

**UNITED STATES OF AMERICA  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549**

**FORM 10-Q**

**(Mark One)**

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)  
OF THE SECURITIES EXCHANGE ACT OF 1934**

**For the Quarterly Period Ended June 30, 2021**

**OR**

- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)  
OF THE SECURITIES EXCHANGE ACT OF 1934**

**For the transition period from \_\_\_\_\_ to \_\_\_\_\_**

**Commission File Number: 000-11486**

**CONNECTONE BANCORP, INC.**

(Exact Name of Registrant as Specified in Its Charter)

**New Jersey**  
(State or Other Jurisdiction of  
Incorporation or Organization)

**52-1273725**  
(IRS Employer  
Identification No.)

**301 Sylvan Avenue**  
**Englewood Cliffs, New Jersey 07632**  
(Address of Principal Executive Offices) (Zip Code)

**201-816-8900**  
(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading symbol	Name of each exchange on which registered
Common stock	CNOB	NASDAQ

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or emerging growth company. See definition of "large accelerated filer", "accelerated filer" "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act (check one):

- Large accelerated filer       Accelerated filer       Non-accelerated filer       Smaller reporting company   
(Do not check if smaller reporting company)      Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

**Common Stock, no par value:**  
(Title of Class)

**39,794,815 shares**  
(Outstanding as of August 6, 2021)

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 1a. Nature of Operations, Principles of Consolidation and Risk and Uncertainties**

***Nature of Operations***

ConnectOne Bancorp, Inc. (the “Parent Corporation”) is incorporated under the laws of the State of New Jersey and is a registered bank holding company. The Parent Corporation’s business currently consists of the operation of its wholly-owned subsidiary, ConnectOne Bank (the “Bank” and, collectively with the Parent Corporation and the Parent Corporation’s subsidiaries, the “Company”). The Bank’s subsidiaries include Union Investment Co. (a New Jersey investment company), Twin Bridge Investment Co. (a New Jersey investment company), ConnectOne Preferred Funding Corp. (a New Jersey real estate investment trust), Center Financial Group, LLC (a New Jersey financial services company), Center Advertising, Inc. (a New Jersey advertising company), Morris Property Company, LLC, (a New Jersey limited liability company), Volosin Holdings, LLC, (a New Jersey limited liability company), NJCB Spec-1, LLC (a New Jersey limited liability company), Port Jervis Holdings, LLC (a New Jersey limited liability company), BONJ Special Properties, LLC (a New Jersey limited liability company) and BoeFly, Inc. (a New Jersey financial technology company).

The Bank is a community-based, full-service New Jersey-chartered commercial bank that was founded in 2005. The Bank operates from its headquarters located at 301 Sylvan Avenue in the Borough of Englewood Cliffs, Bergen County, New Jersey and through its twenty-five other banking offices. Substantially all loans are secured with various types of collateral, including business assets, consumer assets and commercial/residential real estate. Each borrower’s ability to repay its loans is dependent on the conversion of assets, cash flows generated from the borrowers’ business, real estate rental and consumer wages.

The preceding unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X, and, accordingly, do not include all of the information and footnotes required by GAAP for complete financial statements. However, in the opinion of management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2021 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2021, or for any other interim period. The Company’s 2020 Annual Report on Form 10-K should be read in conjunction with these consolidated financial statements.

***Basis of Presentation***

The consolidated financial statements have been prepared in conformity with GAAP. Some items in the prior year consolidated financial statements were reclassified to conform to current presentation. Reclassifications had no effect on prior year net income or stockholders’ equity.

***Use of Estimates***

In preparing the consolidated financial statements, management has made estimates and assumptions that affect the reported amounts of assets and liabilities as of the dates of the consolidated statements of condition and that affect the results of operations for the periods presented. Actual results could differ significantly from those estimates.

***Risks and Uncertainties***

As previously disclosed, on March 11, 2020 the World Health Organization declared the outbreak of COVID-19 as a global pandemic, which continues to impact the United States and the world. On March 27, 2020, the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) was enacted to, among other things, provide emergency assistance for individuals, families and businesses affected by the COVID-19 pandemic. The COVID-19 pandemic has adversely affected, and continues to adversely affect economic activity globally, nationally and locally. Actions taken around the world to help mitigate the spread of COVID-19 include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. Although economic activity has accelerated in 2021, and the United States continues to implement a COVID-19 vaccination program, COVID-19, its variants and actions taken to mitigate the spread of it have had and may in the future have an adverse impact on the economies and financial markets of many countries and parts of the United States, including the New Jersey/New York metropolitan area in which the Company primarily operates. Although the Company has been able to continue operations while taking steps to ensure the safety of employees and customers, COVID-19 could impact the Company’s operations in the future. Federal Reserve reductions in interest rates and other effects of the COVID-19 pandemic may adversely affect the Company’s financial condition and results of operations in future periods. Although state and local governments have lifted many restrictions on conducting business, it is possible that restrictions could be reimposed. It is therefore unknown how long COVID-19 may continue to impact the economy and what the complete financial effect will be to the Company. It is reasonably possible that estimates made in the financial statements could be materially and adversely impacted in the near term as a result of these conditions, including the determination of the allowance for credit losses on loans, fair value of financial instruments, impairment of goodwill and other intangible assets and income taxes.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 1b. Authoritative Accounting Guidance**

***Adoption of New Accounting Standards in 2021***

Effective January 1, 2021, the Company adopted Accounting Standards Update (“ASU”) 2016-13 “ASU 2016-13 Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments”, which replaced the prior incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss (“CECL” or the “CECL Standard”). The measurement of expected credit losses under the CECL Standard is applicable to financial assets measured at amortized cost, including portfolio loans and investment securities classified as held-to-maturity (“HTM”). It also applies to off-balance sheet credit exposures including loan commitments, standby letters of credit, financial guarantees and other similar instruments. In addition, the CECL Standard changes the accounting for investment securities classified as (“AFS”), including a requirement that estimated credit losses on AFS securities be presented as an allowance rather than as a direct write-down of the carrying balance of securities which we do not intend to sell, or believe that it is more likely than not, that we will be required to sell.

The Company adopted the CECL Standard using the modified retrospective method for all financial assets measured at amortized cost and off-balance sheet credit exposures. As discussed further below, purchased credit deteriorated assets were measured on a prospective basis in accordance with the CECL Standard and all purchase credit impaired loans as of December 31, 2020 were considered purchased credit deteriorated loans upon adoption. Results for reporting periods beginning after January 1, 2021 are presented under the CECL Standard while prior period amounts continue to be reported in accordance with previously applicable accounting guidance. The adoption of the CECL Standard resulted in the following adjustments to our financial statements as of January 1, 2021 (dollars in thousands):

	Change in Consolidated Statement of Condition	Tax Effect	Change to Retained Earnings from Adoption of CECL
Allowance for credit losses (“ACL”) (loans)	\$ 1,350	\$ 406	\$ 944
Adjustment related to purchased credit-impaired loan marks <sup>(1)</sup>	5,207	-	-
<b>Total ACL - loans</b>	<b>6,557</b>	<b>406</b>	<b>944</b>
ACL (unfunded credit commitments)	2,833	852	1,981
<b>Total impact of CECL adoption</b>	<b>\$ 9,390</b>	<b>\$ 1,258</b>	<b>\$ 2,925</b>

(1) This amounts represents a gross-up of the balance sheet related to nonaccretable credit marks of purchased credit-impaired loans resulting from adoption of CECL on January 1, 2021.

Loans designated as purchased credit impaired loans (“PCI”) and accounted for under Accounting Standards Codification (“ASC”) 310-30 were designated as purchased with credit deterioration loans (“PCD”). In accordance with the CECL Standard, the Company did not reassess whether PCI loans met the criteria of PCD loans as of the date of adoption and determined all PCI loans were PCD loans. The Company recorded an increase to the balance of PCD loans and an increase to the ACL for loans of \$5.2 million, which represented the expected credit losses for PCD loans. The remaining non-credit discount (based on the adjusted amortized cost basis) will be accreted into interest income at the effective interest rate as of January 1, 2021 over the remaining estimated life of the loans. Also, in accordance with the CECL Standard, the Company did not reassess whether modifications to individual acquired financial assets were troubled debt restructurings (“TDRs”) as of the date of adoption.

ACL for loans: The ACL for loans is a valuation account that is deducted from the amortized cost basis of portfolio loans to present the net amount expected to be collected on portfolio loans over their contractual life. Loans are charged-off against the allowance when we believe the uncollectibility of a loan balance has been confirmed, and the expected recoveries do not exceed the aggregate of amounts previously charged-off or expected to be charged-off.

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 1b. Authoritative Accounting Guidance – (continued)**

The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. The Company currently utilizes a one-year reasonable and supportable forecast period followed by a one-year period over which estimated losses revert to historical loss experience for the remaining life of the loan. The measurement of expected credit loss under the CECL methodology is applicable to financial assets measured at amortized cost, including loans and held to maturity investments and it also applies to certain off-balance sheet credit exposures.

The ACL for loans is measured on a collective (pool) basis when similar risk characteristics exist. Generally, for all other loan types, the estimated expected credit loss is also calculated at the loan level and pool assignments are only utilized for aggregating the allowance estimates of similar loan types for financial statement disclosure purposes. Loan segments have unique risk characteristics with respect to credit quality and are as follows:

- The repayment of commercial loans is generally dependent on the creditworthiness and cash flow of borrowers, and if applicable, guarantors, which may be negatively impacted by adverse economic conditions. While the majority of these loans are secured, collateral type, marketing, coverage, valuation and monitoring is not as uniform as in other portfolio classes and recovery from liquidation of such collateral may be subject to greater variability.
- Payment on commercial mortgages is driven principally by operating results of the managed properties or underlying business and secondarily by the sale or refinance of such properties. Both primary and secondary sources of repayment, and value of the properties in liquidation, may be affected to a greater extent by adverse conditions in the real estate market or the economy in general.
- Properties underlying construction, land and land development loans often do not generate sufficient cash flows to service debt and thus repayment is subject to the ability of the borrower and, if applicable, guarantors, to complete development or construction of the property and carry the project, often for extended periods of time. As a result, the performance of these loans is contingent upon future events whose probability at the time of origination is uncertain.
- The ability of borrowers to service debt in the residential and consumer loan portfolios is generally subject to personal income which may be impacted by general economic conditions, such as increased unemployment levels. These loans are predominately collateralized by first and/or second liens on single family properties. If a borrower cannot maintain the loan, the Company's ability to recover against the collateral in sufficient amount and in a timely manner may be significantly influenced by market, legal and regulatory conditions.
- The Company considers loan classes and loan segments to be one and the same.

**Individually Analyzed Loans:** The Company will evaluate individual instruments for expected credit losses when those instruments do not share similar risk characteristics with instruments evaluated using a collective (pooled) basis. Loans will transition from defined segments for individual analysis when credit characteristics, or risk traits, change in a material manner. A loan is considered for individual analysis when, based on current information and events, it is probable that the Bank will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining individual analysis include payment status and the probability of collecting scheduled principal and interest payments when due. Loans for which the terms have been modified as a concession to the borrower due to the borrower experiencing financial difficulties are considered TDRs and are classified as individually analyzed. Loans considered to be TDRs can be categorized as nonaccrual or performing. All PCD loans will be considered as individual analyzed. Generally, individually analyzed loans consist of nonaccrual loans and performing troubled debt restructurings. Of this group of loans, loans of \$250,000 and over are individually evaluated, while loans with balances less than \$250,000 are collectively evaluated, and, accordingly, are not separately identified for analysis or disclosures. Instruments will not be included in both collective and individual analysis. Individual analysis will establish a specific reserve for instruments in scope.

