PROXY SUMMARY INFORMATION

This summary is included to provide an introduction and overview of the information contained in this Proxy Statement. This is a summary only and does not contain all of the information we have included in our 2020 Proxy Statement. You should refer to the full Proxy Statement for more information about us and the proposals you are being asked to consider.

2019 BUSINESS HIGHLIGHTS

Financial Performance

- Delivered Adjusted EBITDA (as such terms are defined in the “Performance Highlights” section on page 41) above the midpoint of financial guidance for the fourth year in a row.
- Delivered Adjusted Free Cash Flow before Growth (as such term is defined in the “Performance Highlights” section on page 41) above the high end of the 2019 guidance range, resulting in an EBITDA to free cash flow conversion ratio of 72%.
- Achieved \$565 million of the projected \$715 million Dynegy Inc. (“Dynegy”) merger Adjusted EBITDA and Operations Performance Initiative value lever targets by year-end 2019; the \$715 million target is an increase of more than 100% from the \$350 million per year of EBITDA synergies announced with the Dynegy merger in October 2017.

Value to Our Stockholders

- Increased expected after-tax cash flow synergies from the Dynegy merger by nearly five times to \$320 million per year, with \$210 million realized in 2019.
- Instituted a dividend program of \$0.50 per share on an annualized basis, with management anticipating an annual dividend growth rate of approximately 6–8% per share. In February 2020, announced an 8% increase to the dividend, resulting in an annualized dividend of \$0.54 per share.
- Returned approximately \$900 million to stockholders through our share repurchase program and quarterly dividends. And, has returned nearly \$5 billion to financial stakeholders since emerging from bankruptcy in October 2016.
- Continued rotation of our stockholder base, with traditionally long-term investors now being our two largest stockholders and the last outstanding stockholder’s agreement terminating.

Executing Our Corporate Strategy

- Reduced annualized, after-tax interest expense by approximately \$95 million in 2019 via multiple financing transactions, including approximately \$600 million of voluntary debt and preferred stock repayments and another approximately \$8.3 billion of refinancings; further expanded liquidity in the range of a billion dollars to support our growing business.
- Continued to reduce our net debt to EBITDA ratio (with net debt consisting of indebtedness for borrowed money less cash and cash equivalents, and EBITDA consisting of Adjusted EBITDA after the pro forma effect of any announced acquisitions, dispositions, development projects or other transactions that are reasonably expected by management to alter Vistra Energy’s earnings on a run-rate basis) and achieved an upgrade to one notch below investment grade by Moody’s, reflecting management’s strong focus on fiscal discipline and effective capital allocation.
- Completed the acquisitions of Crius Energy Trust and Ambit Energy, adding strong brands to our retail portfolio; increasing our generation-to-retail match to nearly 60%; making Vistra the largest competitive residential electricity provider in the country, now offering over 40 renewable energy plans; and expanded our operations to 20 states and the District of Columbia.
- Introduced two new retail brands, Brighten Energy and Better Buy, in Illinois, Ohio, and Pennsylvania, and continued to launch innovative and market-leading products through our flagship brand, TXU Energy, including six of the seven competitive power markets in the U.S. and in Canada and Jordan, as well, while growing residential customer counts in the Electric Reliability Council of Texas, Inc. (“ERCOT”).
- Continued to advance our battery storage business in California with the 300-megawatt/1,200-megawatt-hour battery energy storage project currently under construction at our Moss Landing Power Plant site and an agreement executed to develop a 20-megawatt/80-megawatt-hour battery energy storage project at our Oakland site.

PROXY SUMMARY INFORMATION

Sustainability: Investing in Our Planet and Our Communities

- Announced greenhouse gas emissions reduction targets of greater than 50% by 2030 and greater than 80% by 2050, each as compared to a 2010 baseline, with aspirations to achieve net-zero emissions by 2050, assuming necessary advancements in technology and supportive market constructs and public policy. At year-end 2018, the Company had already achieved a 31% reduction compared to its 2010 baseline.
- Joined the Climate Leadership Council as a Founding Member to take a leadership role in the promotion of a market-based carbon pricing program with a dividend plan as the most effective and equitable manner of achieving economy-wide decarbonization while preserving the strengths of the U.S. economy.
- Enhanced the governance over the Company's sustainability policies and practices by expanding the responsibility of the Risk Committee to include sustainability oversight (now the Sustainability and Risk Committee) and naming a chief sustainability officer to oversee the Company's strategic efforts regarding our environmental, social, and governance activities;
- Developed plans to enhance sustainability reporting in accordance with (i) the Global Reporting Initiative, (ii) the Sustainability Accounting Standards Board, and (iii) the Task Force on Climate-Related Disclosures in 2020.
- Engaged independent audit firm to provide third party verification of the Company's 2019 CO₂ equivalent emissions.
- Continued to transform our generation portfolio to newer, more efficient, and less environmentally impactful technologies with the retirement of four coal plants in downstate Illinois in 2019 and the announcement of a planned retirement for a fifth coal plant in downstate Illinois in 2022.
- Supported the Illinois Coal to Solar and Energy Storage Act to repurchase coal plant sites, reinvest in power plant communities, and assist the state in meeting its renewable energy goals.
- Increased the number of Luminant sites to 11 that have achieved VPP Star status, the Occupational Safety and Health Administration's highest designation of its Voluntary Protection Programs that officially recognizes the outstanding efforts of employers and employees who achieved exemplary safety and health; and rolled out a new company-wide safety program.
- Contributed nearly 4,650 volunteer hours to the communities where we live and work, engaging more than 1,260 employees at 75 events across the country.

2019 COMPENSATION HIGHLIGHTS

- Based on results relative to our pre-established goals, our annual incentive plan for executives ("EAIP"), achieved a quantitative result equal to 160% of target (with actual payout of 150% of target);
- The Compensation Committee remains committed to performance-based long-term incentive, or LTI, awards to incentivize targeted employees. In 2019, we awarded PSUs, RSUs and Stock Options to eligible employees, including our Named Executive Officers, with the LTI plan program providing balance between performance (through financial measures linked with stockholder value creation), share appreciation, and retention considerations;
- The PSUs granted in late 2017 (covering the 2018–2020 performance period) yielded a two-year result (based on actual 2018 and 2019 performance) of 129% since the applicable performance thresholds were each exceeded, with strong performance across the business, both operationally and financially;
- The PSUs granted in 2019 (covering the 2019–2021 performance period) yielded a one-year result (based on actual 2019 performance) of 122% since the applicable performance thresholds were each exceeded, with strong performance across the business, both operationally and financially;
- Clawback mechanism in place for incentive awards;
- No tax gross-ups for executive officers (other than for relocation expenses under a program that is generally available to all employees);
- Stock ownership guidelines applicable to certain executive officers (*i.e.*, the Chief Executive Officer ("CEO"), each Executive Vice President, and the President Vistra Retail), which includes all of our Named Executive Officers ("NEOs");
- "Double trigger" change in control and severance benefits that require both the occurrence of a change in control and a qualifying termination of the executive officer, meaning that the executive officers cannot trigger these benefits themselves; and
- Independent compensation consultant hired by and reporting to the Compensation Committee.

RECENT CORPORATE GOVERNANCE DEVELOPMENTS

The following highlights some recent developments in our corporate governance:

- In March 2020, the Board approved an amendment to the Company's restated bylaws and corporate governance policy to implement majority voting for directors in uncontested elections.
 - Effective beginning with the 2020 Annual Meeting, director nominees who receive more votes "for" their election than "against" their election will be elected to the Board.
 - Nominees who do not receive more "for" than "against" votes will continue to serve on the Board but will be required to tender their resignations to the Nominating and Governance Committee (the "Nominating Committee"), whereupon the Nominating Committee shall recommend to the Board whether to accept or reject the resignations. Those resignations will be effective upon the Board's acceptance of the resignations in its sole discretion, which decision shall occur within 90 days following certification of the election results. In the event of a contested election, plurality voting for directors will apply.
- The Board has approved and is recommending amendments to the Company's charter to declassify the Board and adopt annual elections for directors. See Proposal 1 in this Proxy Statement.
- In February 2020, the Board increased the size of the Board from 11 members to 12 members and appointed Arcilia Acosta and Lisa Crutchfield to the Board, effective immediately. Ms. Acosta fills the vacancy created when Cyrus Madon resigned from the Board in September 2019 and Ms. Crutchfield fills the newly created Board seat.
- In February 2020, Bruce Zimmerman and Geoffrey Strong delivered their resignations from the Board effective immediately prior to the start of the 2020 Annual Meeting. Effective immediately upon the resignations, the Board has decreased the size of the Board from 12 members to 10 members.

CORPORATE GOVERNANCE HIGHLIGHTS

Our corporate governance policies and structures include the following practices:

- Regular meetings of our non-management and independent directors, with 97% of meetings being attended by directors and applicable Committee members;
- Significant Board involvement in strategy development and comprehensive oversight of strategic, operational, and compliance risks;
- Regular executive sessions of independent directors;
- Separation of the Chairman of the Board (the "Chairman") and CEO positions;
- Policies prohibiting pledging and hedging transactions involving our Common Stock by directors and executive officers without Company approval;
- Stock ownership guidelines applicable to non-employee directors;
- Tracking of Board Education programs attended by directors with a recommendation that each director attend at least one Board Education program every two years;
- Expanding the responsibility of the former Risk Committee in July 2019 to create the Sustainability and Risk Committee, adding a Board source for advice and assistance to management in developing and implementing the Company's sustainability policies and practices; and
- Naming, in July 2019, a Chief Sustainability Officer to oversee the Company's strategic efforts regarding our environmental, social, and governance activities.

PROXY STATEMENT

What is the difference between holding shares as a stockholder of record and as a beneficial owner of shares held in street name?

- *Stockholder of Record.* If your shares are registered in your name with our transfer agent, American Stock Transfer & Trust Company, LLC (which may be referred to “AST” in the materials you receive), you are considered the stockholder of record with respect to those shares, and the Proxy Statement, Annual Report and proxy card were sent directly to you by us.
- *Beneficial Owner of Shares Held in Street Name.* If your shares are held in an account at a brokerage firm, bank, broker dealer or other similar organization, then you are the beneficial owner of shares held in “street name,” and a voting instruction form was forwarded to you by that organization with copies of the Proxy Statement and Annual Report. The organization holding your account is considered the stockholder of record for purposes of voting at the 2020 Annual Meeting. As a beneficial owner, you have the right to direct that organization on how to vote the shares held in your account.

If I am a stockholder of record of Vistra Energy’s shares, how do I vote?

If you are a stockholder of record you may vote over the internet by following the instructions provided in this Proxy Statement, by telephone, or, if you received printed copies of the proxy materials, you may also vote by mail. You may also vote at the 2020 Annual Meeting in person. The Control Number provided on your voting information form or proxy card is necessary to access this site. **Please review the materials provided to you and vote as soon as possible.**

If I am a beneficial owner of shares held in street name, how do I vote?

If you are a beneficial owner of shares held in street name, please refer to the proxy card or voting information form forwarded to you by your broker or other nominee to see what voting options are available to you. **Please review the materials provided to you and vote as soon as possible.**

What do I need to attend the 2020 Annual Meeting?

In order to attend the 2020 Annual Meeting, you must register in advance at www.proxydocs.com/VST prior to the deadline of April 22, 2020 at 5:00 pm Eastern Time. Upon completing your registration, you will receive further instructions via email, including your unique links that will allow you access to the meeting and will also permit you to submit questions. Please be sure to follow instructions found on your proxy card and/or voting instruction form and subsequent instructions that will be delivered to you via email.

What if during the check-in time or during the 2020 Annual Meeting I have technical difficulties or trouble accessing the virtual meeting website?

We will have technicians ready to assist you with any technical difficulties you may have accessing the virtual meeting website. If you encounter any difficulties accessing the virtual meeting website during the check-in or meeting time, please call the technical support number that will be posted on the 2020 Annual Meeting login page.

What happens if I do not give specific voting instructions?

Stockholder of Record. If you are a stockholder of record and you:

- indicate when voting on the internet or by telephone that you wish to vote as recommended by the Board; or
- if you sign and return a proxy card without giving specific voting instructions, then the proxy holders will vote your shares in the manner recommended by the Board on Proposals 1, 4, and 5, as well as Proposals 2 or 3, as applicable, in this Proxy Statement, and as the proxy holders may determine in their discretion with respect to any other matters properly presented for a vote at the 2020 Annual Meeting.

