Registrant's telephone number, including area code: (615) 344-9551

Securities Registered Pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Trading Symbol(s)</u>	<u>Name of Each Exchange on Which Registered</u>
Common Stock, \$0.01 Par Value	HCA	New York Stock Exchange

Securities Registered Pursuant to Section 12(g) of the Act: None

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the Registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the Registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

Auditor PCAOB ID Number: 42 Auditor Name: Ernst & Young LLP Auditor Location: Nashville, Tennessee, United States of America

As of January 31, 2025, there were 248,341,900 outstanding shares of the Registrant's common stock. As of June 30, 2024, the aggregate market value of the common stock held by nonaffiliates was approximately \$60.369 billion. For purposes of the foregoing calculation only, Hercules Holding II and the Registrant's directors and executive officers have been deemed to be affiliates.

**DOCUMENTS INCORPORATED BY REFERENCE**

Portions of the Registrant's definitive proxy materials for its 2025 Annual Meeting of Stockholders are incorporated by reference into Part III hereof.

## **PART I**

### **Item 1. Business**

#### **General**

HCA Healthcare, Inc. is one of the leading health care services companies in the United States. At December 31, 2024, we operated 190 hospitals, comprised of 180 general, acute care hospitals; six behavioral hospitals; and four rehabilitation hospitals. In addition, we operated 124 freestanding ambulatory surgery centers ("ASCs") and 26 freestanding endoscopy centers. Our facilities are located in 20 states and England.

The terms "Company," "HCA," "HCA Healthcare," "we," "our" or "us," as used herein and unless otherwise stated or indicated by context, refer to HCA Healthcare, Inc. and its affiliates. The term "affiliates" means direct and indirect subsidiaries of HCA Healthcare, Inc. and partnerships and joint ventures in which such subsidiaries are partners. The terms "facilities" or "hospitals" refer to entities owned and operated by affiliates of HCA, and the term "employees" refers to employees of affiliates of HCA.

Our primary objective is to provide a comprehensive array of quality health care services in the most cost-effective manner possible. Our general, acute care hospitals typically provide a full range of services to accommodate such medical specialties as internal medicine, general surgery, cardiology, oncology, neurosurgery, orthopedics and obstetrics, as well as diagnostic and emergency services. Outpatient and ancillary health care services are provided by our general, acute care hospitals, ASCs, freestanding emergency care facilities, urgent care facilities, walk-in clinics, physician practices, diagnostic centers, home health agencies, hospices and rehabilitation facilities and various other facilities. Our behavioral hospitals provide a full range of mental health care services through inpatient, partial hospitalization and outpatient settings.

Our common stock is traded on the New York Stock Exchange (symbol "HCA"). Through our predecessors, we commenced operations in 1968. HCA Healthcare, Inc. was incorporated in Delaware in October 2010. Our principal executive offices are located at One Park Plaza, Nashville, Tennessee 37203, and our telephone number is (615) 344-9551.

#### **Available Information**

We file certain reports with the Securities and Exchange Commission (the "SEC"), including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. The SEC maintains an Internet site at <http://www.sec.gov> that contains the reports, proxy and information statements and other information we file. Our website address is [www.hcahealthcare.com](http://www.hcahealthcare.com). Please note that our website address is provided throughout this report as an inactive textual reference only. We make available free of charge, through our website, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports filed or furnished pursuant to Section 13 or 15(d) of the Exchange Act, as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC. The information provided on our website is not part of this report, and is therefore not incorporated by reference unless such information is specifically referenced elsewhere in this report.

Our Code of Conduct is available free of charge upon request to our Investor Relations Department, HCA Healthcare, Inc., One Park Plaza, Nashville, Tennessee 37203, and is also available on the Ethics and Compliance and Governance Documents portion of our website at [www.hcahealthcare.com](http://www.hcahealthcare.com).

#### **Business Strategy**

We are committed to providing the communities we serve with high-quality, convenient and cost-effective health care while growing our business and creating long-term value for our stockholders. We strive to be the health care system of choice in the communities we serve by developing comprehensive networks locally and supporting these networks with enterprise expertise and economies of scale. Our strategy is organized around a framework that seeks to drive sustained growth by delivering operational excellence, attracting exceptional physicians and other health care professionals, developing comprehensive services, creating greater access and coordinating higher quality care for patients.

To achieve these objectives, we align our efforts around the following growth agenda:

- grow our presence in existing markets;
- achieve industry-leading performance in clinical, operational and satisfaction measures;
- recruit and retain physicians and other health care professionals to meet the need for high-quality health services;
- continue to utilize economies of scale to grow the Company; and
- pursue a disciplined development strategy.

Our strategy also emphasizes investments that seek to advance our clinical systems and digital capabilities, transform care models with innovative care solutions, expand our workforce development programs and enhance our health care networks and partnerships.

### **Health Care Facilities**

We currently own, manage or operate hospitals, ASCs, freestanding emergency care facilities, urgent care facilities, walk-in clinics, diagnostic and imaging centers, radiation and oncology therapy centers, comprehensive rehabilitation and physical therapy centers, physician practices, home health agencies, hospices, outpatient physical therapy providers, home and community-based services providers, and various other facilities.

At December 31, 2024, we owned and operated 180 general, acute care hospitals with 49,114 licensed beds. Most of our general, acute care hospitals provide medical and surgical services, including inpatient care, intensive care, cardiac care, diagnostic services and emergency services. The general, acute care hospitals also provide outpatient services such as outpatient surgery, laboratory, radiology, respiratory therapy, cardiology and physical therapy. Each hospital has an organized medical staff and a local board of trustees or governing board comprised of members of the local community.

At December 31, 2024, we operated six behavioral hospitals with 602 licensed beds. Our behavioral hospitals provide therapeutic programs, including child, adolescent and adult psychiatric care and adolescent and adult alcohol and drug abuse treatment and counseling.

We also operate outpatient health care facilities, which include ASCs, freestanding emergency care facilities, urgent care facilities, walk-in clinics, diagnostic and imaging centers, comprehensive rehabilitation and physical therapy centers, radiation and oncology therapy centers, physician practices and various other facilities. These outpatient services are an integral component of our strategy to develop comprehensive health care networks in select communities. Most of our ASCs are operated through partnerships or limited liability companies, with majority ownership of each partnership or limited liability company typically held by a general partner or member that is an affiliate of HCA.

Certain of our affiliates provide a variety of management services to our health care facilities, including patient safety programs, ethics and compliance programs, national supply contracts, equipment purchasing and leasing contracts, accounting, financial and clinical systems, governmental reimbursement assistance, construction planning and coordination, information technology systems and solutions, legal counsel, human resources services and internal audit services.

### **Summary Risk Factors**

You should carefully read and consider the risk factors set forth under Item 1A, “Risk Factors,” as well as all other information contained in this annual report on Form 10-K. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect us. If any of these risks occur, our business, financial position, results of operations, cash flows or prospects could be materially, adversely affected. Our business is subject to the following principal risks and uncertainties:

Risks related to our indebtedness:

- We have significant indebtedness and may incur further indebtedness in the future. Our indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, expose us to interest rate risk to the extent of our variable rate debt and prevent us from meeting our obligations.
- We may not be able to generate sufficient cash to service all of our indebtedness and may not be able to refinance our indebtedness on favorable terms. If we are unable to do so, we may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.
- Our debt agreements contain restrictions that limit our flexibility in operating our business.

Risks related to human capital:

- Our results of operations may be adversely affected by competition for staffing, the shortage of experienced nurses and other health care professionals and labor union activity.
- Our performance depends on our ability to recruit and retain quality physicians.
- We may be unable to attract, hire and retain a highly qualified workforce, including key management.

Risks related to technology, data privacy and cybersecurity:

- Cybersecurity incidents or other forms of data breaches could result in the compromise of our facilities, confidential data or critical data systems, causing our operations to be impaired or impacted. A cybersecurity incident or other form of data breach could also give rise to potential harm to patients; remediation and other expenses; and exposure to liability under privacy and security laws, consumer protection laws, common law theories or other laws. Such incidents could subject us to litigation and foreign, federal and state governmental inquiries, damage our reputation, and otherwise be disruptive to our business.
- Our operations could be impaired by a failure of our information systems.
- Health care technology initiatives, particularly those related to sharing patient data and interoperability and artificial intelligence (“AI”), involve risks that may adversely affect our operations.
- We may not be adequately reimbursed by third-party payers for services involving new technology.

Risks related to public health crises:

- The emergence and effects related to a potential future pandemic, epidemic or outbreak of an infectious disease could adversely affect our business and operations.

Risks related to governmental regulation and other legal matters:

- Our business, financial condition and results of operations may be adversely affected by changes and uncertainty in the health care industry, including health care public policy developments and other changes to laws and regulations. We are unable to predict whether, what, and when changes in the health care industry may occur, and the effects and ultimate impact of any changes are uncertain and may adversely affect our business and results of operations.
- Changes in government health care programs may adversely affect our revenues and business.
- If we fail to comply with extensive laws and government regulations, we could suffer penalties or be required to make significant changes to our operations.
- State efforts to regulate the construction or expansion of health care facilities could impair our ability to operate and expand our operations.
- We may incur additional tax liabilities.
- We have been and could become the subject of government investigations, claims and litigation, as well as governmental and commercial payer audits.
- We may be subject to liabilities from claims brought against our facilities, which are costly to defend and may require us to pay significant damages if not covered by insurance.

Risks related to operations, strategy, demand and competition:

- Our hospitals and other facilities face competition for patients from other hospitals and health care providers.
- Any increase in the volume of uninsured patients or deterioration in the collectability of uninsured and patient due accounts could adversely affect our results of operations.
- If our volume of patients with private health insurance coverage declines or we are unable to retain and negotiate favorable contracts with private third-party payers, including managed care plans, our revenues may be adversely affected.
- Changes to physician utilization practices and treatment methodologies and other factors outside our control that impact demand for medical services may reduce our revenues.
- Third-party payer controls designed to reduce costs and other payer practices intended to decrease inpatient services, surgical procedure volumes or reimbursement for services rendered may reduce our revenues.
- We may encounter difficulty acquiring hospitals and other health care businesses, encounter challenges integrating the operations of acquired hospitals and other health care businesses and/or become liable for unknown or contingent liabilities as a result of acquisitions.
- Our facilities are heavily concentrated in Florida and Texas, which makes us sensitive to regulatory, economic, public health, environmental and competitive conditions and changes in those states.
- Our business and operations are subject to risks related to changing global weather patterns.
- The industry trend toward value-based purchasing may negatively impact our revenues.

Risks related to macroeconomic conditions:

- Our overall business results may suffer during periods of general economic weakness or recessions.
- We are exposed to market risk related to changes in the market values of securities and interest rates.

Risks related to ownership of our common stock:

- There can be no assurance that we will continue to pay dividends.
- Certain of our investors may continue to have influence over us.

### **Sources of Revenue**

Hospital revenues depend upon inpatient occupancy levels, the medical and ancillary services ordered by physicians and provided to patients, the volume of outpatient procedures and the charges or reimbursement rates for such services. Reimbursement rates for inpatient and outpatient services vary significantly depending on the type of third-party payer, the type of service (e.g., medical/surgical, intensive care or psychiatric) and the geographic location of the hospital. Inpatient occupancy levels fluctuate for various reasons, many of which are beyond our control.

We receive payments for patient services from the federal government under the Medicare program, state governments under their respective Medicaid or similar programs, managed care plans (including plans offered through federal and state-based health insurance marketplaces (“Exchanges”)), private insurers and directly from patients. Our revenues by primary third-party payer classification and other (including uninsured patients) for the years ended December 31, 2024, 2023 and 2022 are summarized in the following table (dollars in millions):

	Years Ended December 31,					
	2024	Ratio	2023	Ratio	2022	Ratio
Medicare	\$ 10,780	15.3 %	\$ 10,585	16.3 %	\$ 10,447	17.3 %
Managed Medicare	11,987	17.0	10,496	16.2	9,201	15.3
Medicaid	4,678	6.6	3,606	5.6	2,636	4.4
Managed Medicaid	3,980	5.6	3,879	6.0	3,998	6.6
Managed care and other insurers	34,954	49.5	31,819	49.0	29,120	48.3
International (managed care and other insurers)	1,682	2.4	1,509	2.3	1,317	2.2
Other	2,542	3.6	3,074	4.6	3,514	5.9
Revenues	<u>\$ 70,603</u>	<u>100.0 %</u>	<u>\$ 64,968</u>	<u>100.0 %</u>	<u>\$ 60,233</u>	<u>100.0 %</u>

Medicare is a federal program that provides certain hospital and medical insurance benefits to persons age 65 and over, some disabled persons, persons with end-stage renal disease and persons with amyotrophic lateral sclerosis. Medicaid is a federal-state program, administered by the states, that provides hospital and medical benefits to qualifying low-income individuals. Payment under the Medicare and Medicaid programs is conditioned on satisfaction of extensive provider enrollment requirements. All of our general, acute care hospitals located in the United States are eligible and enrolled to participate in Medicare and Medicaid programs. Amounts received under Medicare and Medicaid programs are generally significantly less than established hospital gross charges for the services provided.

Our hospitals generally offer discounts from established charges to certain group purchasers of health care services, including private health insurers, employers, health maintenance organizations (“HMOs”), preferred provider organizations (“PPOs”) and other managed care plans, including health plans offered through the Exchanges. These discount programs generally limit our ability to increase revenues in response to increasing costs. See Item 1, “Business — Competition.” For services under Medicare, Medicaid, HMOs, PPOs and other managed care plans, patients are generally responsible for any exclusions, deductibles or coinsurance features of their coverage. The amounts of such exclusions, deductibles and coinsurance continue to increase. Collection of amounts due from individuals is typically more difficult than from government health care programs or other third-party payers. We provide discounts to uninsured patients who do not qualify for Medicaid or for financial relief under our charity care policy. We may provide assistance to uninsured patients to help determine whether they may qualify for Medicaid, other federal or state assistance or charity care under our charity care policy. If an uninsured patient does not qualify for these programs, the uninsured discount is applied.

#### *Medicare*

In addition to the reimbursement reductions and adjustments discussed below, the Budget Control Act of 2011 (the “BCA”) requires automatic spending reductions to reduce the federal deficit, resulting in a uniform percentage reduction across all Medicare programs of 2% per fiscal year that extends through the first eight months of federal fiscal year 2032. We anticipate that the federal deficit will continue to place pressure on government health care programs, and it is possible that future deficit reduction legislation will impose additional spending reductions.

#### *Inpatient Acute Care*

Under the Medicare program, we receive reimbursement under a prospective payment system (“PPS”) for general, acute care hospital inpatient services. Under the hospital inpatient PPS, fixed payment amounts per inpatient discharge are established based on the patient’s assigned Medicare severity diagnosis-related group (“MS-DRG”). MS-DRGs classify treatments for illnesses according to the estimated intensity of hospital resources necessary to furnish care for each principal diagnosis. MS-DRG weights represent the average resources for a given MS-DRG relative to the average resources for all MS-DRGs. MS-DRG payments are adjusted for area wage differentials. Hospitals, other than those defined as “new,” receive PPS reimbursement for inpatient capital costs based on MS-DRG weights multiplied by a geographically adjusted federal rate. When the cost to treat certain patients falls well outside the normal distribution, providers typically receive additional “outlier” payments. These payments are financed by offsetting reductions in the inpatient PPS rates. A high-cost outlier threshold is set annually at a level that targets estimated outlier payments equaling 5.1% of total inpatient PPS payments for the federal fiscal year.

MS-DRG payment rates are updated, and MS-DRG weights are recalibrated, using cost-relative weights each federal fiscal year (which begins October 1). The index used to update the MS-DRG payment rates (the “market basket”) gives consideration to the inflation experienced by hospitals and entities outside the health care industry in purchasing goods and services. Each federal fiscal year, the annual market basket update is reduced by a productivity adjustment based on the Bureau of Labor Statistics (“BLS”) 10-year moving average of changes in specified economy-wide productivity. A decrease in payment rates or an increase in rates that is below the increase in our costs may adversely affect our results of operations.

For federal fiscal year 2024, the Centers for Medicare & Medicaid Services (“CMS”) increased the MS-DRG payment rates by approximately 3.1%. This increase reflected a market basket update of 3.3%, reduced by a 0.2 percentage point productivity adjustment. For federal fiscal year 2025, CMS increased the MS-DRG payment rates by approximately 2.9%. This increase reflects a market basket update of 3.4%, reduced by a 0.5 percentage point productivity adjustment. Additional adjustments may apply, depending on patient-specific or hospital-specific factors. For example, the two-midnight rule limits payments to hospitals when services to Medicare beneficiaries are payable as inpatient services. In addition, under transfer policies, Medicare reimbursement rates may be reduced when an inpatient hospital discharges a patient to another hospital or, for specified MS-DRGs, to certain post-acute care settings. We anticipate that additional adjustments may apply in future payment years as a result of 2024 court decisions that vacated a low wage index policy CMS adopted in 2020. The policy had funded an increase to the wage index value for hospitals with low wage indexes by decreasing reimbursement for all other hospitals. CMS addressed the impact of the decision prospectively in its final rule updating inpatient hospital payment rates and policies for federal fiscal year 2025, but it is not yet clear how the agency will address the impact the low wage policy had in 2020 through 2024.

CMS has implemented and is implementing a number of programs and requirements intended to transform Medicare from a passive payer to an active purchaser of quality goods and services. For example, hospitals that do not successfully participate in the Hospital Inpatient Quality Reporting Program are subject to a 25% reduction of the market basket update. Hospitals that do not demonstrate meaningful use of electronic health records (“EHRs”) are subject to a 75% reduction of the market basket update.

Further, Medicare does not allow an inpatient hospital discharge to be assigned to a higher paying MS-DRG if certain designated hospital acquired conditions (“HACs”) were not present on admission and the identified HAC is the only condition resulting in the assignment of the higher paying MS-DRG. In this situation, the case is paid as though the secondary diagnosis was not present. There are currently 14 categories of conditions on the list of HACs. In addition, the 25% of hospitals with the worst risk-adjusted HAC scores in the designated performance period receive a 1.0% reduction in their inpatient PPS Medicare payments in the applicable federal fiscal year. CMS has also established three National Coverage Determinations that prohibit Medicare reimbursement for erroneous surgical procedures performed on an inpatient or outpatient basis.

Under the Hospital Readmission Reduction Program, payments to hospitals may also be reduced based on readmission rates. Each federal fiscal year, inpatient payments are reduced if a hospital experiences “excess” readmissions within the 30-day time period from the date of discharge for conditions or procedures designated by CMS during the prior performance review period. CMS has designated six conditions or procedures under the program, including heart attack, pneumonia and total hip arthroplasty. Hospitals with what CMS defines as excess readmissions for these conditions or procedures receive reduced payments for all inpatient discharges in the federal fiscal year, not just discharges relating to the conditions or procedures subject to the excess readmission standard. The amount by which payments are reduced is determined by assessing a hospital’s performance relative to hospitals with similar proportions of dual eligible patients, subject to a cap established by CMS. The reduction in payments to hospitals with excess readmissions can be up to 3% of a hospital’s base payments. Each hospital’s performance is publicly reported by CMS.

In addition, under the Hospital Value-Based Purchasing Program, CMS reduces the inpatient PPS payment amount for all discharges by 2.0% in each federal fiscal year. The total amount collected from these reductions is pooled, and the entire amount collected is redistributed as incentive payments to reward hospitals that meet certain quality performance standards established by CMS. CMS scores each hospital based on achievement (relative to other hospitals) and improvement ranges (relative to the hospital’s own past performance) for each applicable performance standard. Hospitals that meet or exceed the quality performance standards receive greater reimbursement under the value-based purchasing program than they would have otherwise. Hospitals that do not achieve the necessary level of quality performance receive reduced Medicare inpatient hospital payments. Hospitals are scored on a number of individual measures that are categorized into four domains: clinical outcomes; efficiency and cost reduction; safety; and person and community engagement.

### Outpatient

CMS reimburses hospital outpatient services (and certain Medicare Part B services furnished to hospital inpatients who have no Part A coverage) on a PPS basis. Hospital outpatient services paid under PPS are classified into groups called ambulatory payment classifications (“APCs”). Services for each APC are similar clinically and in terms of the resources they require. Depending on the services provided, a hospital may be paid for more than one APC for a patient visit. A payment rate is established for each APC and updated for each calendar year. Each calendar year, the annual market basket update is further reduced by a productivity adjustment based on the BLS 10-year moving average of changes in specified economy-wide productivity. For calendar year 2024, CMS increased payment rates under the outpatient PPS by an estimated 3.1%. This increase reflected a market basket increase of 3.3%, reduced by a 0.2 percentage point productivity adjustment. For calendar year 2025, CMS increased payment rates by an estimated 2.9%. This increase reflects a market basket increase of 3.4%, reduced by a 0.5 percentage point productivity adjustment. CMS requires hospitals to submit quality data relating to outpatient care to avoid receiving a 2.0 percentage point reduction in the annual payment update under the outpatient PPS.

Medicare reimbursement for outpatient services may also be affected by broad shifts in payment policy. For example, the 340B Drug Pricing Program allows participating hospitals to purchase certain outpatient drugs from manufacturers at discounted rates. These hospitals are reimbursed for the discounted drugs under the same Medicare payment methodology and rates that apply to non-340B hospitals. In 2018, CMS implemented a payment policy that reduced Medicare payments for 340B hospitals for most drugs obtained at 340B-discounted rates and that resulted in increased payments for non-340B hospitals. Most of our facilities are non-340B hospitals. In June 2022, the U.S. Supreme Court invalidated this 340B program payment policy. In light of this U.S. Supreme Court decision and to achieve budget neutrality, CMS reduced payment rates for non-drug services under the outpatient PPS for calendar year 2023, and lump sum payments were distributed to affected 340B hospitals as the remedy for calendar years 2018 through 2022. In order to comply with budget neutrality requirements, the U.S. Department of Health and Human Services (“HHS”) finalized a corresponding offset in future non-drug item and service payments for all outpatient PPS providers (except new providers) that will reduce the outpatient PPS conversion factor by 0.5% annually. This adjustment will start in calendar year 2026 and continue for approximately 16 years.

In addition, CMS has implemented an expanded site-neutral payment policy for clinic visit services provided at all off-campus provider-based departments. Under the policy, clinic visit services provided at all off-campus provider-based departments are generally not covered as outpatient department services under the outpatient PPS, but rather are reimbursed at the Medicare Physician Fee Schedule (“Physician Fee Schedule”) rate, which is generally lower than the outpatient PPS rate.

### Rehabilitation

CMS reimburses inpatient rehabilitation facilities (“IRFs”) on a PPS basis. Under the IRF PPS, patients are classified into case mix groups that reflect the relative resource intensity typically associated with the patient’s clinical condition. The case mix groups are based upon impairment, age, functional motor and cognitive scores, and comorbidities (additional diseases or disorders from which the patient suffers). IRFs are paid a predetermined amount per discharge that reflects the patient’s case mix group and is adjusted for facility-specific factors, such as area wage levels, proportion of low-income patients, and location in a rural area. Each federal fiscal year, the IRF rates are updated using a market basket index, which is reduced by a productivity adjustment based on the BLS 10-year moving average of changes in specified economy-wide productivity. For federal fiscal year 2024, CMS increased IRF payment rates by an estimated 3.4%, reflecting an IRF market basket update of 3.6%, reduced by a 0.2 percentage point productivity adjustment. For federal fiscal year 2025, CMS increased IRF payment rates by an estimated 3.0%, reflecting an IRF market basket update of 3.5%, reduced by a 0.5 percentage point productivity adjustment. CMS requires IRFs to report quality measures to avoid receiving a reduction of 2.0 percentage points to the market basket update.

In order to qualify for classification as an IRF, at least 60% of a facility’s inpatients during the most recent 12-month CMS-defined review period must have required intensive rehabilitation services for one or more of 13 specified conditions. IRFs must also meet additional coverage criteria, including patient selection and care requirements relating to pre-admission screenings, post-admission evaluations, ongoing coordination of care and involvement of rehabilitation physicians. A facility that fails to meet the 60% threshold, or other criteria to be classified as an IRF, will be paid under either the acute care hospital inpatient or outpatient PPS, which generally provide for lower payment amounts. As of December 31, 2024, we had four rehabilitation hospitals and 71 hospital rehabilitation units.

### Psychiatric

Inpatient hospital services furnished in behavioral hospitals and behavioral units of general, acute care hospitals and critical access hospitals are reimbursed on a PPS basis. The inpatient psychiatric facility (“IPF”) PPS is based upon a per diem payment, with adjustments to account for certain patient and facility characteristics. The IPF PPS contains an “outlier” policy for extraordinarily costly cases and an adjustment to a facility’s base payment if it maintains a full-service emergency department. CMS has established the IPF PPS payment rate in a manner intended to be budget neutral. Each federal fiscal year, IPF payment rates are updated using a market basket index, which is reduced by a productivity adjustment based on the BLS 10-year moving average of changes in specified economy-wide productivity. For federal fiscal year 2024, CMS increased IPF payment rates by an estimated 3.3%, which reflected a 3.5% IPF market basket increase with a negative 0.2 percentage point productivity adjustment. For federal fiscal year 2025, CMS increased the IPF payment rates by 2.8%, which reflects a 3.3% IPF market basket increase, reduced by a 0.5 percentage point productivity adjustment. Together with other policy changes, total Medicare payments to IPFs are anticipated to increase by 2.5% in federal fiscal year 2025. Inpatient psychiatric facilities are required to report quality measures to CMS to avoid receiving a 2.0 percentage point reduction to the market basket update. As of December 31, 2024, we had six behavioral hospitals and 43 hospital behavioral units.

### Ambulatory Surgery Centers

CMS reimburses ASCs using a predetermined fee schedule. Reimbursements for ASC overhead costs are limited to no more than the overhead costs paid to hospital outpatient departments under the Medicare hospital outpatient PPS for the same procedure. If CMS determines that a procedure is commonly performed in a physician’s office, the ASC reimbursement for that procedure is limited to the reimbursement allowable under the Physician Fee Schedule, with limited exceptions. All surgical procedures, other than those that pose a significant safety risk or generally require an overnight stay, are payable as ASC procedures. From time to time, CMS expands the services that may be performed in ASCs, which may result in more Medicare procedures that historically have been performed in hospitals being moved to ASCs, reducing surgical volume in our hospitals. Also, more Medicare procedures that historically have been performed in ASCs may be moved to physicians’ offices. Some commercial third-party payers have adopted similar policies.

Historically, CMS updated reimbursement rates for ASCs based on changes to the consumer price index. However, for calendar years through 2025, CMS updates to ASC reimbursement rates are based on the hospital market basket index, partly to promote site-neutrality between hospitals and ASCs. For each federal fiscal year, the ASC payment system update is reduced by a productivity adjustment based on the BLS 10-year moving average of changes in specified economy-wide productivity. For calendar year 2024, CMS increased ASC payment rates by 3.1%, which reflected a market basket increase of 3.3%, reduced by a 0.2 percentage point productivity adjustment. For calendar year 2025, CMS increased payment rates by 2.9%, which reflects a market basket increase of 3.4%, reduced by a 0.5 percentage point productivity adjustment. In addition, CMS has established a quality reporting program for ASCs under which ASCs that fail to report on specified quality measures receive a 2.0 percentage point reduction to the market basket update.

### Home Health

CMS reimburses home health agencies under the Home Health PPS. Home health agencies are paid a national, standardized 30-day period payment rate if a period of care meets a certain threshold of home health visits (periods of care that do not meet the visit threshold are paid a per-visit payment rate for the discipline providing care). The daily home health payment rate is adjusted for case-mix and area wage levels. An outlier adjustment may be paid for periods of care where costs exceed a specific threshold amount. Each calendar year, home health payment rates are updated using a market basket index, which is reduced by a productivity adjustment based on the BLS 10-year moving average of changes in specified economy-wide productivity. For calendar year 2024, CMS increased home health payment rates by 0.8%, based on a home health payment update percentage of 3.0%, which reflected a 3.3% market basket increase, reduced by a 0.3 percentage point productivity adjustment, among other changes. For calendar year 2025, total Medicare payments to home health agencies are anticipated to increase by 0.5%. This increase is based on a home health payment update percentage of 2.7%, which reflects a 3.2% market basket increase, reduced by a 0.5 percentage point productivity adjustment, among other adjustments. Home health agencies that do not submit required quality data are subject to a 2.0 percentage point reduction to the market basket update. In addition, home health agencies are required to submit a one-time Notice of Admission (“NOA”) for each patient that establishes that the beneficiary is under a Medicare home health period of care. Failure to submit the NOA within five calendar days from the start of care results in a reduction to the 30-day period payment amount for each day from the start of care date until the date the NOA is submitted.

Under the nationwide Home Health Value-Based Purchasing (“HHVBP”) Model, home health agencies receive increases or reductions to their Medicare fee-for-service payments of up to 5%, based on performance against specific quality measures relative to the performance of other home health providers. Data collected in each performance year will impact Medicare payments two years later.

Payment of claims for home health services may be impacted by the Review Choice Demonstration, a program intended to identify and prevent home health services fraud, reduce the number of Medicare appeals, and improve provider compliance with Medicare program requirements. The program currently applies only to home health agencies in certain states, including North Carolina, Florida and Texas. Providers in these states may select either pre-claim review or post-payment review. Home health agencies that maintain high levels of compliance are eligible for additional options that may be less burdensome.

### Hospice

Medicare beneficiaries who have a terminal illness and a life expectancy of six months or less may elect to receive hospice benefits (palliative care) instead of standard coverage of treatment for the terminal illness and related conditions. Hospice services are paid under the Hospice PPS, under which CMS sets a daily rate for each day a patient is enrolled in the hospice benefit. The daily rate depends on the level of care provided to a patient (routine home care, continuous home care, inpatient respite care, or general inpatient care). Daily rates are adjusted for factors such as area wage levels. Each federal fiscal year, hospice payment rates are updated using the hospital inpatient market basket index, which is reduced by a productivity adjustment based on the BLS 10-year moving average of changes in specified economy-wide productivity. For federal fiscal year 2024, CMS increased hospice payment rates by 3.1%, which reflected a 3.3% market basket update, reduced by a 0.2 percentage point productivity adjustment. For federal fiscal year 2025, CMS increased hospice payment rates by 2.9%, which reflects a 3.4% market basket update, reduced by a 0.5 percentage point productivity adjustment. Hospices that fail to satisfy quality reporting requirements receive a 4.0 percentage point reduction to the market basket update.

Overall payments made by Medicare to each hospice are subject to an inpatient cap and an aggregate cap. The inpatient cap limits the number of days of inpatient care (general inpatient and respite) for which Medicare will pay up to a maximum of 20% of total patient care days. Days in excess of the limitation are paid at the routine home care rate. The aggregate cap limits the amount of Medicare reimbursement a hospice may receive for an individual patient in a given year. The aggregate cap is updated annually. In federal fiscal year 2025, the aggregate cap is \$34,465.34. If a hospice’s Medicare payments exceed its inpatient or aggregate caps, it must repay Medicare for the excess amount.

### Physician Services

Physician services are reimbursed under the Physician Fee Schedule system, under which CMS has assigned a national relative value unit (“RVU”) to most medical procedures and services that reflects the various resources required by a physician to provide the services, relative to all other services. Each RVU is calculated based on a combination of work required in terms of time and intensity of effort for the service, practice expense (overhead) attributable to the service and malpractice insurance expense attributable to the service. These three elements are each modified by a geographic adjustment factor to account for local practice costs and are then aggregated. While RVUs for various services may change in a given year, any alterations are required by statute to be virtually budget neutral, such that total payments made under the Physician Fee Schedule may not differ by more than \$20 million from what payments would have been if adjustments were not made. CMS annually reviews resource inputs for select services as part of the potentially misvalued code initiative. To determine the payment rate for a particular service, the sum of the geographically adjusted RVUs is multiplied by a conversion factor. For calendar year 2024, CMS reduced the conversion factor by approximately 2.8%. Average payment rates under the Physician Fee Schedule will be reduced by approximately 2.9% in calendar year 2025.

Medicare payments are adjusted based on participation in the Quality Payment Program (“QPP”), a payment methodology intended to reward high-quality patient care. Physicians and certain other health care clinicians are required to participate in one of two QPP tracks. Under both tracks, performance data collected in each performance year affects Medicare payments two years later. CMS expects to transition increasing financial risk to providers as the QPP evolves. The Advanced Alternative Payment Model (“Advanced APM”) track encourages participation in specific innovative payment models approved by CMS through financial incentives, which are paid two years after the relevant performance period, if a provider has sufficient participation (based on percentage of payments or patients) in an Advanced APM. The incentive payments were initially set to expire after the 2023 performance year (with associated payments in 2025), but were extended for one year at a lower rate. After the 2024 performance year and associated payments in 2026, Advanced APM incentive payments will no longer be available. Instead, qualifying providers will receive positive adjustments to their Physician Fee Schedule payment rates. Providers participating in the Advanced APM track are exempt from the reporting requirements and payment adjustments imposed under the Merit-Based Incentive Payment System (“MIPS”),

---

the other QPP participation track. Providers electing the MIPS option receive payment incentives or are subject to payment reductions based on their performance with respect to clinical quality, resource use, clinical improvement activities, and meeting Promoting Interoperability standards related to the meaningful use of EHRs. Positive payment adjustments are subject to a scaling factor to meet budget neutrality requirements; the maximum negative payment adjustment is 9%.

#### Other

CMS uses fee schedules to pay for physical, occupational and speech therapies, durable medical equipment, clinical diagnostic laboratory services, nonimplantable orthotics and prosthetics, services provided by independent diagnostic testing facilities and ambulance services.

Under the various PPS structures, the payment rates are adjusted for area differences in wage levels by a factor reflecting the relative wage level in the geographic area compared to the national average wage level and taking into account occupational mix (“wage index”). To smooth variations and decrease volatility, CMS has implemented permanent, budget-neutral caps on year-to-year decreases in the wage indexes under certain PPS structures, including the hospital inpatient PPS and home health PPS.

Medicare reimburses hospitals for a portion (65%) of deductible and coinsurance amounts that are uncollectable from Medicare beneficiaries.

CMS competitively bids the Medicare fiscal intermediary and Medicare carrier functions to Medicare Administrative Contractors (“MACs”), which are geographically assigned across 12 jurisdictions to service both Part A and Part B providers. Home health and hospice providers are serviced across four MAC jurisdictions. While hospitals with operations across multiple geographies have the option of having all hospitals use one home office MAC, we have chosen, in most cases, to use the MACs assigned to the geographic areas in which our hospitals are located. CMS periodically re-solicits bids, and the MAC servicing a geographic area can change as a result of the bid competition. MAC transition periods can impact claims processing functions and the resulting cash flows.

CMS contracts with third parties to promote the integrity of the Medicare program through reviews of quality concerns and detections, and corrections of improper payments. Quality Improvement Organizations, for example, are groups of physicians and other health care quality experts that work on behalf of CMS to ensure that Medicare pays only for goods and services that are reasonable and necessary, and that are provided in the most appropriate setting. Under the Recovery Audit Contractor (“RAC”) program, CMS contracts with RACs on a contingency basis to conduct post-payment reviews to detect and correct improper payments in the fee-for-service Medicare program. The compensation for RACs is based on their review of claims submitted to Medicare for billing compliance, including correct coding and medical necessity, and the amount of overpayments and underpayments they identify. CMS limits the number of claims that RACs may audit by limiting the number of records that RACs may request from hospitals based on each provider’s claim denial rate for the previous year. CMS has implemented the RAC program on a permanent, nationwide basis and expanded the RAC program to the Managed Medicare program and Medicare Part D. CMS has transitioned some of its other integrity programs to a consolidated model by engaging Unified Program Integrity Contractors (“UPICs”) to perform audits, investigations and other integrity activities.

We have established policies and procedures to respond to requests from and payment denials by RACs and other Medicare contractors. Payment recoveries resulting from reviews and denials are appealable through administrative and judicial processes, and we pursue reversal of adverse determinations at appropriate appeal levels. We incur additional costs related to responding to requests and denials, including costs associated with responding to requests for records and pursuing the reversal of payment denials and losses associated with overpayments that are not reversed upon appeal. Depending upon changes to and the growth of the RAC program and other Medicare integrity programs, our success in appealing claims in future periods, and potential future delays in the appeals process, our cash flows and results of operations could be negatively impacted.

Medicare reimburses teaching hospitals for portions of the direct and indirect costs of graduate medical education (“GME”) through statutory formulas that are generally based on the number of medical residents and which take into account patient volume or the number of hospital beds. Accrediting organizations review GME programs for compliance with educational standards. Many of our hospitals operate GME or other residency programs to train physicians and other allied health professionals.

#### *Managed Medicare*

Under the Managed Medicare program (also known as Medicare Part C, or Medicare Advantage), the federal government contracts with private health insurers to provide members with Medicare Part A, Part B and Part D benefits. Managed Medicare plans can be structured as HMOs, PPOs or private fee-for-service plans. In addition to covering Part A and Part B benefits, the health insurers may choose to offer supplemental benefits and impose higher premiums and

plan costs on beneficiaries. CMS makes fee payment adjustments based on service benchmarks and quality ratings and publishes star ratings to assist beneficiaries with plan selection. According to CMS data, approximately half of all Medicare enrollees participate in managed Medicare plans. Starting January 1, 2024, managed Medicare plans must adhere to the two-midnight rule, which requires managed Medicare plans provide coverage for an inpatient admission when the admitting physician expects the patient to require hospital care that crosses over two midnights. The implementation of the two-midnight rule had a modest impact on our 2024 admissions growth. Medicare Advantage enrollment is projected to continue to increase over the next decade.

### *Medicaid*

Medicaid programs are funded jointly by the federal government and the states. These programs are administered by states under approved plans and waivers. Most state Medicaid program payments are made under a PPS or are based on negotiated payment levels with individual hospitals. Medicaid reimbursement is often less than a hospital's cost of services. The Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010 (collectively, the "Affordable Care Act") requires states to expand Medicaid coverage to all individuals under age 65 with incomes effectively at or below 138% of the federal poverty level. However, states may opt out of the expansion without losing existing federal Medicaid funding. The majority of states adopted Medicaid expansion; however, a number of states, including Texas and Florida, have opted out of the expansion. Among the non-expansion states, the maximum income level required for individuals and families to qualify for Medicaid varies.

The number of individuals enrolled in Medicaid declined in 2024 in comparison to 2023. This decline reversed a trend of increased enrollment that occurred as a result of COVID-19 relief legislation that authorized a temporary increase in federal funds for certain Medicaid expenditures in states that maintained continuous Medicaid enrollment, among other requirements. The end of the continuous enrollment requirement in 2023, including the resumption of redeterminations for Medicaid enrollees, resulted in significant coverage disruptions and dis-enrollments of Medicaid beneficiaries. To increase state compliance with renewal, redetermination and reporting requirements, CMS has issued guidance to states and published an interim final rule establishing an enforcement framework, including potential monetary penalties for states that fail to comply.

Because most states must operate with balanced budgets and because the Medicaid program is often a state's largest budget expenditure, many states have adopted or may consider adopting various strategies to reduce their Medicaid expenditures. Budgetary pressures have historically resulted and likely will continue to result in decreased spending, or decreased spending growth, for Medicaid programs in many states. Most states in which we operate have adopted statewide provider taxes to fund the non-federal share of Medicaid programs within the state. Some states that use provider taxes, including Florida and Texas, rely on local provider taxes that are administered by local governments. Many states have also adopted, or are considering, legislation designed to reduce coverage, enroll Medicaid recipients in managed care programs and/or impose additional taxes on hospitals to help finance or expand the states' Medicaid systems. Some states use, or have applied to use, waivers granted by CMS to implement Medicaid expansion, impose different eligibility or enrollment restrictions, or otherwise implement programs that vary from federal standards. For example, the Texas Healthcare Transformation and Quality Improvement Program, which is operated under a Medicaid waiver, enables the expansion of Medicaid managed care programs in the state and provides funding for uncompensated care. The funding amount to each hospital for uncompensated care is recalculated annually by the state and subject to changes in state policies. The total uncompensated care funding for the state is periodically reassessed by CMS and the state. In recent years, aspects of existing or proposed Medicaid programs have been subject to legal challenge, resulting in uncertainty. Additionally, federal legislation and administrative policies that shape administration of the Medicaid programs at the state level are subject to change, including as a result of changes in the presidential administration. For example, a federal court permitted Georgia to impose work and community engagement requirements under a Medicaid demonstration program that launched in mid-2023, and CMS administrators may in the future allow states to impose such conditions on enrollment or permit other eligibility restrictions. Changes to the federal funding formula for Medicaid could also have a significant impact on Medicaid programs and enrollment, particularly if federal contributions for Medicaid expansion populations decrease and those states are unable to offset the reductions. Further, some states have trigger laws that would end their Medicaid expansion or require other changes if federal funding is reduced. These issues are further discussed in Item 1A, "Risk Factors."

Many state Medicaid programs incorporate value-based purchasing models and related payment and delivery system reform initiatives that incentivize improvements in quality of care and cost-effectiveness. For example, federal funds under the Medicaid program may not be used to reimburse providers for treatment of certain provider-preventable conditions. Each state Medicaid program must deny payments to providers for the treatment of health care-acquired conditions designated by CMS as well as other provider-preventable conditions that may be designated by the state.

Congress has expanded the federal government's involvement in fighting fraud, waste and abuse in the Medicaid program through the Medicaid Integrity Program. CMS employs UPICs to perform post-payment audits of Medicaid

claims, identify overpayments and perform other program integrity activities. The UPICs collaborate with states and coordinate provider investigations across the Medicare and Medicaid programs. In addition, state Medicaid agencies are required to establish Medicaid RAC programs. These programs vary by state in design and operation.

#### *Managed Medicaid*

Enrollment in managed Medicaid plans has increased in recent years, as state governments seek to control the cost of Medicaid programs. Managed Medicaid programs enable states to contract with one or more entities for patient enrollment, care management and claims adjudication. The states usually do not relinquish program responsibilities for financing, eligibility criteria and core benefit plan design. We generally contract directly with one or more of the designated entities, usually a managed care organization. The provisions of these programs are state-specific. Certain states may direct managed care plans to pass through supplemental payments to designated providers, independent of services rendered, to ensure consistent funding of providers that serve large numbers of low-income patients. In an effort to more closely tie funds to delivery and outcomes, CMS is limiting these “pass-through payments” that are paid by states under managed Medicaid plan contracts and will generally prohibit such payments by 2027. However, CMS permits new pass-throughs of supplemental provider payments for up to a three-year period when states are transitioning Medicaid populations or services from a fee-for-service system to a managed care system.

#### *Medicaid State Directed and Supplemental Payments*

Some states make additional payments to providers through the Medicaid program that are separate from base payments and not specifically tied to an individual’s care. Medicaid supplemental payments may be in the form of payments, such as upper payment limit payments, that are intended to address the difference between Medicaid fee-for-service payments and Medicare reimbursement rates, or payments under other programs that vary by state under Section 1115 waivers. These supplemental reimbursement programs are generally authorized by CMS for a specified period of time and require CMS’ approval to be extended.

In addition, many states have implemented state directed payment (“SDP”) arrangements to direct certain Medicaid managed care plan expenditures. These arrangements, which are generally subject to annual approval by CMS, allow states to implement delivery system and provider payment initiatives by requiring Medicaid managed care organizations to pay providers according to specific rates or methods. For example, SDP arrangements may require managed care plans to implement value-based purchasing models or performance improvement initiatives, or may direct managed care plans to adopt specific payment parameters, such as minimum or maximum fee schedules for specific types of providers. States are increasingly using SDP arrangements, and some states have converted supplemental payment programs to SDP arrangements, diverting previously available funding. SDP arrangements can be limited to a specific subset of providers, and providers that do not satisfy applicable criteria may be ineligible for payments. If a state is unable to obtain future CMS approvals of these programs, our revenues could be negatively impacted. In addition, the use and nature of SDP arrangements are subject to policy changes. For example, CMS published a rule (the “Medicaid Managed Care Rule”) in May 2024 that addresses access, financing and quality within Medicaid managed care programs. The rule includes new and updated requirements for SDP arrangements intended to ensure a more consistent and transparent approach for participating states. The rule removes regulatory barriers to help states use SDP arrangements to implement value-based purchasing payment arrangements and include non-network providers in SDP arrangements. The rule also requires provider payment levels for SDPs for certain services, including inpatient and outpatient hospital services, to not exceed the average commercial rate. Further, the rule requires states to ensure each provider receiving an SDP attest by January 1, 2028 that they do not participate in any arrangement that holds taxpayers harmless for the cost of a tax. The various elements of the rule take effect between issuance and early 2028. It is possible that these developments and program reviews will result in the restructuring of or other significant changes to supplemental payment programs and SDP arrangements. We are unable to estimate the financial impact that program structure modifications and other program changes, if any, may have on our results of operations.

Over the last three years, states in which the majority of our hospitals operate have implemented or enhanced their Medicaid supplemental payment programs and SDP arrangements. Revenues from these programs totaled approximately \$4.9 billion and \$3.9 billion in 2024 and 2023, respectively.

#### *Disproportionate Share Hospital Payments*

Separate from the state-administered programs outlined above, the federal Medicare program makes additional payments to hospitals that treat a disproportionately large number of low-income patients (Medicaid and Medicare patients eligible to receive Supplemental Security Income (“SSI”)). Disproportionate Share Hospital (“DSH”) payment adjustments are determined annually based on certain statistical information required by HHS and are paid as a percentage addition to MS-DRG payments. The methodology for calculating DSH payment adjustments is affected by shifts in payment policy and is also subject to ongoing litigation. For example, in August 2023, CMS finalized changes to the

treatment of patient days paid under demonstrations authorized under Section 1115 of the Social Security Act (“Section 1115”) (including through demonstration-authorized uncompensated and undercompensated care pools) in the Medicaid fraction of the DSH payment formula in a manner that will effectively lower DSH payments for many hospitals. However, in August 2024, a district court in Texas vacated the regulation, determining that CMS’ exclusion of patient days paid under such demonstrations was unlawful. Separately, in November 2024, the U.S. Supreme Court heard oral arguments in a dispute focused on whether all patients enrolled in SSI assistance, even if no SSI payments were made during the month of a patient’s hospital admission, should be counted in the DSH methodology. These and other regulatory changes and court rulings could adversely impact our results of operations. CMS also distributes a payment to each DSH hospital that is allocated according to the hospital’s proportion of uncompensated care costs relative to the uncompensated care amount of other DSH hospitals.

