Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q, as well as information included in oral statements or other written statements made or to be made by us, contain statements that constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, and other future conditions. Forward-looking statements can be identified by words such as “anticipate,” “believe,” “envision,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “target,” “potential,” “will,” “would,” “could,” “should,” “continue,” “ongoing,” “contemplate” and other similar expressions, although not all forward-looking statements contain these identifying words. Examples of forward-looking statements include, among others, statements we make regarding:

- future financial position;
- business strategy;
- budgets, projected costs and plans;
- future industry growth;
- financing sources;
- potential return of capital initiatives;
- the impact of litigation, government inquiries and investigations;
- the impact of the novel coronavirus disease (“COVID-19”) and actions taken in response; and
- all other statements regarding our intent, plans, beliefs or expectations or those of our directors or officers.

We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements we make. Important factors that could cause actual results and events to differ materially from those indicated in the forward-looking statements include, among others, risks and uncertainties associated with the following:

- our dependence on the operational and financial results of, and our relationships with, our franchisees and the success of their new and existing stores;
- damage to our brand and reputation;
- our ability to successfully implement our growth strategy, including our and our franchisees’ ability to identify and secure suitable sites for new franchise stores;
- technical, operational and regulatory risks related to our third-party providers’ systems and our own information systems, including failures, interruptions or security breaches of such systems;
- our and our franchisees’ ability to attract and retain members;
- the high level of competition in the health club industry generally;
- our reliance on a limited number of vendors, suppliers and other third-party service providers;
- our substantial increased indebtedness as a result of our refinancing and securitization transactions and our ability to incur additional indebtedness or refinance that indebtedness in the future;
- our future financial performance and our ability to pay principal and interest on our indebtedness;
- our corporate structure and tax receivable agreements;
- the duration and impact of COVID-19, which has resulted in store closures and may give rise to or heighten one or more of the other risks and uncertainties described above;
- as a result of COVID-19 we have experienced to date, and may continue to experience, a decrease in our net membership base; and
- the other factors identified under the heading “Risk Factors” herein and in our annual report on Form 10-K for the fiscal year ended December 31, 2019, our quarterly report on Form 10-Q for the fiscal quarter ended March 31, 2020, and our other filings with the Securities and Exchange Commission.

The forward-looking statements in this Quarterly Report on Form 10-Q represent our views as of the date of this Report. We undertake no obligation to publicly update any forward-looking statements whether as a result of new information, future developments or otherwise.

- Selling fitness-related equipment to franchisee-owned stores.

The Company was formed as a Delaware corporation on March 16, 2015 for the purpose of facilitating an initial public offering (the “IPO”), which was completed on August 11, 2015 and related transactions in order to carry on the business of Pla-Fit Holdings, LLC and its subsidiaries (“Pla-Fit Holdings”). As of August 5, 2015, in connection with the recapitalization transactions that occurred prior to the IPO, the Company became the sole managing member and holder of 100% of the voting power of Pla-Fit Holdings. Pla-Fit Holdings owns 100% of Planet Intermediate, LLC, which has no operations but is the 100% owner of Planet Fitness Holdings, LLC, a franchisor and operator of fitness centers through its subsidiaries. With respect to the Company, Pla-Fit Holdings and Planet Intermediate, LLC, each entity owns nothing other than the respective entity below it in the corporate structure and each entity has no other material operations.

The Company is a holding company whose principal asset is a controlling equity interest in Pla-Fit Holdings. As the sole managing member of Pla-Fit Holdings, the Company operates and controls all of the business and affairs of Pla-Fit Holdings, and through Pla-Fit Holdings, conducts its business. As a result, the Company consolidates Pla-Fit Holdings’ financial results and reports a non-controlling interest related to the portion of limited liability company units of Pla-Fit Holdings (“Holdings Units”) not owned by the Company. Unless otherwise specified, “the Company” refers to both Planet Fitness, Inc. and Pla-Fit Holdings throughout the remainder of these notes.

As of June 30, 2020, Planet Fitness, Inc. held 100.0% of the voting interest and 92.5% of the economic interest of Pla-Fit Holdings and the holders of Holdings Units of Pla-Fit Holdings (the “Continuing LLC Owners”) held the remaining 7.5% economic interest in Pla-Fit Holdings.

(2) Summary of Significant Accounting Policies

(a) Basis of presentation and consolidation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, these interim financial statements do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the results of operations, financial position and cash flows for the periods presented have been reflected. All significant intercompany balances and transactions have been eliminated in consolidation.

The condensed consolidated financial statements as of and for the three and six months ended June 30, 2020 and 2019 are unaudited. The condensed consolidated balance sheet as of December 31, 2019 has been derived from the audited financial statements at that date but does not include all of the disclosures required by U.S. GAAP. These interim condensed consolidated financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2019 (the “Annual Report”) filed with the SEC on February 28, 2020. Operating results for the interim periods are not necessarily indicative of the results that may be expected for the full year.

As discussed in Note 1, Planet Fitness, Inc. consolidates Pla-Fit Holdings. The Company also consolidates entities in which it has a controlling financial interest, the usual condition of which is ownership of a majority voting interest. The Company also considers

Planet Fitness, Inc. and subsidiaries
Notes to Condensed Consolidated financial statements
(Unaudited)
(Amounts in thousands, except share and per share amounts)

for consolidation certain interests where the controlling financial interest may be achieved through arrangements that do not involve voting interests. Such an entity, known as a variable interest entity (“VIE”), is required to be consolidated by its primary beneficiary. The primary beneficiary of a VIE is considered to possess the power to direct the activities of the VIE that most significantly impact its economic performance and has the obligation to absorb losses or the rights to receive benefits from the VIE that are significant to it. The principal entities in which the Company possesses a variable interest include franchise entities and certain other entities. The Company is not deemed to be the primary beneficiary for Planet Fitness franchise entities. Therefore, these entities are not consolidated.

The results of the Company have been consolidated with Matthew Michael Realty LLC (“MMR”), PF Melville LLC (“PF Melville”), and Planet Fitness NAF, LLC (the “NAF”) based on the determination that the Company is the primary beneficiary with respect to these VIEs. MMR and PF Melville are real estate holding companies that derive a majority of their financial support from the Company through lease agreements for corporate stores. See Note 3 for further information related to the Company’s VIEs. The NAF is an advertising fund on behalf of which the Company collects 2% of gross monthly membership dues from franchisees, in accordance with the provisions of the franchise agreements, and uses the amounts received to support our national marketing campaigns, its social media platforms and the development of local advertising materials.

(b) Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Although these estimates are based on management’s knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results. Significant areas where estimates and judgments are relied upon by management in the preparation of the consolidated financial statements include revenue recognition, valuation of assets and liabilities in connection with acquisitions, valuation of equity-based compensation awards, the evaluation of the recoverability of goodwill and long-lived assets, including intangible assets, income taxes, including deferred tax assets and liabilities and reserves for unrecognized tax benefits, the liability for the Company’s tax benefit arrangements, and the value of the lease liability and related right-of-use asset recorded in accordance with ASC 842 (see Note 7).

(c) Fair Value

ASC 820, *Fair Value Measurements and Disclosures*, establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels are defined as follows:

Level 1—Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2—Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The carrying value and estimated fair value of long-term debt as of June 30, 2020 and December 31, 2019 were as follows:

	June 30, 2020		December 31, 2019	
	Carrying value	Estimated fair value ⁽¹⁾	Carrying value	Estimated fair value ⁽¹⁾
Long-term debt	\$ 1,726,250	\$ 1,659,119	\$ 1,735,000	\$ 1,765,805
Variable Funding Notes	\$ 75,000	\$ 75,000	\$ —	\$ —

(1) The Company’s Variable Funding Notes are a variable rate loan and the fair value of this loan approximates book value based on the borrowing rates currently available for variable rate loans obtained from third party lending institutions. The estimated fair value of our fixed rate long-term debt is estimated primarily based on current bid prices for our long-term debt. Judgment is required to develop these estimates. As such, the fair value of our long-term debt is classified within Level 2, as defined under U.S. GAAP.

