The Company also actively engages with our shareholders to understand our shareholders' views towards the program and reviews comments from shareholder advisory services.

Pay for Performance Philosophy

The Compensation Committee believes our executive compensation program should incent and reward behaviors that build a foundation for our long-term performance and success while also supporting the achievement of annual objectives. Our performance assessment framework and executive compensation program are designed to reward such performance by linking our executives' compensation to the achievement of both long- and short-term goals. For example, the annual incentives paid to each of our NEOs vary with performance, including our annual financial results.

Executive Compensation Program Design

The substantial majority of our NEOs' compensation is directly tied to our performance with short- and long-term incentives comprising an average of approximately 81% of our NEOs' target total direct compensation ("TDC"). The following is a list of the principal components of our executive compensation program in fiscal year 2024:

Character	Component	Description
Fixed	Base Salary	Annual fixed portion of NEOs' TDC designed to attract and retain experienced executives, comprising only approximately an average of 20% of our executives' target TDC in fiscal year 2024.
At Risk	Short-Term Incentives	Cash bonus plan that rewards NEOs for achieving annual performance objectives based on Revenue and EBITDA, calculated as described below.
	Long-Term Incentives	Performance Restricted Stock Units ("PRSUs") earned based on achievement of three-year EBITDA growth objectives. Restricted Stock Units ("RSUs") earned over three years based on continued commitment to CACI.

Performance Assessment

Compensation Committee	The Compensation Committee uses a comprehensive process to assess performance on an ongoing basis, which includes frequent dialogue with management about financial performance relative to our goals and competitors, and assessment of corporate and individual executive accomplishments.
Independent Consultant	The Compensation Committee also asks its independent compensation consultant to assess our pay-for-performance alignment, which includes an analysis of our NEOs' realizable pay relative to our peer group and an analysis of operational and shareholder returns relative to our peer group.

Historical Pay for Performance Results

Our pay for performance philosophy is reflected in the compensation that has been earned by our NEOs over the past three years. The chart below summarizes our corporate performance against the Compensation Committee performance metrics and the impact our performance had on our NEOs' compensation.

Year	Bonus Plan Performance	Average Annual Bonus Payout	% of PRSUs Earned in 3-Yr Performance Period Ending During Fiscal Year ⁽¹⁾
2024	CACI Revenue > Target EBITDA > Target	145.5%	104%
2023	CACI Revenue > Target EBITDA > Target	119%	134%
2022	CACI Revenue < Target EBITDA < Target	87%	116%

(1) Earned PRSUs vest 100% on the third anniversary of the grant date.

Executive Compensation Practices

We also maintain certain executive compensation practices designed to strengthen the connection between our executives' interests and the interests of our shareholders. The following is a summary of the compensation practices that we do and do not employ to advance our shareholders' long-term interests.

What We Do	What We Don't Do
✓ More than 75% of NEO Compensation "At-Risk"	✗ No Excessive Perquisites
✓ Performance Vesting Based on Company Growth	✗ No Repricings
✓ Rigorous Stock Ownership Guidelines	✗ No Tax Gross-ups
✓ Clawback Policy	✗ No Automatic Single Trigger Equity Vesting on Change of Control

Compensation Governance and Process

Compensation Governance

The Compensation Committee, composed solely of independent directors, is responsible for our executive officer compensation decisions. The Compensation Committee works very closely with Mercer, as its independent compensation consultant, and management to examine pay and performance matters during the year. The Compensation Committee has both a strategic and administrative role in managing the compensation structure of the Company, with an emphasis on compensation of top management. Strategically, the Compensation Committee considers how the achievement of the overall goals and objectives of the Company can be aided through adoption of an appropriate compensation philosophy and effective program elements. Administratively, the Compensation Committee reviews compensation paid, salary progressions, incentive compensation allocations, benefits and perquisites provided to all employees, and equity awards granted under all shareholder-approved plans.

Compensation Process

The Compensation Committee acted in accordance with the following process in determining our NEOs compensation for fiscal year 2024.

Fourth Quarter FY2023	<ul style="list-style-type: none"> Developed the design of the fiscal year 2024 compensation program.
First Quarter FY2024	<ul style="list-style-type: none"> Reviewed and approved the metrics and goals for the PRSUs. Approved the performance metrics and goals for the fiscal year 2024 cash incentive plan. Set target total direct compensation for the NEOs for fiscal year 2024.

Compensation Factors

The Compensation Committee determined fiscal year 2024 TDC targets for the CEO and each of the other NEOs employed at the time based on the following process:

- Leadership Evaluation:** The Compensation Committee used a performance assessment framework to make CEO compensation decisions. For the other NEOs, the Compensation Committee, with input from the CEO, reviewed (1) performance against the objectives set in fiscal year 2023, and (2) each NEO's Leadership Assessment based on individual performance with regard to key leadership attributes.
- Risk-Balancing and Performance:** In evaluating the performance of the NEOs, the Compensation Committee sought to understand what was accomplished relative to established objectives, how it was accomplished, the quality of financial results and the Company's strategic positioning for future competitive advantage.
- Market Practices:** The Compensation Committee evaluated each NEO's relative compensation and changes in responsibilities and considered current pay practices for comparable positions at peer companies.
- Independent Consultant Input:** The Compensation Committee received input from its independent compensation consultant.
- Other Factors:** For the NEOs other than the CEO, the Compensation Committee also considered the CEO's recommendations, succession planning and retention. Finally, before making pay decisions, the Compensation Committee reviewed the pay mix to ensure that it was competitively positioned and performance-based.

During the course of the fiscal year, the Compensation Committee reviews corporate performance each quarter and assesses progress for each goal in the cash incentive program and active long-term incentive programs from current and prior fiscal years. The Committee uses a performance assessment framework to make CEO compensation decisions. For the other NEOs, the Committee, with input from the CEO, reviews (1) business unit/staff group performance against the objectives set for the fiscal year, and (2) each NEO's Leadership Assessment based on individual performance with regard to key leadership attributes. The Committee evaluates each NEO's relative compensation and changes in responsibilities and considers current pay practices for comparable positions at peer companies. The Committee also considers the CEO's recommendations, succession planning, retention and advice of its independent compensation

consultant. Finally, before making pay decisions, the Committee reviews the pay mix to ensure that it is competitively positioned and performance-based. The Committee also discusses other information relevant to executive compensation, such as trends, regulatory updates, shareholder feedback and individual performance.

Independent Compensation Consultant

With respect to fiscal year 2024, Mercer attended Compensation Committee meetings, met with the Compensation Committee in executive sessions, reviewed and provided recommendations on the components of the Company's executive compensation program and provided compensation advice independent of the Company's management. The compensation consultant reports directly to the Committee and performs no work for management other than providing advice on executive compensation pursuant to its engagement by the Committee. The Compensation Committee assessed the independence of Mercer pursuant to SEC rules and concluded that their work for the Compensation Committee did not raise any conflicts of interest.

Assessing Competitive Practice

Mercer assists the Committee by reviewing comparative market data on compensation practices and programs within the Company's peer group.

During fiscal year 2024, Mercer was responsible for providing information on new laws and regulations, general industry compensation practices, recommendations for director compensation and compensation for management positions under the Committee's purview, and for performing independent assessments of management recommendations brought before the Committee.

For fiscal year 2024, peer comparisons were performed against 15 publicly-traded companies which were selected based on similarities to CACI in size and/or industry as well as operational similarities. The selected companies were as follows:

Booz Allen Hamilton Holding Corporation	Bread Financial Holdings, Inc.	Broadridge Financial Solutions, Inc.	Cognizant Technology Solutions Corporation
Fidelity National Information Services, Inc.	Fiserv, Inc.	Jacobs Solutions, Inc.	KBR, Inc.
L3Harris Corporation	Leidos Holdings, Inc.	MAXIMUS, Inc.	Parsons Corporation
Science Applications International Corporation	Tetra Tech, Inc.	Unisys Corporation	

The companies used for peer comparisons are reviewed annually and adjusted as necessary due to changes at the selected company (e.g., acquisitions, bankruptcies, etc.) or changes in the comparability of the selected company to CACI.

Determining Executive Compensation

Executive Compensation Objectives

Our NEO compensation programs are designed to attract, retain and reward the management talent that we need to maintain and strengthen our position in the industry and to achieve our business objectives.

OUR COMPENSATION PRINCIPLES

Our compensation programs for NEOs are guided by three basic principles:

Link compensation to performance. We believe that compensation levels should reflect performance - both the performance of CACI and the performance of the recipient.

