Mr. Watson is uniquely qualified to serve as Executive Chairman of the Board due to his extensive knowledge of the Company based on his six years of experience as our CEO and as an executive officer of the Company for over ten years. Mr. Rosgaard, as our new CEO, will have extensive insight into the Company's current opportunities and challenges. Mr. Edwards tenure as director of the Company and his service in a variety of roles as an independent director and business leader of other companies will add valuable insight as the Lead Director. It is the Board's belief that no single organizational model is best or most effective in all circumstances. Therefore, although the Board has determined that this new Board leadership structure will be the most effective for the Company at this time, the Board may implement another structure if deemed to be appropriate in the future.

Our Board has adopted various policies to provide for a strong and independent Board, including the following.

- The majority of the Board must be independent of management and have no material relationship with the Company, either directly or indirectly as a partner, stockholder or officer of an organization that has such a relationship with the Company, and must meet the standards of independence under the applicable rules of the SEC and NYSE listing standards.
- Only independent directors are members of the Compensation, Audit and Nominating Committees.
- Independent/non-management directors meet at least four times each year, and during at least one of those meetings, the non-management directors schedule an executive session that includes only independent directors.

Director Independence

Pursuant to NYSE rules, in order for a director to qualify as “independent,” the Board must affirmatively determine that the director has no material relationship with the Company that would impair the director's independence. The Board has adopted categorical standards to assist it in making its determination of director independence.

The Board has determined that all current directors and director nominees have no material relationship with the Company and, therefore, are independent, except for Messrs. Watson and Rosgaard. Mr. Watson is currently the CEO of the Company. Mr. Rosgaard is currently the Chief Operating Officer of the Company and Mr. Watson's successor as CEO. The Board has determined that Mr. Gunsett is independent because fees for legal services rendered by Baker & Hostetler LLP, where Mr. Gunsett was a partner during two months of fiscal 2021, were not material to the Company or to that firm during fiscal 2021 and the nature of the relationship has been properly disclosed to the Board. Mr. Gunsett retired from Baker & Hostetler LLP in December 2020.

Board's Role in Risk Management Oversight

The Board takes an active role in the oversight of our most significant risks. The Board executes its risk oversight function at the Board level and through delegation to its Board committees. The Board does not view risk in isolation. Risks are considered in virtually every business decision and as part of our business strategy. The Board recognizes it is neither possible nor prudent to eliminate all risk. Purposeful and appropriate risk-taking is essential for us to be competitive and to achieve our long-term strategic objectives.

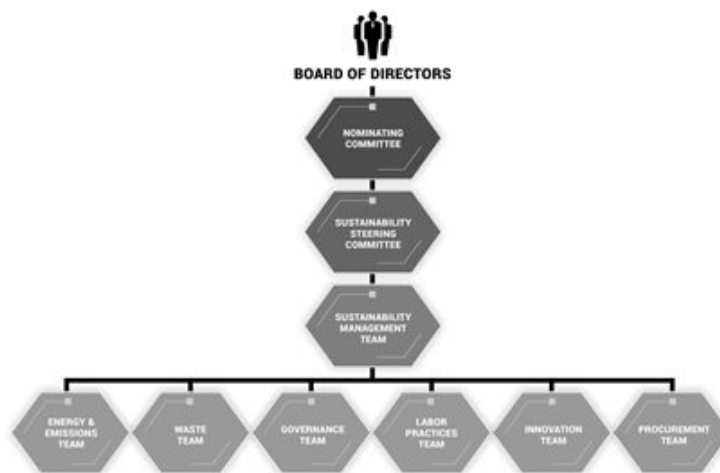

Our Board has been and continues to be engaged with management in the oversight of the impact of COVID-19 on the Company and the Company's actions in response. The Board continues to identify and monitor potential risks and ensure effective oversight.

While the Board and its committees oversee risk management, management is responsible for day-to-day management of the various enterprise risks facing the Company. Management has developed and administers a formal enterprise risk management program that is a Company-wide effort involving both the Board and management. Management's role is to identify, mitigate, guide and review the efforts of our business units with respect to risk, consider whether various risks are acceptable, and approve plans to deal with critical business risks that could prevent achievement of our business goals or plans. The Board receives detailed management reports that assess the material risk to us, including strategic, operational, financial, infrastructure, legal, regulatory and other external risks facing the Company and to ensure that management develops and maintains comprehensive risk management policies and procedures to assess, mitigate and monitor those risks. The risk oversight responsibilities of the Board and its committees are summarized below:

Board of Directors	Audit Committee	Compensation Committee	Nominating Committee
Oversees our risk management processes to support the achievement of our long-term strategic objectives Delegates certain risk management oversight responsibilities to its committees and receives regular reports from each committee	Oversees risks related to financial statements, financial reporting and disclosure process, accounting and legal matters Oversees the internal audit function Oversees the enterprise risk management program and cyber risk exposures Oversees risk related to the integrity of our internal controls process Reviews related party transactions	Oversees the risks related to the design and structure of our compensation and benefits program Reviews incentive compensation arrangements to confirm incentive pay does not encourage unnecessary and excessive risk taking	Oversees risks associated with corporate governance policies and procedures and Board performance Oversees risks associated with Board composition and committee structure Monitors and reviews emergent environmental, social and governance related issues, risks and trends that could affect the Company's business activities and performance

Board's Role in Environmental, Social and Governance Matters Oversight

The Board believes that the pursuit of sustainability efforts is important to our stakeholders and should be one of our strategic priorities. Sustainability efforts are pursued through an environmental, social and governance ("ESG") framework and extend to all levels of our organization in support of our ongoing business strategy. The Board takes an active role in the oversight of ESG matters with the assistance of the Nominating Committee. The Nominating Committee evaluates and reviews the Company's policies, activities and programs related to ESG matters and makes recommendations to the Board. The Nominating Committee also monitors and evaluates emergent ESG related issues, risks and trends that could affect the Company's business activities and performance, and reviews and assesses the Company's progress against relevant external ESG and other sustainability indices and the Company's short-term and long-term ESG goals.

Our Sustainability Steering Committee is tasked with further integrating sustainability into our strategy and operations, reviewing our sustainability progress and priorities quarterly, and ensuring accountability at all levels of our organization. Our Sustainability Steering Committee meets with the leaders of our ESG global teams that comprise the sustainability management team, who on a quarterly basis are responsible for tracking the level of achievement of our global sustainability targets. The steering committee guides the activities of our sustainability management team, which works with topic teams consisting of representatives from each of our business regions and units to drive facility level projects and priorities.

Our long-term sustainability strategies include reducing our emissions to combat climate change, producing innovative products that complement our sustainability efforts, collaborating with customers to help them reduce the impact of their packaging on the environment and to assist them in meeting their decarbonization goals, and expanding our end-of-life solutions and recycling capabilities to contribute further to the growing circular economy. The Company is also actively advancing programs to create an even safer, more diverse, equitable and inclusive workforce setting where all colleagues can grow and thrive.

We published our first sustainability report in 2009 and issued our 12th consecutive sustainability report in April 2021, which was based on our fiscal year performance ending October 31, 2020. The report provides our 2025 sustainability goals and highlights progress and strategies underway to achieve those goals. Our sustainability report is prepared in accordance with the Global Reporting Initiative Standards which includes, Core Option, SASB Application Guidance and fulfills the United Nations Global Compact annual Communication on Progress. We also aligned our climate-related disclosures with recommendations from the Task Force on Climate-related Financial Disclosures. Our 2020 report is available in full at <https://sustainability.greif.com/report-downloads/>.

(1) As an employee of the Company during fiscal 2021, Mr. Watson was not compensated for his services as a director. See "Executive Compensation Tables - Summary Compensation Table" for information on Mr. Watson's compensation as CEO.

(2) Amounts in this column represent the dollar amount recognized for financial statement reporting purposes during fiscal 2021 computed in accordance with Accounting Standards Certification ("ASC") 718 and represents the cash value of the total number of restricted shares of Class A Common Stock awarded to such director during fiscal 2021 under our 2005 Outside Directors Equity Award Plan (2,854 shares per outside director as of the 2021 annual meeting). The amounts reported reflect the closing price of our shares of Class A Common Stock on February 22, 2021 (\$47.29), the day preceding the date on which the shares were granted. For a discussion of the relevant ASC 718 valuation assumptions, see Note 1 of the Notes to the Consolidated Financial Statements included in Item 8 of our Annual Report on Form 10-K for fiscal 2021 (the "2021 Form 10-K").

As of October 31, 2021, each outside director owned 9,468 shares of Class A Common Stock that had been awarded under the above plan that were subject to restrictions on transfer except for Mr. Patterson who owned 2,854 shares. For the aggregate number of restricted and non-restricted shares of Class A and Class B Common Stock beneficially owned by each of the outside directors, see "Security Ownership of Certain Beneficial Owners and Management." No stock options have been awarded to any outside director since 2005 and no stock options are outstanding.

Director Compensation Arrangements

The Compensation Committee is responsible for setting the overall compensation strategy and policies for our outside directors. Directors who also serve as employees for the Company or any of its subsidiaries are not compensated for their service as a director. Directors may also receive additional compensation for performing duties assigned by the Board or its committees that are considered beyond the scope of the ordinary responsibilities of a director or committee member.

In June 2021, the Compensation Committee, working with its compensation consultant, Willis Towers Watson, conducted a director compensation market survey. Based on the market survey information, the Compensation Committee approved changing the per meeting fee structure to an annual retainer fee structure, which became effective for all payments made to directors starting in July 2021. However, if the number of meetings for the Board or any individual committee exceeds eight during the fiscal year, the Compensation Committee will provide equitable compensation for the extra meetings.

Accordingly, during fiscal 2021, compensation to directors was paid under two different fee arrangements as set forth below. The annual cash retainers were paid in equal quarterly installments, as applicable, and the stock award is issued annually at the annual stockholders meeting.

