Item 2.05. Costs Associated with Exit or Disposal Activities.

As previously discussed during its first-quarter 2026 earnings call, Whirlpool Corporation (“the Company”) is executing critical factory footprint changes to unlock greater operational efficiencies within its manufacturing network.

On July 1, 2026, the Company announced restructuring actions related to the closure of its Supsa manufacturing facility in Apodaca, Mexico (“the Supsa Facility”) by the second quarter of 2027. The Company expects to gradually phase out the Supsa Facility by transferring production to its manufacturing facility in Ramos Arizpe, Mexico, and across its manufacturing and supply chain network. These actions are intended to optimize its operational footprint and improve the cost structure of its refrigeration product category.

The Company estimates that it will incur up to approximately \$95 million in asset impairment costs, approximately \$30 million in employee-related costs, and approximately \$40 million in other associated costs in connection with these actions. The Company estimates that approximately \$70 million of the estimated \$165 million total restructuring costs will result in future cash expenditures. The Company expects these actions to be substantially complete in 2027. As such, the Company estimates that approximately \$100 million of the \$165 million total restructuring costs will be incurred in 2026 and that approximately \$15 million of the estimated \$70 million total cash expenditures will occur in 2026.

Cautionary Statements Regarding Forward-looking Statements

Certain statements in this current report relating to the Company’s anticipated costs and cash expenditures, and the timing for completion of these actions, constitute “forward-looking statements” within the meaning of the federal securities laws. These statements reflect management’s current expectations regarding future events and speak only as of the date of this current report. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance and will not necessarily be accurate indications of whether or not, or the times at or by which, events will occur. Actual performance may differ materially from that expressed or implied in such statements. Important factors that could cause actual results to differ materially from these expectations include, among other things, the risk that timing for completion of these actions may be delayed, or the risk that expenses may be more or less than anticipated. In addition to these risks, reference should also be made to the factors discussed under “Risk Factors” in Whirlpool Corporation’s periodic filings with the Securities and Exchange Commission. Although the forward-looking statements contained in this current report are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this current report and, except as expressly required by applicable law, Whirlpool Corporation assumes no obligation to update or revise them to reflect new events or circumstances.
