PART III — NARRATIVE

State below in reasonable detail why Forms 10 - K, 20 - F, 11 - K, 10 - Q, 10 - D, N - SAR, N - CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Diplomat Pharmacy, Inc. (the "Company") is unable to file, without unreasonable effort or expense, its Annual Report on Form 10-K for the year ended December 31, 2018 (the "Annual Report") within the prescribed time period because the Company has recently determined the need to record a significant non-cash impairment charge related to the Company's Goodwill and Definite-lived intangible assets, as a result of reduced financial forecasts for the business, which will materially impact results for the fourth quarter and full year ended December 31, 2018. As a result, the Company needs additional time to finalize the level of impairment for Goodwill and the Definite-lived intangible assets, the tax implications and the total impact on the Company's 2018 fourth quarter and full year financial results.

The issues identified require the Company to perform additional procedures and analyses, and other third-party review of the foregoing, that affect the timeliness of the Company's annual financial statement and preparation of the Annual Report. Management is in the process of completing these additional procedures and the Annual Report.

The Company expects to file the Annual Report as soon as reasonably practicable after completion of the foregoing.

If answer is no, identify report(s).

Yes No

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

For 2018, the Company expects revenues within the range \$5.5 billion to \$5.6 billion, compared to \$4.5 billion in 2017, primarily resulting from increases in manufacturer prices, as well as the full year impact of our acquisitions in 2017, although partially offset by reimbursement compression and by a decrease in volume in our immunology, hepatitis C, and multiple sclerosis business categories, as well as other lower margin business categories, including human immunodeficiency virus (“HIV”) and osteoporosis, versus the prior year. In addition, the Company expects an increase in gross profit and incremental increase in gross profit margin for 2018 compared to 2017, largely driven by the impact of the Company’s PBM acquisitions in late 2017 and partially offset by reimbursement compression in the Specialty segment. Regarding net income (loss) attributable to Diplomat and earnings per share, the Company anticipates that it will record a significant non-cash impairment charge related to the Company’s Goodwill and Definite-lived intangible assets, which is expected to significantly reduce each of the foregoing; however, these amounts cannot be calculated, at this time, until the impairment is quantified for Goodwill and the Definite-lived intangible assets, the tax implications are finalized, and the total impact on Diplomat’s 2018 fourth quarter and full year financial results is known.

The above financial data is preliminary, based upon the Company’s estimates and subject to completion of the Company’s evaluation of the matters described under Part III above. Moreover, this data has been prepared on the basis of currently available information. The Company’s independent registered public accounting firm has not audited or reviewed, and does not express an opinion with respect to, this data. This data does not constitute a comprehensive statement of the Company’s financial results for the year ended December 31, 2018, and the Company’s final numbers for this data may differ materially from these estimates.

This Form 12b-25 contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties, including statements regarding the Company’s anticipated results of operations, non-cash impairment charge, and the timing of filing the Annual Report. There can be no assurance that these forward-looking statements will be achieved, and actual results could differ materially from those suggested by such forward-looking statements.
