UNIVEST FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Note 1. Summary of Significant Accounting Policies

Principles of Consolidation and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Univest Financial Corporation (the Corporation) and its wholly owned subsidiaries. The Corporation's direct subsidiaries are Univest Bank and Trust Co. (the Bank) and 1876 Double Eagle, LLC. All significant intercompany balances and transactions have been eliminated in consolidation. The unaudited condensed consolidated financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) have been condensed or omitted pursuant to the rules and regulations for interim financial information. The accompanying unaudited condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature and are, in the opinion of management, necessary for a fair presentation of the financial statements for the interim periods presented. Certain prior period amounts have been reclassified to conform to the current period presentation. Operating results for the three- and six-month periods ended June 30, 2026 are not necessarily indicative of the results that may be expected for the year ended December 31, 2026 or for any other period. These unaudited condensed consolidated financial statements should be read in conjunction with the audited financial statements and the notes thereto included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2025, which was filed with the SEC on February 23, 2026.

Use of Estimates

The preparation of the unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant changes include the fair value measurement of investment securities available-for-sale and the determination of the allowance for credit losses on loans and leases.

Accounting Pronouncement Adopted in 2026

In November 2024, the FASB issued ASU No. 2024-04, *"Debt—Debt with Conversion and Other Options (Subtopic 470-20): Induced Conversions of Convertible Debt Instruments."* This ASU clarifies the requirements for determining whether certain settlements of convertible debt instruments should be accounted for as an induced conversion. This ASU became effective on January 1, 2026 for the Corporation. The adoption of this ASU did not have a material impact on the Corporation's financial statements.

In July 2025, the FASB issued ASU 2025-05, *"Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets."* This ASU amends ASC 326-20 to provide a practical expedient (for all entities) and an accounting policy election (for all entities, other than public business entities that elect the practical expedient) related to the estimation of expected credit losses for current accounts receivable and current contract assets that arise from transactions accounted for under ASC 606, *"Revenue from Contracts with Customers."* This ASU became effective on January 1, 2026 for the Corporation. The adoption of this ASU did not have a material impact on the Corporation's financial statements.

Recent Accounting Pronouncements Yet to Be Adopted

In October 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2023-06, *"Disclosure Improvements: Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative."* This ASU amends the disclosure or presentation requirements related to various subtopics in the FASB Accounting Standards Codification. The amendments in this ASU are expected to clarify or improve disclosure and presentation requirements of a variety of Codification Topics, allow users to more easily compare entities subject to the SEC's existing disclosures with those entities that were not previously subject to the requirements, and align the requirements in the Codification with the SEC's regulations. For entities subject to the SEC's existing disclosure requirements and for entities required to file or furnish financial statements with or to the SEC in preparation for the sale of or for purposes of issuing securities that are not subject to contractual restrictions on transfer, the effective date for each amendment will be the date on which the SEC removes that related disclosure from its rules. For all other entities, the amendments will be effective two years

later. However, if by June 30, 2027, the SEC has not removed the related disclosure from its regulations, the amendments will be removed from the Codification and not become effective for any entity. The Corporation does not expect the adoption of this ASU will have a material impact on the Corporation's financial statements.

In November 2024, the FASB issued ASU No. 2024-03, *"Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses."* This ASU requires new financial statement disclosures in tabular format, disaggregating information about prescribed categories underlying any relevant income statement expense caption. This ASU is effective for public business entities for annual reporting periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is permitted. This ASU applies on a prospective basis for periods beginning after the effective date. However, retrospective application to any or all prior periods presented is permitted. In January 2025, the FASB issued ASU No. 2025-01 to amend the effective date of ASU No. 2024-03 to clarify that all public business entities are required to adopt the guidance in annual reporting periods beginning after December 15, 2026, and interim periods within annual reporting periods beginning after December 15, 2027. The Corporation does not expect the adoption of this ASU will have a material impact on the Corporation's financial statements.

In November 2025, the FASB issued ASU 2025-08, *"Financial Instruments—Credit Losses (Topic 326): Purchased Loans."* This ASU expands the population of acquired financial assets subject to the "gross-up approach" in Topic 326. All non-PCD loans (excluding credit cards) that are acquired in a business combination are deemed seasoned. Other non-PCD loans (excluding credit cards) are considered to be seasoned if they were purchased more than 90 days after origination and the acquirer was not involved in the origination of the loans. This ASU is effective for all entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods within those annual reporting periods. Early adoption is permitted for financial statements that have not yet been issued. The Corporation does not expect the adoption of this ASU will have a material impact on the Corporation's financial statements.

In November 2025, the FASB issued ASU 2025-09, *"Derivatives and Hedging (Topic 815): Hedge Accounting Improvements."* This ASU is designed to align hedge accounting more closely with the economics of an entity's risk management activities. This ASU addresses five issues intended to enable financial statements to better reflect certain hedging strategies by allowing entities to achieve and maintain hedge accounting for a greater number of highly effective economic hedges. This ASU is effective for all entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods within those annual reporting periods. Early adoption is permitted as of any date on or after its issuance. The Corporation does not expect the adoption of this ASU will have a material impact on the Corporation's financial statements.

Gross unrealized gains and losses on available-for-sale securities are recognized in accumulated other comprehensive income (loss) and changes in the allowance for credit losses are recorded through provision for credit loss expense. Expected maturities may differ from contractual maturities because debt issuers may have the right to call or prepay obligations without call or prepayment penalties and mortgage-backed securities typically prepay at a rate faster than contractually due.

Securities with a carrying value of \$426.8 million and \$439.4 million at June 30, 2026 and December 31, 2025, respectively, were pledged to secure various deposit obligations and contingency funding. There were no pledged securities to secure credit derivatives and interest rate swaps at June 30, 2026 or December 31, 2025.

There were no sales of securities available-for-sale during the six months ended June 30, 2026 or 2025.

At June 30, 2026 and December 31, 2025, there were no reportable investments in any single issuer representing more than 10% of shareholders' equity.

At June 30, 2026, the fair value of held-to-maturity securities in an unrealized loss position for which an allowance for credit losses has not been recorded was \$99.9 million, which includes unrealized losses of \$13.7 million. These holdings were comprised of 90 federal agency mortgage-backed securities, which are U.S. government entities and agencies and are either explicitly or implicitly guaranteed by the U.S. government, are highly rated by major rating agencies and have a long history of no credit losses. The Corporation did not recognize any credit losses on held-to-maturity debt securities for the six months ended June 30, 2026.

At June 30, 2026, the fair value of available-for-sale securities in an unrealized loss position for which an allowance for credit losses has not been recorded was \$310.6 million, which includes unrealized losses of \$30.1 million. These holdings were comprised of: (1) 115 federal agency mortgage-backed securities, which are U.S. government entities and agencies and are either explicitly or implicitly guaranteed by the U.S. government, are highly rated by major rating agencies and have a long history of no credit losses; (2) eight investment grade corporate bonds; and (3) two collateralized mortgage obligation bonds. The Corporation does not intend to sell the securities in an unrealized loss position and is unlikely to be required to sell these securities before a recovery of fair value, which may be at maturity. The Corporation concluded that the unrealized loss of these securities was not indicative of a credit loss. Accrued interest receivable on available-for-sale debt securities totaled \$1.3 million at June 30, 2026 and was included within accrued interest receivable and other assets on the condensed consolidated balance sheet. This amount is excluded from the estimate of expected credit losses.

The table below presents a roll forward by major security type for the six months ended June 30, 2026 and June 30, 2025 of the allowance for credit losses on securities available-for-sale.