Maintain competitive compensation levels. We strive to offer programs and levels of compensation that are competitive with those offered by the Company's peer group to attract, retain and reward our NEOs. The Committee evaluates TDC for each Executive Officer relative to the median of the Company's peer group.

Align management's interests with those of shareholders. We seek to implement programs that will align management's interests with those of shareholders and increase long-term shareholder value by granting long-term equity incentive awards each year.

Principal Elements of Compensation

⁽¹⁾ Percentages are based on the target amounts for the individual components described in the "Fiscal year 2024 Base Salaries," "Fiscal year 2024 Annual Incentives" and "Fiscal year 2024 Long-Term Incentives" sections below.

Fiscal Year 2024 Executive Compensation Strategy

In fiscal year 2023, the Compensation Committee conducted a thorough review of the Company's executive compensation philosophy and strategy. The key objectives of the Compensation Committee's review were to:

- Drive attraction and retention of top talent in a more intense competitive landscape in our industry;
- Increase focus on our growth and position in the technology sector with an expectation of margin expansion;
- Respond to shareholder feedback regarding the structure of our long-term incentive program;
- Forge a stronger linkage between executive pay programs and our long-term strategic objectives; and
- Align management on a consistent market competitive framework for executive compensation.

Fiscal Year 2024 Annual Bonus Program

For fiscal year 2024, the Compensation Committee determined that all cash incentives for executives will be based on annual performance, establishing performance targets and payout ranges for each metric based on the current business environment, review of the competitive market, historical performance against targets and the Company's desire for growth.

The Compensation Committee also determined that total bonus payouts for cash incentives will be subject to an upward or downward discretionary adjustment by the Compensation Committee based on its evaluation of each executive's attainment of financial and non-financial performance objectives. All cash incentives for executive officers will be capped at 250% of their target cash incentive.

Fiscal Year 2024 Long-Term Incentives

The Committee granted fiscal year 2024 long-term incentive awards to executive officers in October 2023. To align executive incentives with long-term shareholder value creation and the Company's strategic growth objectives, the Committee granted two types of long-term incentives to executive officers in fiscal year 2024:

- Restricted Stock Units which reinforce attraction, retention and long-term shareholder value creation; and
- Performance Restricted Stock Units which reinforce attraction, retention, long-term shareholder value creation and specifically focus on achieving strategic objectives. The vesting of the Performance Restricted Stock Units is based on the degree of attainment of three-year earnings growth objectives.

Fiscal Year 2024 Base Salaries

In late fiscal year 2023, the Compensation Committee reviewed and approved our NEOs' base salaries for fiscal year 2024, taking into consideration the median of base salaries for comparable executives among our peer group, individual performance in fiscal year 2023 and the Company's overall annual fiscal year 2024 merit increase guidance applicable to all employees. The adjustments approved by the Compensation Committee became effective on August 1, 2023 for all NEOs.

Name	FY2023 Base Salary (\$)	FY2024 Base Salary (\$)	Percentage Change
John S. Mengucci	1,050,000	1,300,000	24.0%
Jeffrey D. MacLauchlan	650,000	685,000	5.0%
DeEtte Gray	659,200	685,568	4.0%
Todd Probert	561,000	605,880	8.0%
J. William Koegel, Jr.	531,000	588,000	11.0%

Salary adjustments reflected the Compensation Committee's strategy to provide competitive increases of base salary consistent with overall movement of executive base salaries in our peer group.

Fiscal Year 2024 Annual Incentives

Target Annual Incentives

Our cash incentive program is designed to motivate our executive officers to achieve pre-established annual performance objectives. In establishing target cash incentives for fiscal year 2024, the Compensation Committee reviewed our NEOs' target total cash compensation, relative to the median of our peers, and made certain adjustments to more closely align our NEOs' total target cash compensation to the Company's peer group. The table below shows the fiscal year 2024 NEO target cash incentive levels that were approved by the Compensation Committee in late fiscal year 2023:

Name	FY2023 Target Annual Incentive (\$)	FY2024 Target Annual Incentive (\$)	FY2024 Percentage of Base Salary	Percentage Change
John S. Mengucci	1,575,000	1,950,000	150%	24.0%
Jeffrey D. MacLauchlan	544,692	685,000	100%	26.0%
DeEtte Gray	824,000	856,960	125%	4.0%
Todd Probert	561,000	605,880	100%	8.0%
J. William Koegel, Jr.	487,426	529,200	90%	9.0%

Design

The fiscal year 2024 cash incentive plan was based on full year performance for the Named Executive Officers. At the beginning of fiscal year 2024, the Compensation Committee established the performance metrics applicable to the annual cash incentive program. The performance metrics were selected to incent the Company's growth and support the interests of the Company's shareholders and were applied to each executive based on their responsibilities:

Performance Metric	Purpose
CACI EBITDA	Indicator of performance that is controlled by the Company and used as the primary incentive metric to ensure our executives' focus on overall profitability.
CACI Revenue	Measure of the Company's growth which requires the maintenance and expansion of current business and the capture of new business. To incent organic growth, the Committee evaluates whether to include acquired revenue in the measurement of this metric after the completion of each acquisition.

In addition, the Compensation Committee approved metrics for the Company's business sectors, which were applicable to Ms. Gray and Mr. Probert, among others:

Performance Metric	Purpose
Sector EBITDA	Primary indicator of the performance of the sector and is used as the primary incentive metric to ensure our sector executives' focus on overall profitability.
Sector Revenue	Primary measure of the sector's growth, which requires the maintenance and expansion of current business and the capture of new business.

The following is a summary of the performance metrics applicable to each NEO for the annual and quarterly components of the annual incentive program.

	Metrics	Annual
		Weight
Mr. Mengucci, Mr. MacLauchlan and Mr. Koegel	CACI EBITDA	50%
	CACI Revenue	50%
Ms. Gray and Mr. Probert	CACI EBITDA	20%
	CACI Revenue	20%
	Sector EBITDA	30%
	Sector Revenue	30%

After determining the appropriate performance metrics and weights applicable to the cash incentive program, the Compensation Committee established the target performance levels for the Company performance metric at the beginning of the fiscal year. The performance targets for each metric were established based on the Company's five-year strategic plan, then current business environment, review of the competitive market, historical performance against targets and the Company's desire for growth. The performance metrics, targets and results used to evaluate fiscal year 2023 performance included all acquisitions which occurred in fiscal year 2022. There were no significant acquisitions in fiscal year 2023. The President and Chief Executive Officer was responsible for establishing performance metrics for non-Executive Officers which flow from the Company metrics established by the Committee.

Once performance targets were established for each Company performance metric, the Compensation Committee determined appropriate lower, or "Cut," threshold levels for each metric and upper, or "Stretch," threshold levels. For performance below Cut levels, no bonus was awarded. For performance between Cut and Target levels, and between Target and Stretch levels, bonus payouts were prorated on a straight-line basis. No additional incentives are awarded for performance above Stretch levels. Total payment for the cash incentive program is capped at 250% of the target payout for each NEO.

The ranges between Cut, Target and Stretch thresholds were based upon multiple factors assessed by the Compensation Committee, including historical ranges and historical performance against Cut, Target and Stretch

thresholds. For fiscal year 2023, the Committee set the Cut thresholds at 90% of Target and Stretch thresholds at 110% of Target.

In addition, the Committee established an Individual Modifier, where bonus can be adjusted up or down 25% based on assessment of financial and/or non-financial performance (e.g., ESG, strategic milestones, employee engagement, or other factors which aren't immediately reflected in financial results).

Fiscal Year 2024 Performance

Performance relative to each metric used in calculating our NEOs' annual incentive payout is delineated below for fiscal year 2024.

Annual Metrics	Target	Actual⁽¹⁾	Result
CACI Revenue (\$M)	7,100	7,454	Between Target and Stretch
CACI EBITDA (\$M)	767	798	Between Target and Stretch
BITS Sector Revenue (\$M)	3,111	3,196	Between Target and Stretch
BITS Sector EBITDA (\$M)	347	387	Above Stretch
NSIS Sector Revenue (\$M)	2,604	2,681	Between Target and Stretch
NSIS Sector EBITDA (\$M)	237	238	Between Target and Stretch

(1) \$206M in CACI Revenue was removed from the FY24 ABP performance attainment in determining the payout.

In consideration of the performance outlined above, the table below provides a summary of the cash incentives actually earned by our NEOs.

