Plan Administrator

MetaBank Profit Sharing 401(k) Plan:

We have audited the accompanying statements of net assets available for benefits of the MetaBank Profit Sharing 401(k) Plan (the Plan) as of September 30, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended September 30, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2011 and 2010, and the changes in net assets available for benefits for the year ended September 30, 2011, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information included in Schedule H, line 4i – schedule of assets (held at end of year) are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplementary schedules are the responsibility of the Plan's management. The supplementary schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

METABANK PROFIT SHARING 401(k) PLAN

Notes to Financial Statements

September 30, 2011 and 2010

(1) Description of the Plan

The following description of the MetaBank Profit Sharing 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General and Eligibility

The Plan is a defined contribution plan covering all full-time employees of MetaBank (a wholly owned subsidiary of Meta Financial Group, Inc.), referred to herein as the Bank, who have one year of service (profit-sharing), three months of service (elective deferrals and match) and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Record Keeper and Custodian

REDW Benefits LLC has been designated as record keeper and TD Ameritrade has been designated as custodian of the Plan.

(c) Contributions

The Plan is funded by employee and employer contributions. Participating employees may contribute a percentage of their wages up to the maximum percentage allowable not to exceed the limits of Code Section 401(k), 402(g), 404, and 415. Annual employee contributions were limited to \$16,500 in both 2011 and 2010, as indexed by the Internal Revenue Service (IRS), except for those employees eligible for catch-up contributions. The Plan also places certain restrictions on contributions from those employees defined as highly compensated.

The employer may, in its sole discretion, make discretionary contributions to the Plan each year. A contribution of 4% of eligible compensation based on IRS limitations was made for fiscal year 2010 during the 2011 fiscal year ended 9/30/11. A contribution of 4% of eligible compensation was also approved for fiscal year 2011 to be paid in fiscal year 2012.

Participants direct the investment of their contributions and any employer contributions into various investment options offered by the Plan. Participants may currently direct contributions into 24 mutual funds, 2 money market accounts, and a self-directed investment account. Additionally, participants may use a portion of their account balance to contribute to Meta Financial Group, Inc. common stock.

During the year ended September 30, 2011, the Plan began to allow participants to contribute to a Roth IRA. Total contributions to the Roth IRA were \$24,886 for the year ended September 30, 2011. The Plan collects and distributes funds in the Roth accounts in the same manner as for all previous contributions to the Plan. Beginning October 1, 2011, internal rollovers from a traditional 401(k) plan to a Roth IRA are allowed. As of the date of this report, no such internal rollovers had occurred.

(d) Participants Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Bank's contribution, if any, and (b) investment fund earnings, and charged with an allocation of administrative expenses. Investment income and administrative expenses are allocated based on participant account value. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements
September 30, 2011 and 2010

(e) Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Bank on behalf of the Trustees prior to the time that such rights are to be exercised. The Trustees are not permitted to vote any allocated share for which instructions have not been given by a participant.

(f) Vesting

Participants are immediately vested in their voluntary contributions and in the Bank's discretionary contributions, plus actual earnings thereon.

(g) Payment of Benefits

On termination of service due to retirement, death, or disability, a participant may elect to receive either a lump-sum cash payment equal to the value of the participant's account or monthly, quarterly, semiannual, or annual installment payments.

In all instances, if the vested value of a participant's account is less than \$1,000, a lump-sum cash payment will be made.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Interest-bearing cash and money market accounts are reported at fair value determined to be equal to cost. Shares of mutual funds are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the fund at year-end. Self-directed accounts are reported at fair value based upon the underlying investments comprising the accounts. The investment in the common stock of Meta Financial Group, Inc. is reported at fair value based on quoted market price.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(d) *Payment of Benefits*

Benefit payments to participants are recorded upon distribution. As of September 30, 2011, there were no amounts allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid.

(3) **Administrative Expenses**

Certain administrative functions are performed by officers or employees of the Bank. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan.

(4) **Investments**

The fair value of the Plan's investments that represent 5% or more of the Plan's net assets at September 30, 2011 and 2010 are as follows:

	Fair value	
	2011	2010
Mutual funds:		
American Funds The Growth Fund of America	\$ -	\$ 747,517
Eaton Vance Large Cap Value Fund Class I	616,692	572,070

The Plan's investments in self directed accounts appreciated in fair value by \$14,200 during the same period.

The Plan owns 73,424 and 88,875 shares of Meta Financial Group, Inc. Common Stock at September 30, 2011 and 2010, respectively. The Plan did not purchase any shares of Meta Financial Group, Inc., a party-in-interest, common stock during the year ended September 30, 2011. The Plan received \$42,089 in dividend income on the Meta Financial Group, Inc. common stock during the year ended September 30, 2011.

(5) **Fair Value Measurements**

The objective of a fair value measurement is to determine the price that would be received to sell the asset or paid to transfer the liability at the measurement date. Financial assets and financial liabilities are categorized into a three level hierarchy based on the priority of inputs used in the valuation techniques utilized to determine fair value.

METABANK PROFIT SHARING 401(k) PLAN

Notes to Financial Statements

September 30, 2011 and 2010

- Level 1 :** unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2 :** other significant observable inputs (including quoted prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted market prices that are observable for the asset or liability)
- Level 3 :** significant unobservable inputs (including the Plan's own assumptions about what a market participant would use in determining the fair value of investments)

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, a financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial statements.

The following is a description of the valuation methods used for assets measured at fair value:

Mutual Funds/Common Stock : The fair values of the mutual funds and common stock are based on quoted market prices when available.

Self-directed brokerage accounts : The fair values of the mutual funds, stocks and bonds within the self-directed brokerage accounts are based on quoted market prices when available.

Money Market accounts : The fair value of the money market accounts are considered the same as cash.

(Continued)

METABANK PROFIT SHARING 401(k) PLAN

Notes to Financial Statements

September 30, 2011 and 2010

(7) Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter, dated January 31, 2006, that the Plan and related trust are designed in accordance with applicable Sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Code.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across the participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments. Investment decisions are made, and the resulting risks are borne, exclusively by the Plan participant who made such decisions.

The Plan invests directly or indirectly in investments with contractual cash flows, such as asset backed securities, collateralized mortgage obligations, and commercial mortgage backed securities. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies, or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(9) Subsequent Events

The Plan has evaluated subsequent events through the date the financial statements were issued, to ensure that the financial statements include appropriate disclosure or recognition of events that occurred subsequent to September 30, 2011.
