**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 1. Description of Organization and Business Operations**

Mosaic Acquisition Corp. (the “Company”) is a blank check company incorporated in the Cayman Islands on July 26, 2017. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses that the Company has not yet identified (“business combination”). Although the Company is not limited to a particular industry or geographic region for purposes of consummating a Business Combination, the Company intends to capitalize on the ability of its management team to identify, acquire and operate a business that may provide opportunities for attractive risk-adjusted returns.

All activity from July 26, 2017 (inception) through September 30, 2018 relates to the Company’s formation, completion of the initial public offering (“Initial Public Offering”), entering into forward purchase agreements, and, since the closing of the Initial Public Offering, the search for a Business Combination candidate described below.

The registration statement for the Company’s IPO was declared effective on October 18, 2017. On October 23, 2017, the Company consummated its IPO of 34,500,000 units (“units”), including the issuance of 4,500,000 units as a result of the underwriters’ exercise of their over-allotment option in full, at \$10.00 per unit, generating gross proceeds of \$345 million and incurring offering costs of approximately \$19.7 million, inclusive of \$12.075 million in deferred underwriting commissions (Note 6).

Simultaneously with the closing of the IPO, the Company consummated the private placement (“private placement”) of 5,933,334 warrants (the “private placement warrants”), at a price of \$1.50 per private placement warrant, with the Company’s sponsors, Mosaic Sponsor, LLC and Fortress Mosaic Sponsor LLC (each a “sponsor” and, together, the “sponsors”), generating gross proceeds of \$8.9 million (Note 4).

Upon the closing of the IPO and private placement, \$345 million (\$10.00 per unit) of the aggregate net proceeds of the sale of the units in the IPO and the Private Placement was placed in a U.S.-based trust account (“Trust Account”) at J.P. Morgan Chase Bank, N.A., maintained by Continental Stock Transfer & Trust Company, acting as trustee. Beginning in January 2018, the proceeds held in the Trust Account are invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 180 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting the conditions of paragraphs (d)(2), (d)(3) and (d)(4) of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

At September 30, 2018, the Company had approximately \$986,000 in cash held outside of the Trust Account. The Company’s management has broad discretion with respect to the specific application of the net proceeds of the IPO and the sale of private placement warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company’s initial Business Combination must be with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the trust account) at the time of the agreement to enter into the initial Business Combination. However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act 1940, as amended, or the Investment Company Act.

The Company will provide its shareholders of Class A ordinary shares (“public shareholders”) with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of a business combination either (i) in connection with a shareholder meeting called to approve the business combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a business combination or conduct a tender offer will be made by the Company, solely in its discretion. If, however, shareholder approval of the transaction is required by law or stock exchange listing requirement, or the Company decides to obtain shareholder approval for business or other legal reasons, it will: (i) conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

regulates the solicitation of proxies, and not pursuant to the tender offer rules; and (ii) file proxy materials with the Securities and Exchange Commission (“SEC”). The public shareholders will be entitled to redeem their Class A ordinary shares for a pro rata portion of the amount then in the trust account (initially approximately \$10.00 per share) plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to fund working capital requirements, subject to an annual limit of \$750,000, and/or to pay for the Company’s tax obligations. As of September 30, 2018, the Company has withdrawn an aggregate of approximately \$563,000 of interest earned on funds held in Trust Account for working capital purposes. The per-share amount to be distributed to public shareholders who redeem their Class A ordinary shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 6). These Class A ordinary shares are recorded at a redemption value and classified as temporary equity upon the completion of the IPO, in accordance with Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” In such case, the Company will proceed with a business combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a business combination and a majority of the shares voted are voted in favor of the business combination. If a shareholder vote is not required by the law and the Company does not decide to hold a shareholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Memorandum and Articles of Association, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing a business combination. If, however, a shareholder approval of the transactions is required by law, or the Company decides to obtain shareholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each public shareholder may elect to redeem their Class A ordinary shares irrespective of whether they vote for or against the proposed transaction. If the Company seeks shareholder approval in connection with a business combination, the initial shareholders (as defined below) have agreed to vote their founder shares (as defined in Note 5) and any Class A ordinary shares purchased during or after the IPO in favor of a business combination. In addition, the initial shareholders have agreed to waive their redemption rights with respect to their founder shares and Class A ordinary shares in connection with the completion of a business combination.

In addition, certain institutional and accredited investors (“anchor investors”) have entered into forward purchase agreements with the Company, pursuant to which the anchor investors agreed to purchase an aggregate of 15,789,474 Class A ordinary shares, at a purchase price of \$9.50 per Class A ordinary share (for an aggregate amount of approximately \$150 million), in a private placement to occur concurrently with the closing of the initial business combination (“forward purchase agreements”). The obligations under the forward purchase agreements do not depend on whether any Class A ordinary shares are redeemed by the public shareholders. In connection with these agreements, if the last reported sale price of the Class A ordinary shares is less than \$11.00 (as adjusted for share splits, share combinations and the like) for at least 20 trading days (whether or not consecutive) during the period of 30 consecutive trading days ending on the first anniversary of the initial business combination, each anchor investor may purchase from the sponsors, at a price per Class A ordinary share of \$0.01, a number of Class A ordinary shares (“contingent call shares”) no greater than (a) the number of forward purchase shares issued and sold to such anchor investor less any forward purchase shares sold by such anchor investor prior to its exercise of the right to purchase such contingent call shares divided by (b) 18 (as adjusted for share splits, share combinations and the like).