As a result of the COVID-19 pandemic, the fair value of our long-term debt has fluctuated significantly and may continue to fluctuate based on market conditions and other factors, including changes in the target federal funds rate.

(d) Recent accounting pronouncements

The FASB issued ASU No. 2017-4, *Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*, in January 2017. This guidance eliminates the requirement to calculate the implied fair value, essentially eliminating step two from the goodwill impairment test. The new standard requires goodwill impairment to be based upon the results of step one of the impairment test, which is defined as the excess of the carrying value of a reporting unit over its fair value. The impairment charge will be limited to the amount of goodwill allocated to that reporting unit. The Company adopted this guidance on January 1, 2020 noting no material impact on the Company's consolidated financial statements.

The FASB issued ASU No. 2018-15, *Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract*, in August 2018. The guidance helps align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). The Company adopted this guidance on January 1, 2020 on a prospective basis, noting no material impact on the Company's consolidated financial statements.

(3) Variable Interest Entities

The carrying values of VIEs included in the consolidated financial statements as of June 30, 2020 and December 31, 2019 are as follows:

	June 30, 2020		December 31, 2019	
	Assets	Liabilities	Assets	Liabilities
PF Melville	\$ 2,603	\$ —	\$ 2,682	\$ —
MMR	2,153	—	2,206	—
Total	\$ 4,756	\$ —	\$ 4,888	\$ —

The Company also has variable interests in certain franchisees mainly through the guarantee of lease agreements up to a maximum period of ten years with earlier expiration dates possible if certain conditions are met. The Company's maximum obligation, as a result of its guarantees of leases, is approximately \$14,412 and \$10,309 as of June 30, 2020 and December 31, 2019, respectively.

The amount of the Company's maximum obligation represents a loss that the Company could incur from the variability in credit exposure without consideration of possible recoveries through insurance or other means. In addition, the amount bears no relation to the estimated fair value of the guarantees, which is not material.

On August 1, 2018, Planet Fitness Master Issuer LLC (the “Master Issuer”), a limited-purpose, bankruptcy remote, wholly-owned indirect subsidiary of Pla-Fit Holdings, LLC, entered into a base indenture and a related supplemental indenture (collectively, the “2018 Indenture”) under which the Master Issuer may issue multiple series of notes. On the same date, the Master Issuer issued Series 2018-1 4.262% Fixed Rate Senior Secured Notes, Class A-2-I (the “2018 Class A-2-I Notes”) with an initial principal amount of \$575,000 and Series 2018-1 4.666% Fixed Rate Senior Secured Notes, Class A-2-II (the “2018 Class A-2-II Notes” and, together with the 2018 Class A-2-I Notes, the “2018 Notes”) with an initial principal amount of \$625,000. In connection with the issuance of the 2018 Notes, the Master Issuer also entered into a revolving financing facility that allows for the incurrence of up to \$75,000 in revolving loans and/or letters of credit under the Master Issuer’s Series 2018-1 Variable Funding Senior Notes, Class A-1 (the “Variable Funding Notes”). The Company fully drew down on the Variable Funding Notes on March 20, 2020. Outstanding amounts under the Variable Funding Notes bear interest at a variable rate, which is currently 2.95%. On December 3, 2019 the Master Issuer issued Series 2019-1 3.858% Fixed Rate Senior Secured Notes, Class A-2 (the “2019 Notes” and, together with the 2018 Notes, the “Notes”) with an initial principal amount of \$550,000. The 2019 Notes were issued under the 2018 Indenture and a related supplemental indenture dated December 3, 2019 (together, the “Indenture”). Together the Notes and Variable Funding Notes will be referred to as the “Securitized Senior Notes”.

The Notes were issued in a securitization transaction pursuant to which most of the Company’s domestic revenue-generating assets, consisting principally of franchise-related agreements, certain corporate-owned store assets, equipment supply agreements and intellectual property and license agreements for the use of intellectual property, were assigned to the Master Issuer and certain other limited-purpose, bankruptcy remote, wholly-owned indirect subsidiaries of the Company that act as guarantors of the Securitized Senior Notes and that have pledged substantially all of their assets to secure the Securitized Senior Notes.

Interest and principal payments on the Notes are payable on a quarterly basis. The requirement to make such quarterly principal payments on the Notes is subject to certain financial conditions set forth in the Indenture. The legal final maturity date of the 2018 Notes is in September 2048, but it is anticipated that, unless earlier prepaid to the extent permitted under the Indenture, the 2018 Class A-2-I Notes will be repaid in September 2022 and the 2018 Class A-2-II Notes will be repaid in September 2025. The legal final maturity date of the 2019 Notes is in December 2049, but it is anticipated that, unless earlier prepaid to the extent permitted under the Indenture, the 2019 Notes will be repaid in December 2029 (together, the “Anticipated Repayment Dates”). If the Master

Issuer has not repaid or refinanced the Notes prior to the respective Anticipated Repayment Dates, additional interest will accrue pursuant to the Indenture.

As noted above, the Company borrowed the full \$75,000 in Variable Funding Notes on March 20, 2020 at a current rate of 2.95%. The Variable Funding Notes accrue interest at a variable interest rate based on (i) the prime rate, (ii) overnight federal funds rates, (iii) the London interbank offered rate for U.S. Dollars, or (iv) with respect to advances made by conduit investors, the weighted average cost of, or related to, the issuance of commercial paper allocated to fund or maintain such advances, in each case plus any applicable margin and as specified in the Variable Funding Notes. There is a commitment fee on the unused portion of the Variable Funding Notes of 0.5% based on utilization. It is anticipated that the principal and interest on the Variable Funding Notes will be repaid in full on or prior to September 2023, subject to two additional one-year extension options. Following the anticipated repayment date (and any extensions thereof) additional interest will accrue on the Variable Funding Notes equal to 5.0% per year.

In connection with the issuance of the 2018 Notes and 2019 Notes, the Company incurred debt issuance costs of \$27,133 and \$10,577, respectively. The debt issuance costs are being amortized to "Interest expense" through the Anticipated Repayment Dates of the Notes utilizing the effective interest rate method.

The Securitized Senior Notes are subject to covenants and restrictions customary for transactions of this type, including (i) that the Master Issuer maintains specified reserve accounts to be used to make required payments in respect of the Securitized Senior Notes, (ii) provisions relating to optional and mandatory prepayments and the related payment of specified amounts, including specified make-whole payments in the case of the Notes under certain circumstances, (iii) certain indemnification payments in the event, among other things, the assets pledged as collateral for the Securitized Senior Notes are in stated ways defective or ineffective, (iv) a cap on non-securitized indebtedness of \$50 million (provided that the Company may incur non-securitized indebtedness in excess of such amount, subject to the leverage ratio cap described below, under certain conditions, including if the relevant lenders execute a non-disturbance agreement that acknowledges the bankruptcy-remote status of the Master Issuer and its subsidiaries and of their respective assets), (v) a leverage ratio cap on the Company of 7.0x (calculated without regard for any indebtedness subject to the \$50 million cap) and (vi) covenants relating to recordkeeping, access to information and similar matters.

Pursuant to a parent company support agreement, the Company has agreed to cause its subsidiary to perform each of its obligations (including any indemnity obligations) and duties under the Management Agreement and under the contribution agreements entered into in connection with the securitized financing facility, in each case as and when due. To the extent that such subsidiary has not performed any such obligation or duty within the prescribed time frame after such obligation or duty was required to be performed, the Company has agreed to either (i) perform such obligation or duty or (ii) cause such obligations or duties to be performed on the Company's behalf.

The Securitized Senior Notes are also subject to customary rapid amortization events provided for in the Indenture, including events tied to failure to maintain stated debt service coverage ratios, certain manager termination events, an event of default, and the failure to repay or refinance the Notes on the applicable scheduled Anticipated Repayment Dates. The Securitized Senior Notes are also subject to certain customary events of default, including events relating to non-payment of required interest, principal, or other amounts due on or with respect to the Securitized Senior Notes, failure to comply with covenants within certain time frames, certain bankruptcy events, breaches of specified representations and warranties, failure of security interests to be effective, and certain judgments.