	November 1, 2020 - June 30, 2021		July 1, 2021 - October 31, 2021	
Board of Director Fees	Board Annual Retainer	Stock Award	Board Annual Retainer	Stock Award
Chairman of the Board	\$215,000	\$135,000	\$240,000	\$142,000
All Other Outside Directors	\$75,000	\$135,000	\$100,000	\$142,000
Committee Meeting Fees	Committee Meeting Attendance	Chair Annual Retainer	Committee Annual Retainer	Chair Annual Retainer
Audit	\$1,500	\$15,000	\$10,000	\$20,000
Compensation	\$1,500	\$15,000	\$10,000	\$20,000
Nominating	\$1,250	\$10,000	\$5,000	\$15,000

The Compensation Committee also administers the 2005 Outside Directors Equity Award Plan, which provides annual equity awards to outside directors. Each outside director serving at the time of the 2021 annual meeting of stockholders (held on February 23, 2021) received a number of restricted shares of Class A Common Stock under this plan in an amount equal to approximately \$135,000 divided by the last reported sale price of a share of Class A Common Stock on the NYSE on February 22, 2021 (the last trading day immediately preceding the date of the 2021 annual meeting). None of these shares of Class A Common Stock are subject to any risk of forfeiture; however, such shares are subject to restrictions on transfer for three years. All of such shares are fully vested on the award date with eligibility to participate in the receipt of all dividends declared on our shares of Class A Common Stock.

In addition to the compensation described above, we provide a health and wellness program for our outside directors which includes annual physical exams and we reimburse outside directors for expenses incurred to attend Board and committee meetings. We offer no other perquisites to our outside directors.

Stock Ownership Guidelines for Directors

Each outside director is required to own a minimum of five times his or her annual retainer in shares of Company common stock after five years of service as a director. Restricted shares of Class A Common Stock awarded to an outside director under our 2005 Outside Directors Equity Award Plan and the receipt of which has been deferred at the election of such outside director under the terms of the Directors Deferred Compensation Plan are counted as owned by the deferring outside director for purposes of these stock ownership guidelines. The Board evaluates whether exceptions should be made in the case of any outside director who, due to his or her unique financial circumstances, would incur a hardship by complying with these requirements. All outside directors are currently in compliance with our stock ownership guidelines.

Director Participation in Directors Deferred Compensation Plan

Under the Directors Deferred Compensation Plan, outside directors may elect to defer between 25 and 100 percent of their respective retainer fees, regular fees and meeting fees (including committee fees) as well as restricted stock awards granted under the 2005 Outside Directors Equity Award Plan. Once made, any such elections (including without limitation the percentage of Board fees and/or restricted stock to be deferred) are irrevocable for all such amounts earned during the calendar year for which the election is made. The participants are fully vested in the value of their account, including investment returns, at all times.

The plan is considered an "unfunded" arrangement as amounts generally are not set aside or held by the Company in a trust, escrow, or similar account. Notwithstanding the foregoing, deferrals of restricted stock are held in a "rabbi trust" established by the Company. Deferrals of cash compensation under the plan are credited to a participant's account under the plan as "Phantom Shares." "Phantom Shares" have a value equal to the market value from time to time of shares of our Class A Common Stock. The number of Phantom Shares credited to a participant's account is based on the dollar amount of deferral, divided by the then current per share value of our shares of Class A Common Stock. If a dividend is declared and credited on shares of our Class A Common Stock, the Phantom Shares are credited with a corresponding dividend in the form of additional Phantom Shares within sixty days of that date. Dividends paid on shares of restricted stock held in the rabbi trust are contributed to the rabbi trust and are paid from the rabbi trust to the participants and are not accumulated in the rabbi trust.

Generally, the plan provides that each participant will receive his or her cash deferral account value as retirement benefits under the plan upon termination from Board membership in substantially equal monthly payments over a ten year period, and will receive all restricted stock deferrals in a single distribution on the first day of the second month following a participant's termination from Board membership. However, participants may elect to receive:

- Cash compensation deferrals (credited as Phantom Shares) in a single lump sum payment, annual installments over a five-year period or a series of two payments. Depending on the form of payment elected, a participant may choose a fixed date for distribution or the earlier of a fixed date or such participant's termination of Board membership. If a Participant elects to receive a series of two payments, the participant must specify a fixed date for each payment and must specify the percentage of his or her cash compensation deferral to be paid on each specified date.
- Restricted stock deferrals upon: (a) a fixed date that is at least three years after the date the restricted stock is awarded; or (b) the earlier of (i) a fixed date that is at least three years after the date the restricted stock is awarded, or (ii) the participant's termination from Board membership.

Delinquent Section 16(a) Reports

Section 16(a) of the Securities Exchange Act of 1934 requires our officers and directors, and persons owning more than 10% of a registered class of our equity securities, to file reports of ownership with the Securities and Exchange Commission. Officers, directors and greater than 10% stockholders are required by the Securities and Exchange Commission's regulations to furnish the Company with copies of all Section 16(a) forms they file. Based solely on a review of the copies of such forms furnished to the Company, the Company believes that during fiscal 2020 all Section 16(a) filing requirements applicable to its officers, directors and greater than 10% stockholders were complied with by such persons, except as follows: Messrs. COMPENSATION DISCUSSION AND ANALYSIS

Overview and Introduction

This Compensation Discussion and Analysis ("CD&A") identifies and describes our compensation philosophy and objectives, summarizes our executive compensation program and discusses and reviews compensation decisions with respect to our NEOs for fiscal 2021. This CD&A should be read in conjunction with the compensation related tables that immediately follow this section, as well as with our Annual Report on Form 10-K for fiscal 2021 ("2021 Form 10-K"). For fiscal 2021, our NEOs were:

Name	Title
Peter G. Watson	President and Chief Executive Officer
Lawrence A. Hilsheimer	Executive Vice President, Chief Financial Officer
Ole G. Rosgaard	Chief Operating Officer
Gary R. Martz	Executive Vice President, General Counsel and Secretary
Michael Cronin	Senior Vice President, Enterprise Strategy and Global Sourcing and Supply Chain

Summary of Executive Compensation Governance Practices

To achieve the objectives of our executive compensation program and emphasize our "pay-for-performance" philosophy, the Compensation Committee has continued to employ strong governance practices, including:

We Do	We Don't Do
✓ Significant portion of executive total compensation "at risk"	✗ Hedging or short sales by executive officers or directors
✓ Objective and different metrics for annual and long-term incentives	✗ Repricing of options without stockholder approval
✓ Caps on annual and long-term incentive pay	✗ Significant perquisites
✓ Stock ownership guidelines and holding requirements	✗ Tax gross-ups for perquisites
✓ Incentive compensation recoupment ("clawback") policy	✗ Pledging of Greif stock (requires pre-approval)
✓ Incentive compensation targeted at market and "pay for performance"	✗ Employment contracts or change-in-control arrangements
	✗ Accelerated vesting of equity awards upon retirement

Compensation Committee

The Compensation Committee, whose current members are Mark A. Emkes (Chair), Vicki L. Avril-Groves and Daniel J. Gunsett, has primary oversight for the design and implementation of our executive compensation program. The Compensation Committee also administers our annual cash incentive bonus plan (the "Short-Term Incentive Plan" or "STIP") and our long-term incentive plan, which consists of our Amended and Restated Long-Term Incentive Plan initially approved by stockholders at the 2006 annual meeting, as amended (the "2006 LTIP"), and our 2020 Long-Term Incentive Plan approved by our stockholders at the 2020 annual meeting (the "2020 LTIP," together with the 2006 LTIP, the "Long-Term Incentive Plan" or "LTIP"). The Compensation Committee from time to time delegates to a subcommittee certain responsibilities related to executive compensation. Prior to February 23, 2021, the Compensation Committee used a special subcommittee to administer the STIP and the LTIP so that those plans were administered by "outside directors" as that term is defined in Section 162(m) of the Internal Revenue Code of 1986, as amended. Since that time the Compensation Committee has itself fulfilled all executive compensation duties. For the sake of convenience, references to the administration of the STIP and the LTIP for periods before February 23, 2021 will be to the Compensation Committee.

The Compensation Committee utilizes an independent outside compensation consultant, Willis Towers Watson, to provide it with peer group data and market information. While Willis Towers Watson also provides other services to the Company, the Compensation Committee has determined that Willis Towers Watson is independent because they do not have a conflict of interest that would prevent them from providing objective advice to the Compensation Committee. In determining whether Willis Towers Watson has a conflict of interest that would influence its advice to the Compensation Committee, the Compensation Committee considered, among other matters, the six factors set forth in the applicable SEC regulations issued under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, namely: the other services provided by Willis Towers Watson to the Company; the amount of fees payable by the Company to Willis Towers Watson as a percentage of that firm's total revenues; the policies and procedures maintained by Willis Towers Watson to prevent or mitigate potential conflicts of interest; any business or personal relationship between any member of Willis Towers Watson's executive compensation team serving the Company and any member of the Compensation Committee; any stock of the Company owned by any member of Willis Towers Watson's executive compensation team serving the Company; and any business or personal relationship between any member of Willis Towers Watson's executive compensation team serving the Company and any

executive officer of the Company. The Compensation Committee reviewed information provided by Willis Towers Watson addressing each of these factors. These SEC regulations retain the principle that the Compensation Committee should have the final say in determining the independence and objectivity of its advisors. No single factor was considered by the Compensation Committee as more important than any other factor or automatically disqualified Willis Towers Watson from being objective.

