(Zip Code)

Registrant's telephone number, including area code: **(567) 336-5000**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading symbol	Name of each exchange on which registered
Common Stock, par value \$.01 per share	OI	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer
Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of common stock, par value \$.01, of O-I Glass, Inc. outstanding as of March 31, 2026 was 153,299,563.

Part I — FINANCIAL INFORMATION

Item 1. Financial Statements.

The Condensed Consolidated Financial Statements of O-I Glass, Inc. (the “Company”) presented herein are unaudited but, in the opinion of management, reflect all adjustments necessary to present fairly such information for the periods and at the dates indicated. All adjustments are of a normal recurring nature. Because the following unaudited Condensed Consolidated Financial Statements have been prepared in accordance with Article 10 of Regulation S-X, they do not contain all information and footnotes normally contained in annual consolidated financial statements; accordingly, they should be read in conjunction with the Consolidated Financial Statements and notes thereto appearing in the Company’s Annual Report on Form 10-K for the year ended December 31, 2025.

O-I GLASS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Tabular data dollars in millions, except per share amounts

1. Segment Information

The Company has two reportable segments and two operating segments based on its geographic locations: the Americas and Europe. These two segments are aligned with the Company's internal approach to managing, reporting, and evaluating performance of its global glass operations. Certain assets and activities not directly related to one of the segments or to glass manufacturing are reported within Retained corporate costs and other. These include licensing, equipment manufacturing, global engineering, certain equity investments and certain minor businesses in the Asia Pacific region. Retained corporate costs and other also includes certain headquarters administrative and facilities costs and certain incentive compensation and other benefit plan costs that are global in nature and are not allocable to the reportable segments.

The Company's measure of profit for its reportable segments is segment operating profit, which is a non-GAAP financial measure that consists of consolidated earnings before interest income, interest expense, and provision for income taxes and excludes amounts related to certain items that management considers not representative of ongoing operations and other adjustments, as well as certain retained corporate costs. The Company's management, including the chief operating decision maker (defined as the Chief Executive Officer), uses segment operating profit, supplemented by net sales and selected cash flow information, to evaluate segment performance and allocate resources. Segment operating profit for reportable segments includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided. Segment operating profit is not a recognized term under accounting principles generally accepted in the United States ("U.S. GAAP") and, therefore, does not purport to be an alternative to earnings (loss) before income taxes. Further, the Company's measure of segment operating profit may not be comparable to similarly titled measures used by other companies.

In accordance with ASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," the Company has disclosed significant segment expenses reviewed by its chief operating decision maker. Other segment expenses (income) includes intangible amortization expense (Americas only), foreign currency exchange gains or losses, certain overhead expenses and other gains or losses.

Financial information for the three months ended March 31, 2026 and 2025 regarding the Company's reportable segments is as follows, as well as a reconciliation of segment operating profit to earnings (loss) before income taxes:

	Three months ended March 31,					
	2026			2025		
	Americas	Europe	Total	Americas	Europe	Total
Reportable segment net sales	\$ 871	\$ 655	\$ 1,526	\$ 873	\$ 667	\$ 1,540
Other			14			27
Net Sales			<u>\$ 1,540</u>			<u>\$ 1,567</u>
Less:						
Cost of goods sold	706	622		703	558	
Selling, administrative, engineering and research and development expenses	36	39		43	46	
Equity earnings	(20)	(6)		(19)	(4)	
Other segment expenses (income)	7			5	(1)	
Segment operating profit	\$ 142	\$ —	\$ 142	\$ 141	\$ 68	\$ 209
Items excluded from segment operating profit:						
<i>Reconciliation of segment operating profit</i>						
Retained corporate costs and other			(32)			(30)
Restructuring, asset impairment and other charges			(38)			(82)
Legacy environmental charge						(4)
Gain (loss) on sale of joint venture and miscellaneous assets			(46)			6
Interest expense, net			(79)			(81)
Earnings (loss) before income taxes			<u>\$ (53)</u>			<u>\$ 18</u>

	As of March 31,				
	Americas	Europe	Reportable Segment Totals	Retained Corp Costs and Other	Consolidated Totals
Total assets:					
2026	\$ 4,757	\$ 3,873	\$ 8,630	\$ 320	\$ 8,950
2025	4,707	3,682	8,389	340	8,729
Equity investments:					
2026	\$ 474	\$ 213	\$ 687	\$ 33	\$ 720
2025	456	193	649	34	683

	Three months ended March 31,				
	Americas	Europe	Reportable Segment Totals	Retained Corp Costs and Other	Consolidated Totals
Equity earnings:					
2026	\$ 20	\$ 6	\$ 26	\$ —	\$ 26
2025	19	4	23	—	23
Capital expenditures:					
2026	\$ 65	\$ 76	\$ 141	\$ 1	\$ 142
2025	62	72	134	1	135
Depreciation and amortization expense:					
2026	\$ 71	\$ 42	\$ 113	\$ 3	\$ 116
2025	73	37	110	5	115

The Company's tangible long-lived assets, including property, plant and equipment and operating lease right-of-use assets, by geographic region are as follows:

	As of March 31,		
	U.S.	Non-U.S.	Total
2026	\$ 774	\$ 2,829	\$ 3,603
2025	897	2,689	3,586

The Company's net sales by geographic region are as follows:

	Three months ended March 31,		
	U.S.	Non-U.S.	Total
2026	\$ 407	\$ 1,133	\$ 1,540
2025	441	1,126	1,567

Operations outside the U.S. that accounted for 10% or more of consolidated net sales during the three months ended March 31, 2026 and 2025 were in France (2026-12%, 2025-14%), Italy (2026-12%, 2025-12%), and Mexico (2026-13%, 2025-13%).

2. Revenue

Revenue is recognized at a point in time when obligations under the terms of the Company's contracts and related purchase orders with its customers are satisfied. This occurs with the transfer of control of glass containers, which primarily takes place when products are shipped from the Company's manufacturing or warehousing facilities to the customer. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transferring goods, which includes estimated provisions for rebates, discounts, returns and allowances. Amounts billed to customers related to shipping and handling or other pass-through items are included in net sales in the Condensed Consolidated Results of Operations. Sales, value-added, and other taxes the Company collects concurrent with revenue-producing activities are excluded from revenue. The Company's payment terms are based on customary business practices and can vary by customer type. The term between invoicing and when payment is due is not significant. Also, the Company elected to account for shipping and handling costs as a fulfillment cost at the time of shipment.

For the three-month periods ended March 31, 2026 and 2025, the Company had no material bad debt expense, and there were no material contract assets, contract liabilities or deferred contract costs recorded in the Condensed Consolidated Balance Sheets. For the three-month periods ended March 31, 2026 and 2025, revenue recognized from prior periods was not material.

The following tables for the three months ended March 31, 2026 and 2025 disaggregate the Company's revenue by customer end use:

	Three months ended March 31, 2026		
	Americas	Europe	Total
Alcoholic beverages (beer, wine, spirits)	\$ 465	\$ 464	\$ 929
Food and other	239	118	357
Non-alcoholic beverages	167	73	240
Reportable segment totals	<u>\$ 871</u>	<u>\$ 655</u>	<u>\$ 1,526</u>
Other			14
Net sales			<u>\$ 1,540</u>

	Three months ended March 31, 2025		
	Americas	Europe	Total
Alcoholic beverages (beer, wine, spirits)	\$ 503	\$ 481	\$ 984
Food and other	217	111	328
Non-alcoholic beverages	153	75	228
Reportable segment totals	<u>\$ 873</u>	<u>\$ 667</u>	<u>\$ 1,540</u>
Other			27
Net sales			<u>\$ 1,567</u>

3. Credit Losses

The Company is exposed to credit losses primarily through its sales of glass containers to customers. The Company's trade receivables from customers are due within one year or less. The Company assesses each customer's ability to pay for the glass containers it sells to them by conducting a credit review. The credit review considers the expected billing exposure and timing for payment and the customer's established credit rating or the Company's assessment of the customer's creditworthiness, based on an analysis of their financial statements when a credit rating is not available. The Company also considers contract terms and conditions, country and political risk, and business strategy in its evaluation. A credit limit is established for each customer based on the outcome of this review. The Company may require collateralized asset support or a prepayment to mitigate credit risk. The Company monitors its ongoing credit exposure through the active review of customer balances against contract terms and due dates, including timely account reconciliation, dispute resolution and payment confirmation. The Company may employ collection agencies and legal counsel to pursue the recovery of defaulted receivables.

At March 31, 2026 and 2025, the Company reported \$805 million and \$758 million of accounts receivable, respectively, net of allowances of \$32 million and \$32 million, respectively. Changes in the allowance were not material for each of the three months ended March 31, 2026 and 2025.

4. Inventories

Major classes of inventory at March 31, 2026, December 31, 2025 and March 31, 2025 are as follows:

	March 31, 2026	December 31, 2025	March 31, 2025
Finished goods	\$ 805	\$ 781	\$ 747
Raw materials	157	182	188
Operating supplies	41	39	50
	<u>\$ 1,003</u>	<u>\$ 1,002</u>	<u>\$ 985</u>

5. Derivative Instruments

The Company has certain derivative assets and liabilities which consist of natural gas forwards and collars, foreign exchange option and forward contracts, interest rate swaps and cross-currency swaps. The valuation of these instruments is determined primarily using the income approach, including discounted cash flow analysis on the expected cash flows of each derivative. Natural gas prices, foreign exchange rates and interest rates are the significant inputs into the valuation models. The Company also evaluates counterparty risk in determining fair values. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. Estimates of the fair value of foreign currency and commodity derivative instruments are determined using exchange traded prices and rates. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. These inputs

are observable in active markets over the terms of the instruments the Company holds, and accordingly, the Company classifies its derivative assets and liabilities as Level 2 in the hierarchy.

Commodity Forward Contracts and Collars Designated as Cash Flow Hedges

The Company has entered into commodity forward contracts and collars related to forecasted natural gas requirements, the objective of which are to limit the effects of fluctuations in future market prices of natural gas and the related volatility in cash flows.

An unrecognized loss of \$7 million and \$0 at March 31, 2026 and December 31, 2025, respectively, and an unrecognized gain of \$1 million at March 31, 2025 related to the commodity forward contracts and collars was included in Accumulated other comprehensive income (loss) ("Accumulated OCI"), and will be reclassified into earnings over the next 12 months.

Cash Flow Hedges of Foreign Exchange Risk

The Company has variable-interest rate borrowings denominated in currencies other than the functional currency of the borrowing subsidiaries. As a result, the Company is exposed to fluctuations in the currency of the borrowing against the subsidiaries' functional currency. The Company uses derivatives to manage these exposures and designates these derivatives as cash flow hedges of foreign exchange risk.

No unrecognized gains related to cross-currency swaps were included in Accumulated OCI at March 31, 2026, December 31, 2025 and March 31, 2025.

Fair Value Hedges of Foreign Exchange Risk

The Company has fixed and variable interest rate borrowings denominated in currencies other than the functional currency of the borrowing subsidiaries. As a result, the Company is exposed to fluctuations in the currency of the borrowing against the subsidiaries' functional currency. The Company uses derivatives to manage these exposures and designates these derivatives as fair value hedges of foreign exchange risk. Approximately \$5 million, \$1 million and \$2 million of the components were excluded from the assessment of effectiveness and are included in Accumulated OCI at March 31, 2026, December 31, 2025 and March 31, 2025, respectively.

Net Investment Hedges

The Company is exposed to fluctuations in foreign exchange rates on investments it holds in non-U.S. subsidiaries and uses cross-currency swaps to partially hedge this exposure.

Foreign Exchange Derivative Contracts Not Designated as Hedging Instruments

The Company uses short-term forward exchange or option agreements to purchase foreign currencies at set rates in the future. These agreements are used to limit exposure to fluctuations in foreign currency exchange rates for significant planned purchases of fixed assets or commodities that are denominated in currencies other than the subsidiaries' functional currency. The Company also uses foreign exchange agreements to offset the foreign currency exchange rate risk for receivables and payables, including intercompany receivables, payables, and loans, not denominated in, or indexed to, their functional currencies.