For collateral dependent loans, when it is determined that a foreclosure is probable, the ACL will be determined on a loan level basis using the fair value of the collateral as of the reporting date, less estimated disposition costs ("net fair value"), which will ensure that the credit loss is not delayed until the time at which the actual foreclosure takes place. In the event that this fair value is less than the amortized cost basis of these specific loans, we will recognize the difference between the net fair value at the reporting date and the amortized cost basis in the ACL. If the fair value of the collateral has increased as of the ACL evaluation date, the increase in the fair value of the collateral is reflected through a reduction in the ACL. ACL adjustments for estimated disposition costs are not appropriate when the repayment of a collateral-dependent loan is expected from the operation of the collateral. If repayment is based upon future expected cash flows, the present value of the expected future cash flows discounted at the loan's original effective interest rate is compared to the carrying value of the loan, and any shortfall is recorded as the allowance for credit losses. The effective interest rate used to discount expected cash flows is adjusted to incorporate expected prepayments, if applicable.

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 1b. Authoritative Accounting Guidance – (continued)**

For charge-off and recoveries we will generally charge-off a loan balance after an analysis is completed which indicates that the collectability of the full principal is in doubt. Charge-offs are charged against the allowance in the period in which the loans are deemed to be uncollectible. Any expected future recoveries of amounts which were previously charged-off or expected to be charged-off will be included in the ACL, as the recoveries represent a component of the net amount expected to be collected. Expected recoveries in the ACL shall not exceed amounts previously charged-off or expected to be charged-off.

Investment Securities: Securities available-for-sale are carried at fair value, with unrealized holding gains and losses reported in comprehensive income, net of tax. Interest income includes amortization of purchase premiums or discounts. Premiums and discounts on securities are generally amortized using the level-yield method without estimating prepayments, except for mortgage-backed securities, where prepayment rates are estimated. Premiums on callable investment securities are amortized to their earliest call date. Gains and losses on sales of securities are recorded on the trade date and determined using the specific identification method.

ACL - on investment securities classified as available-for-sale: For available-for-sale investment securities which are in an unrealized loss position, the Company first assess whether we intend to sell, or it is more likely than not, that we will be required to sell the security before recovery of the amortized cost basis. If either of the criteria is met, the amortized cost basis of the security is written down to fair value through income. For available-for-sale investment securities that do not meet the aforementioned criteria, we evaluate whether the decline in fair value has resulted from an actual or estimated credit loss event or other factors. In making this assessment, we consider the extent to which fair value is less than amortized cost, changes to the rating of the security, and adverse conditions specifically related to the security, among other factors. If this assessment indicates that a credit loss is likely, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, an ACL is recorded for the estimated credit loss, limited by the amount that the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an ACL is recognized in other comprehensive income.

Changes in the ACL are recorded as provision for (or reversal of) credit loss expense. Losses are charged against the allowance when we believe the uncollectibility of an available-for-sale security has been confirmed or if either of the criteria regarding intent or requirement to sell is met.

ASU No. 2021-03, “*Intangibles – Goodwill and Other (Topic 350)*.” ASU 2021-03 requires an entity to identify and evaluate goodwill impairment triggering events when they occur to determine whether it is more likely than not that the fair value of a reporting unit (or entity, if the entity has elected the accounting alternative for amortizing goodwill and chosen that option) is less than its carrying amount. If an entity determines that it is more likely than not that the goodwill is impaired. It must test goodwill for impairment using the triggering event date as the measurement date. An entity is required to disclose the amount assigned to goodwill in total and by major business combination, or by reorganization event resulting in fresh-start reporting. Also, the weighted average amortization period in total and the amortization period by major business combination, or by reorganization event resulting in fresh-start reporting. ASU 2021-03 was effective for the Company on January 1, 2021 and did not have a significant impact on our consolidated financial statement.

ASU 2018-14, “*Compensation—Retirement Benefits—Defined Benefit Plans—General (Subtopic 715-20): Disclosure Framework—Changes to the Disclosure Requirements for Defined Benefit Plans*.” These amendments modify the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. ASU 2018-14 was effective for the Company as of January 1, 2021 and did not have a significant impact on our consolidated financial statements.

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 2. Earnings per Common Share**

Financial Accounting Standards Board Accounting Standards Codification (“FASB ASC”) No. 260-10-45 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share (“EPS”). The restricted stock awards granted by the Company contain non-forfeitable rights to dividends and therefore are considered participating securities. The two-class method for calculating basic EPS excludes dividends paid to participating securities and any undistributed earnings attributable to participating securities.

Earnings per common share have been computed based on the following:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
	(in thousands, except for per share data)			
Net income	\$ 32,219	\$ 14,832	\$ 65,218	\$ 20,862
Earnings allocated to participating securities	(81)	(69)	(176)	(94)
Income attributable to common stock	<u>\$ 32,138</u>	<u>\$ 14,763</u>	<u>\$ 65,042</u>	<u>\$ 20,768</u>
Weighted average common shares outstanding, including participating securities	39,781	39,640	39,786	39,603
Weighted average participating securities	(100)	(104)	(107)	(123)
Weighted average common shares outstanding	39,681	39,536	39,679	39,480
Incremental shares from assumed conversions of options, performance units and non-participating restricted shares	192	76	214	112
Weighted average common and equivalent shares outstanding	<u>39,873</u>	<u>39,612</u>	<u>39,893</u>	<u>39,592</u>
Earnings per common share:				
Basic	\$ 0.81	\$ 0.37	\$ 1.64	\$ 0.53
Diluted	0.81	0.37	1.63	0.52

There were no antidilutive share equivalents as of June 30, 2021 and June 30, 2020.

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 3. Securities Available-for-Sale**

The Company's investment securities are all classified as available-for-sale as of June 30, 2021 and December 31, 2020. Investment securities available-for-sale are reported at fair value with unrealized gains or losses included in stockholders' equity, net of tax. Accordingly, the carrying value of such securities reflects their fair value as of June 30, 2021 and December 31, 2020. Fair value is based upon either quoted market prices, or in certain cases where there is limited activity in the market for a particular instrument, assumptions are made to determine their fair value. See Note 6 of the Notes to Consolidated Financial Statements for a further discussion.

The following tables present information related to the Company's portfolio of securities available-for-sale as of June 30, 2021 and December 31, 2020.

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Allowance for Investment Credit Losses

**Note 3. Securities Available-for-Sale – (continued)**

Investment securities having a carrying value of approximately \$178.0 million and \$107.6 million as of June 30, 2021 and December 31, 2020, respectively, were pledged to secure public deposits, borrowings, repurchase agreements, Federal Reserve Discount Window borrowings and Federal Home Loan Bank advances and for other purposes required or permitted by law. As of June 30, 2021 and December 31, 2020, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders' equity.

The following table presents information for investments in securities available-for-sale as of June 30, 2021, based on scheduled maturities. Actual maturities can be expected to differ from scheduled maturities due to prepayment or early call options of the issuer. Securities not due at a single maturity date are shown separately.

	June 30, 2021	
	Amortized Cost	Fair Value

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 3. Securities Available-for-Sale – (continued)**

On January 1, 2021, the Company adopted ASU 2016-13 and implemented the CECL methodology for allowance for credit losses on its investment securities available-for-sale. The new CECL methodology replaces the other-than-temporary impairment model that previously existed. The Company did not have a CECL day 1 impact attributable to its investment securities portfolio and did not have an allowance for credit losses as of June 30, 2021. The Company has elected to exclude accrued interest from the amortized cost of its investment securities available-for-sale. Accrued interest receivable for investment securities available for sale as of June 30, 2021 and December 31, 2020, totaled \$1.4 million and \$1.7 million, respectively.

The Company evaluates securities in an unrealized loss position for impairment related to credit losses on at least a quarterly basis. Securities in unrealized loss positions are first assessed as to whether we intend to sell, or if it is more likely than not that we will be required to sell the security before recovery of its amortized cost basis. If one of the criteria is met, the security's amortized cost basis is written down to fair value through current earnings. For securities that do not meet these criteria, the Company evaluates whether the decline in fair value resulted from credit losses or other factors. If this assessment indicates that a credit loss exists, we compare the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis for the security, a credit loss exists and an allowance for credit losses is recorded, limited to the amount that the fair value of the security is less than its amortized cost basis. Unrealized losses on asset backed securities and state and municipal securities have not been recognized into income because the issuers are of high credit quality, we do not intend to sell and it is likely that we will not be required to sell the securities prior to their anticipated recovery. The decline in fair value is largely due to changes in interest rates and other market conditions. The issuers continue to make timely principal and interest payments on the securities. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of applicable taxes. No allowance for credit losses for available-for-sale securities was recorded as of June 30, 2021.

Federal agency obligations, residential mortgage backed pass-through securities and commercial mortgage back pass-through securities are issued by U.S. Government agencies and U.S. Government sponsored enterprises. Although a government guarantee exists on these investments, these entities are not legally backed by the full faith and credit of the federal government, and the current support they receive is subject to a cap as part of the agreement entered into in 2008. Nonetheless, at this time we do not foresee any set of circumstances in which the government would not fund its commitments on these investments as the issuers are an integral part of the U.S. housing market in providing liquidity and stability. Therefore, we concluded that a zero-allowance approach for these investment securities is appropriate.

**Note 4. Derivatives**

The Company utilizes interest rate swap agreements as part of its asset liability management strategy to help manage its interest rate risk position. The notional amount of the interest rate swap does not represent amounts exchanged by the parties. The amount exchanged is determined by reference to the notional amount and the other terms of the individual interest rate swap agreements. Interest rate swaps were entered into on April 13, 2017, January 1, 2020 and March 3, 2020 each with a respective notional amount of \$25.0 million and were designated as a cash flow hedge of a Federal Home Loan Bank advance. In addition, an interest rate swap was entered into on August 6, 2019, with a notional amount of \$50.0 million and was designated as a cash flow hedge of a Federal Home Loan Bank advance. The swaps were determined to be fully effective during the period presented and therefore no amount of ineffectiveness has been included in net income. Therefore, the aggregate fair value of the swaps is recorded in other assets (liabilities) with changes in fair value recorded in other comprehensive income (loss). The amount included in accumulated other comprehensive income (loss) would be reclassified to current earnings should the hedges no longer be considered effective. The Company expects the hedges to remain fully effective during the remaining term of the swaps.

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 4. Derivatives – (continued)**

Summary information about the interest rate swaps designated as cash flow hedges as of June 30, 2021, December 31, 2020 and June 30, 2020 are presented in the following table.

	June 30, 2021	December 31, 2020	June 30, 2020
	(dollars in thousands)		
Notional amount	\$ 125,000	\$ 175,000	\$ 200,000
Weighted average pay rates	1.66%	1.85%	1.70%
Weighted average receive rates	0.27%	0.92%	1.37%
Weighted average maturity	0.5 years	0.8 years	1.2 years
Fair value	\$ (922)	\$ (2,119)	\$ (3,277)

Interest expense recorded on these swap transactions totaled approximately \$584 thousand and \$1.2 million during the three and six months ended June 30, 2021, respectively, compared to \$318 thousand and \$311 thousand during the three and six months ended June 30, 2020, respectively, and is reported as a component of interest expense on FHLB Advances.

