**FRANKLIN RESOURCES, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2026**  
**(Unaudited)**

**Note 1 – Basis of Presentation**

The unaudited interim financial statements of Franklin Resources, Inc. (“Franklin”) and its consolidated subsidiaries (collectively, the “Company”) included herein have been prepared in accordance with the instructions to Form 10-Q and the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). Under these rules and regulations, some information and footnote disclosures normally included in financial statements prepared under accounting principles generally accepted in the United States of America have been shortened or omitted. Management believes that all adjustments necessary for a fair statement of the financial position and the results of operations for the periods shown have been made. All adjustments are normal and recurring. Management also believes that the accounting estimates are appropriate, and the resulting balances are reasonable; however, due to the inherent uncertainties in making estimates, actual amounts may differ from these estimates. These financial statements should be read together with the Company’s audited financial statements included in its Annual Report on Form 10-K for the fiscal year ended September 30, 2025 (“fiscal year 2025”).

*Revision to previously issued financial statements*

During the quarter ended March 31, 2026, the Company identified that the amount reported in the supplemental disclosure of cash flow information in its consolidated statement of cash flows for cash paid for income taxes for the six month period ended March 31, 2025 was understated by \$185.2 million, and the correct amount for that period was \$402.3 million.

There is no impact on net income attributable to the Company, earnings per share, total assets, total liabilities, retained earnings, total shareholders’ equity or operating cash flow activities. There is no impact on the financial results attributable to the Company’s shareholders. The Company has determined this did not result in a material misstatement to its previously issued consolidated financial statements. Nonetheless, for comparability, the Company has revised the comparative prior period amounts included in the consolidated statements of cash flows.

**Note 2 – New Accounting Guidance**

*Recently Adopted Accounting Guidance*

On October 1, 2025, the Company adopted an amendment to the existing intangible assets guidance issued by the Financial Accounting Standards Board. The amendment requires eligible crypto assets to be measured at fair value, with changes recognized in net income, along with expanded disclosures. The Company adopted the amendment using the modified-retrospective transition approach and recognized a cumulative effective adjustment resulting in an increase of \$25.3 million in retained earnings as of October 1, 2025. The crypto assets are presented within intangible assets, net on the consolidated balance sheets.

There were no other significant updates to the new accounting guidance that the Company has not yet adopted as disclosed in its Form 10-K for fiscal year 2025.

### Note 3 – Earnings per Share

The components of basic and diluted earnings per share were as follows:

<i>(in millions, except per share data)</i>	Three Months Ended March 31,		Six Months Ended March 31,	
	2026	2025	2026	2025

<b>Weighted-Average Shares Outstanding – Diluted</b>	<b>518.2</b>	<b>519.9</b>	<b>518.3</b>	<b>519.0</b>
<b>Earnings per Share</b>				
Basic	\$ 0.49	\$ 0.26	\$ 0.95	\$ 0.55
Diluted	0.49	0.26	0.95	0.55

There were no nonparticipating nonvested stock unit awards excluded from the calculation of diluted earnings per share because their effect would have been antidilutive for the three and six months ended March 31, 2026 and 2025.

<b>Total Liabilities, Redeemable Noncontrolling Interests and Stockholders’ Equity</b>	<b>\$ 14,916.2</b>	<b>\$ 13,077.7</b>

The consolidation of CIPs did not have a significant impact on net income attributable to the Company during the three and six months ended March 31, 2026 and 2025.

The Company has no right to the CIPs’ assets, other than its direct equity investments in them and investment management and other fees earned from them. The debt holders of the CIPs have no recourse to the Company’s assets beyond the level of its direct investment; therefore the Company bears no other risks associated with the CIPs’ liabilities.

**Note 9 – Nonconsolidated Variable Interest Entities**

VIEs for which the Company is not the primary beneficiary consist of sponsored funds and other investment products in which the Company has an equity ownership interest. The Company's maximum exposure to loss from these VIEs consists of equity investments, investment management and other fee receivables as follows:

<i>(in millions)</i>	March 31, 2026	September 30, 2025
Investments	\$ 1,435.8	\$ 1,274.5
Receivables	239.2	225.1
<b>Total</b>	<b>\$ 1,675.0</b>	<b>\$ 1,499.6</b>

While the Company has no legal or contractual obligation to do so, it routinely makes cash investments in the course of launching sponsored funds. As it has done in the past, the Company also may voluntarily elect to provide its sponsored funds with additional direct or indirect financial support based on its business objectives. The Company did not provide additional financial or other support to its sponsored funds assessed as VIEs during the six months ended March 31, 2026 or fiscal year 2025.

## Note 10 – Commitments and Contingencies

### *Legal Proceedings*

*India Credit Fund Closure Matters.* During the six months ended March 31, 2026, there were no significant changes from the disclosure in the Form 10-K for the fiscal year ended September 30, 2025.

*Western Asset Management Investigations and Litigation.* As previously disclosed, the Company launched an internal investigation into certain trade allocations of treasury derivatives in select Western Asset Management (“WAM”) managed accounts. WAM received notification of parallel investigations by the SEC and the U.S. Department of Justice (“DOJ”). WAM also received notice of an investigation into these trading activities by the CFTC. The Company and WAM have fully cooperated with these investigations. As previously disclosed, the CFTC informed WAM that it closed its investigation. The Company has also previously disclosed that it was informed by the DOJ that it is prepared to resolve its investigation through a disposition that does not require the filing of any criminal charges against WAM. The DOJ further informed the Company that as it continues the ongoing resolution discussions, which, as the DOJ noted, has required additional time to complete due to circumstances not attributable to WAM, it appreciates WAM’s commitment to full cooperation with the investigation. The Company continues to cooperate with the SEC investigation, which remains ongoing.

Ken Leech, the former co-Chief Investment Officer of WAM, received a “Wells Notice” from the staff of the SEC in August 2024, and was placed on administrative leave at that time. Mr. Leech retired and is no longer with the Company, as previously disclosed. On November 25, 2024, the SEC filed a complaint in the United States District Court for the Southern District of New York against Mr. Leech alleging violations of certain laws related to trade allocations. Concurrently, the DOJ filed an indictment with the United States District Court for the Southern District of New York against Mr. Leech for similar allegations and for false statements made to the SEC. The trial is scheduled to begin on June 15, 2026.

On July 3, 2025, Franklin, WAM and Ken Leech were named as defendants in a lawsuit filed by the Western PA Electrical Employees Insurance Trust Fund in the U.S. District Court for the Western District of Pennsylvania seeking class certification on behalf of shareholders of two funds managed by WAM for the period January 1, 2021 through October 31, 2023. On December 19, 2025, Abilene Firemen’s Relief and Retirement Fund was named the lead plaintiff in the action and effective January 9, 2026, the case was transferred to the U.S. District Court for the Central District of California. The plaintiffs filed an amended complaint on March 16, 2026, which, among other things, expanded the alleged class period through November 25, 2024, and named as additional defendants certain Franklin and WAM executives. The plaintiffs are pursuing claims under the Securities Exchange Act of 1934 against all defendants in connection with trade allocations made by Mr. Leech in that period that are also the subject of the investigations reported above. The plaintiffs are seeking, among other things, damages, interest, and costs and expenses, including attorneys’ fees.

