## **EXPLANATORY NOTE**

The sole purpose of this amended Quarterly Report is to set forth unaudited interim financial statements for the periods presented on a restated basis that present cash disposition proceeds that are set aside and designated or intended to fund future tax-deferred exchanges of qualifying real estate investments as restricted cash rather than as cash and cash equivalents (see Note 14 to the Consolidated Financial Statements). In addition, in accordance with Statement of Financial Accounting Standard No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," ("SFAS No. 144"), the operations of any property sold during the nine months ended December 31, 2007 have been reclassified into discontinued operations. The aforementioned financial statements should be read in conjunction with the notes to Consolidated Financial Statements, Management's Discussion and Analysis of Financial Condition and Results of Operations and Risk Factors included herein and in our 2006 Annual Report on Form 10-K. As permitted by Rule 12b-15 of the Securities Exchange Act, this amended filing includes the complete text of only those items amended. Accordingly, Part I, Items 3 and 4, and Part II, Items 1 through 5, have been omitted from this filing.

### **PART I - FINANCIAL INFORMATION**

#### **ITEM 1 . FINANCIAL STATEMENTS**

We refer to (1) Highwoods Properties, Inc. as the "Company," (2) Highwoods Realty Limited Partnership as the "Operating Partnership," (3) the Company's common stock as "Common Stock," (4) the Company's preferred stock as "Preferred Stock," (5) the Operating Partnership's common partnership interests as "Common Units," (6) the Operating Partnership's preferred partnership interests as "Preferred Units" and (7) in-service properties (excluding rental residential units) to which the Company and/or the Operating Partnership have title and 100.0% ownership rights as the "Wholly Owned Properties."

The information furnished in the accompanying Consolidated Financial Statements reflect all adjustments (consisting of normal recurring accruals) that are, in our opinion, necessary for a fair presentation of the aforementioned financial statements for the interim period.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2007**  
**(tabular dollar amounts in thousands, except per share data)**  
(Unaudited)

**1. DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES**

**Description of Business**

Highwoods Properties, Inc., together with its consolidated subsidiaries (the "Company"), is a fully-integrated, self-administered and self-managed equity real estate investment trust ("REIT") that operates in the southeastern and midwestern United States. The Company conducts substantially all of its activities through Highwoods Realty Limited Partnership (the "Operating Partnership"). Other than 22.4 acres of undeveloped land, 13 rental residential units and the Company's interest in the Kessinger/Hunter, LLC and 4600 Madison Associates, LLC joint ventures (see Note 2), all of the Company's assets are owned directly or indirectly by the Operating Partnership. As of March 31, 2007, the Company directly and/or through the Operating Partnership wholly owned: 320 in-service office, industrial and retail properties; 109 rental residential units; 625 acres of undeveloped land suitable for future development, of which 421 acres are considered core holdings; and an additional 16 properties under development.

At March 31, 2007, the Company owned all of the preferred partnership interests ("Preferred Units") and 93.2% of the common partnership interests ("Common Units") in the Operating Partnership. Limited partners (including certain officers and directors of the Company) own the remaining Common Units. Generally, the Operating Partnership is required to redeem each Common Unit at the request of the holder thereof for cash equal to the value of one share of the Company's Common Stock, \$.01 par value (the "Common Stock"), based on the average of the market price for the 10 trading days immediately preceding the notice date of such redemption provided that the Company at its option may elect to acquire any such Common Units presented for redemption for cash or one share of Common Stock. The Common Units owned by the Company are not redeemable. During the three months ended March 31, 2007, the Company redeemed 618,257 Common Units for \$27.4 million in cash, which increased the percentage of Common Units owned by the Company from 92.2% at December 31, 2006 to 93.2% at March 31, 2007. Preferred Units in the Operating Partnership were issued to the Company in connection with the Company's Preferred Stock offerings in 1997 and 1998 (the "Preferred Stock"). The net proceeds raised from each of the Preferred Stock issuances were contributed by the Company to the Operating Partnership in exchange for the Preferred Units. The terms of each series of Preferred Units parallel the terms of the respective Preferred Stock as to dividends, liquidation and redemption rights.

**Basis of Presentation**

The Consolidated Financial Statements of the Company are prepared in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"). Certain amounts in the December 31, 2006 Consolidated Balance Sheet have been reclassified to conform to the current presentation. As more fully described in Note 9, as required by SFAS No. 144, the Consolidated Balance Sheet at December 31, 2006 was revised from previously reported amounts to reflect in real estate and other assets held for sale those properties held for sale at March 31, 2007. The Consolidated Statements of Income for the three months ended March 31, 2006 were also revised from previously reported amounts to reflect in discontinued operations the operations of any property sold in all of 2007.

**HIGHWOODS PROPERTIES, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(tabular dollar amounts in thousands, except per share data)**

**1. DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES - Continued**

The Consolidated Financial Statements include the Operating Partnership, wholly owned subsidiaries and those subsidiaries in which the Company owns a majority voting interest with the ability to control operations of the subsidiaries and where no substantive participating rights or substantive kick out rights have been granted to the minority interest holders. In accordance with EITF Issue No. 04-5, "Determining Whether a General Partner or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights," the Company consolidates partnerships, joint ventures and limited liability companies when the Company controls the major operating and financial policies of the entity through majority ownership or in its capacity as general partner or managing member. In addition, the Company consolidates those entities, if any, where the Company is deemed to be the primary beneficiary in a variable interest entity (as defined by FASB Interpretation No. 46 (revised December 2003) "Consolidation of Variable Interest Entities" ("FIN 46(R)")). All significant intercompany transactions and accounts have been eliminated.

The accompanying unaudited financial information, in the opinion of management, contains all adjustments (including normal recurring accruals) necessary for a fair presentation of the Company's financial position, results of operations and cash flows. The Company has condensed or omitted certain notes and other information from the interim financial statements presented in this Quarterly Report on Form 10-Q. These financial statements should be read in conjunction with the Company's 2006 Annual Report on Form 10-K.

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Income Taxes**

The Company has elected and expects to continue to qualify as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"). A corporate REIT is a legal entity that holds real estate assets and, through the payment of dividends to stockholders, is generally permitted to reduce or avoid the payment of federal and state income taxes at the corporate level. To maintain qualification as a REIT, the Company is required to distribute to its stockholders at least 90.0% of its annual REIT taxable income, excluding capital gains. Aggregate dividends paid on Preferred Stock exceeded REIT taxable income (excluding capital gains) in 2006, which resulted in no required dividend on Common Stock in 2006 for REIT qualification purposes. Continued qualification as a REIT depends on the Company's ability to satisfy the dividend distribution tests, stock ownership requirements and various other qualification tests prescribed in the Code. The Company conducts certain business activities through a taxable REIT subsidiary, as permitted under the Code. The taxable REIT subsidiary is subject to federal and state income taxes on its net taxable income. The Company records provisions for income taxes, to the extent required under SFAS No. 109, "Accounting for Income Taxes" ("SFAS No. 109"), based on its income recognized for financial statement purposes, including the effects of temporary differences between such income and the amount recognized for tax purposes. Additionally, beginning January 1, 2007, the Company began to recognize and measure the effects of uncertain tax positions under FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes, an interpretation of SFAS No. 109." See Impact of Newly Adopted and Issued Accounting Standards below and Note 12 for discussion of the effect of FIN 48 on the Company's accounting for income taxes.

**1. DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES - Continued**

**Minority Interest**

Minority interest in the accompanying Consolidated Financial Statements relates primarily to the ownership by various individuals and entities other than the Company of Common Units in the Operating Partnership. In addition, minority interest is also recorded for the 50.0% interest in a consolidated affiliate, Highwoods-Markel Associates, LLC ("Markel"), the equity interest owned by a third party in a consolidated venture formed during 2006 with Real Estate Exchange Services ("REES"), and the 7% equity interest owned by a third party in Plaza Residential LLC, a consolidated joint venture formed in February 2007 related to an office condominium project, as described below. As of March 31, 2007, minority interest in the Operating Partnership consisted of approximately 4.1 million Common Units. Minority interest in the net income of the Operating Partnership is computed by applying the weighted average percentage of Common Units not owned by the Company during the period (as a percent of the total number of outstanding Common Units) to the Operating Partnership's net income after deducting distributions on Preferred Units. The result is the amount of minority interest expense (or income) recorded for the period. In addition, when a minority unitholder redeems a Common Unit for a share of Common Stock or cash, the minority interest is reduced and the Company's share in the Operating Partnership is increased. At the end of each reporting period, the Company determines the amount that represents the minority unitholders' share of the net assets (at book value) of the Operating Partnership and compares this amount to the minority interest balance that resulted from transactions during the period involving minority interest. The Company adjusts the minority interest liability to the computed share of net assets with an offsetting adjustment to the Company's paid in capital.

The organizational documents of Markel require the entity to be liquidated through the sale of its assets upon reaching December 31, 2100. As controlling partner, the Company has an obligation to cause this property-owning entity to distribute proceeds of liquidation to the minority interest partner in these partially owned properties only if the net proceeds received by the entity from the sale of its assets warrant a distribution as determined by the agreement. In accordance with the disclosure provisions of SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS No. 150"), the Company estimates the value of minority interest distributions would have been approximately \$10.9 million had the entity been liquidated as of March 31, 2007. This estimated settlement value is based on estimated third party consideration realizable by the entity upon a hypothetical disposition of the properties and is net of all other assets and liabilities. The actual amount of any distributions to the minority interest holder in this entity is difficult to predict due to many factors, including the inherent uncertainty of real estate sales. If the entity's underlying assets are worth less than the underlying liabilities on the date of such liquidation, the Company would have no obligation to remit any consideration to the minority interest holder.

In the fourth quarter of 2006, the Company entered into an agreement with REES to ground lease certain development land to special purpose entities owned by REES. Under the agreement, REES makes an equity contribution to each such entity in an amount equal to 7% of the costs of constructing properties on the entity's land (not to exceed \$4.0 million outstanding in the aggregate at any time). REES earns an agreed fixed return for its economic investment in the entity. The balance of development costs are funded by third party construction loans. Until such third party construction loans are obtained, the remaining 93% of costs are loaned by the Company to the entity. Subject to the exercise of a purchase option, it is expected that the properties will be acquired by the Company in the future at an amount generally equal to the actual development costs incurred plus the fixed return earned by REES for its economic investment in these entities. Because the Company is considered the primary beneficiary, the Company consolidates these special purpose entities in accordance with FIN 46(R). Consolidated entities will be re-evaluated for primary beneficiary status when the entity undertakes additional activity, such as placing the development projects in-service. REES's investment in these entities is included in minority interest as shown in the tables below. All costs to form the entities and other related fees have been expensed as incurred.

In the first quarter of 2007, the Company's taxable REIT subsidiary formed Plaza Residential LLC with Dominion Partners LLC ("Dominion"). Plaza Residential was formed to develop and sell 139 residential condominiums to be constructed above an office tower being developed by the Company in Raleigh, NC. Dominion has a 7% equity interest in the project and will perform development services for the joint venture for a market development fee and guarantees 40.0% of the construction financing. Dominion will also receive 35.0% of the net profits from the joint venture once the partners have received distributions equal to their equity plus a 12.0% return on their equity. The Company is consolidating this majority owned joint venture and inter-company transactions have been eliminated in the Consolidated Financial Statements.

Following is minority interest as reflected in the Company's Consolidated Statements of Income and Consolidated Balance Sheets:

	<b>Three Months Ended March 31,</b>

**Impact of Newly Adopted and Issued Accounting Standards**

In June 2006, the FASB issued FIN 48, which the Company adopted as of January 1, 2007. See Note 12 for further discussion.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS No. 157"). SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures concerning fair value measurements. SFAS No. 157 becomes effective for the Company on January 1, 2008. The Company is currently evaluating the impact SFAS No. 157 will have on its financial condition and results of operations.

