## INTRODUCTION

---

THIS SECTION DESCRIBES THE PURPOSE OF THIS PROXY STATEMENT, WHO CAN VOTE, AND HOW TO VOTE.

---

**PURPOSE.** The Board of Directors of Brown-Forman Corporation is sending you this Proxy Statement to solicit proxies for use at the annual stockholders meeting, which will be held Thursday, July 26, 2001, at 9:30 Louisville time (EDT) at Brown-Forman Corporation, 850 Dixie Highway, Louisville, Kentucky. The Board requests you to sign and return the enclosed proxy.

Beginning on June 29, 2001, we will solicit proxies by mail. In addition, our employees may solicit proxies by mail, phone, fax, the Internet or in person. We will pay all solicitation costs. We will reimburse banks, brokers, nominees, and other fiduciaries for their reasonable charges and expenses incurred in forwarding our proxy materials to their principals.

**VOTING STOCK.** We have two classes of common stock, Class A and Class B. Only holders of Class A Common Stock may vote. As of the record date, June 18, 2001, we had outstanding 28,988,091 shares of Class A Common Stock.

**VOTING RIGHTS.** If you were a Class A stockholder on June 18, 2001, and the books of our transfer agent reflect your stock ownership, you may cast one vote for each share recorded in your name. You may vote your shares either in person or by proxy. To vote by proxy, please mark, date, sign, and mail the proxy card we enclose with this Proxy Statement.

Giving a proxy will not affect your right to vote your shares if you attend the meeting and want to vote in person. You may revoke a proxy at any time before it is voted by sending our Secretary written notice of your revocation. We will vote all shares represented by effective proxies in accordance with the terms stated in the proxy.

A quorum to conduct business at the meeting consists of a majority of the outstanding Class A shares. To be elected, a director must receive a majority of the votes present at a meeting at which there is a quorum. Likewise, a majority of the shares represented at the meeting must approve any other matters brought to a vote at the meeting. We will count shares voted as "abstaining" as present for purposes of determining the number of shares represented at the meeting, but as votes withheld in the election of a director or on any other matter coming before the meeting. If a broker holding your shares in a street name indicates to us on a proxy card that he or she lacks discretionary authority to vote your shares, we will not consider your shares as present or voting for any purpose.

## ELECTION OF DIRECTORS

---

### THIS SECTION GIVES BIOGRAPHICAL INFORMATION ABOUT OUR DIRECTORS AND DESCRIBES THE COMMITTEES ON WHICH THEY SERVE AND THEIR ATTENDANCE AT MEETINGS.

At the Annual Meeting, you and our other shareholders will elect ten directors. All of our directors are standing for re-election. The persons named as proxies will vote the enclosed proxy FOR the election of all nominees below, unless you direct them on the proxy card to withhold your vote. If any nominee becomes unable to serve before the meeting, the persons named as proxies may vote for a substitute.

The Compensation Committee sets the compensation of our Chairman/CEO and President and administers short and long term bonus awards for a group of our most highly paid officers. It met twice in fiscal 2001.

The Board has no standing nominating committee.

DIRECTORS' MEETINGS. The Board met eight times during fiscal 2001. Each current director attended at least 75% of the aggregate number of Board and applicable committee meetings held in fiscal 2001.

---

\*\* Because of Mr. Street's position as a director and executive officer, as well as his beneficial ownership of our Class A Common Stock, he may be considered a "control person" of Brown-Forman.

**STOCK OWNERSHIP**

THIS SECTION DESCRIBES (A) PEOPLE WHO OWN BENEFICIALLY 5% OR MORE OF OUR VOTING STOCK AND (B) HOW MUCH STOCK OUR DIRECTORS AND EXECUTIVE OFFICERS OWN. UNDER THE SEC'S DEFINITION OF "BENEFICIAL OWNERSHIP," SOME SHARES ARE SHOWN AS OWNED BY MORE THAN ONE PERSON AND ARE THEREFORE COUNTED MORE THAN ONCE.

