Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of S&P Global Inc.

Results of Review of Interim Financial Statements

We have reviewed the accompanying consolidated balance sheet of S&P Global Inc. (and subsidiaries) (the "Company") as of June 30, 2020, the related consolidated statements of income, comprehensive income, and equity for the three- and six-month periods ended June 30, 2020 and 2019, the related consolidated statements of cash flows for the six-month periods ended June 30, 2020 and 2019, and the related notes (collectively referred to as the "consolidated interim financial statements"). Based on our reviews, we are not aware of any material modifications that should be made to the consolidated interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Company as of December 31, 2019, the related consolidated statements of income, comprehensive income, equity and cash flows for the year then ended, and the related notes and schedule (not presented herein); and in our report dated February 10, 2020, we expressed an unqualified audit opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2019, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

These financial statements are the responsibility of the Company's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the SEC and the PCAOB. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

See accompanying notes to the unaudited consolidated financial statements.

1. Nature of Operations and Basis of Presentation

S&P Global Inc. (together with its consolidated subsidiaries, "S&P Global," the “Company,” “we,” “us” or “our”) is a leading provider of transparent and independent ratings, benchmarks, analytics and data to the capital and commodity markets worldwide.

Our operations consist of four reportable segments: S&P Global Ratings ("Ratings"), S&P Global Market Intelligence ("Market Intelligence"), S&P Global Platts ("Platts") and S&P Dow Jones Indices ("Indices").

- Ratings is an independent provider of credit ratings, research, and analytics, offering investors and other market participants information, ratings and benchmarks.
- Market Intelligence is a global provider of multi-asset-class data, research and analytical capabilities, which integrate cross-asset analytics and desktop services.
- Platts is the leading independent provider of information and benchmark prices for the commodity and energy markets.
- Indices is a global index provider that maintains a wide variety of valuation and index benchmarks for investment advisors, wealth managers and institutional investors.

In the first quarter of 2020, we changed our allocation methodology for allocating our centrally managed technology-related expenses to our reportable segments to more accurately reflect each segment's respective usage. Prior-year amounts have been reclassified to conform with current presentation. There was no impact on the Company's consolidated balance sheets, consolidated statements of income and consolidated statements of cash flows as a result of this change.

The accompanying unaudited financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. Therefore, the financial statements included herein should be read in conjunction with the financial statements and notes included in our Form 10-K for the year ended December 31, 2019 (our “Form 10-K”). Certain prior-year amounts have been reclassified to conform with current presentation.

In the opinion of management, all normal recurring adjustments considered necessary for a fair statement of the results of the interim periods have been included. The operating results for the three and six months ended June 30, 2020 are not necessarily indicative of the results that may be expected for the full year.

On an ongoing basis, we evaluate our estimates and assumptions, including those related to revenue recognition, allowance for doubtful accounts, valuation of long-lived assets, goodwill and other intangible assets, pension plans, incentive compensation and stock-based compensation, income taxes, contingencies and redeemable noncontrolling interests. Since the date of our Form 10-K, there have been no material changes to our critical accounting policies and estimates.

Restricted Cash

Restricted cash of $7 million and $15 million included in our consolidated balance sheets as of June 30, 2020 and December 31, 2019, respectively, includes amounts held in escrow accounts in connection with our acquisition of Kensho.

Contract Assets

Contract assets include unbilled amounts from when the Company transfers service to a customer before a customer pays consideration or before payment is due. As of June 30, 2020 and December 31, 2019, contract assets were $26 million and $28 million, respectively, and are included in accounts receivable in our consolidated balance sheets.

Unearned Revenue

We record unearned revenue when cash payments are received in advance of our performance. The decrease in the unearned revenue balance at June 30, 2020 compared to December 31, 2019 is primarily driven by $1.4 billion of revenues recognized that were included in the unearned revenue balance at the beginning of the period, offset by cash payments received in advance of satisfying our performance obligations.

Remaining Performance Obligations

Remaining performance obligations represent the transaction price of contracts for work that has not yet been performed. As of June 30, 2020, the aggregate amount of the transaction price allocated to remaining performance obligations was $2.1 billion. We expect to recognize revenue on approximately half and three-quarters of the remaining performance obligations over the next 12 and 24 months, respectively, with the remainder recognized thereafter.

We do not disclose the value of unfulfilled performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts where revenue is a usage-based royalty promised in exchange for a license of intellectual property.

Costs to Obtain a Contract

We recognize an asset for the incremental costs of obtaining a contract with a customer if we expect the benefit of those costs to be longer than one year. We have determined that the costs associated with certain sales commission programs are incremental to the costs to obtain contracts with customers and therefore meet the criteria to be capitalized. Total capitalized costs to obtain a contract were $113 million and $115 million as of June 30, 2020 and December 31, 2019, respectively, and are included in prepaid and other current assets and other non-current assets on our consolidated balance sheets. The capitalized asset will be amortized over a period consistent with the transfer to the customer of the goods or services to which the asset relates, calculated based on the customer term and the average life of the products and services underlying the contracts which has been determined to be approximately 5 years. The expense is recorded within selling and general expenses.

We expense sales commissions when incurred if the amortization period is one year or less. These costs are recorded within selling and general expenses.

Other (Income) Expense, net

The components of other (income) expense, net for the three and six months ended June 30 are as follows:

(in millions)	Three Months		Six Months	
	2020	2019	2020	2019
Other components of net periodic benefit cost [1]	$ (5)	$ (7)	$ (15)	$ 96
Net (gain) loss from investments	(5)	1	6	1
Other (income) expense, net	$ (10)	$ (6)	$ (9)	$ 97

[1] The net periodic benefit cost for our retirement and post retirement plans for the three and six months ended June 30, 2020 includes a non-cash pre-tax settlement charge of $3 million. During the first six months of 2019, the Company purchased a group annuity contract under which an insurance company assumed a portion of the Company's obligation to pay pension benefits to the plan's beneficiaries. The net periodic benefit cost for our retirement and post retirement plans for the six months ended June 30, 2019 includes a non-cash pre-tax settlement charge of $113 million reflecting the accelerated recognition of a portion of unamortized actuarial losses in the plan.

2. Acquisitions and Divestitures

Acquisitions

2020

In February of 2020, CRISIL, included within our Ratings segment, completed the acquisition of Greenwich Associates LLC ("Greenwich"), a leading provider of proprietary benchmarking data, analytics and qualitative, actionable insights that helps financial services firms worldwide measure and improve business performance. The acquisition will complement CRISIL's existing portfolio of products and expand offerings to new segments across financial services including commercial banks and asset and wealth managers. The acquisition of Greenwich is not material to our consolidated financial statements.

In January of 2020, we completed the acquisition of the ESG Ratings Business from RobecoSAM, which includes the widely followed SAM* Corporate Sustainability Assessment, an annual evaluation of companies' sustainability practices. The acquisition will bolster our position as the premier resource for essential environmental, social, and governance ("ESG") insights and product solutions for our customers. Through this acquisition, we will be able to offer our customers even more transparent, robust and comprehensive ESG solutions. The acquisition of the ESG Ratings Business is not material to our consolidated financial statements.

2019

During the six months ended June 30, 2019, we did not complete any material acquisitions.

Divestitures

2020

In January of 2020, Market Intelligence entered into a strategic alliance to transition S&P Global Market Intelligence's Investor Relations ("IR") webhosting business to Q4 Inc. ("Q4"), a third party provider of investor relations related services. This alliance will integrate Market Intelligence's proprietary data into Q4's portfolio of solutions, enabling further opportunities for commercial collaboration. In connection with transitioning its IR webhosting business to Q4, Market Intelligence made a minority investment in Q4. During the three and six months ended June 30, 2020, we recorded a pre-tax gain of $1 million ($1 million after-tax) and $8 million ($8 million after-tax) in Gain on disposition in the consolidated statements of income related to the sale of IR.

2019

During the six months ended June 30, 2019, we did not complete any dispositions.

The operating profit of our businesses that were disposed of for the periods ending June 30, 2020 and 2019 is as follows:

(in millions)	Three Months		Six Months	
	2020	2019	2020	2019
Operating profit [1]	$ 1	$ 3	$ 1	$ 6

[1] The three and six months ended June 30, 2020 exclude a pre-tax gain on the sale of the IR webhosting business of $1 million and $8 million, respectively.

3. Income Taxes

The effective income tax rate was 21.7% and 21.6% for the three and six months ended June 30, 2020, respectively, and 23.0% and 21.7% for the three and six months ended June 30, 2019, respectively. The decrease in 2020 was primarily due to the successful resolution of tax examinations in various jurisdictions. At the end of each interim period, we estimate the annual effective tax rate and apply that rate to our ordinary quarterly earnings. The tax expense or benefit related to significant unusual or infrequently occurring items that will be separately reported or reported net of their related tax effect, and are individually computed, is recognized in the interim period in which those items occur. In addition, the effect of changes in enacted tax laws or rates or tax status is recognized in the interim period in which the change occurs.

The Company is continuously subject to tax examinations in various jurisdictions. As of June 30, 2020 and December 31, 2019, the total amount of federal, state and local, and foreign unrecognized tax benefits was $122 million and $124 million, respectively, exclusive of interest and penalties. We recognize accrued interest and penalties related to unrecognized tax benefits in interest expense and operating-related expense, respectively. As of June 30, 2020 and December 31, 2019, we had $22 million and $20 million, respectively, of accrued interest and penalties associated with unrecognized tax benefits. Based on the current status of income tax audits, we believe that the total amount of unrecognized tax benefits may decrease by approximately $15 million in the next twelve months as a result of the resolution of local tax examinations.

4. Debt

A summary of long-term debt outstanding is as follows:

(in millions)	June 30, 2020	December 31, 2019
4.0% Senior Notes, due 2025 [1]	694	694
4.4% Senior Notes, due 2026 [2]	894	893
2.95% Senior Notes, due 2027 [3]	494	493
2.5% Senior Notes, due 2029 [4]	495	495
6.55% Senior Notes, due 2037 [5]	294	294
4.5% Senior Notes, due 2048 [6]	490	490
3.25% Senior Notes, due 2049 [7]	589	589
Long-term debt	3,950	3,948

[1] Interest payments are due semiannually on June 15 and December 15, and as of June 30, 2020, the unamortized debt discount and issuance costs total $6 million.

[2] Interest payments are due semiannually on February 15 and August 15, and as of June 30, 2020, the unamortized debt discount and issuance costs total $6 million.

[3] Interest payments are due semiannually on January 22 and July 22, and as of June 30, 2020, the unamortized debt discount and issuance costs total $6 million.

[4] Interest payments are due semiannually on June 1 and December 1, and as of June 30, 2020, the unamortized debt discount and issuance costs total $5 million.

[5] Interest payments are due semiannually on May 15 and November 15, and as of June 30, 2020, the unamortized debt discount and issuance costs total $3 million.

[6] Interest payments are due semiannually on May 15 and November 15, and as of June 30, 2020, the unamortized debt discount and issuance costs total $10 million.

[7] Interest payments are due semiannually on June 1 and December 1, and as of June 30, 2020, the unamortized debt discount and issuance costs total $11 million.

The fair value of our total debt borrowings was $4.8 billion and $4.5 billion as of June 30, 2020 and December 31, 2019, respectively, and was estimated based on quoted market prices.

We have the ability to borrow a total of $1.2 billion through our commercial paper program, which is supported by our revolving $1.2 billion five-year credit agreement (our "credit facility") that we entered into on June 30, 2017. This credit facility will terminate on June 30, 2022. As of June 30, 2020 and December 31, 2019, there was no commercial paper issued or

outstanding and similarly did not draw or have any borrowings outstanding from the credit facility during the three and six months ended June 30, 2020 and 2019.

Depending on our corporate credit rating, we pay a commitment fee of 8 to 17.5 basis points for our credit facility, whether or not amounts have been borrowed. We currently pay a commitment fee of 10 basis points. The interest rate on borrowings under our credit facility is, at our option, calculated using rates that are primarily based on either the prevailing London Inter-Bank Offer Rate, the prime rate determined by the administrative agent or the Federal Funds Rate. For certain borrowings under this credit facility, there is also a spread based on our corporate credit rating.

Our credit facility contains certain covenants. The only financial covenant requires that our indebtedness to cash flow ratio, as defined in our credit facility, is not greater than 4 to 1, and this covenant level has never been exceeded.

5. Derivative Instruments

Our exposure to market risk includes changes in foreign exchange rates. We have operations in foreign countries where the functional currency is primarily the local currency. For international operations that are determined to be extensions of the parent company, the U.S. dollar is the functional currency. We typically have naturally hedged positions in most countries from a local currency perspective with offsetting assets and liabilities. As of June 30, 2020 and December 31, 2019, we have entered into foreign exchange forward contracts to mitigate or hedge the effect of adverse fluctuations in foreign exchange rates. As of June 30, 2020 and December 31, 2019, we have entered into cross currency swap contracts to hedge a portion of our net investment in a foreign subsidiary against volatility in foreign exchange rates. These contracts are recorded at fair value that is based on foreign currency exchange rates in active markets; therefore, we classify these derivative contracts within Level 2 of the fair value hierarchy. We do not enter into any derivative financial instruments for speculative purposes.

Undesignated Derivative Instruments

During the six months ended June 30, 2020 and twelve months ended December 31, 2019, we entered into foreign exchange forward contracts in order to mitigate the change in fair value of specific assets and liabilities in the consolidated balance sheet. These forward contracts do not qualify for hedge accounting. As of June 30, 2020 and December 31, 2019, the aggregate notional value of these outstanding forward contracts was $167 million and $116 million, respectively. The changes in fair value of these forward contracts are recorded in prepaid and other assets or other current liabilities in the consolidated balance sheet with their corresponding change in fair value recognized in selling and general expenses in the consolidated statement of income. The amount recorded in other current liabilities as of June 30, 2020 was $2 million. The amount recorded in selling and general expense related to these contracts was a net gain of $7 million and a net loss of $4 million for the three and six months ended June 30, 2020 and a net gain of $3 million and $5 million for the three and six months ended June 30, 2019, respectively.

Net Investment Hedges

During the six months ended June 30, 2020 and twelve months ended December 31, 2019, we entered into cross currency swaps to hedge a portion of our net investment in a certain European subsidiary against volatility in the Euro/U.S. dollar exchange rate. These swaps are designated and qualify as a hedge of a net investment in a foreign subsidiary and are scheduled to mature in 2024, 2025 and 2026. As of June 30, 2020 and December 31, 2019, the notional value of our outstanding cross currency swaps designated as a net investment hedge was $1 billion and $400 million, respectively. The changes in the fair value of swaps are recognized in foreign currency translation adjustments, a component of other comprehensive income (loss), and reported in accumulated other comprehensive loss in our consolidated balance sheet. The gain or loss will be subsequently reclassified into net earnings when the hedged net investment is either sold or substantially liquidated. We have elected to assess the effectiveness of our net investment hedges based on changes in spot exchange rates. Accordingly, amounts related to the cross currency swaps recognized directly in net income for the three and six months ended June 30, 2020 represent net periodic interest settlements and accruals, which are recognized in interest expense, net. We recognized net interest income of $2 million and $5 million for the three and six months ended June 30, 2020, respectively.

Cash Flow Hedges

During the six months ended June 30, 2020 and twelve months ended December 31, 2019, we entered into a series of foreign exchange forward contracts to hedge a portion of the Indian rupee, British pound, and Euro exposures through the second quarter of 2022 and the fourth quarter of 2020, respectively. These contracts are intended to offset the impact of movement of exchange rates on future revenue and operating costs and are scheduled to mature within twenty-four months. The changes in the fair value of these contracts are initially reported in accumulated other comprehensive loss in our consolidated balance sheet and are subsequently reclassified into revenue and selling and general expenses in the same period that the hedged transaction affects earnings.

As of June 30, 2020, we estimate that $1 million of the net losses related to derivatives designated as cash flow hedges recorded in other comprehensive income is expected to be reclassified into earnings within the next twelve months.

As of June 30, 2020 and December 31, 2019, the aggregate notional value of our outstanding foreign exchange forward contracts designated as cash flow hedges was $442 million and $249 million, respectively.

The following table provides information on the location and fair value amounts of our cash flow hedges and net investment hedges as of June 30, 2020 and December 31, 2019:

(in millions)		June 30,	December 31,
Balance Sheet Location		**2020**	**2019**
Derivatives designated as cash flow hedges:			
Prepaid and other current assets	Foreign exchange forward contracts	$ —	$ 1
Other current liabilities	Foreign exchange forward contracts	$ 3	$ —
Derivatives designated as net investment hedges :			
Other non-current assets	Cross currency swaps	$ —	$ —
Other non-current liabilities	Cross currency swaps	$ —	$ 10

The following table provides information on the location and amounts of pre-tax gains (losses) on our cash flow hedges and net investment hedges for the periods ended June 30:

Three Months

(in millions)	Gain (Loss) recognized in Accumulated Other Comprehensive Loss (effective portion)		Location of Gain (Loss) reclassified from Accumulated Other Comprehensive Loss into Income (effective portion)	Gain (Loss) reclassified from Accumulated Other Comprehensive Loss into Income (effective portion)	
	2020	**2019**		**2020**	**2019**
Cash flow hedges - designated as hedging instruments					
Foreign exchange forward contracts	$ 4	$ (3)	Revenue, Selling and general expenses	$ (2)	$ 1
Net investment hedges - designated as hedging instruments					
Cross currency swaps	$ (22)	**$** —		**$** —	**$** —

Six Months

(in millions)	Gain (Loss) recognized in Accumulated Other Comprehensive Loss (effective portion)		Location of Gain (Loss) reclassified from Accumulated Other Comprehensive Loss into Income (effective portion)	Gain (Loss) reclassified from Accumulated Other Comprehensive Loss into Income (effective portion)	
	2020	**2019**		**2020**	**2019**
Cash flow hedges - designated as hedging instruments					
Foreign exchange forward contracts	$ (3)	$ —	Revenue, Selling and general expenses	$ (4)	$ 4
Net investment hedges - designated as hedging instruments					
Cross currency swaps	$ 9	$ —		$ —	$ —

The activity related to the change in unrealized gains (losses) in accumulated other comprehensive loss was as follows for the periods ended June 30:

(in millions)	Three Months		Six Months	
	2020	2019	2020	2019
Cash Flow Hedges				
Net unrealized (losses) gains on cash flow hedges, net of taxes, beginning of period	$ (5)	$ 7	$ 2	$ 4
Change in fair value, net of tax	2	(2)	(7)	4
Reclassification into earnings, net of tax	2	(1)	4	(4)
Net unrealized (losses) gains on cash flow hedges, net of taxes, end of period	$ (1)	$ 4	$ (1)	$ 4
Net Investment Hedges				
Net unrealized gains (losses) on net investment hedges, net of taxes, beginning of period	$ 16	$ —	$ (8)	$ —
Change in fair value, net of tax	(16)	—	8	—
Reclassification into earnings, net of tax	—	—	—	—
Net unrealized gains (losses) on net investment hedges, net of taxes, end of period	$ —	$ —	$ —	$ —

6. Employee Benefits

We maintain a number of active defined contribution retirement plans for our employees. The majority of our defined benefit plans are frozen. As a result, no new employees will be permitted to enter these plans and no additional benefits for current participants in the frozen plans will be accrued.