In accordance with the Indenture, certain cash accounts have been established with the Indenture trustee (the "Trustee") for the benefit of the trustee and the noteholders, and are restricted in their use. The Company holds restricted cash which primarily represents cash collections held by the Trustee, interest, principal, and commitment fee reserves held by the Trustee related to the Securitized Senior Notes. As of June 30, 2020, the Company had restricted cash held by the Trustee of \$70,399, which includes pre-funding of principal and interest payments through the remainder of 2020. Restricted cash has been combined with cash and cash equivalents when reconciling the beginning and end of period balances in the consolidated statements of cash flows.

(7) Leases

The Company leases space to operate corporate-owned stores, equipment, office, and warehouse space. Leases with an initial term of 12 months or less are not recorded on the balance sheet; we recognize lease expense for these leases on a straight-line basis over the lease term. For leases beginning in 2019 and later, we account for fixed lease and non-lease components together as a single, combined lease component. Variable lease costs, which may include common area maintenance, insurance, and taxes are not included in the lease liability and are expensed in the period incurred.

Planet Fitness, Inc. and subsidiaries

Our corporate-owned store leases generally have remaining terms of one to ten years, and typically include one or more renewal options, with renewal terms that can generally extend the lease term from three to ten years or more. The exercise of lease renewal options is at our sole discretion. The Company includes options to renew in the expected term when they are reasonably certain to be exercised. The depreciable life of assets and leasehold improvements are limited by the expected lease term.

Operating lease assets and liabilities are recognized at the lease commencement date. Operating lease liabilities represent the present value of lease payments not yet paid. Operating lease ROU assets represent our right to use an underlying asset and are based upon the operating lease liabilities adjusted for prepayments or accrued lease payments, initial direct costs and lease incentives. To determine the present value of lease payments not yet paid, we estimate incremental secured borrowing rates corresponding to the maturities of the leases based upon interpolated rates using our Class A-2 Notes.

The Company has certain non-real estate leases that are accounted for as finance leases under ASC 842, which is similar to the accounting for capital leases under the previous standard. These leases are immaterial, and therefore the Company has not included them in them in the tables below, except for their location on the consolidated balance sheet.

Our leases typically contain rent escalations over the lease term. We recognize expense for these leases on a straight-line basis over the lease term. Additionally, tenant incentives used to fund leasehold improvements are recognized when earned and reduce our ROU asset related to the lease. These tenant incentives are amortized as reduction of rent expense over the lease term.

Our lease agreements do not contain any material residual value guarantees or material restrictive covenants.

(8) Revenue recognition

Contract Liabilities

Contract liabilities consist primarily of deferred revenue resulting from initial and renewal franchise fees and area development agreement (“ADA”) fees paid by franchisees, as well as transfer fees, which are generally recognized on a straight-line basis over the term of the underlying franchise agreement. Also included are corporate-owned store enrollment fees, annual fees and monthly fees as well as deferred equipment rebates relating to our equipment business. We classify these contract liabilities as deferred revenue in our condensed consolidated balance sheets.

Additionally, as of June 30, 2020, due to temporary store closures in March as a result of the COVID-19 pandemic, approximately \$10.3 million remains of deferred revenue from March related to monthly membership billings of corporate-owned store and franchise revenue that the Company will recognize as the stores reopen.

The following table reflects the change in contract liabilities between December 31, 2019 and June 30, 2020.

	Contract liabilities

(Amounts in thousands, except share and per share amounts)

Shares of the Company's Class B common stock do not share in the earnings or losses attributable to Planet Fitness, Inc. and are therefore not participating securities. As such, separate presentation of basic and diluted earnings per share of Class B common stock under the two-class method has not been presented. Shares of the Company's Class B common stock are, however, considered potentially dilutive shares of Class A common stock because shares of Class B common stock, together with the related Holdings Units, are exchangeable into shares of Class A common stock on a one-for-one basis.

The following table sets forth reconciliations used to compute basic and diluted earnings per share of Class A common stock:

Weighted average shares of Class B common stock of 6,500,908 and 8,585,294 for the three months ended June 30, 2020 and 2019, respectively, and 7,139,172 and 8,910,315 for the six months ended June 30, 2020 and 2019, respectively, were evaluated under the if-converted method for potential dilutive effects and were determined to be anti-dilutive. (12) Income Taxes

The Company is the sole managing member of Pla-Fit Holdings, which is treated as a partnership for U.S. federal and certain state and local income taxes. As a partnership, Pla-Fit Holdings is not subject to U.S. federal and certain state and local income taxes. Any taxable income or loss generated by Pla-Fit Holdings is passed through to and included in the taxable income or loss of its members, including the Company, on a pro-rata basis.

Planet Fitness, Inc. is subject to U.S. federal income taxes, in addition to state and local income taxes with respect to our allocable share of any taxable income of Pla-Fit Holdings. The Company's effective tax rate was 25.4% and 22.2% for the three months ended June 30, 2020 and 2019, respectively. The effective tax rate for the three months ended June 30, 2020 differed from the U.S. federal statutory rate of 21% primarily due to state and local taxes, partially offset by income attributable to non-controlling interests. The effective tax rate for the three months ended June 30, 2019 differed from the U.S. federal statutory rate of 21% primarily due to state and local taxes, partially offset by income attributable to non-controlling interests. The Company's effective tax rate was 21.8% and 18.9% for the six months ended June 30, 2020 and 2019, respectively. The effective tax rate for the six months ended June 30, 2020 differed from the U.S. federal statutory rate of 21% primarily due to state and local taxes, the recognition of a tax expense from the remeasurement of the Company's net deferred tax assets, partially offset by income attributable to non-controlling interests. The effective tax rate for the six months ended June 30, 2019 differed from the U.S. federal statutory

rate of 21% primarily due the recognition of a tax benefit from the remeasurement of the Company's net deferred tax assets, and income attributable to non-controlling interests, offset by state and local taxes. The Company was also subject to taxes in foreign jurisdictions. Undistributed earnings of foreign operations were not material for the three and six months ended June 30, 2020 and 2019.

Net deferred tax assets of \$456,634 and \$411,177 as of June 30, 2020 and December 31, 2019, respectively, relate primarily to the tax effects of temporary differences in the book basis as compared to the tax basis of our investment in Pla-Fit Holdings as a result of the secondary offerings, other exchanges, recapitalization transactions and the IPO.

As of June 30, 2020 and December 31, 2019, the total liability related to uncertain tax positions was \$420. The Company recognizes interest accrued and penalties, if applicable, related to unrecognized tax benefits in income tax expense. Interest and penalties for the three and six months ended June 30, 2020 and 2019 were not material.

Tax benefit arrangements

The Company's acquisition of Holdings Units in connection with the IPO and future and certain past exchanges of Holdings Units for shares of the Company's Class A common stock (or cash at the option of the Company) are expected to produce and have produced favorable tax attributes. In connection with the IPO, the Company entered into two tax receivable agreements. Under the first of those agreements, the Company generally is required to pay to certain existing and previous equity owners of Pla-Fit Holdings (the "TRA Holders") 85% of the applicable tax savings, if any, in U.S. federal and state income tax that the Company is deemed to realize as a result of certain tax attributes of their Holdings Units sold to the Company (or exchanged in a taxable sale) and that are created as a result of (i) the exchanges of their Holdings Units for shares of Class A common stock and (ii) tax benefits attributable to payments made under the tax receivable agreement (including imputed interest). Under the second tax receivable agreement, the Company generally is required to pay to TSG AIV II-A L.P and TSG PF Co-Investors A L.P. (the "Direct TSG Investors") 85% of the amount of tax savings, if any, that the Company is deemed to realize as a result of the tax attributes of the Holdings Units held in respect of the Direct TSG Investors' interest in the Company, which resulted from the Direct TSG Investors' purchase of interests in Pla-Fit Holdings in 2012, and certain other tax benefits. Under both agreements, the Company generally retains the benefit of the remaining 15% of the applicable tax savings.

