SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d)  
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2008

☐ TRANSACTION REPORT PURSUANT TO SECTION 13 OR 15 (d)  
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transaction period from to

Commission File Number: 0-22140

META FINANCIAL GROUP, INC. ®  
(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction of  
incorporation or organization)

42-1406262  
(IRS Employer Identification No.)

121 East Fifth Street, Storm Lake, Iowa 50588  
(Address of principal executive offices)

(712) 732-4117  
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "accelerated filer and large accelerated filer" in Rule 12-b2 of the Exchange Act. (Check one):

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☒ Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class:	Outstanding at August 8, 2008:
Common Stock, \$.01 par value	2,601,103 Common Shares

Notes to Condensed Consolidated Financial Statements (Unaudited)

**NOTE 1. BASIS OF PRESENTATION**

The interim unaudited condensed consolidated financial statements contained herein should be read in conjunction with the audited consolidated financial statements and accompanying notes to the consolidated financial statements for the fiscal year ended September 30, 2007, filed as Exhibit 13 to Meta Financial Group, Inc.'s (the "Company") Form 10-K filed with the Securities and Exchange Commission on January 11, 2008. Accordingly, footnote disclosures, which would substantially duplicate the disclosure contained in the audited consolidated financial statements, have been omitted.

The financial information of the Company included herein has been prepared in accordance with U.S. generally accepted accounting principles for interim financial reporting and has been prepared pursuant to the rules and regulations for reporting on Form 10-Q and Rule 10-01 of Regulation S-X. Such information reflects all adjustments (consisting of normal recurring adjustments), that are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations for the periods presented. The results of the interim period ended June 30, 2008, are not necessarily indicative of the results expected for the year ending September 30, 2008.

**NOTE 2. DISCONTINUED BANK OPERATIONS**

**Sale of MetaBank West Central**

On November 29, 2007, the Company entered into an agreement to sell MetaBank West Central ("MetaBank WC"). MetaBank WC has three branch offices in Stuart, Casey, and Menlo, Iowa. MetaBank WC is a state chartered commercial bank whose primary federal regulator is the Federal Reserve Bank of Chicago. On March 28, 2008 the Company consummated the sale of MetaBank WC to Anita Bancorporation (Iowa). The transaction involved the sale of the stock of MetaBank WC for approximately \$8.2 million and generated a pre-tax gain on sale of \$2.3 million. The activity related to Meta Bank WC is accounted for as discontinued operations.

Activities related to discontinued bank operations have been recorded separately with current and prior period amounts reclassified as assets and liabilities related to discontinued operations on the condensed consolidated statements of financial condition and as discontinued operations on the condensed consolidated statements of operations and cash flows. The notes to the condensed consolidated financial statements have also been adjusted to eliminate the effect of discontinued bank operations.

### NOTE 3. ALLOWANCE FOR LOAN LOSSES

At June 30, 2008 the Company's allowance for loan losses was \$4.7 million, an increase of \$200,000 from \$4.5 million at September 30, 2007. During the nine months ended June 30, 2008 the Company recorded a provision for loan losses of \$195,000, which was primarily related to growth in the Company's loan portfolio as compared to the same period in the prior fiscal year, and which included a provision for loan losses of \$125,000 during the three months ended June 30, 2008. The Company's net charge-offs for the three and nine months ended June 30, 2008 were minimal. Further discussion of this change in the allowance is included in "Non-performing Assets and Allowance for Loan Loss" in Management's Discussion and Analysis.

### NOTE 4. EARNINGS PER COMMON SHARE ("EPS")

Basic EPS is computed by dividing income (loss) available to common shareholders (the numerator) by the weighted average number of common shares outstanding (the denominator) during the period. Shares issued during the period and shares reacquired during the period are weighted for the portion of the period that they were outstanding. Diluted EPS shows the dilutive effect of additional common shares issuable pursuant to stock option agreements.

A reconciliation of the income (loss) and common stock share used in the computation of basic and diluted EPS for the three and nine months ended June 30, 2008 and 2007 is presented below.

Three Months Ended June 30, (Dollars in Thousands, Except Share and Per Share Data)	2008	2007 (As Restated)
<b>Earnings (Loss)</b>		
Income (loss) from continuing operations	\$ (410)	\$ 2,438

Weighted average common shares outstanding	2,594,986	2,550,193
Less weighted average unallocated ESOP and nonvested shares	(19,422)	(25,213)
Weighted average common shares outstanding	<u>2,575,564</u>	<u>2,524,980</u>
<b>Earnings (Loss) Per Common Share</b>		
Income from continuing operations	\$ —	\$ 0.31
Discontinued operations, net of tax	0.73	(0.07)
Net income	<u>\$ 0.73</u>	<u>\$ 0.24</u>
<b>Diluted EPS</b>		
Weighted average common shares outstanding for basic earnings per common share	2,575,564	2,524,980
Add dilutive effect of assumed exercises of stock options, net of tax benefits	31,340	103,976
Weighted average common and dilutive potential common shares outstanding	<u>2,606,904</u>	<u>2,628,956</u>
<b>Earnings (Loss) Per Common Share</b>		
Income from continuing operations	\$ —	\$ 0.30
Discontinued operations, net of tax	0.72	(0.07)
Net income	<u>\$ 0.72</u>	<u>\$ 0.23</u>

The calculation of the diluted loss per share for the three months ended June 30, 2008 does not reflect the assumed exercise of 7,846 stock options because the effect would have been anti-dilutive due to the net loss for the period. Stock options totaling 311,572 were not considered in computing diluted EPS for the three months ended June 30, 2008 because they were not dilutive. Stock options totaling 125,018 and 12,000 were not considered in computing diluted EPS for the nine months ended June 30, 2008 and 2007, respectively, because they were not dilutive.

### NOTE 5. COMMITMENTS AND CONTINGENCIES

At June 30, 2008 and September 30, 2007, the Company had outstanding commitments to originate and purchase loans totaling \$62.4 million and \$50.3 million, respectively. It is expected that outstanding loan commitments will be funded with existing liquid assets. At June 30, 2008, the Company had no commitments to purchase or sell securities available for sale.

### Legal Proceedings

MetaBank ("the Bank") has been named in several lawsuits whose eventual outcome could have an adverse effect on the consolidated financial position or results of operations of the Company.

*Chris Dengler, et al, v. Nelson Automotive Group, Inc., et al.* In the Circuit Court of South Dakota, County of Minnehaha, (Civ. No. 06-1106) a lawsuit was filed by a number of plaintiffs who had purchased vehicles naming the Bank together with a number of other defendants. The Bank, in conjunction with a roster of participating

banks, had provided a series of loans and lines of credit to Dan Nelson Auto Group (“DNAG”) and South Dakota Acceptance Corporation (“SDAC”). Plaintiffs allege that the defendants, including the Bank, “participated in the fraudulent scheme” by virtue of providing these lines of credit and loans despite being aware of the predatory consumer practices of the Nelson companies, and that MetaBank profited by receiving undisclosed “special benefits” for providing these loans. DNAG, SDAC and Nelson have since filed for bankruptcy. Plaintiffs also allege that MetaBank did not vigorously pursue claims against Nelson and fellow DNAG executive Chris Tapken in their respective personal bankruptcies in order to allow these individuals to emerge with control over assets of their former companies. The claims against J. Tyler Haahr personally and the MetaBank entities were dismissed with prejudice on January 4, 2008, and this matter is now on appeal, as to MetaBank only.