Name	FY2024 Total Target Annual Incentive (\$)	FY2024 Total Earned Annual Incentive (\$)	Payout as a Percentage of Target
John S. Mengucci	1,950,000	2,837,250	145.50%
Jeffrey D. MacLauchlan	685,000	996,675	145.50%
DeEtte Gray	856,960	1,341,999	156.60%
Todd Probert ⁽¹⁾	605,880	691,612	114.15%
J. William Koegel, Jr.	529,200	769,986	145.50%

(1) Mr. Probert's Individual Modifier was adjusted to 88.5% resulting in an overall payout of 114.15%.

Fiscal Year 2024 Long-Term Incentives

The Compensation Committee used market data provided by its compensation consultant to set the target value of equity for the NEOs. Based on this review, the Compensation Committee made certain adjustments to align our NEOs with the peer group.

Name	FY2023 Target Equity Value (\$)	FY2024 Target Equity Value (\$)	Percentage Change
John S. Mengucci	6,700,000	10,500,000	57%
Jeffrey D. MacLauchlan	2,000,000	2,000,000	0%
DeEtte Gray	1,400,000	2,000,000	43%
Todd Probert	1,200,000	1,500,000	25%
J. William Koegel, Jr.	1,000,000	1,000,000	0%

All NEOs received their fiscal year 2024 target equity value 50% in the form of RSUs and 50% in the form of PRSUs. The RSUs vest ratably over three years. The PRSUs vest at the end of three years based on the attainment of a three-year target cumulative EBITDA growth objective. No shares will vest for performance below the threshold performance level (75% of the three-year target cumulative EBITDA). For performance between Cut and Target levels, and between Target and Stretch levels (125% of the three-year target cumulative EBITDA), the number of shares which shall vest will be prorated on a straight-line basis up to 200% of the target PRSUs.

Other Compensation Policies and Practices

Benefits and Executive Perquisites

All NEOs are entitled to receive a Company-provided automobile or an allowance to obtain an automobile. All automobile benefits are fully taxable as ordinary income; no tax gross-up is provided.

All NEOs are also eligible for annual financial planning services. The value of these services is also fully taxable as ordinary income; no tax gross-up is provided.

In addition, we provide a \$25,000 discretionary benefit allowance per calendar year to the President and Chief Executive Officer. This allowance can be used for business or personal expenses. All personal benefit received from this allowance is fully taxable as ordinary income; no tax gross-up is provided.

Executives are also permitted to participate in the Company's other employee benefit plans on substantially the same terms as other employees. For example, the Company makes matching contributions to our 401(k) plan based on employee contributions, and executives receive the same benefit.

After conclusion of an independent third-party security study, the Board determined that it was appropriate to provide Mr. Mengucci with a personal security driver and vehicle for business travel and certain non-business travel. We do not consider the provision of this transportation to be compensation since the need for security arises from the nature of Mr. Mengucci's employment and the provision of such security is provided to mitigate risks to our business. Given the nature of our business, we believe security is necessary and generally provided to other executives within our industry. We report the aggregate incremental costs of these security arrangements as perquisites under the "All Other Compensation" column of the Summary Compensation Table in accordance with SEC requirements and report them as taxable compensation to Mr. Mengucci if they are not excludable from income as working condition fringe benefits under Section 132 of the Internal Revenue Code. We regularly review the nature of security threats and associated

vulnerabilities with law enforcement and security specialists and will continue to adapt our security program as appropriate.

All amounts related to perquisites for NEOs are disclosed in column (i) of the Summary Compensation Table, along with details on their valuations.

Severance and Change in Control Benefits

The Company currently maintains severance agreements with Messrs. Mengucci, MacLauchlan, and Koegel. Ms. Gray and Mr. Probert fell under the Company's general policy for executives during fiscal year 2024, which provided for six months' salary upon involuntary separation without cause. The purpose of the agreements is to provide those executives with a degree of security and to mitigate concerns that they might have regarding their continued employment prior to or following a change in control, thereby allowing the executives to focus their undivided attention to serving the interests of the Company and our shareholders. The Company believes that appropriate severance arrangements are necessary to attract and retain these key executives and are an important part of a competitive overall compensation program for the NEOs.

In the event of a change in control, severance benefits in the agreements are generally payable only upon a "double trigger," meaning that severance benefits are triggered when an eligible executive is involuntarily terminated without cause by the Company or resigns for "good reason" within one year following a change in control. This "double trigger" provision was implemented to be consistent with good market practices. We believe this program encourages retention in the face of an actual or potential change in control and aligns executive and shareholder interests. Furthermore, the program allows top executives to review corporate transactions that are in the best interests of our shareholders without concern over whether the transactions may adversely impact the executive's employment.

All equity awards granted since 2010 have provided for "double trigger" vesting acceleration in the event of a change in control, under which vesting accelerates only upon a change in control and involuntary termination without cause or resignation for good reason within one year after the change of control.

For equity awards granted prior to fiscal year 2022, executives who retire at age 62 or older vest in a prorated portion of the grants based upon their number of months of service after the grant date divided by the full vesting timeframe; the numbers of shares received are still subject to the results of the performance conditions. For equity awards granted in fiscal year 2022 and thereafter, executives who retire no earlier than one year after the grant date, on or after the date on which they have attained age 55 or older, and the sum of their age and consecutive years of service with the Company totals 65 or more, shall continue to vest as if they had remained actively employed.

Calculations for various termination scenarios are included in the "Potential Payments on Termination or Change in Control" section of this proxy statement.

Retirement Plans

The Company offers a non-qualified deferred compensation plan to encourage employees to save for their retirement. Eligible employees, which include all NEOs, may elect to contribute up to 50% of their U.S. base salary and 100% of their U.S. bonuses and commissions to this plan on a pre-tax basis. The Company contributes 5% of all income over the compensation limit in section 401(a)(17) of the Internal Revenue Code of 1986, as amended (the "IRC") to participants, subject to plan vesting conditions, and may make a supplemental discretionary contribution to a participant's account in any amount it elects. No discretionary contributions were made in fiscal year 2024 to any of the NEOs.

The Company entered into a supplemental executive retirement plan ("SERP") with Mr. Mengucci that provides certain benefits to offset the forfeiture of potential benefits from his previous employment. Mr. Mengucci is the only active employee with a SERP. The SERP provides for annual, lifetime payments of \$270,000 upon the voluntary or involuntary termination of Mr. Mengucci's employment on or after December 1, 2022, unless such termination is for cause (as defined in Mr. Mengucci's employment agreement) which would result in the forfeiture of all benefits under the SERP. Upon his death, a surviving spouse will receive annual, lifetime payments of \$135,000. In the event of a Change of Control, Mr. Mengucci and a spouse will receive the full benefits payable under the SERP unless Mr. Mengucci is terminated for cause or voluntarily terminates his employment other than for good reason. The Company provides no other executive a SERP and does not currently anticipate doing so in the future.

Management Stock Purchase Plan

The Company offers a Management Stock Purchase Plan (“MSPP”) to promote the long-term growth and profitability of the Company by providing executives with incentives to improve shareholder value and to contribute to the growth and financial success of the Company. The MSPP also helps executives to meet their mandated stock ownership requirements. The Board believes that the MSPP serves these goals, encouraging executives to convert a higher percentage of their cash compensation into Company equity.

The MSPP provides for equity ownership in the Company by senior officers by allowing the voluntary deferral of up to 100% of their annual incentive plan compensation into RSUs. All deferred shares are bought at a discount of up to 15%, as determined annually by the Compensation Committee, of fair market value. The Company may grant matching awards in an amount not to exceed 25% of the participant’s deferrals and subject to such vesting or other restrictions or conditions as the Compensation Committee determines.

The amount of the discount to fair market value and matching grant is determined by the Compensation Committee no later than December 31st of the fiscal year in which the bonus is earned. During fiscal year 2024, the Compensation Committee approved a 15% discount with no matching.

There were no MSPP purchases for NEOs in fiscal year 2024.

Stock Ownership Requirements

The Compensation Committee maintains executive stock ownership requirements for senior officers to focus those executives on the long-term growth in value of the Company and to ensure they act as owners of the Company. The stock ownership requirements are based on a multiple of the executive’s salary as set forth below and the number of shares required to be held is determined annually based on the 90-day average stock price on July 1. The required multiple for each executive is reviewed annually by the Compensation Committee to ensure that it provides enough incentive to properly align the interests of senior management with those of our shareholders.