Notwithstanding the foregoing, the Company’s Amended and Restated Memorandum and Articles of Association provides that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), is restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Class A ordinary shares sold in the IPO, without the prior consent of the Company.

The Company’s sponsors, officers and directors (the “initial shareholders”) agreed not to propose an amendment to the Company’s Memorandum and Articles of Association that would affect the substance or timing of the Company’s obligation to redeem 100% of its Class A ordinary shares if the Company does not complete a business combination, unless the Company provides the public shareholders with the opportunity to redeem their Class A ordinary shares in conjunction with any such amendment.

If the Company is unable to complete a business combination within 24 months from the closing of the IPO, or 27 months from the closing of the IPO if the Company has executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 24 months from the closing of the IPO (the

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

“Combination Period”), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter, redeem 100% of the outstanding Class A ordinary shares which redemption will completely extinguish public shareholders’ rights as shareholders (including the right to receive further liquidation distributions, if any), subject to applicable law and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the Company’s board of directors, proceed to commence a voluntary liquidation and thereby a formal dissolution of the Company, subject in each case to its obligations to provide for claims of creditors and the requirements of applicable law.

In connection with the redemption of 100% of the Company’s outstanding Class A ordinary shares for a portion of the funds held in the trust account, each holder will receive a full pro rata portion of the amount then in the trust account, plus any pro-rata interest earned on the funds held in the trust account and not previously released to the Company to fund working capital requirements, subject to an annual limit of \$750,000, or to pay the Company’s taxes payable (less up to \$100,000 of interest to pay dissolution expenses). The Company withdrew interest earned from funds held in the Trust Account of approximately \$563,000 during the nine months ended September 30, 2018 for working capital purposes.

The initial shareholders agreed to waive their liquidation rights with respect to the founder shares if the Company fails to complete a business combination within the combination period. However, if the initial shareholders should acquire Class A ordinary shares in or after the IPO, they will be entitled to liquidating distributions from the trust account with respect to such Class A ordinary shares if the Company fails to complete a business combination within the combination period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the trust account in the event the Company does not complete a business combination within the combination period and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of the Company’s Class A ordinary shares. In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including trust account assets) will be only \$10.00 per share initially held in the trust account (or less than that in certain circumstances). In order to protect the amounts held in the trust account, the sponsors have agreed to be liable to the Company, jointly and severally, if and to the extent any claims by a vendor for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the trust account. This liability will not apply with respect to any claims by a third party who executed a waiver of any right, title, interest or claim of any kind in or to any monies held in the trust account or to any claims under the Company’s indemnity of the underwriters of the IPO against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the “Securities Act”). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the sponsors will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the sponsors will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers (other than the Company’s independent auditors), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the trust account.

**Liquidity and Going Concern**

As of September 30, 2018, the Company had approximately \$986,000 in its operating bank account and working capital of approximately \$1.1 million.

In order to finance transaction costs in connection with a business combination, the sponsors or an affiliate of the sponsors, or certain of the Company’s officers and directors may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”) (see Note 5).

In connection with the Company’s assessment of going concern considerations in accordance with the Financial Accounting Standard Board’s Accounting Standards Update (“ASU”) 2014-15, “Disclosures of Uncertainties about an Entity’s Ability to Continue as a Going Concern,” management has determined that the mandatory liquidation and subsequent dissolution raises substantial doubt about the Company’s ability to continue as a going concern. Management has not recorded any adjustments to the carrying amounts of assets or liabilities after considering the requirement to liquidate after October 23, 2019 if the Company is unable to complete a Business Combination.

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 2. Summary of Significant Accounting Policies**

*Basis of presentation*

The accompanying unaudited condensed financial statements have been prepared in accordance with United States generally accepted accounting principles (“U.S. GAAP”) for interim financial information and pursuant to the rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP. In the opinion of management, all adjustments (consisting of normal accruals) considered for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2018 are not necessarily indicative of the results that may be expected for any future period. For further information, refer to the financial statements and footnotes thereto included in the Company’s 2017 10-K filed with the SEC on March 28, 2018.

*Emerging growth company*

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart our Business Startups Act of 2012, (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accountant standards used.

*Use of estimates*

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting periods.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

*Income taxes*

The Company complies with the accounting and reporting requirements of Accounting Standards Codification (“ASC”) Topic 740, “*Income Taxes*,” which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company's management determined that the Cayman Islands is the Company's only major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of September 30, 2018 and December 31, 2017. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

There is currently no taxation imposed on income by the Government of the Cayman Islands. In accordance with Cayman federal income tax regulations, income taxes are not levied on the Company. Consequently, income taxes are not reflected in the Company's financial statements. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

*Class A ordinary shares subject to possible redemption*

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in ASC Topic 480 "Distinguishing Liabilities from Equity." Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments. Conditionally redeemable Class A ordinary shares (including Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders' equity. The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to the occurrence of uncertain future events. Accordingly, an aggregate of 33,272,111 and 32,900,501 Class A ordinary shares subject to possible redemption at redemption value at September 30, 2018 and December 31, 2017, respectively, are presented as temporary equity, outside of the shareholders' equity section of the Company's accompanying balance sheets.