Compensation Philosophy and Objectives

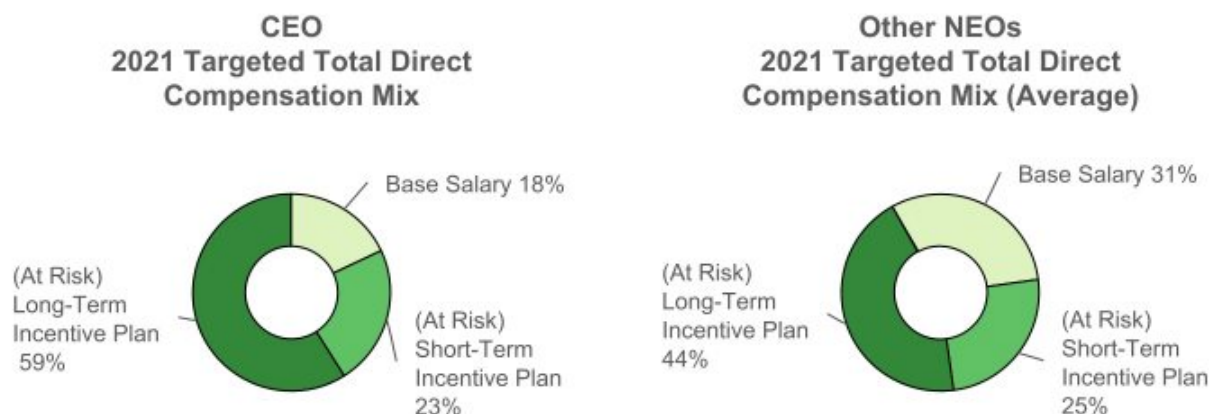

The Compensation Committee's compensation philosophy and objectives are designed to align our executive compensation with achieving business and financial goals that drive long-term stockholder value. To achieve this "pay for performance" philosophy, the Compensation Committee has the following key objectives:

Key Objectives of Our "Pay for Performance" Philosophy	<ul style="list-style-type: none"> ⑩ Attract, recruit and hire talented and outcome driven executives on a local, regional or global basis as needed and appropriately incentivize and reward our current executive officers. • Offer short-term and long-term incentive bonus plans that motivate and incentivize our executive officers by linking compensation to the achievement of targeted financial, business and individual performance goals. • Emphasize at-risk components of an executive compensation program to motivate and incentivize our executive officers to drive stockholder value and align their interests with the interest of our stockholders.
--	--

The Compensation Committee attempts to achieve its policies and philosophies by establishing performance objectives for our executive officers and by linking compensation to financial performance goals, which may include, but are not limited to, targets for earnings before interest, tax and depreciation, depletion and amortization, operating profit before special items, operating working capital as a percent of revenue, and total shareholder return relative to the Russell 2000 Index. The Compensation Committee further believes that a portion of each executive's compensation should be linked to our short-term and long-term performance. In that regard, the Company has the STIP, an annual cash incentive bonus plan that links the annual payment of cash bonuses to the achievement of targeted financial performance goals and an LTIP to link the long-term payment of bonuses to the achievement of targeted financial performance goals. See "- Elements of Our Compensation Program - "Short-Term Incentive Plan" and "Long-Term Incentive Plan." The 2006 LTIP aligns long-term stockholder value with compensation by providing for a portion of the payouts in restricted stock, well as cash. The 2020 LTIP further aligns long-term stockholder value with compensation by including a total shareholder return metric and providing for payouts in restricted stock. The LTIP is also intended to facilitate compliance with our stock ownership guidelines. See "- Elements of Our Compensation Program - Stock Ownership Guidelines" below.

Target Compensation Mix

In determining the award levels for each of the elements in our total compensation program, our philosophy is to "pay for performance". As a result, we place relatively greater emphasis on the variable components of compensation (STIP and LTIP) to align the interests of our executive officers with the interests of our stockholders and motivate them to drive stockholder value. These variable components are balanced with retention incentives provided by base salary and restricted stock awards. The 2020 LTIP provides for even stronger retention incentives for our executive officers through the granting of restricted share units at or near the commencement of each performance period that are subject to a vesting period. We look to the experience and judgment of the Compensation Committee to determine what it believes to be the appropriate target compensation mix for each NEO. As shown in the charts below, incentive components at risk accounted for approximately 82% of the CEO's target compensation and approximately 69% of the other NEOs average target compensation in fiscal 2021.

Risk Assessment

During fiscal 2021, our management and the Compensation Committee, with the assistance of Willis Towers Watson, performed an assessment of the risks associated with our incentive plans and determined that the risks associated with such plans are not reasonably likely to cause a material adverse effect for the Company.

Peer Group Review

The Compensation Committee, working with Willis Towers Watson, periodically, but at least annually, reviews peer group data and market information for comparable positions in our industry related to our executive officers. The Compensation Committee does not establish targets or benchmarks for executive compensation when assessing peer group data, but rather uses peer group data and other market information to confirm that our compensation targets and awards are comparable and competitive. The information provided by Willis Towers Watson is used by the Compensation Committee to provide context for their decision making process, but is not used to determine or recommend the amount or form of compensation paid to our executive officers, including our NEOs.

The Compensation Committee, working with its compensation consultant, periodically, but at least annually, also reviews our peer group composition. The selection of peer group companies by the Compensation Committee is based on the nature, composition, geographic scope, complexity and key financial data of potential peer companies in the packaging, paper, manufacturing and industrial businesses. For fiscal 2021, the Company's peer group remained the same and consisted of the companies listed below.

Aptargroup, Inc.	Domtar Corporation	Sealed Air Corporation
Ashland Global Holdings, Inc.	Fastenal Company	Silgan Holdings, Inc.
Avery Dennison Corporation	Graphic Packaging Holding Company	Sonoco Products Company
Berry Global Group, Inc.	Owens Corning	The Timken Company
Celanese Corporation	Owens-Illinois, Inc.	Universal Forest Products Inc.
Cornerstone Building Brands, Inc.	Packaging Corporation of America	Valmont Industries, Inc.
Crown Holdings, Inc.	Patrick Industries, Inc.	

Elements of Our Compensation Program

During fiscal 2021, the key elements of our compensation package were:

Base salary

Annual performance-based incentive cash bonus under our STIP

Long-term performance-based incentive cash bonus and restricted stock awards under our LTIP

Retirement benefits under our pension, 401(k), supplemental executive retirement and supplemental deferred compensation plans

Opportunity for deferral of compensation under our deferred compensation plan

The Compensation Committee reviews tally sheets for each NEO prepared by the compensation consultant. The purpose of the tally sheets information is to bring together, in one place, all the elements of compensation for our NEOs to assist the Compensation Committee with making compensation decisions for the next calendar year. These tally sheets typically contain the following information: current base salary; STIP payments for the preceding two fiscal years, and the anticipated payment for the fiscal year just ended; LTIP payments for the preceding two fiscal years, and the anticipated payment to be made for the three-year period just ended; the current value of the applicable supplemental executive retirement or supplemental deferred compensation plans; and the value of our perquisites. See "- Retirement and Deferred Compensation Plans - Supplemental Executive Retirement Plans" for a description of these plans.

The Compensation Committee's final compensation determination regarding one element of compensation is independent of all other elements of compensation and does not affect decisions regarding those other elements of compensation, other than to the extent that awards under the STIP and the LTIP are calculated by using a percentage of base salary.

Base Salary

Base salaries are primarily designed to provide competitive levels of compensation that attract and retain our executive officers. When determining base salaries for each NEO, the Compensation Committee considers their qualifications, experience, the scope of responsibilities, individual performance and contributions towards our success. Base salaries, which become effective the first pay period of the calendar year, are reviewed annually and are individually determined and may range broadly among our executive officers. The Compensation Committee does not target specific market data for base salaries, but rather compares the compensation levels of other executive officers with equivalent responsibility within our peer group companies and competitive market data to confirm that our base salaries are competitive within the market and with the compensation levels of other executive officers within the Company for internal fairness purposes.

In December 2021, the Compensation Committee approved the following base salaries for the NEOs for calendar year 2022. See “2021 Performance Reviews of CEO and Other NEOs” below for a discussion of the factors considered by the Compensation Committee in its decision to increase the 2022 base salaries, and the amount thereof, for each NEO.

NEOs	2021 Base Salary	2022 Base Salary	Percentage Change

- (3) Mr. Cronin's base salary is paid in Euros and has been converted to U.S. Dollars using an exchange rate of 1.1745 and 1.160564 for calendar years 2021 and 2022, respectively.

Short-Term Incentive Plan

The STIP is designed to motivate executive officers and reward achievement of specific and objective performance goals that are linked to the profitability of the Company.

In administering the STIP, the Compensation Committee establishes performance goals, target amounts, and award opportunities at the beginning of each performance period for each executive officer selected to participate by the Compensation Committee, including our NEOs. The target award is based on a percentage of the executive officer's base salary (exclusive of any bonus and other benefits) and is payable in cash upon the achievement of the threshold performance level and capped by the maximum performance level. Under the STIP, each NEO can be awarded anywhere from 0% to a maximum of 200% of the NEO's respective target incentive award, with 100% as payout for achieving the target performance level. After the end of the performance period, the Compensation Committee certifies the extent to which the performance goals have been achieved and determines the amount of the award that is payable.

No incentive bonus is paid with respect to an applicable metric if the performance calculation for that metric is below the threshold established for that specific performance period. No additional incentive bonus is paid beyond the established applicable maximum metric calculation with respect to each applicable metric for each performance period. The Compensation committee establishes the threshold number as being realistic and the maximum as being aggressive for each performance period. Under the STIP, the maximum payment that could be paid to any participant during any twelve-month period is \$3.0 million.

For fiscal 2021 and 2020, the STIP financial performance goals were based upon the metrics of operating profit before special items (“OPBSI”) and operating working capital (“OWC”), subject to such adjustments as the Compensation Committee determines to be necessary to accurately reflect the OPBSI and OWC of the Company as of the award date. The OWC metric is measured as a percentage of revenues and is calculated by averaging the number calculated as a trailing twelve month average for each of the previous twelve months. The OPBSI and OWC metrics are weighted 80% and 20%, respectively. The Compensation Committee selected those performance metrics in order to take into consideration the dynamics of the market environment to better align the interests of our executive officers with those of our stockholders and to improve cash generation and the Company's use of working capital. The STIP performance goal achievement threshold was 50% of the target award for the 2021 performance period. For fiscal 2019, the STIP performance metrics were OPBSI and modified free simple cash flow, weighted 80% and 20%, respectively.

In December 2020, the Compensation Committee established performance goals for the fiscal 2021 STIP. The table below summarizes these fiscal 2021 STIP performance goals. For fiscal 2021, OPBSI of \$530.4 million and OWC of 10.5% were achieved resulting in an aggregate payout to the NEOs of 200% of the target award.

Fiscal 2021 STIP Performance Metrics	Threshold (50% Payout)	Target (100% Payout)	Maximum (200% Payout)	Actual Performance	Actual Percentage Payout ⁽¹⁾
80% OPBSI	\$359.0 million	\$428.6 million	\$497.1 million	\$530.4 million	200%
20% OWC	12.4%	11.8%	11.1%	10.5%	200%

- (1) Prorated for performance between payout levels.