*First Midwest Bank-Deerfield Branches, et al, v. MetaBank.* U.S. District Court for the District of South Dakota, Southern Division (4:06-cv-4114). During the three months ended June 30, 2006 or shortly thereafter three lawsuits were filed against the Bank in Federal Court in Sioux Falls. Three of the complaints, previously disclosed, were related to Meta Bank’s alleged actions in connection with its activities as lead lender to three companies involved in auto sales, service, and financing and their owner. An additional bank, North American Banking Company, joined these three bank plaintiffs in one action. All four of these banks were plaintiffs in one consolidated federal lawsuit, as discussed below. In addition, Home Federal Bank has brought a separate action, discussed below, in state court. These consolidated complaints allege that plaintiff banks, who were participating lenders with MetaBank on a series of loans made to DNAG and SDAC, suffered damages as a result of MetaBank’s placement and administration of the loans that were the subject of the loan participation agreements. The complaint sounds in breach of contract, negligence, gross negligence, negligent misrepresentation, fraud in the inducement, unjust enrichment and breach of fiduciary duty. On July 17, 2006, MetaBank removed the case from state court to the United States District Court for the District of South Dakota, where the action has been assigned case no. Civ. 06-4114. Plaintiff(s) moved to remand the case back to state court, but this motion was denied. As noted above, North American Banking Company was allowed by the United States District Court to join this action with similar claims and allegations against MetaBank. The Company believes that three of these four cases have now been resolved through mediation with no additional financial loss recognition to MetaBank. In that respect, subject to a reservation of rights, the Company’s insurance carrier has agreed to cover virtually all of the settlement amounts in the three cases and has paid for counsel to defend all four actions through discovery. *Mid-Country Bank* is scheduled to mediate their case with MetaBank in Minneapolis, MN in late August.

*Home Federal Bank v. J. Tyler Haahr, Daniel A. Nelson and MetaBank* (Civ. No. 06-2230). On June 26, 2006, Home Federal Bank filed suit against MetaBank and two individuals, J. Tyler Haahr and Daniel A. Nelson, in South Dakota’s Second Judicial Circuit Court, Minnehaha County in the above titled action. The complaint alleges that Home Federal, a participating lender with MetaBank on a series of loans made to DNAG and SDAC, suffered damages exceeding \$3.8 million as a result of failure to make disclosures regarding an investigation of Nelson, DNAG and SDAC by the Iowa Attorney General at the time Home Federal agreed to an extension of the loan participation agreements. The complaint sounds in fraud, negligent misrepresentation, breach of fiduciary duty, conspiracy and breach of duty of good faith and fair dealing. Discovery has been completed. Cross-motions for summary judgment have been filed and argued, and they are now pending. The case has been scheduled for trial later in November 2008. The plaintiff is seeking in excess of \$4.0 million in damages; as previously disclosed, the Company intends, to vigorously defend its actions. No prediction can be made as to the outcome of the case, and therefore the Company’s actual loss, if any, associated with the Mid-Country Bank and Home Federal Bank actions cannot be determined at this time.

*First Federal Bank Littlefield Texas ssb, formerly known as, First Federal Savings and Loan Association, Littlefield, Texas v. MetaBank, formerly known as First Federal Savings Bank of the Midwest, filed in the 154<sup>th</sup> Judicial District Court of Lamb County (Cause No. 17435); The Frost National Bank v. MetaBank and Meta Financial Group, Inc., filed in the United States District Court for the Northern District of Texas (Cause No. 3:08-CV-625-M).* On April 3, 2008, First Federal Bank filed suit against MetaBank in Texas State Court in Lubbock seeking recovery of a purported MetaBank certificate of deposit (CD) that it claims it purchased. On April 11, 2008, Frost National Bank filed suit against MetaBank in the United States District Court for the District of Texas seeking a similar recovery. On June 25, 2008, an action was filed in the 95<sup>th</sup> Judicial District Court for Dallas County, Texas entitled *Methodist Hospitals of Dallas v MetaBank and Meta Financial Group* seeking recovery of a purported MetaBank CD purchased in May, 2001. Additionally, on July 14, 2008, a class action complaint was filed in the United States District Court for the District of New Hampshire entitled *Guardian Angel Credit Union v MetaBank* (Cause No. 08-CV-261-PB) and was filed on behalf of Guardian Angel Credit Union and all other CD purchasers similarly situated, to recover funds in connection with purported MetaBank CDs. Earlier, MetaBank had been contacted by another institution, but could find no record of the CD it had allegedly purchased, and commenced an investigation. As a result of that investigation, it now appears that a former MetaBank employee had been selling fraudulent CDs, using MetaBank's name and standard form of CD, to various financial institutions through an independent broker and instructing purchasers to wire the purchase money into one of a number of false accounts she had created at MetaBank. The Bank continues to receive a number of demands from purchasers of these fraudulent CDs in addition to the lawsuits listed above. All evidence currently available indicates that the former employee ran this fraud for her own benefit and regularly took money from the MetaBank accounts to which the purchase monies had been wired. As a result of the interruption of this fraud, there are some \$4.2 million of bogus CDs still outstanding to various financial institutions. As the former employee was apparently using the funds of new victims to pay off the previous victims of her scheme, it does not appear at this time that she stole any Bank money as part of this fraud. MetaBank therefore does not appear at this time to have suffered any direct loss as a result of the fraud, but it may suffer a loss to the extent it is exposed to liability for claims such as these. There are unresolved questions as whether, under what theory and to what degree the Bank might be liable for the former employee's actions. At this time, MetaBank's insurer has agreed to provide a defense to the two litigations in Texas under a reservation of rights.

Other than the matters set forth above, there are no other material pending legal proceedings to which the Company or its subsidiaries is a party other than ordinary routine litigation to their respective businesses.

## NOTE 6. STOCK OPTION PLAN

The Company maintains the 2002 Omnibus Incentive Plan, which, among other things, provides for the awarding of stock options and nonvested (restricted) shares to certain officers and directors of the Company. Awards are granted by the Stock Option Committee of the Board of Directors based on the performance of the award recipients or other relevant factors.

In accordance with SFAS No. 123(R), compensation expense for share based awards is recorded over the vesting period at the fair value of the award at the time of grant. The exercise price of options or fair value of nonvested shares granted under the Company's incentive plans is equal to the fair market value of the underlying stock at the grant date. The Company assumes no projected forfeitures on its stock based compensation, since actual historical forfeiture rates on its stock based incentive awards has been negligible.