*Net Income (Loss) per Share*

The Company's statement of operations includes a presentation of income per share for ordinary shares subject to redemption in a manner similar to the two-class method of income per share. Net income per ordinary share, basic and diluted for Class A ordinary share for the three and nine months ended September 30, 2018 are calculated by dividing the interest income earned on the Trust Account of approximately \$1.6 million and \$4.2 million, net of funds available to be withdrawn from Trust for working capital and tax payable purposes (subject to an annual limit of \$750,000), resulted in a total of approximately \$1.5 million and approximately \$3.7 million, respectively, by the weighted average number of Class A ordinary share outstanding for the period. Net income per ordinary share, basic and diluted for Class F ordinary share for the three and nine months ended September 30, 2018 are calculated by dividing the net income, less income attributable to Class A ordinary share of approximately \$1.5 million and \$3.7 million, respectively, by the weighted average number of Class F ordinary shares outstanding for the period.

The Company complies with accounting and disclosure requirements of FASB ASC 260, "Earnings Per Share." Net loss per common share is computed by dividing net loss applicable to common shareholders by the weighted average number of common shares outstanding for the period. The Company has not considered the effect of the warrants sold in the Initial Public Offering (including the consummation of the over-allotment) and Private Placement to purchase an aggregate of 17,433,334 Class A ordinary shares in the calculation of diluted loss per share, since their inclusion would be anti-dilutive under the treasury stock method at September 30, 2018. At September 30, 2017, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into common stock and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

*Concentration of credit risk*

Financial instruments that potentially subject the Company to concentration of credit risk consist of a cash account in a financial institution which, at times may exceed the Federal Depository Insurance Corporation coverage of \$250,000. At September 30, 2018 and December 31, 2017, the Company had not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

*Fair value of financial instruments*

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC Topic 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the accompanying balance sheets, primarily due to their short-term nature.

*Fair Value Measurements*

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

*Recent Accounting Pronouncements*

In August 2018, the SEC adopted the final rule under SEC Release No. 33-10532, Disclosure Update and Simplification, amending certain disclosure requirements that were redundant, duplicative, overlapping, outdated or superseded. In addition, the amendments expanded the disclosure requirements on the analysis of shareholders' equity for interim financial statements. Under the amendments, an analysis of changes in each caption of shareholders' equity presented in the balance sheet must be provided in a note or separate statement. The analysis should present a reconciliation of the beginning balance to the ending balance of each period for which a statement of comprehensive income is required to be filed. The Company anticipates its first presentation of changes in shareholders' equity will be included in its Form 10-Q for the quarter ended March 31, 2019.

Management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's financial statements.

**Note 3. Initial Public Offering**

On October 23, 2017, the Company sold 34,500,000 units, including the issuance of 4,500,000 units as a result of the underwriters' exercise of their over-allotment option in full, at a price of \$10.00 per unit in the IPO. Each unit consists of one Class A ordinary share and one-third of one redeemable warrant. Each whole warrant will entitle the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per share, subject to adjustment (see Note 7).

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 4. Private Placement**

Concurrently with the closing of the Initial Public Offering, the Sponsors purchased an aggregate of 5,933,334 Private Placement Warrants, generating gross proceeds of \$8.9 million in the aggregate in a Private Placement. Each Private Placement Warrant is exercisable to purchase one Class A ordinary share at \$11.50 per share. A portion of the proceeds from the Private Placement Warrants were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Warrants will expire worthless.

**Note 5. Related Party Transactions**

*Founder Shares*

On October 23, 2017, the Company issued an aggregate of 8,625,000 shares of Class F ordinary shares to the sponsors (the “founder shares”) in exchange for an aggregate capital contribution of \$25,000, with each sponsor purchasing an equal number of founder shares. The sponsors agreed to forfeit an aggregate of up to 1,125,000 founder shares to the extent that the over-allotment option is not exercised in full by the underwriters. On October 23, 2017, the underwriters exercised their over-allotment option. As a result, the 1,125,000 founder shares were no longer subject to forfeiture. The founder shares will automatically convert into Class A ordinary shares upon the consummation of a business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment (see Note 7).

The initial shareholders agreed not to transfer, assign or sell any of their founder shares until the earliest of (a) one year after the completion of the initial business combination, (b) subsequent to the initial business combination, if the last reported sale price of the Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial business combination, or (C) following the completion of the initial business combination, such future date on which the Company completes a liquidation, merger, share exchange, reorganization or other similar transaction that results in all of our public shareholders having the right to exchange their ordinary shares for cash, securities or other property.

*Forward Purchase Agreements*

The Company entered into forward purchase agreements with anchor investors (including an affiliate of Fortress Mosaic Sponsor LLC), pursuant to which the anchor investors agreed to purchase an aggregate of 15,789,474 Class A ordinary shares at a purchase price of \$9.50 multiplied by the number of Class A ordinary shares purchased (“forward purchase shares”), or approximately \$150,000,000 in the aggregate, in a private placement to occur concurrently with the closing of the initial business combination.

