#### **Safe Harbor Statement**

This quarterly report on Form 10-Q (the "Report") contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Discussions containing such forward-looking statements may be found in Part I - Items 1, 2, and 3 hereof, as well as within this Report generally. In addition, when used in this Report, the words "believes," "anticipates," "expects," "estimates," "targets," "plans," "intends," "will," and similar expressions related to the future are intended to identify forward-looking statements. All forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially from projected results.

In addition, the preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates and assumptions are based on knowledge of current events and planned actions to be undertaken in the future, they may ultimately differ from actual results. Operating results for the three months ended March 31, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. All estimates and assumptions are subject to a number of risks and uncertainties that could cause actual results to differ materially from these estimates and assumptions.

The risks and uncertainties of Veeco Instruments Inc. (together with its consolidated subsidiaries, "Veeco," the "Company," "we," "us," and "our," unless the context indicates otherwise) include, without limitation, the following:

- Unfavorable market conditions may adversely affect our operating results;
- A reduction or elimination of foreign government subsidies and economic incentives may adversely affect the future order rate for our MOCVD equipment;
- The cyclicality of the industries we serve directly affects our business;
- We operate in industries characterized by rapid technological change;
- We have a concentrated customer base, located primarily in a limited number of regions, which operate in highly concentrated industries;
- We face significant competition;
- The timing of our orders, shipments, and revenue recognition may cause our quarterly operating results to fluctuate significantly;
- Our sales cycle is long and unpredictable;
- Our backlog is subject to customer cancellation or modification which could result in decreased sales, increased inventory obsolescence, and/or liabilities
  to our suppliers for products no longer needed;
- Our failure to estimate customer demand accurately could result in inventory obsolescence, liabilities to our suppliers for products no longer needed, and/or manufacturing interruptions or delays which could affect our ability to meet customer demand;
- Our failure to successfully manage our outsourcing activities or failure of our outsourcing partners to perform as anticipated could adversely affect our results of operations and our ability to adapt to fluctuating order volumes;
- We rely on a limited number of suppliers, some of whom are our sole source for particular components;
- Our inability to attract, retain, and motivate employees could have a material adverse effect on our business;
- Our acquisition strategy subjects us to risks associated with evaluating and pursuing these opportunities and integrating these businesses;
- Timing of market adoption of LED technology for general lighting is uncertain;
- Our sales to manufacturers are highly dependent on sales of consumer electronics applications, which can experience significant volatility due to seasonal and other factors and materially adversely impact our future results of operations;

- Our operating results have been, and may continue to be, adversely affected by tightening credit markets;
- We are exposed to the risks of operating a global business, including the need to obtain export licenses for certain of our shipments and political risks in the countries we operate;
- We may be exposed to liabilities under the Foreign Corrupt Practices Act and any determination that we violated these or similar laws could have a
  material adverse effect on our business;
- We are subject to internal control evaluations and attestation requirements of Section 404 of the Sarbanes-Oxley Act and any delays or difficulty in satisfying these requirements or negative reports concerning our internal controls could adversely affect our future results of operations and our stock price;
- Changes in accounting pronouncements or taxation rules or practices may adversely affect our financial results;
- Our income taxes can change;
- We may be required to take additional impairment charges on assets;
- We have indebtedness in the form of convertible senior notes which could adversely affect our financial position, prevent us from implementing our strategy, and dilute the ownership interest of our existing shareholders;
- The accounting method for convertible debt securities that may be settled in cash, such as the Convertible Senior Notes, could have a material effect on our reported financial results;
- The price of our common shares is volatile and could decline significantly;
- The enforcement and protection of our intellectual property rights may be expensive and/or divert our limited resources;
- We may be subject to claims of intellectual property infringement by others;
- We are subject to foreign currency exchange risks;
- If we are subject to cyber-attacks we could incur substantial costs and, if such attacks are successful, we could incur significant liabilities, reputational harm, and disruption to our operations;
- We have adopted certain measures that may have anti-takeover effects which may make an acquisition of our Company by another company more
  difficult;
- We are subject to risks of non-compliance with environmental, health, and safety regulations;
- Regulations related to conflict minerals will force us to incur additional expenses, may make our supply chain more complex, and may result in damage to our relationships with customers;
- We have significant operations in locations which could be materially and adversely impacted in the event of a natural disaster, an act of terrorism or other significant disruption;
- If we are unable to complete our contemplated acquisition of Ultratech, Inc., our expected financial results and the market value of our common stock could be adversely affected; and
- Even if the Ultratech merger is consummated, we may not be able to successfully integrate the business of Ultratech with our own or realize the
  anticipated benefits of the merger.

Consequently, such forward looking statements and estimates should be regarded solely as the current plans and beliefs of Veeco. We do not undertake any obligation to update any forward looking statements to reflect future events or circumstances after the date of such statements.

#### Note 1 - Basis of Presentation

The accompanying unaudited Consolidated Financial Statements of Veeco have been prepared in accordance with U.S. GAAP as defined in Financial Accounting Standards Board ("FASB") Accounting Standards Codification 270 for interim financial information and with the instructions to Rule 10-01 of Securities and Exchange Commission Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements as the interim information is an update of the information that was presented in Veeco's most recent annual financial statements. For further information, refer to Veeco's Consolidated Financial Statements and Notes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2016 ("2016 Form 10-K"). In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal, recurring nature. C ertain amounts previously reported have been reclassified in the financial statements to conform to the current presentation.

Veeco reports interim quarters on a 13-week basis ending on the last Sunday of each quarter. The fourth quarter always ends on the last day of the calendar year, December 31. The 2017 interim quarters end on April 2, July 2, and October 1, and the 2016 interim quarters ended on April 3, July 3, and October 2. These interim quarters are reported as March 31, June 30, and September 30 in Veeco's interim consolidated financial statements.

#### Revenue recognition

Veeco recognizes revenue when all of the following criteria have been met: persuasive evidence of an arrangement exists with a customer; delivery of the specified products has occurred or services have been rendered; prices are contractually fixed or determinable; and collectability is reasonably assured. Revenue is recorded including shipping and handling costs and excluding applicable taxes related to sales.

Contracts with customers frequently contain multiple deliverables, such as systems, upgrades, components, spare parts, maintenance, and service plans. Judgment is required to properly identify the accounting units of the multiple-element arrangements and to determine how the revenue should be allocated among the accounting units. Veeco also evaluates whether multiple transactions with the same customer or related parties should be considered part of a single, multiple-element arrangement based on an assessment of whether the contracts or agreements are negotiated or executed within a short time frame of each other or if there are indicators that the contracts are negotiated in contemplation of one another. Moreover, judgment is used in interpreting the commercial terms and determining when all criteria have been met in order to recognize revenue in the appropriate accounting period.

When there are separate units of accounting, Veeco allocates revenue to each element based on the following selling price hierarchy: vendor-specific objective evidence ("VSOE") if available; third party evidence ("TPE") if VSOE is not available; or the best estimate of selling price ("BESP") if neither VSOE nor TPE is available. Veeco uses BESP for the elements in its arrangements. The maximum revenue recognized on a delivered element is limited to the amount that is not contingent upon the delivery of additional items.

Veeco considers many facts when evaluating each of its sales arrangements to determine the timing of revenue recognition including its contractual obligations, the customer's creditworthiness, and the nature of the customer's post-delivery acceptance provisions. Veeco's system sales arrangements, including certain upgrades, generally include field acceptance provisions that may include functional or mechanical test procedures. For the majority of the arrangements, a customer source inspection of the system is performed in Veeco's facility or test data is sent to the customer documenting that the system is functioning to the agreed upon specifications prior to delivery. Historically, such source inspection or test data replicates the field acceptance provisions that are performed at the customer's site prior to final acceptance of the system. When Veeco objectively demonstrates that the criteria specified in the contractual acceptance provisions are achieved prior to delivery, revenue is recognized upon system delivery since there is no substantive contingency remaining related to the acceptance provisions at that date, subject to the retention amount constraint described below. For new products, new applications of existing products, or for products with substantive customer acceptance provisions

where Veeco cannot objectively demonstrate that the criteria specified in the contractual acceptance provisions have been achieved prior to delivery, revenue and the associated costs are deferred and fully recognized upon the receipt of final customer acceptance, assuming all other revenue recognition criteria have been met.