We have supplemental benefit plans providing senior management with supplemental retirement, disability and death benefits. Certain supplemental retirement benefits are based on final monthly earnings. In addition, we sponsor a voluntary 401(k) plan under which we may match employee contributions up to certain levels of compensation as well as profit-sharing plans under which we contribute a percentage of eligible employees' compensation to the employees' accounts.

We also provide certain medical, dental and life insurance benefits for active and retired employees and eligible dependents. The medical and dental plans and supplemental life insurance plan are contributory, while the basic life insurance plan is noncontributory. We currently do not prefund any of these plans.

We recognize the funded status of our defined benefit retirement and postretirement plans in the consolidated balance sheets, with a corresponding adjustment to accumulated other comprehensive loss, net of taxes. The amounts in accumulated other comprehensive loss represent unrecognized actuarial losses and unrecognized prior service costs. These amounts will be subsequently recognized as net periodic benefit cost pursuant to our accounting policy for amortizing such amounts.

Net periodic benefit cost for our retirement and postretirement plans other than the service cost component are included in other expense (income), net in our consolidated statements of income.

The components of net periodic benefit cost for our retirement plans and postretirement plans for the periods ended June 30 are as follows:

(in millions)	Three Months		Six Months	
	2020	2019	2020	2019
Service cost	$ 1	$ 1	$ 2	$ 1
Interest cost	13	14	26	33
Expected return on assets	(25)	(23)	(51)	(54)
Amortization of prior service credit / actuarial loss	4	2	7	4
Net periodic benefit cost	(7)	(6)	(16)	(16)
Settlement charges [1]	3	—	3	113
Net benefit cost	$ (4)	$ (6)	$ (13)	$ 97

[1] During the three and six months ended June 30, 2020, lump sum withdrawals exceeded the combined total anticipated annual service and interest cost of our U.K. pension plan, triggering the recognition of a non-cash pre-tax settlement charge of $3 million. During the first six months of 2019, the Company purchased a group annuity contract under which an insurance company assumed a portion of the Company's obligation to pay pension benefits to the plan's beneficiaries. The purchase of this group annuity contract was funded by pension plan assets. The non-cash pretax settlement charge of $113 million reflects the accelerated recognition of a portion of unamortized actuarial losses in the plan.

Net periodic benefit cost related to our postretirement plans reflected in the table above was not material for the three and six months ended June 30, 2020 and 2019.

As discussed in our Form 10-K, we changed certain discount rate assumptions for our retirement and postretirement plans and our expected return on assets assumption for our retirement plans which became effective on January 1, 2020. The effect of the assumption changes on retirement and postretirement expense for the three and six months ended June 30, 2020 did not have a material impact to our financial position, results of operations or cash flows.

In the first six months of 2020, we contributed $6 million to our retirement plans and expect to make additional required contributions of approximately $4 million to our retirement plans during the remainder of the year. We may elect to make additional non-required contributions depending on investment performance or any potential deterioration of our pension plan status in the second half of 2020.

Financial information shown above is based on market conditions as of December 31, 2019. Significant changes in interest rates, asset values and economic conditions have occurred since then, which could affect the information shown herein, although as of June 30, 2020, market conditions at that time had minimal effect on the funded status of the pension plans due to the plans' investment policies (primarily fixed income investments intended to track movements in the bonds used to determine the discount rate). Effects of the 2019 novel coronavirus ("COVID-19") on the financial markets, regulations, and plan experience are uncertain and still evolving. The short-term and long-term effects of COVID-19 may have significant effects on future measurements.

7. Stock-Based Compensation

We issue stock-based incentive awards to our eligible employees under the 2019 Stock Incentive Plan ("2019 Plan") and to our eligible non-employee Directors under a Director Deferred Stock Ownership Plan. The 2019 Plan permits the granting of incentive stock options, nonqualified stock options, stock appreciation rights, performance stock, restricted stock and other stock-based awards.

For the three and six months ended June 30, 2020 and 2019, total stock-based compensation expense primarily related to restricted stock and unit awards was $11 million and $21 million, respectively, and $22 million and $33 million, respectively. Total unrecognized compensation expense related to unvested restricted stock and unit awards as of June 30, 2020 was $91 million, which is expected to be recognized over a weighted average period of 1.1 years.

8. Equity

Stock Repurchases

On January 29, 2020, the Board of Directors approved a share repurchase program authorizing the purchase of 30 million shares (the "2020 Repurchase Program"), which was approximately 12% of the total shares of our outstanding common stock at that time. On December 4, 2013, the Board of Directors approved a share repurchase program authorizing the purchase of 50 million shares (the "2013 Repurchase Program"), which was approximately 18% of the total shares of our outstanding common stock at that time.

Our purchased shares may be used for general corporate purposes, including the issuance of shares for stock compensation plans and to offset the dilutive effect of the exercise of employee stock options. As of June 30, 2020, 30 million shares remained available under the 2020 Repurchase Program and 1.3 million shares remained available under the 2013 repurchase program. Our 2020 Repurchase Program and 2013 Repurchase Program have no expiration date and purchases under these programs may be made from time to time on the open market and in private transactions, depending on market conditions.

We have entered into accelerated share repurchase ("ASR") agreements with financial institutions to initiate share repurchases of our common stock. Under an ASR agreement, we pay a specified amount to the financial institution and receive an initial delivery of shares. This initial delivery of shares represents the minimum number of shares that we may receive under the agreement. Upon settlement of the ASR agreement, the financial institution delivers additional shares. The total number of shares ultimately delivered, and therefore the average price paid per share, is determined at the end of the applicable purchase period of each ASR agreement based on the volume weighted-average share price, less a discount. We account for our ASR agreements as two transactions: a stock purchase transaction and a forward stock purchase contract. The shares delivered under the ASR agreements resulted in a reduction of outstanding shares used to determine our weighted average common shares outstanding for purposes of calculating basic and diluted earnings per share. The repurchased shares are held in Treasury. The forward stock purchase contracts were classified as equity instruments. The ASR agreements were executed under our 2013 Repurchase Program, approved on December 4, 2013.

The terms of each ASR agreement entered for the periods ended June 30, 2020 and 2019, structured as outlined above, are as follows:

(in millions, except average price)

ASR Agreement Initiation Date	ASR Agreement Completion Date	Initial Shares Delivered	Additional Shares Delivered	Total Number of Shares Purchased	Average Price Paid Per Share	Total Cash Utilized
February 11, 2020 [1]	July 27, 2020	1.3	0.4	1.7	$ 292.13	$ 500
February 11, 2020 [2]	July 27, 2020	1.4	0.3	1.7	$ 292.13	$ 500
February 11, 2019 [3]	July 31, 2019	2.2	0.1	2.3	$ 214.65	$ 500

[1] The ASR agreement was structured as a capped ASR agreement in which we paid $500 million and received an initial delivery of 1.3 million shares and an additional amount of 0.2 million during the month of February, representing a minimum number of shares of our common stock to be repurchased based on a calculation using a specified capped price per share. We completed the ASR agreement on July 27, 2020 and received an additional 0.2 million shares.

[2] The ASR agreement was structured as an uncapped ASR agreement in which we paid $500 million and received an initial delivery of 1.4 million shares, representing 85% of the $500 million at a price equal to the then market price of the Company. We completed the ASR agreement on July 27, 2020 and received an additional 0.3 million shares.

[3] The ASR agreement was structured as an uncapped ASR agreement in which we paid $500 million and received an initial delivery of 2.2 million shares, representing 85% of the $500 million at a price equal to the then market price of the Company. We completed the ASR agreement on July 31, 2019 and received an additional 0.1 million shares.

Additionally, we purchased shares of our common stock in the open market for the periods ended June 30 as follows:

(in millions, except average price)	Total number of shares purchased	Average price paid per share	Total cash utilized
Three Months			
June 30, 2020	—	$ —	$ —
June 30, 2019	—	$ —	$ —
Six Months			
June 30, 2020	0.5	$ 291.99	$ 150
June 30, 2019	0.8	$ 184.51	$ 144.00

During the six months ended June 30, 2020, we purchased a total of 3.4 million shares for $1,150 million of cash. During the fourth quarter of 2019, we repurchased shares for $3 million, which settled in the first quarter of 2020, resulting in $1,153 million of cash used to repurchase shares. During the six months ended June 30, 2019, we received 3.4 million shares, including 0.4 million shares received in January of 2019 related to our October 29, 2018 ASR agreement, resulting in $644 million of cash used to repurchase shares.

Redeemable Noncontrolling Interests

The agreement with the minority partners that own 27% of our S&P Dow Jones Indices LLC joint venture contains redemption features whereby interests held by minority partners are redeemable either (i) at the option of the holder or (ii) upon the occurrence of an event that is not solely within our control. Specifically, under the terms of the operating agreement of S&P Dow Jones Indices LLC, CME Group and CME Group Index Services LLC ("CGIS") has the right at any time to sell, and we are obligated to buy, at least 20% of their share in S&P Dow Jones Indices LLC. In addition, in the event there is a change of control of the Company, for the 15 days following a change in control, CME Group and CGIS will have the right to put their interest to us at the then fair value of CME Group's and CGIS' minority interest.

If interests were to be redeemed under this agreement, we would generally be required to purchase the interest at fair value on the date of redemption. This interest is presented on the consolidated balance sheets outside of equity under the caption “Redeemable noncontrolling interest” with an initial value based on fair value for the portion attributable to the net assets we acquired, and based on our historical cost for the portion attributable to our S&P Index business. We adjust the redeemable noncontrolling interest each reporting period to its estimated redemption value, but never less than its initial fair value, using both income and market valuation approaches. Our income and market valuation approaches incorporate Level 3 fair value measures for instances when observable inputs are not available. The more significant judgmental assumptions used to estimate the value of the S&P Dow Jones Indices LLC joint venture include an estimated discount rate, a range of assumptions that form the basis of the expected future net cash flows (e.g., the revenue growth rates and operating margins), and a company specific beta. The significant judgmental assumptions used that incorporate market data, including the relative weighting of market observable information and the comparability of that information in our valuation models, are forward-looking and could be affected by future economic and market conditions. Any adjustments to the redemption value will impact retained income.

Noncontrolling interests that do not contain such redemption features are presented in equity.

Changes to redeemable noncontrolling interest during the six months ended June 30, 2020 were as follows:

(in millions)	
Balance as of December 31, 2019	$ 2,268
Net income attributable to noncontrolling interest	95
Distributions payable to noncontrolling interest	(84)
Redemption value adjustment	124
Balance as of June 30, 2020	$ 2,403

Accumulated Other Comprehensive Loss

The following table summarizes the changes in the components of accumulated other comprehensive loss for the six months ended June 30, 2020:

(in millions)	Foreign Currency Translation Adjustments	Pension and Postretirement Benefit Plans	Unrealized Gain (Loss) on Foreign Forward Exchange Contracts	Accumulated Other Comprehensive Loss
Balance as of December 31, 2019	$ (321)	$ (305)	$ 2	$ (624)
Other comprehensive (loss) income before reclassifications	(52) [1]	(33)	(7)	(92)
Reclassifications from accumulated other comprehensive income (loss) to net earnings	—	8 [2]	4 [3]	12
Net other comprehensive (loss) income	(52)	(25)	(3)	(80)
Balance as of June 30, 2020	$ (373)	$ (330)	$ (1)	$ (704)

1 Includes an unrealized gain related to the cross currency swaps entered into in December 2019. See note 5 – Derivative Instruments for additional detail of items recognized in accumulated other comprehensive loss.

2 Reflects amortization of net actuarial losses and is net of a tax benefit of $1 million for the six months ended June 30, 2020. See Note 6 — Employee Benefits for additional details of items reclassed from accumulated other comprehensive loss to net earnings.

3 See Note 5 — Derivative Instruments for additional details of items reclassified from accumulated other comprehensive loss to net earnings.

9. Earnings Per Share

Basic earnings per common share ("EPS") is computed by dividing net income attributable to the common shareholders of the Company by the weighted-average number of common shares outstanding. Diluted EPS is computed in the same manner as basic EPS, except the number of shares is increased to include additional common shares that would have been outstanding if potential common shares with a dilutive effect had been issued. Potential common shares consist primarily of stock options and restricted performance shares calculated using the treasury stock method.

The calculation of basic and diluted EPS for the periods ended June 30 is as follows:

(in millions, except per share amounts)	Three Months		Six Months	
	2020	2019	2020	2019
Amounts attributable to S&P Global Inc. common shareholders:				
Net income	$ 792	$ 555	$ 1,431	$ 965
Basic weighted-average number of common shares outstanding	240.9	246.1	241.5	246.4
Effect of stock options and other dilutive securities	1.0	1.3	1.1	1.5
Diluted weighted-average number of common shares outstanding	241.9	247.4	242.6	247.9
Earnings per share attributable to S&P Global Inc. common shareholders:				
Net income:				
Basic	$ 3.29	$ 2.25	$ 5.92	$ 3.92
Diluted	$ 3.28	$ 2.24	$ 5.90	$ 3.89

We have certain stock options and restricted performance shares that are potentially excluded from the computation of diluted EPS. The effect of the potential exercise of stock options is excluded when the average market price of our common stock is lower than the exercise price of the related option during the period or when a net loss exists because the effect would have been antidilutive. Additionally, restricted performance shares are excluded because the necessary vesting conditions had not been met or when a net loss exists. For the three and six months ended June 30, 2020 and 2019, there were no stock options excluded. Restricted performance shares outstanding of 0.6 million as of June 30, 2020 and 2019, respectively, were excluded.

10. Restructuring

We continuously evaluate our cost structure to identify cost savings associated with streamlining our management structure. Our 2020 and 2019 restructuring plan consisted of a company-wide workforce reduction of approximately 90 and 300 positions, respectively, and are further detailed below. The charges for the restructuring plans are classified as selling and general expenses within the consolidated statements of income and the reserves are included in other current liabilities in the consolidated balance sheets.

In certain circumstances, reserves are no longer needed because of efficiencies in carrying out the plans or because employees previously identified for separation resigned from the Company and did not receive severance or were reassigned due to circumstances not foreseen when the original plans were initiated. In these cases, we reverse reserves through the consolidated statements of income during the period when it is determined they are no longer needed.

The initial restructuring charge recorded and the ending reserve balance as of June 30, 2020 by segment is as follows:

	2020 Restructuring Plan		2019 Restructuring Plan	
(in millions)	Initial Charge Recorded	Ending Reserve Balance	Initial Charge Recorded	Ending Reserve Balance
Ratings	$ —	$ —	$ 11	$ 1
Market Intelligence	2	1	6	3
Platts	—	—	1	—
Corporate	10	7	7	3
Total	$ 12	$ 8	$ 25	$ 7

We recorded a pre-tax restructuring charge of $12 million primarily related to employee severance charges for the 2020 restructuring plan during the six months ended June 30, 2020 and have reduced the reserve by $4 million. The ending reserve balance for the 2019 restructuring plan was $18 million as of December 31, 2019. For the six months ended June 30, 2020, we have reduced the reserve for the 2019 restructuring plan by $11 million. The reductions primarily related to cash payments for employee severance charges.

11. Segment and Related Information

We have four reportable segments: Ratings, Market Intelligence, Platts and Indices. Our Chief Executive Officer is our chief operating decision-maker and evaluates performance of our segments and allocates resources based primarily on operating profit. Segment operating profit does not include Corporate Unallocated, other expense, net, or interest expense, net, as these are amounts that do not affect the operating results of our reportable segments.

In the first quarter of 2020, we changed our allocation methodology for allocating our centrally managed technology-related expenses to our reportable segments to more accurately reflect each segment's respective usage. Prior-year amounts have been reclassified to conform with current presentation.

A summary of operating results for the periods ended June 30 is as follows:

Revenue	Three Months		Six Months	
(in millions)	2020	2019	2020	2019
Ratings	$ 1,006	$ 801	$ 1,831	$ 1,497
Market Intelligence	516	487	1,034	969
Platts	217	213	433	420
Indices	240	235	499	452

Revenue for Ratings and expenses for Market Intelligence include an intersegment royalty charged to Market Intelligence for the rights to use and distribute content and data developed by Ratings.

Operating profit for the three and six months ended June 30, 2019 includes employee severance charges of $11 million. Operating profit also includes amortization of intangibles from acquisitions of $2 million for the three and six months ended June 30, 2020 and $1 million for the three and six months ended June 30,2019.

Operating profit for the three and six months ended June 30, 2020 includes a gain on disposition of $1 million and $8 million, respectively. Operating profit for the six months ended June 30, 2020 also includes employee severance charges of $2 million. Operating profit for the three and six months ended June 30, 2019 includes employee severance charges of $1 million. Operating profit also includes amortization of intangibles from acquisitions of $20 million and $19 million for the three months ended June 30, 2020 and 2019, respectively, and $39 million and $37 million for the six months ended June 30, 2020 and 2019, respectively.

Operating profit for the three and six months ended June 30, 2019 includes employee severance charges of $1 million. Operating profit includes amortization of intangibles from acquisitions of $2 million and $3 million for the three months ended June 30, 2020 and 2019, respectively, and $4 million and $7 million for the six months ended June 30, 2020 and 2019, respectively.

Operating profit includes amortization of intangibles from acquisitions of $1 million for the three months ended June 30, 2020 and 2019 and $3 million for the six months ended June 30, 2020 and 2019.

Corporate Unallocated expense for the three and six months ended June 30, 2020 includes employee severance charges of $3 million and $10 million, respectively, and Kensho retention related expense of $2 million and $7 million, respectively. Corporate Unallocated Expense for the three and six months ended June 30, 2019 includes Kensho related expenses $5 million and $11 million, respectively, employee severance charges of $7 million, and a lease impairment of $5 million. Corporate Unallocated expense also includes amortization of intangibles from acquisitions of $7 million and $13 million for the three and six months ended June 30, 2020, respectively, and $7 million and $14 million for the three and six months ended June 30, 2019, respectively.

[1] Intersegment eliminations primarily consists of a royalty charged to Market Intelligence for the rights to use and distribute content and data developed by Ratings.

[2] In the third quarter of 2019, we reevaluated our transaction and non-transaction presentation which resulted in a reclassification from transaction revenue to non-transaction revenue of $7 million and $14 million for the three and six months ended June 30, 2019.