VOTING STOCK OWNED BY "BENEFICIAL OWNERS." This table shows each "beneficial owner" of more than 5% of our Class A Common Stock, our only class of voting stock, as of April 30, 2001. The Securities and Exchange Commission defines "beneficial ownership" to include shares over which a person has sole or shared voting or investment power, as well as all shares underlying options that are exercisable within sixty days. Under this definition, "beneficial owners" may or may not receive any economic benefit (such as receiving either dividends or sale proceeds) from the shares attributed to them. USING THIS DEFINITION, SOME SHARES SHOWN BELOW ARE OWNED BY MORE THAN ONE PERSON. Some "beneficial owners" share voting and investment powers as members of advisory committees of certain trusts of which corporate fiduciaries are the trustees. Counting each share only once, the aggregate number of shares of Class A Common Stock beneficially owned by the people in this table is 20,924,195 shares, or 72.1% of the outstanding shares of that class.

(1) Owned by The O'Neil Foundation, of which Mr. O'Neil is President. Mr. O'Neil disclaims beneficial ownership of these shares.

(2) In computing the aggregate number of shares and percentages owned by all directors and executive officers as a group, we counted each share only once.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE. Executive officers, directors, and "beneficial owners" of more than 10% of our Class A Common Stock must file reports of changes in ownership of our stock pursuant to Section 16(a) of the Securities Exchange Act of 1934. We have reviewed the reports and written representations we received from these persons. Based solely on this review, we believe that during fiscal 2001 these persons reported all transactions on a timely basis, except that Mr. James S. Welch, Jr. inadvertently failed to include certain shares held in trust, for which he is trustee, on his initial report of stock ownership on Form 3. Mr. Welch reported these shares on an amendment to the Form 3.

## AUDIT COMMITTEE

---

THIS SECTION IS A REPORT FROM THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS. IT EXPLAINS THE ROLE OF THE AUDIT COMMITTEE AND SETS FORTH THE FEES PAID TO OUR EXTERNAL AUDITOR.

---

### AUDIT COMMITTEE REPORT

**COMPOSITION.** The Audit Committee consists of three non-employee directors. In accordance with the rules of the New York Stock Exchange, the Board of Directors has determined that each Committee member is independent and financially literate and has financial management expertise.

**CHARTER.** The Committee's purpose and function are described in more detail in the Charter for the Audit Committee (Exhibit A). This charter was reviewed and approved by the Board of Directors on May 25, 2000 and is in compliance with rules of the New York Stock Exchange and Securities and Exchange Commission.

**FUNCTION.** The Committee's responsibility is to monitor and oversee the financial reporting process, the system of internal controls, the audit process, and the corporation's program for compliance with applicable governmental laws and regulations. To place the Committee's role in perspective, management is responsible for the Company's internal controls, the financial reporting process, and the corporation's program for compliance. The external auditors are responsible for performing an independent audit of the Company's financial statements in accordance with generally accepted accounting principles and issuing a report on this. The Committee reviews the work of management and the external auditors on behalf of the Board of Directors.

The Committee met three times during the year, during which the committee members had discussions with management and the external auditors. Management has represented to the Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles. The Committee discussed those statements with management and the external auditors, including discussions with the external auditors in executive session with representatives of management excluded.

The Committee discussed with the external auditors matters required to be discussed by the Statement on Auditing Standards No. 61 (Communication with Audit Committees), as amended. The external auditors provided to the Committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). The Committee discussed with the external auditors their independence and ability to conduct the audit.

In addition, the Committee reviews reports from the internal audit department of the Company, which investigates the adequacy of internal financial controls. The Committee hears reports from the Company's legal department on compliance with the Company's internal Code of Conduct and governmental laws and regulations.

**AUDIT FEES.** The following is a summary of fees billed to the Company by PricewaterhouseCoopers LLP for the fiscal year ended April 30, 2001:

- Audit Fees: \$567,992.

- Financial Information Systems Design and Implementation Fees: \$0.

- All Other Fees: \$1,181,399.

The Audit Committee has considered whether the services provided other than audit services referenced above are compatible with maintenance of the principal accountant's independence.

CONCLUSION. Based on the foregoing, we recommended that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ending April 30, 2001.

## EXECUTIVE COMPENSATION

---

THIS SECTION IS A REPORT FROM THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS. THE REPORT EXPLAINS OUR COMPENSATION PHILOSOPHY, HOW COMPENSATION DECISIONS ARE MADE FOR OUR MOST SENIOR EXECUTIVES, AND HOW WE COMPLY WITH SECTION 162(m) OF THE INTERNAL REVENUE CODE (WHICH GOVERNS OUR ABILITY TO DEDUCT THE COMPENSATION OF OUR MOST HIGHLY PAID OFFICERS).

