The Clorox Company (the “Company” or “Clorox”) has identified unauthorized activity on some of its Information Technology (IT) systems. After becoming aware of the activity, the Company began taking steps to stop and remediate the activity, including taking certain systems offline. The Company is working diligently to respond to and address this issue, and is also coordinating with law enforcement. To the extent possible, and in line with its business continuity plans, Clorox has implemented workarounds for certain offline operations in order to continue servicing its customers. However, the incident has caused, and is expected to continue to cause, disruption to parts of the Company’s business operations.

Clorox has engaged leading third-party cybersecurity experts to support its investigation and recovery efforts. The investigation to assess the nature and scope of the incident remains ongoing and is in its early stages.
