1. DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Description of Business

The Company is a fully-integrated, self-administered and self-managed equity real estate investment trust ("REIT") that operates in the Southeastern and Midwestern United States. The Company conducts virtually all of its activities through the Operating Partnership. At June 30, 2010, the Company and/or the Operating Partnership wholly owned 295 in-service office, industrial and retail properties, comprising 26.8 million square feet; 96 rental residential units; 581 acres of undeveloped land suitable for future development, of which 490 acres are considered core holdings; one office property under development; one recently developed office property that is in service but not yet stabilized; and 32 for-sale residential condominiums (which are owned through a consolidated, majority-owned joint venture).

The Company is the sole general partner of the Operating Partnership. At June 30, 2010, the Company owned all of the Preferred Units and 71.2 million, or 95.0%, of the Common Units. Limited partners (including one officer and two directors of the Company) own the remaining 3.8 million Common Units. Generally, the Operating Partnership is obligated to redeem each Common Unit at the request of the holder thereof for cash equal to the value of one share of Common Stock, \$.01 par value, based on the average of the market price for the 10 trading days immediately preceding the notice date of such redemption provided that the Company, at its option, may elect to acquire any such Common Units presented for redemption for cash or one share of Common Stock. The Common Units owned by the Company are not redeemable. During the six months ended June 30, 2010, the Company redeemed 93,971 Common Units for a like number of shares of Common Stock, which increased the percentage of Common Units owned by the Company from 94.8% at December 31, 2009 to 95.0% at June 30, 2010.

Basis of Presentation

Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States ("GAAP"). Our Consolidated Statements of Income for the three and six months ended June 30, 2009 were revised from previously reported amounts to reflect in discontinued operations the operations for those properties sold or held for sale during 2009 and the first six months of 2010 which required discontinued operations presentation. Prior period amounts related to additions to allowance for doubtful accounts and amortization of lease commissions in our Consolidated Statements of Cash Flows have been reclassified to conform to the current period presentation.

Our Consolidated Financial Statements include the Operating Partnership, wholly owned subsidiaries and those entities in which we have the controlling financial interest. All significant intercompany transactions and accounts have been eliminated. At June 30, 2010 and December 31, 2009, we were not involved with any entities that were deemed to be variable interest entities.

The unaudited interim consolidated financial statements and accompanying unaudited consolidated financial information, in the opinion of management, contain all adjustments (including normal recurring accruals) necessary for a fair presentation of our financial position, results of operations and cash flows. We have omitted certain notes and other information from the interim consolidated financial statements presented in this Quarterly Report on Form 10-Q as permitted by SEC rules and regulations. These Consolidated Financial Statements should be read in conjunction with our 2009 Annual Report on Form 10-K.

Use of Estimates

The preparation of these Consolidated Financial Statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

2. REAL ESTATE ASSETS

Dispositions

During the six months ended June 30, 2010, we sold seven office properties in our Piedmont Triad, NC segment for gross proceeds of \$12.9 million. In connection with this disposition, we received cash of \$4.5 million and provided seller financing of \$8.4 million (recorded in mortgages and notes receivable) and committed to lend up to an additional \$1.7 million for tenant improvements and lease commissions. The three-year, interest-only first mortgage carries a 6.0% average interest rate. Assuming no default exists, the note can be extended by the buyer for two additional one-year periods, subject to an increase in the interest rate to 7.0% in the fourth year and to 8.0% in the fifth year. We have accounted for this disposition using the installment method, whereby the \$0.4 million gain on disposition of property has been deferred and will be recognized when the seller financing is repaid.

During the six months ended June 30, 2010, we also sold six industrial properties in our Piedmont Triad, NC segment for gross proceeds of \$12.0 million. In connection with this disposition, we received cash of \$3.4 million and provided seller financing of \$8.6 million (recorded in mortgages and notes receivable) and a limited rent guarantee with maximum exposure to loss of \$1.0 million. The three-year, interest-only first mortgage carries a 6.25% average interest rate. Assuming no default exists, the note can be extended by the buyer for two additional one-year periods, subject to an increase in the interest rate to 7.0% in the fourth year and to 7.75% in the fifth year. We currently do not believe a loss from the rent guarantee is probable. We have accounted for this disposition using the installment method, whereby the \$0.3 million impairment was recognized in net gains/(losses) on disposition of discontinued operations in the second quarter of 2010.

Additionally, during the six months ended June 30, 2010, we recorded a completed sale in connection with the disposition of an office property in our Raleigh, NC segment in the fourth quarter of 2009 where the buyer's right to compel us to repurchase the property expired. Accordingly, we recognized the \$0.2 million gain on disposition of property in the first quarter of 2010.

3. INVESTMENTS IN AFFILIATES

Unconsolidated Affiliates

We have equity interests ranging from 10.0% to 50.0% in various joint ventures with unrelated third parties. The following table sets forth the combined, summarized income statements for our unconsolidated joint ventures:

Interest expense	\$	2,755	\$	3,542	\$ 6,178	\$	7,120
Gain on disposition of property	\$		\$	781	\$ 	\$	781

(1) Our share of net income differs from our weighted average ownership percentage in the joint ventures' net income due to our purchase accounting and other adjustments related primarily to management and leasing fees.

In the second quarter of 2010, we sold our equity interests in a series of unconsolidated joint ventures relating to properties in Des Moines, IA. The assets in the joint ventures included 2.5 million square feet of office (1.7 million square feet), industrial (788,000 square feet) and retail (45,000 square feet) properties, as well as 418 apartment units. In connection with the closing, we received \$15.0 million in cash. We had a negative book basis in certain of the joint ventures, primarily as a result of prior cash distributions to the partners. Accordingly, we recorded gain on disposition of investment in unconsolidated affiliates of \$25.3 million in the second quarter of 2010. As of the closing date, the joint ventures had approximately \$170 million of secured debt, which was non-recourse to us except (1) in the case of customary exceptions pertaining to matters such as misuse of funds, borrower bankruptcy, unpermitted transfers, environmental conditions and material misrepresentations and (2) approximately \$9.0 million of direct and indirect guarantees. We have been released by the applicable lenders from all such direct and indirect guarantees and we have no ongoing lender liability relating to such customary exceptions to non-recourse liability with respect to some, but not all, of the debt. The buyer has agreed to indemnify and hold us harmless from any and all future losses that we suffer as a result of our prior investment in the joint ventures (other than losses directly resulting from our acts or omissions). In the event we are exposed to any such future loss, our financial condition and results of operations would not be adversely affected unless the buyer defaults on its indemnification obligation.