Until an executive meets the required number of shares, they are limited with respect to the number of shares they are allowed to sell, and are only allowed to sell one-half of the shares issued with respect to vested RSUs and PRSUs that remain after payment of taxes (standard practice is to sell a portion of shares that vest to cover the tax burden caused by the vesting); the other one-half that must be retained is used to determine the interim ownership requirement until the full number of shares is reached, with each successive vesting being added to the prior interim requirement in order to establish the new requirement.

Based on these requirements, the full number of shares required to be held by each of our NEOs, the multiple of each executive’s base salary full ownership would represent, and the requirement as of July 1, 2024 provided in the table below. The Compensation Committee believes these salary multiples are robust and above comparable peer levels.

Name	Multiple of Salary
John S. Mengucci	8x
Jeffrey D. MacLauchlan	7x
DeEtte Gray	5x
Todd Probert	5x
J. William Koegel, Jr.	5x

Stockholdings are measured annually as of July 1st to determine compliance with the requirements, which are based upon the prior year’s level plus one-half of all vested restricted stock and/or restricted stock units after taxes are withheld since the prior July 1st. Only fully owned shares count in the measurement; unvested restricted stock, restricted stock units and performance restricted stock units do not count, nor do any other unvested and/or unexercised instruments.

To encourage compliance, once an executive reaches full compliance, they must maintain compliance or they will be required to participate in the MSPP with 100% of the annual portion of his or her annual incentive plan compensation being applied to acquire RSUs until such time that he or she meets the required holding level.

All NEOs were in compliance with their respective stock ownership requirements as of July 1, 2024.

Insider Trading Policy

The Company has an Securities Trading Policy, which governs the purchase, sale and other dispositions of its securities by directors, officers and employees and affiliates of the Company, as well as their immediate family members and other persons living in their households. The Securities Trading Policy is reasonably designed to promote compliance with insider trading laws, rules and regulations and any listing standards applicable to the Company.

The Securities Trading Policy prohibits covered persons from directly or indirectly purchasing or selling the Company's securities while in possession of material non-public information concerning the Company, except in the limited circumstances described in the policy. Additionally, the Company's personnel are prohibited from engaging in hedging transactions with respect to the Company's securities of the Company. The Securities Trading Policy requires pre-approval of any transaction related to the Company's securities by the Company's executive officers and directors.

Compensation Clawback Policy

The Company maintains a formal "clawback" policy in accordance with Section 10D of the Exchange Act and Section 303A.14 of the NYSE Listed Company Manual (Clawback Policy). The Clawback Policy provides for the recoupment of incentive-based compensation from covered executive officers in the event of an accounting restatement resulting from noncompliance with financial reporting requirements under federal securities laws, without regard to any misconduct on the part of the executive and subject to certain limited exceptions. The Clawback Policy applies to incentive-based compensation received by current and former executive officers of the Company during the three fiscal years preceding an accounting restatement and after October 20, 2023.

We also maintain a clawback policy for incentive awards that is broader in its reach than that imposed by Section 304 of the Sarbanes-Oxley Act (SOX). The policy was adopted in fiscal year 2010 and covers incentive awards to "officers" (as defined in Section 16 of the Exchange Act). Under the policy, in the event of a restatement of previously reported financial results, the Compensation Committee may require reimbursement of the incremental portion of incentive awards paid to executive officers in excess of the awards that should properly have been paid based on the restated financial results.

Impact of Regulatory Requirements

The Compensation Committee seeks regular updates on changes in regulations affecting compensation and how they impact executive compensation. The Compensation Committee considers applicable regulatory requirements when making compensation decisions and seeks to ensure that Company compensation plans continue to meet such requirements.

Section 162(m) of the IRC ("Section 162(m)") disallows a tax deduction for compensation paid in excess of \$1 million to "covered employees" as defined in that section. Prior to its amendment by the Tax Cuts and Jobs Act, enacted December 22, 2017, section 162(m) provided an exception to the \$1 million limitation for performance-based compensation if certain requirements were met. The Compensation Committee has historically designed its compensation programs based on its belief that a substantial portion of the compensation payable to NEOs should be based on the achievement of performance-based targets.

As in prior years, the Compensation Committee will continue to take into account the tax and accounting implications (including the non-deductibility of compensation in excess of \$1 million under the revised Section 162(m)) when making compensation decisions but reserves its right to make compensation decisions based on other factors if the Compensation Committee determines that it is in the Company's best interests to do so. Further, taking into account the elimination of the exception for performance-based compensation, the Compensation Committee may determine to make changes or amendments to the Company's existing compensation programs in order to revise aspects of our programs that were initially designed to comply with Section 162(m) before amendment by the Tax Cuts and Jobs Act, but that may no longer provide the intended tax advantages.

Risk Assessment

The Company performs an annual assessment of the Company's overall compensation risk profile. The Compensation Committee also engages Mercer to review the risk assessment of the Company's executive and non-executive compensation programs.

As a part of this risk assessment, the Company has made the following findings about CACI's compensation programs:

- the Board and the Compensation Committee exercise close oversight over the performance measures utilized by the cash incentive plans and the long-term incentive plans, which in combination serve to balance short-term and long-term performance requirements and enhance shareholder value;
- the performance objectives of the plans are linked such that achievement of annual incentive plan measures serves to enhance the performance of the Company;
- the balance of total compensation is more heavily weighted to long-term incentives, and increasing margins and stock price over the long-term provides the maximum incentive value; and
- the Company has a rigorous system of internal controls designed to prevent any individual employee from creating adverse material risk in pursuit of short- or long-term compensation. For example, the Board must approve all capital outlays of \$10 million or more, as well as all acquisitions and divestitures of \$5 million or more.

Based on these analyses, the Compensation Committee believes that the Company's compensation programs do not encourage excessive risk-taking.

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis for the fiscal year ended June 30, 2024. Based upon such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis for the fiscal year ended June 30, 2024 be included in the Company's proxy statement on Schedule 14A filed with the Securities and Exchange Commission.

RESPECTFULLY SUBMITTED BY THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

(1) Amounts reported in the Salary column represent actual base salary earned in fiscal years 2024, 2023, or 2022.

(2) The amounts reported in the Stock Awards column represent the aggregate grant date fair value of each performance-restricted stock unit or restricted stock unit granted during such year, as computed in accordance with ASC 718. See Note 15 of the Company's audited financial statements for the fiscal year ended June 30, 2024, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on August 8, 2024. The grant date fair value of performance-based awards in fiscal year 2021 was calculated using the Monte Carlo simulation method. The PRSUs granted are based on the following performance conditions: (a) fiscal year 2021 grants are based on the Company's performance during the year ended June 30, 2021 and the Company's stock price for the 90-day period ended October 1, 2021, 2022 and 2023 as compared to the stock price for the 90-day period ended October 1, 2020. As of fiscal year 2024, half of the fiscal year 2022 grants are PRSUs based on the Company's earnings performance during the three-year period ending June 30, 2024, the value of the resulting award would be 104% of the target award; (b) half of the fiscal year 2023 grants are PRSUs based on the Company's earnings performance during the three-year period ending June 30, 2025, if we achieve maximum performance conditions for this grant, then two times the number of PRSUs granted will vest; (c) half of the fiscal year 2024 grants are PRSUs based on the Company's earnings performance during the three-year period ending June 30, 2026, if we achieve maximum performance conditions for this grant, then two times the number of PRSUs granted will vest.

(3) Amounts reported in the Non-Equity Incentive Plan Compensation column represent performance-based incentive compensation earned in fiscal years 2024, 2023, and 2022.

(4) Represents the aggregate change in the actuarial present value of Mr. Mengucci's accumulated benefit under his Supplemental Executive Retirement Plan. For more information, see "Compensation Discussion and Analysis – Retirement Plans."

(5) The table below describes the elements included in All Other Compensation for fiscal year 2024:

Name	Non-Qualified Deferred Compensation Contribution ^(a) (\$)	Vacation Sold Back to Company ^(b) (\$)	Long-Term Care Premiums ^(c) (\$)	401(k) Match ^(d) (\$)	Perquisites ^(e) (\$)
Mr. Mengucci	139,900	83,060	11,697	9,333	193,992
Mr. MacLauchlan	—	8,402	—	7,992	32,327
Ms. Gray	—	22,005	—	10,947	45,939

Mr. Koegel	40,451	26,671	—	4,804	4,744

(a) Represents the Company's contribution, net of forfeitures of 5% on compensation in excess of the limit provided in IRC section 401(a)(17), which limit may be adjusted annually.