Balance Sheet Classification

The following table shows the amount and classification (as noted above) of the Company's derivatives at March 31, 2026, December 31, 2025 and March 31, 2025:

	Fair Value of Hedge Assets			Fair Value of Hedge Liabilities		
	March 31, 2026	December 31, 2025	March 31, 2025	March 31, 2026	December 31, 2025	March 31, 2025
Derivatives designated as hedging instruments:						
Commodity forward contracts and collars (a)	\$ 19	\$ —	\$ 1	\$ 2	\$ 2	\$ 2
Fair value hedges of foreign exchange risk (b)	2	1	3	64	78	90
Net investment hedges (c)	11	11	11	174	207	73
Total derivatives accounted for as hedges	<u>\$ 32</u>	<u>\$ 12</u>	<u>\$ 15</u>	<u>\$ 240</u>	<u>\$ 287</u>	<u>\$ 165</u>
Derivatives not designated as hedges:						
Foreign exchange derivative contracts (d)	5	2	10	6		13
Total derivatives	<u>\$ 37</u>	<u>\$ 14</u>	<u>\$ 25</u>	<u>\$ 246</u>	<u>\$ 287</u>	<u>\$ 178</u>
Current	\$ 22	\$ 14	\$ 25	\$ 67	\$ 71	\$ 60
Noncurrent	15		-	179	216	118
Total derivatives	<u>\$ 37</u>	<u>\$ 14</u>	<u>\$ 25</u>	<u>\$ 246</u>	<u>\$ 287</u>	<u>\$ 178</u>

- (a) The notional amount of the commodity forward contracts and collars was approximately 25 million, 9 million, and 8 million British Thermal Units at March 31, 2026, December 31, 2025, and March 31, 2025, respectively. The maximum maturity dates are in 2027 at March 31, 2026, December 31, 2025, and March 31, 2025.
- (b) The notional amounts of the fair value hedges of foreign exchange risk were \$400 million at March 31, 2026, \$400 million at December 31, 2025 and \$816 million at March 31, 2025. The maximum maturity dates are in 2030 at March 31, 2026, December 31, 2025 and March 31, 2025.
- (c) The notional amounts of the net investment hedges were €1,176 million at March 31, 2026, €1,176 million at December 31, 2025 and €969 million at March 31, 2025. The maximum maturity dates are in 2028 at March 31, 2026 and December 31, 2025 and in 2026 at March 31, 2025.
- (d) The notional amounts of the foreign exchange derivative contracts were \$677 million, \$526 million and \$957 million at March 31, 2026, December 31, 2025 and March 31, 2025, respectively. The maximum maturity dates are in 2026 at March 31, 2026 and December 31, 2025 and at March 31, 2025.

6. Restructuring Accruals

Selected information related to the restructuring accruals for the three months ended March 31, 2026 and 2025 is as follows:

	Fit to Win program			Total Restructuring
	Employee Costs	Asset Impairment	Other Exit Costs	
Balance at January 1, 2026	\$ 113	\$ —	\$ 70	\$ 183
Charges	27		11	38
Net cash paid, principally severance and related benefits	(25)		(10)	(35)
Other, including foreign exchange translation	(2)		(3)	(5)
Balance at March 31, 2026	\$ 113	\$ —	\$ 68	\$ 181

	Fit to Win program			Other Restructuring			Total Restructuring
	Employee Costs	Asset Impairment	Other Exit Costs	Employee Costs	Asset Impairment	Other Exit Costs	
Balance at January 1, 2025	\$ 51	\$ —	\$ 18	\$ 7	\$ —	\$ 4	\$ 80
Charges	50	14	18				82
Write-down of assets to net realizable value		(14)					(14)
Net cash paid, principally severance and related benefits	(23)		(4)	(1)			(28)
Balance at March 31, 2025	\$ 78	\$ —	\$ 32	\$ 6	\$ —	\$ 4	\$ 120

When a decision is made to take restructuring actions, the Company manages and accounts for them programmatically apart from the ongoing operations of the business. Information related to major programs is presented separately, while minor initiatives are presented on a combined basis.

As of March 31, 2026, the Company's only major restructuring program was the Fit to Win initiative, which is expected to reduce redundant production capacity and begin to optimize the network, as well as streamline other cost areas, such as selling, general and administrative expenses. Details regarding charges, payments and other changes to the Fit to Win restructuring accruals are presented in the tables above. The Fit to Win initiative is expected to last at

least through 2026, but management does not yet have an estimate for the total restructuring charges to be incurred with this program.

For the three months ended March 31, 2026, the Company recorded restructuring, asset impairment and other charges of approximately \$38 million to Other expense, net in the Condensed Consolidated Results of Operations, all of which related to the Fit to Win program. These charges consisted of employee costs, such as severance and benefit-related costs, write-down of assets and other exit costs in the Americas segment (\$3 million), Europe segment (\$31 million) and Retained corporate costs and other (\$4 million). As of March 31, 2026, the Company has incurred cumulative charges of approximately \$684 million related to the Fit to Win program. Additional restructuring charges are expected in future quarters when management completes its assessment to reduce redundant production capacity and streamline costs. The Company expects that the majority of the remaining cash expenditures related to the accrued employee and other exit costs will be paid out over the next several years.

For the three months ended March 31, 2025, the Company recorded restructuring, asset impairment and other charges of approximately \$82 million to Other expense, net in the Condensed Consolidated Results of Operations, all of which related to the Fit to Win program. These charges consisted of employee costs, such as severance and benefit-related costs, write-down of assets and other exit costs in the Americas segment (\$6 million), Europe segment (\$52 million) and Retained corporate costs and other (\$24 million). As of March 31, 2025, the Company had incurred cumulative charges of approximately \$283 million related to the Fit to Win program.

The Company's decisions to curtail selected production capacity have resulted in write-downs of certain long-lived assets to the extent their carrying value exceeded fair value or fair value less cost to sell. The Company classified the significant assumptions used to determine the fair value of the impaired assets in the period that the measurement was taken as Level 3 (third-party appraisals, where applicable) in the fair value hierarchy as set forth in the general accounting principles for fair value measurements. For the asset impairments recorded during the three-months ended March 31, 2026, the remaining carrying value of the impaired assets was approximately \$0.

7. Pension Benefit Plans

The components of the net periodic pension cost for the three months ended March 31, 2026 and 2025 are as follows:

	U.S.		Non-U.S.	
	Three months ended March 31,		Three months ended March 31,	
	2026	2025	2026	2025
Service cost	\$ 1	\$ 1	\$ 2	\$ 2
Interest cost	10	11	9	9
Expected asset return	(12)	(13)	(7)	(8)
Amortization of actuarial loss	3	3	3	2
Net periodic pension cost	<u>\$ 2</u>	<u>\$ 2</u>	<u>\$ 7</u>	<u>\$ 5</u>

The components of pension expense, other than the service cost component, are included in Other expense, net in the Condensed Consolidated Results of Operations.

8. Income Taxes

The Company calculates its interim tax provision using the estimated annual effective tax rate ("EAETR") methodology in accordance with ASC 740-270. The EAETR is applied to the year-to-date ordinary income, exclusive of discrete items. The tax effects of discrete items are then included to arrive at the total reported interim tax provision. The determination of the EAETR is based upon a number of estimates, including the estimated annual pretax ordinary income or loss in each tax jurisdiction in which the Company operates. The tax effects of discrete items are recognized in the tax provision in the quarter they occur, in accordance with U.S. GAAP. Depending on various factors, such as the item's significance in relation to total income and the rate of tax applicable in the jurisdiction to which it relates, discrete items in any quarter can materially impact the reported effective tax rate. The Company's annual effective tax rate may be affected by the mix of earnings in the U.S. and foreign jurisdictions, and factors such as changes in tax laws, tax rates

or regulations, changes in business, changing interpretation of existing tax laws or regulations and the finalization of tax audits and reviews, as well as other factors. As such, there can be significant volatility in interim tax provisions. The annual effective tax rate differs from the statutory U.S. Federal tax rate of 21%, primarily because of varying non-U.S. tax rates and the impact of the U.S. valuation allowance.

The Company is currently under income tax examination in various tax jurisdictions in which it operates, including Brazil, Canada, Colombia, Italy, Peru, Poland and the U.S. The years under examination range from 2004 through 2023. The Company has received tax assessments in excess of established reserves. The Company is contesting these tax assessments, and will continue to do so, including pursuing all available remedies, such as appeals and litigation, if necessary. The Company believes that adequate provisions for all income tax uncertainties have been made. However, if tax assessments are settled against the Company at amounts in excess of established reserves, it could have a material impact on the Company's consolidated results of operations, financial position or cash flows. Due to uncertainties regarding the ultimate resolution of income tax examinations, the Company is not able to reasonably estimate any tax assessments that may be settled at amounts in excess of established reserves in future periods, or the future periods in which any income tax payments to settle these provisions for income tax uncertainties.

9. Debt

The following table summarizes the long-term debt of the Company at March 31, 2026, December 31, 2025, and March 31, 2025:

	March 31, 2026	December 31, 2025	March 31, 2025
Secured Credit Agreement:			
Revolving Credit Facility:			
Revolving Loans	\$ —	\$ —	\$ —
Term Loans:			
Term Loans A	792	799	
Term Loans B	642	643	
Previous Secured Credit Agreement:			
Revolving Credit Facility:			
Revolving Loans			185
Term Loans:			
Term Loans A			1,338
Senior Notes:			
6.625%, due 2027	611	610	609
6.250%, due 2028 (€600 million)	684	700	645
5.250%, due 2029 (€500 million)	568	581	535
4.750%, due 2030	398	397	397
7.250%, due 2031	684	684	683
7.375%, due 2032	297	297	296
Finance leases	161	174	192
Other	27	18	9
Total long-term debt	4,864	4,903	4,889
Less amounts due within one year	64	66	103
Long-term debt	\$ 4,800	\$ 4,837	\$ 4,786

The Company presents debt issuance costs in the Condensed Consolidated Balance Sheets as a deduction of the carrying amount of the related debt liability.

On September 30, 2025, certain of the Company's subsidiaries entered into an Amended and Restated Credit Agreement and Syndicated Facility Agreement (the "Credit Agreement"), which refinanced in full the previous credit agreement. The Credit Agreement provides for up to \$2.7 billion of borrowings pursuant to term loans A, term loans B and a revolving credit facility. The term loans A mature, and the revolving credit facility terminates, in September 2030, and the term loans B mature in September 2032; provided, however, that if any of the senior notes issued by certain subsidiaries of the Company are outstanding on the date that is 91 days prior to the maturity date for such senior notes (any such date, a "Springing Maturity Date"), then the term loans A, the revolving credit facility and the term loans B will mature and terminate, as applicable, on such Springing Maturity Date. Borrowings under the Credit Agreement are secured by certain collateral of the Company and certain of its subsidiaries.

At March 31, 2026, the Credit Agreement includes a \$1.25 billion multicurrency revolving credit facility, the U.S. dollar equivalent of \$800 million in term loan A facilities (\$792 million outstanding balance at March 31, 2026, net of debt issuance costs) and \$650 million in term loan B facilities (\$642 million outstanding balance at March 31, 2026, net of debt issuance costs). At March 31, 2026, the Company's subsidiaries that are party to the Credit Agreement had unused credit of \$1.24 billion available under the revolving credit facilities as part of the Credit Agreement. The weighted average interest rate on borrowings outstanding under the Credit Agreement at March 31, 2026 was 5.36%.

The Credit Agreement contains various covenants that restrict, among other things and subject to certain exceptions, the ability of the Company to incur certain indebtedness and liens, make certain investments, become liable under contingent obligations in certain defined instances only, make restricted payments, make certain asset sales within guidelines and limits, engage in certain affiliate transactions, participate in sale and leaseback financing arrangements, alter its fundamental business, and amend certain subordinated debt obligations.

The Credit Agreement also contains one financial maintenance covenant, a Secured Leverage Ratio, for the benefit of lenders under the term loans A and the revolving credit facility (and, following an acceleration of the term loans A and the revolving credit facility, for the benefit of the lenders under the term loans B) that requires the Company and certain of its subsidiaries, collectively, not to exceed a ratio of 2.50x calculated by dividing consolidated Net Indebtedness that is then secured by Liens on property or assets of the Company and certain of its subsidiaries by Consolidated EBITDA, as each such capitalized term is defined in the Credit Agreement. The Secured Leverage Ratio could restrict the ability of the Company and certain of its subsidiaries to undertake additional financing or acquisitions to the extent that such financing or acquisitions would cause the Secured Leverage Ratio to exceed the specified maximum.

Failure to comply with these covenants and restrictions could result in an event of default under the Credit Agreement. In such an event, the applicable borrowers under the Credit Agreement would not be able to request borrowings under the revolving credit facility, and all amounts outstanding under the Credit Agreement, together with accrued interest, could then be declared immediately due and payable. Upon the occurrence and for the duration of a payment event of default, an additional default interest rate equal to 2.0% per annum will apply to all overdue obligations under the Credit Agreement. If an event of default occurs under the Credit Agreement and the lenders cause all of the outstanding debt obligations under the Credit Agreement to become due and payable, this could result in a default under a number of other outstanding debt securities and could lead to an acceleration of obligations related to these debt securities. As of March 31, 2026, the Company was in compliance with all covenants and restrictions in the Credit Agreement. In addition, the Company believes that it will remain in compliance for the term of the Credit Agreement and that its ability to borrow additional funds under the Credit Agreement will not be adversely affected by the covenants and restrictions.

The Total Leverage Ratio (as defined in the Credit Agreement) determines pricing under the Credit Agreement for the Term Loans A and the revolving credit facility. The interest rate on borrowings under the Credit Agreement is, at the option of the applicable borrower, the Base Rate, Term SOFR or, for non-U.S. Dollar borrowings only, the Eurocurrency Rate (each such capitalized term as defined in the Credit Agreement), plus an applicable margin. The applicable margin, for the Term Loans A and the revolving credit facility, ranges from 1.00% to 1.75% for Term SOFR loans and Eurocurrency Rate loans and from 0.00% to 0.75% for Base Rate loans. The applicable margin, for the Term Loans B, is 3.00% for Term SOFR loans. In addition, a commitment fee is payable on the unused revolving credit facility commitments ranging from 0.20% to 0.35% per annum, depending on the Total Leverage Ratio.