**Cash Flow Hedge**

The following table presents the net losses recorded in other comprehensive income and the Consolidated Statements of Income relating to the cash flow derivative instruments for the following periods:

	Amount of (loss) gain recognized in OCI (Effective Portion)	Three Months Ended June 30, 2021	
		Amount of loss (gain) reclassified from OCI to interest income (dollars in thousands)	Amount of gain recognized in other Noninterest income (Ineffective Portion)
Interest rate contracts	\$ (42)	\$ 584	\$ -
	Amount of (loss) gain recognized in OCI (Effective Portion)	Three Months Ended June 30, 2020	
		Amount of loss (gain) reclassified from OCI to interest income (dollars in thousands)	Amount of gain recognized in other Noninterest income (Ineffective Portion)
Interest rate contracts	\$ (566)	\$ 318	\$ -

Interest rate contracts	\$ (3,315)	\$ 311	\$ -

The following table reflects the cash flow hedges included in the consolidated statements of condition as of June 30, 2021 and December 31, 2020:

	June 30, 2021		December 31, 2020	
	Notional Amount	Fair Value	Notional Amount	Fair Value
	(dollars in thousands)			
Interest rate swaps related to FHLB advances included in liabilities	\$ 125,000	\$ (922)	\$ 175,000	\$ (2,119)

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 5. Loans and the Allowance for Credit Losses**

**Loans Receivable** - As of and prior to December 31, 2020, loans receivable were accounted for under the incurred loss model. As of January 1, 2021, portfolio loans are accounted for under the expected loss model. Accordingly, some of the information presented is not comparable from period to period. See Note 1b. "Authoritative Accounting Guidance - Adoption of New Accounting Standards" for additional information. The following table sets forth the composition of the Company's loan portfolio segments, including net deferred fees, as of June 30, 2021 and December 31, 2020:

	June 30, 2021	December 31, 2020
(dollars in thousands)		
Commercial <sup>(1)</sup>	\$ 1,402,697	\$ 1,521,967
Commercial real estate	4,138,518	3,783,550
Commercial construction	587,121	617,747
Residential real estate	286,907	322,564
Consumer	6,355	1,853
Gross loans	6,421,598	6,247,681
Net deferred loan fees	(13,694)	(11,374)
Total loans receivable	<u>\$ 6,407,904</u>	<u>\$ 6,236,307</u>

(1) Included in commercial loans as of June 30, 2021 and December 31, 2020 were PPP loans of \$326.8 million and \$397.5 million, respectively.

As of June 30, 2021 and December 31, 2020, loan balances of approximately \$2.7, were pledged to secure borrowings from the FHLB of New York.

**Loans held-for-sale** - The following table sets forth the composition of the Company's loans held-for-sale portfolio as of June 30, 2021 and December 31, 2020:

	June 30, 2021	December 31, 2020
(dollars in thousands)		
Commercial real estate	\$ 5,298	\$ 1,990
Residential real estate	861	2,720
Total carrying amount	<u>\$ 6,159</u>	<u>\$ 4,710</u>

**Loans Receivable on Nonaccrual Status** - The following tables present nonaccrual loans with an ACL as of June 30, 2021 and nonaccrual loans without an ACL as of June 30, 2021:

	Nonaccrual Loans with an ACL	Nonaccrual loans without an ACL	Total
(dollars in thousands)			
Commercial	\$ 28,009	\$ 3,074	\$ 31,083
Commercial real estate	2,722	13,283	16,005
Commercial construction	2,934	1,831	4,765
Residential real estate	-	4,360	4,360
Consumer	-	-	-
Total	<u>\$ 33,665</u>	<u>\$ 22,548</u>	\$ 56,213

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 5. Loans and the Allowance for Credit Losses – (continued)**

The following tables present total nonaccrual loans included in loans receivable by loan class as of December 31, 2020 (dollars in thousands):

	December 31, 2020
Commercial	\$ 33,019
Commercial real estate	10,111
Commercial construction	14,015
Residential real estate	4,551
Consumer	-
Total nonaccrual loans	<u>\$ 61,696</u>

Nonaccrual loans and loans 90 days or greater past due and still accruing include both smaller balance homogeneous loans that are collectively evaluated for impairment and loans individually evaluated for impairment.

**Credit Quality Indicators** - The Company continuously monitors the credit quality of its loans receivable. In addition to its internal monitoring, the Company utilizes the services of a third-party loan review firm to periodically validate the credit quality of its loans receivable on a sample basis. Credit quality is monitored by reviewing certain credit quality indicators. Assets classified “Pass” are deemed to possess average to superior credit quality, requiring no more than normal attention. Assets classified as “Special Mention” have generally acceptable credit quality yet possess higher risk characteristics/circumstances than satisfactory assets. Such conditions include strained liquidity, slow pay, stale financial statements, or other conditions that require more stringent attention from the lending staff. These conditions, if not corrected, may weaken the loan quality or inadequately protect the Company’s credit position at some future date. Assets are classified “Substandard” if the asset has a well-defined weakness that requires management’s attention to a greater degree than for loans classified special mention. Such weakness, if left uncorrected, could possibly result in the compromised ability of the loan to perform to contractual requirements. An asset is classified as “Doubtful” if it is inadequately protected by the net worth and/or paying capacity of the obligor or of the collateral, if any, that secures the obligation. Assets classified as doubtful include assets for which there is a “distinct possibility” that a degree of loss will occur if the inadequacies are not corrected.

**Note 5. Loans and the Allowance for Credit Losses – (continued)**

We evaluate whether a modification, extension or renewal of a loan is a current period origination in accordance with GAAP. Generally, loans up for renewal are subject to a full credit evaluation before the renewal is granted and such loans are considered current period originations for purpose of the table below. As of June 30, 2021, our loans based on year of origination and risk designation is as follows (dollars in thousands):

	Term loans amortized cost basis by origination year					Prior	Resolving Loans	Total Gross Loans

**Note 5. Loans and the Allowance for Credit Losses – (continued)**

Activity in the Company's ACL for loans for the three months ended and six months ended June 30, 2021 is summarized in the table below. The CECL Day 1 row presents adjustments recorded through retained earnings to adopt the CECL standard and the increase to the ACL for loans associated with nonaccretable purchase accounting marks on loans that were classified as PCI as of December 31, 2020.

	Three Months Ended June 30, 2021						Unallocated	Total
	Commercial	Commercial real estate	Commercial construction	Residential real estate	Consumer			
Balance as of March 31, 2021	\$ 26,435	\$ 43,897	\$ 5,521	\$ 4,704	\$ 11	\$ -	\$ 80,568	
Charge-offs	(50)	(155)	-	(7)	-	-	(212)	
Recoveries	13	-	-	-	1	-	14	
(Reversal of) provision for credit losses - loans	(831)	73	(594)	(331)	(3)	-	(1,686)	
Balance as of June 30, 2021	<u>\$ 25,567</u>	<u>\$ 43,815</u>	<u>\$ 4,927</u>	<u>\$ 4,366</u>	<u>\$ 9</u>	<u>\$ -</u>	<u>\$ 78,684</u>	

	Six Months Ended June 30, 2021						Unallocated	Total
	Commercial	Commercial real estate	Commercial construction	Residential real estate	Consumer			
Balance as of December 31, 2020	\$ 28,443	\$ 39,330	\$ 8,194	\$ 2,687	\$ 4	\$ 568	\$ 79,226	
Day 1 effect of CECL	(4,225)	9,605	(961)	2,697	9	(568)	6,557	
Balance as of January 1, 2021 as adjusted for changes in accounting principle	24,218	48,935	7,233	5,384	13	-	85,783	
Charge-offs	(50)	(155)	-	(7)	-	-	(212)	
Recoveries	73	-	-	-	2	-	75	
Provision for (reversal of) credit losses - loans	1,326	(4,965)	(2,306)	(1,011)	(6)	-	(6,962)	
Balance as of June 30, 2021	<u>\$ 25,567</u>	<u>\$ 43,815</u>	<u>\$ 4,927</u>	<u>\$ 4,366</u>	<u>\$ 9</u>	<u>\$ -</u>	<u>\$ 78,684</u>	

On January 1, 2021, the Company adopted CECL, which replaced the incurred loss method we used in prior periods for determining the provision for credit losses and the ACL. Under CECL, we record an expected loss of all cash flows we do not expect to collect at the inception of the loan. The adoption of CECL resulted in an increase in our ACL for loans of \$6.6 million, which did not impact our consolidated income statement. We recorded a reversal of credit losses for loans of \$1.7 million and \$7.0 million during the three and six months ended June 30, 2021, respectively, utilizing the CECL methodology, which was the result of an improved macroeconomic environment from January 1, 2021, the day of adoption.

**Note 5. Loans and the Allowance for Credit Losses – (continued)****Troubled Debt Restructurings**

Loans are considered to have been modified in a troubled debt restructuring (“TDRs”) when, except as discussed below, due to a borrower’s financial difficulties, the Company makes certain concessions to the borrower that it would not otherwise consider. Modifications may include interest rate reductions, principal or interest forgiveness, forbearance, and other actions intended to minimize economic loss and to avoid foreclosure or repossession of collateral. Generally, a nonaccrual loan that has been modified in a troubled debt restructuring remains on nonaccrual status for a period of six months to demonstrate that the borrower is able to meet the terms of the modified loan. However, performance prior to the modification, or significant events that coincide with the modification, are included in assessing whether the borrower can meet the new terms and may result in the loan being returned to accrual status at the time of loan modification or after a shorter performance period. If the borrower’s ability to meet the revised payment schedule is uncertain, the loan remains on nonaccrual status.

As of June 30, 2021, there were no commitments to lend additional funds to borrowers whose loans were on nonaccrual status or were contractually past due 90 days or greater and still accruing interest, or whose terms have been modified in troubled debt restructurings.

As of June 30, 2021, TDRs totaled \$62.4 million, of which \$29.4 million were on nonaccrual status and \$33.0 million were performing under their restructured terms. As of December 31, 2020, TDRs totaled \$49.4 million, of which \$25.7 million were on nonaccrual status and \$23.7 million were performing under their restructured terms. The Company has allocated \$9.2 million and \$47 thousand of specific allowance related to TDRs for the six months ended June 30, 2021 and June 30, 2020, respectively.

The following table presents loans by class modified as TDRs that occurred during the six months ended June 30, 2021:

	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
(dollars in thousands)			
Troubled debt restructurings:			
Commercial	3	\$ 631	\$ 631
Commercial real estate	3	8,603	8,603
Commercial construction	1	1,641	1,641
Residential real estate	3	1,758	1,758
Total	<u>10</u>	<u>\$ 12,633</u>	<u>\$ 12,633</u>

The ten loans modified as TDRs during the six months ended June 30, 2021 included nine (9) maturity extensions and, one commercial real estate loan which was a recast of a nonaccrual credit.

There were no loans modified as TDRs during the six months ended June 30, 2020. There were no TDRs for which there was a payment default within twelve months following the modification during the three months ended and six months ended June 30, 2021 and June 30, 2020.

In March 2020, various regulatory agencies, including the Board of Governors of the Federal Reserve System and the Federal Deposit Insurance Corporation, (“the agencies”) issued an interagency statement on loan modifications and reporting for financial institutions working with customers affected by COVID-19. The interagency statement was effective immediately and impacted accounting for loan modifications. The agencies confirmed with the staff of the FASB that short-term modifications made on a good faith basis in response to COVID-19 to borrowers who were current prior to any relief, are not to be considered TDRs. This includes short-term (e.g., three to six months) modifications such as payment deferrals, fee waivers, extensions of repayment terms, or other delays in payment that are insignificant. Additionally, the statement allows for the Company to extend deferrals for an additional term at the option of the Company. Provisions of the CARES Act largely mirrored the provisions of the interagency statement, providing that modified loans would not be considered TDR’s if they were performing at year-end 2019, and the other conditions set forth in the interagency statement were met. Borrowers considered current are those that are less than 30 days past due on their contractual payments at the time a modification program is implemented or at year-end 2019. As of June 30, 2021, the Bank had 79 deferred loans totaling approximately \$100 million, compared to 113 deferred loans totaling approximately \$207 million as of December 31, 2020.

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 5. Loans and the Allowance for Credit Losses – (continued)**

The following table sets forth the composition of these loans by loan segments as of June 30, 2021:

	Number of Loans	Unpaid Principal Balance
	(dollars in thousands)	
Commercial	59	\$ 17,260
Commercial real estate	20	82,760
Total	<u>79</u>	<u>\$ 100,020</u>

As of June 30, 2021, there were no deferred loans that were delinquent or on nonaccrual status. As of June 30, 2021, \$62.0 million of deferred loans were risk rated “special mention” or worse. The Company evaluates its deferred loans after the initial deferral period and will either return the deferred loan to its original loan terms or the loan will be reassessed at that time to determine if a further deferment should be granted and if a downgrade in risk rating is appropriate.