<u>Securities Available-for-Sale</u>

Ending balance	<u>\$ (17)</u>

At June 30, 2026, the fair value of available-for-sale securities in an unrealized loss position for which an allowance for credit losses has been recorded was \$10.0 million, which includes unrealized losses of \$122 thousand, and an allowance for credit losses of \$34 thousand. These holdings were comprised of 21 investment grade corporate bonds, all of which fluctuate in value based on changes in market conditions. For these securities, fluctuations were primarily due to changes in the interest rate environment. The Corporation does not intend to sell these securities, and it is not likely that it will be required to sell the securities before their anticipated recovery. The underlying issuers continue to make timely principal and interest payments on the securities.

During the second quarter of 2025, \$719 thousand of allowance for credit losses was reversed on six investment grade corporate bonds. These six investment grade corporate bonds were issued by Global Systemically Important Banks (G-SIBs) and Domestic Systemically Important Banks, which hold a significant amount of excess capital to address a systemic event. As such, these banks were excluded from the allowance for credit losses on investments as the credit risk within this portfolio was deemed to be de minimis. The G-SIBs are evaluated and confirmed annually by the Financial Stability Board and a formal list is published and available each November.

There were no sales of equity securities during the six months ended June 30, 2026 and 2025.

(2) Loans fully guaranteed or fully reserved given lack of collateral.

Credit Quality Indicators

The Corporation categorizes risk based on relevant information about the ability of the borrower to service their debt. Loans with a relationship balance of less than \$1 million are reviewed when necessary based on their performance, primarily when such loans are delinquent. Commercial, financial and agricultural loans, real estate-commercial loans, real estate-construction loans and real estate-residential secured for business purpose loans with relationships greater than \$1 million are reviewed at least annually. Loan relationships with a higher risk profile or classified as special mention or substandard are reviewed at least quarterly. The Corporation reviews credit quality key risk indicators on at least an annual basis and last completed this review in conjunction with the period ended December 31, 2025. The following is a description of the internal risk ratings and the likelihood of loss related to the credit quality of commercial, financial and agricultural loans, real estate-commercial loans, real estate-construction loans and real estate-residential secured for a business purpose loans.

1. Pass—Loans considered satisfactory with no indications of deterioration
2. Special Mention—Potential weakness that deserves management's close attention
3. Substandard—Well-defined weakness or weaknesses that jeopardize the liquidation of the debt
4. Doubtful—Collection or liquidation in-full, on the basis of current existing facts, conditions and values, highly questionable and improbable

Note 7. Borrowings

The following is a summary of borrowings by type. Short-term borrowings consist of overnight borrowings and term borrowings with an original maturity of one year or less.

(Dollars in thousands)	At June 30, 2026		At December 31, 2025	
	Balance at End of Period	Weighted Average Interest Rate at End of Period	Balance at End of Period	Weighted Average Interest Rate at End of Period
Short-term borrowings:				
Customer repurchase agreements	\$ 18,826	0.05%	\$ 24,411	0.05%
Long-term debt:				
FHLB advances	\$ 125,000	4.00%	\$ 200,000	4.20%
Subordinated notes	98,994	6.99	98,867	6.98

The Corporation, through the Bank, has a credit facility with the Federal Home Loan Bank (the FHLB) that had a maximum borrowing capacity of approximately \$3.2 billion and \$3.4 billion at June 30, 2026 and December 31, 2025, respectively. All borrowings and letters of credit from the FHLB are secured by qualifying commercial real estate and residential mortgage loans, investments and other assets. The Bank had outstanding short-term letters of credit with the FHLB totaling \$1.1 billion and \$1.4 billion at June 30, 2026 and December 31, 2025, respectively, which were utilized to collateralize public funds deposits and other secured deposits. The maximum borrowing capacity with the FHLB changes as a function of the Bank's qualifying collateral assets as well as the FHLB's internal credit rating of the Bank. The available borrowing capacity from the FHLB totaled \$2.0 billion and \$1.9 billion at June 30, 2026 and December 31, 2025, respectively.

The Corporation, through the Bank, holds investment securities at the Federal Reserve Bank of Philadelphia (the FRB) to provide access to the Discount Window Lending program. The Bank participates in the FRB Borrower in Custody program, which provides additional committed borrowing capacity for the Bank through the Discount Lending Window program based upon select loans pledged to the FRB. The total borrowing capacity based upon the qualifying pledged commercial loans and investment securities held was \$421.8 million and \$380.2 million at June 30, 2026 and December 31, 2025, respectively. At June 30, 2026 and December 31, 2025, the Corporation had no outstanding borrowings under the Discount Window Lending program.

The Corporation has a \$10.0 million committed line of credit with a correspondent bank. At June 30, 2026 and December 31, 2025, the Corporation had no outstanding borrowings under this line.

The Corporation and the Bank had \$3.7 billion and \$3.8 billion of committed borrowing capacity at June 30, 2026 and December 31, 2025, respectively, of which \$2.4 billion and \$2.3 billion was available as of June 30, 2026 and December 31, 2025, respectively. The Corporation, through the Bank, also maintained uncommitted funding sources from correspondent banks of \$422.0 million and \$457.0 million at June 30, 2026 and December 31, 2025, respectively. Future availability under these lines is subject to the prerogatives of the granting banks and may be withdrawn at will.

Long-term advances with the FHLB of Pittsburgh mature as follows:

(Dollars in thousands)	As of June 30, 2026	Weighted Average Rate
Remainder of 2026	\$ —	—%
2027	25,000	3.99
2028	40,000	4.33
2029	50,000	3.74
2030	10,000	3.94
Total	\$ 125,000	4.00%

The components of net periodic benefit cost, other than the service cost component, are included in other noninterest expense in the condensed consolidated statements of income.

The Corporation expects to make contributions of \$155 thousand to the Retirement Plans and \$120 thousand to Other Postretirement Benefit Plans in 2026. During the six months ended June 30, 2026, the Corporation contributed \$78 thousand to its Retirement Benefit Plans and \$58 thousand to its Other Postretirement Benefit Plans. During the six months ended June 30, 2026, \$1.5 million was paid to participants from the Retirement Plans and \$58 thousand was paid to participants from the Other Postretirement Benefit Plans.

Note 9. Stock-Based Incentive Plan

On April 26, 2023, the 2023 Equity Incentive Plan (the Plan) was approved by shareholders. This Plan replaced the Amended and Restated Univest 2013 Long-Term Incentive Plan (the 2013 Plan), which expired in April 2023. No new grants are permitted under the 2013 Plan. However, certain options and restricted stock units granted under the 2013 Plan remain outstanding.

The following is a summary of the Corporation's stock option activity and related information for the six months ended June 30, 2026:

(Dollars in thousands, except per share data)	Shares Under Option	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value at June 30, 2026
Outstanding at December 31, 2025	74,268	\$ 28.20

Balance, June 30, 2025	\$ (27,049)	\$ (1,526)	\$ (6,394)	\$ (34,969)

(1) Represents reclassification to earnings as a reduction to interest income of amounts included in accumulated other comprehensive income on the condensed consolidated balance sheet related to the interest rate swap terminated on August 2, 2024.

Note 11. Derivative Instruments and Hedging Activities
Interest Rate Swaps

The Corporation periodically uses interest rate swap agreements to modify interest rate characteristics from variable to fixed or fixed to variable in order to reduce the impact of interest rate changes on future net interest income. The Corporation's credit exposure on interest rate swaps includes changes in fair value and any collateral that is held by a third party.

In May 2022, the Corporation entered into an interest rate swap classified as a cash flow hedge with a notional amount of \$250.0 million to hedge the interest payments received on a pool of variable rate loans. Under the terms of the swap agreement, the Corporation paid a variable rate equal to the Prime Rate and received a fixed rate of 5.99% with a maturity date of May 4, 2026. On August 2, 2024, the Corporation terminated the swap. In connection with the termination, the Corporation incurred an unwind fee of \$4.0 million and origination and third-party fees of \$529 thousand, both of which have been reclassified to earnings as a reduction to interest income since termination.