*Franklin Templeton 401(k) Retirement Plan Litigation.* On July 22, 2025, Franklin and the Franklin Templeton 401(k) Retirement Plan Committee were named as defendants in a lawsuit filed by certain former employees in the U.S. District Court for the Northern District of California. On November 10, 2025, the plaintiffs filed an amended complaint adding as defendants the Franklin Templeton 401(k) Retirement Plan Investment Committee and Gallagher Fiduciary Advisors, LLC. The plaintiffs seek to represent a class of participants and beneficiaries of the Franklin Templeton 401(k) Retirement Plan (the “Plan”) who were invested in funds managed by the Company at any time on or after July 22, 2019. The plaintiffs are pursuing claims under the Employee Retirement Income Security Act of 1974 for alleged breaches of fiduciary duties and failure to monitor the Plan fiduciaries in connection with the Plan’s inclusion of certain proprietary funds as investment options. The plaintiffs are seeking, among other things, damages, disgorgement, removal of certain investments from the Plan, removal and replacement of the Plan’s fiduciaries, attorneys’ fees and costs, and pre-judgment interest. On April 17, 2026, the court denied the Franklin defendants’ motion to dismiss.

The lawsuits reported above against the Company are in their early stages. Management believes the claims made in the lawsuits are without merit and the Company intends to defend against them vigorously. The Company cannot predict the outcome of these lawsuits or estimate any reasonably possible loss or range of loss that may arise from any negative outcome.

*Other Litigation and Regulatory Matters.* The Company is from time to time involved in other litigation relating to claims arising in the normal course of business. Management is of the opinion that the ultimate resolution of such claims will not materially affect the Company’s business, financial position, results of operations or liquidity. In management’s opinion, an adequate accrual has been made as of March 31, 2026 to provide for any probable losses that may arise from such matters for which the Company could reasonably estimate an amount.

### Indemnifications and Guarantees

In the ordinary course of business or in connection with certain acquisition agreements, the Company enters into contracts that provide for indemnifications by the Company in certain circumstances. In addition, certain Company entities guarantee certain financial and performance-related obligations of various Franklin subsidiaries. The Company is also subject to certain legal requirements and agreements providing for indemnifications of directors, officers and personnel against liabilities and expenses they may incur under certain circumstances in connection with their service. The terms of these indemnities and guarantees vary pursuant to applicable facts and circumstances, and from agreement to agreement. Future payments for claims against the Company under these indemnities or guarantees could negatively impact the Company's financial condition. In management's opinion, an adequate accrual has been made as of March 31, 2026 to provide for any probable losses pursuant to such indemnification agreements and/or guarantees.

### Other Commitments and Contingencies

At March 31, 2026, there were no other material changes in the other commitments and contingencies as reported in the Company's Annual Report on Form 10-K for fiscal year 2025.

### Note 11 – Stock-Based Compensation

Stock and stock unit award activity was as follows:

<i>(shares in thousands)</i>	Time-Based Shares	Performance- Based Shares	Total Shares	Weighted- Average Grant-Date Fair Value

**Note 13 – Segment and Geographic Information**

The Company has one operating segment, which provides investment management and related services.

The chief operating decision maker (“CODM”), identified as the Company’s Chief Executive Officer, assesses the performance of the business and allocates resources primarily based on consolidated net income attributable to Franklin Resources, Inc. This measure is used to support decision making activities and assess the performance of the operating segment.

The CODM regularly reviews the significant segment expenses categories that are presented on the Company’s consolidated statements of income. Total assets on the consolidated balance sheets is the measure of segment assets.

### FORWARD-LOOKING STATEMENTS

This Form 10-Q and the documents incorporated by reference herein may include forward-looking statements that reflect our current views with respect to future events, financial performance and market conditions. Such statements are provided under the “safe harbor” protection of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts and generally can be identified by words or phrases written in the future tense and/or preceded by words such as “anticipate,” “believe,” “could,” “depends,” “estimate,” “expect,” “intend,” “likely,” “may,” “plan,” “potential,” “seek,” “should,” “will,” “would,” or other similar words or variations thereof, or the negative thereof, but these terms are not the exclusive means of identifying such statements.

Forward-looking statements involve a number of known and unknown risks, uncertainties and other important factors that may cause actual results and outcomes to differ materially from any future results or outcomes expressed or implied by such forward-looking statements, including market and volatility risks, investment performance and reputational risks, global operational risks, competition and distribution risks, third-party risks, technology and security risks, human capital risks, cash management risks, and legal and regulatory risks. The forward-looking statements contained in this Form 10-Q or that are incorporated by reference herein are qualified in their entirety by reference to the risks and uncertainties disclosed in this Form 10-Q and/or discussed under the headings “Risk Factors” and “Quantitative and Qualitative Disclosures About Market Risk” in our Annual Report on Form 10-K for the fiscal year ended September 30, 2025 (“fiscal year 2025”).

While forward-looking statements are our best prediction at the time that they are made, you should not rely on them and are cautioned against doing so. Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other possible future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. They are neither statements of historical fact nor guarantees or assurances of future performance. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them.

The initiation or unfavorable resolution of legal proceedings or other claims and regulatory and other governmental investigations or inquiries, including the Western Asset Management (“WAM”) investigations described under the heading “Risk Factors” and in “Note 15 - Commitments and Contingencies” to our audited financial statements contained in our Annual Report on Form 10-K for fiscal year 2025, and in “Note 10 - Commitments and Contingencies” to our unaudited interim financial statements contained in this Form 10-Q, may result in additional costs, monetary judgments, settlements or other remedies, including fines, penalties, restitution and/or alterations in our business practices or those of our investment groups. In addition, these matters may cause reputational harm to us or our investment groups and could result in additional expenses and collateral costs, outflows of assets under management or other financial impacts that could materially affect our results of operations and the price of our common stock.

If a circumstance occurs after the date of this Form 10-Q that causes any of our forward-looking statements to be inaccurate, whether as a result of new information, future developments or otherwise, we undertake no obligation to announce publicly the change to our expectations, or to make any revision to our forward-looking statements, to reflect any change in assumptions, beliefs or expectations, or any change in events, conditions or circumstances upon which any forward-looking statement is based, unless required by law.