The table below summarizes the fiscal 2022 STIP performance goals established by the Compensation Committee in December 2021 based on its evaluation of our business plan and prospects for the next fiscal year. For fiscal 2022, the Committee will continue to use the same STIP performance goal metrics used in fiscal 2020 and 2021.

Fiscal 2022 STIP Performance Metrics	Threshold (50% Payout)	Target (100% Payout)	Maximum (200% Payout)
80% OPBSI	\$484.1 million	\$576.4 million	\$668.6 million
20% OWC	11.6%	11.0%	10.4%

Each year, the Compensation Committee reviews the STIP target awards for each NEO based on its judgment of the impact of the position in the Company and what it believes to be competitive against market data while considering internal pay equity for comparable positions. The fiscal 2021 target award opportunities were, and the 2022 target award opportunity for each NEO, are as follows:

NEOs	Fiscal 2021 STIP Target Award Opportunity (% of Base Salary)	(%)	Fiscal 2022 STIP Target Award Opportunity (% of Base Salary)	(%)
Mr. Watson ⁽¹⁾	125%	\$1,362,500	125%	\$1,362,500
Mr. Hilsheimer	95%	\$716,743	95%	\$746,129
Mr. Rosgaard ⁽²⁾	80%	\$475,200	80%	\$520,000
Mr. Martz	80%	\$504,062	80%	\$524,729
Mr. Cronin ⁽³⁾	65%	\$395,304	65%	\$390,614

- (1) Mr. Watson's fiscal 2022 target award opportunity represents his target from November 1, 2020 through January 31, 2022. Effective February 1, 2022, Mr. Watson will become Executive Chairman of the Board of the Company and his 2022 award opportunity will become \$818,000, 100% of his base salary.
- (2) Mr. Rosgaard's target award opportunity amount was increased to \$520,000 as a result of his promotion to Chief Operating Officer. Mr. Rosgaard's fiscal 2022 target award opportunity represents his target from November 1, 2020 through January 31, 2022. Effective February 1, 2022, Mr. Rosgaard will become CEO of the Company and his 2022 award opportunity will become \$900,000, 100% of his base salary.
- (3) Mr. Cronin's compensation is paid in Euros and has been converted to U.S. Dollars using an exchange rate of 1.1745 and 1.160564 for fiscal 2021 and 2022, respectively.

Long-Term Incentive Plan

The LTIP is intended to focus our executive officers on the key measures that drive superior performance over the longer-term. The Compensation Committee administers the LTIP and designates "executive officers" and "key employees" to participate in and receive awards under the LTIP. For each three-year performance period, which period commences on the first day of the first fiscal year for that performance period, the Compensation Committee selects the award opportunity for all executive officers and key employees, including each of our NEOs. The LTIP award opportunity is based on the Compensation Committee's reasoned business judgment and subjective review of, based in part on the recommendation of our CEO, the key employee's scope of responsibility and historical performance.

In December 2018, the Compensation Committee established the following LTIP target award opportunity for each NEO for fiscal 2021.

NEOs	LTIP Target Award Opportunity for 2019-2021 Performance Period (% of Average Base Salary)	(%)
Mr. Watson	350%	\$3,739,167
Mr. Hilsheimer	210%	\$1,542,475
Mr. Rosgaard	135%	\$754,997
Mr. Martz	170%	\$1,042,803
Mr. Cronin ⁽¹⁾	125%	\$725,264

- (1) Mr. Cronin's compensation is paid in Euros and has been converted to U.S. Dollars using an exchange rate of 1.148446.

For the three-year performance period ending in fiscal 2021, the performance goal was based on targeted levels of earnings before interest, taxes, depreciation, depletion and amortization ("EBITDA"), subject to such adjustments that the Compensation Committee determines to be necessary to reflect accurately the EBITDA of the Company for the applicable period. This measure was chosen because the Compensation Committee believed that it was the financial measure most aligned with maximizing stockholder value. For this performance period, awards to participants are to be paid under the 2006 LTIP. Therefore, the awards are to be paid 50% in cash and 50% in restricted shares of our Class A and/or Class B Common Stock, as determined by the Compensation Committee, with the number of restricted shares awarded being based on the average closing price of such restricted shares during the 90-day period preceding the day that the performance criteria for the 2019-2021 performance period was established. The Compensation Committee determined at that time, that awarding restricted shares in lieu of cash better aligns the interests of the NEOs and other key employees with the interests of our stockholders and facilitates compliance with the stock ownership guidelines by participants. See "– Stock Ownership Guidelines" below. All restricted stock issued pursuant to the 2006 LTIP is fully vested on the date of issuance, with a restriction on the sale or transfer of the restricted shares within a prescribed time period determined by the Compensation Committee (typically one year and one day from the date of issuance) that is not impacted in any way upon a change in control of the Company. This is the last year awards will be paid under the 2006 LTIP.

As a result of the approval by stockholders of the 2020 LTIP, for each of the three-year performance periods ending in fiscal 2022, 2023 and 2024, the Compensation Committee modified the construct of the Company's long-term incentives in order to pay awards solely in restricted shares of our Class A and/or Class B Common Stock, as determined the Compensation Committee, except in select countries where impediments exist related to the issuance of our stock. For each of these performance periods, awards to participants are made under the 2020 LTIP and are based on a target percentage of the NEOs base salary (exclusive of any bonus and other benefits) and paid in a combination of restricted stock units ("RSUs") and performance stock units ("PSUs") in a ratio determined by the Compensation Committee (for the three-year performance periods ending in fiscal 2022 and 2023, the ratio is 30% RSU/ 70% PSU for Mr. Watson and 40% RSU/ 60% PSU for the other NEOs). The number of RSUs and PSUs are determined using the average closing price of the restricted shares during the 30 and 90 day periods preceding the day that the performance criteria for the applicable three-year performance period was approved by the Compensation Committee (for fiscal 2022, 2023, and 2024), respectively. RSUs are issued at or near the commencement of each performance period. The RSUs granted are time-based and vest approximately three-years after they are granted. RSUs possess dividend equivalent rights, however, no dividend-equivalents will be paid until the underlying RSUs have vested. RSUs do not have voting rights until the units are converted into shares. The number of PSUs ultimately awarded will be determined on the achievement of performance goals that will continue to be based on targeted levels of EBITDA, along with a relative total shareholder return ("TSR") modifier range of +/-20% against the Russell 2000 Index during the performance period to further align performance with stockholder value. Unvested RSUs and PSUs are forfeited upon termination of employment, except in the case of death, disability or retirement in which case the RSUs and PSUs will be reduced on a pro rata basis as provided by the 2020 LTIP to reflect participation prior to termination.

The Compensation Committee established a range of performance goals that, if achieved, will result in an incentive award payment under the 2006 LTIP or of PSUs only, under the 2020 LTIP, respectively, that starts at the threshold performance level and is capped at the maximum performance level. Under the LTIP, our NEOs can be awarded anywhere from 0% to a maximum of 200% of the target incentive award with 100% being the payout for achieving the target performance level. For each three-year performance period, the Compensation Committee establishes the target incentive award for each participant. Under the 2006 LTIP, the target incentive award is based on a percentage of that participant's average base salary during the three-year performance period, and under the 2020 LTIP, the target incentive award is based on the starting base salary at the beginning of the three-year performance period. The Compensation Committee also establishes a threshold level performance goal, below which no awards are paid to any participant. For the three-year performance periods ending in fiscal years 2021, 2022, 2023 and 2024, this threshold level is 33% of the target award.

The following table summarizes the principal design elements for the 2019-2021 performance period and the three-year overlapping performance periods currently in cycle.

Performance Metrics	EBITDA	EBITDA with a TSR Modifier (+/-20%)		
Award Opportunity	50% Cash	CEO: 30% RSUs / 70% PSUs		
	50% Restricted Stock	Other NEOs: 40% RSUs / 60% PSUs		
Determination of Payout*	Payout award at end of performance period based upon the percentage of performance metrics achieved	RSUs = three-year vesting requirement		
		PSUs = awarded based upon the percentage of performance metrics achieved		

(*) If the NEO is not employed by the Company on the vesting date, the awards are forfeited except in the case of death, disability or retirement in which case the RSUs and PSUs will be reduced on a pro rata basis as provided in the 2020 LTIP.

The Compensation Committee establishes a threshold number that is realistic to achieve and sets a maximum threshold number that is difficult to achieve for the applicable performance period. After the performance goals are established, the Compensation Committee aligns the achievement of the performance goals with the award opportunities, such that the level of achievement of the pre-established performance goals at the end of the performance period determines the "final awards" (i.e., the actual incentive compensation earned during the performance period by the participant).

For fiscal 2021, NEOs were eligible to receive a 2006 LTIP award payout based on performance targets set in December 2018 covering the fiscal 2019-2021 LTIP performance period. In December 2021, the Compensation Committee reviewed the Company's EBITDA for the 2019-2021 performance period and determined that the 33% threshold level of the target award was not achieved for this performance period. However, the Compensation Committee noted that the Company had achieved targeted performance levels of EBITDA for the 2019 and 2021 fiscal years and that it was solely the 2020 fiscal year, during which time the COVID-19 pandemic started, which caused the Company not to achieve the threshold level of the target award. The Compensation Committee recognized the pandemic as an extremely rare and extraordinary event that broadly and negatively impacted businesses and economies on a global scale. The Compensation Committee acknowledged that management took prompt, decisive action that enabled the Company to operate through the initial phases of the pandemic which occurred during the 2020 fiscal year. If not for these actions, the Compensation Committee concluded that the adverse impact of COVID-19 on the Company's stakeholders would have been much worse. Accordingly, the Compensation Committee, after considering the factors described above, used its discretion and determined

that a payout of 40% was earned based on the EBITDA for the 2019-2021 performance period as shown in the table below. See “Executive Compensation - Summary Compensation Table” for the amount of the award to the NEOs under the LTIP for fiscal 2021.