Credit Derivatives

The Corporation has agreements with third-party financial institutions whereby the third-party financial institution enters into interest rate derivative contracts with loan customers referred to them by the Corporation. By the terms of the agreements, the third-party financial institution has recourse to the Corporation for any exposure created under each swap contract in the event the customer defaults on the swap agreement and the agreement is in a paying position to the third-party financial institution. These transactions represent credit derivatives and are customary arrangements that allows the Corporation to provide access to interest rate swap transactions for customers without issuing the swap.

At June 30, 2026, the Corporation had exposure to 136 variable-rate to fixed-rate interest rate swap transactions between the third-party financial institution and customers with a notional amount of \$862.4 million and remaining maturities ranging from one month to nine years. At June 30, 2026, the fair value of the Corporation's interest rate swap credit derivatives was a liability of \$66 thousand. At June 30, 2026, the fair value of the swaps to the customers was a net gain of \$31.4 million. At June 30, 2026, the Corporation's credit exposure related to customers totaled \$824 thousand.

The maximum potential payments by the Corporation to the third-party financial institution under these credit derivatives are not estimable as they are contingent on future interest rates and the agreements do not provide for a limitation of the maximum potential payment amount.

Mortgage Banking Derivatives

Derivative loan commitments represent agreements for delayed delivery of financial instruments in which the buyer agrees to purchase, and the seller agrees to deliver, at a specified future date, a specified instrument at a specified price or yield. The Corporation's derivative loan commitments are commitments to sell loans secured by 1- to 4-family residential properties whose predominant risk characteristic is interest rate risk.

Derivatives Tables

The Corporation had no derivatives designated as hedging instruments recorded on the condensed consolidated balance sheets at June 30, 2026 or December 31, 2025.

The following table presents the notional amounts and fair values of derivatives not designated as hedging instruments recorded on the condensed consolidated balance sheets at June 30, 2026 and December 31, 2025:

Note 12. Fair Value Disclosures

Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The Corporation determines the fair value of financial instruments based on the fair value hierarchy. The Corporation maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Corporation. Unobservable inputs are inputs that reflect the Corporation's assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances, including assumptions about risk. Three levels of inputs are used to measure fair value. A financial instrument's level within the fair value hierarchy is based on the lowest level of input significant to the fair value measurement. Transfers between levels are recognized at the end of the reporting periods.

Level 1: Valuations are based on quoted prices in active markets for identical assets or liabilities that the Corporation can access at the measurement date. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

Level 2: Valuations are based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3: Valuations are based on inputs that are unobservable and significant to the overall fair value measurement. Assets and liabilities utilizing Level 3 inputs include: financial instruments whose value is determined using pricing models, discounted cash-flow methodologies, or similar techniques, as well as instruments for which the fair value calculation requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Investment Securities

Where quoted prices are available in an active market for identical instruments, investment securities are classified within Level 1 of the valuation hierarchy. Level 1 investment securities include U.S. Treasury securities, most equity securities and money market mutual funds. Mutual funds are registered investment companies which are valued at net asset value of shares on a market exchange at the end of each trading day. Level 2 of the valuation hierarchy includes securities issued by U.S. Government sponsored enterprises, mortgage-backed securities, collateralized mortgage obligations, corporate and municipal bonds and certain equity securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. In cases where there is limited activity or less transparency around inputs to the valuation, investment securities are classified within Level 3 of the valuation hierarchy.

Fair values for securities are determined using independent pricing services and market-participating brokers. The Corporation's independent pricing service utilizes evaluated pricing models that vary by asset class and incorporate available trade, bid and other market information for structured securities, cash flow and, when available, loan performance data. Because many fixed income securities do not trade on a daily basis, the pricing service's evaluated pricing applications apply information as applicable through processes, such as benchmarking of like securities, sector groupings, and matrix pricing, to prepare evaluations. If at any time, the pricing service determines that it does not have sufficient verifiable information to value a particular security, the Corporation will utilize valuations from another pricing service. Management has a sufficient understanding of the third-party service's valuation models, assumptions and inputs used in determining the fair value of securities to enable management to maintain an appropriate system of internal control.

On a quarterly basis, the Corporation reviews changes, as submitted by the pricing service, in the market value of its security portfolio. Individual changes in valuations are reviewed for consistency with general interest rate movements and any known credit concerns for specific securities. If, upon the Corporation's review or in comparing with another service, a material difference between pricing evaluations were to exist, the Corporation may submit an inquiry to the current pricing service regarding the data used to determine the valuation of a particular security. If the Corporation determines there is market information that would support a different valuation than from the current pricing service's evaluation, the Corporation may utilize and change the security's valuation. There were no material differences in valuations noted at June 30, 2026.

Loans Held for Sale

The fair value of the Corporation's mortgage loans held for sale is based on estimates using Level 2 inputs. These inputs are based on pricing information obtained from wholesale mortgage banks and brokers and applied to loans with similar interest rates and maturities.

Derivative Financial Instruments

The fair values of derivative financial instruments are based upon the estimated amount the Corporation would receive or pay to terminate the contracts or agreements, taking into account current interest rates and, when appropriate, the current creditworthiness of the counterparties. Interest rate swaps and mortgage banking derivative financial instruments are classified within Level 2 of the valuation hierarchy. Credit derivatives are valued based on creditworthiness of the underlying borrower which is a significant unobservable input and therefore classified in Level 3 of the valuation hierarchy.

Contingent Consideration Liability

The Corporation estimates the fair value of the contingent consideration liability by using a discounted cash flow model of future contingent payments based on projected revenue related to the acquired business. The estimated fair value of the contingent consideration liability is reviewed on a quarterly basis and any valuation adjustments resulting from a change of estimated future contingent payments based on projected revenue of the acquired business affecting the contingent consideration liability will be recorded through noninterest expense. Due to the significant unobservable input related to the projected revenue, the contingent consideration liability is classified within Level 3 of the valuation hierarchy. An increase in the projected revenue may result in a higher fair value of the contingent consideration liability. Alternatively, a decrease in the projected revenue may result in a lower estimated fair value of the contingent consideration liability.

The following valuation methods and assumptions were used by the Corporation in estimating the fair value for financial instruments measured at fair value on a non-recurring basis and financial instruments not measured at fair value on a recurring or non-recurring basis in the Corporation's condensed consolidated balance sheets but for which the fair value is required to be disclosed:

Cash and short-term interest-earning assets: The carrying amounts reported in the balance sheet for cash and due from banks, interest-earning deposits with other banks and other short-term investments are their stated value. Cash and short-term interest-earning assets are classified within Level 1 in the fair value hierarchy.

Held-to-maturity securities: Fair values for the held-to-maturity investment securities are estimated by using pricing models or quoted prices of securities with similar characteristics and are classified in Level 2 in the fair value hierarchy.

Federal Home Loan Bank, Federal Reserve Bank and other stock: It is not practical to determine the fair values of Federal Home Loan Bank, Federal Reserve Bank and other stock, due to restrictions placed on their transferability.

Loans held for sale: Loans held for sale are carried at the lower of cost or estimated fair value. The fair value of the Corporation's mortgage loans held for sale is generally determined using a pricing model based on current market information obtained from external sources, including interest rates, bids or indications provided by market participants on specific loans that are actively marketed for sale. These loans are primarily residential mortgage loans and are generally classified in Level 2 due to the observable pricing data.

Loans and leases held for investment: The fair values for loans and leases held for investment are estimated using discounted cash flow analyses, using a discount rate based on current interest rates at which similar loans with similar terms would be made to borrowers, adjusted as appropriate to consider credit, liquidity and marketability factors to arrive at a fair value that represents the Corporation's exit price at which these instruments would be sold or transferred. Loans and leases are classified within Level 3 in the fair value hierarchy since credit risk is not an observable input.