Obligations under the Credit Agreement are secured by substantially all of the assets, excluding real estate and certain other excluded assets, of certain of the Company’s domestic subsidiaries and certain foreign subsidiaries. Such obligations are also secured by a pledge of intercompany debt and equity investments in certain of the Company’s domestic subsidiaries and, in the case of foreign obligations, of stock of certain foreign subsidiaries. All obligations under the Credit Agreement are guaranteed by certain domestic subsidiaries of the Company, and certain foreign obligations under the Credit Agreement are guaranteed by certain foreign subsidiaries of the Company.

The Company assesses its capital raising and refinancing needs on an ongoing basis and may enter into additional credit facilities and seek to issue equity and/or debt securities in the domestic and international capital markets if market conditions are favorable. Also, depending on market conditions, the Company may elect to repurchase portions of its debt securities in the open market.

The carrying amounts reported for certain long-term debt obligations subject to frequently redetermined interest rates approximate fair value. Fair values for the Company’s significant fixed rate debt obligations are based on published market quotations and are classified as Level 1 in the fair value hierarchy. Fair values at March 31, 2026 of the Company’s significant fixed rate debt obligations are as follows:

	Principal Amount	Indicated Market Price	Fair Value
Senior Notes:			
6.625%, due 2027	\$ 612	100.18	\$ 613
6.250%, due 2028 (€600 million)	688	100.38	691
5.250%, due 2029 (€500 million)	574	98.87	568
4.750%, due 2030	400	93.24	373
7.250%, due 2031	690	95.68	660
7.375%, due 2032	300	94.48	283

10. Contingencies

The Company has been identified by the U.S. Environmental Protection Agency (“EPA”) or a comparable state or federal agency as a potentially responsible party (“PRP”) at a number of sites in the U.S., including certain Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (“CERCLA”) (Superfund) sites, as well as sites previously owned or operated by the Company. As an identified PRP, the Company may have liability for investigation, remediation and monitoring of contamination, as well as associated penalties and natural resource damages, if any. The Company has not had monetary sanctions imposed nor has the Company been notified of any potential monetary sanctions at any of the sites.

The Company has recorded aggregate accruals of approximately \$21 million, \$21 million and \$38 million (undiscounted) as of March 31, 2026, December 31, 2025 and March 31, 2025, respectively, for estimated future remediation and monitoring costs at these sites. Although the Company believes its accruals are adequate to cover its portion of future remediation and monitoring costs, there can be no assurance that the ultimate payments will not exceed the amount of the Company’s accruals and will not have a material effect on its results of operations, financial position and cash flows.

As part of the above, from December 31, 1956 through June 1967, the Company, via a wholly-owned subsidiary, owned and operated a paper mill located on the shore of the Cuyahoga River in Ohio, which is now part of the Cuyahoga Valley National Park that is managed by the National Park Service (“NPS”). The Company and the United States had been engaged in litigation regarding the site in the U.S. District Court for the Northern District of Ohio (Akron), with the United States claiming that the Company should pay \$50 million as a remedy for certain soils at the site as well as its past and anticipated future costs. In 2024, the Company recorded charges of \$11 million as its best estimate of this liability. In the first quarter of 2025, the Company and the NPS reached a tentative settlement, and the Company recorded a charge of approximately \$4 million to Other expense, net in the Condensed Consolidated Results of

Operations to augment its previous accrual balance related to this matter. In the third quarter of 2025, the consent order between the parties was approved by the U.S. District Court, and the Company paid \$16.5 million to resolve this matter.

The Company is being investigated by authorities in France for alleged anti-competitive conduct in that country. To date, the French authorities have not officially charged O-I's business in that country with any violations of competition law. With regard to the above, the Company is committed to compliance with laws in the jurisdictions it operates and maintains policies and procedures regarding competition law. If the authorities in France find that the Company or any of its subsidiaries or joint ventures violated competition law, they could levy fines, which amounts could be material. At this stage, the Company is unable to predict the ultimate outcome of the investigations, and any potential loss cannot be estimated.

Other litigation is pending against the Company, in some cases involving ordinary and routine claims incidental to the business of the Company and in others presenting allegations that are non-routine and involve compensatory, punitive or treble damage claims as well as other types of relief. The Company records a liability for such matters when it is both probable that the liability has been incurred and the amount of the liability can be reasonably estimated. Recorded amounts are reviewed and adjusted to reflect changes in the factors upon which the estimates are based, including additional information, negotiations, settlements and other events.

11. Share Owners' Equity

The activity in share owners' equity for the three months ended March 31, 2026 and 2025 is as follows:

	Share Owners' Equity of the Company						Total Share Owners' Equity
	Common Stock	Capital in Excess of Par Value	Treasury Stock	Retained Earnings	Accumulated Other Comprehensive Loss	Non-controlling Interests	
Balance on January 1, 2026	\$ 2	\$ 3,031	(667)	\$ 548	\$ (1,620)	\$ 151	\$ 1,445
Reissuance of common stock (0.2 million shares)		(2)	4				2
Shares repurchased (0.6 million shares)		(10)					(10)
Stock compensation (0.8 million shares)		5					5
Net loss				(73)		2	(71)
Other comprehensive income					62	3	65
Other			(4)				(4)
Balance on March 31, 2026	<u>\$ 2</u>	<u>\$ 3,024</u>	<u>\$ (667)</u>	<u>\$ 475</u>	<u>\$ (1,558)</u>	<u>\$ 156</u>	<u>\$ 1,432</u>

	Share Owners' Equity of the Company						
	Common Stock	Capital in Excess of Par Value	Treasury Stock	Retained Earnings	Accumulated Other Comprehensive Loss	Non-controlling Interests	Total Share Owners' Equity
Balance on January 1, 2025	\$ 2	\$ 3,053	\$ (677)	\$ 676	\$ (1,975)	\$ 126	\$ 1,205
Reissuance of common stock (0.2 million shares)		(2)	5				3
Shares repurchased (0.9 million shares)		(10)					(10)
Stock compensation (1.3 million shares)		4					4
Net loss				(16)		4	(12)
Other comprehensive income					61	5	66
Other			(7)				(7)
Balance on March 31, 2025	<u>\$ 2</u>	<u>\$ 3,045</u>	<u>\$ (679)</u>	<u>\$ 660</u>	<u>\$ (1,914)</u>	<u>\$ 135</u>	<u>\$ 1,249</u>

During the three months ended March 31, 2026, the Company purchased 644,257 shares of its common stock for approximately \$10 million. The share purchases were made pursuant to a \$100 million anti-dilutive share repurchase program authorized by the Company's Board of Directors on May 14, 2024, which is intended to offset stock-based compensation provided to the Company's directors, officers, and employees. Approximately \$30 million remained available for purchases under this program as of March 31, 2026.

The Company has 250,000,000 shares of common stock authorized with a par value of \$.01 per share. Shares outstanding are as follows:

	Shares Outstanding (in thousands)		
	March 31, 2026	December 31, 2025	March 31, 2025
Shares of common stock issued (including treasury shares)	184,057	183,531	185,824
Treasury shares	30,757	30,558	31,141

12. Accumulated Other Comprehensive Loss

The activity in accumulated other comprehensive loss for the three months ended March 31, 2026 and 2025 is as follows:

	Net Effect of Exchange Rate Fluctuations	Change in Certain Derivative Instruments	Employee Benefit Plans	Total Accumulated Other Comprehensive Loss
Balance on January 1, 2026	\$ (1,019)	\$ (119)	\$ (482)	\$ (1,620)
Change before reclassifications	20	32	(1)	51
Amounts reclassified from accumulated other comprehensive income (loss)		3 (a)	6 (b)	9
Translation effect			3	3
Tax effect		(1)		(1)
Other comprehensive income (loss) attributable to the Company	20	34	8	62
Balance on March 31, 2026	<u>\$ (999)</u>	<u>\$ (85)</u>	<u>\$ (474)</u>	<u>\$ (1,558)</u>

	Net Effect of Exchange Rate Fluctuations	Change in Certain Derivative Instruments	Employee Benefit Plans	Total Accumulated Other Comprehensive Loss
Balance on January 1, 2025	\$ (1,435)	\$ (14)	\$ (526)	\$ (1,975)
Change before reclassifications	92	(28)	(2)	62
Amounts reclassified from accumulated other comprehensive income (loss)		3 (a)	5 (b)	8
Translation effect			(6)	(6)
Tax effect		(3)		(3)
Other comprehensive income (loss) attributable to the Company	92	(28)	(3)	61
Balance on March 31, 2025	<u>\$ (1,343)</u>	<u>\$ (42)</u>	<u>\$ (529)</u>	<u>\$ (1,914)</u>

- (a) Amount is recorded to cost of goods sold and interest expense, net in the Condensed Consolidated Results of Operations (see Note 5 for additional information).
- (b) Amount is included in the computation of net periodic pension cost (see Note 7 for additional information) and net post-retirement benefit cost.

13. Other Expense, Net

Other expense, net for the three months ended March 31, 2026 and 2025 included the following:

	Three months ended March 31,	
	2026	2025
Restructuring, asset impairment and other charges	\$ (38)	\$ (82)
Gain (loss) on sale of joint venture and miscellaneous assets	(46)	6
Legacy environmental charge (see Note 10)		(4)
Intangible amortization expense	(7)	(6)
Foreign currency exchange loss	1	
Royalty income	4	5
Other income (expense)	(5)	(1)
Other expense, net	<u>\$ (91)</u>	<u>\$ (82)</u>

In the first quarter of 2026, the Company recorded pre-tax losses of approximately \$46 million, primarily related to the sale of its share of a joint venture in the former Asia Pacific region. In the first quarter of 2025, the Company recorded pre-tax gains of approximately \$6 million on the sale of land and buildings of a previously closed plant in the Americas.

14. Earnings (Loss) Per Share

The following table sets forth the computation of basic and diluted earnings (loss) per share for the three months ended March 31, 2026 and 2025:

	Three months ended March 31,	
	2026	2025
Numerator:		
Net loss attributable to the Company	\$ (73)	\$ (16)
Denominator (in thousands):		
Denominator for basic earnings per share-weighted average shares outstanding	152,683	153,708
Effect of dilutive securities:		
Stock options and other		
Denominator for diluted earnings per share-adjusted weighted average shares outstanding	152,683	153,708
Basic earnings (loss) per share:		
Net loss attributable to the Company	\$ (0.48)	\$ (0.10)
Diluted earnings (loss) per share:		
Net loss attributable to the Company	\$ (0.48)	\$ (0.10)

The diluted earnings (loss) per share computation for the three months ended March 31, 2026 and 2025 excludes 522,260 and 703,796 weighted average shares of common stock, respectively, due to their antidilutive effect, which includes unvested restricted stock units and performance vested restricted share units. For the three months ended March 31, 2026 and 2025, diluted earnings (loss) per share of common stock was equal to basic loss per share of common stock due to the net loss attributable to the Company.

15. Supplemental Cash Flow Information

Income taxes paid in cash were as follows:

	Three months ended March 31,	
	2026	2025
U.S.	\$ 5	\$ 4
Non-U.S.	31	39
Total income taxes paid in cash	\$ 36	\$ 43

Interest paid in cash for the three months ended March 31, 2026 and 2025 was \$49 million and \$56 million, respectively.

The Company uses various factoring programs to sell certain trade receivables to financial institutions as part of managing its cash flows. Sales of trade receivables are accounted for in accordance with ASC Topic 860, Transfers and Servicing. Trade receivables sold under the factoring programs are transferred without recourse to the Company and accounted for as true sales and, therefore, are excluded from Trade receivables, net in the Condensed Consolidated Balance Sheets. At March 31, 2026, December 31, 2025 and March 31, 2025, the total amount of trade receivables sold by the Company was \$438 million, \$531 million, and \$504 million, respectively. These amounts included \$167 million, \$159 million and \$180 million at March 31, 2026, December 31, 2025, and March 31, 2025, respectively, for trade receivable amounts factored under supply-chain financing programs linked to commercial arrangements with key customers. The Company is the master servicer for the factoring programs that are not associated with key customers and is responsible for administering and collecting receivables.

The Company's use of its accounts receivable factoring programs resulted in an increase to cash utilized in operating activities of approximately \$93 million and \$31 million for the three months ended March 31, 2026 and March 31, 2025, respectively. For the three months ended March 31, 2026 and 2025, the Company recorded expenses related to these factoring programs of approximately \$4 million and \$5 million, respectively.

In addition, the Company has agreements with third-party administrators that allow participating vendors to track the Company's payments and, if voluntarily elected by the vendor, to sell payment obligations from the Company to financial institutions as part of a Supply Chain Financing ("SCF") Program.