2019-2021 LTIP Performance Goals	Threshold (33% Payout)	Target (100% Payout)	Maximum (200% Payout)	Actual Performance	Actual % Payout ⁽¹⁾
100% EBITDA	\$2,172.6 million	\$2,321 million	\$2,469.4 million	\$2,188.1 million	40%

(1) Prorated for performance between payout levels.

In December 2021, the Compensation Committee established performance goals and award levels for the 2022-2024 performance period commencing November 1, 2021 and ending October 31, 2024. The table below sets forth the number of RSUs granted to each NEO by the Compensation Committee (subject to vesting requirements).

LTIP RSU Award for 2022-2024 Performance Period	
NEOs	Number of RSUs
Mr. Watson	9,909
Mr. Hilsheimer	10,941
Mr. Rosgaard	15,332
Mr. Martz	7,350
Mr. Cronin ⁽¹⁾	4,438

(1) Mr. Cronin's RSU award is determined from his base salary, which is paid in Euros and has been converted to U.S. Dollars using an exchange rate of 1.131926.

2022-2024 LTIP Performance Goals - Confidentiality - The EBITDA performance goals established by the Compensation Committee for the three-year periods ending in fiscal year 2022, 2023 and 2024, are not included in this CD&A section because we believe that disclosure of this information would cause us substantial competitive harm. In the global industrial packaging segment of our business, which accounts for approximately sixty percent of our revenues, our competitors are mostly privately-held companies that generally do not disclose their financial information, executive salaries and other key information to the public, and thus our detailed disclosure of targeted EBITDA would give a competitive advantage to our competitors. Although we provide earnings guidance to investors, we attempt to incentivize our executive officers and key employees at levels above and below this guidance at a higher or lower percentage of their annual base salaries and the public disclosure of such levels could create confusion with investors. In addition, the public disclosure of our EBITDA metrics under the LTIP would cause substantial competitive harm because, among other matters, we would be disclosing to our competitors our anticipated level of earnings for the next three years, which could provide significant insight into our corporate initiatives and activities, including merger and acquisition activities and other growth plans.

For purposes of illustration and to provide context to our stockholders regarding the difficulty our NEOs face in achieving the performance targets under the LTIP, the percent of the target goal achieved for each performance target for each of the three-year periods ending in the last eight fiscal years is set forth below:

* Under the LTIP the target payout is 100% (threshold = 33% and maximum = 200%)

Stock Ownership Guidelines

The Board of Directors has adopted stock ownership guidelines to better align the interests of our executive officers and key employees with the interests of our stockholders. In furtherance of our commitment to sound corporate governance, our executive officers and key employees are required to hold shares of Company stock valued at the following multiple of their annual base salary:

Position	Ownership Level
CEO	5X Base Salary
Executive Officers (other than CEO)	3X Base Salary
Key Employees	1X Base Salary

Our executive officers and key employees have five years after initial participation in the LTIP, or the attainment of a position that requires a higher threshold, as the case may be, to meet these stock ownership guidelines. Our executive officers and key employees are generally required to retain 100% of the shares under the LTIP until they have satisfied the stock ownership threshold associated with their position. Once in compliance with the stock ownership guidelines associated with their position, executive officers and key employees will remain in compliance with these guidelines regardless of decreases in the trading price of our shares, changes to their base salary or immaterial dispositions of shares, until attainment of a position requiring a higher threshold, in which case the five-year compliance period starts again.

The Compensation Committee annually reviews compliance by our executive officers and key employees with these stock ownership guidelines. The Compensation Committee has determined that each NEO is in compliance with the stock ownership guidelines or within the five-year compliance period associated with their position. Failure to satisfy the requirements of the guidelines may impact participation by an executive officer or key employee in the LTIP in future years, among other matters.

Retirement and Deferred Compensation Plans

The Company offers a number of retirement and deferred compensation plans. Due to the varying tenure of our NEOs and the transition of certain of our retirement plans, our NEOs participate in different program based on geographic location and hire date. The table below indicates the retirement benefits applicable to each NEO in fiscal 2021.

Name	Defined Benefits		Defined Contribution			
	Qualified	Nonqualified	Qualified	Nonqualified		
	Pension Plan	SERP	401(k)	DC SERP	NQSP	NQDCP
Mr. Watson	✓	✓	✓			
Mr. Hilsheimer			✓*	✓		
Mr. Rosgaard			✓*		✓	✓
Mr. Martz	✓	✓	✓			
Mr. Cronin	✓**					

* Participant receives a retirement benefit contribution into their 401(k) account equal to 3% of participant's eligible compensation subject to IRS limitations since participant is not eligible to participate in the U.S. Pension Plan. See footnote 5 to the Summary Compensation table for further details.

** Participant participates in pension plans sponsored by a subsidiary of the Company in the Netherlands.

Pension Plans

We have a tax-qualified defined benefit plan that is intended to meet the requirements of Section 401(a) of the Code. This pension plan is designed to provide benefits to those U.S. employees hired prior to November 1, 2007 who have long and continuous service before retirement. Messrs. Watson and Martz are the only NEOs eligible to participate in this pension plan, and both are fully vested in their benefits under this pension plan. Messrs. Hilsheimer and Rosgaard are not eligible to participate in this pension plan.

Mr. Cronin participates in pension plans sponsored by a subsidiary of the Company in the Netherlands, and he is fully vested in his benefits under these pension plans. See "Executive Compensation Tables - Pension Benefits - Pension Plans" for additional information regarding our pension plans.

Supplemental Executive Retirement Plans

We have a defined benefit Supplemental Executive Retirement Plan ("SERP") that provides benefits for a select group of executive officers, including our NEOs who participate in the pension plan described above. Under the SERP, we accrue an amount equal to a specified percentage of the executive officer's annual compensation. "Compensation" for purposes of the SERP includes base salary and payments under the STIP. This account is also credited annually with interest based on the discount rate used under the U.S. pension plan. Vesting under the SERP requires 10 years of service or the attainment of age 65. Vested executive officers are entitled to the payment of a future benefit upon retirement equal to the accrued amounts and credited interest, which is payable in equal

installments quarterly over 15 years. Messrs. Watson and Martz are the only NEOs eligible to participate in the SERP, and both are fully vested in their benefits under the SERP. See "Executive Compensation Tables - Pension Benefits - Supplemental Executive Retirement Plans" for additional information regarding our SERP.

Executive officers, including our NEOs who are not eligible to participate in the pension plan may participate in the Defined Contribution Supplemental Executive Retirement Plan ("DC SERP"). Under the DC SERP, we accrue an amount equal to a specified percentage of the executive officer's annual compensation. "Compensation" for purposes of the DC SERP includes base salary and payments under the STIP. This account is also credited annually with interest based on the discount rate used under the U.S pension plan. Vesting under the DC SERP requires 10 years of service or the attainment of age 65. Vested executive officers are entitled to the payment of a future benefit upon retirement equal to the accrued amounts and credited interest, which is payable in equal installments quarterly over 15 years. Mr. Hilsheimer is the only NEO currently participating in the DC SERP, but he is not vested in his benefits under the DC SERP.

Defined Contribution/401(k) Plan

We maintain a tax-qualified defined contribution plan that is intended to meet the requirements of Section 401(k) of the Code, commonly called a 401(k) plan. The 401(k) plan is available on the same terms to substantially all of our U.S. employees, including our U.S.-based NEOs. Each participant can elect to contribute from 0% to 100% of his or her eligible earnings to the 401(k) plan, subject to Internal Revenue Service ("IRS") and ERISA limitations. The deferred amount is invested in accordance with the election of the participant in a variety of investment choices, including a Company stock fund. Subject to certain limitations, we have the option to match a participant's contributions to the 401(k) plan, and we currently do match a percentage of a participant's 401(k) contributions. U.S. employees not eligible to participate in the U.S. pension plan are entitled to a company retirement contribution of 3% of the employee's eligible earnings subject to IRS limitations. A participant is fully vested in his or her own salary reduction contributions, but the right to company contributions is subject to vesting as provided by the 401(k) plan. All NEOs other than Mr. Cronin receive company-matching contributions. The only NEOs currently receiving company retirement contributions are Messrs. Hilsheimer and Rosgaard.

Nonqualified Supplemental Deferred Compensation Plan

We have a nonqualified supplemental deferred compensation plan ("NQSP") for certain executive officers who do not participate in the SERP or DC SERP described above. This plan credits eligible officers who are employed on December 31 of each calendar year with a contribution equal to the maximum employer contribution rate under the Company's 401(k) Plan, multiplied by the excess, if any, of the sum of the officer's base salary and annual short-term incentive plan bonus payments, over the maximum compensation limit under Code Section 401(a)(17) for the applicable year. This plan also permits discretionary Company contributions, which may vary by eligible officer. The Company does not presently intend to make any discretionary contributions. The plan is compliant with the regulations promulgated by the IRS under Code Section 409A. We distribute the vested deferred balance upon retirement, termination from employment, death or disability based on a schedule selected by the officer. Mr. Rosgaard is the only NEO currently participating in the NQSP.

Nonqualified Deferred Compensation Plan

We have a Nonqualified Deferred Compensation Plan ("NQDCP") for our executive officers, including our NEOs, which provides a vehicle for our executive officers to elect to defer their compensation. This plan is intended to meet the requirements of Section 409A of the Code. Mr. Rosgaard is the only NEO that has elected and is currently deferring compensation under this plan. See "Executive Compensation Tables - Pension Benefits - Nonqualified Deferred Compensation - Nonqualified Deferred Compensation Plan" for additional information regarding our NQDCP.

Perquisites

In addition to the compensation described above, we provide a health and wellness program for our executive officers, including our NEOs, which includes annual physical exams. Mr. Hilsheimer also received a one-time tax preparation services fee reimbursement in fiscal 2021 related to the technical 409A violation that occurred in fiscal 2020 with respect to his Nonqualified Deferred Compensation Plan account. We offer no other perquisites to our U.S.-based NEOs. Mr. Cronin, who is based in Europe, is provided in accordance with customary local practice, a pension contribution gap payment, housing allowance and tax preparation services fee reimbursement. See Footnote (5) to the "Summary Compensation Table" for information concerning these perquisites.