The Company's system sales arrangements, including certain upgrades, generally do not contain provisions for the right of return, forfeiture, refund, or other purchase price concession. In the rare instances where such provisions are included, all revenue is deferred until such rights expire. The sales arrangements generally include installation. The installation process is not deemed essential to the functionality of the equipment since it is not complex; it does not require significant changes to the features or capabilities of the equipment or involve constructing elaborate interfaces or connections subsequent to factory acceptance. Veeco has a demonstrated history of consistently completing installations in a timely manner and can reliably estimate the costs of such activities. Most customers engage Veeco to perform the installation services, although there are other third-party providers with sufficient knowledge who could complete these services. Based on these factors, installation is deemed to be inconsequential or perfunctory relative to the system sale as a whole, and as a result, installation service is not considered a separate element of the arrangement. As such, Veeco records the cost of the installation at the earlier of the time of revenue recognition for the system or when installation services are performed.

In many cases Veeco's products are sold with a billing retention, typically 10% of the sales price, which is billed by Veeco and payable by the customer when field acceptance provisions are completed. The amount of revenue recognized upon delivery of a system or upgrade, if any, is limited to the lower of i) the amount billed that is not contingent upon acceptance provisions or ii) the value of the arrangement consideration allocated to the delivered elements, if such sale is part of a multiple-element arrangement.

The Company recognizes revenue related to maintenance and service contracts ratably over the applicable contract term. Veeco recognizes revenue from the sales of components, spare parts, and specified service engagements at the time of delivery in accordance with the terms of the applicable sales arrangement.

Incremental direct costs incurred related to the acquisition of a customer contract, such as sales commissions, are expensed as incurred, even if the related revenue is deferred in accordance with the above policy.

#### Recent accounting pronouncements

The FASB issued ASU 2014-09, as amended: *Revenue from Contracts with Customers*, which has been codified as Accounting Standards Codification 606 ("ASC 606"). ASC 606 requires the Company's revenue recognition to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which it expects to be entitled in exchange for those goods or services. ASC 606 outlines a five-step model to make the revenue recognition determination and requires new financial statement disclosures. Publicly-traded companies are required to adopt ASC 606 for reporting periods beginning after December 15, 2017, but can adopt early for annual periods beginning after December 15, 2016. The Company is still completing its evaluation of the impact of adopting this standard; however, the Company currently expects the most significant financial statement impacts of adopting ASC 606 will be the elimination of the constraint on revenue associated with the billing retention related to the receipt of customer final acceptance as well as the identification of installation services as a performance obligation. The elimination of the constraint on revenue related to customer final acceptance, which is usually about 10 percent of a system sale, will generally be recognized at the time the Company transfers control of the system to the customer, which is earlier than under the Company's current revenue recognition model. The new performance obligation related to installation services under the new standard will generally be recognized as the installation services are performed, which is later than under the Company's current revenue recognition model. Taken together, the Company currently believes there will be a net acceleration of a small percentage of its revenue under ASC 606 as compared to its current revenue recognition model. ASC 606 provides for different transition alternatives, and the Company is evaluating which method of adoption to select.

In January 2016, the FASB issued ASU 2016-01: Financial Instruments — Overall, which requires certain equity

investments to be measured at fair value, with changes in fair value recognized in net income. Publicly-traded companies are required to adopt the update for reporting periods beginning after December 15, 2017; early adoption is permitted. The Company does not expect this ASU will have a material impact on the consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02: *Leases*, which generally requires operating lessee rights and obligations to be recognized as assets and liabilities on the balance sheet. In addition, interest on lease liabilities is to be recognized separately from the amortization of right-of-use assets in the Statement of Operations. Further, payments of the principal portion of lease liabilities are to be classified as financing activities while payments of interest on lease liabilities and variable lease payments are to be classified as operating activities in the Statement of Cash Flows. When the standard is adopted, the Company will be required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, with early application permitted. The Company is evaluating the anticipated impact of adopting the ASU on the consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments*, which provides guidance on eight specific cash flow issues, including debt prepayments or debt extinguishment costs. Publicly-traded companies are required to adopt the update for reporting periods beginning after December 15, 2017. This ASU will not have a material impact on the consolidated financial statements.

In October 2016, the FASB issued ASU 2016-16, *Income Taxes: Intra-Entity Transfers of Assets Other Than Inventory*, which requires that entities recognize the income tax consequences of an intra-entity transfer of an asset, other than inventory, when the transfer occurs. Publicly-traded companies are required to adopt the update for reporting periods beginning after December 15, 2017. The Company is evaluating the anticipated effect the ASU will have on the consolidated financial statements.

The Company is also evaluating other pronouncements recently issued but not yet adopted. The adoption of these pronouncements is not expected to have a material impact on our consolidated financial statements.

#### Note 2 - Income (Loss) Per Common Share

The Company considers unvested share-based awards that have non-forfeitable rights to dividends prior to vesting to be participating shares, which are treated as a separate class of security from the Company's common shares for calculating per share data. Therefore, the Company applies the two-class method when calculating income (loss) per share. The two-class method is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared and participation rights in undistributed earnings. However, since the holders of the participating shares are not obligated to fund losses, participating shares are excluded from the calculation of loss per share.

The dilutive effect of the Convertible Senior Notes on income (loss) per share is calculated using the treasury stock method since the Company has both the current intent and ability to settle the principal amount of the Convertible Senior Notes in cash. See Note 4, "Liabilities," for additional information on the Convertible Senior Notes.

Basic income (loss) per share is calculated by dividing net income (loss) by the weighted average number of shares outstanding during the period under the two-class method. Diluted income per share is calculated by dividing net income by the weighted average number of shares used to calculate basic income (loss) per share plus the weighted average number of common share equivalents outstanding during the period. The dilutive effect of outstanding options to purchase common stock and non-participating share-based awards is considered in diluted income per share by application of the treasury stock method. The dilutive effect of performance share units is included in diluted income per common share in the periods the performance targets have been achieved. The computations of basic and diluted income (loss) per share for the three months ended March 31, 2017 and 2016 are as follows:

	 Three months	ended Mar	ch 31,

#### Note 3 - Assets

#### Investments

Short-term investments are generally classified as available-for-sale and reported at fair value, with unrealized gains and losses, net of tax, presented as a separate component of stockholders' equity under the caption "Accumulated other comprehensive income" in the Consolidated Balance Sheets. These securities may include U.S. treasuries, government agency securities, corporate debt, and commercial paper, all with maturities of greater than three months when purchased. All realized gains and losses and unrealized losses resulting from declines in fair value that are other than temporary are included in "Other, net" in the Consolidated Statements of Operations.

Fair value is the price that would be received for an asset or the amount paid to transfer a liability in an orderly transaction between market participants. Veeco classifies certain assets based on the following fair value hierarchy:

- Level 1: Quoted prices in active markets that are unadjusted and accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2: Quoted prices for identical assets and liabilities in markets that are not active, quoted prices for similar assets and liabilities in active markets or financial instruments for which significant inputs are observable, either directly or indirectly; and
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Veeco has evaluated the estimated fair value of financial instruments using available market information and valuations as provided by third-party sources. The use of different market assumptions and/or estimation methodologies could have a significant effect on the estimated fair value amounts.

The following table presents the portion of Veeco's assets that were measured at fair value on a recurring basis at March 31, 2017 and December 31, 2016:

	 Level 1	Level 2		Level 3	Total
		(in tho	usands)		
March 31, 2017					
Cash equivalents					
U.S. treasuries	\$ 79,962	\$ _	\$	_	\$ 79,962

Total	\$ 40,008	\$ 26,779	\$	_	\$ 66,787

There were no transfers between fair value measurement levels during the three months ended March 31, 2017.