During the six months ended June 30, 2020, 2,062,433 Holdings Units were exchanged by the TRA Holders for newly issued shares of Class A common stock, resulting in an increase in the tax basis of the net assets of Pla-Fit Holdings subject to the provisions of the tax receivable agreements. As a result of the change in Planet Fitness, Inc.'s ownership percentage of Pla-Fit Holdings, we recorded a decrease to our net deferred tax assets of \$1,331 during the six months ended June 30, 2020. As a result of these exchanges, during the six months ended June 30, 2020, we also recognized deferred tax assets in the amount of \$49,518, and corresponding tax benefit arrangement liabilities of \$41,997, representing approximately 85% of the tax benefits due to the TRA Holders. The offset to the entries recorded in connection with exchanges was to equity.

As of June 30, 2020 and December 31, 2019, the Company had a liability of \$469,017 and \$427,216, respectively, related to its projected obligations under the tax benefit arrangements. Projected future payments under the tax benefit arrangements are as follows:

	Amount
Remainder of 2020	\$ 26,551
2021	6,229
2022	33,106
2023	41,510

Thereafter	324,276
Total	<u>\$ 469,017</u>

(13) Commitments and contingencies

From time to time, and in the ordinary course of business, the Company is subject to various claims, charges, and litigation, such as employment-related claims and slip and fall cases.

On May 3, 2019, the Company and other defendants received a joint and several judgment against them in the amount of \$6,300, inclusive of accrued interest, in a civil action brought by a former employee. As of June 30, 2020, the Company has estimated its obligation related to this matter to be approximately \$1,260, which is included in other current liabilities on the condensed

consolidated balance sheet. In connection with 2012 acquisition of Pla-Fit Holdings on November 8, 2012, the sellers are obligated to indemnify the Company related to this specific matter. The Company has therefore recorded an offsetting indemnification receivable of \$1,260 in other receivables on the Company's condensed consolidated balance sheet, of which \$420 is due from a related party. The Company has incurred, and may incur in the future, legal costs on behalf of the defendants in the case, which include a related party. These costs have not been and are not expected to be material in the future.

The Company is not currently aware of any other legal proceedings or claims that the Company believes will have, individually or in the aggregate, a material adverse effect on the Company's financial position or result of operations.

Mexico Acquisition

On March 19, 2020, a franchisee in Mexico exercised a put option that requires the Company to acquire their franchisee-owned stores in Mexico. The transaction has not closed as of June 30, 2020 as the parties are in dispute over the final terms of the transaction and related matters. The Company analyzed the contract and estimates that the purchase price will approximate fair value of the acquired assets.

(14) Segments

The Company has three reportable segments: (i) Franchise; (ii) Corporate-owned stores; and (iii) Equipment.

The Company's operations are organized and managed by type of products and services and segment information is reported accordingly. The Company's chief operating decision maker (the "CODM") is its Chief Executive Officer. The CODM reviews financial performance and allocates resources by reportable segment. There have been no operating segments aggregated to arrive at the Company's reportable segments.

The Franchise segment includes operations related to the Company's franchising business in the United States, Puerto Rico, Canada, the Dominican Republic, Panama, Mexico and Australia, including revenues and expenses from the NAF. The Corporate-owned stores segment includes operations with respect to all corporate-owned stores throughout the United States and Canada. The Equipment segment primarily includes the sale of equipment to our United States franchisee-owned stores.

The accounting policies of the reportable segments are the same as those described in Note 2. The Company evaluates the performance of its segments and allocates resources to them based on revenue and earnings before interest, taxes, depreciation, and amortization, referred to as Segment EBITDA. Revenues for all operating segments include only transactions with unaffiliated customers and include no intersegment revenues.

The tables below summarize the financial information for the Company's reportable segments for the three and six months ended June 30, 2020 and 2019. The "Corporate and other" category, as it relates to Segment EBITDA, primarily includes corporate overhead costs, such as payroll and related benefit costs and professional services which are not directly attributable to any individual segment.

(1) The term “debrand” refers to a franchisee-owned store whose right to use the Planet Fitness brand and marks has been terminated in accordance with the franchise agreement. The Company retains the right to prevent debranded stores from continuing to operate as fitness centers. The term “consolidated” refers to the combination of a franchisee’s store with another store located in close proximity with our prior approval. This often coincides with an enlargement, re-equipment and/or refurbishment of the remaining store.

(2) The “stores operated” include stores that have closed temporarily related to the COVID-19 pandemic. All stores were closed in March 2020 in response to COVID-19, and as of June 30, 2020, 1,490 were re-opened and operating, of which 1,451 were franchisee-owned stores and 39 were corporate-owned stores.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Unless the context requires otherwise, references in this report to the "Company," "we," "us" and "our" refer to Planet Fitness, Inc. and its consolidated subsidiaries.

Overview

We are one of the largest and fastest-growing franchisors and operators of fitness centers in the United States by number of members and locations, with a highly recognized national brand. Our mission is to enhance people's lives by providing a high-quality fitness experience in a welcoming, non-intimidating environment, which we call the Judgement Free Zone, where anyone—and we mean anyone—can feel they belong. Our bright, clean stores are typically 20,000 square feet, with a large selection of high-quality, purple and yellow Planet Fitness-branded cardio, circuit- and weight-training equipment and friendly staff trainers who offer unlimited free fitness instruction to all our members in small groups through our PE@PF program. We offer this differentiated fitness experience at only \$10 per month for our standard membership. This exceptional value proposition is designed to appeal to a broad population, including occasional gym users and the approximately 80% of the U.S. and Canadian populations over age 14 who are not gym members, particularly those who find the traditional fitness club setting intimidating and expensive. We and our franchisees fiercely protect Planet Fitness' community atmosphere—a place where you do not need to be fit before joining and where progress toward achieving your fitness goals (big or small) is supported and applauded by our staff and fellow members.

As of June 30, 2020, we had more than 15.2 million members and 2,059 stores in all 50 states, the District of Columbia, Puerto Rico, Canada, the Dominican Republic, Panama, Mexico and Australia. Of our 2,059 stores, 1,960 are franchised and 99 are corporate-owned. As of June 30, 2020, we had commitments to open more than 1,000 new stores under existing ADAs.

COVID-19 Impact

On March 11, 2020, the World Health Organization declared a global pandemic related to the COVID-19 outbreak. The pandemic has caused unprecedented economic volatility and uncertainty which has negatively impacted our recent operating results. In response to the COVID-19 pandemic, we proactively closed all of our stores system wide in March 2020. Our stores began reopening in early May as local guidelines allowed, and as of June 30, 2020, 1,490 of our stores were open and operating, of which 1,451 were franchisee-owned stores and 39 were corporate-owned stores. As COVID-19 continues to impact areas in which our stores operate, certain of our stores have had to re-close, and additional stores may have to re-close, pursuant to local guidelines. As previously announced, members will not be charged membership dues while our stores are closed and will be credited for any membership dues paid for periods when our stores were closed. We have experienced and continue to expect to experience decreased new store development and remodels, as well as decreased replacement equipment sales for 2020 as a result of the COVID-19 pandemic.

We continue to reopen stores as local authorities issue guidelines authorizing the reopening of fitness centers and we determine it is safe to do so. We have recognized franchise revenue and corporate-owned store revenue associated with any March membership dues collected prior to store closures as stores reopened, and we continue to defer revenue for stores that have not yet opened. We may have to defer further revenue in the future for stores that have been required to re-close.

The duration of the COVID-19 pandemic and the extent of its impact on our business cannot be reasonably estimated at this time. We anticipate that the COVID-19 pandemic will continue to negatively impact our operating results in future periods. As a result of COVID-19 we have experienced to date, and may continue to experience, a decrease in our net membership base. We previously withdrew our 2020 full-year guidance and are not providing updated guidance at this time due to continued uncertainty around the duration and impact of COVID-19.