The following provides revenue by geographic region for the periods ended June 30:

(in millions)	Three Months		Six Months	
	2020	2019	2020	2019
U.S.	$ 1,200	$ 1,014	$ 2,308	$ 1,957
European region	450	422	855	794
Asia	187	178	371	348
Rest of the world	106	90	195	176
Total	$ 1,943	$ 1,704	$ 3,729	$ 3,275

See Note 2 — *Acquisitions and Divestitures* and Note 10 — *Restructuring* for additional actions that impacted the segment operating results.

12. Commitments and Contingencies

Leases

We determine whether an arrangement meets the criteria for an operating lease or a finance lease at the inception of the arrangement. We have operating leases for office space and equipment. Our leases have remaining lease terms of 1 year to 13 years, some of which include options to extend the leases for up to 12 years, and some of which include options to terminate the leases within 1 year. We consider these options in determining the lease term used to establish our right of use ("ROU") assets and associated lease liabilities. We sublease certain real estate leases to third parties which mainly consist of operating leases for space within our offices.

Leases with an initial term of 12 months or less are not recorded on the balance sheet; we recognize lease expenses for these leases on a straight line-basis over the lease term in operating-related expenses and selling and general expenses.

Operating lease ROU assets and operating lease liabilities are recognized based on the present value of future minimum lease payments over the lease term at commencement date. Our future minimum based payments used to determine our lease liabilities include minimum based rent payments and escalations. As most of our leases do not provide an implicit rate, we use our estimated incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments.

The following table provides information on the location and amounts of our leases on our consolidated balance sheets as of June 30, 2020 and December 31, 2019:

(in millions)		June 30,	December 31,
Balance Sheet Location		**2020**	**2019**
Assets			
Right of use assets	Lease right of use assets	$ 626	$ 676
Liabilities			
Other current liabilities	Current lease liabilities	103	112
Lease liabilities — non-current	Non-current lease liabilities	578	620

The components of lease expense for the periods ended June 30 are as follows:

(in millions)	Three Months		Six Months	
	2020	**2019**	**2020**	**2019**
Operating lease cost	$ 39	$ 41	$ 75	$ 77
Sublease income	(1)	(4)	(5)	(8)
Total lease cost	$ 38	$ 37	$ 70	$ 69

Supplemental information related to leases for the periods ended June 30 are as follows:

(in millions)	Three Months		Six Months	
	2020	**2019**	**2020**	**2019**
Cash paid for amounts included in the measurement for operating lease liabilities				
Operating cash flows from operating leases	$ 33	$ 36	72	71
Right of use assets obtained in exchange for lease obligations				
Operating leases	—	23	6	737

Weighted-average remaining lease term and discount rate for our operating leases are as follows:

	June 30, 2020	December 31, 2019
Weighted-average remaining lease term (years)	8.7	9.0
Weighted-average discount rate	3.84 %	3.93 %

Maturities of lease liabilities for our operating leases are as follows:

(in millions)	
2020 (Excluding the six months ended June 30, 2020)	$ 64
2021	116
2022	100
2023	82
2024	66
2025 and beyond	358
Total undiscounted lease payments	$ 786
Less: Imputed interest	105
Present value of lease liabilities	$ 681

Related Party Agreements

In June of 2012, we entered into a license agreement (the "License Agreement") with the holder of S&P Dow Jones Indices LLC noncontrolling interest, CME Group, replacing the 2005 license agreement between Indices and CME Group. Under the terms of the License Agreement, S&P Dow Jones Indices LLC receives a share of the profits from the trading and clearing of CME Group's equity index products. During the three and six months ended June 30, 2020, S&P Dow Jones Indices LLC earned $40 million and $87 million, respectively, of revenue under the terms of the License Agreement. During the three and six months ended June 30, 2019, S&P Dow Jones Indices LLC earned $30 million and $59 million, respectively, of revenue under the terms of the License Agreement. The entire amount of this revenue is included in our consolidated statement of income and the portion related to the 27% noncontrolling interest is removed in net income attributable to noncontrolling interests.

Legal and Regulatory Matters

In the normal course of business both in the United States and abroad, the Company and its subsidiaries are defendants in a number of legal proceedings and are often the subject of government and regulatory proceedings, investigations and inquiries.

In the second quarter of 2020, Indices, a joint venture with CME Group controlled by the Company, received a “Wells Notice” from the Staff of the SEC stating that the Staff has made a preliminary determination to recommend that the SEC file an enforcement action against Indices. The proposed action would allege violations of federal securities laws with respect to the absence of disclosure of a quality assurance mechanism and the impact of that mechanism on certain volatility related index values published on one business day in 2018. The Staff’s recommendation may involve a civil injunctive action, a cease and desist proceeding, disgorgement, pre-judgment interest and civil money penalties. The Wells Notice is neither a formal allegation nor a finding of wrongdoing. It allows Indices the opportunity to provide its perspective and to address the issues raised by the Staff before any decision is made by the SEC on whether to authorize the commencement of an enforcement proceeding. Indices has been cooperating with the SEC in this matter and intends to continue to do so.

From time to time, the Company receives customer complaints, particularly, though not exclusively, in its Ratings and Indices segments. The Company believes it has strong contractual protections in the terms and conditions included in its arrangements with customers. Nonetheless, in the interest of managing customer relationships, the Company from time to time engages in dialogue with such customers in an effort to resolve such complaints, and if such complaints cannot be resolved through dialogue, may face litigation regarding such complaints. The Company does not expect to incur material losses as a result of these matters.

In addition, various government and self-regulatory agencies frequently make inquiries and conduct investigations into our compliance with applicable laws and regulations, including those related to ratings activities and antitrust matters. For example, as a nationally recognized statistical rating organization registered with the SEC under Section 15E of the Securities Exchange Act of 1934, S&P Global Ratings is in ongoing communication with the staff of the SEC regarding compliance with its extensive obligations under the federal securities laws. Although S&P Global seeks to promptly address any compliance issues that it detects or that the staff of the SEC or another regulator raises, there can be no assurance that the SEC or another regulator will not seek remedies against S&P Global for one or more compliance deficiencies. Any of these proceedings, investigations or inquiries could ultimately result in adverse judgments, damages, fines, penalties or activity restrictions, which could adversely impact our consolidated financial condition, cash flows, business or competitive position.

In view of the uncertainty inherent in litigation and government and regulatory enforcement matters, we cannot predict the eventual outcome of such matters or the timing of their resolution, or in most cases reasonably estimate what the eventual judgments, damages, fines, penalties or impact of activity (if any) restrictions may be. As a result, we cannot provide assurance that such outcomes will not have a material adverse effect on our consolidated financial condition, cash flows, business or competitive position. As litigation or the process to resolve pending matters progresses, as the case may be, we will continue to review the latest information available and assess our ability to predict the outcome of such matters and the effects, if any, on our consolidated financial condition, cash flows, business or competitive position, which may require that we record liabilities in the consolidated financial statements in future periods.

13. Recently Issued or Adopted Accounting Standards

In January of 2020, the Financial Accounting Standards Board ("FASB") issued guidance intended to clarify the interaction of the accounting for equity securities under Accounting Standards Codification ("ASC") 321, investments accounted for under the equity method of accounting under ASC 323, and the accounting for certain forward contracts and purchased options accounted for under ASC 815. This guidance could change how the Company accounts for an equity security under the measurement alternative. The guidance is effective for reporting periods beginning after December 15, 2020; however early adoption is permitted. We are currently evaluating the impact of the adoption of this guidance on our consolidated financial statements.

In December of 2019, the FASB issued guidance to simplify the accounting for income taxes. The guidance eliminates certain exceptions to the general principles of Topic 740. The guidance is effective for reporting periods after December 15, 2020; however, early adoption is permitted. We are currently evaluating the impact of the adoption of this guidance on our consolidated financial statements.

In November of 2018, the FASB issued guidance that provides clarification on whether certain transactions between collaborative arrangement participants should be accounted for as revenue under ASC 606. The guidance was effective on January 1, 2020, and the adoption of this guidance did not have a significant impact on our consolidated financial statements.

In August of 2018, the FASB issued guidance to align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The guidance was effective on January 1, 2020, and the adoption of this guidance did not have a significant impact on our consolidated financial statements.

In January of 2017, the FASB issued guidance that simplifies the subsequent measurement of goodwill and eliminates Step 2 from the goodwill impairment test. Under the new guidance, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. Additionally, an entity should consider income tax effects from any tax deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment loss, if applicable. The guidance was effective on January 1, 2020, and the adoption of this guidance did not have a significant impact on our consolidated financial statements.

In June of 2016, the FASB issued guidance amending the measurement of credit losses on certain financial instruments by requiring the use of an expected loss methodology, which will result in more timely recognition of credit losses. We adopted this guidance on January 1, 2020. The adoption of this guidance impacted our process for assessing the adequacy of our allowance for doubtful accounts on accounts receivable and contract assets by incorporating data points that provide indicators of future economic conditions including forecasted industry default rates and industry index benchmarks in concert with our historical process contemplating experienced receivable write off rates from past events and current economic conditions. The

adoption of this guidance did not have a significant impact on our consolidated financial statements. During the six months ended June 30, 2020, we incorporated the forecasted impact of future economic conditions into our allowance for doubtful accounts measurement process including the expected adverse impact of COVID-19 on the global economy.

14. Condensed Consolidating Financial Statements

On November 26, 2019, we issued $500 million of 2.5% senior notes due in 2029 and $600 million of 3.25% senior notes due in 2049. In the fourth quarter of 2019, we used the net proceeds to fund the redemption of the $700 million outstanding principal amount of our 3.3% senior notes due in August of 2020 and a portion of the $400 million outstanding principal amount of our 6.55% senior notes due in October of 2037. On May 17, 2018, we issued $500 million of 4.5% notes due in 2048. On September 22, 2016, we issued $500 million of 2.95% senior notes due in 2027. On May 26, 2015, we issued $700 million of 4.0% senior notes due in 2025. On August 18, 2015, we issued $2.0 billion of senior notes, consisting of $400 million of 2.5% senior notes that were repaid in 2018, $700 million of 3.3% senior notes due in 2020 and $900 million of 4.4% senior notes due in 2026. See Note 4 — *Debt* for additional information.

The senior notes described above are fully and unconditionally guaranteed by Standard & Poor's Financial Services LLC, a 100% owned subsidiary of the Company. The following condensed consolidating financial statements present the results of operations, financial position and cash flows of S&P Global Inc., Standard & Poor's Financial Services LLC, and the Non-Guarantor Subsidiaries of S&P Global Inc. and Standard & Poor's Financial Services LLC, and the eliminations necessary to arrive at the information for the Company on a consolidated basis.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Unaudited)

The following Management's Discussion and Analysis ("MD&A") provides a narrative of the results of operations and financial condition of S&P Global Inc. (together with its consolidated subsidiaries, "S&P Global," the "Company," "we," "us" or "our") for the three and six months ended June 30, 2020. The MD&A should be read in conjunction with the consolidated financial statements, accompanying notes and MD&A included in our Form 10-K for the year ended December 31, 2019 (our "Form 10-K"), which have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The MD&A includes the following sections:

- Overview
- Results of Operations — Comparing the Three and Six Months Ended June 30, 2020 and 2019
- Liquidity and Capital Resources
- Reconciliation of Non-GAAP Financial Information
- Critical Accounting Estimates
- Recently Issued or Adopted Accounting Standards
- Forward-Looking Statements

OVERVIEW

We are a leading provider of transparent and independent ratings, benchmarks, analytics and data to the capital and commodity markets worldwide. The capital markets include asset managers, investment banks, commercial banks, insurance companies, exchanges, trading firms and issuers; and the commodity markets include producers, traders and intermediaries within energy, petrochemicals, metals and agriculture.

Our operations consist of four reportable segments: S&P Global Ratings ("Ratings"), S&P Global Market Intelligence ("Market Intelligence"), S&P Global Platts ("Platts") and S&P Dow Jones Indices ("Indices").

- Ratings is an independent provider of credit ratings, research, and analytics, offering investors and other market participants information, ratings and benchmarks.
- Market Intelligence is a global provider of multi-asset-class data, research and analytical capabilities, which integrate cross-asset analytics and desktop services.
- Platts is the leading independent provider of information and benchmark prices for the commodity and energy markets.
- Indices is a global index provider maintaining a wide variety of valuation and index benchmarks for investment advisors, wealth managers and institutional investors.

Key results for the periods ended June 30 are as follows:

(in millions, except per share amounts)	Three Months			Six Months		
	2020	2019	% Change [1]	2020	2019	% Change [1]
Revenue	$ 1,943	$ 1,704	14%	$ 3,729	$ 3,275	14%
Operating profit [2]	$ 1,105	$ 813	36%	$ 2,017	$ 1,518	33%
Operating margin %	57 %	48 %		54 %	46 %	
Diluted earnings per share from net income	$ 3.28	$ 2.24	46%	$ 5.90	$ 3.89	51%

[1] % changes in the tables throughout the MD&A are calculated off of the actual number, not the rounded number presented.

[2] Operating profit for the three months ended June 30, 2020 includes employee severance charges of $3 million, Kensho retention related expense of $2 million and a gain on disposition of $1 million. Operating profit for the six months ended June 30, 2020 includes employee severance charges of $12 million, a gain on disposition of $8 million and Kensho retention related expense of $7 million. Operating profit for the three and six months ended June 30, 2019 includes employee severance charges of $20 million and a lease impairment of $5 million. Additionally, operating profit for the three and six months ended June 30, 2019 includes Kensho retention related expense of $5 million and $11 million, respectively. Operating profit also includes amortization of intangibles from acquisitions of $32 million and $31 million for the three months ended June 30, 2020 and 2019, respectively, and $61 million and $63 million for the six months ended June 30, 2020 and 2019, respectively.

Three Months

Revenue increased 14% driven by increases at all of our reportable segments. Revenue growth at Ratings was mainly driven by an increase in transaction revenue due to higher corporate bond ratings revenue, partially offset by a decrease in bank loan ratings revenue and structured finance revenue. Revenue growth at Market Intelligence was driven by annualized contract value growth in Market Intelligence Desktop products, Credit Risk Solutions and Data Management Solutions. Revenue growth at Indices was due to higher exchange-traded derivatives trading volumes and an increase in data subscription revenue, partially offset by the unfavorable impact of benefits related to a contract renegotiation and retrospective fee that were recognized in the second quarter of 2019. The revenue increase at Platts was primarily due to continued demand for market data and price assessment products. Foreign exchange rates had an unfavorable impact of less than 1 percentage point.

Operating profit increased 36%, with a favorable impact from foreign exchange rates of 1 percentage point. Excluding the impact of higher employee severance charges in 2019 of 4 percentage points and a lease impairment charge in 2019 of 1 percentage point, operating profit increased 31%. The increase was primarily due to revenue growth at all of our reportable segments combined with a reduction in expenses driven by a decrease in travel and entertainment expenses from non-essential travel restrictions in response to the 2019 novel coronavirus ("COVID-19"), lower professional fees at Ratings from increased leverage from the Global Technology Center, lower costs due to the postponement of events due to COVID-19 and the favorable impact of foreign exchange rates, partially offset by higher compensation costs driven by annual merit increases and additional headcount.

Six Months

Revenue increased 14% driven by increases at all of our reportable segments. Revenue growth at Ratings was mainly driven by an increase in transaction revenue due to higher corporate bond ratings revenue, partially offset by a decrease in bank loan ratings revenue. Revenue growth at Market Intelligence was driven by annualized contract value growth in Market Intelligence Desktop products, Credit Risk Solutions and Data Management Solutions. Revenue growth at Indices was due to higher exchange-traded derivatives trading volumes, higher average levels of assets under management ("AUM") for ETFs and an increase in data subscription revenue. The revenue increase at Platts was primarily due to continued demand for market data and price assessment products. Foreign exchange rates had an unfavorable impact of less than 1 percentage point.

Operating profit increased 33%, with a favorable impact from foreign exchange rates of 2 percentage points. Excluding the favorable impact of a gain on disposition of 1 percentage point, higher employee severance charges in 2019 of 1 percentage point, a lease impairment charge in 2019 of 1 percentage point and higher Kensho retention related expense in 2019 of 1 percentage point, operating profit increased 29%. The increase was primarily due to revenue growth at all of our reportable segments combined with a reduction in expenses driven by a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19, lower professional fees at Ratings from increased leverage from the Global Technology Center, lower costs due to the postponement of events due to COVID-19 and the favorable impact of foreign exchange rates, partially offset by higher compensation costs driven by annual merit increases and additional headcount.

We are closely monitoring the impact of the outbreak of COVID-19 on all aspects of our business. While COVID-19 did not have a material adverse effect on our reported results for the three and six months ended June 30, 2020, we are unable to predict the ultimate impact that it may have on our business, future results of operations, financial position or cash flows. While we have modeled and updated the financial implications of three and six month recovery scenarios, factoring in data points from both internal and external economists and a range of observable market sources and incorporated the impact into our 2020 guidance expectations, the extent to which our results of operations may be impacted by the COVID-19 pandemic will depend largely on future developments, which are uncertain and cannot be accurately predicted.

Our Strategy

We are a leading provider of transparent and independent ratings, benchmarks, analytics and data to the capital and commodity markets worldwide. Our purpose is to provide the intelligence that is essential for companies, governments and individuals to make decisions with conviction. We seek to deliver on this purpose in line with our core values of integrity, excellence and relevance.

In 2018, we announced the launch of Powering the Markets of the Future to provide a framework for our forward-looking business strategy. Through this framework, we seek to deliver an exceptional, differentiated customer experience by enhancing our foundational capabilities, evolving and growing our core businesses, and pursuing growth via adjacencies. In 2020, we will strive to deliver on our strategic priorities in the following key areas:

Finance

- Meeting or exceeding revenue growth and EBITA margin targets and delivering on commitments to return capital to shareholders;
- Funding organic opportunities with continued productivity gains;
- Pursuing a disciplined acquisition, investment and partnership strategy to support our strategic initiatives; and
- Better serving our customers, employees, and the communities in which we operate through our commitment to corporate responsibility and sustainability.

Customer

- Continuing to drive excellence through our core business offerings;
- Delivering ESG, Small and Medium-sized Enterprise data and Marketplace solutions to market on schedule and with strong commercial traction;
- Modernizing and enhancing the delivery of our products across multiple channels (e.g., S&P Global Platform, MI Smart move, feeds, application programming interfaces);
- Providing a superior customer experience through the collective efforts of our divisions and functions; and
- Accelerating growth in non-U.S. markets with a particular focus on progressing our businesses in China.

Operations

- Modernizing our workplace to improve end-user productivity and experience, enabling our employees to innovate and better serve our customers;
- Standardizing and simplifying our technology to best support and enable our divisions;
- Reducing our Cyber Security risk while augmenting process maturity and producing outcomes commensurate with our risk appetite;
- Maintaining our strong commitment to quality, utilizing shared data processes and capabilities; and
- Continuing to advance a strong Risk, Internal Control, and Compliance environment.