A summary of option activity for the nine months ended June 30, 2008 is presented below:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Yrs)	Aggregate Intrinsic Value
	(Dollars in Thousands, Except Share and Per Share Data)			
Options outstanding, September 30, 2007	424,269	\$ 25.81	7.71	\$ 5,971
Granted	7,000	32.44	—	—
Exercised	(13,241 )	20.70	—	—
Forfeited or expired	(8,900 )	27.84	—	—
Options outstanding, June 30, 2008	409,128	\$ 25.96	7.00	\$ 5,718
Options exercisable at June 30, 2008	276,428	\$ 24.40	6.51	\$ 4,268

A summary of nonvested share activity for the nine months ended June 30, 2008 is presented below:

	Number of Shares	Weighted Average Fair Market Value At Grant
	(Dollars in Thousands, Except Share and Per Share Data)	
Nonvested shares outstanding, September 30, 2007	6,666	\$ 24.43
Granted	—	—
Vested	—	—
Forfeited or expired	—	—
Nonvested shares outstanding, June 30, 2008	6,666	\$ 24.43

As of June 30, 2008, stock based compensation expense not yet recognized in income totaled \$830,700 which is expected to be recognized over a weighted average remaining period of 1.07 years.

## NOTE 7. SEGMENT INFORMATION

An operating segment is generally defined as a component of a business for which discrete financial information is available and whose results are reviewed by the chief operating decision-maker. Operating segments are aggregated into reportable segments if certain criteria are met. The Company has determined that it has two reportable segments. The first reportable segment, traditional banking, consists of its banking subsidiary, MetaBank. MetaBank operates as a traditional community bank providing deposit, loan and other related products to individuals and small businesses, primarily in the communities where their offices are located. The second reportable segment, Meta Payment Systems<sup>®</sup> ("MPS"), is a division of MetaBank. MPS provides a number of products and services, to financial institutions and other businesses. These products and services include issuance of prepaid debit cards, sponsorship of ATMs into the debit networks, credit programs, ACH origination services, gift card programs, rebate programs, travel programs, and tax related programs. Other programs are in the process of development. The remaining grouping under the caption "All Others" consists of the operations of Meta Financial Group, Inc. and Meta Trust Company<sup>®</sup> and inter-segment eliminations. MetaBank WC is accounted for as discontinued bank operations. It is reported as part of the traditional banking segment and has been separately classified to show the effect of continuing operations. Transactions between affiliates, the resulting revenues of which are shown in the intersegment revenue category, are conducted at market prices, meaning prices that would be paid if the companies were not affiliates. The following tables present segment data for the Company for the three and nine months ended June 30, 2008 and 2007, respectively.

	<u>Traditional Banking</u>	<u>Meta Payment Systems<sup>®</sup></u>	<u>All Others</u>	<u>Total</u>
<b>Three Months Ended June 30, 2008</b>

## NOTE 8. NEW ACCOUNTING PRONOUNCEMENTS

At its September 2006 meeting, the Emerging Issues Task Force (“EITF”) reached a final consensus on Issue No. 06-04, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements*. The consensus stipulates that an agreement by an employer to share a portion of the proceeds of a life insurance policy with an employee during the postretirement period is a postretirement benefit arrangement required to be accounted for under Statement No. 106 (“SFAS No. 106”) or Accounting Principles Board (“APB”) Opinion No. 12, *Omnibus Opinion - 1967*. The consensus concludes that the purchase of a split-dollar life insurance policy does not constitute a settlement under SFAS No. 106 and, therefore, a liability for the postretirement obligation must be recognized under SFAS No. 106 if the benefit is offered under an arrangement that constitutes a plan or under APB No. 12 if it is not part of a plan. Issue 06-04 is effective for the Company beginning October 1, 2008. The Company has endorsement split-dollar life insurance policies and is currently assessing the financial statement impact of implementing EITF 06-04.

In February 2007, the FASB issued FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities — Including an Amendment of FASB Statement No. 115* (“SFAS No. 159”). SFAS No. 159 permits companies to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The objective of SFAS No. 159 is to provide opportunities to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply hedge accounting principles. SFAS No. 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The Statement is effective for financial statements issued for the year beginning after November 15, 2007. The Company is currently evaluating the impact that the Statement will have on its consolidated financial statements.

At its March 2007 meeting, the EITF reached a final consensus on Issue No. 06-10, *Accounting for Collateral Assignment Split-Dollar Life Insurance Arrangements*. A consensus was reached that an employer should recognize a liability for the postretirement benefit related to a collateral assignment split-dollar life insurance arrangement in accordance with either FASB Statement No. 106 or APB Opinion No. 12, as appropriate, if the employer has agreed to maintain a life insurance policy during the employee’s retirement or provide the employee with a death benefit based on the substantive agreement with the employee. A consensus also was reached that an employer should recognize and measure an asset based on the nature and substance of the collateral assignment split-dollar life insurance arrangement. The consensus is effective for the Company beginning October 1, 2008, including interim periods within those fiscal years, with early application permitted. The Company has endorsement split-dollar life insurance policies and is currently assessing the financial statement impact of implementing EITF 06-10.

In September 2006, the FASB issued Statement No. 157, (“SFAS No. 157”), *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts. SFAS No. 157 does not require any new fair value measurements, but rather, it provides enhanced guidance to other pronouncements that require or permit assets or liabilities to be measured at fair value. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, with earlier adoption permitted. The Company does not expect that the adoption of SFAS No. 157 will have a material impact on its financial position, results of operation and cash flows.

Part I. Financial Information

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

**META FINANCIAL GROUP, INC.®.  
AND SUBSIDIARIES**

**FORWARD LOOKING STATEMENTS**

The Company, and its wholly-owned subsidiaries, MetaBank and Meta Trust, may from time to time make written or oral "forward-looking statements," including statements contained in its filings with the Securities and Exchange Commission, in its reports to shareholders, and in other communications by the Company, which are made in good faith by the Company pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements include statements with respect to the Company's beliefs, expectations, estimates, and intentions that are subject to significant risks and uncertainties, and are subject to change based on various factors, some of which are beyond the Company's control. Such statements address, among others, the following subjects: future operating results; customer retention; loan and other product demand; important components of the Company's balance sheet and income statements; growth and expansion; new products and services, such as those offered by MPS or MetaBank; credit quality and adequacy of reserves; technology; and our employees. The following factors, among others, could cause the Company's financial performance to differ materially from the expectations, estimates, and intentions expressed in such forward-looking statements: the strength of the United States economy in general and the strength of the local economies in which the Company conducts operations; the effects of, and changes in, trade, monetary, and fiscal policies and laws, including interest rate policies of the Federal Reserve Board; inflation, interest rate, market, and monetary fluctuations; the timely development of and acceptance of new products and services offered by the Company as well as risks (including litigation) attendant thereto and the perceived overall value of these products and services by users; the risks of dealing with or utilizing third-party vendors; the impact of changes in financial services' laws and regulations; technological changes, including but not limited to the protection of electronic files or databases; acquisitions; risk in general, including but not limited to those risks involving the MPS division; the growth of the Company's business as well as expenses related thereto; changes in consumer spending and saving habits; and the success of the Company at managing and collecting assets of borrowers in default.