The Company's outstanding obligations under the SCF Program are as follows:

	<u>Three months ended March 31,</u>	
	<u>2026</u>	<u>2025</u>
Confirmed obligations outstanding at the beginning of the period	\$ 69	\$ 82
Invoices confirmed during the period	74	78
Confirmed invoices paid during the period	(80)	(92)
Confirmed obligations outstanding at the end of the period	<u>\$ 63</u>	<u>\$ 68</u>

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The Company’s measure of profit for its reportable segments is segment operating profit, which consists of consolidated earnings (loss) before interest expense, net and provision for income taxes and excludes amounts related to certain items that management considers not representative of ongoing operations and other adjustments, as well as certain retained corporate costs. The segment data presented below is prepared in accordance with general accounting principles for segment reporting. The lines titled “reportable segment totals” in both net sales and segment operating profit, however, are non-GAAP measures when presented outside of the financial statement footnotes. Management has included reportable segment totals below to facilitate the discussion and analysis of financial condition and results of operations and believes this information allows the Board of Directors, management, investors and analysts to better understand the Company’s financial performance. The Company’s management, including the chief operating decision maker (defined as the Chief Executive Officer), uses segment operating profit, supplemented by net sales and selected cash flow information, to evaluate segment performance and allocate resources. Segment operating profit is not, however, intended as an alternative measure of operating results as determined in accordance with U.S. GAAP and is not necessarily comparable to similarly titled measures used by other companies.

Financial information for the three months ended March 31, 2026 and 2025 regarding the Company’s reportable segments is as follows (dollars in millions):

	Three months ended March 31,	
	2026	2025
Net Sales:		
Americas	\$ 871	\$ 873
Europe	655	667
Reportable segment totals	1,526	1,540
Other	14	27
Net Sales	<u>\$ 1,540</u>	<u>\$ 1,567</u>
	Three months ended March 31,	
	2026	2025
Net loss attributable to the Company	\$ (73)	\$ (16)
Net earnings attributable to non-controlling interests	2	4
Net loss	(71)	(12)
Provision for income taxes	18	30
Earnings (loss) before income taxes	(53)	18
Items excluded from segment operating profit:		
Retained corporate costs and other	32	30
Restructuring, asset impairment and other charges	38	82
Legacy environmental charge		4
(Gain) loss on sale of joint venture and miscellaneous assets	46	(6)
Interest expense, net	79	81
Segment operating profit	<u>\$ 142</u>	<u>\$ 209</u>
Americas	142	141
Europe		68
Reportable segment totals	<u>\$ 142</u>	<u>\$ 209</u>

Note: All amounts excluded from reportable segment totals are discussed in the following applicable sections.

Executive Overview — Quarters ended March 31, 2026 and 2025

Net sales in the first quarter of 2026 decreased \$27 million, or approximately 2%, compared to the same period in the prior year, primarily due to the impact from lower sales volumes and lower average selling prices, partially offset by favorable foreign currency translation.

Loss before income taxes changed by \$71 million in the first quarter of 2026 compared to earnings before income taxes in the same quarter in 2025. This change was primarily due to lower segment operating profit in Europe.

Segment operating profit of reportable segments in the first quarter of 2026 was \$67 million lower compared to the same period in the prior year, primarily due to lower net prices (net of cost inflation) and lower sales volumes, partially offset by slightly lower operating costs and the favorable impact of foreign currency translation. Operating costs were favorably impacted by benefits from the Company's Fit to Win initiatives, partially offset by temporary production curtailments and several external disruptions in the Americas, temporary expenses associated with plant closures in Europe and the nonrecurrence of an insurance settlement in the first quarter of 2025.

Net interest expense in the first quarter of 2026 decreased \$2 million compared to the first quarter of 2025.

In the first quarter of 2026, the Company recorded net loss attributable to the Company of \$73 million, or \$0.48 per share, compared to a net loss attributable to the Company of \$16 million, or \$0.10 per share, in the first quarter of 2025. As discussed below, net loss attributable to the Company in 2026 and 2025 included items that management considers not representative of ongoing operations and other adjustments. These items increased net loss attributable to the Company by \$81 million, or \$0.53 per share, in the first quarter of 2026 and increased net loss attributable to the Company by \$79 million, or \$0.50 per share, in the first quarter of 2025.

Results of Operations — First Quarter of 2026 Compared with First Quarter of 2025

Net Sales

The Company's net sales in the first quarter of 2026 were \$1,540 million compared with \$1,567 million in the first quarter of 2025, a decrease of \$27 million, or approximately 2%. Average selling prices declined, which decreased net sales by \$13 million in the first quarter of 2026. Glass container shipments, in tons, were down approximately 9% in the first quarter of 2026 (down approximately 8% excluding the impact of a divestiture), which decreased net sales by approximately \$131 million compared to the same period in the prior year. The Company believes that several factors contributed to lower volumes in the first quarter of 2026, including softer demand in the beer, wine and spirits categories, tougher comparisons as the first quarter of 2025 likely benefitted from higher demand ahead of new U.S. tariffs and competitive pressures, primarily in Europe. Favorable foreign currency exchange rates increased net sales by \$130 million in the first quarter of 2026 compared to the same period in the prior year. Other sales were approximately \$13 million lower in the first quarter of 2026 than in the same quarter in the prior year, driven by the divestiture of a plant in the fourth quarter of 2025 in the former Asia Pacific region.

The change in net sales of reportable segments can be summarized as follows (dollars in millions):

Reportable segment net sales - 2025		\$ 1,540
Price	\$ (13)	
Sales volume and mix	(131)	
Effects of changing foreign currency rates	130	
Total effect on reportable segment net sales		(14)
Reportable segment net sales - 2026		<u>\$ 1,526</u>

Americas: Net sales in the Americas in the first quarter of 2026 were \$871 million compared to \$873 million in the first quarter of 2025, a decrease of \$2 million, or less than 1%. Higher selling prices in the region increased net sales by \$23 million in the first quarter of 2026. Glass container shipments were approximately 9% lower in the first quarter of 2026, which decreased net sales by approximately \$82 million, due to challenging prior year comparisons and soft

demand in the beer and wine categories and ongoing customer inventory adjustments in spirits. Sales trends were more stable in the food and non-alcoholic beverage categories. Sales volumes in the first quarter of 2026 throughout the segment were down in North America and Mexico and up in South America compared to the first quarter of 2025. The favorable effects of foreign currency exchange rate changes increased net sales by \$57 million in the first quarter of 2026 compared to the same period in 2025, as the Brazilian Real, Colombian Peso and Mexican Peso strengthened compared to the U.S. dollar.

Europe: Net sales in Europe in the first quarter of 2026 were \$655 million compared to \$667 million in the first quarter of 2025, a decrease of \$12 million, or approximately 2%. Lower average selling prices in Europe decreased net sales by \$36 million in the first quarter of 2026. Glass container shipments decreased by approximately 7% in the first quarter of 2026, which decreased net sales by approximately \$49 million. The Company believes that net sales in the first quarter of 2026 were adversely impacted by competitive price pressure in select markets and tougher comparisons, as the first quarter of 2025 likely benefitted from higher demand ahead of new U.S. tariffs. Lower shipments were most pronounced to wine customers across Southern Europe. Favorable effects of foreign currency exchange rate changes increased net sales by \$73 million in the first quarter of 2026 compared to the same period in the prior year, as the Euro strengthened compared to the U.S. dollar.

Earnings (Loss) before Income Taxes and Segment Operating Profit

Loss before income taxes was \$53 million in the first quarter of 2026 compared to earnings before income taxes of \$18 million in the first quarter of 2025, a change of \$71 million. This change was primarily due to lower segment operating profit in Europe.

Segment operating profit of the reportable segments includes an allocation of some corporate expenses based on a percentage of sales and direct billings based on the costs of specific services provided. Unallocated corporate expenses and certain other expenses not directly related to the reportable segments' operations are included in Retained corporate costs and other. For further information, see Segment Information included in Note 1 to the Condensed Consolidated Financial Statements.

Segment operating profit of reportable segments in the first quarter of 2026 was \$142 million, compared to \$209 million in the first quarter of 2025, a decrease of \$67 million, or 32%. This decrease was primarily due to lower net prices (net of cost inflation) and lower sales volumes. Operating costs were slightly lower and favorably impacted by approximately \$38 million of benefits from the Company's Fit to Win initiative (consistent with management's expectations), partially offset by approximately \$30 million related to temporary production curtailments, several external disruptions in the Americas, temporary expenses associated with plant closures in Europe and other higher costs and the nonrecurrence of a \$7 million insurance settlement in the first quarter of 2025. Favorable foreign currency exchange rates increased segment operating profit by \$13 million in the first quarter of 2026 compared to the same quarter in the prior year.

The change in segment operating profit of reportable segments can be summarized as follows (dollars in millions):

Reportable segment operating profit - 2025		\$ 209
Net price (net of cost inflation)	\$ (65)	
Sales volume and mix	(16)	
Operating costs	1	
Effects of changing foreign currency rates	13	
Total net effect on reportable segment operating profit		(67)
Reportable segment operating profit - 2026		<u>\$ 142</u>

Americas: Segment operating profit in the Americas was \$142 million in the first quarter of 2026, compared to \$141 million in the first quarter of 2025, an increase of \$1 million, or less than 1%. The impact of lower shipments discussed above, partially offset by an improved mix, decreased segment operating profit by \$8 million in the first quarter of 2026 compared to the same quarter in 2025. Higher selling prices exceeded higher cost inflation and resulted

in a \$11 million increase to segment operating profit in the first quarter of 2026. The effects of foreign currency exchange rates increased segment operating profit by \$7 million in the first quarter of 2026.

In addition, operating costs in the first quarter of 2026 were \$9 million higher than in the same period in the prior year, primarily due to approximately \$20 million from temporary production curtailments to balance supply and demand and several external disruptions, including extreme weather in North America, civil unrest in Mexico and a natural gas pipeline outage in Peru, and the nonoccurrence of a \$7 million insurance settlement recorded in the first quarter of 2025, partially offset by approximately \$18 million in savings from the Company's Fit To Win initiatives.

As part of its Fit to Win initiative, the Company will continue to monitor business trends and consider whether any additional temporary downtime or permanent capacity closures in the Americas will be necessary in future periods to align its business with demand trends. Any permanent capacity closures could result in material restructuring and impairment charges, as well as cash expenditures, in future periods.

Europe: Segment operating profit in Europe was \$0 in the first quarter of 2026 compared to \$68 million in the first quarter of 2025, a decrease of \$68 million. Lower net selling prices (net of cost inflation) decreased segment operating profit by \$76 million in the first quarter of 2026 compared to the same quarter in 2025 due to a step-up in energy costs following the expiration of favorable energy contracts at the end of 2025 and elevated competitive pressures. The impact of lower shipments discussed above decreased segment operating profit by approximately \$8 million.

Partially offsetting this was the benefit of \$10 million of lower operating costs in the first quarter of 2026 compared to the same quarter in 2025, driven by approximately \$20 million of benefits from the Fit to Win initiatives. These benefits were partially offset by approximately \$10 million related to temporary expenses associated with plant closures in Europe and other higher costs. The effects of foreign currency exchange rates increased segment operating profit by \$6 million in the first quarter of 2026.

As part of its Fit to Win initiative, the Company will continue to monitor business trends and consider whether any additional temporary downtime or permanent capacity closures in Europe will be necessary in future periods to align its business with demand trends. Any permanent capacity closures could result in material restructuring and impairment charges, as well as cash expenditures, in future periods.

Interest Expense, Net

Net interest expense in the first quarter of 2026 was \$79 million compared to \$81 million in the first quarter of 2025.

Provision for Income Taxes

The Company's effective tax rate from operations for the first quarter of 2026 was (34%) compared to 167% for the first quarter of 2025. The effective tax rate for the first quarter of 2026 differed from the first quarter of 2025 due to pretax earnings changing from pretax income in 2025 to a pretax loss in 2026 and a change in the mix of geographic earnings.

Net Earnings (Loss) Attributable to the Company

For the first quarter of 2026, the Company recorded a net loss attributable to the Company of \$73 million, or \$0.48 per share, compared to a net loss attributable to the Company of \$16 million, or \$0.10 per share, in the first quarter of 2025. Net loss attributable to the Company in the first quarter of 2026 and 2025 included items that management considers not representative of ongoing operations and other adjustments as set forth in the following table (dollars in millions).

Description	Net Loss (Increase) Decrease	
	2026	2025
Restructuring, asset impairment and other charges	\$ (38)	\$ (82)
Gain (loss) on sale of joint venture and miscellaneous assets	(46)	6
Legacy environmental charge		(4)
Net benefit for income tax on items above	3	1
Total	<u>\$ (81)</u>	<u>\$ (79)</u>

Forward-Looking Operational and Financial Information

- While sales volumes in the first quarter of 2026 were challenging, the Company believes the trend is improving. Volume trends improved sequentially through the first quarter of 2026, with March 2026 volumes down approximately 2% from March 2025. This trend reinforces the Company's confidence in the volume trajectory expected for the remainder of 2026. The Company continues to anticipate approximately flat second-quarter 2026 volumes and low- to mid-single-digit growth in the second half of 2026 compared to the same periods in 2025, supported by new business wins that are largely in the Americas. The Company anticipates profitable, sustainable growth in the 1% to 2% range beginning in 2027.
- Net prices (net of cost inflation) are expected to be unfavorable in 2026 and include approximately \$150 million of higher energy costs in Europe as certain energy contracts are reset at higher cost levels, as well as \$75 million to \$100 million of additional inflation through further energy market inflation as a result of Middle East conflicts.
- To help limit energy-cost exposure, the Company has secured approximately 75–80% of its European natural-gas requirements for 2026 at rates favorable to current index prices.
- Management anticipates generating at least \$275 million of Fit To Win benefits in 2026. On a cumulative basis, the Company expects at least \$750 million of Fit To Win benefits through 2027 (with 2024 as a baseline).
- Cash provided by operating activities is expected to range between approximately \$500 million and \$600 million for 2026, including approximately \$150 million of restructuring payments. Capital expenditures in 2026 are expected to be approximately \$450 million.

