ESSEX ANNOUNCES THIRD QUARTER 2021 RESULTS AND INCREASES FULL-YEAR 2021 GUIDANCE

San Mateo, California—October 26, 2021—Essex Property Trust, Inc. (NYSE: ESS) (the "Company") announced today its third quarter 2021 earnings results and related business activities.

Net Income, Funds from Operations ("FFO"), and Core FFO per diluted share for the three and nine months ended September 30, 2021 are detailed below.

	Three Mo	onths Ended		Nine Mo		
	Septer	September 30, % September 30,			nber 30,	%
	2021	2020	Change	2021	2020	Change
Per Diluted Share	·					
Net Income	\$1.82	\$1.13	61.1%	\$5.40	\$7.21	-25.1%
Total FFO	\$3.34	\$2.88	16.0%	\$9.67	\$9.53	1.5%
Core FFO	\$3.12	\$3.15	-1.0%	\$9.24	\$9.80	-5.7%

Third Quarter 2021 Highlights:

- Reported Net Income per diluted share for the third quarter of 2021 of \$1.82, compared to \$1.13 in the third quarter of 2020 due to a higher gain on sale of real estate and no loss on early retirement of debt in the current quarter.
- · Reported Core FFO per diluted share of \$3.12, exceeding the high-end of the Company's guidance range due to better-than-expected operating results.
- Same-property revenues and net operating income ("NOI") increased by 2.7% and 2.2%, respectively, compared to the third quarter of 2020. The improvement is largely attributed to declining concessions in the current period compared to the prior-year period.
- · Same-property sequential revenues increased 3.2% led by an increase in scheduled rents and lower levels of concessions and delinquencies.
- Acquired one apartment community for \$53.0 million and two operating commercial properties for future apartment development for contract prices totaling \$86.0 million.
- Increased full-year Net Income per diluted share guidance range to \$6.39 to \$6.49. Provided Net Income guidance range for the fourth quarter of 2021 of \$0.99 to \$1.09 per diluted share.
- Raised the midpoint of full-year guidance for same-property revenues and NOI by 0.2% and 0.3% respectively. Raised full-year Core FFO per diluted share guidance by \$0.11 at the midpoint, to \$12.44, representing a 2.3% increase from the midpoint of the Company's original guidance.

"For the second consecutive quarter, we are pleased to report Core FFO that exceeded our expectations, driven by improving net effective rent growth. The economic recovery on the West Coast has led to a significant increase in demand for housing and September net effective rents are 6.4% above pre-COVID levels for our portfolio. The strong recovery in fundamentals and rents has led us to increase our guidance for the third time this year. We remain cautiously optimistic that the West Coast is still in the early stages of the recovery with office re-openings and associated economic growth representing an additional catalyst for continuous rental demand," commented Michael J. Schall, President and CEO of the Company.

INVESTMENT ACTIVITY

Real Estate

In September 2021, the Company purchased Third & Broad, a fully leased single tenant commercial property located in downtown Seattle, WA for \$52.5 million. The Company will hold the property for future apartment development.

In September 2021, the Company purchased 7 South Linden, a commercial property located in South San Francisco, CA for \$33.5 million. The property is fully leased to two commercial tenants. The Company is currently pursuing entitlements to construct an apartment community on the property.

In September 2021, the Company formed a new joint venture, Wesco VI, LLC, ("Wesco VI") with the State of Wisconsin Investment Board with a \$150.0 million equity commitment from each partner and total purchasing power of up to \$660.0 million. Essex has a 50% ownership interest in the venture. Wesco VI acquired two apartment communities for a combined contract price of \$108.0 million. Both communities are located in Snohomish County, WA and contain 294 apartment homes. One of these properties closed during the third quarter of 2021 and the other occurred subsequent to quarter end.

Dispositions

In August 2021, the Company sold a non-core multifamily community containing 276 apartment homes in Hemet, CA for a total contract price of \$54.5 million. The Company recognized a \$42.9 million gain on sale, which has been excluded from Core FFO.

Other Investments

In the third quarter of 2021, the Company originated two preferred equity investments totaling \$37.2 million. The investments have a weighted average initial preferred return of 12.2% and were partially funded in the third quarter.