We have taken the following actions to efficiently manage the business, as well as increase liquidity and financial flexibility in order to mitigate the current and anticipated future impact of the COVID-19 pandemic on our business:

- **Board of Director and Executive Compensation:** The Company's Chief Executive Officer, President, Chief Financial and Chief Digital and Information Officers have significantly reduced their base salaries. In addition, the base salaries of other members of senior management were reduced in graduated amounts. The Board of Directors has suspended payment of the annual retainer to non-employee directors.
- **Corporate-owned stores:** We temporarily furloughed all employees except the store manager at each corporate-owned store location while the store remains closed. These employees are able to continue receiving benefits from the Company during store closures.
- **Corporate Office:** Our corporate headquarters has begun a phased reopening, with certain employees continuing to work remotely to ensure their well-being.
- **Credit Facility:** We fully drew down our \$75.0 million Variable Funding Notes to provide additional liquidity and flexibility.
- **Share Repurchase:** We have suspended share repurchases to preserve liquidity and flexibility.

[Table of Contents](#)

- Tax benefit arrangement payments: We delayed the payment of the annual tax benefit arrangement payments, typically made in April, to the third quarter.
- Capital Expenditures: Capital expenditures may be deferred, including new corporate-owned store openings and investments in existing corporate-owned stores.

Although we expect the COVID-19 pandemic to continue to negatively impact the Company’s operations and cash flows, based on management’s current expectations and currently available information, the Company believes current cash and cash from operations will be sufficient to meet its operating cash requirements, planned capital expenditures and interest and principal payments for at least the next twelve months.

Our segments

We operate and manage our business in three business segments: Franchise, Corporate-owned stores and Equipment. Our Franchise segment includes operations related to our franchising business in the United States, Puerto Rico, Canada, the Dominican Republic, Panama, Mexico and Australia, including revenues and expenses from the NAF. Our Corporate-owned stores segment includes operations with respect to all corporate-owned stores throughout the United States and Canada. The Equipment segment primarily includes the sale of equipment to our United States franchisee-owned stores. We evaluate the performance of our segments and allocate resources to them based on revenue and earnings before interest, taxes, depreciation and amortization, referred to as Segment EBITDA. Revenue and Segment EBITDA for all operating segments include only transactions with unaffiliated customers and do not include intersegment transactions. The tables below summarize the financial information for our segments for the three and six months ended June 30, 2020 and 2019. “Corporate and other,” as it relates to Segment EBITDA, primarily includes corporate overhead costs, such as payroll and related benefit costs and professional services that are not directly attributable to any individual segment.

How we assess the performance of our business

In assessing the performance of our business, we consider a variety of performance and financial measures. The key measures for determining how our business is performing include the number of new store openings, same store sales for both corporate-owned and franchisee-owned stores, system-wide sales, EBITDA, Adjusted EBITDA, Segment EBITDA, Adjusted net (loss) income, and Adjusted net (loss) income per share, diluted. See “—Non-GAAP financial measures” below for our definition of EBITDA, Adjusted EBITDA, Adjusted net (loss) income, and Adjusted net (loss) income per share, diluted and why we present EBITDA, Adjusted EBITDA, Adjusted net (loss) income, and Adjusted net (loss) income per share, diluted, and for a reconciliation of our EBITDA, Adjusted EBITDA, and Adjusted net (loss) income to net (loss) income, the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP, and a reconciliation of Adjusted net (loss) income per share, diluted to net (loss) income per share, diluted, the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP.

Number of new store openings

The number of new store openings reflects stores opened during a particular reporting period for both corporate-owned and franchisee-owned stores. Opening new stores is an important part of our growth strategy and we expect the majority of our future new stores will be franchisee-owned. Before we obtain the certificate of occupancy or report any revenue for new corporate-owned stores, we incur pre-opening costs, such as rent expense, labor expense and other operating expenses. Some of our stores open with an initial start-up period of higher than normal marketing and operating expenses, particularly as a percentage of monthly revenue. New stores may not be profitable and their revenue may not follow historical patterns.

(1) The term “debrand” refers to a franchisee-owned store whose right to use the Planet Fitness brand and marks has been terminated in accordance with the franchise agreement. We retain the right to prevent debranded stores from continuing to operate as fitness centers. The term “consolidated” refers to the combination of a franchisee’s store with another store located in close proximity with our prior approval. This often coincides with an enlargement, re-equipment and/or refurbishment of the remaining store.

(2) The “stores operated” includes stores that have closed temporarily related to the COVID-19 pandemic. All stores were closed in March 2020 in response to COVID-19, and as of June 30, 2020, 1,490 were re-opened and operating, of which 1,451 were franchisee-owned stores and 39 were corporate-owned stores.

Same store sales

Same store sales refers to year-over-year sales comparisons for the same store sales base of both corporate-owned and franchisee-owned stores. We define the same store sales base to include those stores that have been open and for which monthly membership dues have been billed for longer than 12 months. We measure same store sales based solely upon monthly dues billed to members of our corporate-owned and franchisee-owned stores.

Several factors affect our same store sales in any given period, including the following:

- the number of stores that have been in operation for more than 12 months;
- the percentage mix and pricing of PF Black Card and standard memberships in any period;
- growth in total net memberships per store;
- consumer recognition of our brand and our ability to respond to changing consumer preferences;
- overall economic trends, particularly those related to consumer spending;
- our and our franchisees’ ability to operate stores effectively and efficiently to meet consumer expectations;
- marketing and promotional efforts;
- local competition;
- trade area dynamics; and
- opening of new stores in the vicinity of existing locations.

Consistent with common industry practice, we present same store sales as compared to the same period in the prior year and which is calculated for a given period by including only sales from stores that had sales in the comparable months of both years. Same store sales of our international stores are calculated on a constant currency basis, meaning that we translate the current year’s same store sales of our international stores at the same exchange rates used in the prior year. Since opening new stores will be a significant component of our revenue growth, same store sales is only one measure of how we evaluate our performance.

Stores acquired from or sold to franchisees are removed from the franchisee-owned or corporate-owned same store sales base, as applicable, upon the ownership change and for the 12 months following the date of the ownership change. These stores are included in the corporate-owned or franchisee-owned same store sales base, as applicable, following the 12th month after the acquisition or sale. These stores remain in the system-wide same store sales base in all periods.

As a result of the closure of all of our stores due to COVID-19 in March 2020, a majority of stores remained closed for a portion of the three and six months ended June 30, 2020. Because less than 50% of our stores in the same store sales base had membership billings in all of the months included in the three and six months ending June 30, 2020, we are not providing same store sales comparisons for these periods.

The following table shows our same store sales for the three and six months ended June 30, 2020 and 2019:

Total monthly dues and annual fees from members (system-wide sales)

We define system-wide sales as total monthly dues and annual fees billed by us and our franchisees. System-wide sales is an operating measure that includes sales by franchisees that are not revenue realized by the Company in accordance with GAAP, as well as sales by our corporate-owned stores. While we do not record sales by franchisees as revenue, and such sales are not included in our consolidated financial statements, we believe that this operating measure aids in understanding how we derive royalty revenue and is important in evaluating our performance. We review the total amount of dues we collect from our members on a monthly basis, which allows us to assess changes in the performance of our corporate-owned and franchisee-owned stores from period to period, any competitive pressures, local or regional membership traffic patterns and general market conditions that might impact our store performance. We collect monthly dues on or around the 17th of every month. We collect annual fees once per year from each member based upon when the member signed his or her membership agreement. System-wide sales were \$86 million and \$851 million, during the three months ended June 30, 2020 and 2019, respectively, and \$1,002 million and \$1,649 million during the six months ended June 30, 2020 and 2019, respectively.