In connection with the forward purchase shares sold to the anchor investors, the sponsors will receive (by way of an adjustment to their existing founder shares) an aggregate number of additional founder shares equal to one ninth of the aggregate number of forward purchase shares sold to the anchor investors.

If the last reported sale price of the Class A ordinary shares is less than \$11.00 (as adjusted for share splits, share combinations and the like) for at least 20 trading days (whether or not consecutive) during the period of 30 consecutive trading days ending on the first anniversary of the Company’s initial business combination, each anchor investor may purchase from the sponsors, at a price per Class A ordinary share of \$0.01, a number of Class A ordinary shares no greater than (a) the number of forward purchase shares issued and sold to such anchor investor less any forward purchase shares sold by such anchor investor prior to its exercise of the right to purchase such contingent call shares divided by (b) 18 (as adjusted for share splits, share combinations and the like).

The forward purchase agreements also provided that the anchor investors are entitled to a right of first offer with respect to any proposed sale of additional equity or equity-linked securities by the Company for capital raising purposes in connection with the closing of the initial business combination (other than forward purchase shares) and registration rights with respect to their forward purchase securities.

The forward purchase agreements provided that prior to our initial business combination each anchor investor has the right to designate one individual to be, at its election, either elected as a member of our board of directors or a non-voting observer of our board of directors.

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

The proceeds from the sale of the forward purchase shares may be used as part of the consideration to the sellers in the initial business combination, expenses in connection with the initial business combination or for working capital in the post-transaction company. These purchases will be required to be made regardless of whether any Class A ordinary shares are redeemed by the public shareholders and are intended to provide the Company with a minimum funding level for the initial business combination.

The anchor investors will have no right to the funds held in the trust account except with respect to any public shares owned by them.

*Office Space and Related Support Services*

Effective October 18, 2017, the Company entered into an agreement with an affiliate of one of the sponsors a monthly fee of \$16,875 for office space and related support services.

On October 18, 2017, the Company agreed to pay a monthly fee of \$5,000 for its Chief Financial Officer (“CFO”) commencing on the closing of the IPO, plus a deferred cash payment of \$330 per hour, less cumulative monthly fees paid, payable upon completion of its initial business combination or liquidation, whichever occurs first. In addition, the Company also agreed to pay its CFO according to the agreement for services performed prior to the closing of the Initial Public Offering. Any deferred cash payment will not be claimed against the trust account. Additionally, the Company will issue Class A ordinary shares to him upon completion of the Company’s initial business combination (“Equity Compensation”). The number of Class A ordinary shares to be issued is determined in accordance with an agreed formula, which is estimated to be 5,200 shares as of September 30, 2018. The Company is not obligated to issue the Equity Compensation if no Business Combination is consummated. The equity compensation fee is an unrecognized contingent liability, as closing of a potential business combination was not considered probable as of September 30, 2018.

The Company had incurred approximately \$60,000 and \$190,000 in expenses during the three and nine months ended September 30, 2018 as reflected in the accompanying Statements of Operations for services provided by related parties in connection with these aforementioned agreements with related parties. An aggregate of approximately \$36,000 in fees for these services was accrued as of September 30, 2018 as reflected in the accompanying balance sheet.

*Related Party Loans*

In order to finance transaction costs in connection with a business combination, the sponsors or an affiliate of either sponsor, or certain of our officers and directors may, but are not obligated to, provide Working Capital Loans to the Company as may be required. If the Company completes a business combination, the Company would repay the Working Capital Loans out of the proceeds of the trust account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the trust account. In the event that a business combination does not close, the Company may use a portion of proceeds held outside the trust account to repay the Working Capital Loans but no proceeds held in the trust account would be used to repay the Working Capital Loans, other than the interest on such proceeds that may be released for working capital purposes. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a business combination, without interest, or, at the lender’s discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into warrants of the post business combination entity at a price of \$1.50 per warrant. The warrants would be identical to the private placement warrants. There were no Working Capital Loans outstanding as of September 30, 2018 and December 31, 2017.

**Note 6. Commitments & Contingencies**

*Registration Rights*

The holders of the founder shares and private placement warrants and warrants that may be issued upon conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the private

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

placement warrants and warrants that may be issued upon conversion of Working Capital Loans) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of the IPO. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the consummation of a business combination. However, the registration rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Pursuant to the forward purchase agreements, the Company agreed to file within 30 days after the closing of the business combination a registration statement for a secondary offering of the forward purchase shares and contingent call shares and to maintain the effectiveness of such registration statement until the earliest of (A) the date on which the anchor investors cease to hold the securities covered thereby, (B) the date all of the securities covered thereby can be sold publicly without restriction or limitation under Rule 144 under the Securities Act, subject to certain conditions and limitations set forth in the forward purchase agreements.

*Underwriting Agreement*

The Company granted the underwriters a 45-day option from the date of the IPO to purchase up to 4,500,000 additional units to cover over-allotments, if any, at the price paid by the underwriters in the IPO. The underwriters exercised this over-allotment in full concurrently with the closing of the IPO.

The underwriters were entitled to an underwriting discount of \$0.20 per unit, or \$6.9 million in the aggregate, paid upon the closing of the IPO. Additionally, a deferred underwriting discount of \$0.35 per unit, or \$12.075 million in the aggregate will be payable to the underwriters from the amounts held in the trust account solely in the event that the Company completes a business combination, subject to the terms of the underwriting agreement.