In December 2006, the FASB issued FSP EITF 00-19-2, "Accounting for Registration Payment Arrangements," to specify that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement should be separately recognized and measured in accordance with FASB Statement No. 5, "Accounting for Contingencies." The FSP is effective immediately for registration payment arrangements and the financial instruments subject to those arrangements that are entered into or modified subsequent to the issuance date of this FSP and effective for fiscal years beginning after December 15, 2006 and interim periods within those fiscal years for arrangements that were entered into prior to the issuance of this FSP. See Note 5 for discussion of a registration rights agreement the Company entered into in the first quarter of 2007.

**1. DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES - Continued**

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS No. 159"), which permits all entities to choose to measure eligible items at fair value at specified election dates. SFAS No. 159 becomes effective for the Company on January 1, 2008. The Company is currently evaluating the impact SFAS No. 159 will have on its financial condition and results of operations.

**2. INVESTMENTS IN UNCONSOLIDATED AND OTHER AFFILIATES**

The Company has various joint ventures with unrelated investors and has retained equity interests ranging from 12.5% to 50.0% in these joint ventures. The Company accounts for its unconsolidated joint ventures using the equity method of accounting. As a result, the assets and liabilities of these joint ventures for which the Company uses the equity method of accounting are not included on the Company's consolidated balance sheet.

During the third quarter of 2006, three of the Company's joint ventures made distributions aggregating \$17.0 million as a result of a refinancing of debt related to various properties held by the joint ventures. The Company received 50.0% of such distributions. As a result of these distributions, the Company's investment account in these joint ventures became negative. The new debt is non-recourse; however, the Company and its partner have guaranteed other debt and have contractual obligations to support the joint ventures, which are included in the Guarantees and Other Obligations table in Note 11. Therefore, in accordance with SOP 78-9, "Accounting for Investments in Real Estate Ventures," the Company recorded the distributions as a reduction of the investment account and included the resulting negative investment balances of \$6.7 million in accounts payable, accrued expenses and other liabilities in the Consolidated Balance Sheet at March 31, 2007.

The Company has had a number of consolidated joint ventures. SF-HIW Harborview Plaza, LP is accounted for as a financing arrangement pursuant to SFAS No. 66, "Accounting for Sales of Real Estate" ("SFAS No. 66"), as described in Note 3 to the Consolidated Financial Statements in the Company's 2006 Annual Report on Form 10-K; MG-HIW, LLC was accounted for as a financing arrangement pursuant to SFAS No. 66 as described in Note 3 to the Consolidated Financial Statements in the Company's 2006 Annual Report on Form 10-K; The Vinings at University Center, LLC was consolidated pursuant to FIN 46(R) as described further below until late 2006 upon the sale of the venture's assets and distribution of its net cash assets to its partners; and Markel, REES and Plaza Residential, which are discussed in Note 1, are each consolidated.

(1) The Company's share of net income differs from its weighted average ownership percentage in the joint ventures' net income due to the Company's purchase accounting and other related adjustments.

On September 27, 2004, the Company and an affiliate of Crosland, Inc. ("Crosland") formed Weston Lakeside, LLC, in which the Company has a 50.0% ownership interest. On June 29, 2005, the Company contributed 22.4 acres of land at an agreed upon value of \$3.9 million to this joint venture, and Crosland contributed approximately \$2.0 million in cash. Immediately thereafter, the joint venture distributed approximately \$1.9 million to the Company and the Company recorded a gain of \$0.5 million. Crosland managed and operated this joint venture, which constructed approximately 332 rental residential units in three buildings, at a total estimated cost of approximately \$33 million. Crosland received 3.25% of all project costs other than land as a development fee and 3.5% of the gross revenue of the joint venture in management fees. The joint venture financed the development with a \$28.4 million construction loan guaranteed by Crosland. The Company provided certain development services for the project and received a fee equal to 1.0% of all project costs excluding land. The Company has accounted for this joint venture using the equity method of accounting. On February 22, 2007, the joint venture sold the 332 rental residential units to a third party for gross proceeds of \$45.0 million. Mortgage debt in the amount of \$27.1 million was paid off and various development related costs were paid. The joint venture recorded a gain of \$11.3 million in the first quarter of 2007 related to this sale and the Company recorded \$5.0 million as its proportionate share through equity in earnings of unconsolidated affiliates. The Company's share of the gain was less than 50.0% due to Crosland's preferred return as the developer. The Company received a net distribution of \$6.1 million and may receive a further small and final distribution. As of May 1, 2007, the joint venture is dormant pending the final distribution to the partners.

**Highwoods DLF 98/29, L.P.**

The Company has a 22.81% interest in a joint venture ("DLF I") with Schweiz-Deutschland-USA Dreilander Beteiligung Objekt DLF 98/29-Walker Fink-KG ("DLF"). The Company is the property manager and leasing agent of DLF I's properties and receives customary management and leasing fees. On March 12, 2007, DLF I sold five properties to a third party for gross proceeds of \$34.2 million and recorded a gain of \$9.3 million related to this sale. The Company recorded \$2.1 million as its proportionate share of this gain through equity in earnings of unconsolidated affiliates.

For additional information regarding the Company's other investments in unconsolidated and other affiliates, see Note 2 to the Consolidated Financial Statements in the Company's 2006 Annual Report on Form 10-K.

**3. FINANCING ARRANGEMENTS**

For information regarding sale transactions that have been accounted for as financing arrangements under paragraphs 25 through 29 of SFAS No. 66, see Note 5 herein and Note 3 to the Consolidated Financial Statements in the Company's 2006 Annual Report on Form 10-K.

**4. ASSET DISPOSITIONS**

Gains, losses and impairments on disposition of properties, net, from dispositions not classified as discontinued operations, consisted of the following:

	Three Months Ended March 31,	
	2007	2006
Gains on disposition of land	\$ 15,835	\$ 3,040
Gains on disposition of depreciable properties	908	1,270
Total	<u>\$ 16,743</u>	<u>\$ 4,310</u>

The above gains on land and depreciable properties in the first quarter of 2006 include deferred gain recognition from prior sales and adjustments to prior sale transactions.

Gains on sales of discontinued operations, net of minority interest, consisted of the following:

	Three Months Ended March 31,	
	2007	2006
Gains on disposition of depreciable properties	\$ 19,743	\$ 1,894
Allocable minority interest	(1,481)	(136)

**5. MORTGAGES, NOTES PAYABLE AND FINANCING OBLIGATIONS**

The Company's consolidated mortgages and notes payable consisted of the following at March 31, 2007 and December 31, 2006:

	March 31, 2007	December 31, 2006
Secured mortgage loans	\$ 675,724	\$ 741,629
Unsecured loans	811,785 <sup>(1)</sup>	723,500
Total	<u>\$ 1,487,509</u>	<u>\$ 1,465,129</u>

(1) Represents stated amount less \$1.2 million original issue discount on bonds issued in 2007.

As of March 31, 2007, the Company's outstanding mortgages and notes payable were secured by real estate assets with an aggregate undepreciated book value of approximately \$1.0 billion.

The Company's \$450.0 million unsecured revolving credit facility is initially scheduled to mature on May 1, 2009. Assuming no default exists, the Company has an option to extend the maturity date by one additional year and, at any time prior to May 1, 2008, may request increases in the borrowing availability under the credit facility by up to an additional \$50 million. The interest rate is LIBOR plus 80 basis points and the annual base facility fee is 20 basis points. The revolving credit facility had \$366.9 million of availability as of May 1, 2007.

The Company's revolving credit facility and the indenture that governs the Operating Partnership's outstanding notes require it to comply with customary operating covenants and various financial and operating ratios. The Company and the Operating Partnership are each currently in compliance with all such requirements.

On March 22, 2007, the Operating Partnership issued \$400 million aggregate principal amount of 5.85% Notes due March 15, 2017, net of original issue discount of \$1.2 million. The notes were issued under the indenture, dated as of December 1, 1996, among the Operating Partnership, the Company and U.S. Bank National Association (as successor in interest to Wachovia Bank, N.A.), the trustee, and pursuant to resolutions of the Board of Directors of the Company and an officers' certificate dated as of March 22, 2007 establishing the terms of the notes. The Company used the net proceeds from the issuance of the notes to repay borrowings outstanding under an unsecured non-revolving credit facility that was obtained on January 31, 2007 (which was subsequently terminated) and under the revolving credit facility. In connection with the completion of the offering, the Company and the Operating Partnership entered into a registration rights agreement dated March 22, 2007 with the initial purchasers of the notes. The registration rights agreement requires the Operating Partnership to file, within 90 days after the closing date of the sale of the notes, a registration statement with respect to an offer to exchange the notes for other freely tradable notes that are registered under the Securities Act of 1933 and to cause such exchange offer registration statement to become effective within 180 days after the closing date. The Operating Partnership is required to complete the exchange offer within 210 days after the closing date. If the Operating Partnership fails to comply with the provisions of the registration rights agreement, the interest rate will be increased by 0.25% per annum during the 90-day period immediately following the default and will increase by 0.25% per annum at the end of each subsequent 90-day period, but in no event shall such increase exceed 0.50% per annum. Management currently believes that the Company will timely fulfill its obligations under the registration rights agreement and, accordingly, no amounts have been recorded for potential future additional interest costs.

**5. MORTGAGES, NOTES PAYABLE AND FINANCING OBLIGATIONS - Continued**

**Financing Obligations**

The Company's financing obligations consisted of the following at March 31, 2007 and December 31, 2006:

	March 31, 2007	December 31, 2006
SF-HIW Harborview, LP financing obligation (1)	\$ 16,146	\$ 16,157
Tax increment financing obligation (2)	18,308	18,308
Capitalized ground lease obligation (3)	1,075	1,065
Total	<u>\$ 35,529</u>	<u>\$ 35,530</u>

- (1) See Note 3 to the Consolidated Financial Statements in the Company's 2006 Annual Report on Form 10-K for further discussion of this financing obligation.
- (2) In connection with tax increment financing for construction of a public garage related to an office building constructed by the Company in 2000, the Company is obligated to pay fixed special assessments over a 20-year period. The net present value of these assessments, discounted at 6.93% at the inception of the obligation, which represents the interest rate on the underlying bond financing, is shown as a financing obligation in the Consolidated Balance Sheet. The Company also receives special tax revenues and property tax rebates recorded in interest and other income, which are intended, but not guaranteed, to provide funds to pay the special assessments.
- (3) Represents a capitalized lease obligation to the lessor of land on which the Company is constructing a new building. The Company is obligated to make fixed payments to the lessor through October 2022 and the lease provides for fixed price purchase options in the ninth and tenth years of the lease. The Company intends to exercise the purchase option in order to prevent an economic penalty related to conveying the building to the lessor at the expiration of the lease. The net present value of the fixed rental payments and purchase option through the ninth year was calculated using a discount rate of 7.1%. The assets and liabilities under the capital lease are recorded at the lower of the present value of minimum lease payments or the fair value. The liability accretes each month for the difference between the interest rate on the financing obligation and the fixed payments. The accretion will continue until the liability equals the purchase option of the land in the ninth year of the lease.