Subsequent to quarter end, the Company originated a subordinated loan investment totaling \$50.0 million with an 11.0% return. This investment will fund concurrent with the senior construction loan which is scheduled to begin funding in the second half of 2022.

In August 2021, the Company received cash proceeds of \$21.6 million from the partial redemption of a preferred equity investment.

DEVELOPMENT ACTIVITY

The Company's sole development property in lease-up, Wallace on Sunset in Hollywood, CA, is 89.5% leased as of October 22, 2021.

JOHIDITY AND BALANCE SHEET

Common Stock

In the third quarter of 2021, the Company did not issue any shares of common stock through its equity distribution program or repurchase any shares through its stock repurchase plan.

Balance Sheet

In July 2021, Wesco 1, a joint venture in which the Company owns a 57.7% interest, refinanced five apartment communities with a new \$275.6 million secured term loan. The loan is priced at LIBOR + 1.35% and matures in 2026.

In September 2021, the Company amended and restated its \$1.2 billion unsecured line of credit facility. The amended facility includes a 5 basis point reduction in borrowing costs to LIBOR plus 0.775% and an extension of the maturity date to September 2025 with three 6-month extensions, exercisable at the Company's option. Additionally, the amended facility now incorporates a sustainability-linked pricing component which could reduce the borrowing spread up to 2.5 basis points if certain environmental goals are achieved.

As of October 22, 2021, the Company has approximately \$1.3 billion in liquidity via undrawn capacity on its unsecured credit facilities, cash, and marketable securities.

GUIDANC

FFO RECONCILIATION

FFO, as defined by the National Association of Real Estate Investment Trusts ("NAREIT"), is generally considered by industry analysts as an appropriate measure of performance of an equity REIT. Generally, FFO adjusts the net income of equity REITs for non-cash charges such as depreciation and amortization of rental properties, impairment charges, gains on sales of real estate and extraordinary items. Management considers FFO and FFO which excludes non-core items, which is referred to as "Core FFO," to be useful supplemental operating performance measures of an equity REIT because, together with net income and cash flows, FFO and Core FFO provide investors with additional bases to evaluate the operating performance and ability of a REIT to incur and service debt and to fund acquisitions and other capital expenditures and to pay dividends. By excluding gains or losses related to sales of depreciated operating properties and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help investors compare the operating performance of a real estate company between periods or as compared to different companies. By further adjusting for items that are not considered part of the Company's core business operations, Core FFO allows investors to compare the operating performance of the Company between periods or as compared to different companies. By further adjusting for items that are not considered part of the Company's core business operations, Core FFO allows investors to compare the core operating performance of the Company between periods or as compared to different companies. By further adjusting for items that are not considered part of the Company's core business of the core of the c

NET OPERATING INCOME ("NOI") AND SAME-PROPERTY NOI RECONCILIATIONS

NOI and Same-Property NOI are considered by management to be important supplemental performance measures to earnings from operations included in the Company's consolidated statements of income. The presentation of same-property NOI assists with the presentation of the Company's operations prior to the allocation of depreciation and any corporate-level or financing-related costs. NOI reflects the operating performance of a communities, in addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impacts to overhead by acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets. The Company defines same-property NOI as same-property operating expenses, including property taxes. Please see the reconciliation of earnings from operations to NOI and same-property NOI, which in the table below is the NOI for stabilized properties consolidated by the Company for the periods presented (dollars in thousands):

general economic conditions including the potential impacts from such economic conditions, including as a result of the COVID-19 pandemic and governmental measures intended to prevent its spread, trends affecting the Company's financial condition or results of operations, changes to U.S. tax laws and regulations in general or specifically related to REITs or real estate, changes to laws and regulations in jurisdictions in which communities the Company owns are located, and other information that is not historical information.