In this section, we discuss and analyze the results of operations and financial condition of Franklin Resources, Inc. (“Franklin”) and its subsidiaries (collectively, the “Company”). The following discussion should be read in conjunction with our Annual Report on Form 10-K for fiscal year 2025 filed with the U.S. Securities and Exchange Commission (the “SEC”), and the consolidated financial statements and notes thereto included elsewhere in this Form 10-Q. Words such as “we,” “us,” “our” and similar terms refer to the Company.

## OVERVIEW

Franklin is a holding company with subsidiaries operating under our Franklin Templeton® and/or subsidiary brand names. We are a global investment management organization that derives operating revenues and net income from providing investment management and related services to investors in jurisdictions worldwide. We deliver our investment capabilities through a variety of investment products, which include our sponsored funds, as well as institutional and high-net-worth separate accounts, retail separately managed account programs, sub-advised products and other investment vehicles. Related services include fund administration, sales and distribution, and shareholder servicing, which we may perform directly or outsource to third parties. We offer our services and products under our various distinct brand names, including, but not limited to, Alcentra®, Apera®, Benefit Street Partners®, Brandywine Global Investment Management®, Canvas®, Clarion Partners®, ClearBridge Investments®, Fiduciary Trust International™, Franklin®, Franklin Mutual Series®, K2®, Legg Mason®, Lexington Partners®, O’Shaughnessy®, Putnam®, Royce®, Templeton®, and Western Asset Management Company®. We offer a broad product mix of equity, fixed income, alternative, multi-asset and cash management asset classes and solutions that meet a wide variety of specific investment goals and needs for individual and institutional investors. We also provide sub-advisory services to certain investment products sponsored by other companies which may be sold to investors under the brand names of those other companies or on a co-branded basis.

The level of our revenues depends largely on the level and relative mix of assets under management (“AUM”). As noted in the “Risk Factors” section of our Annual Report on Form 10-K for fiscal year 2025, the amount and mix of our AUM are subject to significant fluctuations, including as a result of reputational harm, that can negatively impact our revenues and income. The level of our revenues also depends on the fees charged for our services, which are based on contracts with our funds and customers, fund sales, and the number of shareholder transactions and accounts. These arrangements could change in the future.

During our second fiscal quarter, U.S. and global equity markets declined amid heightened volatility, driven by the escalation of geopolitical tensions in the Middle East, rising energy and gas prices, and renewed inflation concerns. The S&P 500 Index and the MSCI World Index decreased by 4.3% and 3.5%, respectively, for the quarter, and by 1.8% and 0.4% for the fiscal year to date. Global bond markets declined as the Bloomberg Global Aggregate Index decreased 1.1% during the quarter and 0.8% for the fiscal year to date.

Our total AUM at March 31, 2026 was \$1,682.1 billion, 1% higher than at September 30, 2025 and 9% higher than at March 31, 2025. Monthly average AUM (“average AUM”) for the three and six months ended March 31, 2026 increased 8% and 5% from the same periods in the prior fiscal year.

On October 1, 2025, we acquired Apera Asset Management (“Apera”), a pan-European private credit firm.

The business and regulatory environments in which we operate globally remain complex, uncertain and subject to change. We are subject to various laws, rules and regulations globally that impose restrictions, limitations, registration, reporting and disclosure requirements on our business, and add complexity to our global compliance operations.

Uncertainties regarding the global economy remain for the foreseeable future. As we continue to confront the challenges of the current economic and regulatory environments, we remain focused on the investment performance of our products and on providing high quality service to our clients. We continuously perform reviews of our business model. While we remain focused on expense management, we will also seek to attract, retain and develop personnel and invest strategically in systems and technology to support our evolving business. We will continue to seek to protect and further our brand recognition while developing and maintaining broker-dealer and client relationships. The success of these and other strategies may be influenced by the factors discussed in the “Risk Factors” section of our Annual Report on Form 10-K for the fiscal year 2025.

<sup>1</sup> Beginning in fiscal year 2026, non-fee generating uncalled capital commitments, which were previously included in net market change, distributions, and other, are reflected in long-term inflows in the period the capital is committed.

AUM decreased \$1.9 billion during the three months ended March 31, 2026 due to the negative impact of \$30.2 billion of net market change, distributions and other, partially offset by \$16.9 billion of long-term net inflows, inclusive of \$4.1 billion of long-term net outflows at WAM, and \$11.4 billion of cash management net inflows. Long-term net inflows include \$3.2 billion of long-term reinvested distributions. Net market change, distributions and other primarily consists of \$17.3 billion of market depreciation and \$10.9 billion of distributions. The market depreciation occurred primarily in the equity asset class and reflected negative returns in the global equity markets, partially offset by appreciation in the alternative and multi-asset classes.

Long-term inflows increased 36% to \$118.2 billion, as compared to the prior period, driven by higher inflows in equity, multi-asset and fixed income open-end funds, alternative private funds, equity exchange traded funds, multi-asset sub-advised mutual funds, equity and multi-asset separately managed accounts, and fixed income institutional separate accounts. Long-term outflows decreased 10% to \$101.3 billion, substantially due to lower outflows across multiple fixed income vehicles at WAM, partially offset by higher outflows in equity open-end funds and exchange traded funds.

<sup>1</sup> Beginning in fiscal year 2026, non-fee generating uncalled capital commitments, which were previously included in net market change, distributions, and other, are reflected in long-term inflows in the period the capital is committed.

AUM increased \$20.9 billion, or 1%, during the six months ended March 31, 2026 due to \$44.9 billion of long-term net inflows, inclusive of \$10.6 billion of long-term net outflows at WAM, \$10.2 billion of cash management net inflows, and \$6.1 billion from the acquisition of Apera, partially offset by the negative impact of \$40.3 billion of net market change, distributions and other. Long-term net inflows include \$32.1 billion of long-term reinvested distributions. Net market change, distributions and other primarily consists of \$54.1 billion of distributions, primarily from the equity and alternative asset classes, partially offset by \$16.4 billion of market appreciation. The market appreciation occurred in all asset classes.

Long-term inflows increased 29% to \$236.8 billion, as compared to the prior period, driven by higher inflows in equity, multi-asset, and fixed income open-end funds, alternative private funds, equity and fixed income exchange traded funds, fixed income, multi-asset, and equity separately managed accounts, alternative and fixed income institutional separate accounts, and multi-asset and fixed income sub-advised mutual funds, partially offset by lower inflows in equity sub-advised mutual funds. Long-term outflows decreased 26% to \$191.9 billion, substantially due to lower outflows across multiple fixed income vehicles at WAM, partially offset by slightly higher outflows in equity and fixed income vehicles across other investment groups.

### Investment Performance Overview

A key driver of our overall success is the long-term investment performance of our investment products. A measure of the performance of these products is the percentage of AUM exceeding peer group medians and benchmarks. We compare the relative performance of our mutual funds against peers, and of our strategy composites against benchmarks.