Individually analyzed loans and leases held for investment: For individually analyzed loans and leases, the Corporation uses a variety of techniques to measure fair value, such as using the current appraised value of the collateral, agreements of sale, discounting the contractual cash flows, and analyzing market data that the Corporation may adjust due to specific characteristics of the loan/lease or collateral. At June 30, 2026, individually analyzed loans held for investment had a carrying amount of \$42.9 million with a valuation allowance of \$10.9 million. At December 31, 2025, individually analyzed loans held for investment had a carrying amount of \$13.0 million with a valuation allowance of \$2.8 million. At June 30, 2026, individually analyzed leases had a carrying amount of \$83 thousand with a valuation allowance of \$83 thousand. At December 31, 2025, the Corporation had individually analyzed leases of \$260 thousand with a valuation allowance of \$260 thousand.

Servicing rights: The Corporation estimates the fair value of servicing rights using discounted cash flow models that calculate the present value of estimated future net servicing income. The model uses readily available prepayment speed assumptions for the interest rates of the portfolios serviced. Servicing rights are classified within Level 3 in the fair value hierarchy based upon management's assessment of the inputs. The Corporation reviews the servicing rights portfolio on a quarterly basis for impairment and the servicing rights are carried at the lower of amortized cost or estimated fair value. At June 30, 2026, servicing rights had a net carrying amount of \$7.2 million, which included a valuation allowance of \$21 thousand. At December 31, 2025, servicing rights had a net carrying amount of \$6.8 million, which included a valuation allowance of \$307 thousand.

Goodwill and other identifiable assets: Certain non-financial assets subject to measurement at fair value on a non-recurring basis include goodwill and other identifiable intangible assets. During the six months ended June 30, 2026, there were no required valuation adjustments of goodwill and other identifiable intangible assets.

Other real estate owned: Other real estate owned (OREO) represents properties that the Corporation has acquired through foreclosure by either accepting a deed in lieu of foreclosure, or by taking possession of assets that collateralized a loan. The Corporation reports OREO at the lower of cost or fair value less cost to sell, adjusted periodically based on a current appraisal or an executed agreement of sale. Capital improvement expenses associated with the construction or repair of the property are capitalized as part of the cost of the OREO asset. Write-downs and any gain or loss upon the sale of OREO is recorded in other noninterest income. OREO is reported in other assets on the condensed consolidated balance sheet. At June 30, 2026 and December 31, 2025, OREO had a carrying amount of \$18.9 million and \$23.9 million, respectively. During the second quarter of 2026, we recorded a \$5.2 million valuation adjustment on a commercial real estate property. The adjustment was recorded based on an updated appraisal which reflects the property's estimated fair value less costs to sell. Other real estate owned is

classified within Level 3 in the fair value hierarchy based on appraisals, letters of intent or agreements of sale received from third parties.

Reposessed Assets: Repossessed assets represent non-real estate assets that the Corporation has acquired by taking possession of the asset that collateralized a loan or lease. The Corporation reports reposessed assets at the fair value less cost to sell, adjusted periodically based on a current appraisal provided by a third party based on their assumptions and quoted market prices for similar assets, when available. Write-downs and any gain or loss upon the sale of reposessed assets are recorded in other noninterest income. Repossessed assets are reported in other assets on the condensed consolidated balance sheet. At June 30, 2026 and December 31, 2025, reposessed assets had a carrying amount of \$10 thousand and \$65 thousand, respectively. During the six months ended June 30, 2026, reposessed assets totaling \$88 thousand were acquired, reposessed assets totaling \$19 thousand were written down and reposessed assets totaling \$124 thousand were sold. Repossessed assets are classified within Level 3 in the fair value hierarchy based on appraisals, letters of intent, agreement of sale or indications of value received from third parties.

Deposit liabilities: The fair values for demand and savings accounts, with no stated maturities, are the amounts payable on demand at the reporting date (carrying value) and are classified within Level 1 in the fair value hierarchy. The fair values for time deposits with fixed maturities are estimated by discounting the final maturity using interest rates currently offered for deposits with similar remaining maturities. Time deposits are classified within Level 2 in the fair value hierarchy.

Short-term borrowings: The fair value of short-term borrowings is estimated using current market rates for similar borrowings and are classified within Level 1 in the fair value hierarchy.

Long-term debt: The fair value of long-term debt is estimated by using discounted cash flow analysis, based on current market rates for debt with similar terms and remaining maturities. Long-term debt is classified within Level 2 in the fair value hierarchy.

Subordinated notes: The fair value of the subordinated notes is estimated by discounting the principal balance using indicative pricing for the term to the call date as the Corporation has the option to call the subordinated notes. The subordinated notes are classified within Level 2 in the fair value hierarchy.

Note 13. Segment Reporting

At June 30, 2026, the Corporation had three reportable business segments, Banking, Wealth Management and Insurance. The parent holding company and intercompany eliminations are included in the "Other" segment. Each segment generates revenue from a variety of products and services it provides. Examples of products and services provided for each reportable segment are indicated as follows:

- The Banking segment provides financial services to individuals, businesses, municipalities and non-profit organizations. These services include a full range of banking products and services such as deposits, loan origination and servicing, mortgage banking, other general banking services and equipment lease financing.
- The Wealth Management segment offers investment advisory, financial planning and trust and brokerage services. The Wealth Management segment serves a diverse client base of private families and individuals, municipal pension plans, retirement plans, trusts and guardianships.
- The Insurance segment includes a full-service insurance brokerage agency offering commercial property and casualty insurance, employee benefit solutions, personal insurance lines and human resources consulting.

Note 14. Contingencies

The Corporation is periodically subject to various pending and threatened legal actions, which involve claims for monetary relief. Based upon information presently available to the Corporation, it is the Corporation's opinion that any legal and financial responsibility arising from such claims will not have a material adverse effect on the Corporation's results of operations, financial position or cash flows.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(All dollar amounts presented in tables are in thousands, except per share data. "BP" equates to "basis points"; "N/M" equates to "not meaningful"; "—" equates to "zero" or "doesn't round to a reportable number"; and "N/A" equates to "not applicable." Certain prior period amounts have been reclassified to conform to the current-year presentation.)

Forward-Looking Statements

This report may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. When used or incorporated by reference in disclosure documents, the words "may," "will," "could," "should," "would," "believe," "anticipate," "plan," "estimate," "expect," "project," "target," and "goal," the negative of these terms and other similar expressions are intended to identify forward-looking statements, but are not the exclusive way to identify such statements. These forward-looking statements may include but are not limited to: statements of goals, intentions and expectations; statements regarding business plans, prospects, growth and operating strategies; statements regarding the quality, growth and composition of loan, investment and deposit portfolios; statements regarding our financial performance, financial condition and liquidity; and estimates of our risks and future credit provision and noninterest expenses. These forward-looking statements are based on our current beliefs and expectations and are subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. In addition, these forward-looking statements are subject to certain risks, uncertainties and assumptions with respect to future business strategies and decisions that are subject to change, including but not limited to those set forth below:

