Item 1.01. Entry into a Material Definitive Agreement

On March 16, 2026, the Board of Directors of DTE Energy Company (“DTE Energy”) approved execution of a Primary Supply Agreement (“PSA”) and a Clean Capacity Accelerator Agreement (“CCAA”) between DTE Energy’s wholly-owned subsidiary DTE Electric Company (“DTE Electric”) and Google LLC (“Customer”) a wholly owned subsidiary of Alphabet Inc.

Under the terms of the PSA, DTE Electric will provide electric service at its standard industrial rate to Customer’s future 1.0 gigawatt data center to be located in southeast Michigan (“Project”). The term of the PSA will run through December 2047, with options to extend the term. The PSA also establishes minimum monthly charges and, if applicable, termination fees if the PSA terminates early.

Under the terms of the CCAA, DTE Electric will, at Customer’s cost, deploy up to 480 megawatts of energy storage capacity and 1,600 megawatts of renewable generation to support its electric service to the Project. DTE Electric will operate the renewables and storage resources over the 20-year contract term, with options to extend upon mutual agreement of Customer and DTE Electric. The CCAA requires Customer to provide DTE Electric with Zonal Resource Credits of approximately 300 megawatts of accredited capacity in MISO Zone 7 at no cost to DTE Electric. Customer's parent is providing credit support to DTE Electric for both the PSA and CCAA.

The foregoing description of the PSA and the CCAA does not purport to be complete and is qualified in its entirety by reference to the full text of the PSA and the CCAA, copies of which will be filed with DTE Energy’s Quarterly Report on Form 10-Q for the quarter ending March 31, 2026.