**6. EMPLOYEE BENEFIT PLANS**

**Officer, Management and Director Compensation Programs**

The Company's officers participate in an annual non-equity incentive program whereby they are eligible for incentive payments based on a percentage of their annual base salary. In addition to considering the pay practices of the Company's peer group in determining each officer's incentive payment percentage, the officer's ability to influence the Company's performance is also considered. Each officer has a target annual non-equity incentive payment percentage that ranges from 25.0% to 85.0% of base salary depending on the officer's position. The officer's actual incentive payment for the year is the product of the target annual incentive payment percentage times a performance 'factor,' which can range from zero to 200.0%. This performance factor depends upon the relationship between how various performance criteria compare with predetermined goals. For an officer who has division responsibilities, goals for certain performance criteria are based partly on the division's actual performance relative to that division's established goals for each criteria and partly on actual total Company performance relative to the same criteria. Incentive payments are accrued and expensed in the year earned and are generally paid in the first quarter of the following year.

**HIGHWOODS PROPERTIES, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(tabular dollar amounts in thousands, except per share data)**

**6. EMPLOYEE BENEFIT PLANS - Continued**

Certain other members of management participate in an annual non-equity incentive program whereby a target annual cash incentive payment is established based upon the job responsibilities of their position. Incentive payment eligibility ranges from 10.0% to 40.0% of annual base salary. The actual incentive payment is determined by the overall performance of the Company and the individual's performance during each year. These incentive payments are also accrued and expensed in the year earned and are generally paid in the first quarter of the following year.

The Company's officers generally receive annual grants of stock options and restricted stock on or about March 1 of each year under the Amended and Restated 1994 Stock Option Plan (the "Stock Option Plan"). Stock options have also been granted to the Company's directors; currently, directors do not receive annual stock option grants. Restricted stock grants are also made annually to directors and certain non-officer employees. As of March 31, 2007, 9.0 million shares of Common Stock were authorized for issuance under the Stock Option Plan. Stock options issued prior to 2005 vest ratably over four years and remain outstanding for 10 years. Stock options issued beginning in 2005 vest ratably over a four-year period and remain outstanding for seven years. The value of all options as of the date of grant is calculated using the Black-Scholes option-pricing model.

The Company generally makes annual grants of time-based restricted stock under its Stock Option Plan to its directors, officers and other employees. Shares of time-based restricted stock issued prior to 2005 generally vest 50.0% three years from the date of grant and the remaining 50.0% five years from date of grant. Shares of time-based restricted stock that were issued to officers and employees in 2005 will vest one-third on the third anniversary, one-third on the fourth anniversary and one-third on the fifth anniversary of the date of grant. Shares of time-based restricted stock that were issued to officers and employees in 2006 and 2007 will vest 25% on the first, second, third and fourth anniversary dates, respectively. Shares of time-based restricted stock issued to directors generally vest 25% on January 1 of each successive year after the grant date. The value of grants of time-based restricted stock is based on the market value of Common Stock as of the date of grant and is amortized to expense over the respective vesting or service periods.

The Company also has issued shares of restricted stock to officers under its Stock Option Plan that will vest if the Company's total shareholder return exceeds the average total returns of a selected group of peer companies over a three-year period. If the Company's total shareholder return does not equal or exceed such average total returns, none of the total return-based restricted stock will vest. The 2006 and 2007 grants also contain a provision allowing for partial vesting if the annual total return in any given year of the three-year period exceeds 9% on an absolute basis. The grant date fair values of each such share of total return-based restricted stock are being amortized to expense on a straight-line method over the three-year period.

The Company also has issued shares of performance-based restricted stock to officers under its Stock Option Plan that will vest pursuant to performance-based criteria. The performance-based criteria are based on whether or not the Company meets or exceeds at the end of three-year performance periods certain operating and financial goals established under its Strategic Plan. To the extent actual performance equals or exceeds threshold performance goals, the portion of shares of performance-based restricted stock that vest can range from 50% to 100%. If actual performance does not meet such threshold goals, none of the performance-based restricted stock will vest. The fair value of performance-based restricted share grants is based on the market value of Common Stock as of the date of grant and the estimated performance to be achieved at the end of the three-year period. Such fair value is being amortized to expense over the three-year performance periods, adjusting for the expected level of vesting that will occur at those dates.

**6. EMPLOYEE BENEFIT PLANS - Continued**

Up to 100% of additional total return-based restricted stock and up to 50% of additional performance-based restricted stock may be issued at the end of the three-year periods if actual performance exceeds certain levels of performance. Such additional shares, if any, would be fully vested when issued. The Company will also accrue and record expense for additional performance-based shares during the three-year period to the extent issuance of the additional shares is expected based on the Company's current and projected actual performance. In accordance with SFAS No. 123(R), no expense is recorded for additional shares of total return-based restricted stock that may be issued at the end of the three-year period since that possibility is already reflected in the grant date fair value.

During the three months ended March 31, 2007 and 2006, the Company recognized approximately \$1.2 million and \$0.9 million, respectively, of stock-based compensation expense. As of March 31, 2007, there was \$8.6 million of total unrecognized stock-based compensation costs, which will be recognized over a weighted average remaining contractual term of 2.4 years.

Using the Black-Scholes options valuation model, the weighted average fair values of options granted during the three months ended March 31, 2007 and 2006 were \$6.32 and \$3.98, respectively, per option. The fair values of the options granted in 2007 and 2006 were estimated at the grant dates using the following weighted average assumptions:

	Three Months Ended March 31,	
	2007	2006
Risk free interest rate (1)	4.50%	4.63%
Common stock dividend yield (2)	4.05%	5.21%
Expected volatility (3)	18.91%	18.89%
Average expected option life (years) (4)	5.75	4.75
Options granted	143,629	241,151

(1) Represents interest rate on US treasury bonds having the same life as the estimated life of the Company's options.

(2) The dividend yield is calculated utilizing the dividends paid for the previous one-year period and the Company's stock price on the date of grant.

(3) Based on historical volatility of the Company's stock over a period relevant to the related stock option grant.

(4) The average expected option life for the grants are based on an analysis of historical company data.

The following table summarizes information about stock option activity during the three months ended March 31, 2007:

	Options Outstanding	
	Number of Shares	Weighted Average Exercise Price

Cash received or receivable from options exercised was \$7.1 million for the three months ended March 31, 2007. The total intrinsic value of options exercised during the three months ended March 31, 2007 was \$18.6 million. No options were exercised during the three months ended March 31, 2006. The total intrinsic value of options outstanding at March 31, 2007 and 2006 was \$29.9 million and \$49.1 million, respectively. The Company generally does not permit the net cash settlement of exercised stock options, but does permit net share settlement for certain qualified exercises. The Company has a policy of issuing new shares to satisfy stock option exercises.

The following table sets forth information at March 31, 2007 about (a) the outstanding number of vested stock options and those expected to vest and (b) the number of those options that are exercisable.

The following table summarizes activity in the three months ended March 31, 2007 for all performance-based and total return-based restricted stock grants:

	Number of Shares	Weighted Average Grant Date Fair Value
Nonvested shares outstanding at December 31, 2006	106,646	\$ 28.58
Awarded and issued (1)	40,620	39.23
Vested	-	-
Forfeited	(5,610)	27.70
Surrendered for payment of withholding taxes upon vesting	-	-
Nonvested shares outstanding at March 31, 2007	<u>141,656</u>	<u>\$ 31.67</u>

(1) The weighted average fair value at grant date of performance and total return-based restricted shares issued during each of the three months ended March 31, 2007 and 2006 was \$1.6 million.

**1999 Shareholder Value Plan**

Grants under the 1999 Shareholder Value Plan were intended to reward the executive officers of the Company when the total shareholder returns measured by increases in the market value of Common Stock plus dividends exceeded a comparable index of the Company's peers over a three-year period. Annual grants under this Plan up to 2004 would result in cash payments based on the Company's percentage change in shareholder return compared to the composite index of its peer group. If the Company's performance was not at least 100% of the peer group, no payout was made. To the extent performance exceeds the peer group, the payout would have increased. No new grants were made under the 1999 Shareholder Value Plan subsequent to 2004. The 1999 Shareholder Value Plan is accounted for as a liability award and, accordingly, at each period-end, a liability equal to the current computed fair value under the plan for all outstanding plan units, adjusted for the three-year vesting period, is recorded with corresponding charges or credits to compensation expense. For the grants issued in early 2004 and whose three-year performance period ended on December 31, 2006, a liability of approximately \$0.7 million was recorded at December 31, 2006 with an offset to compensation expense. During the three months ended March 31, 2007, an additional \$0.2 million was recorded as a liability with an offset to compensation expense. The Company paid the \$0.9 million obligation in the first quarter of 2007. No compensation expense was recorded under this plan for the three months ended March 31, 2006.

**Retirement Plan**

Effective for 2006, the Company adopted a retirement plan applicable to all employees, including executive officers, who, at the time of retirement, have at least 30 years of continuous qualified service or are at least 55 years old and have at least 10 years of continuous qualified service. Subject to advance retirement notice and execution of a non-compete agreement with the Company, eligible retirees would be entitled to receive a pro rata amount of the annual incentive payment earned during the year of retirement. Stock options and time-based restricted stock granted by the Company to such eligible retiree during his or her employment would be non-forfeitable and become exercisable according to the terms of their original grants. Eligible retirees would also be entitled to receive a pro rata amount of any performance-based and total return-based restricted stock originally granted to such eligible retiree during his or her employment that subsequently vests after the retirement date according to the terms of their original grants. The benefits of this retirement plan apply only to restricted stock and stock option grants beginning in 2006 and will be phased in by applying the benefits to 25% of grants made in 2006, to 50% of grants made in 2007, to 75% of grants made in 2008 and to 100% of grants made in 2009 and thereafter. For employees who meet the retirement eligibility requirements, their grants are fully expensed immediately to the extent of the phased-in benefits because there is no future service required in order to have full rights to the grants. Compensation expense related to the retirement plan was approximately \$0.4 million and \$0.2 million in the three months ended March 31, 2007 and 2006, respectively. Grants made prior to 2006 are unaffected.

**Deferred Compensation**

The Company has a deferred compensation plan pursuant to which each executive officer and director can elect to defer a portion of base salary and/or annual incentive payment (or director fees) for investment in various unrelated mutual funds. Prior to January 1, 2006, executive officers and directors also could elect to defer cash compensation for investment in units of phantom common stock of the Company. At the end of each calendar quarter, any executive officer and director who deferred compensation into phantom stock was credited with units of phantom stock at a 15.0% discount. Dividends on the phantom units are assumed to be issued in additional units of phantom stock at a 15.0% discount. If an officer that deferred compensation under this plan leaves the Company's employ voluntarily or for cause within two years after the end of the year in which such officer deferred compensation for units of phantom stock, at a minimum, the 15.0% discount and any deemed dividends are forfeited. Over the two-year vesting period, the Company records additional compensation expense equal to the 15.0% discount, the accrued dividends and any changes in the market value of Common Stock from the date of the deferral, which aggregated \$0.04 million and \$0.6 million for the three months ended March 31, 2007 and 2006, respectively. Cash payments from the plan for the three months ended March 31, 2007 and 2006 were \$0.1 million and \$0.08 million, respectively. Transfers made from the phantom stock investment to other investments in the deferred compensation plan for the three months ended March 31, 2007 was \$0.4 million.

**401(k) Savings Plan**

The Company has a 401(k) savings plan covering substantially all employees who meet certain age and employment criteria. The Company contributes amounts for each participant at a rate of 75% of the employee's contribution (up to 6% of each employee's salary). During the three months ended March 31, 2007 and 2006, the Company contributed \$0.4 million and \$0.3 million, respectively, to the 401(k) savings plan. Administrative expenses of the plan are paid by the Company.