- Operating, legal and regulatory risks;
- Economic, political and competitive forces;
- General economic conditions, either nationally or in our market areas, which are worse than expected, including as a result of employment levels and labor shortages, and the effect of a potential recession or slowed economic growth caused by supply chain disruptions or otherwise;
- Legislative, regulatory and accounting changes, including increased assessments by the Federal Deposit Insurance Corporation and changes in income tax laws and regulations;
- Monetary and fiscal policies of the U.S. government, including policies of the U.S. Treasury and the Board of Governors of the Federal Reserve System;
- Demand for our financial products and services in our market area;
- Major catastrophes such as earthquakes, floods or other natural or human disasters and infectious disease outbreaks, the related disruption to local, regional and global economic activity and financial markets, and the impact that any of the foregoing may have on us and our customers and other constituencies;
- Inflation or volatility in interest rates that reduce our margins and yields, the fair value of financial instruments or our level of loan originations or prepayments on loans we have made and make or the sale of loans or other assets and/or lead to higher operating costs and higher costs to retain or attract deposits;
- The imposition of tariffs or other domestic or international governmental policies, trade restrictions and any retaliatory measures impacting our borrowers and the broader economy;
- The impact of a potential federal government shutdown, debt ceiling impasses or fiscal uncertainty;
- Fluctuations in real estate values in our market area;
- A failure to maintain adequate levels of capital and liquidity to support our operations;
- The availability of capital;
- The composition and credit quality of our loan and investment portfolios;
- Changes in the level and direction of loan delinquencies, classified and criticized loans and charge-offs and changes in estimates of the adequacy of the allowance for credit losses;
- Changes in the economic assumptions or methodology utilized to calculate the allowance for credit losses;
- Our ability to access cost-effective funding;
- Changes in liquidity, including the size and composition of our deposit portfolio and the percentage of uninsured deposits in the portfolio;
- Our ability to implement our business strategies;
- Our ability to manage market risk, credit risk, interest rate risk and operational risk and the effectiveness of our risk management processes and procedures;
- Timing and amount of revenue and expenditures;
- Adverse changes in the securities markets;
- The impact of any military conflict, terrorist act or other geopolitical acts;
- Our ability to enter new markets successfully and capitalize on growth opportunities;
- Competition for loans, deposits and employees;

- Risks associated with cybersecurity threats, data breaches, ransomware attacks, or other failures in our operational or security systems and infrastructure, including the risks arising from our dependence on third-party service providers and vendors;
- The failure to maintain current technologies and/or to successfully implement future information technology enhancements;
- Changes in investor sentiment or consumer spending, borrowing or savings behavior;
- Our ability to attract, develop and retain key employees;
- Other risks and uncertainties, including those occurring in the U.S. and international financial systems; and
- The risk that our analysis of these risks and forces could be incorrect and/or that the strategies developed to address them could be unsuccessful.

Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, expected or projected. These and other risk factors are more fully described in this report and in the Univest Financial Corporation Annual Report on Form 10-K for the year ended December 31, 2025 under the section entitled "Item 1A - Risk Factors," and from time to time in other filings made by the Corporation with the SEC.

These forward-looking statements speak only as of the date of the report. The Corporation expressly disclaims any obligation to publicly release any updates or revisions to reflect any change in the Corporation's expectations with regard to any change in events, conditions or circumstances on which any such statement is based, unless otherwise required by law.

Critical Accounting Policies

In order to prepare the Corporation's financial statements in conformity with U.S. generally accepted accounting principles, management is required to make estimates and assumptions that affect the amounts reported in the Corporation's financial statements. There are uncertainties inherent in making these estimates and assumptions. Certain critical accounting policies could materially affect the results of operations and financial condition of the Corporation should changes in circumstances require a change in related estimates or assumptions. The Corporation has identified the fair value measurement of investment securities available-for-sale and the calculation of the allowance for credit losses on loans and leases as critical accounting policies. For more information on these critical accounting policies, please refer to the Corporation's 2025 Annual Report on Form 10-K.

General

The Corporation is a Pennsylvania corporation, organized in 1973, and registered as a bank holding company pursuant to the Bank Holding Company Act of 1956. The Corporation owns all of the capital stock of Univest Bank and Trust Co. and is the sole member of 1876 Double Eagle, LLC. The condensed consolidated financial statements include the accounts of the Corporation and its wholly owned subsidiaries, the Bank and 1876 Double Eagle, LLC.

The Bank is engaged in domestic banking services for individuals, businesses, municipalities and non-profit organizations. Through its wholly owned subsidiaries, the Bank provides a variety of financial services throughout its markets of operation. The Bank is the parent company of Girard Investment Services, LLC, a full-service registered introducing broker-dealer and a licensed insurance agency, Girard Advisory Services, LLC, a registered investment advisory firm, and Girard Pension Services, LLC, a registered investment advisor, which provides investment consulting and management services to municipal entities. The Bank is also the parent company of Univest Insurance, LLC, an independent insurance agency, and Univest Capital, Inc., an equipment financing business.

The Corporation earns revenues primarily from the margins and fees generated from lending and depository services as well as fee-based income from trust, insurance, mortgage banking, treasury management and investment services. The Corporation seeks to achieve adequate and reliable earnings through business growth while maintaining adequate levels of capital and liquidity and limiting exposure to credit and interest rate risk.

Executive Overview

The Corporation's consolidated net income, earnings per share and return on average assets and average equity were as follows:

The financial results for the three months ended June 30, 2026 included a pre-tax charge of \$5.2 million (\$4.1 million after-tax), or \$0.15 diluted earnings per share, related to a valuation adjustment on an other real estate owned (OREO) property. The adjustment was recorded based on an updated appraisal which reflects the property's estimated fair value less costs to sell. The property was initially transferred to OREO during the three months ended June 30, 2022 and was listed for sale during the quarter ended June 30, 2025. The financial results for the three months ended June 30, 2026 also included tax-free bank owned life insurance (BOLI) death benefit proceeds of \$708 thousand, which represented \$0.03 diluted earnings per share.

The financial results for the six months ended June 30, 2026 included tax-free BOLI death benefit proceeds of \$1.1 million, which represented \$0.04 diluted earnings per share. In addition, the financial results for the six months ended June 30, 2026 included a \$427 thousand restructuring charge (\$337 thousand after-tax), or \$0.01 diluted earnings per share, related to the planned closure of two underutilized facilities: a financial center and a limited purpose banking office. The financial results for the six months ended June 30, 2025 included tax-free BOLI death benefit proceeds of \$1.1 million, which represented \$0.04 diluted earnings per share.

Results of Operations

Net Interest Income

Net interest income is the difference between interest earned primarily on loans, leases and investment securities and interest paid on deposits, borrowings, long-term debt and subordinated notes. Net interest income is the principal source of the Corporation's revenue. Table 1 presents the Corporation's average balances, tax-equivalent interest income, interest expense, tax-equivalent yields earned on average assets, cost of average liabilities, and shareholders' equity on a tax-equivalent basis for the three and six months ended June 30, 2026 and 2025. The tax-equivalent net interest margin is tax-equivalent net interest income as a percentage of average interest-earning assets. The tax-equivalent net interest spread represents the weighted average tax-equivalent yield on interest-earning assets less the weighted average cost of interest-bearing liabilities. The effect of net interest-free funding sources represents the effect on the net interest margin of net funding provided by noninterest-earning assets, noninterest-bearing liabilities and shareholders' equity. Table 2 analyzes the changes in the tax-equivalent net interest income for the periods broken down by their rate and volume components.

Three and six months ended June 30, 2026 versus 2025

Net interest income on a tax-equivalent basis for the three months ended June 30, 2026 was \$66.7 million, an increase of \$6.8 million, or 11.3%, compared to \$60.0 million for the three months ended June 30, 2025. Net interest income on a tax-equivalent basis for the six months ended June 30, 2026 was \$130.6 million, an increase of \$13.5 million, or 11.5%, compared to \$117.1 million for the six months ended June 30, 2025. The increase in tax-equivalent net interest income for the three and six months ended June 30, 2026 compared to the comparable periods in the prior year was driven by higher average balances of interest-earning assets, and a reduction in our cost of funds, partially offset by higher average balances of interest-bearing liabilities.

The net interest margin, on a tax-equivalent basis, was 3.49% and 3.41% for the three and six months ended June 30, 2026, respectively, compared to 3.20% and 3.14% for the three and six months ended June 30, 2025, respectively. Excess liquidity reduced net interest margin by approximately four and eight basis points for the three and six months ended June 30, 2026, respectively, and approximately four basis points for the three and six months ended June 30, 2025.