Beneficial Owner of Shares Held in Street Name; “Broker Non-Votes.” If you are a beneficial owner of shares held in street name and do not provide the organization that holds your shares with specific voting instructions, under the rules of the New York Stock Exchange (“NYSE”), the organization that holds your shares may generally vote on routine matters but cannot vote on non-routine matters, as determined by the stock exchange. If the organization that holds your shares does not receive instructions from you on how to vote your shares on a non-routine matter, the organization that holds your shares will inform our Inspector of Election that it does not have the authority to vote on this matter with respect to your shares. This is generally referred to as a “broker non-vote.” **For example, please note that brokers may not vote your shares on the election of directors, the proposal regarding named executive**

officer compensation or the Charter Amendment (Proposals 1, 2, 3 and 4) in the absence of your specific instructions as to how to vote. Please provide your broker with voting instructions as soon as possible so that your vote can be counted.

Which ballot measures are anticipated to be considered “routine” or “non-routine”?

The following chart indicates which matters we believe will be considered routine and which we believe will be considered non-routine.

Routine	<ul style="list-style-type: none"> Proposal 5 (Ratification of Appointment of Independent Registered Public Accountants)
Non-Routine	<ul style="list-style-type: none"> Proposal 1 (Charter Amendment) Proposal 2 (Election of Directors if Charter Amendment is Approved) Proposal 3 (Election of Directors if Charter Amendment is Not Approved) Proposal 4 (Advisory Vote on 2019 Compensation of the Named Executive Officers)

A broker will be able to vote “FOR” Proposal 5 in the absence of your voting instructions if you beneficially own your shares in street name. We encourage you to provide voting instructions to the organization that holds your shares by carefully following the instructions provided in this Proxy Statement.

What are the voting requirements for each proposal, and how will abstentions and broker non-votes treated?

For the purpose of determining whether a quorum is present, abstentions and broker non-votes shall be counted in determining the number of outstanding shares represented in person or by proxy for each matter.

The following table sets forth the voting requirement with respect to each of the proposals, including the treatment of abstentions, withhold votes, and broker non-votes:

Proposal	Vote Required	Effect of Broker Non-Votes	Effect of Abstentions or Withhold Votes
Charter Amendment to declassify the Board	Affirmative vote of at least a majority of shares of our Common Stock outstanding and entitled to vote thereon	Counted as vote, with the same effect as a vote “Against”	Abstentions counted as vote, with the same effect as a vote “Against”
Election of 10 Directors to serve on the Board until the 2021 Annual Meeting, if the Charter Amendment is approved	Nominees who receive more FOR votes than AGAINST votes will be elected. In a contested election, nominees who receive the most FOR votes among votes properly cast in person or by proxy will be elected.	No effect. Brokers have no discretion to vote	Withholds have no effect
Election of 4 Directors to serve on the Board as Class I directors until the 2023 Annual Meeting, if the Charter Amendment is not approved	Nominees who receive more FOR votes than AGAINST votes will be elected. In a contested election, nominees who receive the most FOR votes among votes properly cast in person or by proxy will be elected.	No effect. Brokers have no discretion to vote	Withholds have no effect
Advisory Vote on our 2019 Named Executive Officer Compensation	Affirmative vote of at least a majority of the voting power represented in person or by proxy at the meeting and entitled to vote thereon	No effect. Brokers have no discretion to vote	Abstentions counted as vote, with the same effect as a vote “Against”
Ratification of Independent Registered Public Accountants for 2020	Affirmative vote of at least a majority of the voting power represented in person or by proxy at the meeting and entitled to vote thereon	Brokers have discretion to vote	Abstentions counted as vote, with the same effect as a vote “Against”

PROPOSAL 1 – CHARTER AMENDMENT TO DECLASSIFY THE BOARD AND PROVIDE FOR ANNUAL ELECTIONS OF ALL DIRECTORS COMMENCING WITH THE 2020 ANNUAL MEETING

We are asking you to approve an amendment to the Company's Certificate of Incorporation (the "Charter") to declassify the Board and provide for annual elections of all directors commencing with the 2020 Annual Meeting (the "Charter Amendment"). The Board has unanimously adopted, approved and declared advisable the Charter Amendment and recommends that stockholders approve and adopt the Charter Amendment.

Charter Amendment

Article V of the Charter currently provides that the Board shall be divided into three classes, with members of each class of directors serving a three-year term. As a result, at each annual meeting of stockholders, approximately one-third of our directors stand for election. The current terms of our director classes expire as follows: Class I—the 2020 Annual Meeting; Class II—the 2021 Annual Meeting and Class III—the 2022 Annual Meeting. If the Charter Amendment is adopted and becomes effective, directors will be elected for terms expiring at the next annual meeting of stockholders following their election, and directors appointed to vacant or newly created directorships will also serve for terms expiring at the next annual meeting of stockholders following their appointment as directors.

The Board regularly reviews matters related to the size, structure, composition and functioning of the Board, with assistance from the Nominating Committee. As part of these reviews, the Board has considered arguments in support of annual director elections and classified boards. Many stockholders and other commentators believe that electing all directors annually is a sound corporate governance practice. By contrast, it has been argued that a classified board structure can help to promote stability and continuity of leadership, and to achieve value for stockholders in the event of an unsolicited takeover bid by allowing the board to negotiate on their behalf without the threat of imminent removal of a majority of board members. Following its most recent consideration of the issue, the Nominating Committee recommended to the Board that a proposal to amend the Company's Charter to provide for annual elections for all directors commencing with the 2020 Annual Meeting be submitted to the stockholders for approval. Upon the recommendation of the Nominating Committee, the Board has determined that declassification of the Board is advisable and in the best interests of the Company and its stockholders.

Under Delaware corporate law, directors of companies that have a classified board structure may be removed only for cause unless the certificate of incorporation provides otherwise. However, directors of companies that do not have a classified board may be removed with or without cause. Accordingly, the Charter Amendment also provides that directors may be removed either with or without cause. Removal will continue to be governed by the default standard under Delaware corporate law, which requires approval by the holders of a majority of the outstanding shares of Common Stock entitled to vote thereon. If the Charter Amendment is approved, it would be easier for one or more stockholders holding a large number of shares, whether an existing or long-term stockholder or one that accumulates a large position in or for a short period of time, to replace the entire Board at once.

If the Charter Amendment to declassify the Board is adopted and approved by our stockholders at the 2020 Annual Meeting, immediately following such vote, we will make the appropriate filing with the Secretary of State of Delaware so that the Charter Amendment to declassify the Board will be in effect immediately upon such filing. We expect to make this filing before the vote is taken to elect directors at the Annual Meeting so that if the Charter Amendment to declassify the Board is adopted it will be effective when the vote is taken to elect directors. Effective immediately prior to the start of the 2020 Annual Meeting, Geoff Strong and Bruce Zimmerman resigned as directors and the Board reduced the number of directors to 10. In addition, the director nominees currently serving in Class II and Class III have tendered contingent resignations from their current three-year terms, conditioned upon the approval of the Charter Amendment. These resignations will take effect immediately upon completion of the vote to elect directors only in the event that the Charter Amendment takes effect. Thus, if the Charter Amendment to declassify the Board in this Proposal 1 is approved, then 10 members of the current Board will be standing for election at the 2020 Annual Meeting and, if elected, will serve for terms expiring at the 2021 Annual Meeting. Alternatively, if the Charter Amendment to declassify the Board in this Proposal 1 is not adopted, then only the four Class I director nominees will be standing for election at the 2020 Annual Meeting and, if elected, will serve on the Board until the 2023 Annual Meeting. In that case, directors still serving in Class II and Class III will continue in office until their respective terms expire, or until their earlier death, resignation, disqualification or removal.

Related Bylaw Amendments

In connection with the Charter Amendment, the Board approved conforming amendments to Article III, Sections 3.3 and 3.4 of our Restated Bylaws (“Bylaws”), contingent upon stockholder approval and implementation of the Charter Amendment. The Bylaw amendments provide that directors appointed to fill vacant and newly created directorships will serve for a term that expires at the next annual meeting and that directors may be removed with or without cause upon a vote of holders of a majority of the outstanding shares entitled to vote thereon. If the Charter Amendment is not approved, the Bylaw amendments will not take effect.

Additional Information

The foregoing description of the Charter Amendment is a summary and is qualified by and subject to the full text of the proposed amendment, which is attached to this Proxy Statement as Appendix A. Additions of text to our Charter contained in Appendix A are indicated by double underlining and deletions of text are indicated by strike-outs.

The affirmative vote of a majority of the shares of our common stock outstanding on the Record Date is required for approval of the proposal to amend our Certificate of Incorporation.

DIRECTOR NOMINATION PROCESS AND QUALIFICATION OVERVIEW OF DIRECTORS

Director Qualifications

In addition to each director's individual qualifications, including his or her knowledge, skills and experience mentioned above, the Company believes that each of our directors possesses high ethical standards, acts with integrity, and exercises careful judgment. Each is committed to employing his or her skills and abilities in the long-term interests of the Company and our stockholders. Collectively, our directors are knowledgeable and experienced in business, governmental, and civic endeavors, further qualifying them for service as members of the Board.

Any director nominee is evaluated in accordance with the qualifications set forth in our Corporate Governance Guidelines and the other characteristics that we value as part of our corporate culture. We require that directors possess the highest personal and professional ethics, integrity and values and be committed to representing the long-term interests of our stockholders at large. They must also have an inquisitive and objective perspective, practical wisdom, mature judgment and sufficient personal resources such that any director compensation to be received from the Company would not be sufficiently meaningful to impact their judgment in reviewing matters coming before the Board. Finally, they must be able to work compatibly with the other members of the Board and otherwise have the experience and skills necessary to enable them to serve as productive Board members. Directors also must be willing to devote sufficient time to carrying out their fiduciary duties and other responsibilities effectively and should be committed to serve on the Board for an extended period of time. For additional information, please read our Corporate Governance Guidelines.

In connection with the director nominations for the 2020 Annual Meeting, the Nominating Committee also considered the director nominees': (1) knowledge of corporate governance issues, coupled with an appreciation of their practical application; (2) service as a director or executive of a publicly traded company and other board experience; (3) experience in the energy and utility industry and understanding of the energy and commodity markets; (4) finance and accounting expertise, including audit, internal controls, risk management and cybersecurity experience; (5) experience in and knowledge of commercial and market risk assessment and management; (6) knowledge in the areas of laws and regulations related to environmental, health, safety, regulatory and other key industry issues; (7) strategic planning skills; and (8) experience in transactional and capital markets matters.

PROPOSALS 2 & 3 – ELECTION OF DIRECTORS

Each director nominee brings a strong and unique background and set of skills to the Board, giving the Board as a whole competence and experience in a wide variety of areas, including energy, wholesale power generation and marketing, commodities, risk management, strategic planning, legal, corporate governance and board service, executive management, regulatory and policy development, accounting and finance, and operations. For information concerning each director's various qualifications, attributes, skills and experience considered important by the Board in determining that such nominee should serve as a director, as well as each nominee's principal occupation, directorships and additional biographical information, please read the section entitled "Director Expertise" on page 4 and "Director Nominee Biographies" beginning on page 13.

Director Selection Process

The Nominating Committee is responsible for identifying individuals qualified to become Board members and recommending to the Board the nominees for election as directors of the Company. The Nominating Committee's policy is to consider recommendations for such director nominees, including those submitted by current directors, members of management, or by stockholders, on the bases described below. In this regard, stockholders may recommend director nominees by writing to the Nominating Committee c/o the Corporate Secretary of the Company, 6555 Sierra Drive, Irving, Texas 75039. Any such recommendations from stockholders received by the Corporate Secretary of the Company will be promptly provided to the Nominating Committee. Recommendations to be considered by the Nominating Committee for the 2021 Annual Meeting should be submitted as described under "Advance Notice Stockholder Proposals or Nominations" on page 11.

The Nominating Committee annually reviews the composition of the Board as a whole and recommends, if necessary, measures to be taken so that the Board reflects the appropriate balance of knowledge, experience, skills, expertise and diversity required for the Board as a whole and contains at least the minimum number of independent directors required by applicable laws and regulations.