The Medicaid program also provides for DSH payments, funded by both the federal government and state governments, which are intended to offset hospital uncompensated care costs. The federal government distributes federal Medicaid DSH funds to each state based on a statutory formula. The states then distribute the DSH funding among qualifying hospitals. States have broad discretion to define which hospitals qualify for Medicaid DSH payments and the amount of such payments. Medicaid DSH payments are also affected by shifts in payment policy. For example, CMS published a final rule in February 2024 affecting how states calculate hospital-specific caps for Medicaid DSH payments. The Affordable Care Act and subsequent legislation provided for reductions to the Medicaid DSH hospital program. Under current law, Medicaid DSH payments will be reduced by \$8 billion for the period from April 1, 2025, through September 30, 2025, and in federal fiscal years 2026 and 2027.

#### *Value-Based Care Arrangements*

CMS has indicated that promoting value-based, person-centered care is among its top priorities, and commercial payers are also increasingly using value-based care arrangements. Generally, value-based care aims to hold providers accountable for delivering efficient, effective care, tying provider reimbursement to patient outcomes or related measures. Value-based care arrangements vary in the method for determining payments and the level of risk assumed, among other factors. For example, Medicare reimbursement may be adjusted based on quality and efficiency measures and/or compliance with quality reporting requirements. In addition, CMS websites make available to the public data submitted by hospitals, home health agencies, hospices, and other Medicare-certified providers in connection with Medicare reimbursement claims, including performance data on quality measures and patient satisfaction.

An Accountable Care Organization (“ACO”), an example of a value-based arrangement, is a group of providers and suppliers that work together to invest in infrastructure and redesign delivery processes to attempt to achieve high quality and efficient delivery of services. ACOs are intended to promote accountability, coordinate care and produce savings as a result of improved quality and operational efficiency. There are several types of ACO programs, including the Medicare Shared Savings Program (“MSSP”), which is Medicare’s permanent ACO program. Medicare-approved ACOs that achieve quality performance standards while lowering growth in expenditures are eligible to share in a portion of the amounts saved by the Medicare program. Conversely, under some MSSP payment tracks, ACOs may be required to pay shared losses if expenditures exceed an established benchmark. Failure to meet quality performance standards may result in an ACO’s termination from the MSSP. CMS continues to explore strategies to accelerate the growth of and access to ACOs.

The CMS Innovation Center is responsible for establishing demonstration projects and other initiatives in order to identify, develop, test and encourage the adoption of new methods of delivering and paying for health care that create savings under the Medicare and Medicaid programs, while improving quality of care. For example, providers participating in bundled payment initiatives agree to receive one payment for services provided to Medicare patients for certain medical conditions or episodes of care, accepting accountability for costs and quality of care. By rewarding providers for increasing quality and reducing costs and penalizing providers if costs exceed a set amount, these models are intended to lead to higher quality, more coordinated care at a lower cost to the Medicare program. Hospitals may receive supplemental Medicare payments or owe repayments to CMS depending on whether overall CMS spending per episode exceeds or falls below a target specified by CMS and whether quality standards are met. The CMS Innovation Center has implemented bundled payment models, including the Bundled Payment Care Improvement Advanced program, which is voluntary and expected to run through December 2025. Participation in bundled payment programs is generally voluntary, but CMS required hospitals in selected geographic areas to participate in a mandatory bundled payment program for specified orthopedic procedures, which ended December 31, 2024. Hospitals in selected markets will be required to participate in a new model focused on five specified surgical procedure episodes beginning in January 2026.

By 2030, the CMS Innovation Center aims to have all fee-for-service Medicare beneficiaries and most Medicaid beneficiaries in a care relationship with accountability for quality and total cost of care. CMS also indicated it will streamline its payment model portfolio and consider how to ensure broad provider participation, including by

implementing more mandatory models. Several private third-party payers are increasingly employing alternative payment models, which may increasingly shift financial risk to providers.

#### *TRICARE*

TRICARE is the Department of Defense's health care program for members of the armed forces. For inpatient services, TRICARE reimburses hospitals based on a DRG system modeled on the Medicare inpatient PPS. For outpatient services, TRICARE reimburses hospitals based on a PPS that is similar to that utilized for outpatient services furnished to Medicare beneficiaries.

#### *Annual Cost Reports*

All hospitals, home health agencies, hospice providers and other institutional providers participating in the Medicare, Medicaid and TRICARE programs, whether paid on a reasonable cost basis or under a PPS, are required to meet certain financial reporting requirements. Federal and, where applicable, state regulations require the submission of annual cost reports covering the revenues, costs and expenses associated with the services provided by each provider type to Medicare beneficiaries and Medicaid recipients.

Annual cost reports required under the Medicare and Medicaid programs are subject to routine audits, which may result in adjustments to the amounts ultimately determined to be due to us under these reimbursement programs. These audits often require several years to reach the final determination of amounts due to or from us under these programs. Providers also have rights of appeal, and it is common to contest issues raised in audits of cost reports.

#### *Managed Care and Other Discounted Plans*

Most of our hospitals offer discounts from established charges to certain large group purchasers of health care services, including managed care plans and private health insurers. Admissions reimbursed by commercial managed care and other insurers were 32%, 30% and 30% of our total admissions for the years ended December 31, 2024, 2023 and 2022, respectively. Managed care contracts are typically negotiated for terms between one and three years. While we generally have received contracted annual increases to payment rates from managed care payers, there can be no assurance that we will continue to receive increases in the future. Price transparency initiatives may impact our relationships with payers and ability to obtain or maintain favorable contract terms. For example, hospitals are required to publish a list of their standard charges for all items and services, including gross charges, discounted cash prices and payer-specific and de-identified minimum and maximum negotiated charges, in a machine-readable, publicly accessible online file. Further, CMS requires most health insurers to publish online charges negotiated with providers for health care services.

#### *Uninsured and Self-Pay Patients*

Self-pay revenues are derived from providing health care services to patients without health insurance coverage and from the patient responsibility portion of payments for our health care services that are not covered by an individual's health plan. Collection of amounts due from individuals is typically more difficult than collection of amounts due from government health care programs or private third-party payers. Any increases in uninsured individuals, changes to the payer mix or greater adoption of health plan structures that result in higher patient responsibility amounts could increase amounts due from individuals. The No Surprises Act requires providers to provide uninsured and self-pay patients, in advance of the scheduled date for the item or service or upon request of the individual, a good faith estimate of the expected charges for furnishing scheduled items or services, including billing and diagnostic codes. HHS is delaying enforcement with regard to good faith estimates to uninsured individuals that do not include expected charges for co-providers or co-facilities until the agency issues additional regulations. If the actual charges to the uninsured or self-pay patient exceed the good faith estimate by an amount deemed to be substantial by regulation (which is currently \$400) or the provider furnishes an item or service that was not included in the estimate, the patient can invoke a patient-provider dispute resolution process to challenge the higher amount.

A high percentage of our uninsured patients are initially admitted through our emergency rooms. For the year ended December 31, 2024, approximately 86% of our admissions of uninsured patients occurred through our emergency rooms. The Emergency Medical Treatment and Labor Act ("EMTALA") requires any hospital that participates in the Medicare program to conduct an appropriate medical screening examination of every person who presents to the hospital's emergency room for treatment and, if the individual is suffering from an emergency medical condition, to either stabilize that condition or make an appropriate transfer of the individual to a facility that can handle the condition. The obligation to screen and stabilize emergency medical conditions exists regardless of an individual's ability to pay for treatment. In addition, federal and some state laws require health insurers to reimburse hospitals for emergency services provided to enrollees without prior authorization and without regard to whether a participating provider contract is in place.

## Hospital Utilization

We believe the most important factors relating to the overall utilization of a hospital are the quality and market position of the hospital and the number and quality of physicians and other health care professionals providing patient care within the facility. Generally, we believe the ability of a hospital to be a market leader is determined by its breadth of services, level of technology, quality and condition of the facilities, emphasis on quality of care and convenience for patients and physicians. Other factors that impact utilization include the growth in local population, local economic conditions and market penetration of managed care programs.

The following table sets forth certain operating statistics for our health care facilities. Health care facility operations are subject to certain seasonal fluctuations, including decreases in patient utilization during holiday periods and increases in the cold weather months.

	2024	2023	2022
Number of hospitals at end of period	190	186	182
Number of freestanding outpatient surgery centers at end of period(a)	124	124	126
Number of licensed beds at end of period(b)	49,985	49,588	49,281
Weighted average beds in service(c)	42,633	41,873	41,982
Admissions(d)	2,236,595	2,130,728	2,075,459
Equivalent admissions(e)	3,990,085	3,788,434	3,611,299
Average length of stay (days)(f)	4.8	4.9	5.1
Average daily census(g)	29,581	28,721	28,778
Occupancy rate(h)	73 %	72 %	72 %
Emergency room visits(i)	9,789,265	9,342,783	8,971,951
Outpatient surgeries(j)	1,024,998	1,044,415	1,023,239
Inpatient surgeries(k)	540,704	528,845	522,151
Days revenues in accounts receivable(l)	54	53	53
Outpatient revenues as a % of patient revenues(m)	38 %	38 %	38 %

- (a) Excludes freestanding endoscopy centers (26 at December 31, 2024, 24 at December 31, 2023 and 21 at December 31, 2022).
- (b) Licensed beds are those beds for which a facility has been granted approval to operate from the applicable state licensing agency.
- (c) Represents the average number of beds in service, weighted based on periods owned.
- (d) Represents the total number of patients admitted to our hospitals and is used by management and certain investors as a general measure of inpatient volume.
- (e) Equivalent admissions are used by management and certain investors as a general measure of combined inpatient and outpatient volume. Equivalent admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient revenue and gross outpatient revenue and then dividing the resulting amount by gross inpatient revenue. The equivalent admissions computation “equates” outpatient revenue to the volume measure (admissions) used to measure inpatient volume, resulting in a general measure of combined inpatient and outpatient volume.
- (f) Represents the average number of days admitted patients stay in our hospitals.
- (g) Represents the average number of admitted patients in our hospital beds each day.
- (h) Represents the percentage of hospital beds in service that are occupied by patients (admitted and observations). Both average daily census and occupancy rate provide measures of the utilization of inpatient rooms.
- (i) Represents the number of patients treated in our emergency rooms.
- (j) Represents the number of surgeries performed on patients who were not admitted to our hospitals. Pain management and endoscopy procedures are not included in outpatient surgeries.
- (k) Represents the number of surgeries performed on patients who have been admitted to our hospitals. Pain management and endoscopy procedures are not included in inpatient surgeries.
- (l) Revenues per day is calculated by dividing the revenues for the fourth quarter of each year by the days in the quarter. Days revenues in accounts receivable is then calculated as accounts receivable at the end of the period divided by revenues per day.
- (m) Represents the percentage of patient revenues related to patients who are not admitted to our hospitals.

## Competition

Generally, other hospitals and facilities in the communities we serve provide services similar to those we offer. Additionally, the number of freestanding specialty hospitals, surgery centers, emergency departments, urgent care centers, diagnostic and imaging centers and other medical facilities in the geographic areas in which we operate continues to increase. As a result, most of our hospitals and other facilities operate in a highly competitive environment. In some cases, competing facilities are more established than we are. Some competing facilities are physician-owned or are owned by tax-supported government agencies, and many others are owned by not-for-profit entities that may be supported by endowments, charitable contributions and/or tax revenues and are exempt from sales, property and income taxes. Such exemptions and support are not available to our facilities and may provide the tax-supported or not-for-profit entities an advantage in funding capital expenditures. In certain localities there are large teaching hospitals that provide highly specialized facilities, equipment and services that may not be available at most of our hospitals. We also face competition from specialty hospitals and from both our own and unaffiliated freestanding ASCs for market share in certain high margin services. Psychiatric hospitals frequently attract patients from areas outside their immediate locale and, therefore, our behavioral hospitals and units compete with both local and regional hospitals, including the behavioral units of general, acute care hospitals.

Trends toward clinical and pricing transparency may impact our competitive position, ability to obtain or maintain favorable contract terms and patient volumes in ways that may be difficult to predict. For example, hospitals are required to publish a list of their standard charges for all items and services, including gross charges, discounted cash prices and payer-specific and de-identified minimum and maximum negotiated charges, in a machine-readable, publicly accessible online file. In addition, CMS websites make available to the public data submitted by hospitals, home health agencies, hospices, and other Medicare-certified providers in connection with Medicare reimbursement claims, including performance data on quality measures and patient satisfaction.

Our strategies are designed to ensure our hospitals and other facilities are competitive. We believe our hospitals and other facilities compete within local communities on the basis of many factors, including the quality of care, ability to attract and retain quality physicians, skilled clinical personnel and other health care professionals, location, breadth of services, technology offered and quality and condition of the facilities. We focus on operating outpatient services with accessibility and convenient service for patients and predictability and efficiency for physicians.

Two of the most significant factors that impact the competitive position of a hospital are the number and quality of physicians affiliated with or employed by the hospital. Although physicians may at any time terminate their relationship with a hospital we operate, our hospitals seek to retain physicians with varied specialties on the hospitals' medical staffs and to attract other qualified physicians. We believe physicians refer patients to a hospital based on the quality and scope of services the hospital renders to patients and physicians, the quality of physicians on the medical staff, the location of the hospital and the quality of the hospital's facilities, technology, equipment and employees. Accordingly, we strive to maintain and provide quality facilities, technology, equipment, employees and services for physicians and patients. Our hospitals face competitors that are implementing physician alignment strategies, such as employing physicians, acquiring physician practice groups and participating in ACOs or other clinical integration models.

Another major factor in the competitive position of our hospitals and other facilities is our ability to negotiate service contracts with group purchasers of health care services. Managed care plans attempt to direct and coordinate members' use of health care services and obtain discounts from providers' established gross charges. Similarly, employers and traditional health insurers continue to attempt to contain costs through negotiations with providers for managed care programs and discounts from established gross charges. Generally, hospitals compete for service contracts with group purchasers of health care services on the basis of price, market reputation, geographic location, quality and range of services, quality of the medical staff and convenience. Legislative and regulatory initiatives may impact our contract terms or ability to contract with payers, such as laws that permit payers to guide patients to particular providers and eliminate restrictions on placing providers into preferred tiers. Our future success will depend, in part, on our ability to retain and renew our contracts with third-party payers and enter into new contracts on favorable terms. Other health care providers may impact our ability to enter into contracts with third-party payers or negotiate increases in our reimbursement and other favorable terms and conditions. For example, some of our competitors may negotiate exclusivity provisions with managed care plans or otherwise restrict the ability of managed care companies to contract with us. Price transparency initiatives and increasing vertical integration efforts involving third-party payers and health care providers, among other factors, may increase these challenges. Moreover, the trend toward consolidation among private third-party payers tends to increase payer bargaining power over fee structures, and private third-party payers may increasingly demand reduced fees or be unwilling to negotiate reimbursement increases. Health plans increasingly utilize narrow networks that restrict the number of participating providers or tiered networks that impose significantly higher cost sharing obligations on patients who obtain services from providers in a disfavored tier. The importance of obtaining contracts with group purchasers of health care services varies by purchaser and by community, depending on the market position of such

---

organizations. In addition, changes in the payer contracts of our competitors may impact the payer mix and patient volume of our hospitals and other facilities.

State certificate of need (“CON”) laws, which place limitations on a health care facility’s ability to expand services and facilities, make capital expenditures and otherwise make changes in operations, may also have the effect of restricting competition. We currently operate health care facilities in a number of states with CON laws or that require other types of approvals for the establishment or expansion of certain facility types or services. Before issuing a CON or other approval, these states consider the need for additional, changes in, or expanded health care facilities or services. Removal of these requirements could reduce barriers to entry and increase competition in our service areas. In those states that do not require state approval or that set relatively high levels of expenditures before they become reviewable by state authorities, competition in the form of new services, facilities and capital spending is more prevalent. Other federal and state laws and regulations may also adversely impact our ability to expand, such as a regulation commonly known as the “36 Month Rule.” This rule, which applies to home health agencies and hospices, restricts the assumption by a new majority owner of the provider’s Medicare provider agreement and billing privileges within 36 months of the provider’s effective date of initial Medicare enrollment or most recent change in majority ownership. In addition, changes in licensure or other laws or regulations and recognition of new provider types or payment models could impact our competitive position. See Item 1, “Business — Regulation and Other Factors.”

We and the health care industry as a whole face the challenge of continuing to provide quality patient care while dealing with rising costs and strong competition for patients. Changes in medical technology, existing and future legislation, regulations and interpretations and contracting for provider services by third-party payers remain ongoing challenges.

Admissions, average lengths of stay and reimbursement amounts continue to be negatively affected by third-party payer pre-admission authorization requirements, utilization review and pressure to maximize outpatient and alternative health care delivery services for less acutely ill patients. Increased competition, admission constraints and third-party payer pressures are expected to continue. To meet these challenges, we intend to expand and update our facilities or acquire or construct new facilities where appropriate, enhance the provision of a comprehensive array of outpatient services, offer market competitive pricing to group purchasers of health care services, upgrade facilities and equipment and offer new or expanded programs and services.

## **Regulation and Other Factors**

### *Licensure, Certification and Accreditation*

Health care facility construction and operation are subject to numerous federal, state and local regulations relating to the adequacy of medical care, equipment, personnel, operating policies and procedures, maintenance of adequate records, fire prevention, rate-setting, building codes and environmental protection. Facilities are subject to periodic inspection by governmental and other authorities to assure continued compliance with the various standards necessary for licensing, certification, and accreditation. We believe our health care facilities are properly licensed under applicable state laws.

Each of our acute care hospitals located in the United States is eligible to participate in Medicare and Medicaid programs. To receive reimbursement under the Medicare and Medicaid programs, organizational providers and suppliers and individuals must satisfy extensive enrollment and revalidation requirements. CMS has the authority to deny or revoke Medicare enrollment and deactivate billing privileges for a variety of reasons. An adverse action relating to Medicare enrollment may impact a provider’s Medicaid eligibility, and adverse actions relating to Medicaid enrollment may impact Medicare enrollment. If any facility were to lose its Medicare or Medicaid certification, the facility would be unable to receive reimbursement from applicable federal health care programs. Each of our general, acute care hospitals located in the United States is accredited by The Joint Commission or another health care accrediting organization. From time to time, we may acquire a facility that is not accredited but for which we will seek accreditation. If any facility were to lose accreditation, the facility would be subject to state surveys, potentially be subject to increased scrutiny by CMS and likely lose payment from private third-party payers.

The Controlled Substances Act and Drug Enforcement Administration (“DEA”) regulations require every person who dispenses controlled substances to be registered with the DEA at each principal place of business or professional practice where the person dispenses controlled substances, subject to limited exceptions. Each hospital or clinic must hold a DEA registration at each location and may be subject to similar state registration requirements. In addition, we are subject to a variety of federal and state statutes and regulations that govern operational issues related to pharmaceuticals and controlled substances, such as those related to packaging, storing, and dispensing of pharmaceutical drugs, inventory

control and recordkeeping requirements for controlled substances, and other standards intended to prevent diversion of controlled substances. The DEA, the Department of Justice (“DOJ”), HHS, and state boards of pharmacy have broad enforcement powers, may conduct audits and investigations and can impose substantial fines and other penalties, including revocation of registration.

Management believes our facilities are in substantial compliance with current applicable federal, state, local and independent review body regulations and standards. The requirements for licensure, certification and accreditation are subject to change, and, in order to remain qualified, it may become necessary for us to make changes in our facilities, equipment, personnel and services. The requirements for licensure, certification and accreditation also include notification or approval in the event of the transfer or change of ownership or certain other changes. Failure to provide required notifications or obtain necessary approvals in these circumstances can result in the inability to complete an acquisition or change of ownership, loss of licensure, lapses in reimbursement or other penalties.

#### *Certificates of Need*

In some states where we operate hospitals and other health care providers, the construction or expansion of health care facilities, the acquisition of existing facilities, the transfer or change of ownership, capital expenditures and the addition of new beds or services may be subject to review by and prior approval of, or notifications to, state regulatory agencies under a CON program. Such laws generally require the reviewing state agency to determine the public need for additional or expanded health care facilities and services or other change. Failure to provide required notifications or obtain necessary state approvals can result in the inability to expand facilities, complete an acquisition or expenditure or change ownership or other penalties.

#### *Federal Health Care Program Regulations*

Participation in any federal health care program, including the Medicare and Medicaid programs, is heavily regulated by statute and regulation. If a hospital or other provider fails to substantially comply with the numerous conditions of participation in the Medicare and Medicaid programs or performs certain prohibited acts, the provider’s participation in the federal health care programs may be terminated, or civil and/or criminal penalties may be imposed. Civil monetary penalties are adjusted annually based on updates to the consumer price index.

#### *Anti-kickback Statute*

A section of the Social Security Act known as the “Anti-kickback Statute” prohibits providers and others from directly or indirectly soliciting, receiving, offering or paying any remuneration with the intent of generating referrals or orders for services or items covered by a federal health care program. Courts have interpreted this statute broadly and held that there is a violation of the Anti-kickback Statute if just one purpose of the remuneration is to generate referrals, even if there are other lawful purposes. Furthermore, knowledge of the law or the intent to violate the law is not required. Violations of the Anti-kickback Statute may be punished by criminal fines per violation, imprisonment, substantial civil monetary penalties per violation that are subject to annual adjustment based on updates to the consumer price index and damages of up to three times the total amount of the remuneration and/or exclusion from participation in federal health care programs, including Medicare and Medicaid. In addition, submission of a claim for services or items generated in violation of the Anti-kickback Statute may be subject to additional penalties under the federal False Claims Act (“FCA”) as a false or fraudulent claim.

The HHS Office of Inspector General (the “OIG”), among other regulatory agencies, is responsible for identifying and eliminating fraud, abuse and waste. The OIG carries out this mission through a nationwide program of audits, investigations and inspections. The OIG provides guidance to the industry through various methods, including advisory opinions and “Special Fraud Alerts.” These Special Fraud Alerts do not have the force of law, but identify features of arrangements or transactions that the government believes may cause the arrangements or transactions to violate the Anti-kickback Statute or other federal health care laws. The OIG has identified several incentive arrangements that constitute suspect practices, including: (a) payment of any incentive by a hospital each time a physician refers a patient to the hospital, (b) the use of free or significantly discounted office space or equipment in facilities usually located close to the hospital, (c) provision of free or significantly discounted billing, nursing or other staff services, (d) free training for a physician’s office staff in areas such as management techniques and laboratory techniques, (e) guarantees which provide, if the physician’s income fails to reach a predetermined level, the hospital will pay any portion of the remainder, (f) low-interest or interest-free loans, or loans which may be forgiven if a physician refers patients to the hospital, (g) payment of the costs of a physician’s travel and expenses for conferences or payments to a physician for speaking engagements, (h) coverage on the hospital’s group health insurance plans at an inappropriately low cost to the physician, (i) payment for services (which may include consultations at the hospital) which require few, if any, substantive duties by the physician, (j) purchasing goods or services from physicians at prices in excess of their fair market value, (k) rental of space in physician offices, at other than fair market value terms, by persons or entities to which physicians refer, and (l)

physician-owned entities (frequently referred to as physician-owned distributorships or PODs) that derive revenue from selling, or arranging for the sale of, implantable medical devices ordered by their physician-owners for use on procedures that physician-owners perform on their own patients at hospitals or ASCs. The OIG has encouraged persons having information about hospitals who offer the above types of incentives to physicians to report such information to the OIG.

The OIG also issues “Special Advisory Bulletins” as a means of providing guidance to health care providers. These bulletins, along with the Special Fraud Alerts, have focused on certain arrangements that could be subject to heightened scrutiny by government enforcement authorities, including: (a) contractual joint venture arrangements and other joint venture arrangements between those in a position to refer business, such as physicians, and those providing items or services for which Medicare or Medicaid pays, and (b) certain “gainsharing” arrangements, i.e., the practice of giving physicians a share of any reduction in a hospital’s costs for patient care attributable in part to the physician’s efforts.

In addition to issuing Special Fraud Alerts and Special Advisory Bulletins, the OIG issues compliance program guidance for certain types of health care providers. The OIG guidance identifies a number of risk areas under federal fraud and abuse statutes and regulations. These areas of risk include compensation arrangements with physicians, recruitment arrangements with physicians and joint venture relationships with physicians.

As authorized by Congress, the OIG has published safe harbor regulations that outline categories of activities deemed protected from prosecution under the Anti-kickback Statute. Currently, there are statutory exceptions and safe harbors for various activities, including the following: certain investment interests, space rental, equipment rental, practitioner recruitment, personnel services and management contracts, sale of practice, referral services, warranties, discounts, employees, group purchasing organizations, waiver of beneficiary coinsurance and deductible amounts, managed care arrangements, obstetrical malpractice insurance subsidies, investments in group practices, freestanding surgery centers, ambulance replenishing, referral agreements for specialty services, care coordination arrangements, arrangements for patient engagement and support, CMS-sponsored model arrangements, cybersecurity technology and related services, and value-based arrangements.

The fact that conduct or a business arrangement does not fall within a safe harbor or is identified in a Special Fraud Alert, Special Advisory Bulletin or other guidance does not necessarily render the conduct or business arrangement illegal under the Anti-kickback Statute. However, such conduct and business arrangements may lead to increased scrutiny by government enforcement authorities.

We have a variety of financial relationships with physicians and others who either refer or influence the referral of patients to our hospitals, other health care facilities and employed physicians, including employment contracts, leases, medical director agreements and professional service agreements. We also have similar relationships with physicians and facilities to which patients are referred from our facilities and other providers. In addition, we provide financial incentives, including minimum revenue guarantees, to recruit physicians into the communities served by our hospitals. While we endeavor to comply with the applicable safe harbors, certain of our current arrangements, including joint ventures and financial relationships with physicians and other referral sources and persons and entities to which we refer patients, do not qualify for safe harbor protection.

Although we believe our arrangements with physicians and other referral sources and referral recipients have been structured to comply with current law and available interpretations, there can be no assurance regulatory authorities enforcing these laws will determine these financial arrangements comply with the Anti-kickback Statute or other applicable laws. An adverse determination could subject us to liabilities under the Social Security Act and other laws, including criminal penalties, civil monetary penalties and exclusion from participation in Medicare, Medicaid or other federal health care programs.

#### Stark Law

The Social Security Act also includes a provision commonly known as the “Stark Law.” The Stark Law prohibits physicians from referring Medicare and Medicaid patients to entities with which they or any of their immediate family members have a financial relationship, if these entities provide certain “designated health services” reimbursable by Medicare or Medicaid unless an exception applies. The Stark Law also prohibits entities that provide designated health services reimbursable by Medicare and Medicaid from billing the Medicare and Medicaid programs for any items or services that result from a prohibited referral and requires the entities to refund amounts received for items or services provided pursuant to the prohibited referral on a timely basis. “Designated health services” include inpatient and outpatient hospital services, clinical laboratory services, radiology and certain other imaging services, radiation therapy services and home health services. Sanctions for violating the Stark Law include denial of payment, substantial civil monetary penalties per claim submitted and exclusion from the federal health care programs. Failure to refund amounts received as a result of a prohibited referral on a timely basis may constitute a false or fraudulent claim and may result in civil penalties and additional penalties under the FCA. The statute also provides for a penalty for a circumvention scheme. These penalties are updated annually based on changes to the consumer price index.

There are exceptions to the self-referral prohibition for many of the customary financial arrangements between physicians and providers, including employment contracts, leases, recruitment agreements and personal service arrangements. Unlike safe harbors under the Anti-kickback Statute with which compliance is voluntary, a financial relationship must comply with every requirement of a Stark Law exception or the arrangement is in violation of the Stark Law. Although there is an exception for a physician's ownership interest in an entire hospital, the Affordable Care Act prohibits physician-owned hospitals established after December 31, 2010 from billing for Medicare or Medicaid patients referred by their physician owners. As a result, the law effectively prevents the formation of new physician-owned hospitals that participate in Medicare or Medicaid. While the Affordable Care Act grandfathers existing physician-owned hospitals, it does not allow these hospitals to increase the percentage of physician ownership and significantly restricts their ability to expand services.

Through a series of rulemakings, CMS has issued final regulations implementing the Stark Law. While these regulations were intended to clarify the requirements of the exceptions to the Stark Law, it is unclear how the government will interpret many of these exceptions for enforcement purposes. Further, we do not always have the benefit of significant regulatory or judicial interpretation of the Stark Law and its implementing regulations. We attempt to structure our relationships to meet an exception to the Stark Law, but the regulations implementing the exceptions are detailed and complex, and are subject to continuing legal and regulatory change. We cannot assure that every relationship complies fully with the Stark Law.

#### *Other Fraud and Abuse Provisions*

Certain federal fraud and abuse laws apply to all health benefit programs and provide for criminal penalties. The Social Security Act also imposes criminal and civil penalties for making false claims and statements to Medicare and Medicaid. False claims include, but are not limited to, billing for services not rendered or for misrepresenting actual services rendered in order to obtain higher reimbursement, billing for unnecessary goods and services and cost report fraud. Federal enforcement officials have the ability to exclude from Medicare and Medicaid any business entities and any investors, officers and managing employees associated with business entities that have committed health care fraud, even if the officer or managing employee had no knowledge of the fraud. Criminal and civil penalties may be imposed for a number of other prohibited activities, including failure to return known overpayments, certain gainsharing arrangements, billing Medicare amounts that are substantially in excess of a provider's usual charges, offering remuneration to influence a Medicare or Medicaid beneficiary's selection of a health care provider, contracting with an individual or entity known to be excluded from a federal health care program, making or accepting a payment to induce a physician to reduce or limit services, and soliciting or receiving any remuneration in return for referring an individual for an item or service payable by a federal health care program. Like the Anti-kickback Statute, these provisions are very broad. Civil penalties may be imposed for the failure to report and return an overpayment within 60 days of identifying the overpayment or by the date a corresponding cost report is due, whichever is later. To avoid liability, providers must, among other things, carefully and accurately code claims for reimbursement, promptly return overpayments and accurately prepare cost reports.

Some of these provisions, including the federal Civil Monetary Penalty Law, require a lower burden of proof than other fraud and abuse laws, including the Anti-kickback Statute. Substantial civil monetary penalties may be imposed under the federal Civil Monetary Penalty Law. These penalties will be updated annually based on changes to the consumer price index. In some cases, violations of the Civil Monetary Penalty Law may result in penalties of up to three times the remuneration offered, paid, solicited or received. In addition, a violator may be subject to exclusion from federal and state health care programs. Federal and state governments increasingly use the federal Civil Monetary Penalty Law, especially where they believe they cannot meet the higher burden of proof requirements under the Anti-kickback Statute. Further, individuals can receive up to \$1,000 for providing information on Medicare fraud and abuse that leads to the recovery of at least \$100 of Medicare funds under the Medicare Integrity Program.

In addition, the Eliminating Kickbacks in Recovery Act of 2018 ("EKRA") establishes criminal penalties for paying, receiving, soliciting or offering any remuneration in return for referring a patient to a laboratory, clinical treatment facility or recovery home, or in exchange for an individual using the services of one of these entities. The EKRA prohibitions apply to services covered by government health care programs and by private health plans. There is limited guidance with respect to the application of EKRA.

#### *State Fraud and Abuse Laws*

Many states in which we operate also have laws intended to prevent fraud and abuse within the health care industry. Some of these laws are similar to the Anti-kickback Statute, prohibiting payments to physicians for patient referrals, and to the Stark Law, prohibiting certain self-referrals. These state laws often apply regardless of the source of payment for care, and little precedent exists for their interpretation or enforcement. These statutes typically provide for criminal and civil penalties, as well as loss of licensure.

### *The Federal False Claims Act and Similar State Laws*

We are subject to state and federal laws that govern the submission of claims for reimbursement and prohibit the making of false claims or statements. One of the most prominent of these laws is the FCA, which may be enforced by the federal government directly or by a *qui tam* plaintiff, or whistleblower, on the government's behalf. The government may use the FCA to prosecute Medicare and other government program fraud in areas such as coding errors, billing for services not provided and submitting false cost reports. In addition, the FCA covers payments made in connection with the Exchanges if those payments include any federal funds. When a private party brings a *qui tam* action under the FCA, the defendant is not made aware of the lawsuit until the government commences its own investigation or makes a determination whether it will intervene. If a defendant is determined by a court of law to be liable under the FCA, the defendant may be required to pay three times the actual damages sustained by the government, plus substantial mandatory civil penalties for each separate false claim. These penalties are updated annually based on changes to the consumer price index.

There are many potential bases for liability under the FCA. Liability often arises when an entity knowingly submits a false claim for reimbursement to the federal government. The FCA defines the term "knowingly" broadly. Though simple negligence will not give rise to liability under the FCA, submitting a claim with actual knowledge of, deliberate ignorance of or reckless disregard to its truth or falsity constitutes a "knowing" submission under the FCA and, therefore, may create liability. Submission of claims for services or items generated in violation of the Anti-kickback Statute constitutes a false or fraudulent claim under the FCA. Whistleblowers and the federal government have taken the position, and some courts have held, that providers who allegedly have violated other statutes, such as the Stark Law, have thereby submitted false claims under the FCA. False claims under the FCA also include the knowing and improper failure to report and refund amounts owed to the government in a timely manner following identification of an overpayment. An overpayment is deemed to be identified when a person knowingly, as defined under the FCA, receives or retains an overpayment.

Every entity that receives at least \$5 million annually in Medicaid payments must have written policies for all employees, contractors or agents, providing detailed information about false claims, false statements and whistleblower protections under certain federal laws, including the FCA, and similar state laws. In addition, federal law provides an incentive to states to enact false claims laws comparable to the FCA. A number of states in which we operate have adopted their own false claims provisions as well as their own whistleblower provisions under which a private party may file a civil lawsuit in state court. We have adopted and distributed policies pertaining to the FCA and relevant state laws.

### *HIPAA Administrative Simplification, Privacy and Security Standards and Interoperability Requirements*

The Administrative Simplification Provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and implementing regulations require the use of uniform electronic data transaction standards and code sets for certain health care claims and payment transactions submitted or received electronically. In addition, HIPAA requires each provider to use a National Provider Identifier. These provisions are intended to encourage electronic commerce in the health care industry.

The privacy and security regulations promulgated pursuant to HIPAA extensively regulate the use and disclosure of individually identifiable health information, known as "protected health information," and require covered entities, including health plans and most health care providers, to implement administrative, physical and technical safeguards to protect the security of such information. Certain provisions of the security and privacy regulations apply to business associates (entities that handle protected health information on behalf of covered entities), and business associates are subject to direct liability for violation of these provisions. In addition, a covered entity may be subject to penalties as a result of a business associate violating HIPAA, if the business associate is found to be an agent of the covered entity.

Covered entities must report breaches of unsecured protected health information to affected individuals without unreasonable delay but not to exceed 60 days after discovery of the breach by a covered entity or its agents. Notification must also be made to HHS and, in certain situations involving large breaches, to the media. HHS is required to publish on its website a list of all covered entities that report a breach involving more than 500 individuals. All non-permitted uses or disclosures of unsecured protected health information are presumed to be breaches unless the covered entity or business associate establishes that there is a low probability the information has been compromised. Various state laws and regulations may also require us to notify affected individuals in the event of a data breach involving individually identifiable information.

Violations of the HIPAA privacy and security regulations may result in criminal penalties and in substantial civil penalties per violation. These civil penalties are updated annually based on updates to the consumer price index. HHS

enforces the regulations and performs compliance audits. In addition to enforcement by HHS, state attorneys general are authorized to bring civil actions seeking either injunction or damages in response to violations that threaten the privacy of state residents. HHS may resolve HIPAA violations through informal means, such as allowing a covered entity to implement a corrective action plan, but HHS has the discretion to move directly to impose monetary penalties and is required to impose penalties for violations resulting from willful neglect. We enforce compliance in accordance with HIPAA privacy and security regulations. The Privacy and Information Protection and Security Departments monitor our compliance with the HIPAA privacy and security regulations. The HIPAA privacy regulations and security regulations have and will continue to impose significant costs on our facilities in order to comply with these standards.

Health care providers and industry participants are also subject to a growing number of requirements intended to promote the interoperability and exchange of patient health information. For example, health care providers and certain other entities are subject to information blocking restrictions pursuant to the 21<sup>st</sup> Century Cures Act that prohibit practices that are likely to interfere with the access, exchange or use of electronic health information, except as required by law or specified by HHS as a reasonable and necessary activity. Violations may result in penalties or other significant disincentives. In a final rule published in July 2024, HHS established disincentives for hospitals, MIPS-eligible clinicians (including group practices) and ACOs and ACO providers that commit information blocking. Hospitals found to have committed information blocking will not qualify as “meaningful electronic health record users” under the Medicare Promoting Interoperability Program and as a result will lose 75% of the annual market basket increase they would otherwise receive. Similar penalties apply to MIPS-eligible clinicians and ACOs, ACO participants, and ACO providers or suppliers under the Medicare Shared Savings Program.

#### *EMTALA*

All of our hospitals in the United States are subject to EMTALA. This federal law requires any hospital participating in the Medicare program to conduct an appropriate medical screening examination of every individual who presents to the hospital’s emergency room for treatment and, if the individual is suffering from an emergency medical condition, to either stabilize the condition or make an appropriate transfer of the individual to a facility able to handle the condition. The obligation to screen and stabilize emergency medical conditions exists regardless of an individual’s ability to pay for treatment. There are severe penalties under EMTALA if a hospital fails to screen or appropriately stabilize or transfer an individual or if the hospital delays appropriate treatment in order to first inquire about the individual’s ability to pay. Penalties for violations of EMTALA include exclusion from participation in the Medicare program and civil monetary penalties. These civil monetary penalties are adjusted annually based on updates to the consumer price index. In addition, an injured individual, the individual’s family or a medical facility that suffers a financial loss as a direct result of a hospital’s violation of the law can bring a civil suit against the hospital.

The government broadly interprets EMTALA to cover situations in which individuals do not actually present to a hospital’s emergency room, but present for emergency examination or treatment to the hospital’s campus, generally, or to a hospital-based clinic that treats emergency medical conditions or are transported in a hospital-owned ambulance, subject to certain exceptions. At least one court has interpreted the law also to apply to a hospital that has been notified of a patient’s pending arrival in a non-hospital owned ambulance. In enforcement actions, the government has broadly interpreted a hospital’s obligations with respect to screening and stabilizing patients who present with a psychiatric emergency. EMTALA does not generally apply to individuals admitted for inpatient services. The government has expressed its intent to investigate and enforce EMTALA violations actively. Hospitals may face conflicting interpretations of EMTALA’s requirements with respect to state laws that limit access to abortion or other reproductive health services. For example, HHS has provided guidance regarding EMTALA obligations specific to patients who are pregnant or are experiencing pregnancy loss and the preemption of state law. This guidance has been the subject of legal challenges, including a pending case in Idaho under which the state is currently enjoined from enforcing its state law restricting abortion to the extent the state law conflicts with EMTALA. The final ruling from a Texas case limits application of the HHS guidance in Texas.

#### *Corporate Practice of Medicine/Fee Splitting*

Some of the states in which we operate have laws prohibiting corporations and other entities not owned by physicians or other permitted health professionals from employing physicians or certain other health professionals, practicing medicine for a profit and making certain direct and indirect payments to, or entering into fee-splitting arrangements with, health care providers designed to induce or encourage the referral of patients to, or the recommendation of, particular providers for medical products and services. Possible sanctions for violation of these restrictions include loss of license and civil and criminal penalties. In addition, agreements between the corporation and the physician or other health professional may be considered void and unenforceable. These statutes vary from state to state, are often vague and have seldom been interpreted by the courts or regulatory agencies.

### *Health Care Industry Investigations*

Significant media and public attention has focused in recent years on the hospital industry. This media and public attention, changes in government personnel and other factors have led to increased scrutiny of the health care industry. Except as may be disclosed in our SEC filings, we are not aware of any material investigations of the Company under federal or state health care laws or regulations. It is possible that governmental entities could initiate investigations or litigation in the future at facilities we operate and that such matters could result in significant penalties, as well as adverse publicity. It is also possible that our executives and managers could be included in governmental investigations or litigation or named as defendants in private litigation.

Our substantial Medicare, Medicaid and other governmental billings result in heightened scrutiny of our operations. We continue to monitor all aspects of our business and have developed a comprehensive ethics and compliance program that is designed to meet or exceed applicable federal guidelines and industry standards.

However, because the law in this area is complex and constantly evolving, governmental investigations or litigation may result in interpretations that are inconsistent with our practices or industry practices.

In public statements surrounding current investigations, governmental authorities have taken positions on a number of issues, including some for which little official interpretation previously has been available, that appear to be inconsistent with practices that have been common within the industry and that previously have not been challenged in this manner. In some instances, government investigations that have in the past been conducted under the civil provisions of federal law may now be conducted as criminal investigations.

Both federal and state government agencies have increased their focus on and coordination of civil and criminal enforcement efforts in the health care area. Through the national Health Care Fraud and Abuse Control Program, the OIG and the DOJ coordinate federal, state and local law enforcement activities with respect to health care fraud against both public and private health plans. The OIG and DOJ have, from time to time, established national enforcement initiatives that target all hospital providers, focusing on specific billing practices or other suspected areas of abuse. In addition, governmental agencies and their agents, such as MACs, fiscal intermediaries and carriers, may conduct audits of our health care operations. Private third-party payers may conduct similar post-payment audits, and we also perform internal audits and monitoring.

In addition to national enforcement initiatives, federal and state investigations have addressed a wide variety of routine health care operations such as: cost reporting and billing practices, including for Medicare outliers; financial arrangements with referral sources; physician recruitment activities; physician joint ventures; and hospital charges and collection practices for self-pay patients. We engage in many of these routine health care operations and other activities that could be the subject of governmental investigations or inquiries. For example, we have significant Medicare and Medicaid billings, numerous financial arrangements with physicians who are referral sources to our hospitals, and joint venture arrangements involving physician investors. Certain of our individual facilities have received, and other facilities may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Any additional investigations of the Company, our executives or managers could result in significant liabilities or penalties to us, as well as adverse publicity.

### *Price Transparency and Consumer Billing Limitations*

The health care industry is subject to various federal and state initiatives and requirements related to price transparency and out-of-network charges. For example, federal regulations require hospitals to publish a list of their standard charges for all items and services, including gross charges, discounted cash prices and payer-specific and de-identified minimum and maximum negotiated charges, in a machine-readable, publicly accessible online file. Hospitals are required to publish a consumer-friendly list of standard charges for certain “shoppable” services (i.e., services that can be scheduled by a patient in advance) and associated ancillary services or, alternatively, maintain an online price estimator tool. CMS may impose civil monetary penalties for noncompliance with these price transparency requirements. Further, CMS requires most health insurers to publish online charges negotiated with providers for health care services. Most health insurers must also provide online price comparison tools to help individuals get personalized cost estimates for covered items and services.

In addition, the No Surprises Act imposes various requirements on providers and health plans intended to prevent “surprise” medical bills, and several states have implemented similar laws intended to protect consumers. The No Surprises Act prohibits providers from charging patients an amount beyond the in-network cost sharing amount for items and services rendered by out-of-network providers (i.e., prohibits balance billing), subject to limited exceptions. The No Surprises Act also impacts the payment received by an out-of-network provider from a health plan for items and services to which the prohibitions on balance billing apply. For items and services for which balance billing is prohibited (even

when no balance billing occurs), the No Surprises Act establishes an independent dispute resolution (“IDR”) process for providers and payers to handle payment disputes that cannot be resolved through direct negotiations. The final rule establishing the IDR process is currently the subject of legal challenges, and government agencies have proposed various changes, creating uncertainty and resulting in delays in claims resolution. The No Surprises Act also requires providers to provide a good faith estimate of expected charges to uninsured or self-pay individuals in connection with scheduled items or services, in advance of the date of the scheduled item or service, or upon request of the individual. HHS is delaying enforcement with regard to good faith estimates to uninsured individuals that do not include expected charges for co-providers or co-facilities until the agency issues additional regulations. If the actual charges to an uninsured or self-pay patient exceed the good faith estimate by an amount deemed to be substantial by regulation (which is currently \$400) or the provider furnishes an item or service that was not included in the good faith estimate, the patient may invoke a patient-provider dispute resolution process established by regulation to challenge the higher amount.

### *Medical Technology Regulation and Developments*

Participants in the health care industry must frequently adapt to scientific and technological innovations and initiatives. These advances can change the way services are delivered and offer business efficiencies, among other benefits, and impact the competitive position of providers. The design and introduction of new products and services and changes to existing products and services are subject to complex laws and regulation and oversight by various agencies, including HHS and the Food and Drug Administration (“FDA”). Further, advances may result in new or enhanced governmental or regulatory scrutiny, litigation and ethical concerns and impact patient care.

For example, we deploy third-party software programs, and in some instances develop our own software programs, utilizing machine learning/AI, including for use within our network to improve care. The legal framework for AI (particularly in patient care) is rapidly developing and uncertain. In 2023, HHS finalized transparency requirements for AI and other predictive algorithms used in certified health information technology, such as decision support interventions. In some cases, software can be considered a medical device under the federal Food, Drug, and Cosmetic Act (“FDCA”). Medical devices are subject to extensive regulation by the FDA under the FDCA. In September 2022, the FDA issued non-binding final guidance that describes the types of clinical decision support software that the FDA will regulate as a medical device, potentially including software programs that were not previously treated as medical devices. Application of the new guidance may result in our current and/or future software programs used by us to provide clinical decision support being subject to FDA regulation. Some states have adopted or are considering additional measures regarding the use of AI within the health care industry. For example, California enacted Assembly Bill 3030, known as the Artificial Intelligence in Health Care Services Bill (“AB 3030”), which requires that any health care facility using generative AI to create patient communications pertaining to patient clinical information ensure that the communications include (i) a disclaimer that the communication was generated by generative AI and (ii) clear instructions describing how a patient may contact a human health care provider or other appropriate person at the health care facility. Further, Utah enacted the Artificial Intelligence Policy Act (“AIPA”), which requires physicians, nurses and other regulated health care providers to disclose to individuals if they are interacting with generative AI while receiving regulated services. Additionally, Colorado has passed the Colorado Artificial Intelligence Act (“CAIA”), which will impose significant disclosure, documentation, and risk management requirements on developers of and companies that deploy “high-risk” AI systems, including systems used to recommend certain health care decisions. If we or our third-party providers are restricted from using AI as a result of any laws or regulations, it could impact our operations and cause us to incur costs to replace or modify our use of AI. Any failure or perceived failure by us or our third-party providers to comply with AI laws and regulations could result in legal proceedings or investigations, which could result in significant legal costs and potential liability, as well as reputational harm. Further, we expect additional AI-related laws and regulations to come into effect, which could affect our business and financial condition.