While the Company's management believes the assumptions underlying its forward-looking statements are reasonable, such forward-looking statements involve known and unknown risks, uncertainties and other factors, many of which are beyond the Company's control, which could cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The Company cannot assure the future results or outcome of the matters described in these statements; rather, these statements merely reflect the Company's current expectations of the approximate outcomes of the matters discussed. Factors that might cause the Company's actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements include, but are not limited to, the following: the continued impact of the COVID-19 pandemic and related variants, which remains inherently uncertain as to duration and severity, and any additional governmental measures taken to limit its spread and other potential future outbreaks of infectious diseases or other health concerns could continue to adversely affect the Company's business and its tenants, and cause a significant downturn in general economic conditions, the real estate industry, and the markets in which the Company's communities are located; the Company may fail to achieve its business objectives; the actual completion of development and redevelopment projects may be subject to delays; the stabilization dates of such projects may be delayed; the Company may abandon or defer development projects for a number of reasons, including changes in local market conditions which make development less desirable, increases in costs of development, increases in the cost of capital or lack of capital availability, resulting in losses; the total projected costs of current development and redevelopment projects may exceed expectations; such development and redevelopment and redevelopment projects and acquisitions may fail to meet expectations; estimates of future income from an acquired property may prove to be inaccurate; occupancy rates and rental demand may be adversely affected by competition and local economic and market conditions; there may be increased interest rates and operating costs; the Company may be unsuccessful in the management of its relationships with its co-investment partners; future cash flows may be inadequate to meet operating requirements and/or may be insufficient to provide for dividend payments in accordance with REIT requirements; changes in laws or regulations; the terms of any refinancing may not be as favorable as the terms of existing indebtedness; unexpected difficulties in leasing of development projects; volatility in financial and securities market; the Company's failure to successfully operate acquired properties; unforeseen consequences from cyber-intrusion; the Company's inability to maintain our investment grade credit rating with the rating agencies; government approvals, actions and initiatives, including the need for compliance with environmental requirements, and those further risks, special considerations, and other factors referred to in the Company's annual report on Form 10-K, quarterly reports on Form 10-Q, and other reports that the Company files with the SEC from time to time. Additionally, the risks, uncertainties and other factors set forth above or otherwise referred to in the reports that the Company has filed with the SEC may be further amplified by the global impact of the COVID-19 pandemic and related variants. All forward-looking statements are made as of the date hereof, the Company assumes no obligation to update or supplement this information for any reason, and therefore, they may not represent the Company's estimates and assumptions after the date of this press release.

The Company's share of the estimated total cost of the project.
 Net of the estimated allocation to the retail component of the project.

Calculations are based on multifamily operations only.
 Calculations are based on multifamily operations only.
 For the third quarter of 2021, the Company's cost includes \$1.1 million of capitalized interest, \$0.9 million of capitalized overhead and \$0.3 million of development fees (such development fees reduced G&A expenses).
 Cost incurred to date does not include a deduction of \$6.3 million for accumulated depreciation recorded during the period when the property was held as a retail operating asset and is net of cost incurred on the adjacent theatre at the property.
 Cost incurred to date and estimated total cost are net of a projected value for low income housing tax credit proceeds and the value of the tax exempt bond structure.

All data are based on Essex Property Trust, Inc. forecasts.

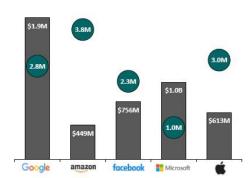

- (1) Residential Supply: Total supply includes the Company's estimate of multifamily deliveries of properties with 50+ units and excludes student, senior and 100% affordable housing communities. Single-family estimates are based on trailing single-family permits. Multifamily estimates incorporate a methodological assumption ("delay-adjusted supply") to reflect the anticipated impact of continued construction delays in Essex markets, given on-going construction labor constraints and supply-chain delays.
- (2) Job Forecast: Refers to the difference between total non-farm industry employment (not seasonally adjusted) projected 4Q22 over 4Q21, expressed as total new jobs and growth
- (3) Rent Forecast: The estimated rent growth represents the forecasted change in effective market rents for full year 2022 vs 2021 (T4Q year-over-year average), and excludes submarkets not targeted by Essex.
- (4) Weighted Average: Rent growth rates are weighted by scheduled rent in the Company's Portfolio.