Identification of Candidates and Diversity

The Nominating Committee identifies director nominees in various ways. In identifying and evaluating director nominees, the Nominating Committee may consult with members of the Board, Company management, consultants, and other individuals likely to possess an understanding of the Company's business and knowledge of suitable candidates. In 2019, the Company engaged a search firm to identify and coordinate the interviews of potential directors. In making its recommendations, the Nominating Committee assesses the requisite skills and qualifications of director nominees and the composition of the Board as a whole in the context of the Board's criteria and needs. Such assessments will be consistent with the Board's criteria for membership, including: (i) not less than a majority of directors shall satisfy the NYSE's independence requirements; (ii) all directors shall possess strong judgment, character, integrity, expertise, skills and knowledge useful to the oversight of the Company's business; business, governmental, civic or other relevant experience; and (iii) consideration will be given to the extent to which the interplay of the director nominee's qualifications and diversity of cultural background, gender, experience and viewpoints with those of other Board members will build a Board that is effective, in light of the Company's business and structure. The Nominating Committee does not assign specific weights to particular criteria, and no particular criterion is necessarily applicable to all Board members. While the Company does not have a formal diversity policy, the Nominating Committee will consider diversity criteria in the context of the perceived needs of the Board as a whole and seek to achieve a diversity of backgrounds and perspectives on the Board. The Board is asked to assess whether the Board is appropriately diverse as part of the annual evaluation of the Board.

Ms. Acosta was appointed to the Board as a Class II director and will stand for election at the 2021 Annual Meeting if the Charter Amendment is not passed. Ms. Crutchfield was appointed to the Board as a Class III director and will stand for election at the 2022 Annual Meeting if the Charter Amendment is not passed. Mses. Acosta and Crutchfield were participants in the director search conducted by a third-party search firm.

Board Evaluation Process

The Board recognizes that a rigorous evaluation process is an essential component of strong corporate governance practices and promoting ongoing Board and Committee effectiveness. Consistent with best practice, the Company's Corporate Governance Guidelines and each of the Committees' Charters, the Nominating Committee oversees the annual evaluation of the performance of the Board and the Committees, with the Chairman maintaining a substantial role in facilitating discussion among the Board and the Committees.

As part of the evaluation process, the Board and each Committee reviews the following:

- Performance of the Board and each Committee, including areas where the Board and each Committee feels it functions effectively and areas where the Board and each Committee believes it can improve;
- Overall composition of the Board and each Committee, including director tenure, board leadership structure, Committee membership tenure, diversity, and individual skill sets;
- General board best practices, including oversight responsibilities and Committee duties;
- Culture to promote candid discussion within the Board and with senior management;
- Focus on risk management and strategic matters, including evaluation of transactions and emerging technologies, regulatory and legal developments, and commercial and market factors; and
- Ability to ensure the Board serves the best interests of our stockholders and positions the Company for future success.

Additionally, the Board reviews its meeting schedule, the quality and depth of information presented at each meeting, and the organization and operation of the Board and the Committees. The Committees are evaluated on their effectiveness in fulfilling delegated responsibilities, the appropriateness of Committee materials, and the sufficiency of time to deliberate and for robust discussion. The Board and Committee evaluation framework and process is conducted and reviewed annually.

As part of the two-part annual evaluation process involving the full Board evaluation and Committee evaluations, the Board responds to a comprehensive written questionnaire designed to provide a holistic evaluation of the performance of the Board and each Committee in light of the current needs of the Board and the Company. In 2019, 100% of directors participated in the Board and Committee evaluation process. To protect anonymity and the integrity of the evaluation process, an independent third party (the Company's outside counsel) compiles responses to these evaluations into a report, which is initially provided to the Chairman. The Chairman is provided ample time to further discuss the results with the Company's outside counsel. The report, including evaluation results and specific areas of focus for each Committee and the Board itself, is then presented to each Committee and the full Board in executive session to encourage candid discussion and feedback, and specific areas are discussed where the Board would like to focus to enhance its effectiveness.

After receiving feedback from the Chairman on any action items resulting from the Board and Committee discussions, the Corporate Secretary utilizes the results of the evaluations and discussions when developing workplans, formulating succession plans, and preparing board candidate evaluations for the upcoming year and thereafter.

BUSINESS RELATIONSHIPS AND RELATED PERSON TRANSACTIONS POLICY

As set forth in the Corporate Governance Guidelines, the Board has adopted a written policy relating to the approval of transactions with related parties. In general, for purposes of our policy, a related party transaction is a transaction to which we are a party, or a material amendment to any such transaction, and with respect to which a related party is directly, or to our knowledge, indirectly, a party. Our policy requires that a related person transaction will only be permitted if: (i) the Audit Committee approves or ratifies the transaction in accordance with the policy (which requires that the transaction be on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party), (ii) the disinterested members of the Board as a whole review and approve the transaction or (iii) the transaction involves compensation approved by the Compensation Committee. BOARD RISK OVERSIGHT

In the normal course of business, the Company is exposed to a variety of risks. For a complete description of the risk factors associated with our business, see Part I, Item 1A "Risk Factors" of our 2019 Annual Report on Form 10-K, which is included in our Annual Report.

PROPOSALS 2 & 3 – ELECTION OF DIRECTORS

The Board has ultimate responsibility for protecting stockholder value. Among other things, the Board is ultimately responsible for understanding the risks to which we are exposed, approving management’s strategy to manage these risks, establishing policies and procedures that monitor and manage defined risks and measuring management’s performance against the strategy. The Committees, especially the Audit Committee and Sustainability and Risk Committee (originally constituted as the Risk Committee in July 2018 and expanded to Sustainability and Risk Committee in October 2019), play an important role in support of the Board’s oversight function. Risk oversight includes understanding the material risks to the business and what steps management is taking or should be taking to manage those risks, as well as understanding and determining the appropriate risk appetite for the Company. To define the Company’s risk appetite, the Board reviews and approves the annual business plan, budget and long-term plan, strategic initiatives, acquisitions and divestitures, capital markets transactions, financings, capital allocation and capital structure.

The Board conducts its risk oversight function in several ways. The Board monitors, reviews and responds to strategic, commercial, market, financial, sustainability and corporate risks facing the Company by receiving periodic reports from the management team, and through the Committees. While the Committees each have their delegated responsibilities for identifying and addressing risks, the Board primarily conducts this oversight function through the Sustainability and Risk Committee, which oversees the enterprise risk management process and assesses certain enterprise risks and market, commercial and risk management matters, and the Audit Committee, which oversees risks relating to accounting, internal audit and controls. On an annual basis, the Sustainability and Risk Committee provides, and the Board reviews, a detailed enterprise risk report. Additionally, on a quarterly basis, the Sustainability and Risk Committee reviews an enterprise risk assessment and provides a report thereof to the Board. Further, the Board conducts periodic reviews of risks on an ongoing and as-needed basis and receives updates from management during the year on any particular matters relating to risk management or risk controls that management believes need to be brought to the attention of the Board.

The Board recognizes the importance of maintaining the trust and confidence of our customers and employees. To more effectively prevent, detect and respond to information security threats, the Company has a dedicated Chief Information Officer whose team is responsible for leading enterprise-wide information security strategy, policy, standards, architecture and processes. The Board receives reports on, among other things, the Company’s cybersecurity risks and threats, the status of projects to strengthen the Company’s information security systems, assessments of the Company’s security program and the emerging threat landscape. Additionally, the Board and Sustainability and Risk Committee monitor the ways in which the Company attempts to prudently minimize risks, to the extent reasonably practicable and consistent with the Company’s long-term strategies.

The table below summarizes the significant role the various Board Committees or similar bodies play in carrying out the risk oversight function.

COMMITTEE	RISK OVERSIGHT FOCUS AREA
Audit Committee	Oversees and assesses financial risks, which includes reviewing and discussing with management the Company’s risk disclosures in the Company’s annual reports to the Securities and Exchange Commission; reviewing and discussing the risk of fraud with management, the internal audit executive and the independent auditor and reviewing the implementation of controls to mitigate fraud risks; considering the risk of management’s ability to override the Company’s internal controls; and overseeing significant tax risks and issues affecting the Company.
Compensation Committee	Oversees risks related to our compensation policies and practices and succession planning, with input from management and the Compensation Committee’s independent outside compensation consultant, Willis Towers Watson.
Sustainability and Risk Committee	Oversees (i) greenhouse-gas related risks, including transition, regulatory, reputational, and/or market risks related to climate change, and management’s process for the identification, evaluation, and mitigation of transition risks related to climate change and (ii) certain enterprise risks and other risks related to commercial, credit, liquidity and market risks, including our trading of fuel, transportation, energy and related products and services and regulatory compliance, and the Company’s assessment and management of the risks associated with such activities.

The Chairs of each of the Committees regularly report to the Board on matters reviewed by their respective Committees, thereby providing the Board with the opportunity to identify and discuss any risk-related issues or request additional information from management or the Committees that may assist the Board in its risk oversight role. To this end, risk-related issues presented to the Committees are routinely presented to the full Board to ensure proper oversight.

Additionally, the Company has established a Nuclear Oversight Advisory Board (“NOAB”), which oversees and provides reports to the Board on an as-needed basis, but no less than annually, regarding various risks and strategic considerations related to our ownership and operation, directly or indirectly, of interests in our Comanche Peak nuclear power plant. The NOAB is comprised of Dr. Richard Meserve, Chair, Bill Borchardt, Mr. Morgan and Mr. Burke. Dr. Meserve, who has served as the Chair of the NOAB since 2012, is a former Chairman of the U.S. Nuclear Regulatory Commission (“NRC”). Mr. Borchardt, who has served as a member of the NOAB since 2014, previously held several leadership positions at the NRC including, most recently, as the NRC’s Executive Director of Operations from 2008 to 2013.

In addition to the above-described committee structure, the Company has a Risk Management Policy, which is administered by the Chief Risk Officer, who oversees various risk management efforts and regularly reports to the Sustainability and Risk Committee regarding enterprise risk management and assessment matters. As part of the Risk Management Policy, the Company maintains a Risk Management Committee whose role is to measure and monitor compliance with the Risk Management Policy, and its membership is comprised of various executives from key management positions; namely, the CEO, CFO, Chief Compliance Officer, Chief Operating Officer, Chief Commercial Officer, Chief Risk Officer, President of Retail, Controller, Treasurer, and Vice President of Regulatory Compliance – Trading and Generation. The Risk Management Policy establishes guidelines necessary for the Company to effectively manage the market, credit, operative and regulatory risk of its commodities portfolios.

As outlined in our Risk Management Policy, the Board has established relevant delegation of authority thresholds, which together with our Code of Conduct and other support relationships with members of the External Affairs, Internal Audit, Legal, Human Resources, Technology Services, and Compliance teams, are complementary and critical to the risk management process. In particular, and in addition to the oversight role performed by the Risk Management Committee, the Board has delegated certain authority, subject to various term/tenor and dollar value thresholds, to the Company’s Commitments Committee as further set forth in the Company’s Commitments Policy. The Commitments Policy establishes a framework for the Company to evaluate and approve all significant commitments and transactions made by the Company that have not otherwise been approved by the Board. The Commitments Committee is comprised of the Company’s CEO, CFO, Chief Operating Officer, Chief Administrative Officer, and General Counsel. The Board periodically reviews and revises the delegation of authority thresholds to appropriately balance business needs and its oversight function.

Executive Compensation and Oversight of Risks Related to Compensation Policies

During 2019, the Compensation Committee consisted of three directors: Gavin R. Baiera, Paul M. Barbas, and Jeff D. Hunter (appointed in February 2019). Beginning in February 2020, the Compensation Committee membership was comprised of Mr. Baiera (Chair), Arcilia Acosta, and John R. Sult. The primary responsibilities of the Compensation Committee are to:

- determine and oversee the compensation philosophy, objectives, and program of the Company and our subsidiaries, including making recommendations to the Board with respect to the adoption, amendment or termination of compensation and benefits plans, arrangements, policies and practices;
- evaluate the performance of the Company’s President and CEO, Curtis A. Morgan; James A. Burke, Executive Vice President and Chief Operating Officer; David A. Campbell, Executive Vice President and CFO; Scott A. Hudson, President Vistra Retail; and Stephen J. Muscato, Executive Vice President and Chief Commercial Officer (collectively, the “Named Executive Officers”); and
- recommend the executive compensation of the CEO to the full Board and approve executive compensation of the executive officers (other than the CEO) based on those evaluations.