---

### COMPENSATION COMMITTEE REPORT

**FUNCTION.** The Compensation Committee consists of three non-employee directors.

The Compensation Committee administers the short and long term bonus plans for the Company's seven senior executives, who are referred to as Executive Officers. The Executive Officer group is divided into two subgroups:

- the Chairman/CEO, Owsley Brown II, and President William M. Street; and
- five other Executive Officers.

The Compensation Committee sets the salaries for Mr. Brown and Mr. Street. The Management Compensation Review Committee (which consists of Mr. Brown and Mr. Street) sets salaries for the five other Executive Officers.

The Committee met twice in fiscal 2001 to review and determine the compensation of Mr. Brown and Mr. Street, and to review compensation recommendations prepared by the Company's Management Compensation Review Committee for the remaining five Executive Officers.

**COMPENSATION PHILOSOPHY.** The Committee sets compensation targets for the seven Executive Officers using the same philosophy the Company uses in setting compensation for all salaried employees: first, to offer sufficient compensation to attract, motivate and retain high-quality talent; and second, to tie bonus achievement to the Company's successful financial performance.

**MR. BROWN AND MR. STREET.** The Committee relies in part on survey data to set the salary and bonuses for Mr. Brown and Mr. Street. The results of two different surveys, one from Hay Management Consultants and the other from Hewitt Associates, are reviewed annually. Hay surveys compensation of officers at companies in the manufacturing business (such as H. J. Heinz and Wm. Wrigley Jr. Corporation). Hewitt surveys companies in the consumer products business (such as Fortune Brands and Hershey Foods Corporation). This is the field from which the Company typically recruits executives. This data is blended (appropriately adjusted for the size of the company) on a 50% - 50% basis to derive compensation levels that the Committee believes are representative of the market. This year the Committee also reviewed survey data from Towers Perrin, which provides surveys of executive compensation in appropriate manufacturing and consumer products companies.

The compensation mix of Mr. Brown and Mr. Street consists of salary (32%), annual bonus (24%), and long term compensation (44%). Salaries are set with respect to the market data. The Committee develops targets for annual and long term bonuses based on Business Value Added (BVA), which is the Company's after-tax income in excess of our estimate of the Company's cost of capital. Long term compensation consists of cash, which is paid based upon reaching BVA goals over three years, and stock options, which vest after three years and are exercisable within ten years.

The Committee sets compensation targets that are somewhat above the mid-market level to attract and retain the type of executives who will provide the fine leadership our Company needs for success.

In considering compensation for fiscal 2001, in addition to the survey data discussed above, the Committee looked at the compensation increases (approximately 4.5%) for Company employees who are not eligible for bonuses, and the Company's performance last fiscal year. The Committee also looked carefully at the increases in long term equity-based incentives being offered to top executives in the market place while weighing the extensive family and personal holdings of Mr. Brown as well as the holdings of Mr. Street to appropriately motivate and adequately link these executives to the interests of all shareholders. In that light, and in light of the good performance of these executives as reflected in the Company's continuing growth, the Committee approved appropriate compensation increases for Mr. Brown and Mr. Street.

**OTHER EXECUTIVE OFFICERS.** The Committee set the short and long term bonuses for the Company's five other Executive Officers, in each case upon the recommendation of the Management Compensation Review Committee. The Management Compensation Review Committee sets the salaries for the Company's other Executive Officers.

**COMPLIANCE WITH TAX LAW LIMITS ON DEDUCTIBILITY OF COMPENSATION:** Section 162(m) of the Internal Revenue Code limits to \$1 million the amount of annual compensation an employer may deduct when paid to a Named Executive Officer (those Executive Officers shown on the Summary Compensation Table). The law does, however, allow employers to deduct compensation over \$1 million if it is "performance based" and paid under a formal compensation plan that meets the Code's requirements. The Company took appropriate steps in setting goals under the Company's Omnibus Compensation Plan to assure the deductibility of all compensation paid to Named Executive Officers. The Committee expects the Company to be able to deduct all fiscal 2001 compensation.