The foregoing list of factors is not exclusive. Additional discussions of factors affecting the Company's business and prospects are contained in the Company's periodic filings with the SEC. The Company expressly disclaims any intent or obligation to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company or its subsidiaries.

**GENERAL**

The Company is a unitary savings and loan holding company whose primary subsidiary is MetaBank. The Company was incorporated in 1993 as a unitary non-diversified savings and loan holding company that, on September 20 of that year, acquired all of the capital stock of MetaBank, a federal savings bank, in connection with MetaBank's conversion from mutual to stock form of ownership. On September 30, 1996, the Company became a bank holding company in conjunction with the acquisition of MetaBank WC, a state-chartered commercial bank. Finally, in connection with a transaction that closed on March 28, 2008, whereby the Company sold its ownership interest in MetaBank WC, the Company again became a unitary savings and loan holding company regulated by the Office of Thrift Supervision. The sale of MetaBank WC has been accounted for as discontinued bank operations.

The following discussion focuses on the consolidated financial condition of the Company and its subsidiaries, at June 30, 2008, compared to September 30, 2007, and the consolidated results of operations for the three and nine

months ended June 30, 2008 and 2007. This discussion should be read in conjunction with the Company's consolidated financial statements, and notes thereto, for the year ended September 30, 2007.

## **CORPORATE DEVELOPMENTS AND OVERVIEW**

The MPS division continued to demonstrate significant growth on a year-over-year basis. Fiscal third quarter 2008 MPS-related card fee income grew 107% as all product lines were higher than the same period in fiscal 2007. The division also continued to exhibit product innovation as five additional patents were filed during the quarter. The iAdvance micro lending product, which provides a line of credit on prepaid cards, is continuing its pilot program and performance thus far has validated management's expectations.

The Bank continues to build on its expansion in the growing metropolitan areas of Sioux Falls, South Dakota and Des Moines, Iowa. The Bank has added seven branches in approximately the past seven years in these markets. The Bank focuses primarily on establishing lending and deposit relationships with commercial businesses and commercial real estate developers in these communities. During the second quarter of fiscal 2008, the Company sold its commercial banking subsidiary, MetaBank WC, which included three branches in rural West-Central Iowa. The transaction closed March 28, 2008. The Company is now a unitary savings and loan holding company, and not a bank holding company, and is subject to the jurisdiction of the Office of Thrift Supervision ("OTS"). This transaction allows the Company to increase its focus on higher growth markets and business lines. The Bank now operates 13 retail banking branches: in Brookings (1) and Sioux Falls (4), South Dakota, in Des Moines (6) and Storm Lake (2), Iowa and a non-retail service branch in Memphis, Tennessee.

The Company's stock trades on the NASDAQ Global Market under the symbol "CASH."

## **FINANCIAL CONDITION**

As of June 30, 2008, the Company's assets grew by \$95.6 million, or 13.9%, to \$781.7 million compared to \$686.1 million at September 30, 2007, including the sale of approximately \$41.0 million of assets as part of the MetaBank WC sale during the second quarter of fiscal 2008. The increase in assets was reflected primarily in increases in the Company's securities, loan portfolios and other assets offset in part by decreases in the Company's cash, federal funds sold and assets related to discontinued operations.

Total cash and cash equivalents and federal funds sold were \$27.6 million at June 30, 2008, a decrease of \$58.7 million, or 68.0%, from \$86.3 million at September 30, 2007. The decrease primarily was the result of the Company's loan growth and decision to purchase mortgage-backed securities during the first three quarters. In general, the Company maintains its cash investments in interest-bearing overnight deposits with various correspondent banks. Federal funds sold deposits are maintained at various large commercial banks.

Investment securities available for sale, including mortgage-backed securities, increased \$73.8 million, or 46.5%, to \$232.5 million at June 30, 2008, as investment purchases exceeded related maturities, sales, and principal paydowns. The Company's portfolio of investment securities available for sale consists primarily of mortgage-backed securities with balloon maturities, which have relatively short expected lives and limited maturity extension risk. During the nine month period ended June 30, 2008, the Company purchased \$102.8 million of mortgage-backed securities with average lives of three to four years or stated finals of approximately eleven years or less.

The Company's portfolio of net loans receivable increased \$67.7 million, or 19.0%, to \$423.3 million at June 30, 2008. The Company's loan growth primarily relates to strong demand for commercial real estate and agricultural operating loans.

Bond insurance receivable increased \$4.1 million at June 30, 2008 due to the Company recording a receivable during the first quarter of fiscal 2008 from our insurance company related to an anticipated recovery of certificate of deposit fraud.

Other assets increased \$37.3 million to \$45.3 million at June 30, 2008 from \$8.0 million at September 30, 2007. The increase was primarily related to an increase in prepaid card funding in transit items at MPS.

Assets related to discontinued operations, held for sale, decreased 100.0% or \$35.8 million from the levels at September 30, 2007 due to the sale of MetaBank WC on March 28, 2008. See Note 2 to the Notes to Condensed Consolidated Financial Statements for further discussion on discontinued operations.

Total deposits increased \$21.5 million, or 4.1%, to \$544.5 million at June 30, 2008. The majority of this increase related to an increase in non-interest-bearing checking deposits due to growth at MPS, although non-MPS deposits grew as well. The Company's deposit mix continues to shift from higher costing certificates of deposit and money market deposits toward low- and no-cost checking deposits.

Total borrowings increased \$97.7 million, or 124.5%, much of which is due to a short-term borrowing need at the end of the quarter, from \$78.5 million at September 30, 2007 to \$176.2 million at June 30, 2008.

The Company's contingent liability for potential loss on a certificates of deposit and check fraud increased \$4.3 million for the nine month period ended June 30, 2008 as compared to the prior year. This liability is offset by the above referenced bond insurance receivable recorded during the first quarter of fiscal 2008.

Liabilities related to discontinued operations, held for sale, decreased 100.0% or \$30.9 million from the levels at September 30, 2007 due to the sale of MetaBank WC on March 28, 2008. See Note 2 to the Notes to Condensed Consolidated Financial Statements for further discussion on discontinued operations.

At June 30, 2008, the Company's shareholders' equity totaled \$49.4 million, up \$1.3 million from \$48.1 million at September 30, 2007. The increase was related to an increase in the fiscal 2008 year-to-date net income (see "Results of Operations" below) partially offset by the decrease in gain on the Company's available for sale portfolio and payment of dividends on the Company's common stock. At June 30, 2008, MetaBank continues to meet regulatory requirements for classification as well-capitalized institution.