As described above, the Compensation Committee is responsible for overseeing risks related to our compensation policies, practices, and programs for all employees. To assist the Compensation Committee with determining whether

PROPOSALS 2 & 3 – ELECTION OF DIRECTORS

the Company's compensation policies and practices subject the Company to unnecessary risk or could potentially motivate employees to take excessive risk, the Compensation Committee periodically evaluates, including seeking input from management and our independent compensation consultant, our compensation strategy to ensure:

- base salaries are market-based and a sufficient component of total compensation to discourage risk taking;
- earnings goals under the Company's EAIP are based upon its audited financial statements and the Company believes that the goals are attainable without the need to take inappropriate risks or make material changes to the Company's business or strategy;
- Named Executive Officers who receive payment under the EAIP and the Company's 2016 Incentive Plan may be required to reimburse the Company for all or a portion of the payment (commonly referred to as a "clawback") if the Company has to prepare an accounting restatement because it is in material noncompliance with any financial reporting requirements;
- the Company uses awards under the 2016 Incentive Plan that are typically based upon factors that affect relative total stockholder return over three-year periods, such as the relative Performance Share Unit ("PSU") awards, which mitigates short-term risk taking;
- because incentive compensation has a large equity component, value is best realized through long-term appreciation of stockholder value, especially when coupled with the executive stock ownership guidelines, which expose those officers subject to the guidelines—namely the CEO, each Executive Vice President and the President Vistra Retail—to loss of the value of the retained equity if stock appreciation is jeopardized; and
- the use of incentive compensation components that are paid or vest over an extended period mitigates against unnecessary or excessive risk taking.

Board Leadership Structure

As set forth in our Corporate Governance Guidelines, the Board does not have a policy with respect to the separation of the offices of the Chairman and CEO. The Board believes that this issue is part of the succession planning process and that it is in the best interests of the Company for the Board to make a determination regarding this issue any time it elects a new CEO and thereafter as deemed appropriate.

During 2019, the Company maintained separate CEO and Chairman roles. The Company has determined this to be the appropriate leadership structure at this time to maintain independent Board leadership that can still benefit from the insight of our CEO. If a different determination is made in the future regarding the separation of the Chairman and CEO positions, such that the CEO is the Chairman, a Lead Director shall be elected by the non-management directors of the Board to: (i) serve as a liaison between the Chairman and the independent directors, (ii) lead executive sessions of the Board, (iii) have authority to call meetings of the independent directors, (iv) lead the Board in discussions concerning the CEO's employment and performance and CEO succession, (v) if requested by major stockholders, be available for consultation and director communication, and (vi) perform such other duties and responsibilities as requested by the Board.

BENEFICIAL OWNERSHIP OF COMMON STOCK OF THE COMPANY

The following table sets forth information, as of March 1, 2020 (unless noted otherwise), regarding the beneficial ownership of our Common Stock by: (1) each of our current directors and nominees for director; (2) each of our current named executive officers; (3) all of our directors and executive officers as a group; and (4) each person or entity we know that beneficially owns more than 5% of our outstanding shares of Common Stock.

Beneficial ownership for the purposes of this table is determined in accordance with the rules and regulations of the SEC. Under such rules, beneficial ownership includes any shares as to which a person has sole or shared voting power or investment power and any shares that the stockholder has the right to dispose of or acquire within 60 days of March 1, 2020. Common stock subject to options, regardless of whether such arrangement is currently in the money, that are currently exercisable within 60 days of March 1, 2020, are deemed to be outstanding and beneficially owned by the holder of the options, and Common Stock issuable upon vesting of restricted stock units ("RSUs") that are vested, or will vest within 60 days of March 1, 2020, is deemed to be outstanding and beneficially owned by the holder of such RSUs. The shares underlying any outstanding options or RSUs, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other stockholder.

Percentages of beneficial ownership are based on 487,945,781 shares of Common Stock outstanding as of March 1, 2020. Except as disclosed in the footnotes to this table, we believe that each stockholder identified in the table possesses sole voting and investment power over all shares of Common Stock shown as beneficially owned by the stockholder. All percentages and share amounts are approximate based on current information available to us. The information available to us may be incomplete.

COMPENSATION DISCUSSION AND ANALYSIS

EXECUTIVE SUMMARY

The objectives of our executive compensation program are to align executives' interests and those of our stockholders in accordance with the Company's compensation philosophy. This Compensation Discussion and Analysis ("CD&A") describes the elements, implementation, and 2019 results of our executive compensation program.

At our 2019 Annual Meeting of Stockholders, we received over 98% support for our say-on-pay proposal. As a result, we believe that our stockholders recognize that our compensation philosophy reflects our commitment to pay for performance.

Additionally, we completed several activities to enhance our earnings, expand our geographical footprint, increase our retail marketing channels, reduce and lower the cost of our debt, invest in our communities by enhancing our sustainability efforts, and create significant stockholder value as further described in the section entitled "2019 Business Highlights" beginning on page 1 of this Proxy Statement.

Compensation Philosophy

Vistra Energy has a pay-for-performance compensation philosophy, which places an emphasis on pay-"at-risk"; a significant portion of our executive officers' compensation is comprised of variable compensation. Vistra Energy's compensation program is intended to attract and motivate top-talent executive officers as leaders and compensate executive officers appropriately for their contribution to the attainment of Vistra Energy's financial, operational and strategic objectives. In addition, Vistra Energy believes it is important to retain our top-tier talent and strongly align their interests with our stockholders by emphasizing incentive-based compensation. To achieve the goals of our compensation philosophy, Vistra Energy believes that:

- the overall compensation program should emphasize variable compensation elements that have a direct link to overall corporate performance and stockholder value;
- the overall compensation program should place an increased emphasis on pay-at-risk with increased levels of responsibility;
- the overall compensation program should attract, motivate, engage and retain top-talent executive officers to serve in key roles; and
- an executive officer's individual compensation level should be based upon an evaluation of the financial and operational performance of that executive officer's business unit or area of responsibility as well as the executive officer's individual performance.

COMPENSATION DISCUSSION AND ANALYSIS**PERFORMANCE OVERVIEW**

In this section, *Vistra Energy* provides highlights of our performance in 2019, reflecting factors considered by the Compensation Committee in assessing variable pay outcomes for the Named Executive Officers.

SUMMARY OF THE KEY FEATURES OF OUR EXECUTIVE COMPENSATION PROGRAM

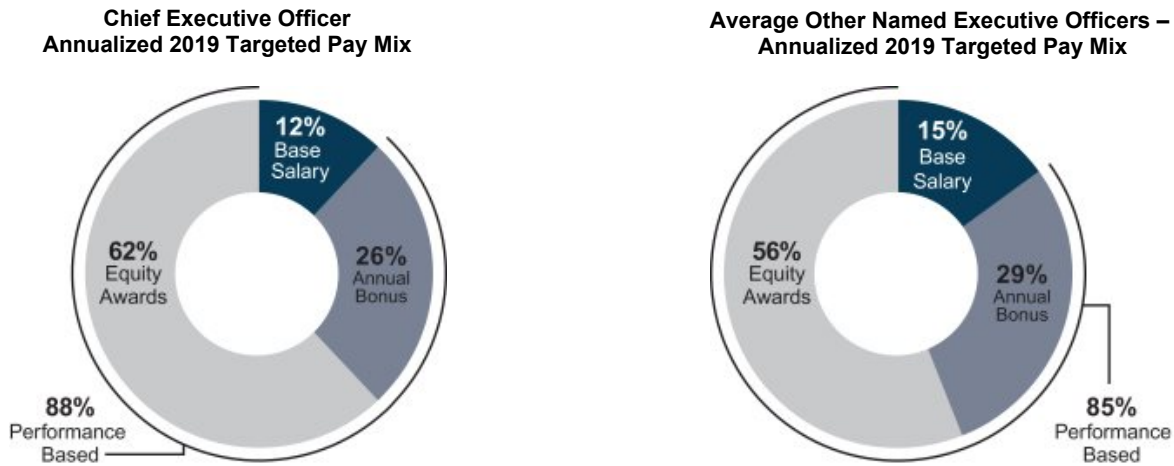

We Do...	We Do Not...
✓ Pay for Performance using a compensation structure that includes performance-based Executive Annual Incentive Plan (“EAIP”) and long-term incentive plan awards that are aligned with stockholder interests	× Offer supplemental executive retirement plan benefits × Engage in option backdating or re-pricing
✓ Provide long-term incentive plan awards that are substantially performance-based and include Performance Share Units	× Permit hedging or pledging of our Common Stock by Directors or Officers without Company approval × Provide excise tax gross-ups upon a change in control
✓ Have change in control benefits that are subject to “double trigger” provisions, requiring both the occurrence of a change in control event and an involuntary termination	× Provide any material perquisites to executives, other than reimbursement for relocation expenses, executive physicals, and financial planning and tax advice
✓ Maintain stock ownership requirements for our CEO and other NEOs that require attainment of ownership levels before equity transactions can occur	× Encourage excessive risk or inappropriate risk taking through our incentive programs; our plans focus on aligning our compensation policies with the long-term interests of our stockholders
✓ Have a clawback mechanism in place	× Guarantee bonuses
✓ Have an independent compensation consultant that reports directly to the Compensation Committee	× Provide loans from the Company to any executives or directors
✓ Conduct an annual risk assessment to ensure that the structure and design of our compensation programs are not reasonably likely to result in excessive risk-taking that could have a material adverse impact on the Company	

Emphasis on “At Risk” Performance-Based Pay

Base salary and other fixed elements of compensation are essential to any compensation program and relevant to the recruitment and retention of top talent. However, we believe that “at risk” compensation for our most senior executives should represent a significant portion of their pay mix. Our 2019 compensation reflects this philosophy. For 2019, 88% of our CEO’s compensation and 85% of our other Named Executive Officers’ targeted compensation (*i.e.*, base salary, annual short-term incentives and long-term incentives) was “at risk” compensation directly contingent on performance. Actual annual bonus and long-term incentive awards are subject to the achievement of pre-established performance targets and designed to link directly to enhanced shareholder value.

The following charts illustrate the 2019 pay mix for our CEO and the average pay mix for the other Named Executive Officers.

2019 Named Executive Officer Compensation Overview *

* Totals reflected in charts exclude other de minimis compensation amounts paid to the Named Executive Officers and amounts paid to Mr. Holden from January 1, 2019 through June 5, 2019. Please see “Summary Compensation Table—2019” beginning on page 54 for details regarding the 2019 compensation of the Named Executive Officers.

Performance Highlights

Vistra Energy’s Executive Annual Incentive Plan places the greatest weighting on a combination of (i) Adjusted EBITDA(1), (ii) total costs and (iii) Adjusted Free Cash Flow before Growth(2). Together, these metrics are designed to drive the organization’s focus on achieving business results while exercising discipline in cost decisions. As seen below, Adjusted EBITDA exceeded its target for 2019 while cost management outperformed its target and Adjusted Free Cash Flow before Growth significantly exceeded its target, collectively contributing to strong incentive plan payouts.

2019 EAIP Performance Summary; Select Metrics(3)	Target	Actual	Percentage of Target
Vistra Energy Adjusted EBITDA (\$ mm)	\$3,260	\$3,287	100.8%
Cost Management (\$ mm)	\$2,677	\$2,485	107.7%
Adjusted Free Cash Flow before Growth (\$mm)	\$2,055	\$2,231	108.6%

- (1) Adjusted EBITDA means adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) as adjusted for unrealized gains or losses from hedging activities, tax receivable agreement impacts, reorganization items, and certain other items described from time to time in Vistra Energy’s earnings releases.
- (2) Adjusted Free Cash Flow before Growth means adjusted free cash flow, which reflects cash from operating activities excluding changes in margin deposits and working capital and adjusted for certain non-standard capital expenditures, including capital expenditures for growth investments, other net investment activities, preferred stock dividends, and other items determined from time to time in Vistra Energy’s earnings releases.
- (3) Additionally, certain adjustments were made to EAIP metric results to drive consistency between metric target levels established at the beginning of the year and actual performance results. The aggregate impact of these adjustments resulted in a reduction to EAIP results. Specific adjustments include: Adjusted EBITDA, Adjusted Free Cash Flow before Growth (FCFbG), and Total Cost metrics exclude net favorable impacts from the mid-year acquisitions of Crius and Ambit; Adjusted EBITDA and Adjusted FCFbG exclude the margin timing impact from signing long-term retail deals at backwarddated power curves; Adjusted FCF includes the net unfavorable impact of future payments to third parties related to the transfer of liabilities for several non-operating sites in the Asset Closure Segment (ACS) and the remaining Alternative Minimum Tax (AMT) refund received in February, 2020.