The performance of our mutual fund products against peer group medians and of our strategy composites against benchmarks is presented in the table below.

as of March 31, 2026	Peer Group Comparison <sup>1</sup> % of Mutual Fund AUM in Top Two Peer Group Quartiles				Benchmark Comparison <sup>2</sup> % of Strategy Composite AUM Exceeding Benchmark

<sup>1</sup> Mutual fund performance is sourced from Morningstar and measures the percent of ranked AUM in the top two quartiles versus peers. Total mutual fund AUM measured for the 1-, 3-, 5- and 10-year periods represents 39%, 39%, 38% and 35% of our total AUM as of March 31, 2026.

<sup>2</sup> Strategy composite performance measures the percent of composite AUM beating its benchmark. The benchmark comparisons are based on each account's/composite's (strategy composites may include retail separately managed accounts and mutual fund assets managed as part of the same strategy) return as compared to a market index that has been selected to be generally consistent with the asset class of the account/composite. Total strategy composite AUM measured for the 1-, 3-, 5- and 10-year periods represents 55%, 54%, 54% and 50% of our total AUM as of March 31, 2026.

<sup>3</sup> Total mutual fund AUM includes performance of our alternative and multi-asset funds, and total strategy composite AUM includes performance of our alternative composites. Alternative and multi-asset AUM represent 17% and 12% of our total AUM at March 31, 2026.

Mutual fund performance data includes U.S. and cross-border domiciled mutual funds and exchange-traded funds, excludes cash management and fund of funds, and assumes the reinvestment of dividends.

Past performance is not indicative of future results. For strategy composite AUM included in institutional and retail separately managed accounts and investment funds managed in the same strategy as separate accounts, performance comparisons are based on gross-of-fee performance. For investment funds which are not managed in a separate account format, performance comparisons are based on net-of-fee performance. These performance comparisons do not reflect the actual performance of any specific separate account or investment fund; individual separate account and investment fund performance may differ. The information in this presentation is provided solely for use in connection with this document, and is not directed toward existing or potential clients of Franklin.

### OPERATING REVENUES

The table below presents the percentage change in each operating revenue category.

(in millions)	Three Months Ended March 31,		Percent Change	Six Months Ended March 31,		Percent Change

### Investment Management Fees

Investment management fees increased \$145.7 million and \$194.3 million for the three and six months ended March 31, 2026 primarily due to an increase in average equity, multi-asset, and alternative AUM, an increase in performance fees and the acquisition of Apera, partially offset by the impact of WAM outflows.

Our effective investment management fee rate excluding performance fees (annualized investment management fees excluding performance fees divided by average AUM) was 41.0 and 40.8 basis points for the three and six months ended March 31, 2026, as compared to 41.4 and 40.7 basis points for the same periods in the prior fiscal year.

Performance fees were \$100.8 million and \$232.4 million for the three and six months ended March 31, 2026 and \$71.9 million and \$213.5 million for the same periods in prior fiscal year. The increase for both periods was primarily due to changes in the amount of performance fees earned by our alternative and equity investment groups.

### Sales and Distribution Fees

Sales and distribution fees by revenue driver are presented below.

<i>(in millions)</i>	Three Months Ended March 31,		Percent Change	Six Months Ended March 31,		Percent Change
	2026	2025		2026	2025	
Asset-based fees	\$ 321.0	\$ 297.2	8%	\$ 645.6	\$ 606.3	6%
Sales-based fees	75.6	67.7	12%	139.7	134.1	4%
<b>Sales and Distribution Fees</b>	<b>\$ 396.6</b>	<b>\$ 364.9</b>	<b>9%</b>	<b>\$ 785.3</b>	<b>\$ 740.4</b>	<b>6%</b>

Asset-based distribution fees increased \$23.8 million and \$39.3 million for the three and six months ended March 31, 2026 primarily due to increases of 6% and 4% in the related average AUM and a higher mix of non-U.S. equity and multi-asset funds and U.S. equity and alternative funds, which generate higher fees.

Sales-based fees increased \$7.9 million and \$5.6 million for the three and six months ended March 31, 2026, primarily due to increases of 20% and 7% in commissionable sales, partially offset by a higher mix of non-U.S. sales, which generate lower fees.

### Shareholder Servicing Fees

Shareholder servicing fees increased \$7.1 million and \$14.5 million for the three and six months ended March 31, 2026 primarily due to higher levels of related AUM and increased revenue related to fees earned on a contractual basis.

### Other

Other revenue increased \$5.3 million for the six months ended March 31, 2026 primarily due to higher loan origination fees earned by certain of our alternative investment groups.

<sup>1</sup> See “Supplemental Non-GAAP Financial Measures” for additional information.

<sup>2</sup> Includes impact of gains and losses on investments related to deferred compensation plans, which is offset in investment and other income (losses), net; minority interests in certain subsidiaries, which is offset in net income (loss) attributable to redeemable noncontrolling interests; and special termination benefits.

Salaries, wages and benefits increased \$11.8 million and \$16.7 million for the three and six months ended March 31, 2026, primarily due to annual salary increases, higher post-retirement and employee insurance costs, and the acquisition of Apera, partially offset by the impact of cost savings initiatives.

Incentive compensation increased \$28.3 million and \$59.9 million for the three and six months ended March 31, 2026, primarily due to higher bonus expense based on expectations of our annual performance, and higher deferred compensation expense for the six month period, partially offset by lower sales-related commissions.

Acquisition-related retention expenses decreased \$4.3 million and \$14.4 million for the three and six months ended March 31, 2026, primarily due to lower costs associated with recent acquisitions.

Other compensation and benefits increased \$13.4 million for the three months ended March 31, 2026, primarily due to a \$12.8 million increase in special termination benefits, and increased \$43.6 million for the six months ended March 31, 2026, primarily due to a \$28.4 million increase in special termination benefits and higher net market gains on investments related to our deferred compensation plans. The special termination benefits increased primarily due to higher costs associated with workforce optimization initiatives.

At March 31, 2026, our global workforce remained flat at approximately 10,000 employees, as compared to March 31, 2025.

## Sales, Distribution and Marketing

Sales, distribution and marketing expenses by cost driver are presented below.

<i>(in millions)</i>	Three Months Ended March 31,		Percent Change	Six Months Ended March 31,		Percent Change
	2026	2025		2026	2025	
Asset-based expenses	\$ 447.8	\$ 411.4	9%	\$ 905.6	\$ 839.6	8%
Sales-based expenses	70.9	67.9	4%	131.2	131.8	0%
Amortization of deferred sales commissions	25.3	18.8	35%	48.1	39.0	23%
<b>Sales, Distribution and Marketing</b>	<b>\$ 544.0</b>	<b>\$ 498.1</b>	<b>9%</b>	<b>\$ 1,084.9</b>	<b>\$ 1,010.4</b>	<b>7%</b>

Asset-based expenses increased \$36.4 million and \$66.0 million for the three and six months ended March 31, 2026 primarily due to increases of 7% and 6% in the related average AUM, higher marketing support fees, and a higher mix of non-U.S. equity and multi-asset funds and U.S. equity and alternative funds, which incur higher fees. Distribution expenses are generally not directly correlated with distribution fee revenues due to certain fee structures that do not provide full recovery of distribution costs.