**Note 7. Shareholders’ Equity**

*Class A Ordinary Shares* —The Company is authorized to issue 200,000,000 shares of Class A ordinary shares with a par value of \$0.0001 per share. Holders of the Company’s Class A ordinary shares are entitled to one vote for each share on each matter on which they are entitled to vote. At September 30, 2018 and December 31, 2017, there were 34,500,000 shares of Class A ordinary shares issued and outstanding, including 33,272,111 and 32,900,501 shares of Class A ordinary shares subject to possible redemption, respectively.

*Class F Ordinary Shares* —The Company is authorized to issue 20,000,000 founder shares with a par value of \$0.0001 per share. Holders of the Company’s founder shares are entitled to one vote for each share on each matter on which they are entitled to vote. The founder shares will automatically convert into Class A ordinary shares on the first business day following the consummation of the initial business combination on a one-for-one basis. As of September 30, 2018 and December 31, 2017, there were 8,625,000 shares of founder shares outstanding.

Holders of the founder shares will have the right to elect all of the Company’s directors prior to the initial business combination and each director will need to receive the vote of two-thirds of the outstanding founder shares in order to be elected. Otherwise, holders of Class A ordinary shares and founder shares will vote together as a single class on all matters submitted to a vote of shareholders except as required by law or the applicable rules of the New York Stock Exchange then in effect.

Founder shares will automatically convert into Class A ordinary shares on the first business day following the consummation of the initial business combination, or earlier at the option of the holders, on a one-for-one basis, subject to adjustment. In the case that additional Class A ordinary shares, or equity-linked securities, are issued or deemed issued in excess of the amounts sold in the IPO and related to the closing of the initial business combination, the ratio at which the founder shares shall convert into Class A ordinary shares will be adjusted (unless the holders of two-thirds of the outstanding founder shares agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all founder shares will equal, in the aggregate, 20% of the sum of the total number of all ordinary shares outstanding upon the completion of the IPO plus all Class A ordinary shares and equity-linked securities issued or deemed issued

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

in connection with the initial business combination, excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination and excluding forward purchase shares sold to the anchor investors. The conversion ratio of the founder shares into Class A ordinary shares will be further adjusted in connection with the forward purchase shares sold to the anchor investors such that the sponsors will receive upon the closing of our initial business combination an aggregate number of additional Class A ordinary shares equal to one ninth of the aggregate number of forward purchase shares sold to the anchor investors.

*Preferred Shares* —The Company is authorized to issue 1,000,000 preferred shares with a par value of \$0.0001 per share. At September 30, 2018 and December 31, 2017, there are no preferred shares issued or outstanding.

*Warrants* —Warrants may only be exercised for a whole number of shares. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. The warrants will become exercisable on the later of (a) 30 days after the completion of a business combination or (b) 12 months from the closing of the IPO; provided in each case that the Company has an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the warrants and a current prospectus relating to them is available (or the Company permits holders to exercise their warrants on a cashless basis and such cashless exercise is exempt from registration under the Securities Act). The Company has agreed that as soon as practicable, but in no event later than 15 business days, after the closing of a business combination, the Company will use its best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants. The Company will use its best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the sixtieth (60th) day after the closing of the initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. The warrants will expire five years after the completion of a business combination or earlier upon redemption or liquidation.

The private placement warrants are identical to the warrants underlying the units sold in the IPO, except that the private placement warrants and the Class A ordinary shares issuable upon exercise of the private placement warrants will not be transferable, assignable or salable until 30 days after the completion of a business combination, subject to certain limited exceptions. Additionally, the private placement warrants will be non-redeemable so long as they are held by the initial purchasers or such purchasers’ permitted transferees. If the private placement warrants are held by someone other than the initial shareholders or their permitted transferees, the private placement warrants will be redeemable by the Company and exercisable by such holders on the same basis as the warrants.

The Company may call the warrants for redemption:

1. For cash:
  - in whole and not in part;
  - at a price of \$0.01 per warrant;
  - upon a minimum of 30 days’ prior written notice of redemption; and
  - if, and only if, the last reported closing price of the ordinary shares equals or exceeds \$18.00 per share (as adjusted for share splits, share dividends, reorganizations, reclassifications, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.
2. For Class A ordinary shares:
  - in whole and not in part;

**MOSAIC ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

- at a price equal to a number of Class A ordinary shares to be determined by reference to a table included in the warrant agreement, based on the redemption date and the fair market value of the Class A ordinary shares;
- upon a minimum of 30 days' prior written notice of redemption; and
- if, and only if, the last reported closing price of the ordinary shares equals or exceeds \$10.00 per share (as adjusted for share splits, share dividends, reorganizations, reclassifications, recapitalizations and the like) on the trading day prior to the date on which the Company sends notice of redemption to the warrant holders.

If the Company calls the warrants for redemption, management will have the option to require all holders that wish to exercise the warrants to do so on a "cashless basis," as described in the warrant agreement.

The exercise price and number of Class A ordinary shares issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a share dividend, or recapitalization, reorganization, merger or consolidation. However, the warrants will not be adjusted for issuance of Class A ordinary shares at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the warrants shares. If the Company is unable to complete a business combination within the combination period and the Company liquidates the funds held in the trust account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the trust account with the respect to such warrants. In such a situation, the warrants would expire worthless.