COMPENSATION DISCUSSION AND ANALYSIS

CORPORATE GOVERNANCE PRACTICES

In this section, *Vistra Energy* provides details of its corporate governance framework, procedures and practices as they relate to Named Executive Officer compensation.

Role of the Compensation Committee

Vistra Energy's Compensation Committee is currently comprised of three independent directors (Gavin R. Baiera, (Chair), Arcilia Acosta, and John R. Sult), whose primary responsibilities are to:

- Determine and oversee the compensation philosophy, objectives, and program of Vistra Energy, including making recommendations to the Board with respect to the adoption, amendment or termination of compensation and benefits plans, arrangements, policies and practices;
- Evaluate the performance of Vistra Energy's executive officers;
- Approve compensation of Vistra Energy's executive officers (other than the CEO) based on those evaluations, together with the CEO's recommendations; and
- Recommend CEO compensation to the full Board for approval.

Governance Structure

The Compensation Committee's charter can be found on Vistra Energy's website at: www.vistraenergy.com/Compensation-Committee-Charter

Advisors to the Compensation Committee

Independent Advisors

During 2019, Willis Towers Watson provided ongoing advisory services to Vistra Energy and the Compensation Committee on various aspects of Vistra Energy's executive compensation practices, including, but not limited to, the development of the compensation structure. For fiscal year 2019, the aggregate fees paid to Willis Towers Watson for executive compensation services totaled \$207,500. Willis Towers Watson also provided other services to the Company during fiscal year 2019 at the request of Company management. The aggregate fees for the additional services totaled \$428,000, primarily related to the legacy Dynegy pension plan.

The Compensation Committee discussed the independence of Willis Towers Watson and whether the provision of the additional services created a conflict of interest. In doing so, the Committee considered each of the factors set forth in Rule 10C-1(b)(4) under the Securities Exchange Act of 1934, as amended, and NYSE rules. As part of its review, the Committee received a letter from Willis Towers Watson that discussed its independence and provided relevant disclosure regarding the SEC and NYSE factors. In accordance with its charter, the Compensation Committee determined that Willis Towers Watson is sufficiently independent to appropriately advise the Compensation Committee on compensation matters and that its relationship with Willis Towers Watson does not give rise to any conflict of interest. Going forward, the Compensation Committee expects that it will continue to engage compensation consultants when and as appropriate and will conduct an assessment of consultants' independence prior to any such engagement.

Compensation Determination Process

Use of Market Data

Vistra Energy establishes target compensation levels that are consistent with market practice and internal equity considerations (including position, responsibility and contribution) relative to base salaries, annual incentives and long-term incentives, as well as with the Compensation Committee's assessment of the appropriate pay mix for a particular position. In order to gauge the competitiveness of our compensation programs, Vistra Energy reviews compensation practices and pay opportunities through the use of energy services industry, including but not limited to independent power producers and utilities, and general industry survey data, as well as data from a selection of our publicly-traded peer companies. Vistra Energy attempts to position itself to attract and retain qualified senior executives in the face of competitive pressures in our relevant labor markets.

Specifically, during 2019, Vistra Energy used information regarding the pay practices of the energy services industry and general industry companies provided by our compensation consultant, regressed to Vistra Energy's revenue size. Vistra Energy believes that revenue is an appropriate indicator of the size and complexity of an organization, which should be one of the considerations in determining compensation levels. The compensation data resulting from this analysis was a significant factor considered by the Compensation Committee with respect to its executive compensation decisions for the Named Executive Officers.

During 2019, Vistra Energy also utilized a compensation peer group as an additional reference point when determining executive compensation. This peer group consisted of a select group of companies that the Compensation Committee believes are representative of the talent market in which Vistra Energy competes. Vistra Energy's compensation peer group consisted of the following companies for 2019, which is the same peer group used for 2018:

The AES Corporation
NRG Energy, Inc.

Entergy Corporation
PG&E Corporation²

FirstEnergy Corp.
Public Service Enterprise Group
Incorporated

² PG&E Corporation was only used as a compensation peer company until its Chapter 11 filing.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Committee does not target any particular level of total compensation or individual component of compensation against the peer group; rather, the Compensation Committee considers the range of total compensation provided by Vistra Energy's peers, together with information from published surveys, in determining the appropriate mix and level of total compensation for our executives.

Compensation of the CEO

In determining the compensation of the CEO, the Compensation Committee annually follows a thorough and detailed process. At the end of each year, the Compensation Committee reviews an assessment of the CEO, prepared by the Chief Administrative Officer with input from the CEO, regarding the CEO's performance and the performance of Vistra Energy's businesses. In addition, the Chair of the Compensation Committee requests a formal written assessment of CEO performance from the remainder of the Board on CEO performance and meets (with and without the CEO) to evaluate and discuss his performance and the performance of Vistra Energy's businesses.

While the Compensation Committee balances multiple factors in determining the CEO's compensation, including ensuring that a substantial portion of the CEO's compensation is directly linked to his performance and the performance of Vistra Energy's businesses, and that his compensation is competitive with compensation paid to similarly performing executive officers with similar responsibilities in companies that Vistra Energy considers to be our peers.

Compensation of Other Named Executive Officers

In determining the compensation of each of Vistra Energy's Named Executive Officers (other than the CEO), the Compensation Committee seeks the input of the CEO. At the end of each year, the CEO reviews a self-assessment prepared by each Named Executive Officer and assesses the Named Executive Officer's performance against business unit (or area of responsibility) and individual goals and objectives. The CEO reviews these assessments with the Compensation Committee and makes recommendations for the compensation of the Named Executive Officers with that context, the Compensation Committee determines and approves the compensation for each Named Executive Officer.

Role of the Compensation Consultant

To add rigor in the review process and to inform the Compensation Committee of market trends, the Compensation Committee's independent compensation consultant, Willis Towers Watson, analyzes Vistra Energy's executive compensation structure and plan designs and to assess whether the compensation program is competitive and supports the Compensation Committee's goal to align the interests of executive officers with those of stockholders. Willis Towers Watson also provides the Compensation Committee with market data and peer analysis, which the Compensation Committee references when determining compensation for executive officers. The Compensation Committee has authorized Willis Towers Watson to interact with Vistra Energy's management, as needed, on behalf of the Compensation Committee. Willis Towers Watson also provided other services to the Company during the fiscal year 2019 at the request of Company management.

The Compensation Committee has the sole authority to approve the independent compensation consultant's fees and terms of the engagement. Thus, the Compensation Committee annually reviews its relationship with, and assesses the independence of, Willis Towers Watson to ensure executive compensation consulting independence.

Base Salary

Vistra Energy believes that base salary should reflect the scope and complexity of an executive officer's position and the level of responsibility required to perform his or her job. It also believes that a competitive level of base salary is required to attract, motivate and retain qualified talent. Vistra Energy wants to ensure our cash compensation is competitive and sufficient to incent executive officers to remain with Vistra Energy, recognizing our high-performance expectations across a broad set of operational, financial, customer service and community-oriented goals and objectives.

The Compensation Committee regularly reviews base salaries and annually engages Willis Towers Watson to conduct analyses to ensure the base salaries are market-competitive, while also serving as an effective retention tool. The Compensation Committee may also review an executive officer's base salary from time to time during a year, including if the executive officer is given a promotion or if his or her responsibilities are significantly modified.

In 2019, base salaries for each of Messrs. Morgan, Burke, and Campbell were initially set by their respective employment agreements and base salaries for each of Messrs. Hudson and Muscato were determined based on market data, roles, and responsibilities. Subject to the employment agreements with Messrs. Morgan, Burke, and Campbell, which are described under "Employment Arrangements and Severance Benefits" on page 51, the Compensation Committee may change the base salaries for all of the Named Executive Officers at any time based on updated market data, updated roles and responsibilities and the CEO's recommendation. Board approval is required to change the base salary for Mr. Morgan.

In May 2018, the Compensation Committee and the Board approved salary increases for Messrs. Morgan, Burke, Muscato, and Hudson to recognize their enhanced roles and responsibilities following the Dynegy merger. There were no changes to those base salaries during 2019. The 2019 base salary for each Named Executive Officer is reflected the table below.

Name	2019 Base Salary
Curtis A. Morgan	\$ 1,130,000
James A. Burke	\$ 800,000
David A. Campbell	\$ 690,000
Stephen J. Muscato	\$ 550,000
Scott A. Hudson	\$ 525,000

Annual Incentive Plan

Summary

The EAIP provides an annual performance-based cash bonus for the successful attainment of certain financial and operational performance targets that are established annually by the Compensation Committee. Under the terms of the EAIP, performance against these targets, which are set at challenging levels to incentivize exceptional performance (while at the same time balancing the needs for safety and investment in Vistra Energy's business), drives bonus funding.

Performance Framework

As a general matter, target-level performance is based on Vistra Energy's board-approved financial and operational plan (the Financial Plan) for each upcoming year. The Compensation Committee sets high expectations for Vistra Energy's executive officers and therefore annually selects a target performance level that constitutes above average performance for the business, which the Compensation Committee expects the business to achieve during the upcoming year. Threshold and superior levels are for performance levels that are below or above Financial Plan-based expectations, respectively. Based on the level of attainment of these performance targets, an aggregate EAIP funding percentage amount for all participants is determined.

COMPENSATION DISCUSSION AND ANALYSIS

Target Opportunity (as a % of Salary)

Target cash bonus awards are set for each executive officer as a percentage of their base salary. Performance payouts on financial metrics are equal to, for any particular metric, 100% if the target amount is achieved, 50% if the threshold amount is achieved and 200% if the superior amount is achieved. Actual performance payouts are interpolated on a linear basis, as applicable, with a maximum performance payout for any particular metric being equal to 200%. These results are then adjusted by an individual performance modifier as described below.

2019 EAIP Target Opportunities	2019 EAIP Target % ⁽¹⁾
Curtis A. Morgan President and CEO	125%
James A. Burke EVP and Chief Operating Officer	100%
David A. Campbell EVP and CFO	100%
Stephen J. Muscato EVP and Chief Commercial Officer	85%
Scott A. Hudson President Vistra Retail	85%

Financial and Operational Performance Targets for 2019

The following table provides a summary (including relevant weighting) of the corporate performance targets under the EAIP for Vistra Energy, including the Named Executive Officers:

Named Executive Officer Vistra Scorecard Metrics	Weight	Target	Performance	Results Achieved	Actual Payout
Vistra Energy Adjusted EBITDA (\$ m)	20%	\$3,260	\$3,287	25%	
Total Cost (\$ m)	20%	\$2,677	\$2,485	40%	
Adjusted Free Cash Flow before Growth (\$ m)	20%	\$2,055	\$2,231	40%	
Generation Scorecard Multiplier (%)	20%	100%	156%	31%	
Retail Scorecard Multiplier (%)	20%	100%	121%	24%	
Total	100%			160%	150%

Vistra Energy focuses the majority of our metrics on financial parameters that align with stockholder value: Adjusted EBITDA, Cost Management, and Adjusted Free Cash Flow before Growth. Vistra Energy performed well against each of these metrics in 2019. The target for Adjusted EBITDA was set at the midpoint of guidance in order to drive strong performance. The organization took a disciplined approach to maximizing the combination of these three key financial metrics. In addition to the Vistra Energy financial metrics, the Compensation Committee set goals to ensure that the management team was continuing to drive the performance of each of the key business units, Luminant and Retail. The Luminant Operational and Financial Metrics consist of core processes that lead to consistent and safe operations while also driving the Luminant portion of the Vistra Energy financial metrics. Retail Operational and Financial Metrics focus on core customer operations that drive both high customer satisfaction and high performance of the Retail portion of the Vistra Energy Financial metrics.

The Named Executive Officers achieved scorecard results warranting an annual bonus payout percentage of 160% for the 2019 performance year. The Compensation Committee approved a recommendation by management and elected to use a payment percentage of 150% for Named Executive Officers, based upon key performance factors including an average of business performance relative to the targeted metrics across all business units.