Reconciliations of Non-GAAP Financial Measures and Other Terms

Adjusted EBITDAre Reconciliation

The National Association of Real Estate Investment Trusts ("NAREIT") defines earnings before interest, taxes, depreciation and amortization for real estate ("EBITDAre") (September 2017 White Paper) as net income (computed in accordance with U.S. generally accepted accounting principles ("U.S. GAAP")) before interest expense, income taxes, depreciation and amortization expense, and further adjusted for gains and losses from sales of depreciated operating properties, impairment write-downs of depreciated operating properties, impairment write-downs of investments in unconsolidated entities.

The Company believes that EBITDAre is useful to investors, creditors and rating agencies as a supplemental measure of the Company's ability to incur and service debt because it is a recognized measure of performance by the real estate industry, and by excluding gains or losses related to sales or impairment of depreciated operating properties, EBITDAre can help compare the Company's credit strength between periods or as compared to different companies.

Adjusted EBITDAre represents EBITDAre further adjusted for non-comparable items and is a component of the credit ratio, "Net Indebtedness Divided by Adjusted EBITDAre, normalized," presented on page S-6, in the section titled "Selected Credit Ratios," and it is not intended to be a measure of free cash flow for management's discretionary use, as it does not consider certain cash requirements such as income tax payments, debt service requirements, capital expenditures and other fixed charges.

Adjusted EBITDAre is an important metric in evaluating the credit strength of the Company and its ability to service its debt obligations. The Company believes that Adjusted EBITDAre is useful to investors, creditors and rating agencies because it allows investors to compare the Company's credit strength to prior reporting periods and to other companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual credit quality.

EBITDAre and Adjusted EBITDAre are not recognized measurements under U.S. GAAP. Because not all companies use identical calculations, the Company's presentation of EBITDAre and Adjusted EBITDAre may not be comparable to similarly titled measures of other companies.

The reconciliations of Net Income available to common stockholders to EBITDAre and Adjusted EBITDAre are presented in the table below (Dollars in thousands):

Reconciliations of Non-GAAP Financial Measures and Other Terms

Encumbered

Encumbered means any mortgage, deed of trust, lien, charge, pledge, security interest, security agreement or other encumbrance of any kind.

Funds From Operations ("FFO") and Core FFO

FFO, as defined by NAREIT, is generally considered by industry analysts as an appropriate measure of performance of an equity REIT. Generally, FFO adjusts the net income of equity REITs for non-cash charges such as depreciation and amortization of rental properties, impairment charges, gains on sales of real estate and extraordinary items. Management considers FFO and FFO which excludes non-core items, which is referred to as "Core FFO," to be useful supplemental operating performance measures of an equity REIT because, together with net income and cash flows, FFO and Core FFO provide investors with additional bases to evaluate the operating performance and ability of a REIT to incur asserting expression of the reapital expenditures and to pay dividends. By excluding gains or losses related to sales of depreciated operating properties and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help investors compare the operating performance of a real estate company between periods or as compared to different companies. By further adjusting for items that are not considered part of the Company's core business operations, Core FFO allows investors to compare the core operating performance of the Company to its performance in prior reporting periods and to the operating performance of other real estate companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual operating results.

FFO and Core FFO do not represent net income or cash flows from operations as defined by U.S. GAAP and are not intended to indicate whether cash flows will be sufficient to fund cash needs. These measures should not be considered as alternatives to net income as an indicator of the REIT's operating performance or to cash flows as a measure of liquidity. FFO and Core FFO do not measure whether cash flow is sufficient to fund all cash needs including principal amortization, capital improvements and distributions to stockholders. FFO and Core FFO also do not represent cash flows generated from operating, investing or financing activities as defined under GAAP. Management has consistently applied the NAREIT definition of FFO to all periods presented. However, there is judgment involved and other REIT's calculation of FFO may vary from the NAREIT definition for this measure, and thus their disclosures of FFO may not be comparable to the Company's calculation.

The reconciliations of diluted FFO and Core FFO are detailed on page S-3 in the section titled "Consolidated Funds From Operations".