At March 31, 2017 and December 31, 2016, the amortized cost and fair value of available-for-sale securities consist of:

		Amortized Cost		Gross Unrealized Gains		Gross Jnrealized Losses		Estimated Fair Value
March 31, 2017				(in thous	ands)			
U.S. treasuries	\$	180,101	\$		\$	(88)	\$	180,013
	Ф	,	Ф		Ф	· /	Ф	
Government agency securities		30,021		_		(23)		29,998
Corporate debt		30,265		_		(23)		30,242
Commercial paper		17,943		_		_		17,943
Total	\$	258,330	\$	_	\$	(134)	\$	258,196
December 31, 2016								
U.S. treasuries	\$	40,013	\$	_	\$	(5)	\$	40,008
Government agency securities		10,020		_		(8)		10,012

Commerical Paper		2,994		<u> </u>		_		2,994
Total	\$	66,807	\$		\$	(20)	\$	66,787

Available-for-sale securities in a loss position at March 31, 2017 and December 31, 2016 consist of:

	March 31, 2017				December 31, 2016				
	Gross Estimated Unrealized Fair Value Losses		Estimated Fair Value			Gross Unrealized Losses			
			(in thou	isands	s)				
U.S. treasuries	\$ 180,013	\$	(88)	\$	20,002	\$	(5)		
Government agency securities	29,998		(23)		10,012		(8)		
Corporate debt	29,041		(23)		13,774		(7)		
Total	\$ 239,052	\$	(134)	\$	43,788	\$	(20)		

At March 31, 2017 and December 31, 2016, there were no short-term investments that had been in a continuous loss position for more than 12 months.

The available-for-sale securities at March 31, 2017 all contractually mature in one year or less. Actual maturities may differ from contractual maturities. Veeco may sell these securities prior to maturity based on the needs of the business. In addition, borrowers may have the right to call or prepay obligations prior to scheduled maturities.

There were no realized gains for the three months ended March 31, 2017 and 2016. The cost of securities liquidated is based on specific identification.

#### Accounts receivable

Accounts receivable is presented net of an allowance for doubtful accounts of \$0.3 million at both March 31, 2017 and December 31, 2016.

#### Inventories

Inventories are stated at the lower of cost or net realizable value using standard costs that approximate actual costs on a first-in, first-out basis. Inventories at March 31, 2017 and December 31, 2016 consist of the following:

	March 	,	De	ecember 31, 2016		
		(in thousands)				
Materials	\$	42,165	\$	46,457		
Work-in-process		20,992		25,250		
Finished goods		1,540		5,356		
Total	\$	64,697	\$	77,063		

Prepaid expenses and other current assets

Prepaid expenses and other current assets primarily consist of supplier deposits, prepaid value-added tax, lease deposits, prepaid insurance, and prepaid licenses. Vecco had deposits with its suppliers of \$7.9 million and \$7.8 million at March 31, 2017 and December 31, 2016, respectively.

Property, plant, and equipment

Property, plant, and equipment at March 31, 2017 and December 31, 2016 consist of the following:

	 March 31, 2017	D	ecember 31, 2016
	 (in tho	usands)	
Land	\$ 5,669	\$	5,669
Building and improvements	51,102		50,814
Machinery and equipment (1)	104,222		99,370
Leasehold improvements	3,884		3,652
Gross property, plant and equipment	164,877		159,505
Less: accumulated depreciation and amortization	101,193		98,859
Net property, plant and equipment	\$ 63,684	\$	60,646

<sup>(1)</sup> Machinery and equipment also includes software, furniture and fixtures

For the three months ended March 31, 2017 and 2016, depreciation expense was \$2.9 million and \$3.3 million, respectively.

#### Goodwill

Goodwill represents the future economic benefits arising from assets acquired in a business combination that are not individually identified and separately recognized. There were no changes to goodwill during the three months ended March 31, 2017.

#### Intangible assets

Intangible assets consist of purchased technology, customer-related intangible assets, patents, trademarks (both long-lived and indefinite-lived), covenants not-to-compete, and software licenses and are initially recorded at fair value. Long-lived intangibles are amortized over their estimated useful lives in a method reflecting the pattern in which the economic benefits are consumed or amortized on a straight-line basis if such pattern cannot be reliably determined.

The components of purchased intangible assets were as follows:

		M	arch 31, 2017				Dec	ember 31, 2016		
	Gross Carrying Amount	A	ccumulated mortization and mpairment	Net Amount		Accumulated Gross Amortization Carrying and Amount Impairment		n Net		
				(in tho	usan	ds)				
Technology	\$ 149,198	\$	115,454	\$ 33,744	\$	149,198	\$	113,904	\$	35,294
Customer relationships	47,885		29,909	17,976		47,885		28,659		19,226
Trademarks and tradenames	2,590		1,986	604		2,590		1,948		642
Indefinite-lived trademark	2,900		_	2,900		2,900		_		2,900
Other	748		461	287		2,026		1,710		316
Total	\$ 203,321	\$	147,810	\$ 55,511	\$	204,599	\$	146,221	\$	58,378

Other intangible assets primarily consist of patents, licenses, and non-compete agreements.

#### Other assets

Veeco has an ownership interest of less than 20% in a non-marketable investment, Kateeva, Inc. ("Kateeva"). Veeco does not exert significant influence over Kateeva and therefore the investment is carried at cost. There was no change to the \$21.0 million carrying value of the investment during the three months ended March 31, 2017. The investment is included in "Other assets" on the Consolidated Balance Sheet. The investment is subject to a periodic impairment review; as there are no open-market valuations, the impairment analysis requires judgment. The analysis includes assessments of Kateeva's financial condition, the business outlook for its products and technology, its projected results and cash flow, business valuation indications from recent rounds of financing, the likelihood of obtaining subsequent rounds of financing, and the impact of equity preferences held by Veeco relative to other investors. Fair value of the investment is not estimated unless there are identified events or changes in circumstances that could have a significant adverse effect on the fair value of the investment. No such events or circumstances are present.

#### Note 4 - Liabilities

Accrued expenses and other current liabilities

The components of accrued expenses and other current liabilities at March 31, 2017 and December 31, 2016 consist of:

	March 31, 2017	I	December 31, 2016		
	(in thousands)				
Payroll and related benefits	\$ 13,538	\$	18,780		
Warranty	4,209		4,217		
Professional fees	2,806		1,827		
Installation	1,411		1,382		
Sales, use, and other taxes	436		1,282		
Restructuring liability	1,219		1,796		
Interest	1,915		_		
Other	2,946		3,917		
Total	\$ 28,480	\$	33,201		

Other liabilities include accruals for costs related to customer training, royalties, and travel.

#### Warranty

Warranties are typically valid for one year from the date of system final acceptance, and Veeco estimates the costs that may be incurred under the warranty. Estimated warranty costs are determined by analyzing specific product and historical configuration statistics and regional warranty support costs and are affected by product failure rates, material usage, and labor costs incurred in correcting product failures during the warranty period. Unforeseen component failures or exceptional component performance can also result in changes to warranty costs. Changes in product warranty reserves for the three months ended March 31, 2017 include:

	(in	thousands)
Balance - December 31, 2016	\$	4,217
Warranties issued		973
Consumption of reserves		(1,327)
Changes in estimate		346
Balance - March 31, 2017	\$	4,209

#### Restructuring accruals

During the three months ended March 31, 2017, additional accruals were recognized and payments made related to previous years' restructuring initiatives. During the second and third quarters of 2016, the Company undertook restructuring activities as part of its initiative to streamline operations, enhance efficiency, and reduce costs. As a result of these actions, the Company notified approximately 50 employees of their termination from the Company. In addition, during the third quarter of 2016, the Company decided to significantly reduce future investments in its Atomic Layer Deposition ("ALD") technology development, which impacts approximately 25 additional employees. Over the next few quarters, the Company expects to incur additional restructuring costs of \$2 to \$4 million as it finalizes all of these activities.