Non-GAAP financial measures

We refer to EBITDA and Adjusted EBITDA as we use these measures to evaluate our operating performance and we believe these measures provide useful information to investors in evaluating our performance. EBITDA and Adjusted EBITDA as presented in this Quarterly Report on Form 10-Q are supplemental measures of our performance that are neither required by, nor presented in accordance with U.S. GAAP. EBITDA and Adjusted EBITDA should not be considered as substitutes for U.S. GAAP metrics such as net (loss) income or any other performance measures derived in accordance with U.S. GAAP. Also, in the future we may incur expenses or charges such as those used to calculate Adjusted EBITDA. Our presentation of EBITDA and Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or nonrecurring items. We have also disclosed Segment EBITDA as an important financial metric utilized by the Company to evaluate performance and allocate resources to segments in accordance with ASC 280, *Segment Reporting*. As part of such disclosure in "Our Segments" within Management's Discussion and Analysis of Financial Condition and Results of Operations, the Company has provided a reconciliation from income from operations to Total Segment EBITDA, which is equal to the Non-GAAP financial metric EBITDA.

We define EBITDA as net (loss) income before interest, taxes, depreciation and amortization. We believe that EBITDA, which eliminates the impact of certain expenses that we do not believe reflect our underlying business performance, provides useful information to investors to assess the performance of our segments as well as the business as a whole. Our board of directors also uses EBITDA as a key metric to assess the performance of management. We define Adjusted EBITDA as net (loss) income before interest, taxes, depreciation and amortization, adjusted for the impact of certain additional non-cash and other items that we do not consider in our evaluation of ongoing performance of the Company's core operations. These items include certain purchase accounting adjustments, stock offering-related costs, and certain other charges and gains. We believe that Adjusted EBITDA is an

appropriate measure of operating performance in addition to EBITDA because it eliminates the impact of other items that we believe reduce the comparability of our underlying core business performance from period to period and is therefore useful to our investors in comparing the core performance of our business from period to period.

A reconciliation of net (loss) income to EBITDA and Adjusted EBITDA is set forth below for the three and six months ended June 30, 2020 and 2019:

- (1) Represents the impact of revenue-related purchase accounting adjustments associated with the 2012 Acquisition. At the time of the 2012 Acquisition, the Company maintained a deferred revenue account, which consisted of deferred ADA fees, deferred franchise fees, and deferred enrollment fees that the Company billed and collected up front but recognizes for U.S. GAAP purposes at a later date. In connection with the 2012 Acquisition, it was determined that the carrying amount of deferred revenue was greater than the fair value assessed in accordance with ASC 805—Business Combinations, which resulted in a write-down of the carrying value of the deferred revenue balance upon application of acquisition push-down accounting under ASC 805. These amounts represent the additional revenue that would have been recognized in these periods if the write-down to deferred revenue had not occurred in connection with the application of acquisition pushdown accounting.
- (2) Represents the impact of rent-related purchase accounting adjustments. In accordance with guidance in ASC 805 – Business Combinations, in connection with the 2012 Acquisition, the Company’s deferred rent liability was required to be written off as of the acquisition date and rent was recorded on a straight-line basis from the acquisition date through the end of the lease term. This resulted in higher overall recorded rent expense each period than would have otherwise been recorded had the deferred rent liability not been written off as a result of the acquisition push down accounting applied in accordance with ASC 805. Adjustments of \$41, \$44, \$82, and \$88 in the three and six months ended June 30, 2020 and 2019, respectively, reflect the difference between the higher rent expense recorded in accordance with U.S. GAAP since the acquisition and the rent expense that would have been recorded had the 2012 Acquisition not occurred. Adjustments of \$88, \$73, \$189, and \$152 in the three and six months ended June 30, 2020 and 2019, respectively, are due to the amortization of favorable and unfavorable leases. All of the rent related purchase accounting adjustments are adjustments to rent expense which is included in store operations on our consolidated statements of operations.
- (3) Represents severance expense recorded in connection with an equity award modification.
- (4) Represents costs associated with new corporate-owned stores incurred prior to the store opening, including payroll-related costs, rent and occupancy expenses, marketing and other store operating supply expenses.
- (5) Represents gains and losses related to the adjustment of our tax benefit arrangements primarily due to changes in our effective tax rate.
- (6) Represents certain other charges and gains that we do not believe reflect our underlying business performance.

Our presentation of Adjusted net (loss) income and Adjusted net (loss) income per share, diluted, assumes that all net (loss) income is attributable to Planet Fitness, Inc., which assumes the full exchange of all outstanding Holdings Units for shares of Class A common stock of Planet Fitness, Inc., adjusted for certain non-recurring items that we do not believe directly reflect our core operations. Adjusted net (loss) income per share, diluted, is calculated by dividing Adjusted net (loss) income by the total shares of Class A common stock outstanding plus any dilutive options and restricted stock units as calculated in accordance with U.S. GAAP and assuming the full exchange of all outstanding Holdings Units and corresponding Class B common stock as of the beginning of each period presented. Adjusted net (loss) income and Adjusted net (loss) income per share, diluted, are supplemental measures of operating performance that do not represent, and should not be considered, alternatives to net (loss) income and earnings per share, as calculated in accordance with U.S. GAAP. We believe Adjusted net (loss) income and Adjusted net (loss) income per share, diluted, supplement U.S. GAAP measures and enable us to more effectively evaluate our performance period-over-period. A reconciliation of Adjusted net (loss) income to net (loss) income, the most directly comparable U.S. GAAP measure, and the computation of Adjusted net (loss) income per share, diluted, are set forth below.

In accordance with guidance in ASC 805 – Business Combinations, in connection with the 2012 Acquisition, the Company’s deferred rent liability was required to be written off as of the acquisition date and rent was recorded on a straight-line basis from the acquisition date through the end of the lease term. This resulted in higher overall recorded rent expense each period than would have otherwise been recorded had the deferred rent liability not been written off as a result of the acquisition push down accounting applied in accordance with ASC 805. Adjustments of \$41, \$44, \$82, and \$88 in the three and six months ended June 30, 2020 and 2019, respectively, reflect the difference between the higher rent expense recorded in accordance with U.S. GAAP since the acquisition and the rent expense that would have been recorded had the 2012 Acquisition not occurred. Adjustments of \$88, \$73, \$189, and \$152 in the three and six months ended June 30, 2020 and 2019, respectively, are due to the amortization of favorable and unfavorable leases. All of the rent related purchase accounting adjustments are adjustments to rent expense which is included in store operations on our consolidated statements of operations.

Interest expense was \$40.7 million in the six months ended June 30, 2020 compared to \$29.4 million in the six months ended June 30, 2019. The increase is primarily attributable to the issuance of \$550.0 million of 2019 Notes in December 2019.

Other expense

Other expense was \$0.8 million in the six months ended June 30, 2020 and \$4.8 million in the six months ended June 30, 2019. Other expense was primarily attributable to foreign currency losses, partially offset by a gain on the remeasurement of our tax

benefit arrangements due to changes in our effective tax rate in the six months ended June 30, 2020. In the six months ended June 30, 2019, the other expense is attributable to the remeasurement of our tax benefit arrangements primarily due to changes in our effective tax rates.

(Benefit) provision for income taxes

The provision for income taxes was a benefit of \$6.0 million in the six months ended June 30, 2020, compared to expense of \$16.6 million in the six months ended June 30, 2019. The decrease in the provision for income taxes was primarily attributable to the Company's net loss in the six months ended June 30, 2020 as compared to net (loss) income for the six months ended June 30, 2019, primarily as a result of COVID-19 related closures beginning in March 2020.

Segment results

Franchise

Segment EBITDA for the franchise segment was \$40.3 million in the six months ended June 30, 2020 compared to \$97.2 million in the six months ended June 30, 2019, a decrease of \$56.9 million, or 58.6%. The franchise segment EBITDA decrease in the six months ended June 30, 2020 compared to the six months ended June 30, 2019 was primarily due to COVID-19 related store closures beginning in March 2020. Depreciation and amortization was \$3.9 million and \$4.0 million for the six months ended June 30, 2020 and 2019, respectively.

Corporate-owned stores

Segment EBITDA for the corporate-owned stores segment was \$5.7 million in the six months ended June 30, 2020 compared to \$33.7 million in the six months ended June 30, 2019, a decrease of \$28.0 million, or 83.2%. The corporate-owned store segment EBITDA decrease was due to COVID-19 related store closures beginning in March 2020. Depreciation and amortization was \$14.6 million and \$11.7 million for the six months ended June 30, 2020 and 2019, respectively. The increase in depreciation and amortization was primarily attributable the acquisition and opening of corporate-owned stores since January 1, 2019.