**ACL for Unfunded Commitments**

The Company has recorded an ACL for unfunded credit commitments, which was recorded in other liabilities. The provision is recorded within the (reversal of) provision for credit losses on the Company’s income statement. The following table presents the ACL for unfunded commitments for the three and six months ended June 30, 2021 (dollars in thousands):

	Three Months Ended June 30, 2021
Balance as of beginning of period	\$ 2,343
Provision for credit losses - unfunded commitments	37
Balance as of end of period	<u>\$ 2,380</u>

  

	Six Months Ended June 30, 2021
Balance as of beginning of period	\$ -
Day 1 Effect of CECL	2,833
Reversal of credit losses - unfunded commitments	(453)
Balance as of end of period	<u>\$ 2,380</u>

**Components of (Reversal of) Provision for Credit Losses**

The following table summarizes the (reversal of) provision for credit losses for the three and six months ended June 30, 2021 (dollars in thousands):

	Three Months Ended June 30, 2021	Six Months Ended June 30, 2021
(Reversal of) provision for credit losses - loans	\$ (1,686)	\$ (6,962)
(Reversal of) provision for credit losses - unfunded commitments	37	(453)
(Reversal of) provision for credit losses	<u>\$ (1,649)</u>	<u>\$ (7,415)</u>

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 6. Fair Value Measurements and Fair Value of Financial Instruments**

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

*Level 1:* Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

*Level 2:* Quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

*Level 3:* Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (for example, supported with little or no market activity).

An asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The following information should not be interpreted as an estimate of the fair value of the entire Company since a fair value calculation is only provided for a limited portion of the Company's assets and liabilities. Due to a wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparisons between the Company's disclosures and those of other companies may not be meaningful.

**Assets and Liabilities Measured at Fair Value on a Recurring Basis**

The following methods and assumptions were used to estimate the fair values of the Company's assets measured at fair value on a recurring basis as of June 30, 2021 and December 31, 2020:

**Securities Available-for-Sale and Equity Securities:** Where quoted prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 inputs include securities that have quoted prices in active markets for identical assets. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows. Examples of instruments which would generally be classified within Level 2 of the valuation hierarchy include municipal bonds and certain agency collateralized mortgage obligations. In certain cases where there is limited activity in the market for a particular instrument, assumptions must be made to determine the fair value of the instruments and these are classified as Level 3. When measuring fair value, the valuation techniques available under the market approach, income approach and/or cost approach are used. The Company's evaluations are based on market data and the Company employs combinations of these approaches for its valuation methods depending on the asset class.

**Derivatives:** The fair value of derivatives is based on valuation models using observable market data as of the measurement date (level 2). Our derivatives are traded in an over-the-counter market where quoted market prices are not always available. Therefore, the fair values of derivatives are determined using quantitative models that utilize multiple market inputs. The inputs will vary based on the type of derivative, but could include interest rates, prices and indices to generate continuous yield or pricing curves, prepayment rate, and volatility factors to value the position. The majority of market inputs are actively quoted and can be validated through external sources, including brokers, market transactions and third-party pricing services.

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 6. Fair Value Measurements and Fair Value of Financial Instruments – (continued)**

For financial assets and liabilities measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used as of June 30, 2021 and December 31, 2020 are as follows:

	June 30, 2021

There were no transfers between Level 1 and Level 2 during the six months ended June 30, 2021 and during the year ended December 31, 2020.

**Assets Measured at Fair Value on a Nonrecurring Basis**

The Company may be required periodically to measure certain assets at fair value on a nonrecurring basis in accordance with GAAP. These adjustments to fair value usually result from the application of lower of cost or fair value accounting or impairment write-downs of individual assets. The following methods and assumptions were used to estimate the fair values of the Company's assets measured at fair value on a nonrecurring basis as of June 30, 2021 and December 31, 2020.

**Loans Held-for-Sale:** Residential mortgage loans, originated and intended for sale in the secondary market, are carried at the lower of aggregate cost or estimated fair value as determined by outstanding commitments from investors. For these loans originated and intended for sale, gains and losses on loan sales (sale proceeds minus carrying value) are recorded in other income and direct loan origination costs and fees are deferred at origination of the loan and are recognized in other income upon sale of the loan. Management obtains quotes or bids on all or parts of these loans directly from the purchasing financial institutions (Level 2).

Other loans held-for-sale are carried at the lower of aggregate cost or estimated fair value. Fair value of these loans is determined based on the terms of the loan, such as interest rate, maturity date, reset term, as well as sales of similar assets (Level 3).

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 6. Fair Value Measurements and Fair Value of Financial Instruments – (continued)**

Collateral Dependent Loans: The Company may record adjustments to the carrying value of loans based on fair value measurements, generally as partial charge-offs of the uncollectible portions of these loans. These adjustments also include certain impairment amounts for collateral dependent loans calculated in accordance with GAAP. Impairment amounts are generally based on the fair value of the underlying collateral supporting the loan and, as a result, the carrying value of the loan less the calculated impairment amount applicable to that loan does not necessarily represent the fair value of the loan. Real estate collateral is valued using independent appraisals or other indications of value based on recent comparable sales of similar properties or assumptions generally observable by market participants. However, due to the substantial judgment applied and limited volume of activity as compared to other assets, fair value is based on Level 3 inputs. Estimates of fair value used for collateral supporting commercial loans generally are based on assumptions not observable in the marketplace and are also based on Level 3 inputs.

For assets measured at fair value on a nonrecurring basis, the fair value measurements as of June 30, 2021 and December 31, 2020 are as follows:

Assets measured at fair value on a nonrecurring basis:	June 30, 2021	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Collateral dependent loans:				
Commercial	\$ 12,928	\$ -	\$ -	\$ 12,928
Commercial real estate	1,902	-	-	1,902
Commercial construction	2,500	-	-	2,500
Residential real estate	2,033	-	-	2,033

Assets measured at fair value on a nonrecurring basis:	December 31, 2020	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Impaired loans:				
Commercial	\$ 10,751	\$ -	\$ -	\$ 10,751
Commercial real estate	1,393	-	-	1,393

Collateral dependent loans – Collateral dependent loans as of June 30, 2021 that required a valuation allowance were \$40.0 million with a related valuation allowance of \$20.6 million compared to \$26.5 million with a related valuation allowance of \$14.3 million as of December 31, 2020.

**Assets Measured With Significant Unobservable Level 3 Inputs**

*Recurring basis*

The tables below present a reconciliation of all assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the six months ended June 30, 2021 and for the year ended December 31, 2020:

	Municipal Securities (dollars in thousands)
Balance as of December 31, 2020	\$ 8,844
Principal paydowns	(139)
Balance as of June 30, 2021	<u>\$ 8,705</u>

	Municipal Securities (dollars in thousands)
Balance as of December 31, 2019	\$ 9,114
Principal paydowns	(270)
Balance as of December 31, 2020	<u>\$ 8,844</u>

The following methods and assumptions were used to estimate the fair values of the Company's assets measured at fair value on a recurring basis as of June 30, 2021 and December 31, 2020. The table below provides quantitative information about significant unobservable inputs used in fair value measurements within Level 3 hierarchy.

June 30, 2021

	Fair Value	Valuation Techniques (dollars in thousands)	Unobservable Input	Rate
Securities available-for-sale:				
Municipal securities	\$ 8,705	Discounted cash flows	Discount rate	2.9%

December 31, 2020

	Fair Value	Valuation Techniques (dollars in thousands)	Unobservable Input	Rate
Securities available-for-sale:				
Municipal securities	\$ 8,844	Discounted cash flows	Discount rate	2.9%

**Note 6. Fair Value Measurements and Fair Value of Financial Instruments – (continued)**

As of June 30, 2021 the fair value measurements presented are consistent with Topic 820, *Fair Value Measurement*, in which fair value represents exit price. The following presents the carrying amount, fair value, and placement in the fair value hierarchy of the Company's financial instruments as of June 30, 2021 and December 31, 2020:

	Carrying Amount	Fair Value	Fair Value Measurements		
			Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
(dollars in thousands)

**(unaudited)**

**Note 6. Fair Value Measurements and Fair Value of Financial Instruments – (continued)**

The fair value of commitments to originate loans is estimated using the fees currently charged to enter into similar agreements, considering the remaining terms of the agreements and the present creditworthiness of the counterparties. For fixed-rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair values of letters of credit and lines of credit are based on fees currently charged for similar agreements or on the estimated cost to terminate or otherwise settle the obligations with the counterparties at the reporting date. The fair value of commitments to originate loans is immaterial and not included in the tables above.

Changes in assumptions or estimation methodologies may have a material effect on these estimated fair values.

Fair value estimates are based on existing balance sheet financial instruments, without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. For example, there are certain significant assets and liabilities that are not considered financial assets or liabilities, such as deferred taxes, premises and equipment, and goodwill. In addition, the tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in the estimates.

Management believes that reasonable comparability between financial institutions may not be likely, due to the wide range of permitted valuation techniques and numerous estimates which must be made, given the absence of active secondary markets for many of the financial instruments. This lack of uniform valuation methodologies also introduces a greater degree of subjectivity to these estimated fair values.

**Note 7. Comprehensive Income**

Total comprehensive income includes all changes in equity during a period from transactions and other events and circumstances from non-owner sources. The Company's other comprehensive income is comprised of unrealized holding gains and losses on securities available-for-sale, unrealized gains (losses) on cash flow hedges, obligations for defined benefit pension plan and an adjustment to reflect the curtailment of the Company's defined benefit pension plan, each net of taxes.

The following table represents the reclassification out of accumulated other comprehensive (loss) income for the periods presented:

Details about Accumulated Other Comprehensive Loss Components	Amounts Reclassified from Accumulated Other Comprehensive Income (Loss) Three Months Ended		Amounts Reclassified from Accumulated Other Comprehensive Income (Loss) Six Months Ended		Affected Line item in the Statement Where Net Income is Presented

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 7. Comprehensive Income – (continued)**

Accumulated other comprehensive income (loss) as of June 30, 2021 and December 31, 2020 consisted of the following:

	June 30, 2021	December 31, 2020
(dollars in thousands)		
Investment securities available-for-sale, net of tax	\$ 3,907	\$ 7,859
Cash flow hedge, net of tax	(663)	(1,520)
Defined benefit pension and post-retirement plans, net of tax	(3,434)	(3,542)
Total	\$ (190)	\$ 2,797

**Note 8. Stock Based Compensation**

The Company’s stockholders approved the 2017 Equity Compensation Plan (“the Plan”) on May 23, 2017. The Plan eliminates all remaining issuable shares under previous plans and is the only outstanding plan as of June 30, 2021. The maximum number of shares of common stock or equivalents which may be issued under the Plan, is 750,000. Grants under the Plan can be in the form of stock options (qualified or non-qualified), restricted shares, restricted share units or performance units. Shares available for grant and issuance under the Plan as of June 30, 2021 are approximately 332,628. The Company intends to issue all shares under the Plan in the form of newly issued shares.

Restricted stock, options and restricted stock units typically have a three-year vesting period starting one year after the date of grant with one-third vesting each year or upon a change in control. The options generally expire ten years from the date of grant. Restricted stock granted to new employees and board members may be granted with shorter vesting periods. Grants of performance units typically have a cliff vesting after three years or upon a change in control. All issuances are subject to forfeiture if the recipient leaves or is terminated prior to the awards vesting. Restricted shares have the same dividend and voting rights as common stock, while options, performance units and restricted stock units do not.

All awards are issued at the fair value of the underlying shares at the grant date. The Company expenses the cost of the awards, which is determined to be the fair market value of the awards at the date of grant, ratably over the vesting period. Forfeiture rates are not estimated but are recorded as incurred. Stock-based compensation expense for the three and six months ended June 30, 2021 was \$1.0 million and \$2.0 million, respectively. Stock-based compensation expense for the three and six months ended June 30, 2020 was \$0.7 million and \$1.2 million, respectively.