"Say-on-Pay" Advisory Votes

At our 2017 annual meeting of stockholders, the holders of Class B Common Stock approved a three-year frequency period for holding advisory votes on executive compensation of our NEOs. At our 2020 annual meeting of stockholders, the holders of Class B Common Stock approved, on an advisory basis, the executive compensation to our NEOs (by an affirmative vote in excess of 99% of shares voted) as disclosed in the CD&A section and compensation tables, as well as the other narrative executive compensation disclosures in the 2020 proxy statement. The next stockholder advisory vote on the frequency period of such votes and an advisory vote on executive compensation of our NEOs will be held next year during our 2023 annual meeting of stockholders. The Compensation Committee will continue to review the design of our executive compensation program, particularly in light of our "say-on-pay" votes, executive

compensation developments and our pay-for-performance philosophy, to align the executive compensation program consistent with the interests of our stockholders.

Recoupment Policy

Our Board has adopted a recoupment policy, or clawback policy, which generally provides for the recoupment by the Company of certain incentive based compensation payments and awards paid to certain current or former officers of the Company. Under this policy, in the event that we are required to prepare an accounting restatement of our financial statements due to a material noncompliance with any financial reporting requirements, the Compensation Committee (as the administrator of the recoupment policy) may require recoupment, repayment and/or forfeiture of all or any portion of any incentive compensation paid that exceeds the amount an officer would have received had the incentive compensation paid or awarded been calculated based on our restated financial statements, as determined by the Compensation Committee in its discretion.

2021 Performance Reviews of CEO and Other NEOs

The Compensation Committee reviews the performance of our CEO and other NEOs based upon certain pre-established performance categories approved by the Compensation Committee. The performance categories were determined by the Compensation Committee to be aligned with our compensation philosophy and objectives. These categories are as follows:

- 1. Financial Performance Results**
 - 2. Strategic Effectiveness and Innovation**
 - 3. Business Management**
 - 4. Talent Management**
 - 5. Personal Effectiveness**
 - 6. Board Relations (CEO only)**
-

In reviewing Mr. Watson's performance as CEO for fiscal 2021, the Compensation Committee solicited written comments from all members of the Board of Directors based on the above six categories using the following criteria: exceeds expectations; meets expectations; and needs improvement. The Compensation Committee compiled the written comments. In evaluating fiscal 2021 performance of Mr. Watson with respect to each of the categories of his compensation, the Compensation Committee specifically discussed and recognized the following factors of Mr. Watson's performance during the year:

- His strong leadership and crisis management skills united the Company in the face of a challenging labor market, disruptive supply chain and transportation environment, as well as his continued intense focus on employee safety through the COVID-19 pandemic;
- His continued commitment on serving the needs of our customers, employees and suppliers to mitigate the impact of the supply chain disruption and continuing to supply high quality products and exceptional customer service, which will place the Company in a good position for continued growth;
- His leadership and focus on improving the Company's liquidity and accelerated debt repayment through a number of incremental actions, including the sale of a large holding of timberland and refinancing of the Euro Senior Notes resulting in a cash preservation and generation for the Company; and
- His directed efforts and leadership have positioned the Company, in spite of the on-going supply chain disruption, labor shortages and inflationary market to remain focused on controlling the controllable aspects of the Company's business.

Our CEO, Mr. Watson, reviews the performance of each NEO (other than himself) annually based on the first five performance categories set forth above using three criteria - exceeds expectations; meets expectations; and needs improvement - as well as using other subjective assessments of performance. After completing his performance review, Mr. Watson reports his subjective determinations and recommendations to the Compensation Committee. No single factor is given specific relative weight by Mr. Watson, or the Compensation Committee, but all of the factors are considered in the aggregate in their collective experience and reasoned business judgment. The Compensation Committee then considers any proposed adjustments, to the base salary, STIP and LTIP compensation, and award opportunities for those NEOs and determine whether these compensation components are at appropriate levels in light of the salaries and bonuses of other executive officers in equivalent roles in our peer group and market data provided by Willis Towers Watson.

Mr. Watson noted the following factors for the performance of each of the NEOs during the prior fiscal year:

- **Mr. Hilsheimer** - His continued guidance in delivering results despite the challenges with supply chain disruptions and severe cost inflation, with a focus on managing operating working capital and executing on our capital allocation strategies to enable accelerated debt repayment to the Company's targeted leverage ratio which will enable future strategic growth, and his efforts of successfully refinancing the Euro Senior Notes with a beneficial interest rate to the Company.
- **Mr. Rosgaard** - His diligent efforts in leading the Global Industrial Packaging business through a challenging and disruptive supply chain market, along with severe cost inflation and a tight labor market; and aligning the Company's global business operations with a "One Greif" approach to drive safety, colleague engagement and excellent customer service to create value for stockholders, and his focus and preparation for his new role as Chief Executive Officer in fiscal 2022.
- **Mr. Martz** - His continued leadership of the legal department and ability to navigate the continuously changing legal, safety and global compliance obligations resulting from COVID-19 and effectively leading the real estate department in support of the Company's network optimization efforts and successful sale of a large holding of timberlands with the proceeds applied to debt repayment, and his leadership and guidance in driving a culture of servant leadership and customer service.
- **Mr. Cronin** - His focus and achievement in successfully maintaining continuity of supply within the global sourcing and supply chain function in the face of challenging global supply chain disruptions and severe cost inflation, and his continued leadership and guidance on developing an enterprise strategy.

- (1) The amounts of base salary for fiscal 2019, 2020 and 2021 reflect actual amounts paid to the respective NEO for each fiscal year ended October 31. As discussed in "Compensation Discussion and Analysis - Elements of Our Compensation Program - Base Salary" above, we implement base salary increases on a calendar year rather than a fiscal year basis.
- (2) Amounts represent the restricted share portion of the 2006 LTIP awards, as described below (see footnote 3 below) and as discussed in the "Compensation Discussion and Analysis - Long-Term Incentive Plan" above, based upon the dollar amount recognized for financial statement reporting purposes during fiscal 2021, 2020, and 2019, respectively, computed in accordance with Accounting Standards Certification ("ASC") 718. For a discussion of the relevant ASC 718 valuation assumptions, see Note 1 in the Consolidated Financial Statements included in Item 8 of the 2021 Form 10-K. For fiscal 2021, 2020 and 2019, LTIP award payout amounts in this table for fiscal 2021 and not for other purposes were determined by multiplying the closing price of our shares of Class A Common Stock on December 13, 2021 (\$59.60), December 31, 2020 (\$46.88), and December 31, 2019 (\$44.20), respectively, by the number of shares granted or to be granted.
- (3) Amounts represent the cash awards earned under the STIP and 2006 LTIP. See "Compensation Discussion and Analysis - Elements of Our Compensation Program - Short-Term Incentive Plan" and "- Long-Term Incentive Plan." The cash awards earned under the STIP and LTIP for fiscal 2021, 2020 and 2019 are as follows:

- (4) Amounts represent the change in the pension value for each NEO, including amounts accruing under our pension plans, the SERP, the DC SERP, the NQSP and the NQDCP. During fiscal 2021, the Company accrued above market interest with respect to the DC SERP, a nonqualified defined contribution plan, for Mr. Hilsheimer in the amount of \$39,510 which was equal to the difference between the interest accrued at 2.93% and that which would have accrued at 0.17% (120% of the long-term applicable federal rate for October 2020). During fiscal 2021, the Company accrued above market interest with respect to the NQSP, a nonqualified defined contribution plan, for Mr. Rosgaard in the amount of \$736 which was equal to the difference between the interest accrued at 2.93% and that which would have accrued at 0.17% (120% of the long-term applicable federal rate for October 2020). None of the NEOs who participate in the NQDCP receive preferential or above market earnings. See "Executive Compensation Tables - Pension Benefits and Nonqualified Retirement and Deferred Compensation" for a description of all these plans.
- (5) For NEOs based in the U.S., amounts represent our contributions to the 401(k) plan, subject to Internal Revenue Service and ERISA limitations, premiums paid for life insurance and health insurance premiums, the value of the annual wellness physical and any other perquisites paid by us to or on behalf of such NEO during fiscal years 2021, 2020 and 2019.

(2) The 2001 Management Equity Incentive and Compensation Plan (the "2001 Plan") provides for the award of incentive and nonqualified stock options and restricted and performance shares of Class A Common Stock to key employees. The 2001 Plan contains a formula for calculating the number of shares available for future issuance. This formula provides that the maximum number of shares which may be issued each calendar year under the 2001 Plan is equal to the sum of (a) 5.0% of the total outstanding shares as of the last day of our immediately preceding fiscal year, plus (b) any shares related to awards under the 2001 Plan that, in whole or in part, expire or are unexercised, forfeited, or otherwise not issued to a participant or returned to the 2001 Plan, plus (c) any unused portion of the shares available under (a), above, for the immediately preceding two fiscal years as a result of not being made subject to a grant or award in such preceding two fiscal years. The approximate number of shares that may be issued under the 2001 Plan in fiscal 2021 is 3,990,000 shares. The maximum number of shares that may be issued under the 2001 Plan with respect to incentive stock options is 5,000,000 shares, with 1,072,311 shares remaining available for future issuance under this limitation. Stock options have not been issued under the 2001 Plan since 2006.

These amounts do not include cash equivalent RSUs and PSUs issued to participants in select countries where impediments exist related to the issuance of stock. Stock units are subject to forfeiture upon termination of employment and for failure to achieve performance targets. Stock awards under the 2020 LTIP will not occur until after fiscal year-end 2022.

Pension Benefits

Pension Plans

We have a tax-qualified defined benefit plan that is intended to meet the requirements of Section 401(a) of the Code for our U.S. employees hired prior to November 1, 2007, who have long and continuous service before retirement. Benefits payable under this pension plan are funded entirely through Company contributions to a trust fund. This pension plan provides for a lump sum payment or a monthly benefit for the participant's lifetime upon reaching the normal retirement age under this pension plan, which is 65. The monthly benefit is calculated by multiplying the participant's annual average compensation (calculated using the five highest complete years of the last ten years of compensation or the final sixty months of compensation, whichever is higher, capped at Code limits) by 35% and by the participant's years of service divided by the years the participant could have worked until his or her normal retirement date divided by 12. "Compensation" for purposes of the pension plan includes base salary and payments under the STIP. Participants are 100% vested in this pension plan once they have been credited with five years of service with the Company. Messrs. Watson and Martz are the only NEOs eligible to participate in this pension plan, and both are fully vested in their benefits under this pension plan. Once a participant is fully vested, the participant will have earned a nonforfeitable right to a benefit under this pension plan. Benefits may commence at the later of age 65 or five years vested in this pension plan. This pension plan offers early retirement benefits at age 55 on a reduced basis with a required 15 years of service. Messrs. Watson and Martz are both eligible for early retirement benefits under this pension plan.