**6. EMPLOYEE BENEFIT PLANS - Continued**

**Employee Stock Purchase Plan**

The Company has an Employee Stock Purchase Plan for all active employees under which employees can elect to contribute up to 25.0% of their base and annual incentive compensation for the purchase of Common Stock. At the end of each three-month offering period, the contributions in each participant's account balance, which includes accrued dividends, are applied to acquire shares of Common Stock at a cost that is calculated at 85.0% of the lower of the average closing price on the New York Stock Exchange on the five consecutive days preceding the first day of the quarter or the five days preceding the last day of the quarter. The Operating Partnership issues one Common Unit to the Company in exchange for the price paid for each share of Common Stock. Securities and Exchange Commission ("SEC") rules prohibited the Company from issuing shares of Common Stock pursuant to the plan under the Company's Form S-8 registration statement during 2005 and a portion of 2006 because of the delay in the filing of the Company's SEC reports. As a result, no shares were issued during this period under the plan, and the funds were held by a trustee. In September 2006, the funds were released by the trustee and 48,035 shares were issued. In addition, in the three months ended March 31, 2007, the Company issued 5,895 shares of Common Stock under the Employee Stock Purchase Plan. The discount on newly issued shares is expensed by the Company as additional compensation and aggregated \$0.03 and \$0.05 million in the three months ended March 31, 2007 and 2006, respectively.

**7. DERIVATIVE FINANCIAL INSTRUMENTS**

Accumulated Other Comprehensive Loss ("AOCL") at March 31, 2007 and December 31, 2006 was \$1.4 million and \$1.5 million, respectively, and consisted of deferred gains and losses from past cash flow hedging instruments which are being recognized as interest expense over the terms of the related debt (see Note 8). The Company expects that the portion of the cumulative loss recorded in AOCL at March 31, 2007 associated with these derivative instruments, which will be recognized as interest expense within the next 12 months, will be approximately \$0.4 million.

**8. OTHER COMPREHENSIVE INCOME**

Other comprehensive income represents net income plus the changes in certain amounts deferred in accumulated other comprehensive income/(loss) related to hedging activities not reflected in the Consolidated Statements of Income. The components of other comprehensive income are as follows:

	Three Months Ended March 31,	
	2007	2006
Net income	\$ 52,558	\$ 14,146
Other comprehensive income:		
Amortization of hedging gains and losses included in other comprehensive income	142	177
Total other comprehensive income	142	177
Total comprehensive income	<u>\$ 52,700</u>	<u>\$ 14,323</u>

**9. DISCONTINUED OPERATIONS AND THE IMPAIRMENT OF LONG-LIVED ASSETS**

As part of its business strategy, the Company will from time to time selectively dispose of non-core properties in order to use the net proceeds for investments, for repayment of debt and/or redemption of Preferred Stock, or other purposes. The table below sets forth the net operating results and net carrying value of those assets classified as discontinued operations in the Company's Consolidated Financial Statements. These assets classified as discontinued operations comprise 4.2 million square feet of office and industrial properties and 173 rental residential units sold during 2006 and all of 2007. These long-lived assets relate to disposal activities that were initiated subsequent to the effective date of SFAS No. 144, or that met certain stipulations prescribed by SFAS No. 144. The operations of these assets have been reclassified from the ongoing operations of the Company to discontinued operations, and the Company will not have any significant continuing involvement in the operations after the disposal transactions:

	<b>Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
<b>Rental and other revenues</b>	\$ 2,293	\$ 6,173
<b>Operating expenses:</b>		
Rental property and other expenses	983	2,382
Depreciation and amortization	604	1,614
Total operating expenses	1,587	3,996
<b>Interest expense</b>	-	103
<b>Other income</b>	10	26
<b>Income before minority interest in the Operating Partnership and gains on sales of discontinued operations</b>	716	2,100
Minority interest in discontinued operations	(53)	(193)
<b>Income from discontinued operations, net of minority interest in the Operating Partnership</b>	663	1,907
Gains on sales of discontinued operations	19,743	1,894
Minority interest in discontinued operations	(1,481)	(136)
<b>Gains on sales of discontinued operations, net of minority interest in the Operating Partnership</b>	18,262	1,758
<b>Total discontinued operations</b>	<u>\$ 18,925</u>	<u>\$ 3,665</u>

The net book value of properties classified as discontinued operations that were sold during 2006 and all of 2007 aggregated \$282.6 million.

SFAS No. 144 also requires that a long-lived asset classified as held for sale be measured at the lower of the carrying value or fair value less cost to sell. During the three months ended March 31, 2007 and 2006, there were no properties held for sale which had a carrying value that was greater than fair value less cost to sell; therefore, no impairment loss was recognized in the Consolidated Statements of Income for the three months ended March 31, 2007 and 2006.

**(tabular dollar amounts in thousands, except per share data)**

**9 . DISCONTINUED OPERATIONS AND THE IMPAIRMENT OF LONG-LIVED ASSETS - Continued**

SFAS No. 144 also requires that if indicators of impairment exist, the carrying value of a long-lived asset classified as held for use be compared to the sum of its estimated undiscounted future cash flows. If the carrying value is greater than the sum of its undiscounted future cash flows, an impairment loss should be recognized for the excess of the carrying amount of the asset over its estimated fair value. In each of the three months ended March 31, 2007 and 2006, no indicators of impairment existed for assets held for use. Therefore, no impairment losses were recorded in the three months ended March 31, 2007 and 2006.

The following table includes the major classes of assets and liabilities of the properties classified as held for sale as of March 31, 2007 and December 31, 2006:

	March 31, 2007	December 31, 2006

Net income	<u>\$ 0.85</u>	<u>\$ 0.14</u>

(1) Weighted average shares exclude shares of unvested restricted stock pursuant to SFAS 128.

(2) Options and warrants aggregating approximately 1.0 million shares were outstanding during the three months ended March 31, 2006 but were not included in the computation of diluted earnings per share because the exercise prices of the options and warrants were higher than the average market price of Common Stock during that period.

**11 . COMMITMENTS AND CONTINGENCIES**

**Concentration of Credit Risk**

The Company maintains its cash and cash equivalent investments and its restricted cash at financial institutions. The combined account balances at each institution typically exceed FDIC insurance coverage and, as a result, there is a concentration of credit risk related to amounts on deposit in excess of FDIC insurance coverage.

**Land Leases**

Certain properties in the Company's wholly owned portfolio are subject to land leases expiring through 2082. Rental payments on these leases are adjusted annually based on either the consumer price index (CPI) or on a pre-determined schedule. Land leases subject to increases under a pre-determined schedule are accounted for under the straight-line method. Total expense recorded for land leases was \$0.3 million for each of the three months ended March 31, 2007 and 2006, respectively.

For one property owned at March 31, 2007, the Company has the option to purchase the leased land in the third year of the lease term at a purchase price of \$1.1 million, which increases 2% annually beginning in year three through the fifteenth year of the lease.

As of March 31, 2007, the Company's payment obligations for future minimum payments on operating leases (which include scheduled fixed increases, but exclude increases based on CPI) were as follows:

Remainder of 2007	\$ 797
2008	1,077
2009	1,118
2010	1,135
2011	1,155
Thereafter	<u>45,543</u>
	<u>\$ 50,825</u>

**Environmental Matters**

Substantially all of the Company's in-service properties have been subjected to Phase I environmental assessments (and, in certain instances, Phase II environmental assessments). Such assessments and/or updates have not revealed, nor is management aware of, any environmental liability that management believes would have a material adverse effect on the accompanying Consolidated Financial Statements.

- (1) Represents guarantees entered into prior to the January 1, 2003 effective date of FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" ("FIN 45") for initial recognition and measurement.
- (2) Represents guarantees that fall under the initial recognition and measurement requirements of FIN 45.
- (3) Represents guarantees that are excluded from the fair value accounting and disclosure provisions of FIN 45 because the existence of such guarantees prevents sale treatment and/or the recognition of profit from the sale transaction.
- (4) The maximum potential amount of future payments disclosed for these guarantees assumes the Company pays the maximum possible liability under the guaranty with no offsets or reductions. With respect to the rent guarantee, if the space is leased, it assumes the existing tenant defaults at March 31, 2007 and the space remains unleased through the remainder of the guaranty term. If the space is vacant, it assumes the space remains vacant through the expiration of the guaranty. Since it is assumed that no new tenant will occupy the space, lease commissions, if applicable, are excluded.
- (5) As more fully described in Note 3 to the Consolidated Financial Statements in the Company's 2006 Annual Report on Form 10-K, in 2002 the Company granted its partner in SF-HIW Harborview Plaza, LP a put option and entered into a master lease arrangement for five years covering vacant space in the building owned by the joint venture. The Company also agreed to pay certain tenant improvement costs. The maximum potential amount of future payments the Company could be required to make related to the rent guarantees and tenant improvements was \$0.2 million as of March 31, 2007.

**11. COMMITMENTS AND CONTINGENCIES - Continued**

- (6) The Company has guaranteed certain loans in connection with the Des Moines joint ventures. The maximum potential amount of future payments that the Company could be required to make under the guarantees is \$8.6 million at March 31, 2007. This amount relates to housing revenue bonds that require credit enhancements in addition to the real estate mortgages. The bonds bear a floating interest rate, which at March 31, 2007 averaged 3.67%, and mature in 2015. If the joint ventures are unable to repay the outstanding balance under these housing revenue bonds, the Company will be required to repay its maximum exposure under these loans. Recourse provisions exist that enable the Company to recover some or all of such payments from the joint ventures' assets. The joint venture currently generates sufficient cash flow to cover the debt service required by the loan.
- (7) In connection with the RRHWoods, LLC joint venture, the Company guaranteed \$3.1 million relating to a letter of credit and corresponding master lease, which expires in August 2010. The guarantee requires the Company to pay under a contingent master lease if the cash flows from the building securing the letter of credit do not cover at least 50% of the minimum debt service. The letter of credit along with the building secure the industrial revenue bonds used to finance the property. These bonds mature in 2015. Recourse provisions exist such that the Company could recover some or all of the payments made under the letter of credit guarantee from the joint venture's assets. At March 31, 2007, the Company recorded a \$0.4 million deferred charge included in other assets and liabilities on its Consolidated Balance Sheet with respect to this guarantee. The Company's maximum potential exposure under this guarantee was \$3.1 million at March 31, 2007.
- (8) The Plaza Colonnade, LLC joint venture has a \$50 million non-recourse mortgage that bears a fixed interest rate of 5.7%, requires monthly principal and interest payments and matures on January 31, 2017. The Company and its joint venture partner have signed a contingent master lease limited to 30,772 square feet, which expires in December 2009. The Company's maximum exposure under this master lease was \$1.2 million at March 31, 2007. However, the current occupancy level of the building is sufficient to cover all debt service requirements.
- (9) As more fully described in Note 3 to the Consolidated Financial Statements in the Company's 2006 Annual Report on Form 10-K, in connection with the sale of three office buildings to a third party in 2002 (the "Eastshore" transaction), the Company agreed to guarantee rent shortfalls and re-tenanting costs for a five-year period of time from the date of sale (through November 2007). The Company's maximum exposure to loss under these agreements as of March 31, 2007 was \$3.0 million. These three buildings were leased to a single tenant, Capital One Services, Inc., a subsidiary of Capital One Financial Services, Inc., under leases that expire from May 2006 to March 2010. This transaction had been accounted for as a financing transaction and was recorded as a completed sale transaction in the third quarter of 2005 when the maximum exposure to loss under these guarantees became less than the related deferred gain; gain is now being recognized as the maximum exposure under the guarantees is reduced.
- (10) In December 2003, the Company sold 1.9 million square feet of industrial property. As part of the sale, the Company agreed to indemnify and hold the buyer harmless with respect to environmental concerns on the property of up to \$0.1 million. As a result, \$0.1 million of the gain was deferred at the time of sale and will remain deferred until the environmental concerns are remediated.
- (11) In the Highwoods DLF 97/26 DLF 99/32, LP joint venture, a single tenant currently leases an entire building under a lease scheduled to expire on June 30, 2008. The tenant also leases space in other buildings owned by the Company. In conjunction with an overall restructuring of the tenant's leases with the Company and with this joint venture, the Company agreed to certain changes to the lease with the joint venture in September 2003. The modifications included allowing the tenant to vacate the premises on January 1, 2006, reducing the rent obligation by 50.0% and converting the "net" lease to a "full service" lease with the tenant liable for 50.0% of these costs at that time. In turn, the Company agreed to compensate the joint venture for any economic losses incurred as a result of these lease modifications. As of March 31, 2007, the Company has approximately \$0.4 million in other liabilities and \$0.4 million as a deferred charge in other assets recorded on its Consolidated Balance Sheet to account for the lease guarantee. However, should new tenants occupy the vacated space prior to the end of the guarantee period, in June 2008, the Company's liability under the guarantee would diminish. The Company's maximum potential amount of future payments with regard to this guarantee as of March 31, 2007 was \$0.6 million. No recourse provisions exist to enable the Company to recover any amounts paid to the joint venture under this lease guarantee arrangement.