(b) Represents cash-out of vacation accrual balance.

(c) Represents premiums paid by the Company for a long-term care insurance policy.

(d) 50% Company match of the first 8% of contributions by the executive officer under the Company's 401(k) plan (401(k) Match).

(e) For Mr. Mengucci includes personal use of a vehicle and personal security driver of \$122,610, perquisite allowance of \$25,000, automobile expenses of \$22,960, executive physical of \$3,500, tax and investment services of \$16,714, and spousal airfare of \$3,208. As discussed in "Benefits and Executive Perquisites" the Company provides the CEO with certain travel security protection due to the nature of our business and security threat information. The amounts reflected in the "All Other Compensation" column include expenses for certain travel security that we treat as perquisites under relevant SEC guidance, even though the need for such expenses arises from the risks associated with Mr. Mengucci position with the Company. For fiscal year 2024, the values shown include personal use of a vehicle and driver used for security purposes for Mr. Mengucci. The aggregate incremental cost for personal security is calculated based on actual billings for services and fees charged directly to the Company by third party firms providing security personnel; these costs are inclusive of a monthly fixed fee for all services, and, as incurred, any additional fees based on daily rates and other expenses. No security personnel under this provision are employees of the Company. To calculate the aggregate incremental cost of Mr. Mengucci's personal use of the personal security driver and vehicle, we allocated a portion of the actual cost paid to the third-party firms to personal use based on mileage driven for personal use, and actual security costs and fees incurred for any other personal usage of the security services. For any periods where data was not currently available, we based the personal usage allocation on the data currently in our possession.

For Mr. MacLauchlan includes automobile expenses of \$32,327.

For Ms. Gray includes automobile expenses of \$6,036 and tax and investment services of \$39,903.

For Mr. Probert includes automobile expenses of \$5,524 and tax and investment services of \$13,287.

For Mr. Koegel includes automobile expenses of \$4,744.

In accordance with Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K, the ratio of the annual total compensation of our President and Chief Executive Officer (CEO) during fiscal year 2024 (Mr. Mengucci) to the annual total compensation of our median employee was computed to be 130 to 1 for fiscal year 2024, based on the methodology described below.

As of June 30, 2024, our total active employee population consisted of approximately 22,400 individuals, including our CEO. We compared the annual salary of all active employees, with the exception of Mr. Mengucci, as reflected in our human resources systems of record; as part of this process, we annualized compensation for any employees who were employed for less than the full fiscal year, but we did not annualize the compensation for employees in temporary or seasonal positions. This measure was consistently applied to all individuals in the measured employee population and yielded our "approximate median employee."

For the approximate median employee, we then calculated their annual total compensation for fiscal year 2024 using the same methodology we used for purposes of determining the annual total compensation of our CEO in the Summary Compensation Table. This yielded compensation for the approximate median employee of \$116,191.

The annual total compensation of Mr. Mengucci, as reported in the Summary Compensation Table above, was \$15,056,676. The ratio of the annual total compensation of Mr. Mengucci to the compensation for the approximate median employee was then computed, yielding the final result of 130 to 1. We believe this is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K.

We note that, in determining the employees from which the median employee is identified, SEC rules permit companies to use statistical sampling, reasonable estimates and other reasonable methods. As a result, the pay ratios reported by other companies may have been calculated using methodologies, exclusions and estimates that differ from the

ones we used to calculate our pay ratio. Accordingly, our pay ratio may not be directly comparable to the pay ratios of other companies.

Pay Versus Performance

The following table provides four years of the Company's compensation and performance history prepared in accordance with Item 402(v) of Regulation S-K and does not necessarily reflect value actually realized by our executive officers or how the Compensation Committee evaluates compensation decisions in light of company or individual performance. For information on how our Human Resources and Compensation Committee aligns pay with performance when making compensation decisions, please review the Compensation Discussion and Analysis beginning on page 23.

The Summary Compensation Table on page 41 shows the salary, annual incentive, and accounting fair value of equity awards granted in the year shown (at the time the grant was made). The Compensation Actually Paid (CAP) table shows the value of the FY23 grant at year-end, plus the year-over-year change in the fair value of multiple years of historical equity grants. Because CAP includes multiple years of grants, the calculation of CAP each year is heavily impacted by the change in the stock price, and therefore, may be higher or lower than the SCT compensation values.

(1) Mr. Mengucci is included as the Principal Executive Officer (PEO), CEO, for fiscal years 2024, 2023, 2022 and 2021.

(2) The dollar amounts reported in the "Compensation Actually Paid to PEO" and "Compensation Actually Paid to Non-PEO NEOs" reflect "Total Compensation" as set forth in the Summary Compensation Table for each year, adjusted as follows, and with calculations shown in the tables below. Equity values are determined in accordance with FASB ASC Topic 718. The fair values for outstanding and unvested equity awards made in fiscal years 2019, 2020, and 2021 were estimated using Monte Carlo simulation model factors as disclosed in the company's Form 10-K for each fiscal year:

- minus the Annual Stock Award
- minus the Change in Pension Value
- plus the Pension Service Cost
- plus Equity Value, which is calculated as:
 - a. the fair value of outstanding and unvested equity awards at the end of each fiscal year for awards granted during the year
 - b. plus/(less) the change in fair value as of fiscal year-end for unvested awards
 - c. plus the fair value as of vesting for awards granted and vested during the year
 - d. plus/(less) the annual change in value as of vesting for prior year's awards
 - e. less prior year-end fair value for any equity awards forfeited during the year.

The amounts deducted or added in calculating the Equity Values are included in the table below. In 2024, 2023, 2022 and 2021, the fair value of the grants awarded in the respective years increased at the end of the year due to the growth in stock price, which is a key driver of CAP year-over-year.

The beginning of the measurement period for each year in the table is July 1.
- (5) SEC rules require us to designate a "company-selected measure" that in our assessment represents the most important financial performance measure (that is not total shareholder return or net income) used by the Company to link the CAP of our NEOs, for the most recently completed fiscal year, to our performance. We selected Revenue as this measure for 2024 as reflected in column (i) in the first table above. This performance measure may not have been the most important financial performance measure for years 2023, 2022 and 2021 and we may determine a different financial performance measure to be the most important financial performance measure in future years.

Severance Agreements

Messrs. Mengucci, MacLauchlan, and Koegel have severance agreements with terms of one year with automatic one-year extensions thereafter, unless the Company provides written notice of the Company's intent to amend the Company's severance policy with respect to its senior executives and to apply the amended policy to them. In the event the Company provides such notice to them, agreements expire by their terms at the end of the full-term year that begins on the next July 1st following the date such notice is received by the executive officer.

Per the terms of the agreements, employment may be terminated by the Company without a separation payment of any kind in the event of death or a termination for cause as determined by the Board.

In the event of a termination by the Company for disability, the Company is generally required to provide 30 days' notice and pay any incentive compensation earned but unpaid as of the date of termination for any fiscal year prior to the year in which such termination occurs.

In the event of termination without cause by the Company or resignation for "good reason" by the executive, as defined in the agreements, the Company will pay a severance payment equal to a specified number of months of the executive's base salary, prorated cash incentive compensation payments otherwise payable under the executive's incentive compensation plan for the fiscal year of termination, and continued participation in the Company's health care plan for a

defined period of time. Further, for unvested stock grants made prior to fiscal year 2022, the terms of the grant agreements entitle the recipient to receive a prorated portion of the unvested stock based upon the number of full months of service divided by the total vesting timeframe. When the executive's resignation is not associated with a change in control, "good reason" is defined as (i) a material reduction in the executive's total compensation and benefit opportunity (other than a reduction made by the Board, acting in good faith, based upon the performance of the executive, or to align the compensation and benefits of the executive with that of comparable executives, based on market data); or (ii) a substantial adverse alteration in the conditions of the executive's employment. For unvested stock grants made in fiscal year 2022 and thereafter, the terms of the grant agreements entitle the recipient to receive continued vesting of the unvested stock upon termination without cause no earlier than one year following the grant date, subject to the executive's continued compliance with noncompetition and nonsolicitation covenants.