#### **Non-performing Assets and Allowance for Loan Losses**

Generally, when a loan becomes delinquent 90 days or more or when the collection of principal or interest becomes doubtful, the Company will place the loan on a non-accrual status and, as a result of this action, previously accrued interest income on the loan is taken out of current income. The loan will remain on non-accrual status until the loan has been brought current or until other circumstances occur that provide adequate assurance of full repayment of interest and principal.

At June 30, 2008, the Company's loan portfolio exhibited strong credit quality with 30+ day delinquencies of \$4.6 million, or 1.08% of total loans compared to \$7.2 million, or 1.9% of total loans, at September 30, 2007.

At June 30, 2008, commercial and multi-family real estate 30+ day delinquencies totaled \$272,000, or 0.06% of total loans. This compares to \$1.6 million or 0.45% of total loans at September 30, 2007. Multi-family and commercial real estate loans generally present different risks than loans secured by one-to-four family residences, including, but not limited to, the concentration of principal in a limited number of loans and borrowers, the effect of general economic conditions on income producing properties and the higher level of difficulty of evaluating and monitoring these types of loans.

## Table of Contents

At June 30, 2008, commercial business 30+ day delinquencies totaled \$2.1 million, or 0.50% of total loans. This compares to \$4.8 million, or 1.32% of total loans, at September 30, 2007. Risks being associated with commercial business lending include, but are not limited to: payments on loans are typically dependent on the cash flows derived from the operation or management of the business to which the loan is made. Repayment of such loans may also be affected by factors outside the control of the business, such as unforeseen changes in economic conditions for the business, the industry in which the business operates or the general economic environment.

At June 30, 2008, agricultural 30+ day delinquencies totaled \$153,000, or 0.04% of total loans. This compares to \$163,000, or 0.05% of total loans, at September 30, 2007. Agricultural lending also typically involves larger loan amounts. In addition, payments on loans are dependent on the successful operation or management of the farm property securing the loan or for which an operating loan is utilized. The success of the loan may also be affected by factors outside the control of the agricultural borrower, such as the weather and grain and livestock prices.

The Company believes that the level of allowance for loan losses adequately reflects potential risks related to these loans; however there can be no assurance that all loans will be fully collectible or that the present level of the allowance will be adequate in the future. See "Allowance for Loan Losses."

The table below sets forth the amounts and categories of non-performing assets in the Company's loan portfolio. Foreclosed assets include assets acquired in settlement of loans. Balances related to discontinued bank operations have been eliminated for all periods presented.

	Non-performing Assets As Of	
	June 30, 2008	September 30, 2007
	(Dollars in Thousands)	
Non-accruing loans:

Commercial and multi-family	—	229
Consumer	—	24
Commercial business	—	65
Total foreclosed assets, net	—	318
Total non-performing assets	\$ 2,812	\$ 2,611
Non-performing assets as a percentage of total assets	0.36 %	0.38 %

*Classified assets.* Federal regulations provide for the classification of loans and other assets such as debt and equity securities considered by the OTS to be of lesser quality as “substandard”, “doubtful” or “loss.” An asset is considered “substandard” if it is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. “Substandard” assets include those characterized by the “distinct possibility” that the savings association will sustain “some loss” if the deficiencies are not corrected. Assets classified as “doubtful” have all the weaknesses inherent in those classified as “substandard,” with the added characteristic that the weaknesses present make “collection or liquidation in full,” on the basis of currently existing facts, conditions and values, “highly questionable and improbable.” Assets classified as “loss” are those considered “uncollectible” and of such minimal value that their continuance as assets without the establishment of a specific reserve is not warranted. When assets are classified as either substandard or doubtful, the Bank may establish general allowances for loan losses in an amount deemed prudent by management. General allowances represent loss allowances which have been established to recognize the inherent risk associated with lending activities, but which, unlike specific allowances, have not been allocated to particular problem assets. When assets are classified as “loss,” the Bank is required either to establish a specific allowance for loan losses equal to 100% of that portion of the asset so classified or to charge-off such amount. The Bank’s determination as to the classification of its assets and the amount of its valuation allowances are subject to review by its regulatory authorities, who may require the establishment of additional general or specific loss allowances. The discovery of additional information in the future may also affect both the level of classification and the amount of loss allowances.

On the basis of management’s review of its loans and other assets, at June 30, 2008, the Company had classified (from continuing operations) a total of \$7.8 million of its assets as substandard, \$61,000 as doubtful and none as loss. This compares to classifications at September 30, 2007 of \$6.0 million substandard, \$82,000 doubtful and none as loss.

*Allowance for loan losses.* The Company establishes its provision for loan losses, and evaluates the adequacy of its allowance for loan losses based upon a systematic methodology consisting of a number of factors including, among others, historic loss experience, the overall level of classified assets and non-performing loans, the composition of its loan portfolio and the general economic environment within which the Company and its borrowers operate.

Management closely monitors economic developments both regionally and nationwide, and considers these factors when assessing the adequacy of its allowance for loan losses. While the Company has no direct exposure to sub-prime mortgage loans, management reiterates and restates its concern that developments in the sub-prime mortgage market may have a direct effect on residential real estate prices and an indirect effect on the economy in general. In addition, the economic slowdown and increase in energy prices are straining the financial condition of some borrowers. Management therefore believes that future losses in the residential portfolio may be somewhat higher than historical experience. Over the past six years, loss rates in the commercial and multi-family real estate market have remained moderate. Management concludes that future losses in this portfolio may be somewhat higher than recent historical experience, excluding loan losses related to fraud by borrowers. On the other hand, current trends in agricultural markets continue to be very positive. Higher commodity prices as well as higher yields have created strong economic conditions for most farmers. Nonetheless, management still expects that future losses in this portfolio, which have been very low, could be higher than recent historical experience. Management believes that the slowdown in economic growth during this fiscal year may also negatively impact consumers’ repayment capacities. Additionally, a sizable portion of the Company’s consumer loan portfolio is secured by residential real estate, as discussed above, and is an area to be closely monitored by management in view of its stated concerns. Recent weather-related events, such as flooding, have occurred in the Bank’s markets. However, this has not resulted in any material impairment to the loans originated by the Bank. Notwithstanding these concerns, the loan portfolios’ delinquency trends strengthened during the quarter.

Management believes that, based on a detailed review of the loan portfolio, historic loan losses, current economic conditions, the size of the loan portfolio, and other factors, the current level of the allowance for loan losses at

June 30, 2008 reflects an adequate allowance against probable losses from the loan portfolio. Although the Company maintains its allowance for loan losses at a level that it considers to be adequate, investors and others are cautioned that there can be no assurance that future losses will not exceed estimated amounts, or that additional provisions for loan losses will not be required in future periods. In addition, the Company's determination of the allowance for loan losses is subject to review by its regulatory agencies, which can require the establishment of additional general or specific allowances.

At June 30, 2008, the Company has established an allowance for loan losses totaling \$4.7 million, or 168% of non-performing loans, compared to \$4.5 million, or 196% of non-performing loans at September 30, 2007.