Mr. Cronin participates in pension plans sponsored by a subsidiary of the Company in the Netherlands. Benefits payable under these pension plans are funded entirely through such subsidiary's contributions to a trust fund. These pension plans provide benefits to Mr. Cronin upon his reaching the normal retirement age under Dutch law, which is 68. Benefits accrue at the rate of 1.875% and 1.75%, respectively, per year of service on separate portions of a participant's base salary subject to limitations imposed by Dutch law. Participants under the plans vest in their benefits immediately. Therefore, Mr. Cronin is fully vested in the benefits of these pension plans. Mr. Cronin's pension plans do not offer early retirement benefits.

Supplemental Executive Retirement Plan

Our SERP provides benefits for a select group of executive officers, including our NEOs, who participate in the above described pension plan. The plan is considered to be an "unfunded" arrangement as amounts generally will not be set aside or held by the Company in a trust, escrow, or similar account. The benefit from the pension plan and the SERP is equal to a target percentage (ranging from 40% to 50% depending on job classification) times the executive officer's highest three-year average compensation of the last five years worked by the executive officer and reduced for less than 20 years of continuous service and for receiving benefits prior to the executive officer's normal retirement age. "Compensation" for purposes of the SERP includes base salary and payments under the STIP, and benefits are payable quarterly under the SERP for 15 years. "Normal retirement age" under the SERP is 65. Generally, vesting under the SERP requires 10 years of service or the attainment of the normal retirement age. Messrs. Watson and Martz are the only NEOs eligible to participate in the SERP, and both are fully vested in their benefits under the SERP.

The table below sets forth the years of service and present value of the accumulated benefit for each of the eligible NEOs under the pension plans and SERP described above as of October 31, 2021. Messrs. Hilsheimer and Rosgaard are not eligible to participate in our pension plans or SERP.

Nonqualified Retirement and Deferred Compensation

Supplemental Executive Retirement Plan

We have a defined contribution supplement executive retirement plan ("DC SERP") for certain executive officers who are not eligible to participate in the pension plan. We accrue an amount equal to a specified percentage of the executive officer's base salary and annual short-term incentive plan bonus payments. This account is also credited annually with interest based on the discount rate used under the U.S. pension plan. Vesting under the DC SERP requires 10 years of service or the attainment of age 65. Vested executive officers are entitled to the payment of a future benefit upon retirement equal to the accrued amounts and credited interest, which is payable in equal installments quarterly over 15 years.

The table below sets forth certain information concerning Mr. Hilsheimer's benefits under the DC SERP as of October 31, 2021. Mr. Hilsheimer is the only NEO currently participating in the DC SERP. He is not fully vested in his accumulated benefit under the DC SERP.

Name	Plan Name	Number of Years Credited Service (#)	Value of Pay Credits and Above Market Interest in Last FY (\$)(1)	Present Value of Accumulated Benefit (\$) (2)	Payments During Last FY (\$)
Lawrence A. Hilsheimer	DC SERP	7	392,502	2,002,057	—

- (1) The amount in this column represents pay credits and non-above market interest credits accrued during fiscal 2021 under the DC SERP. This amount is also included in Mr. Hilsheimer's fiscal 2021 compensation in the Summary Compensation Table.
- (2) The amount in this column represents the total value of pay credits and non-above market interest accrued under the DC SERP. This amount is not included in Mr. Hilsheimer's fiscal 2021 compensation in the Summary Compensation Table.
- (3) The mortality assumption for the DC SERP uses Pri-2012 projected forward using the MP-2021 projected scale as of October 31, 2021 and a discount rate for the DC SERP of 2.93% as of October 31, 2021.

Nonqualified Supplemental Deferred Compensation Plan

We have a nonqualified supplemental deferred compensation plan ("NQSP") for certain executive officers who do not participate in the SERP or DC SERP described above. This plan credits eligible officers who are employed on December 31 of each calendar year with a contribution equal to the maximum employer contribution rate under the Company's 401(k) Plan, multiplied by the excess, if any, of the sum of the officer's base salary and annual short-term incentive plan bonus payments, over the maximum compensation limit under Code Section 401(a)(17) for the applicable year. This plan also permits discretionary Company contributions, which may vary by eligible executive officer. The Company does not presently intend to make any discretionary contribution. The plan is compliant with the regulations promulgated by the IRS under Code Section 409A. We distribute the vested deferred balance upon retirement, termination from employment, death or disability based on a schedule selected by the officer either a lump sum or five annual installments.

The table below sets forth certain information concerning Mr. Rosgaard's benefits under the NQSP as of October 31, 2021. Mr. Rosgaard is the only NEO currently participating in the NQSP. He is not fully vested in his accumulated benefit under the NQSP.

(2) The amount in this column represents the total value of pay credits and non-above market interest accrued under the NQSP. This amount is not included in Mr. Rosgaard's fiscal 2021 compensation in the Summary Compensation Table.

(3) The mortality assumption for the NQSP uses Pri-2012 projected forward using the MP-2021 projected scale as of October 31, 2021 and a discount rate for the NQSP of 2.93% as of October 31, 2021.

Nonqualified Deferred Compensation Plan

We have a NQDCP for our executive officers, including our NEOs, which provides a vehicle for our executive officers to elect to defer their compensation. This plan is intended to meet the requirements of Section 409A of the Code. A participant's base salary, STIP and LTIP cash payments are all eligible for deferral under this plan, and participants may defer up to 100% of their compensation. We do not currently match any compensation deferred by participants or provide any other discretionary contributions under this plan. A participant's deferred compensation (along with company-match or contributions, if any) is deposited into an account with a rabbi trust to protect and segregate such funds. Deferred funds are invested in a similar range of investment options as are available in our 401(k) plan. The funds in a participant's account are distributed to a participant upon his or her retirement in a lump sum or in equal annual installments over a five- or ten-year period, as elected by the participant, or in a lump sum upon a participant's termination of employment, death or disability or a change in control of the Company. Subject to the terms of the plan, participants may also receive a distribution of funds for an "unforeseeable emergency." A participant is fully vested in his or her own deferral contributions, but the right to Company-matching contributions, if any, is subject to vesting as provided by this plan.

Nonqualified Deferred Compensation Benefits in Fiscal 2021

The table below sets forth certain information concerning Mr. Rosgaard's benefits under the NQDCP as of October 31, 2021. Mr. Rosgaard is the only NEO that has elected and deferred compensation under the NQDCP. He is fully vested in his aggregate balance under the NQDCP.

(1) The amount shown only includes LTIP cash awards deferred during fiscal 2021.

(2) The amount shown is also included in Mr. Rosgaard's fiscal 2021 compensation in the Summary Compensation Table.

Potential Payments Upon Termination or Change in Control

We have no plans, agreements, contracts or other arrangements providing any of our NEOs with severance or change-in-control benefits.

Agreements with NEOs

We do not have employment agreements with any of our NEOs. All NEOs, as well as all other participants in the LTIP, have agreed to certain post-employment covenants prohibiting them from becoming involved in any enterprise which competes with any business engaged in by us or our subsidiaries.

Pay Ratio

Pursuant to Item 402(u) of Regulation S-K, for fiscal 2021, the ratio of the total annual compensation of our CEO to the total annual compensation of the median employee was 187 to 1.

To identify the median employee, we first determined our global employee population consisting of full-time, part-time, seasonal and temporary employees as of October 28, 2021. We excluded all employees in Egypt (40), Guatemala (13), Malaysia (75), Nigeria (2), Ukraine (385) and Vietnam (246) under the de minimus exception, as the aggregate number of employees in those countries (761) represents less than 5% of our total global employee population of 15,737. After determining our global employee population, we then used the annual base salary reflected in our internal payroll system, converted into U.S. dollars, as our consistently applied compensation measure.

Once the median employees were identified (we have two due to the fact that our population, excluding our CEO, was an even number), we calculated the median employees' compensation using the same methodology used to calculate the total compensation of our CEO as set forth in the Summary Compensation Table and average the two numbers. The average median employee annual total compensation was \$43,200. The annual total compensation of our CEO was \$8,098,389 as set forth in the Summary Compensation Table of this proxy statement.

Edwards qualifies as an "audit committee financial expert" as defined by applicable SEC regulations. Management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls and preparation of the consolidated financial statements in accordance with generally accepted accounting principles in the United States ("GAAP"). In fulfilling its responsibilities, the Audit Committee reviewed the audited consolidated financial statements in the 2021 Form 10-K with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the consolidated financial statements. Throughout the year, the Audit Committee also monitored the results of the testing of internal control over financial reporting pursuant to §404 of the Sarbanes-Oxley Act of 2002, reviewed a report from management and internal audit regarding the design, operation and effectiveness of internal control over financial reporting, and reviewed a report from Deloitte & Touche LLP regarding the effectiveness of internal control over financial reporting. The Audit Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited consolidated financial statements with GAAP, their judgments as to the quality, not just the acceptability, of our accounting principles and such other matters as are required to be discussed with the Audit Committee in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"). In addition, the Audit Committee received written disclosures regarding the independent auditors' independence from management and the Company, and received a letter confirming that fact from the independent auditors, which included applicable requirements of the PCAOB regarding the independent accountant's communications with the Audit Committee concerning independence and considered the compatibility of nonaudit services with the auditors' independence.

The Audit Committee discussed with our internal and independent auditors the overall scope and plans for their respective audits. The Audit Committee meets separately with the internal and independent auditors, with and without management present, and separately with management, to discuss the results of their examinations, their evaluations of our internal controls and the overall quality of our financial reporting.