People

- Creating an inclusive performance-driven culture that drives employee engagement and aligns with our purpose of accelerating progress in the world;
- Promoting career mobility and attracting and retaining the best people; and
- Improving diversity in overall representation through talent acquisition, advancement and retention.

There can be no assurance that we will achieve success in implementing any one or more of these strategies as a variety of factors could unfavorably impact operating results, including prolonged difficulties in the global credit markets and a change in the regulatory environment affecting our businesses. See Item 1A, *Risk Factors* in this Form 10-Q and our most recently filed Annual Report on Form 10-K.

RESULTS OF OPERATIONS — COMPARING THE THREE AND SIX MONTHS ENDED JUNE 30, 2020 AND 2019

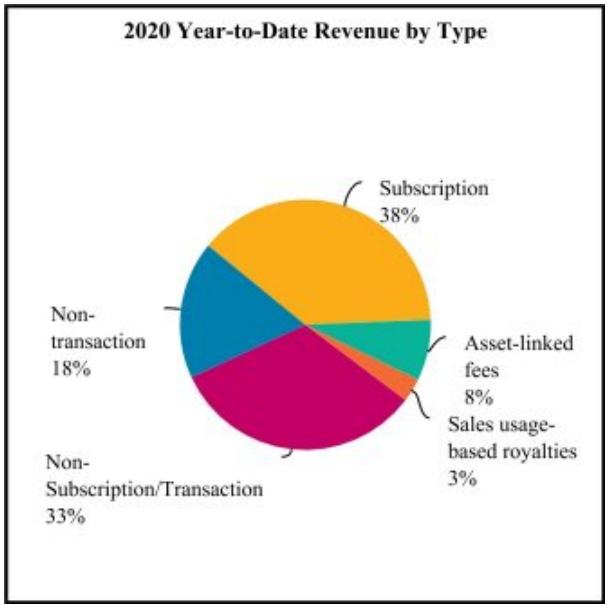

Consolidated Review

% of total revenue:						
U.S. revenue	62 %	60 %		62 %	60 %	
International revenue	38 %	40 %		38 %	40 %	

Three Months

Subscription revenue increased primarily from growth in Market Intelligence's average contract values and continued demand for Platts proprietary content. Higher data subscription revenue at Indices also contributed to subscription revenue growth. Non-transaction revenue increased primarily due to an increase in surveillance and royalty revenue, partially offset by lower entity credit ratings revenue, a decline in Ratings Evaluation Service ("RES") activity and the unfavorable impact of foreign exchange rates. Non-subscription / transaction revenue increased due to an increase in corporate bond ratings revenue, partially offset by lower bank loan ratings revenue and structured finance revenue at Ratings. Asset linked fees decreased reflecting unfavorable impact of a benefit that was recognized in the second quarter of 2019 at Indices. The increase in sales-usage based royalties was primarily driven by higher exchange-traded derivative volumes at Indices. See “Segment Review” below for further information.

The unfavorable impact of foreign exchange rates reduced revenue by less than 1 percentage point. This impact refers to constant currency comparisons estimated by recalculating current year results of foreign operations using the average exchange rate from the prior year.

Six Months

Subscription revenue increased primarily from growth in Market Intelligence's average contract values and continued demand for Platts proprietary content. Higher data subscription revenue at Indices also contributed to subscription revenue growth. Non-transaction revenue increased primarily due to an increase in surveillance and royalty revenue, partially offset by lower entity credit ratings revenue, a decline in RES activity and the unfavorable impact of foreign exchange rates. Non-subscription / transaction revenue increased due to an increase in corporate bond ratings revenue, partially offset by a decrease in bank loan ratings revenue at Ratings. Asset linked fees increased due to the impact of higher average levels of assets under management for ETFs at Indices. The increase in sales-usage based royalties was primarily driven by higher exchange-traded derivative volumes at Indices. See “Segment Review” below for further information.

The unfavorable impact of foreign exchange rates reduced revenue by less than 1 percentage point. This impact refers to constant currency comparisons estimated by recalculating current year results of foreign operations using the average exchange rate from the prior year.

Total Expenses

The following tables provide an analysis by segment of our operating-related expenses and selling and general expenses for the periods ended June 30:

Three Months

(in millions)	2020		2019		% Change	
	Operating-related expenses	Selling and general expenses	Operating-related expenses	Selling and general expenses	Operating-related expenses	Selling and general expenses
Ratings [1]	$ 217	$ 86	$ 223	$ 109	(2)%	(21)%
Market Intelligence [2]	220	113	187	138	17%	(19)%
Platts [3]	45	44	48	48	(6)%	(9)%
Indices	37	30	37	33	(1)%	(10)%
Intersegment eliminations [4]	(34)	(2)	(32)	—	(6)%	-
Total segments	485	271	463	328	5%	(18)%
Corporate Unallocated expense [5]	8	24	8	40	(2)%	(39)%
Total	$ 493	$ 295	$ 471	$ 368	5%	(20)%

[1] In 2019, selling and general expenses include employee severance charges of $11 million.

[2] In 2019, selling and general expenses include employee severance charges of $1 million.

[3] In 2019, selling and general expenses include employee severance charges of $1 million.

[4] Intersegment eliminations primarily relate to a royalty charged to Market Intelligence for the rights to use and distribute content and data developed by Ratings.

[5] In 2020, selling and general expenses include employee severance charges of $3 million. In 2019, selling and general expenses include employee severance charges of $7 million and a lease impairment of $5 million. In 2020 and 2019, selling and general expenses include Kensho retention related expense of $2 million and $5 million, respectively.

Operating-Related Expenses

Operating-related expenses increased 5% driven by an increase at Market Intelligence due to higher compensation costs associated with investments in growth initiatives and the acquisition of 451 Research, LLC, as well as an increase in intersegment royalties tied to annualized contract value growth. This increase was partially offset by decreases at Ratings and Platts driven by a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19 and lower professional fees at Ratings from increased leverage from the Global Technology Center.

Intersegment eliminations primarily relate to a royalty charged to Market Intelligence for the rights to use and distribute content and data developed by Ratings.

Selling and General Expenses

Selling and general expenses decreased 20% primarily driven by decreases at Market Intelligence and Ratings and a decline in Corporate Unallocated expense. Excluding the impact of higher employee severance charges in 2019 of 4 percentage points, a lease impairment charge in 2019 of 1 percentage point and higher Kensho retention related expense in 2019 of 1 percentage point, selling and general expenses decreased 14%. This decrease was primarily driven by decreases at Market Intelligence and Ratings due to a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19.

Depreciation and Amortization

Depreciation and amortization decreased by less than 1% as a decrease in depreciation expense related to assets being fully amortized at Ratings was partially offset by an increase in amortization expense primarily from the acquisitions of RobecoSAM and 451 Research, LLC in January 2020 and December 2019, respectively.

Six Months

(in millions)	2020		2019		% Change	
	Operating-related expenses	Selling and general expenses	Operating-related expenses	Selling and general expenses	Operating-related expenses	Selling and general expenses
Ratings [1]	$ 439	$ 161	$ 447	$ 205	(2)%	(21)%
Market Intelligence [2]	447	239	367	282	22%	(15)%
Platts [3]	95	93	98	99	(3)%	(6)%
Indices	81	61	75	60	7%	2%
Intersegment eliminations [4]	(66)	(2)	(63)	—	(5)%	-
Total segments	996	552	925	646	8%	(14)%
Corporate Unallocated expense [5]	18	54	19	64	(5)%	(16)%
Total	$ 1,014	$ 606	$ 944	$ 709	7%	(15)%

[1] In 2019, selling and general expenses include employee severance charges of $11 million.

[2] In 2020, selling and general expenses include employee severance charges of $2 million. In 2019, selling and general expenses include employee severance charges of $1 million.

[3] In 2019, selling and general expenses include employee severance charges of $1 million.

[4] Intersegment eliminations primarily relate to a royalty charged to Market Intelligence for the rights to use and distribute content and data developed by Ratings.

[5] In 2020 and 2019, selling and general expenses include employee severance charges of $10 million and $7 million, respectively. In 2019, selling and general expenses include a lease impairment charge of $5 million. In 2020 and 2019**,** selling and general expenses include Kensho retention related expense of $7 million and $11 million, respectively.

Operating-Related Expenses

Operating-related expenses increased 7% driven by increases at Market Intelligence and Indices. The increase at Market Intelligence was primarily due to higher compensation costs driven by investments in growth initiatives and the acquisition of 451 Research, LLC, as well as an increase in intersegment royalties tied to annualized contract value growth. The increase at Indices was primarily due to higher compensation costs. These increases were partially offset by decreases at Ratings and Platts primarily due to a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19, the disposition of RigData, and lower professional fees at Ratings from increased leverage from the Global Technology Center.

Intersegment eliminations primarily relate to a royalty charged to Market Intelligence for the rights to use and distribute content and data developed by Ratings.

Selling and General Expenses

Selling and general expenses decreased 15%. Excluding the impact of higher employee severance charges in 2019 of 1 percentage point and a lease impairment charge in 2019 of 1 percentage point, selling and general expenses decreased 13%. This decrease was primarily driven by decreases at Market Intelligence and Ratings due to a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19.

Depreciation and Amortization

Depreciation and amortization decreased $2 million or 2% due to assets being fully amortized at Market Intelligence, Ratings and Platts and a decrease in amortization expense at Platts and Kensho. The decrease in amortization expense was partially offset by an increase from the acquisitions of RobecoSAM and 451 Research, LLC in January 2020 and December 2019, respectively.

Gain on Disposition

During the three and six months ended June 30, 2020, we completed the following disposition that resulted in a pre-tax gain of $1 million and $8 million, respectively, which was included in Gain on disposition in the consolidated statements of income:

- In January of 2020, Market Intelligence entered into a strategic alliance to transition S&P Global Market Intelligence's Investor Relations ("IR") webhosting business to Q4 Inc. ("Q4"), a third party provider of investor relations related services. This alliance will integrate Market Intelligence's proprietary data into Q4's portfolio of solutions, enabling further opportunities for commercial collaboration. In connection with transitioning its IR webhosting business to Q4, Market Intelligence made a minority investment in Q4. During the three months and six months ended June 30, 2020, we recorded a pre-tax gain of $1 million ($1 million after-tax) and $8 million ($8 million after-tax) in Gain on disposition in the consolidated statement of income related to the sale of IR.

Operating Profit

We consider operating profit to be an important measure for evaluating our operating performance and we evaluate operating profit for each of the reportable business segments in which we operate.

We internally manage our operations by reference to operating profit with economic resources allocated primarily based on each segment's contribution to operating profit. Segment operating profit is defined as operating profit before Corporate Unallocated. Segment operating profit is not, however, a measure of financial performance under U.S. GAAP, and may not be defined and calculated by other companies in the same manner.

In the first quarter of 2020, we changed our allocation methodology for allocating our centrally managed technology-related expenses to our reportable segments to more accurately reflect each segment's respective usage. Prior-year amounts have been reclassified to conform with current presentation.

The tables below reconcile segment operating profit to total operating profit for the periods ended June 30:

Three Months

(in millions)	2020	2019	% Change
Ratings [1]	$ 693	$ 460	51%
Market Intelligence [2]	159	137	16%
Platts [3]	124	111	12%
Indices [4]	171	163	5%
Total segment operating profit	1,147	871	32%
Corporate Unallocated expense [5]	(42)	(58)	28%
Total operating profit	$ 1,105	$ 813	36%

[1] 2019 includes employee severance charges of $11 million. 2020 and 2019 include amortization of intangibles from acquisitions of $2 million and $1 million, respectively.

[2] 2020 includes a gain on the disposition of Investor Relations of $1 million and 2019 includes employee severance charges of $1 million. 2020 and 2019 includes amortization of intangibles from acquisitions of $20 million and $19 million, respectively.

[3] 2019 includes employee severance charges of $1 million. 2020 and 2019 include amortization of intangibles from acquisitions of $2 million and $3 million, respectively.

[4] 2020 and 2019 include amortization of intangibles from acquisitions of $1 million.

[5] 2020 includes employee severance charges of $3 million. 2019 includes employee severance charges of $7 million and a lease impairment of $5 million. 2020 and 2019 include Kensho retention related expense of $2 million and $5 million, respectively. 2020 and 2019 include amortization of intangibles from acquisitions of $7 million.

Segment Operating Profit — Increased 32% as compared to 2019. Excluding the impact of higher employee severance charges in 2019 of 3 percentage points, operating profit increased 29%. The increase was primarily due to an increase in revenue at all of our reportable segments combined with a reduction in expenses driven by a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19, lower professional fees at Ratings from increased leverage from the Global Technology Center, lower costs due to the postponement of events due to COVID-19 and the favorable impact

of foreign exchange rates, partially offset by higher compensation costs driven by annual merit increases and additional headcount. See “Segment Review” below for further information.

Corporate Unallocated Expense— Corporate Unallocated expense includes costs for corporate functions, select initiatives, unoccupied office space and Kensho, included in selling and general expenses. Corporate Unallocated expense decreased 28% compared to 2019. Excluding the impact of a lease impairment charge in 2019 of 6 percentage points, higher employee severance charges in 2019 of 5 percentage points and higher Kensho retention related expense in 2019 of 3 percentage points, Corporate Unallocated expense decreased 14% driven by lower rental expense from a reduction in the Company's real estate footprint and lower professional fees, partially offset by a contribution to the S&P Global Foundation made in 2020.

Foreign exchange rates had a favorable impact on operating profit of 1 percentage point. This impact refers to constant currency comparisons and the remeasurement of monetary assets and liabilities. Constant currency impacts are estimated by re-calculating current year results of foreign operations using the average exchange rate from the prior year. Remeasurement impacts are based on the variance between current-year and prior-year foreign exchange rate fluctuations on assets and liabilities denominated in currencies other than the individual businesses functional currency.

Six Months

(in millions)	2020	2019	% Change
Ratings [1]	$ 1,213	$ 828	47%
Market Intelligence [2]	306	271	13%
Platts [3]	236	211	12%
Indices [4]	353	312	13%
Total segment operating profit	2,108	1,622	30%
Corporate Unallocated expense [5]	(91)	(104)	13%
Total operating profit	$ 2,017	$ 1,518	33%

[1] 2019 includes employee severance charges of $11 million. 2020 and 2019 include amortization of intangibles from acquisitions of $2 million and $1 million, respectively.

[2] 2020 includes a gain on the disposition of Investor Relations of $8 million and 2020 and 2019 include employee severance charges of $2 million and $1 million, respectively. 2020 and 2019 includes amortization of intangibles from acquisitions of $39 million and $37 million, respectively.

[3] 2019 includes employee severance charges of $1 million. 2020 and 2019 include amortization of intangibles from acquisitions of $4 million and $7 million, respectively.

[4] 2020 and 2019 include amortization of intangibles from acquisitions of $3 million.

[5] 2020 and 2019 include employee severance charges of $10 million and $7 million, respectively, and Kensho retention related expense of $7 million and $11 million, respectively. 2019 includes a lease impairment charge of $5 million. 2020 and 2019 include amortization of intangibles from acquisitions of $13 million and $14 million, respectively.

Segment Operating Profit — Increased 30% as compared to 2019. Excluding the impact of higher employee severance charges in 2019 of 1 percentage point and a gain on disposition in 2020 of 1 percentage point, operating profit increased 28%. The increase was primarily due to an increase in revenue at all of our reportable segments combined with a reduction in expenses driven by a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19, lower professional fees at Ratings from increased leverage from the Global Technology Center and the favorable impact of foreign exchange rates, partially offset by higher compensation costs driven by annual merit increases and additional headcount. See “Segment Review” below for further information.

Corporate Unallocated Expense— Corporate Unallocated expense includes costs for corporate functions, select initiatives, unoccupied office space and Kensho, included in selling and general expenses. Corporate Unallocated expense decreased 13% compared to 2019. Excluding the impact of a lease impairment charge in 2019 of 2 percentage points, higher Kensho retention related expense in 2019 of 2 percentage points and higher amortization of intangibles in 2019 of 1 percentage point, partially offset by higher employee severance charges in 2020 of 2 percentage points, Corporate Unallocated expense decreased 10% driven by lower rental expense from a reduction in the Company's real estate footprint and lower professional fees, partially offset by a contribution to the S&P Global Foundation made in 2020.

Foreign exchange rates had a favorable impact on operating profit of 2 percentage points. This impact refers to constant currency comparisons and the remeasurement of monetary assets and liabilities. Constant currency impacts are estimated by re-calculating current year results of foreign operations using the average exchange rate from the prior year. Remeasurement impacts are based on the variance between current-year and prior-year foreign exchange rate fluctuations on assets and liabilities denominated in currencies other than the individual businesses functional currency.

Other (Income) Expense, net

Other (income) expense, net primarily includes the net periodic benefit cost for our retirement and post retirement plans. Other income, net increased to $10 million for the three months ended June 30, 2020 compared to $6 million for the three months ended June 30, 2019. Excluding a pension settlement charge of $3 million in the three months ended June 30, 2020, other income, net increased to $13 million for the three months ended June 30, 2020 compared to $6 million for the three months ended June 30, 2019 primarily due to a gain on investments for the three months ended June 30, 2020 compared to a loss on investments for the three months ended June 30, 2019. During the first six months of 2019, the Company purchased a group annuity contract under which an insurance company assumed the Company's obligation to pay pension benefits to approximately 4,600 retirees and beneficiaries. This purchase eliminates all future investment or mortality risk associated with these retirees. The purchase of this group annuity contract was funded with pension plan assets. As a result, the Company's outstanding pension benefit obligation was reduced by approximately $370 million, representing approximately 24% of the total obligations of the Company's qualified pension plans. In connection with this transaction, the Company recorded a pre-tax settlement charge of $113 million reflecting the accelerated recognition of a portion of unamortized actuarial losses in the plan. Excluding pension settlement charges, other income, net was $12 million for the six months ended June 30, 2020 compared to $16 million for the six months ended June 30, 2019 due to a higher loss on investments for the six months ended June 30, 2020.

Interest Expense, net

Net interest expense increased 8% and 1% compared to the three and six months ended June 30, 2019, respectively, primarily due to a decrease in interest income in 2020 as a result of a decrease in interest rates and lower cash balances in international locations.

Provision for Income Taxes

The effective income tax rate was 21.7% and 21.6% for the three and six months ended June 30, 2020, respectively, and 23.0% and 21.7% for the three and six months ended June 30, 2019, respectively. The decrease in 2020 was primarily due to the successful resolution of tax examinations in various jurisdictions.