3. Investments in Affiliates - Continued

Consolidated Affiliates

We own a majority interest in Plaza Residential, LLC ("Plaza Residential"), a joint venture which was formed to develop and sell 139 for-sale residential condominiums constructed above an office tower developed by us in Raleigh, NC. For-sale residential condominiums in our Consolidated Balance Sheets include 32 and 40 completed, but unsold, condominiums owned by Plaza Residential at June 30, 2010 and December 31, 2009, respectively. We initially record receipts of earnest money deposits in accounts payable, accrued expenses and other liabilities in accordance with the deposit method. We then record completed sales when units close and the remaining net cash is received. During the three months ended June 30, 2010 and 2009, we received \$1.3 million and \$2.2 million, respectively, in gross proceeds and recorded \$1.1 million and \$1.9 million, respectively, of cost of goods sold from condominium sales activity. During the six months ended June 30, 2010 and 2009, we received \$3.5 million and \$5.5 million, respectively, in gross proceeds and had \$3.1 million and \$4.9 million, respectively, of cost of goods sold from condominium sales activity.

Unsecured indebtedness		748,487		748,428
Total mortgages and notes payable	\$	1,463,727	\$	1,469,155

At June 30, 2010, our secured mortgage loans were secured by real estate assets with an aggregate undepreciated book value of \$1.2 billion.

Our \$400.0 million unsecured revolving credit facility is scheduled to mature on February 21, 2013 and includes an accordion feature that allows for an additional \$50.0 million of borrowing capacity subject to additional lender commitments. Assuming we continue to have three publicly announced ratings from the credit rating agencies, the interest rate and facility fee under our revolving credit facility are based on the lower of the two highest publicly announced ratings. Based on our current credit ratings, the interest rate is LIBOR plus 290 basis points and the annual facility fee is 60 basis points. There were no amounts outstanding under our revolving credit facility at June 30, 2010 and July 22, 2010. At June 30, 2010 and July 22, 2010, we had \$1.1 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at June 30, 2010 and July 22, 2010 was \$398.9 million.

Our \$70.0 million secured construction facility, of which \$41.7 million was outstanding at June 30, 2010, is initially scheduled to mature on December 20, 2010. Assuming no defaults have occurred, we have options to extend the maturity date for two successive one-year periods. The interest rate is LIBOR plus 85 basis points. Our secured construction facility had \$28.3 million of availability at June 30, 2010 and July 22, 2010.

We are currently in compliance with all debt covenants and requirements.

6. DERIVATIVE FINANCIAL INSTRUMENTS

We had no outstanding interest rate hedge contracts at June 30, 2010 or December 31, 2009. The following table sets forth the effect of our past cash-flow hedges on accumulated other comprehensive loss ("AOCL") and interest expense:

Noncontrolling Interests in Consolidated Affiliates

Noncontrolling interests in consolidated affiliates relates to our respective joint venture partners' 50.0% interest in Highwoods-Markel Associates, LLC and estimated 12% economic interest in Plaza Residential. Each of our joint venture partners is an unrelated third party.

8. DISCLOSURE ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS

The following summarizes the three levels of inputs that we use to measure fair value, as well as the assets, noncontrolling interests in the Operating Partnership and liabilities that we recognize at fair value using those levels of inputs.

Level 1. Quoted prices in active markets for identical assets or liabilities.

Our Level 1 assets are investments in marketable securities which we use to pay benefits under our non-qualified deferred compensation plan. Our Level 1 noncontrolling interests in the Operating Partnership relate to the ownership of Common Units by various individuals and entities other than the Company. Our Level 1 liability is our non-qualified deferred compensation obligation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

8. DISCLOSURE ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS - Continued

Level 2. Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities. We had no Level 2 assets or liabilities at June 30, 2010 and December 31, 2009.

Level 3. Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Our Level 3 assets are our tax increment financing bond, which is not routinely traded but whose fair value is determined using an estimate of projected redemption value based on quoted bid/ask prices for similar unrated municipal bonds, and real estate assets recorded at fair value on a non-recurring basis as a result of our quarterly impairment analysis, which were valued using independent appraisals.

The following tables set forth the assets, noncontrolling interests in the Operating Partnership and liability that we measure at fair value by level within the fair value hierarchy. We determine the level based on the lowest level of substantive input used to determine fair value.

In the fourth quarter of 2007, we acquired the tax increment financing bond associated with a property developed by us. This bond amortizes to maturity in 2020. The estimated fair value at June 30, 2010 was \$2.2 million below the outstanding principal due on the bond. We currently intend to hold this bond and do not believe that we will be required to sell this bond before recovery of the bond principal. Payment of the principal and interest for the bond is guaranteed by us and, therefore, we have recorded no credit losses related to the bond in the three and six months ended June 30, 2010 and 2009. There is no legal right of offset with the liability, which we report as a financing obligation, related to this tax increment financing bond.

8. DISCLOSURE ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS – Continued

The carrying values of our cash and cash equivalents, restricted cash, accounts receivable, mortgages and notes receivable, marketable securities of non-qualified deferred compensation plan, tax increment financing bond, non-qualified deferred compensation obligation and noncontrolling interests in the Operating Partnership are equal to or approximate fair value. The fair values of our mortgages and notes payable and financing obligations were estimated using the income or market approaches to approximate the price that would be paid in an orderly transaction between market participants on the respective measurement date.

9. SHARE-BASED PAYMENTS

During the six months ended June 30, 2010, we granted under our 2009 Long Term Equity Incentive Plan (the "Plan") 190,826 stock options at an exercise price equal to the closing market price of a share of our Common Stock on the date of grant. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model, which resulted in a weighted-average grant date fair value per share of \$4.96. During the six months ended June 30, 2010, we also granted under the Plan 89,635 shares of time-based restricted stock and 78,151 shares of total return-based restricted stock with weighted-average grant date fair values per share of \$29.05 and \$29.40, respectively. We recorded stock-based compensation expense of \$1.4 million and \$1.8 million during the three months ended June 30, 2010 and 2009, respectively, and \$3.5 million and \$3.6 million during the six months ended June 30, 2010 and 2009, respectively. At June 30, 2010, there was \$9.7 million of total unrecognized stock-based compensation costs, which will be recognized over a weighted average remaining contractual term of 1.7 years.

12. EARNINGS PER SHARE – Continued

(1) Options and warrants aggregating approximately 0.6 million and 1.2 million shares were outstanding during the three months ended June 30, 2010 and 2009, respectively, and 0.6 million and 1.3 million shares were outstanding during the six months ended June 30, 2010 and 2009, respectively, but were not included in the computation of diluted earnings per Common Share because the impact of including such shares would be anti-dilutive.

13. SEGMENT INFORMATION

Our principal business is the operation, acquisition and development of rental real estate properties. We evaluate our business by product type and by geographic location. Each product type has different customers and economic characteristics as to rental rates and terms, cost per square foot of buildings, the purposes for which customers use the space, the degree of maintenance and customer support required and customer dependency on different economic drivers, among others. The operating results by geographic grouping are also regularly reviewed by our chief operating decision maker for assessing performance and other purposes. There are no material inter-segment transactions.

Our accounting policies of the segments are the same as those used in our Consolidated Financial Statements. All operations are within the United States and, at June 30, 2010, no single customer of the Wholly Owned Properties generated more than 9.5% of our consolidated revenues on an annualized basis.