As discussed above, the Audit Committee is responsible for monitoring and reviewing our financial reporting process. It is not the duty or responsibility of the Audit Committee to conduct auditing or accounting reviews or procedures. Members of the Audit Committee are not employees of the Company. Therefore, the Audit Committee has relied, without independent verification, on management's representation that the consolidated financial statements have been prepared with integrity and objectivity and in conformity with GAAP and on the representations of the independent auditors included in their report on our consolidated financial statements. The Audit Committee's review does not provide its members with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions with management and the independent auditors do not assure that our consolidated financial statements are presented in accordance with GAAP, that the audit of our consolidated financial statements has been carried out in accordance with the standards of the PCAOB, or that our independent auditors are in fact "independent."

The Audit Committee receives regular reports from our General Counsel with respect to matters coming within the scope of our Code of Conduct. The CEO and the principal financial officer have each agreed to be bound by the Code of Conduct and the Sarbanes-Oxley Act mandated Code of Ethics for Senior Financial Officers. The Company has also implemented and applied the Code of Conduct throughout the Company. It also has in place procedures for the receipt of complaints concerning our accounting, internal accounting controls, or auditing practices, including the confidential, anonymous submission by employees of the Company of concerns regarding questionable accounting or auditing practices.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board (and the Board has approved) that the audited consolidated financial statements be included in the 2021 Form 10-K for filing with the Securities and Exchange Commission. The Audit Committee has selected Deloitte & Touche LLP as our independent auditors for the 2022 fiscal year.

Audit Committee Pre-Approval Policy

The Audit Committee is responsible for the appointment, compensation and oversight of the work of the independent auditors. As part of this responsibility, the Audit Committee is required to pre-approve the audit and permissible non-audit services performed by the independent auditors in order to assure that such services do not impair the auditors' independence from the Company. The Securities and Exchange Commission has issued rules specifying the types of services that independent auditors may not provide to their audit client, as well as the audit committee's administration of the engagement of the independent auditors. Accordingly, the Audit Committee has adopted a Pre-Approval Policy (the "Policy"), which sets forth the procedures and the conditions under which services proposed to be performed by the independent auditors must be pre-approved.

Pursuant to the Policy, certain proposed services may be pre-approved on a periodic basis so long as the services do not exceed certain pre-determined cost levels. If not pre-approved on a periodic basis, proposed services must otherwise be separately pre-approved prior to being performed by the independent auditors. In addition, any proposed services that were pre-approved on a periodic basis, but later exceed the pre-determined cost level would require separate pre-approval of the incremental amounts by the Audit Committee.

The Audit Committee has delegated pre-approval authority to the Chair of the Audit Committee for proposed services to be performed by the independent auditors for up to \$100,000 per engagement. Pursuant to such Policy, in the event the Chair pre-approves services, the Chair is required to report decisions to the full Audit Committee at its next regularly-scheduled meeting.

Fees of the Independent Registered Public Accounting Firm

Deloitte & Touche LLP served as our independent registered public accounting firm for the fiscal year ended October 31, 2021. It is currently expected that a representative of Deloitte & Touche LLP will attend the Annual Meeting via the live webcast, will have an opportunity to make a statement if such representative so desires and will be available to respond to appropriate questions from stockholders. Our Audit Committee has selected Deloitte & Touche LLP as our independent registered public accounting firm for the 2022 fiscal year. Deloitte & Touche LLP was initially engaged by the Audit Committee as our independent registered public accounting firm in August 2014.

All services to be provided by our independent auditors are pre-approved by the Audit Committee, including audit services, audit-related services, tax services and certain other services. OTHER MATTERS

Communications with the Board

Our Board believes it is important for stockholders to have a process to send communications to the Board. Accordingly, any stockholder or other interested party who desires to make his or her concerns known to the non-management directors or to the entire Board may do so by communicating with the chair of the Audit Committee by e-mail to audit.committee@greif.com or in writing to Audit Committee Chair, Greif, Inc., 425 Winter Road, Delaware, Ohio 43015. All such communications will be forwarded to the non-management directors or the entire Board as requested in the communication.

Stockholder Recommendations for Director Nominees

The Nominating Committee is responsible for evaluating and recommending candidates to the Board. The Committee's Charter sets forth certain specific, minimum qualifications that must be met by a Nominating Committee recommended nominee for a position on the Board, as well as qualities and skills that Board members must possess. The Nominating Committee determines, and reviews with the Board on an annual basis, the desired skills and characteristics for directors as well as the composition of the Board as a whole. This assessment considers director's qualification as independent, as well as diversity, age, skill and experience in the context of the needs of the Board. The Nominating Committee seeks to achieve diversity of occupational and personal backgrounds and considers diversity as a factor in director nominations. The Nominating Committee views diversity in a broad context to include race, gender, ethnicity, geography, diversity of viewpoint, professional and industry experience, skills, education and personal expertise, among others. At a minimum, directors should share the values of the Company and should possess the following characteristics: high personal and professional integrity; the ability to exercise sound business judgment; an inquiring mind; and the time available to devote to Board activities and the willingness to do so. Ultimately, the Nominating Committee will select prospective Board members who the Nominating Committee believes will be effective, in conjunction with the other members of the Board, in collectively serving the long-term interests of the stockholders.

The Nominating Committee identifies potential director candidates through a variety of means, including recommendations from members of the Committee or the Board, suggestions from Company management, and stockholder recommendations. The Committee also may, in its discretion, engage director search firms to identify candidates. Stockholders may recommend director candidates for consideration by the Nominating Committee by submitting a written recommendation to the Secretary of the Company at 425 Winter Road, Delaware, Ohio 43015 (the "Recommendation Notice"). The Recommendation Notice must contain, at a minimum, the following: the name and address, as they appear on our books, and telephone number, of the stockholder making the recommendation, including the name, age, business address and residence address of nominee, principal occupation or employment, number of shares and class of stock owned, and if such person is not a stockholder of record or if such shares are owned by an entity, reasonable evidence of such person's ownership of such shares or such person's authority to act on behalf of such entity; together with a reasonably detailed description of the background, experience and qualifications of that individual; a written acknowledgement by the individual being recommended that he or she has consented to that recommendation and consents to our undertaking of an investigation into that individual's background, experience and qualifications in the event that the Nominating Committee desires to do so; the disclosure of any relationship of the individual being recommended with the Company or any of its subsidiaries or affiliates, whether direct or indirect; and, if known to the stockholder, any material interest of such stockholder or individual being recommended in any proposals or other business to be presented at our next annual meeting of stockholders (or a statement to the effect that no material interest is known to such stockholder).

Except for the director nominees recommended by the Nominating Committee to the Board, no person may be nominated for election as a director of the Company during any stockholder meeting unless such person was first recommended by a stockholder for Board membership in accordance with the procedures set forth in the preceding paragraph and our Third Amended and Restated By-Laws, and the Recommendation Notice was received by us not later than the close of business on the 90th day nor earlier than the 120th day prior to the anniversary date of the immediately preceding annual meeting of stockholders; provided, however, that in the event that no annual meeting was held in the previous year or the annual meeting is more than 30 days before or after such anniversary date, the Recommendation Notice by the stockholder to be timely must be received no later than the close of business on the 10th day following the day on which such notice of the date of the meeting was mailed or such public disclosure of the date of the annual meeting was made, whichever occurs first.

Stockholder Proposals

Proposals of stockholders intended to be presented at the 2023 annual meeting of stockholders (expected to be February 28, 2023) must be received by us for inclusion in the proxy statement and form of proxy no earlier than 120 days and no less than close of business on the 90th day in advance of the anniversary of the date of the last annual shareholder meeting. If a stockholder intends to present a proposal at the 2023 annual meeting of stockholders, but does not seek to include such proposal in our proxy statement and form of proxy, such proposal must be received by us on or prior to 45 days in advance of the first anniversary of the date of this proxy statement or the persons named in the form of proxy for the 2023 annual meeting of stockholders will be entitled to use their discretionary voting authority should such proposal then be raised at such meeting, without any discussion of the matter in our proxy

statement or form of proxy. Furthermore, stockholders must follow the procedures set forth in Article I, Section 1.8, of our Third Amended and Restated By-Laws, as amended, in order to present proposals at the 2023 annual meeting of stockholders.

Certain Relationships and Related Party Transactions

We have a written policy for the approval of a transaction between the Company and one of its directors, executive officers, greater than 5% Class B stockholders, an entity owned or controlled by such persons, or an immediate family member of such persons, which is generally referred to as a related party transaction. This policy provides that the Audit Committee must review, evaluate and approve or disapprove all related party transactions involving an amount equal to or greater than \$5,000. This policy also requires that all related party transactions be disclosed in our applicable filings as required by the Securities Act of 1933 and the Securities Exchange Act of 1934 and related rules. In addition, the Nominating Committee, which advises the Board of Directors on corporate governance matters, independently reviews and assesses corporate governance issues related to contemplated related party transactions.

During fiscal 2021, we retained the law firm of Baker & Hostetler LLP to perform certain legal services on our behalf. Daniel J. Gunsett, a partner in that firm for the first two months of fiscal 2021, is a director of the Company and a member of the Compensation, Nominating and Stock Repurchase Committees. We anticipate retaining Baker & Hostetler LLP in the 2022 fiscal year. The fees for legal services rendered in fiscal 2021 were less than \$300,000. Mr. Gunsett retired from Baker & Hostetler LLP in December 2020. The Board has affirmatively determined that Mr. Gunsett meets the categorical standards of independence adopted by the Board and is an independent director as defined in the NYSE listing standards. See "Corporate Governance-Director Independence."

Other Information

The proxy card enclosed with this proxy statement is solicited from Class B stockholders by and on behalf of the Board of Directors of the Company. A person giving the proxy has the power to revoke it.

The expense for soliciting proxies for this Annual Meeting is to be paid by us. Solicitations of proxies also may be made by personal calls upon or telephone or telegraphic communications with stockholders, or their representatives, by not more than five officers or regular employees of the Company who will receive no compensation for doing so other than their regular salaries.

Management knows of no matters to be presented at the Annual Meeting other than the above proposals. However, if any other matters properly come before the Annual Meeting, it is the intention of the persons named in the accompanying form of proxy to vote the proxy in accordance with their judgment on such matters.