Items Excluded from Reportable Segment Totals

Retained Corporate Costs and Other

Retained corporate costs and other for the first quarter of 2026 were \$32 million compared to \$30 million in the first quarter of 2025. These costs increased in the first quarter of 2026, primarily due to higher expenses related to transformation activities and lower recharges to the regions due to decreasing costs, partially offset by approximately \$12 million of benefits from the Company's Fit to Win initiative (consistent with management's expectations).

Restructuring, Asset Impairment and Other Charges

For the three months ended March 31, 2026, the Company recorded restructuring, asset impairment and other charges of approximately \$38 million to Other expense, net in the Condensed Consolidated Results of Operations, all of which related to the Fit to Win program. These charges consisted of employee costs, such as severance and benefit-related costs, write-down of assets and other exit costs in the Americas segment (\$3 million), Europe segment (\$31 million) and Retained corporate costs and other (\$4 million). As of March 31, 2026, the Company has incurred cumulative charges of approximately \$684 million related to the Fit to Win program. Additional restructuring charges are expected in future quarters when management completes its assessment to reduce redundant production capacity and streamline costs. The Company expects that the majority of the remaining cash expenditures related to the accrued employee and other exit costs will be paid out over the next several years.

For the three months ended March 31, 2025, the Company recorded restructuring, asset impairment and other charges of approximately \$82 million to Other expense, net in the Condensed Consolidated Results of Operations, all of which related to the Fit to Win program. These charges consisted of employee costs, such as severance and benefit-related costs, write-down of assets and other exit costs in the Americas segment (\$6 million), Europe segment (\$52 million) and Retained corporate costs and other (\$24 million).

Gain (Loss) on Sale of Miscellaneous Assets

In the first quarter of 2026, the Company recorded pre-tax losses of approximately \$46 million, primarily related to the sale of its share of a joint venture in the former Asia Pacific region.

In the first quarter of 2025, the Company recorded pre-tax gains of approximately \$6 million on the sale of land and buildings of a previously closed plant in the Americas.

Legacy Environmental Charge

From December 31, 1956 through June 1967, the Company, via a wholly-owned subsidiary, owned and operated a paper mill located on the shore of the Cuyahoga River in Ohio, which is now part of the Cuyahoga Valley National Park that is managed by the National Park Service (“NPS”). The Company and the United States had been engaged in litigation regarding the site in the U.S. District Court for the Northern District of Ohio (Akron), with the United States claiming that the Company should pay \$50 million as a remedy for certain soils at the site as well as its past and anticipated future costs. In the first quarter of 2025, the Company and the NPS reached a tentative settlement, and the Company recorded a charge of approximately \$4 million to Other expense, net in the Condensed Consolidated Results of Operations to augment its previous accrual balance related to this matter. In the third quarter of 2025, the consent order between the parties was approved by the U.S. District Court and the Company paid \$16.5 million to resolve this matter.

Capital Resources and Liquidity

On September 30, 2025, certain of the Company’s subsidiaries entered into an Amended and Restated Credit Agreement and Syndicated Facility Agreement (the “Credit Agreement”), which refinanced in full the previous credit agreement. The Credit Agreement provides for up to \$2.7 billion of borrowings pursuant to term loans A, term loans B and a revolving credit facility. The term loans A mature, and the revolving credit facility terminates, in September 2030, and the term loans B mature in September 2032; provided, however, that if any of the senior notes issued by certain subsidiaries of the Company are outstanding on the date that is 91 days prior to the maturity date for such senior notes (any such date, a “Springing Maturity Date”), then the term loans A, the revolving credit facility and the term loans B will mature and terminate, as applicable, on such Springing Maturity Date. Borrowings under the Credit Agreement are secured by certain collateral of the Company and certain of its subsidiaries.

At March 31, 2026, the Credit Agreement includes a \$1.25 billion multicurrency revolving credit facility, the U.S. dollar equivalent of \$800 million in term loan A facilities (\$792 million outstanding balance at March 31, 2026, net of debt issuance costs) and \$650 million in term loan B facilities (\$642 million outstanding balance at March 31, 2026, net of debt issuance costs). At March 31, 2026, the Company’s subsidiaries that are party to the Credit Agreement had

unused credit of \$1.24 billion available under the revolving credit facilities as part of the Credit Agreement. The weighted average interest rate on borrowings outstanding under the Credit Agreement at March 31, 2026 was 5.36%.

The Credit Agreement contains various covenants that restrict, among other things and subject to certain exceptions, the ability of the Company to incur certain indebtedness and liens, make certain investments, become liable under contingent obligations in certain defined instances only, make restricted payments, make certain asset sales within guidelines and limits, engage in certain affiliate transactions, participate in sale and leaseback financing arrangements, alter its fundamental business, and amend certain subordinated debt obligations.

The Credit Agreement also contains one financial maintenance covenant, a Secured Leverage Ratio, for the benefit of lenders under the term loans A and the revolving credit facility (and, following an acceleration of the term loans A and the revolving credit facility, for the benefit of the lenders under the term loans B) that requires the Company and certain of its subsidiaries, collectively, not to exceed a ratio of 2.50x calculated by dividing consolidated Net Indebtedness that is then secured by Liens on property or assets of the Company and certain of its subsidiaries by Consolidated EBITDA, as each such capitalized term is defined in the Credit Agreement. The Secured Leverage Ratio could restrict the ability of the Company and certain of its subsidiaries to undertake additional financing or acquisitions to the extent that such financing or acquisitions would cause the Secured Leverage Ratio to exceed the specified maximum.

Failure to comply with these covenants and restrictions could result in an event of default under the Credit Agreement. In such an event, the applicable borrowers under the Credit Agreement would not be able to request borrowings under the revolving credit facility, and all amounts outstanding under the Credit Agreement, together with accrued interest, could then be declared immediately due and payable. Upon the occurrence and for the duration of a payment event of default, an additional default interest rate equal to 2.0% per annum will apply to all overdue obligations under the Credit Agreement. If an event of default occurs under the Credit Agreement and the lenders cause all of the outstanding debt obligations under the Credit Agreement to become due and payable, this could result in a default under a number of other outstanding debt securities and could lead to an acceleration of obligations related to these debt securities. As of March 31, 2026, the Company was in compliance with all covenants and restrictions in the Credit Agreement. In addition, the Company believes that it will remain in compliance for the term of the Credit Agreement and that its ability to borrow additional funds under the Credit Agreement will not be adversely affected by the covenants and restrictions.

The Total Leverage Ratio (as defined in the Credit Agreement) determines pricing under the Credit Agreement for the Term Loans A and the revolving credit facility. The interest rate on borrowings under the Credit Agreement is, at the option of the applicable borrower, the Base Rate, Term SOFR or, for non-U.S. Dollar borrowings only, the Eurocurrency Rate (each such capitalized term as defined in the Credit Agreement), plus an applicable margin. The applicable margin, for the Term Loans A and the revolving credit facility, ranges from 1.00% to 1.75% for Term SOFR loans and Eurocurrency Rate loans and from 0.00% to 0.75% for Base Rate loans. The applicable margin, for the Term Loans B, is 3.00% for Term SOFR loans. In addition, a commitment fee is payable on the unused revolving credit facility commitments ranging from 0.20% to 0.35% per annum, depending on the Total Leverage Ratio.

Obligations under the Credit Agreement are secured by substantially all of the assets, excluding real estate and certain other excluded assets, of certain of the Company's domestic subsidiaries and certain foreign subsidiaries. Such obligations are also secured by a pledge of intercompany debt and equity investments in certain of the Company's domestic subsidiaries and, in the case of foreign obligations, of stock of certain foreign subsidiaries. All obligations under the Credit Agreement are guaranteed by certain domestic subsidiaries of the Company, and certain foreign obligations under the Credit Agreement are guaranteed by certain foreign subsidiaries of the Company.

The Company assesses its capital raising and refinancing needs on an ongoing basis and may enter into additional credit facilities and seek to issue equity and/or debt securities in the domestic and international capital markets if market conditions are favorable. Also, depending on market conditions, the Company may elect to repurchase portions of its debt securities in the open market.

Material Cash Requirements

There have been no material changes to the Company's material cash requirements at March 31, 2026 from those described in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Capital Resources and Liquidity - Material Cash Requirements" in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

Cash Flows

Operating activities: Cash utilized by operating activities was \$294 million and \$171 million for the three months ended March 31, 2026 and 2025, respectively. The increase in cash utilized by operating activities in the first quarter of 2026 was primarily due to a larger net loss, a higher use of working capital and an increase in cash paid for restructuring activities and pension contributions than in the same quarter in 2025.

Working capital was a use of cash of \$376 million in the first quarter of 2026, compared to a use of cash of \$314 million in the same quarter in 2025. The higher use of cash from working capital for the three months ended March 31, 2026 reflects lower accounts receivable factoring and higher inventory levels compared to the same period in the prior year. The Company's use of its accounts receivable factoring programs resulted in an increase to cash utilized by operating activities of approximately \$93 million and \$31 million for the three months ended March 31, 2026 and 2025, respectively. Excluding the impact of accounts receivable factoring, the Company's days sales outstanding as of March 31, 2026 were comparable to March 31, 2025.

Investing activities: Cash utilized in investing activities was \$139 million and \$120 million for the first quarter of 2026 and 2025, respectively. Capital spending for property, plant and equipment was \$142 million during the first quarter of 2026, compared to \$135 million in the same quarter in 2025. The Company estimates that its full year 2026 capital expenditures are expected to approximate \$450 million. Net cash proceeds on the sale of a joint venture and miscellaneous assets were \$5 million and \$13 million, for the first quarter of 2026 and 2025, respectively.

Financing activities: Cash utilized in financing activities was \$19 million and \$33 million for the first quarter of 2026 and 2025, respectively. Financing activities included additions to long-term debt of \$23 million and \$362 million for the first quarter of 2026 and 2025, respectively. Financing activities included repayments of long-term debt of \$27 million and \$387 million for the first quarter ended 2026 and 2025, respectively. During each of the first quarters of 2026 and 2025, the Company repurchased \$10 million of its common stock. The Company intends to repurchase up to \$40 million of shares of its common stock in 2026.

The Company anticipates that cash flows from its operations and from utilization of credit available under the revolving credit facilities provided by the Credit Agreement will be sufficient to fund its operating and seasonal working capital needs, debt service and other obligations on a short-term (the next 12 months) and long-term basis (beyond the next 12 months). However, as the Company cannot predict the impact from tariffs and other changes in global trade policies and the outcome of the conflicts between Russia and Ukraine and in the Middle East and its impact on the Company's customers and suppliers, the negative financial impact to the Company's results cannot be reasonably estimated but could be material. The Company is actively managing its business to maintain cash flow, and it has significant liquidity. The Company believes that these factors will allow it to meet its anticipated funding requirements.

Critical Accounting Estimates

The Company's analysis and discussion of its financial condition and results of operations are based upon its Condensed Consolidated Financial Statements that have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. The Company evaluates these estimates and assumptions on an ongoing basis. Estimates and assumptions are based on historical and other factors believed to be reasonable under the circumstances at the time the financial statements are issued. The results of these estimates may

form the basis of the carrying value of certain assets and liabilities and may not be readily apparent from other sources. Actual results, under conditions and circumstances different from those assumed, may differ from estimates.

The impact of, and any associated risks related to, estimates and assumptions are discussed within Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as in the Notes to the Condensed Consolidated Financial Statements, if applicable, where estimates and assumptions affect the Company's reported and expected financial results.

There have been no other material changes in critical accounting estimates at March 31, 2026 from those described in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

Forward-Looking Statements

This document contains "forward-looking" statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and Section 27A of the Securities Act of 1933, as amended. Forward-looking statements reflect the Company's current expectations and projections about future events at the time, and thus involve uncertainty and risk. The words "believe," "expect," "anticipate," "will," "could," "would," "should," "may," "plan," "estimate," "intend," "predict," "potential," "continue," "target," "commit," and the negatives of these words and other similar expressions generally identify forward-looking statements.