The following table summarizes the rental and other revenues and net operating income, the primary industry property-level performance metric which is defined as rental and other revenues less rental property and other expenses, for each reportable segment:

14. Subsequent Events

Acquisitions

In July 2010, we acquired a 336,000 square foot office property in Memphis, TN for \$10.0 million in cash and the assumption of secured debt expected to be recorded at fair value of approximately \$40.3 million, with an implied interest rate of 6.4%. The debt matures in November 2015. We expect to incur or have incurred approximately \$2.3 million of near-term building improvements and approximately \$0.4 million of acquisition-related costs.

1. DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Description of Business

The Company is a fully-integrated, self-administered and self-managed equity real estate investment trust ("REIT") that operates in the Southeastern and Midwestern United States. The Company conducts virtually all of its activities through the Operating Partnership. At June 30, 2010, the Company and/or the Operating Partnership wholly owned 295 in-service office, industrial and retail properties, comprising 26.8 million square feet; 96 rental residential units; 581 acres of undeveloped land suitable for future development, of which 490 acres are considered core holdings; one office property under development; one recently developed office property that is in service but not yet stabilized; and 32 for-sale residential condominiums (which are owned through a consolidated, majority-owned joint venture).

The Company is the sole general partner of the Operating Partnership. At June 30, 2010, the Company owned all of the Preferred Units and 71.2 million, or 95.0%, of the Common Units. Limited partners (including one officer and two directors of the Company) own the remaining 3.8 million Common Units. Generally, the Operating Partnership is obligated to redeem each Common Unit at the request of the holder thereof for cash equal to the value of one share of Common Stock, \$.01 par value, based on the average of the market price for the 10 trading days immediately preceding the notice date of such redemption provided that the Company, at its option, may elect to acquire any such Common Units presented for redemption for cash or one share of Common Stock. The Common Units owned by the Company are not redeemable. During the six months ended June 30, 2010, the Company redeemed 93,971 Common Units for a like number of shares of Common Stock, which increased the percentage of Common Units owned by the Company from 94.8% at December 31, 2009 to 95.0% at June 30, 2010.

Basis of Presentation

Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States ("GAAP"). Our Consolidated Statements of Income for the three and six months ended June 30, 2009 were revised from previously reported amounts to reflect in discontinued operations the operations for those properties sold or held for sale during 2009 and the first six months of 2010 which required discontinued operations presentation. Prior period amounts related to additions to allowance for doubtful accounts and amortization of lease commissions in our Consolidated Statements of Cash Flows have been reclassified to conform to the current period presentation.

Our Consolidated Financial Statements include wholly owned subsidiaries and those entities in which we have the controlling financial interest. All significant intercompany transactions and accounts have been eliminated. At June 30, 2010 and December 31, 2009, we were not involved with any entities that were deemed to be variable interest entities.

The unaudited interim consolidated financial statements and accompanying unaudited consolidated financial information, in the opinion of management, contain all adjustments (including normal recurring accruals) necessary for a fair presentation of our financial position, results of operations and cash flows. We have omitted certain notes and other information from the interim consolidated financial statements presented in this Quarterly Report on Form 10-Q as permitted by SEC rules and regulations. These Consolidated Financial Statements should be read in conjunction with our 2009 Annual Report on Form 10-K.

Use of Estimates

The preparation of these Consolidated Financial Statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

2. REAL ESTATE ASSETS

Dispositions

During the six months ended June 30, 2010, we sold seven office properties in our Piedmont Triad, NC segment for gross proceeds of \$12.9 million. In connection with this disposition, we received cash of \$4.5 million and provided seller financing of \$8.4 million (recorded in mortgages and notes receivable) and committed to lend up to an additional \$1.7 million for tenant improvements and lease commissions. The three-year, interest-only first mortgage carries a 6.0% average interest rate. Assuming no default exists, the note can be extended by the buyer for two additional one-year periods, subject to an increase in the interest rate to 7.0% in the fourth year and to 8.0% in the fifth year. We have accounted for this disposition using the installment method, whereby the \$0.4 million gain on disposition of property has been deferred and will be recognized when the seller financing is repaid.

During the six months ended June 30, 2010, we also sold six industrial properties in our Piedmont Triad, NC segment for gross proceeds of \$12.0 million. In connection with this disposition, we received cash of \$3.4 million and provided seller financing of \$8.6 million (recorded in mortgages and notes receivable) and a limited rent guarantee with maximum exposure to loss of \$1.0 million. The three-year, interest-only first mortgage carries a 6.25% average interest rate. Assuming no default exists, the note can be extended by the buyer for two additional one-year periods, subject to an increase in the interest rate to 7.0% in the fourth year and to 7.75% in the fifth year. We currently do not believe a loss from the rent guarantee is probable. We have accounted for this disposition using the installment method, whereby the \$0.3 million impairment was recognized in net gains/(losses) on disposition of discontinued operations in the second quarter of 2010.

Additionally, during the six months ended June 30, 2010, we recorded a completed sale in connection with the disposition of an office property in our Raleigh, NC segment in the fourth quarter of 2009 where the buyer's right to compel us to repurchase the property expired. Accordingly, we recognized the \$0.2 million gain on disposition of property in the first quarter of 2010.

3. INVESTMENTS IN AFFILIATES

Unconsolidated Affiliates

We have equity interests ranging from 10.0% to 50.0% in various joint ventures with unrelated third parties. The following table sets forth the combined, summarized income statements for our unconsolidated joint ventures:

	Three Months Ended June 30,					nded

Interest expense	\$	2,730	\$	3,515	\$	6,128	\$	7,066
Gain on disposition of depreciable properties	\$		\$	781	\$		\$	781

(1) Our share of net income differs from our weighted average ownership percentage in the joint ventures' net income due to our purchase accounting and other adjustments related primarily to management and leasing fees.

In the second quarter of 2010, we sold our equity interests in a series of unconsolidated joint ventures relating to properties in Des Moines, IA. The assets in the joint ventures included 2.5 million square feet of office (1.7 million square feet), industrial (788,000 square feet) and retail (45,000 square feet) properties, as well as 418 apartment units. In connection with the closing, we received \$15.0 million in cash. We had a negative book basis in certain of the joint ventures, primarily as a result of prior cash distributions to the partners. Accordingly, we recorded gain on disposition of investment in unconsolidated affiliates of \$25.3 million in the second quarter of 2010. As of the closing date, the joint ventures had approximately \$170 million of secured debt, which was non-recourse to us except (1) in the case of customary exceptions pertaining to matters such as misuse of funds, borrower bankruptcy, unpermitted transfers, environmental conditions and material misrepresentations and (2) approximately \$9.0 million of direct and indirect guarantees. We have been released by the applicable lenders from all such direct and indirect guarantees and we have no ongoing lender liability relating to such customary exceptions to non-recourse liability with respect to some, but not all, of the debt. The buyer has agreed to indemnify and hold us harmless from any and all future losses that we suffer as a result of our prior investment in the joint ventures (other than losses directly resulting from our acts or omissions). In the event we are exposed to any such future loss, our financial condition and results of operations would not be adversely affected unless the buyer defaults on its indemnification obligation.