We also perform clinical laboratory testing, and some of the tests performed are considered “laboratory developed tests” (“LDTs”). On May 6, 2024, the FDA published a final rule to increase regulatory oversight of LDTs as medical devices, classifying the tests as in vitro diagnostic products. The rule is currently the subject of legal challenges. The requirements imposed by the FDA under this rule will, over a four-year phase-in period that starts May 6, 2025, require our clinical laboratories to make significant adjustments and implement processes to comply with certain FDA medical device laws and regulations and may require FDA review or approval for LDTs used in patient care that are either newly marketed or modified after May 6, 2024.

Failure to obtain necessary approvals for regulated technologies or noncompliance with other applicable regulatory requirements could result in penalties or require us to make changes to our operations, including changes to services currently rendered. For example, if the FDA determines that any of our software programs are medical devices under the FDCA, the use of those software programs may require premarket approval or clearance, and we may be required to cease use of such programs until we obtain any required premarket approval or clearance.

## Developments in Health Care Public Policy

The health care industry is subject to changing political, regulatory and other influences. Regulatory uncertainty has increased as a result of recent decisions issued by the U.S. Supreme Court that affect review of federal agency actions and the outcome of the 2024 federal election. The Supreme Court decisions increase judicial scrutiny of agency authority, shift greater responsibility for statutory interpretation to courts and expand the timeline in which a plaintiff can sue regulators. In *Loper Bright Enterprises v. Raimondo*, the Court overruled a legal framework that gave significant judicial deference to federal agency interpretations of federal statutes. The Court held that courts must instead exercise independent judgment when deciding whether an agency has acted within its statutory authority and that courts may not defer to an agency interpretation simply because a statute is ambiguous. The *Loper Bright* decision and other recent decisions of the U.S. Supreme Court are expected to have significant impacts on government agency regulation, particularly within the heavily regulated health care industry, in part through an increase in legal challenges to health care regulations and agency guidance and decisions. Federal agencies oversee, regulate and otherwise affect many aspects of our business, including through Medicare and Medicaid payment and coverage policies, policies affecting the size of the uninsured population, administration of state Medicaid programs, and enforcement and interpretation of fraud and abuse laws. The recent Supreme Court decisions may also result in inconsistent judicial interpretations and delays in and other impacts to agency rulemaking and legislative processes. The outcome of the 2024 federal election may increase regulatory uncertainty and the potential for significant policy changes. Recent presidential executive orders have been issued that impact or may impact the health care industry, including an order establishing a presidential advisory commission focused on restructuring and streamlining government agencies and reducing or eliminating regulations and federal government programs and other expenditures.

The health care industry has been and continues to be impacted by health care reform efforts at the federal and state levels. Many recent changes have been aimed at reducing costs and government spending and increasing access to health insurance. For example, the Affordable Care Act increased health insurance coverage through a combination of private sector health insurance requirements, public program expansion and other reforms. Changes in the law's implementation, subsequent legislation and regulations, state initiatives and other factors have affected and may continue to affect the number of individuals that elect or are able to obtain public or private health insurance and the scope of such coverage, if purchased. For example, the American Rescue Plan of 2021 ("ARPA") temporarily enhanced premium tax credits available for purchasing coverage through the Exchanges by lowering premiums and raising income eligibility thresholds. Subsequent legislation extended these enhanced premium tax credits through 2025. However, further extension is uncertain, and we believe their expiration would adversely impact Exchange enrollment and significantly increase the uninsured rate. Other legislative and executive branch initiatives related to health insurance, such as permitting the sale of insurance plans that lack currently required consumer protections, could increase rates of uninsured and underinsured individuals and destabilize insurance markets.

Health care providers may also be significantly impacted by reforms to the Medicaid program, including changes resulting from legislation and administrative actions at the federal and state levels. Changes at the federal level may impact funding for, or the structure of, the Medicaid program and may shape administration of the program at the state level. The Affordable Care Act expands the categories of individuals eligible for Medicaid coverage, permits individuals with relatively higher incomes to qualify and provides states with enhanced funding for expansion populations. The majority of states adopted Medicaid expansion; however, a number of states, including Texas and Florida, have opted out of the Medicaid expansion provisions of the Affordable Care Act. Changes to the federal funding formula for Medicaid could have a particularly significant impact in states that expanded Medicaid, especially if federal contributions for Medicaid expansion populations decrease and states are unable to offset the reductions. Further, some states have trigger laws that would end their Medicaid expansion if federal funding is reduced. CMS administrators may also make changes to Medicaid payment models and may grant states additional flexibility in the administration of state Medicaid programs, including by allowing additional states to condition Medicaid enrollment on work or other community engagement or permitting other eligibility restrictions. Some states use, or have applied to use, waivers granted by CMS to implement expansion, impose different eligibility or enrollment conditions, or otherwise implement programs that vary from federal standards. The Medicaid landscape is constantly evolving as the federal and state governments consider and test various models of delivery and payment system reform.

In addition, there is uncertainty regarding the potential impact of other reform efforts at the federal and state levels. For example, some members of Congress have proposed measures intended to accelerate the shift from traditional Medicare to Medicare Advantage or eliminating some or all of the consumer protections established by the Affordable Care Act. Other recent initiatives and proposals include those aimed at price transparency and out-of-network charges, which may impact prices and the relationships between health care providers, insurers and patients. Reform efforts could also include changes to Medicare reimbursement, such as new or expanded site-neutral payment policies that may reduce payments received or further attempt to equate rates of reimbursement for outpatient hospital services with payment for similar services provided in other patient care settings. Other industry participants, such as private payers and large employer groups and their affiliates, may also introduce financial or delivery system reforms. For example, in recent

years, there have been trends influenced by private and/or public payers toward enrollment in managed care programs, favoring outpatient care over inpatient care, and provider consolidation. These issues are further discussed in Item 1A, “Risk Factors.”

### **General Economic and Demographic Factors**

The health care industry is impacted by the overall U.S. economy. Budget deficits at the federal level and within some state and local government entities have had a negative impact on spending for many health and human service programs, including Medicare, Medicaid and similar programs, which represent significant payer sources for our hospitals and other providers. We anticipate that federal and state budget deficits, the growing magnitude of Medicare and Medicaid expenditures and the aging and health status of the U.S. population, among other factors, will continue to place pressure on government health care programs. Other risks we face during periods of economic weakness and high unemployment include potential declines in the population covered under managed care agreements, increased patient decisions to postpone or cancel elective and nonemergency health care procedures (including delaying surgical procedures), potential increases in the uninsured and underinsured populations, increased adoption of health plan structures that shift financial responsibility to patients and increased difficulties in collecting patient receivables for copayment and deductible amounts.

### **Compliance Program**

We maintain a comprehensive ethics and compliance program that is designed to meet or exceed applicable federal guidelines and industry standards. The program is intended to monitor and raise awareness of various regulatory issues among employees and to emphasize the importance of complying with governmental laws and regulations. As part of the ethics and compliance program, we provide annual ethics and compliance training to our employees and encourage all employees to report any violations to their supervisor, an ethics and compliance officer or to the Company’s ethics line available 24 hours a day by phone and internet portal.

### **Antitrust Laws**

The federal government and most states have enacted antitrust laws that prohibit certain types of conduct deemed to be anti-competitive. These laws prohibit price fixing, market allocation, bid-rigging, concerted refusal to deal, market monopolization, price discrimination, tying arrangements, acquisitions of competitors and other practices that have, or may have, an adverse effect on competition. Violations of federal or state antitrust laws can result in various sanctions, including criminal and civil penalties. Antitrust enforcement in the health care industry is currently a priority of the Federal Trade Commission and the DOJ, including with respect to hospital and physician practice acquisitions. We believe we are in compliance with such federal and state laws, but courts or regulatory authorities may reach a determination in the future that could adversely affect our operations and growth strategy.

### **Environmental Matters**

We are subject to various federal, state and local statutes and ordinances and other laws regulating the discharge of materials into the environment. We do not believe that we will be required to expend any material amounts in order to comply with these laws and regulations as presently in effect. Regulations limiting greenhouse gas emissions and energy inputs may increase in coming years, which may increase our costs associated with compliance, disrupt and adversely affect our operations and could materially, adversely affect our financial performance.

Our environmental strategy is designed to complement our mission of the care and improvement of human life, which extends to the environment. This strategy is centered on incorporating the following four pillars into our operations:

- Managing energy and water responsibly,
- Preparing for weather impacts,
- Sourcing and consuming efficiently, and
- Managing the environmental impact of our capital programs.

Our initiatives contemplate operational changes intended to reduce energy consumption, including by accelerating related capital investments, new technology pilots, energy contracting and investments, and medical gas initiatives. We have also integrated climate-related risk assessment into our established enterprise risk management function.

While we currently believe that compliance with existing environmental laws and regulations does not have a material impact on our operations, changes in consumer preference and legislation or regulatory requirements, including

those associated with efforts to transition to a low-carbon economy, may increase costs associated with compliance, the operation of our facilities and supplies.

## **Insurance**

As is typical in the health care industry, we are subject to claims and legal actions by patients in the ordinary course of business. Subject, in most cases, to a \$15 million per occurrence self-insured retention, our facilities are insured by our insurance subsidiary for losses up to \$110 million per occurrence. The insurance subsidiary has obtained reinsurance for professional liability risks generally above a retention level of either \$25 million or \$35 million per occurrence, depending on the jurisdiction for the related claim. We also maintain professional liability insurance with unrelated commercial carriers for losses in excess of amounts insured by our insurance subsidiary.

We purchase, from unrelated insurance companies, coverage for cybersecurity incidents, directors and officers liability and property loss in amounts we believe are reasonable and subject to terms of coverage we believe to be reasonable.

## **Human Capital Resources**

Our workforce consists of approximately 316,000 employees (as of December 31, 2024), including approximately 90,000 part-time and PRN employees (references herein to “employees” or “colleagues” refer to employees of our affiliates). Our Board of Directors and its committees oversee human capital matters through regular reporting from management and advisors.

### *Culture and Values*

We believe HCA Healthcare’s culture helps drive our success. We strive to foster a culture of compassion and respect, across our system, to provide high-quality care for our patients, unlock opportunities for our colleagues and improve the health of our communities. Our policies prohibit discrimination on the basis of age, gender, disability, race, color, ancestry, citizenship, religion, pregnancy, sexual orientation, gender identity or expression, national origin, medical condition, marital status, veteran status, payment source or ability, or any other basis prohibited by federal, state or local law.

We encourage you to review our 2024 Impact Report (available at [www.hcahealthcareimpact.com](http://www.hcahealthcareimpact.com)) for more detailed information regarding how we foster care and respect for our patients and colleagues. Nothing on our website, including our annual Impact Report or sections thereof, shall be deemed incorporated by reference into this annual report on Form 10-K.

### *Recruitment and Workforce Development*

We are dedicated to being an employer of choice and seek to recruit candidates through a variety of venues and programs. We continue to invest in expanding access to high-quality health care and addressing nursing and physician shortages through Galen College of Nursing and graduate medical education. Additionally, we are developing enterprise-wide, colleague-facing upskilling programs as well as partnering with academic institutions to create training programs that bolster the allied health talent pipeline.

### *Engagement, Retention and Talent Development*

We believe that excellent people make excellence happen and are committed to selecting and supporting colleagues who can bring our mission to life. We regularly connect with our colleagues, capturing their feedback through rounding, advisory groups, governance councils and surveys, and strive to take appropriate action on identified opportunities. We also have programs designed to support our colleagues throughout their career journey. By providing education, training and benefits like tuition reimbursement and student loan repayment assistance we help our colleagues fully realize their potential.

We are committed to developing leaders who support our culture and help us work to grow our business and lead the industry. Through the award-winning HCA Healthcare Leadership Institute, we seek to develop the capabilities of our leaders, building and strengthening our talent pipeline. Our commitment to leadership development and succession planning is a foundation from which we seek to expand our impact on the communities we serve.

### *Compensation and Benefits*

To recruit and retain a highly qualified workforce, we design competitive compensation and benefits programs to attract, retain, recognize and reward the performance of our employees. These programs (which vary by location) include incentive programs, an employee stock purchase plan, a 401(k) plan, health care and insurance benefits, flexible spending accounts, paid time off, family leave, family care resources, flexible work schedules, employee assistance and well-being programs, volunteer opportunities, and tuition and student loan payment assistance.

### *Health, Safety and Wellness*

We focus on supporting colleagues in ways that we believe have a positive impact on their physical, mental and financial health so they can take care of themselves, their families, their patients and each other. These resources and programs include counseling, fertility and menopause care, financial and retirement planning, consumer discounts and insurance, and family benefits.

### *Serving the Community*

We strive to provide not only the quality health care that our patients deserve, but also to address needs in the communities we serve. We provide opportunities for our colleagues to get involved and be a part of something bigger than our organization. By joining forces with other leading organizations, we believe our collective talents and work have an impact that is only possible when we work together. Through research, partnerships, leadership and investments, we are tackling problems in our communities and throughout the health care industry. We also support the HCA Healthcare Foundation in promoting health and wellbeing in the communities HCA Healthcare serves through leadership, service and financial support to non-profit organizations.

### *Labor Matters*

We are subject to various state and federal laws that regulate wages, hours, benefits and other terms and conditions relating to employment. At December 31, 2024, certain employees at 35 of our domestic hospitals are represented by various labor unions. Three elections were held in 2024 that resulted in the addition of a number of employees to existing bargaining units at three of our facilities in California and Nevada. One election was held in 2024 that resulted in our employees choosing not to unionize at one of our facilities in Colorado, and there was another election in 2024 to remove union representation at one of our facilities in Texas. There are no elections scheduled to be held in 2025. It is possible that employees at additional hospitals may unionize in the future, or employees currently represented by labor unions may choose to reject that representation. We have not experienced work stoppages that have materially, adversely affected our business or results of operations. However, it is possible that a material work stoppage at one or more of our hospitals may occur in the future.

Physicians are an integral part of the success of our hospitals in delivering quality care to our patients. Our hospitals are staffed by licensed physicians, including both employed physicians and physicians who are not employees of our hospitals. Some physicians provide services in our hospitals under contracts, which generally describe a term of service, provide and establish the duties and obligations of such physicians, require the maintenance of certain performance criteria and set compensation for such services. Any licensed physician may apply to be accepted to the medical staff of any of our hospitals, but the hospital's medical staff and the appropriate governing board of the hospital, in accordance with established credentialing criteria, must approve acceptance to the staff. Members of the medical staffs of our hospitals often also serve on the medical staffs of other hospitals and may terminate their affiliation with one of our hospitals at any time. We continue to experience increasing competition to recruit and retain quality physicians, as well as increasing costs to contract with hospital-based physicians.

Our facilities, like most health care facilities, have experienced challenges related to labor costs and turnover. Nurse and medical support personnel availability and retention can present significant operating issues for our hospitals and other facilities, including capacity and growth constraints, reduced patient satisfaction, reduced physician satisfaction, impact on services offered and increased costs. To address these challenges, we implemented several initiatives to improve retention, recruiting, compensation programs and productivity. While these efforts alleviated some of the competitive pressures our hospitals and facilities faced in 2024, there can be no assurance we will not experience operating issues due to the costs and availability of nurse and medical support personnel in the future.

We may be required to enhance wages and benefits to recruit and retain nurses and other medical support personnel and to utilize more expensive temporary or contract personnel. As a result, our labor costs could increase at rates in excess of historical levels. We also depend on the available labor pool of employees in each of the markets in which we operate

to fill other necessary positions. If there is additional union organizing activity or a significant portion of our employee base unionizes, our costs could increase. In addition, we operate in states that have adopted mandatory nurse-staffing ratios or mandate staffing committees to develop staffing plans. If these states reduce mandatory nurse to patient ratios or additional states in which we operate adopt mandatory nurse to patient ratios or other measures to regulate staffing, our compliance with such measures could significantly affect labor costs and have an adverse impact on revenues if we are required to limit patient admissions to comply.

The inability to attract, retain and utilize sufficient, quality clinical and non-clinical personnel could impair our capacity, ability to grow and results of operations.

### Information about our Executive Officers

As of February 1, 2025, our executive officers were as follows:

<u>Name</u>	<u>Age</u>	<u>Position(s)</u>
Samuel N. Hazen	64	Chief Executive Officer and Director
Jennifer L. Berres	54	Senior Vice President and Chief Human Resources Officer
Michael S. Cuffe, M.D.	59	Executive Vice President and Chief Clinical Officer
Jon M. Foster	63	Executive Vice President and Chief Operating Officer
Michael A. Marks	55	Executive Vice President and Chief Financial Officer
Michael R. McAlevey	61	Executive Vice President - Chief Legal and Administrative Officer
Sammie S. Mosier	50	Senior Vice President and Chief Nurse Executive

*Samuel N. Hazen* has served as Chief Executive Officer since January 2019 and was appointed as a director in September 2018. From November 2016 through December 2018, Mr. Hazen served as the Company's President and Chief Operating Officer. Prior to that, he served as Chief Operating Officer of the Company from January 2015 to November 2016 and as President — Operations of the Company from 2011 to 2015. He also served as President — Western Group from 2001 to 2011 and as Chief Financial Officer — Western Group of the Company from 1995 to 2001. Prior to that time, Mr. Hazen served in various hospital, regional and division Chief Financial Officer positions with the Company, Humana Inc. and Galen Health Care, Inc.

*Jennifer L. Berres* was appointed Senior Vice President and Chief Human Resources Officer effective November 1, 2019. Ms. Berres joined HCA in 1993 and served in various capacities, including as Vice President — Human Resources from April 2013 through October 2019.

*Michael S. Cuffe, M.D.* was appointed Executive Vice President and Chief Clinical Officer effective January 1, 2022. He previously served as President — Physician Services Group from October 2011 through December 2021. From October 2011 to January 2015, Dr. Cuffe also served as a Vice President of the Company. Prior to that time, Dr. Cuffe served Duke University Health System as Vice President for Ambulatory Services and Chief Medical Officer from March 2011 to October 2011 and Vice President Medical Affairs from June 2005 to March 2011. He also served Duke University School of Medicine as Vice Dean for Medical Affairs from June 2008 to March 2011, Deputy Chair of the Department of Medicine from August 2009 to August 2010 and Associate Professor of Medicine from March 2005 to October 2011. Prior that time, Dr. Cuffe served in various leadership roles with the Duke Clinical Research Institute, Duke University Medical Center and Duke University School of Medicine.

*Jon M. Foster* was appointed Executive Vice President and Chief Operating Officer effective January 1, 2023. Prior to that time, he served as President — American Group from January 2013 to December 2022, President — Southwest Group from February 2011 to January 2013 and Division President for the Central and West Texas Division from January 2006 to February 2011. Mr. Foster joined HCA in March 2001 as President and CEO of St. David's HealthCare in Austin, Texas and served in that position until February 2011. Prior to joining the Company, Mr. Foster served in various executive capacities within the Baptist Health System in Knoxville, Tennessee and The Methodist Hospital System in Houston, Texas.

*Michael A. Marks* was appointed Executive Vice President and Chief Financial Officer, effective May 1, 2024. He previously served as Senior Vice President — Finance from January 2023 through April 2024. Mr. Marks served as Vice President — Financial Operations Support from March 2021 through December 2022. Prior to that time, he served as CFO of the National Group from December 2008 to February 2021 and CFO of the West Florida Division from July 2004 to November 2008. Mr. Marks joined HCA Healthcare in 1996.

*Michael R. McAlevey* was appointed Executive Vice President – Chief Legal and Administrative Officer of the Company, effective April 1, 2024. Mr. McAlevey previously served as Senior Vice President and Chief Legal Officer from January 2022 through March 2024. Prior to joining HCA, Mr. McAlevey served in senior legal and executive roles at General Electric, most recently as Vice President, General Counsel and Business Development Leader for GE

Healthcare since 2018. Prior to that, he served as General Counsel and Business Development Leader for GE Aerospace from 2011 to 2018 and Chief Corporate, Securities and Finance Counsel for GE from 2003 to 2011. Before joining GE, Mr. McAlevey served as Deputy Director of the United States Securities and Exchange Commission's Division of Corporation Finance from 1998 to 2002.

*Sammie S. Mosier* was appointed Senior Vice President and Chief Nurse Executive effective December 1, 2021. Dr. Mosier joined HCA in 1996 as a medical-surgical bedside nurse at Frankfort Regional Medical Center and has held progressive leadership roles, including as Vice President and Assistant Chief Nursing Executive — Clinical Services Group from 2019 to 2021.

## **Item 1A. Risk Factors**

If any of the events discussed in the following risk factors were to occur, our business, financial position, results of operations, cash flows or prospects could be materially, adversely affected. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect us. Our business is subject to the following material risks and uncertainties.

### ***Risks related to our indebtedness:***

*We have significant indebtedness and may incur further indebtedness in the future. Our indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, expose us to interest rate risk to the extent of our variable rate debt and prevent us from meeting our obligations.*

As of December 31, 2024, our total indebtedness was \$43.031 billion. As of December 31, 2024, we had availability of \$3.486 billion under our senior secured cash flow credit facility and \$4.500 billion under our senior secured asset-based revolving credit facility, after giving effect to letters of credit and borrowing base limitations. Our indebtedness could have important consequences, including:

- increasing our vulnerability to downturns or adverse changes in general economic, industry or competitive conditions and adverse changes in government regulations;
- requiring a portion of cash flows from operations to be dedicated to the payment of principal and interest on our indebtedness, therefore reducing our ability to use our cash flows to fund our operations, capital expenditures and future business opportunities;
- exposing us to the risk of increased interest rates on our existing borrowings that are at variable rates of interest or refinancing our debt in a rising or high rate environment;
- limiting our ability to make strategic acquisitions or causing us to make nonstrategic divestitures;
- limiting our ability to obtain additional financing for working capital, capital expenditures, share repurchases, dividends, product or service line development, debt service requirements, acquisitions and general corporate or other purposes; and
- limiting our ability to adjust to changing market conditions and placing us at a competitive disadvantage compared to our competitors who have less debt.

We and our subsidiaries have the ability to incur additional indebtedness in the future, subject to the restrictions contained in our senior secured credit facilities and the indentures governing our outstanding notes. If new indebtedness is added to our current debt levels, interest rates and the related risks that we now face could intensify.

*We may not be able to generate sufficient cash to service all of our indebtedness and may not be able to refinance our indebtedness on favorable terms. If we are unable to do so, we may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.*

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and operating performance, which are subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We cannot guarantee we will maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness.

In addition, we conduct our operations through our subsidiaries. Accordingly, repayment of our indebtedness is dependent on the generation of cash flows by our subsidiaries and their ability to make such cash available to us by dividend, debt repayment or otherwise. Our subsidiaries may not be able to, or may not be permitted to, make distributions

to enable us to make payments in respect of our indebtedness. Each subsidiary is a distinct legal entity, and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries.

We may find it necessary or prudent to refinance our outstanding indebtedness, the terms of which may not be favorable to us. Our ability to refinance our indebtedness on favorable terms, or at all, is directly affected by the then current global economic and financial conditions which affect the availability of debt financing and the rates at which such financing is available. In addition, our ability to incur secured indebtedness depends in part on the value of our assets, which depends, in turn, on the strength of our cash flows and results of operations, and on economic and market conditions and other factors.

If our cash flows and capital resources are insufficient to fund our debt service obligations or we are unable to refinance our indebtedness, we may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital or restructure our indebtedness. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations. If our operating results and available cash are insufficient to meet our debt service obligations, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. We may not be able to consummate those dispositions, or the proceeds from the dispositions may not be adequate to meet any debt service obligations then due.

*Our debt agreements contain restrictions that limit our flexibility in operating our business.*

Our senior secured credit facilities and, to a lesser extent, the indentures governing our outstanding notes contain various covenants that limit our ability to engage in specified types of transactions. These covenants limit our and certain of our subsidiaries' ability to, among other things:

- incur additional indebtedness or issue certain preferred shares;
- pay dividends on, repurchase or make distributions in respect of our capital stock or make other restricted payments;
- make certain investments;
- sell or transfer assets;
- create liens;
- consolidate, merge, sell or otherwise dispose of all or substantially all of our assets; and
- enter into certain transactions with our affiliates.

Under our asset-based revolving credit facility, borrowing availability is subject to a borrowing base of 85% of eligible accounts receivable less customary reserves, with any reduction in the borrowing base that results in the borrowing base falling below the amount committed by the lenders thereunder commensurately reducing our ability to access this facility as a source of liquidity. In addition, under the asset-based revolving credit facility, when (and for as long as) the combined availability under our asset-based revolving credit facility and the revolving facility under our senior secured cash flow credit facility is less than a specified amount for a certain period of time or, if a payment or bankruptcy event of default has occurred and is continuing, funds deposited into any of our depository accounts will be transferred on a daily basis into a blocked account with the administrative agent and applied to prepay loans under the asset-based revolving credit facility and to collateralize letters of credit issued thereunder.

Under our senior secured credit facilities, we are required to satisfy and maintain specified financial ratios. Our ability to meet those financial ratios may be affected by global economic and financial conditions or other events beyond our control, and there can be no assurance we will continue to meet those ratios. A breach of this or any other covenant could result in a default under both the cash flow credit facility and the asset-based revolving credit facility. Upon the occurrence of an event of default under these senior secured credit facilities, the lenders thereunder could elect to declare all amounts outstanding under the senior secured credit facilities to be immediately due and payable and terminate all commitments to extend further credit, which would also result in an event of default under a significant portion of our other outstanding indebtedness. If we were unable to repay those amounts, the lenders under the senior secured credit facilities could proceed against the collateral granted to them to secure such indebtedness. We have pledged a significant portion of our assets under our senior secured credit facilities. If any of the lenders under the senior secured credit facilities accelerate the repayment of borrowings, there can be no assurance there will be sufficient assets to repay the senior secured credit facilities and our other indebtedness.

***Risks related to human capital:***

*Our results of operations may be adversely affected by competition for staffing, the shortage of experienced nurses and other health care professionals and labor union activity.*

Our operations are dependent on the efforts, abilities and experience of our management and medical personnel, such as physicians, nurses, pharmacists and lab technicians. We compete with other health care providers in recruiting and retaining qualified management and personnel responsible for the daily operations of each of our hospitals and other facilities, including nurses and other nonphysician health care professionals. We depend on the available labor pool of employees in each of the markets in which we operate to fill other necessary positions. In some markets, the availability of nonphysician health care professionals and medical support personnel has been a significant operating issue to health care providers, including at certain of our facilities. The impact of labor shortages across the health care industry may result in other health care facilities, such as nursing homes, limiting admissions, which may constrain our ability to discharge patients to such facilities, increase labor costs and further exacerbate the demand on our resources, supplies and staffing.

Economic conditions, including macroeconomic uncertainties and inflationary pressure, workforce burnout, and public health conditions have exacerbated workforce competition, personnel shortages and capacity constraints. We may be required to increase wages and benefits to recruit and retain nurses and other medical support personnel and to hire more expensive temporary or contract personnel.

If there is additional union organizing activity or a significant portion of our employee base unionizes, it is possible our labor costs could increase. When negotiating collective bargaining agreements with unions, whether such agreements are renewals or first contracts, we have experienced, and could experience in the future, labor strikes. Our continued operation during any strikes could result in an increase to our labor costs. In addition, upon the expiration of existing collective bargaining agreements, we may not reach new agreements without union action, and any such new agreements may not be on terms satisfactory to us. The unavailability of staff, or the inability of the Company to control labor costs, could have a material, adverse effect on our capacity, growth prospects and results of operations.

In addition, federal and state laws and regulations may increase our costs of maintaining qualified nurses and other medical support personnel. We operate in states that have adopted mandatory nurse-staffing ratios or mandate staffing committees to develop staffing plans. If these states reduce, or if additional states in which we operate adopt or the federal government adopts, mandatory nurse-staffing ratios or related measures, our compliance with such measures could significantly affect labor costs and have an adverse impact on revenues or our results of operations if we are required to limit admissions, hire additional personnel or otherwise incur additional costs. If our labor costs continue to increase, we may not be able to offset these increased costs, as a significant percentage of our revenues are based on reimbursement rates that are fixed or negotiated no less frequently than annually.

*Our performance depends on our ability to recruit and retain quality physicians.*

The success of our hospitals depends in part on the number and quality of the physicians on the medical staffs of our hospitals, the admission and utilization practices of those physicians, maintaining good relations with those physicians and controlling costs related to their employment or affiliation with our hospitals. Although we employ some physicians, physicians are often not employees of the hospitals at which they practice and instead affiliate with us and use our facilities as an extension of their practices. In many of the markets we serve, physicians may have admitting privileges at other hospitals in addition to our hospitals. We continue to face increasing competition to recruit and retain quality physicians, as well as increasing costs to contract with hospital-based physicians. Such physicians may terminate their affiliation with our hospitals at any time. If states enact legal restrictions on the provision of medical care, such restrictions may impact providers' recruitment and retention efforts in certain states. We anticipate facing increased challenges in this area as the physician population reaches retirement age, especially if there is a shortage of physicians willing and able to provide comparable services. If we are unable to recruit and retain quality physicians to affiliate with our hospitals, enter into contractual arrangements with hospital-based physicians, or provide adequate support personnel or technologically advanced equipment and hospital facilities that meet the needs of those physicians and their patients, our admissions may decrease, our operating performance may decline, and our capacity and growth prospects may be materially adversely affected.

*We may be unable to attract, hire and retain a highly qualified workforce, including key management.*

The talents and efforts of our employees, particularly our key management, are vital to our success. The members of our management team have significant industry experience, and if any member leaves the Company, such member would be difficult to replace. While we have adopted succession plans to prepare for such an event, our succession plans may not result in a successful transition. Further, institutional knowledge may be lost in any potential managerial transition. We may be unable to retain key management or attract other highly qualified employees, particularly if we do

not offer employment terms that are competitive with the rest of the labor market. Failure to attract, hire, develop, motivate, and retain highly qualified employee talent or failure to develop and implement an adequate succession plan for the management team could disrupt our operations and adversely affect our business and our future success.

***Risks related to technology, data privacy and cybersecurity:***

*Cybersecurity incidents or other forms of data breaches could result in the compromise of our facilities, confidential data or critical data systems, causing our operations to be impaired or impacted. A cybersecurity incident or other form of data breach could also give rise to potential harm to patients; remediation and other expenses; and exposure to liability under privacy and security laws, consumer protection laws, common law theories or other laws. Such incidents could subject us to litigation and foreign, federal and state governmental inquiries, damage our reputation, and otherwise be disruptive to our business.*

We, directly and through our vendors and other third parties, collect and store on our networks and devices and third-party technology platforms sensitive information, including intellectual property, proprietary business information, protected health information of our patients and personally identifiable information of our employees, patients and consumers. Our facilities use EHRs and medical devices that store or transmit information that are integral to the provision of patient care, and these systems and devices are increasingly connected to the internet, hospital networks and other medical devices. The secure maintenance of this information and technology is critical to our business operations.

We have implemented multiple layers of security measures, including cybersecurity and information security systems, protocols and monitoring procedures, intended to protect the confidentiality, integrity and availability of our data and the systems and devices that store and transmit such data. In addition, we rely on various third parties to have appropriate controls to protect our information that is on their systems or otherwise in their control, and we seek to obtain assurances that such third parties will protect our information. However, despite our efforts to mitigate our exposure to cyberattack, even an advanced internal control environment is vulnerable to compromise. We have seen, and believe we will continue to see, widespread vulnerabilities that could affect our or other third parties' data or systems. We rely on a substantial number of employees, contractors, personnel, hardware, software, applications, and third-party vendors, platforms and technologies, each of which may represent an attack surface for threat actors. Threats from malicious threat actors, including nation-state actors and ransomware groups, new vulnerabilities and advanced new attacks against our, or our vendors', information systems and devices create risk of cybersecurity incidents, including ransomware, malware and phishing incidents, in which third parties attempt to fraudulently induce our employees or our vendors' employees into disclosing usernames, passwords or other sensitive information, which can in turn be used for unauthorized access to our or our vendors' systems. We, our vendors and other third parties have experienced cybersecurity incidents in the past and continue to be the target of attempted cybersecurity and other threats that could have a significant impact on our business, including threats by third parties seeking to access, misappropriate, corrupt, or manipulate our information or disrupt our operations. We expect that we, our vendors and other third parties will continue to experience an increase in cybersecurity threats in the future, both directly and indirectly through threats targeting third parties, as the volume and intensity of cyberattacks on hospitals, health systems and other health care entities continue to increase. Furthermore, because the tools and techniques used by attackers change frequently and often are not recognized until launched against a target, we may be unable to anticipate these techniques or implement adequate preventative measures. We, our vendors and other third parties may experience security incidents that may remain undetected for an extended period. Even if identified, we, our vendors and other third parties may be unable to adequately investigate or remediate incidents or breaches, including due to attackers increasingly using tools and techniques that are designed to circumvent controls, avoid detection and remove or obfuscate forensic evidence. State-sponsored threat actors are increasingly targeting critical infrastructure sectors, including health systems and other critical infrastructure on which we rely. Increasing use of AI technologies in our internal systems may create new attack surfaces or methods for threat actors, and threat actors may use AI technologies to make cyberattacks more difficult to detect, contain or mitigate. Internal access management failures could also result in the compromise or unauthorized exposure of confidential data. Moreover, hardware, software or applications we use may have inherent vulnerabilities or defects of design, manufacture, or operations or could be inadvertently or intentionally implemented or used in a manner that could compromise cybersecurity or information security. There can be no assurance that we or our vendors and other third parties will not be subject to additional cybersecurity threats and incidents that bypass our or their security measures, impact the integrity, availability or privacy of personal health information or other data subject to privacy laws or disrupt our or their information systems, devices or business, including our ability to provide various health care services. In such an event, we may incur substantial costs, including but not limited to, costs associated with remediating the effects of the cybersecurity or information security incident, costs for security measures to guard against similar future incidents and costs to recover data. Further, consumer confidence in the integrity and security of personal information and critical operations data in the health care industry generally could be shaken to the extent there are successful cyberattacks at other health care services companies, which could have a material, adverse effect on our business, financial position or results of operations.

---

Cybersecurity, privacy, physical security and the continued development and enhancement of our controls, processes and practices designed to protect our facilities, information systems and data from attack, damage or unauthorized access remain a priority for us. As cyber threats continue to evolve, along with their increased volume and sophistication, we may be required to expend significant additional resources to continue to modify or enhance our protective measures or to investigate and remediate any cybersecurity vulnerabilities or incidents, and such measures may decrease the efficiency of our operations. We may also be required to expend additional resources to comply with evolving federal and state requirements related to cybersecurity and information security, including those focused on health care providers. Although, to date, no cyberattack or other information or security breach has resulted in material losses or other material consequences to us, there can be no assurance that our controls and procedures in place to monitor and mitigate the risks of cyber threats, including the remediation of critical cybersecurity, information security and software vulnerabilities, will be sufficient and/or timely and that we will not suffer material losses or consequences in the future. Additionally, while we have in place insurance coverage designed to address certain aspects of cyber risks, such insurance coverage may be insufficient to cover our losses in excess of what we self-insure, or all types of claims that may arise. The occurrence of any of these events could result in (i) harm to patients; (ii) business interruptions and delays; (iii) the loss, misappropriation, corruption or unauthorized access of data; (iv) litigation and potential liability under privacy, security, breach notification and consumer protection laws, common law theories or other applicable laws; (v) reputational damage; and (vi) foreign, federal and state governmental inquiries, any of which could have a material, adverse effect on our financial position and results of operations and harm our business reputation.

*Our operations could be impaired by a failure of our information systems.*

The performance of our information systems is critical to our business operations. In addition to our shared services initiatives, our information systems are essential to a number of critical areas of our operations, including:

- accounting and financial reporting;
- billing and collecting accounts;
- coding and compliance;
- admissions, provision of care and care coordination;
- clinical systems and medical devices;
- medical records and document storage;
- inventory management;
- negotiating, pricing and administering managed care contracts and supply contracts; and
- monitoring quality of care and collecting data on quality measures necessary for full Medicare payment updates.

Information systems may be vulnerable to damage from a variety of sources, including telecommunications or network failures, human acts such as inadvertent or intentional misuse by employees, natural disasters and cyberattacks, including ransomware and data theft. Moreover, we rely on various third-party technology platforms, which are increasingly important to our business and continue to grow in complexity and scope. Failure to adequately and timely manage implementations of new technology, updates or enhancements of such platforms or interfaces between platforms could place us at a competitive disadvantage, disrupt our operations, and have a material, adverse impact on our business and results of operations.

We have taken precautionary measures designed to prevent problems that could affect our information systems. Nevertheless, we or our vendors and other third parties that we rely upon may experience system failures and disruptions. The occurrence of any system failure could result in interruptions, delays, the loss or corruption of data and cessations or interruptions in the availability of systems, any of which could have a material, adverse effect on our financial position and results of operations and harm our business reputation.

*Health care technology initiatives, particularly those related to sharing patient data and interoperability and AI, involve risks that may adversely affect our operations.*

The federal government is working to promote the adoption of health information technology and the promotion of nationwide health information exchange to improve health care. For example, HHS incentivizes the adoption and meaningful use of certified EHR technology through its Medicare Promoting Interoperability Program and Quality Payment Program. Eligible hospitals that fail to demonstrate meaningful use of certified EHR technology and have not applied and qualified for a hardship exception are subject to reduced reimbursement from Medicare. Eligible health care professionals are also subject to positive or negative payment adjustments based, in part, on their use of EHR technology. Therefore, if our hospitals and employed professionals are unable to properly adopt, maintain and utilize certified EHR

systems, we could be subject to penalties that may have an adverse effect on our financial condition and results of operations.

As EHR technologies have become widespread, the federal government has increased its focus on promoting patient access to health care data and interoperability. The 21st Century Cures Act and its implementing regulations prohibit information blocking by health care providers and certain other entities. Information blocking is defined as engaging in activities likely to interfere with the access, exchange or use of electronic health information, except as required by law or specified by HHS as a reasonable and necessary activity. Under a rule finalized by HHS in July 2024, a hospital found to have engaged in information blocking will not qualify as a “meaningful electronic health record user” under the Medicare Promoting Interoperability Program and as a result will lose 75% of the annual market basket increase it would otherwise receive, and MIPS-eligible clinicians, ACOs and ACO participants face similar disincentives.

Current and future initiatives related to health care technology, data sharing and interoperability may require changes to our operations, impose new and complex compliance obligations and require investments in infrastructure. In particular, AI is driving innovation and, in some cases, augmenting risks related to health care technology. For example, our physicians are adopting the use of generative AI to assist with the taking of patient medical notes, among other tasks. Rapid changes in technology driven by AI may require us to expend significant resources to acquire, develop, implement and maintain that technology. Failure to integrate these technologies in a timely, cost-efficient and resource-efficient manner may impede our ability to deliver health care services in a competitive manner. There is also a risk that our confidential information becomes part of a model that is accessible by other third-party AI applications or users as a result of a cybersecurity incident or a third-party AI developer’s violation of our vendor engagement terms.

The development of AI technologies is complex, and there are technical challenges associated with achieving the desired level of accuracy, efficiency and reliability. For instance, AI models used by us or third-party vendors may be based on biased or deficient datasets, which could result in inaccurate or misleading outputs. Ineffective or inadequate AI development or deployment practices by us or third-party developers or vendors, including any disruptions or failures of AI systems once implemented, could result in unintended consequences. Should the use of AI technologies fail to operate as anticipated or not perform as specified, including any biases or errors in the outputs of AI, patient care may be affected, legal claims may be asserted against us and our reputation may be harmed. Further, federal and state requirements regarding the use of AI by health care providers continue to evolve. For example, HHS finalized a rule in December 2023 imposing transparency requirements for AI and other predictive algorithms that are part of certified health information technology. Some states have adopted or are considering additional measures regarding the use of AI within the health care industry. For example, AB 3030 requires that certain disclaimers and instructions be provided to patients if generative AI is used to create patient communications pertaining to patient clinical information. In addition, the AIPA requires that physicians, nurses and other regulated health care providers disclose when an individual is interacting with generative AI while receiving the regulated service. Further, the CAIA will impose significant requirements on companies that use AI systems to recommend certain health decisions. If we or our third-party providers are restricted from using AI as a result of any laws or regulations, it could impact our operations and cause us to incur costs to replace or modify our use of AI. We may be subject to financial penalties or other disincentives or experience reputational damage for failure to comply with applicable laws and regulations. In addition, any failure or perceived failure by us or our third-party providers to comply with applicable AI laws and regulations could result in investigations or legal proceedings, which could result in significant legal costs and potential liability.

*We may not be adequately reimbursed by third-party payers for services involving new technology.*

As health care technology continues to advance, the price of purchasing new technology has significantly increased for providers. Some payers have not adapted their payment systems to adequately cover the cost of new technology used to treat patients. If reimbursement from third-party payers for services involving new technology does not sufficiently cover our purchasing costs, we may be unable to acquire new technology. Even without sufficient third-party reimbursement, we may acquire or utilize new technology in order to treat our patients. In either case, our results of operations and financial position could be adversely affected.

***Risks related to public health crises:***

*The emergence and effects related to a potential future pandemic, epidemic or outbreak of an infectious disease could adversely affect our business and operations.*

As a front-line provider of health care services, we are subject to the health and economic effects of public health conditions.

If a pandemic, epidemic, outbreak of an infectious disease or other public health crisis were to occur in an area in which we operate, our operations could be adversely affected. Such a crisis could diminish the public trust in health care

facilities, especially hospitals that fail to accurately or timely diagnose, or are treating (or have treated) patients affected by infectious diseases. If any of our facilities are involved, or perceived as being involved, in treating patients from such an infectious disease, other patients might cancel elective procedures or fail to seek needed care at our facilities, and our reputation may be negatively affected. Patient volumes may decline or volumes of uninsured and underinsured patients may increase, depending on the economic circumstances surrounding the pandemic, epidemic or outbreak. Further, a pandemic, epidemic or outbreak might adversely affect our operations by causing a temporary shutdown or diversion of patients, causing disruption or delays in supply chains for materials and products or causing staffing shortages in our facilities. Although we have contingency plans in place, including infection control and disaster plans, the potential impact of, as well as the public's and the government's response to, a future pandemic, epidemic or outbreak is difficult to predict and could adversely affect our business, results of operations, financial condition and cash flows.

***Risks related to governmental regulation and other legal matters:***

*Our business, financial condition and results of operations may be adversely affected by changes and uncertainty in the health care industry, including health care public policy developments and other changes to laws and regulations. We are unable to predict whether, what, and when changes in the health care industry may occur, and the effects and ultimate impact of any changes are uncertain and may adversely affect our business and results of operations.*

The health care industry is subject to changing political, regulatory and other influences. Regulatory uncertainty has increased as a result of decisions issued by the U.S. Supreme Court in June 2024 that affect review of federal agency actions. These decisions increase judicial scrutiny of agency authority, shift greater responsibility for statutory interpretation to courts, expand the time period during which a plaintiff can sue regulators, and may result in inconsistent judicial interpretations and delays in agency rulemaking processes. In *Loper Bright Enterprises v. Raimondo*, the Court overruled a legal framework that gave significant judicial deference to federal agency interpretations of federal statutes. The Court held that courts must instead exercise independent judgment when deciding whether an agency has acted within its statutory authority and that courts may not defer to an agency interpretation simply because a statute is ambiguous. The *Loper Bright* decision and other recent decisions of the U.S. Supreme Court could have significant impacts on government agency regulation, particularly within the heavily regulated health care industry, and may have broad implications for our business. While the effects of these decisions will become apparent over the coming months and years, we anticipate an increase in legal challenges to health care regulations and agency guidance and decisions, including, but not limited to, those issued by HHS and its agencies, including CMS, the FDA and the OIG. Federal agencies oversee, regulate and otherwise affect many aspects of our business, including through Medicare and Medicaid payment and coverage policies, policies affecting the size of the uninsured population, administration of state Medicaid programs and enforcement and interpretation of fraud and abuse laws. Impacts of the recent Supreme Court decisions could require us to make changes to our operations and have a material negative impact on our business.

The health care industry has been and continues to be impacted by health care reform efforts. For example, the Affordable Care Act affects how health care services are covered, delivered and reimbursed, and expanded health insurance coverage through a combination of public program expansion and private sector health insurance reforms. Changes in the law's implementation, subsequent legislation and regulations, state initiatives and other factors have affected and may continue to affect the number of individuals that elect to obtain public or private health insurance or the scope of such coverage, if purchased, and may impact our payer mix. Reductions in the number of insured individuals or the scope of insurance coverage, or an increase in patients covered under governmental health programs or other health plans with lower reimbursement levels, may have an adverse effect on our business. For example, the ARPA temporarily enhanced premium tax credits available for purchasing coverage through the Exchanges by lowering premiums and raising income eligibility thresholds. Subsequent legislation extended these enhanced premium tax credits through 2025. However, further extension is uncertain, and we believe the expiration of these enhanced premium tax credits would adversely impact Exchange enrollment and significantly increase the uninsured rate. Other legislative and executive branch initiatives related to health insurance, such as permitting the sale of insurance plans that lack currently required consumer protections, could increase rates of uninsured and underinsured individuals and destabilize insurance markets.