Net Indebtedness Divided by Adjusted EBITDAre

This credit ratio is presented on page S-6 in the section titled "Selected Credit Ratios." This credit ratio is calculated by dividing net indebtedness by Adjusted EBITDAre, as annualized based on the most recent quarter, and adjusted for estimated net operating income from properties acquired or disposed of during the quarter. This ratio is presented by the Company because it provides rating agencies and investors an additional means of comparing the Company's ability to service debt obligations to that of other companies. Net indebtedness is total debt, net less unamortized premiums, discounts, debt issuance costs, unrestricted cash and cash equivalents, and marketable securities. The reconcilitation of Adjusted EBITDAre is set forth in "Adjusted EBITDAre is presented in the table below (Dollars in thousands):

Net Operating Income ("NOI") and Same-Property NOI Reconciliations

NOI and same-property NOI are considered by management to be important supplemental performance measures to earnings from operations included in the Company's consolidated statements of income. The presentation of same-property NOI assists with the presentation of the Company's operations prior to the allocation of depreciation and any corporate-level or financing-related costs. NOI reflects the operating performance of a community and allows for an easy comparison of the operating performance of individual communities or groups of communities.

In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impacts to overhead by acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets. The Company defines same-property NOI as same-property operating expenses, including property taxes. Please see the reconciliation of earnings from operations to NOI and same-property NOI, which in the table below is the NOI for stabilized properties consolidated by the Company for the periods presented (Dollars in thousands):

Public Bond Covenants

Public Bond Covenants refer to certain covenants set forth in instruments governing the Company's unsecured indebtedness. These instruments require the Company to meet specified financial covenants, including covenants relating to net worth, fixed charge coverage, debt service coverage, the amounts of total indebtedness and secured indebtedness, leverage and certain investment limitations. These covenants may restrict the Company's ability to expand or fully pursue its business strategies. The Company's ability to comply with these covenants may be affected by changes in the Company's operating and financial performance, changes in general business and economic conditions, adverse regulatory developments or other events adversely impacting it. The breach of any of these covenants could result in a default under the Company's indebtedness, which could cause those and other obligations to become due and payable. If any of the Company's indebtedness is accelerated, the Company may not be able to repay it. For risks related to failure to comply with these covenants, see "Item 1A: Risk Factors - Risks Related to Our Indebtedness and Financings" in the Company's annual report on Form 10-K and other reports filed by the Company with the Securities and Exchange Commission ("SEC").

The ratios set forth on page S-6 in the section titled "Public Bond Covenants" are provided only to show the Company's compliance with certain specified covenants that are contained in indentures related to the Company's issuance of Senior Notes, which indentures are filed by the Company with the SEC. See, for example, the Indenture dated March 1, 2021, filed by the Company as Exhibit 4.1 to the Company's Form 8-K, filed on March 1, 2021. These ratios should not be used for any other purpose, including without limitation to evaluate the Company's financial condition or results of operations, nor do they indicate the Company of any other date or for any other period. The capitalized terms in the disclosure are defined in the indentures filed by the Company with the SEC and may differ materially from similar terms used by other companies that present information about their covenant compliance.

Secured Debt

Secured Debt means debt of the Company or any of its subsidiaries which is secured by an encumbrance on any property or assets of the Company or any of its subsidiaries. The Company's total amount of Secured Debt is set forth on page S-5.

Unencumbered NOI to Adjusted Total NOI

This ratio is presented on page S-6 in the section titled "Selected Credit Ratios". Unencumbered NOI to Adjusted Total NOI for those real estate assets which are not subject to an encumbrance securing debt. The ratio of Unencumbered NOI to Adjusted Total NOI for the three months ended September 30, 2021, annualized, is calculated by dividing Unencumbered NOI, annualized for the three months ended September 30, 2021 and as further adjusted for pro forma NOI for properties acquired or sold during the recent quarter, by Adjusted Total NOI as annualized. The calculation and reconcilitation of NOI is set forth in "Net Operating Income ("NOI") and Same-Property NOI Reconcilitations above. This ratio is presented by the Company's ability to service debt obligations to that of other companies. The calculation of this ratio is presented in the table below (Dollars in thousands):