Segment Review

Ratings

Ratings is an independent provider of credit ratings, research, and analytics to investors, issuers and other market participants. Credit ratings are one of several tools investors can use when making decisions about purchasing bonds and other fixed income investments. They are opinions about credit risk and our ratings express our opinion about the ability and willingness of an issuer, such as a corporation or state or city government, to meet its financial obligations in full and on time. Our credit ratings can also relate to the credit quality of an individual debt issue, such as a corporate or municipal bond, and the relative likelihood that the issue may default.

Ratings disaggregates its revenue between transaction and non-transaction. Transaction revenue primarily includes fees associated with:

- ratings related to new issuance of corporate and government debt instruments, as well as structured finance debt instruments;
- bank loan ratings; and
- corporate credit estimates, which are intended, based on an abbreviated analysis, to provide an indication of our opinion regarding creditworthiness of a company which does not currently have a Ratings credit rating.

Non-transaction revenue primarily includes fees for surveillance of a credit rating, annual fees for customer relationship-based pricing programs, fees for entity credit ratings and global research and analytics at CRISIL. Non-transaction revenue also includes an intersegment royalty charged to Market Intelligence for the rights to use and distribute content and data developed

by Ratings. Royalty revenue was $31 million and $63 million for the three and six months ended June 30, 2020, respectively, and $29 million and $58 million for the three and six months ended June 30, 2019, respectively.

The following table provides revenue and segment operating profit information for the periods ended June 30:

(in millions)	Three Months			Six Months		
	2020	2019	% Change	2020	2019	% Change
Revenue	$ 1,006	$ 801	26%	$ 1,831	$ 1,497	22%
Transaction revenue	$ 624	$ 422	48%	$ 1,056	$ 746	42%
Non-transaction revenue	$ 382	$ 379	1%	$ 775	$ 751	3%
% of total revenue:						
Transaction revenue [1]	62 %	53 %		58 %	50 %	
Non-transaction revenue [1]	38 %	47 %		42 %	50 %	
U.S. revenue	$ 618	$ 454	36%	$ 1,112	$ 852	30%
International revenue	$ 388	$ 347	12%	$ 719	$ 645	12%
% of total revenue:						
U.S. revenue	61 %	57 %		61 %	57 %	
International revenue	39 %	43 %		39 %	43 %	
Operating profit [2]	$ 693	$ 460	51%	$ 1,213	$ 828	47%
Operating margin %	69 %	57 %		66 %	55 %	

[1] In the third quarter of 2019, we reevaluated our transaction and non-transaction presentation which resulted in a reclassification from transaction revenue to non-transaction revenue of $7 million and $14 million for the three and six months ended June 30, 2019.

[2] Operating profit for the three and six months ended June 30, 2019 includes employee severance charges of $11 million. Operating profit also includes amortization of intangibles from acquisitions of $2 million for the three and six months ended June 30, 2020 and $1 million for three and six months ended June 30 2019.

Three Months

Revenue increased 26% and was favorably impacted by 1 percentage point from the impact of recent acquisitions. The increase in revenue was primarily driven by an increase in transaction revenue. Transaction revenue grew due to an increase in corporate bond ratings revenue primarily driven by higher investment-grade corporate bond issuance volumes in the U.S. and Europe and an increase in U.S. high-yield corporate bond issuance volumes mainly resulting from historically low borrowing costs and central bank lending actions. These increases in transaction revenue were partially offset by a decrease in bank loan ratings revenue and structured finance revenue. Non-transaction revenue increased primarily due to an increase in surveillance and royalty revenue, partially offset by lower entity credit ratings revenue, a decline in Ratings Evaluation Service ("RES") activity and the unfavorable impact of foreign exchange rates. Transaction and non-transaction revenue also benefited from improved contract terms across product categories. Foreign exchange rates had an unfavorable impact of less than 1 percentage point. Revenue was favorably impacted by the acquisitions of the ESG Ratings Business from RobecoSAM and Greenwich Associates LLC in January of 2020 and February of 2020, respectively. See Note 2 - *Acquisitions and Divestitures* to the consolidated financial statements of this Form 10-Q for further discussion.

Operating profit increased 51%, with a 1 percentage point favorable impact from foreign exchange rates. Excluding the impact of employee severance charges in 2019 of 4 percentage points, operating profit increased 47%. The operating profit increase was primarily due to the increase in revenue discussed above combined with a reduction in expenses. Expenses decreased primarily due to the favorable impact of foreign exchange rates, a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19 and lower professional fees from increased leverage from the Global Technology Center, partially offset by higher compensation costs due to annual merit increases and additional headcount and an increase in incentive costs.

Six Months

Revenue increased 22% and was favorably impacted by less than 1 percentage point from the impact of recent acquisitions. The increase in revenue was primarily driven by an increase in transaction revenue. Transaction revenue grew due to an increase in corporate bond ratings revenue primarily driven by higher corporate bond issuance in the U.S. mainly resulting from historically low borrowing costs and central bank lending actions that initially were announced at the end of the first quarter of 2020, partially offset by a decrease in bank loan ratings revenue. Non-transaction revenue increased primarily due to an increase in surveillance and royalty revenue, partially offset by lower entity credit ratings revenue, a decline in RES activity and the unfavorable impact of foreign exchange rates. Transaction and non-transaction revenue also benefited from improved contract terms across product categories. Foreign exchange rates had an unfavorable impact of 1 percentage point. Revenue was favorably impacted by the acquisitions of the ESG Ratings Business from RobecoSAM and Greenwich Associates LLC in January of 2020 and February of 2020, respectively. See Note 2 - *Acquisitions and Divestitures* to the consolidated financial statements of this Form 10-Q for further discussion.

Operating profit increased 47%, with a 2 percentage point favorable impact from foreign exchange rates. Excluding the impact of employee severance charges in 2019 of 2 percentage points, operating profit increased 45%. The operating profit increase was primarily due to the increase in revenue discussed above combined with a reduction in expenses. Expenses decreased primarily due to the favorable impact of foreign exchange rates, a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19 and lower professional fees from increased leverage from the Global Technology Center, partially offset by higher compensation costs due to annual merit increases and additional headcount and an increase in incentive costs.

Market Issuance Volumes

We monitor market issuance volumes regularly within Ratings. Market issuance volumes noted within the discussion that follows are based on where an issuer is located or where the assets associated with an issue are located. Structured Finance issuance includes amounts when a transaction closes, not when initially priced and excludes domestically-rated Chinese issuance. The following tables depict changes in issuance levels as compared to the prior year based on data from SDC Platinum for Corporate bond issuance and based on a composite of external data feeds and Ratings' internal estimates for Structured Finance issuance.

	Second Quarter Compared to Prior Year			Year-to-Date Compared to Prior Year		
Corporate Bond Issuance *	**U.S.**	**Europe**	**Global**	**U.S.**	**Europe**	**Global**
High-yield issuance	115%	(28)%	24%	66%	(2)%	19%
Investment-grade issuance	135%	63%	63%	96%	25%	42%
Total issuance	131%	52%	58%	91%	21%	39%

* Includes Industrials and Financial Services.

- Corporate issuance was up in in the U.S. driven by strong increases in both investment-grade and high-yield issuance as issuers were taking advantage of historically low borrowing costs. Issuance was also aided by recent central bank lending actions intended to provide market stabilization. A number of large financing transactions contributed to the strong increase in investment-grade issuance. Corporate issuance in Europe was also up driven by increases in investment-grade issuance, partially offset by weakness in high-yield issuance.

	Second Quarter Compared to Prior Year			Year-to-Date Compared to Prior Year		
Structured Finance Issuance	**U.S.**	**Europe**	**Global**	**U.S.**	**Europe**	**Global**
Asset-backed securities (“ABS”)	(49)%	341%	(22)%	(28)%	186%	(11)%
Structured credit (primarily CLOs)	(68)%	(40)%	(62)%	(25)%	(40)%	(28)%
Commercial mortgage-backed securities (“CMBS”)	(68)%	(100)%	(69)%	(22)%	17%	(19)%
Residential mortgage-backed securities (“RMBS”)	(44)%	(55)%	(45)%	(19)%	20%	(9)%
Covered bonds	*	(44)%	(40)%	*	(41)%	(31)%
Total issuance	(56)%	(21)%	(43)%	(25)%	(18)%	(20)%

* Represents no activity in 2020 and 2019.

- ABS issuance was down in the U.S. primarily due to a slow return after the market shutdown at the outset of COVID-19. Europe's increase was primarily due to low prior year as issuers were trying to comply with the new EU framework for STS Securitization (Simple, Transparent, and Standardized).

- Issuance was down in the U.S. and European structured credit markets driven by a decline in CLO transactions as demand for leveraged loans decreased as borrowers turned to the high-yield bond market.

- CMBS issuance was down in the U.S. and Europe reflecting decreased market volume due to poor market environment and the impact of the COVID-19 crisis limiting third party site inspections and appraisal reports.

- RMBS issuance was down in the U.S. and Europe reflecting decreased market volume due to the impact of the COVID-19 crisis on non-qualified mortgage loan originations and the uncertainty on collateral performance.

- Covered bond (debt securities backed by mortgages or other high-quality assets that remain on the issuer's balance sheet) issuance in Europe decreased due to cheap central bank funding and lower mortgage loan origination volumes.

For a further discussion of competitive and other risks inherent in our Ratings business, see Item 1A, *Risk Factors* in this Form 10-Q and our most recently filed Annual Report on Form 10-K. For a further discussion of the legal and regulatory environment see Note 12 – *Commitments and Contingencies* to the consolidated financial statements of this Form 10-Q.

Market Intelligence

Market Intelligence's portfolio of capabilities are designed to help investment professionals, government agencies, corporations and universities track performance, generate alpha, identify investment ideas, understand competitive and industry dynamics, perform valuations and assess credit risk.

In January of 2020, Market Intelligence entered into a strategic alliance to transition S&P Global Market Intelligence's IR webhosting business to Q4, a third party provider of investor relations related services. This alliance will integrate Market Intelligence's proprietary data into Q4's portfolio of solutions, enabling further opportunities for commercial collaboration. In connection with transitioning its IR webhosting business to Q4, Market Intelligence made a minority investment in Q4. During the three months and six months ended June 30, 2020, we recorded a pre-tax gain of $1 million ($1 million after-tax) and $8 million ($8 million after-tax), respectively, in Gain on disposition in the consolidated statement of income related to the sale of IR.

Market Intelligence includes the following business lines:

- Desktop — a product suite that provides data, analytics and third-party research for global finance professionals, which includes the Market Intelligence Desktop (which are inclusive of the S&P Capital IQ and SNL Desktop products);
- Data Management Solutions — integrated bulk data feeds and application programming interfaces that can be customized, which includes Compustat, GICS, Point In Time Financials and CUSIP; and
- Credit Risk Solutions — commercial arm that sells Ratings' credit ratings and related data, analytics and research, which includes subscription-based offerings, RatingsDirect® and RatingsXpress®, and Credit Analytics.

Subscription revenue at Market Intelligence is primarily derived from distribution of data, analytics, third party research, and credit ratings-related information primarily through web-based channels including Market Intelligence Desktop, RatingsDirect®, RatingsXpress®, and Credit Analytics. Non-subscription revenue at Market Intelligence is primarily related to certain advisory, pricing and analytical services.

The following table provides revenue and segment operating profit information for the periods ended June 30:

(in millions)	Three Months			Six Months		
	2020	2019	% Change	2020	2019	% Change
Revenue	$ 516	$ 487	6%	$ 1,034	$ 969	7%
Subscription revenue	$ 503	$ 471	7%	$ 1,007	$ 939	7%
Non-subscription revenue	$ 13	$ 12	12%	$ 26	$ 21	25%
Asset-linked fees	$ —	$ 4	(97)%	$ 1	$ 9	(92)%
% of total revenue:						
Subscription revenue	97 %	97 %		97 %	97 %	
Non-subscription revenue	3 %	2 %		3 %	2 %	
Asset-linked fees	— %	1 %		— %	1 %	
U.S. revenue	$ 331	$ 304	9%	$ 669	$ 611	9%
International revenue	$ 185	$ 183	1%	$ 365	$ 358	2%
% of total revenue:						
U.S. revenue	64 %	62 %		65 %	63 %	
International revenue	36 %	38 %		35 %	37 %	
Operating profit [1]	$ 159	$ 137	16%	$ 306	$ 271	13%
Operating margin %	31 %	28 %		30 %	28 %	

[1] Operating profit for the three and six months ended June 30, 2020 includes a gain on disposition of $1 million and $8 million, respectively. Operating profit for the six months ended June 30, 2020 also includes employee severance charges of $2 million. Operating profit for the three and six months ended June 30, 2019 includes employee severance charges of $1 million. Operating profit also includes amortization of intangibles from acquisitions of $20 million and $19 million for the three months ended June 30, 2020 and 2019, respectively, and $39 million and $37 million for the six months ended June 30, 2020 and 2019, respectively.

Three Months

Revenue increased 6% and was favorably impacted by 1 percentage point from the net impact of the recent acquisition of 451 Research, LLC, offset by the disposition of Standard & Poor's Investment Advisory Services LLC and the IR webhosting business. The increase in revenue was driven by growth in annualized contract values for our Market Intelligence Desktop products, RatingsXpress®, RatingsDirect®, CUSIP and our data feed products within Data Management Solutions. Excluding the impact of the acquisition and dispositions favorably impacting Desktop revenue growth by 3 percentage points, revenue growth at Credit Risk Solutions, Data Management Solutions and Desktop was 8%, 5% and 4%, respectively, with growth at Data Management Solutions muted in the second quarter of 2020 due to one-time benefits recognized in the second quarter of 2019. Both U.S. revenue and international revenue increased compared to the three months ended June 30, 2019. Foreign exchange rates had an unfavorable impact of less than one percentage point.

Operating profit increased 16%, with a 3 percentage point favorable impact from foreign exchange rates. Excluding the favorable impact of a gain on the disposition of 3 percentage points and lower employee severance charges in 2020 of 2 percentage points, partially offset by the unfavorable impact of higher amortization of intangibles in 2020 of 2 percentage points, operating profit increased 13%. The increase was primarily due to revenue growth and a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19, partially offset by higher compensation costs primarily driven by additional headcount and an increase in intersegment royalties tied to annualized contract value growth.

Six Months

Revenue increased 7% and was favorably impacted by 1 percentage point from the net impact of the recent acquisition of 451 Research, LLC, offset by the disposition of Standard & Poor's Investment Advisory Services LLC and the IR webhosting business. The increase in revenue was driven by growth in annualized contract values for our Market Intelligence Desktop products, RatingsXpress®, RatingsDirect®, CUSIP and our data feed products within Data Management Solutions. Excluding

the impact of the acquisition and dispositions favorably impacting Desktop revenue growth by 3 percentage points, revenue growth at Credit Risk Solutions, Data Management Solutions and Desktop was 9%, 8% and 4%, respectively. Both U.S. revenue and international revenue increased compared to the six months ended June 30, 2019. Foreign exchange rates had an unfavorable impact of less than one percentage point.

Operating profit increased 13%, with a 3 percentage point favorable impact from foreign exchange rates. Excluding the favorable impact of a gain on the disposition of 5 percentage points, partially offset by the unfavorable impact of higher amortization of intangibles in 2020 of 1 percentage point, operating profit increased 9%. The increase was primarily due to revenue growth and a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19, partially offset by higher compensation costs primarily driven by additional headcount and an increase in intersegment royalties tied to annualized contract value growth.

For a further discussion of competitive and other risks inherent in our Market Intelligence business, see Item 1A, *Risk Factors* in this Form 10-Q and our most recently filed Annual Report on Form 10-K. For a further discussion of the legal and regulatory environment see Note 12 – *Commitments and Contingencies* to the consolidated financial statements of this Form 10-Q.

Platts

Platts is the leading independent provider of information and benchmark prices for the commodity and energy markets. Platts provides essential price data, analytics, and industry insight enabling the commodity and energy markets to perform with greater transparency and efficiency.

Platts' revenue is generated primarily through the following sources:

- Subscription revenue — primarily from subscriptions to our real-time news, market data and price assessments, along with other information products;
- Sales usage-based royalties — primarily from licensing of our proprietary market price data and price assessments to commodity exchanges; and
- Non-subscription revenue — conference sponsorship, consulting engagements, and events.

The following table provides revenue and segment operating profit information for the periods ended June 30:

(in millions)	Three Months			Six Months		
	2020	2019	% Change	2020	2019	% Change
Revenue	$ 217	$ 213	2%	$ 433	$ 420	3%
Subscription revenue	$ 201	$ 195	3%	$ 398	$ 386	3%
Sales usage-based royalties	$ 15	$ 15	5%	$ 32	$ 29	12%
Non-subscription revenue	$ 1	$ 3	(66)%	$ 3	$ 5	(40)%
% of total revenue:						
Subscription revenue	93 %	92 %		92 %	92 %	
Sales usage-based royalties	7 %	7 %		7 %	7 %	
Non-subscription revenue	— %	1 %		1 %	1 %	
U.S. revenue	$ 71	$ 71	(1)%	$ 142	$ 141	1%
International revenue	$ 146	$ 142	3%	$ 291	$ 279	4%
% of total revenue:						
U.S. revenue	33 %	33 %		33 %	34 %	
International revenue	67 %	67 %		67 %	66 %	
Operating profit [1]	$ 124	$ 111	12%	$ 236	$ 211	12%
Operating margin %	57 %	52 %		55 %	50 %	

[1] Operating profit for the three and six month ended June 30, 2019 includes employee severance charges of $1 million. Operating profit includes amortization of intangibles from acquisitions of $2 million and $3 million for the three months ended June 30, 2020 and 2019, respectively, and $4 million and $7 million for the six months ended June 30, 2020 and 2019, respectively.

Three Months

Revenue increased 2% and was unfavorably impacted by 1 percentage point from the net impact of recent acquisitions of Enerdata and Live Rice Index and the disposition of RigData. Revenue increased primarily due to continued demand for market data and price assessment products driven by both expanded product offerings to our existing customers combined with enhanced contract terms. Additionally, revenue growth was driven by an increase in sales usage-based royalties from the licensing of our proprietary market price data and price assessments to commodity exchanges mainly due to increased trading volumes in LNG and Natural Gas. These increases in revenue were partially offset by a decrease in conference revenue as a result of cancellation and postponement of events due to COVID-19. Demand for market data and price assessment products was driven by international customers. International revenue grew and U.S. revenue decreased slightly compared to the three months ended June 30, 2019 with the U.S revenue growth rate being unfavorably impacted by the disposition of RigData in July of 2019. Petroleum continues to be the most significant revenue driver, followed by power & gas, metals & agriculture and petrochemicals also contributing to revenue growth. Foreign exchange rates had an unfavorable impact of less than 1 percentage point.