It is possible that the Company's future financial performance may differ from expectations due to a variety of factors including, but not limited to the following: (1) the Company's ability to achieve expected benefits from cost management, efficiency improvements, and profitability initiatives, such as its Fit to Win initiative, including expected impacts from production curtailments, reduction in force and furnace closures, (2) the general credit, financial, political, economic, legal and competitive conditions in markets and countries where the Company has operations, including uncertainties related to economic and social conditions, trade policies and disputes, financial market conditions, disruptions in the supply chain, competitive pricing pressures, inflation or deflation, changes in tax rates, changes in laws or policies, legal proceedings involving the Company, war, civil disturbance or acts of terrorism, natural disasters, public health issues and weather, (3) cost and availability of raw materials, labor, energy and transportation (including impacts related to the current conflicts in the Middle East and between Russia and Ukraine and disruptions in supply of raw materials caused by transportation delays), (4) competitive pressures from other glass container producers and alternative forms of packaging or consolidation among competitors and customers, (5) changes in consumer preferences or customer inventory management practices, (6) the continuing consolidation of the Company's customer base, (7) risks related to the development, deployment and use of artificial intelligence technologies, (8) the Company's inability to improve glass melting technology in a cost-effective manner and introduce productivity, process and network optimization actions, (9) unanticipated supply chain and operational disruptions, including higher capital spending, (10) seasonality of customer demand, (11) the failure of the Company's joint venture partners to meet their obligations or commit additional capital to the joint venture, (12) labor shortages, labor cost increases or strikes, (13) the Company's ability to acquire or divest businesses, acquire and expand plants, integrate operations of acquired businesses and achieve expected benefits from acquisitions, divestitures or expansions, (14) the Company's ability to generate sufficient future cash flows to ensure the Company's goodwill is not impaired, (15) any increases in the underfunded status of the Company's pension plans, (16) any failure or disruption of the Company's information technology, or those of third parties on which the Company relies, or any cybersecurity or data privacy incidents affecting the Company or its third-party service providers, (17) risks related to the Company's indebtedness or changes in capital availability or cost, including interest rate fluctuations and the ability of the Company to generate cash to service indebtedness and refinance debt on favorable terms, (18) risks associated with operating in foreign countries, (19) foreign currency fluctuations relative to the U.S. dollar, (20) changes in tax laws or global trade policies, (21) the Company's ability to comply with various environmental legal requirements, (22) risks related to recycling and recycled content laws and regulations, (23) risks related to climate-change and air emissions, including related laws or regulations and increased ESG scrutiny and changing expectations from stakeholders, and the other risk factors discussed in the Company's filings with the Securities and Exchange Commission.

It is not possible to foresee or identify all such factors. Any forward-looking statements in this document are based on certain assumptions and analyses made by the Company in light of its experience and perception of historical trends, current conditions, expected future developments, and other factors it believes are appropriate in the circumstances. Forward-looking statements are not a guarantee of future performance, and actual results or developments may differ materially from expectations. While the Company continually reviews trends and uncertainties affecting the Company's results of operations and financial condition, the Company does not assume any obligation to update or supplement any particular forward-looking statements contained in this document.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes in market risk at March 31, 2026 from those described in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

Item 4. Controls and Procedures.

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, the Company has investments in certain unconsolidated entities. As the Company does not control or manage these entities, its disclosure controls and procedures with respect to such entities are necessarily substantially more limited than those maintained with respect to its consolidated subsidiaries.

As required by Rule 13a-15(b) of the Exchange Act, the Company carried out an evaluation, under the supervision and with the participation of management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level as of March 31, 2026.

As required by Rule 13a-15(d) of the Exchange Act, the Company carried out an evaluation, under the supervision and with the participation of management, including its Chief Executive Officer and Chief Financial Officer, of any change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. There have been no changes in the Company's internal control over financial reporting during the fiscal quarter ended March 31, 2026 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

SEC regulations require the Company to disclose certain information about environmental proceedings if the Company reasonably believes that such proceedings may result in monetary sanctions above a stated threshold. The Company uses a threshold of \$1 million for purposes of determining whether disclosure of any such proceedings is required. Except as disclosed in Note 10 to the Condensed Consolidated Financial Statements, no such proceedings were pending or contemplated as of March 31, 2026.

For further information on legal proceedings, see Note 10 to the Condensed Consolidated Financial Statements, which is included in Part I of this Quarterly Report and incorporated herein by reference.

Item 1A. Risk Factors.

Except as set forth below, there have been no material changes in risk factors at March 31, 2026 from those described in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

Global Economic and Legal Environment—The global credit, financial, political, economic and legal environment could have a material adverse effect on operations and financial condition.

The global credit, financial, political, economic and legal environment can be negatively impacted by numerous events or occurrences, including political events, trade policies and disputes, acts of terrorism, hostilities or wars, natural disasters and public health issues, such as a pandemic. For example, the current conflicts in the Middle East and between Russia and Ukraine, as well as any further escalation or expansion of these conflicts, and any related economic sanctions or other impacts could adversely impact the global credit, financial, economic and legal environment, which could have a material adverse effect on the Company's operations, including the following:

- Downturns in the business or financial condition of any of the Company's customers or suppliers could result in a loss of revenues or a disruption in the supply of raw materials;
- Unfavorable macroeconomic conditions, such as a recession or continued slowed economic growth and uncertainty surrounding international trade policies and regulations, changes in U.S. immigration policies, as well as disputes and protectionist measures, could negatively affect consumer demand for the Company's products;
- Cost inflation, including as a result of imposition of or increase in tariffs and disruptions to the supply chains and restrictions of international shipping driven by geopolitical instability and conflicts, could negatively impact the Company's costs for energy, labor, materials and services, and impact the Company's profitability if increased costs are not fully passed on to customers through increased prices of the Company's products;
- Changes in laws or policies governing the terms of foreign trade, and in particular increased trade restrictions, tariffs or taxes on imports or exports from or to countries where the Company manufactures or sells, or its customers sells, its products may affect the prices of and demand for the Company's products;
- Tightening of credit in financial markets or increasing interest rates could reduce the Company's ability, as well as the ability of the Company's customers and suppliers, to obtain future financing;
- Volatile market performance could affect the fair value of the Company's pension assets and liabilities, potentially requiring the Company to make significant additional contributions to its pension plans to maintain prescribed funding levels, and may lead to adverse changes in the availability, terms and cost of capital;
- The deterioration of any of the lending parties under the Company's revolving credit facility or the creditworthiness of the counterparties to the Company's derivative transactions could result in such parties' failure to satisfy their obligations under their arrangements with the Company;

- A significant weakening of the Company's financial position or results of operations could result in noncompliance with the covenants under the Company's indebtedness; and
- Legal proceedings arising from the Company's business, including governmental investigations and other government actions could be costly, time-consuming and disruptive to the Company's operations.

Energy Costs or Availability—Higher energy costs worldwide and interrupted power supplies, including as a result of the current conflicts in the Middle East and between Russia and Ukraine, and any escalation of these conflicts, may have a material adverse effect on the Company's consolidated assets or operations.

Electrical power, natural gas, and fuel oil are vital to the Company's operations as it relies on a continuous energy supply to conduct its business. Depending on the location and mix of energy sources, energy accounts for 10% to 20% of total manufacturing costs. Substantial increases and volatility in energy costs, including those resulting from extreme weather events that affect the Company's facilities directly or its energy suppliers, or the current conflicts in the Middle East and between Russia and Ukraine, and any escalation of these conflicts, could cause the Company to experience a significant increase in operating costs, which may have a material adverse effect on its assets or results of operations.

For example, the current conflict between Russia and Ukraine has caused a significant increase in the price of natural gas and increased price volatility. Natural gas forms the primary energy source for the Company's European operations, and a significant amount of natural gas in Europe is ultimately sourced from Russia. The Company's European operations typically purchase natural gas under mid- to long-term supply arrangements with terms that range from one to three years and, through these agreements, typically agree on a portion of the price with the relevant supplier in advance of the period in which the natural gas will be delivered, which shields the Company from the full impact of increased natural gas prices, while such agreements remain in effect. However, if new agreements are entered into during periods when prices have increased, this would lead to cost inflation and could impact the Company's profitability if the Company is not able to pass on these increased costs to customers.

In addition, the Company has an energy derivative contract that is intended to protect against the rise of natural gas costs impacting its European operations. Under the terms of the energy derivative contract, if European natural gas prices rise above a specified level (the "price trigger"), the Company is entitled to indemnification from the counterparty for the difference between the price paid to purchase the natural gas and the price trigger. However, if European natural gas prices rise above a predetermined maximum level (the "price cap"), the Company's entitlement to indemnification is limited to the difference between the price cap and the price trigger. Accordingly, if European natural gas prices rise above the price cap, the Company would bear the full incremental cost of natural gas prices in excess of the price cap, which may be significant and could have a material adverse effect on the Company's results of operations.

Furthermore, the current conflict between Russia and Ukraine and the resulting sanctions, potential sanctions, government-mandated curtailments or government-imposed allocations, tariffs or other adverse repercussions on energy supplies could cause the Company's energy suppliers to be unable or unwilling to deliver natural gas at agreed prices and quantities. If this occurs, the Company may need to procure natural gas at then-current market prices, subject to market availability, which may exceed both the prices contemplated under the applicable supply arrangement and the price cap applicable under the Company's energy derivative contract, which, in either case, could cause the Company to experience a significant increase in operating costs or result in the temporary or permanent cessation of delivery of natural gas to several of the Company's manufacturing plants in Europe. Alternatively, for certain plants that have energy switching capabilities, the Company may decide to switch to a different energy source, which could also result in a significant increase in operating costs. In addition, depending on the duration and ultimate outcome of the conflict between Russia and Ukraine, future long-term supply arrangements for natural gas may not be available at reasonable prices or at all. The occurrence of any of the foregoing could have a material adverse effect on the Company's consolidated assets or results of operations.

Supply Chain Disruptions—The Company's capital expenditure plans have been, and may continue to be, affected by supply chain disruptions.

The Company relies on third parties to provide equipment and materials needed for its capital expenditure projects.

The global supply chain for the Company's capital expenditure projects has been, and may continue to be impacted by disruptions, such as political events, international trade disputes or other geopolitical tensions, acts of terrorism, hostilities or wars (such as the continued conflicts in the Middle East and between Russia and Ukraine), natural disasters, public health issues, such as a pandemic, industrial accidents, inflation, and other business interruptions. Global supply chain disruptions may continue to adversely impact the Company's ability to procure materials and equipment in a timely and cost-effective manner, which may negatively impact the Company's operating costs and timelines for capital expenditure projects.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the three months ended March 31, 2026, the Company purchased 644,257 shares of its common stock for approximately \$10 million. The share purchases were made pursuant to a \$100 million anti-dilutive share repurchase program authorized by the Company's Board of Directors on May 14, 2024, which is intended to offset stock-based compensation provided to the Company's directors, officers, and employees. Approximately \$30 million remained available for purchases under this program as of March 31, 2026. The share repurchase program has no expiration date. The following table provides information about the Company's purchases of its common stock during the three months ended March 31, 2026:

Issuer Purchases of Equity Securities

<u>Period</u>	<u>Total Number of Shares Purchased (in thousands)</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (in millions)</u>
January 1 - January 31, 2026	644	\$ 15.50	644	30
February 1 - February 28, 2026				
March 1 - March 31, 2026				
Total	644	\$ 15.50	644	

Item 5. Other Information.

During the three months ended March 31, 2026, no director or officer of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408 of Regulation S-K.

Item 6. Exhibits.

Exhibit 3.1	Amended and Restated Certificate of Incorporation of O-I Glass, Inc. (filed as Exhibit 3.2 to O-I Glass, Inc.’s, Paddock Enterprises, LLC’s and Owens-Illinois Group, Inc.’s Form 8-K12B dated December 25, 2019, File Nos. 1-9576 and 1-10956, and incorporated herein by reference).
Exhibit 3.2	Amended and Restated By-Laws of O-I Glass, Inc., (filed as Exhibit 3.1 to O-I Glass, Inc.’s Form 8-K dated December 6, 2022, File No. 1-9576, and incorporated herein by reference).

* Indicates a management contract or compensatory plan or arrangement required to be filed as an exhibit to this report.

** This exhibit shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and is not incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

O-I GLASS, INC.

Date April 29, 2026

By /s/ John A. Haudrich

John A. Haudrich

Senior Vice President and Chief Financial Officer

O-I GLASS, INC.

FIFTH AMENDED AND RESTATED
2017 INCENTIVE AWARD PLAN

PERFORMANCE STOCK UNIT AGREEMENT

THIS PERFORMANCE STOCK UNIT AGREEMENT (“Agreement”), dated as of the grant date referenced above (the “Grant Date”) is made by and between O-I Glass, Inc., a Delaware corporation (the “Company”) and the person whose account for which this grant is being accepted, an employee or consultant of the Company, a Parent Corporation or a Subsidiary (the “Participant”):

WHEREAS, the Company has established the Fifth Amended and Restated 2017 Incentive Award Plan (as amended from time to time, the “Plan”) (the terms of which are hereby incorporated by reference and made a part of this Agreement);

WHEREAS, the Plan provides for the issuance of performance-based Restricted Stock Units (“PSUs”), subject to vesting based on performance conditions and to other conditions stated herein;

WHEREAS, the Company is willing to invest in the Participant and, in doing so, to provide the Participant with access to know-how, proprietary information and technology, trade secrets, confidential commercial information, and/or customer details; and

WHEREAS, the Compensation and Talent Development Committee of the Board of Directors of the Company (the “Committee”) has determined it would be to the advantage and best interest of the Company and its stockholders to issue the PSUs provided for herein to the Participant in consideration of services rendered, or to be rendered, to the Company, a Parent Corporation or a Subsidiary.