**Note 8. Fair Value Measurements**

The following table presents information about the Company's assets that are measured on a recurring basis as of September 30, 2018 and indicates the fair value hierarchy of the valuation techniques that the Company utilized to determine such fair value.

<u>Description</u>	<u>Quoted Prices in Active Markets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Other Unobservable Inputs (Level 3)</u>
Cash and marketable securities held in Trust Account	\$ 348,672,786	\$ —	\$ —

None of the balance in the Trust Account was held in cash as of September 30, 2018. As of December 31, 2017, the total balance of \$345,000,000 in the Trust Account was held in cash.

**Note 9. Subsequent Event**

The company has filed a petition for a domestic relocation of incorporation from the Cayman Islands to Delaware, United States. The domestication will require the company to file tax returns and pay certain taxes in the United States which may have a material effect on the financial statements. Taxes paid by the company are a permitted additional reduction of earned interest income under the shareholder agreement.

---

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

References to the “Company,” “our,” “us” or “we” refer to Mosaic Acquisition Corp. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited condensed financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

### Cautionary Note Regarding Forward-Looking Statements

*This Quarterly Report on Form 10-Q includes, and oral statements made from time to time by representatives of the Company may include, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Such statements include, but are not limited to, possible business combinations and the financing thereof, and related matters, as well as all other statements other than statements of historical fact included in this Form 10-Q. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other Securities and Exchange Commission (“SEC”) filings.*

### Overview

We are a blank check company incorporated as a Cayman Islands exempted company on July 26, 2017 and formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses that the Company has not yet identified (“business combination”). Although we may pursue an acquisition in any industry or geography, we are capitalizing on the ability of our management team and the broader Fortress platform to identify, acquire and operate a business that may provide opportunities for attractive risk-adjusted returns.

Our sponsors are Mosaic Sponsor, LLC and Fortress Mosaic Sponsor LLC (each a “sponsor” and, together, the “sponsors”).

Our registration statement for the initial public offering (the “IPO”) was declared effective on October 18, 2017. On October 23, 2017, we consummated the IPO of 34,500,000 units (“units”), including the issuance of 4,500,000 units as a result of the underwriters’ exercise of their over-allotment option in full, at \$10.00 per unit, generating gross proceeds of \$345 million and incurring offering costs of approximately \$19.7 million, inclusive of \$12.075 million in deferred underwriting commissions.

Simultaneously with the closing of the IPO, we consummated the private placement (“private placement”) of 5,933,334 warrants (the “private placement warrants”), at a price of \$1.50 per private placement warrant, with our sponsors, generating gross proceeds of \$8.9 million.

Upon the closing of the IPO and private placement, \$345 million (\$10.00 per Unit) of the aggregate net proceeds of the sale of the units in the IPO and the private placement was placed in a U.S.-based trust account (“trust account”) at J.P. Morgan Chase Bank, N.A., maintained by Continental Stock Transfer & Trust Company, acting as trustee. Beginning in January 2018, the proceeds held in the trust account have been invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 180 days or less or in any open-ended investment company that holds itself out as a money market fund selected by us meeting the conditions of paragraphs (d)(2), (d)(3) and (d)(4) of Rule 2a-7 of the Investment Company Act, as determined by us, until the earlier of: (i) the completion of a business combination and (ii) our failure to consummate a business combination within 24 months from the closing of the IPO, or 27 months from the closing of the IPO if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 24 months from the closing of the IPO (the “combination period”).

In order to protect the amounts held in the trust account, the sponsors had agreed to indemnify the trust account if and to the extent any claims by third parties, such as a vendor for services rendered or products sold to us, or a prospective target business with which we have entered into an acquisition agreement, reduce the amount of funds in the trust account below \$10.00 per share. This liability will not apply with respect to any claims by a third party who executed a waiver of any right, title, interest or claim of any kind in or to any monies held in the trust account or to any claims under our indemnity of the underwriter of the IPO against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the sponsors will not be responsible to the extent of any liability for such third-party claims.

Our management has broad discretion with respect to the specific application of the net proceeds of the IPO, the over-allotment, and the private placement, although substantially all of the net proceeds are intended to be applied toward consummating a business combination.

On December 5, 2017, we announced that the holders of our units may elect to separately trade the Class A ordinary shares and warrants comprising the units commencing on December 8, 2017. Those units not separated will continue to trade on the New York Stock Exchange under the symbol “MOSC.,” and each of the Class A ordinary shares and warrants that are separated will trade on the New York Stock Exchange under the symbols “MOSC” and “MOSC.WS,” respectively.

## **Results of Operations**

Our entire activity since inception up to September 30, 2018 related to our formation, commencement of the Initial Public Offering, entering into forward purchase agreement, and, since the offering, our activity has been limited to the search for a prospective initial business combination, and we will not be generating any operating revenues until the closing and completion of our initial business combination. We expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three months ended September 30, 2018, we had a net income of approximately \$1.5 million, which consist of approximately \$157,000 in general and administrative expenses offset by approximately \$1.6 million in interest income.