Sales-based expenses increased \$3.0 million for the three months ended March 31, 2026 primarily due to an increase of 20% in commissionable sales, partially offset by a higher mix of non-U.S. sales, and decreased \$0.6 million for the six months ended March 31, 2026 primarily due to a higher mix of non-U.S. sales, partially offset by an increase of 7% in commissionable sales and lower sales-based marketing support fees.

## Occupancy

Occupancy expenses decreased \$2.2 million and \$10.5 million for the three and six months ended March 31, 2026, primarily due to consolidation of our office space in New York City.

## Information Systems and Technology

Information systems and technology expenses decreased \$1.1 million and \$0.1 million for the three and six months ended March 31, 2026, primarily due to lower technology consulting and spending related to strategic initiatives, substantially offset by higher costs for software and external data services.

## Amortization of Intangible Assets

Amortization of intangible assets decreased \$61.9 million and \$119.4 million for the three and six months ended March 31, 2026, primarily due to intangible assets which became fully amortized during the prior fiscal year, partially offset by an increase in amortization due to the reclassification of certain indefinite-lived intangible assets to definite lived intangible assets and a reduction in the useful lives of certain definite-lived intangible assets related to trade names.

## Impairment of intangible assets

During the three months ended March 31, 2025, we recognized an impairment charge of \$24.4 million related to certain indefinite-lived intangible assets for acquired mutual fund investment management contracts.

## General, Administrative and Other

General, administrative and other operating expenses increased \$4.8 million and \$15.2 million for the three and six months ended March 31, 2026. The increase for the three months ended March 31, 2026 was primarily due to an increase of \$11.6 million in legal and other professional fees, driven by a \$7.6 million decrease in insurance recoveries, and an increase of \$2.4 million in fund-related expenses, driven by higher transfer agency and sub-advisory expenses, partially offset by lower fund administration costs and lower placement and platform fees. These increases were partially offset by a \$10.6 million decrease in advertising expenses. The increase for the six months ended March 31, 2026, was primarily due to an increase of \$17.9 million in fund-related expenses, driven by higher transfer agency and sub-advisory expenses, and an increase of \$3.1 million in travel and entertainment, partially offset by a \$6.3 million decrease in advertising expenses.

<b>Other Income (Expenses), Net</b>	<b>\$ 122.4</b>	<b>\$ (102.9)</b>	<b>NM</b>	<b>\$ 293.2</b>	<b>\$ (8.7)</b>	<b>NM</b>

Dividend and interest income increased \$19.3 million and \$30.8 million for the three and six months ended March 31, 2026, primarily due to higher dividend and interest income earned from strategic investments and assets invested for deferred compensation plans.

Investments held by the Company generated net losses of \$20.7 million and \$29.3 million for the three and six months ended March 31, 2026, as compared to net gains of \$46.8 million and net losses of \$10.3 million for the three and six months ended March 31, 2025. The net losses in the three months ended March 31, 2026 were primarily from investments in nonconsolidated funds and separate accounts and assets invested for deferred compensation plans, partially offset by gains from investments measured at cost adjusted for observable price changes, while the net gains in the prior year period were primarily from investments in nonconsolidated funds and separate accounts and assets invested for deferred compensation plans, partially offset by losses from investments measured at cost adjusted for observable price changes. The net losses in the six months ended March 31, 2026 were primarily from investments in nonconsolidated funds and separate accounts, partially offset by gains on investments measured at cost adjusted for observable price changes and assets invested for deferred compensation plans, while the net losses in the prior year were primarily from investments measured at cost adjusted for observable price changes and assets invested for deferred compensation plans, partially offset by losses on investments in nonconsolidated funds and separate accounts.

Equity method investees generated income of \$24.3 million and \$35.8 million for the three and six months ended March 31, 2026, as compared to income of \$23.1 million and \$15.5 million in the prior year, largely related to various global alternative funds.

Net foreign currency exchange gains were \$1.5 million for the three months ended March 31, 2026, as compared to net losses of \$7.5 million in the prior year period. The U.S. dollar strengthened in the three month period against the Euro and British Pound, which resulted in net foreign exchange gains on cash and cash equivalents denominated in U.S. dollars held by certain of our European subsidiaries, as compared to weakening against the same currencies, which resulted in net foreign exchange gains, in the prior year period. Net foreign currency exchange losses were \$2.5 million for the six months ended March 31, 2026, as compared to net gains of \$7.0 million in the prior year, as changes in the value of the U.S. dollar against the Euro and British Pound resulted in net foreign exchange losses in the current year as compared to net gains in the prior year.

Other, net increased \$11.6 million and \$27.1 million for the three and six months ended March 31, 2026, primarily due to gains recognized on the sale of owned office space.

Interest expense decreased \$0.9 million and \$3.6 million for the three and six months ended March 31, 2026 primarily due to interest recognized in the prior year on the \$400 million senior notes which were repaid in March 31, 2025, partially offset by interest recognized on borrowings under our revolving credit facility.

Investments held by consolidated investment products (“CIPs”) generated gains and other income of \$96.5 million and \$221.4 million for the three and six months ended March 31, 2026, largely related to gains on holdings of various alternative, equity, and multi-asset funds. Investments held by CIPs generated losses of \$164.7 million and \$50.6 million for the three and six months ended March 31, 2025, largely related to losses on holdings of various global equity funds, partially offset by gains on various alternative funds, and for the six month period, global fixed income and multi-asset funds.

Expenses of CIPs decreased \$1.3 million and increased \$5.4 million for the three and six months ended March 31, 2026, due to activity of the funds.

## TAXES ON INCOME

Our effective income tax rate was 22.2% and 22.7% for the three and six months ended March 31, 2026, as compared to 72.8% and 31.5% for the three and six months ended March 31, 2025. The rate decrease for the three month period was primarily due to activity of CIPs for which there is no related tax impact and valuation allowances on net operating losses and capital losses recognized in the prior year period. The rate decrease for the six month period was primarily due to activity of CIPs for which there is no related tax impact, excess tax benefits related to stock-based compensation in the current year, as compared to excess tax expense in the prior year, and valuation allowances on net operating losses and capital losses recognized in the prior year.

Our effective income tax rate reflects the relative contributions of earnings in the jurisdictions in which we operate, which have varying tax rates. Changes in our pre-tax income mix, tax rates or tax legislation in such jurisdictions may affect our effective income tax rate and net income.