3. Investments in Affiliates - Continued

Consolidated Affiliates

We own a majority interest in Plaza Residential, LLC ("Plaza Residential"), a joint venture which was formed to develop and sell 139 for-sale residential condominiums constructed above an office tower developed by us in Raleigh, NC. For-sale residential condominiums in our Consolidated Balance Sheets include 32 and 40 completed, but unsold, condominiums owned by Plaza Residential at June 30, 2010 and December 31, 2009, respectively. We initially record receipts of earnest money deposits in accounts payable, accrued expenses and other liabilities in accordance with the deposit method. We then record completed sales when units close and the remaining net cash is received. During the three months ended June 30, 2010 and 2009, we received \$1.3 million and \$2.2 million, respectively, in gross proceeds and recorded \$1.1 million and \$1.9 million, respectively, of cost of goods sold from condominium sales activity. During the six months ended June 30, 2010 and 2009, we received \$3.5 million and \$5.5 million, respectively, in gross proceeds and had \$3.1 million and \$4.9 million, respectively, of cost of goods sold from condominium sales activity.

5. MORTGAGES AND NOTES PAYABLE

The following table sets forth our consolidated mortgages and notes payable:

Unsecured indebtedness		748,487		748,428
Total mortgages and notes payable	\$	1,463,727	\$	1,469,155

At June 30, 2010, our secured mortgage loans were secured by real estate assets with an aggregate undepreciated book value of \$1.2 billion.

Our \$400.0 million unsecured revolving credit facility is scheduled to mature on February 21, 2013 and includes an accordion feature that allows for an additional \$50.0 million of borrowing capacity subject to additional lender commitments. Assuming we continue to have three publicly announced ratings from the credit rating agencies, the interest rate and facility fee under our revolving credit facility are based on the lower of the two highest publicly announced ratings. Based on our current credit ratings, the interest rate is LIBOR plus 290 basis points and the annual facility fee is 60 basis points. There were no amounts outstanding under our revolving credit facility at June 30, 2010 and July 22, 2010. At June 30, 2010 and July 22, 2010, we had \$1.1 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at June 30, 2010 and July 22, 2010 was \$398.9 million.

Our \$70.0 million secured construction facility, of which \$41.7 million was outstanding at June 30, 2010, is initially scheduled to mature on December 20, 2010. Assuming no defaults have occurred, we have options to extend the maturity date for two successive one-year periods. The interest rate is LIBOR plus 85 basis points. Our secured construction facility had \$28.3 million of availability at June 30, 2010 and July 22, 2010.

We are currently in compliance with all debt covenants and requirements.

6. DERIVATIVE FINANCIAL INSTRUMENTS

We had no outstanding interest rate hedge contracts at June 30, 2010 or December 31, 2009. The following table sets forth the effect of our past cash-flow hedges on accumulated other comprehensive loss ("AOCL") and interest expense:

7. Noncontrolling Interests

Noncontrolling Interests in Consolidated Affiliates

Noncontrolling interests in consolidated affiliates relates to our respective joint venture partners' 50.0% interest in Highwoods-Markel Associates, LLC and estimated 12% economic interest in Plaza Residential. Each of our joint venture partners is an unrelated third party.

8. DISCLOSURE ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS

The following summarizes the three levels of inputs that we use to measure fair value, as well as the assets, noncontrolling interests in the Operating Partnership and liabilities that we recognize at fair value using those levels of inputs.

Level 1. Quoted prices in active markets for identical assets or liabilities.

Our Level 1 assets are investments in marketable securities which we use to pay benefits under our non-qualified deferred compensation plan. Our Level 1 noncontrolling interests in the Operating Partnership relate to the ownership of Common Units by various individuals and entities other than the Company. Our Level 1 liability is our non-qualified deferred compensation obligation.

- Level 2. Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities. We had no Level 2 assets or liabilities at June 30, 2010 and December 31, 2009.
- Level 3. Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Our Level 3 assets are our tax increment financing bond, which is not routinely traded but whose fair value is determined using an estimate of projected redemption value based on quoted bid/ask prices for similar unrated municipal bonds, and real estate assets recorded at fair value on a non-recurring basis as a result of our quarterly impairment analysis, which were valued using independent appraisals.

The following tables set forth the assets and liability that we measure at fair value by level within the fair value hierarchy. We determine the level based on the lowest level of substantive input used to determine fair value.

In the fourth quarter of 2007, we acquired the tax increment financing bond associated with a property developed by us. This bond amortizes to maturity in 2020. The estimated fair value at June 30, 2010 was \$2.2 million below the outstanding principal due on the bond. We currently intend to hold this bond and do not believe that we will be required to sell this bond before recovery of the bond principal. Payment of the principal and interest for the bond is guaranteed by us and, therefore, we have recorded no credit losses related to the bond in the three and six months ended June 30, 2010 and 2009. There is no legal right of offset with the liability, which we report as a financing obligation, related to this tax increment financing bond.

9. SHARE-BASED PAYMENTS

During the six months ended June 30, 2010, the Company granted under its 2009 Long Term Equity Incentive Plan (the "Plan") 190,826 stock options at an exercise price equal to the closing market price of a share of its Common Stock on the date of grant. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model, which resulted in a weighted-average grant date fair value per share of \$4.96. During the six months ended June 30, 2010, the Company also granted under the Plan 89,635 shares of time-based restricted stock and 78,151 shares of total return-based restricted stock with weighted-average grant date fair values per share of \$29.05 and \$29.40, respectively. We recorded stock-based compensation expense of \$1.4 million and \$1.8 million during the three months ended June 30, 2010 and 2009, respectively, and \$3.5 million and \$3.6 million during the six months ended June 30, 2010 and 2009, respectively. At June 30, 2010, there was \$9.7 million of total unrecognized stock-based compensation costs, which will be recognized over a weighted average remaining contractual term of 1.7 years.

13. SEGMENT INFORMATION

Our principal business is the operation, acquisition and development of rental real estate properties. We evaluate our business by product type and by geographic location. Each product type has different customers and economic characteristics as to rental rates and terms, cost per square foot of buildings, the purposes for which customers use the space, the degree of maintenance and customer support required and customer dependency on different economic drivers, among others. The operating results by geographic grouping are also regularly reviewed by our chief operating decision maker for assessing performance and other purposes. There are no material inter-segment transactions.

Our accounting policies of the segments are the same as those used in our Consolidated Financial Statements. All operations are within the United States and, at June 30, 2010, no single customer of the Wholly Owned Properties generated more than 9.5% of our consolidated revenues on an annualized basis.

