This report contains statements that constitute "forward-looking statements" as defined under U.S. federal securities laws. Generally, words such as "will," "would," "should" and similar expressions identify a forward-looking statement, which speaks only as of the date the statement is made. Except as required by law, we do not intend to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. We believe that the expectations and assumptions with respect to our forward-looking statements are reasonable. But by their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors that in some cases are out of our control. These factors could cause our actual results to differ materially from Brown-Forman's historical experience or our present expectations or projections.