Activity in the Company’s options for the six months ended June 30, 2021 was as follows:

	Number of Stock Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding as of December 31, 2020	38,013	\$ 9.03		
Granted	-	-		
Exercised	(5,449)	8.34		
Forfeited/cancelled/expired	-	-		
Outstanding as of June 30, 2021	32,564	\$ 9.15	1.0	\$ 554,374
Exercisable as of June 30, 2021	32,564	\$ 9.15	1.0	\$ 554,374

The aggregate intrinsic value of outstanding and exercisable options above represents the total pre-tax intrinsic value (the difference between the Company’s closing stock price on June 30, 2021 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on June 30, 2021. This amount changes based on the fair market value of the Company’s stock.

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 8. Stock Based Compensation – (continued)**

Activity in the Company's restricted shares for the six months ended June 30, 2021 was as follows:

	Nonvested Shares	Weighted- Average Grant Date Fair Value
Nonvested as of December 31, 2020	113,114	\$ 18.15
Granted	49,590	25.32
Vested	(64,149)	16.95
Forfeited/cancelled/expired	(1,608)	24.11
Nonvested June 30, 2021	<u>96,947</u>	<u>\$ 22.51</u>

As of June 30, 2021, there was approximately \$1.8 million of total unrecognized compensation cost related to nonvested restricted shares granted. The cost is expected to be recognized over a weighted average period of 1.4 years.

A summary of the status of unearned performance unit awards and the change during the period is presented in the table below:

	Units (expected)	Units (maximum)	Weighted Average Grant Date Fair Value
Unearned as of December 31, 2020	147,636		\$ 17.29
Awarded	37,543		25.24
Change in estimate	17,818		20.79
Vested shares	(29,421)		31.35
Unearned as of June 30, 2021	<u>173,576</u>	<u>233,638</u>	<u>\$ 16.99</u>

As of June 30, 2021, the specific number of shares related to performance units that were expected to vest was 173,576, determined by actual performance in consideration of the established range of the performance targets, which is consistent with the level of expense currently being recognized over the vesting period. Should this expectation change, additional compensation expense could be recorded in future periods or previously recognized expense could be reversed. As of June 30, 2021 the maximum amount of performance units that ultimately could vest if performance targets were exceeded is 233,638. During the six months ended June 30, 2021, 29,421 shares vested. A total of 14,710 shares were netted from the vested shares to satisfy employee tax obligations. The net shares issued from vesting of performance units during the six months ended June 30, 2021 were 14,711 shares. As of June 30, 2021, compensation cost of approximately \$1.7 million related to non-vested performance units not yet recognized is expected to be recognized over a weighted-average period of 1.8 years.

A summary of the status of unearned restricted stock units and the changes in restricted stock units during the period is presented in the table below:

	Units (expected)	Weighted Average Grant Date Fair Value
Unearned as of December 31, 2020	169,313	\$ 14.07
Awarded	45,027	25.24
Vested shares	(68,916)	16.29
Unearned as of June 30, 2021	<u>145,424</u>	<u>\$ 16.48</u>

Any forfeitures would result in previously recognized expense being reversed. A portion of the shares that vest will be netted out to satisfy the tax obligations of the recipient. During the six months ended June 30, 2021, 68,916 shares vested. A total of 34,458 shares were netted from the vested shares to satisfy employee tax obligations. The net shares issued from vesting of restricted stock units during the six months ended June 30, 2021 were 34,458 shares. As of June 30, 2021, compensation cost of approximately \$2.0 million related to non-vested restricted stock units, not yet recognized, is expected to be recognized over a weighted-average period of 2.1 years.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 9. Components of Net Periodic Pension Cost**

The Company maintained a non-contributory defined benefit pension plan for substantially all of its employees until June 30, 2007, at which time the Company froze the plan. The following table sets forth the net periodic pension cost of the Company's pension plan for the periods indicated.

	Three Months Ended June 30,		Affected Line Item in the Consolidated Statements of Income
	2021	2020	
	(dollars in thousands)		
Service cost	\$ -	\$ -	
Interest cost	71	91	Other components of net periodic pension expense
Expected return on plan assets	(213)	(196)	Other components of net periodic pension expense
Net amortization	75	76	Other components of net periodic pension expense
<b>Total periodic pension income</b>	<b>\$ (67)</b>	<b>\$ (29)</b>	

  

	Six Months Ended June 30,		Affected Line Item in the Consolidated Statements of Income
	2021	2020	
	(dollars in thousands)		
Service cost	\$ -	\$ -	
Interest cost	142	182	Other components of net periodic pension expense
Expected return on plan assets	(426)	(392)	Other components of net periodic pension expense
Net amortization	150	151	Other components of net periodic pension expense
<b>Total periodic pension income</b>	<b>\$ (134)</b>	<b>\$ (59)</b>	

**Contributions**

The Company did not contribute to the Pension Trust during the six months ended June 30, 2021. The Company does not plan on contributing amounts to the Pension Trust for the remainder of 2021. The trust is established to provide retirement and other benefits for eligible employees and their beneficiaries. No part of the trust assets may be applied to any purpose other than providing benefits under the plan and for defraying expenses of administering the plan and the trust.

**CONNECTONE BANCORP, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 10. FHLB Borrowings**

The Company's FHLB borrowings and weighted average interest rates are summarized below:

	June 30, 2021		December 31, 2020	
	Amount	Rate	Amount	Rate
(dollars in thousands)				
Total FHLB borrowings	<u>\$ 353,462</u>	0.97%	<u>\$ 425,954</u>	1.07%
By remaining period to maturity:				
Less than 1 year	\$ 268,420	0.93%	\$ 297,570	0.84%
1 year through less than 2 years	57,368	1.24%	75,644	1.42%
2 years through less than 3 years	-	-	50,000	1.84%
3 years through less than 4 years	25,000	1.00%	-	-
4 years through 5 years	2,050	2.23%	-	-
After 5 years	744	2.41%	2,824	2.42%
Total FHLB borrowings	353,582	0.97%	426,038	1.07%
Fair value premium (discount)	(120)		(84)	
FHLB borrowings, net	<u>\$ 353,462</u>		<u>\$ 425,954</u>	

The FHLB borrowings are secured by pledges of certain collateral including, but not limited to, U.S. government and agency mortgage-backed securities and a blanket assignment of qualifying first lien mortgage loans, consisting of both residential mortgages and commercial real estate loans.

Advances are payable at stated maturity, with a prepayment penalty for fixed rate advances. All FHLB advances are fixed rates. The advances as of June 30, 2021 were primarily collateralized by approximately \$2.0 billion of commercial mortgage loans, net of required over collateralization amounts, under a blanket lien arrangement. As of June 30, 2021 the Company had remaining borrowing capacity of approximately \$1.2 billion at FHLB.

**Note 11. Subordinated Debentures**

During December 2003, Center Bancorp Statutory Trust II, a statutory business trust and wholly owned subsidiary of the Parent Corporation issued \$5.0 million of MMCapS capital securities to investors due on January 23, 2034. The trust loaned the proceeds of this offering to the Company and received in exchange \$5.2 million of the Parent Corporation's subordinated debentures. The subordinated debentures are redeemable in whole or part. The floating interest rate on the subordinated debentures is three-month LIBOR plus 2.85% and re-prices quarterly. The rate as of June 30, 2021 was 3.04%.

The following table summarizes the mandatory redeemable trust preferred securities of the Company's Statutory Trust II as of June 30, 2021 and December 31, 2020.

Issuance Date	Securities Issued	Liquidation Value	Coupon Rate	Maturity	Redeemable by Issuer Beginning
12/19/2003	\$ 5,000,000	\$1,000 per Capital Security	Floating 3-month LIBOR + 285 Basis Points	01/23/2034	01/23/2009

## [Table of Contents](#)

### **Note 11. Subordinated Debentures – (continued)**

During June 2020, the Parent Corporation issued \$75 million in aggregate principal amount of fixed-to-floating rate subordinated notes (the “2020 Notes”). The 2020 Notes bear interest at 5.75% annually from, and including, the date of initial issuance to, but excluding, June 15, 2025 or the date of earlier redemption, payable semi-annually in arrears on June 15 and December 15 of each year, commencing December 15, 2020. From and including June 15, 2025 through maturity or earlier redemption, the interest rate shall reset quarterly to an interest rate per annum equal to a benchmark rate, which is expected to be Three-Month Term SOFR (as defined in the Second Supplemental Indenture), plus 560.5 basis points, payable quarterly in arrears on March 15, June 15, September 15 and December 15 of each year, commencing on September 15, 2025. Notwithstanding the foregoing, if the benchmark rate is less than zero, then the benchmark rate shall be deemed to be zero.

During January 2018, the Parent Corporation issued \$75 million in aggregate principal amount of fixed-to-floating rate subordinated notes (the “Notes”) to certain accredited investors. The net proceeds from the sale of the Notes were used in the first quarter of 2018 for general corporate purposes, which included the Parent Corporation contributing \$65 million of the net proceeds to the Bank in the form of debt and common equity. The Notes are non-callable for five years, have a stated maturity of February 1, 2028 and bear interest at a fixed rate of 5.20% per year, from and including January 17, 2018 to, but excluding February 1, 2023. From and including February 1, 2023 to, but excluding the maturity date, or early redemption date, the interest rate will reset quarterly to a level equal to the then current three-month LIBOR rate plus 284 basis points.

During June 2015, the Parent Corporation issued \$50 million in aggregate principal amount of fixed-to-floating rate subordinated notes (the “2015 Notes”). As of December 31, 2020, the 2015 Notes have a stated maturity of July 1, 2025, and bear interest until the maturity date or early redemption date at a variable rate equal to the then current three-month LIBOR rate plus 393 basis points. As of December 31, 2020, the variable interest rate was 4.16% and all costs related to 2015 issuance have been amortized. The 2015 Notes were redeemed in full on January 1, 2021.

### **Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

The purpose of this analysis is to provide the reader with information relevant to understanding and assessing the Company’s results of operations for the periods presented herein and financial condition as of June 30, 2021 and December 31, 2020. In order to fully understand this analysis, the reader is encouraged to review the consolidated financial statements and accompanying notes thereto appearing elsewhere in this report.

#### **Cautionary Statement Concerning Forward-Looking Statements**

This report includes forward-looking statements within the meaning of Sections 27A of the Securities Act of 1933, as amended, and 21E of the Securities Exchange Act of 1934, as amended, that involve inherent risks and uncertainties. This report contains certain forward-looking statements with respect to the financial condition, results of operations, plans, objectives, future performance and business of ConnectOne Bancorp Inc. and its subsidiaries, including statements preceded by, followed by or that include words or phrases such as “believes,” “expects,” “anticipates,” “plans,” “trend,” “objective,” “continue,” “remain,” “pattern” or similar expressions or future or conditional verbs such as “will,” “would,” “should,” “could,” “might,” “can,” “may” or similar expressions. There are a number of important factors that could cause future results to differ materially from historical performance and these forward-looking statements. Factors that might cause such a difference include, but are not limited to: (1) competitive pressures among depository institutions may increase significantly; (2) changes in the interest rate environment may reduce interest margins; (3) prepayment speeds, loan origination and sale volumes, charge-offs and loan loss provisions may vary substantially from period to period; (4) general economic conditions may be less favorable than expected; (5) political developments, sovereign debt problems, wars or other hostilities may disrupt or increase volatility in securities markets or other economic conditions; (6) legislative or regulatory changes or actions may adversely affect the businesses in which ConnectOne Bancorp is engaged; (7) changes and trends in the securities markets may adversely impact ConnectOne Bancorp; (8) a delayed or incomplete resolution of regulatory issues could adversely impact planning by ConnectOne Bancorp; (9) the impact on reputation risk created by the developments discussed above on such matters as business generation and retention, funding and liquidity could be significant; (10) the outcome of regulatory and legal investigations and proceedings may not be anticipated, and (11) the impact of the COVID-19 pandemic on our employees and operations, and those of our customers. Further information on other factors that could affect the financial results of ConnectOne Bancorp is included in Item 1a. of ConnectOne Bancorp’s Annual Report on Form 10-K as amended and updated in ConnectOne Bancorp’s other filings with the Securities and Exchange Commission. These documents are available free of charge at the Commission’s website at <http://www.sec.gov> and/or from ConnectOne Bancorp, Inc.