In addition, the Medicare and Medicaid programs are subject to change, including as a result of changes from the 2024 federal election. For example, some members of Congress have proposed changes intended to accelerate the shift from traditional Medicare to Medicare Advantage, repealing the Affordable Care Act or eliminating some of its consumer protections. The outcome of the 2024 federal election increases regulatory uncertainty. Changes in governmental administration, including changes in agency structures and staffing, such as reduction or elimination of personnel and agencies, may result in changes to established rulemaking conventions and timelines, including for regularly issued reimbursement rules, among other effects. Legislation and administrative actions at the federal level may also impact funding for, or the structure of, the Medicaid program and may shape administration of the Medicaid program at the state level. Changes to the federal funding formula for Medicaid could significantly impact states that expanded Medicaid under the Affordable Care Act, especially if federal contributions for Medicaid expansion populations decrease and states are unable to offset the reductions. Further, some states have trigger laws that would end their Medicaid expansion or

require other changes if federal funding is reduced. CMS may make changes to Medicaid payment models and grant states additional flexibility in the administration of state Medicaid programs, including by allowing additional states to condition Medicaid enrollment on work or other community engagement or permitting other eligibility restrictions. Other health reform initiatives and proposals at the federal and state levels include those focused on price transparency and out-of-network charges, which may impact prices, our relationships with patients, payers or ancillary providers (such as anesthesiologists, radiologists and pathologists) and our competitive position, and site-neutral payment policies, which may reduce the reimbursement we receive. Some states are considering or have imposed rate-setting measures, including limits on hospital rates. Other industry participants, such as private payers and large employer groups and their affiliates, may also introduce financial or delivery system reforms.

There is uncertainty regarding whether, when, and what other public policy initiatives will be adopted by federal and state governments and/or the private sector, the timing and implementation of any such efforts and the impact of those efforts on providers and other health care industry participants. These may include changes to trade policy and new or increased tariffs, which may impact our supply chain operations. It is difficult to predict the nature and/or success of current and future public policy changes, any of which may have an adverse effect on our business, results of operations, cash flow, capital resources and liquidity.

*Changes in government health care programs may adversely affect our revenues and business.*

A significant portion of our patient volume is derived from government health care programs, principally Medicare and Medicaid. Specifically, we derived 44.5% of our revenues from the Medicare and Medicaid programs in 2024. However, federal and state governments have made, and continue to make, significant modifications to the Medicare and Medicaid programs through statutory and regulatory changes, administrative rulings and other interpretations and determinations. These changes may include, for example, reductions to reimbursement levels and to supplemental payment programs, funding restrictions, limitations on scope of coverage or patient eligibility, and changes affecting utilization review. These and other changes may impact the scale and scope of the Medicare and Medicaid programs, may reduce the reimbursement we receive, may affect the cost of providing services to patients and could otherwise adversely affect our business and results of operations. In addition, delays or issues implementing reimbursement-related rules, including periodic payment updates for government programs, and interruptions in the distribution of governmental funds could have an adverse impact on our business.

In recent years, legislative and regulatory changes have resulted in limitations on and, in some cases, reductions in levels of payments to health care providers for certain services under the Medicare program. For example, Congress established automatic spending reductions, referred to as sequestration, under the BCA, resulting in a 2% reduction in Medicare payments that extends through the first eight months of federal fiscal year 2032. These reductions are in addition to reductions mandated by other laws. It is difficult to predict whether, when or what other deficit reduction initiatives may be proposed by Congress, but we anticipate that efforts to address the federal budget deficit will continue to place pressures on government health care programs and that future legislation may include additional Medicare spending reductions.

From time to time, CMS revises the reimbursement systems used to reimburse health care providers, including changes to the inpatient hospital MS-DRG system and other payment systems, which may result in reduced Medicare payments. For example, under a site neutrality policy, clinic visit services provided by off-campus provider-based departments are generally not covered as outpatient department services under the outpatient PPS, but instead are paid at the Physician Fee Schedule rate, which is generally substantially lower than the outpatient PPS rate. Further, to address past changes to the 340B Drug Pricing Program that were invalidated by the U.S. Supreme Court, CMS finalized payment reductions under the outpatient PPS. Payment rates were reduced for non-drug services in calendar year 2023, and additional reductions to payments for non-drug item and services will take effect in calendar year 2026 and continue for approximately 16 years. As another example, CMS recently finalized changes to the Medicaid fraction of the Medicare DSH payment formula that will result in lower DSH payments for many hospitals. These payment policies and future changes to payment policies may adversely impact our results of operations, and any potential legal challenges to changes may take years to resolve. Payment policies for different types of providers and for various items and services continue to evolve. Congress and/or CMS may implement further changes to reimbursement for items or services that result in payment reductions for other items or services or that otherwise affect our business and operations. In some cases, private third-party payers rely on all or portions of Medicare payment systems to determine payment rates. Changes to government health care programs that reduce payments under these programs may negatively impact payments from private third-party payers.

In addition, several states in which we operate face budgetary challenges that have resulted, and likely will continue to result, in reduced Medicaid funding levels to hospitals and other providers. Because most states must operate with balanced budgets and the Medicaid program is often a state's largest program, some states have enacted or may consider enacting legislation designed to reduce their Medicaid expenditures. Many states have also adopted, or are considering, legislation designed to reduce coverage, change patient eligibility requirements, enroll Medicaid recipients in managed

care programs, and/or impose additional taxes on hospitals to help finance or expand the states' Medicaid systems. Periods of economic weakness may increase the budgetary pressures on many states, and these budgetary pressures may result in decreased spending, or decreased spending growth, for Medicaid programs and the Children's Health Insurance Program in many states. Further, we may be impacted by developments at the federal and state levels related to Medicaid supplemental payments, which are state payments that are separate from fee-for-service base payments, and SDP arrangements, which allow states to direct certain Medicaid managed plan expenditures. Structural and other changes to these programs could result in such payments being reduced or eliminated, for example if funding for SDP arrangements is diverted from other payment programs, and if we do not satisfy applicable criteria when payments are directed to a specific subset of providers. Further, legislation and administrative actions at the federal level may impact the funding for, or structure of, the Medicaid program, and may shape the administration of the Medicaid program at the state level. Changes to the federal funding formula for Medicaid could have a particularly significant impact on coverage and reimbursement in states that expanded Medicaid under the Affordable Care Act, as states might not be able to offset decreases in federal funding for expansion populations. In addition, CMS administrators may make changes to Medicaid payment models and may grant states additional flexibility in the administration of state Medicaid programs, including by allowing states to impose eligibility restrictions such as work and community engagement requirements.

Current or future health care reform and deficit reduction efforts, changes or delays in laws or regulations regarding government health care programs, other changes in the administration of government health care programs and changes by private third-party payers in response to health care reform and other changes to government health care programs could have a material, adverse effect on our financial position and results of operations.

*If we fail to comply with extensive laws and government regulations, we could suffer penalties or be required to make significant changes to our operations.*

As a participant in the health care industry, we are required to comply with extensive and complex laws and regulations at the federal, state and local government levels relating to, among other things:

- billing and coding for services and properly handling overpayments;
- appropriateness and classification of level and setting of care provided, including proper classification of admissions, observation services and outpatient care;
- certifications of patient eligibility for home health and hospice services;
- relationships with physicians and other referral sources and referral recipients;
- necessity, appropriateness and adequacy of medical care;
- quality of medical equipment and services;
- qualifications and supervision of medical and support personnel;
- patient, workforce and public safety;
- the confidentiality, maintenance, interoperability, exchange and security of health-related and personal information and medical records, including data breach, ransomware and identity theft issues;
- the provision of services via telehealth, including technological standards and coverage restrictions or other limitations on reimbursement;
- the development and use of AI and other predictive algorithms, including those used in clinical decision support tools;
- screening, stabilization and transfer of individuals who have emergency medical conditions;
- restrictions on the provision of medical care, including with respect to reproductive care;
- facility and personnel licensure, certification and accreditation and enrollment standards and requirements for participation in government programs;
- the manufacture, distribution, maintenance and dispensing of pharmaceuticals, controlled substances and medical devices;
- debt collection, balance billing and billing for out of network services;
- consumer disclosures and price transparency;

- communications with patients and consumers;
- preparing and filing of cost reports;
- operating policies and procedures;
- activities regarding competitors;
- addition of facilities and services; and
- environmental protection, including disposal of regulated materials.

Among these laws are the federal Anti-kickback Statute, EKRA, the federal Stark Law, the FCA, the No Surprises Act and similar state laws. We have a variety of financial relationships with physicians and others who either refer or influence the referral of patients to our hospitals, other health care facilities, laboratories and employed physicians or who are the recipients of referrals, and these laws govern those relationships. The OIG has enacted safe harbor regulations that outline practices deemed protected from prosecution under the Anti-kickback Statute. While we endeavor to comply with the applicable safe harbors, certain of our current arrangements, including joint ventures and financial relationships with physicians and other referral sources and persons and entities to which we refer patients, do not qualify for safe harbor protection. Failure to qualify for a safe harbor does not mean the arrangement necessarily violates the Anti-kickback Statute but may subject the arrangement to greater scrutiny. However, we cannot offer assurance that practices outside of a safe harbor will not be found to violate the Anti-kickback Statute. Allegations of violations of the Anti-kickback Statute may be brought under the federal Civil Monetary Penalty Law, which requires a lower burden of proof than other fraud and abuse laws, including the Anti-kickback Statute.

Our financial relationships with physicians who make referrals for designated health services and their immediate family members must comply with the Stark Law by meeting an exception. We attempt to structure our relationships to meet an exception to the Stark Law, but the regulations implementing the exceptions are detailed and complex. We do not always have the benefit of significant regulatory or judicial interpretations of the Stark Law and its implementing regulations. Thus, we cannot provide assurance that every relationship complies fully with the Stark Law. Unlike the Anti-kickback Statute, failure to meet an exception under the Stark Law results in a violation of the Stark Law, even if such violation is technical in nature.

Additionally, if we violate the Anti-kickback Statute or Stark Law, or if we improperly bill for our services, we may be found to violate the FCA, either under a suit brought by the government or by a private person under a *qui tam*, or “whistleblower,” suit. See Item 1, “Business — Regulation and Other Factors.”

A variety of state, national, foreign and international laws and regulations apply to the collection, use, retention, protection, security, disclosure, transfer and other processing of personal information. Various states in which we operate have passed privacy laws and regulations that impose restrictive requirements on the use and disclosure of personal information, and many other state and federal privacy laws have been proposed. In many cases, these laws are more restrictive or impose more obligations than, and may not be preempted by, the HIPAA privacy and security regulations, may apply to employees and business contacts in addition to patients, and may be subject to new and varying interpretations by courts and government agencies. The potential effects of these laws are far-reaching and may require us to incur substantial expenses, including costs associated with modifying our data processing practices and policies. Failure to comply with these and any other comprehensive privacy laws passed at the state or federal level may result in regulatory enforcement actions, penalties and damage to our reputation. As a result of our operations in the United Kingdom, we are subject to the UK Data Protection Act, which contains stricter privacy restrictions than laws and regulations in the United States and provides for significant fines in the event of violations. These administrative fines are based on a multi-factored approach. Moreover, rules for data transfers outside of the United Kingdom and European Economic Area are subject to increased regulation, and such regulations are frequently subject to further revision and updated regulator guidance, making necessary compliance measures challenging to ascertain and implement with respect to our United Kingdom operations. We expect that there will continue to be new or modified laws, regulations, regulatory guidance and industry standards concerning privacy, data protection and information security proposed and enacted in various jurisdictions, which could impact our operations and cause us to incur substantial costs.

We send short message service, or SMS, text messages to patients. While we obtain consent from these individuals to send text messages, federal or state regulatory authorities or private litigants may claim that the notices and disclosures we provide, form of consents we obtain or our SMS texting practices are not adequate or violate applicable law. In addition, we must ensure that our SMS texting practices comply with regulations and agency guidance under the Telephone Consumer Protection Act (the “TCPA”), a federal statute that protects consumers from unwanted telephone calls, faxes and text messages. While we strive to adhere to strict policies and procedures that comply with the TCPA, the

Federal Communications Commission, as the agency that implements and enforces the TCPA, may disagree with our interpretation of the TCPA and subject us to penalties and other consequences for noncompliance. Determination by a court or regulatory agency that our SMS texting practices violate the TCPA could subject us to civil penalties and could require us to change some portions of our business. Even an unsuccessful challenge by patients or regulatory authorities of our activities could result in adverse publicity and could require a costly response from and defense by us. Moreover, if wireless carriers or their trade associations, which issue guidelines for texting programs, determine that we have violated their guidelines, our ability to engage in texting programs may be curtailed or revoked, which could impact our operations and cause us to incur costs related to implementing a workaround solution.

We engage in consumer debt collection for HCA-affiliated hospitals and certain non-affiliated hospitals. We also engage in credit reporting for certain non-affiliated hospitals. The federal Fair Debt Collection Practices Act, the Fair Credit Reporting Act and the TCPA restrict the methods that companies may use to contact and seek payment from consumer debtors regarding past due accounts and to report to consumer reporting agencies on the status of those accounts. Many states impose additional limitations or requirements on debt collection and credit reporting practices, and some of those requirements are more stringent than the federal requirements.

We are also subject to various international, federal, state and local statutes and ordinances regulating the discharge of materials into the environment. For example, our health care operations generate medical waste, such as pharmaceuticals, biological materials and disposable medical instruments that must be handled, stored, transported, treated and disposed of in compliance with federal, state and local environmental laws and regulations. Environmental regulations also may apply when we build new facilities or renovate existing facilities. If we are found not to be in compliance with such laws and regulations, we may be liable for significant investigation and clean-up costs or be subject to enforcement actions by governmental authorities or lawsuits by private plaintiffs. Moreover, any changes in the environmental regulatory framework (including legislative or regulatory efforts designed to address changing global weather patterns) could have a material, adverse effect on our business.

We are also subject to various federal and state antitrust laws that, for example, restrict exclusive contracting relationships with health care providers, restrict sharing of cost and pricing data, prohibit competitors from taking collective action to set commercial payer reimbursement rates and establish integration requirements for joint ventures to contract with payers. We also operate health care facilities in the United Kingdom and have operations and commercial relationships with companies in other foreign jurisdictions and, as a result, are subject to certain U.S. and foreign laws applicable to businesses generally, including anti-corruption and anti-bribery laws. The Foreign Corrupt Practices Act regulates U.S. companies in their dealings with foreign officials, prohibiting bribes and similar practices, and requires that they maintain records that fairly and accurately reflect transactions and appropriate internal accounting controls. In addition, the United Kingdom Bribery Act has wide jurisdiction over certain activities occurring within the United Kingdom.

If we fail to comply with these or other applicable laws and regulations, which are subject to change, we could be subject to liabilities, including civil penalties, money damages, lapses in reimbursement, the loss of our licenses to operate one or more facilities, exclusion of one or more facilities from participation in the Medicare, Medicaid and other federal and state health care programs, civil lawsuits and criminal penalties. In addition, different interpretations or enforcement of, or amendments to, these and other laws and regulations in the future could subject our current or past practices to allegations of impropriety or illegality or could require us to make changes in our facilities, equipment, personnel, services, capital expenditure programs and operating expenses. The costs of compliance with, and the other burdens imposed by, these and other laws or regulatory actions may increase our operational costs, result in interruptions or delays in the availability of systems and/or result in a patient volume decline. We may also face audits or investigations by one or more domestic or foreign government agencies relating to our compliance with these regulations. An adverse outcome under any such investigation or audit, a determination that we have violated these or other laws or a public announcement that we are being investigated for possible violations could result in liability, could result in negative publicity and an adverse impact on our reputation and could adversely affect our business, financial condition, results of operations or prospects.

*State efforts to regulate the construction or expansion of health care facilities could impair our ability to operate and expand our operations.*

Some states, particularly in the eastern part of the country, require health care providers to obtain prior approval, often known as a CON, for the purchase, construction or expansion of health care facilities, to make certain capital expenditures or to make changes in services or bed capacity. In giving approval, these states consider the need for additional or expanded health care facilities or services. We currently operate health care facilities in a number of states with CON laws or that require other types of approvals for the establishment or expansion of certain facility types or services. The failure to obtain any required CON or other required approval could impair our ability to operate or expand

operations. Any such failure could, in turn, adversely affect our ability to attract patients and physicians to our facilities and grow our revenues, which would have an adverse effect on our results of operations.

*We may incur additional tax liabilities.*

We are subject to tax in the United States as well as those states and foreign jurisdictions in which we do business. Changes in tax laws, including increases in tax rates, interpretations of tax laws by taxing authorities, other standard setting bodies or judicial decisions, could increase our tax obligations and have a material, adverse impact on our results of operations.

We are also subject to examination by federal, state and foreign taxing authorities. Management believes HCA Healthcare, Inc., its predecessors, subsidiaries and affiliates properly reported taxable income and paid taxes in accordance with applicable laws and agreements established with the Internal Revenue Service (“IRS”), state and foreign taxing authorities and final resolution of any disputes will not have a material, adverse effect on our results of operations or financial position. However, if payments due upon final resolution of any issues exceed our recorded estimates, such resolutions could have a material, adverse effect on our results of operations or financial position.

*We have been and could become the subject of government investigations, claims and litigation, as well as governmental and commercial payer audits.*

Health care companies are subject to numerous investigations by various government agencies. Further, under the FCA, private parties have the right to bring *qui tam*, or “whistleblower,” suits against companies that submit false claims for payments to, or improperly retain overpayments from, the government. Some states have adopted similar state whistleblower and false claims provisions. Certain of our individual facilities and/or affiliates have received, and other facilities and/or affiliates may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Depending on whether the underlying conduct in these or future inquiries or investigations could be considered systemic, their resolution could have a material, adverse effect on our financial position, results of operations and liquidity.

Government agencies and their agents, such as the MACs, fiscal intermediaries and carriers, as well as the OIG, CMS and state Medicaid programs, conduct audits of our health care operations. CMS and state Medicaid agencies contract with RACs and other contractors on a contingency fee basis to conduct post-payment reviews to detect and correct improper payments in the Medicare program, including managed Medicare plans, and the Medicaid programs. RAC denials are appealable. However, the RAC audit and appeals processes can impose a significant administrative burden on providers, and we may experience delays in appealing RAC payment denials. Private third-party payers may conduct similar post-payment audits, and we also perform internal audits and monitoring. Depending on the nature of the conduct found in such audits and whether the underlying conduct could be considered systemic, the resolution of these audits could have a material, adverse effect on our financial position, results of operations and liquidity.

Should we be found out of compliance with applicable laws, regulations or programs, depending on the nature of the findings, our business, our financial position and our results of operations could be negatively impacted.

*We may be subject to liabilities from claims brought against our facilities, which are costly to defend and may require us to pay significant damages if not covered by insurance.*

We are subject to litigation relating to our business practices, including claims and legal actions by patients and others in the ordinary course of business alleging malpractice, product liability or other legal theories. Many of these actions seek large sums of money as damages and involve significant defense costs. We insure a portion of our professional liability risks through our insurance subsidiary. Management believes our reserves for self-insured retentions and insurance coverage are sufficient to cover insured claims arising out of the operation of our facilities, although some claims may exceed the scope or amount of the coverage limits of our insurance policies. Our insurance subsidiary has entered into certain reinsurance contracts; however, the subsidiary remains liable to the extent that the reinsurers do not meet their obligations under the reinsurance contracts. If payments for claims exceed actuarially determined estimates, are not covered by insurance, or reinsurers, if any, fail to meet their obligations, our results of operations and financial position could be adversely affected.

***Risks related to operations, strategy, demand and competition:***

*Our hospitals and other facilities face competition for patients from other hospitals and health care providers.*

The health care business is highly competitive, and competition among hospitals and other health care providers for patients has intensified in recent years. Generally, other hospitals and health care facilities in the communities we serve provide services similar to those we offer. Trends toward transparency and value-based purchasing may have an impact on our competitive position, ability to obtain and maintain favorable contract terms and patient volumes in ways

that are difficult to predict. On its websites, CMS publicizes performance data related to quality measures and data on patient satisfaction surveys that hospitals, home health agencies, hospices and various other types of Medicare-certified facilities submit in connection with their Medicare reimbursement. Its Care Compare website provides an overall rating that synthesizes various quality measures into a star rating for each hospital, home health agency and hospice, among other provider types. If any of our hospitals or other provider types achieve poor results (or results that are lower than our competitors) on quality measures or on patient satisfaction surveys, our competitive position could be negatively affected. Further, hospitals are required to publish online a list of their standard charges for all items and services, including gross charges, discounted cash prices and payer-specific and de-identified minimum and maximum negotiated charges, and must also publish a consumer-friendly list of standard charges for certain “shoppable” services or, alternatively, maintain an online price estimator tool for the shoppable services. HHS also requires health insurers to publish online charges negotiated with providers for health care services, and health insurers must provide online price comparison tools to help individuals get personalized cost estimates for covered items and services. The No Surprises Act imposes additional price transparency requirements, including requiring providers to send uninsured or self-pay patients (in advance of the date of the scheduled item or service or upon request) and health plans (prior to the scheduled date of the item or service) of insured patients a good faith estimate of the expected charges and diagnostic codes. HHS is deferring enforcement of certain requirements of the No Surprises Act applicable to providing estimates for insured individuals and providing estimates to uninsured or self-pay patients that do not include expected charges for co-providers or co-facilities. It is not entirely clear how price transparency requirements will affect consumer behavior, our relationships with payers or our ability to set and negotiate prices, but our competitive position could be negatively affected if our standard charges are higher or are perceived to be higher than the charges of our competitors.

The number of freestanding specialty hospitals, surgery centers, emergency departments, urgent care centers and diagnostic and imaging centers in the geographic areas in which we operate has increased. Many individuals are seeking a broader range of services at outpatient facilities as a result of the growing availability of stand-alone outpatient health care facilities, the increase in payer reimbursement policies that restrict inpatient coverage and the increase in the services that can be provided on an outpatient basis, including high margin services. Consequently, most of our hospitals operate in a highly competitive environment, which may put pressure on our pricing, ability to contract with third-party payers and strategy for volume growth. Some of the facilities that compete with our hospitals are physician-owned or are owned by governmental agencies or not-for-profit corporations supported by endowments, charitable contributions or tax revenues and can finance capital expenditures and operations on a tax-exempt basis. Recent consolidations of not-for-profit hospital entities may intensify this competitive pressure. There is also increasing consolidation in the third-party payer industry, including vertical integration efforts among third-party payers and health care providers, and increasing efforts by payers to influence or direct the patient’s choice of provider by the use of narrow networks or other strategies. Health care industry participants are increasingly implementing physician alignment strategies, such as employing physicians, acquiring physician practice groups and participating in ACOs or other clinical integration models. Other industry participants, such as large employer groups and their affiliates and large retail chains, may intensify competitive pressure and affect the industry in ways that are difficult to predict.

Our hospitals compete with specialty hospitals and with freestanding ASCs and other outpatient providers for market share in certain high margin services and for quality physicians and personnel. If ASCs and other outpatient providers are better able to compete in this environment than our hospitals, our hospitals may experience a decline in patient volume, and we may experience a decrease in operating margin. In states that do not require a CON or other type of approval for the purchase, construction or expansion of health care facilities or services, competition in the form of new services, facilities and capital spending is more prevalent. Some states that have historically imposed CON or similar prior approval requirements have removed or are considering removing these requirements, which may reduce barriers to entry and increase competition in our service areas. Changes in licensure or other regulations and recognition of new provider types or payment models could also impact our competitive position. If our competitors are better able to attract patients, make capital expenditures and maintain modern and technologically upgraded facilities and equipment, recruit physicians, expand services or obtain more favorable third-party payer contracts at their facilities than our hospitals and other providers, we may experience an overall decline in patient volume. See Item 1, “Business — Competition.”

*Any increase in the volume of uninsured patients or deterioration in the collectability of uninsured and patient due accounts could adversely affect our results of operations.*

The primary collection risks for our accounts receivable relate to the uninsured patient accounts and patient accounts for which the primary third-party payer has paid the amounts covered by the applicable agreement, but patient responsibility amounts (exclusions, deductibles and copayments) remain outstanding. At December 31, 2024, estimated implicit price concessions of \$7.773 billion had been recorded to adjust our revenues and accounts receivable to the estimated amounts we expect to collect. The estimated cost of total uncompensated care was \$4.366 billion for 2024, \$3.720 billion for 2023 and \$3.491 billion for 2022.

Any increase in the volume of uninsured patients or deterioration in the collectability of uninsured and self-pay accounts receivable could adversely affect our cash flows and results of operations. Our facilities may experience growth in total uncompensated care as a result of a number of factors, including conditions impacting the overall economy and unemployment levels. In addition, federal and state legislatures have in recent years considered or passed various proposals impacting the size of the uninsured or underinsured population. For example, the ARPA temporarily enhanced premium tax credits available for purchasing coverage through the Exchanges by lowering premiums and raising income eligibility thresholds. These premium tax credits were extended through 2025. However, further extension is uncertain, and we believe their expiration would adversely impact Exchange enrollment and significantly increase the uninsured rate. In addition, under early COVID-19-related legislation, states that maintained continuous Medicaid enrollment were eligible for a temporary increase in federal funds for state Medicaid expenditures. The resumption of redeterminations for Medicaid enrollees in 2023 resulted in significant coverage disruptions and disenrollments of Medicaid enrollees, and the number of individuals enrolled in Medicaid declined in 2024 in comparison to 2023. Medicaid enrollment may be further affected by potential changes to the federal funding formula for Medicaid. For example, some states have trigger laws that would end their Medicaid expansion or require other changes if federal funding for expansion populations is reduced. Further, if federal contributions for Medicaid expansion populations decrease, states that expanded Medicaid might not be able to offset such funding reductions. Other legislative and executive branch initiatives related to health insurance, such as permitting the sale of insurance plans that lack currently required consumer protections, could also increase rates of uninsured and underinsured individuals. It is difficult to predict what, whether, and when legislative and regulatory changes may be made in the future.

We provide uninsured discounts and charity care for individuals, including for those residing in states that choose not to implement the Medicaid expansion or that modify the terms of the program, for undocumented aliens who are not permitted to enroll in an Exchange plan or government health care programs and for certain others who may not have insurance. Some patients may choose to enroll in lower cost Medicaid plans or other health insurance plans with lower reimbursement levels. We may also be adversely affected by the growth in patient responsibility accounts as a result of increases in the adoption of health plan structures that shift greater payment responsibility for care to individuals through greater exclusions and copayment and deductible amounts. Further, our ability to collect patient responsibility accounts may be limited by statutory, regulatory and investigatory initiatives, including private lawsuits directed at hospital charges and collection practices for uninsured and underinsured patients. For example, the No Surprises Act requires providers to send uninsured and self-pay patients a good faith estimate of expected charges for items and services. The estimate must cover items and services that are reasonably expected to be provided together with the primary item or services, including those that may be provided by other providers. If the uninsured or self-pay patient receives a bill that exceeds the good faith estimate by an amount deemed to be substantial by regulation (which is currently \$400) or the provider furnishes an item or service that was not included in the good faith estimate, they may initiate a patient-provider dispute resolution process established by regulation.

*If our volume of patients with private health insurance coverage declines or we are unable to retain and negotiate favorable contracts with private third-party payers, including managed care plans, our revenues may be adversely affected.*

Our ability to maintain or increase patient volumes covered by private third-party payers and to maintain and obtain favorable contracts with private third-party payers significantly affects the revenues and operating results of our facilities. Revenues derived from private third-party payers (domestic only) accounted for 49.5%, 49.0% and 48.3% of our revenues for 2024, 2023 and 2022, respectively.

Private third-party payers, including HMOs, PPOs and other managed care plans, typically reimburse health care providers at a higher rate than Medicare, Medicaid, other government health care programs or uninsured, self-pay patients. If we experience reductions in the volume of patients with private health insurance coverage, our revenues may be reduced. Factors that may cause enrollment in private health insurance to decrease include economic factors, such as increased unemployment and underemployment rates and inflationary pressures, and legislative or regulatory changes that increase barriers to and costs associated with obtaining or maintaining comprehensive coverage, including changes affecting insurance brokers and Exchange navigators, limiting automatic re-enrollment in plans purchased through the Exchanges, or expanding short-term insurance options.

Reimbursement rates are set forth by contract when our facilities are in-network, and payers utilize plan structures to encourage or require the use of in-network providers. Private third-party payers, including managed care plans and payers participating in the Exchanges, continue to demand discounted fee structures, and the ongoing trend toward consolidation among payers tends to increase their bargaining power over fee structures. Payers may utilize plan structures such as narrow networks and tiered networks that limit beneficiary provider choices, impose significantly higher cost sharing obligations when care is obtained from providers in a disfavored tier or otherwise shift greater financial

responsibility for care to individuals. Legislative and regulatory initiatives may accelerate or otherwise impact these trends. Cost-reduction strategies by large employer groups and their affiliates, such as directly contracting with a limited number of providers, may also limit our ability to negotiate favorable terms in our contracts and otherwise intensify competitive pressure.

Our ability to retain and renew our third-party payer contracts and enter into new contracts on terms favorable to us may be impacted by other health care providers. For example, some of our competitors may negotiate exclusivity provisions with managed care plans or otherwise restrict the ability of managed care plans to contract with us. Further, shifts in the payer contracts held by our competitors may impact our patient mix, which could negatively impact our revenues.

Trends toward greater price transparency may also negatively impact our ability to negotiate favorable contracts with payers. For example, hospitals are required to publish online payer-specific and de-identified minimum and maximum negotiated charges. In addition, health insurers are required to provide online price comparison tools to help individuals get personalized cost estimates for covered items and services. In addition, alignment efforts between third-party payers and health care providers and transparency requirements provide payers with increased access to performance and pricing data, which may increase payer bargaining power.

If we are unable to retain and negotiate favorable contracts with third-party payers or experience reductions in payment increases or amounts received from third-party payers or the number of patients with private health insurance coverage, our revenues may be reduced.

*Changes to physician utilization practices and treatment methodologies and other factors outside our control that impact demand for medical services may reduce our revenues.*

Volume, admission and case-mix trends may be impacted by factors beyond our control, such as changes in volume of certain high acuity services, variations in the prevalence and severity of outbreaks of influenza and other illnesses and medical conditions, seasonal and severe weather conditions, changes in treatment regimens and medical technology and other advances. Further, trends in physician treatment protocols and health plan design, such as health plans that shift increased costs and accountability for care to patients, could reduce our surgical volumes and admissions in favor of lower intensity and lower cost treatment methodologies or result in patients seeking care from other providers. Additionally, our operations may be impacted by expansion of in-home acute care models, and our inpatient volumes may decline if various inpatient hospital procedures become eligible for reimbursement by Medicare when performed in outpatient settings. These and other factors beyond our control may reduce the demand for services we offer and decrease the reimbursement that we receive, which could have a material, adverse effect on our business, financial position and results of operations.

*Third-party payer controls designed to reduce costs and other payer practices intended to decrease inpatient services, surgical procedure volumes or reimbursement for services rendered may reduce our revenues.*

Controls imposed by Medicare, managed Medicare, Medicaid, managed Medicaid and private third-party payers designed to reduce admissions, intensity of services, surgical procedure volumes and lengths of stay, in some instances referred to as “utilization review,” have affected and are expected to increasingly affect our facilities. Utilization review entails the review of the admission and course of treatment of a patient by third-party payers and may involve prior authorization requirements. The Medicare program also issues national or local coverage determinations that restrict the circumstances under which Medicare pays for certain services. Inpatient and outpatient service utilization and inpatient occupancy rates and average lengths of stay continue to be negatively affected by third-party payers’ prior authorization requirements, coverage restrictions, utilization review and by pressure to maximize outpatient and alternative health care delivery services for less acutely ill patients. Cost control efforts have resulted in an increase in reimbursement denials and delays by both governmental and commercial payers, which may decrease the reimbursement we receive and may increase our costs and administrative burden, as additional resources are devoted to collection and documentation efforts. Additionally, the reimbursement we receive may decline as a result of site-neutrality initiatives, which aim to align payment for services across care settings. Efforts to impose more stringent cost controls are expected to continue and may have a material, adverse effect on our business, financial condition and results of operations.

*We may encounter difficulty acquiring hospitals and other health care businesses, encounter challenges integrating the operations of acquired hospitals and other health care businesses and/or become liable for unknown or contingent liabilities as a result of acquisitions.*

A component of our business strategy is acquiring hospitals and other health care businesses. We may encounter difficulty acquiring new facilities or other businesses due to a lack of attractive opportunities or as a result of competition from other purchasers that may be willing to pay purchase prices that are higher than we believe are reasonable. Antitrust

enforcement in the health care industry is currently a priority of the Federal Trade Commission and the DOJ, including with respect to hospital and physician practice acquisitions. States also are increasingly enacting laws modeled after the federal Hart-Scott-Rodino Act, requiring pre-notification of covered transactions. These laws may specifically target health care transactions and may have broad impacts on closing timetables and approvals. Some states require CONs in order to acquire a hospital or other facility, or to expand facilities or services. In addition, the acquisition of health care facilities often involves licensure approvals or reviews and complex change of ownership processes for Medicare and other payers. Further, many states have laws that restrict the conversion or sale of not-for-profit hospitals to for-profit entities. These laws may require prior approval from the state attorney general, advance notification of the attorney general or other regulators and community involvement. Attorneys general in states without specific requirements may exercise broad discretionary authority over transactions involving the sale of not-for-profits under their general obligations to protect the use of charitable assets. These legislative and administrative efforts often focus on the appropriate valuation of the assets divested and the use of the proceeds of the sale by the non-profit seller and may include consideration of commitments for capital improvements and charity care by the purchaser. Similarly, some states require disclosures by certain health care entities, including hospitals and physician practices, to state attorneys general or other designated entities in advance of sales or other transactions. Also, the increasingly challenging regulatory and enforcement environment may negatively impact our ability to acquire health care businesses if they are found to have material unresolved compliance issues, such as repayment obligations. Resolving compliance issues as well as completion of oversight, review or approval processes could seriously delay or even prevent our ability to acquire hospitals or other businesses and increase our acquisition costs.

We may be unable to timely and effectively integrate hospitals and other businesses that we acquire with our ongoing operations, or we may experience delays implementing operating procedures and systems. Hospitals and other health care businesses that we acquire may have unknown or contingent liabilities, including liabilities for failure to comply with health care and other laws and regulations, medical and general professional liabilities, workers' compensation liabilities and tax liabilities. Although we typically exclude significant liabilities from our acquisition transactions and seek indemnification from the sellers for these matters, we could experience difficulty enforcing those obligations, experience liability in excess of any indemnification obtained or otherwise incur material liabilities for the pre-acquisition conduct of acquired businesses. Such liabilities and related legal or other costs could harm our business and results of operations.

*Our facilities are heavily concentrated in Florida and Texas, which makes us sensitive to regulatory, economic, public health, environmental and competitive conditions and changes in those states.*

We operated 190 hospitals at December 31, 2024, and 100 of those hospitals are located in Florida and Texas. Our Florida and Texas facilities' combined revenues represented 52% of our consolidated revenues for the year ended December 31, 2024. This geographic concentration makes us particularly sensitive to regulatory, economic, public health, environmental and competitive conditions in those states. Any material changes in the current payment programs or regulatory, economic, public health, environmental or competitive conditions in those states could have a significant and disproportionate effect on our overall business results.

*Our business and operations are subject to risks related to changing global weather patterns.*

Changing global weather patterns present both immediate and long-term physical risks (such as potential increases in the intensity or frequency of hurricanes, extreme weather conditions or other natural disasters) and risks associated with the transition to a low-carbon economy (such as regulatory or technology changes). These changes could result in, for example, temporary declines in the number of patients seeking our services, closures of our hospitals and related facilities, supply chain disruptions, increased costs of products, commodities and energy (including utilities) and disruptions in our information systems, which in turn could negatively impact our business and results of operations. In addition, our hospitals and other facilities in Florida, Texas and other coastal states are located in regions that may be impacted by hurricanes. In the past, hurricanes have had a disruptive effect on the operations of our hospitals and other facilities in Florida, Texas and other coastal states and the patient populations in those states, including Hurricanes Helene and Milton, which made landfall in September and October 2024, respectively. Changing global weather patterns could also increase the intensity or frequency of hurricanes, extreme weather conditions or other natural disasters. Our business assets and activities and the communities we serve have been and could in the future be harmed by a particularly active hurricane season or even a single storm. We face the risk of losses incurred as a result of physical damage to our hospitals and related facilities and business interruptions caused by such events. We maintain property insurance coverage for claims in excess of deductibles and self-insured retention levels generally at \$110 million per occurrence to address the impact of physical damage to our facilities and for business interruption losses. However, such insurance coverage may be insufficient to cover our losses in excess of what we self-insure, and we may experience a material, adverse effect on our results of operations that is not recoverable through our insurance policies. Additionally, if we experience a significant

increase in climate-related events that result in material losses we may be unable to obtain similar levels of property insurance coverage in the future.

In addition, changes in consumer preferences and legislation and regulatory requirements regarding sustainability matters, including those associated with the transition to a low-carbon economy, may increase costs associated with compliance, the operation of our facilities and supplies. Sustainability-related laws and regulations, including those limiting greenhouse gas emissions and energy inputs may also increase in coming years, which may adversely impact us through increased compliance costs for us and our suppliers and vendors. Our stakeholders may have differing expectations regarding sustainability matters, and certain stakeholders may not be satisfied or agree with our efforts which may result in reputational harm. Additionally, the varied timing of sustainability-related laws and regulations and disparate regulatory approaches in various jurisdictions could complicate our compliance efforts. Our response to changing global weather patterns, our related strategies, policies, objectives, commitments and disclosure, our ability to achieve our climate-related and other sustainability objectives and commitments (which are subject to risks and uncertainties, many of which are outside of our control) and/or any perception that our response is ineffective or inefficient, or conversely, not in the best interests of the Company could result in reputational harm as a result of negative public sentiment, regulatory scrutiny, litigation and reduced investor and stakeholder confidence.

*The industry trend toward value-based purchasing may negatively impact our revenues.*

There is a trend toward value-based purchasing of health care services across the health care industry among both governmental and commercial payers. Generally, value-based purchasing initiatives tie payment to the quality and efficiency of care. For example, Medicare requires hospitals, ASCs, home health agencies, hospices and other providers to report certain quality data to receive full reimbursement updates. In addition, Medicare does not reimburse for care related to certain preventable adverse events (also called “never events”) or care related to HACs, and federal law prohibits the use of federal funds under the Medicaid program to reimburse providers for medical assistance provided to treat HACs. The 25% of hospitals with the worst risk-adjusted HAC scores in the designated performance period receive a 1% reduction in their inpatient PPS Medicare payments in the applicable federal fiscal year.

Hospitals with excess readmission rates for conditions designated by CMS receive a reduction in their inpatient PPS operating Medicare payments for all Medicare inpatient discharges in the federal fiscal year, not just discharges relating to the conditions subject to the excess readmission standard. The reduction in payments to hospitals with excess readmissions can be up to 3% of a hospital’s base payments.

CMS has implemented a value-based purchasing program for inpatient hospital services that reduces inpatient hospital payments for all discharges by 2% in each federal fiscal year. CMS pools the amount collected from these reductions to fund payments to reward hospitals that meet or exceed certain quality performance standards established by CMS. CMS scores each hospital based on achievement (relative to other hospitals) and improvement (relative to the hospital’s own past performance). Hospitals that meet or exceed the quality performance standards will receive greater reimbursement under the value-based purchasing program than they would have otherwise.

In the post-acute care space, home health agencies participate in the nationwide HHVBP Model. Under the model, home health agencies receive increases or reductions to their Medicare fee-for-service payments of up to 5%, based on performance against specific quality measures relative to the performance of other home health providers. Data collected in each performance year affects Medicare payments two years later.

CMS has developed several alternative payment models that are intended to reduce costs and improve quality of care for Medicare beneficiaries. Examples of alternative payment models include bundled payment models in which, depending on whether overall CMS spending per episode exceeds or falls below a target specified by CMS and whether quality standards are met, hospitals may receive supplemental Medicare payments or owe repayments to CMS. Generally, participation in bundled payment programs is voluntary, but CMS required hospitals in selected markets to participate in a bundled payment initiative for specified orthopedic procedures, which ended December 31, 2024. Hospitals in selected markets will be required to participate in a new model focused on five specified surgical episodes beginning January 2026. CMS has indicated that it is evaluating the development of more voluntary and mandatory bundled payment models. Participation in mandatory or voluntary demonstration projects, particularly demonstrations with the potential to affect payment, may negatively impact our results of operations.

In a strategic report issued in 2021 and updated in 2022, the CMS Innovation Center highlighted the need to accelerate the movement to value-based care and drive broader system transformation. By 2030, the CMS Innovation Center aims to have all fee-for-service Medicare beneficiaries and the vast majority of Medicaid beneficiaries in an accountable care relationship with providers who are responsible for quality and total medical costs. The CMS Innovation Center signaled its intent to streamline its payment models and to increase provider participation through implementation of more mandatory models.

There are also several state-driven value-based care initiatives. For example, some states have aligned quality metrics across payers through legislation or regulation. CMS has signaled its intent to support value-based initiatives in the Medicaid context. For example, a final rule issued in May 2024 reduces state burdens for implementing some SDP arrangements, with the intent of helping states use such arrangements to implement value-based initiatives. In addition, private third-party payers are also transitioning toward alternative payment models or implementing other value-based care strategies. For example, many large private third-party payers currently require hospitals to report quality data, and several private third-party payers do not reimburse hospitals for certain preventable adverse events. Further, we have implemented a policy pursuant to which we do not bill patients or third-party payers for fees or expenses incurred due to certain preventable adverse events.

We expect value-based purchasing programs, including programs that condition reimbursement on patient outcome measures, to become more common and to involve a higher percentage of reimbursement amounts. It is unclear whether these and other alternative payment models will successfully coordinate care and reduce costs or whether they will decrease aggregate reimbursement. We are unable to predict our future payments or whether we will be subject to payment reductions under these programs or how this trend will affect our results of operations. If we are unable to meet or exceed the quality performance standards under any applicable value-based purchasing program, perform at a level below the outcomes demonstrated by our competitors, or otherwise fail to effectively provide or coordinate the efficient delivery of quality health care services, our reputation in the industry may be negatively impacted, we may receive reduced reimbursement amounts and we may owe repayments to payers, causing our revenues to decline.

***Risks related to macroeconomic conditions:***

*Our overall business results may suffer during periods of general economic weakness or recessions.*

Our business is impacted by economic conditions in the United States, including periods of significant inflation, higher interest rates or economic weakness or recessions. Also, budget deficits at the federal level and within some state and local government entities have had, and may continue to have, a negative impact on spending for health and human service programs, including Medicare, Medicaid and similar programs, which represent significant third-party payer sources for our hospitals. We anticipate that the federal deficit, the growing magnitude of Medicare and Medicaid expenditures and the aging and health status trends of the U.S. population will continue to place pressure on government health care programs, and it is possible that future deficit reduction legislation will mandate additional Medicare spending reductions. There is uncertainty regarding the impact of any failure to increase the “debt ceiling,” and any U.S. government default on its debt could have broad macroeconomic effects. Further, any shutdown of the federal government, failure to enact annual appropriations, hold on congressionally authorized spending or interruptions in the distribution of governmental funds could adversely affect our financial results.

Other risks we face during periods of economic weakness and high unemployment include potential declines in the population covered under managed care agreements, increased patient decisions to postpone or cancel elective and nonemergency health care procedures (including delaying surgical procedures), which may lead to poorer health and higher acuity interventions, potential increases in the uninsured and underinsured populations, increased adoption of health plan structures that shift financial responsibility to patients and further difficulties in collecting patient receivables for copayment and deductible receivables. Further, inflationary pressures may increase operating expenses to a greater degree and faster than reflected in updates to the reimbursement systems of governmental and private payers. General economic conditions, including inflation, when worsening or remaining volatile for an extended period of time, have and may continue to have, a negative impact on our results of operations, liquidity, ability to repay our outstanding debt and trading price of our common stock. These factors may affect the availability, terms or timing on which we may obtain any additional funding and our ability to access our cash. There can be no assurance that we will be able to raise additional funds on terms acceptable to us, if at all.

*We are exposed to market risk related to changes in the market values of securities and interest rates.*

We are exposed to market risk related to changes in market values of securities. The investment securities held by our insurance subsidiaries were \$657 million at December 31, 2024. These investments are carried at fair value, with changes in unrealized gains and losses related to factors other than credit loss allowances being recorded as adjustments to other comprehensive income. At December 31, 2024, we had net unrealized losses of \$27 million on the insurance subsidiaries’ investment securities.

We are exposed to market risk related to market illiquidity. Investment securities of our insurance subsidiaries could be impaired by the inability to access the capital markets. Should the insurance subsidiaries require significant amounts of cash in excess of normal cash requirements to pay claims and other expenses on short notice, we may have difficulty selling these investments in a timely manner or be forced to sell them at a price less than what we might otherwise have been able to in a normal market environment. We may be required to recognize credit-related impairments on long-term

investments in future periods should issuers default on interest payments or should the fair market valuations of the securities deteriorate due to ratings downgrades or other issue specific factors.

We are also exposed to market risk related to changes in interest rates that impact the amount of the interest expense we incur with respect to our floating rate obligations as well as the value of certain investments. We periodically enter into interest rate swap agreements to manage our exposure to these fluctuations. These interest rate swap agreements involve the exchange of fixed and variable rate interest payments between two parties, based on common notional principal amounts and maturity dates.

***Risks related to ownership of our common stock:***

*There can be no assurance that we will continue to pay dividends.*

The Company declares a regular quarterly cash dividend under our cash dividend program. During 2024, the Board of Directors declared four quarterly dividends of \$0.66 per share, or \$2.64 per share in the aggregate, on our common stock. On January 23, 2025, our Board of Directors declared a quarterly dividend of \$0.72 per share on our common stock payable on March 31, 2025 to stockholders of record at the close of business on March 17, 2025.

The declaration, amount and timing of such dividends are subject to capital availability and determinations by our Board of Directors that cash dividends are in the best interest of our stockholders and are in compliance with all respective laws and our agreements applicable to the declaration and payment of cash dividends. Our ability to pay dividends will depend upon, among other factors, our cash flows from operations, our available capital and potential future capital requirements for strategic transactions, including acquisitions, debt service requirements, share repurchases and investing in our existing markets as well as our results of operations, financial condition and other factors beyond our control that our Board of Directors may deem relevant. A reduction in or suspension or elimination of our dividend payments could have a negative effect on our stock price.

*Certain of our investors may continue to have influence over us.*

On November 17, 2006, HCA Inc. was acquired by a private investor group, including affiliates of HCA founder, Dr. Thomas F. Frist, Jr. and certain other investors. Through their investment in Hercules Holding II and other holdings, certain of the Frist-affiliated investors continue to hold a significant interest in our outstanding common stock (approximately 28% as of January 31, 2025). In addition, pursuant to a stockholders' agreement we entered into with Hercules Holding II and the Frist-affiliated investors, certain representatives of these investors have the continued right to nominate certain of the members of our Board of Directors. As a result, certain of these investors potentially have the ability to influence our decisions to enter into corporate transactions (and the terms thereof) and prevent changes in the composition of our Board of Directors or any transaction that requires stockholder approval.