Operating profit increased 12% with a 1 percentage point favorable impact from foreign exchange rates. Excluding the favorable impact of lower amortization of intangibles in 2020 of 2 percentage points and lower employee severance charges in 2020 of 1 percentage point, operating profit increased 9%. The increase was primarily due to revenue growth combined with a reduction in expenses. Expenses decreased primarily due to a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19 and lower costs as a result of cancellation and postponement of events due to COVID-19. These decreases were partially offset by higher compensation costs due to annual merit increases and additional headcount.

Six Months

Revenue increased 3% and was unfavorably impacted by 1 percentage point from the net impact of recent acquisitions of Enerdata and Live Rice Index and the disposition of RigData. Revenue increased primarily due to continued demand for market data and price assessment products driven by both expanded product offerings to our existing customers combined with enhanced contract terms. Additionally, revenue growth was driven by an increase in sales usage-based royalties from the licensing of our proprietary market price data and price assessments to commodity exchanges mainly due to increased trading volumes in Petroleum, LNG, Natural Gas and Iron Ore. Demand for market data and price assessment products was driven by international customers. International and U.S. revenue both grew compared to the first six months of 2019 with the U.S revenue growth rate being unfavorably impacted by the disposition of RigData in July of 2019. Petroleum continues to be the most significant revenue driver, followed by power & gas, metals & agriculture and petrochemicals also contributing to revenue growth. Foreign exchange rates had an unfavorable impact of less than 1 percentage point.

Operating profit increased 12% with a less than 1 percentage point favorable impact from foreign exchange rates. Excluding the favorable impact of lower amortization of intangibles in 2020 of 1 percentage point and lower employee severance charges in 2020 of 1 percentage point, operating profit increased 10%. The increase was primarily due to revenue growth combined with a reduction in expenses. Expenses decreased primarily due to a decrease in travel and entertainment expenses from non-essential travel restrictions in response to COVID-19, lower costs as a result of cancellation and postponement of events due to COVID-19 and the favorable impact of a benefit in the current year resulting from one-time costs related to the discontinuation of a product line at Platts in 2019. These decreases were partially offset by higher compensation costs due to annual merit increases and additional headcount.

For a further discussion of competitive and other risks inherent in our Platts business, see Item 1A, *Risk Factors* in this Form 10-Q and our most recently filed Annual Report on Form 10-K. For a further discussion of the legal and regulatory environment see Note 12 – *Commitments and Contingencies* to the consolidated financial statements of this Form 10-Q.

Indices

Indices is a global index provider maintaining a wide variety of indices to meet an array of investor needs. Indices' mission is to provide transparent benchmarks to help with decision making, collaborate with the financial community to create innovative products and provide investors with tools to monitor world markets.

Indices derives revenue from asset-linked fees when investors direct funds into its proprietary designed or owned indexes, sales-usage based royalties of its indices, and to a lesser extent data subscription arrangements. Specifically, Indices generates revenue from the following sources:

- Investment vehicles — asset-linked fees such as ETFs and mutual funds, that are based on the S&P Dow Jones Indices' benchmarks that generate revenue through fees based on assets and underlying funds;
- Exchange traded derivatives — generate sales usage-based royalties based on trading volumes of derivatives contracts listed on various exchanges;
- Index-related licensing fees — fixed or variable annual and per-issue asset-linked fees for over-the-counter derivatives and retail-structured products; and
- Data and customized index subscription fees — fees from supporting index fund management, portfolio analytics and research.

The following table provides revenue and segment operating profit information for the periods ended June 30:

(in millions)	Three Months			Six Months		
	2020	2019	% Change	2020	2019	% Change

Net operating margin %	52 %	51 %		52 %	51 %	

[1] Operating profit includes amortization of intangibles from acquisitions of $1 million for the three months ended June 30, 2020 and 2019 and $3 million for the six months ended June 30, 2020 and 2019.

Three Months

Revenue at Indices increased 2% primarily due to higher exchange-traded derivative trading volumes from market volatility and an increase in data subscription revenue. These increases were partially offset by the unfavorable impact of benefits related to a 2019 contract renegotiation and a retrospective fee for previously unlicensed and unreported index usage that were recognized in the second quarter of 2019. Average levels of assets under management ("AUM") for ETFs increased 2% to $1.523 trillion and ending AUM for ETFs increased 6% to $1.616 trillion compared to the second quarter of 2019. However, ending AUM for ETFs decreased compared to the fourth quarter of 2019 driven by the impact of market depreciation in the first quarter of 2020 followed by a partial recovery in the second quarter of 2020. Foreign exchange rates had an unfavorable impact of less than 1 percentage point.

Operating profit increased 5% due to the increase in revenue discussed above combined with a reduction in expenses. Expenses decreased primarily due to lower travel and entertainment expenses from non-essential travel restrictions in response to COVID-19 and lower operating costs from royalty-based products, partially offset by higher content costs associated with ESG data and compensation costs due to annual merit increases and additional headcount. Foreign exchange rates had a favorable impact of less than 1 percentage point.

Six Months

Revenue at Indices increased 10% primarily due to higher exchange-traded derivative trading volumes from market volatility, higher average levels of AUM for ETFs and an increase in data subscription revenue. These increases were partially offset by the unfavorable impact of benefits related to a 2019 contract renegotiation and a retrospective fee for previously unlicensed and unreported index usage that were recognized in the first six months of 2019. Average AUM for ETFs increased 9% to $1.578 trillion compared to the first six months of 2019. Ending AUM for ETFs increased 6% to $1.616 trillion compared to the first six months of 2019. However, ending AUM for ETFs decreased compared to the fourth quarter of 2019 driven by the impact of market depreciation in the first quarter of 2020 followed by a partial recovery in the second quarter of 2020. Foreign exchange rates had an unfavorable impact of less than 1 percentage point.

Operating profit increased 13%. The impact of revenue growth was partially offset by higher operating costs from higher royalties due to increased traction of royalty-based products, increased data distribution costs, higher content costs associated with ESG data and increased compensation costs driven by annual merit increases and additional headcount, partially offset by lower travel and entertainment expenses from non-essential travel restrictions in response to COVID-19 and lower professional fees. Foreign exchange rates had a favorable impact of 1 percentage point.

For a further discussion of competitive and other risks inherent in our Indices business, see Item 1A, *Risk Factors* in this Form 10-Q and our most recently filed Annual Report on Form 10-K. For a further discussion of the legal and regulatory environment see Note 12 – *Commitments and Contingencies* to the consolidated financial statements of this Form 10-Q.

LIQUIDITY AND CAPITAL RESOURCES

We continue to maintain a strong financial position. Our primary source of funds for operations is cash from our businesses. Cash on hand, cash flows from operations and availability under our existing credit facility are expected to be sufficient to meet any additional operating and recurring cash needs into the foreseeable future. We use our cash for a variety of needs, including but not limited to: ongoing investments in our businesses, strategic acquisitions, share repurchases, dividends, repayment of debt, capital expenditures and investment in our infrastructure.

Cash Flow Overview

Cash, cash equivalents, and restricted cash were $2,684 million as of June 30, 2020, a decrease of $202 million from December 31, 2019.

The following table provides cash flow information for the six months ended June 30:

(in millions)	2020	2019	% Change
Net cash provided by (used for):			
Operating activities	$ 1,617	$ 1,010	60%
Investing activities	$ (186)	$ (53)	N/M
Financing activities	$ (1,610)	$ (1,008)	60%

In the first six months of 2020, free cash flow increased to $1,507 million compared to $905 million in the first six months of 2019. The increase is primarily due to an increase in cash provided by operating activities as discussed below. Free cash flow is a non-GAAP financial measure and reflects our cash flow provided by operating activities less capital expenditures and distributions to noncontrolling interest holders. Capital expenditures include purchases of property and equipment and additions to technology projects. See "Reconciliation of Non-GAAP Financial Information" below for a reconciliation of cash flow provided by operating activities, the most directly comparable U.S. GAAP financial measure, to free cash flow and free cash flow excluding certain items.

Operating activities

Cash provided by operating activities increased $607 million to $1,617 million for the first six months of 2020. The increase is mainly due to higher operating results in 2020, improved cash collections on accounts receivable in 2020 and the timing of U.S. federal estimated tax payments, partially offset by higher incentive compensation payments in 2020.

Investing activities

Our cash outflows from investing activities are primarily for acquisitions and capital expenditures, while cash inflows are primarily proceeds from dispositions.

Cash used for investing activities increased to $186 million for the first six months of 2020 compared to $53 million in the first six months of 2019, primarily due to cash used for the acquisitions of the ESG Ratings Business from RobecoSAM and Greenwich Associates LLC in 2020. See Note 2 — *Acquisitions and Divestitures* to the consolidated financial statements of this Form 10-Q for further discussion.

Financing activities

Our cash outflows from financing activities consist primarily of share repurchases, dividends to shareholders and repayments of short-term and long-term debt, while cash inflows are primarily attributable to the borrowing of short-term and long-term debt and proceeds from the exercise of stock options.

Cash used for financing activities increased $602 million to $1,610 million for the first six months of 2020. The increase is primarily attributable to an increase in cash used for share repurchases in 2020. During the six months ended June 30, 2020, we purchased a total of 3.4 million shares for $1,150 million of cash. During the fourth quarter of 2019, we repurchased shares for $3 million, which settled in the first quarter of 2020, resulting in $1,153 million of cash used to repurchase shares. During the six months ended June 30, 2019, we received 3.4 million shares, including 0.4 million shares received in January of 2019 related to our October 29, 2018 ASR agreement, resulting in $644 million of cash used to repurchase shares. See Note 8 — *Equity* to the consolidated financial statements of this Form 10-Q for further discussion.

Additional Financing

We have the ability to borrow a total of $1.2 billion through our commercial paper program, which is supported by our revolving $1.2 billion five-year credit agreement (our "credit facility") that we entered into on June 30, 2017. This credit facility will terminate on June 30, 2022. As of June 30, 2020 and December 31, 2019, there was no commercial paper issued or outstanding and similarly did not draw or have any borrowings outstanding from the credit facility during the three and six months ended June 30, 2020 and 2019.

Depending on our corporate credit rating, we pay a commitment fee of 8 to 17.5 basis points for our credit facility, whether or not amounts have been borrowed. We currently pay a commitment fee of 10 basis points. The interest rate on borrowings under our credit facility is, at our option, calculated using rates that are primarily based on either the prevailing London Inter-Bank Offer Rate, the prime rate determined by the administrative agent or the Federal Funds Rate. For certain borrowings under this credit facility, there is also a spread based on our corporate credit rating.

Our credit facility contains certain covenants. The only financial covenant requires that our indebtedness to cash flow ratio, as defined in our credit facility, is not greater than 4 to 1, and this covenant level has never been exceeded.

Dividends

On January 29, 2020, the Board of Directors approved an increase in the quarterly common stock dividend from $0.57 per share to $0.67 per share.

RECONCILIATION OF NON-GAAP FINANCIAL INFORMATION

Free cash flow is a non-GAAP financial measure and reflects our cash flow provided by operating activities less capital expenditures and distributions to noncontrolling interest holders, net. Capital expenditures include purchases of property and equipment and additions to technology projects. Our cash flow provided by operating activities is the most directly comparable U.S. GAAP financial measure to free cash flow. Additionally, we have considered certain items in evaluating free cash flow, which are included in the table below.

We believe the presentation of free cash flow and free cash flow excluding certain items allows our investors to evaluate the cash generated from our underlying operations in a manner similar to the method used by management. We use free cash flow to conduct and evaluate our business because we believe it typically presents a more conservative measure of cash flows since capital expenditures and distributions to noncontrolling interest holders are considered a necessary component of ongoing operations. Free cash flow is useful for management and investors because it allows management and investors to evaluate the cash available to us to prepay debt, make strategic acquisitions and investments and repurchase stock.

The presentation of free cash flow and free cash flow excluding certain items are not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. Free cash flow, as we calculate it, may not be comparable to similarly titled measures employed by other companies. The following table presents a reconciliation of our cash flow provided by operating activities to free cash flow excluding the impact of the item below for the six months ended June 30:

(in millions)	2020	2019	% Change
Cash provided by operating activities	$ 1,617	$ 1,010	60 %
Capital expenditures	(18)	(46)	
Distributions to noncontrolling interest holders, net [1]	(92)	(59)	
Free cash flow	1,507	905	67 %
Settlement of prior-year tax audits	—	50	
Payment of legal settlements	—	1	
Free cash flow excluding certain items	$ 1,507	$ 956	58 %

[1] Distributions to noncontrolling interest holders is net of amounts owed to the S&P Dow Jones Indices joint venture by the noncontrolling interest holders.

(in millions)	2020	2019	% Change
Cash used for investing activities	(186)	(53)	N/M
Cash used for financing activities	(1,610)	(1,008)	60 %

N/M - not meaningful

CRITICAL ACCOUNTING ESTIMATES

Our accounting policies are described in Note 1 — *Accounting Policies* to the consolidated financial statements in our most recent Form 10-K. As discussed in Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, in our most recent Form 10-K, we consider an accounting estimate to be critical if it required assumptions to be made that were uncertain at the time the estimate was made and changes in the estimate or different estimates could have a material effect on our results of operations. These critical estimates include those related to revenue recognition, allowance for doubtful accounts, valuation of long-lived assets, goodwill and other intangible assets, pension plans, incentive compensation and stock-based compensation, income taxes, contingencies and redeemable non-controlling interests. We base our estimates on historical experience, current developments and on various other assumptions that we believe to be reasonable under these circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that cannot readily be determined from other sources. There can be no assurance that actual results will not differ from those estimates. Since the date of our Form 10-K, there have been no material changes to our critical accounting estimates.

RECENTLY ISSUED OR ADOPTED ACCOUNTING STANDARDS

See Note 13 – *Recently Issued or Adopted Accounting Standards* to the consolidated financial statements of this Form 10-Q for further information.

FORWARD-LOOKING STATEMENTS

This report contains "forward-looking statements," as defined in the Private Securities Litigation Reform Act of 1995. These statements, including statements about COVID-19 and the scenarios we are using to project the impact of the pandemic on the Company, which express management's current views concerning future events, trends, contingencies or results, appear at various places in this report and use words like "anticipate," "assume," "believe," "continue," "estimate," "expect," "forecast," "future," "intend," "plan," "potential," "predict," "project," "strategy," "target" and similar terms, and future or conditional tense verbs like "could," "may," "might," "should," "will" and "would." For example, management may use forward-looking statements when addressing topics such as: the outcome of contingencies; future actions by regulators; changes in the Company's business strategies and methods of generating revenue; the development and performance of the Company's services and products; the expected impact of acquisitions and dispositions; the Company's effective tax rates; and the Company's cost structure, dividend policy, cash flows or liquidity.

Forward-looking statements are subject to inherent risks and uncertainties. Factors that could cause actual results to differ materially from those expressed or implied in forward-looking statements include, among other things:

- worldwide economic, financial, political and regulatory conditions, and factors that contribute to uncertainty and volatility including natural and man-made disasters, civil unrest, pandemics (e.g., COVID-19), geopolitical uncertainty, and conditions that may result from legislative, regulatory, trade and policy changes associated with the current U.S. administration;
- the Company's ability to successfully recover should it experience a disaster or other business continuity problem from a hurricane, flood, earthquake, terrorist attack, pandemic, security breach, cyber attack, power loss, telecommunications failure or other natural or man-made event, including the ability to function remotely during long-term disruptions such as the COVID-19 pandemic;
- the Company's ability to maintain adequate physical, technical and administrative safeguards to protect the security of confidential information and data, and the potential for a system or network disruption that results in regulatory penalties and remedial costs or improper disclosure of confidential information or data;
- the outcome of litigation, government and regulatory proceedings, investigations and inquiries;
- the health of debt and equity markets, including credit quality and spreads, the level of liquidity and future debt issuances, demand for investment products that track indices and assessments and trading volumes of certain exchange traded derivatives;
- the demand and market for credit ratings in and across the sectors and geographies where the Company operates;
- concerns in the marketplace affecting the Company's credibility or otherwise affecting market perceptions of the integrity or utility of independent credit ratings, benchmarks and indices;
- the effect of competitive products and pricing, including the level of success of new product developments and global expansion;
- the Company's exposure to potential criminal sanctions or civil penalties for noncompliance with foreign and U.S. laws and regulations that are applicable in the domestic and international jurisdictions in which it operates, including sanctions laws relating to countries such as Iran, Russia, Sudan, Syria and Venezuela, anti-corruption laws such as the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act of 2010, and local laws prohibiting corrupt payments to government officials, as well as import and export restrictions;
- the continuously evolving regulatory environment, in Europe, the United States and elsewhere, affecting S&P Global Ratings, S&P Global Platts, S&P Dow Jones Indices, and S&P Global Market Intelligence, including the Company's compliance therewith;
- the Company's ability to make acquisitions and dispositions and successfully integrate the businesses we acquire;
- consolidation in the Company's end-customer markets;
- the introduction of competing products or technologies by other companies;
- the impact of customer cost-cutting pressures, including in the financial services industry and the commodities markets;
- a decline in the demand for credit risk management tools by financial institutions;
- the level of merger and acquisition activity in the United States and abroad;
- the volatility and health of the energy and commodities markets;
- our ability to attract, incentivize and retain key employees;
- the level of the Company's future cash flows and capital investments;
- the impact on the Company's revenue and net income caused by fluctuations in foreign currency exchange rates;

- the Company's ability to adjust to changes in European and United Kingdom markets as the United Kingdom leaves the European Union, and the impact of the United Kingdom’s departure on our credit rating activities and other offerings in the European Union and United Kingdom; and
- the impact of changes in applicable tax or accounting requirements, including the Tax Cuts and Jobs Act on the Company.

The factors noted above are not exhaustive. The Company and its subsidiaries operate in a dynamic business environment in which new risks emerge frequently. Accordingly, the Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the dates on which they are made. The Company undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances arising after the date on which it is made, except as required by applicable law. Further information about the Company’s businesses, including information about factors that could materially affect its results of operations and financial condition, is contained in the Company’s filings with the SEC, including Item 1A, *Risk Factors*, in our most recently filed Annual Report on Form 10-K and Item 1A, *Risk Factors* in this Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our exposure to market risk includes changes in foreign exchange rates. We have operations in foreign countries where the functional currency is primarily the local currency. For international operations that are determined to be extensions of the parent company, the U.S. dollar is the functional currency. We typically have naturally hedged positions in most countries from a local currency perspective with offsetting assets and liabilities. As of June 30, 2020 and December 31, 2019, we entered into foreign exchange forward contracts in order to mitigate the change in fair value of specific assets and liabilities in the consolidated balance sheet. These forward contracts are not designated as hedges and do not qualify for hedge accounting. As of June 30, 2020 and December 31, 2019, we entered into foreign exchange forward contracts to hedge the effect of adverse fluctuations in foreign exchange rates and a cross-currency swap contracts to hedge a portion of our net investment in a foreign subsidiary against volatility in foreign exchange rates. We have not entered into any derivative financial instruments for speculative purposes. See Note 5 - *Derivative Instruments* to the consolidated financial statements of this Form 10-Q for further discussion.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed so that information required to be disclosed in our reports filed with the U.S. Securities and Exchange Commission (the "SEC") is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), as appropriate, to allow timely decisions regarding required disclosure.