**CONCLUSION:** Based upon the information available at the time the Committee determined the compensation for fiscal 2001 for our Executive Officers, the Committee believes that the levels of compensation were consistent with targeted levels and that the compensation increases granted during fiscal 2001 were prudent.

**STEPHEN E. O'NEIL, Chairman RICHARD P. MAYER DONALD G. CALDER**

**Explanatory Notes:**

We award up to 50% of long term bonus compensation as stock options, with the balance in cash to be paid at the end of each three-year performance period (it will then appear on this table as a long term compensation payout). Stock option values can increase or decrease; the present values (as of the grant date) of the stock option awards in the Long Term Compensation Awards column appear in the table on page 13.

(1) Represents cash payments under the annual incentive plan.

(2) Represents cash payments under the long term incentive plan.

(3) Represents our contributions to the Savings Plan and our payment of group term life insurance premiums on behalf of the Named Executive Officers.

## OPTION GRANTS UNDER THE OMNIBUS COMPENSATION PLAN

The Omnibus Compensation Plan covers both short term and long term bonuses. Stock options awarded in fiscal 2001 under this plan are described below.

We grant options with an exercise price of the fair market value of the underlying stock on the date of grant. Generally, options become exercisable three years after grant and must be exercised within ten years of grant. This year, we granted options for approximately 400,000 shares of our stock for long term bonus awards to management participants. As required by the Omnibus Compensation Plan, we will buy all shares needed to exercise these options, so there will be no dilution of the equity of existing stockholders. The table below summarizes the grants to the Named Executive Officers.

NAME	NUMBER OF SHARES OF CLASS B COMMON STOCK UNDERLYING OPTIONS GRANTED	PERCENT OF TOTAL OPTIONS GRANTED TO EMPLOYEES IN FISCAL YEAR	PER SHARE EXERCISE PRICE	EXPIRATION DATE: APRIL 30,	PRESENT VALUE AS OF GRANT DATE (1)
Brown	39,542	10%	50.44	2010	561,890

WELCH	8,443	2%	50.44	2010	119,970

\* less than 1%

(1) We used the Black-Scholes option pricing model to determine present value. We assumed a risk-free interest rate of 6.3%, stock price volatility of 27%, a yield of 2.5%, and option life of six years (to allow for voluntary early exercises and exercises that may accelerate as a result of disability, termination, retirement, or death).

## AGGREGATED OPTION VALUES AT END OF FISCAL 2001

The following table summarizes all option grants that have been made to the Named Executive Officers through and including fiscal 2001.

## RETIREMENT PLAN DESCRIPTIONS

### THIS SECTION DESCRIBES RETIREMENT AND SAVINGS PLANS FOR OUR EXECUTIVES.

Our executives participate in several different retirement and savings plans:

(1) **RETIREMENT PLANS:** We maintain both tax-qualified retirement plans and non-qualified supplemental excess retirement plans. Most salaried employees participate in the Salaried Employees Retirement Plan. This plan provides monthly retirement benefits based on age at retirement, years of service and the average of the five highest consecutive years' compensation during the final ten years of employment. Retirement benefits are not offset by Social Security benefits and are normally payable at age 65. A participant's interest in plan benefits vests after five years of service. The following table shows the estimated annual benefits (straight life annuity) payable upon retirement at normal retirement age to participants at specified levels of compensation and years of service:

=====	AVERAGE ANNUAL HIGHEST 5 CONSECUTIVE YEARS' COMPENSATION DURING FINAL 10 YEARS	YEARS OF SERVICE CLASSIFICATION		
		10 YEARS	20 YEARS	30 YEARS
=====	\$ 400,000	\$ 68,325	\$136,651	\$ 204,976
	\$ 800,000	\$138,325	\$276,651	\$ 414,976
	\$1,200,000	\$208,325	\$416,651	\$ 624,976
	\$1,600,000	\$278,325	\$556,651	\$ 834,976
=====	\$2,000,000	\$348,325	\$696,651	\$1,044,976
=====				

For example, an executive retiring at age 65 with 10 years of service whose average annual compensation for the five highest of the executive's ten years of service was \$400,000, would receive an estimated \$68,325 annually for the remainder of the executive's life.