	Personnel Severance and Related Costs	Facility Related Costs		Total
			(in thousands)	
Balance - December 31, 2016	\$ 1,796	\$	<u> </u>	\$ 1,796
Provision	661		677	1,338
Payments	(1,238)		(677)	(1,915)
Balance - March 31, 2017	\$ 1,219	\$	_	\$ 1,219

#### Customer deposits

Customer deposits totaled \$21.5 million and \$22.2 million at March 31, 2017 and December 31, 2016, respectively.

#### Convertible Senior Notes

On January 10, 2017, the Company issued \$345.0 million of 2.70% convertible senior unsecured notes (the "Convertible Senior Notes"). The Company received net proceeds, after deducting underwriting discounts and fees and expenses payable by the Company, of approximately \$335.8 million. The Convertible Senior Notes bear interest at a rate of 2.70% per year, payable semiannually in arrears on January 15 and July 15 of each year, commencing on July 15, 2017. The Convertible Senior Notes mature on January 15, 2023, unless earlier purchased by the Company, redeemed, or converted.

The Convertible Senior Notes are unsecured obligations of Veeco and rank senior in right of payment to any of Veeco's subordinated indebtedness; equal in right of payment to all of Veeco's unsecured indebtedness that is not subordinated;

effectively subordinated in right of payment to any of Veeco's secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally subordinated to all indebtedness and other liabilities (including trade payables) of Veeco's subsidiaries.

The Convertible Senior Notes are convertible into cash, shares of the Company's common stock, or a combination thereof, at the Company's election, upon the satisfaction of specified conditions and during certain periods as described below. The initial conversion rate is 24.9800 shares of the Company's common stock per \$1,000 principal amount of Convertible Senior Notes, representing an initial effective conversion price of \$40.03 per share of common stock. The conversion rate may be subject to adjustment upon the occurrence of certain specified events as provided in the indenture governing the Convertible Senior Notes, dated January 18, 2017 between the Company and U.S. Bank National Association, as trustee (the "Indenture"), but will not be adjusted for accrued but unpaid interest.

Holders may convert all or any portion of their notes, in multiples of one thousand dollar principal amount, at their option at any time prior to the close of business on the business day immediately preceding October 15, 2022 only under the following circumstances:

- (i) During any calendar quarter (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day;
- (ii) During the five consecutive business day period after any five consecutive trading day period (the "measurement period") in which the trading price per one thousand dollar principal amount of Convertible Senior Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of Vecco's common stock and the conversion rate on each such trading day;
- (iii) If the Company calls any or all of the Convertible Senior Notes for redemption at any time prior to the close of business on the scheduled trading day immediately preceding the redemption date; or
- (iv) Upon the occurrence of specified corporate events.

On or after October 15, 2022, until the close of business on the business day immediately preceding the Maturity Date, holders may convert their notes at any time, regardless of the foregoing circumstances.

Upon conversion by the holders, the Company may elect to settle such conversion in shares of its common stock, cash, or a combination thereof. As a result of its cash conversion option, the Company segregated the liability component of the instrument from the equity component. The liability component was measured by estimating the fair value of a non-convertible debt instrument that is similar in its terms to the Convertible Senior Notes. The calculation of the fair value of the debt component required the use of Level 3 inputs, including utilization of convertible investors' credit assumptions and high yield bond indices. Fair value was estimated through discounting future interest and principal payments, an income approach, due under the Convertible Senior Notes at a discount rate of 7.00%, an interest rate equal to the estimated borrowing rate for similar non-convertible debt. The excess of the aggregate face value of the Convertible Senior Notes over the estimated fair value of the liability component of \$72.5 million was recognized as a debt discount which will be amortized over the expected life of the Convertible Senior Notes using the effective interest rate method. Amortization of the debt discount is recognized as non-cash interest expense.

The transaction costs of \$9.2 million incurred in connection with the issuance of the Convertible Senior Notes were allocated to the liability and equity components based on their relative values. Transaction costs allocated to the liability component are being amortized using the effective interest rate method and recognized as non-cash interest expense over the expected term of the Convertible Senior Notes. Transaction costs allocated to the equity component reduced the value of the equity component recognized in stockholders' equity.

The carrying value of the Convertible Senior Notes is as follows:

	March 31, 2017	
	(in thousand	.s)
Principal amount	\$ 345	5,000
Unamortized debt discount	(70	),527)
Unamortized transaction costs	(7	7,104)
Net carrying value	\$ 267	7,369

Total interest expense related to the Convertible Senior Notes is as follows:

	ended	e months March 31, 2017 ousands)
Cash Interest Expense		
Coupon interest expense	\$	1,915
Non-Cash Interest Expense		
Amortization of debt discount		1,985
Amortization of transaction costs		200
<b>Total Interest Expense</b>	\$	4,100

The Company determined the Convertible Senior Notes is a Level 2 liability in the fair value hierarchy and estimated its fair value as \$361.3 million at March 31, 2017.

#### Mortgage Payable

Included within long-term debt is a mortgage note payable that has a carrying value of \$1.1 million and \$1.2 million at March 31, 2017 and December 31, 2016, respectively, and is secured by certain land and buildings with a carrying value of \$3.0 million at March 31, 2017 and December 31, 2016. The annual interest rate on the mortgage is 7.91%, and the final payment is due on January 1, 2020. The Company determined the mortgage is a Level 3 liability in the fair-value hierarchy and estimated its fair value as \$1.1 million and \$1.2 million at March 31, 2017 and December 31, 2016, respectively, using a discounted cash flow model.

#### Other Liabilities

Other liabilities primarily consist of income taxes payable and other liabilities not expected to be paid within one year. Non-current income taxes payable were \$4.9 million at December 31, 2016. There were no non-current income taxes payable at March 31, 2017.

#### Note 5 - Commitments and Contingencies

#### Minimum lease commitments

At March 31, 2017, Veeco's total future minimum lease payments under non-cancelable operating leases have not changed significantly from the disclosure in the 2016 Form 10-K.

### Veeco Instruments Inc. and Subsidiaries Notes to the Consolidated Financial Statements - continued (unaudited)

#### Purchase commitments

Veeco has purchase commitments of \$81.5 million at March 31, 2017, substantially all of which become due within one year.

#### Bank guarantees

Veeco has bank guarantees and letters of credit issued by a financial institution on its behalf as needed. At March 31, 2017, outstanding bank guarantees and letters of credit totaled \$4.7 million, and unused bank guarantees and letters of credit of \$66.0 million were available to be drawn upon.

#### Legal proceedings

On March 17, 2017, an Ultratech shareholder filed a purported class action complaint in the U.S. District Court for the Northern District of California, captioned *The Vladimir Gusinsky Rev. Trust v. Ultratech, Inc., et al.*, Case No. 4:17-cv-01468-PJH, on behalf of itself and all other Ultratech shareholders against Ultratech, its directors at the time the acquisition was announced, Veeco, and Merger Sub. The complaint alleges, among other things, that in connection with Veeco's proposed acquisition of Ultratech, the defendants purportedly agreed to a supposedly inadequate price for the Ultratech shares, agreed to unreasonable deal-protection measures, and potentially engaged in supposed self-dealing. The complaint seeks to recover under Sections 14(a) and 20(a) of the Securities Exchange Act of 1934 for alleged misstatements and omissions in the preliminary proxy statement filed on March 13, 2017. The complaint seeks declaratory and injunctive relief, including enjoining or rescinding the transaction and rescissory damages to the extent already implemented, an order directing the dissemination of a proxy statement that is not false or misleading, and an award of attorneys' and experts' fees.