As of June 30, 2020, an evaluation was performed under the supervision and with the participation of management, including the CEO and CFO, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on that evaluation, management, including the CEO and CFO, concluded that our disclosure controls and procedures were effective as of June 30, 2020.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the most recent quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. As a result of the COVID-19 pandemic, the majority of our workforce began working remotely in March 2020. These changes to the working environment did not have a material effect on our internal controls over financial reporting during the most recent quarter.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

See Note 12 – *Commitments and Contingencies - Legal & Regulatory Matters* to the consolidated financial statements of this Form 10-Q for information on our legal proceedings.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A Risk Factors in our most recently filed Annual Report on Form 10-K which could materially affect our business, financial condition or future results. The COVID-19 pandemic has heightened, and in some cases manifested, certain of the risks we normally face in operating our business, including those disclosed in our most recently filed Annual Report on Form 10-K, and the risk factor disclosure in the Form 10-K is qualified by the information relating to COVID-19 that is described in this Quarterly Report on Form 10-Q, including the new risk factor set forth below. There have been no material changes to the risk factors we have previously disclosed in Item 1A, Risk Factors, in our most recent Form 10-K, except as follows:

The COVID-19 pandemic and its effects have affected, and may have a material adverse effect on, our results of operations.

Following the outbreak of an infectious respiratory illness caused by the 2019 novel coronavirus ("COVID-19"), the World Health Organization declared a global emergency on January 30, 2020 and subsequently declared COVID-19 as a pandemic on March 11, 2020.

COVID-19 has spread globally, including in the United States, the United Kingdom, the European Union and other jurisdictions in which we operate. As its impacts have become more severe, governments across the world have taken steps to contain the virus by restricting human movement through numerous measures including travel bans and restrictions, social distancing, quarantines, shelter in place orders, enhanced health screenings at ports of entry and elsewhere, and business shutdowns. These measures have resulted in an unprecedented near halt of the global economy. Such measures may remain in place to varying degrees for a significant period of time and they are likely to continue to adversely affect the global economy.

While the initial economic disruption was triggered by non-economic factors, continuation of the shutdown of businesses and entire industries, increases in unemployment, implementation of furloughs, lost wages across populations and a significant drop in consumer and business spending, are expected to result in a recession, the duration and gravity of which is unknown and cannot be known at this time. In particular, the United States entered into a recession in February 2020. A return to more ordinary course economic activity is dependent on the duration and severity of the COVID-19 pandemic, which are in turn dependent on a series of evolving factors, including the severity and transmission rate of the virus, the extent and effectiveness of containment efforts, and policy decisions made by governments across the globe as they react to evolving local and global conditions. There are no comparable recent events that can provide guidance as to the effect of the COVID-19 global pandemic, and, as a result, the ultimate impact of the coronavirus outbreak or a similar health epidemic is highly uncertain. The effects of COVID-19 have impacted our operations and may ultimately have a material adverse impact on our results of operations in the future, particularly in the event of a severe recession. The extent to which the pandemic will continue to affect our businesses, financial condition and results of operations will depend on future developments, which are highly uncertain and cannot be predicted.

Increased volatility and uncertainty in the global economy, and the financial and commodities markets
The global economy has been disrupted as a result of the ongoing health crisis and the financial and commodities markets have reacted with unprecedented volatility. Governmental authorities worldwide have taken increased measures to stabilize the markets and support economic growth. The success of these measures is unknown, and they may not be sufficient to address the market dislocations or avert severe and prolonged reductions in economic activity. Even after the pandemic subsides, the U.S. economy and other major economies may continue to experience a recession, and we anticipate our businesses would be materially and adversely affected by a prolonged recession in the U.S. and other major markets. Because there are no comparable recent events that can provide guidance on the impact to the global economy, we cannot predict the extent to which our business may be impacted. In addition, the increase in revenue of Ratings was in part driven by an increase in U.S. high-yield corporate bond issuance volumes mainly resulting from historically low borrowing costs, increased borrowing demand from companies to increase their liquidity in light of uncertainties associated with COVID-19, and central bank lending actions. There can be no guarantee that such favorable conditions would continue in the future, and our businesses, financial condition and results of operations could be negatively affected absent such favorable conditions. Moreover, the unprecedented volatility observed in the markets since the outset of COVID-19 may result in sudden unexpected changes in market structures that were not previously anticipated by laws, rules, regulations or general market practices. Risks posed to our business, financial condition and results of operations from volatility in the financial and commodities markets are described in our risk factor

entitled, “Changes in the volume of securities issued and traded in domestic and/or global capital markets, asset levels and flows into investment products, changes in interest rates and volatility in the financial markets, and volatility in the commodities markets impact our business, financial condition or results of operations”, in our most recently filed Annual Report on Form 10-K.

Decreased demand for our subscription services
Our clients are being impacted to varying degrees. Some may no longer be in business by the time the COVID-19 crisis comes to an end, others will face significant spending constraints in order to continue to operate, and others may reduce their workforces permanently. As a result of the impact on our clients, our subscription services may face pricing pressure on renewals, delayed renewals, and challenges to new sales which would in turn reduce revenue, ultimately impacting our results of operations. Limited human mobility has, among other things, significantly reduced demand for energy for transportation and the decrease in demand has been exacerbated by political tensions between large oil producing countries.

This could put additional pressure on Platts clients and translate into further reduced demand for our subscription and related products and services. Moreover, while our business continuity program has been effective to date, the current restrictions on human mobility limit our ability to interact with subscribers and effectively demonstrate new products and may have a negative effect on our ability to secure new subscriptions and renewals.

Our businesses assess and analyze the impact of economic events
Our divisions are all actively engaged in analyzing and providing views on the quickly evolving economic conditions. We are publishing articles and research pieces that attempt to assess the impact of the COVID-19 pandemic on the world economy and its components, both geographic and sectoral. In addition, we are taking actions (including, but not limited to rating actions, revising the composition of our indices, etc.), consistent with our business procedures, in response to the evolving conditions. Notwithstanding the care we take in carrying out our work, the views and assumptions we express, the conclusions we draw, the actions we take, and the work our divisions are producing today are likely to be heavily scrutinized with the benefit of hindsight. We have faced significant regulatory and media scrutiny following prior periods of volatility and economic uncertainty. Such scrutiny has in the past and may in the future impact our reputation, brand and credibility and result in government and regulatory proceedings, investigations, inquiries and litigation. See our risk factors entitled “Exposure to litigation and government and regulatory proceedings, investigations and inquiries could have a material adverse effect on our business, financial condition or results of operations” and “Our reputation, credibility, and brand are key assets and competitive advantages of our Company and our business may be affected by how we are perceived in the marketplace” in our most recently filed Annual Report on Form 10-K.

Business continuity
Our business continuity program has been effective to date. Some portion of our employee population has been working remotely since January, and by mid-March nearly our entire employee population was working remotely. While we have been able to continue our operations during this time, maintaining remote work environment for an extended period of time may have a material adverse effect on our productivity and our ability to meet the needs of our clients and exposes us to operational risks. See our risk factor entitled “Our inability to successfully recover should we experience a disaster or other business continuity problem could cause material financial loss, loss of human capital, regulatory actions, reputational harm or legal liability” in our most recently filed Annual Report on Form 10-K. In addition, a portion of our information technology resources have been diverted to establishing and maintaining an infrastructure that supports a sustained remote working environment. Such efforts limit the resources available for improvement and innovation projects. Moreover, given the extent to which we are utilizing a remote working environment, we face increased vulnerability. Although there has not been a cyber attack that has had a material adverse effect on the Company to date, we have noted an increase in cyber threats targeted at our remote work environment and there can be no assurance that there will not be a material adverse effect in the future. See our risk factor entitled “We are exposed to risks related to cybersecurity and protection of confidential information” in our most recently filed Annual Report on Form 10-K. In addition, while our employee base currently has adequate resources to pursue new clients or expand existing relationships, we have no control over the business continuity resources available to our clients. As a result, our ability to maintain, expand, or establish new client relationships may be limited.

Return of capital
While our capital position has not been materially affected by the COVID-19 pandemic, there can be no assurance that a recession triggered by the pandemic will not have a material negative impact on our capital position. Our Board of Directors has determined that, in these unprecedented times, it is prudent that the Company not initiate any new share repurchase plan at this time. The Board has made no changes to the dividend guidance. There can be no assurance that our dividend or share repurchases will remain unchanged.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On January 29, 2020, the Board of Directors approved a share repurchase program authorizing the purchase of 30 million

shares (the "2020 Repurchase Program"), which was approximately 12% of the total shares of our outstanding common stock at that time. During the second quarter of 2020, we did not repurchase any shares under the 2020 Repurchase Program and, as of June 30, 2020, 30 million shares remained under the 2020 Repurchase Program.

On December 4, 2013, the Board of Directors approved a share repurchase program authorizing the purchase of up to 50 million shares (the "2013 Repurchase Program"), which was approximately 18% of the Company's outstanding shares at that time. During the second quarter of 2020, we did not repurchase any shares under our 2013 Repurchase Program and, as of June 30, 2020, 1.3 million shares remained under the 2013 Repurchase Program.

Repurchased shares may be used for general corporate purposes, including the issuance of shares for stock compensation plans and to offset the dilutive effect of the exercise of employee stock options. Our 2013 and 2020 Repurchase Programs have no expiration date and purchases under this program may be made from time to time on the open market and in private transactions, depending on market conditions.

The following table provides information on our purchases of our outstanding common stock during the second quarter of 2020 pursuant to our 2013 and 2020 Repurchase Programs (column c). In addition to these purchases, the number of shares in column (a) include shares of common stock that are tendered to us to satisfy our employees' tax withholding obligations in connection with the vesting of awards of restricted shares (we repurchase such shares based on their fair market value on the vesting date).

There were no other share repurchases during the quarter outside the repurchases noted below.

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Programs	(d) Maximum Number of Shares that may yet be Purchased Under the Programs
April 1 — April 30, 2020	1,370	$ 252.18	—	31.3 million
May 1 — May 31, 2020	2,527	289.58	—	31.3 million
June 1 — June 30, 2020	2,270	329.63	—	31.3 million
Total — Quarter	**6,167**	**$ 296.01**	**—**	**31.3 million**

Item 5. Other Information

IRAN THREAT REDUCTION AND SYRIA HUMAN RIGHTS ACT DISCLOSURE

Pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012, which amended the Securities Exchange Act of 1934, an issuer is required to disclose in its annual or quarterly reports, as applicable, whether, during the reporting period, it or any of its affiliates knowingly engaged in certain activities, transactions or dealings relating to Iran or with individuals or entities designated pursuant to certain Executive Orders. Disclosure is generally required even where the activities, transactions or dealings were conducted in compliance with applicable laws and regulations.

During the second quarter of 2020, the Company recorded no revenue or net profit attributable to the transactions or dealings described below. The amount recorded in connection with the foregoing reflects the uncertainty of collection.

During the second quarter of 2020, Platts, a division of the Company that provides energy-related information in over 150 countries, sold information and informational materials, which are generally exempt from U.S. economic sanctions, to subscribers that are owned or controlled, or appear to be owned or controlled, by the Government of Iran. Platts provided such subscribers access to proprietary data, analytics, and industry information that enable commodities markets to perform with greater transparency and efficiency. The Company will continue to monitor its provision of products and services to such subscribers.

Item 6. Exhibits

(3.1)	Amended and Restated Certificate of Incorporation of the Company, dated May 13, 2020, incorporated by reference from the Registrant's Form 8-K filed on May 18, 2020
(10.1)	Offer Letter dated March 25, 2020 between Registrant and Dan Draper
(15)	Letter on Unaudited Interim Financials
(31.1)	Certification of Chief Executive Officer pursuant to Rule 13a-14(a) and Rule 15d-14(a) of the Securities Exchange Act of 1934, as amended
(31.2)	Certification of Chief Financial Officer pursuant to Rule 13a-14(a) and Rule 15d-14(a) of the Securities Exchange Act of 1934, as amended
(32)	Certification of Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

Chicago, IL 60614

Dear Dan,

Congratulations on your new position as the Chief Executive Officer of S&P Dow Jones Indices LLC ("SPDJI"), reporting to Doug Peterson, Chief Executive Officer of S&P Global Inc. (S&P Global). We are delighted to have you on board and know you will be a great addition to our team! You will be starting in your position on June 1, 2020, but no later than July 1, 2020, or such other date as may be mutually agreed between you and the CEO of S&P Global.

You will be paid a base salary of $27,083.33 semi-monthly, based on an annualized salary of $650,000, less any required deductions. This position is Fair Labor Standards Act (FLSA) exempt and therefore not eligible for overtime pay.

In addition to your base salary, and subject to the approval of the SPDJI Board of Directors and of the Compensation and Leadership Development Committee of the S&P Global Board of Directors, your compensation as CEO of SPDJI will be as follows:

• You will receive a one-time bonus payment totaling $1,250,000, less any applicable deductions, of which $250,000 is payable within 90 days of your start date, $500,000 is payable on December 31, 2020 (or within 1 payroll period thereof), and $500,000 is payable on the anniversary of your start date (or within 1 payroll period thereof), provided you are continuously and actively employed through the first anniversary of your start date. You agree to repay to the Company any payments made before the first anniversary of your start date if, before that anniversary date, you voluntarily separate from S&P Global for reasons other than an Adverse Change in Conditions of Employment (as defined in the S&P Global Inc. Senior Executive Severance Plan (the "Severance Plan") or are terminated for Cause (as defined in the Severance Plan).

• You will receive a one-time Restricted Stock Unit Award with a value of $1,275,000 in recognition of current unvested equity awards with your current employer, and based on documentation provided by you relating to unvested awards. This one-time award will vest over a three year period with 1/3 of the award vesting on the first, second, and third anniversary of the award. Dividend equivalents will be accrued during the award period and will be paid in cash, along with vested shares. Provided approval from the Compensation and Leadership Development Committee of the Board of Directors and any other necessary approval is obtained, this Restricted Stock Unit Award will be granted on the first business day of the month following your start date.

• You will be eligible to participate in the S&P Global Key Executive Short-Term Incentive Compensation Plan (the "STIC") with a target incentive opportunity of $1,000,000, less applicable deductions. For the 2020 performance year you will be eligible for a full year (i.e., not prorated) award under the STIC . Actual payment under the STIC, if any, will be based on the degree of achievement of established Company and/or business unit objectives and your individual performance and contribution. Awards may be less than the communicated target and subject to your manager's assessment of your performance. Please note that target opportunities and eligibility are not commitments to pay any award, as all payments under the STIC are discretionary. To receive a payment for the 2020 performance year and thereafter, you must be employed by S&P Global, or any of its business units, on the STIC payout

date (bonuses under the STIC are payable on or before March 15 of the year following the performance year).

• You will also be eligible to participate in the S&P Global Inc. Stock Incentive Plan and the S&P Dow Jones Indices Long-Term Cash Incentive Plan (together, the "Long-Term Incentive Program"). Under the Long-Term Incentive Program, in 2020 you will be eligible to receive long-term incentive awards valued at $1,750,000, comprised of the following: (i) a long-term cash incentive award with a target value of $1,050,000 under the S&P Global Dow Jones Indices Long-Term Cash Incentive Plan, and (ii) S&P Global Performance Share Units (PSUs) with a target value of $490,000 and S&P Global Restricted Stock Units (RSUs) valued at $210,000, in each case subject to the necessary board approvals, the terms of the applicable long-term incentive plan and your acceptance of the applicable award documentation. Such grant is conditioned upon your start date occurring on or before July 1, 2020, or such other date as may be approved in writing by the CEO of S&P Global. The long-term incentive awards will be granted on the first business day of the month following your start date. For 2021 and thereafter, you will be eligible to receive a long-term incentive grant that, subject to board approval, will be in an amount to be determined by the CEO of S&P Global based on his or her evaluation of your performance.
The Company reserves the right to forfeit, recover or delay payment of awards pending the outcome of disciplinary procedures or investigations to matters that could be considered grounds for termination of employment or pay recovery as stated by the Pay Recovery Policy. Both short term and long-term performance awards are subject to claw backs. The recovery period starts at the beginning of each performance year (or upon hire) plus 24 months following the same performance period.

Please note that, as with all compensation and benefit plans, the Company reserves the right to amend and terminate incentive programs in its discretion.

As set forth in Attachment B hereto, the Company will provide you with Return Trips from Chicago to the tri-state area (New York, Connecticut, New Jersey) for the period of time stated in Attachment B. You will also be provided with 1 month of Temporary Housing as set forth in Attachment B, to assist you in your search for an apartment in New York. This Temporary Housing will be available to you when the New York office is available for your use and you are allowed to travel from Chicago to New York, or at such other time as may be agreed between you and the CEO of S&P Global. Between your start date and September 1, 2022 (or such other date as may be agreed between you and the CEO of S&P Global), if your family relocates to the tri-state area, you will receive relocation assistance as set forth in Attachment B in connection with such relocation. As also set forth in Attachment B, you agree to repay relocation expenses in the event that, prior to the first anniversary of the date of such relocation, you resign your employment for reasons other than an Adverse Change in Conditions of Employment (as defined in the Severance Plan) or your employment is terminated for Cause (as defined in the Severance Plan).

You will be eligible to receive all benefits routinely made available to all S&P Global employees at comparable levels. Also, you are subject to all eligible policies of S&P Global. You must enroll in all benefit plans within your first thirty days, and benefit coverage is retroactive to your hire date. Please click here to review information regarding the benefits available to employees of S&P Global.

Effective with your employment, you shall participate in the Senior Executive Severance Plan, which currently provides 12 months' salary plus other benefits in the event of a "Qualified Termination of Employment", as defined in and subject to the terms and conditions of, the plan.

You will be eligible to accrue 4 weeks of vacation in accordance with the terms of Company's current vacation policy. Your vacation during the first year will be pro-rated based on your hire date.

In addition to the standard benefits, you will be entitled to the following perquisites:
• Annual Executive Physical Program

• First Class air travel
• Tax counseling and return preparation

Effective with your employment, you will participate in the Management Supplemental Death and Disability Plan, which provides for pre-retirement death benefits equal to two times your annual base salary. Should you become disabled while employed by S&P Global, you shall be provided with a monthly disability income benefit, as defined under the Plan and reduced by certain plan-specified offsets.