For the nine months ended September 30, 2018, we had a net income of approximately \$3.7 million, which consist of approximately \$519,000 in general and administrative expenses offset by approximately \$4.2 million in interest income.

For the period from July 26, 2017 (inception) through September 30, 2017, we had a net loss of approximately \$56,000, which consist of general and administrative costs related to our formation. We incurred offering costs of approximately \$594,000 as of September 30, 2017 with regard to the Initial Public Offering.

## **Liquidity and Capital Resources**

As indicated in the accompanying financial statements, at September 30, 2018, we had approximately \$986,000 in our operating bank account and working capital of approximately \$1.1 million.

Through September 30, 2018, our liquidity needs have been satisfied through receipt of a \$25,000 capital contribution from our sponsors in exchange for the issuance of the founder shares to our sponsors, \$100,000 in loans from our sponsors, the net offering proceeds not held in the trust account which resulted from the consummation of the IPO and the sale of private placement warrants to the Sponsors, and the interest released from Trust Account of approximately \$563,000 for working capital purposes during the nine months ended September 30, 2018.

In addition, in order to finance transaction costs in connection with a business combination, the sponsors or an affiliate of the sponsor, or certain of our officers and directors may, but are not obligated to, loan us funds as may be required (“Working Capital Loans”).

In connection with our assessment of going concern considerations in accordance with the Financial Accounting Standard Board’s Accounting Standards Update (“ASU”) 2014-15, “Disclosures of Uncertainties about an Entity’s Ability to Continue as a Going Concern,” management has determined that the mandatory liquidation and subsequent dissolution raises substantial doubt about our ability to continue as a going concern. Management has not recorded any adjustments to the carrying amounts of assets or liabilities after considering the requirement to liquidate after October 23, 2019 if we are unable to complete a business combination.

## **Related Party Transactions**

### *Founder Shares*

On August 15, 2017, we issued an aggregate of 8,625,000 shares of founder shares to our sponsors (the “founder shares”) in exchange for an aggregate capital contribution of \$25,000, with each sponsor purchasing an equal number of founder shares. The sponsors agreed to forfeit an aggregate of up to 1,125,000 founder shares to the extent that the over-allotment option is not exercised in full by the underwriters. On October 23, 2017, the underwriters exercised their over-allotment option. As a result, the 1,125,000 founder shares were no longer subject to forfeiture. The founder shares will automatically convert into Class A ordinary shares upon the consummation of a business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment.

Our sponsors, officers and directors (the “Initial Shareholders”) have agreed not to transfer, assign or sell any of their founder shares until the earliest of (a) one year after the completion of the initial business combination, (b) subsequent to the initial business combination, if the last reported sale price of the Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial business combination, or (C) following the completion of the initial business combination, such future date on which we complete a liquidation, merger, share exchange, reorganization or other similar transaction that results in all of our public shareholders having the right to exchange their ordinary shares for cash, securities or other property.

### *Forward Purchase Agreements*

We entered into forward purchase agreements with anchor investors (including an affiliate of Fortress Mosaic Sponsor LLC), pursuant to which the anchor investors agreed to purchase an aggregate of 15,789,474 Class A ordinary shares at a purchase price of \$9.50 multiplied by the number of Class A ordinary shares purchased (“forward purchase shares”), or approximately \$150,000,000 in the aggregate, in a private placement to occur concurrently with the closing of the initial business combination.

In connection with the forward purchase shares sold to the anchor investors, the sponsors will receive (by way of an adjustment to their existing founder shares) an aggregate number of additional founder shares equal to one ninth of the aggregate number of forward purchase shares sold to the anchor investors.

If the last reported sale price of the Class A ordinary shares is less than \$11.00 (as adjusted for share splits, share combinations and the like) for at least 20 trading days (whether or not consecutive) during the period of 30 consecutive trading days ending on the first anniversary of our initial business combination, each anchor investor may purchase from the sponsors, at a price per Class A ordinary share of \$0.01, a number of Class A ordinary shares no greater than (a) the number of forward purchase shares issued and sold to such anchor investor less any forward purchase shares sold by such anchor investor prior to its exercise of the right to purchase such contingent call shares divided by (b) 18 (as adjusted for share splits, share combinations and the like).

The forward purchase agreements also provided that the anchor investors are entitled to a right of first offer with respect to any proposed sale of additional equity or equity-linked securities by us for capital raising purposes in connection with the closing of the initial business combination (other than forward purchase shares) and registration rights with respect to their forward purchase securities.

The forward purchase agreements provided that prior to our initial business combination each anchor investor has the right to designate one individual to be, at its election, either elected as a member of our board of directors or a non-voting observer of our board of directors.

The proceeds from the sale of the forward purchase shares may be used as part of the consideration to the sellers in the initial business combination, expenses in connection with the initial business combination or for working capital in the post-transaction company. These purchases will be required to be made regardless of whether any Class A ordinary shares are redeemed by the public shareholders and are intended to provide us with a minimum funding level for the initial business combination.

The anchor investors will have no right to the funds held in the trust account except with respect to any public shares owned by them.

#### *Promissory Note—Related Party*

The sponsors had loaned us an aggregate of \$100,000 to cover expenses related to the IPO pursuant to a promissory note. The loan was non-interest bearing, unsecured and due on the earlier of March 31, 2018 or the closing of the IPO. We repaid the promissory note on October 23, 2017.