**Item 1B. *Unresolved Staff Comments***

None.

**Item 1C. *Cybersecurity***

Management is responsible for the day-to-day handling of risks facing our Company, while the Board of Directors, as a whole and through its committees, oversees risk management, including cybersecurity risks. The Board has delegated certain risk management responsibilities with respect to cybersecurity to our Audit and Compliance Committee.

The Audit and Compliance Committee periodically reviews our data security programs, including cybersecurity processes and procedures regarding cybersecurity threats, AI, disaster recovery and critical business continuity, and reviews our programs and plans that management has established to monitor compliance with data security compliance programs and test emergency operations preparedness. The Audit and Compliance Committee also receives reports regarding risks associated with our data security programs and management's plans for monitoring and testing compliance with data security regulations.

The Audit and Compliance Committee meetings take place on a quarterly basis and include a report from our Chief Security Officer ("CSO") regarding our security programs, including (i) the status on activities under way to support our security strategy, (ii) an overview of the current threat landscape, including emerging threats and trends that may affect us, (iii) key performance measures of security operations and (iv) general security program needs. The security program includes cybersecurity and information security risk management. Our senior security leadership team has an average of 20 years of data security experience, and each member has served in multiple roles within our security programs.

We seek to leverage a comprehensive risk management program aligned with the National Institute of Technology Cybersecurity Framework 2.0 that encompasses a structured approach to assess, identify, and manage cyber and information security risks. The internal processes for these activities are evaluated for alignment with our objectives and overall risk tolerance. This approach is consistent with our overall risk management efforts. The CSO participates with other senior officers, including the Chief Executive Officer, Chief Information Officer, Chief Financial Officer, Chief Legal and Administrative Officer, Chief Ethics and Compliance Officer and others on our risk management committee, which develops and coordinates enterprise cybersecurity and information security policy and strategy, and provides guidance to senior management.

We utilize cross-functional teams and risk assessment tools and technologies to identify potential cybersecurity and information security threats and risks. These teams include representatives from various departments within our Company to promote a holistic view of the organization's cybersecurity and information security risk landscape and to facilitate communication. We have implemented multiple layers of security measures designed to protect the confidentiality, integrity and availability of our data and the systems and devices that store and transmit such data. We also seek to embed security measures into software and system development processes and to use current security technologies. In addition, we engage third parties to actively monitor potential threats as well as our security defenses. The risk landscape is assessed to determine the likelihood and potential impact of identified risks. This assessment involves a combination of qualitative and quantitative analyses to help prioritize identified risks and determine the appropriate risk treatment. The effectiveness of the cybersecurity and information security program is tested through a combination of internal and external assessments. Updates are provided to senior management and the Audit and Compliance Committee for informed decision-making and are integrated into our broader enterprise risk management processes.

We also seek to oversee and identify potential cybersecurity and information security threats and risks relating to suppliers and third-party service providers. These efforts may include due diligence to assess the party's cybersecurity practices, controls, and compliance with relevant statutes and regulations; the use of contractual agreements that outline certain cybersecurity requirements; and using outside services to perform ongoing monitoring of select suppliers and third-party service providers. We also collaborate with select third-party suppliers to develop and align incident response plans.

No risks from cybersecurity threats or previous cybersecurity incidents have materially affected our business strategy, results of operations, or financial condition. However, there can be no assurance that our controls and procedures in place to monitor and mitigate the risks of cybersecurity threats, including the remediation of critical information security and software vulnerabilities, will be sufficient and/or timely and that we will not suffer material losses or consequences in the future. Additionally, while we have in place insurance coverage designed to address certain aspects of cybersecurity risks, such insurance coverage may be insufficient to cover all insured losses or all types of claims that may arise.

**Item 2. Properties**

The following table lists, by state, the number of hospitals (general, acute care, behavioral and rehabilitation) directly or indirectly owned and operated by us as of December 31, 2024:

State	Hospitals	Beds
Alaska	1	250
California	4	1,660
Colorado	7	2,602
Florida	46	13,221
Georgia	5	1,543
Idaho	2	454
Indiana	1	278
Kansas	5	1,473
Kentucky	2	384
Louisiana	1	380
Missouri	5	1,080
Nevada	3	1,634
New Hampshire	3	432
North Carolina	7	1,219
South Carolina	4	1,054
Tennessee	13	2,651
Texas	54	14,316
Utah	8	1,057
Virginia	11	3,359
<b>International</b>		
England	8	938
	190	49,985

In addition to the hospitals listed in the above table, we directly or indirectly operate 124 ASCs and 26 freestanding endoscopy centers. We also operate medical office buildings in conjunction with some of our hospitals. These office buildings are primarily occupied by physicians who practice at our hospitals. Twelve of our general, acute care hospitals and five of our other properties have been mortgaged to support our obligations under our senior secured cash flow credit facility.

We maintain our headquarters in approximately 2,031,000 square feet of space in the Nashville, Tennessee area. In addition to the headquarters in Nashville, we maintain regional service centers related to our shared services initiatives. These service centers are located in markets in which we operate hospitals.

We believe our headquarters, hospitals and other facilities are suitable for their respective uses and are, in general, adequate for our present needs. Our properties are subject to various federal, state and local statutes and ordinances regulating their operation. Management does not believe that compliance with such statutes and ordinances will materially affect our financial position or results of operations.

**Item 3. Legal Proceedings**

The information set forth in Note 10 – Contingencies in the notes to the consolidated financial statements is incorporated herein by reference.

In addition, the following matter is being disclosed pursuant to Item 103 of Regulation S-K because it relates to environmental regulations and the Company believes monetary sanctions could exceed \$300,000.

In December 2023, an affiliate of the Company was notified of an investigation conducted by District Attorneys in four counties in California regarding the waste disposal practices of the Company's California facilities and alleging violations of certain state environmental and other laws. The Company is responding to requests for information from the District Attorneys and is assessing the allegations and underlying facts. Based on the information known at this time, the Company does not believe this matter will materially impact the Company.

**Item 4. Mine Safety Disclosures**

None.

## PART II

### Item 5. *Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities*

During January 2023, January 2024 and January 2025, our Board of Directors authorized share repurchase programs for up to \$3 billion, \$6 billion and \$10 billion, respectively, of the Company's outstanding common stock. The January 2023 authorization was completed during 2024, and at December 31, 2024, there was \$764 million of share repurchase authorization that remained available under the January 2024 authorization. All repurchases made during the fourth quarter of 2024, as detailed below, were made pursuant to the January 2024 share repurchase authorization and were made in the open market.

The following table provides certain information with respect to our repurchases of common stock from October 1, 2024 through December 31, 2024 (dollars in millions, except per share amounts).

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under Publicly Announced Plans or Programs
October 2024	1,564,869	\$ 390.45	1,564,869	\$ 1,822
November 2024	1,707,356	\$ 349.09	1,707,356	\$ 1,226
December 2024	1,466,721	\$ 315.00	1,466,721	\$ 764
Total for Fourth Quarter 2024	<u>4,738,946</u>	\$ 352.19	<u>4,738,946</u>	

Our common stock is traded on the New York Stock Exchange ("NYSE") (symbol "HCA"). During 2024, our Board of Directors declared four quarterly dividends of \$0.66 per share, or \$2.64 per share in the aggregate, on our common stock. On January 23, 2025, our Board of Directors declared a quarterly dividend of \$0.72 per share on our common stock payable on March 31, 2025 to stockholders of record at the close of business on March 17, 2025. Future declarations of quarterly dividends and the establishment of future record and payment dates are subject to the final determination of our Board of Directors. Our ability to declare future dividends may also from time to time be limited by the terms of our debt agreements. At the close of business on January 31, 2025, there were approximately 460 holders of record of our common stock.

**STOCK PERFORMANCE GRAPH**  
**COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN**  
Among HCA Healthcare, Inc., the S&P 500 Index and the S&P Health Care Index

	12/31/2019	12/31/2020	12/31/2021	12/31/2022	12/31/2023	12/31/2024
HCA Healthcare, Inc.	\$ 100.00	\$ 111.64	\$ 175.93	\$ 165.99	\$ 188.93	\$ 211.12
S&P 500	100.00	118.40	152.39	124.79	157.59	197.02
S&P Health Care	100.00	113.45	143.09	140.29	143.18	146.87

The graph shows the cumulative total return to our stockholders for the five-year period ended December 31, 2024, in comparison to the cumulative returns of the S&P 500 Index and the S&P Health Care Index. The graph assumes \$100 invested on December 31, 2019 in our common stock and in each index with the subsequent reinvestment of dividends. The stock performance shown on the graph represents historical stock performance and is not necessarily indicative of future stock price performance.

**Item 6.** [Reserved]

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### **Item 7.     *Management's Discussion and Analysis of Financial Condition and Results of Operations***

The accompanying consolidated financial statements present certain information with respect to the financial position, results of operations and cash flows of HCA Healthcare, Inc. which should be read in conjunction with the following discussion and analysis. The terms "HCA," "Company," "we," "our," or "us," as used herein, refer to HCA Healthcare, Inc. and its affiliates. The term "affiliates" means direct and indirect subsidiaries of HCA Healthcare, Inc. and partnerships and joint ventures in which such subsidiaries are partners.

#### **Forward-Looking Statements**

This annual report on Form 10-K includes certain disclosures that contain "forward-looking statements," within the meaning of the federal securities laws, which involve risks and uncertainties. Forward-looking statements include statements regarding expected capital expenditures, expected dividends, expected share repurchases, expected net claim payments, expected inflationary pressures and all other statements that do not relate solely to historical or current facts, and can be identified by the use of words like "may," "believe," "will," "expect," "project," "estimate," "anticipate," "plan," "initiative" or "continue." These forward-looking statements are based on our current plans and expectations and are subject to a number of known and unknown uncertainties and risks, many of which are beyond our control, which could significantly affect current plans and expectations and our future financial position and results of operations. These factors include, but are not limited to, (1) changes in or related to general economic conditions nationally and regionally in our markets, including inflation and economic and business conditions (and the impact thereof on the economy, financial markets and banking industry); changes in revenues due to declining patient volumes; changes in payer mix (including increases in uninsured and underinsured patients); potential increased expenses related to labor, supply chain or other expenditures; workforce disruptions; supply shortages and disruptions (including as a result of geopolitical disruptions); and the impact of potential federal government shutdowns or interruptions in appropriation or distribution of governmental funds, (2) the impact of current and future health care public policy developments and possible changes to other federal, state or local laws and regulations affecting the health care industry, including, but not limited to, the expiration of enhanced premium tax credits for individuals eligible to purchase insurance coverage through federal and state-based health insurance marketplaces, (3) the impact of our significant indebtedness and the ability to refinance such indebtedness on acceptable terms, (4) the effects related to the implementation of sequestration spending reductions required under the Budget Control Act of 2011, related legislation extending these reductions, and the potential for future deficit reduction legislation that may alter these spending reductions, which include cuts to Medicare payments, or create additional spending reductions, (5) the ability to achieve operating and financial targets, attain expected levels of patient volumes and revenues, and control the costs of providing services, (6) possible changes in Medicare, Medicaid and other state programs, including Medicaid supplemental payment programs, Medicaid waiver programs or state directed payments, that may impact reimbursements to health care providers and insurers and the size of the uninsured or underinsured population, (7) increases in the amount and risk of collectability of uninsured accounts and deductibles and copayment amounts for insured accounts, (8) personnel-related capacity constraints, increases in wages and the ability to attract, utilize and retain qualified management and other personnel, including affiliated physicians, nurses and medical and technical support personnel, (9) the highly competitive nature of the health care business, (10) changes in service mix, revenue mix and surgical volumes, including potential declines in the population covered under third-party payer agreements, the ability to enter into and renew third-party payer provider agreements on acceptable terms and the impact of consumer-driven health plans and physician utilization trends and practices, (11) the efforts of health insurers, health care providers, large employer groups and others to contain health care costs, (12) the outcome of our continuing efforts to monitor, maintain and comply with appropriate laws, regulations, policies and procedures, (13) the availability and terms of capital to fund the expansion of our business and improvements to our existing facilities, (14) changes in accounting practices, (15) the emergence of and effects related to pandemics, epidemics and outbreaks of infectious diseases or other public health crises, (16) future divestitures which may result in charges and possible impairments of long-lived assets, (17) changes in business strategy or development plans, (18) delays in receiving payments for services provided, (19) the outcome of pending and any future tax audits, disputes and litigation associated with our tax positions, (20) the impact of known and unknown government investigations, litigation and other claims that may be made against us, (21) the impact of actual and potential cybersecurity incidents or security breaches involving us or our vendors and other third parties, (22) our ongoing ability to demonstrate meaningful use of certified electronic health record technology and the impact of interoperability requirements, (23) the impact of natural disasters, such as hurricanes and floods, including Hurricanes Milton and Helene, physical risks from changing global weather patterns or similar events beyond our control on our assets and activities and the communities we serve, (24) changes in U.S. federal, state, or foreign tax laws including interpretive guidance that may be issued by taxing authorities, other standard setting bodies or judicial decisions, (25) the results of our efforts to use technology and resilience initiatives, including AI and machine learning, to drive efficiencies, better outcomes and an enhanced patient experience, and (26) other risk factors described in this annual report on Form 10-K. As a consequence, current plans, anticipated actions and future financial position and results of operations may differ from those expressed in any forward-looking statements made by or on behalf of HCA. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in this report, which forward-looking statements reflect management's views only as of the date of this report. We undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### 2024 Operations Summary

Net income attributable to HCA Healthcare, Inc. totaled \$5.760 billion, or \$22.00 per diluted share, for 2024, compared to \$5.242 billion, or \$18.97 per diluted share, for 2023. The 2024 results include gains on sales of facilities of \$14 million, or \$0.04 per diluted share. The 2024 results also include additional expenses and losses of revenues estimated at approximately \$250 million, or \$0.73 per diluted share, related to Hurricanes Helene and Milton, which impacted our facilities in North Carolina and certain facilities in Florida. The 2023 results include losses on sales of facilities of \$5 million, or \$0.04 per diluted share. Our provisions for income taxes for 2024 and 2023 include tax benefits of \$102 million, or \$0.39 per diluted share, and \$93 million, or \$0.34 per diluted share, respectively, related to employee equity award settlements. All "per diluted share" disclosures are based upon amounts net of the applicable income taxes. Shares used for diluted earnings per share were 261.806 million shares and 276.412 million shares for the years ended December 31, 2024 and 2023, respectively. During 2024 and 2023, we repurchased 17.798 million and 14.465 million shares, respectively, of our common stock.

Revenues increased to \$70.603 billion for 2024 from \$64.968 billion for 2023. Revenues increased 8.7% and 7.9%, respectively, on a consolidated basis and on a same facility basis for 2024, compared to 2023. The consolidated revenues increase can be primarily attributed to the combined impact of a 5.3% increase in equivalent admissions and a 3.2% increase in revenue per equivalent admission. The same facility revenues increase resulted primarily from the combined impact of a 4.5% increase in equivalent admissions and a 3.2% increase in revenue per equivalent admission. Our revenues from Medicaid state directed and supplemental payment programs totaled approximately \$4.9 billion and \$3.9 billion in 2024 and 2023, respectively.

During 2024, consolidated admissions increased 5.0% and same facility admissions increased 4.9%, compared to 2023. Inpatient surgical volumes increased 2.2% on both a consolidated basis and a same facility basis during 2024, compared to 2023. Outpatient surgical volumes declined 1.9% on a consolidated basis and declined 1.6% on a same facility basis during 2024, compared to 2023. Emergency room visits increased 4.8% on a consolidated basis and increased 4.9% on a same facility basis during 2024, compared to 2023.

The estimated cost of total uncompensated care increased \$646 million for 2024, compared to 2023. Consolidated and same facility uninsured admissions increased 1.3% and 1.0%, respectively, and consolidated and same facility uninsured emergency room visits increased 13.8% and 13.5%, respectively, for 2024, compared to 2023.

Interest expense totaled \$2.061 billion for 2024, compared to \$1.938 billion for 2023. The \$123 million increase in interest expense for 2024 was primarily due to an increase in the average debt balance.

Cash flows from operating activities increased \$1.083 billion, from \$9.431 billion for 2023 to \$10.514 billion for 2024. The increase in cash flows from operating activities was related primarily to an increase in net income of \$542 million, excluding losses and gains on sales of facilities, and a positive change in working capital items of \$351 million, mainly from a decline in inventories and other assets.

#### Business Strategy

We are committed to providing the communities we serve with high quality, convenient and cost-effective health care while growing our business and creating long-term value for our stockholders. We strive to be the health care system of choice in the communities we serve by developing comprehensive networks locally and supporting these networks with enterprise expertise and economies of scale. Our strategy is organized around a framework that seeks to drive sustained growth by delivering operational excellence, attracting exceptional physicians and other health care professionals, developing comprehensive services, creating greater access, and coordinating higher quality care for patients. To achieve these objectives, we align our efforts around the following growth agenda:

*Grow Our Presence in Existing Markets.* We believe we are well positioned in a number of large and growing markets that will allow us the opportunity to generate long-term, attractive growth through the expansion of our presence in these markets. We plan to continue recruiting and strategically collaborating with the physician community and developing comprehensive service lines such as cardiology, neurology, oncology, orthopedics and women's services. Additional components of our growth strategy include providing access and convenience through developing various outpatient facilities, including, but not limited to surgery centers, urgent care clinics, freestanding emergency care facilities, imaging centers and home health and hospice services, as well as seeking to improve coordination of care and patient retention across our markets.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Business Strategy (continued)

*Achieve Industry-Leading Performance in Clinical, Operational and Satisfaction Measures.* Achieving high levels of patient safety, patient satisfaction and clinical quality are central goals of our business. To achieve these goals, we have implemented a number of initiatives including infection reduction initiatives, hospitalist programs, advanced health information technology and evidence-based medicine programs. We routinely analyze operational practices from our best-performing hospitals to identify ways to implement organization-wide performance improvements and reduce clinical variation. We believe these initiatives will continue to improve patient care, help us achieve cost efficiencies and favorably position us in an environment where our constituents are increasingly focused on quality, efficacy and efficiency.

*Recruit and Retain Physicians and Other Health Care Professionals to Meet the Need for High Quality Health Services.* We depend on the quality and dedication of the health care providers and other team members who serve at our facilities. We believe a critical component of our growth strategy is our ability to successfully recruit and strategically collaborate with physicians and other health care professionals to provide high quality care. We attract and retain physicians and other health care professionals by providing high quality, convenient facilities with advanced technology, by expanding our specialty services and by building our outpatient operations. We believe our continued investment in the employment, recruitment and retention of physicians and other health care professionals will improve the quality of care at our facilities.

*Continue to Utilize Economies of Scale to Grow the Company.* We believe there is significant opportunity to continue to grow our company by fully utilizing the scale and scope of our organization. We continue to invest in initiatives such as care navigators, clinical data exchange and centralized patient transfer operations, which will enable us to improve coordination of care and patient retention across our markets. We believe our centrally managed business processes and ability to leverage cost-saving practices across our extensive network will enable us to continue to manage costs effectively. We continue to invest in our shared service platforms to deploy key components of our support infrastructure, including revenue cycle management, health care group purchasing, supply chain management and staffing functions.

*Pursue a Disciplined Development Strategy.* We continue to believe there are significant growth opportunities in our markets. We will continue to provide financial and operational resources to analyze and develop our in-market opportunities. To complement our in-market growth agenda and achieve cost savings and other benefits for the patients and communities we serve, we intend to focus on selectively developing and acquiring new hospitals, outpatient facilities and other health care service providers.

Our strategy also emphasizes investments that seek to advance our clinical systems and digital capabilities, transform care models with innovative care solutions, expand our workforce development programs and enhance our health care networks and partnerships.

#### Critical Accounting Policies and Estimates

The preparation of our consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities and the reported amounts of revenues and expenses. Our estimates are based on historical experience and various other assumptions we believe are reasonable under the circumstances. We evaluate our estimates on an ongoing basis and make changes to the estimates and related disclosures as experience develops or new information becomes known. Actual results may differ from these estimates.

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Critical Accounting Policies and Estimates (continued)

##### *Revenues*

Revenues are recorded during the period the health care services are provided, based upon the estimated amounts due from payers. Estimates of contractual allowances under managed care health plans are based upon the payment terms specified in the related contractual agreements. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The estimated reimbursement amounts are made on a payer-specific basis and are recorded based on the best information available regarding management's interpretation of the applicable laws, regulations and contract terms. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals. We have invested significant resources to refine and improve our billing systems and the information system data used to make contractual allowance estimates. We have developed standardized calculation processes and related employee training programs to improve the utility of our patient accounting systems.

Patients treated at hospitals for non-elective care who have income at or below 400% of the federal poverty level are eligible for charity care, and we limit the patient responsibility amounts for these patients to a percentage of their annual household income, computed on a sliding scale based upon their annual income and the applicable percentage of the federal poverty level. Patients treated at hospitals for non-elective care who have income above 400% of the federal poverty level are eligible for certain other discounts which limit the patient responsibility amounts for these patients to a percentage of their annual household income, computed on a sliding scale based upon their annual income and the applicable percentage of the federal poverty level. We apply additional discounts to limit patient responsibility for certain emergency services. The federal poverty level is established by the federal government and is based on income and family size. Because we do not pursue collection of amounts determined to qualify as charity care, they are not reported in revenues. We provide discounts to uninsured patients who do not qualify for Medicaid or charity care. We may provide assistance to uninsured patients to help determine whether they may qualify for Medicaid, other federal or state assistance, or charity care. If an uninsured patient does not qualify for these programs, the uninsured discount is applied.

Implicit price concessions relate primarily to amounts due directly from patients. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the age of those accounts. Accounts are written off when all reasonable collection efforts have been performed. The estimates for implicit price concessions are based upon management's assessment of historical writeoffs and expected net collections, business and economic conditions, trends in federal, state and private employer health care coverage and other collection indicators. Management relies on the results of detailed reviews of historical writeoffs and collections at facilities that represent a majority of our revenues and accounts receivable (the "hindsight analysis") as a primary source of information in estimating the collectability of our accounts receivable. We perform the hindsight analysis quarterly, utilizing rolling twelve-months accounts receivable collection and writeoff data. We believe our quarterly updates to the estimated implicit price concession amounts at each of our hospital facilities provide reasonable estimates of our revenues and valuations of our accounts receivable. These routine, quarterly changes in estimates have not resulted in material adjustments to the valuations of our accounts receivable or period-to-period comparisons of our revenues.

To quantify the total impact of and trends related to uninsured patient accounts, we believe it is beneficial to view total uncompensated care, which is comprised of charity care, uninsured discounts and implicit price concessions. A summary of the estimated cost of total uncompensated care for the years ended December 31, follows (dollars in millions):

	2024	2023	2022
Patient care costs (salaries and benefits, supplies, other operating expenses and depreciation and amortization)	\$ 60,056	\$ 55,341	\$ 51,180
Cost-to-charges ratio (patient care costs as percentage of gross patient charges)	10.1 %	10.5 %	11.0 %
Total uncompensated care	\$ 43,231	\$ 35,426	\$ 31,734
Multiply by the cost-to-charges ratio	10.1 %	10.5 %	11.0 %
Estimated cost of total uncompensated care	\$ 4,366	\$ 3,720	\$ 3,491

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Critical Accounting Policies and Estimates (Continued)

##### *Revenues (continued)*

Management expects a continuation of the challenges related to collection of patient due accounts. Adverse changes in the percentage of our patients having adequate health care coverage, increases in patient responsibility amounts under certain health care coverages, general economic conditions, patient accounting service center operations, payer mix, or trends in federal, state, and private employer health care coverage could affect the collection of accounts receivable, cash flows and results of operations. See Item 1, "Business — Developments in Health Care Public Policy."

##### *Professional Liability Claims*

We, along with virtually all health care providers, operate in an environment with professional liability risks. Our facilities are insured by our insurance subsidiary for losses up to \$80 million per occurrence (\$110 million effective January 1, 2025), subject, in most cases, to a \$15 million per occurrence self-insured retention. The insurance subsidiary has obtained reinsurance for professional liability risks generally above a retention level of either \$25 million or \$35 million per occurrence, depending on the jurisdiction for the related claim. We purchase excess insurance on an occurrence reported basis for losses in excess of amounts insured by our insurance subsidiary. Provisions for losses related to professional liability risks were \$627 million, \$619 million and \$517 million for the years ended December 31, 2024, 2023 and 2022, respectively. We recorded an increase to the provision for professional liability risks of \$40 million during 2023 and a reduction to the provision for professional liability risks of \$55 million for 2022, due to the receipt of updated actuarial information.

Reserves for professional liability risks represent the estimated ultimate cost of all reported and unreported losses incurred through the respective consolidated balance sheet dates. The estimated ultimate cost includes estimates of direct expenses and fees paid to outside counsel and experts, but does not include the general overhead costs of our insurance subsidiary or corporate office. Individual case reserves are established based upon the particular circumstances of each reported claim and represent our estimates of the future costs that will be paid on reported claims. Case reserves are reduced as claim payments are made and are adjusted upward or downward as our estimates regarding the amounts of future losses are revised. Once the case reserves for known claims are determined, information is stratified by loss layers and retentions, accident years, reported years, and geographic location of our hospitals. Several actuarial methods are employed to utilize this data to produce estimates of ultimate losses and reserves for incurred but not reported claims, including: paid and incurred extrapolation methods utilizing paid and incurred loss development to estimate ultimate losses; frequency and severity methods utilizing paid and incurred claims development to estimate ultimate average frequency (number of claims) and ultimate average severity (cost per claim); and Bornhuetter-Ferguson methods which add expected development to actual paid or incurred experience to estimate ultimate losses. These methods use our company-specific historical claims data and other information. Company-specific claim reporting and payment data collected over an approximate 20-year period is used in our reserve estimation process. This company-specific data includes information regarding our business, including historical paid losses and loss adjustment expenses, historical and current case loss reserves, actual and projected hospital statistical data, professional liability retentions for each policy year, geographic information and other data.

Reserves and provisions for professional liability risks are based upon actuarially determined estimates. The estimated reserve ranges, net of amounts receivable under reinsurance contracts, were \$1.855 billion to \$2.221 billion at December 31, 2024 and \$1.863 billion to \$2.230 billion at December 31, 2023. Our estimated reserves for professional liability claims may change significantly if future claims differ from expected trends. We perform sensitivity analyses which model the volatility of key actuarial assumptions and monitor our reserves for adequacy relative to all our assumptions in the aggregate. Based on our analysis, we believe the estimated professional liability reserve ranges represent the reasonably likely outcomes for ultimate losses. We consider the number and severity of claims to be the most significant assumptions in estimating reserves for professional liabilities. A 2.5% change in the expected frequency trend could be reasonably likely and would increase the reserve estimate by \$31 million or reduce the reserve estimate by \$30 million. A 2.5% change in the expected claim severity trend could be reasonably likely and would increase the reserve estimate by \$121 million or reduce the reserve estimate by \$113 million. We believe adequate reserves have been recorded for our professional liability claims; however, due to the complexity of the claims, the extended period of time to resolve the claims and the wide range of potential outcomes, our ultimate liability for professional liability claims could change by more than the estimated sensitivity amounts and could change materially from our current estimates.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Critical Accounting Policies and Estimates (Continued)

##### *Professional Liability Claims (continued)*

The reserves for professional liability risks cover approximately 2,100 individual claims at both December 31, 2024 and 2023 and estimates for unreported potential claims. The time period required to resolve these claims can vary depending upon the jurisdiction and whether the claim is settled or litigated. The average time period between the occurrence and final resolution for our professional liability claims is approximately five years, although the facts and circumstances of each individual claim can result in an occurrence-to-resolution timeframe that varies from this average. The estimation of the timing of payments beyond a year can vary significantly.

Reserves for professional liability risks were \$2.131 billion and \$2.089 billion at December 31, 2024 and 2023, respectively. The current portion of these reserves, \$587 million and \$532 million at December 31, 2024 and 2023, respectively, is included in "other accrued expenses." Obligations covered by reinsurance and excess insurance contracts are included in the reserves for professional liability risks, as we remain liable to the extent reinsurers and excess insurance carriers do not meet their obligations. Reserves for professional liability risks (net of \$80 million and \$42 million receivable under reinsurance and excess insurance contracts at December 31, 2024 and 2023, respectively) were \$2.051 billion and \$2.047 billion at December 31, 2024 and 2023, respectively. The estimated total net reserves for professional liability risks at December 31, 2024 and 2023 are comprised of \$1.059 billion and \$947 million, respectively, of case reserves for known claims and \$992 million and \$1.100 billion, respectively, of reserves for incurred but not reported claims. The 2024 increase in case reserves for known claims and the corresponding decrease in reserves for incurred but not reported claims is the result of changes in case management processes at our insurance subsidiary that include establishing case reserve estimates earlier and resolving claims quicker.

Changes in our professional liability reserves, net of reinsurance recoverable, for the years ended December 31, are summarized in the following table (dollars in millions):

	2024	2023	2022
Net reserves for professional liability claims, January 1	\$ 2,047	\$ 1,983	\$ 1,967
Provision for current year claims	545	573	538
Unfavorable (favorable) development related to prior years' claims	82	46	(21)
Total provision	627	619	517
Payments for current year claims	12	13	4
Payments for prior years' claims	588	537	493
Total claim payments	600	550	497
Effect of new retroactive reinsurance contracts	(23)	(5)	(4)
Net reserves for professional liability claims, December 31	\$ 2,051	\$ 2,047	\$ 1,983

##### *Income Taxes*

We calculate our provision for income taxes using the asset and liability method, under which deferred tax assets and liabilities are recognized by identifying the temporary differences that arise from the recognition of items in different periods for tax and accounting purposes. Deferred tax assets generally represent the tax effects of amounts expensed in our income statement for which tax deductions will be claimed in future periods. Interest and penalties payable to taxing authorities are included as a component of our provision for income taxes. We have elected to treat taxes incurred on global intangible low-taxed income as a period expense.

Although we believe we have properly reported taxable income and paid taxes in accordance with applicable laws, federal, state or foreign taxing authorities may challenge our tax positions upon audit. Significant judgment is required in determining and assessing the impact of uncertain tax positions. We report a liability for unrecognized tax benefits from uncertain tax positions taken or expected to be taken in our income tax returns. During each reporting period, we assess the facts and circumstances related to uncertain tax positions. If the realization of unrecognized tax benefits is deemed probable based upon new facts and circumstances, the estimated liability and the provision for income taxes are reduced in the current period. Final audit results may vary from our estimates.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Results of Operations

##### *Revenue/Volume Trends*

Our revenues depend upon inpatient occupancy levels, the ancillary services and therapy programs ordered by physicians and provided to patients, the volume of outpatient procedures and the charge and negotiated payment rates for such services. Gross charges typically do not reflect what our facilities are actually paid. Our facilities have entered into agreements with third-party payers, including government programs and managed care health plans, under which the facilities are paid based upon the cost of providing services, predetermined rates per diagnosis, fixed per diem rates or discounts from gross charges. We do not pursue collection of amounts related to patients who meet our guidelines to qualify for charity care; therefore, they are not reported in revenues. We provide discounts to uninsured patients who do not qualify for Medicaid or charity care.

Revenues increased 8.7% to \$70.603 billion for 2024 from \$64.968 billion for 2023 and increased 7.9% for 2023 from \$60.233 billion for 2022. The increase in revenues in 2024 can be primarily attributed to the combined impact of a 5.3% increase in equivalent admissions and a 3.2% increase in revenue per equivalent admission compared to the prior year. The increase in revenues in 2023 can be primarily attributed to the combined impact of a 4.9% increase in equivalent admissions and a 2.8% increase in revenue per equivalent admission compared to the prior year.

Same facility revenues increased 7.9% for the year ended December 31, 2024 compared to the year ended December 31, 2023 and increased 7.6% for the year ended December 31, 2023 compared to the year ended December 31, 2022. The 7.9% increase for 2024 can be primarily attributed to the combined impact of a 4.5% increase in equivalent admissions and a 3.2% increase in revenue per equivalent admission. The 7.6% increase for 2023 can be primarily attributed to the net impact of a 4.8% increase in equivalent admissions and a 2.7% decline in revenue per equivalent admission.

Consolidated admissions increased 5.0% during 2024 compared to 2023 and increased 2.7% during 2023 compared to 2022. Consolidated inpatient surgical volumes increased 2.2% during 2024 compared to 2023 and increased 1.3% during 2023 compared to 2022. Consolidated outpatient surgical volumes declined 1.9% during 2024 compared to 2023 and increased 2.1% during 2023 compared to 2022. Consolidated emergency room visits increased 4.8% during 2024 compared to 2023 and increased 4.1% during 2023 compared to 2022.

Same facility admissions increased 4.9% during 2024 compared to 2023 and increased 3.3% during 2023 compared to 2022. Same facility inpatient surgical volumes increased 2.2% during 2024 compared to 2023 and increased 2.0% during 2023 compared to 2022. Same facility outpatient surgical volumes declined 1.6% during 2024 compared to 2023 and increased 2.5% during 2023 compared to 2022. Same facility emergency room visits increased 4.9% during 2024 compared to 2023 and increased 4.7% during 2023 compared to 2022.

Same facility uninsured emergency room visits increased 13.5% and same facility uninsured admissions increased 1.0% during 2024 compared to 2023. Same facility uninsured emergency room visits increased 4.4% and same facility uninsured admissions declined 0.4% during 2023 compared to 2022.

The approximate percentages of our admissions related to Medicare, managed Medicare, Medicaid, managed Medicaid, managed care and insurers and the uninsured for the years ended December 31, 2024, 2023 and 2022 are set forth below.

	Years Ended December 31,		
	2024	2023	2022
Medicare	20 %	21 %	22 %
Managed Medicare	26	25	23
Medicaid	4	4	4
Managed Medicaid	11	13	14
Managed care and insurers	32	30	30
Uninsured	7	7	7
	<u>100 %</u>	<u>100 %</u>	<u>100 %</u>

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Results of Operations (continued)

##### *Revenue/Volume Trends (continued)*

The approximate percentages of our inpatient revenues related to Medicare, managed Medicare, Medicaid, managed Medicaid, and managed care and insurers for the years ended December 31, 2024, 2023 and 2022 are set forth below.

	Years Ended December 31,		
	2024	2023	2022
Medicare	20 %	22 %	23 %
Managed Medicare	19	18	17
Medicaid	10	9	7
Managed Medicaid	6	6	8
Managed care and insurers	45	45	45
	<u>100 %</u>	<u>100 %</u>	<u>100 %</u>

At December 31, 2024, we owned and operated 46 hospitals and 28 surgery centers in the state of Florida. Our Florida facilities' revenues totaled \$16.600 billion, \$14.990 billion and \$13.753 billion for the years ended December 31, 2024, 2023 and 2022, respectively. At December 31, 2024, we owned and operated 54 hospitals and 40 surgery centers in the state of Texas. Our Texas facilities' revenues totaled \$19.832 billion, \$17.871 billion and \$16.472 billion for the years ended December 31, 2024, 2023 and 2022, respectively. During 2024, 2023 and 2022, 59%, 58% and 58%, respectively, of our admissions and 52%, 51% and 50%, respectively, of our revenues were generated by our Florida and Texas facilities. Uninsured admissions in Florida and Texas represented 74%, 73% and 74%, respectively, of our uninsured admissions during 2024, 2023 and 2022.

We receive a significant portion of our revenues from government health programs, principally Medicare and Medicaid, which are highly regulated and subject to frequent and substantial changes. Some state Medicaid programs use, or have applied to use, waivers granted by CMS to implement Medicaid expansion, impose different eligibility or enrollment restrictions, or otherwise implement programs that vary from federal standards. We receive supplemental payments in several states. These supplemental payment programs are regularly reviewed by certain government agencies and some states have made requests to CMS to replace their existing supplemental payment programs. In May 2024, CMS issued a final rule related to Medicaid managed care programs that addresses access, financing and quality within these programs. This final rule addresses aspects of state directed program arrangements with new and updated requirements to ensure a more consistent and transparent approach for participating states. The various elements of the rule take effect between issuance and early 2028. It is possible that these developments, reviews and requests will result in the restructuring of or other significant changes to supplemental payment programs and could result in the payment programs being reduced or eliminated. Because deliberations about these programs are ongoing, we are unable to estimate the financial impact the program structure modifications and other program changes, if any, may have on our results of operations.

##### *Key Performance Indicators*

We present certain metrics and statistical information that management uses when assessing our results of operations. We believe this information is useful to investors as it provides insight to how management evaluates operational performance and trends between reporting periods. Information on how these metrics and statistical information are defined is provided in the following tables summarizing operating results and operating data.

# HCA HEALTHCARE, INC.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

### Results of Operations (continued)

#### Operating Results Summary

The following are comparative summaries of operating results and certain operating data for the years ended December 31, 2024, 2023 and 2022 (dollars in millions):

	2024		2023		2022	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Revenues	\$ 70,603	100.0	\$ 64,968	100.0	\$ 60,233	100.0
Salaries and benefits	31,170	44.1	29,487	45.4	27,685	46.0
Supplies	10,755	15.2	9,902	15.2	9,371	15.6
Other operating expenses	14,819	21.0	12,875	19.8	11,155	18.5
Equity in earnings of affiliates	(23)	—	(22)	—	(45)	(0.1)
Depreciation and amortization	3,312	4.7	3,077	4.7	2,969	5.0
Interest expense	2,061	2.9	1,938	3.0	1,741	2.9
Losses (gains) on sales of facilities	(14)	—	5	—	(1,301)	(2.2)
Losses on retirement of debt	—	—	—	—	78	0.1
	<u>62,080</u>	<u>87.9</u>	<u>57,262</u>	<u>88.1</u>	<u>51,653</u>	<u>85.8</u>
Income before income taxes	8,523	12.1	7,706	11.9	8,580	14.2
Provision for income taxes	1,866	2.7	1,615	2.5	1,746	2.9
Net income	<u>6,657</u>	<u>9.4</u>	<u>6,091</u>	<u>9.4</u>	<u>6,834</u>	<u>11.3</u>
Net income attributable to noncontrolling interests	897	1.2	849	1.3	1,191	1.9
Net income attributable to HCA Healthcare, Inc.	<u>\$ 5,760</u>	<u>8.2</u>	<u>\$ 5,242</u>	<u>8.1</u>	<u>\$ 5,643</u>	<u>9.4</u>
% changes from prior year:						
Revenues	8.7 %		7.9 %		2.5 %	
Income before income taxes	10.6		(10.2)		(12.7)	
Net income attributable to HCA Healthcare, Inc.	9.9		(7.1)		(18.9)	
Admissions(a)	5.0		2.7		(0.7)	
Equivalent admissions(b)	5.3		4.9		2.1	
Revenue per equivalent admission	3.2		2.8		0.4	
Same facility % changes from prior year(c):						
Revenues	7.9		7.6		3.2	
Admissions(a)	4.9		3.3		0.5	
Equivalent admissions(b)	4.5		4.8		3.3	
Revenue per equivalent admission	3.2		2.7		(0.1)	

- (a) Represents the total number of patients admitted to our hospitals and is used by management and certain investors as a general measure of inpatient volume.
- (b) Equivalent admissions are used by management and certain investors as a general measure of combined inpatient and outpatient volume. Equivalent admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient revenue and gross outpatient revenue and then dividing the resulting amount by gross inpatient revenue. The equivalent admissions computation "equates" outpatient revenue to the volume measure (admissions) used to measure inpatient volume, resulting in a general measure of combined inpatient and outpatient volume.
- (c) Same facility information excludes the operations of hospitals and their related facilities that were either acquired, divested or removed from service during the current and prior year.

#### Operating Data:

	2024	2023	2022
Number of hospitals at end of period	190	186	182
Number of freestanding outpatient surgery centers at end of period(a)	124	124	126
Number of licensed beds at end of period(b)	49,985	49,588	49,281
Weighted average beds in service(c)	42,633	41,873	41,982
Admissions(d)	2,236,595	2,130,728	2,075,459
Equivalent admissions(e)	3,990,085	3,788,434	3,611,299
Average length of stay (days)(f)	4.8	4.9	5.1
Average daily census(g)	29,581	28,721	28,778
Occupancy rate(h)	73 %	72 %	72 %
Emergency room visits(i)	9,789,265	9,342,783	8,971,951
Outpatient surgeries(j)	1,024,998	1,044,415	1,023,239
Inpatient surgeries(k)	540,704	528,845	522,151
Days revenues in accounts receivable(l)	54	53	53
Outpatient revenues as a % of patient revenues(m)	38 %	38 %	38 %

- (a) Excludes freestanding endoscopy centers (26 at December 31, 2024, 24 at December 31, 2023 and 21 at December 31, 2022).
- (b) Licensed beds are those beds for which a facility has been granted approval to operate from the applicable state licensing agency.
- (c) Represents the average number of beds in service, weighted based on periods owned.
- (d) Represents the total number of patients admitted to our hospitals and is used by management and certain investors as a general measure of inpatient volume.
- (e) Equivalent admissions are used by management and certain investors as a general measure of combined inpatient and outpatient volume. Equivalent admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient revenue and gross outpatient revenue and then dividing the resulting amount by gross inpatient revenue. The equivalent admissions computation "equates" outpatient revenue to the volume measure (admissions) used to measure inpatient volume, resulting in a general measure of combined inpatient and outpatient volume.
- (f) Represents the average number of days admitted patients stay in our hospitals.
- (g) Represents the average number of admitted patients in our hospital beds each day.
- (h) Represents the percentage of hospital beds in service that are occupied by patients (admitted and observations). Both average daily census and occupancy rate provide measures of the utilization of inpatient rooms.
- (i) Represents the number of patients treated in our emergency rooms.
- (j) Represents the number of surgeries performed on patients who were not admitted to our hospitals. Pain management and endoscopy procedures are not included in outpatient surgeries.
- (k) Represents the number of surgeries performed on patients who have been admitted to our hospitals. Pain management and endoscopy procedures are not included in inpatient surgeries.
- (l) Revenues per day is calculated by dividing the revenues for the fourth quarter of each year by the days in the quarter. Days revenues in accounts receivable is then calculated as accounts receivable at the end of the period divided by revenues per day.
- (m) Represents the percentage of patient revenues related to patients who are not admitted to our hospitals.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Results of Operations (continued)

*Years Ended December 31, 2024 and 2023*

Net income attributable to HCA Healthcare, Inc. totaled \$5.760 billion, or \$22.00 per diluted share, for 2024, compared to \$5.242 billion, or \$18.97 per diluted share, for 2023. The 2024 results include gains on sales of facilities of \$14 million, or \$0.04 per diluted share. The 2024 results also include additional expenses and losses of revenues estimated at approximately \$250 million, or \$0.73 per diluted share, related to Hurricanes Helene and Milton, which impacted our facilities in North Carolina and certain facilities in Florida. The 2023 results include losses on sales of facilities of \$5 million, or \$0.04 per diluted share. Our provisions for income taxes for 2024 and 2023 include tax benefits of \$102 million, or \$0.39 per diluted share, and \$93 million, or \$0.34 per diluted share, respectively, related to employee equity award settlements. All "per diluted share" disclosures are based upon amounts net of the applicable income taxes. Shares used for diluted earnings per share were 261.806 million shares and 276.412 million shares for the years ended December 31, 2024 and 2023, respectively. During 2024 and 2023, we repurchased 17.798 million and 14.465 million shares, respectively, of our common stock.

During 2024, consolidated admissions increased 5.0% and same facility admissions increased 4.9% compared to 2023. Consolidated and same facility inpatient surgeries each increased 2.2% during 2024 compared to 2023. Emergency room visits increased 4.8% on a consolidated basis and increased 4.9% on a same facility basis during 2024 compared to 2023.

Revenues increased 8.7% to \$70.603 billion for 2024 from \$64.968 billion for 2023. The increase in revenues was due primarily to the combined impact of a 5.3% increase in equivalent admissions and a 3.2% increase in revenue per equivalent admission compared to 2023. Same facility revenues increased 7.9% due primarily to the combined impact of a 4.5% increase in equivalent admissions and a 3.2% increase in revenue per equivalent admission compared to 2023. Our revenues from Medicaid state directed and supplemental payment programs totaled approximately \$4.9 billion and \$3.9 billion in 2024 and 2023, respectively.

Salaries and benefits, as a percentage of revenues, were 44.1% in 2024 and 45.4% in 2023. Salaries and benefits per equivalent admission increased 0.4% in 2024 compared to 2023. Same facility salaries and benefits per full time equivalent increased 1.8% for 2024 compared to 2023. We continue to utilize certain contract, overtime and other premium rate labor costs to support our clinical staff and patients. While these costs have declined compared to the prior year period, future costs may be affected by labor market conditions and other factors. Share-based compensation expense was \$360 million in 2024 and \$262 million in 2023.

Supplies, as a percentage of revenues, were 15.2% in both 2024 and 2023. Supply costs per equivalent admission increased 3.1% in 2024 compared to 2023. Supply costs per equivalent admission increased 5.6% for medical devices and 3.2% for general medical and surgical items, but declined 2.4% for pharmacy supplies in 2024 compared to 2023.

Other operating expenses, as a percentage of revenues, were 21.0% in 2024 and 19.8% in 2023. Other operating expenses are primarily comprised of contract services, professional fees, repairs and maintenance, rents and leases, utilities, insurance (including professional liability insurance) and nonincome taxes. The 1.2% increase in other operating expenses, as a percentage of revenues for 2024 compared to 2023, was primarily related to increased costs for state provider fees in certain states, professional fees and repairs and maintenance, primarily related to remediation activities in certain hospitals in the state of Florida in response to Hurricane Milton. We have seen inflation have a negative impact on certain of these expenses and expect inflationary pressures will continue to impact operating expenses in 2025. Provisions for losses related to professional liability risks were \$627 million and \$619 million for 2024 and 2023, respectively. We recorded an increase of \$40 million, or \$0.11 per diluted share, during 2023 to our provision for professional liability risks related to the receipt of updated actuarial information.

Equity in earnings of affiliates was \$23 million for 2024 and \$22 million for 2023.