Individual Performance Modifier

After approving actual performance against the applicable targets under the EAIP, and on a basis independent of such target performance calculations, the Compensation Committee and the CEO review the performance of each of Vistra Energy's executive officers on an individual and comparative basis. Based on this review, which includes an analysis of both objective and subjective criteria, as determined by the Compensation Committee in its sole discretion, including the CEO's recommendations (with respect to all executive officers other than himself), the Compensation Committee approves an individual performance modifier for each executive officer.

Under the terms of the EAIP, the individual performance modifier can range from an outstanding rating (150%) to an unacceptable rating (0%). To calculate an executive officer's final annual cash incentive bonus, the executive officer's corporate/business unit payout percentages are multiplied by the executive officer's target incentive level, which is computed as a percentage of annualized base salary, and then by the executive officer's individual performance modifier, subject to the aggregate cap of 200% of such executive officer's target bonus for executives under employment agreements.

Additionally, certain executives, including the Named Executive Officers, were subject to an "executive limiter" in which the EAIP is capped at 50% of each executive's target bonus if Vistra's Energy's Adjusted EBITDA did not meet the low end of Vistra Energy's annual 2019 guidance. In the event that such Adjusted EBITDA targets were not met, the Board has complete discretion on any final annual cash incentive bonus paid to such executives subject to the "executive limiter." In 2019, because Vistra Energy's Adjusted EBITDA exceeded the low end of guidance, no "executive limiter" was applicable.

Actual Awards

The following table provides a summary of the 2019 performance-based cash bonus for each Named Executive Officer under the EAIP, and the discussion below highlights the key factors used in determining the awards. The Compensation Committee and the Board (as applicable) have now certified financial results for 2019 and approved the individual performance modifiers for all Named Executive Officers. All of the Named Executive Officers earned in excess of 100% of their respective target bonuses and were paid their approved bonuses in March 2020.

Mr. Morgan continued to successfully lead Vistra through transformation in 2019. Notably, the acquisition of two retail companies in Crius and Ambit, made the company the largest retail provider in the country with over 5,000,000 customers. Vistra continued to achieve the synergy targets related to the Dynegy merger while adding synergies from the retail acquisitions. Additionally, Mr. Morgan continued to lead Vistra Energy in its evolution with the closing of four coal plants in the MISO market. He further advanced the Company's carbon reduction efforts, including setting GHG emissions reduction targets for 2030 and 2050, and becoming a founding member of the Climate Leadership Council to be an active participant in policy setting and stakeholder alignment. Throughout the year, Mr. Morgan continued to share Vistra's vision of a strong balance sheet and achieving its goals of low debt and strong free cash flow while also returning value to stockholders through a regular dividend, key financing activities that significantly reduced the annualized after-tax interest expense, and other financing activities that expanded liquidity to support growth. Given these and other significant achievements, the Board approved an individual performance modifier that increased Mr. Morgan's incentive award.

Mr. Burke played a key role in decisions around the generation fleet and the retail business in 2019. Notably, Mr. Burke led the Company's efforts to acquire Ambit and Crius, while also driving synergies in the generation fleet and working to determine the path to fulfilling the MPS rule requirements in Illinois, resulting in the closing of the four coal plants in the MISO market. The company experienced strong commercial availability across the fleet with a strong safety performance and outstanding outage management. The retail business had another strong year in 2019. In addition to the two acquisitions, the ERCOT business remained strong with increased customer counts and maintained its position as the top-rated large retailer on the Public Utility Commission complaint scorecard, despite an extremely volatile summer driving heightened customer activity across the ERCOT market. Given these and other significant achievements, the Compensation Committee approved an individual performance modifier that increased Mr. Burke's incentive award.

Mr. Campbell joined Vistra in June of 2019 as the Chief Financial Officer. He played a significant role in both the Crius integration and the Ambit merger that closed in the third quarter of 2019. He also led activities to assess the company's business portfolio and develop the company's ten-year fundamental view, and his team oversaw the execution of the company's capital allocation strategy, including a share repurchase program and approximately \$8.3 billion in repricing/refinancing transactions that extended maturities and reduced the company's annual interest expenses. Mr. Campbell

COMPENSATION DISCUSSION AND ANALYSIS

participated in numerous analyst conferences, non-deal roadshows and investor calls as well. Given these and other significant achievements, the Compensation Committee approved an individual performance modifier that increased Mr. Campbell's incentive award.

Mr. Muscato led the commercial organization to a strong year. Notably, Mr. Muscato optimized the recently integrated Dynegy and Vistra commercial teams across all the competitive markets. In addition to applying successful hedging strategies across the markets while also managing the commercial wind down of the four closing plants, Mr. Muscato was able to drive significant value by effectively managing the summer volatility in the ERCOT market. Given these and other significant achievements, the Compensation Committee approved an individual performance modifier that increased Mr. Muscato's incentive award.

Mr. Hudson continued to drive performance in the retail business with organic growth in the ERCOT and Northeast markets, as well as the closing of Crius and Ambit acquisitions. Mr. Hudson led the integration of the two newly acquired retail businesses, which are on target to achieve or exceed synergy targets and add new channels to the expanding retail portfolio. The business experienced organic growth in customer counts and maintained its position as the top-rated large retailer on the Public Utility Commission complaint scorecard. Each segment of the retail business saw strong results and the overall retail business delivered strong financial results in various competitive markets across the U.S. Given these and other significant achievements, the Compensation Committee approved an individual performance modifier that increased Mr. Hudson's incentive award.

Name	Target (% of salary)	Target Award (\$ Value)	Actual Award (\$)

Long-Term Incentive

Equity awards made under the 2016 Incentive Plan are intended to serve as a retention and motivational tool and align the interests of Vistra Energy's executive officers with the interests of Vistra Energy's stockholders. Targeted grant values are determined based on an evaluation of internal pay equity, and compensation levels for comparable positions among peer companies, the energy services industry and general industry. Award values are benchmarked against overall market data and proxy data from Vistra Energy's peer group. Based on market data and consultations with Willis Towers Watson, the target mix of annual equity awards granted to the Named Executive Officers is typically allocated as follows: 45% in PSUs, 30% in RSUs and the remaining 25% in stock options.

Awards Granted in 2019

	Total Grant Value
Curtis A. Morgan	\$6,000,000
James A. Burke	\$2,500,000
David A. Campbell(1)	\$2,500,000
Stephen J. Muscato	\$2,000,000
Scott A. Hudson	\$1,350,000
J. William Holden(2)	\$1,250,000

(1) Mr. Campbell's only awards in 2019 are those described in his employment agreement.

(2) Upon Mr. Holden's departure from the Company effective on June 12, 2019, per the terms of his employment agreement, the RSUs and stock options that were part of his 2019 grant that would have vested on or before June 12, 2020 accelerated. The accelerated stock options were required to be exercised within 180 days after June 12, 2019 or they were forfeited. Additionally, per the terms of his employment agreement, 33.3% of the PSUs that were part of his 2019 grant accelerated and will be delivered to Mr. Holden on February 26, 2022.

Performance Share Units (45% of Equity Grants)

Performance Share Units Metrics Summary	Weight
Vistra Energy Adjusted EBITDA (\$ mm)	70%
Generation Availability Index (%)	15%
Retail Performance Index (%)	15%
Total	100%

The Compensation Committee believes these metrics will focus the Vistra Energy management team on long-term stockholder value creation and the development of a sustainable, high-performing business in an evolving market sector. The number of target PSUs awarded to each executive in 2019 was determined by dividing the targeted PSU value for each executive by the closing price of the common stock on the tracking date immediately prior to the close of grant as reported on the NYSE in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718 (ASC718). In December 2019, in consultation with Willis Towers Watson, the Compensation Committee and the Board approved a change to the design of our 2020 PSUs to more closely reflect emerging market practices, drive greater alignment with the shareholder experience, and better align with Vistra Energy's evolving long-term strategy. The new design measures Adjusted EBITDA (weighted 50%) and Relative Total Shareholder Return versus the S&P 500 index (weighted 50%).

Restricted Stock Units (30% of Equity Grants)

For 2019, 30% of the targeted value that was granted in the form of RSUs vests ratably over a three-year period. The number of RSUs awarded to each executive in 2019 was determined by dividing the targeted RSU value for each executive by the closing price of the Common Stock on the trading date immediately prior to the date of grant as reported on the NYSE in accordance with ASC718.

Stock Options (25% of Equity Grants)

For 2019, 25% of the targeted equity value that was granted in the form of non-qualified stock options vests ratably over a three-year and expire after 10 years. Consistent with the 2016 Incentive Plan and Section 409A of the Internal Revenue Code, the exercise price of each option granted in 2019 was the closing price of the Common Stock on the trading day immediately prior to the date of grant as reported on the NYSE. The number of options granted in 2019 was determined by dividing the targeted stock option value for each executive by the value of each option, which was computed using the Black-Scholes option-pricing model using the same assumptions that Vistra Energy uses in calculating the compensation expense attributable to such grants under ASC718. The value of stock options to the executives is determined by the price of the Common Stock at the time the executive exercises the stock option compared to the price at the time of the grant. The executive will only receive value if the price of the common stock at the time of exercise is higher than the price at the time the stock option was granted.

This resulted in one-third of the amounts reflected as stock options and RSUs in the table above accelerating. The accelerated stock options were required to be exercised within 180 days after June 12, 2019 or they were forfeited. Stock Ownership Guidelines

We have stock ownership guidelines for our directors and executive officers. We believe that a significant ownership stake by directors and executive officers leads to a stronger alignment of interests between directors, executive officers and stockholders and support our corporate governance focus.

- **Directors.** Each non-employee director of Vistra Energy that receives stock-based compensation is required to own shares of Common Stock having a dollar value of at least five times the value of each member's then-applicable annual cash board retainer (the "Director Stock Requirements"). Directors have five years from the date they first became a member of the Board to achieve the Director Stock Requirements. Ownership includes beneficial ownership of Common Stock, as well as RSUs and common stock equivalents. The Director Stock Requirements were adopted to more closely align the interests of directors and our stockholders.
- **Executive Officers.** We have stock ownership requirements (the "Executive Stock Requirements") that are designed to require our executive officers (*i.e.*, CEO, each Executive Vice President, and the President Vistra Retail) to achieve and maintain a minimum investment in the Common Stock at levels set by the Compensation Committee. Executive stock ownership guidelines are increasingly viewed as an important element of a company's governance policies, and the Executive Stock Requirements are designed to further align executive interests with those of Vistra Energy stockholders. The Executive Stock Requirements for Mr. Morgan is five times his base salary and for each of Messrs. Burke, Campbell, Muscato, and Hudson is three times his respective base salary. For the purpose of calculating compliance with the Executive Stock Requirements, unvested RSUs and unvested stock options are not taken into account. There is a mandatory five-year compliance period from the date of the executive officer's date of becoming subject to the Executive Stock Requirements. During this five-year period, each covered executive officer, as determined from time to time by the Board, is expected to retain any shares of stock acquired with the exercise of options or the lapse of restrictions on restricted stock, net of funds necessary to pay the exercise price of stock options and for payment of applicable taxes. At the end of the five-year period, if any executive officer fails to attain the required level of common stock ownership action may be taken, in the discretion of the Nominating Committee considering all factors it deems relevant, including awarding annual incentive cash bonuses in the form of restricted shares or requiring an executive officer to refrain from disposing of any vested shares and shares realized from any option exercise.

Compensation Risk Analysis

The Company's management team annually conducts an internal risk review and assessment process relative to general compensation plan risk factors (or the potential for unintended consequences), which is reviewed by our independent compensation consultant, Willis Towers Watson. The assessment of our compensation policies and practices includes, among other things, a review of: (1) our overall compensation pay structure; (2) the overall mix of compensation vehicles, including target and maximum compensation with respect to each plan; (3) the structure of the incentive plans; (4) other company pay plans; (5) the mix of cash and equity payouts at various compensation levels; (6) the performance time horizons used by our plans; (7) the use of multiple financial and operational performance metrics that are readily monitored and reviewed; (8) the incorporation of both operational and financial goals and individual performance modifiers; (9) the inclusion of maximum caps and other plan-based mitigants on the amount of our awards; (10) the risk of earnings manipulation posed by the incentive structure, (11) the extent to which the Named Executive Officer pay program rewards short-term decisions at the risk of long-term performance (12) governance for oversight of program design and administration; and (13) multiple levels of review and approval of awards (including approval of the Compensation Committee with respect to awards to executive officers and awards to other employees that exceed monetary thresholds). The Company also generally considered other compensation policies (such as clawback and anti-hedging policies), other compensation plans relating to severance and change-in-control benefits, and compensation governance.