The following table summarizes the rental and other revenues and net operating income, the primary industry property-level performance metric which is defined as rental and other revenues less rental property and other expenses, for each reportable segment:

14. Subsequent Events

Acquisitions

In July 2010, we acquired a 336,000 square foot office property in Memphis, TN for \$10.0 million in cash and the assumption of secured debt expected to be recorded at fair value of approximately \$40.3 million, with an implied interest rate of 6.4%. The debt matures in November 2015. We expect to incur or have incurred approximately \$2.3 million of near-term building improvements and approximately \$0.4 million of acquisition-related costs.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company is a fully integrated, self-administered and self-managed equity REIT that provides leasing, management, development, construction and other customer-related services for our properties and for third parties. The Company conducts virtually all of its activities through the Operating Partnership and is its sole general partner. At June 30, 2010, we owned or had an interest in 330 in-service office, industrial and retail properties, encompassing approximately 32.0 million square feet, which includes one recently developed office property that had not yet reached the earlier of original projected stabilization date or 95% occupancy aggregating 148,000 square feet, two office properties under development aggregating 232,000 square feet and a 12.5% interest in a 261,000 square foot office property directly owned by the Company (included in the Company's Consolidated Financial Statements, but not included in the Operating Partnership's Consolidated Financial Statements); 32 for-sale residential condominiums and 96 rental residential units. We are based in Raleigh, North Carolina, and our properties and development land are located in Florida, Georgia, Maryland, Mississippi, Missouri, North Carolina, South Carolina, Tennessee and Virginia. Additional information about us can be found on our website at www.highwoods.com. Information on our website is not part of this Quarterly Report.

You should read the following discussion and analysis in conjunction with the accompanying Consolidated Financial Statements and related notes contained elsewhere in this Quarterly Report.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

Some of the information in this Quarterly Report may contain forward-looking statements. Such statements include, in particular, statements about our plans, strategies and prospects under this section and under the heading "Business." You can identify forward-looking statements by our use of forward-looking terminology such as "may," "will," "expect," "anticipate," "estimate," "continue" or other similar words. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that our plans, intentions or expectations will be achieved. When considering such forward-looking statements, you should keep in mind the following important factors that could cause our actual results to differ materially from those contained in any forward-looking statement:

- the financial condition of our customers could deteriorate;
- we may not be able to lease or release second generation space, defined as previously occupied space that becomes available for lease, quickly or on as favorable terms as old leases;
- we may not be able to lease our newly constructed buildings as quickly or on as favorable terms as originally anticipated;
- we may not be able to complete development, acquisition, reinvestment, disposition or joint venture projects as quickly or on as favorable terms as anticipated;
- development activity by our competitors in our existing markets could result in an excessive supply of office, industrial and retail properties relative to customer demand;
- our Southeastern and Midwestern United States markets may suffer declines in economic growth;
- unanticipated increases in interest rates could increase our debt service costs;
- we may not be able to meet our liquidity requirements or obtain capital on favorable terms to fund our working capital needs and growth initiatives or to repay or refinance outstanding debt upon maturity; and
- the Company could lose key executive officers.

This list of risks and uncertainties, however, is not intended to be exhaustive. You should also review the other cautionary statements we make in "Item 1A. Business – Risk Factors" set forth in our 2009 Annual Report on Form 1 0-K. Given these uncertainties, you should not place undue reliance on forward-looking statements. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements to reflect any future events or circumstances or to reflect the occurrence of unanticipated events.

EXECUTIVE SUMMARY

Our Strategic Plan focuses on:

- owning high-quality, differentiated real estate assets in the better submarkets in our core markets; and
- maintaining a conservative, flexible balance sheet with ample liquidity to meet our funding needs and growth prospects.

Execution of our Plan includes (1) growing net operating income at our existing properties through concentrated leasing, asset management and customer service efforts and (2) developing properties in in-fill locations and acquiring strategic properties that are accretive to long-term earnings and stockholder value. While we own and operate a limited number of industrial, retail and residential properties, our operating results depend heavily on successfully leasing and operating our office properties. Economic growth in Florida, Georgia, North Carolina and Tennessee is and will continue to be an important determinative factor in predicting our future operating results. Our portfolio has changed significantly over the past five years and now consists of a higher proportion of Class A and B properties, which are generally expected to outperform competitive properties in our core markets. We have repositioned our portfolio primarily by selling non-core properties and developing properties in in-fill locations. Our real estate professionals are seasoned and cycle-tested. Our senior leadership team has significant experience and maintains important relationships with market participants in each of our core markets. Our focus for the remainder of 2010 is to lease and operate our existing portfolio as effectively and efficiently as possible, dispose of certain non-core real estate assets and acquire and develop additional real estate assets that improve the overall quality of our portfolio and generate attractive returns over the long-term for our stockholders.

RESULTS OF OPERATIONS

Results for the three months ended June 30, 2009 were revised from previously reported amounts to reflect in discontinued operations the operations for those properties sold or held for sale during 2009 and the first six months of 2010 which required discontinued operations presentation.

Three Months Ended June 30, 2010 and 2009

Rental and Other Revenues

Rental and other revenues from continuing operations were 2.2% higher in the second quarter of 2010 as compared to the second quarter of 2009 primarily due to the acquisition of one office property in our Tampa, FL segment in the fourth quarter of 2009, the contribution of development properties recently placed in service and higher lease termination fees, partly offset by lower revenues from lower average occupancy in our same property portfolio. We expect rental and other revenues for the remainder of 2010, adjusted for any discontinued operations, to be relatively unchanged as compared to the same period in 2009 due to recent acquisitions, the contribution of development projects recently placed in service and higher lease termination fees, offset by lower revenues from lower average occupancy levels in our same property portfolio.

Operating Expenses

Rental property and other expenses were 1.5% lower in the second quarter of 2010 as compared to the second quarter of 2009 primarily due to lower expenses from management's continuing efforts to reduce operating expenses, partly offset by the acquisition of one office property in our Tampa, FL segment in the fourth quarter of 2009 and the contribution of development properties recently placed in service. As a result, operating margin, defined as rental and other revenues less rental property and other expenses expressed as a percentage of rental and other revenues, was higher at 66.5% in the second quarter of 2010 as compared to 65.2% in the second quarter of 2009. We expect rental property and other expenses for the remainder of 2010, adjusted for any discontinued operations, to be relatively unchanged as compared to the same period in 2009 due to recent acquisitions and the contribution of development projects recently placed in service, offset by lower expenses in our same property portfolio from management's continuing efforts to reduce operating expenses.

Depreciation and amortization was 2.6% higher in the second quarter of 2010 as compared to the second quarter of 2009 primarily due to the acquisition of one office property in our Tampa, FL segment in the fourth quarter of 2009 and the contribution of development properties recently placed in service. We expect depreciation expense for the remainder of 2010, adjusted for any discontinued operations, to be higher over the same period in 2009 due to recent acquisitions and the contribution of development projects recently placed in service.

General and administrative expenses were 26.4% lower in the second quarter of 2010 as compared to the second quarter of 2009 primarily due to lower deferred compensation expense from a decrease in the value of marketable securities held under our non-qualified deferred compensation plan, lower compensation costs from lower headcount and lower aggregate short and long-term incentive compensation, and lower expenses from management's continuing efforts to reduce general and administrative expenses. We expect general and administrative expenses for the remainder of 2010, adjusted for changes in value of marketable securities held under our deferred compensation plan, to be lower over the same period in 2009 due to lower aggregate short and long-term incentive compensation and lower expenses from management's continuing efforts to reduce general and administrative expenses.

Other Income

Other income was \$1.9 million lower in the second quarter of 2010 as compared to the second quarter of 2009 primarily due to a decrease in the value of marketable securities held under our non-qualified deferred compensation plan and a gain on debt extinguishment in 2009.