On March 22, 2017, two other Ultratech shareholders filed a purported class action complaint in the U.S. District Court for the Northern District of California, captioned *De Letter et al. v. Ultratech, Inc., et al.*, Case No. 3:17-cv-01542-WHA, on behalf of themselves and all other Ultratech shareholders against Ultratech and its directors at the time the acquisition was announced. The complaint alleges, among other things, that in connection with Veeco's proposed acquisition of Ultratech, the defendants purportedly agreed to a supposedly inadequate price for the Ultratech shares and potentially engaged in supposed self-dealing. The complaint further alleges that the sale process was flawed and tainted by the self-interest of certain directors. The complaint seeks to recover under Sections 14(a) and 20(a) of the Securities Exchange Act of 1934 for alleged misstatements and omissions in the preliminary proxy statement filed on March 13, 2017. The complaint seeks injunctive relief, including enjoining or rescinding the transaction and rescissory damages to the extent already implemented, compensatory damages, and an award of attorneys' and experts' fees.

The defendants have not yet responded to either complaint. While it is too early to predict the outcome of litigation or a reasonable range of potential losses, Veeco believes these lawsuits are without merit. Additional lawsuits arising out of or relating to the merger agreement or the merger may be filed in the future.

Veeco is involved in various other legal proceedings arising in the normal course of business. Veeco does not believe that the ultimate resolution of these matters will have a material adverse effect on its consolidated financial position, results of operations, or cash flows.

#### Note 6 - Equity

Accumulated Other Comprehensive Income ("AOCI")

The following table presents the changes in the balances of each component of AOCI, net of tax:

	Fo	Unrealized Gains (Losses) on Foreign Currency Available for Sale Translation Securities			Total		
		Translation		(in thousands)		Totai	
Balance - December 31, 2016	\$	1,797	\$	(20)	\$	1,777	
Other comprehensive income (loss)		15		(114)		(99)	
Balance - March 31, 2017	\$	1,812	\$	(134)	\$	1,678	

There were minimal reclassifications from AOCI into net income for the three months ended March 31, 2017.

#### Note 7 - Share-based compensation

Restricted share awards are issued to employees that are subject to specified restrictions and a risk of forfeiture. The restrictions typically lapse over one to five years and may entitle holders to dividends and voting rights. Other types of share-based compensation include performance share awards, performance share units, and restricted share units (collectively with restricted share awards, "restricted shares"), as well as options to purchase common stock.

Share-based compensation expense was recognized in the following line items in the Consolidated Statements of Operations for the three months ended March 31, 2017 and 2016:

	Three months	ended March 31,	
	2017	2016	
	(in the	ousands)	
Cost of sales	\$ 657	\$ 546	
Research and development	429	1,099	
Selling, general, and administrative	3,100	2,743	
Total	\$ 4,186	\$ 4,388	

For the three months ended March 31, 2017, equity activity related to stock options was as follows:

	Number of Shares	Weighted Average Exercise Price	
	(in the	ousands)	
Balance - December 31, 2016	1,576	\$ 35.1	8
Granted	_	_	_
Exercised	_	_	_
Expired or forfeited	(77)	37.4	0
Balance - March 31, 2017	1,499	35.0	)6

For the three months ended March 31, 2017, equity activity related to restricted shares and performance shares was as follows:

	Number of Shares (in thousands)	Weighted Average Grant Date Fair Value
Balance - December 31, 2016	1,949	\$ 23.85
Granted	37	26.80
Released	(53)	31.77
Forfeited	(105)	26.66
Balance - March 31, 2017	1,828	23.88

#### **Note 8 - Income Taxes**

Income taxes are estimated for each of the jurisdictions in which the Company operates. Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes, as well as the tax effect of carryforwards. Realization of net deferred tax assets is dependent on future taxable income. At March 31, 2017, the Company's U.S. deferred tax assets are fully offset by a valuation allowance since the Company cannot conclude that that it is more likely than not that these future benefits will be realized before they expire.

At the end of each interim reporting period, the effective tax rate is aligned to expectations for the full year. This estimate is used to determine the income tax provision on a year-to-date basis and may change in subsequent interim periods. Income (loss) before income taxes and income tax expense (benefit) for the three months ended March 31, 2017 and 2016 were as follows:

	T	Three months ended March 31,			
		2017	2016		
		(in thousands)			
Loss before income taxes	\$	(9,187)	\$	(15,005)	
Income tax expense (benefit)	\$	(10,282)	\$	528	

The net income tax benefit for the three months ended March 31, 2017 was comprised of a net benefit of \$4.2 million and \$6.1 million related to the Company's U.S. and non-U.S. operations, respectively.

The net income tax benefit from the Company's U.S. operations was primarily attributable to a tax benefit of \$4.9 million for losses incurred during the three months ended March 31, 2017. Under the intraperiod tax allocation rules, the deferred tax liability created upon the issuance of the Convertible Senior Notes is treated as a source of income, which enables the Company to recognize a benefit for the U.S.loss before income taxes during fiscal 2017. The tax benefit related to the issuance of the Convertible Senior Notes will not recur in future years. This benefit was partially offset by a deferred provision of approximately \$0.9 million related to tax amortization on indefinite-lived intangible assets.

The net income tax benefit from the Company's non-U.S. operations was primarily attributable to the Company's determination in the first quarter of 2017 that it was more likely than not that it will meet the requirements of an existing foreign tax incentive agreement. As a result the Company remeasured this uncertain tax position and recognized a \$6.3 million benefit during the first quarter, which is comprised of a reversal of a \$4.9 million tax liability established in previous periods and the recognition of a deferred tax benefit of \$1.4 million related to certain foreign net operating losses generated in prior years that are now determined to be realizable.

For the three months ended March 31, 2016, the Company did not provide a current tax benefit on U.S. pre-tax losses since the Company could not conclude that it is more likely than not that the benefits would be realized. The tax expense is primarily related to indefinite-lived intangible assets that are amortized for tax purposes but not for financial reporting

purposes. The deferred tax liability created by the tax deductible expense cannot be used to offset existing deferred tax assets. Since the Company cannot conclude that it is more likely than not that the tax deductible expense will be realized, the Company recorded a valuation allowance.

#### Note 9 - Segment Reporting and Geographic Information

Veeco operates and measures its results in one operating segment and therefore has one reportable segment: the design, development, manufacture, and support of thin film process equipment primarily sold to make electronic devices.

Veeco categorizes its sales into the following four end-markets:

Lighting, Display & Power Electronics

Lighting refers to Light Emitting Diode ("LED"); semiconductor illumination sources used in various applications including backlights, general lighting, automotive running lights, and head lamps. Display refers to LED displays including outdoor display/signage applications. Power Electronics refers to GaN-on-Silicon semiconductor devices such as rectifiers, inverters, and converters for the control and conversion of electric power.

Advanced Packaging, MEMS & RF

Advanced Packaging includes a portfolio of wafer-level assembly technologies that enable the miniaturization and performance improvement of electronic products, such as smartphones, smartwatches, tablets, and laptops. Micro-Electro Mechanical Systems ("MEMS") includes tiny mechanical devices such as sensors, switches, mirrors, and actuators embedded in semiconductor chips used in vehicles, smartphones, tablets, and games. Radio Frequency ("RF") includes semiconductor devices that make use of radio waves (RF fields) for wireless broadcasting and/or communications.

Scientific & Industrial

Scientific refers to advanced materials research at university research institutions, industry research institutions, industry consortiums, and government research agencies. Industrial refers to large-scale product manufacturing applications including optical coatings: thin layers of material deposited on a lens or mirror that alters how light reflects and transmits; extreme ultraviolet ("EUV") photomask: an opaque plate that allows light to shine through in a defined pattern for use in photolithography; front end semiconductor: early steps in the process of integrated circuit fabrication where the microchips are created but still remain on the silicon wafer; and high power lasers such as fiber lasers used for industrial materials processing.