Three and six months ended June 30, 2026 versus 2025

Noninterest income for the three months ended June 30, 2026 was \$18.1 million, a decrease of \$3.4 million, or 15.8%, from the three months ended June 30, 2025. Noninterest income for the six months ended June 30, 2026 was \$42.2 million, a decrease of \$1.7 million, or 3.9%, from the six months ended June 30, 2025.

Net loss on the sale and write-down of OREO increased \$5.2 million for the three and six months ended June 30, 2026 from the comparable periods in the prior year due to the valuation adjustment recorded during the quarter as previously mentioned.

Investment advisory commission and fee income increased \$583 thousand, or 10.7%, for the three months ended June 30, 2026 and \$1.1 million, or 10.2%, for the six months ended June 30, 2026 from the comparable periods in the prior year, driven by appreciation in assets under management and new customer relationships.

Net gain on mortgage banking activities increased \$365 thousand, or 37.2%, for the three months ended June 30, 2026 and \$509 thousand, or 31.3%, for the six months ended June 30, 2026 from the comparable periods in the prior year, primarily due

to increased salable volume and increased margins.

BOLI increased \$686 thousand, or 67.8%, for the three months ended June 30, 2026 from the comparable period in the prior year. The financial results for the three months ended June 30, 2026 included \$708 thousand in BOLI death benefit proceeds compared to \$71 thousand for the three months ended June 30, 2025.

Insurance commission and fee income increased \$624 thousand, or 5.1%, for the six months ended June 30, 2026 from the comparable period in the prior year, primarily due to increases of \$268 thousand and \$161 thousand in premiums on commercial lines and life and health overrides, respectively. Additionally, contingent income increased \$208 thousand for the six months ended June 30, 2026, from \$1.6 million for the six months ended June 30, 2025 to \$1.8 million for the six months ended June 30, 2026. Contingent income is largely recognized in the first quarter of each year.

Other service fee income increased \$506 thousand, or 8.6%, for the six months ended June 30, 2026 from the comparable period in the prior year. This was driven by a \$284 thousand decrease in the valuation allowance on servicing rights during the six months ended June 30, 2026. Additionally, interchange fees increased \$146 thousand for the six months ended June 30, 2026.

Noninterest Expense

The following table presents noninterest expense for the three and six months ended June 30, 2026 and 2025:

Three and six months ended June 30, 2026 versus 2025

Noninterest expense for the three months ended June 30, 2026 was \$53.1 million, an increase of \$2.8 million, or 5.5%, from the three months ended June 30, 2025. Noninterest expense for the six months ended June 30, 2026 was \$105.8 million, an increase of \$6.1 million, or 6.2%, from the six months ended June 30, 2025.

Salaries, benefits and commissions increased \$1.7 million, or 5.3%, for the three months ended June 30, 2026 and \$4.3 million, or 6.9%, for the six months ended June 30, 2026 from the comparable periods in the prior year. The increases were primarily driven by higher salary expense of \$1.3 million and \$2.6 million, respectively, due to annual merit increases, as well as increased medical claims expense of \$375 thousand and \$1.1 million, respectively.

Marketing and advertising expense increased \$490 thousand, or 98.4%, for the three months ended June 30, 2026 and \$771 thousand, or 90.6%, for the six months ended June 30, 2026 from the comparable periods in the prior year. These increases were primarily driven by the inclusion of certain sponsorship activities that were historically reported in Other Expense and the Corporation's entry into a sponsorship agreement with a local university, enhancing community engagement and visibility.

Professional fees increased \$432 thousand, or 27.1%, for the three months ended June 30, 2026 and \$312 thousand, or 9.2%, for the six months ended June 30, 2026 from the comparable periods in the prior year, primarily due to increased marketing consultant fees.

Restructuring charges increased \$427 thousand for the six months ended June 30, 2026 from the comparable period in the prior year related to the planned closure of two underutilized facilities: a financial center and a limited purpose banking office.

Tax Provision

The Corporation recognized a tax expense of \$5.6 million and \$5.0 million for the three months ended June 30, 2026 and 2025, respectively, resulting in effective tax rates of 19.6% and 20.1% for the respective periods. The Corporation recognized a tax expense of \$12.0 million and \$10.2 million for the six months ended June 30, 2026 and 2025, respectively, resulting in effective tax rates of 19.3% and 19.4% for the respective periods. The effective tax rates for the three and six months ended June 30, 2026 and 2025 reflected the benefits of tax-exempt income from investments in municipal securities and loans and leases. Additionally, the effective tax rates for the six months ended June 30, 2026 and 2025 were favorably impacted by proceeds of BOLI death benefits and the impact of equity compensation awards.

Cash and Interest-Earning Deposits

Cash and interest-earning deposits decreased \$358.4 million, or 64.7%, from December 31, 2025, primarily due to a decrease in interest-earning deposits at the Federal Reserve Bank of \$369.9 million due to seasonal decreases in public funds and growth in loans and leases held for investment.

Investment Securities

Total investment securities at June 30, 2026 increased \$1.2 million, or 0.2%, from December 31, 2025 as purchases of \$50.5 million, which were primarily residential mortgage-backed securities, were offset by maturities and pay-downs of \$39.8 million, sales of \$5.7 million, decreases in the fair value of available-for-sale investment securities of \$2.4 million, calls of \$999 thousand, net amortization of purchased premiums and discounts of \$429 thousand and a provision for credit losses of \$23 thousand.

Loans and Leases

Gross loans and leases held for investment increased \$127.2 million, or 1.8%, from December 31, 2025. The increase in gross loans and leases held for investment was primarily due to increases in commercial, construction and commercial real

estate loans, partially offset by a decrease in residential mortgage loans. For more information on the composition of the commercial loan portfolio, see "Table 4 - Loan Portfolio Overview."

Asset Quality

The Bank's strategy for credit risk management focuses on having well-defined credit policies and uniform underwriting criteria and providing prompt attention to potential problem loans and leases. Performance of the loan and lease portfolio is monitored on a regular basis by Bank management and lending officers.

Nonaccrual loans and leases are loans or leases for which it is probable that not all principal and interest payments due will be collectible in accordance with the original contractual terms. Factors considered by management in determining accrual status include payment status, borrower cash flows, collateral value, and the probability of collecting scheduled principal and interest payments when due.

At June 30, 2026, nonaccrual loans and leases were \$43.9 million and had a related allowance for credit losses on loans and leases of \$10.9 million. At December 31, 2025, nonaccrual loans and leases were \$13.7 million and had a related allowance for credit losses on loans and leases of \$3.0 million. During the first quarter of 2026, a \$3.9 million commercial real estate loan was placed on nonaccrual status. Subsequent to its nonaccrual designation, the loan incurred a \$195 thousand charge-off. During the second quarter of 2026, a commercial loan relationship totaling \$28.6 million was placed on nonaccrual status with a specific reserve of \$9.8 million. Additionally, during the second quarter of 2026, two nonaccrual commercial loans totaling \$1.7 million were charged-off. These loans were fully reserved prior to charge-off. Individual reserves have been established based on current facts and management's judgments about the ultimate outcome of these credits, including the most recent known data available on any related underlying collateral and the borrower's cash flows. The amount of individual reserve needed for these credits could change in future periods subject to changes in facts and judgments related to these credits.

Net loan and lease charge-offs for the three months ended June 30, 2026 were \$1.9 million compared to \$7.8 million for the same period in the prior year. Net loan and lease charge-offs for the six months ended June 30, 2026 were \$3.2 million compared to \$9.5 million for the same period in the prior year. The three and six months ended June 30, 2025 included a \$7.3 million charge-off on a commercial loan relationship.