Depreciation and amortization, as a percentage of revenues, were 4.7% in both 2024 and 2023. Depreciation expense was \$3.294 billion for 2024 and \$3.052 billion for 2023. The increase of \$242 million in depreciation expense relates primarily to capital expenditures at our existing facilities.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Results of Operations (continued)

*Years Ended December 31, 2024 and 2023 (continued)*

Interest expense increased to \$2.061 billion for 2024 from \$1.938 billion for 2023. The \$123 million increase in interest expense was primarily due to an increase in the average debt balance. The average effective interest rate for our long-term debt was 5.0% for both 2024 and 2023. Our average debt balance was \$41.388 billion for 2024 compared to \$38.790 billion for 2023.

Gains on sales of facilities were \$14 million for 2024 and losses on sales of facilities were \$5 million for 2023.

The effective income tax rate was 24.5% for 2024 and 23.6% for 2023. The effective tax rate computations exclude net income attributable to noncontrolling interests as it relates to consolidated partnerships.

Net income attributable to noncontrolling interests increased from \$849 million for 2023 to \$897 million for 2024. The increase in net income attributable to noncontrolling interests related primarily to the operations of one of our Texas markets and our surgery center partnerships.

For results of operations comparisons relating to years ending December 31, 2023 and 2022, refer to our annual report on Form 10-K, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations for the year ended December 31, 2023, filed with the Securities and Exchange Commission ("SEC") on February 16, 2024.

#### Liquidity and Capital Resources

Our primary cash requirements are paying our operating expenses, servicing our debt, capital expenditures on our existing properties, acquisitions of hospitals and health care entities, repurchases of our common stock, dividends to stockholders and distributions to noncontrolling interests. Our primary cash sources are from operating activities, issuances of debt securities and sales of hospitals and health care entities.

Cash provided by operating activities totaled \$10.514 billion in 2024 compared to \$9.431 billion in 2023 and \$8.522 billion in 2022. The \$1.083 billion increase in cash provided by operating activities for 2024, compared to 2023, was related primarily to an increase in net income of \$542 million, excluding losses and gains on sales of facilities, and a positive change in working capital items of \$351 million, mainly from a decline in inventories and other assets. The decrease in inventories during 2024 was the result of a targeted effort by our supply chain management to manage and reduce the inventory levels carried in our facilities. The \$909 million increase in cash provided by operating activities for 2023, compared to 2022, was related primarily to a positive change in working capital items of \$695 million, mainly from an increase in accounts payable and accrued expenses, and an increase in net income of \$275 million, excluding losses and gains on sales of facilities and losses on retirement of debt. Cash payments for interest and income taxes increased \$504 million for 2024 compared to 2023. Working capital totaled \$1.237 billion at December 31, 2024 and \$2.272 billion at December 31, 2023. The decline in working capital is primarily due to the \$2.274 billion increase in long-term debt due within one year, offset by an increase of \$998 million in cash and cash equivalents and an increase of \$793 million in accounts receivable.

Cash used in investing activities was \$4.933 billion, \$5.317 billion and \$3.389 billion in 2024, 2023 and 2022, respectively. Excluding acquisitions, capital expenditures were \$4.875 billion in 2024, \$4.744 billion in 2023 and \$4.395 billion in 2022. Planned capital expenditures are expected to approximate between \$5.0 billion and \$5.2 billion in 2025. At December 31, 2024, there were projects under construction which had an estimated additional cost to complete and equip over the next five years of approximately \$4.7 billion. We expect to fund capital expenditures with internally generated and borrowed funds. We expended \$266 million, \$635 million and \$224 million for acquisitions of hospitals and health care entities during 2024, 2023 and 2022, respectively. Cash flows from sales of hospitals and health care entities increased to \$328 million of net proceeds for 2024 from \$193 million of net proceeds for 2023, and was \$1.237 billion in 2022 primarily related to proceeds from our sales of other health care entities.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Liquidity and Capital Resources (continued)

Cash used in financing activities totaled \$4.582 billion in 2024, \$4.094 billion in 2023 and \$5.656 billion in 2022. During 2024, we had a net increase of \$3.205 billion in our indebtedness, paid dividends of \$690 million and paid \$6.042 billion for repurchases of common stock. During 2023, we had a net increase of \$1.295 billion in our indebtedness, paid dividends of \$661 million and paid \$3.811 billion for repurchases of common stock. During 2022, we had a net increase of \$3.287 billion in our indebtedness, paid dividends of \$653 million and paid \$7.000 billion for repurchases of common stock. During 2024, 2023 and 2022, we made distributions to noncontrolling interests of \$711 million, \$640 million and \$1.025 billion, respectively. The increase in distributions in 2022 was related to the sale of a controlling interest in a subsidiary of our group purchasing organization.

We, or our affiliates, may in the future repurchase portions of our debt or equity securities, subject to certain limitations, from time to time in either the open market or through privately negotiated transactions, in accordance with applicable SEC and other legal requirements. The timing, prices, and sizes of purchases depend upon prevailing trading prices, general economic and market conditions, and other factors, including applicable securities laws.

During January 2023, January 2024 and January 2025, our Board of Directors authorized \$3 billion, \$6 billion and \$10 billion, respectively, for share repurchases of the Company's outstanding common stock. The January 2023 authorization was completed during 2024, and at December 31, 2024, there was \$764 million of share repurchase authorization that remained available under the January 2024 authorization. Funds for the repurchase of debt or equity securities have, and are expected to, come primarily from cash generated from operations and borrowed funds.

During 2024, our Board of Directors declared four quarterly dividends of \$0.66 per share, or \$2.64 per share in the aggregate, on our common stock. On January 23, 2025, our Board of Directors declared a quarterly dividend of \$0.72 per share on our common stock payable on March 31, 2025 to stockholders of record at the close of business on March 17, 2025. The timing and amount of future cash dividends will vary based on a number of factors, including future capital requirements for strategic transactions, share repurchases and investing in our existing markets, the availability of financing on acceptable terms, debt service requirements, changes to applicable tax laws or corporate laws, changes to our business model and periodic determinations by our Board of Directors that cash dividends are in the best interest of stockholders and are in compliance with all applicable laws and agreements of the Company.

In addition to cash flows from operations, available sources of capital include amounts available under our senior secured credit facilities (\$7.986 billion as of both December 31, 2024 and January 31, 2025) and anticipated access to public and private debt and equity markets.

Investments of our insurance subsidiaries, held to maintain statutory equity levels and to provide liquidity to pay claims, totaled \$657 million and \$564 million at December 31, 2024 and 2023, respectively. The insurance subsidiary maintained net reserves for professional liability risks of \$127 million and \$121 million at December 31, 2024 and 2023, respectively. Our facilities are insured by our insurance subsidiary for losses up to \$80 million per occurrence (\$110 million effective January 1, 2025); however, this coverage is subject, in most cases, to a \$15 million per occurrence self-insured retention. Net reserves for the self-insured professional liability risks retained were \$1.924 billion and \$1.926 billion at December 31, 2024 and 2023, respectively. Claims payments, net of reinsurance recoveries, during the next 12 months are expected to approximate \$543 million. We estimate that approximately \$507 million of the expected net claim payments during the next 12 months will relate to claims subject to the self-insured retention.

#### *Financing Activities*

We have significant debt service requirements. Our debt totaled \$43.031 billion and \$39.593 billion at December 31, 2024 and 2023, respectively. Our interest expense was \$2.061 billion for 2024 and \$1.938 billion for 2023.

During 2024, we issued \$4.500 billion aggregate principal amount of senior notes comprised of (i) \$1.000 billion aggregate principal amount of 5.450% senior notes due 2031 (the "Existing 2031 Notes"), (ii) \$1.300 billion aggregate principal amount of 5.600% senior notes due 2034, (iii) \$1.500 billion aggregate principal amount of 6.000% senior notes due 2054 and (iv) \$700 million aggregate principal amount of 6.100% senior notes due 2064. We used the net proceeds to repay borrowings under our asset-based revolving credit facility and for general corporate purposes. During 2024, we repaid all of the \$2.000 billion aggregate principal amount of 5.000% senior notes due 2024 at maturity.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Liquidity and Capital Resources (continued)

##### *Financing Activities (continued)*

During 2024, we also issued \$3.000 billion aggregate principal amount of senior notes comprised of (i) \$750 million aggregate principal amount of 5.450% senior notes due 2031 (the "New 2031 Notes"), (ii) \$1.250 billion aggregate principal amount of 5.450% senior notes due 2034 and (iii) \$1.000 billion aggregate principal amount of 5.950% senior notes due 2054. The New 2031 Notes represent a further issuance of our Existing 2031 Notes, issued during February 2024, and together with the New 2031 Notes, the aggregate principal amount of these notes is \$1.750 billion. We used the net proceeds to repay borrowings under our asset-based revolving credit facility and for general corporate purposes.

Management believes that cash flows from operations, amounts available under our senior secured credit facilities and our anticipated access to public and private debt markets will be sufficient to meet expected liquidity needs for the foreseeable future.

HCA Inc., a direct wholly-owned subsidiary of HCA Healthcare, Inc., is the primary obligor under a substantial portion of our indebtedness, including our senior secured credit facilities and senior notes. The senior secured credit facilities are fully and unconditionally guaranteed on a senior secured basis by substantially all existing and future, direct and indirect, 100% owned material domestic subsidiaries that are "Unrestricted Subsidiaries" under our Indenture dated December 16, 1993 (except for certain special purpose subsidiaries that only guarantee and pledge their assets under our senior secured asset-based revolving credit facility). During 2022, the conditions in the senior secured indentures to permit the permanent release of the subsidiary guarantees and all collateral securing the senior secured notes were met. The subsidiary guarantees and collateral securing our senior secured credit facilities were not affected. Following this release of the subsidiary guarantees and collateral securing the senior secured notes, summarized financial information for HCA Healthcare, Inc., HCA Inc. and the subsidiary guarantors, and information about the subsidiary guarantees and affiliates whose securities were pledged as collateral are no longer required to be presented.

All of the senior notes issued by HCA Inc. in 2014 or later are fully and unconditionally guaranteed on an unsecured basis by HCA Healthcare, Inc. The combined assets, liabilities, and results of operations of HCA Healthcare, Inc. and HCA Inc. are not materially different than the corresponding amounts presented in the consolidated financial statements of HCA Healthcare, Inc. As a result, summarized financial information of HCA Healthcare, Inc. and HCA Inc. is not required to be presented under Rule 13-01 of Regulation S-X.

#### Market Risk

We are exposed to market risk related to changes in market values of securities. Our insurance subsidiaries held \$657 million of investment securities at December 31, 2024. These investments are carried at fair value, with changes in unrealized gains and losses that are not credit-related being recorded as adjustments to other comprehensive income. At December 31, 2024, we had net unrealized losses of \$27 million on the insurance subsidiaries' investment securities.

We are exposed to market risk related to market illiquidity. Investments in debt and equity securities of our insurance subsidiaries could be impaired by the inability to access the capital markets. Should the insurance subsidiaries require significant amounts of cash in excess of normal cash requirements to pay claims and other expenses on short notice, we may have difficulty selling these investments in a timely manner or be forced to sell them at a price less than what we might otherwise have been able to in a normal market environment. We may be required to recognize credit-related impairments on our investment securities in future periods should issuers default on interest payments or should the fair market valuations of the securities deteriorate due to ratings downgrades or other issue-specific factors.

We are also exposed to market risk related to changes in interest rates. Debt of \$1.238 billion at December 31, 2024 was subject to variable rates of interest, while the remaining debt balance of \$41.793 billion at December 31, 2024 was subject to fixed rates of interest. Both the general level of interest rates and, for the senior secured credit facilities, our leverage affect our variable interest rates. Our variable debt is comprised primarily of amounts outstanding under the senior secured credit facilities. The average effective interest rate for our long-term debt was 5.0% for both 2024 and 2023.

## HCA HEALTHCARE, INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

#### Market Risk (continued)

The estimated fair value of our total long-term debt was \$40.845 billion at December 31, 2024. The estimates of fair value are based upon the quoted market prices for the same or similar issues of long-term debt with the same maturities. Based on a hypothetical 1% increase in interest rates, the potential annualized reduction to future pretax earnings would be approximately \$12 million. To mitigate the impact of fluctuations in interest rates, we generally target a majority of our debt portfolio to be maintained at fixed rates.

We are exposed to currency translation risk related to our foreign operations. We currently do not consider the market risk related to foreign currency translation to be material to our consolidated financial statements or our liquidity.

#### Tax Examinations

During 2024, the Internal Revenue Service ("IRS") completed its examination of our 2016, 2017 and 2018 income tax returns, resolving all federal income tax matters for those years, and the 2020 federal statute of limitations expired. At December 31, 2024, the IRS was examining the Company's 2022 and 2023 income tax returns and the 2019 income tax returns of certain affiliates. We are subject to examination by the IRS for tax years after 2020, as well as by state and foreign taxing authorities. Management believes HCA Healthcare, Inc., its predecessors, subsidiaries and affiliates properly reported taxable income and paid taxes in accordance with applicable laws and agreements established with the IRS, state and foreign taxing authorities, and final resolution of any disputes will not have a material, adverse effect on our results of operations or financial position. However, if payments due upon final resolution of any issues exceed our recorded estimates, such resolutions could have a material, adverse effect on our results of operations or financial position.

#### **Item 7A.**            *Quantitative and Qualitative Disclosures about Market Risk*

Information with respect to this Item is provided under the caption "Market Risk" under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

**Item 8.      *Financial Statements and Supplementary Data***

Information with respect to this Item is contained in our consolidated financial statements indicated in the Index to Consolidated Financial Statements on Page F-1 of this annual report on Form 10-K.

**Item 9.      *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure***

None.

**Item 9A.      *Controls and Procedures***

**1. Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures**

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this annual report.

**2. Internal Control Over Financial Reporting**

**(a) Management’s Report on Internal Control Over Financial Reporting**

Our management is responsible for establishing and maintaining effective internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective, can provide only reasonable assurance with respect to financial statement preparation and presentation.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an assessment of the effectiveness of our internal control over financial reporting based on the framework in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework). Based on our assessment under the framework in Internal Control — Integrated Framework, our management concluded that our internal control over financial reporting was effective as of December 31, 2024.

Ernst & Young LLP, the independent registered public accounting firm that audited our consolidated financial statements included in this Form 10-K, has issued a report on our internal control over financial reporting, which is included herein.

(b) Attestation Report of the Independent Registered Public Accounting Firm

**Report of Independent Registered Public Accounting Firm**

To the Stockholders and the Board of Directors  
of HCA Healthcare, Inc.

**Opinion on Internal Control Over Financial Reporting**

We have audited HCA Healthcare, Inc.'s internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, HCA Healthcare, Inc. (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2024, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of HCA Healthcare, Inc. as of December 31, 2024 and 2023, and the related consolidated statements of income, comprehensive income, stockholders' equity (deficit), and cash flows for each of the three years in the period ended December 31, 2024, and the related notes and our report dated February 13, 2025 expressed an unqualified opinion thereon.

**Basis for Opinion**

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

**Definition and Limitations of Internal Control Over Financial Reporting**

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Nashville, Tennessee  
February 13, 2025

(c) Changes in Internal Control Over Financial Reporting

During the fourth quarter of 2024, there were no changes in our internal control over financial reporting that materially affected or are reasonably likely to materially affect our internal control over financial reporting.

**Item 9B.            *Other Information***

(b) During the three months ended December 31, 2024, no director or officer (as defined in Rule 16a-1(f) of the Exchange Act) of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K.

**Item 9C.            *Disclosure Regarding Foreign Jurisdictions that Prevent Inspections***

None.

## **PART III**

### **Item 10. *Directors, Executive Officers and Corporate Governance***

The information required by this Item regarding the identity and business experience of our directors and executive officers is set forth under the heading “Nominees for Election” and “Election of Directors” in the definitive proxy materials of HCA to be filed in connection with our 2025 Annual Meeting of Stockholders with respect to our directors and is set forth in Item 1 of Part I of this annual report on Form 10-K with respect to our executive officers. The information required by this Item contained in such definitive proxy materials is incorporated herein by reference.

Information on the beneficial ownership reporting for our directors and executive officers required by this Item is contained under the caption “Delinquent Section 16(a) Reports” in the definitive proxy materials to be filed in connection with our 2025 Annual Meeting of Stockholders and is incorporated herein by reference.

Information on our Audit and Compliance Committee and Audit Committee Financial Experts required by this Item is contained under the caption “Corporate Governance” in the definitive proxy materials to be filed in connection with our 2025 Annual Meeting of Stockholders and is incorporated herein by reference.

We have a Code of Conduct which is applicable to all our directors, officers and employees (the “Code of Conduct”). The Code of Conduct is available on the Ethics and Compliance and Governance Documents pages of our website at [www.hcahealthcare.com](http://www.hcahealthcare.com). To the extent required pursuant to applicable SEC regulations, we intend to post amendments to or waivers from our Code of Conduct (to the extent applicable to our chief executive officer, principal financial officer or principal accounting officer) at this location on our website or report the same on a Current Report on Form 8-K. Our Code of Conduct is available free of charge upon request to our Investor Relations Department, HCA Healthcare, Inc., One Park Plaza, Nashville, TN 37203.

We have adopted a securities trading policy (the “Securities Trading Policy”) that governs the purchase, sale and/or other dispositions of our securities by all directors, officers and employees of the Company or any of our affiliates and subsidiaries, and by the Company itself. We believe that the Securities Trading Policy and related practices in respect of Company transactions are reasonably designed to promote compliance with insider trading laws, rules and regulations and listing standards applicable to the Company. A copy of our Securities Trading Policy is filed with this Annual Report on Form 10-K as Exhibit 19.

### **Item 11. *Executive Compensation***

The information required by this Item is set forth under the headings “Executive Compensation” and “Compensation Committee Interlocks and Insider Participation” in the definitive proxy materials to be filed in connection with our 2025 Annual Meeting of Stockholders, which information is incorporated herein by reference, except as to information required pursuant to Item 402(v) of SEC Regulation S-K, relating to pay versus performance.

### **Item 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters***

Information about security ownership of certain beneficial owners required by this Item is set forth under the heading “Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters” in the definitive proxy materials to be filed in connection with our 2025 Annual Meeting of Stockholders, which information is incorporated herein by reference.

This table provides certain information as of December 31, 2024 with respect to our equity compensation plans:

**EQUITY COMPENSATION PLAN INFORMATION**  
(Share and share unit amounts in millions)

Plan Category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column(a))
Equity compensation plans approved by security holders	7,118 (1)	\$170.31 (1)	16,934 (2)
Equity compensation plans not approved by security holders	—	—	—
<b>Total</b>	<b>7,118</b>	<b>\$170.31</b>	<b>16,934</b>

(1) Includes 1.356 million restricted share units which vest solely based upon continued employment over a specific period of time and 1.175 million performance share units which vest based upon continued employment over a specific period of time and the achievement of predetermined financial targets over time. The performance share units reported reflect the number of performance share units that would vest upon achievement of target performance; the number of performance share units that vest can vary from zero (for actual performance less than 90% of target) to two times the units granted (for actual performance of 110% or more of target). The weighted average exercise price does not take these restricted share units and performance share units into account.

(2) Includes 7.316 million shares available for future grants under the 2020 Stock Incentive Plan for Key Employees of HCA Healthcare, Inc. and its Affiliates and 9.618 million shares of common stock reserved for future issuance under the HCA Healthcare, Inc. 2023 Employee Stock Purchase Plan.

\* For additional information concerning our equity compensation plans, see the discussion in Note 2 — Share-Based Compensation in the notes to the consolidated financial statements.

## **Report of Independent Registered Public Accounting Firm**

To the Stockholders and the Board of Directors  
of HCA Healthcare, Inc.

### **Opinion on the Financial Statements**

We have audited the accompanying consolidated balance sheets of HCA Healthcare, Inc. (the Company) as of December 31, 2024 and 2023, the related consolidated statements of income, comprehensive income, stockholders' equity (deficit) and cash flows for each of the three years in the period ended December 31, 2024, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2024 and 2023, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2024, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated February 13, 2025 expressed an unqualified opinion thereon.

### **Basis for Opinion**

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

### **Critical Audit Matters**

The critical audit matters communicated below are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

### ***Revenue Recognition – Contractual Adjustments and Implicit Price Concessions***

*Description of the Matter* For the year ended December 31, 2024, the Company’s revenues were \$70.603 billion. As discussed in Note 1 to the consolidated financial statements, revenues are based upon the estimated amounts the Company expects to be entitled to receive from patients and third-party payers. Estimates of contractual adjustments under managed care and commercial insurance plans and government payor programs are based upon the payment terms specified in the related contractual agreements or provided by government payor programs. Management continually reviews the contractual adjustments estimation process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals. Revenues related to uninsured patients and uninsured copayment and deductible amounts for patients who have healthcare coverage may have discounts applied (uninsured and other discounts). The Company also records estimated implicit price concessions (based primarily on historical collection experience) related to uninsured accounts to record these revenues and accounts receivable at the estimated amounts the Company expects to collect. The primary collection risks relate to uninsured patient accounts, including amounts owed from patients after insurance has paid the amounts covered by the applicable agreement or program. Implicit price concessions relate primarily to amounts due directly from patients and are based upon management’s assessment of historical write-offs and expected net collections, business and economic conditions, trends in federal, state and private employer health care coverage and other collection indicators.

Auditing management’s estimates of contractual adjustments and implicit price concessions was complex and judgmental due to the significant data inputs and subjective assumptions utilized in determining related amounts.

*How We Addressed the Matter in Our Audit* We tested internal controls that address the risks of material misstatement related to the measurement and valuation of revenues, including estimation of contractual adjustments and implicit price concessions. For example, we tested management’s internal controls over the key data inputs to the contractual adjustments and implicit price concession models, significant assumptions underlying management’s models, and management’s internal controls over retrospective reviews of historical reserve accuracy.

To test the estimated contractual adjustments and implicit price concessions, we performed audit procedures that included, among others, assessing the methodologies and evaluating the significant assumptions discussed above and testing the completeness and accuracy of the underlying data used by the Company in its estimates. We compared the significant assumptions used by management to historical assumptions and to current industry and economic trends and considered changes, if any, to the Company’s business and other relevant factors. We also assessed the historical accuracy of management’s estimates as a source of potential corroborative or contrary evidence.

### ***Professional Liability and Related Provision***

*Description of the Matter* At December 31, 2024, the Company’s reserves for professional liability risks were \$2.131 billion and the Company’s related provision for losses for the year ended December 31, 2024 was \$627 million. As discussed in Note 1 to the consolidated financial statements, reserves for professional liability risks represent the estimated ultimate net cost of all reported and unreported losses incurred and unpaid through the consolidated balance sheet date. Management estimates professional liability reserves and provisions for losses using individual case-basis valuations and actuarial analyses. Trends in the average frequency (number of claims) and ultimate average severity (cost per claim) of claims are significant assumptions in estimating the reserves.

Auditing management’s professional liability claims reserves was complex and judgmental due to the significant estimations required in determining the reserves, particularly the actuarial analyses and assumptions related to the effects of trends in average severity and average frequency of claims.

*How We Addressed the  
Matter in Our Audit*

We tested management's internal controls that address the risks of material misstatement over the Company's professional liability claims reserves estimation process. For example, we tested internal controls over management's review of the actuarial analyses, the significant assumptions, and the completeness and accuracy of claims data used in the reserve estimation process.

To test the Company's determination of the estimated professional liability expense and reserves, we performed audit procedures that included, among others, testing the completeness and accuracy of underlying claims data used by the Company and its actuaries in its determination of reserves and reviewing the Company's insurance contracts to validate self-insured limits, deductibles and coverage limits. Additionally, with the involvement of our actuarial specialists, we performed audit procedures that included, among others, assessing the actuarial analyses performed by management and its actuaries, testing the significant assumptions including consideration of Company-specific claim reporting and payment data, assessing the accuracy of management's historical reserve estimates, and developing an independent range of reserves for comparison to the Company's recorded amounts.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 1994.

Nashville, Tennessee

## HCA HEALTHCARE, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### NOTE 1 — ACCOUNTING POLICIES

##### *Reporting Entity*

HCA Healthcare, Inc. is a holding company whose affiliates own and operate hospitals and related health care entities. The term “affiliates” includes direct and indirect subsidiaries of HCA Healthcare, Inc. and partnerships and joint ventures in which such subsidiaries are partners. At December 31, 2024 these affiliates owned and operated 190 hospitals, 124 freestanding surgery centers, 26 freestanding endoscopy centers and provided extensive outpatient and ancillary services. HCA Healthcare, Inc.’s facilities are located in 20 states and England. The terms “Company,” “HCA,” “we,” “our” or “us,” as used herein and unless otherwise stated or indicated by context, refer to HCA Healthcare, Inc. and its affiliates. The terms “facilities” or “hospitals” refer to entities owned and operated by affiliates of HCA and the term “employees” refers to employees of affiliates of HCA.

##### *Basis of Presentation*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

The consolidated financial statements include all subsidiaries and entities controlled by HCA. We generally define “control” as ownership of a majority of the voting interest of an entity. The consolidated financial statements include entities in which we absorb a majority of the entity’s expected losses, receive a majority of the entity’s expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity. The accounts of acquired entities are included in our consolidated financial statements for periods subsequent to our acquisition of controlling interests. Significant intercompany transactions have been eliminated. Investments in entities we do not control, but in which we have a substantial ownership interest and can exercise significant influence, are accounted for using the equity method.

The majority of our expenses are “costs of revenues” items. Costs that could be classified as general and administrative include our corporate office costs, which were \$421 million, \$353 million and \$307 million for the years ended December 31, 2024, 2023 and 2022, respectively.

##### *Revenues*

Our revenues generally relate to contracts with patients in which our performance obligations are to provide health care services to the patients. Revenues are recorded during the period our obligations to provide health care services are satisfied. Our performance obligations for inpatient services are generally satisfied over periods that average approximately five days, and revenues are recognized based on charges incurred in relation to total expected charges. Our performance obligations for outpatient services are generally satisfied over a period of less than one day. The contractual relationships with patients, in most cases, also involve a third-party payer (Medicare, Medicaid, managed care health plans and commercial insurance companies, including plans offered through the health insurance exchanges), and the transaction prices for the services provided are dependent upon the terms provided by (Medicare and Medicaid) or negotiated with (managed care health plans and commercial insurance companies) the third-party payers. The payment arrangements with third-party payers for the services we provide to the related patients typically specify payments at amounts less than our standard charges. Medicare generally pays for inpatient and outpatient services at prospectively determined rates based on clinical, diagnostic and other factors. Services provided to patients having Medicaid coverage are generally paid at prospectively determined rates per discharge, per identified service or per covered member. Agreements with commercial insurance carriers, managed care and preferred provider organizations generally provide for payments based upon predetermined rates per diagnosis, per diem rates or discounted fee-for-service rates. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

# HCA HEALTHCARE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

### NOTE 1 — ACCOUNTING POLICIES (continued)

#### *Revenues (continued)*

Our revenues are based upon the estimated amounts we expect to be entitled to receive from patients and third-party payers. Estimates of contractual adjustments under managed care and commercial insurance plans are based upon the payment terms specified in the related contractual agreements. Revenues related to uninsured patients and uninsured copayment and deductible amounts for patients who have health care coverage may have discounts applied (uninsured and other discounts). We also record estimated implicit price concessions (based primarily on historical collection experience) related to uninsured accounts to record these revenues at the estimated amounts we expect to collect. Our revenues by primary third-party payer classification and other (including uninsured patients) for the years ended December 31, are summarized in the following table (dollars in millions):

	Years Ended December 31,					
	2024	Ratio	2023	Ratio	2022	Ratio
Medicare	\$ 10,780	15.3 %	\$ 10,585	16.3 %	\$ 10,447	17.3 %
Managed Medicare	11,987	17.0	10,496	16.2	9,201	15.3
Medicaid	4,678	6.6	3,606	5.6	2,636	4.4
Managed Medicaid	3,980	5.6	3,879	6.0	3,998	6.6
Managed care and other insurers	34,954	49.5	31,819	49.0	29,120	48.3
International (managed care and other insurers)	1,682	2.4	1,509	2.3	1,317	2.2
Other	2,542	3.6	3,074	4.6	3,514	5.9
Revenues	<u>\$ 70,603</u>	<u>100.0 %</u>	<u>\$ 64,968</u>	<u>100.0 %</u>	<u>\$ 60,233</u>	<u>100.0 %</u>

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Estimated reimbursement amounts are adjusted in subsequent periods as cost reports are prepared and filed and as final settlements are determined (in relation to certain government programs, primarily Medicare, this is generally referred to as the “cost report” filing and settlement process). The adjustments to estimated Medicare and Medicaid reimbursement and disproportionate-share amounts, related primarily to cost reports filed during the respective year, resulted in net increases to revenues of \$42 million, \$84 million and \$56 million in 2024, 2023 and 2022, respectively. The adjustments to estimated reimbursement amounts related primarily to cost reports filed during previous years resulted in net increases to revenues of \$78 million in 2024, \$58 million in 2023 and \$42 million in 2022.

The Emergency Medical Treatment and Labor Act (“EMTALA”) requires any hospital participating in the Medicare program to conduct an appropriate medical screening examination of every person who presents to the hospital’s emergency room for treatment and, if the individual is suffering from an emergency medical condition, to either stabilize the condition or make an appropriate transfer of the individual to a facility able to handle the condition. The obligation to screen and stabilize emergency medical conditions exists regardless of an individual’s ability to pay for treatment. Federal and state laws and regulations require, and our commitment to providing quality patient care encourages, us to provide services to patients who are financially unable to pay for the health care services they receive.

Patients treated at hospitals for non-elective care, who have income at or below 400% of the federal poverty level, are eligible for charity care, and we limit the patient responsibility amounts for these patients to a percentage of their annual household income, computed on a sliding scale based upon their annual income and the applicable percentage of the federal poverty level. Patients treated at hospitals for non-elective care, who have income above 400% of the federal poverty level, are eligible for certain other discounts which limit the patient responsibility amounts for these patients to a percentage of their annual household income, computed on a sliding scale based upon their annual income and the applicable percentage of the federal poverty level. We apply additional discounts to limit patient responsibility for certain emergency services. The federal poverty level is established by the federal government and is based on income and family size. Because we do not pursue collection of amounts determined to qualify as charity care, they are not reported in revenues. We provide discounts to uninsured patients who do not qualify for Medicaid or charity care. We may provide assistance to uninsured patients to help determine whether they may qualify for Medicaid, other federal or state assistance, or charity care. If an uninsured patient does not qualify for these programs, the uninsured discount is applied.

# HCA HEALTHCARE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

### NOTE 1 — ACCOUNTING POLICIES (continued)

#### *Revenues (continued)*

The collection of outstanding receivables from Medicare, Medicaid, managed care payers, other third-party payers and patients is our primary source of cash and is critical to our operating performance. The primary collection risks relate to uninsured patient accounts, including patient accounts for which the primary insurance carrier has paid the amounts covered by the applicable agreement, but patient responsibility amounts (deductibles and copayments) remain outstanding. Implicit price concessions relate primarily to amounts due directly from patients. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the age of those accounts. Accounts are written off when all reasonable collection efforts have been performed.

The estimates for implicit price concessions are based upon management's assessment of historical writeoffs and expected net collections, business and economic conditions, trends in federal, state and private employer health care coverage and other collection indicators. Management relies on the results of detailed reviews of historical writeoffs and collections at facilities that represent a majority of our revenues and accounts receivable (the "hindsight analysis") as a primary source of information in estimating the collectability of our accounts receivable. We perform the hindsight analysis quarterly, utilizing rolling twelve-months accounts receivable collection and writeoff data. We believe our quarterly updates to the estimated implicit price concession amounts at each of our hospital facilities provide reasonable estimates of our revenues and valuations of our accounts receivable. These routine, quarterly changes in estimates have not resulted in material adjustments to the valuations of our accounts receivable or period-to-period comparisons of our revenues. At December 31, 2024 and 2023, estimated implicit price concessions of \$7.773 billion and \$7.283 billion, respectively, had been recorded to adjust our revenues and accounts receivable to the estimated amounts we expect to collect.

To quantify the total impact of the trends related to uninsured patient accounts, we believe it is beneficial to view total uncompensated care, which is comprised of charity care, uninsured discounts and implicit price concessions. A summary of the estimated cost of total uncompensated care for the years ended December 31, follows (dollars in millions):

	2024	2023	2022
Patient care costs (salaries and benefits, supplies, other operating expenses and depreciation and amortization)	\$ 60,056	\$ 55,341	\$ 51,180
Cost-to-charges ratio (patient care costs as percentage of gross patient charges)	10.1 %	10.5 %	11.0 %
Total uncompensated care	\$ 43,231	\$ 35,426	\$ 31,734
Multiply by the cost-to-charges ratio	10.1 %	10.5 %	11.0 %
Estimated cost of total uncompensated care	\$ 4,366	\$ 3,720	\$ 3,491

The total uncompensated care amounts include charity care of \$15.942 billion, \$14.425 billion and \$13.615 billion for the years ended December 31, 2024, 2023 and 2022, respectively. The estimated cost of charity care was \$1.610 billion, \$1.515 billion and \$1.498 billion for the years ended December 31, 2024, 2023 and 2022, respectively.

#### *Recent Pronouncements*

In December 2023, the FASB issued Accounting Standards Update 2023-09, *Improvements to Income Tax Disclosures* ("ASU 2023-09"), which requires enhanced annual disclosures for specific categories in the rate reconciliation and income taxes paid disaggregated by federal, state and foreign taxes. ASU 2023-09 is effective for public business entities for annual periods beginning on or after December 15, 2024. We plan to adopt ASU 2023-09 effective January 1, 2025 applying a retrospective approach to all prior periods presented in the financial statements. We do not believe the adoption of this new standard will have a material effect on our disclosures.

## HCA HEALTHCARE, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### NOTE 1 — ACCOUNTING POLICIES (continued)

##### *Cash and Cash Equivalents*

Cash and cash equivalents include highly liquid investments with a maturity of three months or less when purchased. Our insurance subsidiaries' cash equivalent investments in excess of the amounts required to pay estimated professional liability claims during the next twelve months are not included in cash and cash equivalents as these funds are not available for general corporate purposes. Carrying values of cash and cash equivalents approximate fair value due to the short-term nature of these instruments.

##### *Accounts Receivable*

We receive payments for services rendered from federal and state agencies (under the Medicare and Medicaid programs), managed care health plans, commercial insurance companies, employers and patients. We recognize that revenues and receivables from government agencies are significant to our operations, but do not believe there are significant credit risks associated with these government agencies. We do not believe there are any other significant concentrations of revenues from any particular payer that would subject us to any significant credit risks in the collection of our accounts receivable. Days revenues in accounts receivable were 54 days, 53 days and 53 days at December 31, 2024, 2023 and 2022, respectively. Changes in general economic conditions, revenue cycle service center operations, payer mix, payer claim processing, or federal or state governmental health care coverage could affect our collection of accounts receivable, cash flows and results of operations.

##### *Inventories*

Inventories are stated at the lower of cost (first-in, first-out) or market.

##### *Property and Equipment*

Depreciation expense, computed using the straight-line method, was \$3.294 billion in 2024, \$3.052 billion in 2023 and \$2.941 billion in 2022. Buildings and improvements are depreciated over estimated useful lives ranging generally from 10 to 40 years. Estimated useful lives of equipment vary generally from four to 10 years.

When events, circumstances or operating results indicate the carrying values of certain property and equipment expected to be held and used might be impaired, we prepare projections of the undiscounted future cash flows expected to result from the use of the assets and their eventual disposition. If the projections indicate the recorded amounts are not expected to be recoverable, such amounts are reduced to estimated fair value. Fair value may be estimated based upon internal evaluations that include quantitative analyses of revenues and cash flows, reviews of recent sales of similar assets and independent appraisals.

Property and equipment to be disposed of are reported at the lower of their carrying amounts or fair value less costs to sell or close. The estimates of fair value are usually based upon recent sales of similar assets and market responses based upon discussions with and offers received from potential buyers.

## HCA HEALTHCARE, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### NOTE 1 — ACCOUNTING POLICIES (continued)

##### *Investments of Insurance Subsidiaries*

At December 31, 2024 and 2023, the investment securities held by our insurance subsidiaries were classified as “available-for-sale” as defined in Accounting Standards Codification (“ASC”) No. 320, *Investments — Debt Securities* and are recorded at fair value. The investment securities are held for the purpose of providing a funding source to pay liability claims covered by the insurance subsidiaries. We perform quarterly assessments of individual investment securities to determine whether declines in fair value are due to credit-related or noncredit-related factors. Our investment securities evaluation process involves subjective judgments, often involves estimating the outcome of future events, and requires a significant level of professional judgment in determining whether a credit-related impairment has occurred. We evaluate, among other things, the financial position and near-term prospects of the issuer, conditions in the issuer’s industry, liquidity of the investment, changes in the amount or timing of expected future cash flows from the investment, and recent downgrades of the issuer by a rating agency, to determine if, and when, a decline in the fair value of an investment below amortized cost is considered to be a credit-related impairment. The extent to which the fair value of the investment is less than amortized cost and our ability and intent to retain the investment, to allow for any anticipated recovery of the investment’s fair value, are important components of our investment securities evaluation process.

##### *Goodwill and Intangible Assets*

Goodwill is not amortized but is subject to annual impairment tests. In addition to the annual impairment review, impairment reviews are performed whenever circumstances indicate a possible impairment may exist. Impairment testing for goodwill is done at the reporting unit level. Reporting units are one level below the business segment level, and our impairment testing is performed at the operating division level. We compare the fair value of the reporting unit assets to the carrying amount, on at least an annual basis, to determine if there is potential impairment. If the fair value of the reporting unit assets is less than their carrying value, an impairment loss is recognized. Fair value is estimated based upon internal evaluations of each reporting unit that include quantitative analyses of market multiples, revenues and cash flows and reviews of recent sales of similar facilities. No goodwill impairments were recognized during 2024, 2023 or 2022.

During 2024, goodwill increased by \$170 million related to acquisitions and declined by \$6 million related to foreign currency translation and other adjustments. During 2023, goodwill increased by \$362 million related to acquisitions and declined by \$50 million related to foreign currency translation and other adjustments.

During 2024 and 2023, identifiable intangible assets declined by \$16 million and \$20 million, respectively, due to amortization and other adjustments. Identifiable intangible assets with finite lives are amortized over estimated lives ranging generally from three to 10 years. The gross carrying amount of amortizable identifiable intangible assets at both December 31, 2024 and 2023 was \$274 million and accumulated amortization was \$244 million and \$228 million, respectively. The gross carrying amount of indefinite-lived identifiable intangible assets at both December 31, 2024 and 2023 was \$293 million. Indefinite-lived identifiable intangible assets are not amortized but are subject to annual impairment tests, and impairment reviews are performed whenever circumstances indicate a possible impairment may exist.

##### *Debt Issuance Costs and Discounts*

Debt issuance costs and discounts are amortized based upon the terms of the respective debt obligations. The gross carrying amounts of debt issuance costs and discounts at December 31, 2024 and 2023 were \$608 million and \$559 million, respectively, and accumulated amortization was \$239 million and \$226 million, respectively. Amortization of debt issuance costs and discounts is included in interest expense and was \$35 million, \$35 million and \$29 million for 2024, 2023 and 2022, respectively.

## HCA HEALTHCARE, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### NOTE 1 — ACCOUNTING POLICIES (continued)

##### *Professional Liability Claims*

Reserves for professional liability risks were \$2.131 billion and \$2.089 billion at December 31, 2024 and 2023, respectively. The current portion of the reserves, \$587 million and \$532 million at December 31, 2024 and 2023, respectively, is included in “other accrued expenses” in the consolidated balance sheets. Provisions for losses related to professional liability risks were \$627 million, \$619 million and \$517 million for 2024, 2023 and 2022, respectively, and are included in “other operating expenses” in our consolidated income statements. Provisions for losses related to professional liability risks are based upon actuarially determined estimates. We recorded an increase to the provision for professional liability risks of \$40 million during 2023 and a reduction to the provision for professional liability risks of \$55 million for 2022, due to the receipt of updated actuarial information. Loss and loss expense reserves represent the estimated ultimate net cost of all reported and unreported losses incurred and unpaid through the respective consolidated balance sheet dates. The reserves for unpaid losses and loss expenses are estimated using individual case-basis valuations and actuarial analyses. Those estimates are subject to the effects of trends in loss severity and frequency. The estimates are continually reviewed and adjustments are recorded as experience develops or new information becomes known. Adjustments to the estimated reserve amounts are included in current operating results. The reserves for professional liability risks cover approximately 2,100 individual claims at both December 31, 2024 and 2023 and estimates for unreported potential claims. The time period required to resolve these claims can vary depending upon the jurisdiction and whether the claim is settled or litigated. During 2024 and 2023, \$600 million and \$550 million, respectively, of net payments were made for professional and general liability claims. The estimation of the timing of payments beyond a year can vary significantly. Although considerable variability is inherent in professional liability reserve estimates, we believe the reserves for losses and loss expenses are adequate; however, there can be no assurance the ultimate liability will not exceed our estimates.

A portion of our professional liability risks is insured through our insurance subsidiary. Subject, in most cases, to a \$15 million per occurrence self-insured retention, our facilities are insured by our insurance subsidiary for losses up to \$80 million per occurrence (\$110 million effective January 1, 2025). The insurance subsidiary has obtained reinsurance for professional liability risks generally above a retention level of either \$25 million or \$35 million per occurrence, depending on the jurisdiction for the related claim. We also maintain professional liability insurance with unrelated commercial carriers for losses in excess of amounts insured by our insurance subsidiary.

The obligations covered by reinsurance and excess insurance contracts are included in the reserves for professional liability risks, as we remain liable to the extent the reinsurers and excess insurance carriers do not meet their obligations under the reinsurance and excess insurance contracts. The amounts receivable under the reinsurance contracts were \$35 million and \$34 million at December 31, 2024 and 2023, respectively, recorded in “other assets,” and \$45 million and \$8 million at December 31, 2024 and 2023, respectively, recorded in “other current assets.”

##### *Financial Instruments*

Derivative financial instruments have been employed to manage risks, including interest rate exposures, and have not been used for trading or speculative purposes. Changes in the fair value of derivatives are recognized periodically either in earnings or in stockholders’ equity, as a component of other comprehensive income, depending on whether the derivative financial instrument qualifies for hedge accounting, and if so, whether it qualifies as a fair value hedge or a cash flow hedge. Gains and losses on derivatives designated as cash flow hedges, to the extent they are effective, are recorded in other comprehensive income, and subsequently reclassified to earnings to offset the impact of the hedged items when they occur. The net interest paid or received on interest rate swaps is recognized as interest expense.

##### *Noncontrolling Interests in Consolidated Entities*

The consolidated financial statements include all assets, liabilities, revenues and expenses of less than 100% owned entities that we control. Accordingly, we have recorded noncontrolling interests in the earnings and equity of such entities.

## HCA HEALTHCARE, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### NOTE 2 — SHARE-BASED COMPENSATION

##### *Stock Incentive Plans*

Our stock incentive plans are designed to promote the long-term financial interests and growth of the Company by attracting and retaining management and other personnel, motivating them to achieve long range goals and aligning their interests with those of our stockholders. Stock appreciation right (“SAR”) and restricted share unit (“RSU”) grants vest solely based upon continued employment over a specific period of time, and performance share unit (“PSU”) grants vest based upon both continued employment over a specific period of time and the achievement of predetermined financial targets over a specific period of time. At December 31, 2024 there were 7.316 million shares available for future grants.

##### *Employee Stock Purchase Plan*

Our employee stock purchase plan (“ESPP”) provides our participating employees an opportunity to obtain shares of our common stock at a discount (through payroll deductions over three-month periods). At December 31, 2024, 9.618 million shares of common stock were reserved for ESPP issuances. During 2024, 2023 and 2022, the Company recognized \$18 million, \$17 million and \$16 million, respectively, of compensation expense related to the ESPP.

##### *SAR, RSU and PSU Activity*

The fair value of each SAR award is estimated on the grant date, using valuation models and the weighted average assumptions indicated in the following table. Awards under our stock incentive plans generally vest based on continued employment (“Time SARs” and “RSUs”) or based upon continued employment and the achievement of certain financial targets (“Performance SARs” and “PSUs”). PSUs have a three-year cumulative earnings per share target, and the number of PSUs earned can vary from zero (for actual performance of less than 90% of target) to two times the original PSU grant (for actual performance of 110% or more of target). Each grant is valued as a single award with an expected term equal to the average expected term of the component vesting tranches. The expected term of the share-based award is limited by the contractual term. We use historical exercise behavior data and other factors to estimate the expected term of the SARs.

Compensation cost is recognized on the straight-line attribution method. The straight-line attribution method requires that total compensation expense recognized must at least equal the vested portion of the grant-date fair value. The expected volatility is derived using historical stock price information for our common stock and the volatility implied by the trading of options to purchase our stock on open-market exchanges. The risk-free interest rate is the approximate yield on United States Treasury Strips having a life equal to the expected share-based award life on the date of grant. The expected life is an estimate of the number of years a share-based award will be held before it is exercised. The expected dividend yield is estimated based on the assumption that the dividend yield at date of grant will be maintained over the expected life of the grant.

	2024	2023	2022
Risk-free interest rate	3.94 %	3.69 %	1.64 %
Expected volatility	33 %	36 %	34 %
Expected life, in years	5.23	5.14	5.11
Expected dividend yield	0.87 %	0.95 %	0.95 %

Exercised	(1,156)	(83)	(1,239)	95.29		
Cancelled	(59)	—	(59)	202.05		
SARs outstanding, December 31, 2023	5,325	44	5,369	146.46		
Granted	491	—	491	305.44		
Exercised	(1,128)	(44)	(1,172)	111.02		
Cancelled	(101)	—	(101)	246.78		
SARs outstanding, December 31, 2024	4,587	—	4,587	\$ 170.31	5.3 years	\$ 598
SARs exercisable, December 31, 2024	3,322	—	3,322	\$ 136.86	4.3 years	\$ 542

The weighted average fair values of SARs granted during 2024, 2023 and 2022 were \$102.65, \$87.47 and \$69.55 per share, respectively. The intrinsic values of SARs exercised during 2024, 2023 and 2022 were \$257 million, \$207 million and \$115 million, respectively. As of December 31, 2024, the unrecognized compensation cost related to nonvested SARs was \$47 million.