## SUPPLEMENTAL NON-GAAP FINANCIAL MEASURES

As supplemental information, we are providing performance measures for “adjusted operating income,” “adjusted operating margin,” “adjusted net income” and “adjusted diluted earnings per share,” each of which is based on methodologies other than generally accepted accounting principles (“non-GAAP measures”). Management believes these non-GAAP measures are useful indicators of our financial performance and may be helpful to investors in evaluating our relative performance against industry peers.

“Adjusted operating income,” “adjusted operating margin,” “adjusted net income” and “adjusted diluted earnings per share” are defined below, followed by reconciliations of operating income, operating margin, net income attributable to Franklin Resources, Inc. and diluted earnings per share on a U.S. GAAP basis to these non-GAAP measures. Non-GAAP measures should not be considered in isolation from, or as substitutes for, any financial information prepared in accordance with U.S. GAAP, and may not be comparable to other similarly titled measures of other companies. Additional reconciling items may be added in the future to these non-GAAP measures if deemed appropriate.

### *Adjusted Operating Income*

We define adjusted operating income as operating income adjusted to exclude the following:

- Elimination of operating revenues upon consolidation of investment products.
- Acquisition-related items:
  - Acquisition-related retention compensation.
  - Other acquisition-related expenses including professional fees, technology costs and fair value adjustments related to contingent consideration assets and liabilities.
  - Amortization of intangible assets.
  - Impairment of intangible assets and goodwill, if any.
- Special termination benefits and other expenses related to workforce optimization initiatives related to past acquisitions and certain initiatives undertaken by the Company.

- Impact on compensation and benefits expense from gains and losses on investments related to deferred compensation plans, which is offset in investment and other income (losses), net.
- Impact on compensation and benefits expense related to minority interests in certain subsidiaries, which is offset in net income (loss) attributable to redeemable noncontrolling interests.

### ***Adjusted Operating Margin***

We calculate adjusted operating margin as adjusted operating income divided by adjusted operating revenues. We define adjusted operating revenues as operating revenues adjusted to exclude the following:

- Elimination of operating revenues upon consolidation of investment products.
- Acquisition-related performance-based investment management fees which are passed through as compensation and benefits expense.
- Sales and distribution fees and a portion of investment management fees allocated to cover sales, distribution and marketing expenses paid to the financial advisers and other intermediaries who sell our funds on our behalf.

### ***Adjusted Net Income and Adjusted Diluted Earnings Per Share***

We define adjusted net income as net income attributable to Franklin Resources, Inc. adjusted to exclude the following:

- Activities of CIPs.
- Acquisition-related items:
  - Acquisition-related retention compensation.
  - Other acquisition-related expenses including professional fees, technology costs and fair value adjustments related to contingent consideration assets and liabilities.
  - Amortization of intangible assets.
  - Impairment of intangible assets and goodwill, if any.
  - Interest expense for amortization of debt premium from acquisition-date fair value adjustment.
- Special termination benefits and other expenses related to workforce optimization initiatives related to past acquisitions and certain initiatives undertaken by the Company.
- Net gains or losses on investments related to deferred compensation plans which are not offset by compensation and benefits expense.
- Net compensation and benefits expense related to minority interests in certain subsidiaries not offset by net income (loss) attributable to redeemable noncontrolling interests.
- Unrealized investment gains and losses.
- Net income tax expense of the above adjustments based on the respective blended rates applicable to the adjustments.

We define adjusted diluted earnings per share as diluted earnings per share adjusted to exclude the per share impacts of the adjustments applied to net income in calculating adjusted net income.

In calculating our non-GAAP measures, we adjust for the impact of CIPs because it is not considered reflective of our underlying results of operations. Acquisition-related items and special termination benefits are excluded to facilitate comparability to other asset management firms. We adjust for compensation and benefits expense related to funded deferred compensation plans because it is partially offset in other income (expense), net. We adjust for compensation and benefits expense and net income (loss) attributable to redeemable noncontrolling interests to reflect the economics of certain profits interest arrangements. Sales and distribution fees and a portion of investment management fees generally cover sales, distribution and marketing expenses and, therefore, are excluded from adjusted operating revenues. In addition, when calculating adjusted net income and adjusted diluted earnings per share we exclude unrealized investment gains and losses included in investment and other income (losses) because the related investments are generally expected to be held long term.

The calculations of adjusted operating income, adjusted operating margin, adjusted net income and adjusted diluted earnings per share are as follows:

## LIQUIDITY AND CAPITAL RESOURCES

Cash flows were as follows:

<i>(in millions)</i>	Six Months Ended March 31,	
	2026	2025
Operating cash flows	\$ (282.7)	\$ (195.3)
Investing cash flows	(1,675.9)	(1,020.6)
Financing cash flows	1,978.5	380.3

Net cash used in operating activities increased during the six months ended March 31, 2026 primarily due to timing of cash receipts reflected in changes in receivables and lower net income adjusted for non-cash items, partially offset by lower payments for incentive compensation, accounts payable and accrued expenses. Net cash used in investing activities increased primarily due to higher net purchases of investments by collateralized loan obligations (“CLOs”), higher net purchases of investments and cash paid for an acquisition in current year partially offset by net proceeds from the sale of property, plant and equipment. Net cash provided by financing activities increased primarily due to higher net proceeds on debt of CIPs and higher net subscriptions in CIPs by noncontrolling interests.

The assets and liabilities of CIPs attributable to third-party investors do not impact our liquidity and capital resources. We have no right to the CIPs' assets, other than our direct equity investment in them and investment management and other fees earned from them. Certain CIPs utilize revolving credit facilities and other short-term lines of credit to support liquidity, including funding investment activity and managing timing differences associated with investor subscriptions and redemptions. Borrowings under these facilities, to the extent drawn, are generally secured by the assets of the respective CIPs and/or capital commitments from CIP equity investors. These facilities are interest-bearing, typically provided by third-party lenders, and are subject to customary borrowing terms and conditions. The debt holders of the CIPs have no recourse to our assets beyond the level of our direct investment and/or capital commitment, therefore we bear no other risks associated with the CIPs' liabilities. Accordingly, the assets and liabilities of CIPs, other than our direct investments in them, are excluded from the amounts and discussion below.

Our liquid assets and debt consisted of the following:

<i>(in millions)</i>	March 31, 2026	September 30, 2025
<b>Assets</b>		
Cash and cash equivalents	\$ 2,540.3	\$ 3,050.1
Receivables	1,317.7	1,228.6
Investments	1,178.5	1,367.5
<b>Total Liquid Assets</b>	<b>\$ 5,036.5</b>	<b>\$ 5,646.2</b>
<b>Liability</b>		
Debt	\$ 2,253.3	\$ 2,362.0

#### *Liquidity*

Liquid assets consist of cash and cash equivalents, receivables and certain investments. Cash and cash equivalents at March 31, 2026 primarily consist of money market funds and deposits with financial institutions. Liquid investments consist of investments in sponsored and other funds, direct investments in redeemable CIPs, other equity and debt securities, and time deposits with maturities greater than three months.