The following table sets forth an analysis of the activity in the Company's allowance for loan losses for the three and nine months ended June 30, 2008 and 2007.

(Dollars in Thousands)	Three Months Ended June 30,		Nine Months Ended June 30,	
	2008	2007	2008	2007
				(As Restated)
Beginning balance	\$ 4,581	\$ 5,105	\$ 4,493	\$ 6,391
Provision for loan losses	125	(500)	195	3,338
Charge-offs	(1)	(420)	(30)	(5,589)
Recoveries	23	501	70	546
Ending balance	<u>\$ 4,728</u>	<u>\$ 4,686</u>	<u>\$ 4,728</u>	<u>\$ 4,686</u>

The allowance for loan losses reflects management's best estimate of probable losses inherent in the portfolio based on currently available information. In addition to the factors mentioned above, future additions to the allowance for loan losses may become necessary based upon changing economic conditions, increased loan balances or changes in the underlying collateral of the loan portfolio.

## CRITICAL ACCOUNTING POLICIES

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. The financial information contained within these statements is, to a significant extent, financial information that is based on approximate measures of the financial effects of transactions and events that have already occurred. Based on its consideration of accounting policies that involve the most complex and subjective decisions and assessments, management has identified its most critical accounting policies to be those related to the allowance for loan losses and asset impairment judgments including the recoverability of goodwill.

The Company's allowance for loan loss methodology incorporates a variety of risk considerations, both quantitative and qualitative, in establishing an allowance for loan loss that management believes is appropriate at each reporting date. Quantitative factors include the Company's historical loss experience, delinquency and charge-off trends, collateral values, changes in non-performing loans, and other factors. Quantitative factors also incorporate known information about individual loans, including borrowers' sensitivity to interest rate movements. Qualitative factors include the general economic environment in the Company's markets, including economic conditions throughout the Midwest and, in particular, the state of certain industries. Size and complexity of individual credits in relation to loan structure, existing loan policies, and pace of portfolio growth are other qualitative factors that are considered in the methodology. As the Company adds new products and increases the complexity of its loan portfolio, it will enhance its methodology accordingly. Management may have reported a materially different amount for the provision for loan losses in the statement of operations to

change the allowance for loan losses if its assessment of the above factors were different. This discussion and analysis should be read in conjunction with the Company's financial statements and the accompanying notes presented elsewhere herein, as well as the portion of this Management's Discussion and Analysis section entitled "Non-performing Assets and Allowance for Loan Losses." Although management believes the level of the allowance as of June 30, 2008 was adequate to absorb probable losses inherent in the loan portfolio, a decline in local economic conditions or other factors could result in increasing losses.

Goodwill represents the excess of acquisition costs over the fair value of the net assets acquired in a purchase acquisition. Goodwill is tested annually for impairment.

## RESULTS OF OPERATIONS

*General.* The Company's loss from continuing operations was \$410,000, or \$0.16 per diluted share, for the three months ended June 30, 2008 compared to income from continuing operations of \$2.4 million, or \$0.91 per diluted share, for the three months ended June 30, 2007. Including discontinued operations, the Company recorded net income of \$2.6 million, or \$0.96 per diluted share, for the same period in fiscal year 2007. Net earnings in the current period were impacted by increased income from card fees from MPS' programs and services and a higher provision for loan losses while earnings in the prior period were impacted by a pre-tax gain of \$3.3 million resulting from the sale of four branches in northwest Iowa.

Net earnings in the nine month period ended June 30, 2008 were impacted by a pre-tax gain of \$2.3 million resulting from the sale of the Company's commercial banking subsidiary, MetaBank WC. See Note 2 to the Notes to Condensed Consolidated Financial Statements for further discussion on discontinued operations. Additionally, earnings were impacted by increased income from card fees income from all of MPS' programs and services, loan growth and higher net interest income. In particular, MPS-related card fees for the current quarter grew by 107% over the period in the prior year. Offsetting these factors, in part, were higher operating expenses as MPS continued to build its management team, infrastructure and operational scalability and, to a lesser extent, increased income tax expense and an increased provision for loan losses.

The Company's income from continuing operations was \$3,000 for the nine months ended June 30, 2008 compared to \$781,000, or \$0.30 per diluted share, for the same period in fiscal year 2007. The Company recorded net income of \$1.9 million, or \$0.72 per diluted share, for the nine months ended June 30, 2008 compared to \$595,000, or \$0.23 per diluted share, for the same period in fiscal year 2007. Earnings for the nine month period ended June 30, 2008 were impacted by the aforementioned factors while earnings in the prior period were impacted by the recognition of an impairment on a commercial loan relationship which reduced pre-tax earnings by \$5.0 million.

*Net interest income.* Net interest income from continuing operations for the third quarter of fiscal year 2008 increased by \$892,000, or 17.5%, to \$6.0 million from \$5.1 million for the same period in the prior fiscal year. Higher interest-earning assets primarily contributed to this increase. Net interest margin decreased 13 basis points to 3.32% in the current quarter. Total asset yields were 5.09%, down 111 basis points for the same quarter last year. Total liability costs fell 104 basis points to 1.73% in the current quarter. Non-interest-bearing checking comprises 63% of total deposits at June 30, 2008 compared to 50% at September 30, 2007. Average non-interest-bearing deposits as a percent of total average deposits and interest-bearing liabilities was 49% in the current quarter compared to 39% the same quarter a year ago. For the nine month period ended June 30, 2008 net interest income was \$17.5 million compared to \$15.5 million for the same period in the prior fiscal year. Net interest margin was 3.45% for the nine months ended June 30, 2008, up 15 basis points from 3.30% for the same period in the prior fiscal year.

## Table of Contents

The following table presents, for the periods indicated, the Company's total dollar amount of interest income from average interest-earning assets and the resulting yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars and rates. No tax equivalent adjustments have been made. Non-accruing loans have been included in the table as loans carrying a zero yield. Balances related to discontinued bank operations have been reclassified to non-interest-earning assets and non-interest-bearing liabilities for all periods presented.

Three Months Ended June 30, (Dollars in Thousands)	2008			2007

*Provision for loan loss.* The Company recorded a provision for loan losses in the third quarter of fiscal year 2008 of \$125,000 compared to a negative provision of \$500,000 for the same period in the prior fiscal year. For the nine months ended June 30, 2008 the Company recorded a provision of \$195,000 compared to a provision of \$3.3 million for the same period in the prior fiscal year. Due to favorable positive delinquency trends in the Company's loan portfolio, the Company was able to maintain the level of required loan loss allowances in the current year. The provision recorded in the same period in the prior fiscal year was directly related to a \$5.0 million provision on a purchased participation loan relationship. See "Non-performing Assets and Allowance for Loan Losses" herein.