Interest Expense

Interest expense was 7.4% higher in the second quarter of 2010 as compared to the second quarter of 2009 primarily due to lower capitalized interest from decreased development in process and higher fees on our new revolving credit facility. We expect interest expense for the remainder of 2010 to be higher over the same period in 2009 due to lower capitalized interest from decreased development in process and higher fees on our new revolving credit facility.

Gains on Disposition of Investment in Unconsolidated Affiliates and Equity in Earnings of Unconsolidated Affiliates

Gains on disposition of investment in unconsolidated affiliates were \$25.3 million higher in the second quarter of 2010 as compared to the second quarter of 2009 due to the disposition of our equity interests in a series of unconsolidated joint ventures relating to properties in Des Moines, IA. Equity in earnings of unconsolidated affiliates was \$1.0 million lower in the second quarter of 2010 as compared to the second quarter of 2009 primarily due to the disposition of one office property in one of our unconsolidated joint ventures in 2009.

Discontinued Operations

Discontinued operations were \$22.2 million lower in the second quarter of 2010 as compared to the second quarter of 2009 primarily due to the disposition of three retail properties in our Kansas City, MO segment in 2009.

Six Months Ended June 30, 2010 and 2009

Rental and Other Revenues

Rental and other revenues from continuing operations were 2.3% higher in the first six months of 2010 as compared to the first six months of 2009 primarily due to the acquisition of one office property in our Tampa, FL segment in the fourth quarter of 2009 and the contribution of development properties recently placed in service, partly offset by lower revenues from lower average occupancy in our same property portfolio.

Operating Expenses

Rental property and other expenses were 1.1% higher in the first six months of 2010 as compared to the first six months of 2009 primarily due to the acquisition of one office property in our Tampa, FL segment in the fourth quarter of 2009 and the contribution of development properties recently placed in service. As a result, operating margin was higher at 65.1% in the first six months of 2010 as compared to 64.7% in the first six months of 2009.

Depreciation and amortization was 1.3% higher in the first six months of 2010 as compared to the first six months of 2009 primarily due to the acquisition of one office property in our Tampa, FL segment in the fourth quarter of 2009 and the contribution of development properties recently placed in service.

General and administrative expenses were 13.0% lower in the first six months of 2010 as compared to the first six months of 2009 primarily due to lower deferred compensation expense caused by a decrease in the value of marketable securities held under our non-qualified deferred compensation plan, lower compensation costs from lower headcount and lower aggregate short and long-term incentive compensation, and lower expenses from management's continuing efforts to reduce general and administrative expenses.

Other Income

Other income was \$1.3 million lower in the first six months of 2010 as compared to the first six months of 2009 primarily due to a decrease in the value of marketable securities held under our non-qualified deferred compensation plan and a gain on debt extinguishment in 2009.

Interest Expense

Interest expense was 6.3% higher in the first six months of 2010 as compared to the first six months of 2009 primarily due to lower capitalized interest resulting from decreased development in process and higher fees on our new revolving credit facility.

Gains on Disposition of Investment in Unconsolidated Affiliates and Equity in Earnings of Unconsolidated Affiliates

Gains on disposition of investment in unconsolidated affiliates were \$25.3 million higher in the first six months of 2010 as compared to the first six months of 2009 due to the disposition of our equity interests in a series of unconsolidated joint ventures relating to properties in Des Moines, IA. Equity in earnings of unconsolidated affiliates was \$1.5 million lower in the first six months of 2010 as compared to the first six months of 2009 primarily due to the disposition of one office property in one of our unconsolidated joint ventures in 2009.

Discontinued Operations

Discontinued operations were \$23.2 million lower in the first six months of 2010 as compared to the first six months of 2009 primarily due to the disposition of three retail properties in our Kansas City, MO segment in 2009.

LIQUIDITY AND CAPITAL RESOURCES

Overview

Our goal is to maintain a conservative and flexible balance sheet with access to multiple sources of debt and equity capital and sufficient availability under our credit facilities. We generally use rents received from customers to fund our operating expenses, capital expenditures and distributions. To fund property acquisitions, development activity or building renovations and repay debt upon maturity, we may use current cash balances, sell assets, obtain new debt, use our revolving credit facility and/or issue equity. Our debt generally consists of mortgage debt, unsecured debt securities and borrowings under our secured and unsecured credit facilities.

Statements of Cash Flows

We report and analyze our cash flows based on operating activities, investing activities and financing activities. The following table sets forth the changes in the Company's cash flows (\$ in thousands):

	 Six Months June 30

Total net cash flows	\$ 12,144 \$	(385)	\$ 12,529	

In calculating cash flow from operating activities, depreciation and amortization, which are non-cash expenses, are added back to net income. As a result, we have historically generated a positive amount of cash from operating activities. From period to period, cash flow from operations depends primarily upon changes in our net income, as discussed more fully above under "Results of Operations," changes in receivables and payables, and net additions or decreases in our overall portfolio, which affect the amount of depreciation and amortization expense.

Cash used in or provided by investing activities generally relates to capitalized costs incurred for leasing and major building improvements and our acquisition, development, disposition and joint venture capital activity. During periods of significant net acquisition and/or development activity, our cash used in such investing activities will generally exceed cash provided by investing activities, which typically consists of cash received upon the sale of properties and distributions of capital from our joint ventures.

Cash used in or provided by financing activities generally relates to distributions, incurrence and repayment of debt and issuances, repurchases or redemptions of Common Stock, Common Units and Preferred Stock. As discussed previously, we use a significant amount of our cash to fund distributions. Whether or not we have increases in the outstanding balances of debt during a period depends generally upon the net effect of our acquisition, disposition, development and joint venture activity. We generally use our revolving credit facility for working capital purposes, which means that during any given period, in order to minimize interest expense, we may record significant repayments and borrowings under our revolving credit facility.

Cash provided by operating activities was \$4.6 million lower in the first six months of 2010 compared to the first six months of 2009 primarily due to the impact of dispositions and lower cash rents from lower average occupancy in our same property portfolio, partly offset by higher cash rents from the acquisition of one office property in our Tampa, FL segment in the fourth quarter of 2009, the contribution of development properties recently placed in service and higher lease termination fees.

Cash used in investing activities was \$4.2 million higher in the first six months of 2010 compared to the first six months of 2009 primarily due to the \$4.0 million earnest money deposited in the second quarter of 2010 in connection with the Crescent Center acquisition, which closed in the third quarter of 2010 and higher dispositions in 2009, partly offset by higher capital expenditures in 2009.

Cash used in financing activities was \$21.3 million lower in the first six months of 2010 compared to the first six months of 2009 primarily due to higher reductions in outstanding debt balances in 2009, mostly funded with the net proceeds from our May 2009 equity offering.