Information regarding RSU and PSU activity during 2024, 2023 and 2022 is summarized below (share amounts in thousands):

	RSUs	PSUs	Total RSUs and PSUs	Weighted Average Grant Date Fair Value
RSUs and PSUs outstanding, December 31, 2021	2,191	2,083	4,274	\$ 150.32

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

### NOTE 2 — SHARE-BASED COMPENSATION (continued)

#### *SAR, RSU and PSU Activity (continued)*

The fair values of RSUs and PSUs that vested during 2024, 2023 and 2022 were \$539 million, \$550 million and \$550 million, respectively. As of December 31, 2024, the unrecognized compensation cost related to RSUs and PSUs was \$383 million.

### NOTE 3 — ACQUISITIONS AND DISPOSITIONS

During 2024, we paid \$112 million to acquire three hospital facilities in Texas and \$154 million to acquire nonhospital health care entities. During 2023, we paid \$229 million to acquire four hospital facilities in Texas and \$406 million to acquire nonhospital health care entities. During 2022, we paid \$224 million to acquire nonhospital health care entities (noncontrolling interests of \$72 million were recorded). Purchase price amounts have been allocated to the related assets acquired and liabilities assumed based upon their respective fair values. The purchase price paid in excess of the fair value of identifiable net assets of these acquired entities aggregated \$170 million, \$362 million and \$262 million in 2024, 2023 and 2022, respectively. The consolidated financial statements include the accounts and operations of the acquired entities subsequent to the respective acquisition dates. The pro forma effects of these acquired entities on our results of operations for periods prior to the respective acquisition dates were not significant.

During 2024, we received proceeds of \$295 million and recognized a pretax gain of \$189 million (\$145 million net of tax) related to the sale of a hospital facility in California. We also received proceeds of \$33 million and recognized a pretax loss of \$5 million (\$4 million after tax) related to sales of real estate and other health care entity investments. In addition, we recognized a pretax loss of \$170 million (\$130 million after tax) related to a hospital facility in California that we have executed a definitive agreement to sell in 2025. During 2023, we received proceeds of \$162 million for the sale of two hospital facilities in Louisiana. We also received proceeds of \$31 million related to sales of real estate and other health care entity investments. We recognized a pretax loss of \$5 million for these transactions. During 2022, we received proceeds of \$326 million and recognized a pretax gain of \$274 million (\$200 million after tax) related to sales of real estate and other health care entity investments. We also received proceeds of \$911 million and recognized a pretax gain of \$1.027 billion (\$527 million after tax and amounts attributable to noncontrolling interests) in 2022 related to the sale of a controlling interest in a subsidiary of our group purchasing organization.

### NOTE 4 — INCOME TAXES

The provision for income taxes consists of the following (dollars in millions):

	2024	2023	2022
Current:			
Federal	\$ 1,202	\$ 1,118	\$ 1,222
State	212	213	206
Foreign	20	3	18
Deferred:			
Federal	394	241	261
State	31	21	27
Foreign	7	19	12
	<u>\$ 1,866</u>	<u>\$ 1,615</u>	<u>\$ 1,746</u>

Our provision for income taxes for the years ended December 31, 2024, 2023 and 2022 included tax benefits of \$102 million, \$93 million and \$77 million, respectively, related to the settlement of employee equity awards. The provision for income taxes reflects a \$61 million reduction in interest (net of tax) and penalty expense and \$36 million and \$23 million of interest expense (net of tax) for the years ended December 31, 2024, 2023 and 2022, respectively. During 2024, we derecognized deferred tax assets and increased our tax provision by \$276 million due to an internal restructuring of certain affiliates. Our foreign pretax income was \$79 million, \$85 million and \$66 million for the years ended December 31, 2024, 2023 and 2022, respectively.

# HCA HEALTHCARE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

### NOTE 4 — INCOME TAXES (continued)

A reconciliation of the federal statutory rate to the effective income tax rate follows:

	2024	2023	2022
Federal statutory rate	21.0 %	21.0 %	21.0 %
State income taxes, net of federal tax benefit	2.7	2.6	2.3
Change in liability for uncertain tax positions	(2.3)	0.4	0.7
Tax benefit from settlements of employee equity awards	(1.2)	(1.2)	(0.9)
Internal restructuring of affiliates	3.5	—	—
Other items, net	0.8	0.8	0.5
Effective income tax rate on income attributable to HCA Healthcare, Inc.	24.5	23.6	23.6
Income attributable to noncontrolling interests from consolidated partnerships	(2.6)	(2.6)	(3.3)
Effective income tax rate on income before income taxes	21.9 %	21.0 %	20.3 %

A summary of the items comprising our deferred tax assets and liabilities at December 31 follows (dollars in millions):

	2024		2023	
	Assets	Liabilities	Assets	Liabilities
Depreciation and fixed asset basis differences	\$ —	\$ 1,139	\$ —	\$ 1,048
Allowances for professional liability and other risks	395	—	452	—
Accounts receivable	418	—	363	—
Compensation	285	—	308	—
Right-of-use lease assets and obligations	478	462	506	492
Other	297	932	592	860
	<u>\$ 1,873</u>	<u>\$ 2,533</u>	<u>\$ 2,221</u>	<u>\$ 2,400</u>

At December 31, 2024, state net operating loss carryforwards (expiring in years 2025 through 2042) available to offset future taxable income approximated \$167 million. Utilization of net operating loss carryforwards in any one year may be limited.

The following table summarizes the activity related to our gross unrecognized tax benefits, excluding accrued interest and penalties of \$115 million and \$177 million as of December 31, 2024 and 2023, respectively (dollars in millions):

	2024	2023
Balance at January 1	\$ 639	\$ 639
Additions based on tax positions related to the current year	40	30
Additions for tax positions of prior years	63	4
Reductions for tax positions of prior years	(206)	(10)
Settlements	(17)	—
Lapse of applicable statutes of limitations	(15)	(24)
Balance at December 31	<u>\$ 504</u>	<u>\$ 639</u>

Unrecognized tax benefits of \$295 million as of December 31, 2024 (\$320 million as of December 31, 2023) would affect the effective rate, if recognized.

During 2024, the Internal Revenue Service (“IRS”) completed its examination of our 2016, 2017 and 2018 income tax returns, resolving all federal income tax matters for those years, and the 2020 federal statute of limitations expired. We reduced our tax provision by \$254 million, including interest of \$118 million (net of tax). Of this amount, \$181 million, including \$47 million of interest (net of tax) related to the tax rate changes under the 2017 Tax Cuts and Jobs Act.

# HCA HEALTHCARE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

### NOTE 4 — INCOME TAXES (continued)

At December 31, 2024, the IRS was examining the Company's 2022 and 2023 income tax returns and the 2019 income tax returns of certain affiliates. We are subject to examination by the IRS for tax years after 2020, as well as by state and foreign taxing authorities. Depending on the resolution of any federal, state and foreign tax disputes, the completion of examinations by federal, state or foreign taxing authorities, or the expiration of statutes of limitation for specific taxing jurisdictions, we believe it is reasonably possible that our liability for unrecognized tax benefits may significantly increase or decrease within the next 12 months. However, we are currently unable to estimate the range of any possible change.

### NOTE 5 — EARNINGS PER SHARE

We compute basic earnings per share using the weighted average number of common shares outstanding. We compute diluted earnings per share using the weighted average number of common shares outstanding plus the dilutive effect of outstanding SARs, RSUs and PSUs, computed using the treasury stock method. During 2024, 2023 and 2022, we repurchased 17.798 million shares, 14.465 million shares and 30.747 million shares, respectively, of our common stock.

The following table sets forth the computations of basic and diluted earnings per share for the years ended December 31, 2024, 2023 and 2022 (dollars and shares in millions, except per share amounts):

	2024	2023	2022
Net income attributable to HCA Healthcare, Inc.	\$ 5,760	\$ 5,242	\$ 5,643
Weighted average common shares outstanding	258.603	272.404	290.348
Effect of dilutive incremental shares	3.203	4.008	4.318
Shares used for diluted earnings per share	261.806	276.412	294.666
Earnings per share:			
Basic earnings per share	\$ 22.27	\$ 19.25	\$ 19.43
Diluted earnings per share	\$ 22.00	\$ 18.97	\$ 19.15

### NOTE 6 — INVESTMENTS OF INSURANCE SUBSIDIARIES

A summary of the insurance subsidiaries' investments at December 31 follows (dollars in millions):

	2024			
	Unrealized			
	Amounts			
	Amortized			Fair
	Cost	Gains	Losses	Value
Debt securities	\$ 388	\$ —	\$ (27)	\$ 361
Money market funds and other	296	—	—	296
	\$ 684	\$ —	\$ (27)	657
Amounts classified as current assets				(88)
Investment carrying value				\$ 569

# HCA HEALTHCARE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

### NOTE 6 — INVESTMENTS OF INSURANCE SUBSIDIARIES (continued)

	Amortized Cost	2023 Unrealized Amounts		Fair Value
		Gains	Losses	
Debt securities	\$ 404	\$ 1	\$ (29)	\$ 376
Money market funds and other	188	—	—	188
	<u>\$ 592</u>	<u>\$ 1</u>	<u>\$ (29)</u>	<u>564</u>
Amounts classified as current assets				(87)
Investment carrying value				<u>\$ 477</u>

At December 31, 2024 and 2023, the investments in debt securities of our insurance subsidiaries were classified as “available-for-sale.” Changes in unrealized gains and losses that are not credit-related are recorded as adjustments to other comprehensive income (loss).

Scheduled maturities of investments in debt securities at December 31, 2024 were as follows (dollars in millions):

	Amortized Cost	Fair Value
Due in one year or less	\$ 31	\$ 31
Due after one year through five years	145	140
Due after five years through ten years	147	130
Due after ten years	65	60
	<u>\$ 388</u>	<u>\$ 361</u>

The average expected maturity of the investments in debt securities at December 31, 2024 was 4.4 years, compared to the average scheduled maturity of 8.1 years. Expected and scheduled maturities may differ because the issuers of certain securities have the right to call, prepay or otherwise redeem such obligations prior to their scheduled maturity date.

### NOTE 7 — ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (“ASC 820”) emphasizes fair value is a market-based measurement, and fair value measurements should be determined based on the assumptions market participants would use in pricing assets or liabilities. ASC 820 utilizes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs classified within Levels 1 and 2 of the hierarchy) and the reporting entity’s own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity’s own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment.

The investments of our insurance subsidiaries are generally classified within Level 1 or Level 2 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

HCA HEALTHCARE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 7 — ASSETS AND LIABILITIES MEASURED AT FAIR VALUE (continued)

The following tables summarize the investments of our insurance subsidiaries measured at fair value on a recurring basis as of December 31, 2024 and 2023, aggregated by the level in the fair value hierarchy within which those measurements fall (dollars in millions):

2024				
	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt securities	\$ 361	\$ —	\$ 361	\$ —
Money market funds and other	296	296	—	—
Investments of insurance subsidiaries	657	296	361	—
Less amounts classified as current assets	(88 )	(88 )	—	—
	<u>\$ 569</u>	<u>\$ 208</u>	<u>\$ 361</u>	<u>\$ —</u>

2023				
	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt securities	\$ 376	\$ —	\$ 376	\$ —
Money market funds and other	188	188	—	—
Investments of insurance subsidiaries	564	188	376	—
Less amounts classified as current assets	(87 )	(87 )	—	—
	<u>\$ 477</u>	<u>\$ 101</u>	<u>\$ 376</u>	<u>\$ —</u>

The estimated fair value of our long-term debt was \$40.845 billion and \$38.253 billion at December 31, 2024 and 2023, respectively, compared to carrying amounts, gross of debt issuance costs, premiums and discounts, aggregating \$43.400 billion and \$39.926 billion, respectively. The estimates of fair value are generally based on Level 2 inputs, including quoted market prices or quoted market prices for similar issues of long-term debt with the same maturities.

NOTE 8 — LONG-TERM DEBT

A summary of long-term debt at December 31, including related interest rates at December 31, 2024, follows (dollars in millions):

	2024	2023
Senior secured asset-based revolving credit facility	\$ —	\$ 1,880
Senior secured revolving credit facility	—	—
Senior secured term loan facilities (effective interest rate of 5.8%)	1,238	1,313
Other senior secured debt (effective interest rate of 4.6%)	1,046	967
Senior secured debt	2,284	4,160
Senior unsecured notes (effective interest rate of 5.1%)	41,116	35,766
Debt issuance costs and discounts	(369 )	(333 )
Total debt (average life of 10.9 years, rates averaging 5.1%)	43,031	39,593
Less amounts due within one year	4,698	2,424
	<u>\$ 38,333</u>	<u>\$ 37,169</u>

## HCA HEALTHCARE, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### NOTE 8 — LONG-TERM DEBT (continued)

During 2024, we issued \$4.500 billion aggregate principal amount of senior notes comprised of (i) \$1.000 billion aggregate principal amount of 5.450% senior notes due 2031 (the “Existing 2031 Notes”), (ii) \$1.300 billion aggregate principal amount of 5.600% senior notes due 2034, (iii) \$1.500 billion aggregate principal amount of 6.000% senior notes due 2054 and (iv) \$700 million aggregate principal amount of 6.100% senior notes due 2064. We used the net proceeds to repay borrowings under our asset-based revolving credit facility and for general corporate purposes. During 2024, we repaid all of the \$2.000 billion aggregate principal amount of 5.000% senior notes due 2024 at maturity.

During 2024, we also issued \$3.000 billion aggregate principal amount of senior notes comprised of (i) \$750 million aggregate principal amount of 5.450% senior notes due 2031 (the “New 2031 Notes”), (ii) \$1.250 billion aggregate principal amount of 5.450% senior notes due 2034 and (iii) \$1.000 billion aggregate principal amount of 5.950% senior notes due 2054. The New 2031 Notes represent a further issuance of our Existing 2031 Notes, issued during February 2024, and together with the New 2031 Notes, the aggregate principal amount of these notes is \$1.750 billion. We used the net proceeds to repay borrowings under our asset-based revolving credit facility and for general corporate purposes.

#### *Senior Secured Credit Facilities And Other Senior Secured Debt*

We have entered into the following senior secured credit facilities: (i) a \$4.500 billion asset-based revolving credit facility maturing on June 30, 2026 with a borrowing base of 85% of eligible accounts receivable, subject to customary reserves and eligibility criteria (none outstanding at December 31, 2024) (the “ABL credit facility”); (ii) a \$3.500 billion senior secured revolving credit facility maturing on June 30, 2026 (none outstanding at December 31, 2024 without giving effect to certain outstanding letters of credit); and (iii) a \$1.238 billion senior secured term loan facility maturing on June 30, 2026. We refer to the facilities described under (ii) and (iii) above, collectively, as the “cash flow credit facility” and, together with the ABL credit facility, the “senior secured credit facilities.” Finance leases and other secured debt totaled \$1.046 billion at December 31, 2024.

Borrowings under the senior secured credit facilities bear interest at a rate equal to, at our option, either (a) a base rate determined by reference to the higher of (1) the federal funds rate plus 0.50% or (2) the prime rate of Bank of America or (b) a reference rate (the Secured Overnight Financing Rate (SOFR)) for the relevant interest period, plus, in each case, an applicable margin. The applicable margin for borrowings under the senior secured credit facilities may be reduced subject to attaining certain leverage ratios.

The senior secured credit facilities contain a number of covenants that restrict, subject to certain exceptions, our (and some or all of our subsidiaries’) ability to incur additional indebtedness, repay subordinated indebtedness, create liens on assets, sell assets, make investments, loans or advances, engage in certain transactions with affiliates, pay dividends and distributions, and enter into sale and leaseback transactions. In addition, we are required to satisfy and maintain a maximum total leverage ratio covenant under the cash flow credit facility and, in certain situations under the ABL credit facility, a minimum interest coverage ratio covenant.

#### *Senior Unsecured Notes*

Senior unsecured notes consist of (i) \$40.541 billion aggregate principal amount of senior notes with maturities ranging from 2025 to 2064; (ii) an aggregate principal amount of \$125 million medium-term notes maturing 2025; and (iii) an aggregate principal amount of \$450 million debentures with maturities ranging from 2027 to 2095.

#### *General Debt Information*

The senior secured credit facilities are fully and unconditionally guaranteed by substantially all existing and future, direct and indirect, 100% owned material domestic subsidiaries that are “Unrestricted Subsidiaries” under our Indenture (the “1993 Indenture”) dated December 16, 1993 (except for certain special purpose subsidiaries that only guarantee and pledge their assets under our ABL credit facility).

All obligations under the ABL credit facility, and the guarantees of those obligations, are secured, subject to permitted liens and other exceptions, by a first-priority lien on substantially all of the receivables of the borrowers and each guarantor under such ABL credit facility (the “Receivables Collateral”).

# HCA HEALTHCARE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

### NOTE 8 — LONG-TERM DEBT (continued)

#### General Debt Information (continued)

All obligations under the cash flow credit facility and the guarantees of such obligations are secured, subject to permitted liens and other exceptions, by:

- a first-priority lien on the capital stock owned by HCA Inc., or by any guarantor, in each of their respective first-tier subsidiaries;
- a first-priority lien on substantially all present and future assets of HCA Inc. and of each guarantor other than (i) “Principal Properties” (as defined in the 1993 Indenture), (ii) certain other real properties and (iii) deposit accounts, other bank or securities accounts, cash, leaseholds, motor-vehicles and certain other exceptions; and
- a second-priority lien on certain of the Receivables Collateral.

Maturities of long-term debt in years 2026 through 2029 are \$5.386 billion, \$2.460 billion, \$2.606 billion and \$3.563 billion, respectively.

### NOTE 9 — LEASES

We lease property and equipment under finance and operating leases. For leases with terms greater than 12 months, we record the related assets and obligations at the present value of lease payments over the term. Many of our leases include rental escalation clauses and renewal options that are factored into our determination of lease payments, when appropriate. We do not separate lease and nonlease components of contracts. Generally, we use our estimated incremental borrowing rate to discount the lease payments, as most of our leases do not provide a readily determinable implicit interest rate.

The following table presents our lease-related assets and liabilities at December 31, 2024 and 2023 (dollars in millions):

	Balance Sheet Classification	2024	2023
<b>Assets:</b>			
Operating leases	Right-of-use operating lease assets	\$ 2,131	\$ 2,207
Finance leases	Property and equipment	646	556
Total lease assets		<u>\$ 2,777</u>	<u>\$ 2,763</u>
<b>Liabilities:</b>			
Current:			
Operating leases	Other accrued expenses	\$ 343	\$ 363
Finance leases	Long-term debt due within one year	162	166
Noncurrent:			
Operating leases	Right-of-use operating lease obligations	1,863	1,903
Finance leases	Long-term debt	624	541
Total lease liabilities		<u>\$ 2,992</u>	<u>\$ 2,973</u>
<b>Weighted-average remaining term:</b>			
Operating leases		11.3 years	11.8 years
Finance leases		10.5 years	9.0 years
<b>Weighted-average discount rate:</b>			
Operating leases		5.1 %	4.9 %
Finance leases		5.3 %	4.9 %

### NOTE 10 — CONTINGENCIES

We operate in a highly regulated and litigious industry. As a result, various lawsuits, claims and legal and regulatory proceedings have been and can be expected to be instituted or asserted against us. We are also subject to claims and suits arising in the ordinary course of business, including claims for personal injuries or wrongful restriction of, or interference with, physicians’ staff privileges. In certain of these actions the claimants may seek punitive damages against us, which may not be covered by insurance. We are also subject to claims by various taxing authorities for additional taxes and related interest and penalties. The resolution of any such lawsuits, claims or legal and regulatory proceedings could have a material, adverse effect on our results of operations, financial position or liquidity.

## HCA HEALTHCARE, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### NOTE 10 — CONTINGENCIES (continued)

##### *Government Investigations, Claims and Litigation*

Health care companies are subject to numerous investigations by various governmental agencies. Under the federal False Claims Act (“FCA”), private parties have the right to bring *qui tam*, or “whistleblower,” suits against companies that submit false claims for payments to, or improperly retain overpayments from, the government. Some states have adopted similar state whistleblower and false claims provisions. Certain of our individual facilities have received, and from time to time, other facilities may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Depending on whether the underlying conduct in these or future inquiries or investigations could be considered systemic, their resolution could have a material, adverse effect on our results of operations, financial position or liquidity.

We accrue for such contingencies to the extent that it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. If we are a party to any proceeding that, either individually or in the aggregate, is probable or reasonably possible of having a material, adverse effect on the business, our results of operations, financial position or liquidity, we disclose a summary of such contingencies and the amount or range of reasonably possible losses in excess of recorded amounts or that we are unable to reasonably estimate the amount or range of losses.

#### NOTE 11 — CAPITAL STOCK

The amended and restated certificate of incorporation authorizes the Company to issue up to 1,800,000,000 shares of common stock, and our amended and restated by-laws set the number of directors constituting the board of directors of the Company at not less than three members, the exact number to be determined from time to time by resolution adopted by the affirmative vote of a majority of the total number of directors then in office.

##### *Share Repurchase Transactions*

During January 2025, January 2024, January 2023, January 2022 and February 2021, our Board of Directors authorized share repurchase programs for up to \$10 billion, \$6 billion, \$3 billion, \$8 billion and \$6 billion, respectively, of the Company’s outstanding common stock.

During 2024, we repurchased 17.798 million shares of our common stock at an average price of \$337.74 per share through market purchases pursuant to the January 2023 authorization (which was completed during 2024) and the January 2024 authorization. At December 31, 2024, we had \$764 million of repurchase authorization available under the January 2024 authorization. During 2023, we repurchased 14.465 million shares of our common stock at an average price of \$263.47 per share through market purchases pursuant to the January 2022 authorization (which was completed during 2023) and the January 2023 authorization. During 2022, we repurchased 30.747 million shares of our common stock at an average price of \$227.67 per share through market purchases pursuant to the February 2021 authorizations (which were completed during 2022) and the January 2022 authorization.

#### NOTE 12 — EMPLOYEE BENEFIT PLANS

We maintain defined contribution benefit plans that are available to employees who meet certain minimum requirements. The plans require that we match participant contributions up to certain maximum levels (generally, 100% of the first 3% to 9%, depending upon years of vesting service, of compensation deferred by participants). Benefits expense under these plans totaled \$689 million for 2024, \$659 million for 2023 and \$606 million for 2022. Our matching contributions are funded during the year following the participant contributions.

We maintain the noncontributory, nonqualified Restoration Plan to provide retirement benefits for eligible employees. Eligibility for the Restoration Plan is based upon earning eligible compensation in excess of a base amount and attaining 1,000 or more hours of service during the plan year. Company credits to participants’ hypothetical account balances (the Restoration Plan is not funded) depend upon participants’ compensation, years of vesting service, hypothetical investment returns (gains or losses) and certain IRS limitations. The amount recognized under this plan was \$31 million expense for 2024, \$40 million expense for 2023 and a \$27 million credit for 2022. Accrued benefits liabilities under this plan totaled \$229 million at December 31, 2024 and \$227 million at December 31, 2023.

# HCA HEALTHCARE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

### NOTE 12 — EMPLOYEE BENEFIT PLANS (continued)

We maintain a Supplemental Executive Retirement Plan (“SERP”) for certain executives (the SERP is not funded). The plan is designed to ensure that upon retirement the participant receives the value of a prescribed life annuity from the combination of the SERP and our other benefit plans. Benefits expense under the plan was \$7 million for 2024, \$10 million for 2023 and \$22 million for 2022. Accrued benefits liabilities under this plan totaled \$109 million at December 31, 2024 and \$106 million at December 31, 2023.

We maintain defined benefit pension plans which resulted from certain hospital acquisitions in prior years. The amount recognized under these plans was a \$6 million credit for 2024, \$2 million expense for 2023, and an \$11 million credit for 2022. Net assets available for benefits in excess of the projected benefit obligation under these plans were \$118 million and \$43 million at December 31, 2024 and 2023, respectively.

### NOTE 13 — SEGMENT AND GEOGRAPHIC INFORMATION

Effective January 1, 2024, we adopted Accounting Standards Update 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*. We operate in one line of business, which is operating hospitals and related health care entities. We operate in three geographically organized groups: the National, Atlantic and American Groups. At December 31, 2024, the National Group included 55 hospitals located in Alaska, California, Idaho, Indiana, Kentucky, Nevada, New Hampshire, North Carolina, Tennessee, Utah and Virginia, the Atlantic Group included 62 hospitals located in Florida, Georgia, Northern Kansas, Missouri and South Carolina, and the American Group included 65 hospitals located in Colorado, Central Kansas, Louisiana and Texas. The eight hospitals we operate in England are included in the Corporate and other group.

Adjusted segment EBITDA is defined as income before depreciation and amortization, interest expense, losses and gains on sales of facilities, losses on retirement of debt, income taxes and net income attributable to noncontrolling interests. We use adjusted segment EBITDA as an analytical indicator for purposes of allocating resources to geographic areas and assessing their performance. Adjusted segment EBITDA is commonly used as an analytical indicator within the health care industry, and also serves as a measure of leverage capacity and debt service ability. Adjusted segment EBITDA should not be considered as a measure of financial performance under generally accepted accounting principles, and the items excluded from adjusted segment EBITDA are significant components in understanding and assessing financial performance. Because adjusted segment EBITDA is not a measurement determined in accordance with generally accepted accounting principles and is thus susceptible to varying calculations, adjusted segment EBITDA, as presented, may not be comparable to other similarly titled measures of other companies. The geographic distributions of our revenues, salaries and benefits, supplies, other operating expenses, equity in earnings or losses of affiliates, adjusted segment EBITDA, depreciation and amortization, assets and goodwill and other intangible assets that are provided to the Chief Operating Decision Maker, which is the Chief Executive Officer, are summarized in the following tables (dollars in millions) and represent the operating segments at December 31, 2024:

	For the Year Ended December 31, 2024		
	National Group	Atlantic Group	American Group
Revenues	\$ 19,614	\$ 23,171	\$ 24,601

### Schedule of Omitted Supplements to Security Agreement

The supplements to the security agreement referenced below are substantially identical in all material respects to the Supplement No. 1 dated as of October 27, 2011 to the Security Agreement dated as of September 30, 2011, as supplemented (the “Security Agreement”) and filed as Exhibit 4.9(b) to the Company’s annual report on Form 10-K for the fiscal year ended December 31, 2024 (the “Annual Report”), except as to the names of the additional subsidiary grantors listed on the signature pages thereto and the dates on which such supplements to the Security Agreement were entered into. These supplements to the Security Agreement are not being filed as exhibits to the Annual Report in reliance on Instruction 2 to Item 601 of Regulation S-K.

Supplements to the Security Agreement entered into among HCA Inc., Bank of America, N.A., as collateral agent, and the following subsidiaries as additional subsidiary grantors, as of the dates indicated:

**Form of HCA Healthcare, Inc.  
Stock Appreciation Rights Agreement**

This STOCK APPRECIATION RIGHTS AGREEMENT (the "Agreement"), dated as of \_\_\_\_\_ (the "Grant Date") is made by and between HCA Healthcare, Inc., a Delaware corporation (together with its Subsidiaries, Successors and other applicable Service Recipients, hereinafter referred to as the "Company"), and the individual whose name is set forth below, who is an employee of the Company and hereinafter referred to as the "Grantee".

WHEREAS, the Company wishes to carry out the 2020 Stock Incentive Plan for Key Employees of HCA Healthcare, Inc. and its Affiliates, as may be amended and restated from time to time (the "Plan"), the terms of which are hereby incorporated by reference and made a part of this Agreement; and

WHEREAS, the Committee has determined that it would be to the advantage and best interest of the Company and its shareholders to grant an award of Stock Appreciation Rights ("SARs") as provided for herein to the Grantee as an incentive for increased efforts during his or her term of office, employment or service with the Company, and has advised the Company thereof and instructed the undersigned officers to issue said SARs;

NOW, THEREFORE, in consideration of the mutual covenants herein contained and other good and valuable consideration, receipt of which is hereby acknowledged, the parties hereto do hereby agree as follows:

**STOCK APPRECIATION RIGHTS GRANT**

Grantee: **[Participant Name]**  
**[Participant Address]**

Aggregate number of SARs granted  
hereunder: **[SAR Award]**

Base Price of all SARs granted hereunder: **[Base Price]**

Grant Date: **[Grant Date]**

---

## ARTICLE I DEFINITIONS

Any capitalized terms herein not otherwise defined herein shall have the meaning set forth in the Plan.

## ARTICLE II GRANT OF SARs

### **Section 2.1. Grant of SARs**

For good and valuable consideration, on and as of the date hereof the Company grants to the Grantee an award of SARs (the "Award") on the terms and conditions set forth in this Agreement. Each SAR represents the right to receive pursuant to this Agreement, upon exercise of the SAR, a payment from the Company in shares of Common Stock having a value equal to the excess of the Fair Market Value of one Share on the exercise date over the Base Price (as defined below).

### **Section 2.2. Base Price**

Subject to Section 2.4, the base price of each SAR granted pursuant to this Agreement (the "Base Price") shall be as set forth on the first page of this Agreement and shall be equal to the Fair Market Value on the Grant Date.

### **Section 2.3. No Guarantee of Employment**

Nothing in this Agreement or in the Plan shall confer upon the Grantee any right to continue in the employ of the Company nor interfere with or restrict in any way the rights of the Company, which are hereby expressly reserved, to terminate the employment of the Grantee at any time for any reason whatsoever, with or without cause, subject to the applicable provisions of, if any, the Grantee's employment agreement with the Company or offer letter provided by the Company to the Grantee.

### **Section 2.4. Adjustments to SARs**

The SARs shall be subject to the adjustment provisions of Sections 8 and 9 of the Plan, provided, however, that in the event of the payment of an extraordinary dividend by the Company to its stockholders, then: first, the Base Price of each SAR shall be reduced by the amount of the dividend per share paid, but only to the extent the Committee determines it to be permitted under applicable tax laws and it will not have adverse tax consequences to the Grantee; and, if such reduction cannot be fully effected due to such tax laws, second, the Company shall pay to the Grantee a cash payment, on a per SAR basis, equal to the balance of the amount of the dividend not permitted to be applied to reduce the Base Price of the applicable SARs as follows: (a) for each

---

Share with respect to which a vested SAR relates, promptly following the date of such dividend payment; and (b), for each Share with respect to which an unvested SAR relates, on the date on which such SAR becomes vested and exercisable with respect to such Share.

### ARTICLE III PERIOD OF EXERCISABILITY

#### **Section 3.1. Commencement of Exercisability**

(a) So long as the Grantee continues to be employed by the Company, this Award shall become vested and exercisable with respect to 25% of the SARs on each of the first four anniversaries of the Grant Date (each such date, together with any date on which the SARs shall vest pursuant to Section 3.1(b)(1) or Section 3.1(b)(3), a "Vesting Date"). Except as provided in Section 3.1(b), or as otherwise provided by the Committee, no part of this Award shall become vested as to any additional SARs as of any date following the termination of Grantee's employment with the Company for any reason and any SAR, which is (or determined to be) unvested as of the Grantee's termination of employment, shall immediately expire without payment therefor.

(b) Notwithstanding the foregoing, any unvested SARs may become vested prior to the applicable Vesting Date, or continue to vest (and not be forfeited) following Grantee's termination of employment, under the following circumstances:

(1) Upon the occurrence of a Change in Control:

(A) In the event the entity surviving the Change in Control (the "Successor") assumes the Award granted hereby, if the Grantee's employment with the Successor is terminated without Cause by the Successor, or terminates for Good Reason by the Grantee or on account of Grantee's death, Permanent Disability, or Retirement prior to an applicable Vesting Date, all unvested SARs not previously forfeited shall immediately vest and become exercisable as of the date of such termination of employment for the applicable period set forth in Section 3.2;

(B) In the event the Successor does not assume the Award granted hereby, all SARs not previously forfeited shall vest (if not already vested) immediately prior to the effective date of the Change in Control, and shall be cancelled in exchange for the payment described in Section 9(b)(i) of the Plan as of the effective date of the Change in Control;

(2) Upon the Grantee's Retirement on or after the first anniversary of the Grant Date, except as otherwise provided by Section 3.1(b)(1), any unvested SARs shall immediately thereupon vest and shall not be forfeited, but shall become exercisable only at the time such SARs would have become exercisable in accordance with Section 3(a) or this Section 3(b) had the Grantee remained employed with the Company through each applicable Vesting Date or

---

Grantee's earlier death or Permanent Disability; for the avoidance of doubt, in the event of Grantee's Retirement prior to such one year anniversary of the Grant Date, unless otherwise provided in Section 3.1(b)(1)(A), no part of this Award shall become vested and all SARs subject to this Award shall immediately expire without payment therefor.

(3) In the event of the Grantee's termination of employment on account of Grantee's death or Permanent Disability on or after the first anniversary of the Grant Date, all unexercised SARs not previously forfeited shall vest and become exercisable immediately upon such termination; for the avoidance of doubt, in the event of Grantee's termination of employment due to death or Permanent Disability prior to such one year anniversary of the Grant Date, unless otherwise provided in Section 3.1(b)(1)(A), no part of this Award shall become vested and all SARs subject to this Award shall immediately expire without payment therefor.

### **Section 3.2. Expiration of SARs**

The Grantee may not exercise any SAR granted pursuant to this Award, and any unexercised SAR shall immediately expire without any payment therefor, after the first to occur of the following events:

(a) The tenth anniversary of the Grant Date so long as the Grantee remains employed with the Company through such date;

(b) The fourth anniversary of the date of the Grantee's termination of employment with the Company, if the Grantee's employment terminates by reason of death or Permanent Disability;

(c) Immediately upon the date of the Grantee's termination of employment by the Company for Cause;

(d) One hundred and eighty (180) days after the date of the Grantee's termination of employment by the Company without Cause (for any reason other than as set forth in Section 3.2(b));

(e) One hundred and eighty (180) days after the date of the Grantee's termination of employment with the Company by the Grantee for Good Reason;

(f) The fourth anniversary of the date of the Grantee's termination of employment with the Company by the Grantee upon Retirement; or

(g) Sixty (60) days after the date of the Grantee's termination of employment with the Company by the Grantee without Good Reason (except due to Retirement, death or Permanent Disability).

---

For the avoidance of doubt, for purposes of this Agreement, Grantee's employment shall not be deemed to have terminated so long as Grantee remains employed by, or otherwise continues to render substantial services to, any Service Recipient.

## ARTICLE IV EXERCISE

### **Section 4.1. Person Eligible to Exercise**

The Grantee may exercise only that portion of this Award that has both vested and become exercisable at the time Grantee desires to exercise this Award and that has not expired pursuant to Section 3.2. During the lifetime of the Grantee, only the Grantee (or his or her duly authorized legal representative) may exercise the SARs granted pursuant to this Award or any portion thereof. After the death of the Grantee, any vested and exercisable portion of this Award may, prior to the time when such portion becomes unexercisable under Section 3.2, be exercised by his personal representative or by any person empowered to do so under the Grantee's will or under the then applicable laws of descent and distribution.

### **Section 4.2. Partial Exercise**

Any vested and exercisable portion of this Award, or the entire Award, if then wholly vested and exercisable, may be exercised in whole or in part at any time prior to the time when the Award or portion thereof becomes unexercisable under Section 3.2.

### **Section 4.3. Manner of Exercise**

Subject to the Company's code of conduct and securities trading policies as in effect from time to time, this Award, or any exercisable portion thereof, may be exercised solely by delivering to the Company or its designated agent all of the following prior to the time when the Award or such portion expires under Section 3.2:

(a) Notice in writing (or such other medium acceptable to the Company or its designated agent) signed or acknowledged by the Grantee or other person then entitled to exercise the Award that states the number of SARs subject to the Award in respect of which the Award is thereby being exercised and complies with all applicable rules established by the Committee;

(b) (i) Full payment (in cash or by check or by a combination thereof) of the amount necessary to satisfy the applicable withholding tax obligation with respect to which the Award or portion thereof is exercised, or (ii) indication that the Grantee elects to satisfy the applicable withholding tax obligation through an arrangement that is compliant with the Sarbanes-Oxley Act of 2002 (and any other applicable laws and exchange rules) and that provides for the delivery of irrevocable instructions to a broker to sell Shares obtained upon the

---

exercise of all or a portion of the Award and to deliver promptly to the Company an amount to satisfy the withholding tax obligation that would otherwise be required to be paid by the Grantee to the Company pursuant to clause (i) of this subsection (b), or (iii) if made available by the Company, indication that the Grantee elects to have the number of Shares that would otherwise be issued to the Grantee upon exercise of such Award (or portion thereof) reduced by a number of Shares having an aggregate Fair Market Value, on the date of such exercise, equal to the payment to satisfy the applicable withholding tax obligation that would otherwise be required to be made by the Grantee to the Company pursuant to clause (i) of this subsection (b).

(c) If required by the Company, a bona fide written representation and agreement, in a form satisfactory to the Company, signed by the Grantee or other person then entitled to exercise such Award or portion thereof, stating that the shares of Common Stock are being acquired for his own account, for investment and without any present intention of distributing or reselling said shares or any of them except as may be permitted under the Securities Act of 1933, as amended (the "Act"), and then applicable rules and regulations thereunder, and that the Grantee or other person then entitled to exercise such Award or portion thereof will indemnify the Company against and hold it free and harmless from any loss, damage, expense or liability resulting to the Company if any sale or distribution of the shares by such person is contrary to the representation and agreement referred to above; provided, however, that the Company may, in its reasonable discretion, take whatever additional actions it deems reasonably necessary to ensure the observance and performance of such representation and agreement and to effect compliance with the Act and any other federal or state securities laws or regulations; and

(d) In the event the Award or portion thereof shall be exercised pursuant to Section 4.1 by any person or persons other than the Grantee, appropriate proof of the right of such person or persons to exercise the Award.

Without limiting the generality of the foregoing, the Company may require an opinion of counsel acceptable to it to the effect that any subsequent transfer of shares acquired on exercise of this Award (or portion thereof) does not violate the Act, and may issue stop-transfer orders covering such Shares. Share certificates evidencing stock issued on exercise of any portion of this Award shall bear an appropriate legend referring to the provisions of subsection (c) above and the agreements herein. The written representation and agreement referred to in subsection (c) above shall, however, not be required if the shares to be issued pursuant to such exercise have been registered under the Act, and such registration is then effective in respect of such shares.

#### **Section 4.4. Conditions to Issuance of Stock Certificates**

The Shares issuable (whether by certificate or otherwise) upon the exercise of this Award, or any portion thereof, may be either previously authorized but unissued Shares or issued Shares, which have then been reacquired by the

---

Company. Such Shares shall be fully paid and nonassessable. If share certificates are to be issued, the Company shall not be required to issue or deliver any certificate or certificates for Shares purchased upon the exercise of this Award or portion thereof prior to fulfillment of all of the following conditions:

(a) The obtaining of approval or other clearance from any state or federal governmental agency which the Committee shall, in its reasonable and good faith discretion, determine to be necessary or advisable; and

(b) The lapse of such reasonable period of time following the exercise of the Award as the Committee may from time to time establish for reasons of administrative convenience or as may otherwise be required by applicable law.

#### **Section 4.5. Rights as Stockholder**

Except as otherwise provided in Section 2.4 of this Agreement, the holder of any SARs subject to this Award shall not be, nor have any of the rights or privileges of, a stockholder of the Company in respect of any Shares issuable upon the exercise of this Award or any portion thereof unless and until certificates representing such Shares shall have been issued by the Company to such holder, or the Company or its designated agent has otherwise recorded the appropriate book entries evidencing Grantee's ownership of the Shares.

### **ARTICLE V MISCELLANEOUS**

#### **Section 5.1. Administration**

The Committee shall have the power to interpret the Plan, the Policy (as defined below) and this Agreement and to adopt such rules for the administration, interpretation and application thereof as are consistent therewith and to interpret or revoke any such rules. All actions taken and all interpretations and determinations made by the Committee with respect to the Plan, the Policy and this Agreement shall be final and binding upon the Grantee, the Company and all other interested persons. No member of the Committee shall be personally liable for any action, determination or interpretation made in good faith with respect to the Plan, the Policy or this Agreement. In its absolute discretion, the Board may at any time and from time to time exercise any and all rights and duties of the Committee under the Plan and this Agreement.

#### **Section 5.2. Award Not Transferable**

No part of, or interest in, this Award shall be liable for the debts, contracts or engagements of the Grantee or his successors in interest or shall be subject to disposition by transfer, alienation, anticipation, pledge, encumbrance, assignment or any other means whether such disposition be voluntary or

---

involuntary or by operation of law by judgment, levy, attachment, garnishment or any other legal or equitable proceedings (including bankruptcy), and any attempted disposition thereof shall be null and void and of no effect; provided, however, that this Section 5.2 shall not prevent transfers by will or by the applicable laws of descent and distribution.

### **Section 5.3. Notices**

Any notice to be given under the terms of this Agreement to the Company shall be addressed to the Company in care of its Secretary or its designee, and any notice to be given to the Grantee shall be addressed to him at the address (including an electronic address) reflected in the Company's books and records. By a notice given pursuant to this Section 5.3, either party may hereafter designate a different address for notices to be given to him. Any notice, which is required to be given to the Grantee, shall, if the Grantee is then deceased, be given to the Grantee's personal representative if such representative has previously informed the Company of his status and address by written notice under this Section 5.3. Any notice shall have been deemed duly given when (i) delivered in person, (ii) delivered in an electronic form approved by the Company, (iii) enclosed in a properly sealed envelope or wrapper addressed as aforesaid, deposited (with postage prepaid) in a post office or branch post office regularly maintained by the United States Postal Service, or (iv) enclosed in a properly sealed envelope or wrapper addressed as aforesaid, deposited (with fees prepaid) in an office regularly maintained by FedEx, UPS, or comparable non-public mail carrier.

### **Section 5.4. Titles; Pronouns**

Titles are provided herein for convenience only and are not to serve as a basis for interpretation or construction of this Agreement. The masculine pronoun shall include the feminine and neuter, and the singular the plural, where the context so indicates.

### **Section 5.5. Applicability of Plan; Compensation Recoupment Policy**

(a) Plan Governs. The Grantee hereby acknowledges receipt of a copy of the Plan and agrees to be bound by all the terms and provisions thereof. The terms of this Agreement are governed by the terms of the Plan, and in the case of any inconsistency between the terms of this Agreement and the terms of the Plan, the terms of the Plan shall govern.

(b) Compensation Recoupment Policy. The Grantee hereby acknowledges that (i) the HCA Healthcare, Inc. Compensation Recoupment Policy dated as of November 27, 2023 and as amended from time to time (the "Policy") constitutes a "clawback" or recoupment policy adopted by the Committee that is described in Section 6(j) of the Plan, (ii) this Award is subject to the terms and

---

conditions of the Policy and any other item described in Section 6(j) of the Plan, and (iii) all compensation received by the Grantee pursuant to this Award, including any proceeds, gains or other economic benefit actually or constructively received upon receipt or exercise of this Award or upon the receipt or resale of any Shares received upon exercise of this Award, shall be subject to reduction, cancellation, forfeiture and/or recoupment to the extent necessary to comply with the Policy or any other item described in Section 6(j) of the Plan, whether or not this Award constitutes Incentive-Based Compensation (as defined in the Policy).

#### **Section 5.6. Amendment**

Subject to the restrictions contained in Sections 6 and 10 of the Plan, the Committee may waive any conditions or rights under, amend any terms of, or alter, suspend, discontinue, cancel or terminate, the Award, prospectively or retroactively; provided that any such waiver, amendment, alteration, suspension, discontinuance, cancellation or termination that would adversely affect the rights of the Grantee or any holder or beneficiary of the Award in more than a *de minimis* way shall not to that extent be effective without the consent of the Grantee, holder or beneficiary affected.

#### **Section 5.7 Governing Law**

The validity, interpretation, construction and performance of this Agreement shall be governed by the laws of the State of Delaware without giving effect to the conflicts of law principles thereof, except to the extent that such laws are preempted by Federal law.

#### **Section 5.8 Arbitration**

Any dispute or disagreement which may arise under, or as a result of, or in any way related to, the interpretation, construction or application of this Agreement shall be determined by the Committee and shall be final, binding and conclusive on the Grantee and the Company for all purposes. In the event of any controversy among the parties hereto arising out of, or relating to, this Agreement which cannot be resolved in accordance with the foregoing, such controversy shall be finally, exclusively and conclusively settled by mandatory arbitration conducted expeditiously in accordance with the American Arbitration Association rules, by a single independent arbitrator. Such arbitration process shall take place within the Nashville, Tennessee metropolitan area. The decision of the arbitrator shall be final and binding upon all parties hereto and shall be rendered pursuant to a written decision, which contains a detailed recital of the arbitrator's reasoning. Judgment upon the award rendered may be entered in any court having jurisdiction thereof. Each party shall bear its own legal fees and expenses, unless otherwise determined by the arbitrator. If the Grantee substantially prevails on any of his or her substantive legal claims, then the Company shall reimburse all legal fees and arbitration fees incurred by the Grantee to arbitrate the dispute.

---

**Section 5.9    Successors in Interest**

This Agreement shall inure to the benefit of and be binding upon any successor to the Company. This Agreement shall inure to the benefit of the Grantee's legal representatives. All obligations imposed upon the Grantee and all rights granted to the Company under this Agreement shall be binding upon the Grantee's heirs, executors, administrators and successors.

**Section 5.10   Severability**

If any provision of this Agreement is, or becomes, or is deemed to be invalid, illegal, or unenforceable in any jurisdiction or as to any Person or the Award, or would disqualify the Plan or Award under any laws deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to the applicable laws, or if it cannot be construed or deemed amended without, in the determination of the Committee, materially altering the intent of the Plan or the Award, such provision shall be stricken as to such jurisdiction, Person or Award, and the remainder of the Plan and Award shall remain in full force and effect.

**Section 5.11   Integration**

This Agreement and the Plan constitute the entire agreement between the parties with respect to this Award and supersedes all prior agreements and discussions between the parties concerning such subject matter.

IN WITNESS WHEREOF, this Agreement has been executed and delivered by the parties hereto.