Other real estate owned (OREO) was \$18.9 million at June 30, 2026, compared to \$23.9 million at December 31, 2025. During the second quarter of 2026, a commercial real estate property incurred a \$5.2 million valuation adjustment. The adjustment was recorded based on an updated appraisal which reflects the property's estimated fair value less costs to sell. Repossessed assets were \$10 thousand and \$65 thousand at June 30, 2026 and December 31, 2025, respectively. During the six months ended June 30, 2026, repossessed assets totaling \$88 thousand were acquired, repossessed assets totaling \$19 thousand were written down and repossessed assets totaling \$124 thousand were sold.

Goodwill and Other Intangible Assets

Goodwill and other intangible assets have been recorded on the books of the Corporation in connection with acquisitions. The Corporation has core deposit and customer-related intangibles, which are not deemed to have an indefinite life and therefore will continue to be amortized over their useful life using the present value of projected cash flows. The amortization of core deposit and customer-related intangibles was \$92 thousand and \$131 thousand for the three months ended June 30, 2026 and 2025, respectively. The amortization of core deposit and customer-related intangibles was \$185 thousand and \$261 thousand for the six months ended June 30, 2026 and 2025, respectively. See Note 5 to the Condensed Unaudited

[Table of Contents](#)

Consolidated Financial Statements, "Goodwill and Other Intangible Assets," for a summary of intangible assets at June 30, 2026 and December 31, 2025.

The Corporation also has goodwill with a net carrying value of \$175.5 million at June 30, 2026 and December 31, 2025, which is deemed to be an indefinite intangible asset and is not amortized. The Corporation completes a goodwill impairment analysis on an annual basis, or more often if events and circumstances indicate that there may be impairment. The Corporation also completes an impairment test for other identifiable intangible assets on an annual basis or more often if events and circumstances indicate there may be impairment. There was no impairment of goodwill or identifiable intangibles during the six months ended June 30, 2026 or 2025. There can be no assurance that future impairment assessments or tests will not result in a charge to earnings.

Liabilities

The following table presents liabilities at the dates indicated:

(Dollars in thousands)	At June 30, 2026	At December 31, 2025	Change	
			Amount	Percent
Deposits	\$ 6,933,008	\$ 7,087,313	\$ (154,305)	(2.2%)

Total liabilities	\$ 7,248,739	\$ 7,493,579	\$ (244,840)	(3.3%)

Deposits

Total deposits decreased \$154.3 million, or 2.2%, from December 31, 2025 primarily due to decreases in consumer and public funds deposits, partially offset by increases in commercial and brokered deposits. At June 30, 2026, noninterest-bearing deposits totaling \$1.5 billion represented 21.1% of total deposits compared to \$1.4 billion representing 20.2% of total deposits at December 31, 2025. At June 30, 2026 and December 31, 2025, unprotected deposits, which exclude insured, internal, and collateralized deposit accounts, totaled \$1.7 billion and \$1.6 billion, respectively, which represented 24.6% and 23.2% of total deposits for the respective periods.

Borrowings

Total borrowings decreased \$80.5 million, or 24.9%, from December 31, 2025, primarily due to maturities of long-term FHLB advances totaling \$100.0 million, offset by a \$25.0 million long-term FHLB advance, and a \$5.6 million decrease in customer repurchase agreements.

Other Liabilities

Other liabilities decreased \$8.4 million, or 15.4%, from December 31, 2025, primarily due to the payment of previously accrued annual incentive compensation.

Shareholders' Equity

The following table presents total shareholders' equity at the dates indicated:

(Dollars in thousands)	At June 30, 2026	At December 31, 2025	Change	
			Amount	Percent
Common stock	\$ 157,784	\$ 157,784	\$ —	—%

Treasury stock	(107,679)	(84,222)	(23,457)	27.9
Total shareholders' equity	\$ 954,253	\$ 943,318	\$ 10,935	1.2%

Total shareholders' equity increased \$10.9 million, or 1.2%, from December 31, 2025. Retained earnings at June 30, 2026 increased by \$37.1 million primarily due to net income of \$50.0 million offset by \$12.6 million in cash dividends paid during the six months ended June 30, 2026. Accumulated other comprehensive loss increased by \$1.3 million, which was primarily attributable to decreases in the fair value of available-for-sale investment securities of \$1.9 million, net of tax. Treasury stock increased \$23.5 million from December 31, 2025, related to repurchases of 776,677 shares at a cost of \$28.5 million, offset by \$5.1 million of stock issued under the dividend reinvestment and employee stock purchase plans and stock-based incentive plan activity.

Discussion of Segments

The Corporation has three operating segments: Banking, Wealth Management and Insurance. Detailed segment information appears in Note 13, "Segment Reporting" included in the Notes to the Condensed Unaudited Consolidated Financial Statements under Item 1 of this Quarterly Report on Form 10-Q.

The Banking segment reported pre-tax income of \$28.1 million and \$26.6 million for the three months ended June 30, 2026 and 2025, respectively, and pre-tax income of \$57.2 million and \$52.7 million for the six months ended June 30, 2026 and 2025, respectively. See the section of this Management's Discussion and Analysis under the headings "Results of Operations" and "Financial Condition" for a discussion of key items impacting the Banking Segment.

The Wealth Management segment reported pre-tax income of \$2.4 million and \$1.8 million for the three months ended June 30, 2026 and 2025, respectively, which included noninterest income of \$8.4 million in 2026 and \$7.7 million in 2025, and pre-tax income of \$4.9 million and \$3.8 million for the six months ended June 30, 2026 and 2025, respectively, which included noninterest income of \$16.9 million in 2026 and \$15.5 million in 2025. The increase in pre-tax income and noninterest income for the three and six months ended June 30, 2026 was driven by appreciation in assets under management compared to the previous year and new customer relationships. Assets under management and supervision were \$6.2 billion as of June 30, 2026, \$5.8 billion as of March 31, 2026, \$5.4 billion as of June 30, 2025 and \$5.2 billion as of March 31, 2025.

The Insurance segment reported pre-tax income of \$1.1 million and \$964 thousand for the three months ended June 30, 2026 and 2025, respectively, which included noninterest income of \$5.4 million in 2026 and \$5.3 million in 2025, and pre-tax income of \$4.1 million and \$3.4 million for the six months ended June 30, 2026 and 2025, respectively, which included noninterest income of \$12.8 million in 2026 and \$12.2 million in 2025. The increase in pre-tax income and noninterest income for the three months ended June 30, 2026 was primarily due to an increase of \$154 thousand in life and health overrides, partially offset by a decrease of \$74 thousand in premiums on commercial lines. The increase in pre-tax income and noninterest income for the six months ended June 30, 2026 was primarily due to increases of \$268 thousand and \$161 thousand in premiums on commercial lines and life and health overrides, respectively. Additionally, contingent income increased \$208 thousand for the six months ended June 30, 2026, from \$1.6 million for the six months ended June 30, 2025 to \$1.8 million for the six months ended June 30, 2026. Contingent income is largely recognized in the first quarter of the year.

Capital Adequacy

Quantitative measures established by regulation to ensure capital adequacy require the Corporation and the Bank to maintain minimum capital amounts and ratios as set forth in the following table. To comply with the regulatory definition of well capitalized, a depository institution must maintain minimum capital amounts and ratios as set forth in the following table.

Under current rules, in order to avoid limitations on capital distributions (including dividend payments and certain discretionary bonus payments to executive officers), a banking organization must hold a capital conservation buffer comprised of common equity Tier 1 capital above its minimum risk-based capital requirements in an amount greater than 2.50% of total risk-weighted assets. The Corporation's and Bank's intent is to maintain capital levels in excess of the capital conservation buffer, which requires Tier 1 Capital to Risk Weighted Assets to exceed 8.50% and Total Capital to Risk Weighted Assets to exceed 10.50%. The Corporation and the Bank were in compliance with these requirements at June 30, 2026.

Table 5—Regulatory Capital

The Corporation's and Bank's actual and required capital ratios as of June 30, 2026 and December 31, 2025 under regulatory capital rules were as follows.