Capitalization

The following table sets forth the Company's capitalization (in thousands, except per share amounts):

	 June 30, 2010	De	ecember 31, 2009
Mortgages and notes payable, at recorded book value	\$ 1,463,727	\$	1,469,155
Financing obligations	\$ 33,603	\$	37,706
Preferred Stock, at liquidation value	\$ 81,592	\$	81,592
Common Stock outstanding	71,615		71,285
Common Units outstanding (not owned by the Company)	3,797		3,891
Per share stock price at period end	\$ 27.76	\$	33.35
Market value of Common Stock and Common Units	\$ 2,093,437	\$	2,507,120
Total market capitalization with debt and obligations	\$ 3,672,359	\$	4,095,573

Our mortgages and notes payable represented 39.9% of our total market capitalization and was comprised of \$715.2 million of secured indebtedness with a weighted average interest rate of 6.21% and \$748.5 million of unsecured indebtedness with a weighted average interest rate of 5.43%. At June 30, 2010, our outstanding mortgages and notes payable and financing obligations were secured by real estate assets with an aggregate undepreciated book value of \$1.2 billion.

Current and Future Cash Needs

Rental and other revenues are our principal source of funds to meet our short-term liquidity requirements. Other sources of funds for short-term liquidity needs include available working capital and borrowings under our existing revolving credit facility and revolving construction credit facility (which had \$398.9 million and \$28.3 million of availability, respectively, at July 22, 2010). Our short-term liquidity requirements primarily consist of operating expenses, interest and principal amortization on our debt, distributions and capital expenditures, including building improvement costs, tenant improvement costs and lease commissions. Building improvements are capital costs to maintain existing buildings not related to a specific customer. Tenant improvements are the costs required to customize space for the specific needs of customers in spaces other than in new development projects. We anticipate that our available cash and cash equivalents and cash provided by operating activities, together with cash available from borrowings under our credit facilities, will be adequate to meet our short-term liquidity requirements.

Our long-term liquidity uses generally consist of the retirement or refinancing of debt upon maturity (including mortgage debt, our revolving and construction credit facilities, term loans and other unsecured debt), funding of existing and new building development or land infrastructure projects and funding acquisitions of buildings and development land. Excluding capital expenditures for leasing costs and tenant improvements and for normal building improvements, our expected future capital expenditures for started and/or committed new development/redevelopment projects were approximately \$14.4 million at June 30, 2010. Additionally, we may, from time to time, retire some or all of our remaining outstanding Preferred Stock and/or unsecured debt securities through redemptions, open market repurchases, privately negotiated acquisitions or otherwise.

We expect to meet our liquidity needs through a combination of:

- cash flow from operating activities;
- borrowings under our credit facilities;
- the issuance of unsecured debt;
- the issuance of secured debt;

- the issuance of equity securities by the Company or the Operating Partnership; and
- the disposition of non-core assets.

Recent Acquisition Activity

In July 2010, we acquired a 336,000 square foot office property in Memphis, TN for \$10.0 million in cash and the assumption of secured debt expected to be recorded at fair value of approximately \$40.3 million, with an implied interest rate of 6.4%. The debt matures in November 2015. We expect to incur or have incurred approximately \$2.3 million of near-term building improvements and approximately \$0.4 million of acquisition-related costs.

Financing Activity

Our \$400.0 million unsecured revolving credit facility is scheduled to mature on February 21, 2013 and includes an accordion feature that allows for an additional \$50.0 million of borrowing capacity subject to additional lender commitments. Assuming we continue to have three publicly announced ratings from the credit rating agencies, the interest rate and facility fee under our revolving credit facility are based on the lower of the two highest publicly announced ratings. Based on our current credit ratings, the interest rate is LIBOR plus 290 basis points and the annual facility fee is 60 basis points. We expect to use our revolving credit facility for working capital purposes and for the short-term funding of our development and acquisition activity and, in certain instances, the repayment of other debt. Continuing ability to borrow under the revolving credit facility allows us to quickly capitalize on strategic opportunities at short-term interest rates. There were no amounts outstanding under our revolving credit facility at June 30, 2010 and July 22, 2010, we had \$1.1 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at June 30, 2010 and July 22, 2010 was \$398.9 million.

Our \$70.0 million secured construction facility, of which \$41.7 million was outstanding at June 30, 2010, is initially scheduled to mature on December 20, 2010. Assuming no defaults have occurred, we have options to extend the maturity date for two successive one-year periods. The interest rate is LIBOR plus 85 basis points. Our secured construction facility had \$28.3 million of availability at June 30, 2010 and July 22, 2010.

We regularly evaluate the financial condition of the lenders that participate in our credit facilities using publicly available information. Based on this review, we currently expect our lenders, which are major financial institutions, to perform their obligations under our existing facilities.

Covenant Compliance

We are currently in compliance with all debt covenants and requirements. Although we expect to remain in compliance with these covenants and ratios for at least the next year, depending upon our future operating performance, property and financing transactions and general economic conditions, we cannot assure you that we will continue to be in compliance.

Our revolving credit facility, \$137.5 million bank term loan due in February 2011 and \$20.0 million bank term loan due in March 2012 require us to comply with customary operating covenants and various financial requirements, including a requirement that we maintain a ratio of total liabilities to total asset value, as defined in the respective agreements, of no more than 60%. Total asset value depends upon the effective economic capitalization rate (after deducting capital expenditures) used to determine the value of our buildings. Depending upon general economic conditions, the lenders have the good faith right to unilaterally increase the capitalization rate by up to 25 basis points once in any twelve-month period. The lenders have not previously exercised this right. Any such increase in capitalization rates, without a corresponding reduction in total liabilities, could make it more difficult for us to maintain a ratio of total liabilities to total asset value of no more than 60%, which could have an adverse effect on our ability to borrow additional funds under the revolving credit facility. If we were to fail to make a payment when due with respect to any of our other obligations with aggregate unpaid principal of at least \$10.0 million, and such failure remains uncured for more than 120 days, the lenders under our credit facility could provide notice of their intent to accelerate all amounts due thereunder. Upon an event of default on the revolving credit facility, the lenders having at least 66.7% of the total commitments under the revolving credit facility can accelerate all borrowings then outstanding, and we could be prohibited from borrowing any further amounts under our revolving credit facility, which would adversely affect our ability to fund our operations.

The Operating Partnership has \$390.9 million principal amount of 2017 bonds outstanding and \$200.0 million principal amount of 2018 bonds outstanding. The indenture that governs these outstanding notes requires us to comply with customary operating covenants and various financial ratios, including a requirement that we maintain unencumbered assets of at least 200% of all outstanding unsecured debt. The trustee or the holders of at least 25% in principal amount of either series of bonds can accelerate the principal amount of such series upon written notice of a default that remains uncured after 60 days.

We may not be able to repay, refinance or extend any or all of our debt at maturity or upon any acceleration. If any refinancing is done at higher interest rates, the increased interest expense could adversely affect our cash flow and ability to pay distributions. Any such refinancing could also impose tighter financial ratios and other covenants that restrict our ability to take actions that could otherwise be in our best interest, such as funding new development activity, making opportunistic acquisitions, repurchasing our securities or paying distributions.