#### **Critical Accounting Policies and Estimates**

The accounting and reporting policies followed by ConnectOne Bancorp, Inc. and its subsidiaries (collectively, the “Company”) conform, in all material respects, to GAAP. In preparing the consolidated financial statements, management has made estimates, judgments and assumptions that affect the reported amounts of assets and liabilities as of the dates of the consolidated statements of condition and for the periods indicated in the consolidated statements of income. Actual results could differ significantly from those estimates.

The Company’s accounting policies are fundamental to understanding Management’s Discussion and Analysis (“MD&A”) of financial condition and results of operations. The Company has identified the determination of the ACL, the other-than-temporary impairment evaluation of securities, the evaluation of the impairment of goodwill and the evaluation of deferred tax assets to be critical because management must make subjective and/or complex judgments about matters that are inherently uncertain and could be most subject to revision as new information becomes available. Additional information on these policies is provided below.

**Allowance for Credit Losses and Related Provision:** The ACL represents management’s estimate of current expected credit losses considering available information relevant to assessing collectability of cash flows over the contractual term of the financial asset(s). Determining the amount of the ACL is considered a

critical accounting estimate because it requires significant judgment and the use of estimates including reasonable and supportable forecasts that affect the collectability of the remaining cash flows over the contractual term of the financial assets.

The evaluation of the adequacy of the ACL includes, among other factors, an analysis of historical loss rates by loan segment applied to current loan totals. However, actual credit losses may be higher or lower than historical trends, which vary. Actual losses on specified problem loans, which also are provided for in the evaluation, may vary from estimated loss percentages, which are established based upon a limited number of potential loss classifications.

The ACL is established through a provision for credit losses charged to expense. Management believes that the current ACL will be adequate to absorb current expected credit losses on existing loans that may become uncollectible based on the evaluation of known and inherent risks in the loan portfolio. The evaluation takes into consideration such factors as changes in the nature and size of the portfolio, overall portfolio quality, and specific problem loans and current economic conditions which may affect the borrowers' ability to pay. The evaluation also details historical losses by loan segment and the resulting credit loss rates which are projected for current loan total amounts. Loss estimates for specified problem loans are also detailed. All of the factors considered in the analysis of the adequacy of the ACL may be subject to change. To the extent actual outcomes differ from management estimates, additional provisions for credit losses may be required that could materially adversely impact earnings in future periods. Additional information can be found in Note 5 of the Notes to Consolidated Financial Statements.

## [Table of Contents](#)

**Business Combinations:** We account for business combinations under the acquisition method of accounting. Using this method, assets acquired, liabilities assumed and consideration paid are recorded at their estimated fair values as of the acquisition date. The application of this method of accounting requires the use of significant estimates and assumptions. The application of the acquisition method of accounting usually results in the recognition of goodwill and a core deposit intangible (if the acquiree has deposits). The amount of goodwill recorded represents the excess purchase price over the estimated fair value of the net assets acquired, including any identifiable intangibles, if applicable. Goodwill is not amortized for book purposes; however, it is reviewed at least annually for impairment and is usually not deductible for tax purposes.

The assets acquired and liabilities assumed and consideration paid in the acquisition are recorded at their estimated fair values based on management's best estimates using information available at the date of the acquisition and are subject to adjustment for up to one year after the closing date of the acquisition. Our estimates are based upon assumptions that we believe to be reasonable and the Company may use an outside service provider to assist with the valuations.

**Goodwill:** The Company adopted the provisions of FASB ASC 350-10, which requires that goodwill be reported separate from other intangible assets in the Consolidated Statements of Condition and not be amortized but rather tested for impairment annually or more frequently if impairment indicators arise. The Company performs an annual goodwill impairment test in the fourth quarter of each year, or more often if events or circumstances warrant. We will continue to monitor and evaluate the impact of COVID-19 and its impact on our market capitalization, overall economic conditions and any other potential triggering events that may indicate an impairment of goodwill in the future. In the event we conclude that all or a portion of our goodwill is impaired, a non-cash charge for the amount of such impairment would be recorded to earnings. Such a charge would have no impact on tangible capital or our regulatory capital ratios.

**Income Taxes:** The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. Judgment is required in assessing the future tax consequences of events that have been recognized in the Company's consolidated financial statements or tax returns.

Fluctuations in the actual outcome of these future tax consequences could impact the Company's consolidated financial condition or results of operations. Note 11 of the Notes to Consolidated Financial Statements included in the Company's Form 10-K for the year ended December 31, 2020 includes additional discussion on the accounting for income taxes.

### **Impact of COVID-19**

COVID-19 continues to impact the Company's operations and financial results, as well as those of our customers. In response to the COVID-19 pandemic, the Company continued to offer temporary relief to effected customers, deferring either their full loan payment, the principal component or the interest component of their loan payment for an initial period of time ranging from 30 to 120 days. As of June 30, 2021, the Company has 79 deferred loans with a total outstanding loan balance of \$100.0 million. As provided for under the CARES act, these short-term deferrals are not considered troubled debt restructurings, provided that the modification is related to COVID-19, executed on a loan that was not more than 30 days past due as of December 31, 2019 or the date of the deferral, and executed between March 1, 2020 and January 1, 2022, or the date that is 60 days after the termination date of the national emergency declared by the president on March 13, 2020, under the National Emergencies Act related to the outbreak of COVID-19.

With the passage of the Paycheck Protection Program ("PPP"), administered by the Small Business Administration ("SBA"), the Company was an active participant in assisting its customers with applications for resources through the program. PPP loans originated prior to June 5, 2020 have a two-year term, which may be extended to five years with the consent of the Company, and those originated on or after June 5, 2020 have a five year term, and the loans bear interest at 1%, along with an origination fee payable from the SBA to the Company. The Company believes that the majority of these loans will ultimately be forgiven by the SBA in accordance with the terms of the program. As of June 30, 2021, PPP loans were \$326.8 million. It is the Company's understanding that loans funded through the PPP program are fully guaranteed by the U.S. government and, as such, the Company has not included the PPP loans in calculation of the ACL as of June 30, 2021. Should those circumstances change, the Company could be required to establish additional provisions for credit loss expense charged to earnings.

## [Table of Contents](#)

### **Operating Results Overview**

Net income for the three months ended June 30, 2021 was \$32.2 million, compared to \$14.8 million for the comparable three-month period ended June 30, 2020. The Company's diluted earnings per share were \$0.81 for the three months ended June 30, 2021, compared with diluted earnings per share of \$0.37 for the comparable three-month period ended June 30, 2020. The increase in net income and diluted earnings per share was attributable to a decrease in provision for credit losses of \$16.6 million, a decrease in noninterest expenses of \$6.8 million, and an increase in net interest income of \$2.2 million, offset by an increase in income tax expense of \$8.1 million. The decrease in provision for credit losses was due to the impact of an improved economic outlook on the current expected credit losses ("CECL") accounting standard, compared with a \$15.0 million provision in the second quarter of 2020.

Net income for the six months ended June 30, 2021 was \$65.2 million compared to \$20.9 million for the comparable six-month period ended June 30, 2020. The Company's diluted earnings per share were \$1.63 for the six months ended June 30, 2021, compared with diluted earnings per share of \$0.52 for the comparable six-month period ended June 30, 2020. The increase in net income and diluted earnings per share was primarily attributable to a decrease in provision for credit losses of \$38.4 million, a decrease in noninterest expenses of \$15.4 million, and an increase in net interest income of \$8.1 million, offset by an increase in income tax expense of \$18.0 million. The decrease in provision for loan losses was due to the impact of an improved economic outlook on the CECL accounting standard, compared with a \$31.0 million provision in the six months ended June 30, 2020.

### **Net Interest Income and Margin**

Net interest income is the difference between the interest earned on the portfolio of earning assets (principally loans and investments) and the interest paid for deposits and borrowings, which support these assets. Net interest income is presented on a tax-equivalent basis by adjusting tax-exempt income (primarily interest earned on obligations of state and political subdivisions) by the amount of income tax which would have been paid had the assets been invested in taxable issues. Net interest margin is defined as net interest income on a tax-equivalent basis as a percentage of total average interest-earning assets.

Fully taxable equivalent net interest income for the three months ended June 30, 2021 increased by \$2.2 million, or 3.5%, from the comparable three-month period ended June 30, 2020. The increase from the second quarter of 2020 resulted primarily from a 16 basis-point widening of the net interest margin to 3.60% from 3.44%, offset by a 1.5% decrease in average interest-earning assets, largely due to higher levels of PPP originations during the second quarter of 2020. The widening of the net interest margin resulted from a 53 basis-point reduction in the cost of interest-bearing liabilities, partially offset by a 27 basis-point reduction in the yield on average interest-earning assets.

Fully taxable equivalent net interest income for the six months ended June 30, 2021 increased by \$8.0 million, or 6.8%, from the comparable six-month period ended June 30, 2020, resulting from an increase in average interest-earning assets of 2.4%, largely due to PPP originations, and a 16 basis-point widening of the net interest margin to 3.58% from 3.42%. The widening of the net interest margin resulted from a 64 basis-point reduction in the cost of interest-bearing liabilities, partially offset by a 37 basis-point reduction in the yield on average interest-earning assets.

## Table of Contents

The following tables, “Average Statements of Condition with Interest and Average Rates”, present for the three and six months ended June 30, 2021 and 2020, the Company’s average assets, liabilities and stockholders’ equity. The Company’s net interest income, net interest spread and net interest margin are also reflected.

## [Table of Contents](#)

### Noninterest Income

Noninterest income totaled \$4.5 million for the three months ended June 30, 2021, compared with \$4.6 million for the comparable three-month period ended June 30, 2020. Included in noninterest income for the three months ended June 30, 2021 and June 30, 2020 were \$0.7 million and \$2.3 million, respectively, of PPP loan referral fee income generated by BoeFly. Also included in noninterest income for the three months ended June 30, 2021 was a \$0.2 million gain on sale/redemption of investment securities. Excluding these items, noninterest income increased \$1.2 million when compared to the comparable three-month period ended June 30, 2020. The increase was primarily attributable to increases in net gains on loans held-for-sale of \$0.6 million and increases in deposit, loan and other income of \$0.6 million, which includes a \$0.3 million increase in BoeFly core revenue.

Noninterest income totaled \$7.9 million for the six months ended June 30, 2021, compared with \$7.5 million for the comparable six-month period ended June 30, 2020. Included in noninterest income for the six months ended June 30, 2021 and June 30, 2020 were \$0.7 million and \$2.3 million, respectively, of PPP loan referral fee income generated by BoeFly. Also included in noninterest income for the six months ended June 30, 2021 was \$0.7 million on a gain on sale of branches and a \$0.2 million gain on sale/redemption of investment securities. Excluding these items, noninterest income increased \$1.1 million when compared to the comparable six-month period ended June 30, 2020. The increase was primarily attributable to increases in net gains on loans held-for-sale of \$0.9 million, increases in deposit, loan and other income of \$0.4 million, and an increase in income on bank owned life insurance of \$0.2 million, offset by a decrease in net gains on equity securities of \$0.4 million.

### Noninterest Expenses

Noninterest expenses totaled \$26.3 million for the three months ended June 30, 2021, compared with \$33.1 million for the comparable three-month period ended June 30, 2020. Included in noninterest expenses for the three months ended June 30, 2020 were \$5.1 million in merger and restructuring expenses and \$2.3 million in expenses related to the BoeFly acquisition. Excluding these items, noninterest expenses increased \$0.7 million when compared to the comparable three-month period ended June 30, 2020. The increase was primarily attributable to increases in salaries and employee benefits of \$0.8 million, increases in professional and consulting expenses of \$0.4 million and increases in other expenses of \$0.2 million, partially offset by decreases in FDIC insurance expense of \$0.5 million, decreases in marketing and advertising of \$0.1 million and decreases in amortization of core deposit intangibles of \$0.1 million.