Corporation	797,595	9.51	335,451	4.00	419,314	5.00
Bank	757,978	9.07	334,260	4.00	417,825	5.00

At June 30, 2026 and December 31, 2025, the Corporation and the Bank continued to meet all capital adequacy requirements to which they are subject. At June 30, 2026, the Bank was categorized as "well capitalized" under the regulatory framework for prompt corrective action. There are no conditions or events that management believes have changed the Bank's category subsequent to June 30, 2026.

Asset/Liability Management

The primary functions of Asset/Liability Management are to minimize interest rate risk and to ensure adequate earnings, capital and liquidity while maintaining an appropriate balance of interest-earning assets and interest-bearing liabilities. Management's objective with regard to interest rate risk is to understand the Corporation's sensitivity to changes in interest rates and develop and implement strategies to minimize volatility while maximizing net interest income.

The Corporation uses gap analysis and earnings at risk simulation modeling to quantify exposure to interest rate risk. The Corporation uses the gap analysis to identify and monitor long-term rate exposure and uses a risk simulation model to measure short-term rate exposure. The Corporation runs various earnings simulation scenarios to quantify the impact of declining or rising interest rates on net interest income over a one- and two-year horizon. The simulations use expected cash flows and repricing characteristics for all financial instruments at a point in time and incorporate company-developed, market-based assumptions regarding growth, pricing, and optionality such as prepayment speeds. As interest rates increase, fixed-rate assets tend to decrease in value; conversely, as interest rates decline, fixed-rate assets tend to increase in value.

Liquidity

The Corporation, in its role as a financial intermediary, is exposed to certain liquidity risks. Liquidity refers to the Corporation's ability to ensure that sufficient cash flows and liquid assets are available to satisfy demand for loans, deposit withdrawals, repayment of borrowings, certificates of deposit at maturity, operating expenses and capital expenditures. The Corporation manages liquidity risk by measuring and monitoring liquidity sources and estimated funding needs on a daily basis. The Corporation has a contingency funding plan in place to address liquidity needs in the event of an institution-specific or a systemic financial crisis.

The Corporation and its subsidiaries maintain ample ability to meet the liquidity needs of its customers. Our most liquid assets, unencumbered cash and cash equivalents, were \$193.8 million and \$549.2 million at June 30, 2026 and December 31, 2025, respectively. Unencumbered securities classified as available-for-sale, which provide additional sources of liquidity, totaled \$51.7 million and \$37.3 million at June 30, 2026 and December 31, 2025, respectively. Further, the Corporation and its subsidiaries had committed borrowing capacity from the Federal Home Loan Bank, Federal Reserve Bank and a correspondent bank of \$3.7 billion and \$3.8 billion at June 30, 2026 and December 31, 2025, respectively, of which \$2.4 billion and \$2.3 billion was available as of June 30, 2026 and December 31, 2025, respectively. The Corporation and its subsidiaries also maintained uncommitted funding sources from correspondent banks of \$422.0 million and \$457.0 million at June 30, 2026 and December 31, 2025, respectively. Future availability under these uncommitted funding sources is subject to the prerogatives of the granting banks and may be withdrawn at will.

Sources of Funds

Non-brokered deposits continue to be the largest funding source for the Corporation. These deposits are primarily generated from individuals, businesses, public funds and non-profit customers located in our primary service areas. The Corporation faces increased competition for these deposits from a large array of financial market participants, including banks, credit unions, savings institutions, mutual funds, security dealers and others.

As part of its diversified funding strategy, the Corporation also utilizes a mix of short-term and long-term wholesale funding providers. Wholesale funding includes federal funds purchases from correspondent banks, secured borrowing lines from the Federal Home Loan Bank of Pittsburgh and the Federal Reserve Bank of Philadelphia, and brokered deposits and other similar sources.

Cash Requirements

The Corporation has cash requirements for various financial obligations, including contractual obligations and commitments that require cash payments. The most significant contractual obligations, in both the under and over one-year time period, are for the Bank to repay certificates of deposit and short- and long-term borrowings. Certificates of deposit due within one year of June 30, 2026 totaled \$1.0 billion. If these deposits do not remain with the Bank, the Bank will be required to seek other sources of funds, which may be expensive to obtain. The Bank anticipates meeting these obligations by utilizing on-balance sheet liquidity and continuing to provide convenient depository and cash management services through its financial center network, thereby replacing these contractual obligations with similar funding sources at rates that are competitive in our market. The Bank may also use borrowings and brokered deposits to meet its obligations.

Commitments to extend credit are the Bank's most significant commitments in both the under and over one-year time periods. These commitments do not necessarily represent future cash requirements in that these commitments often expire without being drawn upon.

Recent Accounting Pronouncements

For information regarding recent accounting pronouncements, refer to Note 1 to the Condensed Consolidated Financial Statements, "Summary of Significant Accounting Policies."

Item 3. Quantitative and Qualitative Disclosures About Market Risk

No material changes in the Corporation's market risk occurred during the period ended June 30, 2026. A detailed discussion of market risk is provided in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" including Liquidity and Interest Sensitivity, in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2025.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Management is responsible for the disclosure controls and procedures of the Corporation. Disclosure controls and procedures are controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods required by the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of the Corporation's management, including the Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial and Accounting Officer), of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures. Based on that evaluation, the Corporation's Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective as of June 30, 2026.

Changes in Internal Control over Financial Reporting

There were no changes in the Corporation's internal control over financial reporting (as defined in Rule 13a-15(f)) during the quarter ended June 30, 2026 that materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Corporation is periodically subject to various pending and threatened legal actions that involve claims for monetary relief. Based upon information presently available, it is the Corporation's opinion that any legal and financial responsibility arising from such claims will not have a material adverse effect on the Corporation's results of operations, financial position or cash flows.

Item 1A. Risk Factors

There have been no material changes in risk factors applicable to the Corporation from those disclosed in "Risk Factors" in Item 1A of the Corporation's Annual Report on Form 10-K for the year ended December 31, 2025.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information on repurchases by the Corporation of its common stock during the second quarter of 2026, under the Corporation's Board approved program.

ISSUER PURCHASES OF EQUITY SECURITIES				
Period	Total Number of Shares Purchased	Average Price Paid per Share ¹	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
April 1 – 30, 2026	138,267	\$ 37.40	138,267	1,781,532
May 1 – 31, 2026	181,419	39.06	181,419	1,600,113
June 1 – 30, 2026	105,853	41.38	105,853	1,494,260
Total	425,539	\$ 39.10	425,539	

1. Average price paid per share includes stock repurchase excise tax.

On December 10, 2025, the Corporation's Board of Directors approved the repurchase of 2,000,000 shares, or approximately 7.1% of the Corporation's common stock outstanding as of November 30, 2025. The stock repurchase plan does not include normal treasury activity such as purchases to fund the dividend reinvestment, employee stock purchase and equity compensation plans. The stock repurchase plan has no scheduled expiration date, and the Board of Directors has the right to suspend or discontinue the plan at any time.

In addition to the repurchases disclosed above, participants in the Corporation's stock-based incentive plans may have shares withheld to cover income taxes upon the vesting of restricted stock awards and may use a stock swap to exercise stock options. Shares withheld to cover income taxes upon the vesting of restricted stock awards and stock swaps to exercise stock options are repurchased pursuant to the terms of the applicable plan and not under the Corporation's share repurchase program. Shares repurchased pursuant to these plans during the three months ended June 30, 2026 were as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share
April 1 – 30, 2026	—	\$ —
May 1 – 31, 2026	—	—
June 1 – 30, 2026	—	—
Total	—	\$ —

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

Securities Trading Plans of Directors and Executive Officers

During the three months ended June 30, 2026, none of our directors or executive officers adopted or terminated any contract, instruction or written plan for the purchase or sale of the Corporation's securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement."