Equipment

Segment EBITDA for the equipment segment was \$7.7 million in the six months ended June 30, 2020 compared to \$27.2 million in the six months ended June 30, 2019, a decrease of \$19.5 million, or 71.8%, driven by lower equipment sales to new and existing franchisee-owned stores in the six months ended June 30, 2020 compared to the six months ended June 30, 2019 as a result of COVID-19 related closures beginning in March 2020. Depreciation and amortization was \$2.5 million for both the six months ended June 30, 2020 and 2019.

Liquidity and capital resources

As of June 30, 2020, we had \$423.6 million of cash and cash equivalents.

We require cash principally to fund day-to-day operations, to finance capital investments, to service our outstanding debt and tax benefit arrangements and to address our working capital needs. Based on our current level of operations, we believe that with the available cash balance, the cash generated from our operations, and amounts we have drawn under our Variable Funding Notes will be adequate to meet our anticipated debt service requirements and obligations under the tax benefit arrangements, capital expenditures and working capital needs for at least the next 12 months. We believe that we will be able to meet these obligations even if we continue to experience a reduction in sales and profits as a result of the COVID-19 pandemic. Our ability to continue to fund these items and continue to reduce debt could be adversely affected by the occurrence of any of the events described under "Risk Factors" in this Quarterly Report on Form 10-Q, "Risk Factors" in the Quarterly Report on Form 10-Q for the period ended March 31, 2020, and "Risk factors" in the Annual Report. There can be no assurance, that our business will generate sufficient cash flows from operations or otherwise to enable us to service our indebtedness, including our Securitized Senior Notes, or to make anticipated capital expenditures. Our future operating performance and our ability to service, extend or refinance the Senior Secured Credit facility will be subject to future economic conditions and to financial, business and other factors, many of which are beyond our control, including potential future impacts related to the COVID-19 pandemic.

The following table presents summary cash flow information for the six months ended June 30, 2020 and 2019:

(in thousands)	Six months ended June 30,	
	2020	2019
Net cash (used in) provided by:		
Operating activities	\$ (12,984)	\$ 82,504
Investing activities	(20,992)	(33,672)
Financing activities	65,975	(8,387)
Effect of foreign exchange rates on cash	(834)	542
Net increase in cash	\$ 31,165	\$ 40,987

Operating activities

For the six months ended June 30, 2020, net cash used in operating activities was \$13.0 million compared to net cash provided by operating activities of \$82.5 million in the six months ended June 30, 2019, a decrease of \$95.5 million. Of the decrease, \$104.1 million is due to lower net (loss) income after adjustments to reconcile net (loss) income to net cash provided by operating activities in the six months ended June 30, 2020 as compared to the six months ended June 30, 2019. This decrease was partially offset by \$8.7 million of favorable changes in working capital primarily in accounts receivable and payables to related parties pursuant to tax benefit arrangements, partially offset by unfavorable changes in working capital primarily from other assets, other current assets and income taxes.

Investing activities

Cash flow used in investing activities related to the following capital expenditures for the six months ended June 30, 2020 and 2019:

(in thousands)	Six months ended June 30,	
	2020	2019
New corporate-owned stores and corporate-owned stores not yet opened	\$ 5,365	\$ 3,918
Existing corporate-owned stores	8,300	5,788
Information systems	7,417	8,677
Corporate and all other	79	542
Total capital expenditures	\$ 21,161	\$ 18,925

For the six months ended June 30, 2020, net cash used in investing activities was \$21.0 million compared to \$33.7 million in the six months ended June 30, 2019, a decrease of \$12.7 million. The primary driver for the decrease in cash used in investing activities was the acquisition of franchisee-owned stores in the six months ended June 30, 2019 compared to \$0 in the six months ended June 30, 2020, partially offset by \$2.2 million higher cash used for additions to property, plant and equipment as broken out in the table above.

Financing activities

For the six months ended June 30, 2020, net cash provided by financing activities was \$66.0 million compared to cash used of \$8.4 million in the six months ended June 30, 2019, an increase of \$74.4 million. The primary driver of the increase in six months ended June 30, 2020 was the Company's incurrence of \$75.0 million of borrowings under its Variable Funding Notes.

Securitized Financing Facility

On August 1, 2018, the Master Issuer, a limited-purpose, bankruptcy remote, wholly-owned indirect subsidiary of Pla-Fit Holdings, LLC, entered into the 2018 Indenture under which the Master Issuer may issue multiple series of notes. On the same date, the Master Issuer issued the 2018 Class A-2-I Notes with an initial principal amount of \$575 million and the 2018 Class A-2-II Notes with an initial principal amount of \$625 million. In connection with the issuance of the 2018 Notes, the Master Issuer also entered into the Variable Funding Notes that allow for the incurrence of up to \$75 million in revolving loans and/or letters of credit, which the Company fully drew down on March 20, 2020. On December 3, 2019 the Master Issuer issued the 2019 Notes with an initial principal amount of \$550 million. The 2019 Notes were issued under the Indenture. The Securitized Senior Notes were issued in a securitization transaction pursuant to which most of the Company's domestic revenue-generating assets, consisting principally of franchise-related agreements, certain corporate-owned store assets, equipment supply agreements and intellectual property and license agreements for the use of intellectual property, were assigned to the Master Issuer and certain other limited-purpose,

bankruptcy remote, wholly-owned indirect subsidiaries of the Company (the “securitization entities”) that act as guarantors of the Securitized Senior Notes and that have pledged substantially all of their assets to secure the Securitized Senior Notes.

Interest and principal payments on the Notes are payable on a quarterly basis. The requirement to make such quarterly principal payments on the Notes is subject to certain financial conditions set forth in the Indenture. The legal final maturity date of the 2018 Notes is in September 2048, but the Anticipated Repayment Dates of the 2018 Class A-2-I Notes and the 2018 Class A-2-II Notes are September 2022 and September 2025 respectively, unless earlier prepaid to the extent permitted under the Indenture. The legal final maturity date of the 2019 Notes is in December 2049, but it is anticipated that, unless earlier prepaid to the extent permitted under the Indenture, the 2019 Notes will be repaid in December 2029. If the Master Issuer has not repaid or refinanced the Notes prior to the respective Anticipated Repayment Dates, additional interest will accrue pursuant to the Indenture.

The Variable Funding Notes will accrue interest at a variable interest rate based on (i) the prime rate, (ii) overnight federal funds rates, (iii) the London interbank offered rate for U.S. Dollars, or (iv) with respect to advances made by conduit investors, the weighted average cost of, or related to, the issuance of commercial paper allocated to fund or maintain such advances, in each case plus any applicable margin and as specified in the Variable Funding Notes. There is a commitment fee on the unused portion of the Variable Funding Notes of 0.5% based on utilization. It is anticipated that the principal and interest on the Variable Funding Notes will be repaid in full on or prior to September 2023, subject to two additional one-year extension options. Following the anticipated repayment date (and any extensions thereof) additional interest will accrue on the Variable Funding Notes equal to 5.0% per year.

In connection with the issuance of the 2018 Notes and 2019 Notes, the Company incurred debt issuance costs of \$27.1 million and \$10.6 million, respectively. The debt issuance costs are being amortized to “Interest expense” through the Anticipated Repayment Dates of the Notes utilizing the effective interest rate method.

The Securitized Senior Notes are subject to covenants and restrictions customary for transactions of this type, including (i) that the Master Issuer maintains specified reserve accounts to be used to make required payments in respect of the Securitized Senior Notes, (ii) provisions relating to optional and mandatory prepayments and the related payment of specified amounts, including specified make-whole payments in the case of the Notes under certain circumstances, (iii) certain indemnification payments in the event, among other things, the assets pledged as collateral for the Securitized Senior Notes are in stated ways defective or ineffective, (iv) a cap on non-securitized indebtedness of \$50 million (provided that the Company may incur non-securitized indebtedness in excess of such amount, subject to the leverage ratio cap described below, under certain conditions, including if the relevant lenders execute a non-disturbance agreement that acknowledges the bankruptcy-remote status of the Master Issuer and its subsidiaries and of their respective assets), (v) a leverage ratio cap on the Company of 7.0x (calculated without regard for any indebtedness subject to the \$50 million cap) and (vi) covenants relating to recordkeeping, access to information and similar matters.

