Non-GAAP Financial Measures

This press release includes certain non-GAAP financial measures as defined by SEC rules. Management believes that such non-GAAP financial measures provide useful information to investors to facilitate their understanding of our business because the non-GAAP financial measures are used by Teva's

management and board of directors, in conjunction with other performance metrics, to evaluate the operational performance of the company, to compare against the company's work plans and budgets, and ultimately to evaluate the performance of management; the company's annual budgets are prepared on a non-GAAP basis; and senior management's annual compensation is derived, in part, using these non-GAAP measures. Investors should consider the non-GAAP financial measures in addition to, and not as replacements for, or superior to, measures of financial performance prepared in accordance with GAAP. In the case of the non-GAAP financial measures disclosed in this press release, we are not providing comparable forward looking guidance for GAAP financial measures or a quantitative reconciliation of forward-looking non-GAAP financial measures to the most directly comparable GAAP measure because we are unable to predict with reasonable certainty the ultimate outcome of certain significant items including, but not limited to, the amortization of purchased intangible assets, legal settlements and loss contingencies, impairment of long-lived assets and goodwill impairment, without unreasonable effort. These items are uncertain, depend on various factors, and could be material to our results computed in accordance with GAAP.