Noninterest expenses totaled \$52.7 million for the six months ended June 30, 2021, compared with \$68.1 million for the comparable six-month period ended June 30, 2020. Included in noninterest expenses for the six months ended June 30, 2020 were \$14.6 million in merger and restructuring expenses and \$2.3 million in expenses related to the BoeFly acquisition. Excluding these items, noninterest expenses increased \$1.6 million when compared to the comparable six-month period ended June 30, 2020. The increase was primarily attributable to increases in salaries and employee benefits of \$1.8 million and increases in professional and consulting expenses of \$0.8 million, partially offset by decreases in FDIC insurance expense of \$0.4 million, decreases in amortization of core deposit intangibles of \$0.3 million and decreases in marketing and advertising of \$0.2 million.

### Income Taxes

Income tax expense was \$10.7 million for the three months ended June 30, 2021, compared to \$2.5 million for the comparable three-month period ended June 30, 2020. The increase in income tax expense was the result of higher income before taxes. The effective tax rate for the three months ended June 30, 2021 and June 30, 2020 was 24.8% and 14.5%, respectively. The higher effective tax rate during the second quarter 2021 when compared to the second quarter of 2020 resulted from a lower proportion of income from non-taxable sources.

Income tax expense was \$21.5 million for the six months ended June 30, 2021, compared to \$3.6 million for comparable six-month period ended June 30, 2020. The increase in income tax expense was the result of higher income before taxes. The effective tax rate for the six months ended June 30, 2021 was 24.8% versus 14.6% for the prior-year period. The higher effective tax rate during the first half of 2021 when compared to the first half of 2020 resulted from a lower proportion of income from non-taxable sources.

[Table of Contents](#)**Financial Condition**Loan Portfolio

The following table sets forth the composition of our loan portfolio, excluding loans held-for-sale and unearned net origination fees and costs, by loan segment at the periods indicated.

	June 30, 2021		December 31, 2020		Amount Increase/ (Decrease)
	Amount	%	Amount	%	
(dollars in thousands)					
Commercial <sup>(1)</sup>	\$ 1,402,697	21.8%	\$ 1,521,967	24.4%	\$ (119,270)
Commercial real estate	4,138,518	64.5	3,783,550	60.6	354,968
Commercial construction	587,121	9.1	617,747	9.8	(30,626)
Residential real estate	286,907	4.5	322,564	5.1	(35,657)
Consumer	6,355	0.1	1,853	0.1	4,502
Gross loans	<u>\$ 6,421,598</u>	<u>100.0%</u>	<u>\$ 6,247,681</u>	<u>100.0%</u>	<u>\$ 173,917</u>

(1) Included in commercial loans as of June 30, 2021 and December 31, 2020 were PPP loans of \$326.8 million and \$397.5 million, respectively.

As of June 30, 2021, gross loans totaled \$6.4 billion, an increase of \$173.9 million, or 2.8%, as compared to December 31, 2020. Net loan growth was primarily attributable to increases in the commercial real estate segment of \$355.0 million, offset by decreases in the commercial segment of \$119.3 million, which primarily resulted from PPP loan forgiveness, decreases in commercial construction of \$30.6 million and decreases in residential real estate of \$35.7 million.

**Allowance for Credit Losses and Related Provision**

As of January 1, 2021, the Company adopted the CECL accounting standard. As of June 30, 2021, the Company's ACL for loans was \$78.7 million, a decrease of \$0.5 million from \$79.2 million December 31, 2020. The decrease was attributable to a release of credit losses of approximately \$7.0 million, offset by an increase in provision of \$6.6 million resulting from the "Day 1" effect of the adoption of the CECL accounting.

The (reversal of) provision for credit losses, which includes provision for unfunded commitments, for the three and six months ended June 30, 2021 was \$(1.6) million and \$(7.4) million, respectively, compared to \$15.0 million and \$31.0 million, for the three and six months ended June 30, 2020, respectively. The decrease in provision for credit losses was the result of an improved macro-economic outlook as of June 30, 2021 when compared to January 1, 2021, the day the Company adopted CECL. The prior year provision in the three and six months ended June 30, 2020, was primarily due to the significant economic slowdown due to the COVID 19 pandemic.

There were \$0.2 million and \$0.1 million in net charge-offs for the three and six months ended June 30, 2021, compared with \$0.4 million and \$0.6 million in net charge-offs for the three and six months ended June 30, 2020 respectively. The ACL as a percentage of loans receivable amounted to 1.23% as of June 30, 2021 compared to 1.27% as of December 31, 2020. Excluding the impact of PPP loans, in the calculation of the ACL as a percentage of loans receivable, the ratio increases to 1.29% as of June 30, 2021, compared to 1.36% as of December 31, 2020 allowance for loan losses. PPP loans do not have allowance for credit losses attributable to them, as they are fully guaranteed by the SBA.

The level of the ACL for the respective periods of 2021 and allowance for loan losses for 2020 reflects the credit quality within the loan portfolio, loan growth, the changing composition of the commercial and residential real estate loan portfolios and other related factors. In management's view, the level of the ACL as of June 30, 2021 is adequate to cover expected credit losses inherent in the loan portfolio. Management's judgment regarding the adequacy of the allowance constitutes a "Forward-Looking Statement" under the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from management's analysis, based principally upon the factors considered by management in establishing the allowance.

## Table of Contents

(1) The ACL for the prior periods was calculated based on the incurred loan loss model.

## [Table of Contents](#)

### Asset Quality

The Company manages asset quality and credit risk by maintaining diversification in its loan portfolio and through review processes that include analysis of credit requests and ongoing examination of outstanding loans, delinquencies, and potential problem loans, with particular attention to portfolio dynamics and mix. The Company strives to identify loans experiencing difficulty early enough to correct the problems, to record charge-offs promptly based on realistic assessments of current collateral values and cash flows, and to maintain an adequate allowance for loan losses at all times.

It is generally the Company's policy to discontinue interest accruals once a loan is past due as to interest or principal payments for a period of ninety days. When a loan is placed on nonaccrual status, interest accruals cease and uncollected accrued interest is reversed and charged against current income. Payments received on nonaccrual loans are generally applied against principal. A loan may be restored to an accruing basis when all past due amounts have been collected. Loans past due 90 days or more which are both well-secured and in the process of collection may remain on an accrual basis.

Nonperforming assets include nonaccrual loans and other real estate owned. Nonaccrual loans represent loans on which interest accruals have been suspended. In general, it is the policy of management to consider the charge-off of uncollectible amounts of loans at the point they become past due 90 days. Performing troubled debt restructured loans represent loans to borrowers experiencing financial difficulties on which a concession was granted, such as a reduction in interest rate below the current market rate for new debt with similar risks or modified repayment terms, and are performing under the restructured terms.

The following table sets forth, as of the dates indicated, the amount of the Company's nonaccrual loans, other real estate owned ("OREO"), performing troubled debt restructurings ("TDRs") and loans past due 90 days or greater and still accruing:

	June 30, 2021	December 31, 2020
	(dollars in thousands)	
Nonaccrual loans	\$ 56,213	\$ 61,169
OREO	-	-
Total nonperforming assets <sup>(1)</sup>	\$ 56,213	\$ 61,169
Performing TDRs	\$ 33,021	\$ 23,655
Loans 90 days or greater past due and still accruing (non PCD)	\$ -	\$ -
Loans 90 days or greater past due and still accruing (PCD)	\$ 19,654	\$ 12,821

(1) Nonperforming assets are defined as nonaccrual loans and OREO.

Nonaccrual loans to total loans receivable	0.88%	0.99%
Nonperforming assets to total assets	0.73	0.82
Nonperforming assets, performing TDRs, and loans 90 days or greater past due and still accruing to loans receivable	1.70	1.57

## [Table of Contents](#)

### Investment Securities

As of June 30, 2021, the principal components of the securities portfolio were federal agency obligations, mortgage-backed securities, obligations of U.S. states and political subdivisions, corporate bonds and notes, asset-backed securities and equity securities. For the three months ended June 30, 2021, average securities increased by \$1.2 million to approximately \$444.5 million, or 6.3% of average total interest-earning assets, from approximately \$443.3 million, or 6.2% of average interest-earning assets, for the comparable period in 2020.

As of June 30, 2021, net unrealized gains on securities available-for-sale, which are carried as a component of accumulated other comprehensive income and included in stockholders' equity, net of tax, amounted to \$3.9 million as compared with net unrealized gains of \$7.9 million as of December 31, 2020. The decrease in unrealized gains is predominately attributable to changes in market conditions and interest rates. Unrealized losses have not been recognized into income because the issuers are of high credit quality, we do not intend to sell, and it is likely that we will not be required to sell the securities prior to their anticipated recovery. The decline in fair value is largely due to changes in interest rates and other market conditions. The issuers continue to make timely principal and interest payments on the securities. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of applicable taxes. The Company did not record an ACL for available-for-sale as of June 30, 2021.

### Interest Rate Sensitivity Analysis

The principal objective of our asset and liability management function is to evaluate the interest-rate risk included in certain balance sheet accounts; determine the level of risk appropriate given our business focus, operating environment, and capital and liquidity requirements; establish prudent asset concentration guidelines; and manage the risk consistent with Board approved guidelines. We seek to reduce the vulnerability of our operations to changes in interest rates, and actions in this regard are taken under the guidance of the Bank's Asset Liability Committee (the "ALCO"). The ALCO generally reviews our liquidity, cash flow needs, maturities of investments, deposits and borrowings, and current market conditions and interest rates.

We currently utilize net interest income ("NII") simulation and economic value of equity ("EVE") models to measure the potential impact to the Bank of future changes in interest rates. As of June 30, 2021 and December 31, 2020, the results of the models were within guidelines prescribed by our Board of Directors. If model results were to fall outside prescribed ranges, action, including additional monitoring and reporting to the Board, would be required by the ALCO and the Bank's management.

The net interest income simulation model attempts to measure the change in net interest income over the next one-year period, and over the next three-year period on a cumulative basis, assuming certain changes in the general level of interest rates.

Based on our model, which was run as of June 30, 2021, we estimated that over the next one-year period a 200 basis-point instantaneous increase in the general level of interest rates would increase our net interest income by 2.94%, while a 100 basis-point instantaneous decrease in interest rates would decrease net interest income by 6.04%. As of December 31, 2020, we estimated that over the next one-year period a 200 basis-point instantaneous increase in the general level of interest rates would increase our net interest income by 0.70%, while a 100 basis-point instantaneous decrease in interest rates would decrease net interest income by 5.18%.

Based on our model, which was run as of June 30, 2021, we estimated that over the next three years, on a cumulative basis, a 200 basis-point instantaneous increase in the general level of interest rates would increase our net interest income by 8.60%, while a 100 basis-point instantaneous decrease in interest rates would decrease net interest income by 10.90%. As of December 31, 2020, we estimated that over the next three years, on a cumulative basis, a 200 basis-point instantaneous increase in the general level of interest rates would increase our net interest income by 3.89%, while a 100 basis-point instantaneous decrease in interest rates would decrease net interest income by 8.56%.

An EVE analysis is also used to dynamically model the present value of asset and liability cash flows with instantaneous rate shocks of up 200 basis points and down 100 basis points. The economic value of equity is likely to be different as interest rates change. Our EVE as of June 30, 2021, would decline by 1.79% with an instantaneous rate shock of up 200 basis points, and decrease by 1.13% with an instantaneous rate shock of down 100 basis points. Our EVE as of December 31, 2020, would decline by 7.76% with an instantaneous rate shock of up 200 basis points, and increase by 5.70% with an instantaneous rate shock of down 100 basis points.

