Corporate Communications Department  
NEWS Release

**Textron Reports Second Quarter 2018 Income from Continuing Operations of \$0.87 per Share; Raises Full-Year EPS and Cash Guidance**

- Income from continuing operations of \$0.87 per share
- Segment profit \$346 million
- Operating margin of 9.3%, up from 8.2% a year ago
- \$571 million returned to shareholders through share repurchases
- Full-year EPS guidance increased to \$3.15 - \$3.35 per share, up \$0.20
- Full-year cash flow guidance increased to \$750 - \$850 million, up \$50 million

**Providence, Rhode Island — July 18, 2018** — Textron Inc. (NYSE: TXT) today reported second quarter 2018 income from continuing operations of \$0.87 per share. This compares to \$0.57 per share in the second quarter of 2017, or \$0.60 per share of adjusted income from continuing operations, a non-GAAP measure that is defined and reconciled to GAAP in an attachment to this release.

“Operationally, we saw continued strength in our execution with margin improvements at Aviation, Systems, and Bell,” said Textron Chairman and CEO Scott C. Donnelly. “We are encouraged by revenue growth resulting from improving commercial demand across many of our end markets.”

**Cash Flow**

Net cash provided by operating activities of continuing operations of the manufacturing group for the second quarter totaled \$468 million, compared to \$413 million in last year’s second quarter. Manufacturing cash flow before pension contributions, a non-GAAP measure that is defined and reconciled to GAAP in an attachment to this release, totaled \$399 million compared to \$341 million during last year’s second quarter.

In the quarter, Textron returned \$571 million to shareholders through share repurchases, compared to \$143 million in the second quarter of 2017.

**Outlook**

Textron now expects 2018 earnings per share from continuing operations to be in a range of \$3.15 to \$3.35, up \$0.20 from our previous outlook. The company also expects full-year 2018 cash flow from continuing operations of the manufacturing group before pension contributions to be in a range of \$750 to \$850 million, up \$50 million from its previous expectation.

Textron expects a one-time gain of approximately \$400 million from the Tools & Test divestiture in the third quarter of 2018, which is not reflected in this updated outlook.

“Our updated outlook reflects our strong first-half performance and the continuation of our strategy of growth through new product investments and acquisitions to increase long-term shareholder value,” Donnelly concluded.

---

## **Second Quarter Segment Results**

### **Textron Aviation**

Revenues at Textron Aviation of \$1.3 billion were up 9%, primarily due to higher volume and price.

Textron Aviation delivered 48 jets, up from 46 last year, and 47 commercial turboprops, up from 33 last year.

Segment profit was \$104 million in the second quarter, up from \$54 million a year ago, due to the favorable volume, mix, and price.

Textron Aviation backlog at the end of the second quarter was \$1.6 billion.

### **Bell**

Bell revenues were \$831 million, up 1% primarily on higher commercial volume, partially offset by lower military revenues.

Bell delivered 57 commercial helicopters in the quarter, up from 21 last year.

Segment profit of \$117 million was up \$5 million.

Bell backlog at the end of the second quarter was \$5.5 billion.

### **Textron Systems**

Revenues at Textron Systems were \$380 million, down from \$477 million last year, largely on lower volumes at Weapons & Sensors related to the discontinuance of SFW production in 2017 and lower TAPV deliveries at Textron Marine & Land Systems.

Segment profit was down \$2 million, primarily reflecting the lower net volume partially offset by favorable performance.

Textron Systems' backlog at the end of the second quarter was \$1.2 billion.

### **Industrial**

Industrial revenues increased \$109 million largely related to higher volumes across all of our product lines and a favorable impact from foreign exchange.

Segment profit was down \$2 million despite the increase in revenues from the second quarter of 2017, due to the mix of products sold.

### **Finance**

Finance segment revenues and profit were both flat with last year's second quarter.

---

## **Conference Call Information**

Textron will host its conference call today, July 18, 2018 at 8:00 a.m. (Eastern) to discuss its results and outlook. The call will be available via webcast at [www.textron.com](http://www.textron.com) or by direct dial at (800) 230-1951 in the U.S. or (612) 288-0340 outside of the U.S. (request the Textron Earnings Call).

In addition, the call will be recorded and available for playback beginning at 10:30 a.m. (Eastern) on Wednesday, July 18, 2018 by dialing (320) 365-3844; Access Code: 431861.

A package containing key data that will be covered on today's call can be found in the Investor Relations section of the company's website at [www.textron.com](http://www.textron.com).

## **About Textron Inc.**

Textron Inc. is a multi-industry company that leverages its global network of aircraft, defense, industrial and finance businesses to provide customers with innovative solutions and services. Textron is known around the world for its powerful brands such as Bell, Cessna, Beechcraft, Hawker, Jacobsen, Kautex, Lycoming, E-Z-GO, Textron Off Road, Arctic Cat, Textron Systems, and TRU Simulation + Training. For more information visit: [www.textron.com](http://www.textron.com).