## Form of HCA Healthcare, Inc. Performance Share Unit Agreement

This PERFORMANCE SHARE UNIT AGREEMENT (this “Agreement”) is made and entered into as of the \_\_\_\_ day of \_\_\_\_\_, 20\_\_ (the “Grant Date”), between HCA Healthcare, Inc., a Delaware corporation (together with its Subsidiaries, Successors and other applicable Service Recipients, as applicable, the “Company”), and **[Participant Name]**, (the “Grantee”). Capitalized terms not otherwise defined herein shall have the meaning ascribed to such terms in the 2020 Stock Incentive Plan for Key Employees of HCA Healthcare, Inc. and its Affiliates, as may be amended and restated from time to time (the “Plan”).

WHEREAS, the Company has adopted the Plan, which permits the issuance of Performance-Based Awards, including Other Stock-Based Awards that provide the right to receive Shares upon the attainment of performance objectives (a “Performance Share Unit”); and

WHEREAS, the Committee has determined that Grantee is entitled to a Grant of Performance Share Units under the Plan on the terms and conditions set forth herein;

NOW, THEREFORE, the parties hereto agree as follows:

### **PERFORMANCE SHARE UNIT GRANT**

Grantee: **[Participant Name]**  
**[Participant Address]**

Target Number of Performance Share Units  
Granted Hereunder (“Target Award”): **[Award]**

Grant Date: **[Grant Date]**

#### 1. Grant of Performance Share Unit Award.

1.1. The Company hereby grants to the Grantee the award (“Award”) of Performance Share Units (“PSUs”) set forth above on the terms and conditions set forth in this Agreement and as otherwise provided in the Plan. A bookkeeping account will be maintained by the Company to keep track of the PSUs and any Dividend Equivalent Units that may accrue as provided in Section 3.

1.2. The Grantee’s rights with respect to the Award shall remain forfeitable at all times prior to the dates on which the PSUs shall vest in accordance with Section 2 hereof. This Award may not be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by the Grantee other than

by will or the laws of descent and distribution. Any sale, assignment, transfer, pledge, hypothecation, loan or other disposition other than in accordance with this Section 1.2 shall be null and void.

## 2. Vesting and Payment.

2.1. General. Except as provided in Section 2.2, Section 2.3 or Section 2.4, the Award shall vest as of the end of the period over which performance is measured as set forth on Exhibit A (such period, the “Performance Period”, and the last day of such period, the “Normal Vesting Date”), but only if and to the extent (a) the Company has achieved the performance targets over the Performance Period as determined by the Committee, and (b) the Grantee has remained in service with the Company continuously until the Normal Vesting Date. The number of PSUs that vest may be greater than or less than the Target Award, as more specifically set forth on Exhibit A.

## 2.2. Death; Disability; Retirement; Involuntary Termination Without Cause.

- (a) Notwithstanding Section 2.1, in the event of the Grantee’s death prior to the Normal Vesting Date, the Grantee shall be deemed vested in a number of PSUs equal to the Target Award, multiplied by a fraction, the numerator of which is the number of days during the Performance Period during which Grantee was employed by the Company, and the denominator of which is the total number of days in the Performance Period (such fraction, the “Proration Factor”) immediately prior to the Grantee’s death; provided, that this Section 2.2(a) shall not apply if the Grantee’s death occurs prior to the first anniversary of the Grant Date.
  - (b) Notwithstanding Section 2.1, in the event the Grantee’s employment with the Company terminates prior to the Normal Vesting Date on account of the Grantee’s Permanent Disability, the Grantee shall remain eligible to vest on the Normal Vesting Date in a number of PSUs equal to the product of (i) the number of PSUs that would otherwise vest if the Grantee remained employed with the Company until the Normal Vesting Date based on the attainment of the performance targets determined by the Committee in accordance with Exhibit A hereto, multiplied by (ii) the Proration Factor; provided, that this Section 2.2(b) shall not apply if Grantee’s employment terminates prior to the first anniversary of the Grant Date. Any PSUs to which this Section 2.2(b) becomes applicable shall settle at the time set forth in Section 2.5, or if earlier, upon the determination of the number of PSUs that shall be eligible to vest in connection with a Change in Control as described in Section 2.4.
  - (c) Notwithstanding Section 2.1, in the event Grantee’s employment terminates on account of Retirement or as a result of an involuntary termination without Cause by the Company, Grantee shall remain eligible to vest on the Normal Vesting Date in a number of PSUs equal to the product of (i) the number of PSUs that would otherwise vest if the Grantee
-

remained employed with the Company until the Normal Vesting Date based on the attainment of the performance targets determined by the Committee in accordance with Exhibit A hereto, multiplied by (ii) the Proration Factor; provided, that this Section 2.2(c) shall not apply if Grantee's employment terminates prior to the first anniversary of the Grant Date. Any PSUs to which this Section 2.2(c) becomes applicable shall settle at the time set forth in Section 2.5, or if earlier, upon the determination of the number of PSUs that shall be eligible to vest in connection with a Change in Control as described in Section 2.4.

- (d) In the event Grantee's employment has terminated as described in Section 2.2(b) or Section 2.2(c), and Grantee subsequently dies more than six months prior to the Normal Vesting Date, the provisions of Section 2.2(b) or Section 2.2(c) shall be applied as if the performance targets had been achieved at the 100% Target Award level, and the applicable number of PSUs (after applying the applicable proration) shall immediately thereupon vest and be settled.

2.3. Termination of Employment. Except as provided in Section 2.2, Section 2.4 or as otherwise provided by the Committee, if the Grantee's service with the Company terminates for any reason prior to the Normal Vesting Date, the Grantee shall forfeit all rights with respect to all PSUs subject to this Award that are not vested on such date of termination.

2.4. Change in Control. Upon the occurrence of a Change in Control,

- (a) Subject to Section 2.4(c), in the event the Successor assumes the Award granted hereby, (1) any in process Performance Periods shall end upon the date immediately preceding the Change in Control, (2) the number of PSUs that shall be eligible to vest shall be the Target Award, (3) such Target Award shall vest on the Normal Vesting Date, provided that the Grantee remains employed with the Successor through the Normal Vesting Date and (4) notwithstanding Section 2.3 and the previous clause, in the event the Grantee's employment with the Successor is terminated without Cause by the Successor, or terminates for Good Reason by the Grantee or on account of Grantee's death or Permanent Disability prior to the Normal Vesting Date, the Target Award shall vest on the date of such termination of employment and the applicable Shares shall be released to the Grantee (or Grantee's estate or other legal representative) on such date.
  - (b) In the event the Successor does not assume the Award granted hereby, a number of PSUs equal to the Target Award shall vest as of the effective date of the Change in Control and the appropriate number of Shares shall be released in accordance with Section 2.5 subject to Section 9(b) of the Plan.
-

- (c) In the event Grantee is Retirement eligible at the time of a Change in Control and the Successor assumes the Award granted hereby, a number of PSUs equal to the Target Award, multiplied by the Proration Factor applied as if the Grantee's employment terminated on account of Retirement on the effective date of the Change in Control, shall vest as of the effective date of the Change in Control and the appropriate number of Shares shall be released in accordance with Section 2.5. In addition, a number of PSUs equal to the difference between the Target Award and the number of PSUs settled on the effective date of the Change in Control shall remain unvested but shall become eligible to vest under terms and conditions similar to those set forth in Section 2.4(a)(3) and Section 2.4(a)(4).

2.5. Settlement. The Grantee shall be entitled to settlement of the PSUs covered by this Agreement at the time that such PSUs vest pursuant to Section 2.1, Section 2.2 or Section 2.4, as applicable, or if applicable, the date on which the Committee provides the determination set forth in Section 2.1(a) (any such date, the "Settlement Date"). Such settlement shall be made as promptly as practicable thereafter (but in no event after the earlier of the thirtieth day following the Settlement Date or the date that is two months and fifteen days following the Normal Vesting Date), through the issuance to the Grantee (or to the executors or administrators of Grantee's estate in the event of the Grantee's death) of a stock certificate (or evidence such Shares have been registered in the name of the Grantee with the relevant stock agent) for a number of Shares equal to the number of such vested PSUs and any Dividend Equivalent Units that may have accrued pursuant to Section 3 hereof; provided, that any cash-based Dividend Equivalent Rights granted pursuant to Section 3 hereof and any fractional Dividend Equivalent Units shall be paid in cash when (and only if) the PSUs to which they relate settle to the Grantee.

2.6. Withholding Obligations. Except as otherwise provided by the Committee, upon the settlement of any PSUs subject to this Award, the Company shall reduce the number of Shares (and the amount of cash, in the case of cash-based Dividend Equivalent Rights) that would otherwise be issued to the Grantee upon settlement of the Award by a number of Shares (and cash, if applicable) having an aggregate Fair Market Value on the date of such issuance equal to the amount necessary to satisfy the applicable withholding tax obligation of the Company with respect to which the Award is being settled; provided, that in the event Shares are not otherwise deliverable to the Grantee at the time a Company withholding obligation arises, the Company may satisfy such obligation from wages or other amounts payable to the Grantee as may be allowed by law, or by requiring the Grantee to remit such withholding taxes to the Company in cash or by check.

### 3. Dividend Rights.

The Grantee shall receive Dividend Equivalent Rights in respect of the PSUs covered by this Award at the time of any payment of dividends to stockholders on Shares. At the Company's option, the PSUs will be credited with either (a) additional Performance Share Units (the "Dividend Equivalent Units")

---

(including fractional units) for cash dividends paid on shares of the Company's Common Stock by (i) multiplying the cash dividend paid per Share by the number of PSUs (and previously credited Dividend Equivalent Units) outstanding and unpaid, and (ii) dividing the product determined above by the Fair Market Value of a Share, in each case, on the dividend record date, or (b) a cash amount equal to the amount that would be payable to the Grantee as a stockholder in respect of a number of Shares equal to the number of PSUs (and previously credited Dividend Equivalent Units) outstanding and unpaid as of the dividend record date; provided, that cash-based Dividend Equivalent Rights shall be credited unless the Committee affirmatively elects to credit Dividend Equivalent Units. The PSUs will be credited with Dividend Equivalent Units for stock dividends paid on shares of the Company's Common Stock by multiplying the stock dividend paid per Share by the number of PSUs (and previously credited Dividend Equivalent Units) outstanding and unpaid on the dividend record date. Each Dividend Equivalent Unit shall have a value equal to one Share. Each Dividend Equivalent Unit or cash Dividend Equivalent Right will vest and be settled or payable at the same time as the PSU to which the Dividend Equivalent Right relates. For the avoidance of doubt, no Dividend Equivalent Rights shall accrue under this Section 3 in the event that any Dividend Equivalent Rights or other applicable adjustments pursuant to Section 5 hereof provide similar benefits.

4. No Right to Continued Service.

Nothing in this Agreement or the Plan shall be interpreted or construed to confer upon the Grantee any right to continue service as an officer or employee of the Company or any Service Recipient.

5. Adjustments.

The provisions of Section 8 and Section 9 of the Plan are hereby incorporated by reference, and the PSUs (and any Dividend Equivalent Units) are subject to such provisions. Any determination made by the Committee or the Board pursuant to such provisions shall be made in accordance with the provisions of the Plan and shall be final and binding for all purposes of the Plan and this Agreement.

6. Applicability of the Plan; Compensation Recoupment Policy.

6.1. Plan Governs. The Grantee hereby acknowledges receipt of a copy of the Plan and agrees to be bound by all the terms and provisions thereof. The terms of this Agreement are governed by the terms of the Plan, and in the case of any inconsistency between the terms of this Agreement and the terms of the Plan, the terms of the Plan shall govern.

6.2. Compensation Recoupment Policy. The Grantee hereby acknowledges that (i) the HCA Healthcare, Inc. Compensation Recoupment Policy dated as of November 27, 2023 and as amended from time to time (the "Policy") constitutes a "clawback" or recoupment policy adopted by the Committee that is described in Section 6(j) of the Plan, (ii) this Award is subject to the terms and

conditions of the Policy and any other item described in Section 6(j) of the Plan, and (iii) all compensation received by the Grantee pursuant to this Award, including any proceeds, gains or other economic benefit actually or constructively received upon receipt or exercise of this Award or upon the receipt or resale of any Shares received upon exercise of this Award, shall be subject to reduction, cancellation, forfeiture and/or recoupment to the extent necessary to comply with the Policy or any other item described in Section 6(j) of the Plan, whether or not this Award constitutes Incentive-Based Compensation (as defined in the Policy).

6.3. Committee Discretion Binding. The Committee shall have the power to interpret the Plan, the Policy and this Agreement and to adopt such rules for the administration, interpretation and application thereof as are consistent therewith and to interpret or revoke any such rules. All actions taken and all interpretations and determinations made by the Committee with respect to the Plan, the Policy and this Agreement shall be final and binding upon the Grantee, the Company and all other interested persons. No member of the Committee shall be personally liable for any action, determination or interpretation made in good faith with respect to the Plan, the Policy or this Agreement.

7. Modification of Agreement.

Subject to the restrictions contained in Sections 6 and 10 of the Plan, the Committee may waive any conditions or rights under, amend any terms of, or alter, suspend, discontinue, cancel or terminate, the Award, prospectively or retroactively; provided that any such waiver, amendment, alteration, suspension, discontinuance, cancellation or termination that would adversely affect the rights of the Grantee or any holder or beneficiary of the Award in more than a *de minimis* way shall not to that extent be effective without the consent of the Grantee, holder or beneficiary affected.

8. Section 409A.

Notwithstanding anything herein to the contrary, to the maximum extent permitted by applicable law, the settlement of the PSUs (including any Dividend Equivalent Rights related thereto) to be made to the Grantee pursuant to this Agreement is intended to qualify as a "short-term deferral" pursuant to Section 1.409A-1(b)(4) of the Regulations and this Agreement shall be interpreted consistently therewith. However, under certain circumstances, settlement of the PSUs or any Dividend Equivalent Rights may not so qualify, and in that case, the Committee shall administer the grant and settlement of such PSUs and any Dividend Equivalent Rights in strict compliance with Section 409A of the Code. Further, notwithstanding anything herein to the contrary, if at the time of the Grantee's termination of employment with the Company and all Service Recipients, the Grantee is a "specified employee" as defined in Section 409A of the Code, and the deferral of the commencement of any payments or benefits otherwise payable hereunder as a result of such termination of service is necessary in order to prevent the imposition of any accelerated or additional tax under Section 409A of the Code, then the Company will defer the commencement of the payment of any such payments or benefits hereunder (without any reduction

---

in such payments or benefits ultimately paid or provided to the Grantee) to the minimum extent necessary to satisfy Section 409A of the Code until the date that is six months and one day following the Grantee's termination of employment with the Company (or the earliest date as is permitted under Section 409A of the Code), if such payment or benefit is payable upon a termination of employment. For purposes of this Agreement, a "termination of employment" shall have the same meaning as "separation from service" under Section 409A of the Code and Grantee shall be deemed to have remained employed so long as Grantee has not "separated from service" with the Company or Successor. Each payment of PSUs (and related Dividend Equivalent Units) constitutes a "separate payment" for purposes of Section 409A of the Code.

9. Severability.

If any provision of this Agreement is, or becomes, or is deemed to be invalid, illegal, or unenforceable in any jurisdiction or as to any Person or the Award, or would disqualify the Plan or Award under any laws deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to the applicable laws, or if it cannot be construed or deemed amended without, in the determination of the Committee, materially altering the intent of the Plan or the Award, such provision shall be stricken as to such jurisdiction, Person or Award, and the remainder of the Plan and Award shall remain in full force and effect.

10. Governing Law.

The validity, interpretation, construction and performance of this Agreement shall be governed by the laws of the State of Delaware without giving effect to the conflicts of law principles thereof, except to the extent that such laws are preempted by Federal law.

11. Successors in Interest.

This Agreement shall inure to the benefit of and be binding upon any successor to the Company. This Agreement shall inure to the benefit of the Grantee's legal representatives. All obligations imposed upon the Grantee and all rights granted to the Company under this Agreement shall be binding upon the Grantee's heirs, executors, administrators and successors.

12. Resolution of Disputes.

Any dispute or disagreement which may arise under, or as a result of, or in any way related to, the interpretation, construction or application of this Agreement shall be determined by the Committee and shall be final, binding and conclusive on the Grantee and the Company for all purposes. In the event of any controversy among the parties hereto arising out of, or relating to, this Agreement which cannot be resolved in accordance with the foregoing, such controversy shall be finally, exclusively and conclusively settled by mandatory arbitration conducted expeditiously in accordance with the American Arbitration Association rules, by a single independent arbitrator. Such arbitration process shall take place within the Nashville, Tennessee metropolitan area. The decision of the arbitrator shall be final

---

and binding upon all parties hereto and shall be rendered pursuant to a written decision, which contains a detailed recital of the arbitrator's reasoning. Judgment upon the award rendered may be entered in any court having jurisdiction thereof. Each party shall bear its own legal fees and expenses, unless otherwise determined by the arbitrator. If the Grantee substantially prevails on any of his or her substantive legal claims, then the Company shall reimburse all legal fees and arbitration fees incurred by the Grantee to arbitrate the dispute.

13. Notices.

Any notice to be given under the terms of this Agreement to the Company shall be addressed to the Company in care of its Secretary or its designee, and any notice to be given to the Grantee shall be addressed to him at the address (including an electronic address) then reflected in the Company's books and records. By a notice given pursuant to this Section 13, either party may hereafter designate a different address for notices to be given to him. Any notice, which is required to be given to the Grantee, shall, if the Grantee is then deceased, be given to the Grantee's personal representative if such representative has previously informed the Company of his status and address by written notice under this Section 13. Any notice shall have been deemed duly given when (i) delivered in person, (ii) delivered in an electronic form approved by the Company, (iii) enclosed in a properly sealed envelope or wrapper addressed as aforesaid, deposited (with postage prepaid) in a post office or branch post office regularly maintained by the United States Postal Service, or (iv) enclosed in a properly sealed envelope or wrapper addressed as aforesaid, deposited (with fees prepaid) in an office regularly maintained by FedEx, UPS, or comparable non-public mail carrier.

IN WITNESS WHEREOF, the parties have caused this Performance Share Unit Agreement to be duly executed effective as of the day and year first above written.

**HCA Healthcare, Inc.**  
**2025 Performance Share Unit Award**  
**Performance Targets**

1. Target Award. The target number of PSUs for the Grantee is as set forth on the first page of the Award Agreement. For the avoidance of doubt, all percentages associated with the Award shall be of the Target Award.

2. Performance Period. The Performance Period for this Award shall begin on January 1, 2025 and end on December 31, 2027.

3. Performance Goal. The performance goal for this Award is Cumulative EPS over the Performance Period. For purposes of this Exhibit A, Cumulative EPS means the sum of the Company's "diluted earnings per share" of each of the three fiscal years of the Company within the Performance Period as reported in the Company's audited financial statements for each such year, adjusted to exclude the effects of: (a) gains or losses on sales of facilities, (b) gains or losses on extinguishment of debt, (c) asset or investment impairment charges, (d) legal claim costs (disclosed as separate line item in consolidated income statement), (e) expenses, or adjustments to expenses, for share-based compensation recognized under ASC Topic 718 related to the Performance Share Units that results from EPS performance above or below the Target EPS during the Performance Period, (f) gains or losses on acquisition or disposition of controlling interest in equity investment or consolidated entity, and (g) any other gains, expenses or losses resulting from significant, unusual and/or nonrecurring events, as described in management's discussion and analysis of financial condition and results of operations appearing in the Company's annual report for the applicable fiscal year, as determined in good faith by the Board or the Committee.

4. Percentage of PSUs Earned. Following the end of the Performance Period, the Committee shall have sole and complete discretion to determine the extent to which PSUs have become earned and shall vest according to the following schedule:

<u>Cumulative EPS</u>	<u>Percentage of Target Award Earned</u>
Greater than or equal to 110% of Target EPS	200%
100% of Target EPS	100%
85% of Target EPS	25%
Less than 85% of Target EPS	0%

Thus, up to 200% of the Target Award may be earned if maximum performance is achieved for the Performance Period. Vesting related to performance between the percentages of Target EPS listed above will be determined by straight line interpolation. Any PSUs subject to this Award not earned and vested as provided above on the applicable determination date shall be forfeited.

<b>PAGE:</b> 1 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

**SCOPE:** All employees of HCA Healthcare, Inc. (“HCA”) and its affiliates and subsidiaries and members of HCA’s Board of Directors.

**PURPOSE:** Federal and state securities laws prohibit persons who are aware of material information about a company that has not been disclosed to the public from engaging in certain transactions involving that company’s securities. These laws also prohibit persons who are aware of such material, nonpublic information from disclosing this information to others who may engage in certain transactions involving that company’s securities. Accordingly, the purpose of this policy is to place certain limitations on transactions in publicly traded securities of HCA and certain other companies in order to promote compliance with applicable law.

**POLICY:**

1. Employees of HCA and its affiliates and subsidiaries, members of HCA’s Board of Directors and any entities controlled by such individuals are subject to the prohibition on engaging in transactions in HCA common stock (including equity incentive awards and publicly traded securities of HCA held in employee plans, retirement plans and managed accounts) or other publicly traded or derivative securities of HCA (including debt securities) (collectively referred to in this policy as “HCA Securities”) when aware of material, nonpublic information relating to HCA. In addition, material, nonpublic information relating to HCA may not be shared with friends, family members or others who do not need the information as part of their work for HCA. See Section 1 under “Procedure” below.
2. Employees of HCA and its affiliates and subsidiaries and members of HCA’s Board of Directors may in the course of providing services to HCA come into possession of material, nonpublic information relating to other companies, including current or prospective customers, suppliers, joint venture participants, competitors or parties to potential corporate development transactions. The prohibition on transactions in HCA Securities while an individual is aware of material, nonpublic information relating to HCA also applies to transactions in securities of other companies in the event the individual is aware of material, nonpublic information regarding such companies. See Section 1 under “Procedure” below.
3. Members of HCA’s Board of Directors, executive officers, division presidents and CFOs, market presidents and CFOs, corporate vice presidents and certain other designated persons (referred to in this policy as “Company Insiders”) and Related Persons (as defined in Section 2 under “Procedure” below) are prohibited from effecting transactions in HCA Securities during specified periods prior to releases of financial results, during special blackout periods or from engaging in transactions in

<b>DEPARTMENT:</b> Legal	<b>POLICY DESCRIPTION:</b> Securities Trading
<b>PAGE:</b> 2 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

which they may profit from short-term speculative swings in the value of HCA Securities. See Section 2 under “Procedure” below.

4. Neither Company Insiders nor Related Persons may engage in any transaction in which such persons may profit from short-term speculative swings in the value of HCA Securities or in any hedging transaction that is designed to reduce or limit the persons’ economic risk with respect to the persons’ holdings, ownership or interest in HCA Securities. See Section 3 under “Procedure” below.
5. Company Insiders and Related Persons are subject to the Company’s pre-clearance procedures with respect to HCA Securities. See Section 4 under “Procedure” below.
6. Members of HCA’s Board of Directors, executive officers and all direct and indirect beneficial owners of more than 10% of HCA’s common stock (referred to in this policy as “Section 16 Insiders”) are subject to the reporting and short-swing liability provisions of Section 16 of the Securities Exchange Act of 1934. See Section 5 under “Procedure” below.
7. The consequences of violating insider trading laws can include civil and criminal penalties, including jail terms, as well as termination of employment by HCA. See Section 8 under “Procedure” below.
8. HCA will not engage in transactions in HCA Securities in violation of any applicable securities laws. HCA may engage in transactions in HCA Securities under a trading plan that complies with SEC Rule 10b5-1.

#### **PROCEDURE:**

##### **1. Prohibition Against Trading While Aware of Material, Nonpublic Information.**

This section applies to everyone, including HCA directors and officers and all worldwide employees of HCA and its affiliates and subsidiaries and entities controlled by a person subject to this policy. Transactions that may be necessary or justifiable for independent reasons (such as a personal need to raise money for an emergency expenditure) are not excepted by the Securities and Exchange Commission (the “SEC”) from the securities laws nor are they excepted from this policy. But, there is an exception for buying or selling under a trading plan that complies with SEC Rule 10b5-1.

If an individual has material, nonpublic information relating to HCA or if, during the course of employment or service to HCA, material, nonpublic information is learned about another company

<b>DEPARTMENT:</b> Legal	<b>POLICY DESCRIPTION:</b> Securities Trading
<b>PAGE:</b> 3 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

(such as a current or prospective customer, supplier, joint venture participant, competitor or party to a potential corporate development transaction), that individual may not, directly or indirectly, buy, sell, transfer, pledge, gift, contribute, effect any employee stock purchase plan election, effect any HCA equity plan transaction or effect other transactions (other than transactions executed under a 10b5-1 trading plan in compliance with this Policy and applicable law and the cash exercise of a stock option acquired pursuant to HCA equity plans) in HCA common stock (including equity incentive awards and publicly traded securities of HCA held in employee plans, retirement plans and managed accounts) or other publicly traded or derivative securities of HCA (including debt securities) (collectively referred to in this policy as “HCA Securities”) or publicly traded securities or derivative securities of such other company, or engage in any other action to take personal advantage of that information, or pass it on to others or assist anyone engaged in the above activities. For the avoidance of doubt, such individual should disclose such material, nonpublic information only to persons within the Company whose jobs require them to have that information, and shall not disclose such information outside the Company to other persons, including, without limitation, family, friends, business associates, investors, consultants, advisors or contractors, unless any such disclosure has been broadly and publicly disseminated in accordance with the Company’s Corporate Disclosure Policy.

**Material Information.** Material information is generally any information that a reasonable investor would consider important in making an investment decision. Either positive or negative information may be material. Any information that could reasonably be expected to affect the price of the securities may be considered material, but information that does not actually affect such price may be material nonetheless with respect to an investment decision. Information that is not material to HCA may nevertheless be material to another company.

Examples: Common examples of information that will possibly be regarded as material include, but are not limited to: financial results; notification that the auditors reports could no longer be relied upon; projections of future revenues or earnings or cash flows; changes to previously announced earning guidance; a significant credit agreement covenant failure; extraordinary borrowings or liquidity problems or other significant financing transactions out of the ordinary course; a pending or possible significant sale or acquisition of assets, joint venture or other corporate development transaction; a significant charge or write-off; new legislation or regulations; a significant new contract; a significant refinancing, restructuring or recapitalization, including an exchange or tender offer; the establishment of or modification to an existing share repurchase program; significant litigation or investigations; changes in senior management; a change in dividend policy; a public or private offering of additional Company securities; significant changes in marketing strategy; the gain or loss of a substantial customer or supplier; a significant cybersecurity incident against the Company or the Company’s third-party

<b>DEPARTMENT:</b> Legal	<b>POLICY DESCRIPTION:</b> Securities Trading
<b>PAGE:</b> 4 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

vendors' information systems; and a significant disruption in the company's operations or loss, potential loss, breach or unauthorized access of its property or assets.

**Questions concerning whether information is material, nonpublic information should be directed to the Corporate Secretary's Office.**

20/20 Hindsight. If an individual's securities transactions become the subject of scrutiny, they will be viewed after-the-fact with the benefit of hindsight. The Securities and Exchange Commission (the "SEC") and others will have the benefit of knowing how the security price was affected once the information became public. Therefore, before engaging in any transaction, carefully consider how the SEC and others might view the transaction in hindsight. Even the appearance of an improper transaction should be avoided to preserve your and the Company's reputation for adhering to the highest standards of conduct.

Transactions by Family Members. The same legal restrictions apply to an individual's family members and other members of a person's household. Each individual is expected to be responsible for compliance with this policy by members of his or her household and other family members who do not share such individual's household but whose transactions are directed by or subject to such individual's influence or control, and therefore, individuals should make such persons aware of the need to confer with the individual before they trade in HCA Securities. When viewed after-the-fact, it will be difficult to convince the SEC that the individual did not provide information to a family member who traded at a time when the individual was aware of material, nonpublic information.

Transactions by Entities an Individual Controls. This policy applies to any entities an individual controls, including partnerships, corporations or trusts (collectively referred to as "Controlled Entities"), and transactions by these Controlled Entities should be treated for the purpose of this policy and applicable securities laws as if they were for one's own account. Since individuals are responsible for the transactions of these entities, such individuals should make the entities aware of the need to confer with the individual before they trade in HCA Securities.

Tipping Information to Others. No one may pass (or "tip") material, nonpublic information to others (regarding HCA or another company), including members of one's family, who do not need the information as part of their work for HCA. This includes supposedly "anonymous" communications such as in Internet chat rooms, blog posts or social media communications. The penalties mentioned above apply whether or not a person derives any benefit from another's transactions. The SEC has imposed large financial penalties on tippers even though they did not profit from their tippers' trading.

<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

When Information is Public. Information that has not been disclosed to the public is generally considered nonpublic information. HCA security holders and the investing public should be afforded the time to receive the information and act upon it before trading in HCA Securities resumes. Given the rapid dissemination of news and the prevalence of after-hours trading, one can resume trading on the second full trading day after the material information of which one is aware has been publicly released through the Dow Jones “broad tape,” newswire services, a broadcast on widely-available radio or television programs, publication in a widely-available newspaper, magazine or news website, or public disclosure documents filed with the SEC that are available on the SEC’s website. The riskiest time to engage in a purchase, sale or other transaction involving HCA Securities is shortly in advance of the public release by the Company of important information, such as quarterly or year-end financial results or other important news, while the safest time is the period shortly following the release of information (assuming one is not aware of other material, nonpublic information). Information would likely not be considered disclosed to the public if it is available only to the Company’s employees or if it is only available to a select group of analysts, brokers, investors or other constituencies.

## 2. **Company Insiders - Trading is Prohibited Prior to the Release of Quarterly and Annual Financial Results and during Other “Blackout Periods.”**

This section applies to all Company Insiders, together with any other person whose transactions in HCA Securities are attributable to the Company Insider (*i.e.*, certain family members and others living in the Company Insider’s household and Controlled Entities) (collectively, “Related Persons”). It also applies to anyone else aware of material information about HCA, including HCA’s earnings or other significant announcements prior to their release to the public.

Company earnings, and significant unexpected changes in those earnings (including any expectations as to exceeding or missing any public earnings guidance), are generally considered material information. Thus, certain persons may not effect transactions (including purchases, sales, gifts or other transfers) in HCA Securities during the preparation of the Company’s quarterly and annual financial information and related earnings announcements as more fully described below.

### Period Covered.

- Company Insiders and Related Persons are prohibited from effecting transactions in HCA Securities at any time other than during the fifteen (15) trading days beginning on the second full trading day following the release of HCA’s financial results for the quarter or fiscal year, which periods are known as “trading windows.” A pre-release of certain limited financial information for a quarterly or annual reporting period would not typically

<b>DEPARTMENT:</b> Legal	<b>POLICY DESCRIPTION:</b> Securities Trading
<b>PAGE:</b> 6 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

constitute a release of HCA’s financial results for such period for purposes of this policy. A notice will be sent to those persons subject to the restrictions of this section at such time as the trading window has commenced.

- Note that Company Insiders and Related Persons are subject to the requirement to pre-clear any transaction in HCA Securities with the Corporate Secretary’s Office even during trading windows as set forth in Section 4 below.
- The periods other than trading windows are frequently referred to as “blackout periods.” If an individual receives material information about earnings or other nonpublic information that is material to the Company during a trading window, that individual must refrain from trading in HCA Securities until such information no longer constitutes material, nonpublic information.
- From time to time the Company or Company Insiders may become aware of a transaction or other event that may be material and that has not been disclosed to the public. As a result, the Company may impose a special blackout period after discussions with Company Insiders and upon advice of counsel that would preclude trading even during a trading window. Notice of such a period may be provided on a case-by-case basis. Please keep in mind that it is difficult, if not impossible, to predict if and when a special blackout period may be imposed. Accordingly, Company Insiders and Related Persons are encouraged to plan any personal transactions involving HCA Securities well in advance. The existence of event-specific trading restrictions, suspension of trading windows or extension of a blackout period will not typically be announced to the Company as a whole and any individual who is aware of such should not communicate it to any other person.

As used herein, the term “trading day” shall mean a day on which the New York Stock Exchange (NYSE) is open for trading.

### 3. **Company Insiders - Restrictions on Pledging, Hedging, Trading in Options and Other Speculative Transactions**

This section applies to all Company Insiders and Related Persons.

Unless otherwise approved in writing by the Corporate Secretary’s Office or the General Counsel, persons may not engage in any transaction in which such persons may profit from short-term speculative swings in the value of HCA Securities or in any hedging transaction that is designed to reduce or limit the persons’ economic risk with respect to the persons’ holdings, ownership or interest in HCA Securities. This includes engaging in “short sales” (selling borrowed securities which the seller hopes can be purchased at a lower price in the future) and using “put” or “call” options, equity swaps, collars or other derivative securities or similar products.

<b>DEPARTMENT:</b> Legal	<b>POLICY DESCRIPTION:</b> Securities Trading
<b>PAGE:</b> 7 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

Unless otherwise approved in writing by the Corporate Secretary's Office or the General Counsel, Company Insiders and Related Persons may not pledge HCA Securities as collateral for margin and other loans.

#### 4. **Company Insiders - Pre-Clearance of Transactions; 10b5-1 Trading Plans**

This section applies to all Company Insiders and Related Persons.

- A. **Pre-Clearance.** All Company Insiders and Related Persons are subject to the Company's pre-clearance procedures with respect to HCA Securities. Such persons may not engage in any transaction involving HCA Securities (including any purchase, sale, HCA equity plan transaction or employee stock purchase plan election, a gift, a loan or pledge, a contribution to a trust, or any other transfer) without first obtaining pre-clearance of the transaction from the Corporate Secretary's Office.

A request for pre-clearance should be submitted to the Corporate Secretary's Office at least 48 hours in advance of any proposed transaction. If a Company Insider's or Related Person's request is not received at least 48 hours prior to the proposed transaction, there can be no assurance that the transaction will be timely reviewed. Once a request for pre-clearance is submitted, the Corporate Secretary's Office will determine whether the transaction may proceed and, if so, assist the person in complying with any applicable reporting requirements. If a proposed transaction receives pre-clearance and the person becomes aware of material, nonpublic information before the transaction is executed, the transaction must not be completed. If a person seeks pre-clearance and permission to engage in the transaction is denied, then he or she should refrain from initiating any transaction in HCA Securities and should not inform any other person of the restriction. Questions concerning these pre-clearance procedures should be directed to the Corporate Secretary's Office.

- B. **Rule 10b5-1 Trading Plans.** Any Company Insider or Related Person may enter into a written trading plan in compliance with Rule 10b5-1 under the Securities Exchange Act of 1934 (the "Exchange Act") that specifies the dates, prices and amounts of the contemplated trades, establishes a formula for determining the dates, prices and amounts or delegates discretion on those matters to an independent third party (a "Rule 10b5-1 Trading Plan"). The Corporate Secretary's Office must pre-approve the Rule 10b5-1 Trading Plan in writing. Transactions effected pursuant to a pre-approved Rule 10b5-1 Trading Plan will not require further pre-clearance at the time of the transaction, but are subject to Section 16 and other filing requirements for members of HCA's Board of Directors and executive officers and, therefore, must be reported immediately to the Corporate Secretary's Office in writing. Once the plan is adopted, the person must not exercise any

<b>DEPARTMENT:</b> Legal	<b>POLICY DESCRIPTION:</b> Securities Trading
<b>PAGE:</b> 8 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

influence over the amount of securities to be traded, the price at which they are to be traded or the date of the trade.

1. Requirements for a Rule 10b5-1 Trading Plan. A person may only enter into a Rule 10b5-1 Trading Plan during a trading window and when he or she is not aware of material, nonpublic information. When entering into a Rule 10b5-1 Trading Plan a person must certify that at the time of adoption of the Rule 10b5-1 Trading Plan such individual: (1) is not aware of material, nonpublic information about the Company or its securities; and (2) is adopting the Rule 10b5-1 Trading Plan in good faith and not as part of a plan or scheme to evade the prohibitions of Rule 10b5-1. A person must act in good faith with respect to the Rule 10b5-1 Trading Plan.
2. Cooling-Off Period. After entering into a Rule 10b5-1 Trading Plan (or modifying an existing Rule 10b5-1 Trading Plan), a person may not begin any trades until 120 days following adoption or modification of the Rule 10b5-1 Trading Plan.
3. Multiple Plans. Pursuant to Rule 10b5-1, a person may only rely on the affirmative defense for a single-trade plan once during any consecutive 12-month period. Further, only one Rule 10b5-1 Trading Plan may be in effect at any time, unless one of three exemptions is met, which are:
  - A person may enter into more than one Rule 10b5-1 Trading Plan with different broker-dealers or other agents and treat the Rule 10b5-1 Trading Plans as a single Rule 10b5-1 Trading Plan so long as, when taken as a whole, the “plan” complies with all of the rule’s requirements;
  - A person may adopt one later-commencing Rule 10b5-1 Trading Plan so long as trading under the later-commencing Rule 10b5-1 Trading Plan is not authorized to begin until after all trades under the earlier-commencing Rule 10b5-1 Trading Plan are completed or expire without execution. If the earlier-commencing Rule 10b5-1 Trading Plan is terminated earlier, the later-commencing Rule 10b5-1 Trading Plan must have a cooling-off period that starts when the first Rule 10b5-1 Trading Plan terminates; and
    - A person may have an additional Rule 10b5-1 Trading Plan set up solely to sell securities as necessary to satisfy tax-withholding obligations arising exclusively from the vesting of a compensatory award, otherwise known as “sell-to-cover” transactions.
4. Section 16 Filing Requirements and Gifts. Section 16 Insiders are required to mark a checkbox on Form 4’s to indicate the reported transaction was intended to satisfy the affirmative defense conditions of Rule 10b5-1, if applicable. Further, bona fide gifts of

<b>DEPARTMENT:</b> Legal	<b>POLICY DESCRIPTION:</b> Securities Trading
<b>PAGE:</b> 9 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

securities by Section 16 Insiders are required to be reported on Form 4 before the end of the second business day following the date of execution of the transactions.

#### 5. Section 16 Insiders - Section 16 Reporting Requirements and Trading Restrictions

This section applies to the Company's executive officers and members of HCA's Board of Directors and to all direct or indirect beneficial stockholders of more than 10 percent of HCA's common stock (collectively, "Section 16 Insiders").

Section 16 of the Exchange Act limits transactions in and requires public disclosure of transactions involving HCA Securities, by all Section 16 Insiders and certain of their family members and affiliated entities.

- A. Section 16 Insiders are required to electronically file public reports of their stock ownership and trading activities with the SEC. Within ten calendar days of becoming a Section 16 Insider (appointment as an executive officer or appointment or election as an HCA director), an Initial Statement on Form 3 must be filed with the SEC to report any HCA Securities beneficially owned by the Section 16 Insider. Generally, a Form 4 reporting changes in beneficial ownership must be filed with the SEC by 10:00 p.m. ET of the second business day after a reportable transaction in HCA Securities is executed (this applies to virtually all transactions). Also, an Annual Statement on Form 5 is due within 45 days after the Company's fiscal year-end to disclose transactions for which the SEC allows delayed reporting. Furthermore, there may be a requirement to file a Form 4 to report certain non-exempt transactions in the six-month period after ceasing to be a Section 16 Insider. While the filing requirements are solely the responsibility of the Section 16 Insider, the Company has procedures in place to assist Section 16 Insiders with these filings. Such individuals are encouraged to execute a limited power of attorney that authorizes the Corporate Secretary's Office to file Section 16 reports on the individual's behalf.
- B. Section 16 Insiders are liable for profits realized from "short-swing" trading transactions. Profits made by a Section 16 Insider from short-swing transactions – transactions involving a purchase and a sale or a sale and a purchase within a six-month period – are required by SEC rules to be disgorged to the Company. In computing the amount of profit, the highest sale price and the lowest purchase price are matched, regardless of whether the same shares were traded or if the Section 16 Insider suffered a net loss from trades within the period. The recovery for short-swing profits belongs to the Company and cannot be waived.
- C. "Short sales" by Section 16 Insiders are prohibited. Section 16 prohibits a Section 16 Insider from selling any equity security of the Company (other than an exempted security) if they do not own the security (a "short sale") or if they fail to timely deliver a security that they do own.

<b>PAGE:</b> 10 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

## 6. Rule 144 under the Securities Act of 1933

This section applies to all members of HCA’s Board of Directors and executive officers.

Members of HCA’s Board of Directors and executive officers of the Company are likely to be regarded as “affiliates” of the Company and affiliates may not sell HCA Securities unless such sale is covered by a registration statement, or such sale is made pursuant to an exemption from the registration requirement. SEC Rule 144 provides an exemption from registration for sales made through transactions with brokers. It is important that the broker through whom or to whom an affiliate is selling his or her securities be informed that the securities are being sold pursuant to SEC Rule 144. The affiliate’s broker should be prepared to timely file the Form 144 with the SEC and, if applicable, the New York Stock Exchange no later than the day the sell order is executed and provide a copy to the Corporate Secretary’s Office. If the affiliate’s broker is unable to file the Form, the affiliate should promptly notify the Corporate Secretary’s Office for assistance.

## 7. Administration of Policy

Administration by Corporate Secretary’s Office. The day-to-day administration of this policy will be carried out by the Corporate Secretary’s Office. Questions concerning the interpretation of this policy should be directed to John Franck at (615) 344-5881, Natalie Cline at (615) 344-1983 or Kevin Ball at (615) 344-1228.

Confidentiality of Policy Decisions. Individuals should keep certain information concerning the operation of this policy in strict confidence since knowledge of certain decisions made pursuant to the policy could itself constitute material, nonpublic information. For example, if an individual is made subject to a special blackout or denied pre-clearance, one should keep that fact confidential.

Confidentiality of Nonpublic Information. In all cases, nonpublic information relating to the Company is the property of the Company and the unauthorized disclosure of such information is forbidden. Persons subject to this policy should not discuss internal Company matters or developments with anyone outside the Company, except as required in the performance of their regular employment or contractual duties, nor should Company matters be discussed in public or quasi-public areas where conversations may be overheard. This prohibition also applies to inquiries about the Company, which may be made by the financial press, investment analysts or others in the financial community. It is important that all such communications on behalf of the Company be made only through designated authorized individuals as set forth in the Company’s Corporate Disclosure Policy. If employees receive inquiries of this nature they should decline comments and refer the inquirer directly to the Company designated individuals responsible for such inquiries.

<b>DEPARTMENT:</b> Legal	<b>POLICY DESCRIPTION:</b> Securities Trading
<b>PAGE:</b> 11 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

**Individual Responsibility.** Persons subject to this policy have ethical and legal obligations to maintain the confidentiality of information relating to HCA and to not trade in HCA Securities (or the securities of another company) while in possession of material, nonpublic information. Each person is responsible for making sure that he or she complies with this policy and applicable law and that any family members, household members and Controlled Entities whose transactions are subject to this policy, as discussed above, also comply with this policy and applicable law. In all cases, the ultimate responsibility for adhering to this policy and avoiding improper trading rests with that person, and any action on the part of the Company, the Corporate Secretary's Office or any other employee or director pursuant to this policy (or otherwise) does not constitute legal advice or insulate a person from liability under applicable securities laws. Trading during a "trading window" or with the permission of the Corporate Secretary's Office should not be considered a "safe harbor", and persons subject to this policy should use good judgment at all times. A person may, from time to time, have to forego a proposed transaction in securities even if he or she planned to make the transaction before learning of material, nonpublic information and even though the person believes he or she may suffer economic loss or forego an anticipated profit by waiting.

## 8. Consequences of Insider Trading Violations

The consequences of insider trading violations can be staggering: For *individuals* who trade on material, nonpublic information (or provide information to others) the penalties may include:

- a civil penalty of up to three times the profit gained or loss avoided;
- a criminal fine (no matter how small the profit) of up to \$5 million; and
- a jail term of up to twenty years.

For a *company* (and possibly any supervisory person) that fails to take appropriate steps to prevent illegal trading, penalties may include:

- a civil penalty equal to the greater of \$5 million or three times the profit gained or loss avoided as a result of the individual's violation; and
- a criminal penalty of up to \$25 million.

As noted above, profits made by a Section 16 Insider from short-swing transactions are required by SEC rules to be disgorged to the Company.

Moreover, if an individual violates this securities trading policy or applicable law, he or she may be subject to discipline by the Company, including termination of employment.

<b>DEPARTMENT:</b> Legal	<b>POLICY DESCRIPTION:</b> Securities Trading
<b>PAGE:</b> 12 of 12	<b>REPLACES POLICY DATED:</b> 1/30/04, 9/1/05, 1/17/06, 3/9/11, 4/26/12, 2/1/13, 1/29/15, 7/21/16, 1/25/19, 4/19/23
<b>EFFECTIVE DATE</b> January 23, 2025	<b>REFERENCE NUMBER:</b> LL.SEC.001
<b>APPROVED BY:</b> Ethics and Compliance Policy Committee	

The consequences of insider trading violations for those persons that are subject to the securities laws in jurisdictions outside the United States can also be severe. Persons subject to this policy are required to comply with the securities laws in any jurisdiction to which such persons are subject.

#### 9. Post Termination Transactions

The restrictions on trading in Company and certain other companies' securities while in possession of material, nonpublic information continues even after termination of service to the Company. If an individual is in possession of material, nonpublic information relating to HCA or another company when his or her service terminates, that individual may not trade in HCA Securities or publicly traded or derivative securities of such other company until that information has become public or is no longer material.

#### 10. Policy Subject to Revision

The Company may change or otherwise revise the terms of this policy from time to time to respond to developments in law and practice.

#### 11. Reports of Violations

If any person subject to this policy has reason to believe that material, nonpublic information of the Company or another company has been disclosed to an outside party without authorization, that person should report it to the Corporate Secretary's Office immediately.

If any person subject to this policy has reason to believe that another person subject to this policy has acted, or intends to act, on material, nonpublic information, or has taken, or intends to take, any other action that appears to be contrary to the requirements of this policy, that person should report it to the Corporate Secretary's Office immediately.

Individuals are always free to contact the Company's Ethics Line at 1-800-455-1996 to anonymously report potential violations or concerns.

## CERTIFICATIONS

I, Samuel N. Hazen, certify that:

1. I have reviewed this annual report on Form 10-K of HCA Healthcare, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;

4. The Registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and

5. The Registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit and compliance committee of the Registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350,  
AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Annual Report of HCA Healthcare, Inc. (the “Company”) on Form 10-K for the year ended December 31, 2024, as filed with the Securities and Exchange Commission on the date hereof (the “Report”), each of the undersigned certifies, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

(1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