The following table illustrates the most recent results for EVE and one-year NII sensitivity as of June 30, 2021.

Interest Rates (basis points)	Estimated EVE	Estimated Change in EVE		Interest Rates (basis points)	Estimated NII	Estimated Change in NII	
		Amount	%			Amount	%
+300	\$928,870	\$(40,743)	(4.20)	+300	\$259,628	\$10,574	4.25
+200	953,271	(17,342)	(1.79)	+200	256,385	7,331	2.94
+100	964,554	(6,059)	(0.62)	+100	252,839	3,785	1.52
0	970,613	-	0.0	0	249,054	-	0.0
-100	959,676	(10,937)	(1.13)	-100	234,017	(15,037)	(6.04)

## [Table of Contents](#)

### **Estimates of Fair Value**

The estimation of fair value is significant to a number of the Company's assets, including loans held-for-sale and securities available-for-sale. These are all recorded at either fair value or the lower of cost or fair value. Fair values are volatile and may be influenced by a number of factors. Circumstances that could cause estimates of the fair value of certain assets and liabilities to change include a change in prepayment speeds, discount rates, or market interest rates. Fair values for most available-for-sale securities are based on quoted market prices. If quoted market prices are not available, fair values are based on judgments regarding future expected loss experience, current economic condition risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature, involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

### **Impact of Inflation and Changing Prices**

The consolidated financial statements and notes thereto presented elsewhere herein have been prepared in accordance with GAAP, which requires the measurement of financial position and operating results in terms of historical dollars without considering the change in the relative purchasing power of money over time due to inflation. The impact of inflation is reflected in the increased cost of operations; unlike most industrial companies, nearly all of the Company's assets and liabilities are monetary. As a result, interest rates have a greater impact on performance than do the effects of general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the prices of goods and services.

### **Liquidity**

Liquidity is a measure of a bank's ability to fund loans, withdrawals or maturities of deposits, and other cash outflows in a cost-effective manner. Our principal sources of funds are deposits, scheduled amortization and prepayments of loan principal, maturities of investment securities, and funds provided by operations. While scheduled loan payments and maturing investments are relatively predictable sources of funds, deposit flow and loan prepayments are greatly influenced by general interest rates, economic conditions and competition.

As of June 30, 2021, the amount of liquid assets remained at a level management deemed adequate to ensure that, on a short and long-term basis, contractual liabilities, depositors' withdrawal requirements, and other operational and client credit needs could be satisfied. As of June 30, 2021, liquid assets (cash and due from banks, interest-bearing deposits with banks and unencumbered investment securities) were \$724.1 million, which represented 9.4% of total assets and 11.1% of total deposits and borrowings, compared to \$697.4 million as of December 31, 2020, which represented 9.2% of total assets and 10.9% of total deposits and borrowings.

The Bank is a member of the Federal Home Loan Bank of New York and, based on available qualified collateral as of June 30, 2021, had the ability to borrow \$2.0 billion. In addition, as of June 30, 2021, the Bank had in place borrowing capacity of \$25 million through correspondent banks. The Bank also has a credit facility established with the Federal Reserve Bank of New York for direct discount window borrowings with capacity based on pledged collateral of \$3.2 million. As of June 30, 2021, the Bank had aggregate available and unused credit of approximately \$1.2 billion, which represents the aforementioned facilities totaling \$2.0 billion net of \$820.4 million in outstanding borrowings and letters of credit. As of June 30, 2021, outstanding commitments for the Bank to extend credit were approximately \$1.1 billion.

Cash and cash equivalents totaled \$349.4 million as of June 30, 2021, increasing by \$45.7 million from \$303.8 million as of December 31, 2020. Operating activities provided \$119.5 million in net cash. Investing activities used \$174.3 million in net cash, primarily reflecting an increase in loans and securities purchases. Financing activities provided \$100.5 million in net cash, primarily reflecting a net increase in deposits of \$234.5 million and a decrease in net borrowings of \$72.5 million.

Savings	375,285	6.1	294,163	4.9	81,122
Time	1,301,807	21.0	1,464,133	24.6	(162,326)
Total deposits	<u>\$ 6,192,513</u>	<u>100.0%</u>	<u>\$ 5,959,224</u>	<u>100.0%</u>	<u>\$ 233,289</u>

### Subordinated Debentures

During December 2003, Center Bancorp Statutory Trust II, a statutory business trust and wholly-owned subsidiary of the Parent Corporation issued \$5.0 million of MMCapS capital securities to investors due on January 23, 2034. The trust loaned the proceeds of this offering to the Company and received in exchange \$5.2 million of the Parent Corporation's subordinated debentures. The subordinated debentures are redeemable in whole or part prior to maturity. The floating interest rate on the subordinated debentures is three-month LIBOR plus 2.85% and re-prices quarterly. The rate as of June 30, 2021 was 3.04%.

During June 2020, the Parent Corporation issued \$75 million in aggregate principal amount of fixed-to-floating rate subordinated notes (the "2020 Notes"). The 2020 Notes bear interest at 5.75% annually from, and including, the date of initial issuance to, but excluding, June 15, 2025 or the date of earlier redemption, payable semi-annually in arrears on June 15 and December 15 of each year, commencing December 15, 2020. From and including June 15, 2025 through maturity or earlier redemption, the interest rate shall reset quarterly to an interest rate per annum equal to a benchmark rate, which is expected to be Three-Month Term SOFR (as defined in the Second Supplemental Indenture), plus 560.5 basis points, payable quarterly in arrears on March 15, June 15, September 15 and December 15 of each year, commencing on September 15, 2025. Notwithstanding the foregoing, if the benchmark rate is less than zero, then the benchmark rate shall be deemed to be zero.

During January 2018, the Parent Corporation issued \$75 million in aggregate principal amount of fixed-to-floating rate subordinated notes (the "2018 Notes") to certain accredited investors. The net proceeds from the sale of the 2018 Notes were used for general corporate purposes, which included the Parent Corporation contributing \$65 million of the net proceeds to the Bank in the form of debt and common equity in the first quarter of 2018. The 2018 Notes are non-callable for five years, have a stated maturity of February 1, 2028 and bear interest at a fixed rate of 5.20% per year, from and including January 17, 2018 to, but excluding February 1, 2023. From and including February 1, 2023 to, but excluding the maturity date, or early redemption date, the interest rate will reset quarterly to a level equal to the then current three-month LIBOR rate plus 284 basis points.

During June 2015, the Parent Corporation issued \$50 million in aggregate principal amount of fixed-to-floating rate subordinated notes (the "2015 Notes"). As of December 31, 2020, the 2015 Notes had a stated maturity of July 1, 2025, and bore interest until the maturity date or early redemption date at a variable rate equal to the then current three-month LIBOR rate plus 393 basis points. As of December 31, 2020, the variable interest rate was 4.16% and all costs related to 2015 issuance have been amortized. The 2015 Notes were redeemed in full on January 1, 2021.

[Table of Contents](#)**Stockholders' Equity**

The Company's stockholders' equity was \$965.0 million as of June 30, 2021, an increase of \$49.7 million from December 31, 2020. The increase in stockholders' equity was primarily attributable to retained earnings during the period. As of June 30, 2021, the Company's tangible common equity ratio and tangible book value per share were 9.97% and \$18.76, respectively. As of December 31, 2020, the tangible common equity ratio and tangible book value per share were 9.50% and \$17.49, respectively. Total goodwill and other intangible assets were approximately \$218.3 million and \$219.3 million as of June 30, 2021 and December 31, 2020, respectively.

	June 30, 2021	December 31, 2020
	(dollars in thousands, except for share and per share data)	
Common equity	\$ 964,960	\$ 915,310
Less: intangible assets	(218,335)	(219,349)
Tangible common stockholders' equity	<u>\$ 746,625</u>	<u>\$ 695,961</u>
Total assets	\$ 7,710,082	\$ 7,547,339
Less: intangible assets	(218,335)	(219,349)
Tangible assets	<u>\$ 7,491,747</u>	<u>\$ 7,327,990</u>
Common stock outstanding as of period end	39,794,815	39,785,398
Tangible common equity ratio <sup>(1)</sup>	9.97%	9.50%
Book value per common share	\$ 24.25	\$ 23.01
Less: intangible assets	5.49	5.52
Tangible book value per common share	<u>\$ 18.76</u>	<u>\$ 17.49</u>

(1) Tangible common equity ratio is a non-GAAP measure.

**Regulatory Capital and Capital Adequacy**

The maintenance of a solid capital foundation is a primary goal for the Company. Accordingly, capital plans, stock repurchases and dividend policies are monitored on an ongoing basis. The Company's objective with respect to the capital planning process is to effectively balance the retention of capital to support future growth with the goal of providing stockholders with an attractive long-term return on their investment.

The Company and the Bank are subject to regulatory guidelines establishing minimum capital standards that involve quantitative measures of assets, and certain off-balance sheet items, as risk-adjusted assets under regulatory accounting practices.

The following is a summary of regulatory capital amounts and ratios as of June 30, 2021 for the Company and the Bank, compared with minimum capital adequacy requirements and the regulatory requirements for classification as a well-capitalized depository institution.

As of June 30, 2021	ConnectOne Bancorp, Inc.		For Capital Adequacy Purposes		To Be Well-Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
	(dollars in thousands)					
Tier 1 leverage capital	\$ 748,145	10.19%	\$ 293,537	4.00%	N/A	N/A
CET I risk-based ratio	742,990	11.09	301,514	4.50	N/A	N/A
Tier 1 risk-based capital	748,145	11.17	402,019	6.00	N/A	N/A
Total risk-based capital	976,829	14.58	536,026	8.00	N/A	N/A

As of June 30, 2021	ConnectOne Bank		For Capital Adequacy Purposes		To Be Well-Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
	(dollars in thousands)					
Tier 1 leverage capital	\$ 832,047	11.34%	\$ 293,526	4.00%	\$ 366,907	5.00%
CET I risk-based ratio	832,047	12.42	301,499	4.50	435,499	6.50
Tier 1 risk-based capital	832,047	12.42	401,999	6.00	535,999	8.00
Total risk-based capital	942,981	14.07	535,999	8.00	669,999	10.00

N/A - not applicable

As of June 30, 2021, both the Company and Bank satisfy the capital conservation buffer requirements applicable to them. The lowest ratio at the Company is the Tier 1 Risk Based Ratio which was 2.67% above the minimum buffer ratio and, at the Bank, the lowest ratio was the Total Risk Based Capital Ratio which was 3.57% above the minimum buffer ratio.

**Item 3. Qualitative and Quantitative Disclosures about Market Risks**

**Market Risk**

Interest rate risk management is our primary market risk. See "Item 2- Management's Discussion and Analysis of Financial Condition and Results of Operations - Interest Rate Sensitivity Analysis" herein for a discussion of our management of our interest rate risk.

[Table of Contents](#)

**Item 4. Controls and Procedures**

a) *Disclosure controls and procedures.* As of the end of the Company's most recently completed fiscal quarter covered by this report, the Company carried out an evaluation, with the participation of the Company's management, including the Company's chief executive officer and chief financial officer, of the effectiveness of the Company's disclosure controls and procedures pursuant to Securities Exchange Act Rule 13a-15. Based upon that evaluation, the Company's chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and are operating in an effective manner and that such information is accumulated and communicated to management, including the Company's chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

b) *Changes in internal controls over financial reporting.* There have been no changes in the Company's internal controls over financial reporting that occurred during the Company's last fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Chairman and Chief Executive Officer

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350,  
AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with this Quarterly Report of ConnectOne Bancorp, Inc. (the "Company") on Form 10-Q for the quarter ended June 30, 2021 filed with the Securities and Exchange Commission (the "Report"), I, William S. Burns, Executive Vice President and Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

1. The Report fully complies with the requirements of Section 13 (a) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the consolidated financial condition of the Company as of the dates presented and the consolidated results of operations of the Company for the periods presented.

Date: August 6, 2021

/s/ William S. Burns