In the event of a termination without cause or resignation for "good reason" within one year of the effective date (or within six months prior to the effective date for Messrs. Mengucci and MacLauchlan) of a change in control, the agreements provide that the Company will pay similar termination payments as in the preceding paragraph but require the executive's base salary to be paid for a higher number of specified months and a specified payment based on the average incentive compensation earned by the executive for the five fiscal years immediately preceding the termination. Further, the terms of the grant agreements entitle the recipient to receive their unvested stock. In the event of a change in control, "good reason" is defined as (i) a substantial adverse alteration in the nature or status of the executive's position or responsibilities from those in effect on the day before the change in control date; or (ii) a change in the geographic location of the executive's job more than 50 miles from the place at which such job was based on the day before the change in control date.

The table below delineates the benefits upon separation for Messrs. Mengucci, MacLauchlan, and Koegel under the scenarios as described above:

	Mengucci	MacLauchlan	Koegel
Salary Multiple: Termination for Good Reason or Involuntary Termination Without Cause	2x	1x	1x
Salary Multiple: Upon Change in Control and Termination for Good Reason or Involuntary Termination Without Cause	2x	2x	2x
Bonus Multiple: Upon Change in Control and Termination for Good Reason or Involuntary Termination Without Cause (average annual payment for last five years)	2x	1.5x	1x

The agreements also restrict each executive officer's rights to compete with the Company or to offer employment to Company employees following termination.

In the event of a termination of employment, Ms. Gray will receive severance in accordance with the Company's policies, which provides for six months' salary upon involuntary separation without cause.

Calculations for various termination scenarios are included in the "Potential Payments on Termination or Change in Control" section below.

Potential Payments on Termination or Change in Control

The table below reflects the amount of compensation payable to each NEO upon termination of employment under various termination scenarios. The tables show the amount of compensation payable to each NEO upon voluntary termination (other than for "good reason") or retirement not in connection with a change in control, upon termination by the Company without cause or by the NEO for "good reason" other than in connection with a change in control, and upon termination by the Company without cause or by the NEO for "good reason" following a change in control. The amounts shown assume, for illustrative purposes, that such termination was effective as of June 30, 2024, and therefore include amounts earned through such date, and are estimates of the amounts which would be paid to the NEOs upon termination. The actual amounts to be paid can be determined only at the time of the actual separation from the Company.

(1) For the Separation Payment following a Change in Control, includes incentive plan amounts earned but not yet paid for fiscal year 2023 for all NEOs.

(2) Assumes that Messrs. Mengucci, MacLauchlan and Koegel are entitled to receive continuation of health benefits following the date of separation for reasons other than voluntary termination or retirement. For Messrs. Mengucci, MacLauchlan and Koegel, the table value represents the total values of continued current medical, dental and vision insurance coverage over the duration of the coverage period, less the executive's current portion of the cost, plus the amount required to cover all estimated applicable local, state and federal income and payroll taxes imposed with respect to such payment.

(3) Represents the value of monies deferred into the non-qualified retirement plan during employment, plus investment gains and losses, that would be payable upon termination.

(4) Represents the value of all vested Company contributions paid into the non-qualified retirement plan on behalf of the executive officer during employment that would be payable upon termination. In the event of termination for “Good Reason” or without cause within one year after the effective date of a Change in Control, all unvested Company contributions would vest.

(5) Represents the present value of benefits accrued by Mr. Mengucci through June 30, 2024 under his SERP. The accrued benefit would be paid over his expected remaining lifespan.

(6) Based on the number of RSUs that would vest and the terms of RSU grants as described in the “Severance and Change in Control Benefits” section, multiplied by the closing price per share of the Company's common stock as of June 30, 2024. For the performance-based grants made in October 2020 the maximum number of RSUs for which the measurement periods were not complete would be paid upon a change in control. For the performance based grants made in October 2021, 2022 and 2023 the number of RSUs for which the measurement periods were not complete would be paid at target upon a change in control.

(7) For Messrs. Mengucci, MacLauchlan and Koegel, assumes that the executive officer resigned for “good reason” or was terminated without cause within one year after a change in control. Ms. Gray and Mr. Probert would be entitled to the cash severance only upon termination without cause by the Company.

DIRECTOR COMPENSATION

Summary

The Compensation Committee evaluates the compensation and form of compensation for non-employee directors annually. As a part of this process, the Compensation Committee reviews general market data for director compensation as well as director compensation data from the Company's peer group, the same group used for our executive compensation review, including cash compensation, equity compensation and stock ownership requirements. The Compensation Committee also considers input from its third-party compensation consultant retained by the Compensation Committee, regarding market practices for director compensation. The Compensation Committee intends to set director compensation levels at or near the market median relative to directors at companies of comparable size, industry, and scope of operations in order to ensure directors are paid competitively for their time commitment and responsibilities. As a result, non-employee director compensation generally approximates the market median and is periodically adjusted to maintain alignment with market practices. The Compensation Committee intends to continue to conduct director compensation reviews annually.

During fiscal year 2024, each non-employee director received an annual equity retainer and cash retainer based on their chair and committee appointments as outlined in the table below. In addition to the annual retainers, each non-employee director received a fee of \$2,000 for in-person special board meetings, \$500 for telephonic special board meetings and \$500 for telephonic special committee meetings:

- (1) Equity grants are made in the form of RSUs expressed as a dollar value, in an amount established from time to time by the Compensation Committee. Such RSU awards are made on the date of the Annual Meeting of Shareholders at which time such election occurs, based on the closing price per share of the Company's common stock on that date. Under the Company's Director Stock Purchase Plan (DSPP), Directors may also elect to receive RSUs in lieu of up to one hundred percent of their annual cash retainer, with such election to be made prior to the commencement of the effective calendar year. The number of RSUs is based on the fair market value of the stock on the date of issuance.
- (2) The amount listed reflects the total annual retainer for the Chairman of the Board. The Chairman of the Board receives the annual retainer half in cash and half in stock.
- (3) Members of the Executive Committee are compensated \$1,500 on a per meeting basis.

The annual retainer for the Chairman of the Board is paid on a quarterly basis, half in cash and half in stock. The number of shares issued is based on the closing price per share of the Company's stock on the first day of the fiscal quarter when such amounts are payable.

Mr. Mengucci received no separate compensation for his service as director, except that he was eligible to be reimbursed for incurred expenses associated with attending meetings of the Board and its committees, such as when meetings were conducted at offsite locations.

The following table summarizes the compensation information for each of our non-employee directors for fiscal year 2024.

William S. Wallace	130,500	175,000	—	305,500

(1) The amounts represent the aggregate grant date fair value computed in accordance with ASC 718 for awards of stock in fiscal year 2024 under the terms of the Company's 2016 Stock Incentive Plan. The grant date fair value per share is the closing price for the Company's stock on the October 19, 2023, grant date (\$331.44). For fiscal year 2024, the Company awarded 770 RSUs to Chairman Daniels with a grant date fair value of \$255,209. Chairman Daniels also received half of his cash retainer in the form of unrestricted shares and was awarded 88 shares on September 29, 2023 (\$313.93; 83 shares on October 19, 2023; (\$331.44); 83 shares on January 18, 2024 (\$331.66) and 76 shares on April 18, 2024 (\$364.06) each with a grant date fair value of approximately \$27,500. Directors Disbrow, Gordon, Jews, Johnson, McCarthy, Nolan, Plunkett and Wallace each received 528 shares with a grant date fair value of \$175,000. The outstanding number of RSUs awarded to each director as of June 30, 2024 was as follows: Chairman Daniels 193; Director Disbrow 132; Director Gordon 132; Director Jews 132; Director Johnson 132; Director McCarthy 132; Director Nolan 132; Director Plunkett 132; Director Wallace 132.

(2) Mr. McCarthy received \$107,250 in consulting fees from the Company during fiscal year 2024.

Director Stock Ownership Guidelines

The Committee has also adopted stock ownership requirements for non-employee directors to better align their interests with those of shareholders. The requirement is based on five times the value of their base Annual Retainer (\$105,000), converted annually on December 1st to a whole number of shares based on the 90-day average price of CACI stock. Until the Director holds the required number of shares, the director is limited with respect to the number of share the director is allowed to sell, and is only allowed to sell one-half of the shares issued with respect to vested RSUs for the purpose of covering the tax burden caused by the vesting; the other one-half that must be retained is used to determine the interim ownership requirement until the full number of shares is reached, with each successive vesting being added to the prior interim requirement in order to establish the new requirement. Only fully owned shares count in the measurement; unvested restricted stock units do not count, nor do any other unvested and/or unexercised instruments. The penalty for non-compliance is that the Director is required to participate in the DSPP, with 100 percent of the director's earned

Annual Retainer and committee fees being applied to the acquisition of CACI stock, until such time as the director meets the required holding level.