We utilize a significant portion of our liquid assets to satisfy operational and regulatory requirements and fund capital contributions to sponsored and other products. Certain of our subsidiaries are required by our internal policy or regulation to maintain minimum levels of cash and/or capital, and may be restricted in their ability to transfer cash to their parent companies. Should we require more capital than is available for use, we could elect to reduce the level of discretionary activities, such as share repurchases or investments in sponsored and other products, we could raise capital through debt or equity issuances, or utilize existing or new credit facilities. These alternatives could result in increased interest expense, decreased dividend or interest income, or other dilution to our earnings.

#### *Capital Resources*

We believe that we can meet our present and reasonably foreseeable operating cash needs and future commitments through existing liquid assets, continuing cash flows from operations, amounts available under the credit facility discussed below, the ability to issue debt or equity securities and borrowing capacity under our uncommitted commercial paper private placement program.

In prior fiscal years, we issued senior unsecured unsubordinated notes for general corporate purposes and to redeem outstanding notes. At March 31, 2026, Franklin's outstanding senior notes had an aggregate principal amount due of \$1,200.0 million. The notes have fixed interest rates from 1.600% to 2.950% with interest paid semi-annually and have an aggregate carrying value, inclusive of unamortized discounts and debt issuance costs, of \$1,189.3 million. At March 31, 2026, Legg Mason's outstanding senior note had a principal amount due of \$550.0 million. The note has a fixed interest rate of 5.625% with interest paid semi-annually and had a carrying value, inclusive of unamortized premium, of \$714.0 million at March 31, 2026. Franklin unconditionally and irrevocably guarantees all of the outstanding notes issued by Legg Mason. We repaid the \$450 million 4.750% senior notes due March 2026 using borrowings under our Amended and Restated Credit Agreement (the "Credit Agreement") and existing cash.

The senior notes contain an optional redemption feature that allows us to redeem each series of notes prior to maturity in whole or in part at any time, at a make-whole redemption price. The indentures governing the senior notes contain limitations on our ability and the ability of our subsidiaries to pledge voting stock or profit participating equity interests in our subsidiaries to secure other debt without similarly securing the notes equally and ratably. In addition, the indentures include requirements that must be met if we consolidate or merge with, or sell all of our assets to, another entity.

On December 11, 2025, we entered into a Joinder and Commitment Increase Agreement (the “Joinder Agreement”) which amends the Credit Agreement dated as of April 30, 2025. Pursuant to the Joinder Agreement, the aggregate commitments have increased by \$400.0 million such that the total aggregate commitments under the Credit Agreement are \$1.5 billion. We expect to utilize the Credit Agreement periodically as part of our normal operations.

On January 8, 2026, we borrowed \$150.0 million under the Credit Agreement which was repaid on February 9, 2026. On March 16, 2026, we borrowed \$350.0 million under the Credit Agreement, the proceeds of which were used to repay the 4.750% Senior Notes due March 2026. On April 13, 2026, we borrowed an additional \$50.0 million under the Credit Agreement. The aggregate borrowings of \$400.0 million remain outstanding at the time of this filing. Interest is payable semi-annually on any outstanding amounts and is based on the Term Secured Overnight Financing Rate (“Term SOFR”) plus a credit spread of 87.5 basis points and a Term SOFR adjustment of 10 basis points. The Credit Agreement contains a financial performance covenant requiring that the Company maintain a consolidated net leverage ratio, measured as of the last day of each fiscal quarter, of no greater than 3.25 to 1.00. We were in compliance with all debt covenants at March 31, 2026.

At March 31, 2026, we had \$500.0 million of short-term commercial paper available for issuance under an uncommitted private placement program which has been inactive since 2012 and is unrated.

Our ability to access the capital markets in a timely manner depends on a number of factors, including our credit rating, the condition of the global economy, investors’ willingness to purchase our securities, interest rates, credit spreads and the valuation levels of equity markets. If we are unable to access capital markets in a timely manner, our business could be adversely impacted.

#### *Uses of Capital*

We expect that our main uses of cash will be to invest in and grow our business including through acquisitions, pay stockholder dividends, invest in our products, pay income taxes and expenses of the business, enhance technology infrastructure and business processes, repurchase shares of our common stock, and repay and service debt. While we expect to continue to repurchase shares to offset dilution from stock-based compensation, and expect to continue to repurchase shares opportunistically from time to time, we will likely spend more of our post-dividend free cash flow investing in our business, including seed capital and acquiring resources to help grow our investment groups and operations.

We typically declare cash dividends on a quarterly basis, subject to approval by our Board of Directors. We declared regular dividends of \$0.66 per share during the six months ended March 31, 2026 and \$0.64 per share during the six months ended March 31, 2025. We currently expect to continue paying comparable regular dividends on a quarterly basis to holders of our common stock depending upon earnings and other relevant factors.

We maintain a stock repurchase program to manage our equity capital with the objective of maximizing shareholder value. Our stock repurchase program is effected through open-market purchases and private transactions in accordance with applicable laws and regulations, and is not subject to an expiration date. The size and timing of these purchases will depend on business conditions, price, market and other factors, including the terms of any 10b5-1 stock purchase plan that may be in effect at any given time. During the three and six months ended March 31, 2026, we repurchased 2.3 million and 4.1 million shares of our common stock at a cost of \$57.1 million and \$99.0 million and we repurchased 0.5 million and 0.8 million shares of our common stock at a cost of \$10.0 million and \$15.8 million in the prior year periods. In December 2025, our Board of Directors authorized the repurchase of up to an additional 20.8 million shares of our common stock in either open market or private transactions, for a total of up to 40.0 million shares available for repurchase under the stock repurchase program as of such authorization date. At March 31, 2026, 35.9 million shares remained available for repurchase under this authorization.

On October 1, 2025, we completed the acquisition of Apera Asset Management for cash consideration of €65.2 million net of closing adjustments, funded from existing cash. In addition, we will pay up to €125.0 million in cash through the fifth anniversary of the closing date based on achieving revenue targets.

As part of our acquisition of Putnam, which closed on January 1, 2024, we will pay up to \$375.0 million between the third and seventh anniversaries of the closing date related to revenue growth targets from the strategic partnership with Great-West Lifeco, Inc., which will be recognized in operating income.

While we have no legal or contractual obligation to do so, we routinely make cash investments in the course of launching sponsored funds. The funds that we manage have their own resources available for purposes of providing liquidity to meet shareholder redemptions, including securities that can be sold or provided to investors as in-kind redemptions, and lines of credit. Increased liquidity risks and redemptions have required, and may continue to require, increased cash in the form of loans or other lines of credit to help settle redemptions and for other related purposes. We have in certain instances voluntarily elected to provide the funds with direct or indirect financial support based on our business objectives. We did not provide significant additional financial or other support to our sponsored funds during the six months ended March 31, 2026.