*Non-interest income.* Non-interest income increased by \$573,000, or 7.2%, to \$8.5 million from \$8.0 million in the prior fiscal year third quarter. The increase is the result of higher fee income earned on prepaid debit cards, income tax related programs and other products and services offered by MPS. Fees earned on prepaid debit cards, tax related programs and other payment systems products and services were \$7.5 million for the third quarter of fiscal year 2008, compared to \$3.6 million for the same quarter in fiscal year 2007. For the nine months ended June 30, 2008, non-interest income increased by \$10.4 million, or 63.0%, to \$26.9 million from \$16.5 million for the same period in the prior fiscal year. Fees earned on prepaid debit cards and other payment systems products and services were \$24.5 million for the nine months ended June 30, 2008, compared to \$10.9 million for the same period in fiscal year 2007. Noninterest income in the prior year was impacted by a pre-tax gain of \$3.3 million resulting from the sale of four branches in northwest Iowa.

*Non-interest expense.* Non-interest expense increased by \$5.6 million, or 58.9%, to \$15.1 million for the third quarter of fiscal year 2008 from \$9.5 million for the same quarter in fiscal year 2007. Non-interest expense increased by \$17.2 million, or 63.5%, to \$44.3 million for the nine months ended June 30, 2008 from \$27.1 million for the same period in fiscal year 2007.

Compensation expense rose \$1.8 million on a quarter over quarter basis to \$6.6 million. For the nine months ended June 30, 2008, compensation expense totaled \$18.8 million, compared to \$13.2 million for the same period in the prior fiscal year. The increase represents the addition of executive level management, client relations, compliance and operations support staff within MPS, as well as software developers, Information Technology ("IT") support staff, and other administrative support within the Company. Many of the new employees at MPS and in IT are focused on developing and supporting new product lines and increasing market penetration of our payments systems products and services. Management expects that payroll costs will continue to increase as MPS issues more cards and offers new and expanded products and services.

Costs associated with the operational support of card-related products at MPS also increased. Card processing expenses rose \$2.0 million from \$1.6 million in the third quarter of fiscal year 2007 to \$3.6 million in the current quarter as a result of the significant growth in the division's product lines. For the nine months ended June 30, 2008, card processing expense totaled \$11.7 million, compared to \$4.8 million for the same period in the prior fiscal year. These expenses primarily stem from prepaid card programs managed by MPS. Other card processing expense increases are attributable to settlement functions for value loading, card sales and anticipated growth of existing products. Management expects that these costs will continue to increase as MPS issues more cards and offers new and expanded products and services.

The Company's occupancy and equipment expense also rose during the third quarter of fiscal year 2008 as compared to the same period in the prior fiscal year, primarily driven by the addition of administrative office space in Sioux Falls, SD, and Omaha, NE, and a new branch/administrative office in downtown Des Moines, IA, as well as investment in computer hardware and software, primarily to support growth at MPS. Occupancy and equipment expense for the third quarter of fiscal year 2008 was \$1.7 million compared to \$867,000 for the same period in fiscal year 2007. Occupancy and equipment expense for the nine months ended June 30, 2008 was \$4.8 million compared to \$2.8 million for the same period in fiscal year 2007. Management expects that occupancy and equipment costs will continue to increase as MPS issues more cards and offers new and expanded products and services.

*Income tax expense/benefit.* Income tax benefit from continuing operations for the third quarter of fiscal year 2008 was \$335,000, or an effective tax rate of 45.0%, compared to income tax expense of \$1.6 million, or an effective tax rate of 40.2%, for the same period in the prior fiscal year. The change is primarily due to the change in income (loss) from continuing operations before income tax expense. For the nine months ended June 30, 2008, the Company recorded an income tax benefit from continuing operations in the amount of \$54,000, or an effective tax rate of 105.9%, compared to income tax expense of \$795,000, or an effective tax rate of 50.4% for the same period in the prior fiscal year. The change is due primarily to the change in net income before income tax expense. The Company's recorded income tax expense was also impacted by permanent differences between book and taxable income.

*Discontinued Operations.* The Company reported no income from discontinued operations for the three months ended June 30, 2008 compared to income of \$126,000 for the same period in the prior fiscal year. Income (loss) from discontinued operations was income of \$1.9 million for the nine months ended June 30, 2008 compared to a loss of \$186,000 for the same period in the prior fiscal year. The increase in earnings was primarily related to a pre-tax gain on sale of discontinued operations in the current fiscal year of \$2.3 million. See Note 2 to the Notes to Condensed Consolidated Financial Statements for further discussion on discontinued operations.

## **LIQUIDITY AND CAPITAL RESOURCES**

The Company's primary sources of funds are deposits, borrowings, principal and interest payments on loans and mortgage-backed securities, and maturing investment activities. While scheduled loan repayments and maturing investments are relatively predictable, deposit flows and early loan repayments are influenced by the level of interest rates, general economic conditions, and competition.

The Company uses its capital resources principally to meet ongoing commitments to fund maturing certificates of deposits and loan commitments, to maintain liquidity, and to meet operating expenses. At June 30, 2008, the Company had commitments to originate and purchase loans totaling \$62.4 million. The Company believes that loan repayment and other sources of funds will be adequate to meet its foreseeable short- and long-term liquidity needs.

Regulations require MetaBank to maintain minimum amounts and ratios of total risk-based capital and Tier 1 capital to risk-weighted assets, and a leverage ratio consisting of Tier 1 capital to average assets. The following table sets forth MetaBank's actual capital and required capital amounts and ratios at June 30, 2008 which, at that date, exceeded the minimum capital adequacy requirements.

At June 30, 2008	Actual		Minimum Requirement For Capital Adequacy Purposes		Minimum Requirement to Be Well Capitalized Under Prompt Corrective Active Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
	(Dollars in Thousands)					
MetaBank						
Tangible capital (to tangible assets)	\$ 57,841	7.35 %	\$ 11,809	1.50 %	n/a	n/a
Tier 1 (core) capital (to adjusted total assets)	57,841	7.35	31,491	4.00	\$ 39,364	5.00 %
Tier 1 (core) capital (to risk-weighted assets)	57,841	10.28	22,507	4.00	33,761	6.00
Total risk-based capital (to risk-weighted assets)	61,380	10.91	45,015	8.00	56,269	10.00

The Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) established five regulatory capital categories and authorized the banking regulators to take prompt corrective action with respect to institutions in an undercapitalized category. At June 30, 2008, MetaBank exceeded minimum requirements for the well capitalized category.

## OTHER RECENT MATTERS

The Company utilizes various third parties for, among other things, its processing needs, both with respect to standard bank operations and with respect to its MPS division. MPS was notified in April 2008 by one of the processors that the processor's computer system had been breached, which led to the unauthorized load and spending of funds from Bank-issued cards. At this point the Bank believes the amount in question to be approximately \$2.0 million and the processor has notified its insurer. Appropriate law enforcement agencies have been notified, and remedial measures have been instituted with respect to such processor, as the Bank, the processor, and program manager continue to investigate. The processor and program manager both have agreements with the Bank to indemnify it for any losses as a result of such unauthorized activity, and have additionally notified the Bank that they are sufficiently insured for such events. In addition, the Bank has given notice to its own insurer. As a result, the Bank does not presently anticipate any loss with respect to this event. As of June 30, 2008, the Bank has been advised that the insurance claims filed by its third parties are still pending, and, at this time, the Bank is further evaluating its options in connection with the indemnification agreements.