Following their assessment, our management team prepares a report, which is provided to the Compensation Committee for review. The Compensation Committee reviews the report and provides it to the Sustainability and Risk Committee. For 2019, we concluded that there were no material issues regarding our executive pay programs, and that the design of the Company's incentive pay plans has, overall, a low-risk profile. Based on the foregoing, the Compensation Committee and the Company's management concluded that the risks arising from our overall compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

Benefits and Perquisites

Benefits

Vistra Energy's executive officers generally have the opportunity to participate in certain of Vistra Energy's broad-based employee compensation plans, including Vistra Energy's Thrift (401(k)) Plan (the Thrift Plan), and health and welfare plans. Please refer to the footnotes to the Summary Compensation Table below.

Perquisites

Vistra Energy provided our executives with financial planning and tax services and executive physicals during 2019.

Employment Arrangements and Severance Benefits

Vistra Energy has entered into employment agreements with Messrs. Morgan, Burke, and Campbell. Additionally, Vistra Energy has entered into agreements with each of Messrs. Hudson and Muscato containing certain change in control and severance provisions. Each of the agreements provides that certain payments and benefits will be paid upon the expiration of the agreement or an earlier termination of the Named Executive Officer's employment under various circumstances, including a termination without cause, a resignation for good reason and a qualifying termination of employment within a fixed period of time following a change in control of Vistra Energy.

The change in control severance benefits for the Named Executive Officers are "double trigger", benefits, requiring both (a) a change in control of Vistra Energy and (b) a termination of employment before any applicable Named Executive Officer is entitled to receive any severance payment.

Vistra Energy believes that these provisions are important in order to attract, motivate and retain the caliber of executive officers that our business requires and provide incentive for our executive officers to fully consider potential changes that are in Vistra Energy's and our stockholders' best interests, even if such changes could result in the executive officers' termination of employment.

COMPENSATION DISCUSSION AND ANALYSIS

Other Compensation Policies

Potential Impact of Restatements and Ability to Claw Back Compensation Awards

The Compensation Committee has a mechanism to address any restatements, if they occur, that may impact our key financial metrics and our financial performance. The Compensation Committee will take action, as it determines to be appropriate, with respect to EAIP awards or other incentive or equity compensation awards to the extent such specified performance targets were not achieved in light of a restatement, which could include seeking to recover amounts paid. We believe this mechanism allows for remedial action to be taken if executive compensation is awarded for achievement of financial performance that is later determined not to have been achieved and further aligns the Named Executive Officers' interests with those of our stockholders.

Accounting, Tax and Other Considerations

Accounting Considerations

Vistra Energy follows ASC 718 for our stock-based compensation awards, and the compensation that it pays to our executives is expensed in Vistra Energy's financial statements as required by U.S. Generally Accepted Accounting Principles ("GAAP").

As one of many factors, the Compensation Committee considers the financial statement impact in determining the amount of, and allocation among the elements of, executive compensation.

Income Tax Considerations

Section 162(m) limits the tax deductibility of compensation paid by a public company to its CEO and certain other highly compensated executive officers to \$1 million. Prior to 2018, there was an exception to the limit on deductibility for performance-based compensation that met certain requirements. The Tax Cut and Jobs Act of 2017 (the "TCJA"), largely eliminated that exception starting in 2018. As such, compensation paid to certain covered employees, including our Named Executive Officers in 2019 and thereafter is presumed to be subject to the Section 162(m) deductibility limits as amended by the TCJA, with the exception of certain amounts payable pursuant to a written binding contract in effect as of November 2, 2017 that has not been materially modified thereafter (as permitted by the TCJA). Compensation granted in the past may not qualify as "performance-based compensation" under certain circumstances. We have historically retained, and expect to continue to retain, flexibility to award compensation that is consistent with our corporate objectives even if it does not qualify for a tax deduction.

Say-on-Pay Vote

In May 2019, Vistra Energy's stockholders were asked to approve, on an advisory basis, Vistra Energy's 2018 executive compensation programs. A substantial majority (98.1%) of the votes cast on the "say-on-pay" proposal at that meeting were voted in favor of the proposal. The "say-on-pay" advisory vote serves as a tool to guide the Board and the Compensation Committee in ensuring alignment of Vistra Energy's executive compensation programs with stockholder interests. The Compensation Committee believes that these results reaffirm Vistra Energy's stockholders' support of Vistra Energy's approach to executive compensation. The Compensation Committee will continue to use the "say-on-pay" vote as a guidepost for stockholder sentiment and believes it is critical to maintain and continually develop this program to promote ongoing stockholder engagement, communication and transparency.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

None of Vistra Energy's directors who currently serve, or during the past year have served, as members of the Compensation Committee is, or has, at any time, been one of Vistra Energy's officers or employees. None of Vistra Energy's executive officers currently serves, or has served during the last completed fiscal year, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Board or the Compensation Committee.

COMPENSATION COMMITTEE REPORT

Our executive compensation program is administered and reviewed by the Compensation Committee. The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management and, based on such review and discussion, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

This report is submitted by the members of the Compensation Committee as of March 30, 2020.

For purposes of preparing this table, all perquisites are valued on the basis of the actual cost to Vistra Energy.

- (a) Vistra Energy's Thrift Plan allows participating employees to contribute a portion of their regular salary or wages to the plan. Under the Thrift Plan, Vistra Energy matches a portion of an employee's contributions. This matching contribution is 100% of each Named Executive Officer's contribution, not to exceed 6% of the Named Executive Officer's salary (with the salary capped at the annual IRS compensation limit). All matching contributions are invested in Thrift Plan investments as directed by the participant.
- (b) Vistra Energy offers to pay for our executive officers to receive financial planning services. This service is intended to support them in managing their financial affairs, which Vistra Energy considers especially important given the high level of time commitment and performance expectation required of our executive officers. Furthermore, Vistra Energy believes that such service helps ensure greater accuracy and compliance with individual tax regulations by our executive officers.
- (c) The amounts received by Mr. Hudson and Mr. Muscato in 2019 included expenses related to medical examinations.
- (d) The amounts received by Mr. Burke and Mr. Hudson included taxable spousal travel expenses.
- (e) In 2019, the Company's 401(k) plan administrator experienced a system error while merging the Company's 401(k) plan with the Dynegy 401(k) plan, resulting in Mr. Morgan's 401(k) contributions being less than the maximum permitted amount. The error is being corrected by the plan administrator in 2020 and Mr. Morgan's 2020 plan year contributions will be increased to include the amounts that should have been contributed in 2019.

Potential Payments upon Termination or Change in Control

For the reasons discussed in the Compensation Discussion and Analysis, the Company has entered into certain agreements with the Named Executive Officers, which commit the Company to make payments to the Named Executive Officers under special circumstances. Generally, these circumstances involve changes in corporate control of the Company and termination of the Named Executive Officer's employment.

In accordance with SEC instructions, these quantitative disclosures assume that a change in control took place on December 31, 2019. In fact, no change in control of the Company occurred on that date and no Named Executive Officer's employment terminated on that date. If such an event were to occur in the future, actual payments would likely be different from those presented here based on various factors, including the Common Stock price at such time.

The following tables and narrative below describe payments to each of the Named Executive Officers (or, as applicable, enhancements to payments or benefits) in the event of his or her termination, including if such termination is voluntary, for cause, as a result of death, as a result of disability, without cause or for good reason or in connection with a change in control of Vistra Energy.

Employment Arrangements with Contingent Payments

As of December 31, 2019, each of Messrs. Morgan, Burke and Campbell had employment agreements with change in control and severance provisions. Additionally, in 2019, each of Messrs. Hudson and Muscato were parties to agreements with certain change in control and severance provisions. With respect to these agreements, a change in control is generally defined as (i) a transaction that results in the acquisition of 30% or more of the Common Stock; (ii) a change in the composition of the Board such that members of the Board during any consecutive 12-month period cease to constitute a majority of the Board; (iii) the approval by the stockholders of Vistra Energy of a plan of complete dissolution or liquidation of Vistra Energy; or (iv) a transaction that results in a merger or sale of substantially all of Vistra Energy's assets or capital stock to another person who is not an affiliate of Vistra Energy.

Each agreement includes customary non-compete and non-solicitation provisions that generally restrict the Named Executive Officer's ability to compete with Vistra Energy or solicit Vistra Energy's customers or employees for his or her own personal benefit during the term of the agreement and 24 months after the agreement expires or is terminated.

The following tables describe payments to which each Named Executive Officer is entitled under the agreement, as applicable, assuming termination of employment as of December 31, 2019.

(2) Calculated as 2.99 times the sum of his (i) annualized base salary and (ii) annual bonus target under the EAIP.

(3) Calculated as target award multiplied by Company performance.

(4) The value realized of unvested RSU awards represents the sum of (i) the closing price of the Common Stock on March 29, 2019 (\$26.03) and October 3, 2019 (\$26.23), for RSUs that vested as of March 31, 2019 and October 3, 2019, respectively, and (ii) the amount of the quarterly 2019 regular dividend (\$0.125 per share) and the 2016 Special Dividend (\$2.32 per share) that accrued with respect to such RSUs prior to vesting.

(5) The value of unvested stock options represents the difference in the exercise price and the closing price of a share of Common Stock on December 31, 2019 (\$22.99) of all stock options that would vest upon the triggering event.

Satisfaction of the performance-based condition does not occur until the Compensation Committee has certified financial results for fiscal years 2018, 2019 and 2020; therefore, these numbers are being reported based on the closing price of a share of Common Stock on December 31, 2019 (\$22.99) for all PSUs for which the time-based condition has been deemed satisfied.

(7) Upon change in control of Vistra Energy, both the time-based and performance-based conditions are deemed satisfied at target as to all of Mr. Morgan's outstanding PSUs on the date of the change in control of Vistra Energy; therefore, this amount is calculated as the closing price of a share of Common Stock on December 31, 2019 (\$22.99) multiplied by the target number of PSUs multiplied by Company performance.

CEO Pay Ratio

We believe our executive compensation program must be internally consistent and equitable to motivate our employees to create stockholder value. We monitor the relationship between the compensation of our executive officers and the compensation of our non-managerial employees.

For 2019, the total compensation of Curtis A. Morgan, our President and CEO was \$9,692,170. The total compensation of our median compensated was \$117,549. The ratio of CEO pay to median worker pay for Vistra Energy was 82:1.

We calculated the ratio of the pay of our CEO to that of our median employee in a manner consistent with Item 402(u) of Regulation S-K. For purposes of determining the median employee, we identified 2019 base salary, target bonus and target long-term incentive plan equity awards obtained from internal payroll records for all employees, excluding our CEO, who were employed by us on December 31, 2019. We included and analyzed the total compensation of all employees as of December 31, 2019, whether employed on a full-time or part-time basis. We believe that the ratio of CEO pay to that of this median employee is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K. Given the different methodologies that various public companies will use to determine an estimate of their pay ratio, the estimated ratio reported above should not be used as a basis for comparison between companies.

Compensation of Non-Employee Directors; Board Retainers and Equity Awards

The Board establishes the level of compensation for Vistra Energy's non-employee directors, based on the recommendation of the Compensation Committee. Directors who also are current employees of Vistra Energy receive no additional compensation for service as directors.

The Compensation Committee periodically, but no less than biannually, engages Willis Towers Watson, our executive compensation consultant, to provide market-based compensation surveys to facilitate the Compensation Committee's review of the compensation of our Board and the Committees. As part of this process, the Compensation Committee reviews the compensation provided to our non-employee directors as compared to other comparable U.S. peer companies, with the objective of ensuring that non-employee director compensation is both market-competitive in terms of annual compensation value and consistent with emerging market practices and trends.

The table below sets forth information regarding Vistra Energy's current non-employee directors' compensation.