Our cash, cash equivalents and investments portfolio by asset class and accounting classification at March 31, 2026, excluding third-party assets of CIPs, was as follows:

<i>(in millions)</i>	Accounting Classification <sup>1</sup>				Direct Investments in CIPs	Total

<sup>1</sup> See Note 1 – Significant Accounting Policies in the notes to consolidated financial statements in Item 8 of Part II of our Annual Report on Form 10-K for fiscal year 2025 for information on investment accounting classifications.

<sup>2</sup> Total cash and cash equivalents and investments includes \$4,648.6 million maintained for operational activities, including investments in sponsored funds and other products, and \$458.2 million necessary to comply with regulatory requirements.

<sup>3</sup> Total cash and cash equivalents and investments includes approximately \$385 million attributable to employee-owned and other third-party investments made through partnerships which are offset in noncontrolling interests, approximately \$419 million of investments that are subject to long-term repurchase agreements and other net financing arrangements, and approximately \$397 million of cash and investments related to deferred compensation plans.

## **CRITICAL ACCOUNTING POLICIES**

Our consolidated financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. These estimates, judgments and assumptions are affected by our application of accounting policies. Further, concerns about the global economic outlook have adversely affected, and may continue to adversely affect, our business, financial condition and results of operations including the estimates and assumptions made by management. Actual results could differ from the estimates. Described below are the updates to our critical accounting policies disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for fiscal year 2025.

### *Consolidation*

We consolidate our subsidiaries and investment products in which we have a controlling financial interest. We have a controlling financial interest when we own a majority of the voting interest in a voting interest entity or are the primary beneficiary of a variable interest entity ("VIE"). Our VIEs are primarily investment products and our variable interests consist of our equity ownership interests in and investment management fees earned from these products.

### *Business Combinations*

Business combinations are accounted for by recognizing the acquired assets, including separately identifiable intangible assets, and assumed liabilities at their acquisition-date estimated fair values. Any excess of the purchase consideration over the acquisition-date fair values of these identifiable assets and liabilities is recognized as goodwill. Goodwill and indefinite-lived intangible assets are tested for impairment annually and when an event occurs or circumstances change that more likely than not reduce the fair value of the related reporting unit or indefinite-lived intangible asset below its carrying value. Definite-lived intangible assets are tested for impairment quarterly.

Subsequent to the annual impairment tests performed as of August 1, 2025, we monitored both macroeconomic and entity-specific factors, including changes in our AUM to determine whether circumstances have changed that would more likely than not reduce the fair value of the reporting unit below its carrying value or indicate that the other indefinite-lived intangible assets might be impaired. We also monitored fluctuations of our common stock per share price to evaluate our market capitalization relative to the reporting unit as a whole. During the six months ended March 31, 2026, there were no events or circumstances which would indicate that goodwill, indefinite-lived intangible assets or definite-lived intangible assets might be impaired.

While we believe that the assumptions used to estimate fair value in our impairment tests are reasonable and appropriate, future changes in the assumptions could result in recognition of impairment.

### *Fair Value Measurements*

Our investments are primarily recorded at fair value or amounts that approximate fair value on a recurring basis. We use a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based on whether the inputs to those valuation techniques are observable or unobservable.

As of March 31, 2026, Level 3 assets represented 4% of total assets measured at fair value, which primarily related to CIPs' investments in equity and debt securities. There were \$25.6 million of transfers into and \$16.8 million of transfers out of Level 3 during the six months ended March 31, 2026.

## **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

During the six months ended March 31, 2026, there were no material changes from the market risk disclosures in our Form 10-K for the fiscal year ended September 30, 2025.

**Item 4. Controls and Procedures.**

The Company's management evaluated, with the participation of the Company's principal executive and principal financial officers, the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of March 31, 2026. Based on their evaluation, the Company's principal executive and principal financial officers concluded that the Company's disclosure controls and procedures as of March 31, 2026 were designed and are functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Exchange Act is (i) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to management, including the principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the Company's fiscal quarter ended March 31, 2026, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II – OTHER INFORMATION

### Item 1. Legal Proceedings.

For a description of our legal proceedings, please see the description set forth in the “Legal Proceedings” section in Note 10 – Commitments and Contingencies in the notes to consolidated financial statements in Item 1 of Part I of this Form 10-Q, which is incorporated herein by reference.

### Item 1A. Risk Factors.

There were no material changes from the Risk Factors previously disclosed in our last Annual Report on Form 10-K for fiscal year 2025. These Risk Factors could materially and adversely affect our business, financial condition and results of operations, and our business also could be impacted by other risk factors that are not presently known to us or that we currently consider to be immaterial. Further, our disclosure of a risk should not be interpreted to imply that the risk has not already developed or materialized.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table provides information with respect to the shares of our common stock that we repurchased during the three months ended March 31, 2026.

Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 2026	401,937	\$ 23.92	401,937	37,895,370
February 2026	5,340	26.96	5,340	37,890,030
March 2026	1,953,516	24.26	1,953,516	35,936,514
<b>Total</b>	<b>2,360,793</b>		<b>2,360,793</b>	

Under our stock repurchase program, which is not subject to an expiration date, we can repurchase shares of our common stock from time to time in the open market and in private transactions in accordance with applicable laws and regulations, including without limitation applicable federal securities laws. In order to pay taxes due in connection with the vesting of employee and executive officer stock and stock unit awards, we may repurchase shares under our program using a net stock issuance method. In December 2025, our Board of Directors authorized the repurchase of up to an additional 20.8 million shares of our common stock in either open market or private transactions, for a total of up to 40.0 million shares available for repurchase under the stock repurchase program as of such authorization date.

### Item 5. Other Information.

#### Rule 10b5-1 Trading Plans

During the fiscal quarter ended March 31, 2026, no director or officer (as defined in Rule 16a-1(f) under the Exchange Act) of Franklin adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement” as each term is defined in Item 408 of Regulation S-K.

AS ADOPTED PURSUANT TO SECTION 906  
OF THE SARBANES-OXLEY ACT OF 2002 (FURNISHED HEREWITH)**

I, Jennifer M. Johnson, Chief Executive Officer of Franklin Resources, Inc. (the “Company”), certify, as of the date hereof and solely for purposes of and pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to my knowledge:

1. The Quarterly Report on Form 10-Q of the Company for the fiscal quarter ended March 31, 2026 (the “Report”) fully complies with the requirements of Section 13(a) or 15(d), as applicable, of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company at the dates and for the periods indicated.

This Certification has not been, and shall not be deemed, “filed” with the Securities and Exchange Commission.
