constant currency effects are non-GAAP financial measures, which are provided to supplement our reported operating results to facilitate comparisons of our operating results and trends in our business, excluding the effects of foreign currency rate fluctuations. Because we are a global Company, foreign currency exchange rates may have a significant effect on our reported results. We calculate constant currency measures and the related foreign currency impacts by translating the current-year's reported amounts into comparable amounts using prior year's foreign exchange rates for each currency. All constant currency performance measures discussed below should be considered a supplement to and not in lieu of our operating performance measures calculated in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

Additionally, this earnings release includes certain non-GAAP financial measures relating to certain one-time costs associated with the Jimmy Choo acquisition, the acquisition of the Greater China licensee and restructuring and non-cash impairment charges primarily associated with underperforming retail stores. The Company uses non-GAAP financial measures, among other things, to evaluate its operating performance and in order to represent the manner in which the Company conducts and views its business. The Company believes that excluding non-recurring items helps its management and investors compare operating performance based on its ongoing operations. While the Company considers the non-GAAP measures to be useful supplemental measures in analyzing its results, they are not intended to replace, nor act as a substitute for, any amounts presented in its consolidated financial statements prepared in conformity with U.S. GAAP and may be different from non-GAAP measures reported by other companies.