Federal tax law limits the benefits that we might otherwise pay to key employees under "qualified" plans such as the Salaried Employees Retirement Plan. Therefore, for certain key employees, we also maintain a non-qualified Supplemental Excess Retirement Plan (SERP). The SERP provides retirement benefits to make up the difference between a participant's accrued benefit calculated under the Salaried Employees Retirement Plan and the ceiling imposed by federal tax law. SERP participants may choose to get a discounted current cash payment instead of a SERP retirement benefit. The SERP also provides supplemental retirement benefits for certain key employees who join us in mid-career, subject to special vesting requirements.

For the Named Executive Officers, covered compensation for fiscal 2001 for these plans and service credited as of April 30, 2001, were as follows: Owsley Brown II, \$1,618,661 and 30 years; William M. Street, \$1,135,138 and 30 years; Stanley A. Krangel, \$660,828 and 6 years; Michael B. Crutcher, \$515,354 and 12 years; and James S. Welch, Jr., \$394,626 and 12 years.

(2) **SAVINGS PLAN:** Subject to a maximum the IRS sets annually (\$10,500 for calendar 2001), most participants in our Savings Plan may contribute between 2% and 15% of their compensation to their Savings Plan accounts. Our match of participants' contributions is currently 4.25% (on the first 5% of the employee's contribution), and vests fully after four years of service.

## DIRECTOR COMPENSATION

---

### **THIS SECTION DESCRIBES HOW WE COMPENSATE OUR DIRECTORS.**

---

We do not pay our two employee directors (Mr. Brown and Mr. Street) additional compensation for serving on our Board or its committees. We compensate our directors who are not employees at an annual rate of \$25,000, payable in equal periodic installments, plus \$2,000 per Board meeting and \$2,000 per committee meeting attended; committee chairmen receive an additional \$1,000 for chairing committee meetings. Directors may elect in advance of their one year term to receive their retainer (but not meeting fees) in the form of an equivalent value of stock options issued at the start of their terms. In addition, under the Non-Employee Director Compensation Plan, each director who is not an employee received options for \$25,000 worth of Class B Common Stock (1,760 options with a per share exercise price of \$50.44 each).(1) We reimburse all directors for reasonable and necessary expenses they incur in performing their duties as directors, and we provide an additional travel allowance to directors who must travel to Board meetings from outside the United States.

---

(1) The present value of the options was determined using the Black-Scholes model described on page 13.

## FIVE-YEAR PERFORMANCE GRAPH

THIS CHART SHOWS HOW BROWN-FORMAN CLASS B COMMON STOCK HAS PERFORMED AGAINST FOUR STOCK INDEXES OVER THE LAST FIVE YEARS.

This graph compares the cumulative total stockholder return on our Class B Common Stock against four indexes which include that stock: the Standard & Poor's 500 Stock Index, the Dow Jones Consumer Non-Cyclical Index (110 companies), the Dow Jones Food and Beverage Makers (45 companies), and the S&P Beverage Alcohol Index (3 companies). As a diversified producer of both beverage alcohol products and consumer durables including china, crystal, luggage, and silverware, our business does not fit easily into specific industry indexes. We included the Dow Jones Consumer Non-Cyclical Index as a diversified index, even though portions of our business are cyclical. The Dow Jones Food and Beverage Makers Index is newly added in 2001, and provides you with the opportunity to compare our performance against the performance of other producers of consumer branded products (e.g., Campbell Soup, Hershey Foods Corp., PepsiCo). While the S&P Beverage Alcohol Index might appear to be a reasonable one against which to measure our stock's performance, it contains only three companies, and those are unevenly matched in relative market capitalization.<sup>(1)</sup> In addition, Brown-Forman is the only spirits and wine company in the index, the other two being beer companies. Accordingly, we will not include the S&P Beverage Alcohol index in future proxy statements. Overall, we believe it is best to compare the cumulative total stockholder return on our Class B Common Stock not to a single index, but rather to trends shown by a review of several indexes.

These numbers assume that \$100 was invested in our Class B stock and in each index on April 30, 1996, and that all quarterly dividends were reinvested at the average of the closing stock prices at the beginning and end of the quarter. The cumulative returns shown on the graph represent the value that these investments would have had on April 30 in the years since 1996.