Off Balance Sheet Arrangements

In the second quarter of 2010, we sold our equity interests in a series of unconsolidated joint ventures relating to properties in Des Moines, IA. The assets in the joint ventures included 2.5 million square feet of office (1.7 million square feet), industrial (788,000 square feet) and retail (45,000 square feet) properties, as well as 418 apartment units. In connection with the closing, we received \$15.0 million in cash. We had a negative book basis in certain of the joint ventures, primarily as a result of prior cash distributions to the partners. Accordingly, we recorded gain on disposition of investment in unconsolidated affiliates of \$25.3 million in the second quarter of 2010. As of the closing date, the joint ventures had approximately \$170 million of secured debt, which was non-recourse to us except (1) in the case of customary exceptions pertaining to matters such as misuse of funds, borrower bankruptcy, unpermitted transfers, environmental conditions and material misrepresentations and (2) approximately \$9.0 million of direct and indirect guarantees. We have been released by the applicable lenders from all such direct and indirect guarantees and we have no ongoing lender liability relating to such customary exceptions to non-recourse liability with respect to some, but not all, of the debt. The buyer has agreed to indemnify and hold us harmless from any and all future losses that we suffer as a result of our prior investment in the joint ventures (other than losses directly resulting from our acts or omissions). In the event we are exposed to any such future loss, our financial condition and results of operations would not be adversely affected unless the buyer defaults on its indemnification obligation.

In connection with the disposition of six industrial properties in our Piedmont Triad segment, we entered into a guarantee agreement with the buyer relating to an existing 237,500 square foot lease with one customer, who has leased space in the properties for 14 years. This agreement guarantees the payment of rent for an approximate two-year period from March 2011 through June 2013 in the event the customer exercises its limited termination right. Our maximum exposure under this rent guarantee agreement is approximately \$1.0 million. No accrual has been recorded for this guarantee because we currently do not believe a loss is probable.

There were no other significant changes to our off balance sheet arrangements in the six months ended June 30, 2010. For information regarding our off balance sheet arrangements at December 31, 2009, see Note 8 to the Consolidated Financial Statements in our 2009 Annual Report on Form 10-K.

Interest Rate Hedging Activities

To meet, in part, our liquidity requirements, we borrow funds at a combination of fixed and variable rates. Borrowings under our revolving credit facility, construction facility and bank term loans bear interest at variable rates. Our long-term debt, which consists of secured and unsecured long-term financings and the issuance of unsecured debt securities, typically bears interest at fixed rates although some loans bear interest at variable rates. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, from time to time, we enter into interest rate hedge contracts such as collars, swaps, caps and treasury lock agreements in order to mitigate our interest rate risk with respect to various debt instruments. We do not hold or issue these derivative contracts for trading or speculative purposes. The interest rate on all of our variable rate debt is generally adjusted at one or three month intervals, subject to settlements under these interest rate hedge contracts. We also enter into treasury lock or similar agreements from time to time in order to limit our exposure to an increase in interest rates with respect to future debt offerings. We had no outstanding interest rate hedge contracts at June 30, 2010.

CRITICAL ACCOUNTING ESTIMATES

There were no changes made by management to the critical accounting policies in the six months ended June 30, 2010. For a description of our critical accounting estimates, see "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Estimates" in our 2009 Annual Report on Form 10-K.

FUNDS FROM OPERATIONS

The Company believes that FFO and FFO per share are beneficial to management and investors and are important indicators of the performance of any equity REIT. Because FFO and FFO per share calculations exclude such factors as depreciation and amortization of real estate assets and gains or losses from sales of operating real estate assets, which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful life estimates, they facilitate comparisons of operating performance between periods and between other REITs. Management believes that historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient on a stand-alone basis. As a result, management believes that the use of FFO and FFO per share, together with the required GAAP presentations, provide a more complete understanding of the Company's performance relative to its competitors and a more informed and appropriate basis on which to make decisions involving operating, financing and investing activities.

FFO and FFO per share are non-GAAP financial measures and therefore do not represent net income or net income per share as defined by GAAP. Net income and net income per share as defined by GAAP are the most relevant measures in determining the Company's operating performance because FFO and FFO per share include adjustments that investors may deem subjective, such as adding back expenses such as depreciation and amortization. Furthermore, FFO per share does not depict the amount that accrues directly to the stockholders' benefit. Accordingly, FFO and FFO per share should never be considered as alternatives to net income or net income per share as indicators of the Company's operating performance.

The Company's presentation of FFO is consistent with FFO as defined by the National Association of Real Estate Investment Trusts ("NAREIT"), which is calculated as follows:

- Net income/(loss) computed in accordance with GAAP;
- Less dividends to holders of Preferred Stock and less excess of Preferred Stock redemption cost over carrying value;
- Less net income attributable to noncontrolling interests;
- Plus depreciation and amortization of real estate assets;
- Less gains, or plus losses, from sales of depreciable operating properties (but excluding impairment losses) and excluding items that are classified as extraordinary items under GAAP;
- Plus or minus adjustments for unconsolidated partnerships and joint ventures (to reflect funds from operations on the same basis); and
- Plus or minus adjustments for depreciation and amortization and gains/(losses) on sales related to discontinued operations.

In calculating FFO, the Company adds back net income attributable to noncontrolling interests in the Operating Partnership, which the Company believes is consistent with standard industry practice for REITs that operate through an UPREIT structure. The Company believes that it is important to present FFO on an as-converted basis since all of the Common Units not owned by the Company are redeemable on a one-for-one basis for shares of its Common Stock.

The Company's FFO and FFO per share are summarized in the following table (\$ in thousands, except per share amounts):

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information about our market risk as of December 31, 2009, see "Quantitative and Qualitative Disclosures About Market Risk" in our 2009 Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

SEC rules require us to maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our annual and periodic reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. As defined in Rule 13a-15(e) under the Exchange Act, disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us is accumulated and communicated to management, including the Company's CEO and CFO, to allow timely decisions regarding required disclosure. The Company's CEO and CFO believe that the disclosure controls and procedures of the Company and the Operating Partnership were each effective at the end of the period covered by this Quarterly Report.

SEC rules also require us to establish and maintain internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepting accounting principles. As defined in Rule 13a-15(f) under the Exchange Act, internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect transactions and dispositions of assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures are being made only in accordance with authorizations of management and directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets that could have a material effect on the financial statements.

There were no changes in internal control over financial reporting during the three months ended June 30, 2010 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. There were also no changes in internal control over financial reporting during the three months ended June 30, 2010 that materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the second quarter of 2010, the Company issued an aggregate of 1,000 shares of Common Stock to holders of Common Units in the Operating Partnership upon the redemption of a like number of Common Units in private offerings exempt from the registration requirements pursuant to Section 4(2) of the Securities Act. Each of the holders of Common Units was an accredited investor under Rule 501 of the Securities Act. The resale of such shares was registered by the Company under the Securities Act.

- 1. I have reviewed this quarterly report on Form 10-Q of Highwoods Properties Inc.;
- 2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this quarterly report;
- 4. The Registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and we have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.
- 5. The Registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the Audit Committee of Registrant's Board of Directors (or persons performing the equivalent functions):
 - all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which
 are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information;
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.