Stockholdings are measured annually as of December 1st to determine compliance with the stock ownership guidelines. For the compliance checkpoint on December 1, 2023, this requirement translated into a requirement to hold 1,626 fully owned shares for all non-employee directors on the Board at that time except for Ms. Gordon, Ms. Disbrow, Mr. McCarthy, Mr. Nolan and Mr. Sloane. Ms. Gordon had an interim holding requirement of 1,203 fully owned shares. Ms. Disbrow, Mr. McCarthy and Mr. Nolan had an interim holding requirement of 869 fully owned shares. Interim holding requirements for Mr. Sloane begin on December 1, 2024. The required ownership level will continue to be reviewed annually by the Committee to ensure that it provides enough incentive to properly align the interests of the non-employee directors with those of the Company's shareholders. All non-employee directors were in compliance with their respective stock ownership requirements as of the December 1, 2023 checkpoint.

Pre-Approval Policies and Procedures

The Audit Committee has adopted policies and procedures relating to the approval of all audit and non-audit services that are to be performed by the Company's independent auditors. This policy generally provides that the Company will not engage its independent auditors to render audit or non-audit services unless the service is specifically approved in advance by the Audit Committee, or the engagement is entered into pursuant to one of the pre-approval procedures described below. All such audit services were pre-approved by the Audit Committee.

From time to time, the Audit Committee may pre-approve specified types of services that are expected to be provided to the Company by its independent auditors during the next 12 months. Any such pre-approval is detailed as to the particular services or type of services to be provided and is also generally subject to a maximum dollar amount.

The Audit Committee has also delegated to the chairman of the Audit Committee the authority to approve any audit or non-audit services to be provided to the Company by its independent auditors. Any approval of services by the chairman pursuant to this delegated authority is reported on at the next meeting of the Audit Committee. The Pre-Approval Policy available on our website at investor.caci.com.

AUDIT COMMITTEE REPORT FOR FISCAL YEAR 2024

In accordance with the Audit Committee Charter, the Audit Committee of the Board assists the Board in fulfilling its responsibility for oversight of the quality and integrity of the accounting, auditing and financial reporting practices of the Company. The Audit Committee Charter was first adopted by the Board in June 1994 and has been reviewed annually and amended as necessary since that date. Each member of the Audit Committee qualifies as “independent” in accordance with Rule 10A-3 of the Exchange Act and the requirements of the NYSE Listed Company Manual, Sections 303A.01, 303A.02, 303A.06, and 303A.07. In fulfilling its responsibilities as set forth in the Audit Committee Charter, the Audit Committee has accomplished the following:

1. It has reviewed and discussed the Company’s audited financial statements with management, including discussions regarding critical accounting policies, financial accounting and reporting principles and practices, the quality of such principles and practices, the reasonableness of significant judgments and estimates, and the effectiveness of internal control over financial reporting;
2. It has discussed with the independent auditors the quality of the financial statements, the clarity of the related disclosures, the effectiveness of internal control over financial reporting, and other items required to be discussed by the applicable requirements of the Public Company Accounting Oversight Board (“PCAOB”) and the SEC;
3. It has received the written disclosures and the letter from the independent auditors required by applicable requirements of the PCAOB regarding the auditors’ communications with the Audit Committee regarding independence, and has discussed with the independent auditors any matters affecting their independence; and
4. Based on the review and discussions described in subparagraphs (1) through (3) above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2024 for filing with the SEC.

RESPECTFULLY SUBMITTED BY THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

MANAGEMENT PROPOSALS

Proposal 1 Election of Directors

In accordance with the Company's By-laws and Guidelines, the Board, upon the recommendation of the Corporate Governance and Nominating Committee, has nominated the following eleven persons to serve as members of the Board until the next annual meeting of shareholders or until a successor has been elected and qualified, or until the director's earlier death, resignation or removal:

Nominees

Michael A. Daniels
Lisa S. Disbrow
Susan M. Gordon
William L. Jews
Ryan D. McCarthy
John S. Mengucci⁽¹⁾

Scott C. Morrison
Philip O. Nolan
Debra A. Plunkett
Stanton D. Sloane
Charles L. Szews

(1) Under his employment agreement, if Mr. Mengucci no longer serves as Chief Executive Officer of the Company, terminates his employment for any reason or provides notice to the Company regarding such a termination, he shall resign from the Board.

Unless instructed otherwise, the persons named in the accompanying proxy will vote the shares of common stock represented by the proxy **FOR** the election of the eleven nominees listed above. In the event that any nominee becomes unavailable or unwilling to serve as a member of our Board, the proxy holders will vote in their discretion for a substitute nominee.

You can find more information about the leadership skills and other experiences that caused the Corporate Governance and Nominating Committee and the Board to determine that these nominees should serve as directors under "Board of Directors" on page 6 of this proxy statement. Information about our nominating procedures and other corporate governance matters can be found under "Corporate Governance" on page 14 of this proxy statement.

Required Vote

A majority of the votes properly cast for a director nominee is sufficient to elect such director (meaning the number of shares voted "for" a director nominee must exceed the number of shares voted "against" such director nominee). Abstentions and broker non-votes are not considered votes cast for the foregoing purpose and will have no effect on the election of nominees.

The election of directors is deemed a non-routine matter under NYSE rules and a beneficial owner's nominee will not be able to vote on the election of directors without instructions. We encourage all beneficial owners to provide voting instructions to such parties to ensure that their shares are voted at the Annual Meeting.

CACI Recommendation

Our Board recommends a vote "FOR" the election to the Board of each of the above-mentioned nominees.

Proposal 2 Advisory Vote on Executive Compensation

In accordance with Section 14A of the Exchange Act, we provide our shareholders with the opportunity to vote to approve, on a nonbinding, advisory basis, the compensation of our named executive officers, as described in this proxy statement. While this vote is advisory, it will provide information to our Compensation Committee regarding investor sentiment about our compensation principles and objectives. We urge you to read the Compensation Discussion and Analysis beginning on page 24, compensation tables and related narratives appearing in this proxy statement for more information regarding the compensation of our named executive officers.

The vote on this resolution is not intended to address any specific element of compensation; rather, the vote relates to the philosophy and structure of our compensation program for our named executive officers as well as the overall compensation of those officers, as described in this proxy statement in accordance with the compensation disclosure rules of the Securities and Exchange Commission. The vote is advisory, which means that the vote is not binding on the Company, our Board or the Compensation Committee. To the extent there is any significant vote against our named executive officer compensation as disclosed in this proxy statement, the Compensation Committee will evaluate whether any actions are necessary to address the concerns of shareholders.

Our Board and our Compensation Committee value the opinions of our shareholders. At the 2023 Annual Meeting of Shareholders, our shareholders approved our fiscal year 2023 named executive officers' compensation, as disclosed in the Compensation Discussion and Analysis and compensation tables, as well as the other narrative executive compensation disclosures contained in the definitive proxy statement for our 2023 Annual Meeting of Shareholders. Our shareholders approved the resolution on executive compensation with over 94% of the votes cast being cast in favor of our executive compensation. Accordingly, we ask our shareholders to vote on the following resolution at the Annual Meeting:

“RESOLVED, that the Company’s shareholders approve, on an advisory basis, the compensation paid to the Company’s named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion.”

Required Vote

On this non-binding matter, a majority of the votes properly cast on this matter (meaning the number of shares voted “for” this matter must exceed the number of shares voted “against” this matter) is necessary for the matter to be approved. Abstentions and broker non-votes are not considered votes cast for the foregoing purpose and will have no effect on the outcome of this proposal.

A shareholder’s advisory vote on executive compensation is deemed a non-routine matter under NYSE rules and a beneficial owner’s nominee will not be able to vote on executive compensation without instructions. We encourage all beneficial owners to provide voting instructions to such parties to ensure that their shares are voted at the Annual Meeting.

CACI Recommendation

The Board recommends a vote “FOR” the approval of the compensation of our named executive officers, as disclosed in this proxy statement.

Proposal 3 Ratification of Appointment of Independent Registered Public Accounting Firm

The Audit Committee has appointed PricewaterhouseCoopers LLP to serve as the independent registered public accounting firm to conduct an audit of the Company's accounts for fiscal year 2025.

