MILWAUKEE— April 26, 2024 — Sensient Technologies Corporation (NYSE: SXT), a leading provider of flavors and colors for the food, pharmaceutical, and personal care markets, today reported financial results for the first quarter ended March 31, 2024.

First Quarter Consolidated Results

- Reported revenue increased 4.2% to \$384.7 million in the first quarter of 2024 versus last year's first quarter results of \$369.0 million. On a local currency basis⁽¹⁾, revenue increased 3.8%.
- Reported operating income decreased 2.8% to \$49.4 million compared to \$50.8 million recorded in the first quarter of 2023. In the first quarter of 2024, the Company recorded \$2.8 million of costs related to its recently enacted Portfolio Optimization Plan. Local currency adjusted operating income⁽¹⁾ and local currency adjusted EBITDA⁽¹⁾ increased 2.6% and 2.2%, respectively, in the first quarter.
- Reported diluted earnings per share decreased 8.8% to 73 cents in the first quarter of 2024 compared to 80 cents in the first quarter of 2023. Local currency adjusted EPS⁽¹⁾ decreased 1.3% in the first quarter primarily as a result of higher interest expense and a higher tax rate.

"I am pleased that 2024 is off to a good start. Our underlying business and new sales wins remain strong. I am confident that our teams will execute on our strategy and deliver on expectations for 2024," said Paul Manning, Sensient's Chairman, President, and Chief Executive Officer.

The Flavors & Extracts Group reported first quarter 2024 revenue of \$193.1 million, an increase of \$14.2 million versus the prior year’s first quarter. The Group’s increased revenue was a result of higher volumes, favorable pricing, and favorable exchange rates. Segment operating income was \$23.7 million in the first quarter of 2024, an increase of \$1.5 million compared to the prior year’s first quarter. The higher operating income was primarily due to the higher volumes and favorable pricing.

The Color Group reported revenue of \$160.0 million in the first quarter of 2024, a decrease of \$1.1 million compared to the prior year’s first quarter. The Group’s revenue was negatively impacted by lower volumes in the food and pharmaceutical product line, primarily due to market declines and modest customer destocking. Segment operating income was \$31.7 million in the first quarter of 2024, a decrease of \$0.2 million compared to the prior year’s first quarter results. The lower operating income is primarily a result of the lower volumes in the food and pharmaceutical product lines, partially offset by higher operating income in the personal care product line.

The Asia Pacific Group reported revenue of \$40.3 million in the first quarter of 2024, an increase of \$0.2 million compared to the prior year's first quarter. The Group's revenue benefited from higher volumes, partially offset by unfavorable exchange rates. Segment operating income was \$8.8 million in the quarter, a decrease of \$0.5 million compared to the prior year's first quarter. The lower operating income is primarily a result of higher input costs and unfavorable exchange rates.

Corporate & Other reported operating expenses of \$14.7 million in the first quarter of 2024, compared to \$12.5 million of operating expenses reported in the prior year's first quarter. The increase was primarily due to the Portfolio Optimization Plan costs of \$2.8 million recorded in the first quarter of 2024. Local currency adjusted operating expenses⁽¹⁾ for Corporate & Other decreased \$0.6 million compared to the prior year's first quarter.

2024 OUTLOOK

Sensient continues to expect 2024 diluted earnings per share to be between \$2.80 and \$2.90, which includes approximately 15 cents of Portfolio Optimization Plan costs in 2024, compared to the Company's 2023 reported GAAP diluted earnings per share of \$2.21.

The Company now expects 2024 revenue and 2024 adjusted EBITDA⁽¹⁾ to each grow at a mid-single-digit rate on a local currency basis compared to the Company's 2023 revenue and the Company's 2023 adjusted EBITDA⁽¹⁾. The Company's previous guidance called for 2024 revenue and 2024 adjusted EBITDA⁽¹⁾ to grow at a low to mid-single-digit rate on a local currency basis. The Company continues to expect 2024 adjusted diluted earnings per share⁽¹⁾ to grow at a low to mid-single-digit rate on a local currency basis compared to the Company's 2023 adjusted diluted earnings per share⁽¹⁾ of \$2.86.

The Company continues to expect its 2024 diluted earnings per share to be impacted by higher interest expense. The Company also expects its full year 2024 adjusted tax rate to be between 24% and 25%.

2024 Q1 Segment Results

Local Currency Revenue*

	Q1
Color	(1.7%)
Flavors & Extracts	+6.9%
Asia Pacific	+4.1%

Local Currency* Commentary:

Color Group reported lower revenue in the quarter due to lower volumes related to end market declines in certain product categories and modest customer destocking. Volume growth as a result of new sales wins and modest pricing partially offset these declines. Operating income declined due to lower volumes and higher input costs.

Flavors & Extracts Group first quarter revenue growth was driven by volume growth in natural ingredients and certain flavor product lines. Operating income improved in the quarter due to higher volumes; however, this was partially offset due to higher costs on certain agricultural inputs and raw materials.

Asia Pacific Group first quarter revenue increased primarily due to higher volumes. Operating income declined as a result of higher input costs and sales mix.

Local Currency Operating Income*

	Q1
Color	(1.8%)
Flavors & Extracts	+6.3%
Asia Pacific	(0.6%)

* Local-currency (LC) revenue and operating income are Non-GAAP metrics. Please see our GAAP to Non-GAAP Reconciliation at the end of this document.

2024 Q1 Consolidated Results

	Q1
Local Currency Revenue*	+3.8%
Local Currency Adjusted Operating Income*	+2.6%
Local Currency Adjusted Diluted EPS*	(1.3%)
Local Currency Adjusted EBITDA*	+2.2%

Q1 consolidated local currency revenue increased due to volume growth in the Flavors & Extracts and Asia Pacific groups and modest pricing favorability.

Q1 consolidated local currency adjusted operating income grew as a result of higher volumes; however, this was partially offset by continued higher input costs in certain areas and sales mix.

Q1 local currency adjusted diluted EPS declined as a result of higher interest and tax expense.