NOW, THEREFORE, in consideration of the mutual covenants herein contained and other good and valuable consideration, receipt of which is hereby acknowledged, the parties hereto do hereby agree as follows:

ARTICLE I.

DEFINITIONS

Whenever the following terms are used in this Agreement, they shall have the meaning specified below, unless the context clearly indicates to the contrary. Capitalized terms not otherwise defined herein shall have the meanings set forth in the Plan. The masculine pronoun shall include the feminine and neuter, and the singular shall include the plural, where the context so indicates.

Section 1.1 - Cause

“Cause” shall mean the Participant’s dishonesty, disloyalty, misconduct, insubordination, failure to reasonably devote working time to assigned duties, failure or refusal to comply with any reasonable rule, regulation, standard or policy which from time to time may be established by the Company, including, without limitation, those policies set forth in the Company’s Policy Manual in effect from time to time, or failure to fully cooperate with any investigation of an alleged violation of any such rule, regulation, standard or policy.

Section 1.2 - Competing Business

“Competing Business” shall mean each of the following companies and associations, including each of their parent, subsidiary and successor companies: Amcor, Anchor Glass Container Corporation, Ardagh Group SA, BA Vidro, Ball Corp, Can Manufacturers Institute, Crown Holdings, Inc., Plastics Industry Association, Silgan Holdings, Inc., Verailia, Vetropack, and Vidrala.

Section 1.3 - Good Reason

“Good Reason” means the occurrence of any of the following without the prior written consent of the Participant:

- (i) a material diminution in the Participant’s base compensation;
- (ii) a material diminution in the Participant’s authority, duties or responsibilities (including, if Participant is then serving as the Chief Executive Officer or the Chief Financial Officer of the Company, any changes which result from Participant not being employed by a public company following a Change in Control);
- (iii) a material change in the geographic location at which the Participant must perform services; or
- (iv) any other action or inaction that constitutes a material breach by the Company of the terms of Participant’s employment as in effect immediately prior to a Change in Control.

Notwithstanding the foregoing, (a) Good Reason shall not be deemed to exist unless notice of termination on account thereof (specifying a termination date no later than thirty (30) days from the date of such notice) is given no later than thirty (30) days after the time at which the Participant becomes aware of the occurrence of the event or condition purportedly giving rise to Good Reason and (b) if there exists (without regard to this clause (b)) an event or condition that constitutes Good Reason, the Company shall have thirty (30) days from the date notice of such a termination is given to cure such event or condition and, if the Company does so, such event or condition shall not constitute Good Reason hereunder.

Section 1.4 - Parent Corporation

“Parent Corporation” shall mean any corporation in an unbroken chain of corporations ending with the Company if each of the corporations other than the Company then owns stock possessing fifty percent (50%) or more of the total combined voting power of all classes of stock in one of the other corporations in such chain.

Section 1.5 Performance Period

“Performance Period” shall mean [●] through [●], or such shorter period ending on any Vesting Date occurring prior to [●].

Section 1.6- Retirement

“Retirement” shall mean, solely for purposes of this Agreement and only if the Participant is an Employee, the “separation from service” (within the meaning of Section 409A of the Code) of a Participant from the Company, a Parent Corporation or a Subsidiary after reaching the age of 60 and having 10 years of employment, or after reaching the age of 65.

Section 1.7 - Vesting Date

“Vesting Date” shall mean [●] (or, if earlier, the date on which the PSU becomes vested under Section 3.2(a) of this Agreement).

ARTICLE II.

ISSUANCE OF PSUs

In consideration of the services rendered or to be rendered to the Company, a Parent Corporation or a Subsidiary and for other good and valuable consideration which the Committee has determined to be equal to the par value of the Shares, on the Grant Date the Company awards to the Participant the number of PSUs specified for this grant in the Solium Shareworks Account accessible by the Participant. Each PSU is granted in tandem with a Dividend Equivalent, as further described in Section 3.5 below.

ARTICLE III.

VESTING; PAYMENT

Section 3.1 - Vesting of PSUs

Except as otherwise provided in Section 3.2(a) below (and subject to Section 3.3 below), the PSUs shall be eligible to become earned in accordance with Section 3.4 and shall vest, to the extent earned, on [●], provided that the Participant does not experience a Termination of Service prior to such date and subject to Section 3.3 below.

Section 3.2 - Effect of a Change in Control

Notwithstanding Section 3.1, if (i) a Change in Control is consummated and (ii) an Assumption (as defined in the Plan) of the PSUs occurs in connection with such Change in Control, then, upon the Participant's Termination of Service without Cause or by the Participant for Good Reason, in either case, upon or following such Change in Control but prior to the second (2nd) anniversary of the Change in Control, the unvested PSUs (as so continued, converted or assumed) or such new restricted stock units or other rights, as applicable, shall remain outstanding and eligible to vest (to the extent earned pursuant to Section 3.4(b)) on the Vesting Date.

Section 3.3 - Termination of PSUs

(a) Upon the Participant's Termination of Service for any reason, all then-unvested PSUs issued to the Participant pursuant to this Agreement (after taking into account any vesting that may occur in connection with such Termination of Service, if any) shall immediately terminate and be cancelled and forfeited.

(b) Notwithstanding the foregoing, in the event that (i) the Participant dies, (ii) the Participant (if such Participant is an Employee) incurs a Termination of Service due to Retirement or (iii) the Participant incurs a Termination of Service due to Disability, in any case, the PSUs shall remain outstanding and eligible to vest on the Vesting Date with respect to the PSUs that are earned in accordance with Section 3.4(b) (and any PSUs that do not become earned and vested on the Vesting Date in accordance with this Section 3.3(b) shall be cancelled and forfeited on the Vesting Date).

(c) Further notwithstanding the foregoing, if the Participant experiences a Termination of Service resulting from the Company's discharge of the Participant without Cause, the PSUs shall remain outstanding and eligible to vest on the Vesting Date in (i) that number of PSUs previously "banked" pursuant to Section 3.4(b) below with respect to any completed fiscal year during the Performance Period plus (ii) a pro-rata portion of the number of PSUs that would have been earned and "banked" in accordance with Section 3.4(b) upon completion of the fiscal year of the Participant's Termination of Service (had such Termination of Service not occurred) based upon actual performance for such fiscal year, determined by multiplying the total number of such PSUs that would have earned and "banked" in accordance with Section 3.4(b) by a fraction, the numerator of which is the number of days from the first day of the fiscal year in which the Termination of Service occurs (or, if the Termination of Service occurs during the first fiscal year of the Performance Period, the Grant Date) through the date of Participant's Termination of Service and the denominator of which is the number of days from the first day of the fiscal year in which the Termination of Service occurs (or, if the Termination of Service occurs during the first fiscal year of the Performance Period, the Grant Date) through the last day of the fiscal year in which the Termination of Service occurred (and any PSUs that do not become earned and vested on the Vesting Date in accordance with this Section 3.3(c) shall be cancelled and forfeited on the Vesting Date).

Section 3.4 - Payment of PSUs

(a) Except as provided under Section 3.2(a), vested PSUs that are earned in accordance with Section 3.4(b) shall be paid, as soon as practicable after [●] and not later than March 15th of the calendar year immediately following the last fiscal year of the Performance Period.

(b) One-third of the total number of PSUs granted hereby will be eligible to be earned and “banked” following the end of each fiscal year ending during the Performance Period and, such PSUs shall entitle the Participant to receive a number of Shares, if any, determined by the addition of: (i) the Company’s EPS (as defined below) performance for such fiscal year at a weight of []% and (ii) the Company’s Return on Invested Capital (as defined below) performance for such fiscal year at a weight of []%, with the total of that summation multiplied by (iii) the r-TSR Multiplier for the Performance Period (as defined below).

- **EPS.** For the Company’s [] fiscal year, the Company’s target EPS level shall equal \$[]. The Administrator shall determine the target EPS level for each subsequent fiscal year occurring during the Performance Period no later than 90 days following the beginning of the applicable fiscal year; *provided*, that the target EPS level for each of the Company’s [] and [] fiscal years shall equal an []% and []%, respectively, compound annual growth rate over the preceding fiscal year’s actual EPS. The Company’s minimum EPS level for each fiscal year during the Performance Period shall equal []% of the target EPS level for such fiscal year and the Company’s maximum EPS level for each fiscal year during the Performance Period shall equal []% of the target EPS level for such fiscal year. For purposes hereof, “EPS” shall mean, for each fiscal year ending during the Performance Period, “diluted earnings per share” from continuing operations before items that management considers not representative of ongoing operations, as reported by the Company in its earnings release for each of the Company’s fiscal years ending during the Performance Period and adjusted for the impact of significant acquisitions and divestitures and to exclude the effect of non-service pension and retiree medical costs outside of budget. Results between the minimum and target EPS, and results between the target and maximum EPS, shall be interpolated per the attached charts, as determined by the Committee.
 - **ROIC.** For the Company’s [] fiscal year, the Company’s target Return on Invested Capital level shall equal []%. The Administrator shall determine the target Return on Invested Capital level for each subsequent fiscal year occurring during the Performance Period no later than 90 days following the beginning of the applicable fiscal year; *provided*, that the target Return on Invested Capital level for each of the Company’s [] and [] fiscal years shall equal []bps and []bps, respectively, above the preceding fiscal year’s actual Return on Invested Capital. For purposes hereof, “Return on Invested Capital” shall mean, with respect to each fiscal year of the Company ending during the Performance Period, the number calculated by multiplying (a) the Company’s earnings before interest, taxes and items that management considers not representative of ongoing operations for such fiscal year times (b) one minus the Company’s tax rate for the applicable full fiscal year (computed on a basis excluding items that management considers not representative of ongoing operations), and dividing the product thereof by the sum of the (x) Company’s total debt and (y) total share owners’ equity, all as reflected on the Company’s consolidated balance sheet for the applicable fiscal year and adjusted for the impact of significant acquisitions and divestitures. For purposes of computing total share owners’ equity for the denominator of this calculation, the accumulated other comprehensive income related to pension and retiree medical shall be held constant for each year of the Performance Period at the amount reflected on the Company’s consolidated balance sheet as of []. The Company’s minimum Return on
-

Invested Capital level for each fiscal year during the Performance Period shall equal []% of the target Return on Invested Capital level for such fiscal year and the Company's maximum Return on Invested Capital level for each fiscal year during the Performance Period shall equal []% of the target Return on Invested Capital level for such fiscal year. Results between the minimum and target Return on Invested Capital, and results between the target and maximum Return on Invested Capital, shall be linearly interpolated per the attached charts, as determined by the Committee.

- r-TSR. For purposes of this Agreement, "r-TSR Multiplier" shall mean: (a) if the Company's r-TSR (as defined below) for the Performance Period is less than or equal to the [] percentile, []; or (b) if the Company's r-TSR for the Performance Period is equal to or above the [] percentile, []. Results above the [] percentile, but less than the [] percentile performance shall be interpolated as per the attached charts, as determined by the Committee. For purposes hereof, "r-TSR" means, the relative rate of return reflecting stock price appreciation, plus the reinvestment of dividends in additional shares of stock, from the beginning of the Performance Period through the end of the Performance Period of the Common Stock as compared to that of the shares of common stock of each member of the Peer Group (as defined below). For purposes of calculating r-TSR, the beginning stock price for the Company and each member of the Peer Group will be based on the average of the daily closing prices over the twenty trading days immediately preceding the first day of the Performance Period on the principal stock exchange on which the stock is then traded and the ending stock price for the Company and each member of the Peer Group will be based on the average of the daily closing prices over the last twenty trading days of the Performance Period on the principal stock exchange on which the stock then trades (and also adjusted for any stock splits). The "Peer Group" means the S&P 1500 – Materials (GICS# 1510) as of the Grant Date. The Committee may, in its discretion, adjust r-TSR to reflect acquisitions or dispositions of Peer Group members, stock splits applicable to the Company and/or members of the Peer Group and the bankruptcy or delisting of a member of the Peer Group.

If the Company's performance for any fiscal year during the Performance Period falls below either minimum EPS amount or minimum Return on Invested Capital amount, the weighting of such EPS or Return on Invested Capital component shall equal 0% for such fiscal year, but shall not affect any other measure of performance or any other fiscal year. If the Company fails to meet or exceed both the minimum EPS amount and minimum Return on Invested Capital amount for any fiscal year during the Performance Period, no PSUs will become payable hereunder with respect to such fiscal year during the Performance Period. Conversely, to the extent the Company's performance exceeds either or both the maximum EPS amount and the maximum Return on Invested Capital amount for any fiscal year during the Performance Period, no amounts in excess of such maximum performance shall be taken into account in determining the amount payable with respect to the PSUs with respect to such fiscal year. Charts illustrating the [] performance measures are shown in Attachment A.

