## Section 1 — Conflict Minerals Disclosure

### Item 1.01: Conflict Minerals Disclosure and Report

#### *CONFLICT MINERALS DISCLOSURE*

This Form SD of Boot Barn Holdings, Inc. (“Boot Barn”) is filed pursuant to Rule 13p-1 promulgated under the Securities and Exchange Act of 1934, as amended (the “Rule”), for the reporting period January 1, 2018 to December 31, 2018.

The Rule requires disclosure of certain information when a company manufactures or contracts to manufacture products for which the minerals specified in the Rule are necessary to the functionality or production of those products. The specified minerals are gold, columbite-tantalite (coltan), cassiterite, and wolframite, including their derivatives, which are limited to tantalum, tin, and tungsten (the “Conflict Minerals”). The “Covered Countries” for the purposes of the Rule are the Democratic Republic of the Congo, the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia, and Angola.

The only Conflict Minerals necessary to the functionality or production of Boot Barn’s products are tin and gold that are used in the manufacture of certain of its accessories and home and gift products.

In making its reasonable country of origin inquiry, Boot Barn followed the Organization of Economic Cooperation and Development framework to incorporate proper due diligence measures into its supply chain regarding trade in Conflict Minerals, adopted Conflict Minerals due diligence policies and management systems to reasonably assure the country of origin of tantalum, tungsten, tin and gold in its products, including certifications provided by its suppliers, and requires its suppliers to adopt similar policies and systems. A review of the documentation received from these suppliers showed that the tin and gold used in the manufacture of Boot Barn’s accessories and home and gift products did not originate from any of the Covered Countries.

Therefore, Boot Barn has determined in good faith that the Conflict Minerals it purchased in 2018 that were necessary to the functionality or production of its products and used in the manufacture of its products did not originate in the Covered Countries.