#### *Related Party Loans*

In order to finance transaction costs in connection with a business combination, the sponsors or an affiliate of either sponsor, or certain of our officers and directors may, but are not obligated to, provide Working Capital Loans to us as may be required. If we complete a business combination, we would repay the Working Capital Loans out of the proceeds of the trust account released to us. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the trust account. In the event that a business combination does not close, we may use a portion of proceeds held outside the trust account to repay the Working Capital Loans but no proceeds held in the trust account would be used to repay the Working Capital Loans, other than the interest on such proceeds that may be released for working capital purposes. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a business combination, without interest, or, at the lender's discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into warrants of the post business combination entity at a price of \$1.50 per warrant. The warrants would be identical to the private placement warrants. There were no Working Capital Loans outstanding as of September 30, 2018 and December 31, 2017.

#### *Office Space and Related Support Services*

Effective October 18, 2017, we entered into an agreement with an affiliate of one of our sponsors a monthly fee of \$16,875 for office space and related support services.

On October 18, 2017, we agreed to pay a monthly fee of \$5,000 for our Chief Financial Officer ("CFO") commencing on the closing of the IPO, plus a deferred cash payment of \$330 per hour, less cumulative monthly fees paid, payable upon completion of our initial business combination or liquidation, whichever occurs first. We had also agreed to pay our CFO according to the agreement for services performed prior to the closing of the IPO. Any deferred cash payment will not be claimed against the trust account. Additionally, we will issue Class A ordinary shares to him upon completion of our initial business combination ("Equity Compensation"). The number of Class A ordinary shares to be issued is determined in accordance with an agreed formula, which is estimated to be 5,200 shares as of September 30, 2018. We are not obligated to issue the Equity Compensation if no business combination is consummated.

We had incurred approximately \$60,000 and \$190,000 in expenses during the three and nine months ended September 30, 2018 as reflected in the accompanying Statements of Operations for services provided by related parties in connection with these aforementioned agreements with related parties. An aggregate of approximately \$36,000 in fees for these services was accrued as of September 30, 2018 as reflected in the accompanying balance sheet.

## Critical Accounting Policies and Estimates

### *Class A ordinary shares subject to possible redemption*

We account for our Class A ordinary shares subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “*Distinguishing Liabilities from Equity*.” Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A ordinary shares (including Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders’ equity. Our Class A ordinary shares feature certain redemption rights that are considered to be outside of our control and subject to the occurrence of uncertain future events. Accordingly, at September 30, 2018 and December 31, 2017, 33,272,111 and 32,900,501 Class A ordinary shares subject to possible redemption at the redemption amount are presented as temporary equity, outside of the shareholders’ equity section of our balance sheet.

### *Recent Accounting Pronouncements*

In August 2018, the SEC adopted the final rule under SEC Release No. 33-10532, Disclosure Update and Simplification, amending certain disclosure requirements that were redundant, duplicative, overlapping, outdated or superseded. In addition, the amendments expanded the disclosure requirements on the analysis of shareholders’ equity for interim financial statements. Under the amendments, an analysis of changes in each caption of shareholders’ equity presented in the balance sheet must be provided in a note or separate statement. The analysis should present a reconciliation of the beginning balance to the ending balance of each period for which a statement of comprehensive income is required to be filed. We anticipate our first presentation of changes in shareholders’ equity will be included in our Form 10-Q for the quarter ended March 31, 2019.

Our management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on our balance sheet.

### **Off-Balance Sheet Arrangements**

As of September 30, 2018 and December 31, 2017, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations.

### **JOBS Act**

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an “emerging growth company” and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As such, our financial statements may not be comparable to companies that comply with public company effective dates.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

All activity through September 30, 2018 related to our formation and the IPO and identifying and evaluating prospective acquisition targets for an initial business combination. On January 2, 2018, the net proceeds of the IPO and the sale of the private placement warrants held in the trust account were invested in U.S. government treasury bills with a maturity of 180 days or less. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk. Prior to 2018, such proceeds were not invested and were held in a non-interest-bearing trust account.

We have not engaged in any hedging activities since our inception. We do not expect to engage in any hedging activities with respect to the market risk to which we are exposed.

---

**Item 4. Controls and Procedures***Evaluation of Disclosure Controls and Procedures*

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended September 30, 2018, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our chief executive officer and chief financial officer have concluded that during the period covered by this report, our disclosure controls and procedures were effective.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

*Changes in Internal Control over Financial Reporting*

There was no change in our internal control over financial reporting that occurred during the quarter ended September 30, 2018 covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II – OTHER INFORMATION****Item 1. Legal Proceedings**

None.

**Item 1A. Risk Factors.**

As of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our 2017 Annual Report on Form 10-K filed with the SEC on March 28, 2018.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds from Registered Securities**

None.

**Item 3. Defaults Upon Senior Securities**

Chief Financial Officer

(Duly Authorized Officer and Principal Financial  
Officer)

Date: November 8, 2018

**CERTIFICATION PURSUANT TO  
RULES 13a-14(a) AND 15d-14(a)  
UNDER THE SECURITIES EXCHANGE ACT OF 1934,  
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, David M. Maura, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Mosaic Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) [Omitted];
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