Please note that your offer of employment with S&P Global is contingent upon the successful completion of a background investigation, which will be administered by an independent third-party vendor, Sterling Talent Solutions. The investigation will include employment and education verification, as well as a criminal history and credit review.

As a new hire, and annually thereafter, you will be required to affirm that you have read and understand the S&P Global Code of Business Ethics (COBE). In addition, there are divisions of S&P Global (including S&P Dow Jones Indices) that require affirmations to a Code of Conduct, or Code of Business Ethics and a Securities Disclosure Policy. The purpose of the Codes of Ethics and the Securities Disclosure Policy are to establish guidelines reasonably designed to identify and prevent recipients from breaching any applicable fiduciary duties and to deal with other situations that may pose a conflict or potential conflict of interest. The Securities Disclosure Policy applies to employees and members of their Immediate Family. Employees and members of their Immediate Family will be required to use a Designated Broker(s) for all Securities trading. Employees and their Immediate Family are required to pre-clear personal Securities trades and a 30 day hold policy applies. In addition, employees or Immediate Family members will not be permitted to hold Securities that may pose a conflict of interest or the appearance of a conflict, including Securities on specific global Restricted Lists. Any questions relating to the "Codes" or the Securities Disclosure Policy should be directed to the Compliance team at 212−438−4218.

You and the Company agree to provide 60 days written notice of termination for reasons other than an Adverse Change in Conditions of Employment or Cause (as those terms are defined in the Severance Plan). This letter is not an offer of a contract of employment. It is the Company's policy that all employment is "at-will". This means either the employee or the Company may terminate employment for any reason at any time, subject only to the notice provision expressly stated above. No change in the "at-will" employment relationship is valid unless it is contained in a written agreement signed by an authorized officer of S&P Global.

Federal law requires U.S. employers to verify that all new employees are eligible to work in the United States pursuant to the Immigration Reform and Control Act of 1986. As a condition of your employment, as set forth by the Act, you will be required to provide proof of identity and employment authorization within three (3) days of your Start Date by completing the Form I-9. Shortly after offer acceptance, you will receive an email communication from the S&P Global Onboarding team with instructions on how to complete your pre-boarding tasks including updating personal information and I-9 requirements.

You acknowledge and agree that terms and conditions set forth in Attachment A (Agreement for the Protection of Company Interests) hereto are hereby incorporated into, and are part of, the terms and conditions of this offer letter. You acknowledge that you have reviewed and understand the terms of the Agreement for the Protection of Company Interests, and that by accepting this offer letter you are accepting the terms in Attachment A, including the non-competition, non-solicitation of clients, non-solicitation of employees, confidentiality and intellectual property ownership provisions.

You represent that you are free to enter into an employment relationship with the Company and to perform the services required of you. You also represent that you have disclosed to the Company and provided copies of any agreement you may have with any third party (such as a former employer) which

may limit your ability to work for the Company, or which otherwise could create a conflict of interest with the Company. You further represent that you are not bound by any non-competition, non-disclosure, non-solicitation, or similar obligations, except for those contained in the written agreements you have provided to the Company. Finally, please understand that you are strictly prohibited from using or disclosing any confidential information or materials of any former employer or other third party to whom you have an obligation of confidentiality and from violating any lawful agreement that you may have with any third party.

You will receive an email requesting you to provide an e-signature to accept this offer. You must complete this step in order to move forward in the hiring process.

Dan, we are looking forward to you joining our team. In the meantime, if you have any questions please do not hesitate to call me.

Sincerely,

Dimitra Manis
Chief People Officer

Attachment A

Agreement for the Protection of Company Interests

By accepting the terms of employment with S&P Global Inc., including its divisions, subsidiaries and affiliates (collectively, "S&P Global" or the "Company"), as set forth in the offer letter to which this Agreement for the Protection of Company Interests ("Agreement") is attached, you agree that, for good consideration stated herein, including but not limited to your employment and continued employment, your access to confidential information as an employee of the Company, and/or training provided by the Company, you and the Company agree as follows:

1. Acknowledgements. You acknowledge and agree that, in connection with your responsibilities as a senior executive with S&P Global, you have or will have, among other things, developed relationships and access to Confidential Information (defined below), in each case involving significant Company expense, that would provide you and/or a competitor with an unfair competitive advantage if you were to leave the Company and thereafter provide services to a competitor of S&P Global, misuse or divulge confidential information, or solicit clients or employees. You therefore agree that the post-employment restrictions contained in this Agreement: (a) are reasonably tailored to protect S&P Global's legitimate business interests in light of your position and duties within the Company, the unique and valuable resources that S&P Global invests in your training; and (b) do not unfairly or unreasonably prohibit you from seeking and obtaining employment opportunities following employment with S&P Global and you intend that the post-employment restraints contained in this Agreement operate to the maximum extent.

2. Confidentiality. During the course of your employment with the Company, you will have access to non-public financial, proprietary, commercial, business and/or technical information relating to S&P Global (collectively, "Confidential Information"). In addition, you understand that the Company will receive from third parties confidential or proprietary information ("Third Party Information") subject to a duty by the Company to maintain the confidentiality of such information. You agree to keep confidential, both during and at all times after your employment, all Confidential Information and Third Party Information, and that you will not disclose any such information (except as required by applicable law or for the proper performance of your duties and responsibilities for the Company and subject to Section 5 below). You further agree to abide by your confidentiality obligations, both during and at all times after your employment, which apply under applicable law, which you acknowledge agreeing to in the Company's Code of Business Ethics (the "COBE"), and which you may agree to under other applicable policies or agreements that you may accept or acknowledge as an employee of the Company.
3. Intellectual Property. You agree to assign, and hereby assign, all intellectual property rights all ideas, inventions and designs conceived or reduced to practice by you while employed and which: (a) result from any work performed by you for the Company, (b) relate to the Company's then-existing business or demonstrably anticipated research or development, or (c) were made with the Company's equipment, supplies, facilities or trade secret information. All such ideas, inventions and designs shall be disclosed on a timely basis to the Company and title to such inventions, ideas and designs, including all intellectual property rights, shall be owned by S&P Global.

4. Conflicts of Interest. During your employment with S&P Global, you acknowledge and agree that you have a duty of loyalty to the Company under applicable law, and that you will avoid engaging in activities that create a conflict of interest, as set forth in the COBE. You therefore agree that, during your employment with S&P Global, you will not, directly or indirectly, engage in business activities that compete with the Company, solicit Company clients to move S&P Global business or business opportunities to an entity other than the Company, or solicit Company employees to leave S&P Global.

5. Whistleblower Protections; Defend Trade Secrets Act. Notwithstanding anything to the contrary in this Agreement, including under Sections 2, 3 and 4, the COBE, or any other agreement with or policy of the Company, nothing in any of the Company's policies or in any applicable employment agreement limits your ability to communicate directly with and provide information, including documents, not otherwise protected from disclosure by any applicable law or privilege to the Securities and Exchange Commission (the "SEC") or any other federal, provincial, state, local or other applicable governmental agency or commission ("Government Agency") regarding possible legal violations, without disclosure to the Company. The Company may not retaliate against you for such communications and nothing herein requires you to waive any monetary award or other payment that you might become entitled to from the SEC or any other Government Agency. In addition, pursuant to the Defend Trade Secrets Act of 2016, you will not have criminal or civil liability under any federal or state trade secret law for the disclosure of a trade secret that (a) is made (i) in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or (b) is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. In addition and without limiting the preceding sentence, if you file a lawsuit for retaliation by the Company for reporting a suspected violation of law, you may disclose the trade secret to your attorney and may use the trade secret information in the court proceeding, if you (x) file any document containing the trade secret under seal and (y) do not disclose the trade secret, except pursuant to court order.

6. Non-Competition. During the Restricted Period, as defined below, you agree not to, directly or indirectly, provide Restricted Services, as defined below, whether as an employee, worker, independent contractor, volunteer, director, owner, advisor, partner, or otherwise, to any entity that provides products or services that compete with any S&P Global products or services (such entity, a "Competitor") within the Restricted Area, as defined below, except with prior written approval from the Company. Nothing herein shall prevent you from owning up to 2% interest in a publicly traded company which sells or engages in services that compete with S&P Global. In addition, nothing herein shall prevent you from acting as an officer, employee, agent, independent contractor or consultant to a Competitor which engages in multiple lines of business, one or more of which may compete with S&P Global products or services, if you have no direct or indirect involvement, participation, oversight or responsibility with respect to the unit, division, group, or other area of operations which cause such entity to be a Competitor.

a. The "Restricted Period" shall mean 12 months following the termination of your employment with the Company for any reason (the "Termination Date").

b. "Restricted Services" shall mean services of any sort that relate to S&P Global products or services about which, during the 12 months prior to the Termination Date: (i) you or a person under your chain of command had responsibilities in the course of employment with the Company (including, without limitation, responsibilities relating to research and development, operations, provision of products or services, planning, marketing, sales, relationship management, compliance, risk, or finance), or (ii) you obtained confidential information.

c. The "Restricted Area" shall mean any country or countries in which S&P Global provides products or services that fall within the definition of Restricted Services, and in which S&P Global provided such services during the 12 months prior to the Termination Date.

d. Notice of Competition. You agree to provide the Company with at least thirty (30) days written notice before commencing any position that would involve your provision of Restricted Services to a Competitor during the Restricted Period, and to respond truthfully to any inquiry by S&P Global regarding your plans or opportunities to join a Competitor during the Restricted Period.

7. Non-Solicitation of Clients. During the Restricted Period (as defined above), you agree not to, either on your own account or on behalf of any other person, firm, company, organization or entity, directly or indirectly interfere with the relationship between S&P Global and any of its clients or prospective clients in the Restricted Area (as defined above) by directly or indirectly soliciting any client or prospective client with respect to Restricted Services (as defined above). This restriction shall only apply to clients or prospective clients with which you had business-related or business-sponsored contact

in the 12 months preceding the Termination Date. For purposes of this Section 7, “prospective client” means any firm, company or person whose business or investment S&P Global has tried to solicit at any time during the 12 months before the Termination Date and to whom, during that period, you have made a presentation or a pitch, and/or with whose potential custom, investment or business you were personally concerned at any time during that period, and/or in respect of whom you had access to confidential information as of the Termination Date.

8. Non-Solicitation of Employees. During the Restricted Period (as defined above), you agree not to, either on your own account or on behalf of any other person, firm, company, organization or entity, directly or indirectly participate in poaching, recruiting or soliciting any S&P Global employee in the Restricted Area (as defined above) to leave S&P Global, provided that, in the 12 months preceding your Termination Date, you had substantial contact or business dealings with such employee, direct or indirect management authority over such employee, and/or access to confidential information about such employee.

9. Enforcement and remedies. You acknowledge and agree that any breach or threatened breach of this Agreement is likely to cause S&P Global substantial and irreparable damage which is difficult to measure. Therefore, in the event of any such breach or threatened breach, you agree that the Company, in addition to such other remedies which may be available, shall have the right to obtain an injunction from a court restraining such a breach or threatened breach without posting a bond and the right to specific performance of the provisions of this Agreement, and you hereby waive the adequacy of a remedy at law as a defense to such relief.

10. Miscellaneous.
a. Disclosure of this Agreement. You agree to notify any entity with whom you discuss the possibility of an employment relationship of the terms and existence of this Agreement.
b. Successors and assigns. This Agreement shall be binding upon, and inure to the benefit of, both parties and their respective successors and assigns, including any corporation with which, or into which, the Company may be merged or which may succeed to the Company’s assets or business; provided, however, that your obligations are personal and shall not be assigned by you. You expressly consent to be bound by the provisions of this Agreement for the benefit of the Company or any S&P Global entity to whose employ you may be transferred without the necessity that this Agreement be re-signed at the time of such transfer.
c. Severability. In case any provision of this Agreement shall be invalid, illegal, or otherwise unenforceable, the validity, legality, and enforceability of the remaining provisions shall in no way be affected or impaired thereby.
d. Waivers. No delay or omission by the Company in exercising any right under this Agreement will operate as a waiver of that or any other right. A waiver or consent given by the Company on any one occasion is effective only in that instance and will not be construed as a bar to or waiver of any right on any other occasion.
e. Governing law. This Agreement shall be governed by and construed in accordance with the laws of New York (without reference to the conflicts of laws provisions thereof). Any action, suit, or other legal proceeding which is commenced to resolve any matter arising under or relating to any provision of this Agreement shall be commenced only in a court in the state of New York (or, if appropriate, a federal court located within New York), and the Company and you each consent to the jurisdiction of such a court.
f. Entire agreement; amendment. This Agreement supersedes all prior agreements, written or oral, between you and the Company relating to the subject matter of this Agreement, except it does not supersede or amend any prior restrictive covenants, including, without limitation, restrictive covenants relating to non-competition, non-solicitation or non-service of clients and potential clients, non-solicitation of employees, and confidentiality. You acknowledge and agree that: (i) any prior agreements containing post-employment restrictive covenants continue in full force and effect, that you understand that the scope of such covenants may differ from those herein, (ii) you understand all of the obligations to

which you have agreed, and (iii) all such obligations are reasonable for the protection of the Company's and S&P Global's legitimate business interests. This Agreement may not be modified, changed, or discharged in whole or in part, except by an agreement in writing signed by you and the Company.

g. No term of employment. Nothing herein implies the existence of a term of employment, or alters the "at-will" relationship of your employment.

h. Captions/Section Headings. The captions of the sections of this Agreement are for convenience of reference only and in no way define, limit, or affect the scope or substance of any section of this Agreement.

The terms of this Attachment A are incorporated into and part of the offer letter to which it is attached (the "Offer Letter"). By accepting the terms of the Offer Letter, the parties represent that they understand and accept the terms of this Agreement.

Attachment B

US RELOCATION BENEFITS
Current Location: Chicago
Destination Location: New York City (tri-state area of New York, Connecticut, New Jersey)
Anticipated Date of Relocation: On or before September 1, 2022

The Company has retained Cartus as its US relocation vendor to provide its employees with all of the relocation-related services and coordination associated with S&P's Global Mobility programs. Cartus will be authorized to contact you and arrange for the benefits outlined herein. Note that receipts must be presented to Cartus for reimbursement.

Return Trips
You will be reimbursed for up to two trips per month between your Destination Location to your Current Location as follows:
1. Round trip business class for you
2. Ground transportation to/from airports
Return Trip reimbursements will end upon the earlier of your family's relocation to the tri-state area or September 1, 2022 (which date may be extended by agreement in writing by the S&P Global CEO).

Temporary Housing
The Company will provide a one-bedroom temporary housing accommodation for up to 30 days in the Destination Location. All other expenses (meals, transportation, etc.) are your responsibility.

All Relocation Benefits below are conditioned upon your family's relocation to the Destination Location on or before September 1, 2022 (which date may be extended by agreement in writing by the S&P Global CEO).

Home Finding Assistance
You will be reimbursed for a home finding trip as follows:
1. One trip for a total of 7 days for you and your spouse/partner
2. Lodging and meals
3. Rental car (mid-size)
4. Childcare (if applicable)
5. As the Destination Location is greater than 400 miles from your Departure Location, in addition to the above, you will receive reimbursement for round trip business class airfare
Receipts must be submitted to Cartus for expense reimbursement

Departure Location Home Marketing and Sale Assistance
Professional assistance for the sale of your primary residence in the Departure Location will be provided by Cartus as follows:

Home Marketing Assistance
1. Cartus will order two Broker Market Analyses (BMAs) immediately.
2. The Most Likely (Probable) Sales Price listed on the two BMAs will be averaged together and the home will be listed at no more than 105% of this average.
3. The Most Likely (Probable) Sales Price listed on the BMAs must be within 5% of each other or a third BMA is ordered and the two closest values will be averaged together.
4. Cartus will assist with a marketing strategy.

Home Sale Assistance
1. If a bona fide offer has not been secured by day 120 of the marketing period, Cartus will order two appraisals and inspections.
2. The Company will reimburse the real estate agent's commission (up to 6%), miscellaneous closing costs and legal fees that are typically the seller's responsibility provided the transaction is completed on or before the anniversary or your Date of Hire.

Destination Location New Home Purchase Assistance
If you own and sell your primary residence in the Departure Location within one year of your relocation date, you will be reimbursed for normal and customary expenses when purchasing a residence in the Destination Location as follows:
1. Reimbursement includes up to 2% for loan origination fees/discount points.
2. Closing costs incurred following the completion of purchase will be reimbursed provided the transaction is completed on or before the anniversary of your Date of Hire.

Duplicate Housing Cost
If you close on a home in the Destination Location before closing on your home in the Departure Location, duplicate housing expenses will be reimbursed on the home with the lowest costs for a maximum of one month based on interest on first mortgage only, real estate taxes and insurance.

Movement of Household Goods
A professional van line will be selected and coordinated by Cartus.
1. The van line will pack, load, transport, and unload goods, including normal appliance servicing.
2. The Company will provide:
a. Full unpacking services
b. Storage for up to 30 days
c. Valuation coverage up to $100,000
d. Shipment of up to two automobiles one-way to the Destination location

Final Trip to Destination Location
The Company will reimburse en route expenses from the Departure Location to the Destination Location incurred by you and your family. Reimbursable expenses include:
1. Airfare (reimbursed if the distance to Destination Location is >400 miles one-way)
2. Lodging
3. Meals
4. Mileage
5. Parking and tolls
You must travel a minimum of 400 miles per day by the most direct route.

Miscellaneous Expenses
You will be reimbursed for miscellaneous expenses not provided elsewhere in this Attachment up to a maximum $10,000. Examples for eligible reimbursement are:
1. Cancellation of club/gym memberships
2. Cancellation of cable, utilities
3. Charges for connection or disconnection of appliances
4. Automobile licenses, registration
5. Excess luggage fees
Receipts must be submitted for reimbursement.

Tax Liability
Please be advised that the benefits provided under this Attachment B may constitute taxable income and will be reported as called for by applicable law.

Repayment Agreement
You are expected to remain with the Company for one year from the date on which your family relocates to the tri-state area (New York, Connecticut, New Jersey). If, prior to the expiration of that one-year period, you resign your employment for reasons other than an Adverse Change in Conditions of Employment (as defined in the Severance Plan) or your employment is terminated for Cause (as defined in the Severance Plan), then relocation benefits will cease immediately and you agree to repay all relocation expenses previously reimbursed or paid by the Company within 30 days of the termination of your employment, and you acknowledge and agree to the Company's deduction of such amounts from any remaining payments owed to you, including, without limitation, any unpaid compensation and wages (subject to applicable law).

/s/ ERNST & YOUNG LLP

New York, New York
July 28, 2020

Exhibit (31.1)

Certification pursuant to Rule 13a-14(a) and Rule 15d-14(a) of the Securities Exchange Act, as amended

I, Douglas L. Peterson, certify that:

1. I have reviewed this quarterly report on Form 10-Q of S&P Global Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