Non-Employee Director Stock-Based Compensation

Under the 2016 Incentive Plan, the Company may grant each non-employee director of Vistra Energy annual awards of stock-based compensation. Pursuant to the terms of the 2016 Incentive Plan, as approved by Vistra Energy stockholders, the annual value of equity awards provided to any one non-employee director is limited to \$750,000 in any calendar year. RSUs granted to the non-employee directors vest one year after the date of grant and are then settled as shares of Common Stock. RSUs also will vest and be settled upon the director's death or disability, or if there is both a change in control (as defined in the 2016 Incentive Plan) and the director is terminated. Otherwise, RSUs are forfeited if the director ceases to be a member of the Board prior to vesting. Non-employee directors also may elect to defer settlement of vested RSUs in accordance with the terms of the Deferred Compensation Plan.

COMPENSATION TABLES

Mr. Strong does not, and Mr. Madon did not, receive any stock-based compensation and, instead, the equivalent cash value of such equity awards, together with applicable fees, were and are directly paid to entities affiliated with the employer of such director for firm use and not redirected to such individual directors.

Deferral of Board Annual Equity Awards

In November 2018, the Compensation Committee approved the adoption of the Vistra Energy Equity Deferred Compensation Plan for Certain Directors (the “Deferred Compensation Plan”), effective January 1, 2019. Under the Deferred Compensation Plan, certain directors of Vistra Energy may elect to defer settlement of the Common Stock to be received in respect of all or a portion of their vested equity awards (designated in 10% increments). The primary purpose of the Deferred Compensation Plan is to provide flexibility for eligible directors to defer the receipt of Common Stock they are entitled to receive in consideration of their service as Directors, and to encourage their ownership of Common Stock.

Retirement Benefits from Vistra Energy

The non-employee directors of the Board are not provided health, retirement or pension benefits.

2019 Director Compensation

The Compensation Committee reviews peer and market data, provided by Willis Towers Watson, on an annual basis, to ensure that non-employee director compensation is market-based. There were no changes to non-employee director compensation made in 2019.

Board Retainers

Except for each Committee Chair (whose cash compensation is described below), each non-employee member of the Board receives an annual board retainer of \$100,000 and an annual committee retainer (per Committee) of \$10,000. The Chairman receives an annual board retainer of \$190,000. The Chair of the Audit Committee receives an annual board retainer of \$100,000 and an annual committee retainer of \$20,000. The Chairs of other Committees (besides the Audit Committee) receive an annual board retainer of \$100,000 and an annual committee retainer of \$15,000.

Equity Awards

Except for the Chairman (whose equity compensation is described below), each non-employee member of the Board receives an annual equity award in the amount of \$150,000. The Chairman receives an annual equity award in the amount of \$230,000. Certain members of the Board elected to be paid in cash in lieu of receiving their equity awards. Mr. Strong’s director fees are paid (and Mr. Madon’s director fees were paid) directly to an entity affiliated with his employer for firm use and are not redirected to him. All directors are reimbursed for reasonable expenses incurred in connection with their services as directors.

PROPOSAL 4 – ADVISORY VOTE ON 2019 COMPENSATION OF NAMED EXECUTIVE OFFICERS

In accordance with the requirements of Section 14A of the Exchange Act, and the related rules of the SEC, a proposal will be presented at the 2020 Annual Meeting asking stockholders to approve, on an advisory basis, the compensation of the Company's Named Executive Officers as described in this Proxy Statement. Please see our "Compensation Discussion and Analysis" section beginning on page 39, for a discussion of our compensation program for the Named Executive Officers.

We currently conduct advisory say-on-pay votes annually and expect to conduct the next advisory say-on-pay vote in 2021.

The advisory vote on the following resolution is not intended to address any specific element of compensation; rather, it relates to the overall compensation of the Company's Named Executive Officers, as well as the philosophy, policies, and practices described in this Proxy Statement. You can vote for, against or abstain from voting on the following resolution relating to executive compensation.

RESOLVED, that the compensation paid to Vistra Energy Corp.'s Named Executive Officers as set forth in the Summary Compensation Table of this Proxy Statement, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, the compensation tables, and the accompanying narrative discussion, is hereby APPROVED.

Although your vote on executive compensation is not binding on the Company, the Board values the views of the stockholders. The Board and Compensation Committee will review the results of the vote and take them into consideration in addressing future compensation policies and decisions.

The Board of Directors recommends that stockholders vote FOR the proposal to approve, on an advisory basis, the compensation of the Named Executive Officers.

AUDIT COMMITTEE REPORT

Committee Purpose and Evaluation. The principal purposes of the Audit Committee are to (i) oversee (a) the quality and integrity of the financial statements of the Company; (b) the Company's financial reporting processes and financial statement audits; (c) the independent registered public accountant's qualifications and independence; (d) the performance of the Company's internal audit function and independent registered public accountant; (e) the Company's system of internal controls over financial reporting, accounting, legal and regulatory compliance, and ethics, including the effectiveness of disclosure controls and controls over processes that could have a significant impact on the Company's financial statements; and (f) the systems of disclosure controls and procedures; (ii) foster open communications among the independent registered public accountant, financial and senior management, internal audit and the Board; and (iii) encourage continuous improvement and foster adherence to the Company's policies, procedures and practices at all levels. The role and responsibilities of the Audit Committee are fully set forth in the Audit Committee's written charter, which was approved by the Board and is available on the Company's website at www.vistraenergy.com/corporate-governance. In its annual self-evaluation, the Audit Committee reviews and assesses how effectively it fulfilled these purposes over the prior year and identifies areas for improvement.

2019 Committee Engagement. In addition to the matters discussed below, the Audit Committee engages proactively with Deloitte and management as needed to understand the status and strategy of the Company's audit and to discuss new accounting standards or potentially significant events that may impact the Company's financial reporting.

Committee Composition. The Audit Committee consists of Company directors who satisfy the requirements of independence, financial literacy and other qualifications under applicable law and regulations of the SEC and the NYSE and is chaired by Brian K. Ferraioli. The Board annually reviews these standards and has determined that each of the members of the Audit Committee is an "audit committee financial expert" for purposes of the SEC's rules. Each of the members of the Audit Committee is also independent as defined by the rules of the NYSE. The Audit Committee has directed the preparation of this report and has approved its content and submission to the stockholders.

Required Communications with Deloitte. The Audit Committee has discussed with Deloitte, the independent registered public accountant for the Company, the matters that are required to be discussed by the applicable requirements of the Public Company Accounting Oversight Board Auditing Standards ("PCAOB"). The Audit Committee has received the written disclosures and letter from Deloitte, as required by the PCAOB, regarding Deloitte's communications with the Audit Committee concerning independence and has discussed with Deloitte its independence. The Audit Committee has received reports from Deloitte and Company management relating to services provided by Deloitte and associated fees. In this regard, the Audit Committee has considered whether or not the provision of non-audit services by Deloitte for the year 2019 is compatible with maintaining the independence of the firm. In furtherance of the objective of assuring Deloitte's independence, the Audit Committee has adopted a policy relating to the engagement of the Company's independent registered public accountant, as described on page 76 of this Proxy Statement.

Committee Oversight and Assessment of Deloitte. In connection with the evaluation, appointment and retention of the independent registered public accounting firm, each year the Audit Committee reviews and evaluates the qualifications, performance and independence of the independent registered public accounting firm and lead partner, including consideration of input from management. In doing so, the Audit Committee considers various factors including, but not limited to: the quality of services provided; technical expertise and knowledge of the industry and the Company's business and operations; effective communication; objectivity; independence; and the potential impact of changing independent registered public accounting firm. Based on this evaluation, the Audit Committee has retained Deloitte as our independent registered public accounting firm for 2020.

Committee Oversight of Financial Statements. The Audit Committee reviewed and discussed with Company management and Deloitte the audited consolidated financial statements of the Company for 2019 and the audit of internal controls over financial reporting. The Audit Committee also discussed with Deloitte those matters required to be discussed by the applicable requirements of the PCAOB and SEC concerning the quality of the Company's accounting principles as applied in our financial statements. In general, these auditing standards require the independent registered public accounting firm to communicate to the Audit Committee certain matters that are incidental to the audit, such as any initiation of, or changes to, significant accounting policies, management judgments, accounting estimates and audit adjustments; disagreements with management; the independent registered public accounting firm's judgment about the quality of our accounting principles; significant audit risks identified and any changes from planned audit strategy; the use of specialists on the audit team; and issues for which the independent registered public accounting firm have consulted outside the engagement team.

AUDIT COMMITTEE REPORT

Recommendation. Based on the review and discussions above, the Audit Committee recommended to the Board that the audited consolidated financial statements of the Company be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2019.

Stockholder comments to the Audit Committee are welcomed and should be addressed to the Corporate Secretary of the Company at the Company's offices.

This report is submitted by the members of the Audit Committee as of March 30, 2020.

PROPOSAL 5 – RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANT

The Audit Committee has selected the firm of Deloitte to act as independent registered public accountant for the Company for fiscal year 2020 to audit the consolidated financial statements of the Company and the effectiveness of internal controls over financial reporting and to make a report thereon to the stockholders. The Audit Committee and the Board believe that the continued retention of Deloitte as the Company's independent registered public accounting firm for the 2020 fiscal year is in the best interests of the Company and its stockholders. If the stockholders do not ratify the appointment of Deloitte, the Audit Committee will reconsider its selection. Even if the stockholders ratify Deloitte's appointment, the Audit Committee may choose to select another auditor if it determines it to be in the best interests of the Company or its stockholders. Representatives of Deloitte are expected to be present at the 2020 Annual Meeting and will have the opportunity to make a statement, if they desire to do so, and to respond to appropriate questions.

The persons named in the proxy will, unless otherwise instructed thereon, vote your shares in favor of the following resolution, which will be submitted to the stockholders for ratification at the 2020 Annual Meeting:

RESOLVED, that the selection of the firm of Deloitte, independent registered public accountant, to audit the consolidated financial statements of the Company and the effectiveness of internal controls over financial reporting for fiscal year 2020, to make a report thereon, and to perform other services, be, and hereby is, ratified.

The firm of Deloitte, independent registered public accountant, has been the independent registered public accountant for the Company since 2016, and also served as the independent accountant for the Predecessor prior to the Predecessor's emergence from bankruptcy in 2016.

The Audit Committee has adopted a policy relating to the engagement of the Company's independent registered public accountant. The policy provides that in addition to the audit of the Company's financial statements and internal controls over financial reporting, related quarterly reviews and other audit services, and providing services necessary to complete SEC filings, the Company's independent registered public accountant may be engaged to provide non-audit services as described herein. Prior to engagement, all services to be rendered by the independent registered public accountant must be authorized by the Audit Committee in accordance with pre-approval procedures that are defined in the policy. The pre-approval procedures require (i) the annual review and pre-approval by the Audit Committee of all anticipated audit and non-audit services; and (ii) the quarterly pre-approval by the Audit Committee of services, if any, not previously approved and the review of the status of previously-approved services. The Audit Committee may also approve certain ongoing non-audit services not previously approved in the limited circumstances provided for in applicable SEC rules. All services performed by the independent registered public accountant for the Company and our subsidiaries in 2019 were pre-approved by the Audit Committee.

The policy defines those non-audit services that the Company's independent registered public accountant may also be engaged to provide as follows: (i) audit related services (e.g., due diligence, accounting consultations and audits related to mergers, acquisitions and divestitures; employee benefit plan audits; accounting and financial reporting standards consultation; internal control reviews); (ii) tax related services (e.g., tax compliance; general tax consultation and planning; tax advice related to mergers, acquisitions, and divestitures); and (iii) other services (e.g., process improvement, review and assurance; litigation; general research; forensic and investigative services; training services). The policy prohibits the engagement of the Company's independent registered public accountant to provide: (a) bookkeeping or other services related to the accounting records or financial statements of the Company; (b) financial information systems design and implementation services; (c) appraisal or valuation services, fairness opinions, or contribution-in-kind reports; (d) actuarial services; (e) internal audit outsourcing services; (f) management or human resource functions; (g) broker-dealer, investment advisor, or investment banking services; (h) legal and expert services unrelated to the audit; and (i) any other service that the PCAOB determines, by regulation, to be impermissible. In addition, the policy prohibits the Company's independent registered public accountant from providing tax or financial planning advice to any officer of the Company.

Ongoing compliance with the Audit Committee's policy relating to the engagement of Deloitte is monitored on behalf of the Audit Committee by the Company's CFO. Reports from Deloitte and the CFO describing the services provided by the firm and fees for such services are provided to the Audit Committee no less often than quarterly.