**11 . COMMITMENTS AND CONTINGENCIES - Continued**

- (12)RRHWoods, LLC and Dallas County Partners financed the construction of two buildings with a \$7.4 million ten-year loan. As an inducement to make the loan at a 6.3% long-term rate, the Company and its partner agreed to master lease the vacant space and each guaranteed \$0.8 million of the debt with limited recourse. As leasing improves, the guarantee obligations under the loan agreement diminish. As of March 31, 2007, no master lease payments were necessary. The Company currently has recorded \$0.05 million in other liabilities and \$0.05 million as a deferred charge included in other assets on its Consolidated Balance Sheet with respect to this guarantee. The maximum potential amount of future payments that the Company could be required to make based on the current leases in place was approximately \$2.1 million as of March 31, 2007. The likelihood of the Company paying on its \$0.8 million guarantee is remote since the joint venture currently satisfies the minimum debt coverage ratio and should the Company have to pay its portion of the guarantee, it would be entitled to recover the \$0.8 million from other joint venture assets.
- (13)As more fully described in Note 2 to the Consolidated Financial Statements in the Company's 2006 Annual Report on Form 10-K, in connection with the formation of HIW-KC Orlando, LLC, the Company agreed to guarantee rent to the joint venture for 3,248 rentable square feet commencing in August 2004 and expiring in April 2011. The Company's maximum potential amount of future payments with regard to the guarantee is \$0.4 million as of March 31, 2007. Additionally, the Company agreed to guarantee the initial leasing costs, originally estimated at \$4.1 million, for approximately 11% of the total square feet of the property owned by the joint venture. The Company has paid approximately \$0.07 million in 2007 under this guarantee, and approximately \$0.3 million is estimated to remain under the guarantee at March 31, 2007.
- (14)In connection with the RRHWoods, LLC joint venture, the Company and its partner each guaranteed \$3.0 million to a bank. This guarantee expires in November 2009 and can be renewed, at the joint venture's option, through November 2011. The bank provides a letter of credit securing industrial revenue bonds, which mature in November 2015. The joint venture's industrial building secures the bonds. The Company would be required to perform under the guarantee should the joint venture be unable to repay the bonds. The Company has recourse provisions to recover from the joint venture's assets. The property collateralizing the bonds generates sufficient cash flow to cover the debt service required by the bond financing. In addition to the direct guarantee, the Company is committed to a master lease for 50% of the debt service should the cash flow from the property not be able to pay the debt service of the bonds. As a result of this master lease, the Company has recorded \$0.03 million in other liabilities and as a deferred charge in other assets on its Consolidated Balance Sheet at March 31, 2007.
- (15)Represents capitalized lease obligations of \$0.5 million related to office equipment, which is included in accounts payable, accrued expenses and other liabilities on the Company's Consolidated Balance Sheet at March 31, 2007.
- (16)In 2006, RRHWoods, LLC completed construction of an office building with a loan by the Company's joint venture partner. In February 2007, the joint venture borrowed \$4.1 million. The loan is non-recourse; however, since the building is currently only 35.0% leased, the lender has required a \$1.5 million letter of credit as additional collateral. The Company's joint venture partner agreed to provide the letter of credit and the Company has in turn agreed to reimburse its partner for 50.0%. The Company would be required to pay on its guarantee should the joint venture be unable to repay the outstanding loan balance. However, the joint venture currently generates sufficient cash flow to cover the debt service required by the loan. As a result, no liability was recorded for the letter of credit guarantee as of March 31, 2007.

**11. COMMITMENTS AND CONTINGENCIES - Continued**

**Litigation, Claims and Assessments**

The Company is from time to time a party to a variety of legal proceedings, claims and assessments arising in the ordinary course of its business. The Company regularly assesses the liabilities and contingencies in connection with these matters based on the latest information available. For those matters where it is probable that the Company has incurred or will incur a loss and the loss or range of loss can be reasonably estimated, reserves are recorded in the Consolidated Financial Statements. In other instances, because of the uncertainties related to both the probable outcome and amount or range of loss, a reasonable estimate of liability, if any, cannot be made. Based on the current expected outcome of such matters, none of these proceedings, claims or assessments is expected to have a material adverse effect on the Company's business, financial condition or results of operations.

In 2006 and March 2007, the Company received assessments for state excise taxes and related interest amounting to approximately \$5.5 million, related to periods 2002 through 2005. The Company believes that it is not subject to such taxes and has vigorously disputed the assessment. Based on the advice of counsel concerning the status of settlement discussions and on the Company's analysis, the Company currently believes it is probable that all excise tax assessments, including additional potential assessments for 2005 and 2006, can be settled by the payment of franchise taxes of approximately \$0.5 million, and in the fourth quarter of 2006 such amount was accrued and charged to operating expenses. Legal fees related to this matter were nominal and were charged to operating expenses as incurred in 2006 and 2007.

**12 . INCOME TAXES**

The Company's Consolidated Financial Statements include operations of the taxable REIT subsidiary, which is not entitled to the dividends paid deduction and is subject to corporate, state and local income taxes. As a REIT, the Company may also be subject to certain federal excise taxes if it engages in certain types of transactions.

Other than the liability for an uncertain tax position and related accrued interest under FIN 48 discussed below, no provision has been made for federal and state income taxes for the REIT during the three month periods ended March 31, 2007 and 2006 because the Company qualifies as a REIT under the Code. The taxable REIT subsidiary has operated at a cumulative taxable loss through March 31, 2007 of approximately \$11.2 million and has paid no income taxes since its formation. In addition to the \$3.9 million deferred tax asset for these cumulative tax loss carryforwards, the taxable REIT subsidiary also had net deferred tax liabilities of approximately \$1.2 million comprised primarily of tax versus book basis differences in certain investments and depreciable assets held by the taxable REIT subsidiary. Because the future tax benefit of all of the cumulative losses is not assured, the approximate \$2.7 million net deferred tax asset position of the taxable REIT subsidiary has been fully reserved as management does not believe that it is more likely than not that the net deferred tax asset will be recognized. Accordingly, no tax benefit has been recognized in the accompanying Consolidated Financial Statements. The tax benefit of the cumulative losses could be recognized for financial reporting purposes in future periods to the extent the taxable REIT subsidiary generates sufficient taxable income.

**12 . INCOME TAXES - Continued**

In June 2006, the FASB issued FIN 48, which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109. FIN 48 prescribes a comprehensive model for the recognition, measurement, presentation and disclosure in the Company's financial statements for uncertain tax positions taken or expected to be taken in an income tax return. The Company adopted FIN 48 effective January 1, 2007.

In connection with the adoption of FIN 48, on January 1, 2007, the Company recorded a \$1.4 million liability for an uncertain tax position, with the related expense reflected as a reduction to the beginning balance of distributions in excess of net earnings. This liability is included in accounts payable, accrued expenses and other liabilities. The Company believes it is reasonably possible that, within 12 months, the liability for the uncertain tax position will be reversed, and income recognized, upon the expiration of the applicable statute of limitations.

In addition, the Company adopted the policy of classifying related interest and penalties as income tax expense. On January 1, 2007, approximately \$0.2 million of accrued interest was recorded for uncertain tax positions as part of the \$1.4 million noted above. There were no significant changes in the components of the liability during the first quarter of 2007. No penalties have been accrued.

The Company is subject to federal, state and local income tax examinations by tax authorities for 2003 through 2006.

**13. SEGMENT INFORMATION**

The sole business of the Company is the acquisition, development and operation of rental real estate properties. The Company operates in four segments: office, industrial, retail and residential properties. Each segment has different customers and economic characteristics as to rental rates and terms, cost per square foot of buildings, the purposes for which customers use the space, the degree of maintenance and customer support required and customer dependency on different economic drivers, among others. There are no material inter-segment transactions.

The accounting policies of the segments are the same as those described in Note 1 included herein. Further, all operations are within the United States and, at March 31, 2007, no tenant of the Wholly Owned Properties comprised more than 6.7% of the Company's consolidated revenues.

The following table summarizes the rental income, net operating income and assets for each reportable segment for the three months ended March 31, 2007 and 2006:

**14 . OTHER EVENTS**

**Gain on Property Insurance Settlement**

In the fourth quarter of 2005, one of the Company's office properties located in southeastern Florida sustained damage in a hurricane. The damages are fully insured except for a \$341,000 deductible, which was expensed in the fourth quarter of 2005. The Company did not incur any significant loss of rental income as a result of the damages. In 2006, the Company received \$2.4 million from the insurance company as advances on the final settlement; these amounts were primarily for clean up costs and certain repairs. The Company is in the process of completing final permanent repairs. During the first quarter of 2007, the insurance company paid the Company an additional \$4.9 million upon finalization of the claim. The Company recorded a \$4.1 million gain under FASB Interpretation No. 30, "Accounting for Involuntary Conversion of Non-Monetary Assets to Monetary Assets" in the first quarter of 2007.

**Preferred Stock Redemptions**

On April 27, 2007, the Company announced that it will redeem, on May 29, 2007, 1.6 million of its outstanding Series B Preferred Shares, aggregating \$40.0 million plus accrued and unpaid dividends. In connection with this redemption, the excess of the redemption cost over the net carrying amount of the redeemed shares is estimated to be \$1.4 million and will be recorded as a reduction to net income available for common shareholders in the second quarter of 2007.

**Misstatement of Restricted Cash**

Subsequent to the issuance of the interim financial statements for the period ended March 31, 2007, management determined that cash disposition proceeds that are set aside and designated or intended to fund future tax-deferred exchanges of qualifying real estate investments should have been presented as restricted cash rather than as cash and cash equivalents, as previously reported. As a result of this misstatement, we have restated our interim Consolidated Balance Sheet as of March 31, 2007 and the related Consolidated Statement of Cash Flows for the three months ended March 31, 2007 as more fully set forth in the table below. The restatement did not impact our Consolidated Statements of Income in any period.

## ITEM 2 . MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis in conjunction with the accompanying Consolidated Financial Statements and related notes contained elsewhere in this Quarterly Report. This discussion and analysis gives effect to the restatement as discussed in Note 14 to the accompanying Consolidated Financial Statements. In addition, in accordance with Statement of Financial Accounting Standard No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," ("SFAS No. 144"), the operations of any property sold during the nine months ended December 31, 2007 have been reclassified into discontinued operations.

### DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

Some of the information in this Quarterly Report may contain forward-looking statements. Such statements include, in particular, statements about our plans, strategies and prospects under this section and under the heading "Business." You can identify forward-looking statements by our use of forward-looking terminology such as "may," "will," "expect," "anticipate," "estimate," "continue" or other similar words. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that our plans, intentions or expectations will be achieved. When considering such forward-looking statements, you should keep in mind the following important factors that could cause our actual results to differ materially from those contained in any forward-looking statement:

- speculative development activity by our competitors in our existing markets could result in an excessive supply of office, industrial and retail properties relative to tenant demand;
- the financial condition of our tenants could deteriorate;
- we may not be able to complete development, acquisition, reinvestment, disposition or joint venture projects as quickly or on as favorable terms as anticipated;
- we may not be able to lease or release space quickly or on as favorable terms as old leases;
- increases in interest rates would increase our debt service costs;
- we may not be able to meet our liquidity requirements or obtain capital on favorable terms to fund our working capital needs and growth initiatives or to repay or refinance outstanding debt upon maturity;
- we could lose key executive officers; and
- our southeastern and midwestern markets may suffer unexpected declines in economic growth.

This list of risks and uncertainties, however, is not intended to be exhaustive. You should also review the other cautionary statements we make in "Business – Risk Factors" set forth in our 2006 Annual Report.

Given these uncertainties, you should not place undue reliance on forward-looking statements. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements to reflect any future events or circumstances or to reflect the occurrence of unanticipated events.

### OVERVIEW

We are a fully integrated, self-administered and self-managed equity REIT that provides leasing, management, development, construction and other customer-related services for our properties and for third parties. As of March 31, 2007, we owned or had an interest in 385 in-service office, industrial and retail properties, encompassing approximately 33.9 million square feet, which includes 17 in-service office and industrial development properties that had not yet reached 95% stabilized occupancy aggregating approximately 2.6 million square feet, and 527 rental residential units. We are based in Raleigh, North Carolina, and our properties and development land are located in Florida, Georgia, Iowa, Kansas, Maryland, Missouri, North Carolina, South Carolina, Tennessee and Virginia.

Additional information about us can be found on our website at [www.highwoods.com](http://www.highwoods.com). Information on our website is not part of this Quarterly Report.

## **Results of Operations**

Approximately 81.8% of our rental and other revenue from continuing operations is derived from our office properties. As a result, while we own and operate a limited number of industrial, retail and residential properties, our operating results depend heavily on successfully leasing our office properties. Furthermore, since approximately 65% of our annualized revenues from office properties come from properties located in Florida, Georgia, North Carolina and Tennessee, economic growth in those states is and will continue to be an important determinative factor in predicting our future operating results.

The key components affecting our rental revenue stream are dispositions, acquisitions, new developments placed in service, average occupancy and rental rates. Average occupancy generally increases during times of improving economic growth, as our ability to lease space outpaces vacancies that occur upon the expirations of existing leases. Average occupancy generally declines during times of slower economic growth, when new vacancies tend to outpace our ability to lease space. Asset acquisitions, dispositions and new developments placed in service directly impact our rental revenues and could impact our average occupancy, depending upon the occupancy rate of the properties that are acquired, sold or placed in service. A further indicator of the predictability of future revenues is the expected lease expirations of our portfolio. As a result, in addition to seeking to increase our average occupancy by leasing current vacant space, we also must concentrate our leasing efforts on renewing leases on expiring space. Whether or not our rental revenue tracks average occupancy proportionally depends upon whether rents under new leases signed are higher or lower than the rents under the previous leases.

Our expenses primarily consist of rental property expenses, depreciation and amortization, general and administrative expenses and interest expense. Rental property expenses are expenses associated with our ownership and operation of rental properties and include expenses that vary somewhat, such as common area maintenance and utilities, and relatively fixed expenses, such as property taxes and insurance. Some of these variable expenses may be lower when our average occupancy declines. Depreciation and amortization is a non-cash expense associated with the ownership of real property and generally remains relatively consistent each year, unless we buy or sell assets, since we depreciate our properties on a straight-line basis over fixed lives. General and administrative expenses, net of amounts capitalized, consist primarily of management and employee salaries and other personnel costs, corporate and division overhead and long-term incentive compensation. Interest expense depends primarily upon the amount of our borrowings, the weighted average interest rates on our debt and the amount of interest capitalized on development projects.

We record in “equity in earnings of unconsolidated affiliates” our proportionate share of net income or loss, adjusted for purchase accounting effects, of our unconsolidated joint ventures.

Additionally, SFAS No. 144, “Accounting for the Impairment or Disposal of Long-Lived Assets,” requires us to record net income received from properties sold or held for sale that qualify as discontinued operations under SFAS No. 144 separately as “income from discontinued operations.” As a result, we separately record revenues and expenses from these qualifying properties. As also required by SFAS No. 144, prior period results are reclassified to reflect the operations for such properties in discontinued operations.

## **Liquidity and Capital Resources**

We incur capital expenditures to lease space to our customers and to maintain the quality of our properties to successfully compete against other properties. Tenant improvements are the costs required to customize the space for the specific needs of the customer. Lease commissions are costs incurred to find the customer for the space. Lease incentives are costs paid to or on behalf of tenants to induce them to enter into leases and that do not relate to customizing the space for the tenant’s specific needs. Building improvements are recurring capital costs not related to a customer to maintain the buildings. As leases expire, we either attempt to relet the space to an existing customer or attract a new customer to occupy the space. Generally, customer renewals require lower leasing capital expenditures than reletting to new customers. However, market conditions such as supply of available space in the market, as well as demand for space, drive not only customer rental rates but also tenant improvement costs. Leasing capital expenditures are amortized over the term of the lease and building improvements are depreciated over the

appropriate useful life of the assets acquired. Both are included in depreciation and amortization in results of operations.

Because we are a REIT, we are required under the federal tax laws to distribute at least 90% of our REIT taxable income, excluding capital gains, to our stockholders. We generally use rents received from customers and proceeds from sales of non-core development land to fund our operating expenses, recurring capital expenditures and stockholder dividends. To fund property acquisitions, development activity or building renovations, we may sell other assets and may incur debt from time to time. Our debt generally consists of mortgage debt, unsecured debt securities and borrowings under our revolving credit facility.

As of December 31, 2006 and May 1, 2007, we had approximately \$113 million and \$417 million, respectively, of additional combined borrowing availability under our unsecured revolving credit facility and under our secured revolving construction credit facility.

Our revolving credit facility and the indenture governing our outstanding long-term unsecured debt securities require us to satisfy various operating and financial covenants and performance ratios. As a result, to ensure that we do not violate the provisions of these debt instruments, we may from time to time be limited in undertaking certain activities that may otherwise be in the best interest of our stockholders, such as repurchasing capital stock, acquiring additional assets, increasing the total amount of our debt or increasing stockholder dividends. We review our current and expected operating results, financial condition and planned strategic actions on an ongoing basis for the purpose of monitoring our continued compliance with these covenants and ratios. Any unwaived event of default could result in an acceleration of some or all of our debt, severely restrict our ability to incur additional debt to fund short- and long-term cash needs or result in higher interest expense.

To generate additional capital to fund our growth and other strategic initiatives and to lessen the ownership risks typically associated with owning 100.0% of a property, we may sell some of our properties or contribute them to joint ventures. When we create a joint venture with a strategic partner, we usually contribute one or more properties that we own and/or vacant land to a newly formed entity in which we retain an interest of 50.0% or less. In exchange for our equal or minority interest in the joint venture, we generally receive cash from the partner and retain some or all of the management income relating to the properties in the joint venture. The joint venture itself will frequently borrow money on its own behalf to finance the acquisition of, and/or leverage the return upon, the properties being acquired by the joint venture or to build or acquire additional buildings. Such borrowings are typically on a non-recourse or limited recourse basis. We generally are not liable for the debts of our joint ventures, except to the extent of our equity investment, unless we have directly guaranteed any of that debt. In most cases, we and/or our strategic partners are required to guarantee customary exceptions to non-recourse liability in non-recourse loans. See Note 11 to the Consolidated Financial Statements for additional information on certain debt guarantees. We have historically also sold additional Common Stock or Preferred Stock or issued Common Units to fund additional growth or to reduce our debt, but we have limited those efforts since 1998 because funds generated from our capital recycling program in recent years have provided sufficient funds to satisfy our liquidity needs. In addition, we have recently used funds from our capital recycling program to redeem Common Units and Preferred Stock for cash.

## RESULTS OF OPERATIONS

In accordance with SFAS No. 144 and as described in Note 9 to the Consolidated Financial Statements, we reclassified the operations and/or gain/(loss) from disposal of certain properties to discontinued operations for all periods presented if the operations and cash flows have been or will be eliminated from our ongoing operations and we will not have any significant continuing involvement in the operations after the disposal transaction and the properties were either sold during 2006 and the first three months of 2007 or were held for sale at March 31, 2007. There were no properties sold during 2006 and the first three months of 2007 that did not meet the conditions as stipulated by SFAS No. 144.

### Three Months Ended March 31, 2007 and 2006

The following table sets forth information regarding our unaudited results of operations for the three months ended March 31, 2007 and 2006 (\$ in millions):

### Rental and Other Revenues

The increase in rental and other revenues from continuing operations was primarily the result of higher average occupancy in 2007 as compared to 2006, the contribution from developed properties placed in service in 2006 and the first three months of 2007 and higher escalation income in 2007 as a result of the increase in operating expenses

for the same period. These increases were partly offset by an approximate \$0.8 million decrease in lease termination fees from 2006 to 2007.

### ***Rental Property and Other Expenses***

Rental and other operating expenses from continuing operations (real estate taxes, utilities, insurance, repairs and maintenance and other property-related expenses) increased \$2.9 million in the first quarter of 2007 compared to the first quarter of 2006, primarily as a result of general inflationary increases in certain operating expenses, such as utility costs, insurance costs and real estate taxes. In addition, rental property and operating expenses of developed properties placed in service in 2006 and the three months ended March 31, 2007 contributed to the increase in the first quarter of 2007.

Rental revenues less rental and other operating expenses increased in 2007 compared to 2006. However, although we recover a portion of operating costs from our tenants, which recoveries are included in rental revenues, the increase in operating costs in 2007 was proportionately higher than the increase in revenue, resulting in a slight reduction in the percentage of rental revenues less rental and other operating expenses to rental revenues compared to 2006.

The increase in depreciation and amortization is primarily a result of the contribution from development properties placed in service in 2006 and the three months ended March 31, 2007, and an increase in building improvements, tenant improvements and deferred leasing costs related to those buildings placed in service.

The \$2.2 million increase in general and administrative expenses was primarily related to higher salary and fringe benefit costs, including stock-based compensation and employer taxes related to stock options exercised in the first quarter, higher audit fees and higher costs written off in 2007 related to the termination of certain development projects.

### ***Interest Expense***

The decrease in contractual interest was primarily due to a slight decrease in weighted average interest rates on outstanding debt from 6.9% in the three months ended March 31, 2006 to 6.8% in the three months ended March 31, 2007 and an increase of \$1.5 million in capitalized interest from the three months ended March 31, 2006 to the three months ended March 31, 2007 due to our increased development activity. Partly offsetting these decreases was an increase in average borrowings from \$1.42 billion in the three months ended March 31, 2006 to \$1.45 billion in the three months ended March 31, 2007.

### ***Gains on Disposition of Property; Gain from Property Insurance Settlement; Minority Interest; Equity in Earnings of Unconsolidated Affiliates***

Net gains on dispositions of properties not classified as discontinued operations were \$16.7 million in the three months ended March 31, 2007 compared to \$4.3 million for the three months ended March 31, 2006. Gains are dependent on the specific assets sold, their historical cost basis and other factors, and can vary significantly from period to period. See Note 4 to the Consolidated Financial Statements for further discussion.