Data Storage

The Data Storage end-market refers to the archiving of data in electromagnetic or other forms for use by a computer or device, including hard disk drives used in large capacity storage applications.

Sales by end-market and geographic region for the three months ended March 31, 2017 and 2016 were as follows:

	 Three months ended March 31,			
	2017		2016	
Sales by end-market				
Lighting, Display & Power Electronics	\$ 54,193	\$	22,942	
Advanced Packaging, MEMS & RF	11,558		23,262	
Scientific & Industrial	15,050		14,911	
Data Storage	13,585		16,896	
Total	\$ 94,386	\$	78,011	
Sales by geographic region	 	-		
United States	\$ 17,288	\$	26,711	
China	40,326		8,800	
EMEA (1)	22,067		27,462	
Rest of World	14,705		15,038	
Total	\$ 94,386	\$	78,011	

<sup>(1)</sup> EMEA consists of Europe, the Middle East, and Africa

For geographic reporting, sales are attributed to the location in which the customer facility is located.

#### Note 10 — Agreement to Acquire Ultratech

On February 2, 2017, Veeco and Ultratech, Inc. ("Ultratech"), a leading supplier of lithography, laser-processing, and inspection systems used to manufacture semiconductor devices and LEDs, signed a definitive agreement for Veeco to acquire Ultratech. The Boards of Directors of both Veeco and Ultratech have unanimously approved the transaction.

Ultratech shareholders will receive (i) \$21.75 per share in cash and (ii) 0.2675 of a share of Veeco common stock for each Ultratech common share outstanding. Based on Veeco's closing stock price on February 28, 2017, the transaction consideration is valued at approximately \$29.07 per Ultratech share. The implied total transaction value is approximately \$820 million and the implied enterprise value is approximately \$553 million, net of Ultratech's net cash balance as of December 31, 2016. The transaction is expected to close in the second calendar quarter of 2017, subject to approval by Ultratech shareholders, regulatory approvals in the United States, and other customary closing conditions.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### **Cautionary Statement Regarding Forward Looking Statements**

Our discussion below constitutes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. When used in this Report, the words "believes," "anticipates," "expects," "estimates," "targets," "plans," "intends," "will," and similar expressions related to the future are intended to identify forward-looking statements. All forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially from projected results. You should not place undue reliance on any forward-looking statements, which speak only as of the dates they are made.

#### **Executive Summary**

We design, manufacture, and market thin film process equipment aligned to meet the demands of key global trends such as energy conservation, mobility, and connectivity. Our equipment is primarily used to make components for electronic devices including LEDs, displays, power electronics, wireless devices, smartphones, sensors, MEMS, and HDDs. We develop highly differentiated equipment for critical performance steps in thin film processing. Our products provide leading technology at low cost-of-ownership and high volume productivity. Core competencies in advanced thin film technologies, patent protection, and decades of specialized process know-how help us stay at the forefront of these rapidly advancing markets.

Our portfolio of technology solutions sell into four key market areas: Lighting, Display & Power Electronics; Advanced Packaging, MEMS & RF; Scientific & Industrial; and Data Storage.

Sales in the Lighting, Display & Power Electronics markets increased by approximately 38 percent sequentially, reflecting ongoing improvement in LED industry conditions. TV displays remain the second largest LED application behind solid state lighting. Over the past few quarters demand for larger LCD TV displays has increased, which require more LEDs to backlight compared with smaller display sizes. At the same time, we have seen an increase in LED demand for fine-pitch digital signage. These trends have driven an increase in demand for our MOCVD equipment and build-up in our MOCVD backlog. As a result, we believe that our MOCVD sales have the potential to be higher in the second half of the year relative to the first half of 2017. Our broad portfolio of MOCVD technologies has been developed to support the most significant industry trends, including developing mid-power LEDs, utilizing larger wafer sizes, and optimizing cost-of-ownership. Our TurboDisc ® EPIK ™ 700 GaN MOCVD system continues to win new business for blue LEDs. Our TurboDisc K475i ™ AsP MOCVD system targets redorange-yellow LEDs, laser diodes, and high-efficiency triple junction photovoltaic solar cells and continues to gain market momentum.

A majority of our first quarter sales in the Advanced Packaging, MEMS & RF markets were driven by the mobility trend and increasing functionality in mobile devices. While investments for RF capacity were more measured during the quarter, we captured new business with our PSP products to produce MEMS optical sensors for next generation smartphones. PSP was also selected for multiple applications by a leading Chinese mobile device manufacturer to support next generation wireless networking. While sales in Advanced Packaging declined in the first quarter, we are continuing to gain momentum in this growing market. Our versatile PSP product architecture is well suited for a multitude of advanced packaging process schemes, including WLFO (wafer level fan out) and 3D TSV (thru silicon via) applications.

Sales from Scientific & Industrial and Data Storage markets are generated primarily from our legacy products, which include our ion beam etch, ion beam deposition, and MBE product families. Following strong demand for our equipment in the fourth quarter to support high-power laser diode production and advanced optical coatings, sales for Industrial applications were lower in the first quarter of 2017. While equipment demand from each individual market may fluctuate quarter to quarter, the diverse customer base has historically provided a relatively stable revenue stream for the company on a combined basis.

Agreement to Acquire Ultratech

On February 2, 2017, Veeco and Ultratech, Inc. ("Ultratech"), a leading supplier of lithography, laser-processing, and inspection systems used to manufacture semiconductor devices and LEDs, signed a definitive agreement for Veeco to

acquire Ultratech. The Boards of Directors of both Veeco and Ultratech have unanimously approved the transaction.

Ultratech shareholders will receive (i) \$21.75 per share in cash and (ii) 0.2675 of a share of Veeco common stock for each Ultratech common share outstanding. Based on Veeco's closing stock price on February 28, 2017, the transaction consideration is valued at approximately \$29.07 per Ultratech share. The implied total transaction value is approximately \$820 million and the implied enterprise value is approximately \$553 million, net of Ultratech's net cash balance as of December 31, 2016. The transaction is expected to close in the second calendar quarter of 2017, subject to approval by Ultratech shareholders, regulatory approvals in the United States, and other customary closing conditions.

#### **Results of Operations**

#### For the three months ended March 31, 2017 and 2016

The following table presents revenue and expense line items reported in our Consolidated Statements of Operations for 2017 and 2016 and the period-over-period dollar and percentage changes for those line items. Our results of operations are reported as one business segment, represented by our single operating segment.

		Three months ended March 31,						Change		
		2017			2016			Period to Period		
					(dollars in tho	,				
Net sales	\$	94,386	100%	\$	78,011	100%	\$	16,375	21%

EMEA	22,067	23%		27,462	35%		(5,395)	(20)%
Rest of World	14,705	16%		15,038	19%		(333)	(2)%
Total	\$ 94,386	100%	\$	78,011	100%	\$	16,375	21%

Total sales increased for the three months ended March 31, 2017 against the comparable prior year period, primarily due to increased sales in Lighting, Display & Power Electronics as we continue to see ongoing improvements in LED industry conditions. The increase was partially offset by decreased sales in the Advanced Packaging, MEMS & RF and Data Storage markets. Pricing was not a significant driver of the change in total sales. By geography, sales increased in China, which was attributable to the increased sales in the Lighting, Display & Power Electronics market. This increase was partially offset by decreases in the other geographic regions. We expect there will continue to be year-to-year variations in our future sales distribution across markets and geographies.

Orders increased to \$107.3 million for the three months ended March 31, 2017 from \$61.6 million for the comparable prior year period. The increase in orders was primarily attributable to an increase of over 150% in orders in Lighting, Display & Power Electronics.

One of the performance measures we use as a leading indicator of the business is the book-to-bill ratio. The ratio is defined as orders recorded in a given period divided by revenue recognized in the same period. A ratio greater than one indicates we are adding orders faster than we are recognizing revenue. For the three months ended March 31, 2017, the ratio was 1.1, compared to 0.8 for the comparable prior period. Our backlog at March 31, 2017 was \$221.1 million, which was higher than the backlog at December 31, 2016 of \$209.2 million. During the three months ended March 31, 2017, we recorded backlog adjustments of approximately \$0.8 million, relating to orders that no longer met our bookings criteria.