Pursuant to a parent company support agreement, we have agreed to cause our subsidiary to perform each of its obligations (including any indemnity obligations) and duties under the Management Agreement and under the contribution agreements entered into in connection with the securitized financing facility, in each case as and when due. To the extent that our subsidiary has not performed any such obligation or duty within the prescribed time frame after such obligation or duty was required to be performed, we have agreed to either (i) perform such obligation or duty or (ii) cause such obligations or duties to be performed on our behalf.

The Securitized Senior Notes are also subject to customary rapid amortization events provided for in the Indenture, including events tied to failure to maintain stated debt service coverage ratios, certain manager termination events, an event of default, and the failure to repay or refinance the Notes on the applicable scheduled Anticipated Repayment Dates. The Securitized Senior Notes are also subject to certain customary events of default, including events relating to non-payment of required interest, principal, or other amounts due on or with respect to the Securitized Senior Notes, failure to comply with covenants within certain time frames, certain bankruptcy events, breaches of specified representations and warranties, failure of security interests to be effective, and certain judgments.

In accordance with the Indenture, certain cash accounts have been established with the Trustee for the benefit of the trustee and the noteholders, and are restricted in their use. The Company holds restricted cash which primarily represents cash collections held by the Trustee, interest, principal, and commitment fee reserves held by the Trustee related to the Securitized Senior Notes. As of June 30, 2020, the Company had restricted cash held by the Trustee of \$70.4 million, which includes pre-funding of principal and interest payments through the remainder of 2020. Restricted cash has been combined with cash and cash equivalents when reconciling the beginning and end of period balances in the consolidated statements of cash flows.

Off-balance sheet arrangements

As of June 30, 2020, our off-balance sheet arrangements consisted of guarantees of lease agreements for certain franchisees up to a maximum period of ten years with earlier expiration dates possible if certain conditions are met. Our maximum total obligation under these lease guarantee agreements is approximately \$14.4 million and would only require payment upon default by the primary obligor. The estimated fair value of these guarantees at June 30, 2020 was not material, and no accrual has been recorded for our potential obligation under these arrangements.

Critical accounting policies and use of estimates

There have been no material changes to our critical accounting policies and use of estimates from those described under “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our Annual Report.

ITEM 3. Quantitative and Qualitative Disclosure about Market Risk

Interest rate risk

The securitized financing facility includes the Series 2018-1 Senior Class A-2 Notes which are comprised of fixed interest rate notes and the Variable Funding Notes which allow for the incurrence of up to \$75.0 million in revolving loans and/or letters of credit under the Variable Funding Notes, which is fully drawn. The issuance of the fixed-rate Class A-2 Notes has reduced the Company’s exposure to interest rate increases that could adversely affect its earnings and cash flows. An increase in the effective interest rate applied to borrowings under the Variable Funding Notes of 100 basis points would result in a \$0.8 million increase in pre-tax interest expense on an annualized basis.

Foreign exchange risk

We are exposed to fluctuations in exchange rates between the U.S. dollar and the Canadian dollar, which is the functional currency of our Canadian entities. Our sales, costs and expenses of our Canadian subsidiaries, when translated into U.S. dollars, can fluctuate due to exchange rate movement. As of June 30, 2020, a 10% increase or decrease in the exchange rate of the U.S. and Canadian dollar would increase or decrease net income by a negligible amount.

Inflation risk

Although we do not believe that inflation has had a material effect on our income from continuing operations, we have a substantial number of hourly employees in our corporate-owned stores that are paid wage rates at or based on the applicable federal or state minimum wage. Any increases in these minimum wages will subsequently increase our labor costs. We may or may not be able to offset cost increases in the future.

ITEM 4. Controls and Procedures

Evaluation of disclosure controls and procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this Quarterly Report on Form 10-Q.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their control objectives.

Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2020, our disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed by the Company in the reports it files or submits with the Securities and Exchange Commission is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to our management, including the principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting

There have been no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II-OTHER INFORMATION**ITEM 1. Legal Proceedings**

We are currently involved in various claims and legal actions that arise in the ordinary course of business, most of which are covered by insurance. We do not believe that the ultimate resolution of these actions will have a material adverse effect on our business, financial condition, results of operations, liquidity or capital resources nor do we believe that there is a reasonable possibility that we will incur material loss as a result of such actions. However, a significant increase in the number of these claims or an increase in amounts owing under successful claims could have a material adverse effect on our business, financial condition and results of operations.

ITEM 1A. Risk Factors.

The risk factors set forth below are in addition and serve as an update to the risk factors previously disclosed in Item 1A “Risk Factors” in Part I of our Annual Report.

Our business and results of operations have been and are expected to continue to be materially impacted by the ongoing COVID-19 pandemic.

The outbreak of disease caused by COVID-19, which has been declared a pandemic by the World Health Organization, continues to impact worldwide economic activity. A public health pandemic such as COVID-19 poses the risk that we or our employees, franchisees, members, suppliers and other partners may be prevented from conducting business activities for an indefinite period of time, including due to shutdowns, travel restrictions, social distancing requirements, stay at home orders and advisories and other restrictions that may be suggested or mandated by governmental authorities. The COVID-19 pandemic may also have the effect of heightening many of the other risks described in the “Risk Factors” section of our 2019 Form 10-K, such as those relating to our growth strategy, international operations, our ability to attract and retain members, our supply chain, health and safety risks to our members, loss of key employees and changes in consumer preferences, as well as risks related to our significant indebtedness, including our ability to generate sufficient cash and comply with the terms of and restrictions under the agreements governing such indebtedness.

The extent of the impact of the COVID-19 pandemic remains highly uncertain and difficult to predict. However, the continued spread of the virus and the measures taken in response to it have disrupted our operations and have adversely impacted our business, financial condition and results of operations. For example, in response to the COVID-19 pandemic, we proactively closed all of our stores system-wide beginning in mid-March 2020, temporarily furloughed a majority of our corporate-owned store employees while corporate-owned stores remained closed, and have suspended billing membership fees to members while stores remain closed and temporarily suspended sales and installation of equipment. As COVID-19 continues to impact areas in which our stores operate, certain of our stores have had to re-close, and additional stores may have to re-close, pursuant to local guidelines. As a result of COVID-19 we have experienced to date, and may continue to experience, a decrease in our net membership base. The significance of the ultimate operational and financial impact to us will depend on how long and widespread the disruptions caused by COVID-19, and the corresponding response to contain the virus and treat those affected by it, prove to be.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table provides information regarding purchases of shares of our Class A common stock by us and our “affiliated purchasers” (as defined in Rule 10b-18(a)(3) under the Exchange Act) during the three months ended June 30, 2020.

⁽¹⁾On November 5, 2019, our board of directors approved a share repurchase program of \$500,000,000. Purchases may be effected through one or more open market transactions, privately negotiated transactions, transactions structured through investment banking institutions, or a

combination of the foregoing. On March 18, 2020, the Company announced the suspension of its share repurchase program. The Company may reinstate or terminate the program at any time.

In connection with our IPO, we and the existing holders of Holdings Units entered into an exchange agreement under which they (or certain permitted transferees) have the right, from time to time and subject to the terms of the exchange agreement, to exchange their Holdings Units, together with a corresponding number of shares of Class B common stock, for shares of our Class A common stock on a one-for-one basis, subject to customary conversion rate adjustments for stock splits, stock dividends, reclassifications and other similar transactions. As an existing holder of Holdings Units exchanges Holdings Units for shares of Class A common stock, the number of Holdings Units held by Planet Fitness, Inc. is correspondingly increased, and a corresponding number of shares of Class B common stock are canceled.