In the first quarter of 2007, we recorded a \$4.1 million gain from finalization of a prior year insurance claim.

The increase in minority interest expense of \$2.0 million was primarily due to a corresponding increase in the Operating Partnership's income from continuing operations, after Preferred Unit distributions.

Equity in earnings of unconsolidated affiliates increased \$7.6 million from 2006. The increase was primarily a result of the sale of five properties by our DLF I joint venture, pursuant to which the joint venture recognized a gain of approximately \$9.3 million, resulting in an increase of approximately \$2.1 in equity in earnings of unconsolidated affiliates in 2007. Additionally, in 2007, DLF I received a lease termination fee of \$4.6 million, which resulted in an increase of approximately \$1.0 in equity in earnings of unconsolidated affiliates. In addition, in 2007, the Weston Lakeside joint venture sold 332 rental residential units, recognizing a gain of approximately \$11.3 million, which resulted in a increase of approximately \$5.0 million in equity in earnings of unconsolidated affiliates. (See Note 2 to the Consolidated Financial Statements for further discussion related to these transactions).

### ***Discontinued Operations***

In accordance with SFAS No. 144, we classified net income of \$18.9 million and \$3.6 million, net of minority interest, as discontinued operations for the three months ended March 31, 2007 and 2006, respectively. These amounts relate to 4.2 million square feet of office and industrial property and 173 rental residential units sold during 2006 and 2007. These amounts include net gains on the sale of these properties of \$18.3 million and \$1.7 million, net of minority interest, in the three months ended March 31, 2007 and 2006, respectively.

### ***Preferred Dividends and Excess of Preferred Stock Redemption Costs in Excess of Carrying Value***

Preferred dividends and excess of preferred stock redemption costs decreased \$0.6 million and \$1.8 million, respectively, due to a redemption of \$50 million of Preferred Stock in the first quarter of 2006.

## LIQUIDITY AND CAPITAL RESOURCES

### Statement of Cash Flows

As required by GAAP, we report and analyze our cash flows based on operating activities, investing activities and financing activities. The following table sets forth the changes in our cash flows in the first three months of 2007 as compared to the first three months of 2006 (in thousands):

	Three Months Ended March 31,		Change
	2007	2006	
Cash Provided By Operating Activities	\$ 25,744	\$ 39,880	\$ (14,136)
Cash (Used In)/Provided By Investing Activities	(4,930)	125,699	(130,629)
Cash Used In Financing Activities	(36,577)	(142,647)	106,070
Total Cash Flows	<u>\$ (15,763)</u>	<u>\$ 22,932</u>	<u>\$ (38,695)</u>

In calculating cash flow from operating activities, depreciation and amortization, which are non-cash expenses, are added back to net income. As a result, we have historically generated a significant positive amount of cash from operating activities. From period to period, cash flow from operations depends primarily upon changes in our net income, as discussed more fully above under "Results of Operations," changes in receivables and payables, and net additions or decreases in our overall portfolio, which affect the amount of depreciation and amortization expense.

Cash provided by or used in investing activities generally relates to capitalized costs incurred for leasing and major building improvements and our acquisition, development, disposition and joint venture activity. During periods of significant net acquisition and/or development activity, our cash used in such investing activities will generally exceed cash provided by investing activities, which typically consists of cash received upon the sale of properties and distributions of capital from our joint ventures.

Cash used in financing activities generally relates to stockholder dividends, distributions on Common Units, incurrence and repayment of debt and sales, repurchases or redemptions of Common Stock, Common Units and Preferred Stock. As discussed previously, we use a significant amount of our cash to fund stockholder dividends and Common Unit distributions. Whether or not we have increases in the outstanding balances of debt during a period depends generally upon the net effect of our acquisition, disposition, development and joint venture activity. We use our revolving credit facility for working capital purposes, which means that during any given period, in order to minimize interest expense, we will likely record significant repayments and borrowings under our revolving credit facility.

The decrease of \$14.1 million in cash provided by operating activities in the three months ended March 31, 2007 compared to the same period in 2006 was primarily the result of lower cash flows from net income as adjusted for changes in gains on disposition of properties, a gain from a property insurance settlement, minority interest, and equity in earnings of unconsolidated affiliates. In addition, the net change in operating assets and liabilities resulted in a \$14.4 million decrease in cash provided by operating activities from 2006 to 2007.

The decrease of \$130.6 million in cash provided by investing activities in the three months ended March 31, 2007 compared to the same period in 2006 was primarily a result of a \$93.7 million decrease in proceeds from dispositions of real estate assets and a \$31.5 million increase in additions to real estate assets and deferred leasing costs and an outflow of cash in 2007 related to proceeds from dispositions which were set aside and designated for potential future tax-deferred real estate transactions. Partly offsetting these decreases in cash provided was \$4.9 million received as proceeds from an insurance settlement in the first quarter of 2007.

The decrease of \$106.1 million in cash used in financing activities in the three months ended March 31, 2007 compared to the same period in 2006 was primarily a result of an \$83.7 million increase in net borrowings on the revolving credit facility and mortgages and notes payable, and a decrease of \$50.0 million cash used in connection with the redemption of Preferred Stock from 2006 to 2007. These decreases were partly offset by an increase of \$25.9 million in cash used in connection with the repurchase of Common Units from 2006 to 2007.

In 2007, we continued our capital recycling program of selectively disposing of non-core properties in order to use the net proceeds for investments or other purposes. At March 31, 2007, we had 33.1 acres of land classified as held for sale pursuant to SFAS No. 144 with a carrying value of \$5.5 million.

## Capitalization

The following table sets forth our capitalization as of March 31, 2007 and December 31, 2006 (in thousands, except per share amounts):

	<u>March 31, 2007</u>	<u>December 31, 2006</u>
Mortgages and notes payable, at recorded book value	\$ 1,487,509	\$ 1,465,129
Financing obligations	\$ 35,529	\$ 35,530
Preferred Stock, at liquidation value	\$ 197,445	\$ 197,445
Common Stock and Common Units outstanding	60,826	60,944
Per share stock price at period	\$ 39.49	\$ 40.76
Market value of Common Stock and Common Units	<u>2,402,019</u>	<u>2,484,077</u>
Total market capitalization with debt and obligations	<u>\$ 4,122,502</u>	<u>\$ 4,182,181</u>

Based on our total market capitalization of approximately \$4.1 billion at March 31, 2007 (at the March 31, 2007 per share stock price of \$39.49 and assuming the redemption for shares of Common Stock of the 4.1 million Common Units not owned by the Company), our mortgages and notes payable represented approximately 36.1% of our total market capitalization.

Mortgages and notes payable at March 31, 2007 was comprised of \$676 million of secured indebtedness with a weighted average interest rate of 6.63% and \$812 million of unsecured indebtedness with a weighted average interest rate of 6.57%. As of March 31, 2007, our outstanding mortgages and notes payable were secured by real estate assets with an aggregate undepreciated book value of approximately \$1.0 billion.

We do not intend to reserve funds to retire existing secured or unsecured debt upon maturity. For a more complete discussion of our long-term liquidity needs, see "Liquidity and Capital Resources - Current and Future Cash Needs."

## Contractual Obligations

The following table sets forth a summary regarding our known contractual obligations, including required interest payments for those items that are interest bearing, at December 31, 2006 (\$ in thousands):

(1) See Note 5 to the Consolidated Financial Statements in our 2006 Annual Report on Form 10-K for further discussion. In addition, see Note 5 to the Consolidated Financial Statements for further discussion on the \$400 million aggregate principal notes sold in 2007.

(2) These amounts represent interest payments due on mortgage and notes payable, based on the stated rates for the fixed rate debt and on the December 31, 2006 rates for the variable rate debt. The weighted average interest rate on the variable rate debt as of December 31, 2006 was 6.15%.

(3) This liability represents a financing obligation to our joint venture partner as a result of accounting for this transaction as a financing arrangement. See Note 3 to the Consolidated Financial Statements in our 2006 Annual Report on Form 10-K for further discussion.

(4) In connection with tax increment financing for construction of a public garage related to an office building constructed by us, we are obligated to pay fixed special assessments over a 20-year period. The net present value of these assessments, discounted at 6.93%, which represents the interest rate of the underlying bond, is shown as a financing obligation in the Consolidated Balance Sheet in our 2006 Annual Report on Form 10-K. We also receive special tax revenues and property tax rebates recorded in interest and other income which are intended, but not guaranteed, to provide funds to pay the special assessments.

(5) Included in accounts payable, accrued expenses and other liabilities in our 2006 Annual Report on Form 10-K.

(6) See Note 15 to the Consolidated Financial Statements in our 2006 Annual Report on Form 10-K for further discussion.

- (7) This represents our maximum exposure to contingent loss under our Eastshore guarantee. See Notes 3 and 15 to the Consolidated Financial Statements in our 2006 Annual Report on Form 10-K for further discussion.
- (8) Represents a fixed obligation we owe our partner in Highwoods DLF 98/29, LP. This obligation arose from an excess contribution from our partner at the formation of the joint venture, and the net present value of the fixed obligation discounted at 9.62% which represents the interest rate derived from the agreement, is recorded in other liabilities. See Note 2 to the Consolidated Financial Statements in our 2006 Annual Report on Form 10-K for further discussion.
- (9) Interest components of the contractual obligations are based on the stated fixed rates in the instruments. For floating rate debt, interest is computed using the current rate in effect at December 31, 2006.
- (10) This amount represents our estimate of contractual obligations as of December 31, 2006 related to various construction projects.
- (11) In connection with the adoption of FIN 48, on January 1, 2007, we recorded a \$1.4 million liability for uncertain tax positions. We believe that this liability will be reversed in the next 12 months due to the expiration of the applicable statute of limitations, and therefore, have not included it in the Contractual Obligations table above. See Note 12 to the Consolidated Financial Statements for further discussion.

### **Preferred Stock Redemptions**

On April 27, 2007, we announced that we will redeem, on May 29, 2007, 1.6 million of our outstanding Series B Preferred Shares, aggregating \$40.0 million plus accrued and unpaid dividends. In connection with this redemption, the excess of the redemption cost over the net carrying amount of the redeemed shares is estimated to be \$1.4 million and will be recorded as a reduction to net income available for common stockholders in the second quarter of 2007.

### **Debt Financing Activity**

Our \$450 million unsecured revolving credit facility is initially scheduled to mature on May 1, 2009. Assuming no default exists, we have an option to extend the maturity date by one additional year and, at any time prior to May 1, 2008, may request increases in the borrowing availability under the credit facility by up to an additional \$50 million. The interest rate is LIBOR plus 80 basis points and the annual base facility fee is 20 basis points.

Our revolving credit facility and the indenture that governs our outstanding notes require us to comply with customary operating covenants and various financial and operating ratios. We are currently in compliance with all such requirements. Although we expect to remain in compliance with these covenants and ratios for at least the next year, depending upon our future operating performance, property and financing transactions and general economic conditions, we cannot assure you that we will continue to be in compliance.

If any of our lenders ever accelerated outstanding debt due to an event of default, we would not be able to borrow any further amounts under our revolving credit facility, which would adversely affect our ability to fund our operations. If our debt cannot be paid, refinanced or extended at maturity or upon acceleration, in addition to our failure to repay our debt, we may not be able to make distributions to stockholders at expected levels or at all. Furthermore, if any refinancing is done at higher interest rates, the increased interest expense would adversely affect our cash flows and ability to make distributions to stockholders. Any such refinancing could also impose tighter financial ratios and other covenants that would restrict our ability to take actions that would otherwise be in our stockholders' best interest, such as funding new development activity, making opportunistic acquisitions, repurchasing our securities or paying distributions.