After the close of the quarter, the Company learned that a borrower of the Bank had likely participated in a fraud on the Bank (and likely other banks). This borrower, who as of quarter end had five loans with the Bank aggregating \$8.1 million, recently died. The Bank is conducting an investigation of the suspected fraud, and is evaluating the extent and condition of collateral securing the loans, potential action against the estate of the borrower, potential insurance recoveries, and other factors. The Company has not yet been able to reach a conclusion as to whether the loss, if any, is material.

Part I. Financial Information

Item 3. Quantitative and Qualitative Disclosure About Market Risk

**MARKET RISK**

The Company is exposed to the impact of interest rate changes and changes in the market value of its investments.

The Company originates predominantly adjustable-rate loans and fixed-rate loans up to ten years. Long-term fixed-rate residential mortgages are generally sold into the secondary market. As a result of its lending practices, the Company's loan portfolio is relatively short in duration and yields respond quickly to the overall level of interest rates.

The Company's primary objective for its investment portfolio is to provide the liquidity necessary to meet the Company's cash demands. This portfolio may also be used in the ongoing management of interest rate risk. As a result, funds may be invested among various categories of security types and maturities based upon the Company's need for liquidity and its desire to create an economic hedge against the effects changes in interest rates may have on the overall market value of the Company.

The Company offers a full range of deposit products which are generally short term in nature. Interest-bearing checking, savings, and money market accounts generally provide a stable source of funds for the bank and also respond relatively quickly to changes in short term interest rates. The Company offers certificates of deposit with maturities of three months through five years, which serve to extend the duration of the overall deposit portfolio. A significant and increasing portion of the Company's deposit portfolio is concentrated in non-interest-bearing checking accounts. These accounts serve to decrease the Company's overall cost of funds and reduce its sensitivity to changes in short term interest rates.

The Company also maintains a portfolio of wholesale borrowings, predominantly advances from the Federal Home Loan Bank which carry fixed terms and fixed rates of interest. The Company utilizes this portfolio to manage liquidity demands and also, when appropriate, in the ongoing management of interest rate risk.

The Board of Directors, as well as the Office of Thrift Supervision, has established limits on the level of acceptable interest rate risk. There can be no assurance, however, that, in the event of an adverse change in interest rates, the Company's efforts to limit interest rate risk will be successful.

*Net Portfolio Value.* The Company uses a Net Portfolio Value ("NPV") approach to the quantification of interest rate risk. This approach calculates the difference between the present value of expected cash flows from assets and the present value of expected cash flows from liabilities, as well as cash flows from any off-balance sheet contracts. Management of the Company's assets and liabilities is performed within the context of the marketplace, but also within limits established by the Board of Directors on the amount of change in NPV that is acceptable given certain interest rate changes.

## Table of Contents

Presented below (including discontinued operations), as of June 30, 2008 and September 30, 2007, is an analysis of the Company's interest rate risk as measured by changes in NPV for an instantaneous and sustained parallel shift in the yield curve, in 100 basis point increments, up and down 200 basis points. At June 30, 2008, the Company was more exposed to a decline in market value in a rising interest rate environment compared to September 30, 2007. At both June 30, 2008 and September 30, 2007, the Company's interest rate risk profile was within the limits set by the Board of Directors. As of June 30, 2008, MetaBank's interest rate risk profile was within the limits set forth by the Office of Thrift Supervision.

Change in Interest Rates (Basis Points)	Board Limit % Change	At June 30, 2008		At September 30, 2007	
		\$ Change	% Change	\$ Change	% Change
(Dollars in thousands)					
+200 bp	(20)%	\$ (8,740)	(11)%	\$ (606)	(1)%
+100 bp	(10)	(4,116)	(5)	(221)	(1)
0 bp (Base Case)	—	—	—	—	—
-100 bp	(10)	2,557	3	(545)	(1)
-200 bp	(20)	1,413	2	(3,226)	(4)

Certain shortcomings are inherent in the method of analysis presented in the preceding table. For example, although certain assets and liabilities may have similar maturities or periods to repricing, they may react in different degrees to changes in market interest rates. Also, the interest rates on certain types of assets and liabilities may fluctuate in advance of changes in market interest rates, while interest rates on other types may lag behind changes in market rates. Additionally, certain assets, such as adjustable-rate mortgage loans, have features that restrict changes in interest rates on a short-term basis and over the life of the asset. Furthermore, although management has estimated changes in the levels of prepayments and early withdrawal in these rate environments, such levels would likely deviate from those assumed in calculating the table. Finally, the ability of some borrowers to service their debt may decrease in the event of an interest rate increase.

In addition to the NPV approach, the Company also reviews gap reports, which measure the differences in assets and liabilities repricing in given time periods, and net income simulations to assess its interest rate risk profile. Management reviews its interest rate risk profile on a quarterly basis.

## **CONTROLS AND PROCEDURES**

Any control system, no matter how well designed and operated, can provide only reasonable (not absolute) assurance that its objectives will be met. Furthermore, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

## **DISCLOSURE CONTROLS AND PROCEDURES**

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures, as such term is defined in Rules 13a — 15(e) and 15d — 15(e) of the Securities Exchange Act of 1934 (Exchange Act) as of the end of the period covered by the report.

Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2008 our disclosure controls and procedures were effective to provide reasonable assurance that (i) the information required to be disclosed by us in this Report was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

## **INTERNAL CONTROL OVER FINANCIAL REPORTING**

With the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, the Company also conducted an evaluation of the Company's internal control over financial reporting to determine whether any changes occurred during the Company's fiscal quarter ended June 30, 2008, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. Based on such evaluation, management concluded that, as of the end of the period covered by this report, there have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15 (f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II - OTHER INFORMATION**

**FORM 10-Q**

- Item 1. Legal Proceedings - See “Legal Proceedings” of Note 5 to the Notes to Condensed Consolidated Financial Statements, which is incorporated herein by reference.
- Item 1A. Risk Factors - In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended September 30, 2007. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also materially and adversely affect us.
- Item 2. Unregistered Sales of Equity Securities and Use of Proceeds - None
- Item 3. Defaults Upon Senior Securities - None
- Item 4. Submission of Matters to a Vote of Security Holders - None
- Item 5. Other Information - None
- Item 6. Exhibits  
(a) Exhibits:
- 31.1 Section 302 certification of Chief Executive Officer.
  - 31.2 Section 302 certification of Chief Financial Officer.
  - 32.1 Section 906 certification of Chief Executive Officer.
  - 32.2 Section 906 certification of Chief Financial Officer.

**META FINANCIAL GROUP, INC.**

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

**CERTIFICATION PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, J. Tyler Haahr, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Meta Financial Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (c) Disclosed in this report any changes in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter ended June 30, 2008, that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