#### Gross Profit

In the first quarter of 2017, gross profit increased compared to the first quarter of 2016 due to a sharp increase in sales volume partially offset by decreased gross margins. Gross margins decreased principally due to product and region mix of sales in the period, as well as the temporary impact of our manufacturing consolidation efforts.

#### Research and development

The markets we serve are characterized by continuous technological development and product innovation, and we invest in various research and development initiatives to maintain our competitive advantage and achieve our growth objectives. Research and development expenses decreased in the first quarter of 2017 compared to the first quarter of 2016 primarily as a result of our decision to significantly reduce investments in our Atomic Layer Deposition ("ALD") technology, as well as decreases in other personnel-related expenses and professional fees as a result of our initiative to streamline operations, enhance efficiency, and reduce costs

Selling, general, and administrative

Selling, general, and administrative expenses increased slightly primarily due to costs related to our proposed acquisition of Ultratech, partially offset by a decrease in personnel-related expenses as a result of our initiative to streamline operations, enhance efficiency, and reduce costs.

#### Amortization expense

The decrease in amortization expense is a result of the impairment of the ALD technology asset in the prior year as well as certain other intangible assets becoming fully amortized during 2016.

#### Restructuring expense

During the three months ended March 31, 2017, additional accruals were recognized and payments made related to previous years' restructuring initiatives. During the second and third quarters of 2016, we undertook restructuring activities as part of our initiative to streamline operations, enhance efficiency, and reduce costs. As a result of these actions, we notified approximately 50 employees of their termination from the Company. In addition, during the third quarter of 2016, we decided to significantly reduce future investments in our ALD technology development, which impacts approximately 25 additional employees. Over the next few quarters, we expect to incur additional restructuring costs of \$2 to \$4 million as we finalize all of these activities.

#### Income Taxes

At the end of each interim reporting period, we estimate the effective income tax rate expected to be applicable for the full year. This estimate is used to determine the income tax provision or benefit on a year-to-date basis and may change in subsequent interim periods.

Our tax benefit for the three months ended March 31, 2017 was \$ 10.3 million compared to a tax expense of \$0.5 million for the comparable prior period. The 2017 tax benefit included \$4.2 million relating to our domestic operations and \$6.1 million relating to our non-U.S. operations, compared to 2016 when our expense included \$0.4 million related to domestic operations and \$0.1 million related to our non-U.S. operations. The current period domestic tax benefit is primarily attributable to an income tax benefit for losses incurred during the three months ended March 31, 2017, as the deferred tax liability created by the issuance of the Convertible Senior Notes is treated as a source of income in fiscal 2017, offset by a deferred provision related to tax amortization on indefinite-lived intangible assets. The current period non-U.S. tax benefit is primarily attributable to the remeasurement of an uncertain tax position, which included the reversal of a previously established non-U.S. tax liability and the recognition of a deferred tax benefit related to certain foreign net operating losses generated in prior years that are now determined to be realizable. The tax expense for the comparable period is primarily attributable to the tax amortization of indefinite-lived intangible assets that is not available to offset deferred tax assets.

#### **Liquidity and Capital Resources**

Our cash and cash equivalents, short-term investments, and restricted cash are as follows:

	March 31,	December 31,	
	2017	2016	
	(in the	ousands)	
Cash and cash equivalents	\$ 423,661	\$ 277,444	
Short-term investments	258,196	66,787	
Total	\$ 681,857	\$ 344,231	

In January 2017, we received proceeds of \$335.8 million related to the issuance of Convertible Senior Notes, resulting in a significant increase in cash and cash equivalents and short-term investments. A portion of our cash and cash equivalents

is held by our subsidiaries throughout the world, frequently in each subsidiary's respective functional currency, which is typically the U.S. dollar. At March 31, 2017 and December 31, 2016, cash and cash equivalents of \$153.3 million and \$149.2 million, respectively, were held outside the United States. In order to fund continued international growth, it is our current intention to permanently reinvest the cash and cash equivalent balances held in China, Taiwan, and Malaysia, and our current forecasts do not require repatriation of these funds back to the United States. At March 31, 2017, we had \$80.7 million in cash held outside the United States on which we may have to pay significant U.S. income taxes to repatriate or utilize net operating loss carryforwards. Additionally, local government regulations may restrict our ability to move cash balances under certain circumstances. We currently do not expect such regulations and restrictions to impact our ability to make acquisitions, pay vendors, or conduct operations. We believe that our projected cash flow from operations, combined with our cash and short term investments, will be sufficient to meet our projected working capital requirements, contractual obligations, and other cash flow needs for the next twelve months, including funding the net cash purchase price of Ultratech expected to close in the second quarter of 2017, as well as the scheduled interest payments on our Convertible Senior Notes issued in January 2017.

A summary of the cash flow activity at March 31, 2017 and December 31, 2016 is as follows:

Cash Flows from Operating Activities

	Three months ended March 31,			arch 31,
		2017		2016
		(in tho	ısands)	
Net income (loss)	\$	1,095	\$	(15,533)
Non-cash items:				
Depreciation and amortization		5,799		8,593
Non-cash interest expense		2,185		_
Deferred income taxes		(6,001)		465
Share-based compensation expense		4,186		4,388
Asset impairment		463		_
Provision for bad debts		92		160
Changes in operating assets and liabilities		(1,487)		(16,871)
Net cash provided by (used in) operating activities	\$	6,332	\$	(18,798)

Net cash provided by operating activities was \$6.3 million for the three months ended March 31, 2017 and was due to net income of \$1.1 million plus adjustments for non-cash items of \$6.7 million, offset by a decrease in cash flow from operating activities due to changes in operating assets and liabilities of \$1.5 million.

Cash Flows from Investing Activities

	<u>Th</u>	Three months ended March 31,		
	2	017	2016	
		(in thousa	inds)	
Capital expenditures	\$	(4,187)	(3,988)	
Changes in investments, net		(191,730)	10,930	
Other		_	(213)	
Net cash provided by (used in) investing activities	\$	(195,917)	6,729	

The cash provided by investing activities during the three months ended March 31, 2017 was primarily attributable to net changes in investments as well as capital expenditures. As part of our efforts to streamline operations, enhance efficiency, and reduce costs, we are making certain investments in our facilities to support the consolidation activities, and, in 2017, we expect to incur future capital expenditures related to these activities of approximately \$5 million to \$10 million.

Cash Flows from Financing Activities

	Three months ended March 31,			larch 31,
		2017		2016
		(in tho	usands)	
Settlement of equity awards, net of withholding taxes	\$	124	\$	(49)
Purchases of common stock		_		(13,349)
Proceeds from long-term debt borrowings		335,752		_
Principal payments on long-term debt		(89)		(82)
Net cash provided by (used in) financing activities	\$	335,787	\$	(13,480)

The cash provided by financing activities for the three months ended March 31, 2017 was primarily related to the net cash proceeds received from the issuance of the Convertible Senior Notes in January 2017. The cash used in financing activities for the three months ended March 31, 2016 was primarily related to the share repurchase program, which commenced in November 2015. There were no share repurchases in 2017.

#### Convertible Senior Notes

On January 10, 2017, we issued \$345.0 million of 2.70% convertible senior unsecured notes (the "Convertible Senior Notes"). We received net proceeds, after deducting underwriting discounts and fees and expenses payable by the Company, of approximately \$335.8 million. The Convertible Senior Notes bear interest at a rate of 2.70% per year, payable semiannually in arrears on January 15 and July 15 of each year, commencing on July 15, 2017. The Convertible Senior Notes mature on January 15, 2023, unless earlier purchased by the Company, redeemed, or converted. We believe that we have sufficient capital resources and cash flows from operations to support scheduled interest payments on this debt.