On March 22, 2007, the Operating Partnership issued \$400 million aggregate principal amount of 5.85% Notes due March 15, 2017, net of original issue discount of \$1.2 million. The notes were issued under the indenture, dated as of December 1, 1996, among us, the Operating Partnership and U.S. Bank National Association (as successor in interest to Wachovia Bank, N.A.), the trustee, and pursuant to resolutions of our Board of Directors and an officers' certificate dated as of March 22, 2007 establishing the terms of the notes. We used the net proceeds from the issuance of the notes to repay borrowings outstanding under an unsecured non-revolving credit facility that was obtained on January 31, 2007 (which was subsequently terminated) and under the revolving credit facility. In connection with the completion of the offering, we and the Operating Partnership entered into a registration rights agreement dated March 22, 2007 with the initial purchasers of the notes. The registration rights agreement requires the Operating Partnership to file, within 90 days after the closing date of the sale of the notes, a registration statement with respect to an offer to exchange the notes for other freely tradable notes that are registered under the

Securities Act of 1933 and to cause such exchange offer registration statement to become effective within 180 days after the closing date. The Operating Partnership is required to complete the exchange offer within 210 days after the closing date. If the Operating Partnership fails to comply with the provisions of the registration rights agreement, the interest rate will be increased by 0.25% per annum during the 90-day period immediately following the default and will increase by 0.25% per annum at the end of each subsequent 90-day period, but in no event shall such increase exceed 0.50% per annum. Management currently believes that we will timely fulfill our obligations under the registration rights agreement and, accordingly, no amounts have been recorded for potential future additional interest costs.

During the first quarter of 2007, we also paid off \$66 million, excluding any normal debt amortization, of secured debt with a weighted average interest rate of 8.16%. Approximately \$161 million of real estate assets (based on undepreciated cost basis) became unencumbered after paying off the secured debt.

### **Current and Future Cash Needs**

Rental and other revenues are our principal source of funds to meet our short-term liquidity requirements, which primarily consist of operating expenses, debt service, stockholder dividends, any guarantee obligations and recurring capital expenditures. In addition, we could incur tenant improvement costs and lease commissions related to any releasing of vacant space.

As of May 1, 2007, other than principal amortization on certain secured loans, we have no outstanding debt that matures prior to the end of 2007. We expect to fund our short-term liquidity needs through a combination of available working capital, cash flows from operations and the following:

- the selective disposition of non-core land and other assets;
- borrowings under our revolving credit facility (which has up to \$366.9 million of availability in the aggregate as of May 1, 2007) and under our existing \$50.0 million secured revolving construction loan (which has \$50.0 million available at May 1, 2007);
- the sale or contribution of some of our Wholly Owned Properties, development projects and development land to strategic joint ventures to be formed with unrelated investors, which would have the net effect of generating additional capital through such sale or contributions;
- the issuance of secured debt; and
- the issuance of unsecured debt.

Our long-term liquidity needs generally include the funding of capital expenditures to lease space to our customers, maintain the quality of our existing properties and build new properties. Capital expenditures include tenant improvements, building improvements, new building completion costs and land infrastructure costs. Tenant improvements are the costs required to customize space for the specific needs of first-generation and second-generation customers. Building improvements are recurring capital costs not related to a specific customer to maintain existing buildings. New building completion costs are expenses for the construction of new buildings. Land infrastructure costs are expenses to prepare development land for future development activity that is not specifically related to a single building. Excluding recurring capital expenditures for leasing costs and tenant improvements and for normal building improvements, our expected future capital expenditures for started and/or committed new development projects were approximately \$221 million at May 1, 2007. A significant portion of these future expenditures are currently subject to binding contractual arrangements.

Our long-term liquidity needs also include the funding of development projects, selective asset acquisitions and the retirement of mortgage debt, amounts outstanding under our revolving credit facility and long-term unsecured debt. Our goal is to maintain a conservative and flexible balance sheet. Accordingly, we expect to meet our long-term liquidity needs through a combination of (1) the issuance by the Operating Partnership of additional unsecured debt securities, (2) the issuance of additional equity securities by the Company and the Operating Partnership, (3) borrowings under other secured construction loans that we may enter into, as well as (4) the sources described above with respect to our short-term liquidity. We expect to use such sources to meet our long-term liquidity requirements

either through direct payments or repayments of borrowings under our revolving credit facility. As mentioned above, we do not intend to reserve funds to retire existing secured or unsecured indebtedness upon maturity. Instead, we will seek to refinance such debt at maturity or retire such debt through the issuance of equity or debt securities or from proceeds from sales of properties.

We anticipate that our available cash and cash equivalents and cash flows from operating activities, with cash available from borrowings and other sources, will be adequate to meet our capital and liquidity needs in both the short and long term. However, if these sources of funds are insufficient or unavailable, our ability to pay dividends to stockholders and satisfy other cash payments may be adversely affected.

### **Stockholder Dividends**

To maintain our qualification as a REIT, we must distribute to stockholders at least 90% of our REIT taxable income, excluding capital gains. REIT taxable income, the calculation of which is determined by the federal tax laws, does not equal net income under GAAP. We generally expect to use our cash flow from operating activities for dividends to stockholders and for payment of recurring capital expenditures. Future dividends will be made at the discretion of our Board of Directors. The following factors will affect our cash flows and, accordingly, influence decisions of the Board of Directors regarding dividends:

- debt service requirements after taking into account debt covenants and the repayment and restructuring of certain indebtedness;
- scheduled increases in base rents of existing leases;
- changes in rents attributable to renewal of existing leases or replacement leases;
- changes in occupancy rates at existing properties and execution of leases for newly acquired or developed properties;
- operating expenses and capital replacement needs, including tenant improvements and leasing costs; and
- sales of properties and non-core land.

### **Off Balance Sheet Arrangements**

We have several off balance sheet joint venture and guarantee arrangements. The joint ventures were formed with unrelated investors to generate additional capital to fund property acquisitions, repay outstanding debt or fund other strategic initiatives and to lessen the risks typically associated with owning 100.0% of a property. When we create a joint venture with a strategic partner, we usually contribute one or more properties that we own to a newly formed entity in which we retain an equal or minority interest. In exchange for an equal or minority interest in the joint venture, we generally receive cash from the partner and frequently retain the management income relating to the properties in the joint venture. For financial reporting purposes, certain assets we sold have been accounted for as financing arrangements. See Notes 1, 2 and 3 to the Consolidated Financial Statements.

As of March 31, 2007, our unconsolidated joint ventures had \$742.3 million of total assets and \$561.7 million of total liabilities as reflected in their financial statements. At March 31, 2007, our weighted average equity interest based on the total assets of these unconsolidated joint ventures was 40.1%. During the three months ended March 31, 2007, these unconsolidated joint ventures earned \$27.6 million of total net income of which our share, after appropriate purchase accounting and other adjustments, was \$9.7 million. For additional information about our unconsolidated joint venture activity, see Note 2 to the Consolidated Financial Statements.

As of March 31, 2007, our unconsolidated joint ventures had \$537.5 million of outstanding mortgage debt. All of this joint venture debt is non-recourse to us except (1) in the case of customary exceptions pertaining to such matters as misuse of funds, environmental conditions and material misrepresentations and (2) those guarantees and loans described in Note 11 to the Consolidated Financial Statements. The following table sets forth the scheduled

maturities of our proportionate share of the outstanding debt of our unconsolidated joint ventures as of March 31, 2007 (\$ in thousands):

Remainder of 2007	\$	2,812
2008		4,666
2009		8,271
2010		10,992
2011		6,035
Thereafter		197,413
	\$	<u>230,189</u>

For information regarding our off-balance sheet arrangements as of December 31, 2006, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Off Balance Sheet Arrangements” in our 2006 Annual Report on Form 10-K.

### **Financing Arrangements**

For information regarding significant sales transactions that were accounted for as financing arrangements at December 31, 2006, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Financing and Profit-Sharing Arrangements” in our 2006 Annual Report on Form 10-K.

### **Interest Rate Hedging Activities**

To meet, in part, our long-term liquidity requirements, we borrow funds at a combination of fixed and variable rates. Borrowings under our revolving credit facility bear interest at variable rates. Our long-term debt, which consists of secured and unsecured long-term financings and the issuance of unsecured debt securities, typically bears interest at fixed rates although some loans bear interest at variable rates. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, from time to time, we may enter into interest rate hedge contracts such as collars, swaps, caps and treasury lock agreements in order to mitigate our interest rate risk with respect to various debt instruments. We do not hold or issue these derivative contracts for trading or speculative purposes. The interest rate on all of our variable rate debt is adjusted at one and three month intervals, subject to settlements under interest rate hedge contracts. We also enter into treasury lock agreements from time to time in order to limit our exposure to an increase in interest rates with respect to future debt offerings. We currently have no outstanding interest rate hedge contracts.

### **CRITICAL ACCOUNTING ESTIMATES**

There were no changes to the critical accounting policies made by management in the three months ended March 31, 2007, except as set forth in Note 1 to the Consolidated Financial Statements under “Impact of Newly Adopted and Issued Accounting Standards” and in Note 12. For a description of our critical accounting estimates, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Estimates” in our 2006 Annual Report on Form 10-K.

### **FUNDS FROM OPERATIONS**

We believe that FFO and FFO per share are beneficial to management and investors and are important indicators of the performance of any equity REIT. Because FFO and FFO per share calculations exclude such factors as depreciation and amortization of real estate assets and gains or losses from sales of operating real estate assets (which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful life estimates), they facilitate comparisons of operating performance between periods and between other REITs. Our management believes that historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by itself. As a result, management believes that the use of FFO and FFO per share, together with the required GAAP presentations, provide a more complete understanding of our performance relative to our competitors and a more informed and appropriate basis on which to make decisions involving operating, financing and investing activities.

FFO and FFO per share as disclosed by other REITs may not be comparable to our calculation of FFO and FFO per share as described below. However, you should also be aware that FFO and FFO per share are non-GAAP financial measures and therefore do not represent net income or net income per share as defined by GAAP. Net income and net income per share as defined by GAAP are the most relevant measures in determining our operating performance because FFO and FFO per share include adjustments that investors may deem subjective, such as adding back expenses such as depreciation and amortization. Furthermore, FFO per share does not depict the amount that accrues directly to the stockholders' benefit. Accordingly, FFO and FFO per share should never be considered as alternatives to net income or net income per share as indicators of our operating performance.

Our calculation of FFO, which we believe is consistent with the calculation of FFO as defined by the National Association of Real Estate Investment Trusts ("NAREIT") and which appropriately excludes the cost of capital improvements and related capitalized interest, is as follows:

- Net income (loss) computed in accordance with GAAP;
- Less dividends to holders of Preferred Stock and less excess of Preferred Stock redemption cost over carrying value;
- Plus depreciation and amortization of assets uniquely significant to the real estate industry;
- Less gains, or plus losses, from sales of depreciable operating properties (but excluding impairment losses) and excluding items that are classified as extraordinary items under GAAP;
- Plus or minus adjustments for unconsolidated partnerships and joint ventures (to reflect funds from operations on the same basis); and
- Plus or minus adjustments for depreciation and amortization and gains/(losses) on sales and minority interest related to discontinued operations.

Further, in calculating FFO, we add back minority interest in the income from the Operating Partnership, which we believe is consistent with standard industry practice for REITs that operate through an UPREIT structure. We believe that it is important to present FFO on an as-converted basis since all of the Common Units not owned by the Company are redeemable on a one-for-one basis for shares of our Common Stock.

Other REITs may not define FFO in accordance with the current NAREIT definition or may interpret the current NAREIT definition differently than we do.

FFO and FFO per share for the three months ended March 31, 2007 and 2006 are summarized in the following table (\$ in thousands, except per share amounts):