Section 3.5 – Dividend Equivalents

A bookkeeping account will be established by the Company to which Dividend Equivalents equal to the product of (a) the number of PSUs subject to this Agreement, and (b) the dividends declared on a single Share will be credited. To the extent the Participant becomes vested in any PSUs issued pursuant to this Agreement, the Dividend Equivalents corresponding to such PSUs will be converted to cash or additional Shares (as may be determined by the Administrator in its sole discretion) and will be paid to the Participant at the same time as the Shares are issued with respect to the vested PSUs. The Participant shall not be entitled to payment of any Dividend Equivalents relating to dividends for which the applicable ex-dividend date occurs on or after the earlier to occur of the payment or forfeiture of the PSU underlying such Dividend Equivalent.

ARTICLE IV.

NON-COMPETITION/NON-SOLICITATION

Section 4.1 - Covenant Not to Compete

The Participant covenants and agrees that prior to the Participant's Termination of Service and for a period of one (1) year following the Participant's Termination of Service for any reason, including, without limitation, a termination for Cause or without Cause or due to the Participant's resignation or Retirement, the Participant shall not engage, directly or indirectly, whether as principal or as agent, officer, director, employee, consultant, shareholder or otherwise, alone or in association with any other person, corporation or other entity, in any Competing Business.

Section 4.2 - Non-Solicitation of Employees

The Participant agrees that prior to the Participant's Termination of Service and for one (1) year following the Participant's Termination of Service for any reason, including, without limitation, a termination for Cause or without Cause or due to the Participant's resignation or Retirement, the Participant shall not, directly or indirectly, solicit or induce, or attempt to solicit or induce, any Employee of the Company, any Parent Corporation or any Subsidiary to leave the employment of the Company, any Parent Corporation or any Subsidiary for any reason whatsoever, or hire any Employee of the Company, any Parent Corporation or any Subsidiary except into the employment of the Company, a Parent Corporation or a Subsidiary.

Section 4.3 - Certain Exceptions

Notwithstanding Sections 4.1 and 4.2 above, the Participant acknowledges and agrees that if the Participant resides and/or works in the State of California or any other State or jurisdiction in which the restrictions set forth in Section 4.1 and/or Section 4.2 above are not enforceable following the Participant's Termination of Service, such obligations contained in Sections 4.1 (Covenant Not to Compete) and/or 4.2 (Non-Solicitation of Employees), as applicable, shall not apply to the Participant after the Participant's Termination of Service.

Section 4.4 - Equitable Relief

The Participant agrees that it is impossible to measure in money the damages that will accrue to the Company in the event that the Participant breaches any of the restrictive covenants

provided in Sections 4.1 or 4.2 hereof. Accordingly, in the event that the Participant breaches any such restrictive covenant, the Company shall be entitled to an injunction restraining the Participant from further violating such restrictive covenant. If the Company shall institute any action or proceeding to enforce any such restrictive covenant, the Participant hereby waives the claim or defense that the Company has an adequate remedy at law and agrees not to assert such claim or defense. The foregoing shall not prejudice the Company's right to require the Participant to account for and pay over to the Company, and the Participant hereby agrees to account for and pay over, any compensation, profits, monies, accruals or other benefits derived or received by the Participant as a result of any transaction constituting a breach of any of the restrictive covenants provided in Sections 4.1 or 4.2 hereof.

ARTICLE V.

OTHER PROVISIONS

Section 5.1 - PSUs and Dividend Equivalents Not Transferable

Neither the PSUs nor Dividend Equivalents, nor any interest or right therein or part thereof, shall be liable for the debts, contracts or engagements of the Participant or his or her successors in interest or shall be subject to disposition by transfer, alienation, anticipation, pledge, hypothecation, encumbrance, assignment or any other means whether such disposition be voluntary or involuntary or by operation of law by judgment, levy, attachment, garnishment or any other legal or equitable proceedings (including bankruptcy), and any such attempted disposition thereof shall be null and void and of no effect; provided however, that this Section 5.1 shall not prevent transfers by will or by the applicable laws of descent and distribution.

Section 5.2 - No Right to Continued Employment

Nothing in this Agreement or in the Plan shall confer upon the Participant any right to continue in the employ or service of the Company, any Parent Corporation or any Subsidiary or shall interfere with or restrict in any way the rights of the Company, any Parent Corporation or any Subsidiary, which are hereby expressly reserved, to discharge the Participant at any time for any reasons whatsoever, with or without Cause.

Section 5.3 - Conditions to Issuance of Stock Certificates

The Company shall not be required to issue or deliver any certificate or certificates for Shares pursuant to this Agreement prior to fulfillment of all of the following conditions:

(a) The admission of such Shares to listing on all stock exchanges on which such class of stock is then listed; and

(b) The completion of any registration or other qualification of such Shares under any state or federal law or under rulings or regulations of the Securities and Exchange Commission or of any other governmental regulatory body, which the Company shall, in its sole discretion, deem necessary or advisable; and

(c) The obtaining of any approval or other clearance from any state or federal governmental agency which the Company shall, in its sole discretion, determine to be necessary or advisable; and

(d) Subject to Section 5.10, the payment by the Participant of all amounts which, under federal, state or local tax law, the Company, a Parent Corporation or a Subsidiary is required to withhold upon vesting or payment of a PSU and/or Dividend Equivalent; and

(e) The lapse of such reasonable period of time as the Administrator may from time to time establish for reasons of administrative convenience.

Section 5.4 - Notices

Any notice to be delivered to the Company under this Agreement shall be delivered to such individual and in such form as the Committee shall specify from time to time and communicate to the Participant. Any notice to be delivered to the Participant shall be addressed to the Participant at the Participant's last address reflected in the Company's records. Notices may be given electronically (or by facsimile), and will be deemed given when sent. Otherwise, notices shall be sent by reputable overnight courier or by certified mail (return receipt requested) through the United States Postal Service.

Section 5.5 - Rights as Stockholder

Participant shall not, by virtue of the PSUs granted hereby, be entitled to vote in any Company election, receive any dividend in respect of Shares subject to the PSUs (except as provided under Section 3.5 above) or exercise any other rights of a stockholder of the Company. The PSUs shall not confer upon the Participant any rights of a stockholder of the Company unless and until the PSUs have vested and certificates representing the Shares subject to the PSUs shall have been issued by the Company pursuant to the terms of this Agreement.

Section 5.6 - Titles

Titles are provided herein for convenience only and are not to serve as a basis for interpretation or construction of this Agreement.

Section 5.7 - Conformity to Laws

The Participant acknowledges that the Plan and this Agreement are intended to conform to the extent necessary with all provisions of applicable law, including without limitation the provisions of the Securities Act and the Exchange Act, and any and all regulations and rules promulgated by the Securities and Exchange Commission thereunder, including without limitation Rule 16b-3 of the Exchange Act. Notwithstanding anything herein to the contrary, this Agreement shall be administered, and the PSUs and Dividend Equivalents shall be granted, only in such a manner as to conform to such laws, rules and regulations. To the extent permitted by applicable law, this Agreement and the PSUs and Dividend Equivalents granted hereunder shall be deemed amended to the extent necessary to conform to such laws, rules and regulations.

Section 5.8 - Section 409A

(a) This Agreement shall be interpreted in accordance with the requirements of Section 409A of the Code and the Treasury Regulations relating thereto (together, “Section 409A”). Notwithstanding any provision of this Agreement, the Company may adopt such amendments to this Agreement or adopt other policies and procedures (including amendments, policies and procedures with retroactive effect), or take any other actions, that the Administrator determines are necessary or appropriate to avoid the imposition of taxes under Section 409A, provided, however, that this Section 5.8 shall not create an obligation on the part of the Company to adopt any such amendment, policy or procedure or take any such other action, nor shall the Company have any liability for failing to do so. To the extent that any payment window spans two calendar years, the Participant shall have no discretion over or ability to control the actual year in which payment is made.

(b) Notwithstanding anything to the contrary in this Agreement, no amounts shall be paid to the Participant under this Agreement during the six (6)-month period following the Participant’s “separation from service” to the extent that the Administrator determines that the Participant is a “specified employee” (each within the meaning of Section 409A) at the time of such separation from service and that paying such amounts at the time or times indicated in this Agreement would be a prohibited distribution under Section 409A(a)(2)(b)(i). If the payment of any such amounts is delayed as a result of the previous sentence, then on the first business day following the end of such six (6)-month period (or such earlier date upon which such amount can be paid under Section 409A without being subject to such additional taxes), the Company shall pay to the Participant in a lump-sum all amounts that would have otherwise been payable to the Participant during such six (6)-month period under this Agreement.

(c) Dividend Equivalents and any amounts that may become distributable in respect thereof shall be treated separately from the PSUs and the rights arising in connection therewith for purposes of the designation of time and form of payments required by Section 409A.

Section 5.9 - Amendment

This Agreement may be amended without the consent of the Participant, except that no amendment of this Agreement shall, without the written consent of the Participant, impair any rights of the Participant under this Agreement.

Section 5.10 - Tax Withholding

(a) Subject to Section 5.10(b) below, the Company’s obligation to issue or deliver to the Participant any certificate or certificates for Shares is expressly conditioned upon receipt from the Participant, on or prior to the date reasonably specified by the Company of all withholding taxes owed in connection with the PSUs and Dividend Equivalents by one of the following methods:

(i) Full payment (in cash or by check) of any amount that must be withheld by the Company, a Parent Corporation or Subsidiary for foreign, federal, state and/or local tax purposes;

(ii) Subject to the Administrator's consent, full payment by delivery to the Company of unrestricted Shares previously owned by the Participant, duly endorsed for transfer to the Company by the Participant with an aggregate Fair Market Value (determined on the date such withholding obligation arises) equal to the amount that must be withheld by the Company, a Parent Corporation or a Subsidiary for foreign, federal, state and/or local tax purposes;

(iii) With respect to any withholding tax obligations for PSUs that become vested, through the delivery of a notice that Participant has placed a market sell order with a broker acceptable to the Company with respect to Shares then issuable to Participant pursuant to the PSUs, and that the broker has been directed to pay a sufficient portion of the net proceeds of the sale to the Company or the Subsidiary with respect to which the withholding obligation arises in satisfaction of such withholding taxes; provided that payment of such proceeds is then made to the Company or the applicable Subsidiary at such time as may be required by the Administrator, but in any event not later than the settlement of such sale; or

(iv) Subject to the Administrator's consent, a combination of payments provided for in the foregoing subsections (i), (iii) and (iii) (and/or in Section 5.10(b) below).

(b) Notwithstanding Section 5.10(a), unless the Administrator otherwise determines, the Company shall withhold, or cause to be withheld, a portion of the Shares (or cash, as applicable) deliverable with respect to vested PSUs and Dividend Equivalents that become payable with an aggregate Fair Market Value (determined on the date such withholding obligation arises) equal to the amount that must be withheld by the Company, a Parent Corporation or a Subsidiary for foreign, federal, state and/or local tax purposes, in accordance with Section 11.2 of the Plan.

(c) With respect to each individual who was an executive officer of the Company and subject to Section 16 of the Exchange Act on the Grant Date only, the Committee has consented to payment of tax withholding obligations under subsection Sections 5.10(a) and (b), as the Participant may elect during such time periods as the Company may permit in compliance with all applicable legal requirements.

(d) Notwithstanding anything herein to the contrary, the number of Shares which may be withheld with respect to the payment of any PSUs and/or Dividend Equivalents in order to satisfy the Company's foreign, federal, state and/or local tax withholding obligations with respect to the payment of the PSUs and/or Dividend Equivalents shall be no greater than the number of Shares which have a Fair Market Value on the date on which the withholding obligation arises equal to the aggregate amount of such withholding obligations based on the maximum statutory withholding rates in Participant's applicable jurisdictions for federal, state, local and/or foreign income and payroll tax purposes.

Section 5.11 - Clawback

Notwithstanding anything contained in the Agreement to the contrary, all PSUs and Dividend Equivalents awarded under this Agreement, and any Shares or cash issued upon settlement hereunder, shall be subject to forfeiture or repayment pursuant to the terms of the Company's Policy for Recovery of Erroneously Awarded Compensation and any other clawback or recoupment policy that the Company may implement following the Grant Date.

Section 5.12 - Governing Law

The laws of the State of Delaware shall govern the interpretation, validity, administration, enforcement and performance of the terms of this Agreement regardless of the law that might be applied under principles of conflicts of laws. Further, proceedings arising out of or relating to this Agreement must be brought exclusively in a federal district court located in the District of Delaware or the Delaware Court of Chancery. The Participant hereby consents and submits to the exclusive jurisdiction of the designated courts. No legal action, suit, or proceeding with respect to this Agreement may be brought in any other forum. The Participant hereby irrevocably waives all claims of immunity from jurisdiction and any right to object on the basis that any dispute, action, suit, or proceeding brought in the designated courts has been brought in an improper or inconvenient forum or venue.

IN WITNESS HEREOF, this Agreement has been executed and delivered by the parties hereto.

CERTIFICATIONS

I, Gordon J. Hardie, certify that:

1. I have reviewed this quarterly report on Form 10-Q of O-I Glass, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