## **Forward-looking Information**

Certain statements in this release and other oral and written statements made by us from time to time are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements, which may describe strategies, goals, outlook or other non-historical matters, or project revenues, income, returns or other financial measures, often include words such as "believe," "expect," "anticipate," "intend," "plan," "estimate," "guidance," "project," "target," "potential," "will," "should," "could," "likely" or "may" and similar expressions intended to identify forward-looking statements. These statements are only predictions and involve known and unknown risks, uncertainties, and other factors that may cause our actual results to differ materially from those expressed or implied by such forward-looking statements. Given these uncertainties, you should not place undue reliance on these forward-looking statements. Forward-looking statements speak only as of the date on which they are made, and we undertake no obligation to update or revise any forward-looking statements. In addition to those factors described in our Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q under "Risk Factors", among the factors that could cause actual results to differ materially from past and projected future results are the following: Interruptions in the U.S. Government's ability to fund its activities and/or pay its obligations; changing priorities or reductions in the U.S. Government defense budget, including those related to military operations in foreign countries; our ability to perform as anticipated and to control costs under contracts with the U.S. Government; the U.S. Government's ability to unilaterally modify or terminate its contracts with us for the U.S. Government's convenience or for our failure to perform, to change applicable procurement and accounting policies, or, under certain circumstances, to withhold payment or suspend or debar us as a contractor eligible to receive future contract awards; changes in foreign military funding priorities or budget constraints and determinations, or changes in government regulations or policies on the export and import of military and commercial products; volatility in the global economy or changes in worldwide political conditions that adversely impact demand for our products; volatility in interest rates or foreign exchange rates; risks related to our

---

international business, including establishing and maintaining facilities in locations around the world and relying on joint venture partners, subcontractors, suppliers, representatives, consultants and other business partners in connection with international business, including in emerging market countries; our Finance segment's ability to maintain portfolio credit quality or to realize full value of receivables; performance issues with key suppliers or subcontractors; legislative or regulatory actions, both domestic and foreign, impacting our operations or demand for our products; our ability to control costs and successfully implement various cost-reduction activities; the efficacy of research and development investments to develop new products or unanticipated expenses in connection with the launching of significant new products or programs; the timing of our new product launches or certifications of our new aircraft products; our ability to keep pace with our competitors in the introduction of new products and upgrades with features and technologies desired by our customers; pension plan assumptions and future contributions; demand softness or volatility in the markets in which we do business; cybersecurity threats, including the potential misappropriation of assets or sensitive information, corruption of data or, operational disruption; difficulty or unanticipated expenses in connection with integrating acquired businesses; the risk that acquisitions do not perform as planned, including, for example, the risk that acquired businesses will not achieve revenue and profit projections; the impact of changes in tax legislation (including the recently enacted Tax Cuts and Jobs Act); and risks related to the timing and scope of future repurchases of our common stock.

At the beginning of 2018, we adopted the new revenue recognition accounting standard using a modified retrospective transition method applied to contracts that were not substantially complete at the end of 2017. We recorded a \$90 million adjustment to increase retained earnings to reflect the cumulative impact of adopting this standard at the beginning of 2018, primarily related to long-term contracts with the U.S. Government. Revenues associated with these contracts in 2018 are primarily recognized as costs are incurred, while revenues for 2017 were primarily recognized as units were delivered. The comparative information has not been restated and is reported under the accounting standards in effect for those periods.

**Income from Continuing Operations and Diluted Earnings Per Share (EPS) GAAP to Non-GAAP Reconciliation:**

	Three Months Ended		Six Months Ended

**TEXTRON INC.**  
**Non-GAAP Financial Measures**  
(Dollars in millions, except per share amounts)

We supplement the reporting of our financial information determined under U.S. generally accepted accounting principles (GAAP) with certain non-GAAP financial measures. These non-GAAP financial measures exclude certain significant items that may not be indicative of, or are unrelated to, results from our ongoing business operations. We believe that these non-GAAP measures may be useful for period-over-period comparisons of underlying business trends and our ongoing business performance, however, they should be used in conjunction with GAAP measures. Our non-GAAP measures should not be considered in isolation or as a substitute for the related GAAP measures, and other companies may define similarly named measures differently. We encourage investors to review our financial statements and publicly-filed reports in the entirety and not to rely on any single financial measure. We utilize the following definitions for the non-GAAP financial measures included in this release:

**Adjusted income from continuing operations and adjusted diluted earnings per share**

Adjusted income from continuing operations and adjusted diluted earnings per share both exclude Special charges, net of income taxes. We consider items recorded in Special charges such as enterprise-wide restructuring and acquisition-related restructuring, integration and transaction costs, to be of a non-recurring nature that is not indicative of ongoing operations.

**Manufacturing cash flow before pension contributions**

Manufacturing cash flow before pension contributions adjusts net cash from operating activities of continuing operations (GAAP) for the following:

- Deducts capital expenditures and includes proceeds from the sale of property, plant and equipment to arrive at the net capital investment required to support ongoing manufacturing operations;
- Excludes dividends received from Textron Financial Corporation (TFC) and capital contributions to TFC provided under the Support Agreement and debt agreements as these cash flows are not representative of manufacturing operations;
- Adds back pension contributions as we consider our pension obligations to be debt-like liabilities. Additionally, these contributions can fluctuate significantly from period to period and we believe that they are not representative of cash used by our manufacturing operations during the period.

While we believe this measure provides a focus on cash generated from manufacturing operations, before pension contributions, and may be used as an additional relevant measure of liquidity, it does not necessarily provide the amount available for discretionary expenditures since we have certain non-discretionary obligations that are not deducted from the measure.