Selection of the Company's independent registered public accounting firm is not required to be submitted to a vote of the shareholders of the Company for ratification. The Sarbanes-Oxley Act of 2002 requires the Audit Committee to be directly responsible for the appointment, compensation and oversight of the audit work of the independent registered public accounting firm. However, the Board of Directors is submitting this matter to the shareholders as a matter of good corporate practice.

Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting. They will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions. Representatives of the Company's former independent registered public accounting firm are not expected to be present at the Annual Meeting.

Required Vote

A majority of the votes properly cast on this matter (meaning the number of shares voted "for" this matter must exceed the number of shares voted "against" this matter) is necessary for the matter to be approved. Because this is a "routine matter" under NYSE rules, a beneficial owner's nominee, such as a broker, may vote on the ratification of the Company's independent registered public accounting firm without instruction from their beneficial owners. Abstentions and broker non-votes are not considered votes cast for the foregoing purpose and will have no effect on the vote for this proposal. If the shareholders fail to vote in favor of the selection, the Audit Committee will reconsider whether to retain PricewaterhouseCoopers LLP and may retain that firm or another without re-submitting the matter to the Company's shareholders. Even if shareholders vote in favor of the appointment, on an advisory basis, the Audit Committee may, in its discretion, direct the appointment of different independent auditors at any time during the year if it determines that such a change would be in the best interests of the Company and the shareholders.

CACI Recommendation

The Board recommends that shareholders vote "FOR" ratification of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for fiscal year 2025.

At the Annual Meeting, shareholders will be asked to consider the following management proposals:

Proposal	Board Recommendation
1 Elect the 11 nominees named in the proxy statement to the Company’s Board of Directors	FOR each nominee

If, for any reason, any of the nominees is not available as a candidate for director, the persons named as proxy holders will vote your proxy for such other candidate or candidates as may be nominated by the Board.

How many shares represent a quorum for the Annual Meeting?

The presence by means of remote communication or by proxy of the holders of a majority of the shares entitled to vote at the Annual Meeting constitutes a quorum for the transaction of business at the Annual Meeting. Both abstentions and broker non-votes (described below) are counted for the purpose of determining the presence of a quorum.

Voting Instructions

Who is entitled to vote at the Annual Meeting?

All shareholders of record as of the close of business on August 23, 2024 may vote at the Annual Meeting or any adjournment or postponement of the Annual Meeting. Each shareholder is entitled to one vote for each share held of record on that date. As of the Record Date, there were 22,303,686 shares of common stock outstanding.

How do I vote?

Shareholders of record can vote at the Annual Meeting by attending the virtual meeting using the control number located on your proxy card or the instructions that accompanied your proxy materials and submitting an electronic ballot. Beneficial owners must obtain a legal proxy from the organization that holds their shares prior to voting at the Annual Meeting.

Via the Internet. You may submit a proxy or voting instructions over the Internet by going to www.proxyvote.com.

By Telephone. You may submit a proxy or voting instructions by telephone by calling 1-800-690-6903 and following the instructions.

Note that shares represented by properly signed and returned proxies will be voted in accordance with their instructions. In the absence of any instructions, properly signed and returned proxies will be voted in accordance with management's recommendations.

How can I revoke a proxy or change my vote?

If you are a holder of record and wish to revoke your proxy instructions or change your vote you may change your vote at any time prior to the taking of the vote at the Annual Meeting by:

- submitting a new proxy or voting instructions with a later date;
- providing a written notice of revocation to the Company's Secretary, if you are a registered shareholder; or
- attending the Annual Meeting and voting in accordance with the voting procedures outlined above.

If you are a beneficial owner and have instructed a broker, bank or other nominee to vote your shares, you must follow your nominee's instructions to revoke your proxy or vote at the Annual Meeting.

Voting Information

What is the voting standard at the Annual Meeting?

Proposal	Vote Requirement	Effect of Abstentions	Effect of Broker Non-Votes
1 Election of 11 Directors named in the Proxy Statement	Majority of Votes Cast	None	None
2 Approval of Executive Compensation on an Advisory Basis	Majority of Votes Cast	None	None
3 Ratification of the appointment of PricewaterhouseCoopers LLP	Majority of Votes Cast	None	N/A

How are broker non-votes and abstentions treated?

Broker non-votes occur when a broker is not permitted to vote on a matter because a beneficial owner has not provided instructions. These matters are referred to as "non-routine" matters. All of the matters scheduled to be voted on at the Annual Meeting are "non-routine," except for the proposal to ratify the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year 2025. In tabulating the voting result for any particular proposal, shares that constitute broker non-votes are not considered voting power present or votes cast with respect to that proposal. Thus, broker non-votes will not affect the outcome of any matter being voted on at the Annual Meeting. Abstentions are considered voting power present at the Annual Meeting but are not considered votes cast.

with respect to the election of directors or Proposals 2 and 3 and thus will not affect the outcome of those matters at the Annual Meeting.

How do I find out the results of the Annual Meeting?

We expect to announce preliminary voting results at the Annual Meeting and publish final voting results on the Investors section of our website at www.caci.com. We also expect to disclose the final voting results in a Current Report on Form 8-K filed with the SEC within four business days of the Annual Meeting.

General Information

Why did I receive a notice in the mail regarding the internet availability of proxy materials?

We are furnishing the proxy materials, including this proxy statement and our annual report, to our shareholders by providing access to such documents on the Internet in accordance with rules adopted by the SEC. Instead of receiving printed copies of the proxy materials, most shareholders will receive a Notice of Internet Availability of Proxy Materials that will instruct you on how to access and review the proxy materials. Our proxy materials are also available on our Investors website at www.caci.com. The Notice was first mailed to our shareholders (other than those who previously requested electronic delivery) on September 6, 2024.

If you would like to receive a paper or email copy of our proxy materials, you should follow the instructions for requesting such materials in the Notice. Your election to receive proxy materials by mail or email will remain in effect until you revoke it.

Will I get more than one copy of the notice or proxy materials if multiple stockholders share my address?

We have adopted a procedure, approved by the SEC, called “householding.” Under this procedure, we deliver a single copy of the Notice and, if applicable, the proxy materials to multiple shareholders at the same address, unless we have previously received contrary instructions from one or more shareholders. We will promptly deliver a separate copy of any of these materials to a shareholder upon written or oral request to: CACI International Inc, 12021 Sunset Hills Road, Reston, Virginia 20190, Attn: J. William Koegel, Jr., Corporate Secretary, telephone 703-841-7800. Shareholders can request separate delivery for future meetings in the same manner. Shareholders at the same address who are receiving multiple copies of our proxy materials may contact us using either of these methods to request delivery of a single copy.

Shareholders who hold shares in street name (as described below) may contact their bank, broker or other nominee record holder to request information about householding.

What is the difference between a Shareholder of Record or Beneficial Owner?

If your shares are registered directly with Computershare, N.A., our transfer agent, then you are the “shareholder of record” of the shares. If your shares are held in an account at a broker, bank, trust or other similar organization, then you are a “beneficial owner” of the shares. Most of our shareholders are beneficial owners of their shares.

There are several distinctions in how shareholders receive information and vote their shares that you should be aware of, and we have described such differences in the proxy materials.

How do I inspect the list of shareholders of record?

A complete list of shareholders entitled to vote at the Annual Meeting will be available at the Company’s headquarters for examination from October 6, 2024 through October 16, 2024 for any purpose related to the Annual Meeting and will also be available electronically during the Annual Meeting.

Who bears the cost of this proxy solicitation?

We will bear the costs of soliciting proxies for the Annual Meeting and have retained Sodali & Co. to assist in soliciting proxies at a fee not to exceed \$9,350, plus expenses. We may also reimburse banks, brokers, nominees, and other fiduciaries for postage and reasonable clerical expenses incurred by them in forwarding the proxy materials to beneficial holders. Proxies may also be solicited without extra compensation by certain officers, directors and other employees of the Company, by telephone, e-mail, facsimile, personal contact, or by other means.

Any such recommendations should include the nominee's name and qualifications for membership on our Board and should be directed to the Company's Secretary. In addition, shareholders may also nominate directors for election at the 2025 Annual Meeting by giving timely notice under our By-laws, which require notice within the same period as shareholder proposals that are not intended for inclusion in our proxy statement. Shareholders who intend to solicit proxies in reliance on the SEC's universal proxy rule for director nominees submitted under the advance notice requirements of our Bylaws must comply with the additional requirements of Rule 14a-19, including delivery of written notice that sets forth all information required by Rule 14a-19(b) under the Exchange Act.