#### Agreement to Acquire Ultratech

As described above, on February 2, 2017, Vecco and Ultratech signed a definitive agreement for Vecco to acquire Ultratech. We believe that we have sufficient capital resources and cash flows from operations to support the purchase of Ultratech.

#### Contractual Obligations and Commitments

We have commitments under certain contractual arrangements to make future payments for goods and services. These contractual arrangements secure the rights to various assets and services to be used in the future in the normal course of business. We expect to fund these contractual arrangements with cash generated from operations in the normal course of business.

#### Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, expenses, and results of operations, liquidity, capital expenditures or capital resources other than operating leases, bank guarantees, and purchase commitments disclosed in the preceding footnotes.

#### Item 3. Quantitative and Qualitative Disclosures about Market Risk

#### Interest Rate Risk

Our exposure to market rate risk for changes in interest rates primarily relates to our investment portfolio. We centrally manage our investment portfolios considering investment opportunities and risks, tax consequences, and overall financing strategies. Our investment portfolio includes fixed-income securities with a fair value of approximately \$258.2 million at March 31, 2017. These securities are subject to interest rate risk and, based on our investment portfolio at March 31, 2017, a 100 basis point increase in interest rates would result in a decrease in the fair value of the portfolio of \$0.8 million. While an increase in interest rates may reduce the fair value of the investment portfolio, we will not realize the losses in the Consolidated Statements of Operations unless the individual fixed-income securities are sold prior to recovery or the loss is determined to be other-than-temporary.

#### Currency Exchange Risk

We conduct business on a worldwide basis and, as such, a portion of our revenues, earnings, and net investments in foreign affiliates is exposed to changes in currency exchange rates. The economic impact of currency exchange rate movements is complex because such changes are often linked to variability in real growth, inflation, interest rates, governmental actions, and other factors. These changes, if material, could cause us to adjust our financing and operating strategies. Consequently, isolating the effect of changes in currency does not incorporate these other important economic factors.

We have managed our risks and exposures to currency exchange rates through the use of derivative financial instruments (e.g., forward contracts). We only use derivative financial instruments in the context of hedging and do not use them for speculative purposes. During the first quarter of 2017, we did not designate foreign exchange derivatives as hedges, consistent with 2016. Accordingly, all foreign exchange derivatives, if any, are recorded in our Consolidated Balance Sheet at fair value and changes in fair value from these contracts are recorded in "Other, net" in our Consolidated Statements of Operations.

Our net sales to customers located outside of the United States represented approximately 82%, and 65% of our total net sales for the three months ended March 31, 2017, and 2016, respectively. We expect that net sales to customers outside the United States will continue to represent a large percentage of our total net sales. Our net sales denominated in currencies other than the U.S. dollar represented approximately 3% and 6% of total net sales for the three months ended March 31, 2017 and 2016, respectively.

A 10% change in foreign exchange rates would have an immaterial impact on the consolidated results of operations since most of our sales outside the United States are denominated in U.S. dollars.

#### Item 4. Controls and Procedures

Management's Report on Internal Control Over Financial Reporting

Our principal executive and financial officers have evaluated and concluded that our disclosure controls and procedures are effective as of March 31, 2017. The disclosure controls and procedures are designed to ensure that the information required to be disclosed in this report filed under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and is accumulated and communicated to our principal executive and financial officers as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

During the quarter ended March 31, 2017, there were no changes in internal control that have materially affected or are reasonably likely to materially affect internal control over financial reporting.

#### PART II—OTHER INFORMATION

#### Item 1. Legal Proceedings

On March 17, 2017, an Ultratech shareholder filed a purported class action complaint in the U.S. District Court for the Northern District of California, captioned *The Vladimir Gusinsky Rev. Trust v. Ultratech, Inc., et al.*, Case No. 4:17-cv-01468-PJH, on behalf of itself and all other Ultratech shareholders against Ultratech, its directors at the time the acquisition was announced, Veeco, and Merger Sub. The complaint alleges, among other things, that in connection with Veeco's proposed acquisition of Ultratech, the defendants purportedly agreed to a supposedly inadequate price for the Ultratech shares, agreed to unreasonable deal-protection measures, and potentially engaged in supposed self-dealing. The complaint seeks to recover under Sections 14(a) and 20(a) of the Securities Exchange Act of 1934 for alleged misstatements and omissions in the preliminary proxy statement filed on March 13, 2017. The complaint seeks declaratory and injunctive relief, including enjoining or rescinding the transaction and rescissory damages to the extent already implemented, an order directing the dissemination of a proxy statement that is not false or misleading, and an award of attorneys' and experts' fees.

On March 22, 2017, two other Ultratech shareholders filed a purported class action complaint in the U.S. District Court for the Northern District of California, captioned *De Letter et al. v. Ultratech, Inc., et al.*, Case No. 3:17-cv-01542-WHA, on behalf of themselves and all other Ultratech shareholders against Ultratech and its directors at the time the acquisition was announced. The complaint alleges, among other things, that in connection with Veeco's proposed acquisition of Ultratech, the defendants purportedly agreed to a supposedly inadequate price for the Ultratech shares and potentially engaged in supposed self-dealing. The complaint further alleges that the sale process was flawed and tainted by the self-interest of certain directors. The complaint seeks to recover under Sections 14(a) and 20(a) of the Securities Exchange Act of 1934 for alleged misstatements and omissions in the preliminary proxy statement filed on March 13, 2017. The complaint seeks injunctive relief, including enjoining or rescinding the transaction and rescissory damages to the extent already implemented, compensatory damages, and an award of attorneys' and experts' fees.

The defendants have not yet responded to either complaint. While it is too early to predict the outcome of litigation or a reasonable range of potential losses, Veeco believes these lawsuits are without merit. Additional lawsuits arising out of or relating to the merger agreement or the merger may be filed in the future.

Veeco is involved in various other legal proceedings arising in the normal course of business. Veeco does not believe that the ultimate resolution of these matters will have a material adverse effect on its consolidated financial position, results of operations, or cash flows.

#### Item 1A. Risk Factors

Information regarding risk factors appears in the Safe Harbor Statement at the beginning of this quarterly report on Form 10-Q and in Part I — Item 1A of our 2016 Form 10-K. There have been no material changes from the risk factors previously disclosed in our 2016 Form 10-K.

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On October 28, 2015, our Board of Directors authorized a program to repurchase up to \$100 million of our common stock to be completed through October 28, 2017. At March 31, 2017, \$22.3 million of the \$100 million had been utilized. No repurchases occurred after the first quarter of 2016. Repurchases may be made from time to time on the open market or in privately negotiated transactions in accordance with applicable federal securities laws. The timing and amount of future repurchases, if any, will depend upon market conditions, SEC regulations, and other factors. The repurchases would be funded using available cash balances and cash generated from operations. The program does not obligate us to acquire any particular amount of common stock and may be modified or suspended at any time at our discretion.

#### **Item 3. Defaults Upon Senior Securities**

None.

#### **Item 4. Mine Safety Disclosures**

Not Applicable.

#### **Item 5. Other Information**

None.

#### Item 6. Exhibits

#### CERTIFICATION PURSUANT TO RULE 13a — 14(a) or RULE 15d — 14(a) OF THE SECURITIES EXCHANGE ACT OF 1934

#### I, John R. Peeler, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q for the period ended March 31, 2017 of Veeco Instruments Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Chairman and Chief Executive Officer Veeco Instruments Inc. May 4, 2017

A signed original of this written statement required by Section 906 has been provided to Veeco Instruments Inc. and will be retained by Veeco Instruments Inc. and furnished to the Securities and Exchange Commission or its staff upon request.

# CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the quarterly report of Veeco Instruments Inc. (the "Company") on Form 10-Q for the period ended March 31, 2017 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Shubham Maheshwari, Executive Vice President and Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:	
(1)	The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
(2)	The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
